NUMBER 35

DEMOCRATS WANT TO KNOW WHERE REPUBLICANS STAND ON THE TARIFF MEASURES

Will New Laws Lower The High Cost of Living

LOOKS LIKE TRUSTS WILL GET MILLIONS FROM THE EMERGENCY TARIFF BILL.

WASHINGTON, April 14.—Congress squared away yesterday on the administration program outlined in President Harding's address of Tuesday.

In harmony with the president's recommendations, the house arranged to expedite the emergency tariff bill, passage of which is expected there tomorrow, while in the senate the resolution to end the state of war with Germany and Austria was introduced by Senator Knox, Republican, Pennsylvania.

Meantime house Democrats bound themselves through caucus action to stand against emergency tariff and anti-dumping bill and Representative Kitchen, minority leader, made public simultaneously a statement of views of minority members of the ways and means committee bitterly assailing the Republican temporary tariff program.

Sharp differences arose in the caucus on the question of instructing Democratic members to vote unreservedly against the emergency measure but it finally was carried by a vote of 77 to 29. After the caucus, Mr. Kitchen predicted that "less than a dozen Democratic votes would be cast for the 'Young bill'."

In the minority report the Republicans are accused of tossing into the lap of "three great trusts," the packers, the sugar trust and the woolen trust, \$775,000,000 a year, and of seeking to disbar any future trade with the Central powers and smaller states in Europe through "a subtle and dangerous joker" in directing the secretary of the treasury to fix the value of foreign money as a basis for levying duties on imports.

The present bill is characterized by the report as even worse than its predecessor, the Fordney measure, and it asserts that if any advantage will inure anywhere from the new proposal it will be to "the trusts, speculators and profiteers." It also calls attention to provisions of the Republican national platform and inquires whether "any honest Republican can sincerely vote for this bill in the belief that it will reduce the cost of living."

"We note that the bill has been changed some since the last session of congress," the report adds, "from the Fordney Emergency tariff bill to the Young emergency tariff bill. Whether the ways and means committee thought the name of its chairman, Mr. Fordney, attached to the bill would discredit it or believed that by attaching the name of Young to the agricultural state of North Dakota, it would more easily fool the farmers, we cannot undertake to say. But there must be some political significance in it."

Figures are presented purporting to show that the actual increase in living costs resulted from enactment of such a law would be about \$2,000,000,000 a year. The statement says that the bill would hand "a gratuity" of \$125,000,000 annually to the "sugar trust," \$550,000,000 annually to the "meat and beef trust, the packers," and more than \$100,000,000 a year to the income of the "woolen trust."

Discussing the provisions of the bill for fixing the value of foreign money the report says: "The German mark is quoted as being worth 1.62 cents. If this provision of the bill becomes a law the secretary of the treasury would be compelled to calculate the German mark as worth eight cents for the bill states that the depreciation in no case can be estimated at more than 66 2-3 per cent. Duties on goods from Germany thereby would be increased 480 per cent; from Italy 200 per cent; from Austria 2,300 per cent; from Czechoslovakia 44 per cent; from Finland 27 per cent; from Hungary 1,700 per cent; from Jugoslavia 95 per cent; from Poland 6,100 per cent; from Rumania 420 per cent; from Serbia 270 per cent, and from Russia 4,200 per cent.

Dade County Schools Will Close at Once Unless Funds Raised

(By The Associated Press) MIAMI, April 14.—Local bankers and business men were asked today by the Dade county school board to attend a meeting of the board next Tuesday to endeavor to find some way to keep the schools open. More than \$400,000 bonds for school operating expenses were voted two weeks ago but a similar bond issue voted in Broward county was held by the Supreme court invalid and the closing of the Dade county schools seems imminent.

International Harvester Will Cut Prices on All Its Products Next Year

(By The Associated Press) CHICAGO, April 14.—Basing its action upon the recent reduction in steel prices announced by the United States Steel Corporation today a straight ten per cent reduction effective next year on products in which steel was the principal material. The reduction on steel came after the year's product had been provided for and will have no bearing on machines sold this year the announcement explained.

Tornado Strikes Melissa, Tex., Causing Much Damage

(By The Associated Press) MELISSA, Tex., April 14.—Eight persons are dead, five probably fatally injured and fifty others more or less seriously hurt as the result of a tornado which struck here yesterday afternoon. Five of the dead are negroes. More than a score of buildings were wrecked.

Prominent Irishman Shot and His House Burned to Ground

(By The Associated Press) DUBLIN, April 14.—Sir Arthur Edward Vickers, former Ulster king of arms, was shot dead this morning at Listowel and his residence was burned.

SAM HARRIS WOULD MAKE STATE HARD FOR WIRE TAPPERS

(By The Associated Press) TALLAHASSEE, April 14.—Representative Sam Harris of Pinellas county wants to make Florida distasteful to all confidence men, especially the wiretapping gentry who annually flock to this state to fleece gullible and greedy or witless tourists who haven't passed beyond the gold brick and green goods stage of culture.

Mr. Harris yesterday introduced his house bill No. 173, "defining the crime of so-called 'wiretapping,' " etc.; to recognize certain evidence and to provide penalties for the violation of this act. The bill was sent to committee.

WOULD PROHIBIT ALL PUNCH BOARDS AND SLOT MACHINES

(By The Associated Press) TALLAHASSEE, April 14.—The communication endorsing the no-fence law which had been placed on the house journal, was ordered stricken therefrom at the instance of Representative Rowland, of Escambia county. The concurrent resolution providing for a committee to inspect the prison farm at Raiford, another providing kindergartens in public schools and one by Representative Fields, of Calhoun, which would prohibit the operation of punch boards, slot machines and similar contrivances were among the measures introduced in the house. All efforts to bring up in the house the county division bills passed by the senate yesterday failed and the matter was made a special order of business for Wednesday, April 20. The bill to increase the salaries of the supreme court judges from \$4,000 to \$8,000 was introduced in both house and senate.

WHAT THE RAILROADS HAVE MADE FROM SANFORD GROWERS

If This Money Had Gone To The Growers They Would Have Had One of the Most Successful Seasons in the History of Florida

The Sanford growers did not make any big money this season. Some of them struck a high lettuce market and it begins to look like some of them would strike a high celery market on the last of the crop but regardless of whether the price was high or not it would have to be almost exorbitant to allow the growers any net profits after paying the freight rates as now charged by the railroads. We all realize that the railroads are paying exorbitant wages in many instances, we all realize that everything costs more than it did in 1917 and 1918 but none of us can realize that the statements made by the railroads that they are losing money when the present freight rates are considered could possibly be true. The farmers all over the country are complaining bitterly about the frightful freight rates they are forced to pay when farm products are bringing low prices. Florida growers have been more fortunate for the fruits and vegetables brought a fair price but the freight rates and the express rates ate up all the small profits and left the growers nothing. In many cases the growers had to pay an overcharge on cars of fruits and vegetables to make up the freight charges after the stuff was sold. Unless the government takes a hand in the railroad game and takes it quickly there will be but little done in the farming game this season and this will apply to Florida as well.

Compare the following tables of rates on Sanford products with that of 1917 and 1918:

Shipments Nov. 10, 1920, to Apr. 9, 1921	Bases New York	
	Total Pkgs.	Old Frt. & New Frt. & Refg. Rate
950 cars lettuce, 400 hampers	390,000	88 1/2c - \$1.06 1-7
2360 cars celery, 350 crates	820,000	260,300 403,343
180 cars miscellaneous, 400 crates	62,000	565,810 876,740
		49,220 76,423
3490	1,278,000	\$875,430 \$1,356,500
Tax 3%		\$ 40,695
Loading Cars		16,985
		\$1,414,186
Total paid 1920-21		\$ 40,695
Excess paid in 1920-21 over 1917-18 rate, on shipments to date		\$ 538,766
1,400 cars yet to move at \$164.71		216,694
		\$ 755,350

BIG STRIKE WILL GO ON SCHEDULED TIME SAYS TRIPLE ALLIANCE

Officials Confer With Lloyd George But No Results

(By The Associated Press) LONDON, April 14.—Officials of the triple alliance of labor unions conferred with Premier Lloyd George for two hours this morning on the strike controversy. Secretary Thomas, of the Railway men's union said afterward he saw no prospect for re-opening negotiations for adjustment of the situation.

The "triple alliance" is made up of the National Miners' Federation, having a membership of 800,000; the National Union of Railway Men, with 300,000 members and the National Federation of Transport Workers, which numbers as its members a large number of unions which have a membership of close to 300,000. It has been estimated that if the "alliance" should call a strike there would be nearly 4,000,000 persons idle in England as a result.

The decision to strike was reached unanimously by the transport workers and railway men, J. H. Thomas, general secretary of the railway men's union, said after yesterday morning's meeting.

"The walkout," he declared "will take place at 10 o'clock Friday night. Many other unions have sent applications to join the strike, and these are being considered."

All London newspapers today dwelt on the serious injury done the country by continued uncertainty over the industrial situation. The London Times and the Morning Post pointed out it was not the actual amount of the wages at present in dispute, but the question of national control of the profits of industries which was at stake. The Morning Post emphasized the alleged fact that "hidden and subversive forces were behind the whole movement" and declared: "The miners' demands must be resisted at all costs."

The federation of General Workers, representing a million and a half of workers in more than 100 industries outside of the triple alliance, decided today to support the alliance in its strike in the interest of the miners.

FREIGHT RATES INCREASED IN THE SOUTHEAST ROADS ASKED FOR MORE

Chief Gunner Cox, United States Navy, Will Receive Medal

(By The Associated Press) WASHINGTON, April 14.—Chief Gunner Robert Edward Cox, United States Navy, is on Harding's call list to receive congressional medal of honor for extraordinary heroism April 13, 1904, on the occasion of an explosion aboard the battleship Missouri, which caused the loss of thirty lives. A flare back from after turret guns set fire to powder near the magazine but Cox flooded the magazine and saved the vessel.

German Government Wants Burial Empress Delayed Until Monday

(By The Associated Press) DOORN, April 14.—The German government authorities insisted that the taking of the body of the late former empress from Doorn to Potsdam for burial be delayed and the remains will not leave here until Monday, it was announced. Former Emperor William visits the room where the casket lies. William avoids all company but often sits for long periods with his daughter.

