## Baby Jesus A Memory

By WILLIAM ENNIS All Souls Church

A mother and her pre-school child were window shopping during the Christmas season. The child was dazzled by the ights, the music, the miniature lights of Santa's helpers, and by the many Nativity sets that were displayed. The figures in the Nativity sets ranged from the heroic to the miniature in

The child's mother noticed that she was particularly interested in the figure of the Baby Jesus in each of these sets. The child suddenly turned to the mother and asked one of those unanswerable questions that fill the mind of every small child: "Why is Jesus a baby every year? Doesn't he

This child had placed her tiny finger on Christianity's major ailment: For too many Christians, Christ has NEVER stepped out of the manger, he has never grown up; Christ is ALWAYS "baby Jesus." The result has been rather debilitating for the Christian message.

The infant Jesus is a memory, a very pleasant memory. It is true, but still a memory. If we love a memory we live manger. The Christian must love him as He is found in the flesh today, not as He was found in the stable.

Where do we look for Him? In some nebulous concept called HUMANITY? That's much too easy! Jesus has so many individual and human faces: the hungry, the naked, the poor, the stranger (Matthew 25, 31-46), the pain-in-the neck," the good friend, the spouse, the brother, the sister, the 'other kind" and so on. In each of these human faces we find Jesus, and toward these faces we must direct our love. Love of our fellow man, a love that is translated into the way we live with others, this love, and ONLY this love, is proof of our

"And the Word was made flesh, and dwelt among us." (Prologue: St. John's Gospel) Learn the story better! Wipe away the tears of the sorrowing, bring relief to the suffering, bring life to the dead! Pass it on in gratitude. We who were in darkness indeed have seen a great light.

What is more, because of their longer in-

volvement than the Middle East in the oil in-

dustry, Venezuelans consider themselves as

knowledgeable on the subject as any people in

the world. After all, most Venezuelan oil men

have worked at one time or another for the

biggest U.S., British, Dutch or other foreign oil

companies, and their top engineers and scien-

If Venezuelans are correct, that South American country has eil reserves greater than all the rest of the world right now.

Hugo Perez La Salvia, Venezuela's minister of mines and hydrocarbons, estimates that in the Orinoco belt "the oil 'in situ' is more than 700,000 million barrels," which is 700 billion barrels, the way the United States counts.

Total world proved oil reserves are calculated at about 669.9 billion barrels.

What takes some of the edge off Perez La Salvia's claim are those two Latin words, "in situ," in place.

For the industrial techniques required to recover the treasure from the oilbearing sands of eastern Venezuela are still being developed And what oil is there will remain "in place" until ways are found to get it out.

But, as Perez La Salvia has said, Venezuela is spending heavily on a program that, by approximately 1978, should result in a more complete knowledge of the Orinoco oilbearing belts, not only as regards the kinds of oil to be found there but also the most suitable means for its exploitation. There is nothing startlingly new in all this.

Perez La Salvia's statement was reported months ago, in the May, 1973, bulletin of the Ministry of Mines and Hydrocarbons, but it attracted little attention outside of petroleum industry circles.

Because then there was no obvious oil shortage in the United States, little heed was paid the words the minister spoke at that businessmen's meeting in Barquisimeto.

Years ago, it used to shock Venezuelans when their startling pronouncements or dire predictions were all but ignored in the rest of the world. But no more.

They may find it hard to understand why the United States, say, so easily dismisses words of wisdom from Venezuela. They know that Venezuela long was the No. 1 oil exporting nation in the world, and, even yet, despite the

by battles over whose empire will be expanded.

A government official investigating the reason several major companies were stalling on adopting proven methods of fuel saving found the managers were afraid that taking action at this time would leave them open to charges of previous inefficiency.

One technical man reports so many industrial managers have regularly refused to deal with energy-saving innovations that American inventors have been forced to go to

All that, and more, being the case, it can generally be assumed that when a man of the stature of Perez La Salvia speaks out, he does so on the basis of solid research and information.

But there is another factor in the world oil picture that cannot be ignored. Venezuela was one of the founding members of the Organization of Petroleum Exporting Countries (OPEC).

