# Legislators Have Taken Last 'Joyrides' In Highway Patrol Cars

TALLAHASSEE (UP)—Legislators apparently have taken their last "joyrides" in Florida Highway Patrol cars while LeRoy Collins is governor.

Newsmen asked the governor pointed questions as Collins' news conference Thursday about a newspaper picture of Highway Patrol cars delivering a legislative welfare investigating committee to the club house at Hialeah Race Track.

"It is not sound policy," Collins declared, adding that he is going to have something to say about it to Public Safety Director H. N. Kirkman.

"State patrolmen are supposed to patrol the highways, and in taking legislators to the race track, they are diverted from that function," said the governor, who is chairman of the Cabinet Board of Public Safety.

Only For Business

"I do not think that as a general rule legislators should be furnished transportation by the patrol," Collins went on. "The only exception I can think of is where, in the performance of some official function, an urgent need for such assistance is clear and necessary in the public interest."

"Those cases are very rare and the patrol should discourage any other use of patrol cars by the Legislature."

"Like a lot of other things, this comes back around to the man," Collins said. "I do not think many legislators would call on the patrol for joyrides, but there are a few."

"If abuses are going on they should be stopped."

The governor also had some strong comments for persons who criticized the inaugural speech of Dr. Robert M. Strozier as president of Florida State University. Rep. Ray Mattox of Winter Haven and Sumner Lowry of Tampa, unsuccessful segregation candidate for governor, wrote Strozier demanding to know if his speech meant he favors desegregation.

Strozier replied that his address was misinterpreted and that he is pledged to carry out all policies and laws of the state.

"I think it is most unfortunate and regrettable that anybody would seek to draw a president of a university into any public battle over political matters or broad policies of government," the governor said.

The president . . . should be left free to supervise and develop a sound and stable educational system."

Collins refused to be drawn into an argument over whether Jerry Carter should resign from the State Utilities Commission or as Democratic national committeeman. Carter cracked homespun jokes about "cheap" politicians and honesty in testimony recently before a congressional investigating committee.

"The people of Florida know Jerry Carter and I am not called upon to pass judgment on him," Collins said.

Two previous attempts to launch a satellite carrying Vanguard ended in failure. The Army got off one satellite—Explorer I—which is now whirling around the earth but met with failure in attempts Wednesday to put up another.

The Navy said minor technical difficulties precluded a firing during daylight hours today. "Daylight firing is a required objective of this particular test," the announcement said.

Navy men still worked over the troubles in the 72-foot rocket they might start again tonight "counting down" the long hours of check-outs toward a firing Saturday or Sunday.

It was also possible the launching might be put off indefinitely. The Pentagon said a third attempt to fire the complete three-stage rocket carrying a 8.4-inch test satellite would be rescheduled "at the earliest practicable date."

Outside in Rain

The troubles which cropped up suddenly in the Vanguard may have resulted from heavy rains Thursday night. The Vanguard sat on its pad during the down-pour and water may have leaked inside some vital part of the rocket. If this happened, crewmen would probably have to "dry out" the complex rocket before launching it.

The Army, meanwhile, was believed at work on another Explorer satellite to replace the one that failed to go into orbit Wednesday.

Two Navy men, attached to FASTRON 51 at the Sanford Naval Air Station, were thrown from the motorcycle into the windshield of the automobile and onto the pavement.

Driver of the automobile fled from the scene and left two passengers uninjured at the accident. Franklin Mitchell Berry, driver of the motorcycle and Thomas J. Hays, a passenger on the motorcycle are apparently in serious or critical condition. At an early hour this morning police department investigators reported "condition unknowns."

However, at the scene, witnesses said that the two Navy men appeared to be unconscious and seriously injured as they lay on the concrete about 15 feet from the automobile.

Cleve Burnes, 36-year-old Negro man and Ruby Mae Smith, 19-year-old Negro girl both said they were passengers in the automobile and were riding on the front seat when the accident occurred.

Witnesses said the automobile had no lights and was traveling north on French Ave. when it turned into 13th St. into the path of the motorcycle which was traveling south.

The two Negroes said they had been at a Goldboro restaurant when the driver, whose name was known only as "PeeWee" went to a French Ave. filling station for 30-cent worth of gasoline. "We were returning to the restaurant," they said.

A search was begun immediately this morning in efforts to apprehend the driver of the automobile.

Investigating officers were Sanford Police Department Edward Hayden and Earl Bourquard.

Three Seminole County educators spoke to members of the Seminole County Ministerial Association yesterday at its monthly meeting.

The program they presented was "mostly discussion" in regard to cooperation between the schools and churches and the responsibility of moral and spiritual values.

"There is an effort to develop a guide for teachers in this field for discussion, study, and some definite solution to the problems facing the schools," R. T. Milwee, Superintendent of Public Instruction, told the ministers.

He pointed out that there is a problem of parental acceptance of the teacher's analysis of difficulties with children. Milwee said "There is also the minority problem that youngsters apparently have no reluctance in indulging in such things as stealing and cheating."

He also noted that at the high school they have this year developed a "teenage guide" for conduct which not only involves the student but also the parents.

On this thing, emphasis is laid throughout the discussion that the students are prone to follow parents examples. "Where there is a bad example there is a bad student."

Hugh Carlton, principal of the Sanford Junior High School told the Seminole County Ministerial Association, "We are faced with the problem of inadequate detention facilities to house juveniles that are ordered held by the Juvenile Judge."

There is an increase of younger children who are faced with the need of being held because of growing problems of delinquency, Carlton remarked. He emphatically pointed out that "the responsibility lies with the school, the church, and home."

"By the time parents realize they have a problem," Carlton said, "with their children often they are a part of the problem rather than an answer to it. He pointed out that the home seems to be withdrawing from the sense of responsibility for the children's behavior. "There is a need for educating the parent," he said.

Carlton then discussed some of the disciplinary efforts by the schools. Suspension is used sparingly.

## Scheduled Satellite Launching Postponed

CAPE CANAVERAL (UP)—A scheduled launching of the Navy Vanguard missile with another satellite in its nose was postponed today because of "minor technical difficulties."

A brief announcement, released simultaneously here and in Washington, did not say when the rocket might be ready. It did not eliminate the chance that a firing of a tiny moon in the Vanguard might be attempted during the weekend.

Two previous attempts to launch a satellite carrying Vanguard ended in failure. The Army got off one satellite—Explorer I—which is now whirling around the earth but met with failure in attempts Wednesday to put up another.

## Jaycee Guest Says Employment Office 'Clearing House'

The Florida Employment Service office is a "clearing house", D. D. Hahn, local manager, told the Sanford-Seminole County Junior Chamber of Commerce at its noon luncheon meeting yesterday.

There are two phases of the office, he said, that of the employment service and unemployment compensation.

To a self imposed question of "Why are we in Sanford?" Hahn said, "This is the fourth time a full-time office has been opened here."

The office was terminated because of insufficient interest, he explained. However, he stated, a survey has been made and there was sufficient growth in the area to demand an office here.

The Florida Employment Service provides counseling, service, said the local manager of the office, and an industry service representative, labor market trends, an employment service, a service to the older people, a special program for veterans, and unemployment compensation.

