I am a Bride I shop
in Sanford

Because, now that I am starting a home of my own, it is very important that I choose with care the things I buy. I find Sanford sales-people so considerate and helpful in answering all my questions and advising me about my selections. They seem to know the merchandise they sell and give me a great deal of valuable information about it. They make me feel that they are really interested in my problems and are ready and anxious to help me solve them. I think that shopping in Sanford is helping me become a successful homemaker.

Make Sanford Your Shopping Center

The Sanford Herald

VOLUME XLV Established 1908 SANFORD, FLORIDA, THURSDAY, JUNE 24, 1954 Associated Press Leased Wire NO. 121

Weather
Continued warm and partly cloudy through Sunday with scattered afternoon and early evening thundershowers.

Strolling In Sanford

It was "melon cutting time" on Sanford Ave. (or vicinity) last night. The Tip Top Supermarket at the corner of Third St. and the Avenue forgot to pick up 25 water melons from its sidewalk display when the store closed last night. This morning, when owner Joe Gazi opened the doors, how many melons were still on the sidewalk? You're right! None.

Mrs. Robert Washburn and daughter, Mary Helen, well-known in Sanford for her dancing talents, are leaving today to join Mr. Washburn in Palatka where he has assumed the position of manager with the Firestone Store. Washburn, formerly credit manager with the Sanford Firestone outlet, has been in Palatka since June 1. Mrs. Washburn has expressed disappointment about leaving Sanford "where we've lived all our lives, but it is a wonderful promotion for Bob," she concluded. Her husband, Mr. and Mrs. and Mary Helen Washburn.

The Catholic Women's Club is sponsoring a bake sale which will be held on the front lawn of All Saints Catholic Church. The sale will be in progress before and after the masses on Sunday morning.

Mrs. Daisy Knox, executive secretary of the local chapter of the American Red Cross, expressed great pleasure today with her new quarters in the Palmetto Building. Former quarters were in the Tach building.

The vacation Bible school which is being conducted at the Methodist Church will end tomorrow.

Farm Panel Feature Of Jaycee Meeting

Jaycees will air step two in a study of the Seminole County farm problem tonight in a dinner meeting held at 7 o'clock in the Yacht club.

A panel of three small-scale farmers and one merchant will review the picture of the last season and advance ideas of how it can be improved in the future.

Radio station WTRR will broadcast the panel discussion between 7:45 and 8:15 p.m.

Home Osborne, manager of Kilgore Seed Store, is to be the moderator. Two west-siders, Henry White Jr. and Homer Carter, and one east sider, Jack Tyre, will represent the farmers. B. L. Perkins Jr. will fill in the merchant's point of view.

Ike Designates Oct. 24 'UN Day'

WASHINGTON (AP)—President Eisenhower today designated Oct. 24 as United Nations Day and said the U. N. "represents man's determined and promising effort to save humanity from the scourge of war."

In a proclamation, the President called on all citizens to observe the day with community programs.

MUNICIPAL PROFIT CARO, Mich. Has Sold Its Old City Hall For More Than It Cost To Build In 1887

SALE PRICE WAS \$9,200. IT COST \$7,000 TO BUILD.

British Plan For Asia Given Cold Shoulder

U.S. Doesn't Like System In Which Red China Presumably Would Be Power

WASHINGTON (AP)—The United States today coldshouldered the Churchill government's proposal, on the eve of Churchill-Eisenhower talks here, for a Locarno-type system of security guarantees for re-threatened Southeast Asia. Under such a system the United States and Communist China presumably would be among the powers guaranteeing some kind of Southeast Asian settlement. War-torn Indochina, according to the view of officials here, probably would be "neutralized."

Representative Is Attacked In Capital By Young Hoodlums

WASHINGTON (AP)—Rep. Thomas Curtis R. Ho, told the House today he was attacked by a gang of "young hoodlums" near the Capitol last night when he tried to help Frank Mitchell, a visitor from Toledo, Ohio, ward off a club-wielding assault.

Curtis said his first reports to the police brought the response that "this sort of thing happens all the time and there is nothing the police can do about it."

The congressman said he has made official protests and has been told police action will be taken. Mitchell was jumped by between 10 and 12 teenagers armed with clubs and rocks as he walked along a street near Washington's Union Station and less than a mile from the Capitol, Curtis said.

Curtis showed the House a rock the size of a baseball which he said was not the largest of those thrown.

He said residents in the area told him that two congressional secretaries were attacked in the same area three days ago by pursuivants.

Other sources said the gang was composed of Negroes.

Over \$2 Million In New Building Shown In Permits

Two building permits were issued at City Hall yesterday and are valued at over \$2 million, thus far this fiscal year.

Permits total approximately 163 for the year.

A. W. Dingle will build a screened porch on his home at 1203 Lake Ave. Construction cost of the project was placed at \$25 by Dingle, who will do the work himself.

A concrete block dwelling will be erected by J. L. Pope. Measuring 60 by 32 feet, the building will cost approximately \$8,000, according to the permit, and Pope will do the work himself. It will be located at 2209 Sanford Ave.

JIST POLIO CASE REPORTED KEY WEST

CARO, Mich. This city was reported today that a 49-year-old woman has become Monroe County's 31st polio victim for 1954. Her name was not disclosed.

She is a visitor to Key West and her case is non-paralytic. No deaths have resulted from the 31 cases reported this year.

DR. CURTIS HAMMOND meets newsmen in San Francisco after appearing before the American Medical Association with a report on his study of the relation of cancer to cigarette smoking. He and his assistant, Dr. Daniel Hahn, found that male smokers between the ages of 30 and 50 die at a higher rate, mostly from heart attacks and cancer, than non-smokers. The study, sponsored by the American Cancer Society, will continue among other groups of smokers. (International)

Committee Head Says Servicemen Swindling Gov't

WASHINGTON (AP)—The chairman of the House Armed Services Committee, Keen E. Elford, (R-Miss.) said today that American taxpayers have been swindled out of millions of dollars by servicemen fraudulently claiming benefits for parents.

Discussing what he said were early findings in a broad Army investigation, Elford said he intended to take action because the full force of justice is coming this way.

The benefits under scrutiny, known as secondary allotments, are paid to parents of armed services enlisted personnel in an effort to help them support their families.

Today's Washington reaction added one more evidence that the talks which open at the White House tomorrow among President Eisenhower, Prime Minister Churchill, Eden and Dulles will be held against a background of personal indignation, even elements of hostility, as well as differences over fundamental policy questions.

For the moment at least, hope of any substantial agreement on major issues has faded. The enthusiastic belief of American officials a few days ago that Churchill and Eden would be prepared to join in the Southeast Asia defense pact in the near future has given way to resentment at Eden's new position.

Diplomats are beginning to wonder whether the talks here through the weekend will produce any real reconciliation of basic differences.

LIGHTS PROVE DOWNFALL ORANGE, Va.

ORANGE, Va. (AP)—When the approaching car didn't dim its lights as required by state law, State Trooper James W. Chawhatch turned around and overtook the vehicle.

Two youths in the car, Jackson Ebert, 18 and Aubrey Caldwell, 21, both of Pulaski, turned out to be escapees from a state prison camp. The car had been stolen several hours earlier in Roanoke.

NOMINATED WASHINGTON

Sheldon T. Mills of Portland, Ore., was nominated by President Eisenhower today to be ambassador to Ecuador.

Latin-American Leaders Adopt Wait-See Attitudes On Struggle In Guatemala

7th Day Of War Started

No Indication Of Major Fight

TEGUCIGALPA, Honduras (AP)—The Guatemalan War entered its seventh day today with most of the fighting still apparently raging over the propaganda airwaves and the diplomatic arena. There was no indication of a major battle shaping up anywhere.

The anti-Communist "liberation army" seemingly was bogged down by lack of transport and the Honduran capital last night. Later thousands of the students and basic people gathered to parade through the city.

Two Honduran charged a Guatemalan airplane bombed a Honduran airfield Tuesday. The Honduran government said it is preparing to send troops to the United Nations and the Organization of American States.

U. S. sources in New York said they expect the internationalization of the Honduran capital to take place in the next few days, and basic people gathered to parade through the city.

Guatemala promptly denied the bombing charge. Guatemalan Foreign Minister Guillermo Torrujo said in a statement "not a single Guatemalan plane has flown over the Honduran frontier."

The O. A. S. Inter-American Peace Commission meeting in Washington, referred to by Guatemalan officials, is expected to meet on the 25th. It is expected to discuss the charges to the A. S. O. government that the Honduran government is conducting a "policy of internationalization of the Honduran capital."

Guatemala formally denied the charge of internationalization of the Honduran capital. It said the Honduran government is conducting a "policy of internationalization of the Honduran capital."

Anti-U. S. Feeling Is Fanned

America Accused Of Aiding Rebels

Most Latin American governments have discreetly avoided taking any official stand on the Guatemalan War which exploded on their doorsteps last week. But many political leaders, newspapers and leftist student groups throughout the southern lands are busily fanning resentment against the United States.

Government leaders have generally adopted a "wait and see" attitude, apparently awaiting word from the United States, but the anti-U. S. feeling is fanned by the anti-Communist propaganda of the United States.

But many individual legislators made no bones of their belief that the United States is backing the rebel forces which seek to overthrow Arbenz' Communist-backed government.

There have been demonstrations against the United States in many of its southern neighbors since the war broke out, but most of them have been sparked by student groups which are traditionally leftist.

The general trend of official sentiment was reflected in Argentina, where President Juan D. Peron's majority bloc in Congress proposed that American Parliaments work together to bring peace and "economic independence" to Guatemala.

The proposed indicated Argentina plans to steer an officially neutral course. But the anti-Peronist party, which controls 14 seats in the 158-member House, tendered its sympathies to the Arbenz government.

The governments of Chile and Uruguay refrained from taking a stand even though their Parliaments had voted through resolutions supporting the Arbenz cause.

The vote in Chile's Chamber of Deputies was 34-15, with the rest of 114 members abstaining. Foreign Minister Roberto Aldunate later told newsmen his government would not indicate in "official statements" but would express its views in international organizations.

Uruguayan government leaders also were close-mouthed, although their Congress partly fought hard in Parliament to defeat a resolution condemning "aggression in Guatemala." Despite this opposition, the resolution was adopted—by two votes.

