Both Seminole College Sites Still In Running As Deseret Location Appears Eliminated

By Julius Stenstrom

It's good to get back at the ol' desk and typewriter after a two-week layoff due to some kind of an infection that damaged the left arm. We still can't fly very fast with this sore wing. But we're grateful we're able to be up and at 'em again.

Thanks to R. E. Porter for handling the Clock during our absence.

Thanks, too, to all of you who sent flowers, wrote cards, telephoned, and came to see us while we were at Seminole Memorial Hospital. We had so many flowers they were actually lined up around the room on the floor. The Pink Ladies at the hospital got a workout just keeping them watered.

By the way, this county can be proud of Seminole Memorial Hospital. We've seen some of the country's finest during the past several years. But Seminole Memorial compares very favorably with most of them.

If you noticed county employees smiling today there's a reason. At this morning's meeting of the County Commission it was decided that county employees would be paid today instead of having to wait until Dec. 31.

Seminole County JayCees are busy looking up past presidents of the organization—that is since the group was re-organized in 1945. The local junior trade body wants photos of all past presidents for a special display during open house festivities at the JayCee building for JayCee Week, Jan. 19-25.

The Seminole Timing Association has presented Sheriff J. L. Hobby with a check for \$500 for the Sheriff's Boys Ranch near Live Oak. The funds for the gifts for the ranch were raised during a recent benefit race at the Osceola Drag Strip.

Congratulations to Linda Post on winning the Bill Hemphill Motorettes League special tournament. Linda was presented a used car for her triumph over 63 other league members who competed for the prize. The car was presented by the loop's sponsor, Bill Hemphill.

The initial word today from the meeting of the State Board of Control at the Mayfair Inn seems to increase Seminole County's chances of landing the East Central Florida University.

With the virtual elimination of the Deseret site in Orange County, Seminole County now has two sites still under consideration with one site remaining in Orange.

Still another encouraging word was the fact that Board Chairman Baya Harrison reported at the start of today's parley, that the Board of Control is not considering any other sites at this time. Harrison further said that the board would not consider any other sites unless none of the three remaining sites is found practical.

Chamber of Commerce membership committee will have a new publicity gimmick for 1961—quite attractive, too. (Note to John Krieger: Save one for R. E. Porter.)

House Rules Group Clears Aid Bill

WASHINGTON (UPI)—Democratic leaders, still struggling to adjourn Congress before Christmas, won a preliminary round today when the House Rules Committee cleared President Johnson's foreign aid bill for floor action.

The committee, which because of Democratic absenteeism and a Republican boycott could not produce a quorum needed to set Saturday, turned out all but three of its 15 members today. By an 8 to 4 vote, the committee cleared the measures for another test.

By Fred Van Pelt

Seminole County was in a 3-1 position today as the "home" of the proposed four-year state university for East Central Florida.

State Board of Control members, in a "work conference" session at the Mayfair Inn, virtually eliminated the Mormon Church's Deseret site of 3,000 acres southeast of Orlando.

There was practically no mention of that site during the four-hour conference and it was not referred to by staff members in their reports to the board, or in their charts and graphs.

Chairman Baya Harrison, of St. Petersburg, also "squashed" continued reports that the board was considering other sites in the two-county

area when he announced at the outset of the meeting: "We are not in any manner looking toward a any other than the four sites already chosen for consideration. We intend to concentrate every effort on the sites now under study. However, if they prove to be impractical then we will open the door and start all over again in the selection of a site."

Still under consideration and thoroughly discussed by the board members, its staff members, Seminole and Orange County representatives this morning were these sites:

1. Bluestone, 12 miles south of Orlando in Orange County and containing 1,000 acres.

2. Lake Ada, immediately south of Sanford city limits,

and containing 1,200 acres.

3. Econlockhatchee, previously referred to as the Leo Ranch, north of Chabots and east of Oriedo, containing 2-300 acres on the Econlockhatchee River and during this morning's session called the "Econ site."

The board members, excepting John Pace, Pensacola, who was absent, spent last weekend again visiting and inspecting Bluestone, Lake Ada and the Econ site.

Originally planned to be a closed session this morning, the board opened the meeting to the press and the public at the last minute.

Gen. J.C. Hutchinson, speaking for Seminole County, again outlined to the control board members how this county will "bend every ef-

fort" to bring about adequate roads, utilities and other desired improvements for either the Econ or Lake Ada site.

He said this county, over and above proffered free lands at the Econ site, will purchase necessary acreage to "square" the proposed site there. He pointed out the large frontage along the Econlockhatchee River. He also proposed an additional 1,000-foot frontage along Highway 17-82 for the Lake Ada site or, as an alternative, 250 acres south of Lake Mary Boulevard, which would give two frontages on Lake Mary.

City Manager W. E. Knowles told the board the City will build a new water plant, new sewage disposal plant

and a new fire station to serve the Lake Ada site, should the university be placed there, and also to serve any housing development which may follow.

Others speaking for Seminole County were Sen. Mack Cleveland, Rep. Joe Davis, City Commissioner Joe Baker and Douglas Stenstrom, chairman of the Chamber of Commerce long range committee on education.

Orange County representatives also spoke for Bluestone, Don Evans, county commission chairman; Sen. Beth Johnson, Chamber of Commerce officials, state representatives and others.

Dr. Charles Foreman, board member from Fort Lauderdale, spoke for more than a half-hour in pointing to the benefit of Bluestone, in regard to student potential from Orlando and proximity to space industry.

Dr. Wayne McCall, board member from Ocala, "boomed" for the Econ site when he had General Hutchinson and others extol the merits of that piece of "beautiful rolling ground with its frontage on the Econ river."

Gert Schmidt, member from Jacksonville, boosted the Lake Ada site by outlining its closeness to Sanford, with future annexation, full utilities, adjacent to Seminole

High School and near the cultural centers of Orlando, Sanford, and DeLand, along with being "a beautiful site."

Dr. J. Broward Culpepper, executive director for the Board of Control, and Jack Sutton, research analyst, outlined details of road mileage and time elements between population points and the three sites.

Sutton pointed out the Econ site is in the "very center" of the Melbourne-Orlando-Daytona triangle both population-wise and geographically.

When the session adjourned at 1 p. m. this afternoon, Chairman Harrison announced the "board hopes to make its final decision at its Jan. 10 session in Tallahassee."

B52 Trainer Explodes Over Mississippi

ABERDEEN, Miss. (UPI)—A Strategic Air Command B52 bomber apparently exploded in air and crashed in a snow-covered woodland south of here today, the Air Force said.

All six men aboard the plane were killed.

The names of the victims were withheld pending notification of next of kin.

An Air Force spokesman said the huge jet plane went down shortly after taking off from the nearby Columbus Air Force Base. Witnesses said bits and pieces of the aircraft were scattered over an area of about three-quarters of a mile.

There was a large crater in the snow-crusted ground where one section of the plane plunged to earth.

The scene of the crash was in a wooded area about 10 miles south of Aberdeen, located in northeast Mississippi. Rescue units made their way to the scene over icy roads.

Air police cordoned off the area around the wreckage.

The plane apparently had taken off on a training mission. The Air Force declined to say whether it carried any nuclear weapons.

Congratulations to Linda Post on winning the Bill Hemphill Motorettes League special tournament. Linda was presented a used car for her triumph over 63 other league members who competed for the prize. The car was presented by the loop's sponsor, Bill Hemphill.

The initial word today from the meeting of the State Board of Control at the Mayfair Inn seems to increase Seminole County's chances of landing the East Central Florida University.

With the virtual elimination of the Deseret site in Orange County, Seminole County now has two sites still under consideration with one site remaining in Orange.

Still another encouraging word was the fact that Board Chairman Baya Harrison reported at the start of today's parley, that the Board of Control is not considering any other sites at this time. Harrison further said that the board would not consider any other sites unless none of the three remaining sites is found practical.

Chamber of Commerce membership committee will have a new publicity gimmick for 1961—quite attractive, too. (Note to John Krieger: Save one for R. E. Porter.)

Explosion Rips Huge Warehouse

HAMMOND, Ind. (UPI)—An explosion described as "something like an atomic bomb" ripped through a burning warehouse containing antifreeze early today. One fireman was killed and at least 15 persons injured.

Fire and police officials said a rig was caught in the rubble and they were not sure whether any firemen were trapped or not.

The firemen were pouring water on the Illiana Transit Warehouse when the explosion ripped through the huge building.

"The impact was something like an atomic bomb," policeman George Magurny said. "It mushroomed out and was followed by a suction."

Windows were blown out of stores three blocks away. The warehouse, believed to be about three-stories high and about the size of a football field, was located in a complex of warehouses.

Tapper Announces

TALLAHASSEE (UPI)—Former Sen. George G. Tapper, Port St. Joe contractor, filed notice today that he will run for the senate next year.

The Sanford Herald

WEATHER: Partly cloudy with few showers likely tonight; high today in upper 70s; low tonight 45-55. VOL. 56 United Press Leased Wire Established 1908 MON., DECEMBER 23, 1963 SANFORD, FLORIDA NO. 89

news... BRIEFS

Gains Seen LAKELAND (UPI)—Executive Vice President Robert W. Rutledge of Florida Citrus Mutual says fresh orange shipments from Florida will start gaining on last year in weeks to come.

18 Rescued PORT AUX BASQUES, Nfld. (UPI)—Eighteen sea-

French freighter Douala were reached from two lifeboats Sunday after surviving 30 hours adrift in the icy Atlantic.

Shooting Renewed NICOSIA, Cyprus (UPI)—Heavy automatic and rifle fire crackled again today in Nicosia, where at least four persons have been killed in clashes between Greek and Turkish Cypriots since Saturday.

Stripper Seized At Ruby Hearing DALLAS, Tex. (UPI)—Police today seized a woman with a gun in her purse at the entrance to the courtroom where self-appointed attorney Jack Ruby was asking for freedom on bail.

A sheriff's patrol assigned to search women entering the court found the weapon.

To protect Ruby from the fate he dealt to accused assassin Lee Harvey Oswald, police had ordered everyone entering the court searched.

Flanked by six defense attorneys, Ruby smiled and joked as he was slipped into the courtroom early under heavy guard. He posed for pictures.

When the hearing started before Judge Joe B. Brown, defense attorneys and Dist. Atty. Henry Wade began arguments.

Outside the door, a matron stopped Karen Lynn Bennett, a striptease performer at Ruby's Carousel Club who works under the name "Little Lynn."

She had been called to appear as a witness for the defense.

STATE BOARD OF CONTROL members today, at the Mayfair Inn, heard all the "pros and cons" on the advantages and disadvantages of selecting a site for the proposed state university in Seminole or Orange County. From the left: Dr. Wayne McCall, Ocala; Chester Whittle, Orlando; Chairman Baya Harrison, St. Petersburg; Gert Schmidt, Jacksonville, and Dr. Charles Foreman, Fort Lauderdale. (Herald Photo)

FEC Advised To Rehire Strikers

WASHINGTON (UPI)—A presidential emergency board recommended today that the Florida East Coast Railway rehire striking employees to fill all non-operating jobs on the line, including those held by workers hired since the strike began eleven months ago.

The railroad has refused to fire the more than 100 persons hired since the strike began last January 23. But the emergency board said these employees should be replaced by strikers taken back in nonoperating jobs on the basis of seniority.

The board also called for the railway to grant a wage increase of 10.28 cents an hour to its non-operating workers in conformance with a national pattern agreed upon in 1962 by all other Class I railroads.

But the board recommended that the unions involved in the strike withdraw their demand for payment of an estimated \$20.100 in retroactive pay.

The board said Florida East Coast should not have to provide the back pay "in light of the railroad's deteriorating financial position, due in part to the long and costly strike during the past year."

Rescue Ships Save Hundreds At Sea

GIBRALTAR (UPI)—An epic rescue operation led by four small ships in the Atlantic saved hundreds of persons from flames and the sea today after explosions ripped the Greek cruise liner Lakonia with 1,036 persons aboard.

The coastal station at Santa Cruz de Tenerife in the Canary Islands reported this afternoon that about 900 survivors had been picked up and that rescue operations were "practically at an end."

A U. S. Air Force spokesman said in Ramstein, Germany, that rescue planes flying over the disaster area reported all survivors apparently had been picked up by ships.

"About 100 bodies had been spotted floating in lifejackets in the disaster area," he said. U. S. Air Force pilots reported the burning cruise liner was still afloat as of 9 a. m. EST.

The Canary Islands broadcast said the last person to leave the Lakonia was the Greek skipper of the luxury vessel, M. Zarbis. The ship was about 500 miles off the coast of Morocco.

Many of the survivors were believed injured or suffering from exposure after hours spent in a mercifully calm sea awaiting rescue.

There was no confirmation from the British admiralty or the ship's owners of the Tenerife radio rescue report.

The 20,314-ton luxury liner was carrying 651 passengers and 385 crew members on a Christmas holiday cruise from England to the Portuguese island of Madeira when fire broke out shortly before midnight (7 p. m. EST Sunday).