There are advantages in having an office in the area, Hahn told Jaycees. "To an employer it is a time saver," he said. "With people constantly coming in a place of business looking for employment a time-consuming task is created."

In the employment service office, he said, a hard-to-fill particular job is easily taken care of. And, he said, we will do the screening for an employer. "We will also furnish signs referring applicants to the Florida State Employment Service office."

"Give us job orders," emphasized Hahn when he was asked "as businessmen, how can you help us?" "and then give us time to fill them."

The Florida State Employment Service is a tax supported state agency affiliated with the U. S. Employment Service, Hahn explained.

Hahn told the Jaycees that his office took in all of Seminole County and the southern half of Volusia County.

"If you are out of work, come to us," Hahn said, and added quickly, "if you need people to work come to see us."

The local Florida State Employment Service office manager was introduced by John Alexander, program chairman for the day.

## Florida Jaycee S. O. S. Campaign Winds Up Today

By Virginia Coon

A concentrated effort by all Florida Jaycees and Chamber of Commerce to counteract bad weather publicity winds up today. The results of the campaign will not be known immediately, but it is hoped that they will soon be felt in an increase of tourist trade.

The Sanford-Seminole Jaycees and Seminole County Chamber of Commerce have done their part by promoting the S.O.S. (Spread Our Sunshine) program in this area. This was accomplished by requesting business firms and individuals to include a paragraph about the mild Florida weather in every sack and crate of fruit and vegetables to be shipped to other states.

Out-of-state visitors were presented with sun glasses as a symbol of one of Florida's greatest natural products, sunshine.

Flyers stating "Hi, Y' all, come on down and enjoy Florida's Sun. The weather's great again in the Sunshine State," have been packed in every sack and crate of fruit and vegetables to be shipped to other states.

The Florida Jaycees did not hurt only the hotels, restaurants, and farmers. Indirectly, it hurt the economy of the state. The Jaycees and Chamber of Commerce are trying to alleviate the situation by promoting a spring and summer season in sunny Florida.

## New SHS Band Uniforms Arrive

There's plenty of excitement at Seminole High School today! Especially among members of the band.

Brand new uniforms for the entire band have arrived and before long the high school musicians will be sporting the new outfits.

Seminole High School Bandmaster Ernest Cowley was on hand when the seven boxes arrived at the Sanford Express Company office as was Band Captain Wally Pope, First Lieutenant Erma Corley, and Band Member Larry McDaniel.

So great was the excitement that each one could hardly wait to snip open the metal hands of the packages to examine the new outfits for which so many have worked so hard.

Contributions have been coming in quite steadily and yesterday afternoon Bandmaster Cowley said that when funds are contributed for three more uniforms the entire wardrobe of colorful outfits will be paid for.

In the packages, stacked up by (Continued on Page Seven)

## Male Chorus Will Practice Monday

The members of the Sanford Male Chorus are reminded of the regular weekly rehearsal scheduled for Monday night at 8 o'clock, in the lodge room of the local Elks' Lodge.

Director Harry M. Weir wants to meet with the bass-baritone section at 7:30 o'clock, for a special practice.

## Today Deadline For '58 Auto Tags

TALLAHASSEE (UP)—This is the final day for Florida motorists to buy their 1958 automobile license tags.

Gov. LeRoy Collins said Thursday he would not extend the deadline any further. The government granted a 15-day extension last month in response to pleas that bad business conditions and worse weather had caused hardships to many motor vehicle owners.

Ina S. Thompson, state motor vehicle commissioner, reported that nearly one million tags remain to be sold today.

Persons driving with 1957 tags Saturday will be subject to arrest and fines.

## February Wildfire Record Highest

LONGWOOD—The Seminole County unit of the Florida Forest Service reported today that the record of wildfires in February reached an all time high.

A combination of extensive frost kill of ground cover and prolonged periods of dryness and low humidity, produced a fire danger situation of explosive proportions.

In the wake of 40 fires last month, 83.5 acres of woodland were burned in the county. These figures are more than double those for the same period a year ago when 18 fires burned 409 acres. A comparison of the rainfall for the period, shows that the 3.37 inches that fell this February was only 15 percent less than last year. The great increase in wildfires has therefore been put to the other factors.

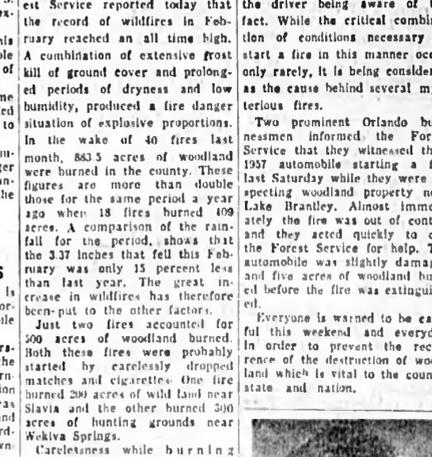

Just two fires accounted for 500 acres of woodland burned. Both these fires were probably started by carelessly dropped matches and cigarettes. One fire burned 200 acres of wild land near Slavia and the other burned 300 acres of hunting grounds near Wokiva Springs.

Carelessness while burning trash was the cause of the greatest number of fires. Several fires of unproven origin are believed to have been started by the hot exhaust gases from automobiles. Tests show that when grass and brush is tinder dry, the hot gases blowing from a tail pipe can ignite and start a fire without the driver being aware of the fact. While the critical combination of conditions necessary to start a fire in this manner occur only rarely, it is being considered as the cause behind several mysterious fires.

Two prominent Orlando businessmen informed the Forest Service that they witnessed their 1937 automobile starting a fire last Saturday while they were inspecting woodland property near Lake Bradley. Almost immediately the fire was out of control and they acted quickly to call the Forest Service for help. The automobile was slightly damaged and five acres of woodland burned before the fire was extinguished.

Everyone is warned to be careful this weekend and everyday in order to prevent the recurrence of the destruction of woodland which is vital to the county, state and nation.

## THE SEARCH CONTINUES

Throughout the history of mankind runs the account of a double quest:  
**Man searching for God**... our restless eagerness to understand and please our Creator, has paralleled the centuries of progress.  
**God seeking Man**... ceaselessly, patiently, His Love has lighted the ages, ever reaching toward our hearts, encompassing our souls.  
 Yet no powerful lens ever devised will aid in this search. Our quest finds its consummation not beneath the lens of a microscope—but beneath the spire of a Church!  
 What man does not recognize his own inability to cope with the complexities of life?  
 There awaits you next Sunday in the Church of your choice the peace and assurance that generations have sought... the **FAITH** which unites Man and God.

**THE CHURCH FOR ALL... ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake, (2) For his children's sake, (3) For the sake of his community and nation, (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## Young Marrieds Form 39% Of All People

**YOUNG MARRIEDS**— food habits and problems  
 Today 39% of all people are in the class of "Young Marrieds" according to a bit of recent research. With an increasing population, it's expected that by 1975, 54% of all families will be members of young married families.  
**OUR "YOUNG HOMEMAKER" IS DIFFERENT FROM HER MOTHER**  
 Her income is approximately doubled. With technological developments, there's a whole "new world of foods." She chooses from 5,000 items in her grocery store, instead of 1,500. She wants food preparation to be fun, with much of the work eliminated; built into the food to make it easy to prepare. Her husband helps with food buying—sometimes with cooking. With modern communication such as television, radio and publications, she's trained differently, not just by mother. She may be working part or full-time outside her home.

