

# Authority Takes No Action Airport Road Paving Mulled

Sanford Airport Authority at today's meeting instructed J. K. Cleveland, airport manager, to seek cost estimates to construct a 1,200-foot road to Page Airways terminal building.

Reason given by A. K. Shoemaker Jr., authority chairman, and other board members for the instruction was to afford the public a better access road to the terminal facility.

Shoemaker also mentioned the need for more public parking areas at the Page terminal, now that charter flights to Walt Disney World are utilizing the local airport, but it was pointed out by Cleveland that providing parking at the Page building is a responsibility of the lessee.

The airport manager advised that space for 400 cars could be found at the terminal facility if it was cleaned and the grass mowed. "That's an in-house problem for Page to solve. If we provide public parking for them, there is no reason we should not provide public parking for other airport firms," Cleveland added.

The airport manager advised there is no money in the budget for parking improvements but it was suggested by Shoemaker that Page would be willing to share in the costs. However, there was no action to involve the authority in funding any of the costs to pave the Page parking area.

The authority will hear proposals from three state engineering firms wanting a master plan for the airport. They are Jack Greiner, Tampa; John Bristol Associates, Miami; and Connell Company, Miami.

The authority will choose one to prepare the plan with costs to the authority estimated at one sixth, since the federal and state governments share a part of the expenditures.

Problems of reverter clauses for airport property in case of a national emergency are expected to be discussed with attorney's representing area banks at a Tuesday luncheon.

Issue came up after Jungle Laboratories wanted to lease airport property upon which to construct a new building in an expansion move. Cleveland has requested land order lease to be immune from any reverter action during the term of a 25-year lease.

Request was concurred by Federation Aviation Administration (FAA) in Miami and has been forwarded to Atlanta regional FAA office for approval. Cleveland said he expects final approval within a week.

Some banks require assurance to be given them by the authority that should the lessee default in his payments to the bank, the lease be reassigned to them.

Authority will host all airport tenants at a luncheon at Lake Golden on Dec. 3. It was disclosed by Cleveland.

# Public Responds In Aid To Family

By JANE CASSELLBERRY

Donations of furniture, clothing, appliances and other household goods have been pouring in to the Longwood fire department for the James Spurlock family of Markham Road, who lost their home and possessions in a fire early Monday. "The response has been tremendous," Fireman Charles Nield revealed today, "and on behalf of the Longwood fire department, I want to thank the people of Orange and Seminole Counties for what they are doing for the Spurlocks."

Mr. and Mrs. Spurlock and their three sons, Dominic, 11, Keith, 7, and Davis, 2, are living temporarily with his brother, next door to the burned home.

Among the items already received are a suite of living room furniture, four beds, kitchen range, heater, washing machine, dishes, pots and pans, silverware and clothing. Still needed are a high chair and play pen for the baby expected next month — a baby bed and some infant's clothing already have been received. Also needed are dressers or chests of drawers and non-perishable food items.

Nield said the department is looking into the possibility of establishing a building fund for the family and that special office of help have been received regarding Thanksgiving and Christmas.

For further information as to what is needed or to have needed items picked up, persons may call Nield at the Longwood City Hall, 838-1049.

The fire department has been attempting to locate a house for the family, which would prefer to stay in the same school area, if possible, because of the two school age children.

# Longwood Aides Vote Retirement

By DONNA ESTES

LONGWOOD — City employees, following an information session with City Attorney S. Joseph Davis Jr. and other municipal officials Wednesday, voted to approve inclusion in the state retirement system.

Prefacing his remarks with the statement that he is not involved in selling the state retirement group, the lawyer explained the system's merits and demerits during the meeting.

Davis compared the program's compulsory features to an enforced saving method. "Most of us do not or cannot afford to save money unless we are forced to," the attorney explained.

He said four per cent of income would be deducted from pay checks for the employee's portion and the city would match this sum for each person.

The fire department has been attempting to locate a house for the family, which would prefer to stay in the same school area, if possible, because of the two school age children.

EXPLOSIONS FOLLOW TRAIN-TRUCK COLLISION

Ovidio. (Related Photos on Page 1B) Damages to the truck and train totaled more than \$80,000. It took nearly four hours to clear the wreckage from the highway.

(Don Vincent Photo)

# Truck-Train Holocaust Melts Highway Paving

By IARRY NEELY

A fire resulting from a truck-train collision late Wednesday afternoon in Ovidio was so intense the heat melted the asphalt paving on State Road 426. The fire followed explosions of a free tank and fuel tanks on truck and fuel from the train. The Ovidio Volunteer Fire Department extinguished the blaze.

The driver of the semi-tractor trailer was seriously injured in the collision, which caused property damages in excess of \$80,000. The train was a Seaboard Coast Line freight. The trailer was owned by a railroad subsidiary.

T. Place, assistant police chief of Ovidio, said the southbound truck failed to yield to the Ovidio-bound train.

Three Ovidio men, Lehman Jackson, Roy Hunter and Frank Finney, managed to pull the driver of the truck, Joseph F. Allen, 59, of Jacksonville, from the wreckage before a series of four explosions ripped through the tangled mass of steel. Allen was removed by Herndon helicopter ambulance to Florida Hospital, where he is progressing "fairly well," according to a hospital attaché. The engineer of the train, Phillip N. Davis, 64, of 2438 Princeton Avenue, was uninjured.

Just shortly after the collision the truck and train, a free tank and fuel tanks on the truck exploded, causing the leaking fuel from the train to catch fire and eventually explode. The Ovidio Volunteer Fire Department was summoned.

One of the passing motorists who stopped to view the wreckage of the train-truck collision turned out to be the victim of a car train collision at the same crossing one year, less two hours, previous to yesterday's accident. The woman, identified as Jean Anderson, of Ovidio, was hospitalized as a result of injuries received in that accident which demolished her car.

Charges are pending further investigation by the Ovidio police, who was assisted by sheriff's deputies E. William Robinson, Sgt. Ed Fagan and Donald Hubbard and Constable Chester Boyd.

State Department Transportation, along with wreckers from Altamonte and Raiford's Garages nearly four hours to clear the road for traffic, which had to be rerouted.

The truck tractor, owned by Ryder Truck Rentals, of Orlando, and the trailer, owned by Seaboard Transportation Company, a subsidiary of Seaboard Coast Line Railroad, were listed as a near total loss with damages, exceeding \$23,000. Damages to the train's engine were estimated to be at least \$53,000.

The trailer was loaded with fruit belonging to Nelson and Company, of Ovidio. Irving Fleischer, a spokesman for the Ovidio concern, estimated the loss of fruit at \$2,750.

It took crews from Seaboard Coast Line Railroad and the

# Nawty Nicki Is Held To Be 'Too Naughty'

By BILL SCOTT

"Go-Go stripper 'Nawty Nicki' was too naughty in her Tuesday night performance before flesh lovers who crowded Devils Inn, Longwood night club on U. S. 17-92, and Wednesday night county and state agents arrested the curvy cutie before her scheduled appearance.

Nicki, really Wilma McCauley Brennan, 30, of 1206 Gail Street, Apopka, was charged with indecent, lewd and lascivious performance by Sheriff John Polk, who led a group of eight county and state beverage agents to the night club before the stripper's first show.

Polk said warrants were issued on "Nicki" and Neil C. McDonald, 32, Orlando, Devils Inn owner, after a Tuesday night performance by the dancer which involved participation of patrons.

McDonald was not at the club when the sheriff, accompanied by E. Thom Bumberger, county attorney, and agents made the arrest of Mrs. Brennan but was arrested later by Det. George Ably who had a group of eight county and state beverage agents to the night club before the stripper's first show.

McDonald was charged with allowing an indecent, lewd and

SHOW STOPPER!  
Nawty Nicki, leaves Devils Inn after her arrest Wednesday night by state beverage and county agents. Following Nicki is Det. Sgt. George Ably, who held warrants for the dancer and the club operator Neil C. McDonald.

## THE CLOCK

By JOHN A. SPOLSKI

I started on it a couple days ago, and have since been trying my darndest to get additional information on the Child Development Act . . . from our Congressmen, etc.; anyone who could shed just a little more light on this cleverly concealed bill.

It's the one by which this government "could" take over instructing your son or daughter at the tender age of two (2). For a while, I had been of the opinion that this bill had been stalled, or better yet, killed.

Just isn't so . . . I'll have at least two complete columns in the next day or so . . . be on the alert! Is all I can say . . . It's an eye opener and a chiller!

Talked with Sanford Chamber Director John Krider . . . learned that this past week produced still another page in the local history book.

There were 24 families . . . which moved into the Sanford area alone. This does not include the county's rapidly growing rate, too.

For the record, that's the most who have moved in . . . in only one week's time . . . more than at any other time in the last 18 years.

The Chamber office says at least six families per day make inquiry about availability of apartments, too?

A shame we can't get off downtown and get some downtown construction . . . 'stead of just yakk'n' about the subject!

Always terrible when you read of a railroad crossing accident, isn't it?

Why don't we get more signal crossings, you ask?

Cause it takes an average of three (3) years from the time you make application until it's finally installed!

Absolutely ridiculous . . . and someone or some department should be straightened-out . . . before another life is lost.

It's not . . . repeat, NOT the fault of the County Commission, either. The State DOT designs the signal, the county pays for it plus the maintenance . . . BUT, only the railroad may install it. And that's where the hold-up occurs.

It takes an average of three years from the time the request is made until it's finally in. A poor, poor example of co-ordination I would say . . . or is it "bureaucracy" . . . red-tape?

Received a call from Mrs. Hoover of 1112 Elm Street in Sanford that she had a refrigerator for the Spurlock family, who had their home completely destroyed by fire.

And her next-door-neighbor has many articles which she, too, is willing to donate to the cause . . . anybody else?

## Headlines

THE DON COSSACK CHORUS and Daners will open the 1971-1972 season of the Seminole Mutual Concert Association Saturday, Nov. 20 at 8 p.m. at Sanford Civic Center. The original Don Cossack Chorus was organized in 1933, under the patronage of Masaryk, then President of Czechoslovakia. The Cossacks may actually be considered as "pioneers" in the fight against World Communism.

# Campaign Funding Bill Survives GOP Moves

By JOE HALL  
Associated Press Writer  
WASHINGTON (AP) — The Senate turned back 49 to 46 a Republican move today to kill a Democratic-backed presidential campaign financing plan which would give major party candidates \$20 million each in public funds next year.

# Marshall Plan Cited For U.S.

John Krider, Greater Sanford Chamber of Commerce manager, has returned from Atlanta, where he attended the 77th National Conference on Government. He said former Vice President Hubert Humphrey thrilled the 1,200 delegates when he called for a Marshall Plan for United States cities.

Krider reported the theme for the meeting was "To develop a system of responsive government" or "Is the United States governable?"

Outstanding national figures presented their versions of new responsive government. They included Jimmy Carter, Georgia governor; Francis S. X. Ryan, Massachusetts governor; LeRoy Collins, former Florida governor; William Scriven, former Pennsylvania governor; Terry Sanford, former North Carolina governor; Richard Pettigrew, speaker of the Florida House; and George Gallon, Gallon Polls.

Humphrey cited, "If we can provide aid to cities such as Rio de Janeiro, Brazil and Lima, Peru, why not our own?" Krider reported.

Sen. Lowell P. Weicker Jr., R-Conn., declared that the proposal "smells" and represents an attempt by the Democrats "to legislate their way back into office."

"This is an affront to democracy," he shouted. "In effect what the Democratic party is telling the people of this nation is that you will give. There is no consideration as to the quality of the candidates."

# Seminar Set On Drug Use

By ANN SIECZKOWSKI  
From start to finish the County Commission meeting was well attended by residents.

County Planner David Farr reported the planning and zoning commission had proposed twice-monthly meetings in order to conduct the affairs of this office. County staff will be available for two meetings every month.

Individuals turn to drugs for one of several reasons — school or family problems — the need to rebel against society — social acceptance by the crowd. This last reason is perhaps the most foolish, because a crowd of drug abusers needs no one else — just drugs.

Regardless of how or why drugs become a part of a life, the user soon finds that he depends on them as a crutch to meet everyday's problems.

If a user turns to drugs to get away from a problem, he only comes out of the "high" to face that same problem which is still there — together with an additional problem of drug dependence. Drug abusers seldom find it possible to live successful lives.

Do you know the symptoms — any of them — of drug abuse? Would you recognize this problem should it invade your own home?

The answer to these questions is "maybe or no" then you owe it to yourself and to your family to attend a drug education for adults seminar at Seminole Junior College on Dec. 6, at 7:30 p.m., in room L-207 & 208.

The answer to these questions is "maybe or no" then you owe it to yourself and to your family to attend a drug education for adults seminar at Seminole Junior College on Dec. 6, at 7:30 p.m., in room L-207 & 208.

Chief Deputy Sheriff Duane Harrell and other experts in the drug field will be present to conduct this seminar to parents and other adults who wish to learn more about drug abuse. It is said that young people know so much more than the adults about the drug situation but this does not mean that guidance is not needed or desired.

# Rejection Seems Certain Ag-Nominee Under Fire

By LAWRENCE L. KNUTSON  
Associated Press Writer  
WASHINGTON (AP) — Democratic attacks against the alleged big business bias of the man President Nixon wants to name as secretary of Agriculture have turned normally routine Senate confirmation hearings into a debate over agricultural policy.

Three potential contenders for the Democratic presidential nomination questioned the nomination — Dr. Earl L. Butz, Wednesday on his devotion to family farmers, his ties to big business and his willingness to change policies to help farmers out of an economic decline some termed disastrous.

While a major fight over the continuation of the Purcell University dean is now certain, tradition all but rules out his rejection.

The Senate historically has been reluctant to narrow any President's choice in Cabinet officers and has rejected such nominations only twice in the 70th Century.

# Florida's Second Chance To Control Billboards

Enactment of a billboard control bill by the special session of the Florida state legislature is now just as necessary as it was when the legislators balked last spring and thus jeopardized \$16 million in federal funds and opened the way for a horrid exploitation of the highways by commercial interests.

Such a bill has been approved by the legislature's committees and has been designated by Governor Askew as a top item in the session which will convene for 10 days on Nov. 29.

Those interests and their heavy-handed lobbyists who pulled the strings which encouraged the former inaction in Tallahassee better pay attention to the change in the political climate.

Those legislators who have not intelligently apprised what the voters were saying when they cut across party lines and gave a 70 per cent victory for the Askew drive to legalize a corporate profits tax—the main item for quick action in this special session—better do some more homework.