Prominent Banker And University Man Dies at Raleigh, N. C.

(By The Associated Press) RALEIGH, April 14.—Dr. A. B. Hawkins, 96, for many years the oldest living alumnus of the University of North Carolina and one of the oldest active bank directors in the country died at his home here today. He graduated from the University in 1845.

BENEVOLENT ORGANIZATIONS WILL TAKE CHARGE OF TAMPA FIRE SUFFERERS

(By The Associated Press) TAMPA, April 14.—Benevolent organizations here formed a temporary organization this morning to take charge of the situation resulting from the disastrous fire in West Tampa late yesterday afternoon, which caused a loss of more than \$60,000 and rendered more than 100 persons homeless. The Children's Home will care for the youngsters, and a subscription list is being circulated to provide for the elders.

DADE COUNTY DEFRAYS EXPENSES ROAD ADVOCATES

(By The Associated Press) MIAMI, April 14.—The Dade county commissioners yesterday appropriated \$2,500 to help defray the expenses of the good roads advocates who are working along the route of the Dixie Highway from Chicago to Miami.

FROST WIPES OUT BIG FRUIT CROP

ASHEVILLE, N. C., April 14.—Reports received here today by C. C. Proffitt, county farm agent, indicate that practically the entire fruit crop of Western North Carolina was wiped out by the heavy frost of Monday night, according to Mr. Proffitt. The loss is estimated by him to be in the millions. There are many orchards in this section of 10,000 or more trees, it being the largest fruit section in the south, it is claimed, with the execution of Georgia.

FRUIT CROP DAMAGED.

(By The Associated Press) WASHINGTON, April 14.—Fruit growers in the regions affected by the recent freeze are advised by the agricultural department in a statement to ascertain immediately the damage to their orchards in order to determine what spraying will be needed. Peaches were reported to the department as having suffered most over a considerable portion of the frost stricken area, except in Middle Pennsylvania and New Jersey.

The Daily Herald—15c a week, delivered anywhere in Sanford.

Commodity Rates Will Remain The Same

FLA. ASKS RELIEF

ORDER ISSUED BY RAILROAD COMMISSION GOES IN EFFECT JUNE 30TH.

WASHINGTON, April 14.—Freight rates on higher classes of merchandise throughout the southeast were completely readjusted and generally increased by an order issued by the Interstate Commerce Commission yesterday to go into effect June 30th. The commission at the same time cancelled schedules proposed by the railroads which would have increased rates considerably more than does the elaborate scheme prescribed yesterday.

The proposed schedules set aside were in two parts, one part having been suspended by the commission until May 14, and the other until May 25, pending investigation.

Rates on commodities, including coal, lumber, cotton and iron and other products were not affected except that the commission ordered that in no case are commodity rates to exceed those prescribed under the classification of higher grade merchandise.

Traffic experts here are as yet unable to determine what percentage of increase will result from the new rates, on account of the wide range of the plan. In some cases there was a reduction from present rates.

WASHINGTON, April 14.—Fruit and vegetable growers and shippers of Florida composed a delegation headed by J. A. Chase of Jacksonville coming here from Florida, men hoping to secure such relief from the Interstate Commerce Commission as will place them on a basis nearer a fair one with other markets than is now the case. What they want is allowance either more latitude in their routings of shipments in order that changes of destination may be made without excess charges or to give them a lower flat rate.

Senator Fletcher arranged the conferences and looked after the Floridians.

In order to obtain loans from the War Finance Corporation on naval stores as now being done on cotton, W. F. Coachman and a delegation of prominent Florida naval stores men appeared here yesterday and presented their case.

Schedules Defined In Proposed Bill to Tax Inheritances

TALLAHASSEE, April 14.—A tax on inheritances in Florida is suggested by Representative Newton, of Orange, and a bill embodying his ideas on the proposition of placing Florida in the rank of those states which impose such a levy, has found its way into the legislative hoppers under his name as author.

The following schedules are provided on requests to direct descendants:

- On not less than \$10,000 or more than \$20,000, 1%.
- On not less than \$20,000 nor more than \$30,000, 2%.
- On not less than \$30,000 nor more than \$100,000, 3%.
- On all in excess of \$100,000, 4%.
- All under \$10,000 exempt.
- To beneficiaries, such as uncles, aunts, brothers, sisters or other lineal descendants:
- \$10,000 to \$20,000, 1%.
- \$20,000 to \$30,000, 2%.
- \$30,000 to \$50,000, 3%.
- \$50,000 to \$100,000, 4%.
- \$100,000 and over, 5%.

Under the provisions of the bill the executors are given one year in which to straighten out the estate and settle for the tax, and that if settlement is made before that time the tax must be paid into the county depository where the will is filed for probate within thirty days. The act would become effective immediately upon its passage and approval by the governor.

BRIDGE TO BE ERECTED ACROSS ST. JOHNS RIVER AT THE OSTEEN FERRY

Will Be Toll Bridge Until Paid For—
Then Free

BUSINESS VENTURE

AND COUNTY COMMISSIONERS
OF TWO COUNTIES SHOW
GOOD JUDGMENT

It will be good news to the people of Seminole and Volusia counties to know that a bridge will be built across the St. Johns river at the Osteen ferry and it will be a toll bridge until it is paid for and will then be a free bridge.

This action was taken yesterday at the meeting of the county commissioners here at which time the county engineer, F. T. Williams, was instructed to confer with the county engineer of Volusia county and petition the War Department for the right to build the bridge and obtain the official specifications for the bridge.

The Seminole county commissioners were willing to make this a free bridge at once but on account of the Volusia side being in a special road district working on the budget system this could not be done and the bridge will exact a small toll until the full amount of the cost has been paid at which time it will be made a free bridge. This will work no hardship on the public as everyone would rather have a good toll bridge than a free ferry and especially since the bridge will belong to the people with the understanding that some day in the near future it will be a free bridge.

The commissioners of the two counties are to be congratulated upon their decision in this matter. Had the present board of the two counties been in office several years ago the bridge at Harden's ferry or Monroe would have been built in the same manner and would now be paid for and made a free bridge. As it stands now the people are paying an exorbitant rate and will be forced to pay it for three years longer at which time the counties can purchase it from the corporation that owns it.

The bridge is one of the best paying propositions in the state and should have been owned by the two counties all the time. Building bridges and charging toll until they are paid for is taking care of the taxpayers in the right manner and the decision of the county commissioners yesterday will be acknowledged by the tax payers and the travelling public with great pleasure.

Seminole is Prosperous and the Tax Collector Can Prove Statement

John D. Jenkins, the efficient tax gatherer for Seminole county, is happy—in fact Jno. is never happier than when he is raking in the long green for the county.

This year has been a banner year in tax collecting, which speaks well for the city of Sanford and county of Seminole. When the taxes are paid up in ample time it means that the county is in good shape, for there were less taxes paid in Florida right after the big freeze than at any time before or since. Therefore when Jno. Jenkins says that he is collecting more taxes now than ever before it means that Seminole is in a most prosperous condition.

Mr. Jenkins informed a Herald representative today that he had made out 101 more receipts this year than last. Last year he made out more than any year previous. He took in something over \$104,000 in cash in March, which is supposed to be the big month in paying up, although many wait until April and May and June to pay up.

Our genial tax collector is probably one of the most efficient in the state, has everything as neat as a pin in his office, has and uses all the modern methods and ideas for extracting the long green from the tax payers and meets them all with a smiling countenance in which there is no guile or bile and he is one of the most popular men in the county, although he holds the position of tax collector. But then Seminole is fortunate in having one of the finest sets of officers that any county in America can boast—they are all efficient, all polite, all good hearted, all ready to serve the public at any time.

This is not campaign dope—they all hold for four years.

UPSALA AND GRAPEVILLE

T. O. Tyner spent the week end with relatives in Tampa, returning home Sunday.

Mr. and Mrs. Andrew Bertelson and baby and their parents, Mr. and Mrs. Reid motored over to DeLand Sunday to spend the day.

Mr. and Mrs. Alfred Van Ness and their three little ones of first street, were callers at the home of Mr. and Mrs. Neil Swanson, Sunday afternoon.

Mrs. Edna Butler and little Raymond, Jr., of Brunswick, Ga., have been visiting with the home folks, both here and in town for the last ten days.

Mrs. August Swanson returned to her home Sunday evening, much to the delight of the home folks.

Mr. and Mrs. Barney Beck and children and Mr. and Mrs. Westerdick were calling Sunday afternoon on their relatives in Longwood.

Just before leaving little Barnwell got a bad fall from his Shetland pony cutting a gash in the back of his head.

Mr. and Mrs. A. L. Campbell had the tonsils of their little son removed Saturday at the Fernald-Laughton hospital.

Rev. Albertson and wife of DeLand, made a few calls in the neighborhood on Saturday afternoon and on Sunday gave us all an Easter message.

Don't forget the Sunday school at 2:30 and come.

Geo. Ballinger received word of the death of his sister, Mrs. Emily Hinchliffe on March 28th, aged 77 years.

This leaves him the last of the family of seven children who sailed from Gloucester, England, in 1850, with their parents, who settled at first in Ohio and 20 years later removed to Michigan.

Charles Walton Arrent, Jr., would have been two years old in May. Walton was a dear, sweet little child and the hearts of all who loved him are very sad. It seems he was only lent for a season and heard the call of our Father to the better land. He had been such a healthy child and was taken unconscious and very ill from the first and nothing that skill or loving hands could do was of any avail. His death occurred on the 1st of April, 1921, and the little body that suffered so much was laid to rest in Lakeview cemetery. Rev. Hyman had charge and there were many sympathizing friends present.

His grandmother, Mrs. Batty, of Monticello and an uncle, Mr. Hamerick were present at the funeral. Raymond Hawk, at Merritt's Island, got the message too late but came on Saturday.

"Not in anger, not in wrath,
The Reaper came that day,
'Twas an angel visited the green earth,
And took the flower away."
The little Arrents baby has been very ill for a week but is better now.

