Memories Play Tricks

They Have Wrong Man

DEAR DICK: I pray you can help us. My husband, Mr. Decker, is a World War II vet, with the 1270th Engineers Corps in Europe, '44-'46. He swears that country singer Slim Whitman was a pal of his in Germany, and a private in the Corps. My husband says this man carried his guitar all over Germany and they used to sing together. Mr. Decker used to play trumpet with him at church services and holidays. Could you please give us his address to see if an old friendship can be rekindled - if it is the same person, LLEORA AND EDWARD DECKER, Stuart, Fla. DEAR DICK: For several years I've been seeing an

actor that I'm sure I served with in the U.S. Navy. At that time, his name was Jack Hellman. In his movie credits, it is Richard Jaeckel. Can you tell me something about him? We were very good friends in 1941-44. PAUL JONES, Berea, Ohio.

Sorry, but you both have the wrong man. Slim Whitman was in the Navy in World War II, serving aboard the USS Chilton - so that wasn't him back there in Germany. And Richard Jaeckel - that's his real name - spent his World War II years in the Merchant Marine, not the Navy. After all these years, memories do have a way of fooling us. DEAR DICK: In reference to your Q & A about the country boy sketch copied from Andy Griffith - Gary

Sandy, of "WKRP In Cincinnati," did that once on Mike Douglas' show. He repeated it on another talk show, and mentioned that Andy Griffith did it first. I respect a man for giving credit where credit is due. IRIS SCHWARTZ, Hollywood, Fla.

I do, too. So I want to credit Iris Schwartz, of Hollywood, Fla., for telling me that it was Gary Sandy who did that

DEAR DICK: Please tell me the name of the actress who played the daughter of Katharine Hepburn and Spencer Tracy in "Gues Who's Coming To Dinner." My sister claims it was Katharine Ross and I'm sure it isn't.

Ask Dick Kleiner By DICK KLEINER

KATHRYN MANN, Ventura, Calif.

You're right. Her name is Katharine Houghton. . DEAR DICK: I have a bet with my son-in-law. I say that Cheryl Ladd is Alan Ladd's daughter-in-law. She is married to David Ladd. My son-in-law says Cheryl Ladd is Alan Ladd's daughter. Please tell us who is right. MRS. FERN, Cleveland.

You are closer than he is. Cheryl was married to Alan's son, David. But that marriage is now finished. DEAR DICK: Several employees of The Eaton Corporation would like the following information: In the TV movie, "Moviola," who played the part of Marilyn Monroe's agent, Johnny Hyde? AL KOCURKO for

EATON EMPLOYEES, Cleveland. Lloyd Bridges played Hyde in "This Year's Blonde," part of the "Moviola" trilogy. Richard Basehart played the same character in "Marilyn, the Untold Story." Both were miscast, because Hyde, in reality, was short and dark. Now get back to work.

DEAR DICK: Did John Ritter, of "Three's Company," ever play a preacher on "The Waltons" some years back? Lack of sleep is riding on your answer. MRS. DILIE BRANDT, Jersey Shore. Pa.

Yes, Ritter was the Rev. Matthew Fordwick on many episodes of "The Waltons" in the '72-'77 period. Rock-a-

Florida Sues Feds Over Refugees In Jails

MIAMI (UPI) - Florida officials have turned to the courts in an effort to force the federal government to take custody of all undesirable Cuban and Haitian refugees who are overcrowding Dade County jails.

The suit names as defendants President Reagan, Secretary of State Alexander Haig, Attorney General William French and the regional and district heads of the Immigration and Naturalization Service.

"The Carter Administration dropped the ball and the Reagan Administration has let it lie there," said Sydney H. McKenzie, chief trial counsel for the department of legal affairs, who filed the suit in Miami's U.S. District Court Friday on behalf of Florida Attorney General Jim Smith.

The "third party" action notes that the federal court, in a class action suit filed by Charles Bridges on behalf of Dade County jail inmates, ordered a sharp reduction in the number of inmates held in the jail.

Smith's suit contends the jail overcrowding is "a direct result" of the influx of Haitian and Cuban refugees into South Ex-hostage Malcolm Kalp (left) clowns with Chinese mercenaries in

"As a result of the policies pursued by the federal defendants or their predecessors in office, in excess of 100,000 Cuban-Haitian nationals were relocated in Dade County," the complaint said.

"Due to the cursory nature of the background checks and physical examinations, many of the Cuban-Haitian arrivals that were released into the community were of a criminal character and-or were afflicted with disease or mental illness...