The government of Cuba—whose President Fulgencio Batista himself came to power on the tide of revolt—declined to make any comment. But earlier this week Peron de la Fe, a member of Batista's Cabinet, called on Cuba to recognize the insurgent government proclaimed by the Guatemalan rebel leader, Col. Carlos Castillo Arden.

Brazil also kept officially silent on the Guatemalan conflict. But with Colombia's proposal to the U. N. Security Council Sunday which would have referred the issue to the Organization of American States, this proposal strongly favored by the United States, was killed by a Soviet veto. Venezuela remained officially aloof.

Costa Rica has declared that she intends to remain absolutely neutral in the conflict.

(Continued On Page Six)

Fantastic Medical Treatments Given Red POWs, Doctor Says

SAN FRANCISCO (AP)—The North Koreans had some fantastic medical treatment for their prisoners of war, a U. S. Army doctor reported today.

Prisoners complaining of vitamin deficiencies were given bile from the gall bladders of butchered pigs, Maj. Alexander M. Boyson, of the Brooks Army Medical Center, Ft. Sam Houston, Tex., told the American Medical Assn.

This treatment did a good job of keeping men away from sick beds.

For the treatment of pain a Chinese doctor treated a series of short needles attached to spring vibrators. The needles were put into the skin around the painful area and made to vibrate.

"As you might suspect," Maj. Boyson said, "some cases of back pain and headache were cured by this treatment."

Another Chinese doctor decided all complaints of eye trouble are caused by glaucoma, a condition in which the fluid pressure in the eyeball increases. The Chinese medic treated all eye patients with salt water injections under the eyelid, the medical officer reported.

Maj. Boyson, who is from Bemidji, Minn., spoke of the experiences of himself and four other medical officers who had been captured. The others were Maj. Clarence L. Anderson of Long Beach, Calif., now at Letterman Hospital San Francisco; Maj. Sidney Eckenstun, now in private practice in Minneapolis; Capt. Gene W. Lam of Glenbrook, Wis., now at Brooks Medical Center; and Capt. William H. Shadon, of Row Gardens, N.Y., now at Walter Reed Army Center, Washington, D.C.

In the spring of 1953 food became so scarce that prisoners ate boiled rats, Boyson reported. Frequently the only medicines available were cough tablets for pneumonia and charcoal tablets for dysentery. Injections for draining abscesses were made with out anesthetic and sometimes with improper instruments, such as the metal arch support from a combat boot.

Virtually all deaths in the Communist war prison camps were caused directly or indirectly by starvation, exposure and harassment, Boyson said.

The average Chinese doctor would treat only the chief complaint of a prisoner, said the officer.

A patient suffering from both night blindness and diarrhea had to choose one of the two for treatment.

In another report Dr. Louis H. Bauer of New York said a plan should be worked out so that all physicians would serve in the armed forces for a definite period shortly after graduation.

Red Cross Training—Norma Faye Harvey (victim) and Bob Mabeo, recreational program lifeguard, demonstrate a rescue hold at the municipal pool while a class in American Red Cross swimming and water safety looks on. Conducting the class is Thomas Stringer (far left), Red Cross instructor. Classes are being held each evening Monday through Friday for the advanced swimmers. (Staff Photo)

More Teachers Are Appointed

Sanford County's board of public instruction appointed 10 additional teachers to the county's schools at its meeting held yesterday afternoon. The appointments almost fill teaching vacancies created in the system, when more than 12 teachers resigned last year.

In 1953, Sanford County superintendent of public instruction, stated that most of the resignations were due to service personnel being transferred, retirements and family circumstances.

Appointed to the positions were Mrs. Corinne B. Louy Geneva, Mrs. Laura Ford, Mrs. Mamie King, W. L. Sieg, Southside, M. E. Fisher, Mrs. Ernestine French, Obedia and Welton Cheesbrough, Mrs. Jeanette Daniels and Miss Susie Blackshear, Crosson Academy.

The remainder of the meeting was devoted to the 1954-55 budget, which will be considered for tentative adoption at a meeting of the board scheduled to be held July 4.

Public hearings will be held by the board July 13, according to Mayor.

PROJECT FINISH

Sanford's Eighth St. project is scheduled to be completed late this afternoon, according to Warren Kennedy, city manager.

A two-foot deep base was laid for the two inch asphalt top was placed over it and rolled.

Physician Tells AMA Number Of Unwed Mothers Increases

SAN FRANCISCO (AP)—The number of unwed mothers is increasing—especially among teenagers and upper class girls—and a "sex hysteria" in American society is partly to blame, a physician said yesterday.

Many influences are at work producing "an emotional shambles which fosters many of the deviations and 'disturbed' biological trends which are common among our young folks," Dr. Goodrich F. Schaffner of Portland, Ore., told the American Medical Assn.

He urged physicians to "go beyond the ordinary call" of duty to help these girls.

He said he had seen "too many impressively happy endings" to think these matters cannot be "definitely handled"—many of them by the physician.

Having their babies may "turn out to be a maturing experience—often a distorted psychological advantage as compared to an abortion."

Dr. Schaffner said there were 88,000 illegitimate live births in 1953, and 142,000 in 1950. Nearly

Physician Tells AMA Number Of Unwed Mothers Increases

half these mothers in 1950 were under 20, and 32,000 were girls under 15.

"A much higher percentage of unmarried mothers nowadays comes from comparatively privileged groups—high school students, college students, young women with good jobs, as compared with the 'poor working girl' or 'homeless domestic' of the beginning of the century."

Modern customs which "precipitate precocious sex activity of young people" are one cause, Dr. Schaffner said.

Young people are more aware of sex, stimulated and maintained by the sex hysteria which it is a calculated instrument of modern journalism and so-called entertainment trends.

"Beyond this there are loose practices, bad examples and lack of supervision in parental and home influences, liquor, narcotics, automobiles, auto courts, and, finally, gang influences which tend the above elements and lead, in certain groups, almost to enforce premarital sex practices."

The Role Of Adamsses

"I don't like American history. It is all cluttered up with Adamsses." The little girl who is supposed to have made this remark, was well informed on one point, anyway...

John and Samuel Adams were great figures in our struggle for independence, and John was our second president. His son John Quincy had a long career as diplomat, senator, secretary of state, president, and finally a distinguished congressman down to his death in 1848...

Since then the Adamsses have lesser parts, partly because they were Democrats while Massachusetts and the country were Republican. Henry, the son of the minister, wrote one of the greatest of American autobiographies...

The recently deceased Charles Francis, grandson of the minister, abandoned the Democrats in 1914, and in 1929 became President Hoover's secretary of the navy. Perhaps he was best known as a remarkable yachtsman, his victories including contests for the America's Cup.

"Ike" No More

President Eisenhower, who used to like being called "Ike," no longer does. He told his press conference that he does not mind the use of the nickname in headlines to save time and space...

He is not putting on airs. The occupant of the high office of President should not be treated familiarly in speech. For many years it has been the custom to call the chief executive "Mr. President."

HAL BOYLE

Frequent Visitor Never Inside Statue

NEW YORK (AP)—Cool, calm Clancy has made 16,000 visits to the Statue of Liberty—and never yet been inside it. "Too busy," he says cryptically.

For 8 years he has piloted a ferry boat from the Battery to Bedloe's Island, bringing literally millions of visitors to America's greatest national shrine. The round trip is only about 3 miles, but in those years Clancy has journeyed almost twice the distance around the earth.

Tommy Clancy the proud moment in his 44 years of living. He was at the helm of the "Miss Liberty," a new 400-ton excursion steamer, as she made her maiden voyage through New York harbor.

Clancy, a chipper little blue-eyed skipper (5-foot-5, weight 140), may be harder-bound now, but he has quite a career to look back on. He was born in Pittsburg, Mass., and went to sea at 16.

"I've had 11 years of deep water experience," he recalled. "I've been around the world three times, and hit about every country on the globe. I've sailed under four flags—American, Norwegian, British and Honduran."

Clancy served with the Army Transport Service during the war. He also spent four years traveling with the traveling circus as a show magician and animal trainer. "I had 14 bears," he remarked, "and let the matter drop, as if that alone were enough to explain why he returned to the sea."

"Now I'm all settled down and married and got home to wife," he said. Clancy had just used the word—she's the daughter of the superintendent of the Statue of Liberty national monument—while she was continuing to and from Manhattan on his vessel.

years it has been the custom to call the chief executive "Mr. President." In public intimates always addressed the two Roosevelts by their title, never first or nickname. They thus paid tribute to the dignity of the office.

Mainland Discovery

Most people accept the date October 12, 1492 as the correct one for the discovery of America. Actually that date marks the discovery of the off-shore island in the Caribbean by Christopher Columbus. It was not until five years later, on June 21, 1497 that the mainland of North America was first sighted by John Cabot.

There is some evidence that the mainland of North America was first discovered by Leif Ericson and others a long time before the voyages of either Columbus or Cabot. Cabot's voyage, however, is the first sighting of the mainland of which accurate records exist.

Cabot was a Venetian by birth but he sailed under the English flag for the English King, Henry VII. Americans pay a great deal of deserved honor to the memory of the gallant Columbus, whose voyage against long odds inspired a great period of adventure and discovery. Cabot, too, deserves to be remembered.

County Agent's Column

Way Down South In Sanford, Florida

By C. H. Dawson, BSA, MSA. SO THEY SAY—The woman whose list is never done just isn't making the most of her husband's ability.

CHINCH BUGS—If you have a St. Augustine lawn, better check—you may have chinch bugs in it. Chinch bugs can be controlled if you use proper measures in time; but no amount of pesticide will bring back a lawn practically dead from neglect.

Check your lawn every week to find out if there are chinch bugs present. The best way to find chinch bugs is to float them out of the grass with water. Sink a tin can with both ends cut out into the grass far enough to hold water. Fill the can with water and in a few minutes they will float, and if you find them, treat the lawn immediately with DDT or chlorthane.

TOOLS—When you aren't using them, keep hand tools in tool cabinets or in a tool rack on the wall.

ANIMAL FEEDS—Feeds may be classified into groups according to their content of fiber, total digestible nutrients and proteins. Concentrates are low in fiber and high in total digestible nutrients, while roughages are high in fiber and low in total digestible nutrients.

MODERN—Today's young suitors don't know how lucky they are that the girl friends folks have television instead of home movies or family albums.

OLD PROVERB—"Lightning never strikes twice in the same place."

