Limit On Visitors 'At Wekiwa Park

TALLAHASSEE, Fla. (AP) - Visitors to Wekiwa Springs State Park near Apopka, will be limited to 1,000 a day, Natural Resources Director Randolph Hodges said today.

Hodges said the limit - beginning Saturday - would be enforced to comply with county and state health regulations.

"Top Secret"?

Hodges said since the park opened last July, more than 389,054 persons have visited it, and as many as 5,000 in a single day.

"The park does not have enough sanitary facilities to accommodate the crowds it has been experiencing, and only limited picnicking and parking areas are available."

Wekiwa Springs is located off U.S. 441 four miles from Interstate 4, in central Florida.

This has proven to be a very popular "picnic area" for many residents of Seminole County, especially so with the closing of the former Sanlando Springs.

The choice for spending a pleasant day of outdoor activities had been either the Atlantic Ocean beaches of New Smyrna or Daytona, or many of the lakes which dot the countryside.

Wekiwa Springs was an immediate success wherein on opening day, thousands converged on the scenic date." Mrs. Binh said.

Peace Plan Is Offered

Includes Prisoner Release

By MICHAEL GOLDSMITH

PARIS (AP) - The Viet Cong submitted a new sevenpoint peace plan today offering to release all prisoners taken by the Communists in the Vietnam war if the United States agrees to withdraw all its forces by the end of the year.

The plan calls for the gradual. release of the prisoners simultaneously with the American withdrawal.

The plan was submitted to the 119th weekly session of the Vietnam peace talks by the Viet Cong foreign minister, Mrs. Nguyen Thi Binh.

Basic conditions for ending the war were unchanged from all previous Communist proposals submitted to the long deadlocked conference. They were total and unconditional withdrawal of all American forces and establishment of a coalition government.

But Mrs. Binh said if the United States agrees to fix a deadline for total withdrawal of all its forces by the end of this year, the Communists will agree on a cease fire with the withdrawing American forces and to "the liberation of the totality of all soldiers and civilians captured in the war."

"The two above mentioned operations the American withdrawal and the liberation of prisoners will begin on the same date and end on the same

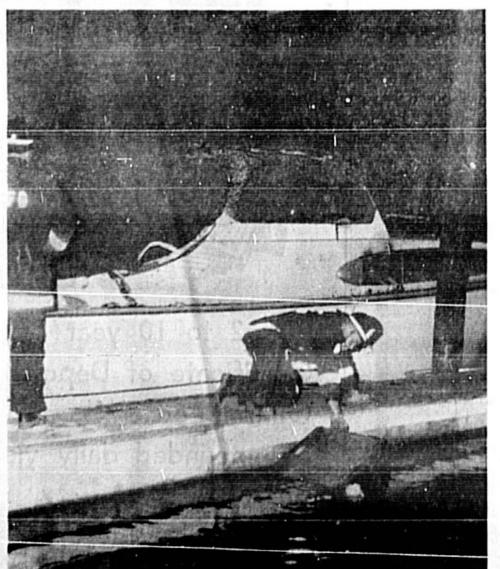

She stressed that her proposal included release of the prisoners held by North Victnam.

The new aspect of her proposal was a flat commitment to match American withdrawal mailed this morning to Gov. with release of the prisoners, and a timetable for the release procedure geared to the withdrawal of forces.

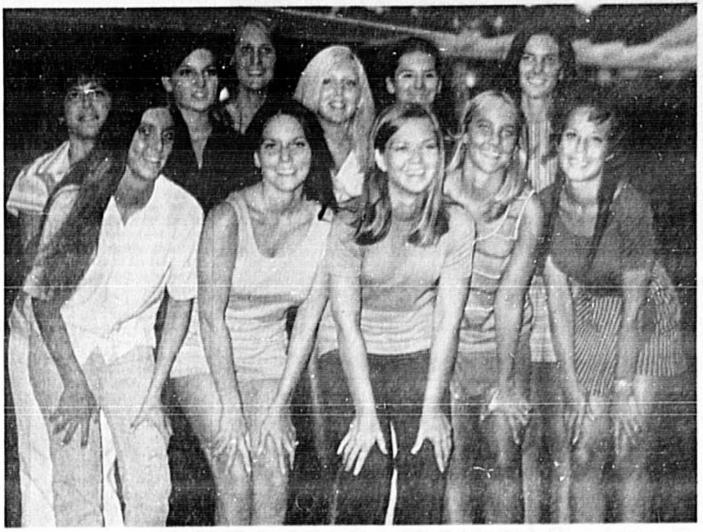

Previously North Vietnam and the Viet Cong had said that they would negotiate the release of the prisoners after the United States set a date for its final withdrawai.