"As a direct result of the policies pursued by the federal defendants or their predecessors in office, the areas affected by these policies, and most significantly Dade County, have experienced a high level of criminal activity by the new arrivals ... "The federal defendants or their

Truck Stop Restaurant, 1500 French Ave., about 4 p.m. on May when Hasson arrested him, thinking he was a man named Thomas Isaac, who was wanted for failure to appear in court. Wynn said he told Hasson he was not Issac, but had no dentification to prove it. As a result, he was held in the county jail for three days.

On May 5, Wynn contends that probation officer Bill Rousch visited him in jail, realized the wrong man had been arrested and notified deputies.

Wynn claimed he was detained another day before being released without explanation. — BRITT SMITH

Cover Blown, Narcs Come Up Empty

It was an eventful if less than productive Friday night for two Seminole County undercover agents.

The pair were working on a major drug deal at Capt. Hook's Bar, State Road 436 in Altamonte Springs, about 10:30 p.m. when Mark Williams, 21, of 1005 Gregory Dr., Maitland blew their cover by telling suspected narcotics dealers Tyrone Wayne Baker, 33, of 7142 Forest City Rd., Orlando, and Arnold David Peraldo, 18, Camden Rd., Maitland, that they were law enforcement officers.

According to a sheriff's report, Peraldo had previously discussed selling 12,000 amphetmaine tablets to the agents. Baker was to sell them 50 tablets, the report said. When the officers' identities became known, Charles Scott Doro, 21, of 514 Palm Springs Dr., Altamonte Springs, threatened them with a pool cue but was disarmed before he

could carry out his threat. Baker and Peraldo were being held in the county jail today in lieu of \$5,250 bond on a charge of conspiracy to sell a controlled substance. Williams was jailed for obstruction of justice and Doro for aggravated assault. Both were being held under

Reagan Aides To Examine **Budget Cut Proposals**

WASHINGTON (UPI) - President Reagan will hold a series of meetings next week with key economic advisers on proposed across the board budget cuts in nearly every federal agency.

Reports out of Washington say Saturday mail deliveries, Amtrak train service and urbans programs, survivors of last year's spending cuts, face a new threat from Reagan's budget ax.

Other proposals revealed by internal administration documents, include eliminating the Comprehensive Employment and Training Act program, which funds 315,000 public service jobs; reducing the child nutrition program, including school breakfasts and lunches, by \$1 billion in 1982; and \$1.7 billion by 1986; trimming the food stamp program by \$2.6 billion in 1982 through tightened eligibility; cutting Aid To Families with Dependent Children by \$671 million in 1982 and about \$845 million by 1985; cutting social security by \$700 million in 1982 and \$1.7 billion in 1985 by eliminating the \$122 per month guarantee now applying to three million recipients.

The documents also show proposals to chop \$6 billion fromt he budget of the Synthetic Fuels Corp., created to encourage private sector development of synthetic fuels: and slashing \$2.7 billion from 1981 funds for Trade Adjustment Assistance, which supplies uneployment compensation for workers tossed out of work by foreign competitors.

Atlanta Coroners Puzzled

ATLANTA (UPI) - Medical examiners said Friday they are puzzled by what appears to be a lack of physical resistance on the part of 14-year-old Lubie "Chuck" Geter and other youths killed by strangulation in Atlanta's string of missing and slain black children.

Fulton County Medical Examiner Dr. Robert Stivers described Geter, whose body was found Thursday, as 5-7 and 130 pounds - "a big strapping fellow who could have put up a hell of a battle." But he said there were no marks on the body other than some destruction inflicted by animals such as opssums and dogs.

Stivers said his best guess was that a chokehold that would leave little physical evidence was used to render the voung victims unconscious or perhaps kill them. "It's another strangulation, but without any marks," Stivers said. "We've had a couple like that. It looks like a chokehold - someone coming up from behind and catching the child in the crook of their elbow. It would only take a few seconds" to kill someone that way.

Pleas Expected For Garwood

CAMP LEJEUNE, N.C. (UPI) - Attorneys whose Garwood failed to convince a jury of five Marine oflicers will turn to psychiatric testimony in the sen-

tencing phase of his court-martial. "We are going to have a psychiatrist come in here and testify about Bobby's need for treatment," attorney Vaughan Taylor said Friday, one day after Pfc. Garwood was convicted of collaborating with the Viet Cong and of assaulting an American prisoner of war. The same five jurors - all Vietnam veterans - will recommend a sentence for Garwood at the conclusion

of a hearing scheduled to begin next week. Garwood, who ended a 14-year stay in Vietnam in 1979 by passing a note to a foreign businessman in Hanoi, could receive life imprisonment and lose \$147,000 in back pay on the collaboration conviction.

