German Prisoners Of War To Be Back Home By Spring

AP Newsfeatures
 Washington—All enemy prisoners of war, their work rapidly nearing an end in the United States, are expected to be returned to Europe by next spring, providing a major source of labor for reconstruction of the battered continent.

The office of the provost marshal general of the Army says the number of enemy prisoners of war in the United States as of Sept. 1945, was 302,170 Germans and 49,784 Italians. (There were also 5,080 Japanese).

This does not include approximately 12,500 prisoners who have been shipped back to Europe since the day.

The provost marshal general's office expects 18,500 additional POWs to be returned to Europe during September, including 49 Italian service units comprising 329 officers and 8,400 enlisted personnel.

Major Gen. Archer L. Lerch, provost marshal general, said the prisoners of war in this country are working at present but they need for such labor is decreasing. The release of men from the Army, cutbacks in government contracts for war materials and layoffs of workers during reconstruction of war industries have freed thousands of Americans to replace prisoners of war in certain industries.

In the South, the POWs picked cotton, citrus and other fruits, cut sugar cane, harvested peanuts, rice and tobacco and cut pulpwood.

In the West they harvested sugar beets, corn and grain, picked and packed fruits and vegetables, while in the North and East they cut pulp and chemical wood, harvested and packed roots and vegetables.

In addition to this work, which was mostly on a contract basis between the government and private agencies, prisoners also worked for the Army at bases and camps.

Although paid at the prevailing wage level for civilian workers doing the same type of labor, the prisoners working on private contracts receive only 80 cents a day. They are paid in coupons redeemable for goods at camp canteens.

The remaining money earned by the prisoners is paid to the Army and deposited in the treasury.

Through 1944, \$22,000,000 was deposited with the treasury. The total of such deposits was \$38,700,000 to June 1, 1945.

In addition, the Army estimated it saved \$152,000,000 in wages by using POW help in camp.

Housed in Camps
 Prisoners are housed in 150 camps located on Army bases, and at 200 branch camps set up wherever the prisoners are working.

The POWs housed at bases live in compounds, usually an unused section of the camp's barracks. However the branch camps vary from tents to abandoned schools or buildings in the vicinity of their work.

When they are ready to be shipped home, the POWs are moved into a staging area near their port of embarkation. They are loaded in most cases aboard Army transports headed for Europe to bring Americans home.

Together with other prisoners taken after the capitulation of Germany, the POWs will be assigned to various types of reconstruction work in Europe by the manpower division of the Army's control council.

The provost marshal's office said that with increased shipping, lessened needs for POW labor in the United States, and better facilities in the European theater to handle them, the return of all POWs in the United States will be materially stepped up so as to have them all returned by spring.

COMMANDER OF AMERICAN FORCES IN ITALY, Gen. Mark W. Clark is met by his wife, Maurine, and son, Lt. William, on his arrival at La Guardia airport by ATC plane from Paris. The West Virginia was one of the battleships hit in that 1941 attack. (International)

Doodlers Are Turning To Football Plays

CHICAGO, Ill., Oct. 12, (Special)—The armchair strategists who planned their military campaigns on restaurant tablecloths were blasted out of the war by the atom bomb, but the Monday morning quarterbacks are still with us, according to Roy J. Friedman of Chicago, president of the Linen Supply Association of America.

Except for an occasional world planner who uses the restaurant napery to partition the Japanese empire, the military second guessers seem to have gone into retirement, Friedman reported.

The football experts, however, are up to their old tricks again, Friedman said, and soiled linens returned to suppliers bear the usual seasonal indications of the versatility of the T formation.

Instead of planning a defense against Jap suicide fliers, the football second guessers are using the tablecloths to determine by diagram whether the 6-2-2-1 defense is better than a 7-man line to stop the offensive power of the T.

In normal times, Friedman stated, the amateur quarterback offers no problem to linen suppliers, but he pointed out that members of the association are still faced with a shortage of materials.

"The extra washing necessary to remove pencil marks from napery means wear on materials which must last until the supply of textiles for civilian uses gets back to normal," Friedman pointed out.

"During the war, our industry managed to maintain adequate service for its thousands of customers. From the corner grocery store to the largest war plants," he stated, "With the war over, we wish to continue that service and expand it."

Friedman declared that linen suppliers will give their customers the best service in the history of the industry as soon as materials, equipment and manpower are available.

Rent Waiting Period Changed To 6 Months

The waiting period for purchasers of homes in the Sanford Defense Rental Area, who wish to evict tenants on the ground that the purchaser wishes to live in the house himself, has been changed to six months under Federal Rent Regulations, it was announced by Russell B. Davis, area rent director.

Where a purchaser was a member and served in the forces of the United States during the period of the war emergency and desires possession of the accommodations for the adequate housing of himself and family, the rent director may issue a certificate even though the veteran has paid less than twenty per cent of the purchase price down and may authorize the purchaser to pursue his remedies for the removal or eviction of the tenant at a time less than six months waiting period.

Landlords who desire to substantially alter, remodel or demolish a structure occupied by a tenant are now required to file a petition for a certificate of eviction and are not permitted to give the tenant a notice themselves.

Mr. Davis further advised that all purchasers are required to file a petition known as D-4 in order to secure a certificate permitting them to proceed under local law to evict the tenant at the expiration of six months.

NUMBER 26.

Navy Reduces Point Scores For Personnel

Goal Is To Discharge 1,100,000 by Jan. 1; Enlisted Men Need 41 Points For Out

WASHINGTON, Oct. 17.—(AP)—The Navy has marked down the discharge scores of most personnel, with a goal of releasing more than 1,100,000 officers and men by New Year's. Effective Nov. 1, most enlisted men's point score will be cut from 44 to 41. Further reductions to 39 on Dec. 1 and 38 on Jan. 1 are promised.

The Navy's announced reductions in point scores for the greater part of its personnel, are intended to release one-third of its war-end strength by the first of January.

With further cuts predicted in December and January, the score for enlisted men will be reduced from 44 to 41 points, effective November 1.

On the same date male officers will be cut from 49 to 46 points. Wave officers from 39 to 32 and wave enlisted personnel from 29 to 26.

No change was made in the formula by which points are computed. The new schedule steps up the Navy's demobilization plan by some two months.

The Navy announcement also said that a further reduction in point scores for medical doctors probably will be made on January 1. Reduction of doctor's scores from 50 to 43 points was announced recently. The expected reduction in the further preferred cut will be to 51 points.

For enlisted men, the score will be cut from 44 to 41 points on December 1 and 39 points on January 1.

For wave officers to 30 points on December 1 and 29 points on January 1.

For enlisted waves, to 34 points on December 1 and 32 points on January 1.

Richard D. Eaton Back in Sanford From Carrier Duty

Richard D. Eaton, who prior to the J.C. Penney Stores, has returned to the Navy three years ago as assistant manager of the store in his former capacity, after receiving his honorable discharge from the service.

As an aviation ordnance man, first class, he served for a long time on the USS Carrier Card which operated so effectively against submarines in the Atlantic area, that it was the first carrier of its type to receive a presidential unit citation.

It was Radar equipped carrier of this type, working in perfect teamwork with destroyer escorts, that broke up the Nazi wolf pack submarines that were creating havoc in Atlantic shipping lanes.

Plans for T.B. Seal Sale Made At Meeting

Mrs. Mary Rawlins, Seal Sale Chairman for the Seminole County Health and Tuberculosis Association, met with her committee at her office in the Sanford Clinic on Monday evening to discuss plans for the sale of the seals which will be officially launched sometime in November.