Cramer Hit For 'Distortions'

WASHINGTON (UPI)—The State Department Saturday lashed out at Republican congressman William C. Cramer of Florida for "distortions" and "inaccuracies" in charges involving its security division and the activities of Secretary of State Dean Rusk.

A statement by newsmen by department press officer Ben Thirkfield labeled as "absolutely false" Cramer's suggestion that Rusk interfered in the normal administrative procedures in the firing of security officer Otto Otepka.

Otepka was charged with passing confidential information to unauthorized persons, allegedly some members of the Senate Internal Security Subcommittee. He is appealing his discharge.

Facilities For Legislature Hit TALLAHASSEE (UPI)—Senate Secretary Ed Frazer told the Capitol Building Committee today that legislative facilities in the capitol are obsolete, outmoded and very bad.

Frazer met with the committee as it reiterated its recommendation that a separate building should be provided for the Legislature when the center portion of the Capitol Building, sagging badly, is rebuilt.

The committee, headed by Secretary of State Tom Adams, vowed to put this recommendation for a new legislative building before the lawmakers again in 1965.

County OKs Talks On Use Of Old Airport

The Seminole Board of County Commissioners, meeting in an abbreviated session this morning, authorized County Attorney Harold Johnson to negotiate with E. J. "Bud" Moughton of the Sports Car Club of America for a blanket contract to permit the club to utilize the Ocala airport six to eight weekends per year.

The Commission also authorized a payment of \$150 which represents Seminole County's percentage of the loss sustained by several Central Florida Counties who joined in the sponsorship of the Salute to Space Science Fair which was held in Orlando during November.

In other Commission action, the board adopted a resolution which officially establishes the Big Tree near Longwood as the largest and oldest tree of its kind in the United States. The board authorized Commissioner John Alexander to spend up to \$300 to have the signs relating to Big Tree Park on U. S. 17-88 repainted.

Several lots in the Crystal Lake Winter Homes subdivision on Country Club Road were rezoned from R-3 (multiple family) to C-1 (commercial). There was no opposition.

In other rezoning action, several lots in Frost's Addition to Altamonte Springs were rezoned from R-1 (single family residence) to R-3 (multiple family residence). The Commission set a hearing for Jan. 14, on the matter of vacating and abandoning certain roads in the Chulucota area.

Several other hearings which were originally slated for today's meeting were delayed until next week.

East Berliners Shot Escaping

BERLIN (UPI)—Communist guards politely welcomed West Berlin Christmas visitors through the wall today but apparently used their submachine guns on an East German refugee to halt his flight West.

West Berlin police reported hearing to bursts of submachine gun fire and screams during the fog-shrouded night at a point where the American sector touches East Germany.

The incident marked the first border "blood incident" since the Communists four days ago temporarily opened the wall for yuletide East Berlin visits by West Berliners—the first such visits since the wall went up in August, 1961.

West Berlin police said they heard cries of "halt, halt" mixing with the staccato gun blasts and the screams. They waited in the fog for a refugee to reach the Western side of the death strip. No one appeared.

Burns Reports TALLAHASSEE (UPI)—Jacksonville Mayor Haydon Burns reported today that he collected \$5,000 in contributions last week for his campaign for governor and had not spent any money campaigning.

\$1,500 Bond Set In Strawder Case Circuit Judge Volie A. Williams today fixed bail at \$1,500 for Ralph Strawder, convicted of contempt of court for jury tampering and ordered to county jail Thursday for a 30-day period.

Judge Williams fixed the superdeceas bond to allow Strawder to appeal his conviction of 30 days and \$500 fine or 30 additional days for allegedly trying to "fix" the C. H. Lowdermilk "citrus swindle" trial jury two weeks ago.

Strawder has until any time Thursday to post the bond.

TWO SERVICE men overseas will hear their mothers' voices Christmas Day through the courtesy of the Communications Workers of America local 3108, who drew names from a hat Sunday evening at the USO. From the left: Mrs. Mary Waahburn, USO director; Mrs. Robert Getman, who will talk to her son, Ronald, at Okinawa; Mrs. Theodore LaTour, who will talk to her son, Dennis, in Japan, and Russ Kitner, of CWA.

Pilgrims Still Visit Kennedy Assassination Scene

DALLAS, Tex. (UPI)—Snow, cold, flowers and contrite pilgrims today hovered over the spot where President Kennedy was slain 31 days ago.

The official mourning was ended Sunday, but the gloom hung on.

Wreaths still were on both sides of the street where, in 62 seconds, a sniper squeezed

off three shots into the President and Texas Gov. John Connally. The curious and mourners still come.

An unidentified woman and her teen-aged daughter, dressed in black, knelt in the snow Sunday to lay a wreath near the spot. Many bowed their heads in prayer.

The weather has changed from a balmy, sunlit 68

degrees Nov. 22 to a subfreezing, snowy pre-Christmas gloom.

Dallas, aware of the futility of grieving, braved the slippery footing that followed the tragedy and worked to redeem itself.

The Methodist churches of Dallas started a "100 days of love" campaign. Bishop William C. Martin urged citizens

in full-page newspaper ads to "carry the spirit of Christmas—charity, good will, love—into the new year."

This conservative, Republican city felt a political change. The Dallas Morning News said Sunday:

"On Nov. 22, ironically, it suddenly became socially acceptable to be a Democrat. Although there is little

doubt the GOP is still the stronger organizing force in the county, the ever-present hand of fate already has begun etching signs of change."

Christmas decorations in the city were gay, but there were reports that retail sales were off. "I guess it was partly the warm autumn," one merchant said, "and that terrible thing."

Cuban Liberation Hopes Still High

Exile Military Plans Quicken With The Dawn Of A New Year

MIAMI (UPI) — Across the Straits of Florida, the dawning of 1964 will mean that Fidel Castro has been in power for five long years. Communist control of Cuba today seems tighter than ever.

Nevertheless, the majority of Cuban exiles here cling to the belief that red domination of their homeland will be shattered and that Castro will be toppled — with U. S. and hemisphere help.

"We shall return," they say, borrowing the words of Gen. Douglas MacArthur. Some exiles are even predicting they will be back in Havana before another year is out.

There is guarded talk of plans for military action against Castro. Fund-raising for arms continues.

Definite preparations for exile elections, no later than February, of a slate of "non-political" leaders to "lead the way back home" are under way. The theme is unity.

The outcome of this referendum — to be based on a list of candidates not yet disclosed — is certain to have a major psychological impact on efforts for unified action against Castro.

Observers here believe that this, in turn, could influence the Johnson administration, which is now reviewing the late President Kennedy's Cuban policies.

Castro, who has constantly mocked and ridiculed the unsuccessful exile attempts against him thus far, will preside at Havana ceremonies on Jan. 3 to commemorate the fifth anniversary of his takeover. He is scheduled to speak after a big parade.

"Why haven't the exiles given up hope?"

"When we do that we might as well leave the United States," said one refugee. A former president of his own

chemical company in Havana, he now is a handy-man at a Miami laundromat.

"My family came here with 15 suitcases," he said. "Seven of them remain packed, ready to go when the time comes to go back. And it will come."

From the Cuban exile point of view 1963 was a topsyturvy one. It started out with a "hang" as the U. S. obtained the release of the 1118 Cuban invasion prisoners.

Kennedy assured them, in the Orange Bowl, that their brigade flag would be returned to them in "a free Havana."

But a sweeping crack-down on anti-Castro raiders — even in Bahamas waters — ensued. The crowded exile colony in Miami was at times rebuffed by local officials. There was even a suggestion by former Florida Gov. Leroy Collins that they should be relocated on some unoccupied Bahamian or Florida island.

Exile suspicions of U. S. policy toward Cuba grew. There was increased criticism of Kennedy himself by refugees. But the President's murder plunged the exiles into mourning as deep as America's sorrow.

After the return of the freed Bay of Pigs brigade a vast sea and air lift of \$53 million worth of pledged ransom goods that took six months got under way. The 87 planes and nine freighters that went to Cuba brought back some 9,000 Cubans.

Also brought out of Cuban jails were 88 Americans, released through negotiations carried out by New York attorney James B. Donovan. Four Cubans held by the U. S. were sent back to Havana.

Cuban prisons were apparently cleared of all but one American, Cuban-born Basgal Del Pino of Miami, once Castro's trusted confidant.

The year saw three attacks on American-owned vessels by Castro air force planes, in international waters near Cuba.

On Feb. 20 the shrimp boat Ala was attacked but not hit by MIG fighter jets. The merchant ship Floridian was fired on but not hit on March 28. Fire broke out aboard the freighter J. Louis after an Oct. 29 attack but there were no casualties.

Cuban exiles carried out about a dozen air and sea raids on the island, including assaults on two Soviet freighters. Numerous other raiding parties were intercepted by U. S. and British authorities.

As a result, various organizations announced they were pulling up stakes and moving to Central America.

A major break between exiles and Washington developed in April when revolutionary council leader Jose Mior Cardona resigned, charging the administration with "duplicitous" in its Cuban policies.

Castro continued his hectic speech-making throughout the year, some times delivering as many as three major public addresses in a two-week period. Most of them contained violent attacks on the U. S.

Castro decreed the expropriation of the American embassy building in Havana earlier in the year, a move said to be unprecedented in modern diplomatic history.

However, determined opposition by Swiss diplomats — who handle American interests in Cuba — apparently prompted him to let the threat hang in mid-air.

Meanwhile the exodus of Cubans in small boats — almost anything that would float — to the Florida keys continued throughout the year. They were sometimes picked up on the high seas by freighters or U. S. Coast Guard patrol boats. At least one boat was rescued by a U. S. submarine.

There are an estimated 350,000 Cubans on the island who hold U. S. visa waivers to come to this country.

But the United States amended existing immigration regulations to make sure that there can be no future mass exodus of Cubans to the U. S. without Washington's prior approval.

If nothing else, 1963 was a busy year for Americans as well as Cuban exiles.

NATIONAL HONOR Society members at Seminole High School have adopted a needy family of seven for a Merry Christmas with a decorated tree, presents and "the making of a Yule dinner." Steve Bassett, Susie Halback, Diane Smith and Norman Leach, president, look at one of the wrapped gifts. (Herald Photo)

Scranton Entry Into GOP Race Adds Confusion

WASHINGTON (UPI) — The Republican presidential outlook appeared more uncertain than ever today with the announcement that Pennsylvania Gov. William W. Scranton may become an active candidate for the nomination.

Scranton disclosed in Harrisburg, Pa., over the weekend that former President Dwight D. Eisenhower had urged him to run. The governor said he was giving the suggestion "deep thought" but was still disinclined to become an active candidate.

Eisenhower recently suggested that Henry Cabot Lodge, U. S. ambassador to Viet Nam, also deserved consideration. And Richard M. Nixon, the 1960 Republican nominee, also has been a recent visitor to the former President's Gettysburg, Pa., office.

GOP leaders believe that Eisenhower's lead toward Sen. Barry Goldwater, (R-Ariz.), although he has pledged himself to support whoever is nominated by the Republicans next year.

Goldwater, who is not a declared candidate, is still far in front of the field in terms of potential delegate strength at the GOP convention.

But Republican leaders have been quietly reappraising their prospects since the death of President Kennedy. Goldwater is judged to be a weaker candidate against President Johnson than he might have been against Kennedy.

Gov. Nelson A. Rockefeller of New York is the only announced candidate. But few Republicans can regard him as a likely winner of the nomination until and unless he defeats another major candidate in a state primary.

Since Kennedy's assassination, Republicans have looked toward Nixon and Scranton as the strongest potential rivals of Goldwater-Nixon as a man close to the center of the GOP and Scranton as a representative of the liberal faction.

Scranton is viewed as a sort of "Republican Kennedy," a youthful, handsome Ivy League millionaire with charm and tested appeal in a big industrial state. But to make him a national figure, a massive buildup must start soon.

The governor told newsmen that Eisenhower urged him Dec. 15 to consider becoming a candidate.

"He said the national scene now was such that he felt that a number of persons thought I should be the candidate and he thought that I ought to give a good deal of thought to this matter," Scranton said.

While sticking his toe in the water, the governor again denied that he is a candidate and said he knew of no national or state movement to launch a campaign for him.

Train Derailed
ROCK SPRINGS, Wyo. (UPI) — The Union Pacific streamliner "City of Portland" crashed into a derailed UP freight Saturday in a snowstorm on the southwest Wyoming desert. There were no reports of fatalities or injuries among passengers or crew.

Storm Dumps Foot Of Snow In Upper South

United Press International
A vast storm dumped more than one foot of snow on Arkansas and Tennessee today and kept the Midwest locked in frigid air on the first full day of winter.

Sixteen inches of snow fell at Memphis, Tenn., and roads were impassable. Snow fell as far south in Texas as Waco, and statewide freezing temperatures threatened crops in the low Rio Grande.

The weather bureau said heavy snow warnings were in effect for the six state areas of Tennessee, Kentucky, the Virginias, Maryland and Delaware. Hard freeze warnings were posted from southern Texas to Florida. Driving was hazardous throughout the South.

The temperatures dropped to near or below zero in a huge triangle from the Great Lakes to Oklahoma to the Canadian border. It was cold.