Connecticut Mourns Grasso

HARTFORD, Conn. (UPI) - The body of former Gov. Ella Grasso, the nation's first woman governor elected in her own right, will lie in state Sunday at the Capitol. She will be buried Monday with full military honors in the small mill town where she was born 61

Mrs. Grasso, who made political history in 1974 as the nation's first woman governor elected without succeeding her husband, died Thursday of cancer. The disease forced the former governor, known to most Connecticut residents simply as "Ella," to resign her

Her successor, Gov. William O'Neill, called on state residents to set aside Monday as a day of mourning. He asked bells be rung in places of worship and public buildings for five minutes at noon "for all those who cannot be at the cathedral at that hour."

Elvis Autopsy Sought

MEMPHIS, Tenn. (UPI) - Attorneys for ABC-TV will decide within 30 days whether to appeal a ruling that denies them access to a secret autopsy report on Elvis Presley.

Although the report was prepared by Shelby County Medical Examiner Jerry Francisco, Chancellor D.J. Alissandratos ruled Friday the autopsy was performed at the request of the Presley family and Francisco acted as a private physician.

Two reporters for ABC filed suit challenging the secrecy of the document, claiming it would reveal that Presley died of a drug overdose.

New Flu Becoming Active

ATLANTA (UPI) - Although an eight-week-old influenza epidemic sweeping the country seems to be leveling off, health officials said Friday a second virus shows signs of becoming active.

Dr. Timothy Nolan, an influenza specialist with the national Centers for Disease Control, said federal health officials were studying the "first documented outbreaks" this winter of the A-Brazil flu strain. He said the new flu strain was reported in an Atlanta elementary school and among university students in

Containing Freedom...

The infectious spirit of freedom let loose in Communist Poland last August by the formation of a workers' movement independent of the Warsaw government is proving, predictably DICK WEST enough, difficult to contain.

The initial discipline that contributed so much strength to the workers' Solidarity union last year has given way to an exuberant spontaneity characterized recently by hundreds of wildcat strikes all over Poland. These have been staged in defiance not only of the government, but often enough, of Solidarity's leader, Lech Walesa, as

We were in my husband's workshop with the radio turned to the Harry Kup talk show. Someone had called in about Auto-Train. I did not feel the caller was thorough enough in whatever it was he was trying to say, so I called to put my two cents worth in. And I might add that I did not reveal my identity, but Harry

A couple of weeks or so ago, U.S. Rep. Bill McCollum, R-Altamonte Springs, was on a national TV newscast and informed the listeners and viewers that Auto-Train was not necessary

Another recent editorial comment charged that cars arriving in Florida via Auto-Train were "gas guzzlers." The writer agreed with Mr. McCollum and suggested that travelers leave their cars up north, ride Amtrak and rent autos when they arrive here.

This line of thinking is in no way logical. It could be downright hostile instead of hospitable which should be the name of Florida's game. Pardon me if I am uninformed, but I understand that tourism is the No. 1 industry in our state. And tourism is a luxury in any state whether vacationers arrive by rail, land, sea, air, or in a

Oddly enough, the higher a country's living standards and the lower its dependence on foreign oil imports, the greater the pessimism evinced by many of its leading specialists. The prophets of gloom are most numerous in the United States and Great Britain. These are the very Western countries mat are least dependent on oil shipments from overseas. Both are favored by geography with large reserves of oil and coal and both can draw on an impressive reservoir of scientific and technological skills of the kind needed to cope with current energy problems. Our energy problems are real enough; so is the present economic recession. But our existing problems should be kept in perspective. They do not amount to an earth-shattering catastrophe. Between 1939 and about 1965, the industrial world increasingly shifted its supply of energy from horsepower (still the main power of locomotion for Hitler's armies in Russia during World War II), and from coal. Oil became the world's major source of energy and continued to be produced in ever larger quantities. Until 1974, oil prices actually declined in real terms. Thereafter prices increased, but for all the international hullabaloo concerning OPEC's alleged rapacity, the average American worker needed less time in 1980 to earn

Hornets' Win Gets Under 'Digger's' Skin

Just because Oviedo's Dale "Digger" Phillips was playing Bishop Moore's hallowed Catholic institution doesn't mean he to "turn the other cheek. In fact, after the Hornets' Gregg Robinson insisted on

shooting two meaningless foul shots after regulation time had expired in Bishop Moore's 65-59 victory Friday night -Phillips was ready to turn Robinson upside-down. "I wanted my kids to see this," said an incensed "Digger" who brought his squad back from the locker room to witness

Quentin Green's charity tosses. "That was a very nice gesture on his (Robinson's) part to insist on shooting the free throws," said Phillips very facetiously. Phillips hopes the point(s) are well-taken by

Bishop Moore, which lost an earlier 52-49 encounter in the Golden Dome, broke to a quick 6-2 advantage before Ronnie Murphy and Doug Meyer collaborated on 12 of the next 14

points for a 15-9 Oviedo edge at the quarter. . The Hornet's potential all stater Greg Mullee couldn't get untracked in the first quarter as he was held scoreless trying to

"They played me real tight," Mullee said about Oviedo's close quarters. "I didn't have room to move."