State Institutions Need More Room

The inability of a large number of Florida young women and young men to secure admission to the Florida institutions of higher learning because of lack of dormitory rooms and class room space during the last year, has aroused unusual interest in plans of the Board of Control to enlarge accommodations.

The proposed budgets for the institutions of higher learning have been carefully prepared to provide the maximum increase in accommodations and teaching efficiency, at a minimum outlay of state money.

Men and women in the state who are not connected with any of the institutions, but who are very much interested in enlarging the opportunities for educating our young people so that they may make better citizens, have given of their time in counseling with the presidents of the institutions and the members of the Board of Control in preparing the proposed bridges which will be submitted to the legislature for their approval.

The future development of teaching staffs for the rural and grape schools throughout the state depend to a large extent upon providing facilities for training in the University and Florida State College for Women our young people who wish to specialize in that work. If they do not get the proper education they cannot be so efficient as teachers of our boys and girls, which will place a handicap on our coming generation of children.

ASK LAW TO THROW LIGHT ON SESSIONS

EDITORS WANT FULL PUBLICITY FOR TAX EXPENDITURES.

TAMPA, April 5.—As a result of lengthy discussion the legislation to be asked by the editors of the state relative to the publication of the proceedings of those bodies of the state which administer its tax money will include the publication of the proceedings of the school boards of the state. The resolution as at first prepared demanded only the publication of the proceedings of meetings of the city and county commissioners of the state. The change was made after it had been charged that the school boards of the state administered one-third of the state's tax moneys and that there had been waste in the administration of school money.

Mrs. Lois K. Mayes, of the Pensacola Journal, asked that school board proceedings be included, but the charge that school money had been wasted in the state was made by another speaker who followed her, Mrs. Mayes declared that the interest of the people of the state in school matters made the publication of the school board proceedings of equal importance with the publication of county and city commissioner proceedings.

After Benjamin B. Lane, of the State Board of Education, had admitted that school moneys had been wasted in some of the counties of the state and that there was merit in the publication of the proceedings of school boards the matter was left to the special committee to promote publicity legislation.

George Hosmer, of Bradentown, was chairman of the committee and its membership included Frank Kay Anderson, Tampa; J. H. Humphreys, Bradentown; Willis B. Powell, Tallahassee; and J. E. Worthington, Lake Wales. The committee's recommendations, as adopted by the State Press Association, asked that the legislature provide for the "publication of full and complete reports of the proceedings of such tax money expending bodies of Florida, together with full statements of income and disbursements thereof, at regular intervals in at least one newspaper within such county, district or municipality as ordinary legal advertising." The inclusion of the word district and the change in the wording of the resolution so as to eliminate a special naming of county and city commissioners are the result of the discussion on school board proceedings.

EAST SANFORD

Rev. E. D. Brownlee will be at the Moore's Station church to preach this Sunday, April 10.

Rev. Dr. Walker was here last Sunday to preach.

Mr. and Mrs. R. C. Long and their daughters were given a surprise party last Friday evening as a house moving at their new home. Several from town were in the party. They danced and played games and had a fine time.

Mrs. G. C. McDougal and son, George, drove over to DeLand last Sunday to visit Mr. and Mrs. Summerville.

Mr. and Mrs. James Couch were over Sunday from Daytona, guests of Mr. and Mrs. C. D. Couch and daughters.

Miss Ethel Moughton was out from town a part of the week, a guest at the Zernovean home.

C. E. Charpening was at Daytona Beach this week, visiting some Ohio friends who are sojourning there for a time.

E. A. Moffett is at Hastings with his Federal truck, helping to handle the potato crop.

The season is ahead of itself at least two weeks. Snap beans, coccinilla squash, Irish potatoes, celery, cabbage and beets are being shipped from here now.

The usual list of spring vegetables has been planted, but not nearly so extensively as in other years. The excessive freight rates being the cause.

A great deal of the colored help in this section have gone to the Hastings potato fields.

FOUND SEVEN DEAD RATS IN BIN NEXT MORNING.

Robert Woodruff says: "My premises were infested with rats. I tried RAT-SNAP on friend's recommendation. Next morning found seven dead rats in bin, two near feed box, three in stall. Found large number since. No smell about dead rats—RAT-SNAP dries them up. Best thing I have ever used." Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.—Adv.

STATE BOARD OF HEALTH'S GOOD RECORD

USED PROGRESSIVE METHODS BUT CONSERVED STATE'S MONEY

JACKSONVILLE, April 6.—(Special).—Demonstrating the marked efficiency with which the State Board of Health has been conducted and the great results in health conservation that have been attained under the administration of Joe L. Earman, Ed. M. Ernest and J. E. Graves and thru the active supervision of Dr. Ralph N. Greene, State Health Officer, the annual report of the board of the state legislature forwarded through Governor Cary A. Hardee, sets forth in detail facts and figures that brings a realization to the public generally that to conscientiously keep politics from this branch of state medical service will always rebound to the greatest good.

Upon taking over the duties of State Health Officer, from his predecessor, Dr. Greene was seriously handicapped by the fact that this portion of the state's exchequer was badly in debt, to such an extent that many desired health measures could not at that time be placed in force; also that the organization was disorganized so badly that time alone could place it where the new officials could secure the results hoped for.

During the tenure of office of Dr. Greene, the State Board of Health has expended on health conservation work in the state, some \$200,000 of state moneys in addition to \$200,000 more money realized from the government and other outside sources, and in spite of the enormous amount of work done, and results obtained, at such great expense, there is still a handsome balance on hand for use of the new State Health Officer who will be appointed by the governor some time this month, Dr. Greene having resigned to enter private practice of his profession in Jacksonville on May 1st.

The physical properties of the State Board of Health are in much better condition than they have been in years. The grounds have been beautified, and permanent fences built to enclose the properties for the protection they demand, and in many other respects the department has progressed to a marked degree, reflecting credit upon each and every member of the board.

"And There Wasn't the Slightest Smell from Dead Rats."

Writes John Simpkins, farmer of Annandale, N. J.: "Rats were costing me hundreds yearly; tried dogs, ferrets, poison, could not get rid of them. Bought \$1.25 pkg. of RAT-SNAP (5 cakes). Used half, not a live rat since. Dead ones a plenty. I like RAT-SNAP because after killing rats it dries them up—leaves no smell." Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.—Adv.

Friday and Saturday SUITS Made to Measure

¶ We will have a special representative with us FRIDAY and SATURDAY, APRIL 8th and 9th, taking measures for Spring and Sum-A-Weight Suits. Now is the time to have that suit made up. Get extra pants made to match it, it adds life to the Suit.

¶ Select your own pattern, and style and you will be better satisfied.

SANFORD SHOE & CLOTHING CO.

DR. BROWNLEE RECOMMENDED FOR PROBATION OFFICER.

(From Wednesday's Daily)

The board of county commissioners at their meeting yesterday recommended Dr. Brownlee for the position of probation officer of Seminole county, and as soon as the governor appoints him he will assume his duties. This is one of the most important positions in the county and having served in this position several years before the war, the editor of The Herald knows whereof he speaks. The probation officer takes charge of all the delinquents under age who are caught in the toils of the law for minor offenses, and by using his judgment and looking after the boys and girls, and having the parents do likewise, the delinquents are kept out of the reform school and jails and made to walk the straight and narrow path. They are snatched from the brink at the time when they need a guiding hand and it has been proven that more boys and girls are saved

in this manner than in any other that has ever been devised.

The selection of Dr. Brownlee is a good one, and he knows the work as no other man in the county knows it. It is purely a work of love and devotion to the youngsters and any man who offers his time and money to it is a public benefactor in many ways.

RATS PASS UP ALL OTHER FOOD FOR ONE MEAL OF RAT-SNAP.

Their first meal of RAT-SNAP is their last. Kills in a few minutes. Dries up the carcass. Rats killed with RAT-SNAP leave no odor. RAT-SNAP comes in cake form. Break into small pieces, leave where rats travel. No mixing with other food. Cats and dogs won't touch it. Safest, cleanest, surest rat and mouse killer. Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.—Adv.

The Island of Nippon, the largest island of Japan, has a density of 378 persons to the square mile, compared to 13 in Florida.

CORNER STONE LAYING OF METHODIST ORPHANAGE BUILDING AT ENTERPRISE

Sanford Lodge of Masons Assisted The Grand Master

W. J. BRYAN SPOKE

OVER ONE THOUSAND PEOPLE PRESENT AT IMPRESSIVE CEREMONY.

By W. J. Goodale, Special Correspondent of The Daily Herald

The corner stone of the Florida Methodist Orphanage at Enterprise was laid yesterday afternoon by the Masons of Sanford headed by C. H. Ketchum, of Key West.

The exercises were preceded by lunch served to the friends of the Orphanage in the shade of the live oaks on the lawn overlooking the waters of Lake Monroe.

The children sang a song, the Masonic ritual was followed in laying the corner stone and William Jennings Bryan delivered one of his characteristic addresses.

Mr. Bryan said in part that the child is the most important part of humanity on account of its varied possibilities, that those who make it possible to develop the lives of the ones deprived of their natural protectors are among the benefactors of the race.

The possibilities of a child are greatly like the unfolding of a flower the modern idea of christianity is the unfolding of a child's life to its greatest possibilities.

This depends upon heredity and environment, especially the latter. There are children in such homes as these who are better taught and better trained than in many homes where the parents are negligent in their duties.

Over half the people of this country are depriving their children of the best of life, the spiritual side of being neglected, so the lives of many become like a stagnant pool—a life of selfishness and narrowness. But other lives are like that of a spring of pure water bursting from the ground pure, upright, broad and spiritual.

The beautiful Masonic ceremony of the laying of the corner stone was carried out under the personal direction and supervision of Hon. Chas. H. Ketchum, Grand Master of Masons in Florida, assisted by the Sanford Lodge. Mr. Ketchum arrived in Sanford from his home in Key West on Sunday afternoon and was the guest of the Valdez Hotel until yesterday when he accompanied the Sanford lodge to Enterprise for the ceremony. Although the Sanford lodge is fifty years old this is the first time of record when a Grand Master has visited this lodge officially.

