Argentina To Ask Meet Of All Americas

Marshall Plan May Be Requested; U. S. Delegates Leave For Brazil

RIO DE JANEIRO, Brazil, Aug. 12 (AP)—Argentine Foreign Minister Juan Bramuglia declared today he would propose that the Inter-American Conference call a special economic meeting of all American nations.

Some diplomats predicted Argentina possibly would insist on a "Marshall plan" for Latin America, to match proposals for United States funds to assist Western Europe and Asia.

Ambassador Guillermo Belt, head of the Cuban delegation, said his nation would insist on inclusion of an economic clause in any forthcoming Inter-American Treaty.

"The treaty cannot be complete without a clear definition of the scope of economic aggression," Belt asserted. "I consider any economic threat as dangerous as any threat of war."

The Argentine Foreign Minister reiterated that he would back the principle of unanimity (which amounts to veto power) for collective action, but that Argentina was willing to accept modification of the principle if this was the will of a majority of the American nations.

The arrival of Justo Prieto, who called himself "observer for the Paraguayan rebels," suggested (Continued on Page Two)

Indonesian Leader Arrives In U.S.

FORMER PREMIER of the Indonesian Republic and now adviser to the president of the republic, Sutan Sjahrir is decorated with a flower on his arrival at La Guardia Field, N. Y., from Cairo, Egypt. He said the purpose in visiting the United States was "to see and hear." Sjahrir declined to discuss the part that the United Nations might play in settling the conflict between the Dutch and Indonesians. (International)

C Of C Completes Plans For Labor Day Celebration

Boat Races, Riding Tournaments, Banquet Are Included

Everything is in readiness for the gala Labor Day celebration, including boat races, horse races and a banquet at the Mayfair Inn, Al Lee, committee chairman, told the board of directors of the Chamber of Commerce last night, adding that he had received 100 percent cooperation from business interests and civic organizations.

More than \$1,600 has already been raised toward defraying expenses of the event, he said. The Chamber of Commerce has underwritten it to the extent of \$750, and there will be special concessions on the lake front. The program has already gone to press, and a big crowd is expected, he added.

The banquet at the Mayfair Inn will be held at 7:00 P. M. with a dance later in the evening. (Continued on Page Two)

Further Action On Price Situation Demanded By CIO

WASHINGTON, Aug. 12 (AP)—The CIO, contending the price situation demands further action than a Justice Department investigation, renewed today a request that President Truman call an industry-government-labor conference to seek voluntary price reductions.

Emil Rieve, chairman of the Labor organization's full employment committee, said in a statement that an investigation of high prices will be made.

"But many prices are set by large monopolies and monopolies do not necessarily fall under the criminal law and Clark's investigation," he added.

"For example, in the automobile industry, General Motors controls probably 60 percent of the business and therefore is able to dictate prices."

"So we feel that steps should be taken at once to carry out our proposal of yesterday, that President Truman summon a conference of industry, and Labor representatives to seek voluntary price reductions and that Congress immediately upon reconvening, should investigate price and rationing controls."

On Capitol Hill, Rep. Crawford (R-Mich.), a leading congressional critic of OPA, labeled as "fantastic" Clark's order for an anti-trust investigation into food, clothing, and shelter prices.

Building Trade Wages Jump 15 Per Cent

WASHINGTON, Aug. 13 (AP)—Wages of union workers in the building trades rose 15 percent in the past year, the largest lump in a single 12-month period since 1920; the Bureau of Labor statistics reported today.

The increase amounted to about 25 cents an hour for nearly 600,000 workers in seven major construction crafts. Working hours showed little change during the year between July 1, 1946 and July 1, 1947.

Most of the hourly wage boosts came after wage controls were dropped Nov. 9, 1946, BLS said. During the control period from July, 1942, until that date, however, pay scales increased 18 percent.

The total rise from July, 1939, to July, 1947, amounted to approximately 40 percent. During the same eight years, the consumers price index (formerly the cost of living index) rose 59 percent. Percent and wholesale prices of building materials soared 98 percent, the agency reported.

BLS said plasterers and plumbers, who received an 18.8 percent wage hike, scored the largest gain from collective bargaining last year in the 75 cities covered by the survey.

Communist Attack In Paraguay Repulsed

WASHINGTON, Aug. 13 (AP)—Guillermo Enesco, Paraguayan ambassador, said he had been informed today that "the attempt by the Communist 'revolt' to seize Asuncion, the country's capital, has been repulsed."

The ambassador said in a statement he received his information in a cable from President Higinio Morinigo. He added: "The situation of the government is solid. This statement is made in view of the great amount of propaganda which has been circulated from other countries."

Boy Tries Twice To Wreck Railroad Train

FREDERICK, Md., Aug. 12 (AP)—A 12-year-old boy was held by Frederick county police today after his second attempt within six years to wreck a train.

Kenneth McGaha of the Baltimore and Ohio Railroad police said spurs placed on the tracks near Reel's Mill failed to derail a freight train only because it had slowed for a curve.

The boy said he "wanted to see what would happen to the engine."

UN Considers Steps Against Franco Spain

British To Help U. S. Over Greek Issue; Pakistan Seeks Equal Membership

LAKE SUCCESS, Aug. 13 (AP)—The United Nations reported today that Secretary-General Trygve Lie was considering steps which may be taken to implement a UN recommendation for action against Franco Spain.