**YOUNG HOMEMAKERS CONCERN:**  
 Problem —She's concerned about food values and about getting large amounts of them to everybody.  
 Solution —Eat foods generously from these four groups every day for the best possible health.  
 1. Milk and Milk Products — Children: 3-4 glasses daily; Teenagers: 4 or more glasses daily; Adults: 2 or more glasses daily; Pregnant mothers: 4 or more glasses daily; Nursing mothers: 6 or more glasses daily.  
 2. Vegetables and Fruit: 1 green 2 vegetables and fruit — 1 green leafy or yellow vegetable daily; 1 citrus or tomato daily; 3 others.  
 3. Meat, Poultry, Fish, Eggs; 2 or more servings.  
 4. Bread, Cereals; 4 servings of enriched or whole grain daily.  
 Problem —She would like to do more systematic planning.  
 Solution —A little extra time in planning can mean fewer shopping trips; less time in food preparation; more leisure time; better meals; better fed families; less dishwashing.  
 Problems —She wants to know more about buying and using meat.  
 Solution —The three T's to make meat buying easy are: Total, Tenderness and Time.  
 1. Total to buy —depends on number of servings; Boneless in meat 1/2 pound per serving; in meat — 3/4 pound per serving; Honey meat 1/2 pound per serving. Plan on two or three servings for hearty eaters. Plan leftovers for big cuts requiring long cooking like roasts. Check storage space in refrigerator, freezer and cupboard.  
 2. Tenderness —wanted is judged by grade. Fresh beef, veal and lamb may carry a government grade to denote quality. There is a great difference in the quality (or tenderness) of the same cut of meat, depending on grade. Fresh pork is seldom graded because there is less variation in the tenderness of this meat.  
 Time available may be: Over an hour. On stay-at-home days, plan on meats like roasts and pot roasts, which require an hour or

more. Under an hour? When every like chops, steaks, hamburger, or fully cooked meats canned or frozen.  
 Problem —She wants to be a thrifty shopper.  
 Solution —To get a good buy, consider: Cost per serving, preparation time needed, family preference.  
 Food costs can be controlled by knowing how to compare prices of foods in different forms: Watching for food sales; fresh, frozen, canned or a combination; watching foods in season when in large supply; knowing how to select quality best suited to your needs.  
 Problem —She wants to put more variety in everyday foods.  
 Solution —For breakfast try two fruits—Orange slices around cook-

ed prunes, sliced bananas in orange juice. Applesauce with raisins.  
 Glamorize breakfast standbys—Garnish orange juice with an orange slice. Tomato juice with a lemon slice. Fried apple rings with sausage. Fried corn meal mush patties. Scramble sauteed mushrooms or dried beef in your eggs.  
 For Lunch or supper —A cup of bouillon instead of coffee; make cream of spinach, corn or potato soup with leftovers.  
 Heat and serve over toast — Sauté chopped onions and add canned chicken or corned beef and canned corn. Spread toast with deviled ham. Top with poached egg—and cheese sauce if you like.  
 Serve vegetables—with lemon butter sauce, mustard sauce or

mushroom sauce with meats, cucumber and sour cream sauce, sauteed almonds or horse-radish sauce.  
 Suggest Miss Myrtle Wilson Home Demonstration Agent, if all this fails.

**CAMERA EXPORTS INCREASE**  
 WASHINGTON — U. S. exports of still photographic equipment rose to a record high last year of \$54,822,104, about eight per cent above the previous record in 1956, the Commerce Department reported. It said there were increases in the number of fixed-focus box cameras and in still picture projectors exported.

## 3 Dams, 9 Public Access Sites Will Be Built By July 1

**TALLAHASSEE** — Three dams and nine public access sites are scheduled to be built by July 1 under the new state lake construction and fishing improvement program. Game and Fish Director A. D. Aldrich has disclosed.  
 The work will cost an estimated \$25,930 and will come from a \$250,000 appropriation by the 1957 Legislature for a two year program. The commission already has spent \$29,120 of the total allocation for selective poisoning of fish in Lake Apopka.  
 Dams to create new fishing lakes will be constructed at Silver Creek near Crestview, Blackwater Forest in Santa Rosa County and Zolfo Springs near Wauchula.  
 Public access sites to bodies of water for fishing and boating will

be constructed as follows: Three on the Chipola River in Jackson and Calhoun counties, two on Lake George in Putnam and Marion counties, and one each on the St. Johns River at Weiska, Lake Wilmington in Indian River County, Lake Lochloosa in Alachua River in Marion or Levy County.

**TO STUDY ELECTIONS**  
 MOSCOW — Three American observers have arrived in Moscow to study Soviet elections March 16. They are political scientist Richard Cammon, Princeton University professor Cyril F. Black, and Fortune Magazine Editor Hedley Williams Donovan. They were invited by the government in exchange for the three Russians who observed the U. S. presidential elections in 1956.

America's only car with a highway hardtop—The Ford Thunderbird shown here with the fabulous new 4-passenger Thunderbird

## It's like getting back 15¢ on every gas dollar!

Here's the biggest savings story of the year! And here's why.

It all starts with Ford's new dream of a drive called Cruise-O-Matic . . . the newest, most versatile, most automatic of them all! Two new driving ranges let you choose your starts for the road conditions that exist. For example, in most of the driving you'll do, you can take off lively as a spring lamb if you wish. And on snow, ice or any slippery road surface, with the extra driving range you can get rolling sure, steady and silky-smooth.

Now, learn this all-new automatic with Ford's new Thunderbird-powered V-8 (with

up to 300 hp) and you get as much as 15% better gas mileage, too! That's because a special gas-saving rear axle ratio is used to give you "built-in" overdrive economy.

And based on factory suggested retail delivered prices, a Cruise-O-Matic Ford is priced lowest of the low-price three with comparable equipment.

So, with Thunderbird go . . . down-to-earth gas savings . . . plus Ford's traditionally low prices and high resale return . . . you have the best reasons in the world to make yourself a deal on a new Cruise-O-Matic Ford! Why not see your Ford Dealer . . . tomorrow?

## It Costs Money To Operate The Seminole County Government

In all probability, the reason most people do not understand why taxes are necessary is because they do not get out and look around at the needs of the community in which they live.

Demands on local government officials are getting greater and greater in exact proportion to the number of people added to the population.

And the services local officials are called upon to provide can go on and on in an endless chain of descriptions and reasons.

Taxes are being collected now from a certain segment of the population. But the revenue derived from the tax millage is not enough to provide the necessary funds to take care of all that must be done.

It is no laughing matter to sit behind a huge glass-topped table with comfortable chairs and listen to the number of demands and requests for various projects of varying dimensions.

For instance, Wednesday, the Board of Seminole County Commissioners toured two commissioners' districts in an attempt to survey the damage to county roads caused by the recent heavy rains and the intense cold.