Music for the occasion was furnished by a quartette composed of Mrs. Schelle Maines, Mrs. A. M. Phillips, F. E. Gatchel and S. O. Shinholser. Sanford lodge was represented by about fifty members of this lodge who went over in cars. Through the courtesy of Mr. L. G. Loveless, several of the party, including the Grand Master, were across the lake by boat.

The ceremony was handled by the following officers representing the Grand Lodge of Florida: Hon. Chas. H. Ketchum, of Key West, Grand Master; W. M. Haynes, as Deputy Grand Master; W. T. Wheelless as

Senior Grand Warden; D. S. Babbett as Junior Grand Warden; L. B. Hodgins and Schelle Maines as Grand Deacons; E. F. Lane and A. S. Perry as Grand Stewards; John Musson as Grand Treasurer; Frank B. Adams as Grand Secretary; Jas. Moughton as Grand Marshal; F. H. Trimble, of Orlando, as Grand Architect; T. J. Miller as Light Bearer and C. O. Bradbury as Grand Tiler. Many members from Daytona, DeLand, Orlando and Oviedo were also in the procession.

After the ceremony a number of donations were made from one dollar to five hundred, so the work will go on at once, and the building be rapidly completed.

This building is the Boys' Dormitory and is to be built of brick on a concrete foundation. The brick being made by the boys of the institution, machinery having been obtained for the purpose.

At present there are 23 boys and 27 girls in the orphanage and six away at school elsewhere.

They are a healthy and husky lot of children and are thoroughly loyal to their institution, to each other, to Supt. Brinkley and his helpers.

In an interview with the Herald man Mr. Bryan emphasized what he mentioned in the opening of his address, that he had a warm place in his heart for Sanford as it is here a beautiful girl spent her winter nearly forty years ago. Her letters were full of accounts of the climate, oranges and good times. This girl became Mrs. W. J. Bryan.

PIANO RECITAL

(From Monday's Daily)

A number of the junior piano pupils of the Cecilian Music Club gave a most enjoyable recital in the studio of Mrs. Fannie S. Munson Friday evening, April 8th. There was a large and very appreciative audience.

Each number was rendered in good taste in splendid execution and merited the hearty applause received. The program concluded with a group of vocal solos by Mrs. Frank L. Woodruff, Jr., soprano, accompanied by Miss Fannie Reba Munson. Mrs. Woodruff possesses a beautiful voice full of sweetness and added to a very happy and charming manner was truly delightful.

- The entire program covered:
- 1.—Military March Christiani
Marion Whitecomb
Carmela Barber.
 - 2.—Spanish Dance Engel
Sarah Williams
Marion Whitecomb
 - 3.—Frolic of Butterflies Bohm
Margaret Cowan
 - 4.—Spanning Song Elmanrich
Elizabeth Whitner
 - 5.—The Mountain Stream Sidney Smith
Dorothy Ray
 - 6.—Mazurka Frank Lynes
Carmela Barber
 - 7.—The Minute Waltz Chopin
Velma Shipp
 - 8.—Parade of Amazons
Dorothy Ray, Velma Shipp
 - 9.—Rigoletto Verdi-Engelman
Marion Whitecomb
 - 10.—Spiders Dance Wallace
Georgia Mobley
 - 11.—Songs—
Morning
Keep on Hoping Mrs. Woodruff

LEE-BELL

(From Tuesday's Daily)

A pretty wedding, of which this chronicle will be of interest to a host of friends both in and out of Brooksville, was solemnized at the home of Mr. and Mrs. J. J. Bell, on Brooksville Avenue on April 5th, at 4 o'clock when their only daughter, Anita, was married to James Henry Lee, of Jacksonville.

The parlor and dining room, en-suite, were tastefully decorated with roses and asparagus ferns, making a color note of pink and green, all of which reflected the artistic taste of Mrs. G. C. Lanier, and made a beautiful setting for the occasion. Pre-eminence amid the decorations was a lovely rose and fern shower bouquet suspended from the archway between the two rooms; and while Miss Irene Hampton played strains from Lohengrin's Processional, the bridal pair came together from the hallway and stood just underneath the floral shower. In solemn words, Rev. W. J. Palmer, pastor of the First Methodist church, pronounced the ceremony that made these two man and wife, while a soft intermezzo, "Melody of Love," was played by Miss Hampton. Mr. and Mrs. Lee were then showered with loving good wishes and congratulations by the large number of relatives present.

This simple home wedding was not the wedding which had been planned for these two young people. In fact, initial preparations for an elaborate June wedding had started; but Miss Bell and Mr. Lee, only the day before their marriage, decided to put aside all thought of pomp and ceremonial, and to make the happy occasion more happy by hastening the date of consummation. And, by this turn of affairs, friends and relatives were taken by complete surprise.

The happy couple left immediately by auto for Croom, where they boarded the train, refusing to disclose their intended destination. Upon their return they will make their home in Jacksonville, the home of the groom.

The bride's marriage and going-away gown was of midnight blue tulle, with hand-embroidered trimmings, and accessories of gray. Her flowers were a corsage bouquet of bride's roses, combined with plumosa fern.

Mrs. Lee is a talented and highly cultured young woman and is admired and respected for her lovely personality and gentle dignity. She was a student of piano music at Brenau College-Conservatory for nearly three years, and it was there, under the tutorage of the eminent Professor Smettonette, that Miss Bell attained the marks of merit which entitled her to membership in the sorority of Mu Phi Epsilon.

Mr. Lee is a young man of acknowledged business ability. He was formerly auditor of the Postal Telegraph Company, and is now connected with the Western Union, at Jacksonville. Mr. Lee's electrical engineering course was completed at Harvard University. He is the son of Mrs. Myra Belle Lee, of Sanford, and a nephew of Mrs. W. D. Cobb, of this city.—M. A. C., in Brooksville Argus.

LONGWOOD PROHIBITS SPEEDING IN LIMITS

Mayor E. W. Henck, of Longwood, was in the city this morning and is having official notices about speeding in his baliwick printed for the benefit of the public.

Mayor Henck says he does not want to be arbitrary about the matter but there has been too much speeding and utter disregard for life and safety in Longwood, especially about the cars coming through and, as there is a dangerous cross-roads, in the center of the town, he intends to pull them down and give them fair warning and then they will be fined.

There should be no speeding within the limits of any city and when the limits of any city, town or hamlet are reached the motorist should pull down to 15 miles an hour, regardless of whether there is a city ordinance against speeding or not.

Longwood is an incorporated town and utter disregard for life and safety and this ordinance sticks and the public is warned accordingly.

Watch your step in Longwood hereafter.

"I NEVER KNEW YOU COULD KEEP RATS OUT OF A BUTCHER SHOP."

What Ralph Watkins says: "Figured rats around store had enough to feed on; wouldn't touch anything suspicious. Heard about RAT-SNAP, gave it a trial. Results were wonderful. Cleaned all rats out in ten days. Dogs about store night and day never touch RAT-SNAP." Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Company.—Adv.

So long as the war between Greece and Turkey does not lead to the restoration of the daily press communique we can stand it.—South Bend Tribune.

FORTIETH ANNIVERSARY.

(From Monday's Daily)

About fifty friends of Mr. and Mrs. A. H. Moses gathered at their home on Magnolia avenue last night to help them celebrate their fortieth wedding anniversary. They were married in New York on April 10th, 1881, and have lived happily together ever since and in the declining years of their life with the children and grandchildren are enjoying a well spent life and best of all are helping other people to enjoy it with them.

Mr. and Mrs. Moses formerly resided in Brooklyn and have a large produce business in New York where the sons manage that end of the business during the winter months and Mr. Moses looks after the Florida part of the business. They have been making their home in Sanford for the past ten years and own property here and expect to build a new and modern home on Park avenue and Fifth street some time in the near future. They are Sanford boosters all the time and are numbered among our best citizens. It was an occasion for celebration then upon the anniversary of their fortieth wedding day to gather with them and the home was filled last night by the many friends who assembled to help them celebrate. The home was beautifully decorated with roses and cut flowers of all kinds in vases and each room had streamers of fresh and artificial flowers in profusion hung from the four corners and meeting over the tables. The decorations were under the supervision of J. M. Dresner and his assistants and were beautiful and very artistic. Promptly at eight o'clock the assemblage sat down to the tables and disposed of a luncheon of roast chicken, salads, asparagus tips, hot rolls, celery, lemon pie and cheese, the cheese made in the shape of carrots with green tops, pickles, olives, beets, patte de fol gras, ice cream and cakes and delicious fruit punch. The various courses were arranged with various pretty conceits descriptive of the event and the collation was served as only the Moses family knows how and was thoroughly enjoyed to the fullest. After the luncheon cigars were passed around and each guest was called upon for a few remarks and then toasts for the host and hostess were drunk with the punch and Mrs. Moses replied to all of the many compliments and the many expressions of good will that came from the hearts of the folks that know them so well.

It was an occasion that will be long remembered by all of those who were present and by Mr. and Mrs. Moses and during the evening many telegrams were read from other cities where they are known and loved for their many kindly traits and the evening closed for guests and host and hostess with the feeling that another milestone had been added in good fellowship, friendly relations and that spirit of brotherly love that rules the world and makes it a better place in which to live.

Another peaceful way to settle it would be to make Germany dr yand give the allies the bootlegging concessions.—Baltimore Sun.

New Shipping Methods Would Save Money To Citrus Growers

TALLAHASSEE, April 11.—Hundreds of thousands of dollars would be saved Florida citrus fruit shippers if an experiment now in progress should prove a success, according to interested parties. The experiment, which it is said would probably revolutionize present methods, consists of shipping oranges and grape fruit in bulk rather than in boxes. Approximately 200 cars of the fruit in bulk have been shipped successfully to outside markets and if the method continues to prove satisfactory the expensive practice of wrapping and packing the fruit in costly material may be eliminated.

According to estimates of those directing the tests, it now costs \$1 a box to pack and prepare a box of oranges for shipment. An additional \$1 is required to get the box to the eastern markets. Three hundred sixty boxes are loaded to a standard car and the usual cost of shipping to Eastern territory is from \$350 to \$400.

NEW REAPPORTIONMENT BILL WOULD PLACE SEMINOLE AND LAKE COUNTY TOGETHER

Our County in Twenty-Third Instead of the Nineteenth LOOKS VERY GOOD

SEMINOLE WOULD HAVE ONE REPRESENTATIVE AS FORMERLY.