Ivan Kerno, assistant-secretary general, said Lie was "thinking about the case" and would make a decision upon his return from the Inter-American conference in Rio De Janeiro.

A resolution adopted as last fall's assembly said if the Franco regime remained in power after "a reasonable time" that the Security Council "should consider the adequate measures to be taken in order to remedy the situation."

Kerno said Lie would decide whether to officially call attention of the council to the current situation in Spain.

Lie already has advised the assembly, which meets Sept. 10, of the response to an accompanying assembly recommendation that all 55 members withdraw their ambassadors and ministers from Madrid. The only two who failed to comply were Argentina and the Dominican Republic. Argentina sent a "Continued on Page Three"

Kiwianians Enjoy Variety Program At Lunch Meet

Food Demonstration, Guard Unit Talk, Style Show Given

Kiwianians today enjoyed a program at the Tourist Center that included a talk concerning the formation of a new National Guard unit by Brig General J. C. Hutchison, a demonstration of quick frozen meats and vegetables, by Alex R. Johnson, and a style show of Florida fashions, by Frank Shames explaining the rapid growth of this new Florida mail order industry.

General Hutchison appealed to the Kiwianians as businessmen to back up a plan to allow employees 15 days leave a year to go to training camp and at the same time not deprive them of pay or regular vacation. He told of the fine record of the 124th Infantry composed largely of Florida men and of the presidential citations received.

Alex R. Johnson demonstrated or which is used by the Florida large canvas cover containing Quick Freeze and Storage Company to transport foods frozen by the quick freeze process at the plant. He stressed the purification of the product. (Continued on Page Two)

Ruhr Coal Meet Studies German Transport Issue

WASHINGTON, Aug. 13 (AP)—The acute shortage of transport in Western Germany stood out today as an increasingly important factor in the Anglo-American deliberations aimed at boosting Ruhr coal output.

As the talks of the second day, delegates on both sides were reported seeking ways to solve the problem of how to move whatever coal is mined from the Ruhr pits.

The growing scarcity of railroads for coal has caused more than 1,000,000 tons of coal to be dumped near the mines instead of being delivered to industries in Germany and neighboring countries.

One American participant said the Ruhr coal problem is not a "transportation problem" at this meeting but might make a start at determining how to repair wrecked coal cars and fix others wearing out daily.

The number of cars "lost" in the Russian zone of Germany after delivering coal to the Soviets was described as negligible compared to the total shortage.

Discussion of the transportation issue was made possible as a result of the talks last night, yesterday by Assistant Secretary of State, Willard Thorp, chief American negotiator.

Thorp said any issue which has (Continued on Page Two)

British Impose Curfew On Arab Area In Palestine

Situation Compared With Beginning Of 1936-1939 Revolt

JERUSALEM, Aug. 13 (AP)—The Palestine government imposed a curfew on two predominantly Arab areas of Jaffa tonight as continuing Arab-Jewish strife brought death to three persons.

It was the first time a curfew has been imposed on an Arab area in the Holy Land since the 1936-39 revolt. Military and police patrols roamed the streets of Jaffa's Manshih and Canton quarters, virtual no-man's land between all-Arab Jaffa and all-Jewish Tel Aviv.

Two Arabs and one Jew were stabbed to death today in that area. (Continued on Page Two)

Indonesia Votes UN Protest Over Puppet Delegates

Air Connections Of Dutch In Indies Reported Severed

JOGJAKARTA, Java, Aug. 13 (AP)—The Indonesian Republican cabinet voted today to protest in the United Nations Security Council any appearance before the council of a delegation from the state of East Indonesia, which the Republicans charge is run by a puppet government. The delegation is now en route to Lake Success.

The cabinet also voted to appropriate 5,000,000 Ropiah (about \$140,000 U. S. before devaluations) for immediate relief of Chinese refugees from battle areas.

Meanwhile, an Indonesian army communiqué charged the Dutch had violated the cease-fire order 252 times between Friday and Monday. The trace in the Dutch Indonesian hostilities became effective 10 days ago.

Another Republican communiqué said Dutch forces were advancing both in eastern and western Java and that a Dutch patrol vessel had violated the cease-fire order, sailing from Sumatra to the Riuw Archipelago.

A Netherlands army communiqué (Continued on Page Three)

19 Freight Cars Are Derailed In Jersey Railroad Accident

ELIZABETH, N. J., Aug. 13 (AP)—Thousands of New York-bound commuters were delayed today when 19 cars of a 52-car, eastbound Pennsylvania Railroad freight train were derailed, sprawling the four-track main line here. No one was hurt.

Auxiliary buses provided by the railroad expedited traffic and the railroad said two tracks were expected to be cleared by late today.

Service from New York to Philadelphia and Washington and to South and West points was being operated over tracks of the Lehigh Valley and Reading Railroads to West Philadelphia.

Splintered box cars and piles of coal in twisted wreckage were strewn for 800 feet at the South Elizabeth Station. One of the freight cars landed on the station platform.

Railroad spokesmen said the wreck occurred when the 13th car of the Harrisburg, Pa.-to-Jersey City freight train was derailed, and 18 cars behind jumped the tracks.

Although service was expected to be restored on two of the main line tracks by late today, railroad spokesmen said there would be a "longer delay" in clearing the other two tracks.