For the message came across clear and loud: "Clearly," stated Governor Askew, "this is the beginning of a new day, one in which the people, not the big money interests are in control of the state."

Thus what happens to the billboard bill, who supports it and who opposes this essential legislation, will be part and parcel of the record which the state legislators will write themselves and by themselves and on which they must seek re-election next November.

The billboard act is designed to bring the Florida regulations in harmony with the Federal 1955 Highway Beautification Act requirements. It is under this act that the state can receive about \$16 million for its highway plans in 1972. It is the loss of these funds—the cutoff date is Dec. 31, 1971—which the legislators have placed in jeopardy.

Even the enactment of this related legislation, George McIntyre, a federal DOT spokesman, has pointed out will not guarantee the full restoration. It will, nevertheless, stop the cutoff.

As bad as the loss of such funds would be, the greater evil is the transformation of the primary roads, along which the millions of tourists travel, into a corridor of blatant billboards. Rep. Don Crane (R) St. Petersburg called on such highway stretch a "paragra patch" of unsightly structures.

This is taking place in every part of the state where commercial interests see an opportunity to cash in on the traffic which already is reaching record high dimensions and will increase as Walt Disney World, 30 miles from Sanford, gets into high gear.

In Seminole County, the county commission with Greg Drummond as an activist chairman, has been an early and continued watchdog on the challenge of billboards. This county has created controls which are considered the most severe in the state.

But Seminole County has a very large stake in preserving the natural beauties which have been easily seen as tourists roll along I-4 headed for

Disney World or the other alluring such attractions further south.

We do not, of course, overlook the need and the usefulness of billboards, properly designed and properly placed. They perform a function which is most welcome. Nor do we minimize the profit motive which is the heartbeat of private enterprise.

But we have been told and are convinced that the billboard industry has within the very nature of its operation—the display of candidates who want to be elected on roadside billboards—a clench which only the most naive of politicians would ignore.

For the good of all, for the nurturing of the climate which is a-borning and even from the standpoint of enlightened self-interest, we trust that both the billboard industry and the legislators who must vote on the new, belated, bill act with more than short-term results in mind.

The bill MUST be passed. This is not debatable from any standpoint. How it is done is, however, of prime importance.

## Hearing Set For Two In Child Sale

JACKSONVILLE, Fla. (AP)—Police Wednesday said they would award the results of a court hearing before returning to their mother two children who allegedly were offered for sale in exchange for \$7,000 and a used car.

William O'Hara, 27, also known as Milton Bennett, and 22-year-old Robert Westenhaver of Oklahoma City were charged with "attempting to sell children." Police say they tried to sell 8-year-old Thomas Ann Cox and her 5-year-old brother Robert to a police undercover agent Tuesday.

The men were held in Duval County Jail in lieu of \$5,000 bond for O'Hara and \$3,000 for Westenhaver.

L. Bill Anderson of the Oklahoma City police said the mother of the children, Dorothy Cox, was questioned and released because she apparently did not know that O'Hara, a Boy Scout leader, intended to sell the children.

The children spent Tuesday night at the home of the undercover agent and were transferred to the custody of a juvenile court Wednesday.

Anderson said Mrs. Cox said she would take them to a nursery run by his brother in Tulsa, Okla. The officer said police had been unable to locate any other place where they were unable to locate the brother.

Police did not believe O'Hara had a brother in Tulsa, Anderson said.

Investigator W. E. Becham of the Jacksonville Police Department, who headed the investigation that led to the recovery of the children and the arrest of the two men, said Wednesday that a court inquiry would be held before the Cox children were returned. He refused to elaborate.

## Bus-Union Contract Okay Seen Near

DAYTONA BEACH, Fla. (AP)—Round-the-clock talks between top-level union and Greyhound Bus Co. officials ended Wednesday in a tentative contract settlement which averted a Friday strike deadline by 10,000 union employees, a federal mediator said.

William Rose of the Federal Mediation and Conciliation Service said terms of the agreement won't be announced until Amalgamated Transit Union members have voted on the proposal by secret ballot.

Union local divisions chairman Ellis Franklin said the balloting process was expected to take about 45 days.

"We reached an agreement," Franklin said. "You never get everything you want, but it's not a bad settlement. And there won't be a strike Friday."

The old contract covering baggage handlers, ticket sellers, janitors, and garage mechanics as well as bus drivers expired Oct. 31.

A walkout originally was authorized for last Sunday, but an 11th-hour decision by the union's international president averted the strike which would have shutdown Greyhound operations in 45 states east of the Rockies and slowed the system in others.

Tuesday Greyhound president James Kerrigan of Phoenix, Ariz., personally took charge of the company's contract negotiations, and union executive vice president Edward Oliver flew in from Washington to represent the employees.

Meetings were conducted almost on a continuous basis during the past few days of the crisis bargaining," Rose said.

Kerrigan was unavailable for comment after the tentative settlement was announced, but Bob Cooke, vice president in charge of Greyhound's industrial relations, said, "I endorse what Mr. Rose says and we will have nothing further to add."

## Hurricane Heads To Mexico

MIAMI (AP)—As Tropical Storm Laura crept toward the Mexican island of Cozumel today, Radio Havana announced Laura killed one man and dumped up to 25 inches of rain when she raked Cuba with 70-mile-an-hour winds.

The National Hurricane Center in Miami said Laura at 11 p.m. EDT was nearly stationary 130 miles east-southeast of Cozumel with her center at latitude 19.8 north, longitude 85.6 west.

A large high pressure system over the western United States was beginning to move eastward, and this change was expected to result in Laura's following a more southerly track with an increased forward speed today.

Gale force winds and rough seas were forecast today for Cozumel and the northern coast of the Yucatan Peninsula.

## Don Oakley Says: Detriments In Peace Pills

By DON OAKLEY  
NEA Editorial

While the president of the New York City board of education recently suggested that students' horoscopes be used to help teachers in handling the kids' personality problems, he was subjected to much ridicule.

Yet the president of the American Psychological Association continues to propose seriously that world leaders be given some kind of pill or drug to prevent them from starting a war that would end civilization.

The behavioral sciences, says Kenneth R. Clark, are now the critical sciences. They must "enable us to control the animalistic, barbaric and primitive propensities in man and subordinate these negatives to the uniquely human moral and ethical characteristics of love, kindness and empathy."

We may, he thinks, be on the threshold of a type of "scientific" control of human beings which could stabilize and make dominant these moral and ethical propensities.

"Instead of the masses of human beings having to live in faith and hope and take the chance that their leaders will use their power wisely and morally, they find many galleons. You will have them save one for me! It would be cute to have somebody else's galleon for a souvenir. I might even have it made into a ring."

"I brought along the 230 bucks I owe you, Harry, but if it's all right with you, I'd just as soon pay you when you wake up after the operation."

"Don't let them tell you that you'll only have gas pains for three days. You may have 'em off and on for years."

"I'm a chronic patient from down the hall. Boy, if you know like I do what goes on in this hospital, you'd get out of here and go see a good veterinarian."

"Take a tip from me and get well as soon as you can. The new guy in the office who is doing your work while you're away seems to be making a big hit with the boss."

"They're wheeling in the cart to take you to the operating room, Harry. Whisper in my ear, old pal. What did they really find wrong with you?"

"Please rest in peace, for the error shall not be repeated."

Here, the people of the archipelago of human beings, the more than 76,000 known dead from the world's first atomic bomb, draped over this very spot at 11:05 on the sunny morning of Aug. 6, 1945.

The dying has not ended. Now and then someone suffering symptoms clearly identifiable as "atomic disease"—the internal aftereffects of atomic radiation—dies suddenly. And another name is placed in the granite chest.

The 76,000 is just a rough rough count. No one really has any idea how many Japanese were killed that morning or died thereafter from injury or disease. There may have been tens of thousands more. And the Japanese are convinced that many who die seemingly from other causes later die in truth victims of the great bomb.

Is there anyone, other than men in remote fastnesses, who has not heard of the horror of the bomb, who does not know that in mere seconds a city then a holding 420,000 people was obliterated?

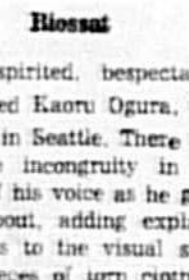

Is there anyone who knows the story who needs to be told that the error must not be repeated?

As I stood at the memorial arch, I could not be sure. I found myself wishing that Koyagi and Hirotsugu and Choe En-lai and Sendai and every angry, trigger-happy fanatic in the world would be made to come and see this place, to walk through the museum, to see the relics of the bomb's unsightly destruction.

The director of the museum is

Oakley

"I'm glad your people are doing a report on the Congress, Naylor, my boy. I'm now working within the system for meaningful change. That's all the record, of course."

"ABLE TO LEAP TALL BUILDINGS..."

## Hal Boyle Says: The Hospital Patient's Lament

By HAL BOYLE

NEW YORK (AP)—It marks the hospital patient gets tired of hearing: "Confidentially, Harry, what did they really find wrong with you?"

"Do you think that in your case it might be psychosomatic?"

"What do they charge you at this resort, Harry?"

"I never saw you looking better, kid, except when you were feeling worse."

"My, my, Mr. Bigwater, I do hope we had a pleasant night."

"What are you looking so uneasy about, sir? Surely you've seen a bedpan before."

"I'm the priest at the hospital here. Would you care to make a confession, or just have a little chat?"

"Just between us, Harry, what did they really find wrong with you?"

"Yeah, I've been in this room a month. The last guy in your bed seemed to be coming along just fine when, all of a sudden, he was gone—just like you blow away."

"As your wife, Harry, I hope that you'll take this illness as a warning from heaven to live a more sensible existence than you have for the last 25 years."

"I'm your wife's lawyer, Mr. Bigwater. Of course, we know everything is going to be okay, but Mrs. Bigwater thought we ought to bring your will up to date. Purely precautionary, naturally, just sign here."

"You can trust me completely, Harry. What did they really find wrong with you?"

Boyle

## Global View: "Reopen Suez" Sadat Is Told

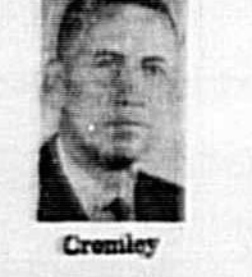

By RAY CHOMLEY  
WASHINGTON (NEA)—Officials who work on the Middle East problem in the National Security Council are intensely worried that moderate President Sadat of Egypt has only a limited amount of time left before extremists take over unless there is some sort of a settlement between Israel and Egypt, say on the Suez Canal.

U.S. officials in Nixon's closest personal confidence have been attempting to convince Israel of this urgency. They have carried out this task with a great deal of conviction.

But these American emissaries report back that the Israelis are not concerned. They are convinced that time is on their side.

The Arab and women who rule in Jerusalem, in fact, accuse us of setting ghosts under the bed, of getting excited by myths and fantasies, of being taken in by Arab propaganda.

American officials are baffled by this Israeli stance. They believe they have some understanding of Egyptian politics and the internal power struggle that any Egyptian top man faces. They are convinced that

Chomley

## Language Barrier

Even those who believe strongly that the way should be cleared for voluntary recitation of prayers in public schools cannot agree on the best approach to that goal.

The proposed constitutional amendment defeated in the House of Representatives recently contained language that was clearly too ambiguous to satisfy the many points of view which the subject has aroused.

It has been all too obvious in recent years that the U.S. Supreme Court decision of 1962 and 1965 barring organized prayer in school classrooms ran squarely against the grain of American society.

For nearly two centuries the American people were mature enough to realize that an appeal to a Supreme Being recited at public gatherings, by adults as well as children, in no way runs counter to the separation of church and state prescribed in our Constitution.

Having this custom wrenched from us by court decisions has been painful. Attempts by some parents and school officials to circumvent the decisions have been unsuccessful, but they have nevertheless helped demonstrate that policies aimed at keeping the recitation of a Higher Power out of school classrooms can be ludicrous and tragic at the same time.

A legislative approach to the school prayer question may be well nigh impossible, considering the emotion and controversy that surround it. We can hope that the judicial process which produced an unfortunate reading of our Constitution, may one day in the light of greater understanding undo the damage it has done.

# Lobbyists Chewing Askew Corp. Tax

By RICH OPPEL  
Associated Press Writer

TALLAHASSEE, Fla. (AP)—The capitol lobbying corps has begun chewing away at Gov. Reubin Askew's tax reform program Wednesday and appeared to have made significant inroads in the area of utilities tax credits.

Legislative tax leaders said they were impressed with lobbyist Robert Patterson's argument that utilities should be granted a credit for the 1.5 per cent gross receipts tax they collect.

If they were given a full credit, this would punch a \$16 million hole in the \$100 million a year revenue windfall which the corporate income tax is calculated to produce.

"The bill MUST be passed. This is not debatable from any standpoint. How it is done is, however, of prime importance."

wood, pointed out that the utilities would have to win Public Service Commission approval before the corporate tax could be passed on.

But Louis de la Parie, chairman of the Senate Ways and Means Committee, and Ralph Turlington, chairman of the House Finance and Taxation Committee, both indicated Askew's proposal might have to be modified.

In his speech before the tax committees, Askew specifically stated opposition to a credit for the gross receipts tax, which finances the bonds floated for university construction.

"Personally," said de la Parie, D-Tampa, "I'm impressed with the very strong argument that unless you give utilities a credit they are going to pass it on to the consumer," said Patterson, executive of Florida Gas Corp., executive who said he was speaking for the utilities. "It is unfair to the utility consumers who are already overburdened because of a competitive factor."

They compete with Rural Electrification Associations and municipal power systems which do not pay the gross receipts tax, he noted.

The two taxing committees concluded a joint hearing on the corporate tax in mid-evening, with both setting their sights on acting on the legislation in independent meetings Thursday.

The committee work is a prelude to the special 10-day Legislative session which Askew is to call beginning Nov. 29 for the primary purpose of implementing the corporate income tax.

Voters approved by a 7-to-3 margin on Nov. 2 a constitutional amendment which authorized the tax.

Askew rocked lobbyists earlier Wednesday with one of the hardest hitting speeches since he took office Jan. 5.

He said he would fight any efforts they made to riddle the income tax law with "loopholes, exemptions and rebates." And

with George Crossley  
Grand National Competition in 1972 ought to be the greatest under the new NASCAR rules. Next year the so-called "Winston Cup" will be 22 races which will take place mostly on the superhighways with some taking place on half-mile tracks.

There will be an autocross run in Deltona Dec. 5. Registration will be held from 9:30-11 a.m. with late registration until 11:30 a.m. Practice will be from 10:30 a.m. with the start of the timed runs at 12 noon. Directions to get there are as follows: Take 14 to the Deltona exit and go east about two miles to Providence Boulevard. Turn left and go about four miles. Our thanks to Bill Howington for letting us know of this interesting local racing event.