Governor Names Seven To Board

TALLAHASSEE (UPI) — Gov. Farris Bryant announced today the appointment of seven members to the Duval County Hospital Authority.

They are Clarence G. King Jr., and Buford Bowen, and Paul A. Broome, four year terms.

Charles Cobb, Dr. G. Dekle Taylor and Dr. Karl B. Hanson, two years each and Julian Warren, Duval county commissioner, a four-year term as ex-officio member.

Glassmaking, which began about 1600 at Jamestown, Va. generally is regarded as the first American industry.

AMMSC R. L. RENFRO and AETSC R. L. Hodges receive promotion letters at Sanford Naval Air Station to E-8 from Cdr. Leroy A. Heath, CO of VAIL-7. He is assisted by ADCS J. G. Peters.

Holiday Sales End Up At Brisk Pace

ATLANTA (UPI) — Christmas sales in the South ended up with a bang this year despite a sluggish start that worried businessmen.

Merchants in businesses large and small reported record sales in many cases and nearly all of them queried in a Dixie-wide survey said they were cheered by strong sales figures.

One business man in Jacksonville said: "It doesn't make any difference what it is, it's selling."

"Merchandise from soup to nuts is selling extremely well," said a jubilant Mobile, Ala., businessman. "The traffic is marvelous."

Merchants credited the laggardly push-off this year to several factors including the aftermath of the president's assassination, the unseasonable warm weather and a shorter holiday season.

Thanksgiving arrived five days later this year, in effect knocking out a week of the annual pre-Christmas shopping spree and cutting the period to 22 days.

In most cities, businessmen beefed up their advertising and dug their heels in for what they hoped would be a snappy comeback from the lethargy.

The soaring Christmas sales that finally came were backed by figures from the Federal Reserve banks which reported department store sales up 9 per cent over a similar period last year in most of the South.

The Federal Reserve banks noted a 3 per cent gain for the Memphis area, a 7 per cent climb for New Orleans, a 12 per cent increase for Atlanta and a whopping 18 per cent for Jacksonville.

The UPI survey revealed two findings which southern businessmen said made Christmas sales unique this year:

—Shoppers were more selective, less frivolous, than ever before.

—They waited even longer than usual before starting their Christmas shopping.

Help wipe out a cripple! Give generously to the March for Muscular Dystrophy.

A 5-year-old boy drowned in Washington, Pa., Sunday when he fell into a creek while playing with friends. Pranksters shoved a 1933 model car down the hill onto the frozen Allegheny River upstream from Pittsburgh, and police plan to let it sit until the river melts and then recover it.

The snowfall in Arkansas was the most in three years. The weather bureau called the snowfall in Arkansas and Tennessee a "rare occurrence." Two traffic deaths were blamed on the storm.

A 12-day deep-freeze relaxed its grip on New England Sunday, as the mercury rose to between zero and 20. During the massive chill, at least 18 fatalities were blamed on the weather.

Flags Back At Full Staff

WASHINGTON (UPI) — Thousands of candles, lighted in memory of the late Chief Executive, flickered in the winter wind as Johnson evoked memories of Kennedy and of the martyred Abraham Lincoln and the Gettysburg Address.

Standing bare-headed in the cold, Johnson carried a candle from the steps of the Lincoln Memorial at dusk Sunday, President Johnson ended the nation's month of mourning for President Kennedy.

Flags all over the nation fly at full staff today for the first time since Kennedy was shot down in Dallas Nov. 22. The black banners that dark-

Dad Wants To Share Some Of Vicki's Gifts

BOWLING GREEN, S. C. (UPI) — The father of Vicki Wray, 2-year-old threatened with the loss of her remaining eye by cancer, is a \$50-a-week millhand but he wants to share the countless toys donated to Vicki with "other underprivileged children."

Robert Wray, 38, who has eight other children, has asked the Salvation Army to distribute the excess playthings "to share the happiness of Christmas."

Unknown friends across the nation donated the toys and more than \$5,000 to Vicki, afflicted with retinal blebs, a form of cancer that took her right eye last July.

State Rep. Bate Harvey of nearby Clover is in charge of a fund to help raise money for an operation for Vicki.

The surgery was to have been performed at Duke Medical Hospital at Durham, N. C. last week, but specialists postponed the operation because it was not immediately necessary.

Harvey said Vicki has received more than 300 cards and letters, one from two Charlotte, N. C., boys who enclosed 11 cents each. They told Vicki they wanted to share in her Christmas celebration.

Outside of that, he plans to spend the Christmas holidays at home in the executive mansion with his family, he said.

Thousands of candles, lighted in memory of the late Chief Executive, flickered in the winter wind as Johnson evoked memories of Kennedy and of the martyred Abraham Lincoln and the Gettysburg Address.

The flame was carried from the late President's grave across the river to the memorial where Johnson and a crowd of about 15,000 persons waited in freezing temperatures.

Johnson cupped his hand around the tiny flame and gazed at it intently, his deeply lined face somber. Twice a whipped wind extinguished the flame until Methodist Bishop John Wesley Lord, chairman of the Inter-Religious Committee on Race Relations which sponsored the ceremony, shielded it with a sheet of paper.

The President handed his candle to an aide as thousands of other lights began to dot the twilight before the huge memorial.

Johnson's talk was brief and rang with the phrases sounded at Gettysburg 100 years and one month ago. "We have been here in sorrow but not in purpose," he said. "We buried Abraham Lincoln and John Kennedy, but we did not bury their dreams or visions."

"Thirty days and a few hours ago, John F. Kennedy, 35th President of the United States, died a martyr's death. The world will not forget what he did here. He will live in our hearts which will be his shrine," the President said.

Johnson cupped his hand around the tiny flame and gazed at it intently, his deeply lined face somber. Twice a whipped wind extinguished the flame until Methodist Bishop John Wesley Lord, chairman of the Inter-Religious Committee on Race Relations which sponsored the ceremony, shielded it with a sheet of paper.

Steady Growth Predicted For State

JACKSONVILLE (UPI) — The State Chamber of Commerce predicts steady growth for Florida's economy through 1964—"by most business barometers, the economic picture looks pretty good."

The chamber said in its weekly review Saturday that the state's economy has been on the upswing since last summer although there has been no sign of the startling gains once predicted for the 1960's.

The chamber said one of the best thermometers of the state's economic health is the gain in non-farm employment. It added that "measured by bank debits, business has averaged 12 per cent ahead of last year."

'First Wave Of A New Force'

TAMPA (UPI)—Gov. Farris Bryant told the first graduating class at the University of South Florida here Sunday that they "are the first wave of a new force, landing on the beachhead of tomorrow."

Bryant told the 225 graduates and some 5,000 spectators that the role of college graduate is becoming increasingly important in the space age.

He said it would be up to them to open a "holiness to tomorrow."

Mother Of Six Dies In Crash

MIAMI (UPI)—A 41-year-old mother of six was killed early today when the car in which she was riding failed to negotiate a curve in South Dade County.

Dade County Metro Police Sgt. Harry Myerson said Mrs. Flo Weatherstone was dead at the scene of the wreck.

Mrs. Weatherstone's husband was reported to be in Detroit on business.

Driver Too Late With Aid

MARION, Mo. (UPI)—Paul Eugene Brown, 19, Centertown, Mo., skidded off icy U. S. 41 in his car Sunday and came to rest next to Missouri Pacific Railroad tracks. He was uninjured and went for help.

When Brown returned, a freight train had passed by on its scheduled run. His car was demolished.

Auto Thief Is Commuter

HUTCHINSON, Kan. (UPI) — An unknown thief stole a station wagon Sunday and drove to Wichita. Apparently, police said, the same thief then stole an identical station wagon in Wichita for the return trip.

Last week, a car stolen here turned up in Nickerson, Kan., and a car stolen in Nickerson was found here a few hours later. Police believe the cases are the work of the same person.

Lion Fancier Overconfident

RHEIMS, France (UPI) — Rene Orange, 33, a circus roustabout, was clawed to death by four lions Sunday when he entered their cage to show a friend that they were harmless.

Orange stroked one of the lions through the bars of the cage, and she licked his hand. He then entered the cage and the animals mauled him to death.

Four Shipyards Face The Axe

WASHINGTON (UPI) — The Defense Department hopes to shut down four of the government's 11 naval shipyards in its drive to cut costs. It was learned Saturday. But it may take a year to decide which ones get the axe.

Retraining as a means of ending the hard-core unemployment is well into its third year of test. And the limits upon its usefulness appear to be more severe than even the most cautious at first believed.

Important recognition of these limits came when Philadelphia instituted a retraining program which went well beyond most retraining efforts. This plan seeks to train only those who are informed by co-operating business firms that specific jobs will be waiting for them when they are ready.

This gets away from the more common, generalized practice of training unemployed persons in certain job categories where surveys suggest openings should exist. Too often the opportunities are fewer than indicated.

The problem goes much beyond this, in the view of some analysts of the employment dilemma.

They contend that, realistically, the retraining effort can never embrace more than a fair proportion of the unemployed. The rest, it is argued, are in a very real sense unemployable.

A northern big city Negro leader acknowledges that this is not a popular idea in many quarters. But he insists that many jobless cannot in fact pass the minimum aptitude tests for any of the skilled job categories now existing.

Not only Negroes but a sizable number of the white unemployed are handicapped by grossly deficient education, by lack of the social skills

which go with the white collar trade and service fields.

No retraining program yet devised has been able to enlist unemployed persons with these deficiencies. This hopeful idea, that the jobless can be refitted for other work, seems unlikely, therefore, to do more than a modest part of the task marked out for it.

What, then, can be done for those who may be found untrainable for the kinds of jobs the economy offers today?

No unique solutions have thus far been proposed.

Some job specialists talk in terms of the timeworn approaches: better welfare programs, extensive public works to provide jobs with low skills, other "cushions" to ease the difficulties of idleness without solving them.

Such answers have a negative cast which can hardly appeal to many Americans. Few of us like to concede that large numbers in our midst are permanently unemployable for lack of schooling and other capacities. Few wish to think we can do nothing for them but ease the pain of their idleness until they die.

But if there are better answers to this grave matter, we do not yet have them.

It is said that the late President Kennedy hoped in the years ahead to mount a massive assault upon poverty — and the joblessness which underlies it. No project outside of the maintenance of peace could have a better claim on the time of President Lyndon Johnson as he faces the ordeal of the future.

'Hire the Friendly One on the Right'

Dr. Crane's Worry Clinic

Tommy is face to face with a great tragedy. Many thoughtful church folks are so warped in their perspective that they kill a child's Meekness and thus they cause erosion of the human soul. Only an atheistic Communist dare deny the existence of Santa Claus.

CASE 8-457: Tommy T., aged 6, is very much worried. "Mother," he began, "is there REALLY a Santa Claus?"

"Jimmy's mother told him there isn't. I said there is. "But our teacher also told us there isn't a Santa Claus."

FACTS ABOUT SANTA: Certainly, there is a Santa Claus!

For God Almighty was the original and first Santa Claus. And the gift which he made to us human children down here on this planet Earth, was his Son.

So stop this atheistic and Communist propaganda that there is no Santa!

Many of our clergymen, too, have become victims of this same pernicious propaganda.

They even veto the good old-fashioned Christmas parties in their churches, where Santa arrived with his bag of candy and oranges.

But that is a serious mistake.

Just remind your children that the many department store Santas are really just God's helpers.

They symbolize the one original Santa. They are just "substitute Santas."

And will you clerics stop indicting even those department store Santas with your arguments that Christmas is now being commercialized too much?

Even if that were true, why disillusion children regarding

one of the most inspiring, uplifting soul tonics for mankind?

You cynical adults may feel that Christmas is being commercialized unduly. And probably it is.

But you often argue that Mother's Day and Father's Day and the flowers at funerals are likewise unwarranted, yet those holidays help inspire Americans.

If you just stress "pocket-books" instead of "idealism," you are promoting erosion of the human soul.

Beware, for erosion of the soul is a far worse threat to our Republic and hurlous America than is erosion of our topsoil.

If Jesus Christ were living today, he would also veto the so-called "waste" of money spent on Christmas greetings and gifts and tributes to Mother on Mother's Day, as well as the beautiful flowers at funerals.

But Jesus soundly chided Judas for his "erosion of the soul" policy.

Christ reprimanded Judas and, instead, he praised the woman who had spent money lavishly on the funeral preparation of Christ's body!

So it is time that more "horse sense" began to appear in our religion, for erosion of the soul is preceded by rationalistic arguments against spending money for things that are really a soul tonic.

Remind your youngsters repeatedly that there is a Santa Claus, who is God, and that everybody who unselfishly tries to help others is an extension of that original Santa Claus.

Even when you thus tell your older children that Santa doesn't really come down the chimney, and that such a tale

WASHINGTON (NEA) — Direct attack on the problems of American poverty of the source has just been proposed to the National Committee on Poverty by Prof. John Kenneth Galbraith of Harvard.

A former Kennedy administration budget director and ambassador to India, economist Galbraith is also author and expert on "The Affluent Society."