During the course of the survey commissioners examined miles after miles of county highway, barely passable paved roads, that need repairing, and new roads yet to be constructed.

It has been estimated that to put the county's roads in useable shape the cost would be from \$250,000 to \$375,000.

In addition to the roads, there are culverts to be cleared out where sand and clay

have completely filled them, there are miles of ditches to be cleaned out, there are washouts to be filled and countless other tasks that will run into real money to provide.

This isn't a small amount of money, nor is it an easy task to decide what is to be done first and where.

One sad feature is the fact that Seminole County doesn't own enough road machinery to go around in all of the five districts—not even the simplest piece of equipment, a road grader.

The task is tremendous, especially when there is not enough money in the county's budget and treasury to take care of these important needs.

Commissioners have been wrestling with the task for many months and until now none of them have come up with an answer as to "where the money could be secured."

The only logical answer would be through taxes. But under the present system of taxation only a certain choice few would have an opportunity to help pay the bill.

If we're going to have roads people will have to pay for them and the only way through which property owners and users can share in the tax load is by seeing to it that everyone pays his or her share of the taxes necessary to provide the needs of the county.

If people want good roads, good law enforcement, a good public health program and the other services provided by the county then the folks will have to gather round and convince our commissioners that it will take taxes and plenty of them.

## Daily Education Now Needed!

The need for technical writers is far beyond the number of trained people capable of doing this form of work. The amount of technical writing and exposition necessary to educate future generations will be staggering.

Gradually, all of us have acquired a startling amount of information about society and how it runs, about many phases of our life. This is necessary education in the sense of education to live. Just as a child learns to walk, so must the adult learn many facts, details, social processes in order to live in a complex world. And in the future, even more

knowledge will be needed. There will have to be more technical and scientific knowledge, especially.

Others, like the Catholics and Episcopalians, have held that this means being temperate—that is, restricting consumption to appropriate times and places, and to quantities that will not produce intoxication.

Neither of these viewpoints has been abandoned. Among churches to declare a truce in the dispute about moderate drinking and stress their universal concern spreading blight of alcoholism.

Primarily, it is our children and youth, but actually all of us should be more educated. Every day of our lives should be one in which we expect to grow and learn something, out of books and other printed matter, out of life and experience.

Congress now seems to think that what this county needs is a good five cent postage stamp.

Not all the money that slips through your fingers does it through any fault of your own. Quite a bit of it goes to Washington.

## Foreign News Commentary

By CHARLES M. McCANN  
United Press Staff Correspondent  
Premier Felix Gaillard faces a grim fight for his life in the French Parliament.

Gaillard has decided to ask the National Assembly, the controlling house of Parliament, for votes of confidence on two critical issues within the next few days.

The first is on the military budget, to find means of increasing funds for fighting the rebellion in Algeria without upsetting the budget as a whole.

The second is on a plan for constitutional reform, to make it harder for the National Assembly to overthrow governments.

All three factions in Gaillard's delicately-balanced coalition cabinet—right-wingers, moderates and left-wingers are dissatisfied with various features of both his budget and reform plans.

Defeat Brings Crisis  
A defeat on either vote of confidence could bring Gaillard's fall and a new cabinet crisis.

The last crisis lasted 27 days before the National Assembly confirmed Gaillard last Nov. 6 as France's 24th premier since the country's liberation in World War II.

The Gaillard ministry is four months old today. Hence it has not yet survived for the average length of French post-war cabinets, which is about six months.

However, the surprising feature

I will not be responsible for any debts incurred by anyone other than myself.  
Billy T. Reed

of Gaillard's prime ministry is not that it is threatened with defeat so soon. But that it has lasted so long. It has been shaky since its start.

Gaillard Will Go  
Paris dispatches report that Gaillard is pretty sure to go within the next week.

If Gaillard survives the vote on army expenditures, he will face a bigger test when the National Assembly takes up the constitutional reform plan next Tuesday.

The nine factions which make up Gaillard's coalition are split wide open on various features of this plan.

## Churches Softpedal Ancient Differences Over Temperance

By LOUIS CARSELS  
United Press Staff Correspondent  
American churches are soft-pedaling their ancient differences over temperance in order to wage common war against alcoholism.

They are learning that they can work together against excessive use of alcohol without necessarily seeing eye-to-eye on the morality of moderate drinking.

All Christian bodies teach that temperance is a virtue and that drunkenness is a sinful abdication of the power of self-control.

But for generations, there have been two sharply conflicting schools of thought about what temperance means.

Some denominations, like the Methodists and Baptists, have held that it means total abstinence from alcoholic beverages.

Others, like the Catholics and Episcopalians, have held that this means being temperate—that is, restricting consumption to appropriate times and places, and to quantities that will not produce intoxication.

Neither of these viewpoints has been abandoned. Among churches to declare a truce in the dispute about moderate drinking and stress their universal concern spreading blight of alcoholism.

Adopted Policy  
Last month, for the first time in its history, the National Council of Churches adopted an official policy statement on the alcohol problem. It was endorsed by representatives of 34 denominations who sit on the council's general board.

The statement was notably devoid of the self-righteous tone which once characterized many church pronouncements on the demon rum.

It treated the nation's five million alcoholics, not as moral lepers, but as sufferers who desperately need the "healing ministry" of the Christian Church.

"We recognize that once drinking has passed a certain point, it becomes alcoholism, an affliction which cannot be met effectively by the unaided efforts of the victims," the church leaders said.

"We recognize the complex origins of alcoholism and excessive drinking in social pressures, emotional instability, bodily functioning and the nature of alcohol itself."

Accepts Differences  
The statement acknowledged "differences of conscientious conviction" on whether the prevention of alcoholism requires total abstinence or legal prohibition of the

## Nation Needs Different Farm Policy

By Sen. HUBERT HUMPHREY  
U. S. Senator from Minnesota  
Written For United Press  
WASHINGTON 6—Clearly our nation needs a new and different farm policy and needs it now. What should be its broad outlines?

First, a comprehensive farm program covering all major commodities with the recognition of the interdependence of agricultural production. It is a well established principle of agricultural economics that low feed prices produce low hog and beef prices. Furthermore, the price of perishable commodities is directly related to those known as storable, like grain.

Second, agricultural policy must be based upon these accepted and known relationships. It is imperative that the nation have adequate food and fiber reserves—the level of these reserves must be related directly to the growth in population and the tremendous commitment of our nation in the field of foreign policy and national security. This has not been done.

National security requires effective and constructive use of food fiber. Our foreign economic policy must include within it long range commitments of food fiber supplies to our allies and the uncommitted and underdeveloped nations. Food can be a force for peace and freedom. There must be additional emphasis upon conservation, both short and long term.

But it said that even those churches which regard alcohol drinking as evil have an obligation to extend competent and sympathetic help to alcoholics and their families.

"Alcoholics are persons in need of diagnosis, understanding, guidance and treatment. They are especially in need of pastoral care and the divine love which the church can bring them."

The church statement was heartening to groups, such as the National Council of Alcoholism, which have been trying to organize an effective fight against the affliction which now ranks as the nation's number four public health problem.

One authority said its potential impact may be comparable to that of the historic resolution which the American Medical Association adopted in November, 1956. The AMA resolution officially recognized alcoholism as a "treatable disease and called on all doctors and hospitals to accept alcoholics as patients."