We are all interested in reapportionment, and in the reapportionment Seminole county will gain neither senator or representative, but according to the constitution, this should be done every ten years in Florida, and we believe in having to the line and working according to the constitution. So Seminole county is very much interested in the counties being reapportioned and our representative, Hon. F. P. Forster, will be found fighting for this bill, because he believes that all legislatures should follow the constitution. The bill that is talked of now would put Seminole county and Lake county together in the Twenty-third district, instead of Seminole, Ocala and Orange being in the Nineteenth district as formerly, and this will suit all concerned, since it makes but little difference in which district our county is located so long as all the counties are apportioned according to their population.

The reapportionment bill proposed by Attorney-General Rivers H. Buford, which would limit the representation of any county to two members, has excited a deal of comment, and not all of it favorable by any means. Under Mr. Buford's plan, Hillsborough county would benefit to this extent—in redistricting the senate he gives Hillsborough a senator to itself, where as Hillsborough now shares a senator with Ocala and Orange county was, until about ten years ago, a part of Hillsborough county.

Mr. Buford's bill would apportion as follows:

Counties	Rep.
Alachua	2
Baker	1
Bay	2
Bradford	1
Brevard	1
Broward	1
Calhoun	1
Citrus	1
Clay	1
Columbia	1
Dade	2
DeSoto	2
Duval	2
Escambia	2
Flagler	1
Franklin	1
Gadsden	2
Hamilton	1
Hillsborough	2
Holmes	1
Jackson	2
Lafayette	1
Lake	1
Lee	1
Leon	1
Levy	1
Liberty	1
Madison	1
Manatee	1
Marion	2
Monroe	2
Nassau	1
Okaloosa	1
Okechobee	1
Orange	2
Osceola	1
Palm Beach	1
Pasco	1
Pinellas	1
Polk	2
Putnam	1
Santa Rosa	2
Seminole	1
St. Johns	1
St. Lucie	1
Sumter	1
Suwannee	1
Taylor	1
Volusia	2
Wakulla	1
Walton	1
Washington	1

Senate
There shall be thirty-two senatorial districts in the state of Florida, which shall be represented in the senate of Florida by one senator, and the said thirty-two districts shall be composed each of the counties mentioned and named after the several numbers as follows:
First district—Santa Rosa county and Okaloosa county.
Second—Escambia county.
Third—Walton and Holmes counties.
Fourth—Jackson county.
Fifth—Liberty, Franklin and Wakulla counties.
Sixth—Gadsden county.
Seventh—Polk county.

WILL SET FORTH THE RESOURCES OF SANFORD AND OF SEMINOLE COUNTY

A. C. L. Station Will Be Beautified By Flowers, Palms

The A. C. L. railway station at this point, which is one of the finest buildings between Jacksonville and Tampa on the Coast Line, will be further enhanced by beautiful grass and flower plots at each end of the station, and this work was commenced last Saturday when the transportation department of the A. C. L. took it into their own hands to beautify the station grounds and started the work on the south end of the station.

With the assistance of Mrs. Henry Wight, of the Woman's Club, the employees planted seven palms, many hibiscus, flame vines, etc. There were twelve varieties on the list and they will be tended carefully and by next season the station will be beautiful. The Woman's Club will plant the north end of the grounds and it is suggested the Chamber of Commerce appoint a committee of three to act with similar committees from the Woman's Club and the A. C. L. railway, and all join hands and make this part of the city more beautiful during the summer months.

The north end will be planted in hibiscus and palms and there will also be a row of poinsettias set out at each end of the station.

It was also suggested by Miss Mell Whitner of the transportation department that a row of clematis from the station down Ninth street on each side would be carrying out the idea of a city beautiful and it is probable that this plan will be put into effect.

Now if the city commissioners, the Chamber of Commerce, the Woman's Club and the A. C. L. Railway will get together on this great project we can look for one of the beauty spots in this part of Florida around the station and in that part of the city that has long been neglected.

LOVELY SOCIAL EVENT.

One of the loveliest social events in Orlando society of this week was the reception and tea given yesterday afternoon at the beautiful home of Mrs. H. H. Dickson on South Orange avenue, Mrs. H. N. Dickson, Mrs. R. Bazile Brossier and Mrs. H. H. Dickson being hostesses.

During the hours from 4 to 6 o'clock nearly 300 guests were received. Mrs. Gowdy's orchestra, hidden behind a huge embankment of palms, played exquisitely throughout the afternoon, adding greatly to the delight of this charming entertainment.

Mrs. Louis Dolve and Mrs. Ed Kenyon met the guests at the door, and Mrs. H. K. Lorraine and Miss Margaret Hart escorted the guests to the receiving line, which was composed of Mesdames Dickson and Brossier and Miss Mattie Nelson.

Mrs. H. H. Dickson was most charmingly gowned in ecru lace very beautiful with a full sash of shell pink satin. Mrs. H. N. Dickson wore a gown of ecru filet net and orchid georgette. Mrs. Brossier was very lovely in a white frock of heavily embroidered filet net with a sash of coral satin, and Miss Nelson was extremely radiant in a beautiful gown of coral tulle trimmed in silver.

The home was most artistic in its gorgeous decorations of flowers, carrying out a color motif of pink and white. Gorgeous baskets of radiance roses and gladiolas were placed about the reception room and the mantel was banked exquisitely with asparagus fern and roses. The porch where the punch was served by Mrs. S. Waters Howe and Mrs. T. A. Neal was also extremely pretty. Very charmingly arranged decorations of asparagus fern and white daisies were used there.

Delicious refreshments, also in pink and white very cleverly designed, consisted of brick ice cream, strawberries, individual cakes beautifully iced in white with pink rosebuds, wafers, almonds and mints.

Assisting the hostesses in serving were Mesdames Robert Howe, J. N. McElroy, Sylvan McElroy, George Nolan, W. W. Yothers, Jos. Bumby, Sherman, Nixon Butt, Harold Beardall, J. C. Brossier, D. E. Fishback, Jos. W. Guernsey, Frank Guernsey, D. J. Wattis and Carl Dann.—Orlando Sentinel.

Those attending from Sanford were Mrs. Archie Betts, Mrs. R. J. Holly, Mrs. Ralph Wight, Mrs. Hal Wight, Mrs. Mary Higgins, Mrs. LeVerne Hurt, and Mrs. Ahearn.

Herald Soon to Begin a Series of Full Page Article

The Sanford Herald will shortly begin the publication of a series of full-page articles setting forth the resources and advantages of Seminole county and of Sanford as a place in which to live and make a living.

The series will serve to bring forcefully before the minds of prospective investors and home-seekers the facts about this favored section.

During the publication of this series the Sanford Herald will be sent to all inquirers who write the Chamber of Commerce, the Herald and the real estate dealers for information about Seminole. For a period of ten weeks or more this newspaper will go to the Northern people who are interested in Sanford and will make a compendium of information, interesting and valuable not only to outsiders, but to the people of the city and county also.

The complete series will be sent to the leading civic and commercial organizations in the north for their information and reference.

This newspaper has been pledged the co-operation and support of a number of the leading business men of Sanford. It is a campaign that will appeal to every patriotic and public-spirited citizen and one in which all will be glad to take a part.

The plan is being outlined and outside work handled by T. H. Stevens, of the Herald staff and those coming in contact with Mr. Stevens will find him affable and full of data.

In response to the inquiry of many telephone subscribers: "What can I do to help my service?" this advertisement is published.

When Telephone Numbers Change

Every new issue of the telephone directory contains hundreds of changes in telephone numbers.

Between directory issues many telephone subscribers do not make a record of the changed numbers they call frequently.

This necessitates the frequent calling of the Information operator and unnecessary work on the part of both subscribers and operators.

You can assist in maintaining good telephone service if a record of such number changes is kept near your telephone—

And if telephone numbers, particularly party line numbers, are eliminated from letter heads, business cards and advertising.

Vacation days seems to be drawing nigh.

And the first signs are the closing of the stores on Thursday afternoons.

The Sanford Herald gets better and better every day. But, then, Bob Holly attacks so close to work that something good is bound to result.—Tampa Tribune.

If we expect to do all the business that we should do the stores ought to cater more to the country trade and make the summer months busy months instead of giving up entirely because it is summer.

It is all right, of course, to have many bank holidays and many holidays for the tired employees and employees but it would be much better if the stores could make some arrangements to stay open more than they do.

If the fishing around Sanford was protected there would be so many fish that you would have to get behind a tree to bait your hook. The fishing is good now but present methods will take out all of the fish eventually and we will lose our best asset.

Editor Holly announces that the publication of the Sanford Daily Herald will be continued through the summer—if the business men of Sanford will give the paper the support it deserves. They are darn poor business men if they fail. The Herald is Sanford's most valuable developing agency.—Bradentown Journal.

The people of Sanford want to be awakened to the fact right now that the tourists are the best crop in Florida and they beat all the crops in the world. They want to come to Sanford next season but they want more hotels and apartment houses and cottages. And now is the time for the people of Sanford to get busy and build all of these hotels, etc.

Of course everyone wants to take a vacation in the summer months. It is natural to want to get away from all business cares and the afternoons in the summer are for the purpose of putting employees and employers in better shape but if some plan could be arranged whereby the out-of-town trade could be kept coming through the summer it would help our town a whole lot. Business as usual is a wonderful slogan for Sanford!

Sanford is not a tourist town as yet. We are hoping it will be but at present it has the reputation of being an all the year round town and that the summer business here is larger than any other city in the state considering the size. Would it not be a good idea to keep it a busy place in the summer by putting on more summer sales and stimulating a summer business instead of giving up entirely.

Everything points to a busy summer here in Sanford and while many will go to the mountains and seashore for a vacation the majority of the Sanford people will be busy building and getting ready for the greatest tourist rush that has ever been experienced in Sanford. If the average citizen could receive some of the mail being received by the Herald every day asking about accommodations in Sanford for next winter they would build 100 more houses, a dozen apartment houses, at least three big hotels and a dozen store rooms. Will you sleep over your rights or will you take time by the forelock and get ready for this big season?

