Tornado's Death Toll Reached 17

Damages In Detroit And Windsor Will Probably Run Into Millions Of Dollars

By Associated Press
The number of identified dead from the tornado that roared across southern Michigan and Ontario last night now is given as 17. Earlier it was said that the death toll was at least 20. However, Canadian hospitals around Windsor, Ontario, say that at least seven or eight of those injured by the storm are in critical condition.

At the first light of dawn today, searching parties were looking for possible additional victims along the narrow path of the twister. More than 100 persons were injured.

The damage will probably run into millions of dollars. Automobiles were tossed around like small playthings, roofs were torn off houses, power lines were ripped out. Tornadoes are rare in the Michigan and Ontario section, and the people were caught by surprise.

The first community to feel its impact was River Rouge, a suburb of Detroit. The tornado hit the town at 11:30 p. m. and was little more than a gust of wind. The first damage was done at 11:45 p. m. when a path 100 yards wide was sucked into a grip.

It first was reported by Ray Miller, a pilot of the Pennsylvania Central Airlines. He maneuvered his plane around the storm, but was close enough to see the ground below covered with blue flashes where power lines had been ripped apart. Buildings were crumpled and debris whirling around in a cone that stretched about 3,000 feet into the air.

Champion Fruit Company Bought By McCall, Fresca

W. R. Williams, realtor, announced today the purchase by Edward S. McCall of Sanford and M. W. Fresca of Uniontown, Pa. of the fruit packing company, located on Atlantic Avenue near the Atlantic Coast Line Depot in Orlando. The building housing the equipment is owned by the railroad.

Mr. Williams said that he had been informed that Mr. McCall, who could not be reached for comment this morning, would manage the packing plant. For a number of years, Mr. McCall has managed the Peninsular Life Insurance agency here. He is an active member of the Sanford Lion's Club, and lives with his family at 608 East Fourteenth Street.

ROMMEL DESTROYED ORDERLIER NUERNBERG, June 18 (AP)—

An Allied Commission was told today how the late German Field Marshal Erwin Rommel angrily tore up Hitler's personal orders in the North African desert in 1942. The witness was General Kurt Westphal, former Chief of Staff to Rommel. He said Hitler instructed them to obey all British Commands regardless of rules of warfare, and that he and Rommel tore the orders up ten minutes after receiving them.

RETURNS ANNOUNCED

ROME, June 18 (AP)—The official returns from the recent voting for an Italian constituent assembly were announced today in Rome. The official tabulation shows that the Christian Democrats won 307 of the assembly's 550 seats. The Socialists won a total of 115 seats and the Communists got 104. The remainder were scattered among minor parties.

CONVENTION OPENS TODAY

PHILADELPHIA, June 18 (AP)—The American Red Cross opened its 31st annual convention today. Some 6,000 delegates from the United States and other parts of the world were on hand. Chairman Basil O'Conor declared that the Red Cross has a vital and creative role to play in world affairs and that every Red Cross society is the expression of the highest human instinct.

Lunch In Washington, Dinner In Los Angeles

AT LUNCH in Washington (top) after flashing across the continent from Los Angeles in their P-80 jet-propelled planes are three of the four pilots left to right: aviator May Robin Ochs, Beverly Hills, Calif.; Col. L. Gray Caza Grande, Air Force, who made the flight in 5 hours and 30 minutes; Hugh P. Evans, president of the Toucan Club, and 12 Jack Richeson, Oklahoma City, Okla. Back in Los Angeles, the same evening, they eat dinner where they had their breakfast left to right: Gray Ochs, Richardson, and 12 Dean Cox, after making a return trip to the coast in 4 hours and 40 minutes. (International Soundphoto)

Hearing Is Held By Judge Ware In Murder Case

Doctor Says Bullet Wound Contributed To Death Of Negress

Following the hearing this morning before County Judge R. W. Ware regarding the death of Velma Gordon, negro, the husband, Henry Gordon of Midway, was heard over on charges of murder in the second degree, awaiting action of the grand jury.

A preliminary hearing conducted this morning by Judge R. W. Ware to determine any possible charges in connection with the death here of Velma Gordon, negro, brought testimony from Dr. O. H. Starke, negro physician who attended the late negress, who questioned in connection with the alleged shooting by Assistant State Attorney George A. DeCotes and by G. W. Spencer, attorney.