Requires Flexibility  
A sound farm policy should be based upon a rising net income for agriculture—parity income. The secretary of agriculture should be authorized to utilize several means of attaining parity income and protecting decent and fair farm price levels. What is needed is flexibility of method in a farm program, plus determination on the part of the secretary of agriculture to utilize every legitimate means at his command to insure orderly marketing and a stable price structure.

Add to this farm credit facilities adequate for the cost of maintaining farm operations and you have the broad outline of a constructive farm policy that can work both for the benefit of the farmer and the nation.

The Eisenhower-Sensenon farm policy has failed. This failure is due not only to weaknesses in the law but also to faulty and ineffective administration.

Here is the sorry record. Realized net income of farm operators dropped from \$14,300,000,000 in 1953 to \$11,300,000,000 in 1957. During the five years Secretary Sensenon has been in office, the accumulated loss in net farm income has been over \$14 billion. The annual rate of expenditures from the Treasury as shown by the budget request sent to Congress this spring totals over \$5 billion as compared with slightly over one billion dollars in 1952. Policy Forces Farmers to Quit  
Sensenon's policies have moved farm families off the farm at a rate of 10,000 per year. There are 500,000 fewer farm families

on the farms than when he took office. The family farm income from all sources, non-farm as well as farm, measured in 1957 dollars has dropped by over \$500 per year—from \$9,000 in 1952 to \$2,500 in 1957. Farm mortgage delinquency is up approximately \$4 billion. Farm surpluses are still huge. Farm prices are still low. And farm income is at recession levels.

There is the record. The administration farm program has not only failed the public, and socked the taxpayers. As consumers, the public is paying higher prices for food at the grocery store. As taxpayers the public is paying out at rate of \$5 billion a year for a program that does not work. As a nation we are threatened by a growing farm-farm depression.

## Conning The News

By VIRGINIA CONN, Society Editor

For a while here this evening it seemed that the inevitable had happened. The few notes collected during the day for this column were gone. In the waste basket? Lost under the melange on my desk? No, just on the hook where they are supposed to be in the first place.

Neatness does not seem to be the rule in the newspaper business. Since it is a virtue I have never acquired, my little corner of the Sanford Herald is a regular squirrel warren. Or that where squirrels hide all their pilfered, cherished and trashy possessions? In this office, if the rule should hold true, only half the people here are in the newspaper business. The rest are far too neat.

When they leave at night their desks top with clear no over flowing arbitrary scatters a gray film over papers, books and magazines. Their paper clips and rubber bands are resting quietly either in

a drawer or some little receptacle for the purpose.

These people seem to have a positive mania for keeping their copy straight on hooks while mine hangs away in a most disorderly fashion. Every box of crackers or klemex always ends up on my desk. The paste jar is encrusted. If this is the sign of an artist, my friends, beware! Some day I shall produce manuscripts of magnitude—from a tiny room in a large house, filled to the brim with junk like the Collier brothers.

Before the Department of Sanitation descends on my head, let me peruse the notes.

Janie Miller called this morning with news of Gretchen and Tom Blackburn. Tom is slated for the carrier Midway, a wonderful job since he will be skipper. Gretchen plans to fly to Pearl Harbor when he leaves in July, meet him there and then again in Japan. They will be out of the states about six months. Hear that both of them are happy as clams, look wonderful, and have a lovely home in San Diego.

Station and Faron wives had their luncheon Thursday at the Aar-Lou. Lee Cunningham and Curtis Stribling were the hostesses.

The table was decorated with a spring bouquet of yellow Jonquil, purple iris and snapdragons. Shamrocks on the place cards forestalled the coming of St. Patrick's Day.

Attending were Mary McGuire, Mrs. Hubble (Father Hubble's mother), Betty Fuller, Ann May, Dorothy Dohne, Mary Muntz, Dot Leary, Barbara Gustafson, June Perry, Bonnie Pahl, Peggy Tugwell, Jane Peters, Waneta Ramey, Joy Webber, Arlene Backer, Ines Blair (Lee Cunningham's guest), and two new girls, Ann Hartnell and Pat Husted. Pat's husband is TAD to Faron, as is Waneta's. They will soon return to the fold of VAF-2.

Election of officers was held. Ann Tammy is the new president. Bonnie Pahl, treasurer, June Perry, publicity, Mary Muntz and Betty Fuller will do the honors on the welcoming committee.

### Election Held At Woman's Club

The annual election of officers was held Wednesday at the Sanford Woman's Club. The election was held following a luncheon.

Ararles and plum blossoms decorated the club. A low arrangement of pansies centered the president's table.

Hostesses were Mrs. John Eick, Mrs. Frank Evans and Mrs. R. E. Feurlof. Guesting guests at the top were Mrs. R. A. Smith, Joe Corley, about fifty attended. Mrs. Corley led the singing of the Star Spangled Banner. Mrs. B. C. Moore played the accompaniment on the piano. The pledge to the flag was led by Mrs. F. E. Bois. Mrs. Yesley gave the invocation.

Routine business was followed by election of officers. Mrs. George Quinn, cor. sec. and Mrs. W. H. Stemper, third vice-president were elected to posts on the Board of Managers of the club. It was announced that R. J. Milwee would speak March 26 at 3:00 p. m. at the Fine Arts meeting. Mrs. Lillian Brannan will be the sponsor. Music will be furnished by the Theban Society of Seminole High School.

On March 19 Mrs. Randall Chase will sponsor a program featuring Mrs. Mary Earle Walker, county tax assessor. Mrs. E. C. Harper announced that a social department meeting would follow the program.

Other future meetings will spotlight Mrs. Nina Dean of Rollins College, at the American Home meeting March 18 and Miss Margaret Margrave, executive secretary of the National Mental Health Association who will speak on April 16. Mrs. Sidney lives III urged members to fill the house at that time. Miss Margrave will come to Sanford from Washington, D. C. Dr. Mel Reid of the State Health Department will also speak April 16.

### High School P.T.A. Receives Check From Council

A check for \$750.97 from the Seminole Youth Council was acknowledged Tuesday night at the meeting of the Seminole High School P. T. A.

The donation will be used to complete the building of the recreation court, which is now under construction. The gift was accepted by Mrs. John Schirrad Jr., president of the P. T. A. M. R. Strickland, who was instrumental in securing the funds, announced that the remaining funds of the Youth Council, some \$2300, would be used to furnish the Youth Wing at the new civic center.

Project Chairman Claude Hittell announced that work on the physical education court has been delayed due to unfavorable weather. He outlined the work on the court already accomplished. The Teen Guide was recently passed and adopted by the student body. Copies of the publication were given to the parents.

Family Fun night was discussed. A box supper is planned as well as square dances, games and entertainment by students and parents. Family Fun Night will be held upon the completion of the recreation court.

"Objects of P. T. A." was the title of a play presented Tuesday night after the business meeting. Participating were Miss Edna Chittenden, Mrs. Cliff Ables, Mr. and Mrs. Philip Westgate, Mrs. Ashby Jones, and Mrs. Joyce Dateman.