Which brought a move from Robinson to free the talented senior. "We were in our power (inside) offense," pointed out the dapper Robinson. "We changed offenses to our motion which utilizes a four-man rotation."

The change also put Mullee in motion as he ripped off eight second quarter points from the 15-20-foot range to pull the Hornets ahead at halftime 31-25.

During the span, the Lions' Murphy was just a spectator like the rest of the packed throng, having picked up foul number three with 5:59 in the half to go.

"Digger" when queried about Murphy's availability when the "It's a long game and anyway, it was real nice of Gregg to

get that technical foul. We really appreciated it," said Phillips sounding a bit less facetious. "That could've really hurt us," conceded Robinson about a

bench-kicking incident which resulted in an unusual six-point play which kept Oviedo in the game. In the second half, though, it was Murphy, county scoring

leader Bill Burgess and Mullee inflicting the pain. Mullee continued his outside barrage for 37-31 and 39-33 leads, but Burgess and Murphy pulled the Lions within range until Meyer connected with 20 seconds left for a 43-39 third

In quarter four, Green and cool David Dizney combined for a 48-43 lead until Murphy hit two free throws, then followed his

shot beautifully to pull Oviedo within 48-47. Seconds later Burgess hit three and Mullee two for a brief 57-56 Lion lead. Green countered with one of his own and when Oviedo threw the ball away with 1:32 remaining — it was time for "Dizney World."

With just 43 ticks left, the calm and collected junior dropped two tosses to put the game out of reach 60-57. "Coach Robinson said, 'if you sink these, it's over,' " in

formed the talendted junior. "I took my time. I knew it would put it out of reach."

And 19 seconds later, Dizney put it permanently beyond reach by dropping two more for the Hornets fifth victory in 24

tries. They are 18-6 discounting forfeits. Bishop Moore (65): Mullee 18, Dizney 16, Saunders 9, Green 15, Conroy 2, Tyson 0, Perkins 3. Totals: 23 19-26 65.

DeLand didn't forget an early season one-point loss to Lake Brantley when the Pats invaded Bulldog country Friday night. The Dogs got their revenge by executing Brantley 85-60 to

move a half a game ahead of Lyman and Spruce Creek in the Five Star Conference race. If the Patriots didn't have enough problems trying to stop DeLand's machine gun like offense inside the perimeter, they had to hold them from half court.

The Bulldogs ended the first three quarters by sinking a trio of "hail Mary's" from the 35 to 40 foot range. They ended the game by sinking a shot from half court. "After the first quarter their shooting was ungodly,"

Brantley coach Bob Peterson said. After a slow first period, the Bulldogs exploded for 27 points in the second eight minutes to take a 36-19 advantage into the locker room. They never looked back as they

pushed their season mark to 16-4. "We missed the front end of the one and one four times in the second quarter," Peterson complained. "Jay (Poag) and Tommy (Moths) didn't have good nights." The 6-foot-4 Moths, who went into the game as the third

leading scorer in the county with a 16.3 average, picked up only five points for the night against the Bulldog frontcourt of Randy Brown. Darrell DeShazier and John Ramsey (all 6-foot-3). Poag, who heads the squad in assists and in second behind Moths in scoring, was held pointless.

Fred "Cool Breeze" Hinson led all scorers with 23 points, but Peterson was impressed with the shooting of tiny James McGee who joined DeShazier and Mark Brown with 12

"Number 34 (McGee) pumped some out-of-sight shots," Peterson exclaimed. "I thought we could leave him alone, but he hit from downtown at the end of each quarter." Leading the way for the 5-17, 3-9 Patriots was junior Tim Heath with 13 points. Guard Andy Luce added 10. Lake Brantley has lost seven in a row and ten of its last 11 games. A display of rare, original printed pieces from the fascinating history of the world of print is coming to Sanford — the first time the exhibit has been to Florida, according to Bill MacLauchlin, right, who shows

A Page Out Of History

Herald Staff Writer

When Johann Gutenberg invented the moveable-type printing process in the second quarter of the 15th century, e opened the doors to a whole new industry that was to revolutionize the world of knowledge.

Prior to that date books were reserved primarily for the hurch and the nobility. Each book was copied by hand and its distribution limited. It was certainly not meant for the common man. The printing industry changed all this. What some

consider to be the most important invention in the history of mankind, the printing press enabled the entire knowledge of man to be available to the masses. From the time one's name is printed on his birth certificate until his obituary appears in the local newspaper, some form of printing touches a person's life almost every

The wheels of government and business cannot turn obtaining an acceptable image. This magnificent without the product of the printer. It is reported to be the largest industry in the United States in-so-far-as number of establishments.