The Seal Sale was taken over as a major project of the Pilot Club last year and Mrs. Rawlins appointed chairman to succeed Mrs. J. L. Ingley, who had been chairman for a number of years.

Mrs. Rawlins was appointed as chairman again this year at a meeting of the association.

A new method of checking the sales and work of the various committee members was outlined at the meeting. Those present with Mrs. Rawlins were Mrs. W. L. Morgan, Mrs. Josi E. Field, Mrs. Lourine Seal and Miss Blanche Kennedy.

'Solid' Faternization In Sweden

GI PHOTOGRAPHER, Sgt. Jordan Jones records the scene of Sgt. May Maxer holding hands with a "young lady" in Stockholm, Sweden while Sgt. Edward Herrick and G.J. Klinghammer (right) look on smiling. The girls back home in the United States needn't worry for this Swedish girl is obviously unmoved in her "heart of stone." (International)

Kiwanis Approves Resolution For Permanent Base

Kiwanians today at their meeting approved a resolution to be sent to the Secretary of the Navy requesting that it be for the best interests of the country operations be continued by the Navy at the Sanford Naval Air Station. The resolution was introduced by J. W. Hall.

It was pointed out that three years of operations had proved that the station was so located as to be most conducive to the health and comfort of the men.

Kiwanians were entertained by Tom Trent of Orlando, a former resident of Sanford who for many years was an entertainer at the Keith Vaudeville circuit, and prior to that was with Field's Minstrels. Mr. Trent told many jokes that had the Kiwanians in an uproar.

Harry Kudell accompanied Mr. Trent sang the song he first introduced at the Colonial Theater in Akron, Ohio, in 1912, "My Melancholy Baby," words of which are printed on the song sheet the Kiwanians use. He then told of how Harry Kudell first introduced in Chicago, Irving Berlin's initial hit, "Alexander's Ragtime Band," which was sung by Sophie Tucker.

M/Sgt. Julian Spenser, former Herald sports writer who recently returned home from France, and who has received his honorable discharge, thanked the Kiwanis club for donating at his request a flag which was first flown over 0-870 Ammunition Depot in England, then over 0-604 depot at Omaha Beach, Normandy and which is now flying over one of the world's largest ammunition depots, 0-611 near Verdun, France.

Dr. L. T. Doss, club president told of his enjoyment of the recent Kiwanis convention in Miami.

Lt. Col. M.M. Lord Jr. Is Visiting Parents

Lieut. Col. M. M. Lord Jr. of the Field Artillery and U. S. Forces European Theater headquarters staff has returned and is spending a 45 day leave with his parents, Mr. and Mrs. M. M. Lord of Citrus Heights.

After entering the service as a first lieutenant on Dec. 2, 1940, he was stationed at Fort Bragg, N. C. two and one half years, London for nine months and Paris for eleven months. He arrived in Boston, Mass. on Oct. 3, 1945 after departing from Le Harva, France.

Col. Lord graduated from the University of Florida in 1932.

Dr. T. Blaisdell, Jr. Is Visitor In Sanford

Dr. Thomas Blaisdell Jr. who is a minister of economic affairs at the American Embassy at London spent the weekend with his parents, Mr. and Mrs. Thomas Blaisdell at their home on West Sixth Street, and his sister, Mrs. C. E. Dawson at 708 Park Avenue.

This trip by plane was one of the regular quarterly trips to Washington made by Dr. Blaisdell in order to keep in touch with U. S. economic matters.

Steel And Other Industries Close As 1,000 Coal Mines Are Shut Down

Commerce Board Discusses Plans For New Projects

Disposition Of Naval Air Station Property Is High On List

Progress on road building in Seminole County, securing of housing and other facilities of the Sanford Naval Air Station in event the Navy leaves here, and means of furthering improving the St. John's River channel, were the major topics of discussion at the meeting of the board of directors of the Seminole County Chamber of Commerce Tuesday evening at the Hotel Mayfair.

H. H. Coleman, newly elected president succeeding T. W. Lawton, told the Chamber members he was glad to serve them and expressed confidence that a number of "worthy projects" awaiting development would be furthered and other projects would soon be unfolded.

Senator Lloyd F. Boyle reported good progress in Seminole County's secondary road building program, and stated that following the letting of the contract, that work should be started soon on the 10 mile stretch of Road 44 from the Lake Jessup bridge to the completed Volusia county link of the road leading to Mims on the East coast. He praised the manner in which West First Street had been retrofitted west to Monroe corner. This road is being financed with State money because of a delay in receiving Federal monies due in part on the project, whereas Road 203, Geneva to Chuluota will be financed with Federal funds, he said.

The Foxgate-Forest City road has been completed, he announced, adding that he and Mayor Edward Higgins will leave for Tallahassee today and that efforts will be made to secure resurfacing of Road 202, Oviedo to Geneva, and to provide a better surfaced road to Bear Lake, whose residents have had a lot of trouble getting back and forth to work on the present clay road.

President Coleman announced that on Saturday Oct. 27 Navy Day a dinner honoring Captain William T. Easton of the Sanford Naval Air Station will be given. J. L. Ingley reported on Chamber finances and the budget for 1945-46 was adopted as read.

H. B. Pope reported that he and his committee had contacted Captain Easton in regard to disposal of facilities at the Naval Station in event the Navy leaves, particularly of the hospital unit.

It was reported by Mr. Pope that if the station should be abandoned, at the end of the two months following, the Senior Officers would make a list of all equipment, and circulate this list to the Navy or Army so they could pick up articles needed for their use, and after the matter would be turned over to the Surplus Property Commission for action.

Mayor Higgins then stated that he is preparing a request to the Commission, asking that in event the Navy leaves, the Station be turned over to the City and County, principally the hospital unit. He spoke of possible use of the facilities for aviation training, a vocational or military school, or for schooling of returned veterans.

He then told of the needed procedures relative to securing of ways or rights through right of ways of the St. John's River channel and of the program instituted for deepening it.

G. W. Spencer appeared and outlined a method for putting the Country Club and Golf Course in better shape.

A new visitor to the meeting was Philip Mars of Forest City.

War Fund Drive Is Now Over \$6,000

The Seminole County drive for the National War Fund has gone over \$6,000, H. H. Coleman, chairman, reported today. No reports have yet been received, Mr. Coleman said, from Altamonte or Casselberry.

"We have not yet received any complete reports from team captains," he added, "but most of them now are just bringing the bushes with only a little more expected to come in. Here at headquarters we are reshuffling the cards hoping to find some that have been overlooked who may want to give something."

ARGENTINE STRIKE

BUENOS AIRES, Oct. 17 (AP)—Argentina's largest labor organization, the General Confederation of Workers, announced today it had called a general national wide strike for a 24 hour period beginning at 12:01 A. M. tomorrow in a protest against any government of oligarchs and Henry Justus of Sanford and against the "dalliance of the government to the supreme court."

Truman Urging Management-Labor Cooperation

IN AN EXTREMELY IMPASSIONED ADDRESS before a crowd of 70,000 at the Caruthersville, Mo., Fair Grounds, President Harry S. Truman (arrow) warned the audience that the task ahead required the mutual cooperation of labor and management. Mr. Truman was enjoying his twelfth annual visit to Caruthersville and the fair. (International Sanphot)

Chase & Co. Is Preparing For Big Season

New Machinery Is Installed For Handling More Fruit

Fruit packing capacity of the Chase Packing House at Band's Building has been greatly increased by the installation of new machinery and equipment, it was announced today by Robert G. Williams, sales manager of citrus products for the company.