Enzo Ferrari will be visiting the Daytona International Speedway very shortly so his factory racing team can work the bugs out before the February running of the Daytona Six Hour Continental.

The Australians can be proud of the fact that they have a worthy contender from down under for the World Land Speed Record. The car, a rocket powered machine called the "Scout of Australia," is in the United States now, with driver Vic Wilson at the helm. The vehicle set an unofficial quarter mile speed record at the Orange County, California dragstrip. Vic blasted through the quarter mile at 211.4 miles per hour. This is a portage of the potential of our and driver at the Bonneville Salt Flats. Let's hope they try for the record this year.

Richard Petty did it again at Richmond, Virginia, winning the Capital City 500 at an average speed of 80.2 miles per hour. Richard collected \$4,450 for the victory. This win clinches another points championship for Petty who has had one of his greatest years in 1971. Bobby Allison was second in the race in a Mercury with Pete Hamilton third in a Plymouth, Charlie Goodrich fourth in a Chevrolet and Ned Ciesja finishing fifth in a Plymouth.

I don't think there is much question that Petty will continue to drive a Plymouth in 1972. And I feel that Chrysler will continue to be active in Grand National stock car racing. A fine win for Richard Petty.

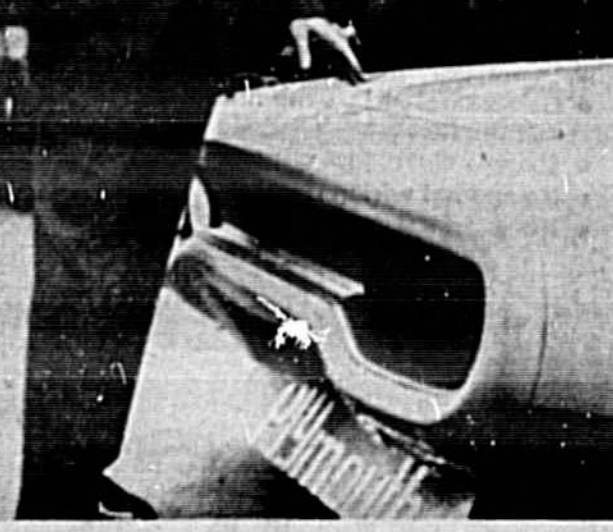

Italian Race Driver Giovanni Savatelli was killed in an accident during the Brazilian Grand Prix. Savatelli's March 702 Formula 1 Ford crashed into a protective pole and tumbled down a 330 foot cliff. He was dragged from the wreckage and rushed to a hospital but died along the way.

A multitude of sports car competitors from across the United States is set to converge upon Daytona International Speedway November 19th through the 21st for the International Motors Sports Association Championship race races.

The six event program is expected to draw two-hundred-and-fifty drivers with a purse of twenty-five thousand dollars (\$25,000) up for grabs.

A five way battle for the victory in the Grand Touring race Sunday will highlight the IMSA Championships. Peter Gregg and Hurley Haywood, both Jacksonville, Florida Porsche drivers, are currently tied for the championship crown.

But Dave Heinz, a Tampa Corvette driver who has won two of the previous five IMSA championships, is set to challenge the Porsche in this season's final event. Bob Henning of Atlanta, who made a fine showing in his Javelin in the last event, will be back to try to upset Gregg and Haywood also.

SUPER SEASON — All-time stock car great Richard Petty enjoyed a super season during 1971. Two of the highlights were a visit by Richard and his No. 43 Plymouth to a White House reception when the NASCAR Grand National President Nixon, and Richard's winning this third star national championship to join his

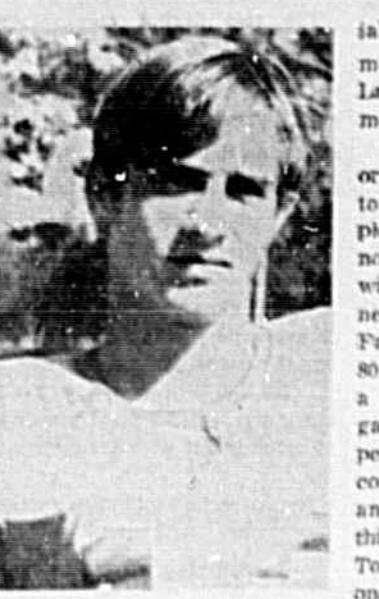

# District Title Near Berkley Is In Path Of Trinity Tonight

By LARRY NELLY  
Herald Sports Writer

Tonight's battle with Tampa Berkley Prep should be the best yet of Trinity Prep's home grid contests. The Saints will clash with the Eagles of the Tampa school at 7:30 p.m. on Showalter Field in Winter Park.

Trinity Prep's 7-1 mark for the season is one win better than anyone else in District Three. Sarasota Cardinal Moore is behind the Saints with a 6-1 mark which could conceivably set the stage for a post season playoff for the Class A, District Three title. Berkley Prep was in the race for the district title early in the season, but saw their chances filter away with back to back losses the past two weeks. Two weeks ago the Tampa team lost to Boca Raton St. Andrews 7-2 and last week received their most working over, 22-8, at the hands of Eatonville Wynmore Prep.

A district grid title would be more than welcomed by Trinity member Bob Fox and his crew. Until this year the Saints have been the fall guy for most of their competitors and have been losing to the same teams who are whipping by big margins this year. Each game since the Jacksonville Episcopal con-

JERRY FADEM

test five weeks ago has set a record for the Saints. Records set this season include the most consecutive wins (five in a row) and the most wins for the season, seven, as the Trinity eleven are on their way to their most successful season since prep grid was established at Trinity Prep three years ago.

The potency of the Trinity offensive attack is two-fold. The Saints have a pair of quarterbacks that have a completion percentage of better than 30 per cent and their ser-

ial performances are complimented by the running talents of Lawrence Cleveland, Jack Zimmerman and Steve Stason.

Each time that Dale Parsons or Jerry Fadem step back into the pocket to pass they complete the pass more times than not and in a completion, it will be good for an average of nearly 20 yards. Parsons and Fadem together have completed 80 of 137 attempted passes for a combined total of 1,344 yards gained. Parsons, the more experienced of the pair, has a completion percentage of 64 and has accounted for two touchdowns. Parsons and Fadem's pass receiving

performances are complimented by the running talents of Lawrence Cleveland, Jack Zimmerman and Steve Stason.

SEMINOLE JUNIOR College coach Jay Bergman, who is a member of the Central Florida Officials Association is shown diagramming a new basketball rule during a basketball clinic at the Sanford Recreation Department. The clinic, provided by the recreation department and the Extended Services Department of Seminole Junior College is for all basketball players, coaches and officials of the department's youth league. The final session is tonight at 7 p.m.

# LA Coliseum Cleanup Strategy Mapped Out

By RON ROACH  
Associated Press Sports Writer

LOS ANGELES (AP) — While Coach Tommy Prothro of the Los Angeles Rams worries about how he'll defend wide receiver Gene Washington of the San Francisco 49ers, Bill Nicholas' strategy for Sunday's big game.

Bill Nicholas' strategy for Sunday's big game. He's the Memorial Coliseum general manager and his plan is double coverage, not on Washington but on the Coliseum.

Nicholas is busy preparing for the year's biggest football weekend at the Coliseum—the U.C.L.A. Southern California game on Saturday and the 49ers-Rams National Football League match Sunday.

Instead of the normal 50-man cleanup crew, he's assigning about 110 to rid the Coliseum of debris from the college game in time for the pro game.

On Saturday, he expects a minimum of 65,000 fans with up to a capacity of 80,000 "if it's a nice day." The 49ers-Rams game is an 80,000-seat affair, and he expects 11 on the field in the National Basketball Association Wednesday night.

Elvin Hayes, the Big E. Calvin Murphy and Stu Lantz combined for 87 points as the Rockets snapped their losing streak the hard way on the road.

Hayes scored 33 points, 21 of them in the second half. Murphy had 31 and Lantz 23, which in 19 game in the last quarter.

John Havlicek, with 32 points, led Boston over Phoenix as the Celtics avenged their tight-fisted game defeat by the Suns last Friday. There were no fast-break points this time. Connie Hawkins was high for the Suns with 33.

Jack Marin, with 24, and Dave Stallworth, with 23, combined for 47 points in leading the Bulls over the Royals. Nate Archibald scored 23 to pace the losers.

# Trinity Picked To Win In Tonight's Prep Play

By LARRY NELLY  
Herald Sports Writer

Trinity Prep has set a record for the Saints. Records set this season include the most consecutive wins (five in a row) and the most wins for the season, seven, as the Trinity eleven are on their way to their most successful season since prep grid was established at Trinity Prep three years ago.

The potency of the Trinity offensive attack is two-fold. The Saints have a pair of quarterbacks that have a completion percentage of better than 30 per cent and their ser-

ial performances are complimented by the running talents of Lawrence Cleveland, Jack Zimmerman and Steve Stason.

Each time that Dale Parsons or Jerry Fadem step back into the pocket to pass they complete the pass more times than not and in a completion, it will be good for an average of nearly 20 yards. # Coal Miners Are Called Before U. S. Pay Board

By BROOKS JACKSON  
Associated Press Writer  
WASHINGTON (AP) — As construction workers learned the wage freeze isn't over for them, the nation's soft-coal miners prepared to present to the Pay Board today their case for a three-year contract that may feel the restraints of federal control.

The Pay Board said Wednesday pay increases in the new miners' contract may be subject to rollbacks if "unreasonably inconsistent" with the 3.5 percent standard yearly increase the board has set.

The board called in the United Mine Workers of America and the Bituminous Coal Operators Association for a session today. Their new contract reportedly calls for a 30 percent wage hike.

Meanwhile, without public announcement, the Construction Industry Stabilization Committee has issued an order by telegram saying "no economic adjustments provided in collective bargaining agreements in the construction industry that were to take effect on or after Aug. 15 can be placed into effect until further notice from this committee."

Most of the nation's 2.8 million construction workers are unemployed. The stabilization committee ruling does not apply to nonunion workers.

The telegram, sent to union and management representatives last Friday, said the matter of ending the freeze for construction unions will be taken up at the stabilization committee's next regular meeting Saturday.

A high-ranking committee staff member Wednesday promised "substantial clarification" of the situation after that meeting.

Meanwhile, the President's Pay Board has allowed every one but union construction workers to begin collecting, as of last Sunday, raises that fell due during the freeze but were delayed.

TRAFFIC on SR 426 in Oviedo had to be diverted for four hours Wednesday evening as crews from Seaboard Coastline Railroad and the State Department of Transportation cleared the charred wreckage of a train-semi collision which sent the driver of the truck to Florida Hospital. (Related photo and story on page 1).

Elbert Beasley (left in left photo) directs firefighting activities of the Oviedo Volunteer Fire Department as they battle extinguish flames erupting after four explosions. Spectators (right photo) viewed the wreckage which recorded losses estimated to exceed \$80,000. (Larry Neely Photos)

# Taiwan's Victor Hoo Couldn't Wait High Ranking UN Official Quits

By ALEC COLLETT  
Associated Press Writer  
UNITED NATIONS, N.Y. (AP) — Victor Hoo, the highest ranking Nationalist Chinese official in the U.N. secretariat, has submitted his resignation five months before his current term is up.

Hoo, an assistant secretary general since 1945, is 77. He stayed on past the normal retirement age of 60 because China, as a permanent member of the Security Council, was entitled to name one of the secretary general's principal aides and the Russians were considered certain to challenge any attempt to replace him by another Chinese Nationalist.

The Chinese Communists are expected to nominate Hoo's replacement.

Hoo tendered his resignation to Secretary-General U Thant three days after Communist China was voted into the world body Oct. 25. U.N. officials said he will leave around the first of the year, although his contract does not expire until March 31.

Fifty other Chinese nationalities are employed by the secretariat, but 45 have permanent contracts as career civil servants. Five on term contracts are expected to give way when their contracts expire.

FANCY decorations and cake which highlighted Boy Scout Troop 34's table at the annual St. Johns District Potluck Dinner held in DeBary, credited to Mrs. James E. Thomas (right), are admired by (from left) Julian Johnson, chairman of the Troop Committee; Scoutmaster W. W. Tyre; and Assistant SM Herman Schroeder. There were 250 adult Scouters attending the event which included installation of officers, and presentation of trophies and other awards. (Staff Photo)

China's delegate to the League of Nations, As World War II drew to a close he became a pioneer in the league's success, attending the Dumbarton Oaks Conference which laid the basis for the United Nations.

But North Vietnamese and Viet Cong attacks continued in Cambodia.

The Cambodian command reported that enemy troops had assaulted Phnom Baset, 14 miles northwest of Phnom Penh, killing five Cambodian soldiers and wounding three.

# Red Supply Depots Hit By U. S. Bombers

By GEORGE ESPER  
SARGON (AP) — US bombers made their 77th strike of the year in North Vietnam Wednesday and hit North Vietnamese supply depots in the demilitarized zone for the sixth successive day. The U.S. Command reported today.

Four Air Force Phantom jets knocked out two antiaircraft guns that fired on them from the Ban Karai Pass, just inside North Vietnam and about 40 miles north of the DMZ, the command said.

The command said the Phantoms were on a bombing mission on the Laotian side of the border when they were fired on. None of the planes was hit, the command added.

A major American air campaign is under way around the Ban Karai and Mu Gia passes farther north to slow the movement of arms and ammunition to South Vietnam.

Meanwhile, half a dozen B-52 heavy bombers dropped 180 tons of explosives on North Vietnamese depots in the southern half of the demilitarized zone. Once again the targets were at the western end of the zone near the Laotian border.

Only light ground action was reported across South Vietnam. But North Vietnamese and Viet Cong attacks continued in Cambodia.

### Dear Abby: By Abigail Van Buren

**DEAR ABBY:** Maybe you can help me figure something out. I can't, and I'm about to lose my mind.

Seven years ago I fell in love with my boss. Yes, I knew he had a wife and grown children, but he told me he loved me and that his wife life at home was dull. Soon my love for him became the most important thing in my life. We managed to get together often. I even rented an apartment near his home to be more accessible.

Suddenly his wife tells him she has known about our affair from the beginning, but she said nothing, hoping to ride it out. I asked why he didn't let her divorce him, and he said he didn't want a divorce, that he and his wife are working things out now.

"Where does that leave me?" she asks.

"If his sex life at home really was nil, why is he sticking with her and trying to work things out?"