Truly a product of the free enterprise system, the printing industry is made up primarily of small shops with ten or less employees.

To make the public more aware of this important industry and to perhaps interest youngsters to consider this fascinating industry as a career, an exhibit of rare and unusual examples of printing is coming to Sanford presented by the Flagship Bank of Seminole and the Celery City Printing Co., Inc.

"A Page Out of History," billed as "a display of rare, original printed pieces from the fascinating history of the world of printing," will be on display, beginning Monday through BFeb. 20 at the downtown Flagship Bank. Bill MacLauchlin, president of Celery City Printing, read about the exhibit in a trade publication and

discovering it had never been in this area, arranged for the pieces to be shipped to Sanford. "I thought school children might like to see it as well as printers," he explained, "but it should be of general interest." The exhibit was conceived by "Printer's News"

publisher Cy Stapleton, and contains numerous important and interesting pieces from printers of the past. The following pieces are included EGYPTIAN PAPYRUS. This fragment dates from

Happy Singles: A Fun-Loving Group

By CHARITY CICARDO Herald Staff Writer

WANTED: Mature, fun-loving singles. The Happy Singles are just that, a happy, mature, fun-loving group who dispell every notion that - people over 40 are "ancient; that people past 50 are "over the hill"; that people are 60 are "going fast"; and people over 70 have "no hope at all."

The Happy Singles are an energetic group who live life to the fullest - or at least that is one of their goals. The group meets every Monday at 1 p.m. at

the Deltona Public Library. Although the small organization was started by peppy Deltona resident Dora Goldstein, the organization is not limited to that town's residents. The organization is made up members

within a 50-mile radius of Deltona. The group now captures the interest of 40 members since its beginning five months ago with the membership growing every week. It is primarily for singles, but the leader is "happily married." "I have a friend who wanted com-

panionship," said Dora explaining how the club evolved. "So, I went with her to a computer dating service." The dating service was going to charge over \$500 to find Dora's friend a companion. Dora said she could find friends cheaper than that. And she did. She advertised the club in several area

newspapers. At the first meeting on Oct. 27 there were four people. As the word traveled, the club grew, attracting people from an exmayor to a social worker to a housewife. Most of the people in the club are single because of divorce or death of a spouse. The

group encourages and supports each other.

Children Asked For Letters On Family Issues

Special to the Herald Children will explore the problems facing children and their families for Save the Children's fourth annual letter-writing campaign sponsored in honor of Save the Children Day. Save the Children, the international child-assistance agency, is inviting children from across the country to voice their

opinions in letters to the President of the United States. The letters will be presented, along with oral testimony from children, at a special hearing with government leaders in Washington, D.C., on Save the Children Day, May 1.

Children participating in this national campaign are being asked to write on the theme: Dear President Reagan: "This is the biggest problem facing families today, and here's what should be done about it..." The letters are to be mailed to Save the Children Day '81, Westport, CT so that the leading concerns can be tallied and summarized into the 1982 Children's Agenda Last year, more than 20,000 letters from children in almost

Spring Is Season For Pants

Something For Everyone In **Varied Styles**

NEW YORK (NEA) - Spring is the season for pants. Giorgio Armani of Milan was so sure of it that he did his spring collection entirely in all kinds of pants. While unwilling to go that far, American designers are also making a bigh thing of We're not talking about classic slacks, either. Halston came

up with slim Bermudas topped with a petal-shape overskirt. Perry Ellis went back to the Dutch genre painters for Rembrandt-pleated bloomers in broad stripes of red and navy. Calvin Klein has a new version of culottes he calls "skirt pants." Culottes are an alternative to the Paris attempt to revive the mini-skirt.

Bill Blass does a costume of white-faced navy coat, red popover and white culottes, all in lightweight wool flannel. Other designers do them longer, such as Pinky & Dianne, whose Private Label collection is always introduced in Milan. Their flared culotte looks like an easy A-line skirt until it Carol Horn likes her culottes at below-calf length, in white

Masandrea offers soft knickers and Chelsea-collared blouson top in white-trimmed yellow crepe. Albert Capraro creates a jaunty young suit of knee-length bloomers and vest in Scottish plaid with a ruffly blouse. Perry Ellis' Dutch bloomers also come in calf length in solid

colors with striped tops. The soft-flowing pants look is extended by Geoffrey Beene into full-length culotte. Most designers see culottes, or divided skirts as they prefer

to call them, as the most generally acceptable of the new spring pants styles. Bill Haire, who has been quietly designing culottes for several seasons, uses them as part of a suit in silk tweed, with a tunic-length, wide-shouldered jacket and a camisole top embroidered in ethnic style.