Orange packing was started Monday at the plant. The fruit appears to be of larger size than that of last year, is of good quality, and of exceptionally good quality, Mr. Reely said.

Chase and Company was not able to handle all of the fruit desired by growers last year, he added, but this year the increased equipment will permit the packing of several hundred thousand boxes of citrus. There are improvements in coloring, waxing and drying of oranges, and grading belts have been remodeled.

Demand is exceptionally good for early oranges, and the outlook is for a very good season, Mr. Reely declared.

Celery prospects in the Sanford area indicate an increase in acreage planted. Seed beds are reported to be in good condition, and the planting of celery is being initiated this year, due both to the scarcity of seed of the Golden variety, and to the fact that the market for Pascal celery was very good last year.

At the Sanford State Market shipments of green beans, locally grown, are beginning to move.

C. A. Simpson Dies At Home Of Daughter

Charles Alexander Simpson, father of Mrs. Roscoe Taylor of Sanford, died at the home of Mr. and Mrs. Taylor, 2486 Orange Avenue at 6:15 A. M. Tuesday after an illness lasting more than six years.

Born in Mecklenburg County, N. C. on Mar. 15, 1860, the 85 year old man had lived in Sanford for the past 20 years. He was a retired farmer and a charter member of the First Methodist Church of Matthews, N. C.

Funeral services were held this afternoon at 3:00 o'clock at the Erickson Funeral Home for Mr. Simpson, with the Rev. J. E. McKinley, pastor of the First Methodist Church, officiating. Burial was made in Evergreen Cemetery.

RUSSIAN ELECTION

MOSCOW, Oct. 17 (AP)—Residents of East Prussia, wrested from Germany, and the Kuriles and Southern Sakhalin island, taken from Japan, will vote in a Russian general election on Feb. 16 and elect deputies to the Supreme Soviet of the U. S. S. R.

Improvements Are Being Made Daily In Downtown Area

Improvements are continuing on stores in the downtown section and new business projects are being announced daily.

The Cowan Company is moving drygoods stock into its new store, and work is now being centered on the windows and the facing.

A new furniture store, operated by M. T. Hayes and A. J. Williams, will open soon in the store vacated by The Cowan Company.

William Jennings has moved his feed and seed store from its former location at Sanford Avenue and First Street to Sanford Avenue and Second Street, after having purchased the Sanford Cash Feed Company from Glenn Richardson, whose employee, Bud Kinard, he is retaining. He is also retaining Bill Bailey from his former store.

A store at 317 West First Street is being prepared by James Chestnut and John Donahue for a vegetable blind store.

Work is progressing on the new addition to the Hollywood Shop which was formerly occupied by Sears Roebuck Company, now occupying their new store across the street.

Extensive alterations are taking place in the Thorpe Furniture Store at Second Street and Magnolia Avenue under direction of Fred R. Dyson, contractor. It is expected that the store, closed during the war period will reopen on Nov. 15. Mr. Dyson also has the contract from Volio Williams to start work next week remodeling the bowling alley on Magnolia Avenue that was destroyed last November by fire.

The Hanson Shoe Repair Shop has set up all its shoe repairing machinery in the Cowan building, has moved in its retail stock of shoes and is now ready for business.

Dr. Charles L. Park Resumes Practice

Major Charles L. Park, who is now on terminal leave prior to reverting to inactive status in the Army as the result of physical disability, has returned to Sanford to resume his practice of medicine and surgery.

Major Park entered the Army on June 20, 1942, and was assigned to the Second Auxiliary Surgical Group which was activated in Atlanta, Ga., and later was assigned to the Station Hospital, Camp Gordon, Ga. He was sent to the Oliver General Hospital, Augusta, Ga. Sept. 18 as a patient and was returned to the hospital on Oct. 10, 1945.

He is residing with his family at 105 West Seventeenth Street.

ITALIAN TREATY

LONDON, Oct. 17 (AP)—Official British sources said today that discussions are underway here to revise and soften the Italian armistice as a stop-gap until a final and formal peace treaty can be drawn. The next move is up to the Soviet Union. The foreign ministers conferences ended two weeks ago in impasse over the treaties for Bulgaria, Romania and Hungary, and whether France and China should take part.

Jap Communists Seek To End Imperialism

TOKYO, Oct. 17 (AP)—Hirohito, whose future has been a burning topic of speculation since the American occupation, granted amnesty today to nearly one million Japs as he openly avowed a move to unite Nippon "in meeting a great change in our history."

He pardoned 320,000, reduced sentence for 37,000 and ordered the restoration of civil rights to 600,000. The emperor's plea of unity was made at a time when Jap Communists were working openly for an end to imperialism.

Striking Movie Workers Resort To Sit-down Picketing In Newest Technique

CHICAGO, Oct. 17 (AP)—Reconversion difficulties have been slowing down essential parts in the radio industry and it now appears that far fewer sets than were anticipated will be available for Christmas. Retail prices will be the same as in 1944.

LONDON, Oct. 17 (AP)—Striking stevedores decided at a mass meeting today to remain away from London docks where soldiers have been working nearly a week in an effort to keep food ships from sailing. Strikers ignored back to work pleas from the Labor government, union leaders and newspapers. In the big ports north of London, there was no immediate sign of a break in a strike which has 45,000 idle, has immobilized scores of ships and tied up some 200,000 tons of food.

The national idle expended today as the labor dispute idle total jumped to 450,000. Widespread strikes in the soft coal fields of six states remained the most critical postwar labor dispute with 1,000 mines closed, shutting down steel and other industries through fuel shortages.

The coal operators hint at a new proposal, the possibility of reopening during construction efforts by the government.

Disruption within the AFL Longshoremen Union is keeping a large part of New York's harbor idle, while insurgent stevedores demand the ousting of the union's President, Edwin, as his faction blamed the CIO leaders, Harry Bridges and the CIO Maritime Union for the split.

Sitdown picketing—a new technique in strike procedure—by movie workers in the AFL jurisdiction during the collapse of union leaders and film producers continued their efforts to end the walkout.

Negotiations continued in the near-month-long strike of some 6,000 AFL lumber workers in the Pacific northwest and 40,000 CIO workers over wage demands.

Steel production, backbone of America's peacetime redoubt, declined at an alarming rate under the weight of the collapse of negotiations between soft coal operators and United Mine Workers.

More than 20,000 steel workers in the Pittsburgh area alone were thrown out of jobs as the walkout among miners spread to other pits with 200,000 mine workers striking. These idled men accounted for almost half the 164,000 American workers thrown out of work by labor strife in hundreds of plants.

U. S. Steel Corporation reported unemployment in its Pittsburgh plants had passed the 15,000 point and operations had been reduced to 28 per cent of capacity.

On the same evening, Campbell-Lossing Post 53 will sponsor a dance to be held at the Sanford Armory.

Lt. Patsy Bassett Given Discharge After Three Years

First Lieut. Patsy O'Conner Bassett, U. S. Army Nurse Corps, after serving overseas three years has received a discharge and is spending her terminal leave with her parents, Mr. and Mrs. Thomas I. O'Conner of Lake Mary.

After completing nurse's training at the University of Maryland, Baltimore, Md., Lieut. Bassett went into the service in April, 1942. She was sent overseas in May, 1942 and assigned to the 112nd General Hospital which was first stationed in the Fiji Islands and later in Calcutta, India. Her specific duty in the hospital was nurse in charge of medical wards.