Deputy Sheriff Jack Hickson testifying in regard to his investigation of the shooting which took place at the Gordon home in Midway, east of Sanford, said that Gordon had told him that his wife had come at him with a ice pick; that he had retreated behind a curtain between the bedroom and kitchen and had shot her. He then left the house wide open while he took his wife to the hospital, and claimed that upon his return, the pistol, the ice pick and \$500 in cash, left under the pillow on the bed, was missing. Hickson said that on a later search he found the ice pick wrapped in newspaper behind a suitcase.

APPEAL ISSUED

Sanford is losing some of its best citizens in the person of veterans, many of them married, who are unable to find work here. Mrs. Betty H. Mosely, manager of the U. S. Employment Service office, declared this morning. She appealed to all merchants or employers who need help to telephone the agency, which she said, would select personnel to fit the qualification, and try to suit the man to the job.

VIENNA NEAR COLLAPSE

VIENNA, June 18 (AP)—An urgent message advising that Vienna is near collapse is on its way to French L'Espresso. Directed by General of the UNRRA, the message, asking for food, has been dispatched by the Burgomaster of the City, Theodor Koerner. The message reads: "Come to Vienna and see the situation. We cannot continue." Food strikes have started in Vienna. However, it is believed that there is no prospect that UNRRA supplies will arrive in time to raise the ration by next month.

JEWISH INVASION GROWS

FRANKFURT, Germany, June 18 (AP)—American Army officers declare that there is a growing invasion of the U. S. occupied zone of Germany by thousands of Jews and other eastern Europeans. The American officers assert that the mass arrivals are causing the high command grave concern. During the past three months, 25,000 so-called displaced persons have checked in at free-care camps. The new arrivals are believed to have infiltrated across the border of the American zone, despite guards stationed there.

REFUGEE FOR ALIENS

CAIRO, June 18 (AP)—The Egyptian Parliament has heard a suggestion that Egypt give refuge to the Grand Mufti of Palestine, who disappeared recently from his place of exile in France. In making the proposal, deputy Mohamed Ali Nasser asserted that the Mufti was extremely important to all Arabs. The present whereabouts of the Mufti is uncertain.

ENTER STETSON

Jews Strike Again In Battle With British In Palestine

Communists Say Peace Hopes In China Are Fading

Military Demands By Nationalists Said To Be Cause

HANKING, June 18 (AP)—A spokesman for the Chinese Communists asserted today that hopes for a peace pact between the Nationalist government and the Communists have been diminished by new military demands from the Nationalist government. The spokesman said that the government is insisting that the Communists stop operations in their most important territory, north of the Yellow River. Wang pointed out that the Communists already have made concessions, and have agreed to reduce their military forces. He said that the Nationalist government is demanding that the Communists stop operations in their most important territory, north of the Yellow River. He said that the Nationalist government is demanding that the Communists stop operations in their most important territory, north of the Yellow River.

Reconvert Planes For Peace Use

RECONVERTED BOMBERS are prepared for use in peacetime at an aircraft plant at McCook, Ill. Great piles of junked bombers from former fighting units are being reworked by a machine that cuts away surface sheets before the new gas through the holes, forming a new surface of the fuselage. The new surface is ready for use in bombing. It will be used for training and testing of new languages. (International Soundphoto)

Dozen Young Extremists Kidnap Four British Officers; 18 Persons Killed

By Associated Press
Jewish Nationalists have struck again in their battle with the British in Palestine, amid a flood of rumors that British and American troop reinforcements are hurrying to the Holy Land.

Apparently emboldened by the success of their midnight forays against communications during the past 36 hours, a dozen young Jewish extremists, led by daylight to day, snatched four British officers from a Jewish club in the Jewish city of Tel Aviv, and kidnaped four British officers. A reliable informant says the raiders blindfolded their victims, said to be officers, and forced them into taxicabs, and then disappeared. Troops of the British Sixth Airborne Division immediately began a search of the city for the abductees and the officers.