Biggest attention-getters, however, are undoubtedly the with a white cotton jacquard jacket fitted in the cadet style of pants of all kinds with gathered bottoms, starting with Perry the original. Ellis, who based his whole collection on bloomers of knee- and

He attended New Orleans Baptist Theological Seminary, from which he graduated in 1965 with a Master of Divinity Degree. He earned his Doctor of Ministry degree in 1975 from Luther Rice Seminary, Jacksonville. He formerly pastored churches in Alabama, Louisiana and North Pompano Baptist Church, Pompano Beach.

Young people in the local congregation recently attended a ski retreat at Gatlinburg, N.C., where Sager was a leader. Pastor of the local congregation, Dr. Jay T. Cosmato, will be present in the service following hospitalization over the past two weeks for a prolapsed microvalve of the heart.

"Born Again"

A feature-length film starring Dean Jones in the role of Charles Colson, "Born Again", will be shown Sunday at 7 p.m. at the First Baptist Church of Oviedo. The film, which is based on Colson's best selling book by the same name, relates his fall from the heights of power as Special White House Counsel to President Nixon to federal prison and his spiritual transformation. The special showing is open to the

Harvest Colobration

"Harvest Celebration", an internationally known gospel music group, will present a concert this Sunday in the 7 p.m. service of Seminole Heights Baptist Church, in the auditorium of Seminole High School. The group known for its musical excellence, variety of style and versatility, is comprised of 11 musicians ranging in age from 18 to 34. They sing the old hymns and the contemporary songs under the direction of their founder, Buz Starrett.

Terry L. Clark, church minister of music, says that the concert is free to the public but that a love offering will be received.

Luncheon Speaker

Lydia Dorsett of the Diocesan House will be the guest speaker at the winter luncheon of the Episcopal Church Women of Holy Cross Episcopal Church to be held at noon Monday in the parish hall. Her topic will be "The Christian Woman in Today's World." Members attending are asked to bring a salad or dessert.

More On Non-Legal Marriage

In a recent column, I dealt with the question of older couples who live together outside the state of matrimony because they do not want to lose much-needed pension and Social Security

Many of these couples feel guilty about "living in sin" and would like to be married in the eyes of the church. The article mentioned an Episcopal priest in the Diocese of Ohio who has performed such a religious, non-legal ceremony. Many readers have responded to that story.

From Mrs. John R. Boudiette of Suffolk, Va., has come this "I am concerned about the misinformation presented in your syndicated article.

"It discussed older 'single couples' who want to be married in the church but not in the eyes of the state. The inference was that an Episcopal priest would relieve their 'guilt' by marrying them but not follow up on his priestly duties by filing the required papers with the state.

'As an Episcoplaian I resent this inference. I have checked with my minister and with the laws of my church which state that 'no minister may solemnize a marriage unless... he has ascertained the right of the parties to contract a marriage according to the laws of the state.'

"Your story discredits the Episcopal Church and its priesthood. "Just because one priest, a 'friend' of yours, chose to violate the canons of the church surely does not mean that all priests do nor that the church condones such actions

nation-wide syndicated columns.' Here is a letter from the bishop of the Episcopal Diocese of Southern Virginia, Rt. Rev. C. Charles Vache of Norfolk, Va. . "I found your article ('Marry me, sort of,' Suffolk, Val. News-Herald, Dec. 14) to be amazingly full of misinformation

"Perhaps if you had taken a few moments to contact a priest other than your friend, you might have had the opportunity to obtain the information contained in the enclosed copy of the

GEORGE PLAGENZ

Apparently my Episcopal priest "friend" is not the only Episcopal clergyman who is performing religious, non-legal marriages for this is a letter I received from Mrs. Margaret Peterson of Albuquerque, N.M.: "We have a daughter who is afflicted with cerebral palsy.

She is physically handicapped and slightly retarded. She met a young man who is physically able but also slightly retarded. "They wanted to be married but you wouldn't believe the legal obstacles thrown up to them. "Their Social Security would have dropped drastically, the

young man would have lost his deceased father's servicerelated benefits, the American Association of Retarded Citizens would have denied them further aid or assistance the list goes on. "Finally they discussed their dilemma with an Episcopal priest. He gave them the same careful counseling he gives all

potential brides and grooms. After he determined that they

understood the meaning of marriage in the religious sense, he agreed to marry them. "I am tired of media misrepresentation. Writers should get "They had a small, beautiful wedding last August and are 'It is a relief to both families that these two people have each other ... It would have been a terrible thing to deny them the love, the companionship, the sexuality and the comfort they

derive from each other. 'As far as they are concerned, they are married. They understand their vows to love and to cherish and to be faithful. "As long as the government insists that a disabled person, who is entitled to collect Social Security and other benefits, cannot collect the same benefits if he or she is married, it

doesn't make sense to be married in the eyes of the state."