"Is there any way I can get him back?"

"Could it be that he really loves her after all?"

"I am almost 40 and I'm afraid life is passing me by. Please help me. I can't even get him to talk to me about it."

**THREE TIME LOSER**  
DEAR ABBY: I. She loved him.  
2. Maybe his sex life WAS nil, but it's better now.  
3. I doubt it.  
4. Could be.  
Hand in your resignation and relocate as far away as possible. For a going away present he should give you excellent references.  
DEAR ABBY: I am a college student with two more years of medical school ahead of me. I want to become officially engaged to the girl I've been going steady with for the past year. She has already accepted my proposal, but she wants some kind of ring. I can't afford very much right now, but she says she doesn't care, as long as it's an engagement ring.  
Here's the problem. Her father owns a jewelry store. I'm afraid if I go to his store for the ring (which, believe me, can't be much of a sale) he will think I am asking for a "deal" which I would not do.  
On the other hand, if I go to a competitor I'm afraid my girl and her father will not like that either. She says her father would be angry if I don't want to spoil anything. What should I do?

### Horoscope Forecast

**FRIDAY, NOV. 19, 1971**  
**GENERAL TENDENCIES:** The daytime has many opportunities for you to advance far beyond present boundaries. You would be wise to study and think out the right philosophy which you want to live by, as well as the plan of life under which you want to live. Be diligent in stating your views. Relax tonight.

**ARIES (Mar. 21 to Apr. 19)**  
Sit down with experts and analyze your past development and see how to improve on such. Get busy and study brochures that give you a better insight into the future. Your paper has data you need.

**Taurus (Apr. 20 to May 20)**  
Doing things that improve your credit is wise now, so get busy early and make those collections. Get backing you need from male, also. Put your foot down, if necessary and be happy.

**GEMINI (May 21 to June 21)**  
You have to come through with your own ideas. You need to gain the respect and goodwill of others you want. After a good day's work, have a delightful time with mate. Forget that outside temptation.

**MOON (June 22 to July 22)**  
You will reconcile differences with partners as well as opponents now. A good day to be on the outside world accomplishing a good deal, too. Show you are a practical person.

**LEO (July 23 to Aug. 23)**  
Meet those who obligate you to be sure though it is boring and be sure you do whatever pleases associates. There is enough time for the pleasure you want in your own hand.

**VIRGO (Aug. 24 to Sept. 23)**  
You have been working too hard lately. Take off for a few days. Bracket and reach (Rod Taylor and Dennis Cole) are hired to find out how the copier is reaching the Germans through Mexico, and also investigate the disappearance of two Army men.

**SCORPIO (Oct. 24 to Nov. 23)**  
The day hours are busy for handling sales, telephone, travel matters, correspondence, since the evening is apt to be most unfavorable for such. Romantic side of life is good, though. Avoid extravagance.

**SAGITTARIUS (Nov. 24 to Dec. 21)**  
Talk things over in a practical way and you can arrive at better financial arrangements. Get help from experts and bankers, advisors, also. A measured, sure pace is best.

**CAPRICORN (Dec. 22 to Jan. 20)**  
Analyse conditions and individuals around you do not make disparaging comments. Study how to improve conditions and relationships. Go after the information you want confidentially at proper sources.

**AQUARIUS (Jan. 21 to Feb. 19)**  
A few days for social hobnobbing and showing others how much you appreciate and admire them. Increase the good will you now enjoy. Gain a personal aim easily during day. Make some new acquaintance of male.

**PISCES (Feb. 20 to Mar. 20)**  
Getting the attention of higher-ups is easy since you are dynamic and charming, and you can gain your aims readily. Show your finest talents and ability. The evening is then ideal for mild amusement.

**IF YOUR CHILD IS BORN TODAY...**  
...he or she will be one of those honest and blunt young people who has to be taught, early to use tact with others and to compliment them once in awhile if true success is desired. The middle years will be the best period in his life, after the difficulties of youth have been overcome. Your child will want to get out early and work and will not realize the importance of education until later.

**"The Stars impel; they do not compel." What you make of your life is largely up to YOU!**

Carnell Ripper's Individual Forecast for your sign for December is now ready. For your copy send your birthdate and \$1 to Carnell Ripper Forecast, The Sanford Herald, Box 629, Hollywood, Calif. 90028.

### We The Women: By Betty Canary

Many women wonder if having an outside job pays off. There is no specific answer, although it is true that sometimes a job costs more money than a woman can earn.

A quick list of job costs includes more and different clothing, cosmetics, meals eaten out, transportation and baby sitters.

More important are the emotional adjustments. After a woman manages her family, she is confronted by friends and relatives. There's Aunt Myra, for example, who keeps asking when things will get back to normal at your house. It isn't easy convincing her that this is normal.

Perhaps a woman's biggest worry is how the children are going to like having a working mother. It's best not to get hung up on this subject. It's akin to asking a child if he believes in child psychology.

Helping children adjust to mother's working is simply a matter of keeping the proper perspective. The average child (who normally views mother as a combination crying towel and hillbilly anyway) will have little difficulty in accepting a change in the household. Including them in your decision to go to work is best. Tell them this is a Keep Mother Same campaign and they will cooperate. After all, they know where the ironed shirts and weekly allowances come from.

Once she has accepted an outside job, what most of the successful working women I know do about sharing the work at home is tell the children they are being taught to be independent and responsible. I have told my children sincerely that I am trying to train them to leave me and go out into the world. And they have voted me the mother they'd most like to write home to.

### Marjorie Goodspeed Honored

On Friday night, Nov. 12, a miscellaneous bridal shower was given for Miss Marjorie Ellen Goodspeed of Cocoa, formerly of Sanford, at the home of Mrs. Vera Walraven with co-hostesses as Mrs. Gertrude DuBois, Mrs. Mary Kay White, Mrs. Eva Jo Hicks, Mrs. Gwen Young, Mrs. Ruth Jones, Mrs. Betty Akers, Mrs. Mary Lynn Douglas, Mrs. R. P. Goodspeed, mother of the bride-elect, Miss Priscilla Walraven, Janet Jones. Guests unable to attend but sending gifts were Mrs. Clever, Mrs. W. R. Shipy, Mrs. M. Spencer, Mrs. W. Kintley, Mrs. E. Carroll, Mrs. E. Grant and Mrs. J. Kennedy.

The lovely bride-elect dressed in a pink jink suit, delighted all as she opened her gifts.

Her mother, Mrs. R. P. Goodspeed, wore a fashionable red pant suit.

Hostesses, Mrs. Gertrude DuBois and Mrs. Vera Walraven, served refreshments which consisted of punch and coffee, minis, nuts and cookies. A variety of cheeses, summer sausage and crackers were also served. The beautifully embossed cake was cut and served by Miss Priscilla Walraven. A white tablecloth coordinated by Mrs. Mary Mattair, of Osteen, enhanced the elegant table setting. A congenial evening was enjoyed by all.

Miss Goodspeed will become the bride of Lawrence Shaffer at the First United Methodist Church of Cocoa, Nov. 19.

MISS SALLY JEAN PHELPS

### Sally Jean Phelps, Daniel R. Shea To Marry

Mr. and Mrs. Warren H. Phelps, Winter Park, are announcing the engagement and approaching marriage of their daughter, Sally Jean, to Daniel Roger Shea, son of Rev. and Mrs. Darwin A. Shea, Longwood.

Miss Phelps is a 1970 graduate of Edgewater High School, Orlando, where she was an active member and officer of the Eagle Band. She also attended Collegiate Business Institute in Orlando and is presently employed at American Laser Corporation, in Winter Park.

Mr. Shea was graduated from Wynona Vocational Technological Center and attended Mid-Florida Technological Institute. He is presently employed at I. and H. Motor Post in Winter Park.

The wedding will be an event of Dec. 4, 1971 at the Upsala Presbyterian Church with the father of the groom officiating at the ceremony.

BRIDAL SHOWER - Posing around beautifully appointed refreshment table are, from left, Mrs. Gertrude DuBois, hostess; Mrs. Philip Goodspeed, mother of the honor guest; Miss Marjorie Goodspeed, bride-elect and honoree; and Mrs. Vera Walraven, hostess. (Staff Photo)

### Mayor Speaks

Sanford's mayor, Hon. Lee P. Moore, was the guest speaker for Sallie Harrison Chapter, National Society, Daughters of the American Revolution, when the members met on Nov. 12, at the home of Mrs. F. E. Roumillat, 910 Palmetto, Ave.

The mayor gave an informative talk on the Drainage Bond Issue, to be presented to the voters of Sanford, Dec. 7, when the city election will be held at the Civic Center. He also spoke on other items of interest in regard to the progress of Sanford.

Prior to the business session led by Miss Hinton, a Memorial Service, conducted by the chaplain, Mrs. R. E. Truss, was held for a departed member, Mrs. L. O. Brossard.

At the tea hour, refreshments were served to Mrs. E. M. Hoke, Mrs. C. E. Butler, Mrs. R. E. Truss, Mrs. C. L. Powell, Mrs. L. C. Wilder, Mrs. R. M. Ball, Mrs. M. J. Bram, Mrs. T. K. Wiley, Mrs. H. W. Rucker, Mrs. W. E. Baker, Miss Hinton and Mrs. F. E. Roumillat, Mayor Lee P. Moore and Mrs. T. J. Taylor.

### Jacoby On Bridge

MacBeth was visiting his friends the witches again. "It is great to be king of Scotland, but I would give anything just to beat MacBeth at bridge."

"Your wish will be granted tonight," was the reply. "Just play the cards in the right order and you will win it, hand after hand on the last hand tonight. Here it is. Study it well and remember that the devil himself will have it dealt for you."

If any of you bridge players don't believe that seven spades makes we can't blame you. It looks as if there is a sure trump trick against declarer, but it vanishes with the aid of the devil.

The play starts with the ace of hearts and a heart ruff. After that start South must time

### Highlights TV Time Previews

**8-9 CBS "Beats"** Vietnam actor Keenan Wynn is in competition with himself. The CBS "Beats" also appears on ABC's "Alias Smith and Jones." Here, Wynn plays a rich rancher and miner who illegally sells copper to the German government during World War II's early days. Bracket and Reach (Rod Taylor and Dennis Cole) are hired to find out how the copper is reaching the Germans through Mexico, and also investigate the disappearance of two Army men.

**8-9 NBC "The Flip Wilson Show"** The late Flip Wilson comes back to life. Flip Wilson, he turned the show into chaos. Tim Conway and Jackie Coogan; Sally Field debuts tonight in a recurring role of Cinnamon, a flip female who has the only picture of Hayes and Curry in their real identities. She forces them to help her steal \$50,000 by threatening to expose their true identities.

**9-11 CBS "The CBS Thursday Night Movie"** "Pendulum" George Peppard plays a homicide detective who finds himself a prime suspect in the murder of his unfaithful wife and her lover. The suspense mounts as Peppard tries to prove his own innocence and nab the murderer. Jean Seberg plays the unfaithful wife, and Richard King is featured as an attorney. Cameo appearance along with "Nicholas" by the Rolling Stones. "Roughie Sheriff Nichols" (James Garner) tries to take an old friend out of robbing a train by offering him a job. The friend (Steve Forrest) can't see himself making enough money doing an honest day's work to keep himself in a big style. He wants the money to trip to Nicaragua and search for gold.

**9-10 NBC "Longstreet"** "I Said, Said the Blind Man" Blind insurance investigator Mike Longstreet (James Franciscus) hears a murder. The victim is a waitress, and Longstreet's acute hearing affords him the only clue. The assassin's goal: It is enough to put Longstreet on a dangerous trail.

**10-11 NBC "The Dean Martin Show"** Onetime talk show host and sometime Johnny Carson substitute Jerry Bishop visits Dean Martin tonight, and they cut up in sketches and song. Helping them is actress Joanna Plugg (the sexy nurse in "M.A.S.H."). Dean also manages a solo, "Cry Si-Bee."

**10-11 ABC "Owen Marshall, Counselor at Law"** "The Baby Sitter" Gary Grimes, who is starred in the hit movie, "Summer of '82," makes a guest starring appearance. As the title suggests, Gary plays a teenager hired as a baby sitter, who is accused of murder when the woman who hired him is found dead. A witness identifies Gary as the young man seen running from the scene. In pleading innocence, Gary agrees to a lie detector test, but fails it. Owen Marshall and Jess H Brandon agree to defend him.

### Worry Clinic

By GEORGE W. CRANE  
PH. D. M. D.

CASE 532: Roger D., aged 19, is a hippie.

"Dr. Crane," he challenged, "what have you young folks got to be thankful for?"

"The establishment runs everything to make a fast buck. We are forced to fight in wars that don't interest them, and we will relative impunity. And even the police drive us off the street yet won't let us sleep in the public parks."

"So what have we to lose by destroying this country?"

"Most of these same hippies are eating fairly regularly, how?"

"Because this last American 'free enterprise' system still gives their parents such high wages or salaries, that Papa can mail a remittance check to his hippie offspring regularly in Communist Cuba, China, or Russia, if you don't work you starve."

And any open revolt against the Communist "establishment" leads not to benevolent treatment from policemen. It means death or slavery in Siberian salt mines!

Hippies take advantage of our charitable American system, that don't interest them, and we will relative impunity. Basically, most of them are mentally "sick."

They are two "chickens" for real fighting!"

But they bodily throw rocks and smash windows in a sham appearance of virility and bravery.

Actually, they lack guts! And are afraid of blood, so they make avid converts to the New York City slogan—"Better red than dead!"

So Governor Bradford voted that the Communist venture prove a grand failure.

As a result, he has allowed to each man his own plot of ground.

Each worker thus had the right to all the crops that he harvested therefrom.

This was the birth of our American "free enterprise" system!

And it was such a striking success that Governor Bradford could hardly believe his eyes.

For under this "private property" idea, everybody became industrious, thrifty and willing to expand plenty of "elbow grease."

That's when the famous Thanksgiving Party was held, which was attended by over 50 Indians.

The Indians brought venison and wild turkeys.

They stayed for several days. For that early Thanksgiving was a day of true Thanksgiving; not the griping parties so typical of modern hippie bravado.

Many of those pioneers had lost half their families and friends by pneumonia, malnutrition and hostile Indians.

Send for my booklet "How to Live Our Republic," enclosing a long stamped, address envelope and 25¢ to cover typing and printing costs when you send for one of his booklets.

# Margaret Ganas Named Candidate For Award Sanford BPW Club Discovers 'A More Beautiful You'

Sanford Business and Professional Women's Club recently held their business-dinner meeting at the Trophy Lounge. Accents of fall were carried out with decorations of flowers, candies and a beautiful cornucopia adorning the center table.