Lieut. Bassett returned to the states in February, 1945 and has since been stationed in Memphis, Tenn. at the Kennedy General Hospital. Her husband, Capt. E. M. Bassett of the Air Transport Command, is a veteran pilot of the China-Burma-India theater. He is at present with the Fifth Ferry Group in Dallas, Texas, but expects to receive his discharge in the near future.

Until Capt. Bassett is discharged from the ATC, Lieut. Bassett will remain at Lake Mary with Mr. and Mrs. O'Conner.

WHAT'S WORTH HAVING IS Worth waiting for!

SOON

YOU WILL BE ABLE TO ENJOY THE COMFORTS AND CONVENIENCES OF THE ELECTRONIC AGE!

Electric appliance manufacturers have their reconversion plans in full swing. Already a trickle of gleaming, modern, new electric appliances with all of the comforts and conveniences you've been waiting for, is coming from these plants. Soon this trickle will become a steady stream and ere long, a whole flood of labor-saving appliances will reach the market.

The Electronic Age will be here. Housework drudgery will be banished. There will be a new high in home entertainment from radio and television; new comforts and new conveniences will be yours.

New appliances are being born; the ones with which you are familiar will soon have new improvements. Modern living demands the comforts and conveniences of the Electronic Age; the new electric appliances which are about to become available will bring that Electronic Age into your home. Be ready to make your selection.

FLORIDA POWER AND LIGHT COMPANY

KEEP BUYING BILLS FOR THE ELECTRONIC AGE

1. With an automatic electric range you'll cook all your meals without your attention.

2. With the latest in electric refrigeration, a single dial setting will give 5 different zones of cold.

3. With a laundry basketing electric washer which cleans, suds, rinses and spins clothes, you'll save time and labor.

4. With the amazing home laundry which soaks, washes and rinses automatically, using electrically heated water.

5. With ready electric table appliances which let you serve chicken, omelets, coffee, cakes and breads with ease.

6. With modern air conditioning which lets you regulate indoor weather as you will.

7. With ready electric table appliances which let you serve chicken, omelets, coffee, cakes and breads with ease.

8. With television and all the newest developments in radio, to give you new entertainment.

Stassen to Quit Navy Soon and Resume Politics

Plans National Speaking Tour to Build Support For Nomination

WASHINGTON, Oct. 17. (AP)—Captain Harold E. Stassen is getting out of the Navy soon and going back to the political wars with a nationwide speaking campaign.

Friends of the former Minnesota Governor, who expects to be in Annapolis, Md., today that Captain Stassen is a definite unannounced candidate for the Republican Presidential nomination in 1948.

Unless he changes his plans, they said, he will not seek any public office in the meantime. He resigned as Governor to enter the Navy, where he served as flag secretary to Rear Admiral William Halsey, commander of the 3rd Fleet.

Captain Stassen apparently Republican politics in his own plans to take an active part in state and nationally. In Minnesota he reportedly will support another candidate in the primaries against Senator Henrik Shipstead, Republican, of Minnesota, but will not himself be an aspirant.

Nationally, Captain Stassen plans to lay out a program in a series of speeches he will make between now and convention time in 1948. He hopes also to build up support within the party for what now seems to be an uphill battle for the Presidential nomination.

The prospective candidate apparently figures that by staying in the issues he can keep himself in the public eye and build up support among the younger and less tradition-inclined elements of the Republican party. He is counting heavily on the men and women who are coming out of the armed forces to rally around him.

Because his views on international affairs are pretty widely known, Captain Stassen plans to devote much of his speaking time to domestic issues. Before he went in the Navy he was in the forefront of those who urged all-out international co-operation to preserve future peace. He served as one of the American delegates to the San Francisco Conference which produced the United Nations Charter.

On the domestic front friends said Captain Stassen will hear down on proposals to improve labor-industry relations. His main line is for establishment of a outstanding suggestion along this judicial tribunal, such as exists in more advanced countries for settlement of jurisdictional strikes.

Proposals for a balanced budget and for conservation of natural resources depleted by the war are expected to be key points in his program.

Apparently the Stassen forces will seek no early test of their strength within the party. In the first place, the younger members who have been in uniform will need some time to get interested in politics again. In the second place, Captain Stassen's friends think Governor Thomas E. Dewey, of New York, is too strongly entrenched in the Republican organization to be challenged now. They want to see what happens to Mr. Dewey in 1946 when the 1944 Republican Presidential nominee is expected to run for re-election as Governor.

Navy Athletics Started With Gym Test In 1865

By GEORGE E. RISLER AP News Columnist ANNAPOLIS, Md. — From a gymnastic exhibition staged for the entertainment of President Grant 80 years ago to the 1945 sports program of 2,300 members of the Navy at Naval Academy athletics.

Sports and the modern American Navy were born and grew up together at Annapolis—clubs, steam propulsion and torpedo courses to kindergarten with rowing, gymnastics and football—and their progress as a team is evidenced in the fact that almost without exception the members of today's naval leaders can be traced directly to Olympic fields along the Severn.

Prior to the advent of Vice Adm. David Dixon Porter as superintendent of the Academy in 1865, the atmosphere of the institution had been conservative and puritanical. Competitive sports were unheard of and even requests for indulgence for participation to play cricket during idle hours incurred severe reprimands.

Adm. George Dewey, who graduated with the class of 1863, had greatly deplored the lack of athletic and Porter, a natural athlete, immediately set about abolishing the lassitude and lethargy he found rampant at the Academy following the Civil War.

One of his first acts was to inaugurate a system of physical exercises and athletic sports designed to divert the midshipman and cultivate self-reliance—the foremost principles in his plan to build up the Academy into a rivaling West Point.

He transformed the circular ramparts of the old Fort Severn into a gymnasium, installing burton and bars, ropes and pulleys. Drills with Indian clubs and dumb bells were instituted, and midshipmen were coached in weight-lifting—such as hoisting a barrel of flour from floor to shoulders.

Bassball was introduced, and the admiral himself often put on the gloves and climbed into the ring with boxing students.

In 1876, midshipmen at the Naval Academy began amusing themselves with a game they called football—which was more on the order of today's soccer. But the following year, the Midshipmen arranged a football contest with the Clifton Club of Baltimore.

The opponents were really students at Johns Hopkins University. That game ended in a scoreless tie. The Academy began its long football career with Army in 1901—the highlight of that first game being a home run with the bases loaded by Hobson of Army, scoring Cadet Douglas Alexander Arthur from third. Army won 2 to 0.

Boxing became an intercollegiate sport in 1920, and basketball began in Dahlgren Hall in 1907. Navy won the intercollegiate fencing championships in New York in 1930 to inaugurate the fall sport, and the first eight oared shell took to the water in 1893 to mark the start of crew.

Lacrosse began in 1908; track started in 1904; soccer, beginning in 1913, was revived in 1921. The purpose of athletics at the Naval Academy is outlined in the following Athletic Code, adopted in 1901:

"Among the many qualities which are increased if not induced by athletics may be mentioned: purity, activity of mind and body, self-control, self-reliance, health, strength, common sense and esprit de corps to a marked degree. That all these qualities are desirable in the makeup of a naval officer, the Athletic Committee sincerely believes."

Former Governor Holland To Aid Tangerine Show

WINTER HAVEN, Oct. 17 (Special)—Former Governor Spessard L. Holland of Bartow will be master of ceremonies at the 1945 Tangerine Queen Contest at Cypress Gardens on Oct. 21, the Winter Haven Junior Chamber of Commerce Contest Committee announced today.