The kidnapers may have been members of the Jewish extremist organization, Irgun, S. P. Oron, which is believed to be the main force behind the British officers' capture. The Irgun officers were taken as hostages during the preceding execution of the members of the Irgun Army who have been condemned for taking part in a raid last week in a British Army camp. The Irgun officers were taken as hostages during the preceding execution of the members of the Irgun Army who have been condemned for taking part in a raid last week in a British Army camp.

York Strikes Oil

YORK, June 18 (AP)—The city of York, N. Y., today struck oil in a well drilled in the city's northern section. The oil is being pumped to the surface at a rate of 100 barrels a day.

Lieut. Branan Is Released By Navy To Inactive Duty

JACKSONVILLE, June 18 (AP)—Lieut. Col. Frank Branan, U. S. Navy, was released today to inactive duty in the Naval Reserve. Branan was released today to inactive duty in the Naval Reserve.

FAMED HERO OF World War I Set Alvin York is shown at the new oil field discovered near his home in northern Tennessee, about 12 miles southeast of Albany, Ky. The oil in York's well was found at a depth of 732 feet. (International Soundphoto)

TO PAY DAMAGES

William Inghram, 907 Magnolia Avenue, has agreed to pay the City for damages done to the tourist house near the shuffle board court at Palmtoe Avenue and Second Street as the result of an accident which occurred Sunday evening in which a Chevrolet sedan driven by Inghram got out of control, jumped the curb and smashed into the house, knocking down a post. Inghram told police that he lost control of the car when a door flew open as he was turning north into Palmtoe Avenue from Second Street.

WILL NOT VOTE

NEW YORK, June 18 (AP)—The Acting United States Delegate, Herschel Johnson, informed the United Nations Security Council today he will abstain from voting on Britain's proposal on the Spanish question. Britain would send the Spanish case to the General Assembly without making any recommendation.

FAVOR HOBBS BILL

WASHINGTON, June 18 (AP)—Both Democrats and Republicans say there is overwhelming support in both houses for the Hobbs Labor Bill, otherwise known as the anti-rioting bill. It would make interference with interstate commerce by robbery or extortion a Federal felony. The measure is aimed at labor unions that demand fees for non-union truck drivers, especially farmers who drive their own produce trucks to market.

TYPHOON NEARS PHILIPPINES

MANILA, June 18 (AP)—A typhoon swirling toward the main Philippines Island of Luzon. The Navy says the typhoon is heading in the general direction of Luzon from about 350 miles east of the southern island of Mindanao.

BIBLE VERSE FOR TODAY

NO ONE EVER LIVED ANYTHING TOMORROW. YESTERDAY IS PAST BUT TODAY IS THE GREAT DAY OF LIFE. MAKE IT SO! Behold now is the acceptable time, behold now is the day of salvation. —1 Cor. 6:2

The OPA has boosted the price of butter to a pound, 1c, see how, what is butter?

Public Cautioned to Remain Calm Concerning Polio—headline. Calm, yes, but not complacent.

America is returning the stolen German crown jewels to their rightful owners. Wonder what the Nazis would have done?

There are still certain unsanitary conditions being tolerated in Sanford. We may regret it before this summer is over.

We see where the Russian press is accusing Turkey of persecuting minorities. That's just the way the German press used to do before Hitler moved in.

Shades of Harry Brown and Herb Feikel. Imagine the St. Augustine Record coming out regularly as a yellow sheet—Leeburg Commercial. Yeah, but they're still coming out.

The government made a slight error in sending a tax refund check for \$55,555.55 when all he was expecting was a tax refund of \$25. Guess what, he sent it back—Titusville Star. Against inflation.

Another hotel fire, this one in Indiana, again illustrates the need for greater protection for those who are forced to live in hotels. The cause of the fire, as is too often the case, is unknown.

Senator Pepper points out that removing the meat subsidies which have been costing the federal government \$800,000,000 a year will raise the price of meat 50 percent. In other words the people who eat the meat will have to pay for it instead of saddling the burden on the taxpayers. What's wrong with that?

Martin County recommends legislative action toward state-wide mosquito eradication. The only way we will ever get rid of mosquitoes, gnats, and sandflies is through state-wide action since local action cannot permanently eliminate them as long as a neighboring county continues to let them breed. But what a great thing it would be for Florida if all such pests were completely eradicated.