North Vietnamese negotiator Nuan Thuy gave his approval to Mrs. Binh's proposal, saying it "perfectly reflects the entire Victnamese people's aspirations for peace, independence and national concord. It responds to the interests of both Vietnam and the United States."

Most of Mrs. Binh's seven points were Communist proposals repeatedly rejected by the United States and the South Vietnamese government. They included the removal of President Nguyen Van Thieu and Vice President Nguyen Cao Ky and a permanent ban on all American military aid to South

SANFORD FIREMEN were called to the Sanford Marina at 12.51 a.m. this morning when this boat, owned by Robert Clark of Maitland, caught fire. There was extensive damage to this boat and to another berthed nearby. The cause of the blaze is undetermined, but is under investigation according to local authorities.

Angry Uproar At amonte

ALTAMONTE SPRINGS-Angry fulminations ensued between Mayor Lawrence Swofford and Byron Kimball yesterday during a public hearing on rezoning which almost didn't get "off the ground," and which saw "wall-to-wall" citizenry at City Council chambers in op-

There was a momentary delay in the hearing due to "a little hang-uo," according to Swofford, who said that the legal advertisement had been misplaced." Subsequently it was located for a two acre tract of land located at the Winter Park Telephone Company on Sanford Avenue. The re-zoning was requested by Dr. J. W. Hickman for C-2 warehouse to C-3 manufacturing. Initially the request included six other lots. which were later withdrawn by Council

Dr. Hickman failed to appear in the hearing, and there were no others favoring the rezoning. However, approximately 50 residents were in opposition, and presented a petition to Council representing many others

Kimball expatiated that the

before council time and time again" and questioned whether because there was no zoning commission at the time Dr. Hickman's application was filed, council exercised its own prerogative to place the matter for hearing.

Kimball continued that Swofford owned part of one of the blocks (which had been withdrawn) and asked if it were not true that the mayor had a manufacturing plant there which would benefit from the rezoning. Swofford countered that he

did not, and Kimball noted that the matter was "spot zoning." The angry verbiage continued with Kimball insinuating that Swofford intended to "take care" of his property and Ewofford retaliating that he was asking 'no special favors."

Kimball then delivered the coup-de-grace by stating that the hearing had not been posted in three public places as required, and a legal opinion was requested of City Attorney S. J. Davis Davis said that there was no problem if council denied the request. Kimball suggested that the people be sent

City Council Moves To Establish Board

ALTAMONTE SPRINGS -Attuned to one of the foremost problems of our time, City Council yesterday moved toward establishment of an environmental and pollution control board by authorizing City Attorney S. J. Davis to draft an ordinance defining the illegal limits of pollution and setting forth penalties.

The matter was brought to the attention of council by Councilman Thomas Radloff, who favors a committee to investigate the problems of pollution of lakes and streams in the municipality. He continued that with the continued annexation which the city has

been experiencing, controls were indicated. Davis noted that the city already had an ordinance governing burning,

Radloff expressed that population density centered around the lakes in the area and that the city should get on the "ground floor" with an enviornmental control board. Continuing, Radloff noted the problems city was experiencing with zoning matters, in which, he said, inequities were being corrected.

It was suggested a meeting between the pollution control board and the newly appointed zoning board. However, Mayor (Continued on Page 3A, Col. 1)

Thus the Democrats, in control of the gubernatorial office and the leadership in both houses of

Choice of Miami Beach for the 1972 Democratic have replaced the traditional air of laissez faire or the legislature, have achieved a record which will take a lot of backing-up to prove solid.