Rhea Cooper and Penny Feeback did a beautiful job with the decorations which started the evening off on a festive note.

Following a delicious buffet dinner, program director, Nora Gordon, introduced the guest speaker for the evening, Mrs. Sylvia Richards.

The program, A More Beautiful You, with information concerning creative makeup and how to apply it, was presented by Mrs. Richards.

Karen Westmark was chosen as a "volunteer" and was used as a model to show the correct procedure for making up and to emphasize your best features. During the demonstration Mrs. Richards answered the many questions from club members while enlightening everyone on the history of cosmetics.

A short business program was held after the program with president June Foley presiding. June and Val Colbert filled the club members in on their recent trip to Jacksonville to attend the Mid-Year Board Meeting and BPW in Action Seminar which was held October 29-30.

According to Val and June, the entire meeting from the fun night and fashion show to the formal banquet was an enjoyable and rewarding experience.

Discussion was made regarding the upcoming Sanford Christmas Parade which will be held Thursday, Dec. 2 at 7:00 p.m. Many ideas were brought up for an entry that will be in the parade. It should be exciting—so don't miss the parade.

The members unanimously selected Margaret Ganas as their nominee for the Roberta Gatchel Award which is offered by the Kiwanis Club of Sanford each year. Margaret's hard work and dedication to the club and community make her an excellent candidate and we are proud to be able to nominate her.

flag. If you have some ideas and want to enter your design, contact any of the officers for further information. Members look forward to a happy and active relationship with Rosella in the club.

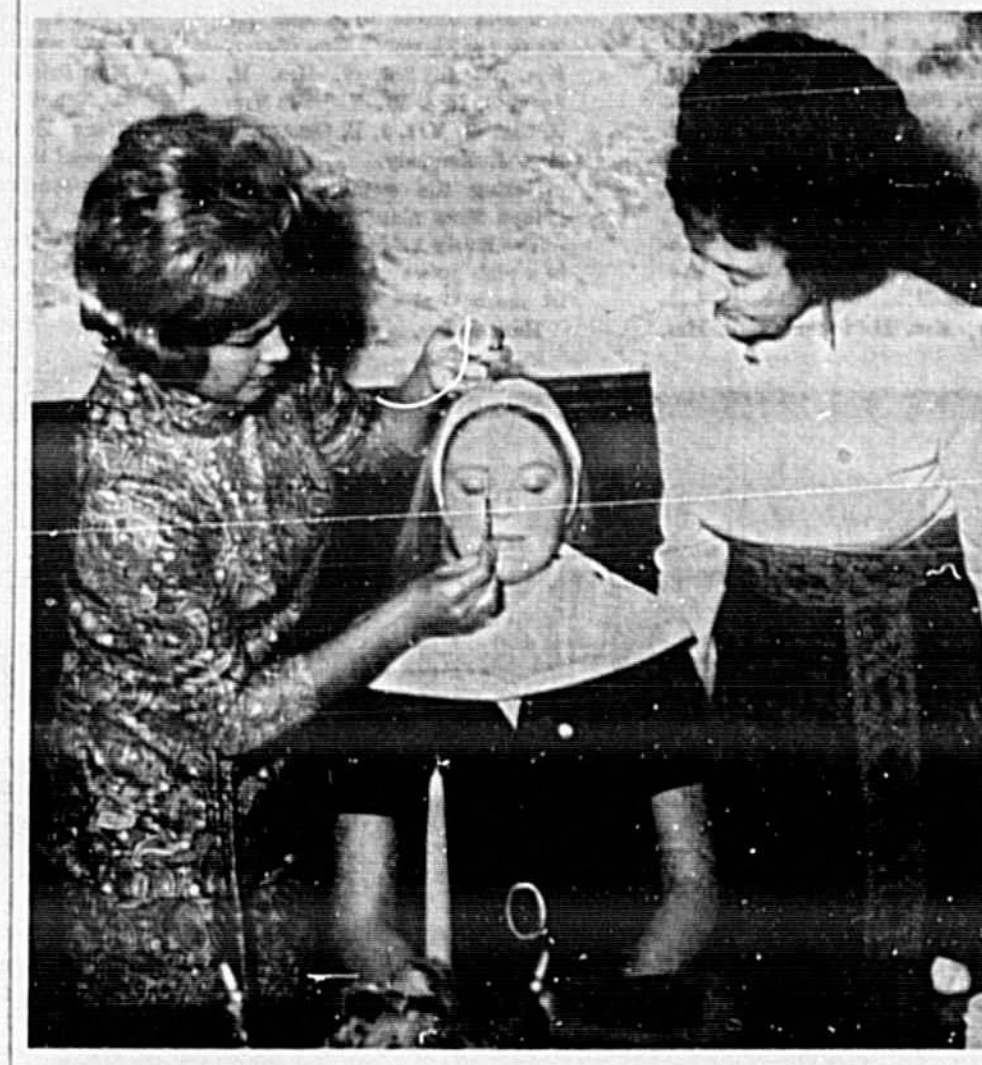

Closing remarks for the meeting were made by Mrs. Shirley McCall who is assistant District V director from Kissimmee.

Those attending the meeting were Mrs. Jessie Brisson, Val Colbert, Rhea Cooper, Ruth Cummings, Penny Feeback, June Foley, Judy Gaine, Libby Gordon, Nora Gordon, Myrtle Gradick, Marguerite Graham, Rosella Lyons, Sylvia Richards, Karen Westmark and guests Mrs. Shirley McCall, Mrs. Stella Parsons and Mrs. Elinore Slicer.

## Garden Club Boutique

MRS. H. H. GRIER, left, chairman of Central Circle of the Sanford Garden Club, and Mrs. V. M. Smith, Magnolia Circle member and club secretary, with some of the Christmas door ornaments made of pine cones, acorns, nuts and seeds in shades of Autumn, that will be offered for sale at the club's annual Holiday Table show and Boutique, Dec. 3, 4 and 5 at the club house on 17-92.

The perky snowman (table decoration) will also be among other holiday items made by the versatile members.

SYLVIA RICHARDS, left, demonstrated how to be "A More Beautiful You" for Sanford Business and Professional Women's Club. Nora Gordon, program director, right, looks on while model, Karen Westmark, gets the full beauty treatment. (Staff Photo)

**Public Asked To Osteen Benefit**

The Osteen Civic Association will have a Fish Fry at the Civic Center Saturday, Nov. 20. Serving will begin at 4 p.m. The menu will include fish, hot puppies, potato salad, coleslaw, coffee and relish.

There will be a children's plate and pie and cake will be served for an extra fee. The public is invited.

## FTU Sets Annual President's Ball

President and Mrs. Charles N. Millican will host the faculty and administrative staff of the University at the President's Ball to be held in the Village Center on campus this Saturday evening.

The ball has become the customary manner in which the faculty-administrative team salute and thank the University.

The ball has done so much in such a relatively short time to bring credit and a reputation of excellence to Florida Technological University.

In looking forward to the ball Saturday evening, President Millican noted the tremendous work done by the faculty to achieve full undergraduate accreditation earlier than many had expected—Dec. 2, 1970.

"Undoubtedly, this is the finest faculty I have ever had the privilege of working with, and in our administrative offices, I know we have the best there is at any comparable institution," the president commented.

## Geneva Gems

By LIZ MATHIEUX

Geneva Volunteer Fire Department sponsored a Turkey shoot Saturday, Nov. 13th, and will do so again Saturday, Nov. 20. How about dropping by and trying your luck and then after you bag your fair share you can get dressed up in your best bits and tinker and take your best girl or boy to hear the "Don Cossacks" at the Civic Center!

I saw Rev. Clarence Sistar the other day at a local restaurant and while we chatted he told me that he had a brand new addition at his home which he and his good wife welcomed home on Sept. 28. It seems as if the new addition is a bouncing baby boy whom they have named William Clarence Sistar III. He weighed in at a bouncing 10 lbs. and 11 ozs.

Recent guests at the Lake Harney Manor home of Tony Robinson Jr. were his mother, Mrs. Laura Robinson, Paul Robinson, Mary Earnest, Mildred Pace, Jack Robinson, Cleo Templeton, Golden Wilson, John Robinson and his wife Louise.

MRS. W. K. DAVID, left, and Mrs. Ben Morgan are shown modeling slacks sets, a new addition to the line of dresses offered at the recent sale sponsored by the Deltona Woman's Club. (Dot Drew Photo)

By LIZ MATHIEUX

Hi, I haven't stopped long enough to tell you about the wonderful time I had at the Ovidio Homecoming day last Sunday. Honestly, I have never seen so much food assembled all at one time in all of my life, some of it never even got "touched" let alone tasted!

While there I saw many dear old friends and met Dr. and Mrs. Carson Kendall and their four precious youngsters—all girls, Heidi, Molly, Amy and Julie. My new friends, Dr. and Mrs. Douglas Brumbaugh introduced us.

All I can say is that it was really great (as the kids would say) and the only person I missed seeing at Ben Wheeler, Dr. and Mrs. Douglas Brumbaugh introduced us.

Anyways, we found the pavilion and had a good lunch and relaxed a bit before having to return to school for the afternoon session.

Dick Barnett, Seminole County co-ordinator of Social Studies, was a special honored guest and later a genial principal, Bob Hughes, accompanied by the principal of the Geneva Elementary School, Kenny Echols, paid an unexpected visit.

Let me see, Bob Hughes had to stop over at the Geneva School to get Ken Echols to help him locate the pavilion.

# Seminole Organizations Combine For Meeting Federation Of Women's Clubs Commences The Year

Seminole County Federation of Women's Clubs met this morning at Cassberry Woman's Club for the first quarterly meeting.

The president, Mrs. Robert Bradford, conducted the business session.

Other officers of the club are Mrs. Thomas Freeman, vice president and Mrs. Janet Leon, corresponding secretary, who have previously been featured in Sanford Herald profiles.

Remaining officers are Mrs. Jake Lassiter, second vice president; Mrs. J. J. Siczekowski, third vice president; Mrs. Elizabeth S. Kuhn, treasurer; and Mrs. James McKee, recording secretary.

**MITCH LASSITER**  
Second vice president, Mrs. Jake Lassiter, is a one-time Army nurse and amateur artist. She attended the University of Oklahoma and the Medical College of Virginia Nursing school. After her marriage, Mitch, as she is fondly known, taught Red Cross courses in high school and in Japan after WWII, was the first nurse to teach home care of the sick. She has been active with PTA groups, Scouts, and home extension groups.

She still engages in Bonkei Art but spends more time painting and working with charcoal. She is the mother of two daughters, Cathy, who is married and will soon be a mother, and Carol.

Mitch believes that it is people and not material things that really count in life. She is first vice president of the County Extension Homemakers Council, President of Altamonte Springs Extension club, chaplain of Altamonte Woman's Club and a member of Altamonte Garden club.

MITCH LASSITER, ANN SIECZKOWSKI, ELIZABETH KUHN, LINDA MCKEE

After her marriage, Mitch, as she is fondly known, taught Red Cross courses in high school and in Japan after WWII, was the first nurse to teach home care of the sick. She has been active with PTA groups, Scouts, and home extension groups.

She still engages in Bonkei Art but spends more time painting and working with charcoal. She is the mother of two daughters, Cathy, who is married and will soon be a mother, and Carol.

Mitch believes that it is people and not material things that really count in life. She is first vice president of the County Extension Homemakers Council, President of Altamonte Springs Extension club, chaplain of Altamonte Woman's Club and a member of Altamonte Garden club.

She was selected for listing in "Who's Who of American Women"; honorary membership in Royal Society of Health, sponsored by Queen Elizabeth of London; was recently notified that she had been recommended for membership in International Platform Association and received a commendation from Mrs. Richard Nixon, for volunteer work in Florida.

**ELIZABETH KUHN**  
Mrs. Elizabeth S. Kuhn, better known as Peggy, is the treasurer of the County Federation of Women's Clubs. She resides with her husband, Edward, and their dog Pepper in the Rolling Hills section near Longwood.

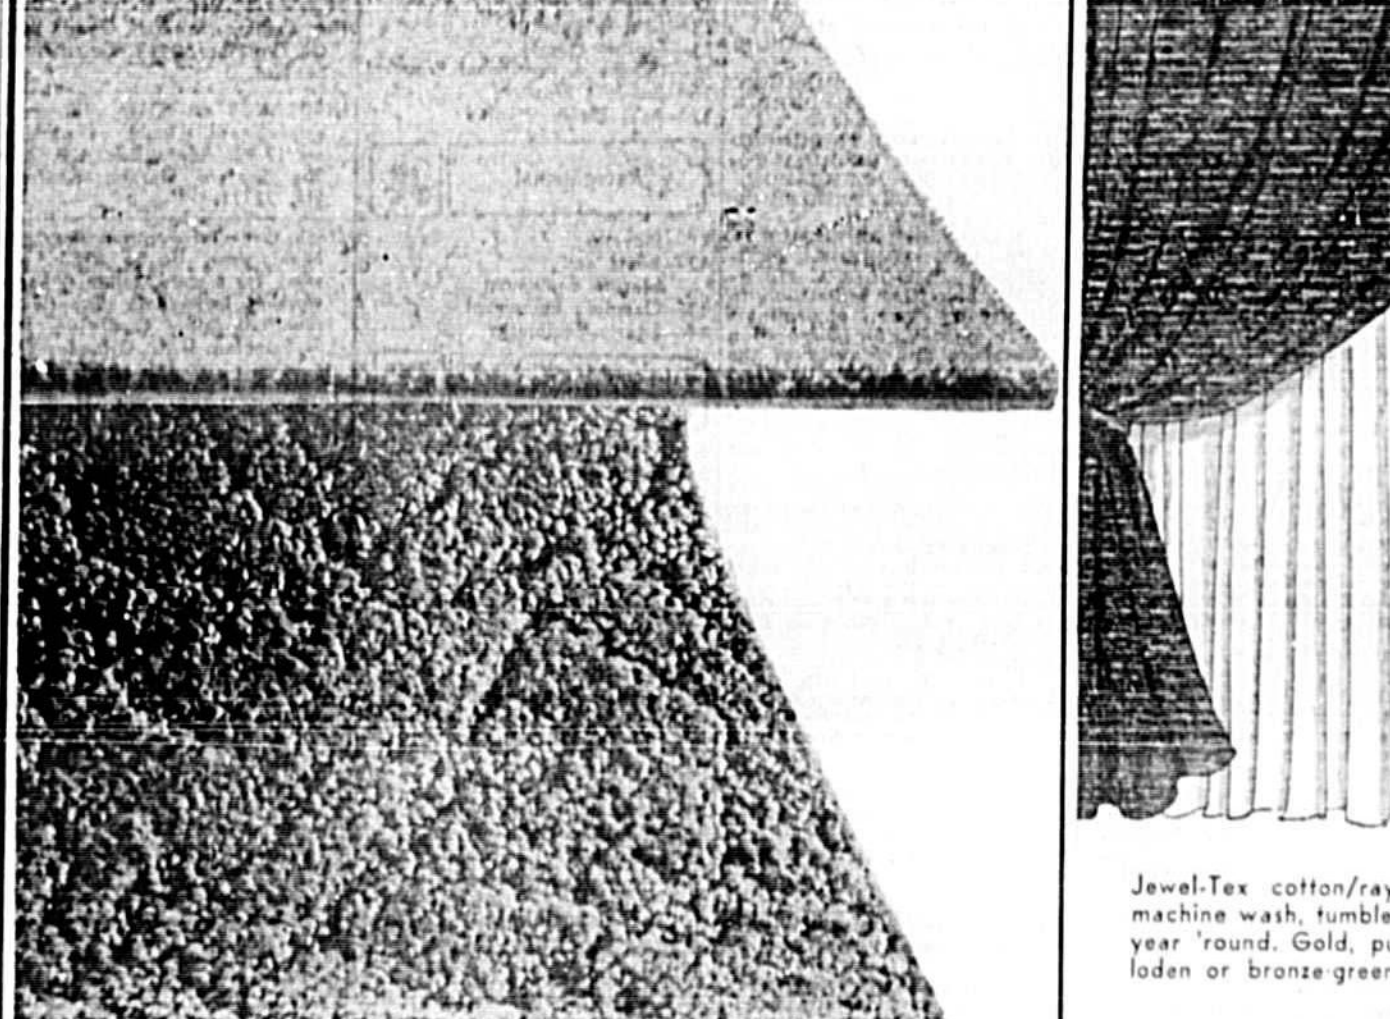

Mrs. Kuhn has one son, Thomas, Altamonte Springs, whose three children who are much-adored grandchildren of Peggy and Edward.