Let 'Em Run

## Railroads Now Have The Ball

years the United States of America has been concerned primarily with rescuing failing railroads from financial collapse and with trying to preserve what remains of rail service for passengers. The need for energy conservation could make both of these

problems easier to solve. Amtrak's effort to lure more travelers aboard passenger trains will surely get a substantial boost from the pinch on gasoline supplies and cutbacks in airline service. Shippers who have seen their cargo stalled by shortages of diesel fuel for trucks may be looking with more interest at the rails. Energy officials making fuel allotments are aware that railroads can claim more efficiency in fuel consumption than autos and trucks in hauling both people and freight over a given distance.

While this may increase profitability on routes which have been losing money, it does nothing to solve the industry's basic problems - shortages of rolling stock, aging equipment, trackbeds in need of rebuilding, wasteful labor practices and unrealistic rate structures and

We might even discover that we

don't have to run all those errands

and buy all those things.

What a revelation!

stead of looking at the boob-tube.

being a family once again.

A Congressman says that eager-beaver senators and representatives have put 300 to 400 energy bills in the nopper to get in on this crisis bandwagon. Few of these men, he says, really understand fuel-energy business. Their self-serving bills only add to the confusion and delay. But their activity brings favorable letters from constituents back

A confirmed environmentalist told his colleagues at a discussion this reporter attended, that Congressmen attempting to jump on the environmental bandwagon and those submitting to the pressure of strong anti-pollution groups have voted for laws which are indefensible from any scientific standpoint, laws which severely handicap at-tempts at conserving energy and increasing fuel produc-

A bureaucrat fumes at agencies which resist energy-saving and production-incentive programs which call for redefinitions of their objectives, even when the proposals would strongly benefit the nation in this crisis — exceptions to the anti-trust laws which would make possible joint industry funding and contract to the district funding and contract to the same and contr to the anti-trust laws which would make possible joint industry funding and cooperation in energy savings and
energy increasing programs, expansion of rapid tax writeoff systems and tax exemption programs to encourage
more fuel economy and fuel substitution innovations,
allocation of scarce materials to assist those industries
which take high-risk gambles in fuel production and fuel
efficiency, and government testing of new technology to
reduce somewhat the industrial risks involved.

Says one scientist-official: we must face the fact that
throughout much of American industry and government
there has been for some time an increasing reluctance by
high officials to stake their careers on high-risk ventures,
whether in energy or anything else. Saigon

#### Weapons Decision Overruled

TALLAHASSEE, Fla. (Ap) A Dade County judge's decision in a concealed weapon case threatened to leave homeowners and merchants defenseless, the Florida Supreme Court

The court Thursday overturned a decision by Dade County Circuit Judge Edward D. Cowart, who withheld a finding a guilt but had placed James L. Peoples of Miami on

Peoples testified he was holding two men trying to rob the store where he lived and worked Aug. 22, 1972 when police charged him with carrying a concealed weapon. He had a pistol in his belt.

The 6-1 Supreme Court opinion said Peoples was exempt from the concealed weapons law because he was on store property until police asked him to step around the corner for a

"If we upheld the lower court's verdict, we would be saying that a person, in defense of his home or place of business, is not permitted to conceal his possession of a firearm," wrote Justice Joseph Boyd.

That would mean, he said that businessmen couldn't keep weapons unless they risked offending customers by keeping them in the open and homeowners would have to carry them in their hand or holster or keep them locked up where they would be useless.

Peoples said he had seen the two men trying to take a lawn mower and bicycle from th rear of the store.

During the police search of Peoples, the Supreme Court neted, "unfortunately, the two identified suspects escaped."

Justice James Adkins dissented without a writen opinion.

#### Geologists Claim Oil Is In Ocala

WASHINGTON(AP) - After a two-year study federal geologists have concluded that oil can be found and removed from the Ocala National Forest without serious environmental

> The U.S. Geological Survey has told the President's Council on Environmental Quality that some scars from oil production could last for 40 years, but most damage from clearing, oil spills and fires would be temporary and confined to small areas.