What would have been the length of the maritime strike, if the country had not before it the example of President Truman's firmness in the face of the crisis created in the transport strike? Those commentators who declared that what the country most needed was a little firmness in the White House, seem to have had their philosophy justified.—Times-Union. Weak as his firmness was, it helped.

There seems to be no immediate prospect of any Ku Klux Klan re-organization in Seminole County, and possibly not in Florida. As there has been in Georgia and a few other states, and we see no need for it. The racial problems that exist today are not such as call for secret organizations, night riding, or the application of terroristic measures; but rather for intelligent and sympathetic study by leaders of both races. Given that and the problems that exist today can be solved.

Jack Johnson, the "Joe Louis" of our younger days, died the other day in an automobile accident in North Carolina. Many of the younger generation will say, "Jack Johnson? Never heard of him." Well, possibly not, but when we were about 10 years old, we sold more newspapers in two hours' time, and most of them to the colored residents of the city, than had ever been sold before because Jack Johnson's name was in the headlines. He had just knocked out a former champion, and he was called the "White Hope" because Johnson was a negro. Johnson held the title until 1916 when Jess Willard left him low in 15 rounds in Havana, Cuba.

The Great Plan

The plan for international atomic control is one of the greatest opportunities ever offered mankind. Here is the chance to outlaw war. Here is the chance for peace. Here is a plan as important for the world as the design for a United States offered a little group of colonies.

These few little colonies have become many great states under the plan of the pooling of their sovereignties into one great sovereignty. They have scrapped and been vituperated; they have pulled and hauled and once some of them tried to break the Union. It took bitter trouble to close that rift. But for 160 years the United States have been one nation and none of them now would forego the advantage of union.

It is true that under the Baruch plan for atomic control some fraction of the individual sovereignties of the nations would have to be turned over to a central sovereign group. But is not a fractional loss of sovereignty better than loss of existence?

Nor does this plan provide any sentimental giveaway. It is a tight, strong design of give and take, with the atomic secrets held by ourselves until the whole plan is set and working. It is probably not perfect. Few plans are. But the Baruch plan deserves the sincere, open-minded, concentrated attention of every American, and probably it ought to have one good try.

Bernard Shaw once said the only trouble with Christianity was that it had never really been tried. Peace hasn't been tried, either, on a scale taking in the whole world. Small samples of peace have always been approved. Why not take a long breath and put in an order for whole peace, everywhere and enduring?

New Blood

Government officials have been undergoing a demobilization not so different from that of the armed forces. Jobs are changing. Staffs are consolidating. Experts, their war work over, are returning to private business.

The result is a confused picture, with some departments overstaffed, others short of help, and a general scarcity of enough good people to do the jobs of peace.

So the advice of Dr. Robert C. Clothier, president of Rutgers, to this year's graduates, to go into politics and take on the responsibilities of citizenship, is particularly apt at the moment. "What is primarily needed is national strength, or national health, here at home," he says.

There are plenty of ways in which young graduates and veterans can help the country get its gears meshing again—from running for the smallest village office, and doing a good job, to applying for civil service positions calling for technical experts.

Jobs And Homes

Stories come in of war veterans getting into a terrible plight with their families for a double reason. They can find no place to live, and because this homelessness suggests instability to employers, they cannot get jobs.

The reverse of this pattern is even more familiar—veterans without jobs are looked upon with suspicion by landlords who fear that the rent will not be paid.

One person in this vicious circle who has faith, who is willing to take a chance on the veteran's past record and present earnestness, can usually break the deadlock and start a whole family on the upgrade again.

SANFORD FORUM

AN OPEN LETTER TO DR. R. W. RUPRECHT Sanford, Fla. June 13, 1946

Dear Sir:

After reading the talk you gave the Rotary Club at the meeting on Monday, we were very touched, but not too surprised, because we are well in knowledge of the "kind" of white people who live in Seminole County.

We, the colored people of Seminole County, thank you very much, (first) for even bringing this subject up in your meeting, (second) for seeing the issue as it is (third), for giving us the Statute of being a particular "good grade" of Negroes in Seminole County. We also thank the Sanford Herald for publishing the talk so we could read and save for a very priceless possession.