Yucatan Undamaged From Tropical Storm

NEW ORLEANS, Aug. 13 (AP)—The center of a tropical storm in the Gulf of Mexico was located at 9:00 A. M. Central Standard Time about 120 miles west-northwest of Campeche, Mexico.

The United States Weather Bureau here said the storm, which moved across the northern Yucatan Peninsula yesterday from the Caribbean Sea into the Gulf, is moving west or west-northward at 12 to 15 miles per hour. The strongest winds near the center are about 50 miles per hour, with squalls extending 200 miles to the east and north of the center.

Caution was advised interests in the southwest Gulf of Mexico against increasing intensity today.

The technical location of the storm center at 9:00 A. M. was given by the Weather Bureau as near latitude 20.3 degrees and longitude 92.3.

No material damage was reported from the storm passed over the Yucatan last night.

Rain Forecast For Drought Hit Midwest

By the Associated Press

Some crop-reviving drought-breaking showers were in prospect today for parts of the northern great plains area within the next 24 to 48 hours but no general relief from the searing heat could be expected before the weekend.

The rainfall was moving eastward from Montana and North Dakota with fairly heavy showers probable locally by tonight or tomorrow through Minnesota, Iowa and Wisconsin, the Weather Bureau said.

Where the rainfall is sufficient to break local drought conditions, temporary relief from the heat could be expected but these points would be scattered, the Bureau said, adding that most of the showery area will not receive sufficient moisture to benefit deteriorating crops.

Continued high temperatures, generally ranging from around 90 degrees upward were forecast for most of the Midwest. East and South today.

British Connections Of Dutch In Indies Reported Severed

MEANWHILE, an Indonesian army communiqué charged the Dutch had violated the cease-fire order 252 times between Friday and Monday. The trace in the Dutch Indonesian hostilities became effective 10 days ago.

Another Republican communiqué said Dutch forces were advancing both in eastern and western Java and that a Dutch patrol vessel had violated the cease-fire order, sailing from Sumatra to the Riuw Archipelago.

Bigger Petroleum Demand Can Be Met

GREAT FALLS, Mont., Aug. 13 (AP)—An expected demand for petroleum products within the next year exceeding that of the past year can be met, representatives of the major oil producing states agree, but they say there is no immediate reserve to ease for any emergency.

Winding up a three-day meeting of the Interstate Oil Commission, industry state officials and industry leaders launched a series of technical discussions today, primarily concerned with developing new sources.

R. A. Catlett of Washington, chief of the Federal Bureau of Mines, Petroleum and Natural Gas Division, is scheduled to describe research on the production of liquid fuels from oil shales now under way in Colorado, Wyoming and Utah.

Jugoslav Trade Pact Signed For Germany

BELGRADE, Aug. 13 (AP)—Negotiators representing the British and U. S. occupation zones of Germany have signed a long-range Soviet army orders of the Austrian mineral oil company's refinery at Lobau, Austria, on Aug. 1.

The protests, he said, were lodged by British members of the Allied Council for Austria and of the Austrian Treaty Commission.

The British deputy commissioner, McNell said, has pointed out that control council for Germany regulations, quoted as a basis for the Soviet action, have no application in Austria and that reparations cannot be secured from property which is in joint British-American beneficial ownership.

Britain Protests Red Seizure Of Plant

LONDON, Aug. 13 (AP)—Minister of State Hector McNell told the House of Commons today that Britain had protested against Soviet army seizure of the Austrian mineral oil company's refinery at Lobau, Austria, on Aug. 1.

The protests, he said, were lodged by British members of the Allied Council for Austria and of the Austrian Treaty Commission.

The British deputy commissioner, McNell said, has pointed out that control council for Germany regulations, quoted as a basis for the Soviet action, have no application in Austria and that reparations cannot be secured from property which is in joint British-American beneficial ownership.

Talks On Relaxing British Loan Terms To Start Monday

Lifeboats Manned As Ships Collide Off Pacific Coast

Impact In Fog Cuts Halfway Through Coastal Motorship

PORT ANGELES, Wash., Aug. 13 (AP)—Rammed deep amidships by a heavy freighter in the fog today, the 10,681-ton freighter from Victoria crashed halfway through the 5,325-ton coastal motorship Diamond Knot in the log-bound Strait of Juan De Fuca today and 36 crew members of the stricken motorship took to their lifeboats.

The two vessels collided shortly today and 36 crew members of three and one-half miles off Race Rocks, at the southern tip of Vancouver Island at the east end of the strait.

The impact cut nearly halfway through the smaller vessel, but it did not sink.

None of the crew of the Diamond Knot nor the 46 crew members of the Fenn Victory was injured, the Coast Guard said.

More than an hour's effort early today failed to separate the two vessels which were locked with part of the Diamond Knot's masthead tackle hooked over the bow of the larger vessel.

The Fenn Victory's skipper, 53-year-old Capt. G. G. Giddick, told the Coast Guard the contact was keeping the smaller vessel afloat.

Capt. C. N. Goodwin ordered the crew of the Diamond Knot to leave the ship shortly before the attempt to separate the vessels began. The order was given as a precautionary measure, he said. "I don't see if it will stay afloat."

The crew members drifted near the scene in lifeboats, refusing to go aboard any of the numerous Coast Guard craft or tugs in the vicinity.