Miss Versa Woodcock was congratulated on her retirement after forty-two years with Southern Bell Telephone Co. The company had presented her with a gold pin containing a diamond for each five years of service. Attached to the pin was a tiny gold telephone.

A letter of acknowledgment and thanks was read for the contribution sent to Boys Town.

The speakers table and the serving table were decorated with azaleas and ferns. Refreshments of cake and coffee were served during the evening by the hostesses.

Attending were Mrs. J. R. Hawthorne, Mrs. J. H. Stephan, Mrs. C. H. Winn, Mrs. John Bridgers, Miss Beesie Zachary, Mrs. P. A. Roland, Mrs. R. E. Rutland, Mrs. S. G. Harriman, Mrs. J. E. Courter, Mrs. A. B. Stevens.

# Women Turnout In Full For Florida Amateur

## Today's Sports Parade

By OSCAR FRALRY  
United Press Sports Writer  
NEW YORK (AP)—Two missed turns made the motor car a symbol of disaster today for the Los Angeles Dodgers.

The first was on Jan. 23 when Ray Campanella reached the end of the baseball road as his automobile overturned. The second came Wednesday when Duke Snider, Johnny Podres and Don Zimmer all were banged up in a Florida crash as Snider also missed a turn in the road.

The outcome of that first crash is obvious from a baseball standpoint but only time will tell what troubles the second will bring.

**Campy's Career Over**  
Because Snider, Podres and Zimmer all were injured in already vulnerable areas, Campanella, still paralyzed in his lower extremities, at 27 must concede that his active baseball career is ended. Snider, at 31, previously was menaced by a bad knee while Podres and Zimmer, comparative youngsters, walked a perilous path because of respective spinal and head injuries.

Snider's knee, on which he recently underwent an operation, was injured in the Florida accident.

Podres suffered a seven-stitch scalp cut and a wrenched neck, conceivably dangerous to a bad back condition which pains him constantly.

Zimmer, who once almost died of Rockford, Ill., a former National League pitcher, was injured in the Florida accident.

The key man in this new incident from a day-by-day playing basis is Snider. The Duke is one of the top power men in the National League, having hit 40 or more home runs in each of the last five seasons.

**Hope To Be Ready**  
Duke figured that the off-season operation would give him a new lease on life. But even before the accident he admitted the leg, immobilized for six weeks, needed a muscle bulking.

At best, Snider said, he hoped it would be "right well" before the season starts.

There was no early indication as to just how much damage the when he rammed it against the steering wheel as the tiny foreign car in which he, Podres and Zimmer were riding, left the road and piled into an embankment.

But there is no question that the wallop certainly did him no good. Nor could it have done anything but threaten the dangerous conditions of the always-paining Podres and the game but off-battered Zimmer.

Nor can you blame the Dodgers if they wished for the good old days when ballplayers rode in carriages and figured it was a good luck sign every time they

them nationally. Points were awarded on a 10-9-8-7-6-5-4-3-2-1 basis for votes from first through 10th place.

Coach Henry Kusma's Steubenville team lost its second start of the season at Mount St. Mary's Md. College, 87-66. The Barons won their 23 remaining games, winding up their campaign with road triumphs against St. Francis Pa. and St. Vincent Pa. The Barons whipped St. Francis, an NCAA major college basketball team, by 20 points.

Southwest Mo. State 19-1 finished fifth. Tennessee State 24-1 23-3 sixth. West Virginia Tech 28-5 seventh. Texas Southern 25-4 eighth and Pacific Wash. Lutheran 17-5 ninth. St. Peter's N. J. rounded out the top 10.

# SHS Cage Team Finishes Season With Outstanding 16-11 Record

By Jerry Covington  
Coach Bud Leyer and his Seminoles Cage Team finished the 1958 basketball season last week with the best record the school has seen since 1937. The prep stars finished with a very fine 16-11 record and in doing so gained one tournament championship and reached the semi-finals in another.

The first tournament trophy was presented to the school as they defeated Lyman and Oviedo for the county championship. Last week in the group tourney they knocked off Melbourne to reach the semi-finals but were defeated by a great Seabreeze High club.

Coach Leyer did a great job this season and feels that next year's squad should be even better. Leyer came to SHS three years ago and has been building rapidly and working toward the day when he can take his squad to the state tournament in Gainesville.

All of the boys worked hard this year and were every bit as good as the record shows. They worked together as a team in every contest and in most occasions it paid off.

Dick Silvers and his JV team showed more promise this season than any JV team in the school's history. Silvers feels that several of his young lads should be ready to move up next year and fill in the gap made by the loss of several seniors. All of the starting five showed aggressiveness and hit for plenty of points.

The city of Sanford says halo off to Leyer, Silvers and their boys and wish them even more success in the years to come. This is the biggest improvement in the basketball program the city has ever seen and it is the hope of all that next year we will have an even greater season.

Coach Jim Pigott and his track team will play host to the Kustis Squad here this Wednesday at 4 p. m. Seminole High is sporting a new cinder track and the local sprint stars have a schedule this year that includes five home meets.

Coach Pigott is very optimistic about the program this year and feels that the new track will be a great asset to the squad. Last year was the initial year for track at the local school and everyone predicts a vast improvement.

Several returning lettermen are among the 46 member squad. Dave Stanley, Dickie Rountree, Al Collins and Mike Tammy are several who will be back to run for the Seminole team.

These track meets will include

# Western Union To Be 107 Years Old On Apr. 1

By DON QUIGG

United Press Staff Correspondent  
NEW YORK — Western Union, an institution that will be 107 years old on April Fool's Day, is in with a claim that when weird jobs are jobbed its messengers will be the jobbers.

You can send a telegram, nowadays, by high-speed printers and by pushing a button of a facsimile machine—but nobody has figured out how to make electronic devices sit in as a fourth at bridge, take a farmer's cow home for milking, recover lost false teeth, or deliver lunch to a workman on a flagpole.

These things, and things stranger, still they say, are all in the course of the work of some 10,000 messengers in nearly 2,000 cities and towns in the United States and, what's more, business is growing. The company's errand and distribution revenues for 1937 were nearly two billion dollars, a seven per cent gain over 1936.

We were right to the company and demanded: "Are you kidding about cow deliveries and sitting in at bridge, and that kind of stuff?"

Secretary Orders Snake  
"None," said the W. U. man, "in Wall Street, three or four years ago, one of our messengers was called on, by a blonde secretary, to bring her a two-foot garter snake from a zoo. When she got it, she gave the messenger a hug and told him he did a fine job.

"There have been two or three instances where our boys have been asked to sit in at bridge games. The cow, as I recall, was in a pasture some distance from home and the farmer was unable to go for it that day."

Two classic stories in the company files concern the sloping couple and the mouse-scarred woman. The elopers hired a messenger to take them to a license bureau and to a clergyman, and then used him as beat man. The scared woman, in a Midwest city, called for a boy when he arrived, and she commanded him to get a broom and drive a mouse from under the piano.

Delivers Lunch  
"As for the flagpole delivery," said the W. U. man, "there was a workman repairing the pole up about 100 feet and his wife sent him lunch by messenger. The boy had to wigwag him, and he lowered a rope, pulled up his lunch, signed the delivery slip and lowered it, and the boy went on his way."