We will do everything in our power to live up to your and other "Ruprechs" honor. We again thank you. When the day comes that we will be looked on as a race or as an inhabitant of the United States, and people living in the community with the white race, not as an animal, we or our children will look back at the day (Monday, June 13, 1946) as the spark that gave us hope and courage to fight on and try to make ourselves worthy of the privilege to live, work, and help build a city, county, state, nation, world to live in, we can be proud of.

We are aware of fact that there exist a considerable number of illiterates, but as we always have said, if the city would employ truant officers and have them to execute the law to the limit this would cut that percentage down or completely out.

These are the things we want, we have our schools, churches, clubs, residential and industry section, all we want is a chance, we will prove worthy of the effort you and others are forth to accomplish this condition.

So again Dr. Ruprecht we thank you very much.

This letter represents the appreciation the colored people of Seminole County, in conjunction with the Negro Chamber of Commerce.

By Louisa Wright.

China Charges More For Mule Than Man

TIENSIN, China. (AP)—Mines in North China are finding that human life is pretty cheap in this teeming country.

In accidents involving Marine equipment the U. S. government is called on to pay about \$50 in American money at the current North China rate of exchange for each Chinese life lost.

Where a mule is killed in a similar accident the government

Tuberculosis Treated On Part-Time Basis

MOSCOW. (AP)—The Soviet government will double the number of its night sanatoriums to treat tubercular industrial workers while they remain on the job. By the beginning of 1946, such institutions were treating some 50,000 patients yearly in Moscow, Leningrad, Siberia and the Urals. Night sanatoriums were established first during the war near factories to give special diets and rest to workers in the first stages of tuberculosis.

Few Trees Achieve Tree Score And Ten

STAMFORD, Conn. (AP)—Very few trees die of old age. Most of them die prematurely because of lack of care or ravaging by insects and disease. F. A. Bartlett of the Bartlett Tree Research Laboratories says. Normal life span of an elm is around 400 years, a hemlock 600. Yet a 250-year-old tree is a rarity. Bartlett said, "Because many of our fine trees are living under unnatural conditions and fail to receive proper care."

Ninth Inning Rally By Feds Is Climaxed By Dave Bride's Double

Celery Feds Travel To Palatka Tonight For Return Contest With Myril Hoag's Nine; Play DeLand Here Thursday Night

By JULIAN STENSTROM
Herald Sports Editor

The old baseball proverb that it's never too late to win a ball game proved to be quite true last night at the Municipal Park when the Sanford Celery Feds pushed over five runs in the last half of the ninth frame with two men out to claim a 5 to 4 verdict over Myril Hoag's up-and-coming Palatka Axles.

It was the wildest finish the Feds have recorded in the scorebooks thus far this season. Here's exactly what happened: The Feds entered the final half of the ninth with the score 4 to 0 in favor of the Axles. The first man at the plate was Buddy Lake. He beat out an infield hit, Jule Howington, who played right field last evening, grounded to second to force Lake. Bob Tuttle came up and patted a long double to deep right and moved Howington over to third. Theobald on the mound for the Axles, walked Manager Ed Levy to fill the sacks. Don Zappel whiffed but Goose Kettles, batting for Jim Payne who relieved Charlie Blison in the eighth when the little right-hander was removed, for the till for a pinch hitter, walked to force Howington over to first. Jerry Silverman came up and worked Theobald for a walk also and Tuttle scored the second marker.

At this point, Manager Hoag came in the game and took over the mound duties from Theobald. While pitching to Al Bryant, his receiver, Lake, let one of the pitches get away from him and Levy came home with the third run. Bryant walked to fill the sacks.

Dave Bride, Sanford's second baseman, slammed one of Hoag's pitches to the right-center field wall for a double and Kettles and Silverman raced home with the tying and winning runs. The stands went wild.

Charlie Blison started on the hill for the Feds and hurled excellent ball during the eight innings he toiled. The able chucker had only permitted seven scattered bingles during the contest and a single run. He was taken out in the last half of the eighth for a pinch hitter, Jim Payne, who was promptly knocked for three runs by the Axles on a pair of hits, a free pass and an error.

Palatka's first run came in the third when Theobald singled, went to second on Rodgers' walk, took third on Kuren's single, left and scored on Dabbs' infield hit.