Our state is now in the path of political growth as much as it is in the path of industrial growth and the flood of people seeking homes and employment. Whether or not the Republican party also selects Miami Beach, as it did in the controlled GOP nominating convention which produced Mr. Nixon as its

choice in 1968, will not be known until later in July. Rumors which were current when Mr. Nixon was in his California White House a few weeks ago, that California would get his nod in '72 cannot be dis-

But there are so many reasons, economic as well This site selection follows quite naturally, the as political, that support the choice of Miami Beach action of the State Legislature in naming March 14th that the Florida resort may very well win in that

Viewed from the economic point of view, either large plus for the business in the nearby areas of

the site. Miami Beach already talks of a \$12 million expenditure by the convention.

Democrats in coming south in '72 could be trying to do more than just find a proper spot for nominations. This major party has its "southern strategy" but has not been working at it very hard. Chairman O'Brien, a notably hard-headed politician, noted that "this decision does mean that, with

the exception of Houston in 1928, the Democratic Party will convene nationally for the first time in 128 years in the south." Jon Moyle, State Democratic Chairman, made the

selection even more current and termed it the "ideal site for beginning a national campaign that will emphasize a national strategy of unification." Thus does the political impact of the site selec-

tion look from the viewpoint of two Democratic leaders. What it means however, will rest with the national political nominating convention is a very registered Democratic voters in Florida and how

Try Remembering

A friend dropped this "letter" to an editor of an unidentified newspaper on our desk. Thus we are printing it with a bow to C.M.K., whoever that may be, and a sigh for the nostalgia which is now so prevalent!

Editor: Remember when? - Attending college was a privilege rather

- A farmer could plant what he wished? - Taxes were a nuisance rather than a bur-- The Supreme Court protected society rath-

er than the criminal? - The aged were cared for by their children? - Foreign officials visited the White House without asking for money?

- We entered a war to win it? - A life sentence didn't mean parole in 10

- Our flag was respected at home and -- America conducted her foreign affairs without consulting the United Nations. -A father went on welfare only out of desperation and got off it as soon as possible?

- Charity was a virtue instead of big busi-- We could laugh at jokes about the Irish, Negroes, Jews or Swedes without being con-

sidered bigots? - The doctor's first question was "Where does it hurt?" rather than "Do you have in-

-U. S. Grant was the name of a president rather than a federal handout? - Giving aid to the enemy was treason? Now it's called foreign aid.

-The churches preached religion instead - The schools taught the three Rs instead

- The news media printed the truth

cars was marked by extremely close racing but the winner of both the 8-lap and 16-lap events was Central Florida's Dave Webb with Bill Shaw from the Dixie Region of SCCA in second cars. In Group Two we found a most unusual "D" sports racer with four Honda motorcycle engines running away with both Group Two events. The cars in this event included Triumphs, Sprites, MG's, Fints and other foreign makes, The Triumphs in

In the first race for Group Two, Harry Stevenson started well back in the pack but passed seven cars in the first lap and from then on was never headed. In Group Two it must be noted that Central Florida's Dale Kreider finished in second place in both events in his Sprite Prototype, Group Three saw Dave superb driving and luck as his chief competition, Ray Mumical problems. The big iron raced in Group Four and racing for third through seventh was very good but first and second were dominted by an "A" Sports Racing Lola with a 520 horsepower Chevrolet and a 1970 Camaro driven by Luis Sereix.

Group Four had several notable class winners in addition to the overall winner, the ASR of Jeff Stevens and Gary Belcher, Luis Sereix took "A" sedan class in his Camaro, John Tunstall was really on the ball as he won "B" Production in his GT 350 Mustang, Quita Manuel in a GT 500 took "A" Production after a heated buttle with Dana English's Corvette. Bob Clark in a 510 Datson won "B" class honors. Several weeks previous to this event. Bob had been moved into a race in which he was the only "B" Sedan car in class, the rest being higher, In this National race in Louisiana, Bob took the overall win.