The study could open the way for drilling operations over 344,-000 acres of the popular Central Florida forest.

Amoco Production Co., holds eases on 95 per cent of the federal lands in the forest and is seeking Department of Interior approval to begin sinking test

Interior leased the forest ands to Amoco for 50 cents an acre in 1969, but suspended the leases two years later following protests from conservationists

The geological survey said the Interior Department has no authority to cancel the leases or suspend them indefinitely. Lyman Rogers, chairman o

the Coalition to Protect Ocala National Forest, said the government had done little to regularate the oil industry. "Once they get started in the

Ocala it's doubtful that anything could stop them," Rogers said. "It's a tragic sign of the times that the government places one value - the need for more oil - above others, like the forest's primary purpose of providing recreation and open space for the people." Interior Secretary Rogers C.

E. Morton cannot approve the drilling operations until after a public hearing in Ocala Jan. 8 and 9.

"The Ocala won't solve the energy crisis - even if an oil field can be found -- but it could help ease the pinch in Florida,' said Amoco engineer T.D. Autrey recently.

#### Blackouts For Florida

MIAMI (AP) - The president of Florida's largest powerproducing company says that if the Nixon Administration sticks by its request for a 10 per cent cut in fuel oil supplies, the Sunshine State can expect some blackouts this winter.

"I will assure you that a significant loss of our fuel can only be met by a lack of generating capacity that will translate itself into something everyone will have to share," Marshall McDonald, head of Florida Power & Light, said Thursday.

"It's just a question of how frequently they would occur and of what duration they would be," McDonald told 200 Miami businessmen.

#### **GOP Officials Testify**

JACKSONVILLE, Fla. (AP) - Two Florida Republican Party officials have testified before a Duval County grand jury looking into alleged illegal fund raising on behalf Sen. Edward Gurner, R-Fla.

Party chairman L.E. "Tommy" Thomas and executive director Bill David appeared before the grand jury The judicial body is said to be probing allegations that

Larry E. Williams, 29, of Orlando, pressured donations from builders across the state for a Gurney booster fund. Gurney, a member of the Senate Watergate Committee, said last week that he neither authorized nor knew about any illegal fund raising.

#### State Emergency Number

TALLAHASSEE, Fla. (AP) - Florida is taking a first step toward establishing a statewide emergency number, one which persons in trouble can dial for heip from police, sheriffs and firemen. The Cabinet is expected to approve on Tuesday a \$50,000

contract with Stanford Research Institute, Menlo Park, Calif., for a study of the proposed statewide emergency The General Services Department proposal said the common number would be helpful to a mobile population

and would eliminate confusion that now exists with so many emergency numbers. The federal government has proposed that the number 911 be used nationwide for emergencies and the Federal Law Enforcement Assistance Administration has provided Florida with a \$14,000 grant for the study.

Stanford Research will be required to determine which areas should be served by each centralized emergency service, what legislation it will require and what type service should be installed.

#### TO LAKE MARY VOTERS

This is an appeal. I am asking you to support and vote for Don Jackson, for Mayor, in the run-off election Tuesday, December 18th, Lake Mary School.

I have known Don since moving to Lake Mary, 1965. In the ensuing years I have worked with him on a number of projects of the Lake Mary Chamber of Commerce. I

Don is progressive, and a man of exceptional executive

ability and fine judgment. He is a self-starter. He can see

unselfishly of his time, energy and knowledge - for you.

what needs to be done and tirelessly work for those goals. He is a good "listener," too. He has done more for Lake Mary and its citizens than anyone I know. Don has given

We must retain him as Mayor this forthcoming year. Having served as one of the Temporary Councilmen and witnessed the enormous amount of progress in the three nths since Lake Mary was incorporated, I recommend

lurge you to vote for yourselves and the best interests of your City of Lake Mary. You will when you vote for Don Jackson, Tuesday

that we continue to utilize his skills, training and in

valuable contacts in 1974.

SAM PRATT, SR. LAKE MARY, FLA. (Political "ad" written and paid for by Sam Pratt, Sr.)