Peggy attends Christ Episcopal Church in Longwood. She is a realtor and serves as treasurer of the Seminole County Chapter of Realtors, having been a broker for about 18 years and has been active on this Board.

Mrs. Kuhn was largely responsible for bringing key women in Seminole together for formation of the Democratic Women's Club of Seminole. She is serving her second year as President of the Longwood Civic League and is on the Library committee.

**LINDA MCKEE**  
Mrs. James (Linda) McKee, a young woman of extraordinary leadership ability and outstanding community service, is the recording secretary.

She also serves as recording secretary of Sanford Jr. Woman's Club, having just completed a term as its parliamentarian. Linda is a former school teacher, is now primarily interested in homemaking for her husband, Jim, who is employed at Cremons Chevrolet Company, and her two sons, Scott and Randy. She serves as den mother to Cub Scout pack 242.

INTERCLUB SHUFFLEBOARD MEET—The Sanford Shuffleboard Club and the Deltona Shuffleboard Club met recently in inter-club competition at the Sanford courts. Eleven teams from each club competed in a total of 33 games, with the Sanford Club besting their visitors by 23 games to 10. In the play-off match between the high scoring teams from the respective clubs, Deltona won with a score of 102-62. Pictured from left, play-off participants, John Fehn and Cliff Stafford shooting for Sanford for their victorious opponents Mike Freeman and Joe Colliflower of Deltona. (Dot Drew Photo)

## By Altamonte Springs Corporate Tax Divvy Sought

By DONNA ESTES  
**ALTAMONTE SPRINGS** — Resolutions positioning Gov. Reubin Askew and the Legislature of Florida to return 50 per cent of the proposed corporate profits tax to the cities and counties of the state based on an equitable formula for financial relief of local governments was unanimously adopted by the City Council.

The resolution similar to one being adopted by some municipalities throughout the state in support of the Florida League of Cities proposal asks that the governor and legislature implement an extension of the 10-mill limitation until such time as revenues from the corporate profits tax are returned to local governments and the new funds are deemed sufficient to offset the required reduction in millage.

The millage reduction legislation, however, does not affect Altamonte which currently levies an ad valorem tax of five mills.

The resolution also points to the increasing need for municipal services and the increasing costs of providing the services with the critical need for additional revenues.

In other action, Council: Adopted on second and final reading an ordinance to annex the two-acre site on Douglas Avenue where city maintenance facilities are to be located.

Passed on second and final reading an ordinance to annex the tract known as the Barber property on SR 438 near its intersection with SR 434-31.

Approved on second and final reading planned development zoning classification.

Delayed adoption of a swimming pool ordinance until report is received from the zoning board. Councilman T. A. Radloff who has sponsored swimming pool requirements determined the ordinance is one part of the Millard law.

A Busy Forest

COLORADO SPRINGS, Colo. (AP) — Pike National Forest, covering 1,284,718 acres, north and west of here, has more than two million visitors annually and is the most heavily used of Colorado's 11 national forests.

and no, the "bogus" ordinance in effect in neighboring Casselberry, Radloff insisted Casselberry's ordinance is unduly restrictive in requiring waters from pools to be pumped into the sewer system, Radloff said the provision overtaxes the sewer system.

Referred bids for a new copying machine to City Clerk Jane Richards and Councilman Keith Nixon for study and recommendation.

Turned down an annexation request for two separate lots with one located at the west end of San Sebastian and the other in Lake Harriet Estates in Forest City. One of the major reasons given for the annexation refusal was the zoning request of multi-family or commercial district.

### Land O'Fabrics Earnings Hiked

Land O'Fabrics, Inc., announced sales of \$2,636,087 and pre-tax earnings of \$246,392 for the nine months ended Sept. 30, 1971. Sales were up 11 per cent over the same period a year ago, while pre-tax earnings were up 23 per cent over the same period in 1970. Net income for the period reflected in earnings 42 cents per share.

Chairman E. D. Bigner reported that third quarter after-tax earnings were up 39 per cent over the same quarter a year ago.

Land O'Fabrics is headquartered in Brunswick, Ga., and operates a chain of retail fabric stores. The company also operates a wholesale subsidiary, World Fabrics, Inc., in Savannah, Ga., with plans to relocate the operation in the near future to new quarters offering twice the warehouse space. Since the public sale of 117,000 shares on July 28 of this year, the firm has opened five new stores for a total of 26 stores throughout Georgia, Florida, Alabama and South Carolina.

## Salvation Army Plans \$240,000 Center

After nearly 10 years of planning the advisory board of the Salvation Army of Seminole County has announced plans for the construction of a community service center. The new facility will replace the old building on East Second Street in Sanford. The Salvation Army has been using the building at 214 East Second Street as its headquarters for over 42 years.

Jack Toole, chairman of the board, said: "Our local Salvation Army has struggled for so long with so little to work with that it now becomes absolutely necessary that we arrange to give it adequate facilities. We have been planning toward a capital funds drive to raise the funds needed to build adequate facilities for the Salvation Army for many years. Now the time has come to go forward and build the community service center."

The estimated cost of the community service center, including all furnishings and equipment and directly related costs, is \$240,000. The property committee of the Salvation Army advisory board, headed by Herbert Stenstrom as its chairman, is currently considering suitable property on which to locate the community service center.

Plans for the new center have been prepared. It will consist of 12,576 square feet. The center will consist of the headquarters of the Salvation Army of Seminole County, welfare center, family service center, storage for all emergency supplies, gymnasium, youth activities center, activities room, kitchen and dining area, chapel, nursery and related facilities. This new facility will be the headquarters for all of the Salvation Army's services for all of Seminole County.

Captain Billy Lyons, commanding officer of the Salvation Army, explained the function of the center. "The most important thing about the community service center will be the expansion of all of the Salvation Army's activities and services to this community and county. Because of our limited facilities, we have never been able to offer a full program of services to Seminole County. Throughout all of these years the Salvation Army has been limited by a small and old building. In spite of this fact we have served a great number of people, but consider how many more people we can reach when we have an adequate facility. The purpose of the Salvation Army is to help the people who are in need. This new facility will make it possible for us to offer many more services that will benefit and help people."

The building fund drive to raise the funds to construct and equip the new community service center will be conducted during January and February of 1972. The campaign leader will be announced during the next week. It is estimated that close to 100 businessmen will be actively engaged within the building fund organization.

PUNCHY DECOR — Black and white with touches of marigold give this setting a clean, crisp look. The window shade is a translucent cream mesh which cuts out glare without cutting off the view. Black rick-rack was added to the shade to give a customized look and also trims the tie-back side curtains.

## The Creative World Of Window Shades

By BARBARA HARTUNG  
 Copy News Service  
 While America's laboratories have been turning out new materials for the home, few lend itself to stitching (the holes are already there) and variations on this decorative theme are endless.

Decorating with shades is both fun and challenging. Here are some suggestions from shade manufacturers and from the Window Shade Manufacturers Association for great window shades using window shades.

Designer Shirley Regenzahl used a white fiber glass shade and added black rick-rack in a diamond pattern with rosette centers, combining the shade with a bright day-printed tie-back curtain. Black rick-rack repeated on the edges of the curtains and on the metal hemline of the shade.

Another manufacturer suggests a plain fabric on shades with a pair of solid side draperies to give a decorative touch and yet provide complete control of light at any given time. This crisp treatment can give a tailored look to a family room and living room.

Draperies, bedspreads, a Parsons table covered and a laminated roller shade repeat a sprightly floral pattern for a well-coordinated look. And with an opaque laminated shade, complete privacy is insured.

Both types of shade cloth have an adhesive coating that is activated by heat.

The fabric is ironed to the shade cloth so that a permanent bond is created. The result is a custom window shade that is white on the outside and, on the inside, mixes or matches with draperies, curtains, bedspreads, tablecloths or upholstery.

The laminating cloth is available in widths of 37½ inches or 48½ inches and can be cut down to as narrow as 20 inches. The height of the shade cloth is 72 inches.

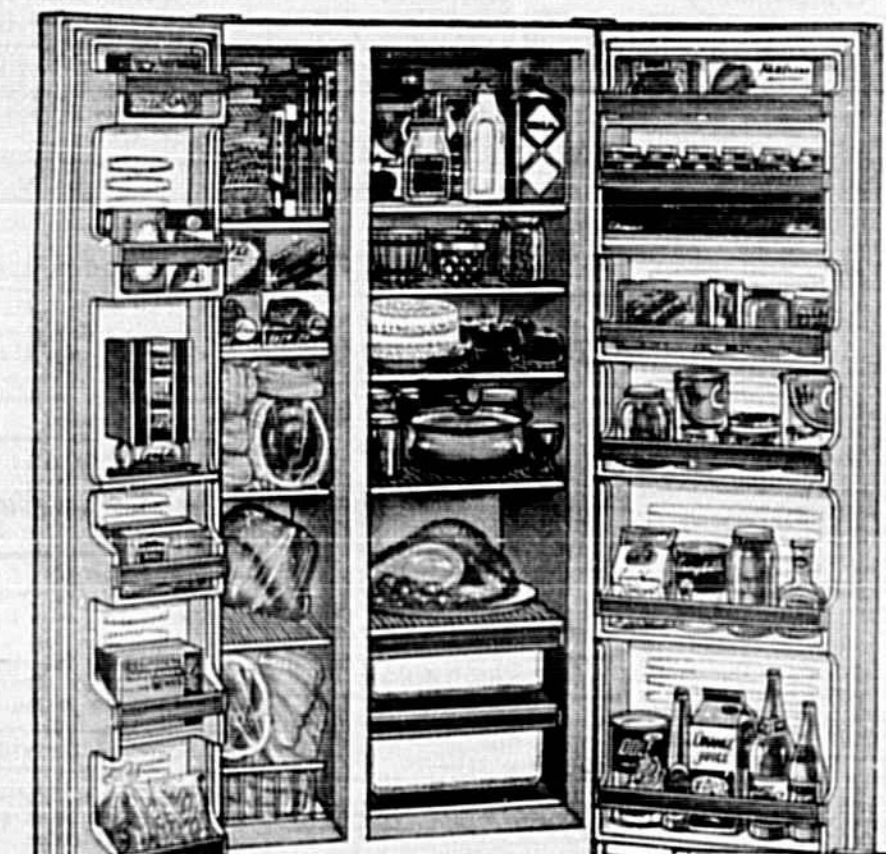

NUT — 1 cup chopped celery, ½ cup onion and 1 cup nuts sautéed in ½ pound butter or margarine called for in package directions.

ACCENT ON BRESSING — Whatever the choice for the holiday bird, a rich, well-seasoned dressing which is almost certain to be an accompaniment, will add interest and flavor accent.

### Officers Elected By Scotty's

The board of directors of Scotty's Home Builders Supply met in Winter Haven and elected the following officers:

James M. Sweet will continue to serve as chairman of the board and president. Ray H. Cooney remains executive vice president. Harold W. Taylor, formerly vice president/finance and secretary-treasurer, was elected vice president/finance and secretary.

Alice E. Sherman was elected treasurer and will continue to serve as controller. James G. Niles was re-elected vice president/Lakeland retail operations, and June Juanita Beasley was re-elected assistant secretary - treasurer.

### Gale Names Administrative Manager

Jack L. Gale, president of Gale Associates, Realtors, with corporate headquarters in Maitland, has announced the addition of W. H. Morrison to the Gale staff.

He will serve as administrative manager, coordinating personnel and business activities throughout the five Gale Associates offices.

Gale also announced that Rodney Clark has been named as manager of the Altamonte Springs office. Rodney has been working in the Maitland office for the past year.

### Jeno's 'Employer Of Year'

ST. PAUL, Minn. — Jeno's, Inc., Duluth, America's leading hot snack company, has been designated Minnesota Employer of the Year 1971 by the Governor's Commission on Employment of Handicapped Persons for leadership in urging community responsibility for the handicapped.

In announcing the selection, L. W. Binger, chairman of the Governor's Commission, said Jeno's, Inc. will represent Minnesota in the national competition for the Employer of the Year award sponsored by the National Association of Manufacturers and by the President's Committee on Employment of the Handicapped.

Binger pointed out that Jeno's, Inc. "has maintained an 'open door' policy for employment of the handicapped, vocationally unemployable, the disadvantaged, and minority groups for almost 20 years, "a policy established even earlier by Jeno F. Paulchek, Jeno's, Inc. chairman, when he began the Ouse King Corporation in Minnesota.