Messengers have even been sent to give doses of medicine to sick persons. But one thing they don't have to do anymore—sing. The singing greetings are now done by W. U. recording operators by phone. But maybe they've missed there. People used to order "your worst messenger voice" for serenade duty.

## Chiropractic Assn. Formed In Sanford

The Sanford Chiropractic Association was formed Thursday at a meeting attended by Dr. L. T. Doss, Dr. H. K. Ring, and Dr. J. W. Woodall.

Purpose of the organization the three doctors said after the meeting is to promote a better understanding between the chiropractors of Seminole County so that they might be of better service to the general public.

A series of informative articles about chiropractic will start this coming Monday in the Sanford Herald.

The organization will meet monthly to discuss problems confronting the local chiropractor and to plan a continuing program of service that will benefit the people of this area.

ingly, he said, and only as a last resort; the purpose of it being more to get the parents in for conference rather than just turning the student out on the street.

"The discipline is an effort to help the student not merely to punish," he said.

In answer to a question involving the increase in population caused by Navy personnel it was said that the percentage of delinquency is no greater among Navy children than established parents.

A number of suggestions for coping with the problems were discussed and suggested. A state proposal to establish a guidance workshop for teachers which will emphasize teaching moral and spiritual values with such classes a possible requirement of the parents of problem students; consultation with ministers along with the school people and parents.

## Free Copy Heads Fast Field Tonte

Free Copy, a veteran champion who has posted many important victories at top tracks around the country, heads a fast field in the featured ninth race tonight at the Sanford-Orlando Kennel Club.

W. F. Swafford's fast-breaking star has made only six starts, but has posted two wins and a second. While he is approaching five years of age, Free Copy still boasts plenty of speed and could be a dangerous factor in the five-sixteenth mile test.

Stepin Easy looks sharp after running second in his last two Grade A attempts. The smooth-striding 70-pounder rates a 5 to 2 choice on the morning line.

Chaplain William C. Fuller offered to assist in creating a program which would teach moral and spiritual values to both students and parents.

the three hand members on hand when they arrived, there are 70 band uniforms, one drum major's uniform, and one band director's uniform.

"We're mighty happy about the whole thing," Bandmaster Ernest Cowley said. Just think, he commented, the uniforms are just about paid for and Tuesday will see the entire band dressed out in colorful attire.

The whole band will be in full uniform next Tuesday and a review of the band in new attire will be given the Seminole High School student body.

Most recent contributor, until the time the uniforms arrived, was the Sanford Tourist Club. The local organization contributed a uniform which brought the total at mid-afternoon yesterday to \$4,500.

Cost of the 70 uniforms is \$5,100 said Bandmaster Cowley "which is a sure sign that all good things come in small packages."

Local Agent for the Railway Express Agency turned the tall stack of boxes over to the three-person contingent of the Seminole High School Band at mid-afternoon yesterday to be loaded into a pickup truck on hand to transport the packages to the school.

"We'll take them to the band hall," exclaimed the trio of band members. "And lock them in my office," said Bandmaster Cowley. It was another sign that the new uniforms won't be seen until the stated time . . . next Tuesday, afternoon.

## DeBary Resident Dies Wednesday

Mrs. Nellie Louise Sprague, wife of Lee J. Sprague, died at 11:45 p. m. Wednesday night at her home in DeBary, 37 Lake Dr.

Mrs. Sprague was born in Peterborough, Ont., Can. She had lived in DeBary for seven years, coming to DeBary in December 1930 from Great Neck, N. J. She had been in ill health for about three years.

Mrs. Sprague was a member of the First Presbyterian Church of Sanford, the Woman's Club and Civic Association of DeBary. Survivors include her husband, Lee J. Sprague, DeBary; one son, Judson M. Sprague, Glen Rock, N. J.; one grandson, Robert J. Sprague, Glen Rock, N. J.; and one sister, Mrs. T. M. Bullard, Toronto, Ont., Can.

Funeral services will be held at 11 a. m. tomorrow at Rivison Funeral Home with the Rev. A. G. Melnick officiating. Burial will be at a later date.

## Cub Scout Pack Holds Blue, Gold Banquet Last Week

Cub Scout Pack No. 345, sponsored by the Presbyterian Church, held its annual Blue & Gold Banquet last week in the Educational Building.

The tables were gaily decorated in blue and gold colors. Novelty place mats were made by the club. Each den had a birthday cake in blue and gold colors, commemorating the 48th birthday of Scouting.

Reverend and Mrs. A. G. Melnick were honored guests. Reverend Melnick is the Institutional Representative for the Pack.

The opening and closing exercises were given by Den 1 under the leadership of Mrs. L. E. Ferguson, Den Mother. Mrs. John Bailey, accompanied by Ed Melnick on the piano, led the group in singing several popular cub scout songs. The highlight of the evening in entertainment was the appearance of the Ambassadors of Jazz who played several arrangements for the cubs and their parents.

Awards were presented by Fred Murray, Committee Chairman to Douglas Bower, Den 3, Bear Badge, John Fernandez, Den 3, Wolf Badge and Gold Arrow; George Sauter, Den 3, Wolf Badge, Wayne Ferguson, Den 1, Silver Arrow and Stephen Harris, Den 1, Silver Arrow. Tom Drake, Cubmaster, presented a cub scout induction ceremony inducting Tim Nicholson as a Bobcat.

Cub Scout Pack No. 345 has recently organized a Webelos Den under the leadership of George Sauter, Den 1, Silver Arrow. This den has seven boys, all of whom are at least 10 1/2 years of age and have previously earned their Lion Badge.

## REMEMBER, Your Wife Signed The Mortgage Too!

Your home is the foundation stone of your family's happiness. Be sure they will always have it. When you signed the mortgage on your home, your wife signed, too. That means she would be responsible for the debt if you were gone. Our Homeowner plan will assure your wife a home instead of a mortgage.

## Lake Mary

By ETTIE JANE HOGG  
LAKE MARY — Sunday afternoon between 3 and 5 everyone is invited to a house warming for Mr. and Mrs. Roland Goble at their new home on the corner of Crystal Lake Ave. and 4th St.

The party is being given by Circle No. 1 of the PWO of the Community Presbyterian Church.

All members of Circle No. 1, Circle No. 2 and the Business Women's Group who wish to go in a group are asked to meet at the home of Mrs. Ruby Linden at 2:30.

Ruby and "Hap" have a lovely home and I'm sure that all their friends old and new will want to wish them well in their new home.

Mr. and Mrs. Clay Smith left Sunday for Mebane, N. C., due to the sudden death of his father, F. W. Smith. The elder Smith was a frequent visitor in this area. The sympathy of the community goes out to Clay and Betty.

The PWO Circle No. 1 will meet March 11 at 8 p. m. at the home of Mrs. Ed Zimmerman. The circle will review Page 10 of the series of articles in the study book.

# Military Buying Stepped Up In Nation's Unemployment Areas

WASHINGTON (UP)—The Defense Department today announced plans to step up military buying in the nation's hardest-hit unemployment areas in line with President Eisenhower's new seven-point anti-recession program.

It was learned that the administration is likely to recommend a sharply increased program of hospital construction as

another weapon against unemployment.