Goodwin radioed the Coast Guard (Continued on Page Two)

Delegates Plan Trip To National Legion Conference

State Legion Adjutant A. Reid Mann today announced that he and Mrs. Mann will leave next Wednesday for New York to attend the National American Legion Convention which will be held Aug. 28-31. They will motor north with J. B. Kirkpatrick of Eureka, division representative of motor vehicles of Tallahassee. Mrs. J. E. Routh district president of the Legion Auxiliary and Mrs. Alice Hunter are scheduled to leave next Sunday, said Adjutant Mann, on one of the two special trains that will take the Florida delegation from Jacksonville to New York.

The Florida Legion headquarters and the Harrison Plaza Hotel at Fifty-eighth Street and Madison Avenue, he said.

Two Florida drum and bugle corps will vie with other corps in the big parade on Fifth Avenue on the 28th, he announced.

The Florida Legion will participate in the international parade on the 29th. The Florida Legion will try again for honors. The other corps will be that of the William C. Morris Post 46 of Fort Lauderdale comprising about 40 members, all dressed in Seminole Indian costumes.

2 Brothers Found Shot Near Fernandina

FERNANDINA, Fla., Aug. 13 (AP)—Two brothers in their twenties, sons of a carefree for several homes here, were found shot through the head on a roadside near here early today but no motive could be given for the slaying.

The young men were John Calvin Graham, 22, and Curtis Floyd Graham, 20, sons of Mr. and Mrs. Mose Graham who live at Seymour's Point here. Both were World War II veterans and had only recently been discharged from the service.

Repair Of Highway Is Nearly Completed

Work is expected to be completed during the next two weeks on the asphalt surfacing and widening of the Orlando highway from Sanford to Maitland, W. M. Hoag, project engineer, announced today.

The highway has been widened from 22 to 26 feet, and five foot shoulders added to each side, he said. The shoulders are to have a clay surface. Most of the former rough spots of the road have been ironed out.

Hunting Is Enjoyed By Frank Robinson

Frank Robinson, former Sanford resident and high school student, who after his discharge from the Army, joined his parents and family at Cristobal, C. Z., recently wrote that he is enjoying the hunting and fishing in Panama.

He enclosed a snap shot of a trapped pig "Puerco Del Monte" or wild pig that he and Walter Anderson of Sanford had killed. Walter spent a few days with the Robinsons during the time the aircraft carrier to which he was attached was docked at Cristobal.

They reported finding a very strange hill where the whole family searched for moss agate and Jasper, which are semi-precious stones. They found a large amethyst crystal. Mr. Robinson also reported that they are building a 20 foot mahogany cabin cruise, and are trimming it with teak wood.

SCHOOL BOARD MEET

The County Board of Public Instruction will meet Thursday morning at 10:00 o'clock at the office of Supt. T. W. Lawton. Bids for repair of the Lutz Monroe (white) school and appointment of school bus drivers will be considered, according to Supt. T. W. Lawton.

BIBLE VERSE FOR TODAY

YOU MUST HAVE SOMETHING TO MULTIPLY YOUR SPIRITUAL TREASURES. For whoever hath to him shall be given, and who-soever hath not, from him shall be taken even that which he thinketh he hath.—Luke 8:18.

The Secretary General of the United Nations insists he sees no immediate war threat. Apparently all that the world's bad boys are doing at the moment is just making faces at each other.

We have noticed as marked an improvement in service at many Sanford establishments during recent months as we have seen in the face lifting of certain downtown buildings. All of which is definitely to the good. The wartime "public be damned" treatment is on the way out, and the store which gives the service will get the business.

The local Jaycees are to be congratulated on the success of their recent state conference and the thoroughness with which all plans were made and the efficiency with which they were carried out. Sunday's banquet which terminated the affair and which brought to Sanford Edward B. V. reit, an editor of national reputation, was one of the most notable occasions we ever attended here and would have done credit to any city in Florida.

John Clark, president of the Hialeah race track, predicts a "better than average" season for Florida next winter. "The Florida season will be a good one," he says, "and attendance at Hialeah should compare with our best years." Reports, however, from other resorts this summer, are not so encouraging. Prices are high and the public is wary. If Florida tourist interests can refrain from gouging our visitors next winter, we will probably have all we can take care of; but the time has passed when people will put up with anything.

Progress is being made on decisions vitally affecting next year's gubernatorial election. Dan McCarty and Frank Smathers are being holding conferences, leading to the latter's announcement that he will not run and indicating McCarty may soon announce against Fuller Warren who is certain to have his hat in the ring. Tom Watson has also indicated his intention to run, but Senator Bill Shands of Gainesville cannot be counted out. No doubt there will be others, but as of the present writing it looks as if Fuller Warren is the man to beat.

According to the Times-Union, Senator Talt appears to be gaining ground on Governor Dewey for the Republican presidential nomination. This is of unusual interest to us Democrats because the next President of the United States will probably be a Republican. You may think we're crazy, but if you'll read your history books, you'll notice that the longest period that any one party has ever remained in power was from 1860 to 1864 when the Republican Party was in its infancy. The longest which the Democrats have ever held office has been from the beginning of the Roosevelt regime to the present, or about 15 years. Usually eight to twelve years is long enough to turn the screws out.