'Saying It With Flowers' **Costly Valentine's Choice**

GAINESVILLE - "Saying it with flowers" may cost more this Valentine's Day due to the State's mid-January arctic Freeze.

Frigid temperatures damaged many of Florida's food crops and seriously hurt fern growers in the four Florida counties which grow 90 percent of the world's

"There's no doubt that our local freeze will have worldwide implications," DeLand fern producer T.J.

Valentine shipments of greenery will be reduced, Lawrence said. He estimated 90 percent of the pamosa and 40 percent of the leather-leaf fern were destroyed Florida's cut-flower industry, which ships to markets east of the Mississippi, did not suffer as serverely.

"I expect Valentine shipments to be down 10 to 15 percent," preducted Bill Taylor of Stuart Cut Flowers,

Most of the growers on Florida's east coast were unaffected by the abnormally low temperatures, he said. The west coast of Florida did have some damage, according to Walter Preston, president of the Manatee

Agency Conservation Urged

Florida Comptroller Gerald Lewis has called on all State government agencies to closely examine their purchasing and compensation procedures in an effort to eliminate wasteful expenditure of Taxpayers' dollars in the coming decade.

In a speech to the Central Florida chapter of the Institute of Internal Auditors, Lewis said inflation, combined with sweeping changes in recent national elections, clearly showed the public's interest in eliminating unnecessary government spending. He pledged that the Comptroller's Office would continue to carefully scrutinize vouchers filed by state agencies to ensure proper spending of tax monies.

Lewis also praised the auditors' group for the valuable service they perform in private business and in government. The Institute of Internal Auditors is an international professional organization headquartered in Altamonte Springs. The Central Florida chapter in Orlando is composed of internal auditors for both the private and public sector.

Aluminum Centers Open

Saving household aluminum items for recycling is a project for the entire family to earn extra cash. Each Tuesday in February, consumers can take aluminum to Publix, Sanford Plaza, 1080 W. State St., from 2 to

At Reynolds Aluminum Recycling Co.'s location in Sanford, you will receive 28 cents per pound for allaluminum cans and other clean household aluminum products. This price includes the national price of 23 cents per pound, plus a 5-cent-per-pound bonus. The bonus is subject to change or withdrawal without notice depending on local market conditions.

Every Wednesday during the year, take your aluminum to the parking lot behind the Greater Sanford Chamber of Commerce building at 400 E. First St. and receive 30 cents a pound.

You can take your aluminum and other scrap medal to Kokomo Tool at 918 W. First St., Sanford, any time during the day. The company is currently paying 30 cents a pound for aluminum.

Methods Of Recall Must Be Revised

Are you still using a hair dryer with asbestos insulation? If you are, you're not alone. Many people still have and use these and more than 120 million other items that have been recalled by the Consumer Product Safety Commission (CPSC). Since 1973, more than 2,600 actions have been initiated by the CPSC. The National Highway Traffic Safety Administration (NHTSA) has recalled more than 86 million cars, trucks, motorcycles and other vehicles since auto recalls began in

Recalling a product is one thing, but getting it returned, repaired and or replaced is another. Of the 60,000 owners of certain Sears, Roebuck electric fans recalled because of a potential for overheating and bursting into flame, only two percent returned the products. The other 98 percent, presumably, like to live dangerously. Or, perhaps, they threw the fans away. Nobody knows.

Why have recalls been so ineffective? Two recent studies, one by the CPSC and one by NHTSA, point to similar problems. Sometimes the message just doesn't get across to the people affected. There are a lot of recalls and not all of them are widely reported in the media.

In some cases, companies don't rely on the media, but try to notify individuals who may own a dangerous vehicle or product. That's difficult, since there is rarely (if ever) a complete list of everyone who owns a given item. Even when the buyer does register a purchase with the manufacturer, as you do when you buy a car, for example, he or she may have moved by the time the product is recalled and the notice is

Another reason for low response to recalls, the CPSC found, is that with the increasing number of recalls, many consumers have simply become numb to the hazards. Last June, Consumer Reports asked readers: "If you haven't responded to a recall, why not?" Some common reasons emerged.

Often, the owner felt it was just too much trouble to follow through. Motorists may need their vehicles to get to work and can't take the time, or find it too inconvenient to make the repair or replacement. Many felt that the recall was not really necessary, or that the danger was so remote that it wasn't worth the effort. Others don't doubt the need for a repair-they just doubt it will be done, or done properly.

Starting with the January 1981 issue, Consumer Reports magazine will publish a regular column on product recalls, focusing mostly on CPSC and NHTSA actions. The notices involving the greatest hazard or affecting the largest number of people will be published, along with the action that affected owners should take.

