The remains will be at the chapel until Sunday afternoon when the funeral services will be held at the Baptist Temple at 3:00 o'clock, Chaplain George Hyman officiating and there, will be special military services at the church and at the cemeiery. Capt. George Herring will be in charge of the funeral as officer of the day and Surgical staff, January to March, Dr. stand behind the Seminole Counsy at the cemetary Robert Hynes, as a non-commissioned officer, will have charge of the firing squal. At the church the music will be rendered by a special quartette.

Carl Malm was a Sanford boy who joined the heavy artillery at the beginning of the war but did not get over until later and was taken sick with influenza upon his arrival in France and died at one of the base hospitals just one week after the armistice was signed. His 'remains were brought to Hoboken last week where they remained until his father and sisters here could be communicated with and at their request were sent here for burial.

He is the son of C. A. Maim and brother of Miss Helen Malm and Mrs. H. E. Tolar of this icty and was a young man who was loved by everyone who knew him. For the past two years he had been employed by the A. C. L. Railway in the machine shops and had the universal respect tion is contemplated to take care of old, believed to be that of Mrs. G. The Interstate Commerce Commission has granted authority to make permanent the merger of the Adams, American, Wells, Fargo & Co., and Southern Express companies into the American Express Company. This was opposed by Commissioners Mc-Cord and Meyer in a minority report saying that the consolidation "creates a monopoly." Rates under the old regime were the same, but there was keen competition in service accorded the shipping public. Now the express company knows that if a shipment is not moved in the morning it will be waiting in the afternoon, and such attitude is not oenducive to proper ser-

RAILROAD MAN AT LAKELAND

LAKELAND, Jan. 14 .- Dudley D. Elliott, about fifty years old, was shot and fatally wounded here Wednesday night by Chief of Police Allen, when the chief returned Elliott's fire. The shooting occurred about 9 o'clock, and Elliot died about midnight in a local hospital, to which he was taken in an unconscious condition, He did not recover consciousness before death. He resided at No. 507 West Prospect street and is survived by his widow, a daughter and a son.

The circumstances ledaing up to the shooting were as follows: Q. A. Harfelson and others living near the gas works have complained that for several nights someone has been heard prowling about their premises. Wednesday night Harrelson called on the phone nad notified Chief Allen that the prowler had returned. The chief and several other men, went to Harrelson's house and say they saw Elliott climbing over a stile at the back fence. They followed him to the grandson, Charles Beck. There were railroad about a hundred yards away and coming up to him, Allen called good time, Charles receiving some structed the impounding officer to out to halt, telling him that he was nice presents. Afterwards a number "impound or destroy all cats or dogs the chief of police. Allen says that of the men went hunting. instead of halting Elliott fired at him, and Allen fired in return. review of January 8: The opening of the new year has at least brought with it a prospect of distinctly better condition at home. There are already indications here and there of decided power of industrial revival, not a few factories resuming business, while there is good evidence that the process of readjustment has about run its course in a number of important lines. This is a situation which lays the foundation for improvement. THOMAS R. BAKER, Ph. D.

Analytical and Consulting Chemist; Professor of Natural Science Emeritus ROLLINS COLLEGE

PRIVATE LABORATORY OF ROLLINS COLLEGE

Winter Park, Fla., December 22, 1920. M. M. Lord, Sanford, Florida.

Dear Mr. Lord: From a careful Chemical Analysis of the sample of water that you brought me late last week, I have obtained the following results:

9,00 parts per 1,000,000 6,00 parts per 1,000,000 47,38 parts per 1,000,000 Nitrates . The entire absence of both free and albuminoid ammonia, and the very small amount of chlorine in the sample—the purity of a water depending largely upon its freedom from these ingredients—indicate the good quality of this water. It is of very superior quality.

Yours very truly, THOS. R. BAKER.

Challenge to Thought. When you can't do what you want to it's a challenge to think. If you can't do it, why can't you?. The chances are you will find it is not right that it should be done at all. Or it may be that you are not the one to do it. You may want to swim the Niagara just below the falls so you can boast of asing what has not been done. You may want to fly to the moon so you can write of experiences never yet felt by man. You may even want to play the Jonah game so you can give your experiences of a few days in the deep. But you can't do it. The why lies in the fact that you are not made for such exploits. To attempt any one of them would be to tempt selfdestruction. The crowd might stand by and watch you make the effort and when you falled they would call you n fool. When you can't do what you