Auxiliary Crops

Although Florida is known in agricultural circles for its production of citrus, celery and tomatoes, there is a wide variety of auxiliary crops produced in this state which added some \$10,000,000 to the income of Florida farmers last year. Some of these crops offer great hope for substantial expansion into what may yet become another big money crop.

"Attention is often called to Florida's outstanding position in the production of citrus, truck vegetables, tobacco, sugarcane, peanuts, etc., which make up the basic agricultural pattern of the State," says the State Chamber of Commerce. But to the average general farmer, miscellaneous crops harvested during different seasons can mean an added and sustained income throughout the year.

"Important among these crops is honey which (with beeswax) brought in \$1,518,000 last year, placing the State first in honey production in the South. Florida's pecan crop was sold for approximately \$1,300,000, feed crops for \$1,150,000, tung nuts for \$1,020,000, peaches and pears for a total of \$308,000 and spring cantaloupes for \$150,000.

"The Florida grape production is comparably small, \$120,000, but Florida grapes brought more per ton than any in the nation. "Forest products sold by farmers and nursery and greenhouse products brought a total of \$10,061,000 (breakdown not available) last year. The growing of plants for farmers in more northerly regions is of particular interest to the State's farmers."

Traffic Safety

Pointing out that the local Naval station is taking the lead, with the co-operation of city and county civic leaders, in directing public attention to the need for greater traffic safety precautions, the Pensacola Journal makes some timely comments on measures which might be taken to help.

"The placing of battered wrecks where they can be seen by motorists and the erection of white crosses at spots where fatal accidents have occurred," the Journal says, "should certainly impress the driving public with the value of care in observance of all traffic rules and regulations."

"The greatest cause of accidents is the calm belief that 'it can't happen to me.' Perhaps these displays will drive home the fact that such death, injuries and damages can happen to anyone—and quite often they happen to innocent persons."

"The local safety campaign ties in well with the statewide campaign which has been conducted by Governor Caldwell. It also should impress on the people the value of the state highway patrol which is constantly on the road to caution motorists, to assist in accidents and to make arrests when necessary."

"The campaign is one in which every automobile driver must participate. After all, common politeness and consideration of the other fellow would obviate most of the traffic accidents."

"Take It Easy—Save a Life" is a slogan under which every motorist could enlist."

Farmers In The Air

Mid-western farmers are lifting themselves out of the earth-bound class and going up in the air for fun and for business.

George Thiem writes for the Chicago Daily News of a meeting in Chicago, Ill., where several hundred planes landed for a get-together of farmers. It is estimated that 1,000 Illinois agriculturists own and use private planes, while 850 Indiana farmers fly. Many from Michigan and Wisconsin add to the number.

Several uses for planes are given—going after repair parts, spraying, inspection, bringing home strawberry plants and ordering cattle. What sounds best to people brought up to consider the farmer's lot a hard one, is the sundown flight to cool off after a hot day in the fields. Some fly to Wyoming for trout-fishing, and others hop to Florida for the sunshine they need in January. Not only young farmers have joined the air-minded group, but all ages, from 18 to nearly 60, are represented.

The farmer, generally considered conservative, if not reactionary, has shown himself to be forward-looking and adaptable in this appropriation of the airplane to his own use. One fault often found with life on the farm is its isolation. This condition will no longer have to be reckoned with if more farmers follow the lead of these mid-westerners.

Ruhr Talks

(Continued from Page One)
"direct hearing" on Ruhr coal production can be considered. The conferees split up into subcommittees, each assigned specific phases of the overall problem after yesterday's two introductory sessions got the conference under way.

Moving to quiet French fears, Thorp made it plain that Britain and the United States are not attempting to make the Ruhr an isolate "blossoming and prosperous spot in the midst of all Europe."

French officials are watching the talks with a wary eye since they feel France should have a major voice in determining how quickly her recent foe recovers from the effects of the war. The three powers now are arranging an additional conference where French views on eventual control of the Ruhr mines and plans for stepping up the level of industry in Western Germany will be thrashed out. The French government has repeatedly urged international supervision of the Ruhr, Germany's main industrial area.

Arab Curfew

(Continued from Page One)
area. Seven Arabs and two Jews were injured.

All shops in the border area between Tel Aviv and Jaffa remained closed this morning and most residents of the squallid region on both sides of the dividing line kept their shutters closed despite the intense heat.

Normal crowds frequented Tel Aviv's bathing beaches, however, although considerable tension was reported in the all-Jewish city.

Police Superintendent Finnagan, head of the Jaffa-Tel Aviv district, called a special high-level conference in Tel Aviv to plan means of keeping order. Palestine government authorities declined to comment on the situation, but veteran policemen, to whom the current troubles are reminiscent of the 1936 Arab revolt which bathed the Holy Land in blood, expressed frank dismay over the turn of events.

"It began just this way in 1936," said one police inspector, "only this time you can bet it will be tougher."

RADIO PROGRAMS

Table listing radio programs with station call letters and times. Includes programs like 'Twilight Songs', 'Dixie Melody', 'Jazz Parade', etc.

Argentine Plan

(Continued from Page One)
the conference might be asked to mediate the civil war in that country. Pinedo, once Paraguay's foreign minister, said other American nations could not remain indifferent.

WASHINGTON, Aug. 13 (AP)

President Truman sent the United States delegation off to the Pan American Security Meetings in Rio De Janeiro today with his best wishes for "a successful conference."