Farmers Joining Computer Age

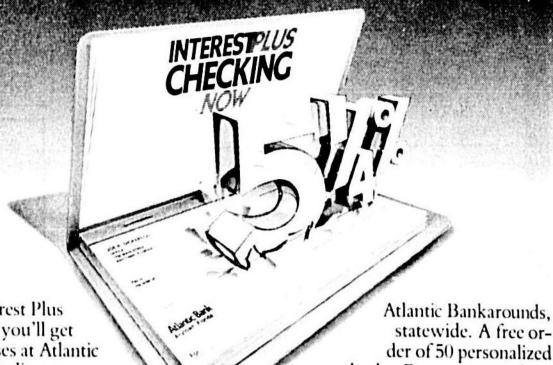

GAINESVILLE - Florida farmers are entering the computer age. Growers now are receiving fertilizer recommendations from data stored in a University of Florida (UF)

The service recently went on line, Dr. Jerry Kidder, UF Extension soil specialist, said. Prior to computerization, Florida farmers - or homeowners - sent their soil samples to the UF Institute of Food and Agricultural Sciences (IFAS) Soil Testing Lab, indicating what crops they intended to plant.

Handwritten results were sent to the Extension agent. The agent, in turn, using tables and bulletins and "knowhow," would interpret the soil test values and formulate a fertilizer recommendation for his client, Kidder said. "He either had to know it or know where to find it in bulletins. By assorted means, he'd come up with a recom-

I.D. Hitch **Delays** Dwyer

By United Press Interational A last-minute hitch at Tehran's Mehrabad Airport prevented American free-lance writer Cynthia Dwyer from flying out to freedom today, one day after Iran's Revolutionary Court ordered her expelled from the country as a U.S. spy, officials in Iran said.

Mrs. Dwyer, the 49-year-old mother of three who came to be known as the "53rd hostage," was escorted to the airport by a Swiss diplomat and was to be put aboard Iran Air Flight 735 to London via Vienna, Austria, and Frankfurt, West

But Swiss officials and the U.S. State Department in Washington said later a last-minute controversy about Mrs. Dwyer's identity documents prevented her from leaving.

"When she wanted to leave Tehran. there were last-minute difficulties with travel documents and exit permits, etc., with the Iranian authorities," Swiss Foreign Minister Othmar Uhl said. "The Swiss Embassy is now trying to solve the problem and put her on the next plane with an appropriate destination." Uhl said Mrs. Dwyer was with Swiss

Ambassador Erik Lang and Embassy Counselor Wilhelm Schmidt, who accompanied her to last week's trial and who was to accompany her out of Iran. Uhl earlier had said Mrs. Dwyer left Iran aboard the Iran Air flight. Two officials at Tehran's Mehrabad Airport and spokesmen for both the official Iranian Pars news agency and for Iran Air's office in Vienna also had confirmed she was on board when the plane left

The last-minute controversy was reminiscent of events surrounding the release of the 52 American hostages last month. Twice their departure was delayed after Iranian officials indicated

Before the hitch developed, the U.S. Embassy spokesman in Vienna said a doctor would meet the Air Iran flight at Vienna's Schwechat Airport as a precautionary measure and Mrs. Dwyer would be asked if she wants to talk with A room was reserved at the Vienna

airport for a news conference, if Mrs. Dwgyer agreed to discuss her 281 days in Tehran's Evin Prison. U.S. officials also said Mrs. Dwyer would be given any money she may need to continue on to her home in Amherst.

N.Y., a suburb of Buffalo. An Iranian revolutionary court Sunday found Mrs. Dwyer guilty of spying, but sentenced her to the nine months she already spent in jail and ordered her expelled from the country.

The move left only one American in custody in Tehran - Afghan-born Zia Nassry, who also was arrested last May. Mrs. Dwyer was freed and handed over to Swiss diplomats early today, then taken to the airport for her scheduled light to freedom. Her husband, John Dwyer, said he

expected his wife to fly into New York City, noting "she won't be treated as the former hostages. She's a private citizen, not a government employee." The majority of 52 hostages released Jan. 20 after 444 days captivity were U.S. Embassy employees.

"We just want her to come home," Dwyer said as he waited with the couples' children, Ben, 14, Daniel, 12, and Susie, 8, for his wife's return. In Horatio, Ark., Mrs. Dwyer's mother, Mildred Brown, said she was "grinning from ear to ear." But she was cautious: "I just hope her being in prison over

there won't haunt her over here." The self-styled journalist's release, however, was certain to focus attention on the motives that prompted her trip to Tehran - a journey made after the 52 economic surgery, contending the United Ronald Reagan not thinking down the Americans already had been taken States faced an "economic calamity" hostage by Iranian militants.