All in all, it was a great weekend of racing for everyone,

The second round of the Can-Am series saw the Mclaren team of Dennis Hulme and Peter Revson in the second and third positions at the end of the Canadian event as the great Jackie Stewart showed the two orange cars that this year will be the year the Can-Am comes into it's own as the truly great racing series it can be, Stewart came from behind in his Chevy-Powered Lola to win the race and open the door to even more close racing in the future. The next event in the Can-Am series takes place at Road Atlanta, in Georgia, with Stewart's victory making the third race a must for all you auto racing auts. Of course, top speeds of over 250 miles an hour race each other, then the

The Firecracker 400 draws near and I guess it's time to come up with a prediction as to the winner may be. I'll take Charlie Glotzbach in that Chevy Monte Carlo as my first choice with A. J. Foyt. Bobby Allison and Richard Petty my second choices. Petty would be my first choice, but the carburator plate restrictions placed on the HEMI make me doubt that be can get in front and stay in front.

Late word has it that Richard Petty and Buddy Baker are running 426 cubic inch wedge engines in the Firecracker 400. This is because of a less restrictive carburator plate on the wedge which gives the engine a 30 horsepower advantage over the HEMI. This Chrysler engine being used was the one in use in 1962-63. When will this insanity cease? At this rate NASCAR competition should return to Chrysler 300's and Flathead Fords by next year. Come on fellows, let's come up with something better than restrictive plates.

The second major 500 mile race sanctioned by the U. S. Auto Club takes place July 3 at Pocono, Pa. Mark Donobue in a OFFY-powered McLaren has the pole position for this race with Bobby and Al Unser on the front row with Mark. Donohue's qualifying speed was in excess of 172 miles per hour. Al Unser has been unbeatable so far this year, but look for a change at Pocono.

* * * * From Watkins Glen, New York we will have the big double-

header with both a six-hour endurance race on July 24 and a Cap-Am on July 25. That has got to be the combination racing weekend of the year.

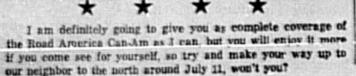

Mr. Muffler Shop in Sanford has just become a new apontor on the radio version of "Track Talk." Thanks loads Vince

Knauz for joining the program on radio 14.

I don't know whether you have been noticing or not but The Herald has been giving very good coverage to the world of Autosports. Gary Taylor, Don Vincent and I will be at the track for the running of the Firecracker 400, so if you want the complete story, along with picture coverage on that race as well as the Paul Revere 230 which I will cover starting at midnight before the 400, then just keep reading the paper folks.

Next week I will have a few more surprises for you in the area of reckless driving and excessive speed on the highway. Listen to "Truck Talk" this weekend and check next week's

Early 'Scoop' Damages Hunt

Sheriff John Polk has accused an Orlando newspaper story of hampering an investigation by the sheriff's department into the reported attempt by narcotic racketeers to make a "drop" at the Osceola Airfield, now being used by the county for a landfill.

The premature disclosure by the newspaper story, which told of an attempt by a twin-engine aircraft to transfer drugs believed to have been flown in from off-shore islands to a camper type truck, was hampered earlier when the County Road Department called the sheriff's office to report the bizarre happenings involving the camper and airplane and the report was "snafued" in the dispatcher's office.

ment on the situation today, at "approximately 12:55 p.m. Wednesday, my office received a call from the County Road Department stating that a camper type truck had been on the Osceola Airfield and had left

"A few minutes later, a second call came in stating that an airplane has landed and taken off off after meeting the truck, "The Osceola Airfield is closed and for a plane to land there under these circumstances, is certainly reasonable grounds for suspicion of illegal activity." Polk said he was not aware as to the amount

of time that elapsed between the truck leaving and the call received by his office, but said he had investigated as to why cars were not dispatched. The sheriff said disciplinary action had taken

place, but would have been taken regardless of the incident at Osceola Airstrip, but in any situation a citizen requests help and a car is not dispatched. has hampered our investigation, but an investigation

by my department into the airplane landing at the airstrip is continuing," Polk added. (The Sanford Herald was aware of the incident, but at the request of the sheriff declined to reveal squabble is going to hurt some-

any particulars allowing the drug drop to occur, thus allowing the arrests of the sellers and smugglers loss of extremely qualified inof the parcotics.) dividuals on both sides of the