Theobald, the Palatka hurler, sided his own cause last night with two hits, a single to left and a double to right, in four trips to the plate.

Tonight the Feds travel to Palatka for a return tilt with Hoag's nine. Tomorrow evening

SPORTS ODDITY

Ever hear of a baseball player getting fazed by hitting a home run?

It happened to Vince of the famed DiMaggio brothers while he was playing for San Diego of the Pacific Coast League.

There was a man on third as Vince came to bat. Frank Shellenbach, who was team manager, then, instructed him to work the "squeeze."

A nice fast ball headed for the plate and Vince forgot all about instructions. A lusty swing sent the ball into the left field bleachers for a homer.

Vince trotted around the bases, touched home and headed for the bench, expecting congratulations.

Instead, Shellenbach scowled and said, "When I say squeeze, don't mean take a hold and slam the ball out of the park. That home run will cost you just 25 bucks."

They meet the DeLand Red Hats in DeLand and return here Thursday evening for another battle with "Bill" Puch's organization which has regained its fourth place berth in the loop standings.

With the Wednesday night world heavyweight championship bout drawing ever closer, title-holder Joe Louis is still rated a 12 to five favorite over challenger Billy Conn. The public is backing the champion, and most of the experts are picking Louis to win by a knockout. Among the exceptions is the Associated Press boxing writer, Sid Feder, who picks Conn to dethrone Louis. As the two engaged in their final boxing sessions yesterday, Louis weighed about 212. That's within two pounds of what he expects to weigh at the official weighing in at New York's Madison Square Garden tomorrow at noon.

INSIDE SPORTS REPORT

By JULIAN STENSTROM

Commissioner to Meet
I. N. Kennedy, director of the Game and Fresh Water Fish Commission, has called a meeting that is to be held by the Commission at the Marion Hotel in Ocala on June 11. The meeting, according to Kennedy, is being called for the purpose of setting hunting rules and regulations for the 1946-47 hunting season. The Commission will be glad to hear, Kennedy says, from any interested persons or to receive recommendations from any individual, group or club.

As far as we're concerned it appears to be a good chance for the Seminole County Sportsman's Association to voice some of their proposals.

Yarkee Stadium continued to be the scene of orderly confusion this morning as workers prepared the vast arena for tomorrow night's heavyweight title bout between the champion, Joe Louis, and the challenger, Billy Conn.

Getting back to Yankee Stadium, the ring was erected yesterday afternoon and temporary stands are still going up. Electricians were installing lights above the ring—28 lights with four photo-flood lamps, each equivalent of a 1,000 watt bulb.

Ring side seats, which went for \$100 per throw, are being placed approximately 40 feet from the ring. This is to make room for members of the working press and other officials.

SPORTS LAUGH

By Associated Press

The Memphis team of the Southern Association was losing the ball game one day and Manager Larry Gilbert was being ridden by the crowd in the stands.

Milk Mixture for Stomach Ulcers

A recent medical discovery now used by doctors and hospital workers has proven amazingly successful in the treatment of stomach ulcers caused from excess acid. It is a harmless preparation yet so effective, in many cases the pain of stomach ulcers disappears almost immediately. Also recommended for gas, indigestion, heartburn, flatulence, and acidity. Sufferers may now try this at home by obtaining a bottle of LUBIN from their druggist. LUBIN contains this new discovery in its most potent form. Easy to take, just mix two teaspoons in a half glass of milk. Costs but little. About equally as money refunded.

Seahawks Of Miami Sign Up Chuck Taylor

More Guard Talent Is Added To All-American League

MIAMI, June 18. (Special)—Charles A. (Chuck) Taylor, all-league Coastal Conference guard on the 1940 Stanford endrella team that won nine straight games and the conference title, then defeated Nebraska in the 1941 Rose Bowl, has been signed by the Miami Seahawks, President Harvey Heater of the All-America Football Conference team, announced Saturday.

Taylor was practically a unanimous choice for all-Coast teams his junior and senior years at Stanford, and received numerous all-America mentions. In the Navy, he was a standout with the Little Creek, Va. Navy Base team in 1945 that won the Atlantic Fleet title.