> DELAND, Fla. (AP)-Kenneth Francis, 17, has been convicted of clubbing to death another youth in what defense lawyers said was a Satanic killing in which Francis played but a small part.

A Volusia County Circuit Court jury deliberated for about three hours Thursday before finding Francis, of Daytona Beach, guilty of first-degree murder in the death of Michael Cochran, also 17, of Fresno., Calif. Francis also was convicted on four lesser charges. The defendant's mother wept softly, burying her face in

Sgt. Paul D. Francis, tried to comfort his wife by embracing Judge Uriel Blount told the jury to come back at 10 a.m. today to consider a recommendation for a sentence, which, under Florida's new death penalty law, could be electrocution. Under the same law, Blount doesn't have to abide

by the recommendation. Francis is the second person convicted in the April 27 death of Cochran. David Hester, 17, of Greenville, S.C., was sentenced to life in prison in October. Police say Cochran was killed after being slashed, beaten

and stabbed by as many as 12 other youths in a witchcraft

#### Neglected wife wants hubby to face the music

By Abigail Van Buren @ 1973 by Chicago Tribune-N. Y. News Synd., Inc.

DEAR ABBY: I guess you could call me a "neglected wife." For eight years my husband has played weekends in a country western band, here in town or towns nearby. We used to have fights because I wanted to go with him, but he'd never let me.

I got tired of fighting with him and just gave up. I knew he couldn't be playing all night, but he'd never get home until 7 or 8 the next morning. He never talks about his music jobs, and he has friends

He has another job during the week, but his country music weekend jobs are what bothers me. He just lives from weekend to weekend. Also, he leaves me without any

transportation, so I can't check up on him. We never do anything as a family. We have two sons, who are getting to be mama's boys because their father has so little time for them. I feel so all alone. I have no one I can tell my troubles to. Can you help me?

DEAR NEGLECTED: You need more help than I can give you in a letter. If you can't get your husband to agree to get counseling with you, go without him and get some pointers on how to handle an immature husband, because that's what you have.

DEAR ABBY: About a year and a half ago my sisters gave me a beautiful baby shower. I never did send thankyou notes for all the lovely gifts I received. I really meant o, but I never got around to it because so many things happened all at once. [For one thing, I got pregnant

Anyway, I still want to send thank-you notes for the gifts I got at the shower for my first baby, but I don't want anyone to think I am seading them now to get a gift for my

I could say something like: "I'm able to use the first gift you gave me for my second baby, so I am sending you double 'thank you.' Because of all the wonderful gifts I received at the shower I haven't had to buy a thing." [This is true.]

anyone will think you are hinting for a second gift.

What do you think? A LITTLE LATE DEAR LATE: Since you put it that way, I doubt if

For Abby's booklet, "How to Have a Lovely Wedding," send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills.

#### WORRY CLINIC George W. Crane, Ph.D., M.D.

#### POLLY'S POINTERS Grease on coat stymies husband

By Polly Cramer

Polly's Problem= DEAR POLLY - Our car door was closed on the ower part of my wife's off-white pure cashmere coat. The dry cleaning experts say they cannot remove the resulting foursinch grease spot. Does anyone have any suggestions for removing this spot? - DOUGLAS.

DEAR POLLY-My Pet Peeve concerns all this talk about making things useful. If we are to try to re-use everything we can it seems the companies who put their products in glass could have tops that regular jar lids fit. This summer women could not buy jars for canning food so think now much food could have been saved and how many fewer things would have gone to the dump. I wish they would do

something about this - MRS.M.V.Z. DEAR POLLY - I am answering Leona who has trouble with a sewer odor coming in from the overflow opening in her bathroom basin. Perhaps her trap does not have a vent which should be added. This vent (a pipe, of course) acts by giving air to the trap. When the trap has no vent the water oned out whenever some other bathroom appliance is used and the empty trap lets sewer gas out into the room. A RETIRED PLUMBER.

DEAR POLLY - May I suggest that when lighting the pilot to a gas furnace or heater that one uses a lighted candle. Its steady small flame prevents a sudden blast when the gas comes through which sometimes takes a little while. - MRS.F.T.