He asks: "Why don't we act, beginning next year, the 100 lowest income counties in the country? In the case of urban slums we could select more limited areas of equal population. We could designate them as 'special educational areas.'"

"They would then be equipped with a truly excellent primary and secondary school plant, the best in recreational facilities and adequate transportation to work centers."

"Then, in the manner of the Peace Corps, but with ample pay, an elite body of young teachers would be assembled. They would be tough enough and proud enough to go to Harlan County or to Harlem. And in the year following we would proceed to the next abysmal areas."

This would not be federal aid to education, Dr. Galbraith insists.

"This is an attack on poverty," he says. "Can anyone argue that youngsters with these facilities and this training would share the dismal fate of their parents?"

There are adequate precedents for this kind of action, according to Galbraith. Ten years ago when it became obvious that America's highway system was not able to carry its traffic load, the federal

government stepped in with 90 per cent aid to the states for road building.

Galbraith might also have mentioned that the school lunch and pilot food stamp plans for feeding the undernourished now are accepted, despite objections of government.

One other merit of his plan is that if any community did not want to accept federal aid to clean up its own pockets of poverty, it might tackle the job alone.

This committee was formed three years ago by the Farmers Educational Fund, established by the National Farmers Union under its president, James G. Patton.

For the last two years it has been conducting a survey of American poverty under the direction of Dr. Oscar Ornati of New York School of Social Research.

In brief, Dr. Ornati finds there are now about 20 million people in America who can be classed as "abject poor." They are individuals with incomes of less than \$500 a year or members of fam-

ilies of four or more where the total income is less than \$2,500 a year.

This is roughly 11 per cent of today's population of 190 million. In 1955-56, with different income levels and costs of living, there were around 34 million people or 17 per cent of the population of 195 million who could be classed relatively as "abject poor."

The Social Security system is held largely responsible for this reduction in American poverty over the last 27 years.

Previous plans for dealing with this mass of poverty have been based principally on bigger appropriations for welfare programs already proposed or in operation.

They include a bigger public works program to provide more jobs, a permanent food stamp plan, more aid for education and vocational training, youth conservation programs, health care for the aged and mentally ill, urban renewal, rural development and job training.

All of these plans do some good, but not enough.

President Johnson already has called for an all-out attack on American poverty. He told the American Public Welfare Conference in Washington that "current programs to reduce poverty in America are not nearly enough."

Touring Europe

Youth Disciplined

(Editor's Note: This is the fifth in a series of articles on the latest news from Europe. Others will follow.)

By R. E. Washell Jr.

While we were in Spain this fall, we saw much more free association between boys and girls than was evident on our visit four years ago.

Mostly they were in groups

walking together or sitting in sidewalk cafes drinking beer or cokes. Occasionally there would be a lone couple but this was infrequent.

We asked Spanish friends if there had been a loosening of chaperonage.

They told us there was a gradual movement in that direction, but added that in most cases we would find that any group containing a young girl would probably include her brother. They also said no "substantial" family would allow an unmarried daughter to go out with a young man after dark without an older female companion, preferably a relative.

DIFFERENT VIEWS ON YOUNG GIRLS

We know a lovely teen-age French girl, the daughter of a prosperous Paris family. Her father would be shock-

ed if a young man were to ask to take her out in the evening to any function he or his wife would not be attending.

In his living room there is a picture of her in the briefest of Bikinis. It is what she wears to the beach. He shows it with great pride in her physical beauty.

The picture leaves little to the imagination. Her shape is truly gorgeous.

POOR NATIONS AND VANDALISM

In France, which is prosperous, as in the United States, there are outbreaks of teen-age vandalism. Youths in Paris go on the same sort of destructive rampages as they do too often in this country.

We asked in Spain whether they had such a problem. We were told they didn't.

"In the first place," our informant said, "the police would beat hell out of them first and ask questions later."

In the second place, the parents would be so shocked they would complete the job when the police and the courts were through with them."

He said Spain is so poor that the children have more of a feeling for the value of material things. They know how hard one must work to obtain them. They have seen how their parents must plan and save to get a bicycle or some new furniture. They know this is going to be the way with them, too.

Also, the parents will take a lot less nonsense from their offspring than is the custom in this country.

Phil Newsom Says . . .

DeGaulle In Earnest

Notes from the foreign news cables:

Not kidding:

French officials say President Charles de Gaulle is in deadly earnest about his Dec. 31 deadline for a Common market farm policy agreement. If none is reached by Christmas he will call a cabinet meeting Dec. 27 to get the green light for his next move. This is likely to be a freeze on any further progress toward completing the Common Market.

French ministers also may boycott Common Market meetings. It is just conceivable De Gaulle might decide on a complete walkout.

Concern Over Berlin:

West officials are concerned that the Christmas passes for hundreds of thousands of West Berliners to enter Communist East Berlin may touch off serious incidents in which the Western powers inevitably would be involved. They discussed this danger during last week's NATO ministerial council meeting in Paris. The three Western commandants in Berlin are

being instructed to keep a close eye on the situation.

Red Eye on Latin America:

A stream of Red Chinese trade and cultural missions to Latin America may be expected soon, as well as a state visit or two by a top Peking official. So far, not one top Chinese Red has visited Latin America while several high Soviet officials, including Premier Khrushchev, have. Mao Tse-tung and Liu Shao Shi have standing invitations to visit Cuba, and Latin American diplomatic sources in Tokyo say such a visit in 1964 is a distinct possibility.

Manila vs. Tokyo:

There are signs the Philippines at long last is going to swing the door open to Japanese business. The Japanese already have one foot in the door. They have so-called "liaison offices" in Manila which do everything normal businesses based there do. It's strictly against the law but Philippine officials tend to look the other way. Officially, Japan can't do business in the Philippines under a law

promulgated years ago when feeling against Japan was still strong in the Philippines. Now, according to Japanese diplomatic sources, it's only a question of time before the anti-Japanese business restrictions are lifted.

Cambodia:

The French are ready to take over United States and British responsibilities in Cambodia. French Defense Minister Pierre Messmer flies there Jan. 3 to arrange a military aid pact following the ouster of the United States military and economic aid missions. De Gaulle believes France can prevent the Southeast Asian kingdom from slipping under Communist domination. The United States and Britain are happy to let him try.

The first newspaper to use cartoons regularly was the New York Evening Telegram under James Gordon Bennett.

cent, according to the Chase Manhattan Bank Money Museum.

WHY are people who look ahead looking forward to extra income December 31?

Because they save for what they want—where saving really pays off!

LOOK-AHEAD people know where they're going . . . know how they'll get there, too. They plan in advance, then count on regular savings to make those plans a reality. They count on us to make saving safe, profitable, convenient.

Right now they're looking forward to December 31st. That's the day they'll receive high-profit earnings on their hard-at-work funds.

Would extra income next year look good to you? It's yours to look forward to when you look ahead and start a savings program of your own right here. Come in soon.

FIRST FEDERAL Savings & Loan ASSOCIATION

LBJ's First Press Conference Awaited

WASHINGTON (NEA) — Everyone in Washington is looking forward to President Johnson's first big press conference — which will probably break all records for attendance. Reporters are already dreaming up tough questions to throw at him:

New Game Pack Offers Variety Of Enjoyment

Santa's beautiful new game pack is setting an all time record for variety, with ingenious competitions designed to intrigue everyone from toddlers to teens and to parents.

In the area of games modeled from real life situations, is Whirligig which scales down that classic favorite—musical chairs—to table size.

Another novelty with small fry appeal is Lolliflop, which involves marble mazes shaped like allday suckers. Object of play is to shake down the marbles into the stick of the lollies; here kindergartners and grownups can compete on equal terms.

A Four Alarm game adds a new touch of realism to the role of fireman; unfavorable moves result in the whole neighborhood burning down.

Among the significant trends this season is the burgeoning of a whole crop of games keyed to play with words. Typical of these modern day versions of the gray pinnacles mode for verbal charades is The Match Games where the winner is the one who anticipates best what other players will say.

Play might focus, for example, on naming the parts of a horse—withers, tail and so on. Players whose word choices match are the ones who score.

A novel angle on word play is provided by Chit Chat, Hugh Downs' Game of Conversation, which has the avowed purpose of getting players into fast moving repartee. A moderator's bell is provided to curb too heated argument.

You Don't Say is another newcomer in the word game ranks, with play focused on filling in a missing word at the ends of sentences. There's a new educational version of Password for school children.

The vogue for games keyed to military maneuvers continues to gain strength. Newest form of table combat is a replay of World War I air conflicts called dogfight. Playing pieces are scale models of famous Fokkers and other early fighting plane models.

Pieces are elevated to achieve maximum realism and each game is accompanied by an American Heritage history of the war in outline form.

Other battle games that base results on decision making include Stratego, keyed to the Napoleonic era, and Battlerey based on the Civil War.

Another novelty this Christmas is the first game to reproduce the action of a Broadway play. It is "How to Succeed in Business Without Really Trying" and object of play is to rise from the role of window washer to chairman of the board.

Some quiz game classics appear with new questions year after year. Oldest is Go To The Head Of The Class, 25th year, now bowing in an eleventh edition of new queries; Concentration is out in a fifth edition with 30 feet of new rebus puzzles that are produced automatically by a rollomatic changer. Old favorites like Candyland and Uncle Wiggily recruit new generations of juvenile enthusiasts year after year.

Lure Of Sports

The yearning of the armchair sports fan to replay big league events as exactly as possible is catered to with an ingenious new crop of electric powered games. New is an NFL Electric Football Game which has a magnetized ball which can be picked up as in real play and a kicker-passer device.

Area of the Great Lakes is equal to the combined spread of Belgium, the Netherlands, Luxembourg and four Denmark.

"... How do you stand on reducing oil depletion allowances?"

"... Will you appoint a woman to your cabinet?"

"... Who is your first choice as vice presidential running mate in 1964?"

"... What will be your policy on Cuba, which you didn't mention in your first address to Congress?"

"... Is Bobby Kennedy going to resign, and will Abe Fortas succeed him as your attorney general?" — and so on.

In Johnson's first informal press conference with White House regular correspondents there were a couple of near-hubbles. News was given out on defense personnel cutbacks and ending the Dyna-Soar program before all Pentagon and private industry officials concerned had been fully notified.

Also Johnson barred television and live radio. This burned the broadcasters and brought forth a demand for equal time on the air.

The new President is expected to make some changes from the Kennedy-style press conferences, and he is feeling his way. But he is such an experienced operator that he can be counted on to have ready answers for any embarrassing question that may be brought up.

Renaming Cape Canaveral, Fla., as Cape Kennedy has stirred up local city council and inspired this story:

A visitor to the missile base checked in at a coastal resort motel and phoned his business contact for an appointment.

"Did you get here all right?" asked the native.

"Yes," replied the visitor, "I did just what you told me. I landed at Kennedy Airport, took a Kennedy cab down Kennedy boulevard to the Kennedy Hotel and here I am, ready to inspect the Kennedy Missile Center."

Venetian gondolas are black, following an edict of 1562.

AM/2 DONALD K. SMITH is being sworn in for a six-year re-enlistment in the Navy at the Sanford base by Cdr. Leroy A. Heath, CO of VAH-7.

Warehouse, Grass Fires Battled

Two fires, an 8 a.m. fire at the Chase Company Warehouse on Beardall Avenue and a 3 p.m. brush fire on S. Third Street in Lake Mary, were reported Saturday by Chief Ralph Abell of the Lake Mary Volunteer Fire Department.

The warehouse fire, which had been brought under control by the company's sprinkler system when volunteers arrived on the scene, resulted in only slight damages. Cause was not determined.

The afternoon brush fire resulted in a great deal of smoke over the entire area but did not pose a serious threat to any neighboring homes. None of the neighbors questioned had any idea as to how it started, Abell said.

Thomas Named To State Post

TALLAHASSEE (UPI) — Gov. Farris Bryant has appointed M. S. Thomas, director of the Florida A&M University Locational - Technical Institute, to the Florida State Manpower Advisory Committee.

The appointment was announced today by the University. Thomas was a contractor in Atlanta before coming to A&M and also taught in the school systems of Asheville, N. C. and Little Rock, Ark. His duties on the manpower committee will include serving as advisor to the state employment service.

Oil Proves To Be Slippery Commodity

NEW YORK (UPI)—Creditors of the bankrupt Allied Crude Vegetable Oil Refining Corp. question five surveying firms today in an effort to trace millions of pounds of edible oils that may have existed only on paper.

The creditors were left holding warehouse receipts for the oil when Allied Crude, of Bayonne, N. J. went bankrupt. They stand to lose more than \$100 million dollars if the oil is not found.

Attorneys for one of the creditors, the Bunge Corp. of New York, will question the surveying firm representatives at the deposition hearing about their methods of measuring oil in storage tanks at the Bayonne tank farm of American Express Warehousing Ltd. They also will be questioned about movement of oil to and from the tank farm.

The firms are Saybolt Co., Superintendence Co., Charles V. Bacon Inc., John C. Vaughn Co. and Charles Martin Inspectors of Petroleum Inc. Saybolt is headquartered in Elizabeth, N. J. and the others in New York City.