### Sterchi's Sales Set Records

Sterchi sales set new records for both the month of October and first eight months of the company's fiscal year, according to C. A. Terrell, president.

October sales of \$2,294,344 were up 15 per cent over October sales of last year, while sales of \$17,945,431 for the eight-month period ended October 31, 1971, were up 17.02 per cent over the same period last year.

Sterchi's recently entered into a long term lease and will open its third store in Knoxville, Tenn., the company's headquarters. The new unit will be in Halls, a fast-growing suburban area in North Knoxville. The store will be a modern one-level structure of 12,000 square feet, located in a shopping center with convenient parking.

The company's 60th store in McMinnville, Tenn., is under construction and will open in early spring 1972.

### Winter Park 'Phone Earnings Up

J. E. Galloway, chairman of the board of the Winter Park Telephone Company, today reported an increase in earnings for the nine months ended Sept. 30, 1971.

Galloway reported that consolidated net income increased over the first nine months of 1970 - from \$1,346,992 to \$1,451,132 - and earnings per average common share were \$1.16 as compared with \$1.07 in the same 1970 period.

For the 12 months ended September 30, 1971, net income totaled \$1,846,954, up from \$1,651,390, while earnings per average common share totaled \$1.52 as compared with \$1.41 for the same 1970 period.

### Cossacks Coming

Seminole Mutual Concert Association will get the 1971-72 concert series off to a rousing start at 8 p.m. Saturday when the renowned Don Cossack Chorus and Dancers open the season at the Sanford Civic Center.

The original Don Cossack Chorus was organized in 1952 under the patronage of Masaryk, then president of Czechoslovakia. The Cossacks may actually be considered as "pioneers" in the fight against World Communism. Many of the Cossacks fought in the ranks of the United States Army during World War II. All members of the chorus are American citizens.

The chorus is named after the famous Cossack, General Platoff, popular hero who helped turn back Napoleon's invading army in his march on Moscow in 1812.

### Leeway In Making Stuffing

By SUSAN DELIGHT  
 Copy News Service

Whether poultry is spotlighted for the Thanksgiving meal, stuffing is almost a certainty for an accompaniment.

There are as many different versions of stuffing as there are pumpkins. But traditional dressing is made with bread.

A selection of seasonings and a moistening agent.

The size of the bird which will grace the holiday table also affects stuffing leeway. Sizes can range from Rock Cornish game hens for two-somes to oversized turkeys which will serve well over 20.

The recipes for stuffing which follow will add succulent accent for the holiday bird, whatever the choice. They are variations of the traditional bread stuffing.

OLD-FASHION STUFFING  
 ½ cup chopped onion  
 1 cup chopped celery  
 1 cup chopped turkey  
 2 cups water

In a large saucepan, sauté the onion and celery in butter until tender but not browned. Stir in water and then add stuffing. Makes enough to fill a 12 to 16 pound turkey.

OLD SOUTH SAUSAGE STUFFING  
 ½ cup chopped green pepper  
 ½ cup chopped celery  
 1 cup chopped onion  
 1 pound sausage links, cut in quarters  
 3 cups broth from giblets or other liquid  
 2 packages (8 oz. each) corn bread stuffing  
 1 package (8 oz.) herb-seasoned stuffing  
 2 eggs, beaten  
 ½ cup chopped pecans  
 1 tsp. pepper

Sauté green pepper, celery and onions in butter until tender. Remove vegetables and brown sausage until tender; add to vegetables. Heat broth in same skillet. Combine all ingredients in large bowl. Makes enough to fill a 16 to 20 pound turkey.

Stuffing Variations  
 Try the following variations with a 1 pound bag of herb-seasoned stuffing, prepared according to package directions. Each recipe is enough for a 12 to 16 pound turkey.

PARSLEY — 1 cup chopped parsley, ½ cup chopped onion and 1 cup chopped celery sautéed in ½ pound butter or margarine called for in package directions.

ORIENTAL — 1 cup chopped onion, ½ cup chopped celery, 1 cup sliced mushrooms and ½ cup sliced water chestnuts sautéed in the ½ pound butter or margarine called for in package directions.

NUT — 1 cup chopped celery, ½ cup onion and 1 cup nuts sautéed in ½ pound butter or margarine called for in package directions. Brazil nuts, chestnuts, filberts, pecans or walnuts may be used.

ACCENT ON BRESSING — Whatever the choice for the holiday bird, a rich, well-seasoned dressing which is almost certain to be an accompaniment, will add interest and flavor accent.

# New Apartment Living Carefree, Leisurely

By CLYDE V. SMITH  
Clyde News Service

Apartment life isn't like it used to be. It can be a carefree, leisurely way of living, particularly in the newer projects. It is free of maintenance worries, which is much like it used to be, but it features an array of recreational activities, picnics and barbecues, even organized group social events and trips, especially in the larger apartment complexes.

Modern apartment developers are providing amenities that multifamily project builders of a decade ago did not even consider.

Competition is bringing about an increasing list of added amenities as owners seek to lure tenants.

The newer apartments are better equipped with latest built-in kitchen appliances, including automatic dishwashers, better lighting fixtures, some with humongous kitchen ceilings. Rooms are carpeted wall to wall and draperies are provided in laundry rooms. Some of the projects provide security protection, either with guards or lock systems.

Many of the apartments are much larger than their older counterparts, often with two or more bedrooms and two or more bathrooms. Some are equipped with central air conditioning.

Another changing pattern in apartment living is a trend toward more family-oriented projects.

# Richard Lindmeier Prexy Library Bids Members

DELTONA — Richard Lindmeier was elected president of the Deltona Library Association for the year 1972.

Other officers who will serve are Archibald Schrock, vice president; Mrs. Walter Sellman, recording secretary; Mrs. Harry Brodt, corresponding secretary; Earle Woodhill, treasurer.

Directors elected for a two-year term are K. W. Delaryous, Dr. Anthony Borowski, Edmund Shinton, Mrs. Cecil Thomas and Dr. McClain Post. Mrs. Louis Ludwig, retiring president, automatically becomes a director because she is head librarian. Those completing membership terms are Ralph Ely, Robert Wright and Earl Langworthy. This brings the number of directors up to the full complement of nine.

Mrs. J. B. Williams, acting librarian, reported that over 25 volunteers are staffing the library. Those new to the staff during November are Mrs. E. W. Lindmeier and Mrs. Silas Riffe.

Mrs. Joseph O'Brien, ways and means committee chairman, said the benefit affairs have earned about \$1,300 so far this year for the library.

The 1972 membership drive now in progress was the subject of Mrs. Walter Sellman's report. On Oct. 31, about 2,972 letters were mailed to Deltona residents. So far, 418 have returned their donation. Those who sent contributions by mail have

# DeBary Concert Slated Dec. 10

DeBary — The concert to be presented in the Community Center on Dec. 10 by the DeBary Concert Orchestra will introduce Howard Sharp, business manager of the orchestra.

It is understood Sharp will ask nine citizens to match his donation of \$50 to produce an initial fund of \$500 with which to start the air conditioning fund.

In addition it is hoped the voluntary collection at the concert will produce a few hundred dollars in addition. Past concerts by this well known orchestra have produced considerable revenue all of which has been donated for the upkeep of the Community Center.

# Carin Stowell Wins Honors

Miss Carin Stowell, a Junior at Florida State University in Tallahassee, has been selected for membership in the La Pele Corps of the Army ROTC at FSU.

Miss Stowell, the daughter of Mr. and Mrs. J. V. Stowell, 104 Loch Arbor Court, was selected for the honorary organization on the basis of her charm, personality, appearance and interest in the Reserve Officer Training Corps.

# Quick Check For Battery

Ever wonder why sometimes during starting your car's battery then suddenly kicks off?

A major source of the problem could be dirty battery terminals or loose connections. Open the hood of your car. Are the battery terminals covered with what looks like a green moss? If not, are they loose. The green substance is acid build-up. When it reaches a saturation point covering the lead terminals, energy transmission is impaired and starting becomes a problem.

In advance stages of acid build-up, not enough energy is transmitted to even turn the engine over once!

Corroded or loose battery terminals are easy for your local service station mechanic to fix.

The investment will be nominal and you'll be free all season long from this "won't start" cause.

# California Gals Set Fashion Pace

By PEGGY WALKER  
Copley News Service

When it comes to makeup trends, you can be sure the California woman is aware of them and you can be just as sure she'll carry them out in her own, personalized style, according to one beauty expert.

"The California woman," said Ruth Barton, a makeup artist, "is as relaxed in her makeup as in her wardrobe."

"She's more of an individual and less apt to follow trends than her eastern counterparts."

"She's chic, but her chic is casual."

"And she's outdoors a great deal, so she has an outdoors complexion — more tan, more of the year."

You may see a lot of pale skinned, red-lipped, nostalgic primped women walking New York streets, but "the California breed of sophisticated wants to be set apart from the crowd."

Miss Barton said. She's one expert who doesn't believe we should all look like Hollywood exports, cast away from old "to movies."

"The idea is to adapt all the new looks — the hot red lips, the wulky eyes, the new eye liners and monochromatic shading — to individual style," said Miss Barton.

The monochromatic eye (several shades of one color) is basic for everyone — it helps highlight and contour, but each woman puts her signature on the looks with choice of color. Coordinate color with your clothes," said the beauty expert.

Plums and mauves and the early browns are most popular colors for fall, but Max Factor — "We're the largest cosmetics firm headquartered on the West Coast," said Miss Barton — is showing its susceptibility to California influence.

# Filler Gives It Pro Touch

By MR. FIX

Nail holes cracks, a gouge caused when a tool slips or a defect in the wood — whatever it is you can repair these had spots in a wood surface with some kind of filler.

There are all kinds available in cans, tubes, sticks or mix-it-yourself dry powders. And mixing any of these you can mix up a little home-made filler from nothing more than sawdust and glue.

This kind of filler has several virtues. It is cheap. It is easily available. It will take stain or paint.

Use this kind of filler to fill nail and screw holes, to mend small cracks and to rebuild a broken edge.

Another very common and very inexpensive filler is putty, the kind used on windows. Use putty if you intend to paint the surface, not stain. Also putty has no strength so don't use it at points of stress.

You can change the color with dry or oil colors but these have to be mixed into it in advance.

If you don't get the surface absolutely smooth while it is still soft, then sand it after it dries. It takes about two days before it is thoroughly dry. If you plan to paint, shellac the putty first.

So-called wood putty comes in powder rather than putty form. You mix it with water in the amount you will need for a particular job. Wood putty is dry in about two hours and it can be sanded smooth at that time. When it dries it will be white. If you want color, mix in water soluble powder colors with the putty before mixing.

Plastic wood is more expensive than the previously mentioned fillers but it comes ready to use in a squeeze tube or in large cans. Apply with a putty knife and smooth. After drying overnight, it will be as hard as wood and like wood it can be sanded, sanded and painted.

Plastic wood does not take stain very well. You can, however, buy it in a variety of wood colors as well as its usual neutral form.

Plastic wood can also be used to fill large holes. In such a case apply in layers allowing each to dry before adding the next.

Outdoors ordinary calking can be used for cracks in wood siding and for joints. Calking

# 'Realtor of the Year'

## Elizabeth Kuhn Honored

By MARILYN GORDON  
Seminole County Board of Realtors installed officers for the coming year at the annual dinner at Land O'Lakes Country Club in Casselberry. Ben F. Ward Jr. of Oviedo, was installed as president by Jack I. Korshak, district vice president, Florida Association of Realtors. Other officers include Oliver W. Holmes, vice president; Lorena W. Hopkins, second vice president; Shirley R. Hartman, secretary; Elizabeth S. Kuhn, treasurer; and Frank C. Brough.

REALTOR OF THE YEAR Award is presented to Mrs. Elizabeth S. Kuhn (center) by Merle W. Warner, outgoing president of the Seminole County Board of Realtors, as awards chairman Jean Fields Cable looks on at annual dinner. (Marilyn Gordon Photo)

### One-Man Artist Exhibit

By LIZ MATHEUX  
Gretchen Lewis Crowell, well known Sanford artist for many years, has her paintings on display at Senkarik's Paint and Glass Company on Magnolia Avenue during the month of November. All her offerings for this exhibit, are oils. Heretofore, she has dealt mainly with pastels.

## Emergency Fire Numbers Listed

By LIZ MATHEUX  
GENEVA — The Geneva Volunteer Fire Department has issued this new directory for assistance in event of a fire in the area.

Upon discovery of a fire any one of the numbers which will be given in this article may be dialed for immediate assistance:

Day calls: 7 a.m. to 7 p.m.: Evans Bacon, 349-5351; E. W. White, 349-5315; W. E. Dibble, 349-5254; Robert Phillips, 322-1062; Raymond Rucker, 349-5251.

Night calls: 7 p.m. to 7 a.m.: Robert Phillips, 349-5370; Henry Jaeger, 349-5462; Elaine Miller, 349-5383; David Oldham, 349-5396; Buddy Thomas, 349-5238.

If no answer is received on dialing the phones listed, or if

no telephone is available to you, go to the fire house which is located on the Edward C. Putnam property, the first house on the right south of State Road 46 on State Road 426. Press the big round alarm button on the siren control panel. Remain at the fire station until the firemen arrive and direct them to the scene of the fire.

For brush and woods fires, only, call the Florida Forestry Service Tower at Longwood 838-1228.

Note: The Forestry Service is not equipped to combat building fires.

This notice will serve well if you place it near your telephone for easy reference in case of fire.

### Zimbalist Hailed

Efrem Zimbalist Jr. was honored recently by American veterans of World War II, Korea and Vietnam for his continuous contributions and service to "law and order" as star in The FBI TV series.

TWENTY-FIVE years of service to Southern Bell Telephone Company was recognized with the presentation of a watch by company officials to Mrs. Virginia Wallace, service representative in the Sanford office. Admiring her watch are left to right, Mrs. Jeanette Roszell, supervisor, and service representatives Mrs. Margaret Wiggins and Mrs. Patricia Maxwell.

## Pollution Engineer To Talk

DeBARY — The Republican Club, Monday at 7:30 p.m. in the Community Center, will hear Malcolm E. McLouth, commissioner of Canalwater Authority, present a slide lecture on "Air and Water Pollution."

President Ray Schroeder has invited the general public to hear this message.

McLouth, who holds the degree of industrial engineering, bachelor of business administration and master of science, is a graduate of the University of Minnesota.

An ROTC graduate, he spent two years active duty overseas with the Army Corps of Engineers as a first lieutenant.