Taylor rounds out an outstanding array of Seahawk guard talent that already includes such former stars of college and pro ranks as Buddy Jangmichel, Texas all-American; Mike Cartronis, Georgia; Joe Kricouski, South Carolina; Tony Camore, Brighton, and Philadelphia Eagles; and Libero Bertogrelli, Washington (St. Louis) and Chicago Cardinals, Coach Jack Neugher said.

Currently, Taylor is studying in his master's degree, and is assisting Coach Archie Stewart in coaching the Stanford line-men. He has resigned at the University, as of July 1.

Bidault Named President Of French Nation

New Chief Executive Confronts Difficult Task In Forming 3-Party Cabinet

PARIS, June 19, (AP)—A leader of the French Popular Republican movement, Foreign Minister Georges Bidault, has been elected President of the Interim French government. The Constituent Assembly named Bidault to the nation's highest office today by a vote of 484.

His election had been practically assured when the Socialists pledged their 128 assembly votes to Bidault. No opposing votes were cast in Bidault's election. The Communists refrained from voting.

The new President faces difficult problems in any attempt to form a three party cabinet. However, the Communists have given indications that they may resign themselves to entering the new government. As for the Socialists, they have asserted that they'll be party to no government which does not include the Communists.

Bidault's party emerged from the recent elections as the largest political party in France.

Marines Will Help Chinese Retain Order

General Refuses To Say Whether Troops Will Defend Tsing-Toa Port Defenses

TSINGTAO, China, June 19, (AP)—The commander of United States Marine forces in Tsingtao, China, today said his troops would not Chinese authorities of the city. Chinese Communists are the key Shantung Province port city.

General Clement, Brigadier General Walker, declined to say whether the Marines would defend the city of Tsingtao itself should the Communists move against the port's defenses. The Communists are said to be on the move on the shores of Tsingtao.

Clement also declined to comment on rumors that the Communists had asked the Marines to withdraw from Tsingtao. The port city was once a summer playground for parts of the British and United States Asiatic fleets.

General Clement said he did not wish to amplify his statements about the Marines' maintaining peace and order but said it was apparent that he meant to keep the Marines in the port.

Maritime dispatches from Peking quote Communist propaganda as asserting that the Communists are sure they will be over the United States had not sent a large force of Marines to Tsingtao and had not given them weapons. These propaganda asserted that American troops would be sent to the Shantung government while peace negotiations are in progress, what they called an "unfriendly gesture to the Chinese people."

Bikini Warm-Up For Atom Bomb Test

APPROACHING BIKINI Atoll, the United States Navy today announced that the atomic bomb test scheduled for July 1 at Bikini Island, Marshall Islands, will be the first of a series of tests. The tests will be conducted by the United States Navy's Operation Crossroads. The tests will be conducted by the United States Navy's Operation Crossroads. The tests will be conducted by the United States Navy's Operation Crossroads.

British Begin Searching For Kidnaped Men

Jewish City Of Tel Aviv Under Curfew; Roads Blocked In Palestine Section

JERUSALEM, June 19, (AP)—A search of several Jewish settlements along the Lebanese frontier began today in an effort to locate a party of armed men who have kidnaped five British officers. The Jewish coastal city of Tel Aviv, already is under a strict curfew and all roads through the upper Galilee section of Palestine have been blocked.

No information regarding the whereabouts of the officers at the border. It has been reported that telephone lines have been cut off supposedly to prevent alarm from being spread to other settlements.

Terrorism in the Holy Land during the last three days has resulted in the death of 15 persons and the wounding of 100 others. Military authorities here, while having proclaimed a new curfew in Tel Aviv, said that the situation in the Holy Land is still very serious.

The British government today announced that it had received information that the officers had been kidnaped in the area of the Lebanese frontier. The British government said that it was sending a search party to the area.

Enraged Tampa Husband Beats Wife To Death And Slays Son-In-Law

Killer Is Fatally Wounded When He Attacked Detective With Hammer; Daughter Sustained Head Wound

TAMPA, June 19, (AP)—Capt. D. D. Stephens reports that today an enraged husband beat his wife to death with a hammer as his daughter watched, virtually decapitated his son-in-law in another home some distance away, and was fatally wounded himself as he attacked a detective with the blood-soaked hammer.

