As long as Congress is in a shood for regulation, it should pass a law fixing the maximum number of hours in which the parter must cut a fellow's hair.——Riami Herald.

The question of how the "crack divisions" of Generalisalmo Chiang Kai-Shek's Central Chiases army will fight against the Japaness nize the Ferd Meter Company? In these days, when the older trade is being pushed to one de, it is delightful to read of the striction of Aubrey Smith at Smith who is one of the most spuisr of the old-timers in the nation picture field, has enacted D important roles in the list three years. He is so busy making pictures, and playing crickes that a does not have a chance to think shout advancing years or any thing like that, which would be pressed to make a man feel old. Not so long ago he suffered a moken rib in a cricket match, but the injury kept him out of the mass andy about three weeks. He ribestly intends to wear out rathy liken rust.—St. Augustine Rec.

The question of how the "crack of lining its control than Chiang Taked Chiang Tisk his solitor. The presence of General Chiang Tisk his solitor and the first distributed union literature of the years of the vast Rouge Plant yesterday without a series of the vast Rouge Than yesterday without a series of the vast Rouge Than yesterday without a series of the vast Rouge Than yesterday without a series of the vast Rouge Than yesterday without a series of the present of

### Fun In Germany

Farming under Nazi rule must be an unhance perience. Surely it would be intolerable for our agric tural workers, whose independence and love of freedom tural workers, whose independence and love of freedom is traditional. Recently, German peasants awoke to find their fields and their farming operations being scrutinized by the watchful eyes of Nazi policemen.

It seems that despite all the grandiose claims of zir. Hitler about how he could help the people, Germany is having a serious food shortage and the chances for serious and the chances for serious food shortage and serious food shortage and the chances for serious for s

ting a piece of bread-every day are getting alim. The secree has been promulgated for "safeguardus" bread supply," and the farmers are being put on the state police will supervise the harvesting. The secret the transporting activities to see that every

State police will supervise the harvesting. The and the transporting activities to see that every if wheat and every grain of corn is 'handed in a scribed manner. Farmers will be permitted to lieup emough of the products they grow for their own unce and that of hired hands and for seed.

The grain crop this year will be about 15 persent 'er the previous year because of damage from a new vinter and about 1,500,000 tons must be impossed and for out of a treasury which is pitifully weak, you war.

strong-arm methods to see that there are so also no leaks. The consolation which the persons when sentiment expressed by a government office the German peasant should be happy and willing in this high cause."

### **Hyacinth Control**

The water hyacinth is a fascinating plant. How can anything so beautiful be such a nuisance? And how such a nuisance be so beautiful? The useless hokes canals and rivers; making navigation is and mosquito control more difficult. Huge sums must be upent to clear it from water ways, but so far no successions. ul way to keep it under control has been found.

Recent information on the subject indicates that con-Recent information on the subject indicates that conrol may be possible. According to E. F. DeBusk of the
lorida State College of Agriculture, the plant contains
nough nitrogen to make it worth 50 or 60 cents a ton,
creen, as fertilizer, which would make the plants in the
lt. Johns river alone worth \$1,500,000. That should be
mough to pay the cost of government harvesting, or attract commercial interests which would clear our watervays in exchange for the hyacinths.

A satisfactory and not too expensive way of here ng would be needed, however, and that may have bound, too. We hear that a recent invention chews the plants; if it works, and does not cost too much perate, the water hyacinth may soon cease to be a pro