The deadline for entries has been extended to Oct. 17, Jack Gurnett, Committee Chairman, reported, because many competitors are holding elimination contests early this week to select representatives.

Anticipating 35 to 40 participants, with 21 actually lined up today, the competition will have the largest bona fide entry list of any recorded Florida beauty contest, Gurnett added. With the entry of three brunettes, along with two Brooksville sisters, Florida Mac and Betty Lee, 24 and 26, and six other brunettes, gives the dark-haired girls the lead over the blondes by an 11 to 10 count.

Plans are now underway to send a few days before the competition to make an intensive study of the Florida citrus industry. "Queen Tangerine '45" is to be presented with the latest Florida fashion for post-contest publicity pictures and for her visit to the citrus markets by the Miami Fashion Council, while the Harvest Watch Company is preparing a special "Miss Victory" which for her.

Arrangements are being provided for a huge crowd at Cypress Gardens where a special stage is being constructed in a natural amphitheater to feature a scenic Florida setting for the event.

Pilfilm Is Praised As Fruit Wrapper

ORLANDO, Oct. 17 (FNS)—Tests made with the use of a new fruit and vegetable wrap known as pilofilm would seem to indicate that this new style of packaging will become popular with fruit and vegetable shippers since it encloses, protecting and retaining over present paper wraps both from the standpoint of protection and display.

Made of raw rubber, pilofilm, while sealing the product airtight, permits fresh fruits and vegetables to "breathe" or give off carbon dioxide without appreciable loss of moisture, appearance, taste, vitamins or quality while in transit or on display in the market.

Commercial tests on a fairly large scale have been made both in the shipment of vegetables and fresh fruit and pilofilm has proved about in that it is transparent, affording a beautiful display, is tasteless, odorless not subject to attacks by insects, vermin or molds and can be heat treated to fit the form of the object which it encloses.

Engineers have developed a machine which will wrap 500 oranges a minute of each of six different sizes and it is estimated that on quantity output it will be possible to produce wrap oranges at from 3c to 5c per box. The new wrap is no more costly than the old type of paper wrap and may be produced through improved production methods at even lower cost.

thing about two houses they are trying to build with Mrs. Eileen Earlen, Santa Rosa home agent, reports that the women—the mother of two men in the armed services abroad and the other—her daughter-in-law got two farmers to put up the foundation and framework, and then went to work themselves putting on weather boarding, ceilings, and flooring. They hope to have the houses ready on the return of the two soldiers.

WEDNESDAY, OCT. 17, 1945

BIBLE VERSE FOR TODAY

BUT WHILE THEY WERE ENDURING SLAVERY AND PERSECUTION AND HUNGER, THEY TOOK GREAT PAIN TO HOPE AND ENDURE. James 5: 11: We call them blessed which endured.

This war is ending exactly as the last one did in a series of little wars, proving that wars settle nothing.

Henry Ford says that no wage is too high that is earned—St. Augustine Record. And he might have added that any wage is too high that isn't.

A friend of ours who has spent the last two years in Europe and has seen most of that continent as far east as Berlin was asked the other day—his return to his country. "Of all the people you met in Europe whom did you like best?" "The Germans," was his unhesitating reply.

We see where the entire Japanese army has been demobilized and Japan no longer exists as either a second class or a third class power. However, we have the feeling that Japanese soldiers could be called back into the service almost as quickly, if not more quickly, than they were turned out.

We like to see lots of automobiles on Sanford's busy streets and a line of parked cars in the advantages over a deserted thoroughfare. We don't mind having to drive around the block half a dozen times looking for a place to park, but the thing that burns us up is to find a vacant parking space rendered absolutely inaccessible by some dumbwitted numbskull who parked over the line.

Mrs. Roosevelt who encouraged the CIO to organize for its own selfish interests as compared with those of the country as a whole warns world war veterans that if they band together to promote their own interests as veterans above the good of the nation "they can do enormous harm." And so they could if they wanted to but it does not seem to us they would be as likely to as the CIO or John L. Lewis and his United Mine Workers.

The National Safety Council reveals that war casualties from Dec. 7, 1941 to Aug. 14, 1945 were 1,070,524 while accidents on the home front killed or injured 84,000,000 persons, 355,000 of them killed and 1,250,000 permanently disabled. Veterans of Guadalcanal and the Belgian-Bulge had it pretty tough all right but they weren't sweating it out here at home where a woman driver was apt to clip you at the slightest provocation.

Milton Snavely Herahay, (Herahay's chocolate bar) to you died the other day at the age of 88. He made a hundred million dollars selling candy bars at a nickel a piece and left most of that money to the poor. Perhaps his greatest charity was the Herahay Industrial School for Orphan Boys to which he gave in 1919 over \$60,000,000. It would of course be impossible for anyone to amass such a fortune today under existing laws, but we sometimes wonder whether government bureaucrats could spend the money any more for the benefit of the public than the man who earned it.

It seems to us that the Allies in their glorious triumph in the greatest war of all time are making a sorry spectacle of themselves by their means. There was the revealing picture of Mussolini and his mistress together with other high Italian officials dragged from their homes and lynched in public streets. There was the picture of poor old Marshal Foch, 70 years old and fully in his senses, convicted of treason against the country which he had served when in his prime. There was the picture of Pierre Laval, convicted of treason, who had entered the court with the mysterious disappearance of the arch-criminal, the arch-criminal, the arch-criminal, the arch-criminal.

LOW COST

Make It Permanent

Every effort is being made, The Herald is advised, to make the Sanford Naval Air Station a permanent naval establishment. Mayor Ed Higgins is planning to go to Washington in the near future to confer with political leaders and naval authorities pertaining to this and similar matters. Local civic organizations are adopting resolutions expressing their desire for the station to be made permanent.

In the event the Navy has no further use for its facilities here, efforts should be made for their continued utilization in other fields, but it goes without saying that Sanford would like to have the Navy remain here and that no other occupancy of the station would react so favorably on Sanford or would likely mean so much to this city in an economic sense.

Sanford's relations with the Navy have been distinctly friendly ever since the Station was opened in the Fall of 1942 and the few incidents which might have caused friction have been handled to the mutual satisfaction of all parties concerned. One hesitates to think what Sanford business conditions might have been like during the past three years had not been for the Naval Air Station.

So The Herald joins in urging that the Naval Air Station at Sanford be made a permanent Naval installation.

Oscars For Industry

A thousand captains of industry, gathered in New York's impressive Waldorf Astoria hotel, witnesses a significant new trend—the acknowledgment that business must have no secrets from the public. Bronze plaques were awarded to 50 businesses by a committee of expert judges who decided that among thousands of annual reports to stock holders the reports of these companies were the best.

One business in each industrial classification was selected for the "Oscar" award. There was no emphasis on the virtue of one tractor over any other, one bucket of paint over another, but only on the excellence of the reports. The occasion, said to be the first of its kind in the history of American business, endorsed the policy of full disclosure to stockholders—the real owners of corporate enterprises—and to the general public. This means publicizing all data about income and outgo, how income is produced and what happens to profits and surplus.

Business operations are divested of mystery. Facts, even though they show red figures, are not withheld. The story is told fully and frankly at each year end. This commitment to fearless reporting of business information means swift vanishing of the quick-to-be-damned attitude. Annual reports have attained a new dignity and importance.

Living Bridges

The death at 80 of George Van Haltren recalls with a start the comparative youth of organized baseball. Though there is some evidence that the game is earlier than Gen. Abner Doubleday's reputed invention of it in 1839 there is no doubt that not till after the Civil War did it become widespread. The unbeaten Cincinnati Reds of 1896, captain by Harry Wright, were the first famous professional team. The National League was not founded till 1876.