Nearly 900 New Asteroids Are Reported

ANN ARBOR, Mich. (AP)—Discovery of almost 900 new asteroids or planet-like objects—and recovery of some of those that have been "lost" for many years—was reported yesterday by an Indiana University astronomer who said the findings should help reduce a potential traffic hazard of any future travel in space.

Dr. Frank K. Edmondson told a meeting of the American Astronomical Society that the tiny heavenly wanderers—ranging in diameter from two miles to 20 miles—had been spotted during a five-year search.

And he said work is now progressing to compute their orbits, or pathways through space, so as to try to add them to the list of some 1,500 other baby planets whose orbits are well known to astronomers.

Asteroids are believed to be fragments of a planet which is supposed to have broken up into chunks of planet material which never got assembled into a true planet. The biggest known asteroid is 460 miles in diameter. Edmondson told a reporter that the new discoveries should help in charting the heavens to assist space navigation, he said.

"You'd have to know where they are and how they move in space. There is about one pound of ash in every four gallons of sea water.

MRE. ALVA HUCHISON BROCK

Edith Wittler, Alva H. Brock Are Married In Illinois Church

First Union Congregational church in Quincy, Ill., was the setting Friday evening at 7:30 for the wedding of Miss Edith Roberts Wittler, daughter of Mr. and Mrs. Lawrence H. Wittler, 1029 Jefferson Quincy, Ill., and Alva Huchison Brock of Winter Park, son of Mrs. Nancy H. Brock of Sanford and the late Alva Brock.

The couple repeated their vows before the Rev. Richard Ingles, pastor of the church, and Rev. Robert Huchison, pastor of Grace Methodist church in Blue Island, Ill.

Single candles outlined the choir loft railing and formed a background for the church decorations including pedestal baskets of white gladioli and daisies interspersed with palms. The white satin bridesmaid dresses were trimmed with white satin bows marking the family pews. Graduated candelabra holding white tapered were on either side of the pulpit.

Mrs. Clarence Pitzer, organist, accompanied Rev. R. H. Schreder, pastor of Salem Evangelical and Reformed church, who officiated at the ceremony.

The bride, given in marriage by her father, wore a white embroidered Swiss organza gown which fell over a white tulle. The gown, fashioned with a strapless, snug-fitting bodice, was worn with short-sleeved, embroidered bolero. The full three-tiered floor-length skirt was worn over hoops. The bride wore matching short organza mitts.

Her fingertip-length illusion veil was caught to a tiara of illusion interspersed with seed pearls. She carried a white Bible topped with a lavender orchid showered with white satin streamers entwined with stephanotis.

Mrs. Dale Holmes of Jacksonville, Ill., the former Ruth Wittler, gave her sister's train of honors. Mrs. Gerald Loring of Columbus, O., a sister of the bridegroom, served as bridesmaid and Miss Martha Rose Jaspering of St. Louis was the bridesmaid. Miss Jaspering and Miss Wittler were class mates at Deaconess hospital school of nursing in St. Louis.

The attendant's ballerina-length gowns were of nylon net over tulle trimmed with flowers in their hair. The matron of honor wore an orchid and carried a bouquet of white daisies entwined with ivy.

Miss Jaspering was in powder blue and Mrs. Loring chose green. They carried bouquets of yellow daisies with ivy.

Pete Brock, twin brother of the bridegroom, of Dade City, Fla., was the best man. The ushers included David Warren of St. Louis, Harold Wittler of Mendon, Ill., brother of the bride, Dale Holmes of Jacksonville, Ill., and Walter Orr of Quincy, brothers-in-law of the bride.

Immediately following the ceremony the couple was honored at a reception in the Fellowship hall of the church.

Mr. and Mrs. Brock slipped away during the festivities and left for a wedding trip to Stony Lake, Mich., Chicago and St. Louis. They will be at home July 15 at 1878 Miller avenue in Winter Park.

The new Mrs. Brock is a 1945 graduate of Quincy Senior High school, attended Quincy college for one year. She was graduated from Evangelical Deaconess hospital school of nursing in St. Louis in September, 1952. Until June 1953, she was employed as a staff nurse by Deaconess hospital. Last summer she served as head nurse at Camp Milwaukee, at Stony Lake, Mich., and for the past eight months has been the charge nurse on orthopedic, urological division of Florida sanitarium and hospital in Orlando.

Her husband who was graduated in 1944 from Seminole High school Sanford, served for two years in the navy during World War II. He was graduated in 1940 from the University of Florida, when he was elected to Phi Beta Kappa and Pi Kappa Alpha, social fraternity. In 1948 he was grad-

Mary Martin Is Now Working On New Musical Show

HOLLYWOOD — Mary Martin is living proof of the theory that stars shouldn't be afraid of playing roles that have been done before.

A few years ago, her manager and husband Richard Rodgers, saw Ethel Merman in "Annie Get Your Gun" and told Mary: "You'd better not see it; you're liable to cut your throat. It's the kind of a role you've wanted all your life."

The singing star didn't heed his advice. She went to see the show. On the way out, he asked: "Would you like a razor now?"

"No," she replied. "I'm going to play 'Annie' on the road." And she did, much to the surprise of producers Rodgers and Hammerstein, she agreed to a tour throughout the United States. This startled Broadwayites, since Mary was a top star in her own right and didn't need to go road companies of Merman hits.

The Martin version of "Annie Get Your Gun" was an eye-opener. I can still recall the pleasant surprise of watching Mary who had specialized in gentler roles, throw herself into the raucous role of Annie Oakley. The show was a revelation for the producers, too. They had her in mind when they wrote a show called "South Pacific."

After playing Nellie Forbush for five years, Mary did a straight play, "Kind Sir." It was a dismal thing, although it did good business on the strength of its stars, Miss Martin and Charles Boyer.

Now she is literally taking a flyer on "Peter Pan." A new musical version of the Barrie play is being put together by the Civic Light Opera for Los Angeles and San Francisco Broadway maybe — it depends on how well it turns out. Mary is doing the show even though Jean Arthur played Pan with success only a few years back.

"Jean and I are good friends," said Mary. "She is godmother for my daughter, Heller. We often talked about how we would like to play Peter Pan some day. Jean got her opportunity, and she was wonderful. Now I'm getting my chance."

"I see no harm in doing a role that has been done before. I felt that way about following Merman in 'Annie.' I feel the same about 'Peter Pan.' Every once in a while there comes along some one who seems suited to play it—Maude Adams, Eva Littlejohn, Miss Edith Piaf, to name a few. I want a chance, too."

"Besides, I've always wanted to fly under my own power. I've long had a recurring dream to that effect. This is the fulfillment of a great urge."

Mary's hair is now orange and cut like a boy's, so she requires frequent trims. Heller, who is 12, is excited about her role.

"I play Liza, and it's a very good part," she enthused. "I get to hit the liza over the head."

This is Heller's return to the theater. She played Annie's little sister in "Annie Get Your Gun."

Wild blackberry thickets once grew in profusion in our country. But the demand for these super-delicious berries led to cultivating them—and a bigger, juicier berry was the result.

Delicious when fresh, they are simply wonderful when cooked. Heating changes the flavor and color of blackberries; most people love them in pies, puddings, homemade jellies and jams. Homemade blackberry jam and jelly are easy to make, using natural fruit pectin and the modern short-boil method. By adding pectin, boiling time is cut to one minute. Try this kitchen-tested recipe and see how good blackberries can be.

BLACKBERRY JELLY

Yield: About 1 1/2 medium jars
1 1/2 cups juice (about 2 1/2 cups blackberries, 1 cup strained lemon juice, 1/2 cup sugar)
1 bottle liquid fruit pectin

First prepare the juice. Crush thoroughly about 2 1/2 quarts fully ripe blackberries. Place in jelly cloth or bag and squeeze out juice. Measure 1 1/2 cups juice into a very large strainer. Press and strain the juice from 7 medium-sized lemons. Measure 1 cup into strainer with blackberry juice.

Then, combine the juice. Add sugar to juice in strainer and mix with wire over high heat and bring to a boil, stirring constantly. At one time in liquid fruit pectin. Then bring to a full rolling boil and boil 1 minute, stirring constantly. Remove from heat and add 1/2 cup white metal spoon and pour quickly into glasses. Cover tops of jars with 1/2 inch hot paraffin.

Dependable Class Has Meet At Home Of Mrs. Alexander

The home of Mrs. H. P. Alexander was the scene Monday evening of the meeting of the Dependable Class of the First Methodist Church when Mrs. Hallie Axtell served as hostess.

Mrs. Milton Wyatt gave the devotional on the topic "Walk Into the Light." Mrs. H. P. Alexander, president, presided as committee reports were given and a nominating committee composed of Mrs. R. W. Herron, chairman, Mrs. C. L. Williams and Mrs. E. E. Paris was appointed.

Delicious refreshments were then served to the following: Mrs. E. E. Paris, Mrs. H. B. Alexander, Mrs. Hallie Axtell, Mrs. John Callahan, Mrs. R. W. Herron, Mrs. Milton Wyatt, Mrs. C. L. Williams, Mrs. H. P. Alexander, Mrs. J. M. Leonard, Mrs. Cyril Butler, Mrs. James Wright, and Mrs. C. D. Brown.

BIRTHS

Mr. and Mrs. Willard H. Crames announce the birth of a son, Joseph Carl, on Friday, June 14 in Fern Hill Lighthouse Memorial Hospital.

Here Are Several Different Recipes For Milk Desserts

For the best of health everybody needs milk—from the cradle to the grave. It's almost impossible for both children and grown-ups to avoid calcium deficiency. Every day unless they drink milk, boys and girls need calcium for building strong bones and teeth. Every one needs calcium in the body to help the heart, nerves and muscles function right. Bones that break easily are often caused by not getting enough calcium for a long time, says Myrtle Wilson, Home Demonstration Agent.

Milk is also a rich source of the "keep young" vitamin B2 or riboflavin. To get the benefits one must drink milk all through life and not wait until old age creeps up on him. Cook with milk, too. One can get a lot of extra milk into soups, main dishes, breads and desserts. Here are some recipes for using fresh and dry milk.

Soft custard: 2 cups milk, 1 cup sugar, 2 eggs, 1 teaspoon vanilla, 1/2 cup cream, salt. Heat milk over boiling water. Beat eggs with sugar and salt. Stir and slowly add hot milk to the egg mixture. Cook over hot but boiling water until mixture curdles, a spoon stirring all the time. Remove from hot water at once. Cool and add flavoring. Serve plain, over cakes or slices of plain cake, over fresh frozen or canned fruit.