In addition to the deposition hearing, creditors will be permitted to examine the records of the five companies from Jan. 1, 1963 to the present. Superior Court Judge Robert A. Mathews in Jersey City, N. J., ordered the hearings last week at the request of the

Bunge Corp. Allied Crude had issued warehouse receipts as collateral in a series of complicated financial dealings.

creditors were given evidence last week when several Allied Crude employes testified that

water had been pumped into the storage tanks to falsify inventory records.

POWERFULLY IMPORTANT!

This advertisement is part of a series that was first published in 1965. The Freedom Foundation was the first to publish this series. The Freedom Foundation is a non-profit organization that has been instrumental in the development of Florida's power industry. The Freedom Foundation has been instrumental in the development of Florida's power industry. The Freedom Foundation has been instrumental in the development of Florida's power industry.

Are we letting it fade away?

Today, she worships in a land of religious freedom. But what of tomorrow?

Unless we keep America powerful—spiritually, morally, and militarily strong — our freedom to attend church...to read the Bible...even to worship at all will fade away!

Freedom of our individual initiative and enterprise is the mainspring of America's strength. Allow it to be weakened or destroyed and our continued existence as free and independent citizens is seriously threatened.

Helping to keep America the most powerful electric nation on earth is a responsibility

we're proud to share with the nation's great electric companies. Together with Florida's other tax-paying power companies, we are expanding and strengthening our interconnecting network to make it even more dependable, more powerful for all Florida.

This powerfully important job calls for the greatest expansion program in Florida Power & Light Company's history. Projects now under construction will add 1.3 million kilowatts of generation by 1966—a 48% increase in two years—to help make Florida...and America... more powerful!

FPL's newest expansion project is a 425,000 kw power plant at Cape Canaveral. Together with other Florida power companies, we are expanding and strengthening our interconnecting network of transmission lines to assure plenty of dependable power for Florida's growth and expansion.

Kentucky And Vandy One-Two

By United Press International
With the pre-season winning period coming to an end in the Southeastern Conference basketball, Kentucky and Vanderbilt are still the leading contenders for the championship.

The red-hot Wildcats took their seventh consecutive win over the weekend, defeating Wake Forest 96-76. Kentucky has averaged more than 100 points a game in its last six matches for a season average of just under 90 points.

The only strong contender in sight in the conference is

Vanderbilt whose unbeaten One Big reason for the Wildcats' shining record and bright outlook is Mugsy Cotson Wash whose 22.5 scoring average record will undergo its severest test Jan. 6 in a showdown with the Wildcats. The Commodores wrapped up Louisville 91-82 Saturday night to extend their winning streak.

Two dark horse teams have emerged from the pre-conference play, although neither appear now to have the sustained power to do any serious damage to the league leaders. But Tennessee and Georgia, particularly the Volunteers, do shape up as challengers.

Tennessee won its fourth consecutive victory and the fifth in seven starts Saturday night with an 81-60 win over Virginia Tech.

Although highly-rated in preseason polls, Georgia Tech has had an off-again-on-again season and finally got back on the winning track Saturday night by routing Georgetown 96-71. The win gave Tech a 2-3 record after a pair of defeats to southwestern conference schools.

The outlook is considerably more bleak for two of last year's front-running teams. Mississippi State, defending SEC champ, took its fifth loss of the season Friday when Texas A & M skinned off a victory in the Blue Bonnet Bowl. Auburn, tied for second spot last year, went down for its third defeat in five tries Friday, 84-70 to SMU.

Alabama whipped Southern Mississippi Saturday 90-74 and has a 4-3 record. Florida dropped one to Tulane Saturday 86-82 and Mississippi gave its second game of the season to Memphis State, 96-78.

Louisiana State's Tigers lost to Maryland 75-68 Saturday at the Virginia Tech tourney.

Georgia has won only one of its five games this year, and was idle over the weekend.

Tulane lost 84-77 to Arkansas State Saturday, and it was eighth straight licking for the Greenies who have yet to see daylight.

Denison To Play In Two Bowls

TALLAHASSEE (UPI) — Alford Denison, Florida A&M Negro All-American end, has accepted invitations to play in the South West Challenge Bowl and All-American Bowl A&M announced today.

The All-American Bowl will be played in Tucson, Ariz., Dec. 28 and the Challenge Bowl at Corpus Christi, Tex., Jan. 4.

Denison signed a professional contract with the Denver Broncos of the American Football League last week. He was also drafted by the Philly Eagles of the National League. He led the Rattlers in pass receiving and was third in scoring this year.

Denison, of Jacksonville, is the first Rattler to play in the Challenge Bowl.

Willie Clarington, former Rattler tackle, also has signed to play for the Broncos. Two other former Rattlers already are with the team — halfback Al Francis and fullback Herwig Denison.

Two former A&M University footballers played key roles in leading the Chicago Bears to the western division championship in the National League this year. Willie Galt more was used as a running back and Willie Lee plays on the offensive unit. They are scheduled to be in the game Dec. 29 when the Bears play the New York Giants for the NFL championship in Chicago.

Chargers Sitting Pretty In Sun

By United Press International
It figures to be a mighty cold day Saturday when the Boston Patriots and Buffalo Bills meet in the American Football League's Eastern Division playoff but the winner can expect a warm reception one week later in San Diego.

The San Diego weather should be sunny and the San Diego Chargers hot.

The Chargers clinched the Western Division crown Sunday with a 20-20 rout against the Denver Broncos and now have a two-week stretch in sun-soaked California to prepare for the AFL's title playoff against the Eastern Division winner at San Diego, Jan. 5.

The Bills and the Patriots, who ended their regular season last weekend with 7-4 records, clash next Saturday afternoon at Buffalo in temperature that undoubtedly will be freezing.

Coach Sid Gillman and his Chargers will be waiting to thaw out the winner.

The Chargers weren't the only hot team in the league on the final Sunday of the regular season. The Oakland Raiders edged the Houston Oilers, 22-0, in the highest scoring AFL game ever played. Despite the win, the Raiders failed in their game try to overtake San Diego. The Kansas City Chiefs drubbed the New York Jets, 48-0 in the other game played.

In winning the Western Division title for the third time in four seasons, the Chargers finished with an 11-3 record, one game ahead of Oakland. In their first two playoff ventures, in 1960 and '61, the Chargers lost both times to Houston.

Paul Lowe scored two touchdowns, on runs of 10 and 66 yards, and gained 183 yards in 17 carries for San Diego. The Chargers scored the first four times they had possession of the ball, yet they led only 26-17 at halftime.

Don Breaux, rookie Denver quarterback, hit on eight straight pass attempts during the first half to keep his team in the game. However,

George Blair's 28-yard field goal and Lowe's 66-yard touchdown run pulled the Chargers away in the third period. And with second-string quarterback John Hadl taking over for most of the final quarter, they broke the game wide open with 22 points.

Mike Mercer of Oakland kicked a 20-yard field goal with 4:37 remaining to beat the Oilers. At least four records were set in the game. In addition to the 101-point total, Clem Daniels set an AFL season rushing record of 1,000 yards and Art Powell caught four touchdowns passes. Daniels gained 158 yards Sunday, giving him two more yards than the record set last year by Buffalo's Cookie Gilchrist.

Tom Flores completed six touchdowns passes, one less than the AFL record; George Blanda who holds that mark, threw five TD passes. Oakland gained 407 yards by passing and 121 by rushing for a 528-yard total offense that also was a single-game mark.

The Raiders, who won only one game in 1962, closed out the '63 season with eight straight wins and a total of 10.

Len Dawson completed four touchdown passes and defensive tackle Jerry Mays ran 58 yards to score with a recovered fumble as the Chiefs drubbed the Jets in nine-degree weather.

COURT-LY BALLET — These cagers pirouette gracefully as they concentrate on a loose, descending ball. The action was part of Illinois' 79-58 victory over Notre Dame at Champaign, Ill. Illini Tal Brody is No. 12; Larry Hinton is 43.

2 Greyhounds Chosen For Inaugural

GREYHOUNDS 24 SPITS AS T. J. Daniel's Denny Mac, a favorite here last winter, and Starlight Kennel's Hypnotique, a newcomer to the local oval, are two lucky greyhounds for racing. Secretary R. C. (Pitay) Williamson has definitely picked them as part of the octet to compete in the 20th running of the inaugural handicap at the Sanford-Orlando Kennel Club at its official opening Christmas night.

Denny Mac won a national A-Q rating here last winter and he was extremely popular with the fans as he registered nine firsts, three seconds and one third in only 18 starts. His nine wins were just two off the high score for the season.

On March ninth last Denny demonstrated his talents by defeating the great Velvet Sis in the second of two inter-city match races with Jacksonville. Velvet Sis had taken the first half of the two contests the week previous.

Starlight kennel's Hypnotique competed at Palm Beach last winter where she attained a national D-2 rating. Then in the tough competition at Taunton last summer she boosted her rating to A-2 and made a big advance up the ladder to fame when she out-ran some of the country's fastest greyhounds in winning the Taunton gold collar last September.

Denny Mac schooled to three victories in 31.28, 31.77, and 31.58. The 31.28 clocking was the fastest schooling time made. Hypnotique has two schooling wins to her credit.

Wade And Shaw To Hit Circuit
COLUMBIA, S. C. (UPI)—NASCAR's "Rookie of the Year" and a young untested millionaire will team together on the NASCAR circuit beginning in February at Daytona Beach, Fla.

Billy Wade of Spartanburg, voted the best new driver in NASCAR circles in 1962, and Graham Shaw, a 27-year-old local sportsman who has been successful in sports car driving, will hit the stock car oval as a twoosome.

Wade will leave the Cotton Owens team he drove with this year.

The young duo has not yet decided what make of 1964 car they will drive on the circuit. Shaw said it could be a Ford, Mercury, Dodge, Plymouth or Chevrolet.

Mira And Concannon Will Meet Again

United Press International
George Mira of Miami walked off with a "hometown" decision over Boston College's Jack Concannon, but a rematch has been arranged for a neutral site next year.

Mira and Concannon, two of college football's most glamorous quarterbacks, hooked up in a tremendous passing exhibition Saturday in Miami's North-South All-Star Game. Mira was declared the unofficial winner on the basis of the South's 29-14 victory—but the two are due for another meeting in the Senior Bowl at Mobile, Ala., on Jan. 4.

Don Trull, statistically the top passer in the nation for the past two seasons, also staged a spectacular aerial display to lead Baylor to a 14-7 victory over Louisiana State in the Bluebonnet Bowl at Houston.

But the only passing done at Philadelphia's frigid Liberty Bowl was by the fans, who passed up Mississippi State's 16-12 victory over North Carolina State in record numbers.

Both Mira and Concannon, who already have signed with the San Francisco Forty Niners and the Philadelphia Eagles of the National Football League, respectively, turned in thoroughly professional performances in the North-South contest.

Mira, playing before a hometown crowd of 19,120 at the Orange Bowl, connected on 27 of 42 passes for 339 yards and two touchdowns to steer the South from a 14-0 deficit. The 14 Northern points were the work of Concannon, who scored one TD and passed for the other while accumulating a total of 327 yards.

All the North's scoring was crammed into the first period. Concannon drove the Yankees 72 yards to the Rebels' eight late in the opening session. But on a third-down situation, Coach Bump Elliott replaced Concannon with George Bork of Northern Illinois, and the threat died.

Trull shredded the LSU pass defense for 26 completions during the day, but the Bears didn't reach the end zone until the fourth quarter. Trull passed seven yards to end Jim Ingram to tie the game at 7-7, then hit Ingram with another TD toss for 13 yards and the victory.

Louisiana State had taken an early 7-0 lead in the opening period on Buddy Soeher's eight-yard scoring dash, but the crowd of 50,000 saw Trull easily erase the Bluebonnet

Tiger' Return Bout Nixed By Giardello

CHERRY HILL, N. J. (UPI) — Ex-champion Dick Tiger is "out" as challenger for Joey Giardello's middleweight crown and Rubin (Hurricane) Carter is confidently offering \$100,000 to get the title shot.

Obeying the World Boxing Association (WBA), champion Giardello of Cherry Hill today announced the abandonment of plans for a return title fight with Tiger of Nigeria, from whom Joey won the 160-pound crown at Atlantic City, Dec. 7.

At the same time, Joey smacked his lips over a \$100,000 guarantee for a defense against top contender Carter of Paterson, N. J., who blasted out a sensational first-round knockout over world welterweight 147 pound champion Emile Griffith at Pittsburgh Friday night.

"I'm sorry I can't make my first defense against Tiger," the champion explained.

"He was good enough to give my shot and we had a gentleman's agreement that if Tiger lost, he would get first shot at me in a return bout. But the WBA has asked me not to go through with it because of the WBA rule against return bouts."

The \$100,000 guarantee for a defense against Carter was offered by Carmen Tedeschi, Carter's manager—a wealthy building contractor of Saddlebrook, N. J.

Tedeschi assured champion Joey that the \$100,000 would be placed in escrow when the fight was signed and that the Madison Square Garden Boxing Corporation probably would be the promoter.