Now Harry Wright was still playing in Van Haltren's first days, and so were stars of 1876 like Anson. Van Haltren's last playing days coincided with the catching service of Philadelphia's 80-year-old manager, Connie Mack. Wright, Van Haltren and Mack thus make a living bridge carrying baseball from the earliest days to the present.

Bill McPhee, Cincinnati's star second baseman of the '80's and '90's, died only last year. Some other players of that era must be still alive. Baseball historians may be able to dig them out.

A Call For A Man

Tampa Tribune

Next year, Florida will elect a promotion by the vote of the United States Senator. We think it timely and pertinent to make a few remarks on that subject.

It is for this reason that we feel that Florida should elect to the Senate next year a man who has Claude Pepper's initiative, decisiveness, energy and capacity for useful leadership—not necessarily (and preferably not) accepting Pepper's views and political and legislative alignments—a man who has shown that he can stand on his own feet, who will be free and independent in his thinking and acting, not tied to strict party lines or swayed by personal friendships or selfish ends, one whose first consideration would be the welfare and advancement of the state and nation, one whose record in office has fully justified the trust and confidence of the people and

SCIENTIFIC DEVELOPMENT OF NEW WEAPONS OF DESTRUCTION

MY HOBBY BOX

1.50 THE POUND

We do not have to look far for the type of man we have in mind. We find him closely at hand and, we hope, ready and willing to offer himself for continued usefulness to his state. We find him again honorably practicing his profession in the town whence he sprang and after four years of distinguished and valuable efficiency in the Governor's chair. We mean, of course, Spessard Holland.

We will not here extol the character, qualifications, ability and record of this highly esteemed Floridian. It is not needed—they are well-known throughout the state. The purpose of this editorial is to urge him to forget his reluctance to reenter the field of politics and public affairs and to announce his candidacy.

With characteristic fidelity Spessard Holland held true to his promise that he would not run for the Senate while Governor. That pledge has expired. His way to Washington is clear.

We say to him: Get in; get going—the people of Florida will put you in the United States Senate.

BUY OATS AND RYE INVERNESS, FLA.

Citrus County farmers bought 700 bushels of seed oats and 30 bushels of seed rye recently, with County Agent O. M. Maimes, Jr., arranging the cooperative purchase.

Dorothy Gray LIPSTICK

You need such a rich-textured lipstick to bring out the warm undertones in your sun tan. Dorothy Gray Lipsticks are beautil insurance when you're swimming, too, because of their notable lasting qualities. Choose Blackberry for white or lime clothes... Frenchman's Red for bright, clear colors. Dorothy Gray Lipstick, \$1. plus tax.

Now We Can RECAP Your Passenger Car Tires with GRADE A TRUCK RUBBER
Every driver has seen those heavy trucks rumbling down the road with their big heavy loads. You know that truck tires take a terrific beating from the hard grinding wear. Naturally, the rubber to stand that abuse must be especially compounded to be extra tough—extra long wearing.
We can NOW recap the tires of A, B and C card holders with Grade A Truck Rubber—guaranteed to be exactly the same rubber used in recapping the big truck and bus tires. Its extra toughness in your tires means 3,000 to 5,000 miles of extra wear—over recaps of ordinary rubber.

Forrestal Sees Danger in Fast Demobilization

Truman's Ideas on Service and Training of Boys Puzzle Capital

WASHINGTON, Oct. 17, (AP)—James Forrestal, Secretary of the Navy, declared last Saturday "there is no better way to start a third world war" than to demobilize too rapidly.

Addressing 160 men and women graduating from the American Red Cross training unit at American University, Mr. Forrestal said:

"In our haste to get rid of the signs of war, we may strip ourselves so rapidly that we will save nothing with a universal Red Cross training unit at American University. Mr. Forrestal said:

"Some people thought Mr. Truman might have committed himself to both yesterday because the White House spokesman he had asked the cabinet and other high officials to push his legislative program, which was outlined in a message to Congress Sept. 6. The President parceled out the various parts of the program to the officials most interested in them.

Under that arrangement, he assigned the War and Navy Departments the part of his message "dealing with a universal training program and a unification of the armed services."

On first glance, some individuals thought that meant he wanted both.

But White House officials said today that Mr. Truman hadn't intended to announce his policies on those subjects now. He did mean, they said, that the Army and Navy will be responsible for getting behind recommendations on those topics when they are made.

They noted that the message to Congress last month merely would communicate with the lawmakers later with respect to universal training and a combined military service.

Florida Farm Bureau Meets On Nov. 14-15

TALLAHASSEE, Oct. 17 (FN S)—Agricultural problems of serious concern to Florida farmers and growers, particularly in the matter of surplus disposals at "cost and better," will be fully aired at Orlando Nov. 14-15 at the annual meeting of the Florida Farm Bureau, it was announced by Commissioners of Agriculture Nathan Mayo.

Secretary of Agriculture, Clinton P. Anderson of Washington, will take part in the Nov. 15 discussions, during the time he is guest of the Florida Farm Bureau.

At Commissioner Mayo's request, the agricultural division of the Florida State Chamber of Commerce, of which William L. Wilson, State Market Director, is chairman, and L. H. Kramer, co-chairman, has changed the date of its fall meeting, which was scheduled for Jacksonville, to coincide with the Farm Bureau meeting and accordingly will be held in Orlando, Nov. 14.

It is believed by Mayo and other Florida agricultural leaders that definite assistance will be forthcoming from the federal government if the true conditions now confronting the state's farmers are made known to secretary Anderson.

"The Orlando conference" Mayo asserted, "will by no means end our marketing and other troubles which were confounded by the sudden ending of the war, but should help to clarify them by placing responsibilities where they belong."

LUPINE IN COLUMBIA LAKE CITY, Fla.—Columbia County farmers will plant about 850 acres in blue lupine this season, according to County Agent L. W. Rivers.

spent only \$400 a year for food in 1940 and in 1945 we spend \$600. He believes that while prices may not return to the pre-war level, they will come down considerably within the next few months.

Florida Wives Learn To Save On Food

MIAMI, Oct. 17, (FNS)—According to a five year survey conducted by Dr. Rheinfeld, professor of economics of the University of Miami, Florida housewives are paying 63 percent more for food-stuffs in 1945 than they paid in 1940.

Dr. Rheinfeld predicts that food prices are due for a tumble when increased farm production puts more fresh fruits, vegetables, poultry, eggs and meat on the market.

He points out that throughout the country and in Florida particularly farm production has steadily increased and before long local markets as large quantities of farm produce become available, which should result in a sharp price drop on such commodities. His survey shows that in Miami the average family of two persons

GIs Criticize Army For Slow Journey Home

Soldiers In Philippines Ask For Cargo Ships, 10-in-1 Rations For Trip

MANILA, Oct. 19, (AP)—U.S. Enlisted men in the Philippines, writing the "letters column" of an Army newspaper, the Daily Pacifican, accuse Army authorities supervising the homeward shipment of veterans of "halling, inefficiency and promise-breaking."

The writers complained that the Army is failing to make use of dozens of cargo vessels sailing empty for the United States. Officials said the freighters are unsuitable, but one letter said "give us a case of tin-on-tin and we'll be tickled to death to ride the cargo ships home."