"I come to bid you gentlemen farewell and wish you a happy and successful trip and a successful conference," Mr. Truman told the departing delegates at Washington National Airport.

"I am glad to have this delegation, as it has so many times in the past, working for peace in the world, particularly in the Western Hemisphere."

The United States delegation to the conference, opening in the Brazilian capital Friday, is headed by Secretary of State Marshall and includes Chairman Vandenberg (R-Mich.) of the Senate Foreign Relations Committee and Warren R. Austin, U. S. delegate to the UN Security Council and former Republican senator from Vermont.

After wishing the delegation good luck, President Truman said he hopes the Rio conference will set an example for the rest of the world.

Yardleyberg commented: "I agree with that." Secretary Marshall, replying to the President's brief, informal speech, said that he and his colleagues are flying south "in the interest of what is very important in the world of today, the solidarity of the Western Hemisphere nations."

Labor Day Plans

(Continued from Page One) he continued, Senator Holland will be the principal speaker and there will be other distinguished guests.

Manager Ed Higgins reported that progress is being made toward securing a baseball training school belonging to the New York Giants who are negotiating for a five year lease on certain Naval Air Station property for the training of about 750 men each winter.

Brig. General J. C. Hutchinson asked for and received the agreement of the Chamber of Commerce in an effort to induce businessmen to offer their employees who may join the National Guard time off for periodic training periods without loss of pay or regular vacations.

General Hutchinson pointed out that the organization of a rifle company here would mean an annual income of about \$40,000 and that this was something in which the trade body should be specially interested.

Mr. Higgins reported on recent congressional action facilitating the transfer of air stations and other naval property to cities and counties where rentals and other income is devoted to the maintenance of the airport. He also said that work has begun on the 12-foot river channel and that \$600,000 is now available for its completion.

Balloons are being mailed in the next few days for the annual election of directors, he said.

Mr. Higgins also explained advertising plans for the coming winter which include six large signboards located at strategic highway intersections, and the printing of a large number of booklets with many beautiful pictures of Seminole County scenes and recreational activities.

Vice president E. G. Kilpatrick presided over the meeting. J. L. Inghy read the treasurer's report. Among those present were Mrs. Prudence Bruno of Casselberry, Senator L. F. Boyle, M. B. Smith, H. B. Pope, General Hutchison and Mr. Lee M. Ingley, J. F. McCallister, John Brumley, Sanford Doudney, Fletcher Bolls, and Roland Dean.

Ship Collision

(Continued from Page One) that he hoped salvage tugs could pull his vessel to Esquimaut, a few miles away.

Goodwin said his No. 2 and No. 3 holds were flooded and No. 1 had 10 feet of water and "it's still raining" despite the pumps.

The strait was fairly calm except for ground swells. The two ships were obscured by a heavy, low-lying fog bank.

There was no report of casualties on either ship.

Kiwanis Meet

(Continued from Page One) pose of the plant as sanitary processing, especially of meat, fish, and poultry, and produced from the container samples of processed and frozen turkey, steak, fish rabbit, bacon ham, corn on the cob and other products, all wrapped in plicofilm, and kept at sub-degree temperatures.

Frank Shames told of the quick growth of Florida Fashions mail order business since the first advertisement appeared. Sept. 1, 1946, in a New York newspaper. He revealed that the advertisements now appear in 58 newspapers, 29 magazines and have reached 100,000,000 readers.

Three of his employees, Miss Betty Welton, Miss Malba Fredricks and Miss Emily Matthews demonstrated dresses of plaid pattern and got a lot of applause. Miss Welton appeared as Kittle Lass, Miss Fredricks as Highland Lass and Miss Matthews as Honey Lass.

Sam Martins, personnel director, demonstrated a mail opening machine. Michael Clinson and Frank Sandler of the company were guests. Forrest Gatchel was introduced by M. N. Cleveland, and in turn introduced Alex Johnson.

British Loan

(Continued from Page One) British delegation has in mind before making any statement. "We are prepared to listen to anything they bring up, as long as it is within the area of the Anglo-American loan agreement."

plan two other developments on the international economic scene: 1. Snyder scotched "persistent rumors" in London's financial district that the Treasury planned to increase its price on gold from the present \$35 an ounce to \$50.

The secretary said there have been "no plans and no discussions" of such a move. An increase in the gold price would assist European countries with gold reserves to extend their present dollar credits.

2. The British will draw another \$150,000,000 of their U. S. loan, leaving only \$50,000,000 available. At the recent rate of withdrawal Treasury officials estimated the loan would be exhausted in October, instead of next June 3, as contemplated.

Besides the expected proposal to increase British buying from her dominions, advance reports indicate the British delegation to the talks here may seek a modification of the loans terms which make

Tune in on TOMORROW! The "drive" of tomorrow is here today! as ultra-modern as television, and with nearly 8 years of PROOF behind it! GM GENERAL MOTORS HYDRA-MATIC DRIVE. It's in the picture for the future—and Oldsmobile brings it to you today! Just as television is the big news in the field of electronics, automatic transmissions are the number-one topic of conversation in the automobile industry. Nobody will push a clutch. But today... only Hydra-Matic Drive provides fully automatic shifting! Only GM Hydra-Matic Drive is the smart new Oldsmobile—away out ahead in appearance, too. Over 2,000,000 Oldsmobiles are always in tune with tomorrow. They expect Oldsmobile to come out first with the really important advancements like Hydra-Matic Drive. That's why so many future-minded people say, "It's SMART to Own an Oldsmobile!" YOUR Oldsmobile DEALER HOLLER MOTOR SALES PALMETTO AVENUE & SECOND STREET PHONE 1134

"Forty Plus" Club Movement Helps Men Get High Paying Jobs

AP Newsfeatures
The "Forty Plus" club movement is coming back to life now that some elder businessmen are not drawing salary checks in the style to which they have been accustomed.