Chamberlain, Hightower Score 69

By United Press International
Wilt Chamberlain and Wayne Hightower have traveled similar roads and are ready to pinch hit for each other at the drop of a basketball.

The San Francisco pair, who played for Overbrook High School in Philadelphia and the University of Kansas, combined for 69 points Sunday in the Warriors' 118-104 victory over the Philadelphia 76ers.

Chamberlain scored 40 points after being shutout in the first period. But while the 76ers were nixing Wilt in the opening quarter, Hightower picked up the slack to keep San Francisco in the game. Hightower's 29 points were his highest total in the pro ranks.

Bob Pettit scored 25 points and Cliff Hagan added 20 as the St. Louis Hawks beat the Baltimore Bullets, 116-104, in the only other game. Walt Bellamy had 38 points for the Bullets.

Top Rating

NEW YORK (UPI) — The United States Polo Association today rated Robert Skene of Santa Barbara, Calif., the only 10-goal player in the nation. Harold Barry of Truro, Tex., Dr. William R. Linfoot of Santa Barbara and Lewis Smith of East Aurora, N. Y. were listed as the only nine-goal players.

Breaks Record

MOSCOW (UPI) — Lidia Skoblikova of Russia broke her own world speed skating record by one-tenth of a second Sunday when she covered 1,000 meters in one minute, 34.6 seconds, it was reported by Tass agency from Chelyabinsk, Siberia.

Bryant Sees Accelerated State Growth

TALLAHASSEE (UPI) — Gov. Farris Bryant predicted today that Florida's pace of growth will accelerate "quantitatively and qualitatively" in 1969.

At his last news conference of fading 1968, Bryant said that all changes that have come to pass since the last war are multiplying factors and that giant educational strides will bring increased industry, increased consumption and increased pay rolls.

He said there is a national feeling of confidence in President Lyndon Johnson and "business people everywhere are encouraged."

With President Johnson almost certain to be the Democratic nominee for president next year, the Florida Governor said the Sunshine State probably will return to the Democratic fold, after giving its electoral votes to the Republican nominee in the past three elections.

"Changes are substantially improved" with Johnson instead of President Kennedy in office, he said.

He told newsmen the president called him Saturday but Bryant was out and the call was cancelled. He said he did not know what Johnson had on his mind "but if he wants to talk, he'll call back." The last time Bryant talked to Johnson, it was to give his consent to changing

the name of Cape Canaveral to Cape Kennedy.

Governor Bryant said he will support U. S. Sen. Spearard Holland for re-election, but that the type of support will be limited to his feeling that a governor should not use the power of the office to influence the outcome of an election.

He said he feels sure Holland will run. Asked if Holland had told him so, he first replied "yes," then qualified

it by saying "not in so many words but I got that impression."

Bryant said he did not think former Gov. Leroy Collins will run, although he has not talked to Collins.

He said he based the prediction on "what little I know of the situation."

On another subject, the governor said he did not think there would be any conflict between plans of the Florida Institute for Continuing Uni-

versity Studies (FICUS) and the Board of Control in Programs to offer graduate engineering courses in the Cape Canaveral area.

Discussing plans of FICUS to establish a graduate center for engineering in the area, he said there need be no conflict with the board's Generys program to extend University of Florida engineering courses to that area through educational television.

He pointed out that FICUS

has no academic personnel of its own but uses professors from the universities "which offers certain built-in safeguards against duplication."

"I am sure the University of Florida would not set up competing programs," he said.

He also said there was great need for FICUS to offer facilities for advanced training of teachers. He said there also is a need for state universities to continue this vital work.

'SAILOR OF THE MONTH' awards in VAH-7 were received recently by AM(H)2 Edward E. Doty and AMA/2 George R. Beck at the Sanford Naval Air Station. Presenting the awards was Cdr. Heath, oc VAH-7.

President To Get Minuteman 'Potato'

WASHINGTON (UPI) — A controversy between Pentagon civilian and military bosses over the eventual size of the Minuteman missile force is going to be put before President Johnson.

It was reported Sunday that the federal budget to be sent to Congress next month calls for defense spending of more than \$50 billion in the fiscal year beginning July 1. The current estimated military outlay is \$51 billion.

The major budget controversy will be laid before the President by the Joint Chiefs of Staff at a scheduled meet-

ing Dec. 30 at the LBJ Ranch in Texas. It concerns future purchase of the solid-fuel Minuteman missile.

Defense Secretary Robert S. McNamara and his staff believe the Air Force needs 1,200 of the intercontinental rockets by mid-1969.

Gen Curtis E. LeMay, Air Force chief of staff, wants 1,950 by the same period.

Both LeMay and McNamara base their goals on what they believe would be needed to survive a surprise ICBM attack and still destroy targets in Russia.

The final budget session also will permit the President to examine Pentagon plans to trim money requests for new army weapons by as much as \$1 billion under the current year's \$32 billion.

Other big money cuts for the new defense budget are being aimed at weapons for the strategic retaliatory forces. With no more bombers being built and the heaviest missile expenditures behind it, the Pentagon has sharply cut new money in the strategic field.

By the end of the year, the U. S. ballistic missile force will comprise 691 operational weapons on land and undersea—123 Atlas, 108 Titan, 300 Minutemen and 160 submarine-launched Polaris.

The immediate issue is whether to buy an additional 50 or 150 Minutemen missiles during the next fiscal year.

Jan N. Spurr Funeral Held

Funeral services for Jan Nathan Spurr, nine, of 450 E. Seminola Boulevard, Casselberry, who died Friday from injuries received in an automobile accident in Winter Park Thursday, were scheduled for 2 p.m. today at the Kingswood Baptist Church on Lee Road with Rev. Hoyle Bowman officiating. Burial to follow in Greenwood Cemetery.

Born in Miami, he and his family moved to Casselberry five years ago from Hollywood. He was a member of the Kingswood Baptist Church where his father, the Rev. John A. Spurr, is pastor.

Survivors, other than his parents, are brothers, John Jr. and Joel Lee Spurr, of Casselberry; sisters, Mrs. Eileen Phillips of Delray Beach, Mrs. Nancy Smith of West Hollywood and Mrs. Sandra Hendrix of Boynton Beach; paternal grandmother, Mrs. Goldie O. Spurr of Los Angeles, and maternal grandparents, Mr. and Mrs. John Phillips of Angelica, N. Y.

Garden Chapel Home for Funerals in charge of arrangements.

Edward Jammes Rites Tuesday

Funeral services for Edward Eugene Jammes, 13, of Paola, who was burned to death shortly after 7 a.m. Sunday in the fire of a two-room tree house at Paola School, will be held at 2:30 p.m. Tuesday at the Pinecrest Assembly of God Church. Rev. E. J. Ready of Tampa will officiate. Burial will be in Oaklawn Memorial Park.

Two other youths, Marlon Jammes, 15, brother of the fatally burned boy, and Charles Jarrett Jr., 16, who also spent the night in the tree house but slept in another room, escaped. Both said they attempted to reach the trapped youngster but were driven back and forced to evacuate by flames which apparently started when the deceased lighted a candle he had kept under his bed during the night.

The house, of cardboard, tin and wood construction, was located approximately 14 feet off the ground. Forest rangers were called to the scene but were helpless to save the boy's life.

The youth is survived by his parents, Mr. and Mrs. Richard E. Jammes; brothers, Albert and Marion; sisters Brenda and Sheila, all of Paola; maternal grandmother, Mrs. Ada Monds, of Sanford, and several aunts and uncles, including Mr. and Mrs. Charles Griffin, Mrs. Roger Jimenez and Mr. and Mrs. Fred Jammes, all of Sanford.

Playboy Dodge Is Dead At 63

DETROIT (UPI) — Off-married playboy Horace E. Dodge Jr., multi-million dollar heir to the Dodge auto fortune, died Sunday night in Jennings Memorial Hospital after a long illness. He was 63.

Dodge was pronounced dead of "cardiac failure" at 6:35 p. m., a hospital spokesman said. With him at the hospital were his sister-in-law, Mrs. Florence Sisman; her sister, Mrs. Maxine Clements, and Dodge's attorney, Douglas Patterson.

His mother, Mrs. Horace Elgin Dodge, 93, and his fifth wife, former showgirl Gregg Sherwood Dodge, were reported en route from Florida when he died.

Car Kills Woman

JACKSONVILLE (UPI) — Mrs. Blanche Stone of Jacksonville died Saturday in a hospital from injuries received when she was thrown from a car in a collision on Beach Boulevard Friday.

Hours Set

Hours at the North Orlando Village office, for this week only, will be from 9 a.m. until noon on Thursday and Friday.

Mrs. Barbara Peters, village clerk, announced today.

Fig Leaf Stolen

HEMEL HEMPSTEAD, England (UPI)—A controversial fig leaf, ordered placed on the bronze statue of a naked discus thrower here by city officials, was stolen Sunday.

Anniversary Reception For Rev. And Mrs. Timms

Rev. and Mrs. William Ed Timms will observe their golden wedding anniversary Christmas Day, an eagerly awaited occasion.

Mr. and Mrs. H. H. Nicholson and Mr. and Mrs. W. B. Kirby honored the couple with a reception for friends at the Nicholson home on Briarcliff yesterday afternoon.

The Timms are natives of Banbury, England and were married at the Marlborough Methodist Church in Banbury Dec. 25, 1913. Rev. Timms worked for the government during World War I, and they came to this country in August, 1924, settling in Michigan. After a few years there, he became a member of the Methodist Conference and served churches in that area until his retirement in 1956. The couple moved to Sanford in December of that year and make their home at 2430 Myrtle Avenue.

Since his retirement, he and his wife organized Grace Methodist congregation, holding services in the Pinecrest School for three months. At that time the Florida Conference appointed Rev. Parsons to the church. After a short time at the Centenary Methodist Church, Gainesville, Rev. Timms was appointed for one year to the Ebenezer Methodist Church. He was instrumental in the purchase of the land where the new church building stands. He has been visiting pastor at First Methodist Church here in Sanford and in churches in Winter Park, Oviedo, Geneva and Orlando. He teaches the Men's Bible Class at First Metho-

REV. AND MRS. WILLIAM ED TIMMS

dist here, and Mrs. Timms has been a teacher of the Truthseekers Class.

The couple has travelled widely during their 50 years of marriage, visiting seven countries. They have a reputation as "the children's friend" and rightly so, for much of their time has been devoted to working with young people.

On Christmas afternoon Ministers and Doctors will call at the Timms home during an open house they will have to celebrate the day.

He is president of Retired Methodist Preachers Association in the Orlando area and many of them are expected to call during the appointed hours. The Timms will have a special treat for their guests, one full of sentiment. His brother had an English wedding cake, similar to the one served on their wedding day, baked and flown over for the celebration. Mrs. Ralph Jarvis and Mrs. Ted Williams will assist the Timms in entertaining and Debby Jarvis will be junior hostess.

Hemerocallis Circle Hears Garden Talk

The December meeting of Hemerocallis Circle was held at the Lake Mary home of Mrs. Frank Leone. The meeting was opened with the members repeating the Lord's Prayer.

Mrs. Robert Martin presided during a short business session and the program chairman, Mrs. Eric Viblen, introduced Mrs. J. L. Andrews, garden therapy chairman of the garden club. Mrs. Andrews explained that garden therapy is working with people and helping them do things for themselves rather than doing it for them.

Refreshments were served to the members during a social hour.

Personals

By Julia Barlow

Mr. and Mrs. Stanley R. Evaro, Orlando, former residents of Dol Ray Manor, announce the birth of a daughter, Christine, Dec. 6 at Florida Sanitarium Hospital. The new arrival has two sisters, Sandra, six, and Charisse, nine. Sandra spent two days with her grandparents, Mr. and Mrs. Otto Barlow, Dol Ray Manor. Maternal grandmothers are Mr. and Mrs. Wilbur Reinhold, Orlando.

It is easier to say "I can't afford it" than to sweat through payments for something you can't afford.

Carolyn Hall Betrothed To Lt. Thomas Stegman

Mr. and Mrs. Major Floyd Hall, Lenoir, N. C., announce the engagement and approaching marriage of their daughter, Carolyn Janette, Orlando, to Thomas Stegman, Lt. (jg) U.S.N., son of Mr. and Mrs. Milton Thomas Stegman, Calonsville, Md.

The bride-elect is a graduate of Lenoir-Rhyne College. She made her home in Sanford three years ago, was employed at Seminole Memorial Hospital and was a member of Zeta Xi chapter, Beta Sigma Phi sorority. She is the sister of Mrs. Jack Erickson, Sanford.

The groom-elect was graduated from Loyola College and is currently stationed at the Naval Air Station, VAF-11, Det. 2.

The wedding will be an event of Jan. 4 at the Naval Air Station Chapel.

CAROLYN JANETTE HALL

Children Are Visited By Santa

Florida Power and Light Company employees entertained their children with a Christmas party at the Civic Center.

Candy, cake and punch was served to the youngsters and Santa Claus arrived to distribute toys and gifts to the children.