They also said the Army is high point men home first. The violating its promises to send back the policy of moving men by divisions moved low point men in units, while high point men in other groups, or unattached, were

Added Headache For Commuters

THESE YOUNG WOMEN, walking along the tracks of a Massachusetts Railroad, are on their way to work in Boston. Unable to get transportation because of the bus and trolley strike, they tried the railroad, only to learn that train service had temporarily broken down. So here are the girls heel-and-toeing to work. (International Soundphoto)

War Criminal Trials Start On Nov. 20

U-Boat Commander Denies Giving Any Order To Shoot Survivors Of Ships

HAMBURG, Oct. 19, (AP)—Capt. Adalbert Schme, German submarine commander, denied today that he had given any order to shoot survivors of torpedoed ships.

He was a witness before the British military court today, and other U-boat commander, Heinz Eck, and four of the crew charged with killing eight survivors of the torpedoed British freighter Peleus, in March, 1941.

In testimony, the world's first great war criminals trial of 24 high Nazis and German military and industrialists will begin Nov. 20, the International Military Tribunal announced today.

Ships Shattered By Okinawa Twister

On Buckner Bay, Okinawa, after a 100-mile per hour A TANGLED MASS OF WRECKAGE is left in a moon cat coast over the island had subsided. Tearing winds and 20-foot rollers drove the U.S. Navy ship into a collision and left a wreckage of twisted metal. The wreckage was leveled by the storm. This is an official U.S. Navy photo. (International Soundphoto)

End Is Sought To CIO Strike In Michigan

Truman Confers With Cabinet Over Wage And Price Policies

(By Associated Press)
Federal and Michigan state officials moved today to end the strike of 2,000-CIO utility workers now on emergency crews stayed on the job to maintain electric service for some 2,000,000 consumers. Gov. Harry F. Kelly called a meeting at Lansing today in an effort to end the walkout.

Union leaders were to attend. But it was not known immediately whether representatives of the Consumers' Power Co. would be present.

The total idle nationally is now 457,000, including 216,000 coal miners who have been ordered back to work Monday. The walkout of 35,000 AFL longshoremen in New York ended after 18 days but still smoldering was the bitter fight between the insurgent group and union president Joseph P. Ryan.

Connolly Explains Use Of Flag In Spirit Of 1776

By Willard Connolly
That Hollywood movie directors, trying to be historically accurate in scenes, sometimes use "messed up" is indicated by the following press clipping of a director who tried to duplicate A. M. Willard's "Spirit of '76" in a Technicolor musical film with a historical background:

"Director Gregory Ratoff is one man who won't tamper with history. In motion pictures, when the facts involved aren't quite correct."

"In 'Where Do We Go From Here?' 20th Century-Fox's Technicolor musical which stars Jeanette MacDonald and John Haver, and opens soon at the Ritz Theater, I was to carry a flag in a scene duplicating Willard's famous painting, 'The Spirit of '76.' Quick research revealed a little known fact—the flag depicted in the painting was not adopted until two years after the Revolutionary War."

(The actual flag of Washington's Continental Congress is carried on)

Stenstrom Shows Cpl. Lossing Is How Soldiers Are Shipped To U. S.

By Julian Stenstrom
Since my return to Sanford, a number of people (including the editor of the Herald) have asked me about their sons overseas and what happens to a soldier from the time he leaves his organization until he safely home with his family.

I was stationed in Europe an identical system is operated in the Pacific. But to those of you who have sons, husbands or fathers in Europe, my own experience may be typical. Also it pertains to the movement of high point personnel only. However, it is possible that men returning to the United States for emergency reasons may in some instances be subject to the same type of processing.

Sunday afternoon, Sept. 9, is a day we'll never forget. We had just returned from Church services when a friend of ours telephoned from Reims that we were on orders to return to the States. After hurried preparation and many last minute details, we left Etain, France between Verdun and Metz, early on the morning of Sept. 12, via motor vehicle. Before noon we had arrived in Reims and registered at the Half-Way House.

The following morning we discovered that we had been placed

(Continued on Page Two)

Lawton Reveals Advantages Of Training Vets

Thousands Of Dollars Lost To Business By Failure To Qualify

Seminole County and Sanford are losing thousands of dollars of income through failure of business men to qualify their employees for training of war veterans held under the G. I. Bill of Rights provisions. T. W. Lawton, county superintendent of schools, said today.

Lawton urged that business men contact him in his office at the Court House to learn the benefits of these training provisions.

"The average business man tends to die in his loss of young men," said R. H. Bill, representative of the Veterans Administration who is at the Sheriff's office every Friday at from 9:00 to 4:30 P. M. to interview veterans in regard to G. I. Bill benefits.

In connection with this, Mr. Bill told of a veteran from Kissimmee who returned home but because of injuries sustained in battle, was not able to carry on work as formerly. He was unable to take advantage of veterans training benefits there, but was able to do so in Orlando. There he now receives \$103 a month training benefits from the government, in addition to his salary of \$30 a week.

Celeryfeds Play Cost Of Butter Raised By OPA At 7:30 Tonight

By "BUKE" MacNEILL
The Seminole High School Celery "Feds" will entertain the Ocala Wildcats when they play Sanford tonight in the Sanford High School gym. The game will start at 7:30 p. m.

Costs of butter have risen to a record high, and the cost of living has increased. The retail price of butter will be boosted five to six points a pound Nov. 8.

Stabilization Director Collet announced this evening in a drawing, effective Oct. 31, a wartime subsidy of five cents a pound paid to butter processors.

Price Administrator Howles, in a concurrent statement, expressed the opinion that the effect of the butter price increase on the cost of living will be offset by a decline in other items.

Howles said the overall cost of living had dropped two-tenths of one percent between July 16 and Aug. 15. He also said that there was a subsequent drop in the cost of potatoes "and other cost of living items."

"For these reasons, Howles said, the consumer will pay no more for all items going into the family budget as a result of the increase in butter prices than the price he paid at the time of the surrender of Japan."

The latter subsidy went into effect June 1, 1945. Since that time the Reconstruction Finance Corporation has paid out \$174,691 to processors.

Secretary of Agriculture Anderson's approval of cancellation of the subsidy, the announcement said, while demand is still strong, will maintain returns to processors and processors.

Victor Check Back From Trip To Kansas

Victor Check, Sanford resident who just returned from a six weeks' trip to Kansas, reported that he enjoyed everything on his journey except the cold weather, and that he was on that account glad to get back to Sanford.

At Topeka he attended rodeos at the Kansas State Fair, and on the way back took in the sixth game of the World Series at Chicago. The farthest west he got on the trip was Denver, Colo.

Much sale of stock was taking place in Kansas, he said, and added that the state was just recovering from a prolonged drought that was detrimental to the cattle industry.

CITY BRIEFS

The Rotary club will hear J. A. Young, superintendent of the Lake Monroe power plant of the Florida Power and Light company, explain features of electricity generation and transmission on Monday at the Mayfair Hotel.

At a recent election of the Seminole Chapter of Future Farmers, Vern Clark was elected president, Erman Gano, vice president, Thomas Kenney, secretary, Albert Byrd, treasurer. Vern Clark succeeded Ralph Johnson as president. The latter, by appointment of the president, was placed in charge of recreation activities.

All Sir Knights are requested to attend the meeting this evening at Taylor commandery, No. 1, E. T. which will be held this evening at 7:30 o'clock. Important business will be taken care of.

There will be a dance tonight at the Callie Cross sponsored by the Junior class of Seminole High School. Tomorrow night a picture show will be given at the crate which will be free of charge to all members.

Legion Is Conducting Membership Drive

The "Forty and Right" are holding the state roundup in Sanford on Oct. 27 and 28 for selecting new members to the American Legion. Campbell, secretary, Post 45 will be host to the visitors.