DEAR POLLY - We had big problems with raccoons stealing garbage from our in-the-ground garbage can until my husband improvised a solution. He had some scrap steel in the basement so cut out a foolproof holder that caused Mr. Raccoon to leave forever. Ground posts were sunk at either side of the opening for the can and then a rod in-stalled that goes from one post to the other and rests in the tops of the posts so it is easy to pull the rod out, insert bags cooperate, that you are often rearing sons to do the very of garbage and re-insert the rod. Also it is easy for the garbage collector.-HELEN.

### National News Briefs

Highway Tension Increases

NEW YORK (AP) - Scattered violence and mounting tension were reported on the nation's highways as independent truckers parked their rigs in protest over high fuel costs and low speed limits. Reports of gunfire, brick throwing and vandalism came primarily from Pennsylvania and Ohio, where truckers last week staged massive blockades of major roadways. Other states reported some truck stops have become massive parking lots for angry truckers. The independents had encouraged all truckers to honor a two-day shutdown to dramatize their plight in the fuel crunch. But the Teamsters union refused to sanction the move.

#### **Energy Crisis Layoffs**

NEW YORK (AP) - Layoffs announced this week in the airline and auto industries will add thousands of workers to the nation's unemployment rolls, which are growing as a result of the energy crunch. Eastern and Pan American airlines announced Thursday they were making further cutbacks in employment. Allegheny Airlines said it would cut back flight schedules by 30 per cent. New cutbacks in employment were announced this week in the auto industry, where about 6, 000 of the more than 750,000 workers have been laid off indefinitely. In all, 177,000 workers have been affected - most by temporary layoffs. The airlines are faced with mandatory fuel cuts; the auto industry is being forced to make cutbacks and changes because consumers are losing their appetite for

#### Gas Samaritans On Patrol

SAN JOSE, Calif. (AP) - Gasoline samaritans will be patrolling area roads on Sundays to find open gas stations and to flash the word to motorists stranded without fuel. The project is run by REACT - Radio Emergency Associated Citizens Team. Coordinator Wayne Coombs says the team, which passes along its information by telephone and two-way radio, was swamped with 200 desperate calls from motorists who were out of gas last Sunday. President Nixon has urged a voluntary shutdown of service stations on Sundays to conserve fuel, and pending legislation would make the closures mandatory.

#### Viet Cong Strength Increases

WASHINGTON (AP) - Pentagon spokesman Jerry W. Friedheim says the North Vietnamese and their Viet Cong allies are "at a higher level of strength and equipment than they have been for a long time, maybe ever." And intelligence officers estimate the North Vietnamese have sent enough arms, ammunition and supplies into South Vietnam since the cease-fire to support 200,000 soldiers for

#### Airlines To Drop 25 Cities?

WASHINGTON (AP) - Seven airlines are seeking to drop all of their air service to 25 cities because of the fuel shortage, Civil Aeronautics Board records show that four other carriers want to cut back on service to some cities.

#### Senate Kills Rockefeller Bid WASHINGTON (AP) - The Senate Appropriations

Committee has quietly killed a \$1 million request for New York Gov. Nelson Rockefeller's Commission on Critical

Widespread feeling that Rockefeller will use the commission to aid his expected 1976 presidential bid was viewed as the reason for the rejection. "I'm not against Rocky personally," said Sen. Henry

Bellmon, R-Okla., who confirmed his role in blocking the funds. "If it had been Gov. (John) Connally or (California Gov. Ronald) Reagan we would have done the same

#### World **News Briefs**

Consulate Bomb Kills Two MARSEILLE, France (AP) - A bomb was thrown into

the Algerian consulate today, killing 2 persons and injuring 23, about 10 seriously, authorities said. There is always much tension between French and Arab laborers in Marseille, France's second largest city and its chief Mediterranean port.

The killing of a French bus driver by a berserk Arab set off a wave of attacks on Arabs last summer in which several were killed.