Plentiful Foods For December

Beef, pork, turkeys, pecans, peanuts, apples and cranberries. That's the U. S. Department

of Agriculture's list of plentiful foods for December says Myrtle Wilson, home demonstration agent. The featured items are beef and pecans.

The department expects 15 per cent more beef to go to market this December than last. Not only will there be more cattle available but they'll weigh more. For consumers, this means lots of good beef at attractive retail prices.

Pecans, the other featured item, are also having a big year—the biggest ever. The crop is forecast at a record 297 million pounds, four times larger than in 1962. You'll find plenty of pecans on grocery shelves—both shelled and in the shell. So put an extra portion of pecans in your holiday nut bowl and add them generously to Christmas cookies, salads and cake icings.

December pork marketings also will be larger than last year. Turkey marketings probably will be down slightly from a year ago and prices may be a little higher, but turkey will still be one of your best holiday buys.

Apples and cranberries continue in the plentiful list—with Washington delicious apples at especially good retail prices. The apple crop is forecast at 122 million bushels; the cranberry harvest at 1,328,000 barrels.

As for peanuts—eat all you want. The 1963 crop is estimated at 1,860,000 million pounds.

SANTA CLAUS made an early visit to children of members of American Legion Auxiliary Post 53. Ladies of the auxiliary entertained the children with a party, had a Christmas tree, served refreshments and Santa distributed stockings of assorted delights for the young, and gifts from his bulging pack.

Roly Poly Santa Claus Evolves From Pixie

KANSAS CITY, Mo. (UPI)—It took more than 100 years for Santa Claus to develop into the roly-poly, rosy-cheeked, twinkly-eyed seasonal visitor we know today. Since the early 1800's Santa has posed in the guise of a tiny pixie-like midget, a black bearded buccaner, a twirly-moustached dude, a wispy-haired bearded giant, a sandal-shod ghost, a bald elfin with a large turned up nose, a gaunt stringbean, and a most of other apparitions. Artists of the mid-19th century must have been rugged

individualists since they refused to take their cue from the now classic description of Santa in Clement Moore's "The Night Before Christmas." Moore's poem, originally titled "A Visit From St. Nicholas," was published in 1823. St. Nick, wrote Moore, was chubby and plump, merry, lively and quick, "A right jolly old elf."

But Santa remained consistently inconsistent with Moore's description until the 1860's when a famed caricaturist of that period, Thomas Nast, began drawing Santa Claus on magazine covers.

Fluid squirting from the core of a golf ball after it has been punctured may injure the eye, the American Academy of Pediatrics cautions.

Such an accident was reported in the unusual accidents column of the Academy's newsletter. A child had patiently peeled 250 yards of elastic off a golf ball. He then punctured the rubber core of the ball. The fluid from the core squirted into his eye, injuring it.

Dear Abby: By Abigail Van Buren

DEAR ABBY: The daughter of my husband's boss was married recently and someone in the office decided that a collection should be taken up for a wedding present. My husband said that since we were not invited to the wedding, and didn't socialize with the boss, he didn't want to chip in on the present. The girl collecting the money said he was entitled to his opinion, and she let it go at that. Well, it seems a gift was bought for \$50, and through some mistake, my husband's name got on the card. He got a nice personal "thank you" from the boss himself, but he didn't tell the boss that his name got on the card by mistake, and he didn't deserve any thanks. The office people think my husband should kick in with five dollars since he got credit for being in on the gift. What do you think?

DEAR ABBY: A girl who works with us got a genuine mink stole from her boy friend for Christmas. What do you think she gave him?

THE OFFICE GANG
DEAR GANG: It wasn't the cold shoulder.

DEAR READERS: The Houston Police Department prepared Ten Easy Rules for Raising a Delinquent. And here they are:

1. Begin at infancy to give the child everything he wants. In this way he will grow up to believe the world owes him a living.
2. When he picks up bad words, laugh at him. This will make him think he's cute.
3. Never give him any spiritual training. Wait until he is 21, and then let him "decide for himself."
4. Pick up everything he leaves lying around—books, shoes, clothing. DO everything for him so that he will be experienced in throwing all responsibility on others.
5. Quarrel frequently in

his presence. In this way he will not be too shocked when the home is broken later.

6. Give a child all the spending money he wants. Never let him earn his own. Why should he have things as tough as you had them?
7. Satisfy his every craving for food, drink and comfort. Denial may lead to harmful frustrations.
8. Take his part against neighbors, teachers, policemen. They are all prejudiced against your child.
9. When he gets into real trouble, apologize for yourself by saying "I never could do anything with him."
10. Prepare for a life of grief. You are bound to have it.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

For Abby's booklet, "How To Have A Lovely Wedding" send 30 cents to Abby, Box 3365, Beverly Hills, Calif.

PLASTIC STARCH and paper napkin strips make a new kind of papier mache to work into Christmas ornaments. Here the strips are layered on a balloon to make a ball for the tree.

Make Your Yule Baubles

Armed with plastic starch and paper napkins you can make holiday balls for the tree or other decorations, trimmed with paint, sequins, flowers, braid or what you will. The procedure is the same as for paper mache, but using paper napkins.

Soft, but not too soft, paper napkins are easier to work with and dry to a smoother texture and prettier colors. Plastic starch is used in place of paste.

Tested Recipes For The Holidays

Any cook worth her salt wants pleasure from preparing food. Yet, for many women, the holidays represent slavery over a hot stove.

Use an electric blender as the chef's helper, and you can simplify kitchen chores and save hours of hard work.

One blender, for example, will mince onions; mix pan-batters; grate cheese; blend sauces; even fresh-grind the coffee. It will also liquefy, churn, puree, emulsify, homogenize—and chop.

Here are two tested recipes, using a blender, from home economists.

NOT SPICY APPLE EGGNOG
 2 eggs, separated
 1/4 cup sugar
 Dash of salt
 1/4 teaspoon cinnamon
 Dash of nutmeg
 1/2 cup apple juice
 4 cups scalded milk
 1/2 cup whipped cream

Mix egg yolks, sugar, salt, cinnamon, nutmeg and apple juice in blender and blend until sugar is dissolved. Add 1/4 cup scalded milk slowly. Pour this mixture into remaining scalded milk and quickly fold in stiffly beaten egg whites. Pour into hot eggnog server or carafe and serve topped with mound of whipped cream.

HOLLY SPREAD
 8 oz. Swiss Cheese cut into 1-inch cubes
 6 pimento-stuffed olives
 1/2 small green pepper
 1/2 cup mayonnaise

Put cheese into blender container and cover. Grate by turning on and off, on and off. Stop and add olives and green pepper. Cover and turn on and off once more. Empty into mixing bowl and moisten with enough mayonnaise to make a thick paste. Chill before serving. Yield: 1 1/2 cups.

Highlights

7:30-9:30 p.m. NBC. Monday Night at the Movies. "The Power and the Prize." International big business presents the background for this 1956 release starring Robert Taylor, Burl Ives and Elizabeth Mueller. Though engaged to his boss's niece, a young business executive (Robert Taylor) falls in love with a refugee with a mysterious past (Miss Mueller) while on a business trip to Europe.

8:30-9 p.m. CBS. The Lucy Show. Worth the wait is the climax of this funny script where Lucy (Lucille Ball) dangles precariously from the rooftop of her home and literally goes fishing for an important lease through the window of Viv's (Vivian Vance) bedroom. She wouldn't have gotten in this jam if she and Banker Mooney (Gale Gordon) hadn't insisted that Viv was responsible for ceiling damage caused by her son. Reading of the lease reveals Viv could become the legal owner of the house and Lucy, with the help of Mooney, decides to steal the lease and destroy it.

9:30 p.m. CBS. The Danny Thomas Show. The intended warmth of this show doesn't quite come off, due in great part to the script's laboring too heavily the "is there really a Santa Claus?" theme. First comes Danny's frustration at having forgotten to buy a Christmas tree and having to settle for a

pretty shiny one of the last minute. Then, another frustration at daughter Linda's (Angela Cartwright) seeming lack of the Christmas spirit, so Danny enlists Copo waiter Alke (Bernard Fox) to renew Linda's faith in Santa Claus, British style.

9:30-10 p.m. NBC. Holly-wood and the Stars. "The one and Only Bing." A very interesting biography of Bing Crosby, thanks mostly to a generous amount of still photos showing Bing as a college student and film shots of him golfing and horseback riding.

10-11 p.m. NBC. Sing Along with Mitch. (Color) (Rerun) Mitch's Christmas show follows the years from the "Three Kings," to the age of Dickens, to our own times. Christmas carols prevail throughout the program, beginning with "Joy to the World" and concluding with "Silent Night."

 DOWNTOWN SANFORD

Jacoby On Bridge By Oswald Jacoby

This is Christmas week and it seems an appropriate time for gifts. Of course, when a defender gives a present he expects a greater present in return.

It doesn't require much effort on South's part to make six or trump. He simply wins the opening hand lead in dummy. He plays a club to the ace, finesse the jack of clubs on the way back and winds up with five clubs, three diamonds, three hearts and two spades.

However, if East shows a little pseudo-Christmas spirit and plays the nine or ten of clubs on the first club lead an expert South is likely to wind up with 11 tricks instead of 12.

played the nine from ten-nine-small and decide instead that it is either from ten-nine or queen-nine doubleton, queen-ten-nine or just a singleton nine.

He will see that it makes no difference what he does if the nine was from queen-ten-nine or ten-nine, but that if it happened to be played from queen-nine doubleton he will do one trick better if he rises with the king of clubs on the second club lead and plucks that queen.

Expert South will want that extra trick and will go up with the king of clubs. West will make his queen and South will have no recourse except to make a New Year's resolution to beware of that particular East.

Figurines Appeal As Top Items For Collectors

Authentic "Hummel" ceramic figurines have been top-ranking collector's items among fans of all ages for nearly a quarter-century and a favorite gift item.

Made exclusively by the W. Goebel Company of Bavaria, West Germany, they are instantly recognizable by the meticulous craftsmanship, subtle coloring, and the incised "M. I. Hummel" seen on the base of every piece.

The secret of these figurines' appeal lies in their unaffected, childlike, caught-in-action feeling. Be it a little girl clutching a few wilted posies, a young boy merrily on the way to market, or a child frolicking with pets, their moods and manners are typical of the people the world over, and reflect the

timeless dreams of eternal childhood.

This wide-eyed, ingenious charm emanates from the artist's deep love and understanding of children. Berta Hummel, whose original sketches have been the basis for these ceramic figurines made by the W. Goebel Co., was one of six children who grew up in a home in Massing, Bavaria, where music and art were as natural as air and water.

Born in 1900, she demonstrated her talent and imagination at an early age, beginning by sketching and painting portraits of her young school friends.

Throughout her formal art training, including the Academy of Fine Arts in Munich, Berta Hummel continued her warm interest in children, artistically as well as personally.

An outstanding example of the fact that art and religion often go hand in hand, Berta Hummel entered the Convent of Sleszen near Salgan and

took her final vows as a Franciscan nun in 1934.

In the convent, as Sister M. Innocentia, she continued to make the sketches of children that have since made her and the convent famous throughout the world.

Exclusive rights for reproduction of three-dimensional figurines from the original art were given to W. Goebel in Bavaria, where a skilled staff of artists began to translate the sketches into life-like, beautifully colored, hand-finished figures.

When first manufactured, every design was approved by Sister Hummel. Now, a duly appointed nun at the convent approves new figurines.

Each design is made with painstaking care, from the moulding of individual arms, legs, and other pieces; putting them together by hand to make the one perfect unit; slow, careful glazing processes in various kilns; and meticulous hand coloring. All this is done by craftsmen who are specialists in the particular phase they carry out.

From time to time, a new "Hummel" figurine is sketched by the artist before her death in 1946, are turned over to the W. Goebel Company for their interpretation in ceramics.

Portrait Photo Treasured Gift

The Christmas gift you can be sure won't be duplicated is a portrait photograph. If you're planning to have one taken, now is the time to make an appointment.

These days are suggested to be more photogenic.

FOR MEN: Dark gray or medium blue slacks photograph better than black and navy blue ones. A man should wear a conservative tie, shave no more than two hours before he faces the camera, and he should forget the face powder, as it makes the face look chalky in a photograph.

He should be about midway between haircuts and wear his glasses if that is how people recognize him. If he has a hobby, he might consult the photographer about including some aspect of it to give personality to the photograph.

FOR WOMEN: Cocktail-type dresses usually have flattering necklines and are perfect for photographs. Steer clear of stripes, plaids and bold prints that will detract from the focal point; your face.

6 Suffocate In 2 Homes At St. Pete

ST. PETERSBURG (UPI) — Six persons suffocated here Sunday in two separate incidents.

Four elderly persons died when a faulty gas vent dead-ly gas fumes into a home, and a man and wife died in a fire at their home, officials reported today.

Joseph Pierce Cook, 78, his wife Nellie, and two house guests, Mr. and Mrs. William Jasiński, both in their 70s, were found dead Sunday afternoon at the Cook home.

Detective Warren Hedrick blamed the deaths on a faulty flue which allowed gas fumes to seep into the house while heaters burned up oxygen. The windows were closed in the chilly, 40-degree weather, he said.

