state, where the competition will really get tough, The Seminoles can count on from 20 to 80 points from its three crack relay teams and the way they've been running lately, 30 is more probable than 20. The three quartets tailled lately, 30 is more probable than 20. The three quartets tailled 26 points in the Class AA dominated Metro meet last week and a bad handoff in the mile relay kept them from getting Long Tangerine

Still Some Question Marks

Bill Frisby and Mike Gray are good for a helf dosen points in the 100, Rick Walstrom should be able to get that many more in the low hurdles and broad jump, if he gets his steps down pat. The way Sterl Weber has been running lately in the 880 should add at least a couple of more points to the Seminolos' tally.

This brings us near the 40-point mark, depending on how high the relay teams finish. Question marks are Darrell Vedopich in the hurdles, Charlie Mullins in the mile, Paul LaRoy in the 440 and Bob Alexander and John Farcas in the high jump.

If this latter bunch can continue to improve in the months ago.

The pact was signed Wednes- (N)

If this latter bunch can continue to improve in the group to the regional to the state and manage to come up with some points, the Seminoles' chances will be much better.

Even if SHS finishes second or third in the group or regional, don't count them out in the state. With a little luck and a lot of hard work between now and then, SHS just may have some state champs in their midst,

The pact was signed Wednes-day by Elmer Cook, General Manager of the Panthers, and officials of the High School Athletic Association of Orlande, a non-profit corporation responsible for developing the stadium.

Cincinnati at San Francisco | Keep DANIEL working for YOU!

The announcement that Joe Sterling has been hired as coach of the new Seminole Junior College is a big boost for the county, especially basketball wise.

Sterling was considered the best coach in Orange County while leading Apopka to two state titles in his 15-year stay there, and it's a good bet he'll have some winners at SJC, too.

The first year or two, or until the new junior college gets its own gymnasium, Sterling's teams will play in the Bill Fleming Memorial Gymnasium at Seminole High, slating their home games mostly on Monday and Wednesday nights, se as not to conflict with the Tucsday, Friday and Saturday night dates of the Fighting Seminoles.

Welcome to Seminole County Joe, We hope you stay for a coschia between the stadium committee; and Jaok Northrup, secretary.

A \$400,000 improvement program which includes a new lighting system, press box and 5,200 more seats is new under way at the Tangerine Bowl. The additional seats will boost capacity to 20,000.

The Panthers will play 14

DeLand.

Vacancies At Lyman, Oviedo

There's some more coaching vacancies to be filled in the punty. Oviedo is atill looking for a football coach and chelle team to four hits. Ron-

Cars are getting to be bigger, so houses are getting to look smaller. But one little Volkswagen can put everything

back in its proper perspective.

A VW parked in front does big things for your house. And your garage. To say nothing of small arking spots and narrow roads.

But then, it can make some things smaller.
Gas bills, for instance. (At 29 mpg, they'll probably be half what you pay now.) You'll probably never add oil between changes.

You'll certainly never need anti-freeze. Tires ad 40,000 miles. And even insurance costs less. One thing you'd think might be smaller in a Volkswagen is the inside. But there's as much legroom in front of a VW as in the biggest cars.

Railroad Tracks Are For Trains

MINNEAPOLIS, Minn (UPI) - Railroad tracks are for Darlene Schaeffer, 23, Devid Helman, 18, and five of Minneapolis' finest apparently forgot that fact. Darlene, driving her boy-

friends car, was pulling across a railroad crossing when her car bumped the rear of a car driven by Helman. They stopped, surveyed the damage-which was slightand called police. While five Minneapolis poseemen gathered the data, a northbound Great Northern freight came chugging by at about 30 miles an hour. Th engine hit Helman's car, push ing it 90 feet up the track Seconds later, a southbound Northern Pacific freight came

and carried back to the grade crossing where it was hurle into the car Miss Schaeffer was driving. The boyfriend's car was demolished and heaped into a ditch. Helman's car was carrie another 150 yards up the track, shedding parts th whole distance. There were no injuries.

In Deep Water HOUSTON (UPI) - Mrs. James C. Tremain Jr., whose bill was \$1,547.46, joined her neighbors in complaining that her water bill seemed steep. The water department traced its mistake - an entire section of the city was billed for an extra million gallons of

School Supervisor Wins Award

By Mrs. H. L. Johnson An assembly at the Lake Monroe Elementary School brought a number of sur-brises and honors for students

Mrs. Mary Groome, principal, introduced Mrs. Charlotte Whitmore, director of Seminole County school foods service, who presented Mrs. Georgia Redd, school cafeteria supervisor, a state award for maintaining 90 per cent participation in the school lunch program. This award was given by the Florida School Food Service Association during the annual meeting in Miami. Other schools in the county receiving the award are English Estates, Geneva, and Southside Elementary. Mrs. Whitmore reported that average participation for the state was 60 per cent and

for Seminole County, 71 per Lake Monroe students showrd their appreciation in receiving the award by a loud clapping of hands. Also receiving recognition during the program were the chool's champion spellers, Janice Austin, first place, and Hope Drennen, runner-up, who proudly displayed their

Following presentation of the awards, a program on safety was given by the County Sheriff's Department, cooperation with the Counby School Board. Deputy Wesley T. Place and Mrs. Glenn McCall showed the film, "You and Your Bike," and talked on various safety measures. Another such program will

be offered at the beginning of the school year next fall on a different phase of safety. A question and answer period, with student participation, closed the assembly. Legal Notice

new cabinets, new appliances new wiring, everything. But it can't always be done that If you've thought of modernixing in stages, you need not put off acquiring new appliances just because you're not ready to put in new cabinets.

Modernize

Kitchen All

At One Time

The ideal way to med

a kitchen, most homemaker

would agree, is to get the whole job done at one time-

There are several things you can do to take advantage of the work-saving features of modern appliances now and b sure the units will "fit" into your new kitchen later. For example, you can get an electric range with a built-in. squared-off look that blends right into modern kitchens. Free-standing electric ranges today are normally 36 inches high, right at countertop level,

countertops have been install Some ranges have work any faces set at a lower height, but are built up at the sides to line up with the countertop. You may also want to con sider a console electric range with an eye-level oven natural for modern kitchens with the built-in look. The new refrigerator-free ers also have that built-in quared-off look, thanks more efficient thin-wall insula-

so they will look "built-in'

when your new cabinets and

tion and greater compactness of operating parts. Unlike older models, they fit flush against the wall, so they look like they "belong." Manufacturers of automatic dishwashers have gone one step further. In addition to

built-in, free - standing and portable dishwashers, they now and, with the side and