First Vice-commander H. B. Pope has requested that all members who have not already paid their dues do so at once in order that the Post may be represented 100 percent at the roundup.

The American Legion "Locomotive" will be at the Roundabout and Anderson corners on Saturday from 4:00 to 7:00 P. M. in order to accept dues from old members. However dues may be paid to Legion officer at any time.

Miss M. Pope, secretary, will drive for membership. Col. Sam Brabson of APTAC will make a public address at 8:00 o'clock Saturday evening at the corner of Park Avenue and First Street. Band members' facilities will be provided by the Legion.

Hallow'en Party Planned At USO

A Hallow'en party will be held for service men and women, service wives and hostesses at the USO next Wednesday evening at 8:30 o'clock. It was announced today by Joe Hall, director.

There will be many prizes given, including floor and costume prizes; there also will be apple bobbing and fortune telling, and later dancing to the music of the Sanford Naval Air Station Band. There will be special decorations put up under direction of Mrs. S. C. Graham and Mrs. Edward Lane.

USO Director John Lee of Sanford arrived this morning and will relieve Mr. Hall for a short time, while the latter takes a business and social trip north, returning in early November.

DISCHARGES

Pfc. George Alford, 615 East Third Street, has received his honorable discharge after four years of service with the medical corps. At one time stationed at APTAC, Orlando, he served with the 9th Air Corps of the 7th Army in the African, Sicilian and Belgian and German sectors. He is married to the former Leola Benton of Sanford. They intend to leave soon for San Francisco to make their home.

Phm. 1-c Bob Hickson Discharged By Navy

Bob Hickson, Phm 1/c USNR, received his honorable discharge from the Naval service at Jacksonville, Monday. During his period of service, he was stationed in the Panama Canal Zone. After spending several weeks with his parents, Deputy Sheriff and Mrs. Jack Hickson he plans to go to Philadelphia to finish his education at the University of Pennsylvania.

Rat Eradication Is Making Progress

Grady Duncan, city health officer, and H. H. Nickerson who has been assisting him in eradicating rats from the downtown section, have returned from Jacksonville, where on Wednesday and Thursday, they attended the meeting of Rodent Control Directors of the state.

Mr. Duncan said that new progress was reported at the meeting in regard to use of DDT insecticide in killing fleas that infest rats, and for getting rid of the rats, formula 1080 was allowed for public use for this purpose. So potent is this poison, which is used in water, that it is required by the State to be kept under strict supervision, and not allowed for public use.

He added that use of this poison had put downtown Sanford under good control as far as rats were concerned, but due to wartime shortages, work had not been taken up in residential areas. It is planned, however, this year to extend the rat control over a wide area, he added.

NIX ON REBEL

ON THE USS REBEL, Oct. 19 (Special)—Lieut. (Jr.) Sydney J. Nix, USNR, 1812 Palmetto Avenue, Sanford, served on this fleet minesweeper when she was among the first U. S. Navy ships to enter Ominato Harbor, Honshu, Japan, to occupy northern Honshu and Hokkaido, main Japanese islands.

The REBEL swept the channel to safeguard the major Fleet units following her.

Victor Check Back From Trip To Kansas

Victor Check, Sanford resident who just returned from a six weeks' trip to Kansas, reported that he enjoyed everything on his journey except the cold weather, and that he was on that account glad to get back to Sanford.

At Topeka he attended rodeos at the Kansas State Fair, and on the way back took in the sixth game of the World Series at Chicago. The farthest west he got on the trip was Denver, Colo.

Much sale of stock was taking place in Kansas, he said, and added that the state was just recovering from a prolonged drought that was detrimental to the cattle industry.

T B Association Plans New Hospital

Plans toward securing an isolation tuberculosis hospital in Seminole County were made Tuesday evening at a meeting of the board of directors of the Seminole County Tuberculosis and Health Association, according to Mrs. Elizabeth Barker Kirsch, secretary.

Mrs. Mary Howells, Seal Sale chairman, appealed to all directors to assist with the seal sale, proceeds of which, she said, would be devoted toward the building of the isolation hospital.

It was decided to employ a full time secretary in view of the increasing work of the Association.

Higgins And Boyle See Governor Over Naval Air Station

Mayor Edward Higgins and Senator Lloyd F. Boyle took to the air Wednesday morning at Orlando in order to keep an appointment with Gov. Frank P. Taylor in Tallahassee to confer with him in regard to use of the Sanford Naval Air Station if or when the Navy leaves.

Plans for City and County use of the Station were presented to the Governor with the idea of coordinating with plans being made by the State in respect to military bases that may revert back to civilian control, Mayor Higgins said.

They also called at the State Road Department to confer on Seminole County road projects, particularly Road 202 from Ocala to Geneva which needs resurfacing. They were advised that this road could be put in the budget for next year as a periodic maintenance project.

Mayor Higgins said that they enjoyed the trip which was made in a small monoplane in two hours flying time from Orlando to Tallahassee. They returned also by air Wednesday evening.

DeLand Contracting Sewerage Plant

DELAND, Oct. 19, (AP) Acting City Manager Fred Gross said yesterday that the J. B. Green Plumbing Co., Sarasota, has started work on the City's Sewage Disposal Plant. Green, himself, is here, as is his general manager, George F. Higgins, getting work under way. They expect to complete the work within 90 days.

Green's resident engineer is here and will be on the job through construction.

Mayor Les Fugle pointed out today that this construction of the disposal plant, costing some \$820,000, is being done out of funds that have been set aside by the city for the purpose, which is now "cash in hand." This is not a government financed project. No bonds or revenue certificates were or will be issued for the money.

The building of a sewage disposal plant was considered by the authorities to be one of DeLand's greatest needs. It has the approval of the State Board of Health.

THE WEATHER
TODAY: Partly cloudy with scattered showers and with little change in temperature through Saturdays.
TOMORROW: Scattered showers throughout south portion.

Sgt. Simon L. McGill Receives Discharge

DREW FIELD, TAMPA, Fla. Oct. 19.—(Special) Sgt. Simon L. McGill, 25 year old soldier from Sanford, Fla., was released from the services of the Army Air Forces today at the Drew Field Separation Station.

Sgt. McGill is the son of Mr. and Mrs. Elam McGill of R. 1, Havana, Fla. Prior to entering the service he was a nursery worker employed by the Ben Fish Co. in June 1942. He went overseas with the 890th Arm. Encl., where he served in the E. T. O. until he returned in February of this year.

Adams Wooten 77 Dies In Longwood

Funeral services for Council Adams Wooten, 77, resident of Longwood for the past 11 years who died Wednesday evening at a local hospital after a long illness, will be held in charge of the Erickson Funeral Home at 2:00 o'clock Monday afternoon at the graveside at Myrtle Hill Cemetery, Tampa.

For the past seven years Mr. Wooten had lived at the home of Mr. and Mrs. W. B. Stum of Longwood. He was born Sept. 10, 1868, in Strong, Ga. He is survived by two brothers, J. T. Wooten of Hazlehurst, Ga., and Richard Wooten, now hospitalized in the Philippines Islands, and one daughter, Mrs. Eava Stokes, of Baltimore, Maryland.

Townsend Clubs To Meet Sunday

The Townsend Clubs of the Fifth Congressional District will hold their council meeting Sunday afternoon in the Seminole County Court House at 2:30 P. M.

The Congressional Record and Flash will be read direct from Washington. There will be several speakers and the public is invited to attend.