Hotting custard: Make a custard as in recipe above, but after adding water, 1/2 inch deep. Bake in moist cake pan at 325 F. for 20 minutes or until light brown. Top with a pan containing hot water in top of the stove. Cover the pan to turn the custard once. Cook 10 to 15 minutes until firm. Place in refrigerator on top of hot water.

Flavored milk sherbet: 1 cup whole milk, 1/2 cup sugar, 1/2 cup cream, 1/2 cup lemon juice, 1/2 cup lemon pulp, 1/2 cup vanilla. Beat milk into chocolate syrup until thick enough to mold into shape. Chop up nuts or coconut and add.

To make chocolate syrup at home: 1 cup sugar, 1/2 cup water, 1/2 cup cream, 1/2 cup cocoa, 1/2 cup butter, 1/2 cup vanilla. Mix sugar, water and salt. Add water, cook over low heat until smooth and thick. Add hot cream and vanilla. Cool. Store in a clean, tightly covered jar.

When you are staking out clothes put them to be washed first in the sink.

WEDNESDAY
The Sunday School Superintendent enters 4th year at the First Baptist Church at 7:30 p. m. Prayer service at 8 p. m.

Mary Robinson Gustav Schmah Exchange Vows

Beautiful in its simplicity was the wedding of Miss Mary Elizabeth Robinson and Gustav Schmah which took place yesterday afternoon at their new home on Lake Monroe.

The Rev. J. H. Root, pastor of the Congregational Christian Church, performed the simple ceremony in the presence of the immediate family and close friends.

The couple spoke the vows before the fireplace which was banked with palm branches and dotted with sprays of pink and white gladioli and baby breath were placed on each side. The mantle was decorated with pink hybrid hibiscus flanked by a floral arrangement which had a soft glow over all.

The bride was attended by Mrs. Le Merich, sister of the groom, who served as matron of honor and Miss Helen Carter, great niece of the groom, as bridesmaid.

The couple were married by Mr. Schmah's best man.

The bride was attended in a afternoon gown of powder blue nylon organdy featuring a Peter Pan collar and full skirt. Her hair was a Juliet and fastened with pink and blue flowers.

The groom wore a tuxedo with a pink and blue boutonniere and a white pocket square. He carried a nosegay of white roses.

The matron of honor wore a gown of green floral nylon with a nosegay of white roses and a corsage of white roses. The bride's maid wore a gown of yellow organdy with an embroidered waist. A garland of yellow flowers crowned her hair and she carried a nosegay of yellow roses and chrysanthemums.

An informal reception was held after the ceremony during which time coffee and wedding cake were served. The bride's table was overlaid with an heirloom lace cloth and held appointments of coral and milk. The bride's bridesmaids wore white chrysanthemum for the floral decorations.

The bride cake featured hearts entwined with ribbon and silver toppling crowned with a wedding ring. Surrounding the cake were sweet pastries and fruit.

Mrs. Homer E. Carter cut the cake and assisting in serving were Mrs. Herbert A. Thurston, Mrs. Murch, and Miss Helen Wittler.

For a wedding trip through New York state Mrs. Schmah chose a light brown suit of rayon gabardine with a Nile green blouse and matching accessories.

Mrs. Schmah's first home was in Sanford, Fla. until her recent retirement. Mrs. Schmah is a well-known gown maker having lived in Lake Monroe for many years.

Personals

Mr. and Mrs. Jack Russell and some Charles and John have returned home after a week's vacation at the Palm Hotel in Fort Myers Beach.

The many friends of Mrs. Blanche Stringer will be glad to know that she has been removed from the Halifax Hospital in Daytona to the home of her brother-in-law and sister, Mr. and Mrs. George J. Wells, 2105 Magnolia Ave.

Mrs. K. K. Hill returned to Sanford after a ten day visit with her daughter, Mrs. J. C. Myers, who is completing her training at the Norfolk General Hospital, Norfolk, Va.

Mr. and Mrs. Oscar J. Baker have returned from Camp Cook and Elizabeth City, N. C., where they visited with their sisters.

Mr. and Mrs. Joe Booth and daughter, Donna Gale, are in Atlanta, Ga., where Mr. Booth today entered the Lawson General Hospital.

CUTTING SYNTHETIC
The sharp tools to cut synthetic fibers handle the fabrics carefully and reinforce edges with stitching or tape. For good pressing results, use low to moderate iron temperature. Pressing should be done on the wrong side with the fabric protected by a moist commercially treated press cloth.

Sports Roundup

By GAVIE TALBOT
NEW YORK (AP)—Three months ago, when the official odds were 2-1 that the New York Giants would not win the National League pennant, several big questions remained to be answered about Leo Durocher's club, which had finished a dismal fifth last year.

Would Johnny Antonelli, obtained from Milwaukee, give the Giants the lefthanded ace they so badly needed? Or generally bolster a veteran pitching staff which was showing serious signs of wear?

Would Willie Mays, after nearly two years of Army football and second-class baseball, come back to play as brilliantly as he did in sparking the Giants '51 "miracle team" to a flag?

Those were the two main questions. How were there also some doubt that Davey Williams' chronic back trouble would permit him to play a steady second base and pitcher would have to be regular rightfielder other than Don Mueller. Added up, they caused a vast majority of Giant fans to keep betting betting money in their pockets.

Now that the answers are in and their team is tearing along at the head of the parade after a sensational three-week sprint, the Polo Grounds faithful can only kick themselves for not having foreseen the turn of events. It would be difficult to get better than even money bets now.

Japionelli, with his 92 record, finally is living up to the \$75,000 bonus that the Boston Braves paid him to sign when he was fresh out of Rochester, N.Y., high school. His just turned 24, and catcher Wes Westrum declares he sets back each time out. He's "made" the Giants' staff.

As for Mays, the 23-year-old Negro from Alabama looks as though he had never been away. He is bigger and better in every way. He is hitting a longer ball than he did in '51 and his batting average is much higher. He is terrible fielded and on the bases, and his uplift he has given his teammates is a real and tangible thing.

Williams' back is vastly improved and he is teaming solidly with Al Bark around second. Mueller is enjoying the best season of his career and has been up among the league's batting leaders ever since the race began. Leo no longer is looking for a right fielder. The only thing the Giants obviously lack is a hitting catcher, and Westrum didn't exactly hold them back in '51.

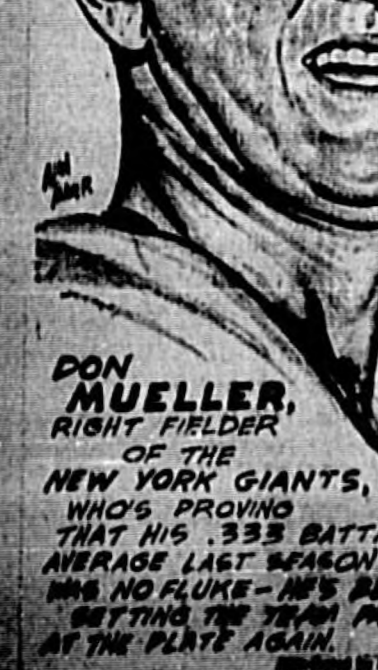

Brooklyn fans rabidly resent the publicity Willie's more amazing feats have received and contend that in Duke Snider they have a centerfielder who can do everything Willie does, or a better "Which," they always demand to know at a certain point, "would you take if you had a choice—a guy who's been hitting up around .370 all year (Snider) or a kid who only just got his average above .300? And don't try to tell me anybody can get balls that Snider can't."

This is a difficult one to answer. But we would take Willie, and so we have a strong feeling, would a majority of big league managers who have played against the right clubs this year. We feel that Willie provides a greater inspirational force for his club than does Snider.

Local Legion Nine Defeats Vero Beach In Exhibition Tilt

Sanford Post 63 Legion team posted a 9-2 win over Vero Beach last night at Memorial Stadium in what was the "thief club's" outstanding performance so far this season. Sanford though recording out four hits, played tight ball all the way and looked like a championship contender.

Jim Hawkins opened for the locals and subdued the East Coast visitors easily in the first, but a pair of miscues—the only two of the night for Sanford—on an infield fielder's choice gave the Beachers a second inning score.

Post 63 started fast however, and Spirited Bowen singled off of Jack Young on the third pitch. Bowen was advanced by Robert Swann's sacrifice and C. Jenkins' infield out. Ralph Farina walked. Hawkins blasted through the shortstop to score both Bowen and Swann, and registered a tally strike on Young's second pitch.

The winners posted another trio of runs in the second on two bases on balls, Samuel's single and J. C. Jensen's triple, which unopposed to the far left-center field fence.

Hawkins pitched four innings before giving way to Charlie Swann in Coach Red Hires' maneuver to conserve his pitching strength. In the fourth, Swann singled and stole second. Hawkins observed him straying overly far off of the sack and picked him off with a perfect strike to the center field fence.

The next batter, Al Howard, was hit by a pitched ball, and falling to let the experience of the first baseman be in tact. Swann, who allowed three batters to be hit by pitched balls, was caught by Hawkins too far from the bag. Hawkins struck out the next man, pitcher Young, and was retired in favor of Swann. The first Sanford pitcher gave up two hits and one run in his four-inning stint.

Swann, who allowed three batters in the last two innings, was only played six innings—six of hits and a fielder's choice pushed into the sixth. A pair of errors across the other Vero Beach tally, but with the bases full, Swann hit his true stride and a pair of pinch-batter Redfern and the final out on an infield pop-up.

The two clubs will renew their exhibition rivalry tomorrow night in Vero Beach. Post 63 were slated to try to avenge Tuesday's 7-0 setback by Walter Park. He had nominated Hawkins to open and "if he's right we'll let him go all the way." Game time was 8 p.m.

Reese Is Fourth Dodger To Lead In All-Star Poll
CHICAGO (AP)—Harold "Pre Wee" Reese, Brooklyn shortstop, today became the fourth Dodger to hold a leading position in the All-Star baseball poll.

Reese polled 99,394 votes in the National League shortstop balloting race as voting continued to decide American and National League starting lineups for the All-Star game in Cleveland, July 13. The balloting, which opened on June 11 and will end at midnight July 12.