The Department of Health, Education and Welfare has recommended such a boost and it was considered probable the administration will soon ask Congress to at least double the \$3 billion dollars the President asked for federal spending on hospitals in the fiscal year starting next July 1.

Reconsidering School Construction

The department also is reconsidering the administration's shelve school construction program as another possible anti-recession measure. But informed sources said no decision has been reached.

The President, in announcing plans Saturday to open public works and increase jobless pay

benefits, said the military departments had already, on his orders, acted to funnel more contracts to unemployment centers.

Deputy Defense Secretary Donald A. Quarles said today he has asked all military services to spend more money in centers of unemployment and to review their buying to "assure that the maximum number of contracts" go to

small businesses in those areas.

Large military contractors will be required to give preference to sub-contractors to unemployment areas "if the subcontractors are qualified and no price increase will result." He said the areas to be favored are those where unemployment runs 8 per cent or over.

Quarles disclosed Friday that the Pentagon had ordered a 30 per

cent acceleration of contract awards for major military procurement and construction to help combat the slump.

Resolutions Debated

The Senate Public Works Committee scheduled a session today and Democratic Leader Lyndon B. Johnson's two resolutions calling for stepped-up spending of money already voted by Congress for

civil and military construction projects Johnson said the administration had \$7,100,000,000 in unspent money for these projects last Dec. 31.

The Senate is slated to start debate Tuesday on a \$1,850,000,000 housing bill and later this week on legislation to prevent reductions in farm price props. A public works subcommittee will hear adminis-

tration officials Tuesday on plans for pushing federal highway spending.

In the House 13 Democratic members of the Banking Committee joined in sponsoring a bill to set up a \$2,500,000,000 program of 50-year, 2 per cent federal loans to cities to build community projects and public works.

Increasing cloudiness tonight and Tuesday. Occasional rain Tuesday. Low tonight 68 to 82.

## 1958 Easter Seal Drive Underway In Seminole County

A flood of brightly colored Easter Seals, heralding the approach of spring, are going into the mails for delivery to hundreds of Sanford and Seminole County homes.

Funds raised in the 1958 appeal will be used for providing crippled children's services throughout Florida and research on a national scale.

A Californian is helping launch the campaign in Florida. He is Don Belding, noted advertising executive, who is the National Easter Seal Chairman. From a speech in Miami tomorrow, he will go directly to the White House in Washington where he will meet Mrs. Eisenhower who is a sponsor of the Easter Seal campaign.

A central office, directed by Lila Reese, coordinates the activities of 26 affiliated Easter Seal societies and 10 treatment centers. Two Mobile Therapy Units are operated from the central office to serve areas without therapy clinics.

Mrs. Harold Appleby said this morning "As you know I have been active for years in this worthy work."

"I am very happy to announce that the Pilot Club of Sanford has sponsored a Chapter for Seminole County of the Florida Society for Crippled Children," she said.

"Because of this local chapter the funds collected here will be allocated to Seminole County, with Howard C. McNulty of the Florida State Bank serving as Treasurer," Mrs. Appleby said.

"I hope that all Seminole County will get behind this drive, 100 per cent," Mrs. Appleby commented. She also added "If you know of a crippled child who needs help, call FA 2-3334 after 4:30 p. m."

## Financing Road Repairs Problem

Our most pressing problem now is to find some way to finance the repair of roads damaged by recent rains and cold weather," commissioners stated Friday afternoon following a survey of roads in Districts 1, 2 and 3.

Commissioners covered roads in the three districts of Commissioners Fred Dyson, Homer Little and Chairman John Krider. They examined one road damaged over its entire length of 12 miles.

"There are over 75 miles of paved and unpaved roads that need immediate attention," Commission Chairman said immediately following the survey.

"The situation is serious, commissioners revealed when a doctor refused to drive over roads, in the south section of the county, or a call to a family which needed medical attention.

It was also brought to the attention of commissioners that rural route mail carriers cannot cover their complete routes because of the condition of the roads; in another instance residents were parking cars on the nearest passable road and walking to their homes.

"It is a critical situation," Chairman Krider said. "The board of county commissioners ordered the advertising for bids for two road graders with

# Whiteside Fails To Show Up For Questioning

WASHINGTON (UP) — Thurman A. Whiteside, a key witness in the House investigation of government regulatory agencies, failed to show up today for questioning about his financial dealings with Richard A. Mack.

Chairman Oren Harris (D-Ark) of the House subcommittee on legislative oversight refused even to say if he knew why the Miami lawyer failed to appear.

Whiteside was called before a federal grand jury last week to present the records of his tangled financial relations with Mack. Mack resigned from the Federal Communications Commission in

## Man Drowns As Boat Overtakes In Lake Butler

Willie M. "Bill" Miller, 44, drowned in Lake Butler, northwest of Osteen Saturday afternoon at approximately 3:30 p. m. when his boat overtook a motorboat.

Miller was able to rescue his son before he apparently was struck with cramps and failed to come up.

His body was recovered early Sunday morning with the aid of portable searchlights furnished by the Sanford Naval Air Station to assist in the search.

Mr. Miller was born March 15, 1913 in Thomasville, Ga. He formerly lived in Osteen but for the past five years had made his residence in Sanford on the County Club Road. He was a father of two sons, a daughter and a son-in-law.

Mr. Miller was a veteran of World War II and a member of the Campbell-Lossing Post, American Legion.

Survivors include his wife, Mrs. Beulah F. Miller, Sanford; one son, John Larry Miller, Sanford; an uncle, W. M. O'Neal, St. Petersburg; and his mother-in-law, Mrs. Viola Meadows, Huntsville, Ala.

Funeral services will be held tomorrow afternoon at 4:30 p. m. at Brison Funeral Home. Services will be conducted by the Campbell-Lossing Post of the American Legion.

Burial will be in Oaklawn Memorial Park.

## Operetta Rosalinda Will Be Presented Tomorrow Night

"Rosalinda" (Der Fledermaus), by Johann Strauss, will be presented Tuesday night at the Pinecrest School. Under the sponsorship of the Mutual Concert Association, the Grass Roots Opera Company will bring a professional cast, sets and costumes to Sanford.

The performance will begin at 8 p. m. in the Pinecrest Auditorium. The operetta is under the direction of the brilliant young concert pianist, Frederick Popper. The hitting music of Johann Strauss will be enhanced by the beauty of voice and handomeness of the cast. The young singers have had excellent backgrounds and experience, a spokesman said today. The performance will be sung in English. The translation of the libretto is a recent one.

## Krider: Cost Of Running County Must Be Spread

"A fair and equitable way must be found for spreading the cost of running the county among as many of our citizens as possible," John Krider, chairman of the Board of Seminole County Commissioners, wrote B. F. Wheeler Jr., chairman of the Advisory Committee to the Seminole County Commission.

The committee, through its chairman, B. F. Wheeler Jr., recently wrote Krider asking specific instructions for duties and studies to be completed by the recently appointed group of 11 citizens.

Krider told Wheeler that "I thought it best to confer with the entire commission before replying to be sure that we are all in accord."

The Commission Chairman called attention to the tremendous growth and development in the county.