Wilbur K. Jones, 54, and his wife, Genevieve, 50, were found dead in their bed. Authorities said they were apparently killed by fumes from a fire which started under the bedroom floor.

Cuban Invaders Visit JFK Grave

WASHINGTON (UPI) — Fifty survivors of the 1962 Bay of Pigs invasion of Cuba made a special pilgrimage Sunday to the grave of John F. Kennedy.

The Cubans, many dressed in camouflage battle uniform, laid a wreath at the late President's tomb in Arlington National Cemetery on the first anniversary of their release from Cuban prisons.

Republicans Unprepared, Magazine Says

WASHINGTON (UPI) — A magazine whose editors call themselves moderate Republicans believes that the GOP is "totally unprepared" to face next year's presidential election.

The magazine, *Advance*, said Sunday night that a "progressive Republican" could beat President Johnson and the outcome would be decided "in the metropolitan North, Midwest and West" where the 1960 election was decided.

Santa's Work Down Drain

SYRACUSE, N. Y. (UPI) — Gerald Jones, mayor of the Syracuse suburb of Manlius, was playing Santa Claus for the children at a shopping center Saturday when a man approached him and asked, "are you the mayor?"

"Yes," replied Jones. The man promptly served Jones with a subpoena in connection with a dispute over a proposed sewer program.

Enthusiasm For Goldwater 'High'

WASHINGTON (UPI) — The National Draft Goldwater Committee says there is "high enthusiasm all across the country" for Sen. Barry Goldwater to be the Republican presidential nominee in 1964.

The committee made the statement Sunday night.

Church Services

The true meaning and spirit of Christmas will be upheld for citizens of the community and throughout the county with special Christmas Eve and Christmas Day services at many churches.

Holy Cross Episcopal Church will celebrate traditional Midnight Mass, beginning at 11 p.m. with special music by the Senior Choir. Mass will follow at 11:30 p.m. On Christmas Day a full Choral Eucharist will be conducted at 8:30 a.m. with music by the Junior Choir.

All Souls Catholic Church will observe Christmas Eve High Mass at midnight, with the procession and blessing of the cradle followed by High Mass conducted by Father Richard Lyons. Confessions will be heard today from 4 to 6 p.m. and from 7 to 8:30 p.m. Christmas Carol Masses will be held on Christmas Day at

8:30 and 10:30 a.m. also including the procession.

First Methodist Church will observe the sacrament of the Lord's Supper at a candle-light service at 7 p.m. Christmas Eve. Rev. John Adams emphasized that all Christians are invited to take communion at this service.

Lutheran Church of the Redeemer will hold Christmas Eve candlelighting services at 11:30 p.m. with music by the choir and a brass quartet. Christmas Day services will be observed at 10 a.m.

Good Shepherd Lutheran Church will hold its candle-light service at 11:30 p.m. Christmas Eve. Communion and candle-light services will be held at the First Presbyterian Church at 11 p.m. Christmas Eve. Congregational Christian Church will hold a candle-

light service at 11 p.m. Lake Mary Presbyterian Church will hold special services at 7:30 p.m. today and the church will remain open until midnight.

Pentecostal Church of Longwood will hold worship services at 7:30 p.m. Christmas Day.

Christ Episcopal Church of Longwood will celebrate Holy Communion at 10 a.m. on Christmas Day. Two musical services will take place on Christmas Eve, one at 7:30 p.m. with the Junior Choir and a choral presentation of selections from Handel's Messiah, by the Senior Choir at 11 p.m. service.

The Prairie Lake Baptist Church will have special services at 7:45 p.m. Christmas night.

The regular mid-week prayer service will be held Christmas night at the First Baptist Church at 7:30 p.m.

Delegation Going To Tallahassee For College Site Announcement

SOME DOZEN prisoners in the city jail, whose terms would have been served within the next few days, heard their sentences commuted to "time served" this morning by Municipal Judge

Kenneth McIntosh as a Christmas present. Police Chief Roy Williams handed Christmas presents to the released prisoners as they walked from the jail. (Herald Photo)

Board Ruling Scheduled For Jan. 10

A large delegation of Seminole County representatives will be present Jan. 10 at Tallahassee when the State Board of Control announces its decision of a site for the proposed four-year state university for East Central Florida.

Chairman Baya Harrison, of St. Petersburg, at the conclusion of a "work conference" at the Mayfair Inn Monday, announced the board members will announce their decision at that meeting.

Attending from Seminole County will be Mayor Thomas S. McDonald and the City Commission, with City Manager W. E. Knowles; Chairman J. C. Hutchinson and the County Commission, and Francis Rountiff, president, and Karlisle Housholder, president-elect, and other representatives of the Chamber of Commerce.

Professional staff members of the Board of Control stated Monday that the board members will not prevail on Orange and Seminole County commissioners for soil boring tests on all three remaining sites—Lake Ada and Eeon in Seminole County and Bluestone in Orange County—until a definite decision is reached.

In other words, the spokesman said, the board will ask for a soil boring test on the No. 1 selection, should it be Lake Ada, Eeon (Econlock-hatchee) or Bluestone. If the test should prove the ground not suitable to meet specifications, then the No. 2 site would be put to the test. And, if necessary, then the No. 3 site.

Harrison announced at the beginning of Monday's meeting that the board is not considering any other sites at this time. He added, however, that if the Lake Ada, the Eeon and the Bluestone sites do not prove applicable and suitable the Board will open the doors for additional site offerings.

A Sanford spokesman today pointed out only to the educational and cultural prestige of having a state university in Seminole County but to the commercial advantage, also. It has been estimated that within a very few years the payroll for faculty members and for administrative personnel will run well over \$1 million monthly.

This would be over and above employment for Seminole labor in the construction of the university buildings.

Dr. J. Broward Culpepper, executive director for the Board of Control, Monday stated at the Mayfair Inn meeting that \$300,000 already has been earmarked for initial study. He also said the 1965 Legislature will be asked to appropriate funds for building and that he hoped the East Central Florida university will be ready for students in 1968.

news... BRIEFS

'Tack-On' Okayed

TALLAHASSEE (UPI) — Atty. Gen. Richard Ervin Monday legally approved a \$1,500 "tack-on" fee to the \$15,000 annual salary of State Budget Director Harry Smith.

There's a wonderful group of young ladies called the Candy Strippers. Each member works at the hospital one evening a week, from 6 until 9 p.m.

The leaflet says: "This teenage young ladies group does many miscellaneous operations..." During our recent sojourn there we didn't find one Candy Stripper who performed appendectomies, tonsillectomies, or even tonsillectomies.

For the fourth straight year the official Seminole County Christmas tree at the Court-house has been donated by former County Commissioner W. G. (Bill) Kilbee. This year it was a real nice cedar. The tree was decorated and placed in County Clerk Art Beckwith's office.

Although there is no lighting contest being sponsored in the Casselberry area, residents almost seem to be vying with each other to see who can come up with the most attractively decorated home and lawn display for the holiday season. Herald reporter, Jane Casselberry, says it's well worth the trip around the town one evening just to see the many novel themes and ideas that have been used.

A representative of the Social Security Administration's district office in Orlando will be at the City Commission Room in Sanford on Wednesday, Jan. 8, 15, 22 and 29, 1964, between the hours of 9 a.m. and noon.

This service is made available to those who wish to apply for old-age and survivors insurance benefits, social security account numbers, or to obtain information about the Social Security program.

And here's a notice for members of Sanford Lodge 62, F & AM, Installation of Officers will be held Friday at 7:30 p.m. and not Dec. 30, as indicated on the organization's trestle board.

In The Herald's special Christmas greeting page today we inadvertently left out the names of three of this newspaper writers. They are Joe Warden Jr., of Oviedo, Richard Grant of Longwood, and Robert B. Thomas Jr., of Sanford.

Connally Hopeful
AUSTIN, Tex. (UPI) — Wounded Gov. John Connally, who has spent most of the past month in a hospital bed, looked forward today to a Christmas visit with President Johnson at the LBJ Ranch, and a trip to the Cotton Bowl New Year's day to see the football battle between Texas and Navy.

Survivors Describe Chaos Aboard Liner

FUNCHAL, Madeira (UPI) — Three rescue ships brought 333 survivors from the Lakeria disaster to Funchal today. Some of the surviving passengers immediately criticized the actions of the crew after fire broke out aboard the Greek cruise liner 180 miles to the northeast.

"The crew were no help at all," one woman, who was not immediately identified, said after leaving one of the

"We cannot comment on isolated incidents," the statement said, "and can only say that the lifeboats were definitely properly equipped and all had been checked during the refit period before sailing."

Other passengers said the fire, which broke out Sunday night aboard the 20,211-ton liner, turned everything into "chaos."

"One of us had to jump into the water," another passenger said. "Everyone was yelling and asking for ladders but the ladders didn't appear."

The company also said it had received reports that 921 passengers and crew members had been rescued. The vessel carried a total of 1,056 passengers and crew.

The three vessels which arrived here this morning were the P. & O. liner Stratheden with three survivors, the Argentine vessel Salta with 455, and the American vessel H.G. Grande with 75—for a total of 533.

But on hearing the board's recommendation, FEC Vice President W. L. Thornton said in St. Augustine that the company still has no idea of firing more than 100 employees hired to replace striking union members.

"If the striking employees want to come back and take jobs—that are vacant—well be happy to have them," Thornton said.

Cypriots Fire On Palace Of Archbishop
NICOSIA, Cyprus (UPI) — Cypriots today opened fire on the palace of the president, Archbishop Makarios, and other fighting was reported in nearby areas of the capital.

Makarios, leader of the island's Greek majority, was not in the palace at the time of the shooting. Shots were fired from a Moslem minaret and other high buildings near the palace. Makarios' guards returned the fire, but there was no report of casualties.

McDonald Sings 'Swan Song' On City Council

Thomas S. McDonald "sang his swan song" Monday evening as a member of Sanford City Commission and mayor. Next scheduled meeting of the Commission is Jan. 7 when Commissioner-elect Earl Higginbotham will be sworn in.

Commission Monday evening increased the city's average of employee pension allotments, especially to aid older employees about to retire.

Rental rates for the Civic Center were slashed in half, in an effort to induce more use of the facility.

Commission also awarded contracts for vehicles to Seminole County Motors, two police cars and one sedan; Strickland-Morrison, pickup truck and two full trucks, and Sanford Motor Company, two compacts.

E. C. Harper and Don Young were named to the city's electrical board. Harper was reappointed.

Santa Brings Tippits Joy
DALLAS (UPI) — Santa Claus brought booming laughter and some gifts Monday to the home of hero policeman J. D. Tippit, the officer who was killed while chasing President Kennedy's accused assassin.

The police, which has given more than \$70,000 to the widow and three children, made the suburban cottage a little holiday place. Contributions still were coming in and counting continued.

"I gave Curtis a cap pistol and pop gun," Santa said. "That's what his daddy was going to get for him."

George R. Hale, a 240-pound, 6-foot 1½-inch policeman who knew Tippit as "an all-around good fellow," was closest to Santa during the hour-long visit.

Henda, 10, got a "wrist watch, because her daddy was going to get her one," Santa said. Allen, 14, got a ski sweater. All three got assorted clothing supplied from a special fund where the Dallas policemen "all chip in." A half-bushel of assorted fruit, candies and nuts were carried across the snow-covered lawn by Santa.

Dies At 102
TAMPA (UPI) — Mrs. Sarah Elizabeth Gause, who celebrated her 102nd birthday Nov. 13, died here Monday in a nursing home.

Israel, Jordan Open Barriers For Christmas

JERUSALEM (UPI) — Israel and Jordan today threw open the barriers dividing this ancient Arab city between Arab and Jew. More than 3,500 Israeli Christians crossed into the old city for their annual Christmas reunions with relatives.

Many also went to worship at Christian shrines in the old city, normally cut off from them by the Mandelbaum Gate. The dividing line has bristled with military guards of both nations since fighting in Palestine ended in an uneasy truce 15 years ago.

Reminders of the armed truce were everywhere. Pilgrims could see Israeli and Jordanian soldiers, checkpoint sandbags and "dragon's teeth" tank traps marking the border's no man's land.

Most of the pilgrims will be allowed to remain in Arab Jordan for 36 hours. Many carried suitcases or bundles of gifts as they were checked through the gate in a long slow moving line — first by Israeli guards and then by Jordanian soldiers.

Service Station Operator Slain
ORLANDO (UPI) — A service station operator was found shot to death here early today, apparently the victim of a robbery attempt.

The Orange County sheriff's office identified the victim as T. M. Rowland, in his late 50s. He was found inside the service station he operated just north of the city on U. S. 441.

Authorities said Rowland had been shot in the head by a large caliber weapon, but it was not known if it was a pistol or a rifle.

River City, suffered bruises when the latter's car skidded into the officer's automobile. Car damage was estimated at \$2,200. (Herald Staff Photo by Bill Vincent Jr.)

THE LAW became involved in a car collision at 12:30 this morning on Highway 46 East at the Geneva bridge. Deputy Sheriff Lee Rice suffered cuts and abrasions and Elly Gilbert, of Indian