In New York, Philadelphia, Boston, Chicago, Detroit among other cities, unemployed men over 40 who have earned at least \$4,000 a year as executives are banding together again in non-profit, cooperative organizations to help each other find executive jobs.

With the manpower shortage beginning to crack, widely scattered jobless males are rallying together in these patrician personnel services under the banner, "there is no substitute for experience."

The Detroit club had membership applications from one man who "went through two fortunes" and from another who needed a job although he had made \$600,000 from patent royalties on a machine tool.

An Army general facing retirement joined the Boston club. So did an ordained minister unable to support his family on a church salary. Both had had previous executive experience.

In New York, a former admiral became a "forty-pluser," and in the Chicago club two of the men handling telephone queries and typing chores are a former colonel and an ex-major.

Generally, however, the members come immediately from jobs as plant managers, comptrollers, vice presidents in charge of personnel, brokers, bankers and other executive posts. Their former salaries range from \$1,000 a year to \$60,000. The Philadelphia club uses a president who joined after his \$12,000,000 iron company went kaput in the depression.

The Forty Plus idea was started in the late thirties (some say in Boston, others say in New York) and all but died out during the war when manpower of all ages was at a premium. The end of the war and the availability of many younger men began the revival of the movement.

The clubs in the various cities operate independently—without a central organization—although they generally use the same name, slogan, eligibility rules and modus operandi.

The clubs are not interested in any job paying less than \$4,000. And frequently they land ones for members which pay much better than that.

The star alumnus to date was a Detroit member who recently landed a \$40,000 job as general manager of a large manufacturing concern having plants throughout the country. Chicago and New York have \$20,000 graduates.

The Detroit club pays its average placement in a job paying between \$8,000 and \$10,000; in New York, the average range is from \$4,000 to \$10,000 and in Philadelphia, from \$6,000 to \$7,500.

The Boston president reported: "One of our men was canvassing a downtown firm and was told, 'we're not interested in \$10,000 to \$25,000 men, but if you hear of anyone looking for \$50,000 to \$75,000, send them along.' There is no late word on what happened in that case."

The New York club has about 1,200 solvent alumni; Chicago 350 and Detroit, more than 900. One of Philadelphia's proudest placements was that of general consultant to a big company there. The man who got the job was 62.

To get an idea of how the club work, consider the New York organization, which has found jobs as close to home as two floors above its office and as far away as Korea and Alaska.

The membership in New York before the war ran close to 100, dropped to 10 or 12 during the war and now is back up to 75. Each member must attend two and a half days every week for the club. There are no paying jobs.

The two days must be spent in field work or handling office chores. The half day is for attendance at the regular weekly meeting. Every member contributes a little toward the expenses.

Every month the club publishes a bulletin listing members anonymously with a thumbnail sketch of what each has to offer. About 5,000 copies of each bulletin are printed. Half go to firms which have asked for them. The remainder are distributed by field workers who regularly canvass prospective employers.

AT LAKE SUCCESS, N. Y., Col. Roscher Lund, chairman of the United Nations Balkan Committee, and his assistant, James Torney, are shown with some of the documents submitted as evidence in the Balkan border case. The U. N. Security Council established a special seven-nation subcommittee to determine whether a single resolution could possibly be drafted to settle the Balkan question. (International)

FSU Is Anticipating Enrollment Of 3,800

TALLAHASSEE, Fla., Aug. 13 (AP)—Florida State University, beginning its first full term as a coeducational institution, may be a little overcrowded next month but it is expecting a record enrollment of 3,800 students.

More than 2,800 women students already have been accepted and university officials reported applications from 1,000 men, most of them war veterans. Last year there were approximately 2,500 women students and 700 men enrolled in the Tallahassee branch of the University of Florida.

Dr. Broward Culpepper, dean of student welfare, said a new dormitory now under construction will not be ready for occupancy until the winter quarter in December, but additional facilities are being provided at Dale Mabry Field to take care of the overflow.

Army Lines Up Units For Emergency Duty

Men with prior service in any of the Armed Forces may enlist for direct initial assignment for a minimum period of one year within the geographical limits of the Third Army Area. Capt. Bob M. Hester of the Orlando Army Recruiting office announced today.

Individuals enlisted will be initially assigned to any understrength unit or installation of their choice. The Army Air Forces are not included in the above and the minimum period of enlistment is 3 years.

Capt. Hester further stated that all assignment so far a specific limit or installation is for initial assignment only and that in case of military necessity individuals may be reassigned within the Army Area at any time within the one year.

Over \$1,000,000 Worth Of New Equipment Is Ready For Use At UF

GAINESVILLE, Aug. 13, (Special)—More than \$1,000,000 worth of newly acquired equipment will be available to University of Florida students when the 1947-48 term opens Sept. 22.