The most difficult task in running a daily paper is getting the boys to deliver it properly. The Herald is trying to make several changes in the carrier system that will guarantee better deliveries. The papers are printed every afternoon between three and four o'clock and should be delivered to every part of the city by five o'clock but it seems to be impossible to get it to them at this time. However we are trying our best and still believe that there are some good boys on the routes and some that we intend to put on who will have their responsibilities at heart enough to get the Herald to the subscribers on time.

Florida needs a fish hatchery for the preservation of fresh and salt water fish. Florida also needs better laws for the protection of fish.

Representative Forster wants to know how the people of Seminole county would like the new apportionment plan whereby Seminole county would be linked with Lake instead of Osceola and Orange as formerly. The Herald would say that in our opinion it will make but little difference and we could get along with Lake county all right. They are friends of ours and we have much in common. Let us have the right kind of reapportionment regardless of how it is arranged and we leave it to the good judgment of Hon. F. P. Forster.

The present cool spell will be fine for the spring crops in this section of the state. The celery crop still has about 600 cars to move but the bulk of this crop has gone forward and what remains will bring a good price. And now the farmers are looking forward to the spring crops that should bring in some real money. The cold snaps farther north have set back some of the vegetable crops and Sanford ought to come in just right this season. Our growers have not made the money they ordinarily would have made on account of the high express and freight rates.

The Daily Herald will be printed right along through the summer months if the advertising is forthcoming and if the people want it badly enough to support it. If not we will cut it out during the summer months and print the weekly as formerly. It is not an object of charity and we do not have to print the daily and will not print it unless it receives sufficient advertising to keep it going. This is strictly a business proposition with us and nothing more. To stop the daily means that the city is not large enough or progressive enough to support a daily all year. It means that the people would prefer to close up shop and go away rather than stay here and do business when business should be done. And also we may add that the Herald force is just as anxious to get away as any other business house but are willing to stay and pull for Sanford in the summer months as in the winter months if the business men ask it.

An editor from the West is negotiating for the purchase of a large tract of land between Eustis and Mt. Dora. While on the motorcade with the National Editorial Association, two weeks ago, the gentleman above mentioned was enticed by the environs of this section of Lake county, and admired extravagantly the country through which the motorcade carried the party. On reaching Lakeland the gentleman from the West wired for a cash price on the property in question, and is now in touch with the owners of a beautiful section overlooking one of our many beautiful lakes. We talked briefly with a number of the party composing the National Editorial Association and in every instance they avowed their delight with this section and they meant it. These men are not commonplace flatterers. They all spoke enthusiastically of the beauty and hospitality of our cities, and when the editors return to their sanctums they will write about Florida and Eustis and Lake county will receive honorable mention—Eustis Lake Region.

WHAT THEY THINK OF FLORIDA
One of the prominent and influential daily papers of Kansas is the Iola Register, published in the flourishing little city of Iola, in that state. Its editor, Charles F. Scott, ex-congressman, is a man of statewide prominence and he was among the visitors to Florida with the National Editorial Association on its recent tour thru this state.

He wrote up the trip to the extent of four or five columns in the Register and his impressions concerning Florida and her people will be interesting to Herald readers. From his story is taken the following extract: "I may as well say here once for all, that at every place we stopped the Association was given the most cordial welcome and treated with the most lavish hospitality. The people seemed to be, and I am sure they were, genuinely glad to see us and did everything that was humanly possible to make our stay, whether in the great city or the little country town, as pleasant as it could humanly be made. The 'traditional hospitality' of the South had not been exaggerated. I do not think that it is any greater or that it is different in quality from the hospitality of the North or the East or the West; but it certainly does suffer by comparison with any of these. They are good, friendly American folks down there, and they certainly made us believe that they were glad to see us and eager to have us come again.

"From Panacea we went part of the way by train and part of the way by automobile to Tallahassee, the capital of Florida. The automobile part

of the journey was taken to enable us to visit the principal tobacco growing section of Florida, in Gadsden county, the place where tobacco was first successfully grown under shade in this country, and where now thousands of acres are thus produced, and to give us opportunity to visit one of the great fuller's earth mines, for which Florida is famous.

"Speaking generally, I may say that Florida impressed me as being only upon the threshold of its development. Out of its total of nearly forty million acres of land, half of which, perhaps, is susceptible of cultivation, only two million acres has, as yet, been brought under the plow. It is about the situation which existed in Kansas in 1870 and the development of the next fifty years can hardly be less than has been witnessed in our own state during the past half century. Personally, I am sure I do not wish to exchange Kansas for Florida, I enjoy a moderate amount of moderately warm weather but a country where it is summer all the time suits me a little too well. For those who like it, however, it is hard to conceive of a better place to find it than Florida. It is indeed, as its orators never tire of declaring, 'the land of sunshine and of flowers.' I saw a man who had gone broke there trying to farm, but I saw a man also who claimed to be making an excellent living on ten acres of land. There will be failures in Florida as there have been everywhere, but there will be successes also; and in the end it is the successes that enter into the land and possess it, and Florida is certain to become one of the most populous and prosperous, as it is now one of the most historically interesting and scenically beautiful states in the Union."

WHY FLORIDA IS BUSY ALL THE YEAR.

Commissioner Rhodes, of the Florida state marketing bureau received about three months ago a communication from the international institute of agriculture at Rome, Italy, running as follows:

"Dear Sir: I am obliged to you for sending me the report of your bureau and other literature about Florida, which I requested you to send me. Many people on this side of the Atlantic are deeply interested in your wonderful state.

SANLUER, Gen'l Secretary. It will be noticed that the report and other literature spoken of was sent to this institution, composed of official delegates from forty-odd countries of the globe, at the request of its general secretary, who, in acknowledging its receipt, pays this graceful and evidently sincere compliment of the state of Florida.

Florida is indeed a "wonderful" state. While reports of business stagnation and unemployment were rife from all other parts of the Union during the winter, Florida reported "business as usual." The fact that "we have something to market every hour in the year," as Commissioner of Agriculture McKee put it, ensures a constant stream of money into the state.

In September begin the shipments of citrus fruits which, up to the end of last week, equalled 28,461 carloads shipped by all-rail routes, in addition to shipments by water routes to the Northern markets. Then, in November or December the strawberry crop begins to roll northward, culminating in the early spring and bringing the highest prices of the season. In March the early crop of Irish, or white, potatoes, planted in December or January, begins to move. These crops overlap each other, and in the meantime, the truck crops are being marketed all the winter. Of celery alone 3,139 carloads and of lettuce 2,650 carloads had been shipped north up to last Sunday by all-rail routes. All of these crops command the highest prices of the season, the prices declining as states north of us begin to come into the market with the same crops, except the citrus.

While money is rolling into the state from these crops we have the tourists with us enjoying our great asset, climate.

During the summer we have cereal crops, with tobacco and cotton to fill the gaps, summer fruits, sweet potatoes, naval stores and the fisheries along some 1,200 miles of sea coast and our many lakes and streams are year round sources of revenue.

We do not need to go far to find contrasts. A letter from a Richmond, Va., manufacturing company asking for information as to Florida business says, "people in this territory (Virginia to Georgia) have no money crop coming in until cotton and tobacco begin to be marketed." Production of money crops is perpetual in Florida.—Times-Union.

RED CAP Battery with its 2-year written guarantee, will cost you less per month's service than any other on the market. A complete stock of these—B. & O. MOTOR CO. 35-3tc

MEAT CAUSE OF KIDNEY TROUBLE

TAKE SALTS TO FLUSH KIDNEYS IF BACK HURTS OR BLADDER BOTHERS.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid, which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.—Adv.

NOTICE OF APPLICATION FOR TAX DEED

Under Section 578 of the General Statutes of the State of Florida. Notice is hereby given that W. M. Blackwood, purchaser of Tax Certificate No. 449, dated the 2nd day of June, A. D. 1918, has filed said certificate in my office, and has made application for Tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit:

Lot 1 (less E 1/2 of 1/2) and N 1/2 of Lot 2, Sec. 14, Twp. 23 S., Range 30 E., 30 acres. The said land being assessed at the date of the issuance of such certificate in the name of St. Luke's Cathedral. Unless said certificate shall be redeemed according to law Tax deed will issue thereon on the 23rd day of May, A. D. 1921.

WITNESSE my official signature and seal this 15th day of April, A. D. 1921.

E. A. DOUGLASS, Clerk Circuit Court, Seminole County, Fla.

REAL ESTATE AND INSURANCE SANFORD

Fordson
Hitherto the farmer has woven the power of his own muscles with those of the ox, the mule, and the horse, in the development of agriculture. Practical machinery for farming has come to him slowly. Where the value of machinery in labor saving, in profit-making, in usefulness, in comforts, in luxuries, has in the past been largely confined to the towns and the cities, it is now open to the farmer who is beyond all question the very bone and sinew of civilization. Civilization grows upon the land, therefore the land is Father and Mother and Sustainer to the human race, and those who till the soil, who plow, sow and reap, are surely the essentials in human existence. Therefore Machine Power on the Farm is of the utmost importance, and the Fordson Tractor comes to the farmer as the best, we believe, piece of machinery that has yet been devised for his use.
We want you to read the book, "The Fordson at Work." It is free for the asking. Call in and get one. Drop us a card and we will mail you one without charge. This booklet is along the line of the usual Ford way of giving the testimony of the users, those who have tried out and who know the real value of the Fordson Tractor. This book shows the Fordson at work in some ninety different lines of activity and to the farmer it presents the most valuable evidence of an all-around serviceable, economical, labor-saving, and money-saving machine that has ever been placed upon the market. We can only get so many each month, so leave your order now.

WOMAN'S PRESBYTERIAL AUXILIARY

The Twenty-eighth Annual meeting of the Woman's Presbyterial being held at the Presbyterian church is a great success in the splendid reports from this district, the many good addresses and the great interest being manifested by all those who are present. There are about seventy-five delegates from all parts of the St. Johns' Presbytery present.

The ladies of the Woman's Auxiliary have the big task of serving the visitors luncheon at noon each day and they are carrying out this part of the program in true Sanford Presbyterian style.