Reese's 99,394 total dropped Al Dark of the New York Giants into second place with 97,101 votes. Other Dodger leaders include first baseman Gil Hodges with 102,836 votes; catcher Roy Campanella with 96,153 votes; and centerfielder Duke Snider with 104,651. Stan Musial, St. Louis Cardinal outfielder, is the highest individual vote-getter in the poll. He has 117,308. Runnerup Yogi Berra, New York Yankee catcher, has 114,674 votes. In third place is Minnie Miñoso, Chicago White Sox left-fielder, with 112,318 votes.

Bob (Red) Wilson, catcher for the Chicago White Sox, is a former star athlete for the University of Wisconsin.

STEAL ATTEMPT—Wally Tyre, right fielder for the Sanford Cardinals, is shown as he tried unsuccessfully to steal third base last night in the game between the local team and Groveland. Glenn Jones, Groveland third baseman, grabbed a fast throw from the visiting catcher, Harley Mathis, after he bobbed the ball, and tagged Tyre as he slid into the bag. (Staff Photo.)

Democrats Beat Republicans In Capitol Hill 'World Series'

WASHINGTON (AP)—Congressional Democrats boasted the first no-hitter in Capitol Hill's "World Series" history today—just even so they were hard pressed to maintain their unbroken victory streak over a fighting Republican nine.

The annual congressional baseball game went into its fifth and final inning last night with the GOP stalwarts out in front, 1-0, but out and nobody on base. Then came a Democratic deluge.

Rep. Harlan Hagen of California walked and stole second. Rep. Selmski of New Jersey tied up the game with a double. Rep. Eugene McCarthy of Wisconsin fouled off one pitch, took a ball, then walked the third offering into the left field recesses of Griffith Stadium for a triple.

Final score: 2-1, in favor of the Democrats who have yet to lose since the charity series started seven years ago. Rep. Don (Fireball) Wheeler of Georgia was the hurling pride of the Democrats with a no-hit stint. The only run off him was unearned.

For the Republicans it was Rep. Glenn Davis of Wisconsin on the mound and pitching steadily 3 1/2 hours until the roof fell in on him in the fifth frame.

Haddix was rolling along in fine style last night, having given up only two hits and Dick Cole came up in the sixth. The Big Infielder fouled off a pitch, then sent a drive to rightfield that went for a triple. A moment later he scored on an infield out to mark the first run tallied against Haddix in 37 consecutive innings.

With Cole's hit went Haddix' chances of beating the record of 40 1/2 consecutive shutouts set by New York Giant pitcher, and the bingle kept Haddix from trying to tie the National League record of four consecutive shutouts held by several pitchers.

"I wasn't worried about that hit," Haddix said after the game. "After all, we had a 5-0 lead and I was pitching three times and he's concentrate on shutouts. Of course, I don't like any runs scored against me—no pitcher does."

Haddix has beaten every team in the league. Pittsburgh has been his victim three times and he's won two apiece from Cincinnati, Milwaukee and Philadelphia. Chicago, Brooklyn and New York each have lost once to him.

WINNING RUN—Bill Crabtree, center fielder, is shown as he scored run number two for the Sanford Cardinals in the fourth inning of the Sanford-Groveland tilt last night, which turned out to be the winning tally. Harley Mathis is the Groveland catcher while the umpire is Ernest Higgs. Final score of the Central Florida League tilt was 2-0. (Staff Photo.)

Jax Beach Beats Lakeland, 15-10; DeLand Drops 3rd

By THE ASSOCIATED PRESS
Still shaky on pitching and defense, the Jacksonville Beach Sea Birds at least found their batting eyes last night for their first victory of the second half in the Florida State League.

The first half champs licked Lakeland 15-10 on an 18 hit attack. Lakeland took a 5-0 lead in the first inning on two hits, five walks and two Sea Bird errors. But Jacksonville Beach caught up by the third inning and in the seventh they salted it away with seven runs on three doubles and four singles. Only 104 customers saw it.

DeLand's Red Hats, who pressed Jacksonville Beach for the first half title, still haven't a second-half victory. They lost No. 3 to Orlando 8-7 in 10 innings. In another extra-inning game, Cocoa beat Daytona Beach 8-6 in 11.

Orlando's Jenks Lovio singled home Ed Housenkecht with the winning run against DeLand. It was the fifth straight victory for the CH's and their 10th in 11 games.

An error, one infield hit, two walks and a sacrifice fly put over the winning runs for Cocoa. Cocoa Manager Rama Howell sent it into extra innings with a home run in the ninth inning Wimpzy Lagoon. Daytona Beach shortstop, was one of six batters hit by pitchers. The others were unharmed but Lagoon was hit in the head and taken to Halifax Hospital for observation.

Orioles-Red Sox Go 17 Innings; Baltimore Wins

BALTIMORE (AP)—The Baltimore Orioles were not giving their fans any better baseball than did the St. Louis Browns, but they offered more of it.

Haddix has beaten every team in the league. Pittsburgh has been his victim three times and he's won two apiece from Cincinnati, Milwaukee and Philadelphia. Chicago, Brooklyn and New York each have lost once to him.

The longest game by the clock in the junior league, incidentally, was played by the Browns with Cleveland two years ago. The game was 19 innings. The longest game in baseball records was a 3 1/2 hour contest between Brooklyn and Boston in the National League in 1949 for 26 innings.

Managers Lou Houderque of the Red Sox and Jimmy Dykes of the Orioles contributed to another extra-inning game. The Sox were one more than the previous high for an extra-inning game.

Boudreau used 22 players, including Ted Williams as a pinch-hitter for the first time since June 5, and six pitchers. Dykes called on five hurlers. Fortunately, the teams are off today.

It was the second straight night the two league leaders used overtime before reaching a decision. It took the Red Sox 12 innings to win Tuesday.

Last night's game ran right into an American League rule that an inning may start after 12:50 a.m. The curfew arrived during the 17th inning with the score tied, 7-7. The Orioles avoided a stalemate by scoring in their half of the inning to win on a close play at the plate. The run scored on an infield grounder with the bases loaded.

The Sox forced the overtime by scoring four times in the ninth inning.

Cards Edge Groveland. In Tight Diamond Tilt

Each Pitcher Allows 2 Hits In CFL Game

Single runs in the first and fourth frames, countered only by a lone Groveland tally in the fifth, gave the Sanford Cardinals a tight 2-1 Central Florida League victory over their Groveland rivals in Memorial Stadium thriller that was played last night before a small turn-out.

Each team was limited to but two hits each in the abbreviated seven-inning tussle, but a combination of first-inning miscues by Groveland and the grouping of both Sanford hits in the fourth was enough to outscore the losers and post the eighth Sanford win. The Cards have dropped six.

Gene Pennington, Card shortstop, reached first on an error by Groveland's center fielder in the first and advanced to score when George Kenis drove a long fly to right which eluded the right-fielder.

In the fourth, Bill Crabtree reared the third Sanford hit off of Groveland pitcher Jack Odum, a solid single to center. An infield out moved him to second and Hugh Carlton registered the only Sanford base-hit to score Crabtree and conclude the Card run-posting.

Groveland got their run in the fifth. Al Cockcroft walked with one away, advanced two bases on Gian's hit and came in to score on an attempted put-out at second.

Mel Fleischer, appearing in his first starting performance for Buddy Lake's Cardinals, went the distance and notched the win. Except for the fifth-inning Groveland run, Fleischer was in trouble only once, in the seventh. Shaw Buck, the useless wonder from Groveland, opened with a base-on-balls, stole second, and found himself on third after Fleischer's fielding miscue allowed Cockcroft life on an infield grounder. Cockcroft stole second, but Fleischer lightened to strike out two and wind the game up on an infield out.

The two teams will tangle again Sunday in Groveland, Sanford with youthful Jack Krider while Groveland's pitching choice was undecided.

Andrews Beats Slade With TKO
CHICAGO (AP)—Confident Paul Andrews' punchy ex-paratrooper with a stiff punch in either hand today drew a head on an Aug. 4 bout with speller Jimmy Slade after enhancing his lightweight ranking here last night.

Andrews scored a fourth-round knockout over rugged Danny Nardio at the Chicago Stadium. The 24-year-old Andrews, ranked sixth as a 175 pounder, dropped Nardio for a nine-count in the third round and the Tampa, Fla., slugger was waved off as he tried to start the fourth.

There's a hitch in the Aug. 4 Andrews vs. Slade bout here because Slade, who recently untracked Hurricane Jackson has an injured hand. If Slade can't come up against Andrews, the Buffalo, N.Y. beller may meet the winner of a heavyweight bout between Jackson and Nino Valdes July 11 at Madison Square Garden.

Story Of French Patrol Is Told

BIANOI, Indochina—It started pressed forward in thin, straggly lines. Then came the long job of getting the mired tank free. Miles behind the Dunquerque, on the other side of the road from the ambush site, smoke and flames rose from another small village. An artillery shell or bomb had

touched off one straw-thatched hut and fire was leaping from hut to hut. Later a French briefing officer reported: "Moderate losses to a Vietminh force that ambushed a patrol on the Hanoi-Haiphong road. Losses to the patrol were very light. There were no other losses in the action."

Mars Closer To Earth Today Than Has Been In 13 Years

NEW YORK—Some day, perhaps not in this century, man will explore space. Someday, when he cuts through the heavens like a celestial arrow, he will seek the red planet Mars. No planet in the sky has excited the imagination as much as Mars because of one tantalizing question: Does it contain life?

Today Mars comes closer to earth than it has in 13 years. Today the two planets are only 90 million miles apart—a mere arm's length in the billions of space miles. As Joseph M. Chamberlain, general manager and chief astronomer of the American Museum-Hayden Planetarium explains it, the earth, traveling in its orbit, is overtaking Mars. Mars has caught up with the other planet in their race around the sun.

Look then, for Mars burning bright in the southern skies from early evening until sunrise. Observatories and backyard astronomers everywhere will train their telescopes on the red planet to-night and in the summer nights immediately following, seeking answers to strange mysteries. We definitely know several things about Mars. It's about half the size of earth, with an equatorial diameter of 4,200 miles. Its day lasts 24 hours and 37 minutes and its year 687 days with the seasons almost twice as long as ours. The surface gravity is only four tenths that of earth; thus a man who weighs 150 pounds here would weigh only 60 pounds out there. It's very cold on Mars with the average surface temperature about minus 20 degrees Fahrenheit.