He is presently senior industrial engineer at Cape Kennedy, concerned with health effects of toxic missile propellants, damaging noise, effects of laser beams, etc.

McLouth served as chief air pollution control engineer in Minneapolis for five years.

There will be a vote on the amendments to the by-laws and other matters of business will be discussed. Refreshments will be served during the social hour.

This will be the last meeting of 1971.

The January meeting will hear a talk "Citizen Participation in Government," which is reported by Howard Sharp, program and publicity chairman.

## Go Places In Comfort And Ease

By HELEN HENNESSY  
NEW YORK — (NEA) — "A woman is well dressed on her vacation if she looks totally natural in her new surroundings in clothes in which she feels completely at ease," said William M. Becker, president of Howard B. Becker, a leading manufacturer of ready-to-wear for women on the go.

These days it's easier than ever to look natural and feel comfortable when you travel. A more relaxed lifestyle here and abroad permits freedom in the way a woman can dress.

"For example, a few years ago, you wouldn't dream of wearing slacks in London, Paris or New York," said Becker. "But now in all top fashion capitals, latest pants styles are readily accepted."

Slim women—and only slim women—look appropriately altered for sightseeing or on the go.

New dresses in synthetic cloth twends go sightseeing also with easy-to-walk-in skirts and they dine out in dressy restaurants, too. Fabrics such as these are terrific travelers because they do not show wrinkles or sag as quickly as solids.

JUNIOR CIVINETTE Club of Lyman High School is one of the more active service clubs on campus at the Longwood school. Shown with the club's banner (left to right) are Kathy Morrill, Pat Pimble, Susan Senecel, Michele James, Linda Stout, Debbie Peralta and Gail Eberhardt.

## Labor Leaders Harassed Won't Leave Pay Board

By NEIL GILBRIDE  
MIAMI BEACH (AP) — AFL-CIO leaders, charging efforts to harass labor members of President Nixon's Pay Board, reportedly will urge convention delegates representing nearly 14 million union members today to fight federal wage controls in the courts and Congress. But they will keep their men on the Pay Board.

"There is no question that the 10 public and industry members are trying to sabotage the labor members' . . . it is harassment in an attempt to discourage us from going to work on the job," said a source in a private AFL-CIO strategy meeting.

He said the harassment was aimed at blaming labor for any failure of wage controls.

The meeting of the powerful 33-man executive council of the big labor federation reached a "consensus" decision to resist the legal and legislative fight against wage controls for approval by 1,000 AFL-CIO convention delegates.

"We are going to go legal and legislative—that's the route we are going to take, but we won't get off the board," one source said.

Delegates added that the three AFL-CIO members on the Pay Board, including President George Meany of the labor federation, expect the two other labor members to take the same position. The two are presidents Frank E. Fitzsimmons of the Teamsters and Leonard Woodcock of the United Auto Workers, whose unions do not belong to the AFL-CIO.

There are 5 members each for labor, industry and the public on the pay board.

"Industry and public members of the Pay Board are trying to divide the labor members. They give Fitzsimmons carte blanche (on wage hikes). But he said 'Hell, no, I'm sticking with the other four members,'" the source said in reporting on discussions at Wednesday's closed AFL-CIO council meeting.

In a 141-page harassment report, sources said it was reported at the labor meeting that the Pay Board refused to include in its minutes a labor proposal demanding full back pay for wage hikes tied up during Nixon's recent 90-day wage-price freeze.

The labor members were outvoted 93 on the demand, with Pay Board Chairman George Holt abstaining, sources said.

Labor was outvoted 100 on the Pay Board's first wage control ruling 11 days ago.

In addition to full retroactive pay, Meany said the AFL-CIO also continued to demand that all scheduled wage hikes negotiated before the freeze be paid to workers and that workers be completely exempted from controls. It was reported.

"He insists that the validity and sanctity of labor contracts be honored," a source said.

The Pay Board majority has ruled that scheduled pay hikes exceeding its new general limit of 5.5 per cent wage hikes can be reviewed and rolled back, and said it would exempt only workers earning less than the federal minimum wage of \$1.60 per hour.

"In addition to the 18 or 19 million people in labor unions, there are more than 50 million workers who are not in unions. It speaks for them? Nobody," said one source of Meany's demand to exempt from controls workers earning less than the official federal poverty income.

## Longwood Candidate To Hear Constituents

By DONNA ESTES  
LONGWOOD — William Klosky, candidate for the City Council in the Dec. 7 municipal election, describes himself as a "man of the people."

"I expect I plan to listen to the desires of the people. I will be available by telephone to the people and his door should always be open," he said.

Native of Pittsburgh, Pa., Klosky holds a lifetime membership in Gen. John Pershing Lodge Masonic Blue 82, Fountaineaux, France, and is a member of Veterans of Foreign Wars.

He is also active in the Longwood Elementary Parent Teacher organization. His 10-year old daughter, Leona, is a student at Longwood School. The Klosky son, Mark, 13, attends South Seminole Middle School.

The candidate favors reinstatement of the city trash collection service. As for the city sewer system, he declared, "The city cannot get away from a sewer system and, if it is going to help ecology, it must be built."

Klosky owns his home at 401 Tallis and points out he does not hold large blocks of land and has no wish or interest in making money off the position of councilman.

Youth is a major interest of the candidate. He insists something must be done for the young people and he would like to see a new YMCA built within the municipality.

He also recommends action be taken to have a civic center built in the city. Klosky has come up with an innovative idea for bringing young people into the city government. He suggests each councilman name a young person to serve on an advisory committee on youth problems and to give suggestions to the city government.

The subdivision ordinance is good, Klosky said, and he prefers construction of 235 housing in the city rather than duplexes because the "235 bring permanent residents."

Klosky also believes in strict enforcement of laws against drunk driving, a diverting plan for the city and a concerted effort to modernize the city while retaining its 1880s historic preservation district.

"Most of all, I urge the people to get out and vote," the candidate said.

## First PTA Meet Held

Sanford Christian School held its first parent meeting with the children of grades 1-6 presenting a program about Thanksgiving.

William Bagley, president of the school's board of directors, introduced the teachers and administrator Dr. Paul Culley. After Dr. Culley's address on "What is Christian Education?" refreshments were served and parents visited in the various classrooms with teachers and pupils.

Other directors of the school include B. D. Baggs, E. L. Buckner Sr., Frank Cofer, William Ellmore, Howard Lloyd, Roy G. Blair, McFarvey and Herbert Patton.

### There Are Tasty Days In Holland

By PETER BYTHNER  
Caples News Service  
ALKMAAR, Holland — Every Friday morning from May to October, Alkmaar celebrates its renowned cheese market as it has done for three centuries. At 10 a.m. white-suited cheese peddlers, each wearing a red blue or yellow hat, according to the guild to which he belongs, run across the square carrying stacks of stacked Gouda and Edam cheeses. The stacks of Gouda, made of cheese laid out the length of the square, stack to three feet high. The stacks of Edam, made of smaller stacks of firm-made cheese, are stacked to one and a half feet high. Before a single cheese is sold the testing by the dealer and exporters begins. With a narrow metal scoop, a long round piece is bored out of a large cheese, which is tasted and crumbled between the buyer's fingers for sampling fat quantity and moisture. After a good deal of bargaining the sale is concluded "en handclap."

## Drafted (?) Granny Would Be Aviator

RIVERSIDE, Calif. (AP) — Helen Walker has 29 good reasons why she shouldn't serve in the armed forces. Which is why she was amazed when her husband called out, "Hey, you're about to be drafted." The morning mail contained a letter from Selective Service Board 140 in San Diego, addressed to "Mrs. Helen Walker." It opened with the salutation, "Dear Sir."

"You have provided evidence that you have a physical defect which you believe will disqualify you for service in the armed forces," the letter said.

"I sure do but I don't remember writing them about it," Mrs. Walker said, referring to her age and status.

The letter continued, "A letter from a physician furnishing information about this defect might spare you the necessity of reporting to the armed forces examining and entrance station for a determination of..."

## For 'Prosperity In Peacetime'

# Nixon Requests Labor's Aid

MIAMI BEACH (AP) — President Nixon, going before an AFL-CIO convention that has heard ridicule on his economic policies, asked organized labor's cooperation today in striving for "prosperity in peacetime."

In his prepared text, Nixon did not mention the union federation's vote Thursday to sharply limit the participation on the administration's Pay Board—a target of oratorical George Meany.

Although Nixon acknowledged "we will have disagreements on the direction of Phase 2" of his anti-inflation program, he said, "There are mechanisms established to resolve those disagreements."

Said Nixon: "If we work together to resolve these disagreements, we can have what this nation has not seen for 15 years—prosperity in peacetime. I am confident that we can achieve it together. I ask you to join together with us in the effort to achieve it, and I pledge to you that we will come out of this phase of the new economic program into a period of sustained prosperity that will repay many times over any immediate sacrifices that any segment of the American work force is called upon to make."

Nixon argued that Phase 1 of his economic program, and notably the just-expired wage-price freeze, was a success. He said: "The only thing that went up during the freeze was jobs. For those who have maintained that the freeze was intended as a ploy to business, let me point out that corporate profits declined during the freeze."

At one point, Nixon took an indirect poke at Meany, who had been vocal during the past year in calling for federal wage-price controls. Said the President: "The freeze was not directed against labor; it did not affect labor alone, it affected all segments of the economy and it was an action which was in perfect harmony with previous demands by many labor leaders to establish wage-price controls."

## School Supt. Question Vote May Be On March 14 Ballot

By HILL SCOTT  
School Board Thursday night approved a resolution introduced by Jean Bryant asking the County Commission to place on the March 14 presidential preference primary ballot the question of whether the county will have an elective or appointive school superintendent.

Mrs. Bryant, in making her motion to allow voters to select the administrative head of the schools, said, "This is not intended to be a political issue nor is there any intent to cast dispersion."

She added it is her belief the county has grown and has become sophisticated enough to have an appointive school superintendent.

Chairman A. F. Keeth apparently agreed with the motion and pointed out a committee recently appointed by the Governor to look in the state's educational system is thinking along the same lines of appointive superintendent.

Keeth added, "The question has been on the ballot twice before but voters defeated appointive superintendents both times."

County Commission Chairman Greg Drummond indicated today placing the matter on the ballot would be at the discretion of Camilla Bruce, supervisor of elections, since she has to prepare the ballot and stressed "it was on short notice."

When contacted today, Mrs. Bryant said she already had talked with Mrs. Bruce and was assured there is time to prepare the ballot, pending Commission approval.

Supt. John Angel made no comment regarding the board's action during Thursday night's meeting but had advised The Sanford Herald two days ago he plans to seek re-election in 1972.

Ray Slaton opined the ballot might also consider allowing School Board members to be voted on without listing party designations. He said this is done in some other Florida counties.

There was no board action relative to Slaton's proposition.

## Proposed Schools To Be Restudied

Examination of building plans for Brantley High School and Tusavvika Elementary School will be held next week at a meeting of the School Board and architects, it was decided last night. The board also decided last night that it will consider next week whether to advertise for bids for contracts. The action was decided on a three-one vote, with Jean Bryant voting "nay" on Ray Slaton's motion.

Session will permit the board to discuss the air conditioning systems incorporated in the proposed schools plans, A. F. Keeth, board chairman, said. Keeth explained the board had wanted to consult the architects regarding a change to another form of cooling and heating, which would reduce utility bills by approximately \$1,000 a month.

Attending the Thursday night meeting at Lyman High School was a group of Eastbrook Elementary School parents, along with John Carl, member of a citizens committee named by Supt. John Angel to study the county's school housing problems.

The parents and Carl called on the board to allow advertising for bids to construct the two schools as a means to resolve the overflowing pupil population in the South Seminole area. Carl pointed out that citizens committee in a Nov. 18 advice recommended the board advertise for construction bids.

Board, two weeks ago, approved sending the school plans to Tallahassee for approval by the state but withheld advertising for bids until a decision had been made by the board on whether to initiate extended year-round schools tentatively set for July, 1972.

There was discussion that the board could divert some of the funds available for construction to air conditioning a part of the south county schools to allow for the year-round learning process and thereby delay the new school construction for approximately a year.

In another action, the board changed the school's resolution policy to delete that part which made it mandatory that students who leave the school grounds without permission are suspended.

Policy change now will allow the school principal to deal with the problem student in the manner he deems necessary to correct the offender.

## 'Too Much Power' Is Questioned

By DONNA ESTES  
CASSLEBERRY — Mayor candidate Richard Wirtz, at a rally sponsored by the Carriage Hills Civic Association Thursday night, pleaded to ask the Legislature to strip powers from the office of mayor.

Wirtz insisted the office has too much power and, if elected, he will take the action of removing it.

Incumbent Mayor Curtis Howe, however, disagreed with his opponent and read sections of the charter which he termed the "city's bible" to prove his point that checks and balances of powers of the office are available to Council.

"The mayor does not make the rules or policy, the Council does," Howe insisted.

At the same time, criticism came from the audience of 22 to 250 persons of the three candidates—Wirtz, Councilman Bill Grier and council candidate Owen Sheppard—running as a slate.

Former assistant city clerk Greg Driggers started the controversy at the meeting with remarks that if Wirtz is elected and takes the two others off his slate into office and with one "cohort on the Council already," Wirtz will run the city.

Grier immediately took offense at the remark and insisted he would continue to do as he believed best for the entire city.

Wirtz said Mrs. Driggers' remarks were directed because he had refused to support her efforts to replace the present city clerk. At this point he made the pledge to petition the Legislature for revision in the city charter.

Grier immediately took offense at the remark and insisted he would continue to do as he believed best for the entire city.

Wirtz said Mrs. Driggers' remarks were directed because he had refused to support her efforts to replace the present city clerk. At this point he made the pledge to petition the Legislature for revision in the city charter.

## Longwood Candidate Is Ousted

By DONNA ESTES  
LONGWOOD — Edward Cundiff was disqualified Thursday as a candidate for City Council in the Dec. 7 municipal elections due to the fact he is not a registered voter, one of the qualifications for seeking election in the city.

Council candidates William Klosky and Richard Crenshaw discovered that Cundiff's name does not appear on the voters' rolls and contacted the office of the Seminole supervisor of election for confirmation.

The office gave the two men, they said, information that Cundiff failed to re-register after 1970.

The latest development reduced to eight the number of candidates for three seats on the Council. Earlier this week Theodore Maxwell withdrew from the race for health reasons.

Candidates for Council as they will appear on the ballot now are James A. Brown, Crenshaw, B. H. Perrell, H. H. Hazline, Klosky, Donald Schreiner, H. A. Scott and E. E. Williamson.
