Notice of School Desegregation Plan Under Title VI of the Civil Rights Act of 1964

This notice is made available to inform you about the desegregation of our schools. Keep a copy of this notice. It will answer many questions about school desegregation.

DESEGREGATION PLAN IN EFFECT

The Seminole County public school system is being desegregated under a plan adopted in accordance with Title VI of the Civil Rights Act of 1964. The purpose of the desegregation plan is to eliminate from our school system the racial segregation of students and all other forms of discrimination based on race, color, or national origin.

THIRTY-DAY SPRING CHOICE PERIOD

Each student or his parent, or other adult person acting as parent, required to choose the school the student will attend next schoo year. The choice period will begin on April 1, 1966, and close April 30,

EXPLANATORY LETTERS AND SCHOOL CHOICE

On the first day of the choice period, an explanatory letter and this notice will be sent by first-class mail to the parent, or other adult person acting as parent, of each student then in the schools who is expected to attend school the following school year. A school choice form will be sent with each letter, together with a return envelope ad-dressed to the Superintendent. Additional copies of the letter, this notice and the choice form are freely available to the public at any school and at the Superintendent's office.

RETURNING THE CHOICE FORMS

Parents and students, at their option, may return the completed choice forms by hand to any school or by mail to the Superintendent's office, at any time during the 30-day choice period. No preference will be given for choosing early during the choice period. A choice is required for each student. No assignment to a school can be made unless a choice is made first.

CHOICE FORM INFORMATION

The school choice form lists the names, locations and grades effered stated. The form asks for the name, address and age of the student, the school and grade currently or last attended, the school chosen for the following year, the appropriate signature, and whether the form has been signed by the student or his parent. The race, color, or national origin of the student is requested for purposes of recordkeeping required by the U.S. Office of Education. The information will not be used in any way to discriminate against the student. Any letter or other written communication which identifies the student and the school he wishes to attend will be deemed just as valid as if submitted on the choice form supplied by the school system. The names of students and the schools they choose or are assigned to under the plan will not be made public by school officials.

COURSE AND PROGRAM INFORMATION

To guide students and parents in making a choice of school, listed below, by schools, are the courses and programs which are not given at every school in this school system.

Altamonto Elementary School — Exceptional Child Education.

Bear Lake Elementary School — Exceptional Child Education.

Lyman High School (10-12) — French, Spanish, Speech, Dreme, Journalism, CHEM Study Chemistry, PSSC Physics, Advanced Math, Humanities, Business Law, Distributive Education, Cooperative Business Education, Technical Electronics, Air Cendistance and Refrigeration. ditioning and Refrigeration.

SIGNING THE CHOICE FORM

A choice form may be signed by a parent or other adult person acting as parent. A student who has reached the age of 15 at the time of choice, or will next enter the ninth or any higher grade, may sign his own choice form. The student's choice shall be controlling unless a different choice is exercised by his parent before the end of the period during which the student exercises his choice.

PROCESSING OF CHOICES

No choice will be denied for any reason other than overcrowding. In cases where granting all choices for any school would cause overcrowding, the students choosing the school who live closest to it will be assigned to that school. Whenever a choice is to be denied, evercrowding will be determined by a uniform standard applicable to all schools in the system.

NOTICE OF ASSIGNMENT, SECOND CHOICE All students and their parents will be promptly notified in writing of their school assignments. Should any student be denied his choice because of evercrowding he will be promptly notified and given a choice among all other schools in the system where space is available.

10. STUDENTS MOVING INTO THE COMMUNITY

A choice of school for any student who will be new to the school system may be made during the spring 30-day choice period or at any other time before he enrolls in school. An explanatory letter, this notice and the school choice form will be given out for each new student as soon as the school system knows about the student. At least seven days will be allowed for the return of the choice form when a choice is made after the spring 30-day choice period. A choice must be made for each student. No essignment to any school can be made unless a choice is made first.

STUDENTS ENTERING FIRST GRADE

The perent, or other adult person acting as perent, of every child entering the first grade, is required to choose the school his child will attend. Choices will be made under the same free choice process used for students new to the school system in other grades, as provided in paragraph 10.

12. PRIORITY OF LATE CHOICES

No choice made after the end of the spring 30-day choice period may be denied for any reason other than overcrowding. In the event of overcrowding, choices made during the 30 - day choice period will have first priority. Overcrowding will be determined by the standard provided for in paragraph 8. Any parent or student whose first choice is denied because of overcrowding will be given a second choice in the manner provided for in paragraph 9.