Man's increasingly close scrutiny of Mars has come about, says Chamberlain, because "in all our neighbor worlds, Mars most closely satisfies standards of climate and topography which might allow for a few familiar life forms." It has absorbed astronomers since Galileo. But interest in it has greatly increased since 1877 when an Italian astronomer named Giovanni Schiaparelli sighted thin lines on the planet's surface he called them "canals," meaning channels. Almost immediately the public thought it meant "canals" and interpreted them as artificial and therefore the work of intelligent life. Thus began the popular idea that there was life on Mars.

Many scientists see no reason to believe the canals are the work of intelligent beings, however. Rather they say, the canals are the result of natural causes—fissures or volcanic cracks or glacial tracks. Other astronomers never have been able to see the canals and doubt their existence. As Mars draws near earth, scientists will seek many missing parts in the jigsaw puzzle. They will study its weather conditions. They will try with radiometers to determine the amount of light and heat radiation from the planet. Spectrographs, which thus far have been able to detect any water vapor in the planet's atmosphere, will be employed again.

Yet even this intensive study of the Martian world is but a preliminary rehearsal to September 1938, when Mars will be only about 35 million miles from earth. Then mankind may be nearer the answers to questions which have puzzled man for centuries. What lies under the surface of Mars? Is there not life as we

QUEEN ELIZABETH II and her husband, the Duke of Edinburgh, are shown in the Japan-London show given at the Hotel Rose-Windsor during the queen's visit to Japan.

The Fort Dix Chorus will bring the combined forces of 26 military voices to "Coke Time" starring Eddie Fisher today at 7:30 p.m. The group of soldiers will sing "This Is My Country" and "Where in the World But in America" composed of men who hold down full-time Army jobs and rehearse in their spare time. The military scatters do choral work for the First Army on four different network radio shows.

Three popular airs—"My Friend," "A Girl, A Girl" and "When You're Smiling"—will be presented by the popular baritone star of "Coke Time." Fred Robbins emcees the Coca-Cola broadcast, which is written and produced by Gordon Auchincloss. Ed Stokes announces and music is arranged by Axel Stordahl.

The show is presented by The Coca-Cola Bottling Company on Station WTRR.

LANGUAGE PROBLEM THONA, Calif.—Yvonne Rose, 34, may be in demand as a language interpreter when she gets home soon from Japan. She is the daughter of Chief Warrant Officer Robert E. Rose, with the Army, and his wife, Alice.

First she learned some French from her maternal grandmother, who spoke the language. Then she and her mother went to Japan, where she picked up Japanese from a nurse.

The Roses wrote their stable family that they were coming home but wouldn't stop long in Hawaii. Yvonne might learn Hawaiian, and that would only confuse her parents some more.

The Canadian National Railway claims to be the first in North America to put a diesel electric locomotive into service.

Reported Plot To Kill Nehru Being Probed

NEW DELHI, India—Police officials confirmed today they are looking into a reported plot to assassinate Prime Minister Nehru. But one police source said the confessed assassin is a known opium smuggler "and the whole thing may be a pipe dream."

Reports from Bombay, summer capital of the central Indian state of Madhya Bharat, said the smuggler had confessed the plot in a statement to a magistrate.

GRAHAM IN GERMANY
FRANKFURT, Germany, P.—American evangelist Billy Graham arrived here today by air from Amsterdam for a five-day tour of West Germany. He was greeted by Maj. Gen. Thomas W. Herren, U.S. northern area commander in Germany.

VILLAGE MENTIONED OFFICIALLY

CHENIES, England—This Buckinghamshire village—one of the show places of England—was mentioned off for the first time in minutes for a half-million dollars.

The village was put up for sale to help meet taxes on the Duke of Bedford's estate. The duke, owner of the village, died last October.

The successful bid came from the Metropolitan Railway Country Estates Ltd., which announced present tenants may buy their homes if they wish.

Studies of fermentation by Pasteur are regarded by scientists as among the most important on the subject.

Learn to Swim---6

1. Every one wants to learn how to swim and almost everyone wants to learn without smothering himself in the process. The first step is to sit on the edge of a pool or low pier, extend the arms forward, palms down, thumbs locked and simply rock forward and slide in between the knees.

2. Next, kneel on one knee with the toes of the other foot gripping the edge, extend the arms, look downward and inward under the finger-tips, rock forward and slide in. To come to the surface simply lift the head and look up AFTER you are underwater.

3. Then take a crouching position with both feet flat close together and your toes gripping the edge. Repeat as before, only this time give a little push with both feet as you tip forward into the water.

4. In the final diving lesson, stand with both feet parallel, knees bent slightly, and repeat as before. This time, as the balance is lost, push gently with both feet and attempt to straighten the body as you enter the water.

Probe Man Linked With Rackets Here

TAMPA (AP)—Salvatore (Red) Hallano, a name long linked with rackets here, is in the news again. An investigation is underway to see if his citizenship should be revoked. Hallano built up a big liquor and wine distributing business here and became its general manager. He resigned in 1959. That was shortly before the Kefauver Senate Crime Investigating committee held a hearing here and referred to Hallano as the "boss man" of Tampa's rackets. Hallano had been summoned as a witness for the hearing but he didn't appear. Hallano came to this country from Palermo, Sicily, in 1923. He was in trouble several times in liquor cases and served a year's prison sentence in 1930 on a narcotics charge. In 1932 he was accused of fraud in connection with his nationalization papers and placed on a two-year probation. There is no record of any arrest of Hallano since 1932. Finally in 1947-48 years after his arrival in this country—he gained full citizenship. Hallano was referred to as a racketeer chief in ten Tampa court trials and in a court action was described as one of the three heads of the Tampa gambling syndicate. In that action he was sought as a witness in the murder plot trial of former Sheriff Hugh Culbreth. Instead of answering that court summons he went to Europe.

Escapee Returns With Bloodhound

TAMPA (AP)—Three Neozes escaped from a state road camp north of here last night and a short time later one of them returned to camp leading a bloodhound. M. J. Cherry, clerk at the camp, said the men claimed they were ill and saved their way out of a barracks window while awaiting a physician. Cherry identified them as Bill Speed, 28, and Walter Lee Nixon, 22, both of Palm Beach County; and S. C. Collier, 21, Broward County. Speed told this story: He had a bad hip as the result of being shot by an officer in Palm Beach County and the other two conscripts left him after the break. He tried to swim the Hillsborough River but went under twice. He lost his hat and the water and he managed to escape by taking off his shoe. Then the bloodhound showed up so he decided to return to camp.

Discarded Eggs Hatch Out Chicks

STANDISH, Maine (AP)—A batch of eggs discarded at the town dump hatched out 41 chicks after hatching in hot sunshine, caretaker Bert Chaplin reported. Chaplin said last night the chicks appeared to be flourishing despite their unceremonious entry into the world.

PLANES COLLIDE SHAWNEE, Okla.

SHAWNEE, Okla. (AP)—Two light planes landed simultaneously one on top of the other — at the Shawnee Municipal Airport last night. The pilots escaped with cuts and bruises. The planes were damaged heavily.

SCOUTER DIES EAST ORANGE, N. J.

Hunter B. Grant, 67, born in Scotland, credited with founding the first Boy Scout troop in the United States, in 1880, and active in Scout leadership until he retired in 1949, died yesterday.

Anti U. S.

(Continued From Page One) Honduras and Nicaragua have limited their special comment to charges that they served as launching bases for the invasion. Latin American newspapers, less restrained than their governments, reflected various shades of opinion. Comments included: Argentina: La Epoca, which of ten expresses government views, said "So long as the government considers it almost unanimous, because the invasion is seen as a danger to the liberty of a country to choose the government of its own." La Epoca also implied that the United States was to blame for the fighting in Guatemala. Brazil: The opposition Diario Capanga commented, with some reservation, that the United States was serving to dramatize the case of Guatemala and justify continental intervention in the affairs of that republic. British Honduras: The Belize Hill board, organ of the recently victorious People's United Party, which has close links with Arbenz, accused the United States of keeping Guatemala from bringing its second plea before the UN Security Council. It charged the United States with trying to prevent any form of UN aid for Arbenz's regime. Uruguay: A paper generally hostile to the Arbenz regime as a Communist threat, but they also criticized the United States for its diplomatic policy. Mexico City's leading newspaper Excelsior has come out strongly against the Arbenz government, although Mexicans generally have sympathized with the Guatemalan president. In Chile, Santiago's Conservative newspaper El Mercurio also has roundly criticized Arbenz.

Editorial Group Attacks Action On Advertising

WASHINGTON (AP)—The National Editorial Assn. said today a bill to ban interstate advertising of alcoholic beverages smacks of censorship and would set a deadly precedent. William L. Daley, Washington representative of the association's legislative committee, called the measure "a bold attempt to prevent people from utilizing advertising in selling lawfully manufactured commodities." "If advertising is to be denied to one group of citizens—the alcoholic beverage industry—then why not to other industries or to other citizens, such as unions or certain political candidates or other groups?" Daley said in a statement prepared for a Senate Commerce subcommittee hearing. Daley said the editorial association, with a membership of some 600 state and weekly newspaper publishers and editors, was concerned that the bill might be substituted by a covert bias as to what the public may be permitted to read or see in various communications media. "Censorship could be indirectly achieved by devious means," he added. Daley called the bill "unwise, unwise, saying the courts have held that newspapers are private business entities and are free to reject such advertising as they wish."

7th Day

(Continued From Page One) nearly 1,200 Americans there. The progress of the rival armies was clouded by a well-publicized report, many of them obvious propaganda claims. One rebel broadcast claimed the insurgent forces led by Col. Capt. Casimiro Castillo from three sides. A Guatemalan broadcast said the rebels had been repulsed and were fleeing toward Honduras. Col. Castillo was reported to have moved his headquarters from Escuintla, 100 miles north of the Honduran border, in a town near Chiquimula. This city is south of Zacapa, a key town on the vital railroad from Pop. B. Barrios, and an obvious target of the invaders. Newsmen who visited Castillo at Escuintla earlier yesterday said the rebel forces appeared bogged down for lack of transport. Castillo, himself, said heavy rains and a lack of organization in the first stages had been his main obstacle. Castillo's headquarters claimed rebel planes had damaged ammunition dumps and other strategic points in the town of El Progreso, 25 miles northeast of the capital and also on the Puerto Barrios-Guatemala City railroad. Rebel spokesmen also claimed the rebels were moving ahead of their forces, causing serious damage with dynamite blasts. A United States government broadcast heard in El Salvador claimed the "rebels" had been hurled back on all fronts and was fleeing toward the Honduran border. In the Guatemalan, Morales and Puerto Barrios areas. They said loyal troops had begun mopping up scattered rebel groups that surrendered without resistance. In Guatemala City, Associated Press Correspondent Jack Rutledge described the situation as calm. He said the army still claimed the government held complete control.