The following program has been carried out for Monday and Tuesday and today the program below will be very interesting:

Monday, 7 p. m.
Executive Board meeting.
Monday, 8:00 p. m.
Hymn—Congregation.
Prayer—Rev. E. D. Brownlee, Sanford.

Address—Mr. Karl Lehman, Montverde.
Address—"Soul Winning in the Mountains," Miss Ruby Ray, Levi, Ky.

Music.
Tuesday, 10:00 a. m.
Hymn, Congregation.
Prayer—Mrs. C. W. Latham, Sarasota.

Greeting—Mrs. T. M. Puleston, Sanford.
Response—Mrs. E. E. Coulson, of Leesburg.

Report of Registration Committee.
Report of Program Committee.
Roll Call of Local Auxiliaries.
Report of Secretary.
President's Message.
Announcement of Committees.
Invitation for 1922.

Music.
"Is Florida Meeting Her Responsibility?"—Miss Agnes Davidson, Jacksonville.

Bible Lesson on "Faith"—Mrs. A. A. McLeod, Bartow.
Communion—Rev. E. D. Brownlee, Rev. C. H. Ferran, Rev. James Logan Irwin.

Tuesday, 2:00 p. m.
Report of secretaries of Causes:
Foreign Missions.
Christian Education and Ministerial Relief.

Synodical Presbyterial and Congregational Home Missions.
Prayer Bands and Bible Study.
Literature—Mrs. L. M. Johnson, of Leesburg.

Thornwell Orphanage—Mrs. A. M. Copeland, Clinton, S. C.
Music.
Report of Secretary of Young People's Work—Mrs. D. C. Fox, Lakeland.

Methods of Young People's Work—Miss Isabel Arnold, Elkins, W. Va.
Open Conference on Young People's Work.
Bible Lesson on Faith—Mrs. A. A. McLeod, Bartow.

"My Little Friends of the Mountains"—Miss Ruby Ray, Levi, Ky.
Tuesday, 8:00 p. m.
Pageant, "Crowned With Light"—Mrs. E. D. Brownlee and Christian Endeavor Young People.

Wednesday, 10:00 a. m.
Hymn.
Prayer—Miss Agnes Davidson.
Reading of Minutes by the Secretary.

Narrative Reports of Local Auxiliaries.
Montreat—Review and Forecast—Mrs. E. D. Brownlee.
Report of Treasurer.
Recommendations of Synodical Auxiliary.

Recommendations of Executive Committee.
Music.
Echoes from Greenville, S. C., Convention.
Bible Lesson on "Faith"—Mrs. A. A. McLeod.

Wednesday, 2:00 p. m.
Hymn.
Prayer—Mrs. J. H. Davis, Wauchoula.
Report of Committees.
Election of Officers.
Consecration Service.
Music.

Question Box—Open Conference led by Miss Agnes Davidson.
How has the Meeting Helped You? Through You How Will It Help Your Auxiliary?

Minutes.
Bible Lesson on "Faith"—Mrs. A. A. McLeod.

Circle of Prayer.
Officers

Honorary President—Mrs. E. A. Hawley, Bradentown.
President—Mrs. J. W. Smock, DeLand.
Vice-President—Mrs. C. R. Knight, Tampa.

Vice-President—Mrs. A. A. McLeod, Bartow.
Secretary—Mrs. T. W. Mathews, Orlando.
Treasurer—Mrs. H. B. Leake, Orlando.

Secretary of Literature—Mrs. L. M. Johnson, Leesburg.
Chairmen of Local Committees.
Arrangements—Mrs. D. L. Thrasher.

Music—Mrs. R. C. Bowen.
Press—Mrs. E. D. Brownlee.
Registration—Mrs. J. L. Hutchingson.

Hospitality—Mrs. R. L. Peck.
Flowers—Mrs. Claude Howard.
Pages—Mrs. Claude Howard.

The pageant presented last night at the church drew a large crowd from the city and surrounding territory and there was standing room only in the church. The pageant was illustrative of the work being done in the home and foreign missionary fields and was under the direction of Mrs. E. D. Brownlee. Mrs. R. C. Maxwell had the principal role and dressed in Grecian costume called upon her heralds, Mary Elizabeth Puleston and Mildred Holly to summon the different departments of the church to tell of their part in home and foreign missionary work in the church.

Twelve beautiful young ladies of the church represented the months of the year, their costumes being descriptive of the seasons and they were marshalled to the platform and the different departments were called for being Mrs. W. M. McKinnon for the Woman's Auxiliary; Mr. Theodora, the Brotherhood; Mr. McCully, the executive of foreign missions; Mr. Henley the Laymen; Arthur Green, the Sunday school; Theo. Runge, the Sunday School; S. Runge the sons and daughters; D. L. Thrasher, the S. S. Extension committee, who summoned the different synods to appear and all the Southern states were represented by boys and girls dressed in appropriate costumes and as they were presented their work was set forth by H. C. Dubose, representing the Home Missions as follows: Snedger Memorial in charge of the work among the negroes, Appalachian division, Alabama, Georgia, Arkansas, Mississippi, North and South Carolina, Tennessee, Texas, Virginia, Florida, Kentucky and West Virginia.

R. H. Muirhead told of the various activities in these fields and Mr. McCully called off the foreign missions, represented by young girls in the costumes of these countries representing Africa, China, Brazil, Cuba, Japan and Mexico and told of the work here. The Seven Objectives to be gained were represented by seven young men each bearing a banner upon which was inscribed the objectives to be attained as enumerated by Mrs. Maxwell.

The pageant closed by an address upon this work given by Mrs. Maxwell and the singing of America and the benediction closed an evening that was both instructive and very entertaining. Nothing could have been given that would demonstrate more clearly and concisely the great work being done by the Presbyterian Church in the foreign and home mission fields than this pageant in which the various countries were brought before the audience by the young people and older ones who took their parts and the dressing of the parts made one of the most artistic and beautiful scenes that has ever been attempted in this work. It brought to the members of this and other churches present the huge scope of this work and what it means to the members of all the Christian churches in our land.

The meeting will close today and it has been one of the best in the history of the Presbyterian church and the visitors to the city will go home with the feeling that they have been royally entertained and instructed while here and having made many new acquaintances and renewed old ones will always remember the Twenty-eighth meeting of the Presbyterial Auxiliary.

FLORIDA GETS BOOST FROM EDITORS' TOUR

1,600 NEWS COLUMNS OF PUBLICITY—COMING OF NATIONAL ASS'N GREAT BOOST.

The S. C. Theis Company of New York, publishers' representatives, advises the Lake county chamber of commerce that seventy-five newspapers which had a representative on the National Editorial association tour through Florida will publish no less than 400 columns concerning the trip. As practically 300 newspapers were represented it can be expected from the figures of the Theis company that a total of 1,600 columns will be used in telling the story of the state.

From a score of papers received by newspapers and others, the Theis calculation of space used in the write-up is too small. Some papers have devoted five and six columns per week for some weeks, and metropolitan papers from six to eight columns in a single issue.

But on the basis of 1,600 columns, it would take the average Florida newspaper of forty-eight columns to the issue, one-half of which is advertising, practically an entire year, of fifty-two issues, to reprint the findings of the editors from twenty-eight states who comprised the party.

Before the editors came, the value of publicity to accrue from their entertainment was estimated at little or no value by some communities, but 1,600 columns of unpurchasable space, with most complimentary things said of Florida, proves the coming of the National Editorial association the greatest advertising stunt in the annals of Florida's history.

The Lake county chamber of commerce has two score of letters from delighted publishers, and the tenor of them all run in this mode, which comes from W. C. Belknap, editor of the Bellows Falls, Vt., Times: "Every cross roads in Florida apparently is hitting the trail, and your united momentum will certainly establish a pace which it will be difficult for the other states of the union to approach. More power to you all, and best wishes."

J. C. McLendon, editor of the Laverne, Ala., Journal: "If we were going to leave Alabama to hunt a home, we'd go to Florida. There is not a dead town anywhere in the state of Florida, and every citizen is a booster."—Tampa Tribune.

A HOME COURSE IN DOMESTIC SCIENCE

"Twenty Lessons in Domestic Science," by Marion Cole Fisher has recently been received by us for review.

This is a complete advanced course in domestic science and home economics boiled down to meet the requirements of the housewife and the student.

The entire course consists of twenty practical lessons—one hundred pages filled with the most valuable information the housewife can possess—heretofore taught only in domestic science schools.

Do you know the relative value of food, which fruits to use for cooking, what purpose salads serve, the correct use of condiments, about proper kitchen equipments, about U. S. Government's bulletins, how to reduce the high cost of living, how to promote and protect your own and your families health, how to make house-keeping simpler and more economical and pleasant by utilizing modern science in the home.

This book, we note, is priced at \$2.00 per copy and from what we understand it contains a complete \$100 college course, condensed, and it is practically FREE to every interested housewife.

Write the Home Economics Department of the Calumet Baking Powder Co., 4100-28 Fillmore St., Chicago, Illinois, for full particulars regarding the book and how to secure it.—Adv.

E. A. Moffitt with his big Federal truck has returned from Hastings and is ready to serve his Sanford customers with his same good service at reduced rate. 35-1t

SPECIAL SERVICES PRESBYTERIAN CHURCH

Beginning Sunday night at eight o'clock, the pastor will deliver a series of sermons of "Men of the Old Testament," in which he will show how like our experiences of today are these characters of old. Sunday night he will preach on, "Jacob, the Man Who Was His Own Worst Enemy, or How You Can Overcome Your Beseeting Sins."

Character studies are always interesting, and you are invited to these services each Sunday night.

"Better-Get-Better." Do it Now. **tf**

LADIES! DARKEN YOUR GRAY HAIR

USE GRANDMA'S SAGE TEA AND SULPHUR RECIPE AND NOBODY WILL KNOW.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied, with wonderful effect.

But brewing at home is messy and out of date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-know downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark and glossy.—Adv.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.—Adv.

"Better-Get-Better." Do it Now. **tf**

EAST SANFORD

Rev. W. T. Rancher will be over from Apopka Sunday for his usual third Sunday in the month visit here.

Mrs. T. L. Brantley has gone to Montgomery, Alabama, to visit her two married daughters, who reside there.