Stephens identified the dead as Joseph Tucker, the husband, Mrs. Joseph Tucker, the wife, and Curtis Alan Nipper, the son-in-law, who was slain in a cottage at Palmetto Beach.

The daughter, who is 13 years old, is in a hospital with a painful head wound received when she was struck by a hammer as she tried to help her dying mother.

A son, who is 19 years old, told Capt. Stephens that he ran out of the house as his father hammered his mother several times and found himself locked out. He said he battered the door open and sawing the axe at his father but missed, according to reports.

Detective Jack Shykore, investigating the slaying of Mrs. Tucker, discovered the husband hiding in bushes near the home. When the man came out with the hammer upraised, Shykore says he struggled to disarm him and when he was struck with the hammer he shot Tucker, fatally wounding him.

Before dying, the man told officers they would find a body in the Palmetto Beach cottage.

The couple's two children told Capt. Stephens their father had been estranged and recently has brooded over imaginary wrongdoings within the family.

Capt. John Pope Arrives In U. S.

Capt. John Pope, son of Mr. and Mrs. H. R. Pope of this city, arrived in New York yesterday after serving with the Army in Nuernberg, Germany, as supply officer and with the 16th Armored Division in Okinawa, Saipan and Iwo Jima.

Capt. Pope is now at Camp Kilmer, N. J., and expects to begin his terminal leave on Saturday arriving in Sanford early next week.

UNION CITY, June 19, (AP)—An ELK joined the ELKs club in Union City last night. His name is Harry Elk and he is a veteran of World War II.

Mrs. William Wray Speaks Before Members Of Women Voters League

"There is one thing better than good government, and that is government in which all the people have a part," quoted Mrs. William Wray before the Women Voters League at the meeting of the Seminole County Chamber of Commerce Building last night with Mrs. Mayme Holkman, president, presiding.

The earliest form of city government in the United States was modeled after the prevailing colonial American city or borough was governed by a council consisting of a small number of aldermen and a larger number of councilmen who all met together in one body, with a mayor as the presiding officer," continued Mrs. Wray.

"After the Revolution changes began to take place in city government, in that it limited the number of councilmen and the state legislature. The mayor was given greater powers, but the chief powers of government still remained in the hands of the council. Both council and mayor were now elected by a vote of the people.

"Since 1900, they have developed two new forms of city government; the commission form, doing away with the council and placed in the hands of a commission of five persons elected by the people at large. Five departments were created and a commissioner assigned to each department. The chairman of the group was selected to serve as mayor and city officials were selected by the commission. In some cities the heads of these departments are nominated by the mayor and confirmed by the council; in other cities, the mayor alone makes the appointments.

"The city charter of Sanford was passed by the Florida Legislature in 1927, abolishing the then existing municipality, and creating a city commission to consist of three members who shall hold office for three years beginning on Tuesday after the first Monday in January after their respective election. The charter states that the City Commission shall be the judge of the election and the qualifications of its own members, subject to review by the courts.

Submarine Chaser Here For Training Naval Reservists

A trim gray submarine chaser which saw active service during the war in the Atlantic and Caribbean Seas, arrived Sunday from Jacksonville and is now docked at the Municipal Pier and will remain here indefinitely for training of Naval Reservists of the Jacksonville-Duval Naval Reserve.

The six man crew includes Ensign H. W. Strauss, second in command, G. F. Keene, RM 2-c, M. V. Lee, MCM 1-c, J. A. Kubiak, RM 2-c and William W. Treida, SC 1-c. All of these men have had 16 months to two years of active duty with No. 679 as the boat is designated. During wartime the vessel had a crew of 24. Ensign Sauerwein said today that he expected to receive his discharge soon from the service and return to his home in Buffalo, N. Y. The present crew will be replaced by Naval Reservists.

The sub-chaser is 110 feet long, and is powered by two 500 horsepower Diesel engines. It is armed with one 40MM and three 20MM guns. Because of the shallowness of the river (they pushed mud at seven feet on the way here) the depth charges were removed, said Ensign Sauerwein.

Equipment includes radar and radio in use of which reservists will be instructed, and they also learn principles of gunnery, and how to take care of the ship, which has the equipment on a smaller scale than a larger Naval vessel has. There are comfortable sleeping accommodations for the crew.