George Dunlap III Heads Golf Team

PRINCETON, N. J. (AP)—George T. Dunlap III, son of the 1933 national amateur golf champion, has been elected captain of the Princeton University 1964 freshman golf team. It was announced today. A resident of Fort Lauderdale, Fla., he was undefeated in six matches in his first season. His father, George T. Dunlap Jr., won two national college links titles at Princeton and was captain of the Princeton 1931 golf team.

SHATTERING SPEED

DETROIT (AP)—Gerald A. Page rushed his wife to the hospital maternity center. One hand on his wife's arm and the other clutching an overnight bag, Page walked through the center's glass door and shattered it.

REBEL KILL PRIESTS

MANILA (AP)—Major Silvestre M. Sancio, father provincial of a Dominican mission, has brought back word from Indonesia that four priests were killed by Communist Vietminh rebels in the past four months.

St. Petersburg Wins 7 Straight

By THE ASSOCIATED PRESS
The St. Petersburg Saints won their sixth and seventh straight games last night and fourth doubleheader in a row to pull into a game and a half lead in the Florida International League. The Saints took the opening game from the Miami Marlins 8-3 and continued their batting spree in the nightcap to win 10-3. Tallahassee, in second place, was tied by rain at West Palm Beach. Seth Wilson, who rapped a two-run double in the opening game, clubbed his 17th homer of the year in the nightcap, driving in two

runners ahead of him to insure the game. Five hits, two walks and an error wiped out a Miami lead and gave the Saints a 7-3 margin in the fourth inning of the finale. Gene Krupp and Max Gaddy smacked doubles in the big inning.

POWER NOT USED
CHICAGO (AP)—The nation's potential hydroelectric power has been only one-fifth developed, according to Jerome K. Kuykendall, chairman of the Federal Power Commission. He said half of the water power developments were through privately financed projects and half through public projects.

In the three centuries between 1650 and 1850 the population of the world more than quadrupled.

Wide Areas Of Nation Sweltering

By THE ASSOCIATED PRESS
More sweltering weather appeared in prospect for wide areas of the country today after record-breaking temperatures in western areas yesterday. Fairly pleasant weather prevailed in most of the Northeast, along the Pacific coast and in some Midwest areas. But it was hot and humid over the Southland and hot and dry over most of the Rockies, the western half of the Plains and the Great Basin area. Temperatures climbed to above

100 degrees as far north as South Dakota and Wyoming yesterday. New record high readings for June were set in many cities in Wyoming, Colorado and Utah. The 105 at Pueblo, Colo., and 104 at Millard, Utah, were new record highs. Denver's top was 102. Readings were a few degrees lower in the Southwest desert but it was 113 in Gila Bend, Ariz., and 111 in Las Vegas, Nev., and Needles, Calif. Only wet spots early in the week were the new England and Florida coasts, with rain and thunder showers. Only two umpires officiated in the World Series from 1903 to 1908. Then two more arbiters were added. Now six take the field for the post-season classic.

END OF MONTH CLEARANCE

FRIDAY & SATURDAY
JUNE 25th and 26th
DRESSES

Entire stock of summer dresses including Juniors, Misses and Women's regular and half sizes...

Joan Foster, Bride

By Alice Ross Colver

CHAPTER TWENTY-EIGHT
MISS BISHOP was all a swirl of sympathy as she listened to Joan's tale of woe. "I'm so sorry to hear about this. But he is all right now? Out of the hospital and home again?"

"Oh, yes! He's home. He's going back to work soon. But—well, I had to sell one of our antique pieces to pay the hospital bill and—"

Finally she was finished. Miss Bishop said gently, "I'm truly sorry about all this. Very sorry, indeed. I suppose you don't like to sell on your parents?"

Joan shook her head. "We don't want to and we don't feel we should. My mother is a widow, living on a very limited pension and whatever she can get by renting rooms. Todd's people are elderly and not well either of them. Besides, they are facing retirement at any early date. We think—"

"We should always thought—that we should manage life, however it comes to us, by ourselves. Todd has a couple of government bonds and we're going to sell those, but they haven't matured yet and they won't be early enough."

The older woman regarded Joan quietly for a moment. "Of course," she said presently, "I am in no position to promise you anything for the firm. I shall have to pass on your story to Mr. Adams. But I'll be glad to do that as soon as possible."

"Do you think—today, perhaps?"

"Yes, today," she paused. "I know he will ask me if I have recommended you that what you are doing, actually, is mortgaging your future. He will want to know if I have pointed out to you that whatever extra advance is made to you now must, of course, be deducted from your next statement."

"I understand that."

"And we don't, naturally, make a practice of this sort of thing."

"No, you couldn't. Please go home, Miss Bishop, that I just hate to ask this. I thought about it for quite a while before I decided I would. But—well—I really think I'd be able to do better work on my book. If I'm not too worried about money."

"That's probably true. Well, don't worry, then. Take home with you the thought that I will do my best to present your story for you and that I know Mr. Adams is understanding."

Joan stood up. "There's only one thing that can possibly be nicer than being a writer," she said, a smile finally breaking through. "That's that."

"Being a publisher. Being able to do such things as this. Good-bye."

Terror In Morocco Is Commonplace

RABAT, French Morocco (AP)—"Someday some of you Americans might get killed here. When that happens, please—please do not lose your heads."

These words came to me from a highly placed person in Morocco who usually otherwise remains unidentified.

I asked him to elaborate. He replied with a shrug and the remark "There are forces here who want you to lose your heads."

This informant was one of many who insist there is much foreign influence in the creeping terror in North Africa, an area which has come to be of strategic importance to Western defense.

Daily killings of French and Moroccan are commonplace now. The objective of the terror—whether the influence comes from local extremists, nationalists, Arab League propagandists, Moscow agents or from all these sources—is to keep France off balance in the area and render it unstable. Leaving aside the justice or unreasonableness of nationalist as-

Harness Racer May Shatter Victory Record

WESTBURY, N. Y., June 19 (AP)—Billy Haughton, harness racing's 1953 driving champion, and the latest count today indicates the former 17-week groom may crack all records in 1954.

For 22 years William Robert Haughton has made horses his first love, and now at the age of 30 the native of Fultonville, N. Y., is at the peak of a brilliant career as a trainer-driver.

Last year Haughton hit a double jackpot, becoming the biggest money winner in harness racing history with \$374,827 and the leading dash winner with 116 victories, the year's best ever to hold the title. The U. S. Trotting Assn. increased its purse for the 1954 season against the United States.

Intelligent Moroccan leaders resist the Communists' underhanded attempts to use and infiltrate the national movement. It refers to "His Majesty" and Mohammed V. Haughton, whose transfer by the French into custody, was the same which was at the time of the Communist plot constantly on an anti-American theme, trying to whip up local and national sentiment against the United States.

Youngsters Earn Money With Snakes

MIAMI, (AP)—A hardy handful of Miami youngsters is picking up easy dollars in the Everglades, sprawling, watery wilderness that lies west of here. They do it picking up snakes with their bare hands. No hooks, rope loops, or poles for these boys. They believe in operating on equal terms with the snake, and carry only a gunny sack to hold their catch.

The snakes are sold—either to snake farms, venom milkers and the like, or to neighborhood boys who like to wave snakes at neighborhood girls but don't care to catch their own.

Don Humphries, 15, and his 14-year-old buddies, Danny Greens and Jim Kavney, are typical of the teen-agers who hitchhike out the Tamiami Trail to go snake hunting. The trail is the highway connecting Miami and Florida's west coast, and it passes right through the heart of the Everglades—a paradise for snakes.

The boys catch snakes by simply wading out into the dark and uninviting black swamp water and grabbing them.

Don explained that they can capture 15 or 20 in an afternoon. At the going "retail" price of a dollar apiece, that's fair money for youngsters.

"We don't bother tryin' to sell 'em to the snake farms," Danny explained, "unless they're extra special, maybe great big moccasins or such. They only pay 15 or 20 cents a foot for prime snakes."

Their best market is among their friends—peddling harmless water snakes and king snakes at a dollar a head.

How do they catch them? They just wade around, waist deep in black water and lily pads until they spot a specimen.

That's all. Then they leap on it, grabbing it with one hand—anywhere.

The somewhat annoyed snake usually tries to strike, but they've got ways to get around that. Usually they swing the snake about, to and fro, up and down, so he can't bite them. Then with a quick motion they seize the dirty reptile behind the head with a free hand.

From there it's a quick trip to the gunny sack.

In deeper water, they'll drag the snake under, bring an air breather, the snake doesn't try to bite anything—it only wants to get back on top of the water. It's a simple thing, the boys said, to slip the free hand up behind the head of the reptile.

The important thing is to get hold of the head, so it can't bite. Yes, they get bitten. Don was bitten by a poisonous water snake the day he told about his

Special Equipment Valued At \$200,000 In New Terminal

Operators on the Produce Terminal of Jacksonville, which opened last Monday, have installed \$200,000 of refrigerating and other special handling equipment to make the terminal the most modern in the nation.

The huge cold boxes, conveniently located adjacent to the rail platforms, will assure that all fruits and vegetables stored at the market for more than a few hours can be kept perfectly fresh, according to J. A. Conway, terminal president.

"Everything about the terminal has been engineered to move produce from the grower to the consumer market in a minimum of time and keep it fresh," Conway said.

Most of the refrigerating equipment is located in the two large buildings for produce operators. The buildings also have been installed by several of the jobbers located in the two center terminal buildings.

Arrangement of the terminal is such that the cold boxes of the operators in the master buildings are located adjacent to the double rail sidings flanking the terminal. Produce can be moved directly to and from refrigerated rail cars, avoiding any congestion which might occur on the truck platform side of the buildings.

When produce is to be moved from rail to truck, or truck to rail, it can be handled through the cold boxes, which have doors on both sides.

The main terminal structures were designed also with refrigerated spaces at each end for loading and unloading of refrigerated trucks.