13. TESTS, HEALTH RECORDS AND OTHER **ENTRANCE REQUIREMENTS**

Any academic tests or other procedures used in assigning students to schools, grades, classrooms, sections, courses of study, or for any other purpose, will be applied uniformly to all students without regard to race, color or national origin. No choice of school will be denied because of failure at the time of choice to provide any ealth record, birth certificate, or other document. The student will be tentatively assigned in accordance with the plan and the choice made, and given ample time to obtain any required docuapplied in such a way as to hamper freedom of choice of any stu-

14. CHOICES ONCE MADE CANNOT BE ALTERED

Once a choice has been submitted, it may not be changed, even though the choice period has not ended. The choice is binding for the entire school year to which it applies, except in the case of (1) compelling hardship, (2) change of residence to a place where another school is closer, (3) the availability of a school designed to fit the special needs of a physically handicapped student, (4) the availability at another school of a course of study required by the student, which is not available at the school chosen.

ALL OTHER ASPECTS OF SCHOOLS DESEGREGATED

All school-connected services, facilities, athletics, activities and programs are open to all on a desegregated basis. A student attendna school for the first time on a desegregated basis may not be subecf to any disqualification or waiting period for participation in activities and programs, including athletics, which might otherwise apply because he is a transfer student. All transportation furnished by the school system will also operate on a desegregated basis. Faculties will be desegregated, and no staff member will lose his position because of race, color or national origin. This includes any case where less staff is needed because schools are closed or en-

ATTENDANCE ACROSS SCHOOL SYSTEM

No arrangement will be made, or permission granted, by this school system for any students living in the community it serves to attend school in enother school system, where this would tend to limit desegregation, or where the opportunity is not available to all students put regard to race, color or national origin. No arrangement will be made, or permission granted, by this school system for any stu-dents living in another school system to attend school in this system. where this would tend to limit desegregation, or where the opportuni-ty is not available to all students without regard to race, color or

17. VIOLATIONS TO BE REPORTED

It is a violation of our desegregation plan for any school official or teacher to influence of coerce any person in the making of a chelce or to threaten any person with penalties or promise favors for any choice made. It is also a violation of Federal regulations for any person to intimidate, threaten, coerce, retaliate or discriminate against any individual for the purpose of interfering with the free making of a choice of school. Any person having any knowledge of any violation of these prohibitions should report the facts immediately by mail or phone the Equal Educational Opportunities Program, U.S. Office of Education, Washington, D.C. 20202 (telephone 202-962-0333). The name of any person reporting any violation will not be disclosed without his consent. Any other violation of the desegregation plan or other discrimination based on race, color, or national origin in the school system is also a violation of Federal requirements, and should likewise be reported. Anyone with a complaint to report should first bring it to the attention of local school efficials, unless he feels it would not be helpful to do so. If local efficials do not correct the violation promptly, any person familiar with the facts of the violation should report them immediately to the U.S. Office of Education at the above address or phone number.

TALLAHASSEE (UPI) Florida's counties and cities, prodded by court decisions and executive rulings, boosted 1965 tax assessment rolls by \$5.7 billion to a new high of \$29,760,015,991, Comptroller Fred Dickinson reported. Dickinson's annual county finance report showed the counties and cities levied \$538 million in taxes on the 1965

Insurances Medicare and hospitalization insurance were topics for the March meeting of De-Bary Chapter 939, National Association of Retired Civil Employees (NARCE). Miss Dorothy Hodges the West Volusia Social Security office explained medicare and the importance of signing by those eligible to

receive the benefits. Fred A. Martin, field representative of the State Insurance Commission, from Daytona Beach, stressed that hospitalization insurance should be taken with a company licensed in this state and urged that supplementary policies to part "B" in medicare, now being prepared by most companies, be studied thoroughly. T. R. Gardner, of Mt. Plymouth, explained NARCE insurance with emphasis as to its relationship to medicare. Garnder is a member of the state executive board of NARCE, is district 5 leader, and is chairman of the mem-

state federation. In business of the meeting, Mrs. Charles T. Ulrich, president of the DeBary chapter, was elected as delegate to attend the state federation meeting April 26-28 in St. Augustine. Meeting of the nationa

Mrs. Betty Isbell

Editor Herald

We wish to take this means and opportunity to express our appreciation to The Sanford Herald for the excellent coverage given to our recent the art Fund Benefit. As a relation to the population of the population of our county. It looks to me like the good people should do better than that.

I bet if you saw one of your loved ones dying from the need of blood you would break all speed limits getting to the blood bank to ask for blood for your loved one. So, why not hurry down now and donate before you need it? Ask them about the gallon club and blood insurance plan. Come on, now, Mr. and Mrs. Seminole County, let's make our blood donor and a life saver. The life you save may be your Heart Fund Benefit. As a result of informing the general public we were privileged to have the largest attendance them) could make our blood them) could make our blood donor hours are Monday, Tuesday, Thursday, 3:30-