Little Louise Wilson was brought home from Dr. Robson's hospital on Wednesday, after a long illness from typhoid fever.

The Sheeley Fredrick family left here Tuesday night for Orlando, after being in this part of town for the past two years. They came here from Savannah, Ga.

Joe Cameron's family are driving a new Dodge touring car.

Joe Cameron came home from Miami last Friday for a few days, returning to Miami on Tuesday. Mr. and Mrs. Cameron and son, Henry, have been down there for the past seven weeks and they expect to remain for some time longer. Mr.

- Lloyd's Shoe Store,
- Caldwell Furniture Co., Inc.,
- Seminole County Bank,
- First National Bank,
- The Peoples Bank.

Breaking Up Stills Pleasant Pastime But Traffic Continues

(From Tuesday's Daily)
Sheriff Hand and his deputies are still busy getting stills and the stills are still busy right along, for the laws are inadequate to give the sheriff the right kind of backing when he gets the offenders.

Last Saturday the sheriff and his deputies landed three stills, one at Chuluota, one at Palm Springs and one near Longwood, but the men who were operating them had fled. The fixtures were destroyed on the stills and the stills brought to the sheriff's office, where they will be destroyed later. About fifty gallons of mash was destroyed at the stills and this will handicap the distillers only long enough for them to make more worms and get to work again, unless they are brought to justice meantime, and when they are captured they will only be fined. The laws are inadequate at this time to stop the practice of making and selling liquor. They give the judge the alternative of fining and when the fines are not paid they go to jail, but the shiners and their friends are always ready and willing to pay the fines and they are then allowed to go and sin again.

Sheriffs all over the state are arresting the makers and sellers of liquor but they are also getting tired of arresting them and having them fined and allowed to go back to the business again. The sheriffs are spending much time and money attempting to break up this business, but they will never be able to break it up with the present law, and unless the Florida legislature passes one that will levy a term of years on the road after the first offense, the trade of making and selling liquor in Florida will continue to flourish as the green palm tree.

Florida Woman's W. C. T. U. Hold Meeting

FORT MYERS, April 12.—Members of the tenth district of the Florida Woman's Christian Temperance Union are holding the fourth annual convention here today. Judge Oscar P. Hilburn, federal prohibition director for Florida, is expected to be the principal speaker at tonight's session.

PERSONAL NOTES

(From Saturday's Daily)

Mr. and Mrs. Joe Dornier, of Deer Lodge, Mont., are the guests of Mr. and Mrs. Albert Dornier at their home on Celery avenue.

Mr. and Mrs. Billy Shearn left today for the north where they will be in the hotel business for the summer months. They expect to return to Sanford in the fall. They made many friends while here and they all vote Billy a real bonfire.

C. F. Williams is improving the Ford building, or the east half of the Stone Gove building, by cutting off the three-cornered coping on the top of the building and making the top square. This piece was cracked, and Mr. Williams was afraid it might topple into the street and cause considerable damage and perhaps loss of life, hence the improvement.

The many friends of May Holly will be glad to learn that she is resting easy today after her accident yesterday afternoon, when some of the high school girls riding in a truck from Palm Springs fell from the truck when the body slipped off and were cut and badly bruised by some soda pop bottles that were in the truck. May had a long deep cut in her back that required five stitches and Sarah Wheelless was cut and badly bruised and several of the other girls suffered bruises.

(From Monday's Daily)
Miss A. R. Key has as her guest, Miss Ethel Brady, of Daytona, Fla.

Mr. and Mrs. Frank Akers enjoyed a visit to Daytona Beach yesterday.

Mr. and Mrs. A. L. Betts and party were visitors to Daytona Beach yesterday.

Mrs. Donald Smith returned from Sarasota Friday where she has been visiting her mother for a couple of weeks.

Mrs. Harry Ward and daughter, Miss Fern, had as their guests for the week-end, Mr. and Mrs. Winthrop Eech of Daytona Beach and Mr. Morris Niver, of Daytona.

Mr. and Mrs. Traeger of Eustis were in the city yesterday and attended the anniversary dinner of Mr. and Mrs. A. H. Moses last night. Mrs. Traeger is the sister of Mrs. J. M. Dressner of this city.

Lestie Hill spent Sunday with home folks. He is traveling the East Coast and South Florida for a Jacksonville wholesale produce company and is making good, much to the gratification of his many Sanford friends.

Mr. and Mrs. William Berry left for Apopka today where they will spend the summer with home folks. They have been residing in Sanford all winter, where Mrs. Berry was in The Herald office and Mr. Berry was with the Crown Paper Company. They made many friends while here who hope they will return next winter.

It is strictly up to the public spirited citizens of Sanford as to whether they intend to sit down here this summer and "let the rest of the world go by," or they will make it a busy summer by encouraging the trade of this section to come to Sanford. This should be a summer of activity, of advertising, of going after the new business.

Mr. and Mrs. S. A. Love arrived home from Sanford, Fla., Tuesday morning, after spending nearly two months in the sunshine. The trip was primarily made for the benefit of Mr.

Warming relief for rheumatic aches.

HE'S just used Sloan's Liniment and the quick comfort had brought a smile of pleasure to his face. Good for aches resulting from weather exposure, sprains, strains, lame back, overworked muscles. Penetrates without rubbing. All druggists have it.

Sloan's Liniment

Love's health, and from his appearance the southern tonic proved very beneficial to him. They have opened their home on South Main street.—Crown Point (Ind.) Star.

Mr. and Mrs. H. A. Neel and their guests, Mr. and Mrs. LeRoy D. Jones and daughter, Emily Jean, visited Daytona Beach and New Smyrna yesterday.

(From Tuesday's Daily)
Mayor Henck of Longwood was among the visitors to the city today.

Mrs. H. A. Neel and Mr. and Mrs. L. D. Jones and daughter are taking in the sights over Mt. Dora way this afternoon.

Rev. W. P. Kinsler, pastor of the Free Methodist church at Monroe, the past winter, returns to his home in Indiana today.

Dr. and Mrs. W. F. Blackman of Lake Monroe were among the visitors to the city today, and their many friends were glad to see them.

Mr. and Mrs. Kenneth Murrell have returned from their wedding trip and will make Sanford their future home. They are receiving congratulations from their many friends.

Miss Ida May Allison will arrive in the city Thursday and will coach the musical play, "The Microbe of Love" to be presented here April 22nd.

Walter Morgan spent Sunday in the city and his many friends were glad to have the "old scout" home again for a short time. The Morgans are now living in Jacksonville and their Sanford friends miss them greatly.

Mr. and Mrs. Brock left for Miami yesterday, after spending some time here with Mr. and Mrs. Paxton. Mrs. Brock represents the Humane society in Miami, being the official for that city and is recognized as one of the best in the state.

Harry S. Ford is in the city today, talking to the Chamber of Commerce and some of the business men regarding the new Florida Magazine that he intends to issue next fall. This is a step in the right direction, as the Florida Magazine will do for Florida as the Sunset Magazine did for California—put it on the map.

E. A. Farnell, one of the prominent business men of the Oviedo section, was in the city today and among other things renewed his subscription to the big Weekly Herald. Ed says he could not keep house without The Herald, and we hope he will never be able to keep house without it.

Florida League Women Voters Starts Campaign

(By The Associated Press)
JACKSONVILLE, April 12.—A vigorous campaign to increase the membership of the recently organized Florida League of Women Voters, is being waged throughout the state under the direction of Mrs. J. B. O'Hara of West Palm Beach, president.

The state has been divided into sections coinciding with the congressional districts, and directors of the various districts are being named. Under the directors county chairmen will serve in the organization of local clubs.

Mrs. W. S. Jennings, has been named chairman of the legislative committee which will serve at Tallahassee in the interest of legislation affecting the women.

DON'T STOP THE PAPER.

Herald Printing Company, Sanford, Fla.
Dear Sirs:

Check for \$2.50 enclosed, kindly send me what back numbers I have missed. This is certainly a new one on me, in all my experience with various publications this is the first time I was ever cut out without even a "thank you" or "go to H—" or a notice of any kind.

If I should, by any chance get no close to the "dead" line again please draw on me, but DON'T STOP THE PAPER.

Very respectfully yours,
F. J. McDANNEL,
Owasso, Mich.

RATS PASS UP ALL OTHER FOOD FOR ONE MEAL OF RAT-SNAP.

Their first meal of RAT-SNAP is their last. Kills in a few minutes. Dries up the carcass. Rats killed with RAT-SNAP leave no odor. RAT-SNAP comes in cake form. Sold and guaranteed by Ball Hardware Co.—Adv.

MYSTERIOUS LETTER SAYS ALLYN INNOCENT

Sheriff Wingate is in receipt of the following letter which arrived at his office this week relative to Harry L. Higel's death:

"Sheriff's Office,
"Manatee County, Fla.
"Bradentown, Fla.
"The Allyn that you are holding did not kill Higel. The man that did it got away while your officers were after Allyn.
Am writing this to the Tampa Tribune, also,
"Yours for justice,
"A. J. PINNERR."

The letter was mislaid to Manatee, Fla., and was postmarked, Everett, Washington, February 17, 1921, 5 p. m.

The officers have no clue as to who sent the letter but are endeavoring to locate the man who wrote it.

The letter arriving from a distant point seems to coincide with some of the speculations that were advanced by many after Higel's mangled body was found. Many said that Higel was hit by an automobile and that the wound in his head was caused by the fender or bumper hitting it. When confronted by the fact that there were no other signs on the body the advocates of the automobile theory would argue that many queer things happen when a man is hit. Many incidents are on record where cars have caused the death of people and less signs than were on Higel were visible. This letter seems to strengthen the automobile theory.—Bradentown Journal.

More than just materials

When you let us supply your building needs you get a great deal more than just so many feet of lumber—bundles of shingles—pounds of nails—or panels of Beaver Board.

You get the benefit of our building material knowledge and experience in Service that helps you get the results you want at the right price. Service first in planning the work—more service in selecting proper materials—speedy service in delivering the goods.

You pay for the materials. The service pays for itself in the larger volume of business it brings through super-satisfied customers.

It will pay you to be one of them

Come to us for Service