Another innovation in keeping with the Produce Terminal's "Keep it Fresh" motto are the long, overhanging marquees extending over the loading platforms.

They were asked if they were ever bitten by poisonous snakes. They seemed to think the query was insulting.

"Now," one of them said, "but my dad went with us one day and he got bit by a moccasin."

They admitted their mothers didn't like the idea of them wading around in the swamps chasing snakes, but "it makes spending money," wily little Jim Kavney said.

They went back to searching the lily pads, wading around and looking about in the swampy thickets, looking for snakes.

"I think I just seen a moccasin," said Danny.

"Whereabouts?" asked Don, interestedly. They began to close in warily on the spot, their hands extended cautiously.

They can have it.

News of Men In Service

COMPLETES TRAINING—Pvt. Elwood R. Fried, son of Mrs. Thos. Sobek, Lake Mary, Fla., has completed eight weeks of basic training at the Camp Gordon, Ga. Replacement Training Center.

During his basic training he received instruction in infantry tactics and weapons, and other subjects designed to prepare the individual for his military duties.

Upon completion of these first eight weeks, the trainee is ready to continue infantry training or to attend one of the Army's many specialist schools located throughout the country.

Located at Camp Gordon, in addition to the Replacement Training Center, are the Signal Corps Training Center and the Provost Marshal General Center.

tending out from each loading platform. These assure that sun or rain cannot interfere with operation. The marquees slope inward to drain pipes and eliminate excess-drip.

Of equal importance in speed of handling the valuable perishables is the fact that 25 produce firms formerly located in 10 different sections of Jacksonville, will be situated at a central produce terminal.

Excessive handling and trucking of produce around the city will be eliminated as all sections of the trade—growers, operators, jobbers, wholesalers and buyers—will be on the same 53-acre tract.

Any produce brought into the Jacksonville terminal can be unloaded, traded and shipped out with no more than two handlings.

Conway said the savings effected through modern handling procedures will afford savings to the produce firms and assure freshness at all times.

The terminal will open June 28, in the middle of the slack season for Florida growers, in order that the main Florida shipping operation can be smoothed out before the season starts in the fall.

A TELEPHONE POLE, around which their wrecked car is wrapped, separates the bodies of Al Winter, driver, and Delio Verdino, both of Ozone Park, N. Y. They were instantly killed when the auto went out of control, hit the pole and burst into flames at Howard Beach, N. Y.

Marie McDonald, Husband End Up In Toils Of Law

BEVERLY HILLS, Calif. (AP)—Actress Marie McDonald and her husband Harry Karl, wealthy shoe man, are both in the toils of the law now.

Miss McDonald was too ill yesterday, her physician attested, to appear on three motor vehicle charges, including that of driving while under the influence of narcotics.

But her husband was arraigned on a district attorney's complaint charging him with assault with a deadly weapon and assault by means of force likely to produce great bodily harm.

He posted \$1,000 cash bail for his appearance Friday to answer a plea.

The charges against Karl were preferred by two news photographers, Robert Ritchie of the Los Angeles Times and Jack Leppard, newsreel cameraman for NBC.

They allege Karl tried to run them down with his automobile, striking Ritchie's camera and damaging it. This incident occurred when Karl took his wife from the police station Monday after her arrest.

She was booked under motor vehicle code sections charging hit-run driving, having no operator's license and driving while under the influence of narcotics.

Her car, police said, struck three parked autos and a fourth car which had been halted at a traffic light.

Officers said the 30-year-old actress told them she had taken two nebulal and four second capsules, and her physician confirmed her statement that she had prescribed the nebulal.

She was ultimately released to her husband. Yesterday she was penalized \$3 for not showing up in court and \$50 was posted for her appearance next Tuesday.

Attractive Brunette Says She Saw Heir Prior To Slaying

CHICAGO (AP)—A young, attractive brunette, believed to be the last person to have seen Montgomery Ward Thorne alive, has told police he was sober and appeared in good health when he came to her apartment at 4 a. m. Saturday.

The body of the 20-year-old heir to a mail order fortune was found a few hours later in his Gold Coast apartment. The cause of death has not been determined.

Doctors believe Thorne died about 5 a. m., an hour after he had visited Suzanne Rooks, 23, who lives across the street from his apartment.

Miss Rooks told Sgt. Thomas Mulvey yesterday Thorne came to her apartment to invite her to a picnic with him and Maureen Ragan, his 18-year-old fiancée, to whom he willed half his million-

dollar estate. She said she declined the invitation.

Miss Rooks said she had met Thorne seven years ago and that she knew his mother and had visited the Thorne summer home in Lake Geneva, Wis. She also told Mulvey that a year and a half ago she and Thorne had worked as water skiers at Cypress Gardens, Fla., but she had seen him infrequently lately.

Miss Rooks has been subpoenaed to appear at the coroner's inquest into Thorne's death next Monday.

Thorne, a home-made radiateur, William Cobb Thorne, once was president of Montgomery Ward & Co., had changed his will only a few days before his death. He named Miss Ragen executor and left one eighth to each his mother and Miss Ragen's mother. A previous will made when he was 18 years old left the entire fortune to his mother.

Demo Senators To Aid In Effort

WASHINGTON, (AP)—Democratic senators will cooperate in the Republican effort to adjourn Congress by July 31, Sen. Johnson (D-Tex.) said today.

But Johnson, the Democratic leader held to his earlier prediction that it may be as late as Aug. 15

before all major legislation is out of the way.

Republican Leader Knowland (Calif.) served notice yesterday that Senate sessions hereafter will run until 7 o'clock, an hour or longer beyond the usual quitting hour. He said the Senate also will hold Saturday sessions.

Exposure of your eyes to bright sunlight can reduce temporarily your ability to see well at night.

Have fun on the 4th

Coke makes a cook-out meal happy eating

THE OLD HOME TOWN Registered U. S. Patent Office By STANLEY

ROMANTIC, HUH? SHRIMP, WHY DON'T YOU JUST LEAD TH' BRIDE IN THE SIDE DOOR

NOW TRY IT AGAIN-- EASY-- EASY--VEER TO THE RIGHT-- STEADY-- HOLD IT!

THIS TIME DON'T TRIP-- LIFT YOUR FEET-- ONE AT A TIME-- STOP WEAVIN' ROUND-- ONE MORE STEP, THEN UPSA-DAISY

FOR TWO DAYS NOW, PERCY TWITT HAS REHEARSED THAT PART WHERE HE CARRIES THE BRIDE ACROSS THE THRESHOLD

Nationalist China Says Seized Russian Tanker

Soviets In Stiff Note Accuse U. S. Of Action; Ship Is Held In Formosa

TAIPEI, Formosa (AP)—Nationalist China announced tonight that one of its warships seized the Russian tanker Wednesday off Formosa and indicated the vessel and its cargo might be confiscated.

The 8,840-ton Danish-built tanker is being held at the South Formosa port of Keelung, an announcement said. Word that the Tumpse was in Nationalist hands came hours after the Soviet Union, in a stiff note made public in Moscow earlier today, accused the United States of seizing the tanker.

Orioles Expected To View Facilities

Arthur Ehlers, general manager of the Baltimore Orioles, and others from the organization are expected to be in Sanford next spring, according to a statement from the Seminole County Chamber of Commerce.

School Heads Okay Segregation Plan; Baptists Comment

Florida's county school superintendents yesterday voted to go along with Atty. Gen. Ervin's plan for a survey of school segregation problems, while a group of Fundamental Baptist ministers pictured dire consequences if races are mixed in public schools.

Strolling In Sanford

Strolling the streets of famed cities of the world for the next three months will be the pleasure of Miss Laura Mae Brown, daughter of Mrs. G. H. Brown of Sanford.

Mrs. Meriwether Dies At Residence

Mrs. Lula Meriwether, mother of C. J. Meriwether and Francis T. Meriwether of Sanford, died at her home in Lynchburg, Va. yesterday morning after an illness of eight years.

183 Cases Tried In City Court

City police last month brought to trial a total of 183 cases with charges ranging from running a trap light to larceny, according to reports at the Sanford police station.

Farming Season Was Unsuccessful According To Panel

Termining the past farming season a disastrous one, three farmers and a merchant discussed the causes for the season and means of prevention in future years of such an occurrence in a public hearing held at the Yacht Club.

Preliminary Work On Hospital Here Progressing Well

Progress on the new Seminole County Memorial Hospital is proceeding at a rapid rate with workmen pouring the foundation and setting materials in preparation of erecting the first floor.

Escaped Felon Is Sought Here

City police and County sheriff's deputies are today searching Sanford and the surrounding area for an escaped state prisoner, according to reports at both law enforcement agencies.

Desperation Is Shown In Vice-Ridden City

PHENIX CITY, Ala. (AP)—Bill collectors for a big Georgia furniture store took in only \$2 from their usual crowds in Phenix City the day after racket-busting A. I. Patterson was slain.

Movie Time Table

Public Enemy 1:00, 5:30, 8:00, 10:15. Little Caesar 2:30, 5:00, 7:30, 9:45. SATURDAY: The Lone Star Vigilante 1:00, 4:00, 7:00, 9:30.

Rec Swim Program Divided

An overflow of non-swimmer participating in the playground recreation program has caused officials to revise the swimming schedule and exclude advance swimming lessons from the summer state according to an announcement by director John Acker.

DOCTOR William Wayne Babcock

Dr. William Wayne Babcock, 52, professor emeritus of surgery at Temple University, has been named the medical profession's "Man of the Year" by the American Medical Association at its convention in San Francisco.

Rigorous Campaign Underway To Improve State Road 415

A rigorous campaign to improve State Road 415 from Sanford to New Smyrna Beach has been started by Sanford, who considers the road dangerous and poor.

Record Flood Crest Is Slowly Receding At Des Moines

DES MOINES, Ia. (AP)—The Des Moines River record flood crest slowly receded 1 1/2 feet and weary levee workers were cheered by the news that the end of their long battle against the stream was in sight.

Guatemalan Rebel Command Reports 'Bloody' Fighting

TEGUCIGALPA, Honduras (AP)—The Guatemalan rebel command said last night its forces were massed for a full-scale attack on Chiquimula and that "bloody" fighting already raged there.

Guatemalan Rebel Command Reports 'Bloody' Fighting

TEGUCIGALPA, Honduras (AP)—The Guatemalan rebel command said last night its forces were massed for a full-scale attack on Chiquimula and that "bloody" fighting already raged there.