#### Woman Dies Unaided

ST. PETERSBURG, Fla. (AP)-Ruth Thomas, divorced by her husband 10 months ago so she could qualify for state medical aid, has died of multiple Mrs. Thomas' seven-year battle with the debilitating

disease ended Wednesday night at Welkind Neurologica Center in Chester, N.J. "She suffered so long I guess it's for the best," said

steelworker Howard Thomas. "She's better off now." The state stopped medical aid payments for Mrs. Thomas last year after telling Thomas that he earned \$123 a month too much to qualify. Thomas divorced his wife of 32 years in February in a

vain attempt to qualify her again for state aid. The Welkind Center offered to help Mrs. Thomas after officials read reports of the couple's plight, "I still love her but I'm at the end of my rope," Thomas

said at the time of the divorce. Mrs. Thomas' body will flown home for burial Monday

#### **Author Information Box**

TALLAHASSEE, Fla. (AP)- An abandoned safety deposit box has provided a treasure chest of information on author Stephen Crane, Comptroller Fred Dickinson said today.

Dickinson said a gold watch and pen belonging to Crane are only "a small part of the large collection of unique and valuable items" locked in the vaults of the comptroller's Department of Abandoned Properties.

State law gives the comptroller power to hold property abandoned in safety deposit boxes until the rightful heirs can be located.

#### Yanks Zonk Charley 'O

This is something I just couldn't pass up mentioning at least. Yesterday the New York Yankee baseball team announced they were hiring Dick Williams as the New York field leader. Charley Finley had previously refused to "let" Williams go because he had two years remaining on the contract with the Athletics which are the chattel of Mr.

Ralph Houk, Yankee pilot for the last several centuries, decided Detroit was the place he wanted to be and he picked up and went there. He will be their manager for the coming

Meanwhile back at the complaint department, Charley Finley is trying to take Baseball Commissioner Bowie Kuhn to court and make him take all those nasty things he said about poor ole Charley back. Even if they are true.

Yesterday's actions by the Yanks just has to cause a wee bit of mirth for the "Finley Followers" like myself. Finley of course probably has not said his last word on the happening...probably he will try and take the Yankees and-or Williams to court - along with the baseball commish-and who knows-he may have to take his team to court to get

My particular opinion is that the Commissioner's office will try and settle the matter and make the New York club give Finley a cupla players-probably not enough to satisfy the congenial Athletics owner-but it could be enough to start

All I can say is-it couldn't have happened to a nicer guyand I hope the Robber Baron of baseball has a couple of more

#### Santo And The Cubs

Something that may have gone unnoticed by anyone except the people like me who wait for the beginning of the New Year when the first baseball is thrown out (that is New Years ain't it?) was the actions that went on between the Cubs and heir star third baseman Ron Santo. Santo has been with the Chicago club for 14 seasons—he has been a stalwart at the hot corner for them and all of a sudden-because of a slightly offyear-the Cubs tried to trade him to the California Angels. A provision that the Baseball Players representatives had

put in their contract permitted anyone with more than ten years experience to nullify a trade because they didn't want to go. Santo became the first player to nullify a trade and the Cubs were forced to either keep Santo or get him to a club that he would agree to play for. Having lived in the Windy City for 14 seasons Santo

wanted to go to the other Chicago club-the The White Sox of the American League. They traded him there for four players that nobody ever heard of. He now will play for the Sox and don't be surprised if you see the Chisox in the playoffs next season.

With Bill Melton and Dick Williams hitting the ball out and some fairly solid pitching the White Sox are a bona fide contender and Santo may just have picked his way to the October Classic-something the Cubs owners will definitely be forced to see from the spectators point of view come next

#### Raiders Tourney Bound

Joe Sterling's Raiders will be on the road for the next few weeks. The next home contest for the local JuCo five will be January 9 at Lyman High School's gym when they take on the Daytona Beach Jr. College Division Two rival. Currently the Raiders have a 1-0 mark in the division and Daytona will be the next Divisional contest for them.

Tonight the Seminole cagers travel to Tampa Terrace to tangle at 7 p.m. with Central Florida Jr. College. If they win that one they will face the winner of the Florida College-Edison clash at 8 p.m. Saturday night-if they drop the tourney opener they will play in the consolation game

After the Tampa tournament the Raiders will take time off until January 4 and 5 when they trek to Manatee Jr. College at Bradenton, Florida. The first round opponent for the locals will be Miami Edison Jr. College. The Seminole cagers could have a 94 record coming into the meat of the Division II race—and the 13 games they have played to date could have done nothing but help the Seminole club as they could be considered top contenders to return to the State Tournament-something that was included in the SJC schedule until last year's "off" 19-7 mark.

> Astro Star Still Held

SANTO DOMINGO (AP) - District Attorney Maximo Hendriquez Saladin, upon receiving a report of a secret investigation, recommended Thursday that Cesar Cedeno should be held in jail.

Cedeno, 22, the Houston Astro's star outfielder, was being held at Ensanche la Fe preventive jail in connection with the fatal shooting of Altagracia de la Cruz at a motel Tuesday merning.

Lawyers for Cedeno had asked that the case be transferred to a civil court so Cedeno could be released on bail. But the District Attorney was holding Cedeno in jail, pending the results of the investigation by Judge Socrates

The District Attorney's recommendation of continued incarceration came immediately after he received the report from Judge Curiel, who questioned Cedeno for two

Cedeno, who faces a possible charge of voluntary manslaughter, could be imprisoned up to 15 years, if Miss de la Cruz died of a bullet wound in the head which

Cedeno said was inflicted when the 19-year-old girl accidentally shot herself while examining his pistol. Meanwhile, a civil suit was filed against Cedeno by Rafael Tulio Perez de Leon, a lawyer, on behalf of Evelyn. a 3-yearold daughter of Miss de la Cruz.

The suit for damages was authorized by Domingo Cedeno, a member of the 1972 National League All-Star team, had been in the Dominican Republic to play winter ball after finishing his fourth season with the Astros with a

decision to Jones bringing their record to 1-2.

advantage of early Tiger miscues. He stated an example of eight early Jones turnovers that the Hounds couldn't convert into points. He continued saying they had difficulty handling the Tiger press which arose late in the contest.

The game was not all bad as he was pleased with the way Lyman held sharp-shooter Greg Bryant to 11 points. Individually Steinke was happy over the performance of Wright. The big center played a good game on offense and did his job well on defense.

In order to prevent a repeat of the Jones fiasco the Greyhounds have been putting in extra time on ball handling and how to escape from pressure situations without making a

The Evans game looms big on the horizon but the Lyman staff is quick to point out they will take the games one at a time and for right now Tampa Jefferson is the big problem. On both days the varsity contest will start at 8 p.m. preceeded by the junior varsity at 6:30 p.m.

Commenting on the home advantage Steinke said its nice to have but without fans it does little good, and since the player's enthusiam has not dwindled he feels that a big crowd is in order for both games.

People who want six feet of snow at the yuletide usually live in Florida or California.

# Sunday, December 16, 1973—Sanford, Florida 32771

SAN ANTONIO, Tex. (AP) - The general manager of a dairymen's cooperative says John B. Connally called high Republican officials after discussion of a federal antitrust suit against the dairy group.

Connally, a former Texas governor, was secretary of the George Mehren of the San Antonio-based Associated Milk Producers, Inc., made the comment Friday in testifying for a deposition in the antitrust suit filed by the Justice Departmenc Fcb 1, 1972. Mehren told of a meeting March 16, 1972, in Connally's

office in Washington which he said also was attended by attorney Jake Jacobsen and former AMPI general manager Harold Nelson. He said he, Jacobsen and Nelson discussed with Connally burdens on AMPI, among them the antitrust suit. Mehren

said there was no discussion of intervention by the executive branch in the suit. Mehren said that, at another point during the 20-minute meeting, Connally and the three dairymen discussed possible contributions to President Nixon's presidential campaign, but Mehren said the discussions were not linked. Mehren said Connally then telephoned former Atty. Gen.

"You're going to lose the Midwest," Mehren quoted Connally as telling Mitchell. "I'm getting it from everybody, You'd better get some people out there to see what's wrong.... We're going to have some political trouble out