The new equipment, received through donations from various Army divisions, and purchased at a discount from the War Assets Administration, ranges from a \$250,000 radar set to household furnishings for the newest veterans' housing village.

It includes the latest in engineering laboratory and research equipment; new classroom, shop, and laboratory installations for students registering in chemistry, botany, biology, and pharmacy; furnishings for new dormitories for single students; office equipment for faculty and administrative offices, as well as the Flaxer III furniture, and mobile and maintenance equipment for the expanding facilities.

Acquisition of new equipment during the past year opens to University of Florida Upper Division students new fields of research and advanced study, and to Lower Division students a chance for individualized instruction and laboratory work in the basic sciences, and will enable the University to enroll all qualified Florida students—men and women—for the Fall Term. Applications for enrollment this Fall must be in the Registrar's office by August 15.

Equipment valued at \$631,520 has been added to the instructional and research laboratories of the College of Engineering with \$57,753 in new classroom and laboratory equipment marked for chemistry, biology, botany and pharmaceutical study.

Off Season Visitors Swarm Hialeah Park

MIAMI—(AP)—Between racing seasons most horse tracks are as deserted as a haunted barn. But not Florida's showplace Hialeah park, where more than 250,000 off-season visitors have come just to look.

The chief tourist attraction at Hialeah is the herd of flamingos. Their population has been increased by 65 since racing closed.

The Kokanee Salmon is a dwarfed form of the Pacific sockeye which has adapted itself completely to life in fresh water.

About 75 percent of all car thefts occur where the owner has left his ignition keys in his automobile.

RAINS DAMAGE PASTURES

Punta Gorda, Fla.—Some Charlotte County pastures have been damaged considerably by heavy rains during the past few weeks, and cattle in low areas have shown some weight losses as a result, according to County Agent N. H. McQueen.

The cotton plant has a part in producing four fibers—cotton; rayon made from cotton linters, wool and mohair from sheep and goats fed cottonseed products.

Price Inquiry Supported By Pres. Truman

No Extra Session Of Congress Planned; Labor Department Cut Is Protested

WASHINGTON, Aug. 14 (AP)—President Truman expressed his wholehearted support today of the Justice Department's investigation of the high cost of food, clothing and housing. He said he hopes it will produce results and he thinks it will.

But he told a news conference, in reply to a question, that he believes the principal effect will be to point to those responsible for the price rise.

Asked whether he believed anti-trust violations are responsible for the hike in price, he replied the results of the inquiry will have to be awaited on that.

In answer to a question whether experts of corn will have to be curtailed due to the shortage, he said that it is under consideration by the cabinet World Food Committee.

President Truman indicated he has no plans to call a labor-management conference. Such as the CIO proposed as a move to seek voluntary cuts in prices.

The President declared today that he sees nothing on the horizon to require a special session of Congress, thus virtually eliminating possibility of legislative action this year on new funds to aid Europe's recovery.

The President declined to comment on the current talks on increasing the general coal production or on the general British financial crisis.

Mr. Truman said that he would be unable to supply figures on how much the Marshall plan will cost. He pointed out that any

(Continued on Page Two)

Heat Wave Moves From Midwest To Descend On East

Weatherman B. F. Whitner reported this morning that Sanford has had no excessive temperatures in several days. Yesterday the maximum was 89 degrees and the minimum was 71. Exactly one inch of rain fell, first in a hard shower driven by a strong east wind at 1:20 P. M. and later in a slow drizzle that lasted into the night.

By THE ASSOCIATED PRESS
The Midwest's fading heat wave blew a sultry kiss of farewell to Illinois, Indiana, and part of Michigan today, at the same time bestowing a blast-furnace embrace of scorching on the East.

The Weather Bureau at Chicago said that weather would continue today in Illinois, Indiana and the southeastern half of lower Michigan, but that cooler air was working into those areas and should bring relief by nightfall.

The rest of the Midwest, blissfully welcoming the arrival of the cool air, expected high reading in the 80's today, but ahead of the eastward-moving cool front the maximum temperatures were due for a return to the 90's.

Meanwhile, the heat wave, which had become an old story to residents

(Continued on Page Two)

Local Seamen Strike May Become National

NEW YORK, Aug. 14 (AP)—New York members of the Seafarers International Union (AFU), which is led by a man called a strike against the Italian Steamship Company, have voted to extend the strike to the entire shipping industry if provisions of the Taft-Hartley Act are applied in the dispute.

The decision was taken late yesterday at a membership meeting of 2,500 sailors. The union claims more than 4,500 are on strike at all the ports where Italian ships are berthed.

Union officials said the strike followed the company's refusal to agree to a union hiring hall and the first-come-first-served method of supplying unlicensed ship personnel.

Walker M. Walls, president of the company, said the strike was called in the face of an agreement to continue negotiations at a meeting late yesterday.

"The company wishes to remove the right to pick its men," Walls said. "We agree to hire non-union members of the union but to do so through our own employment hall."

The union recently was designated bargaining agent for the company's unlicensed personnel.

Asks U. N. Action On Britain

EGYPTIAN PRIME MINISTER Nokrashy Pasha makes an impassioned plea before the U. N. Security Council, Lake Success, N. Y., for the immediate evacuation of British forces from his country. He declared that failure to act may lead to bloodshed and violence. In answer, Britain's Sir Alexander Cadogan said that the troops are necessary along the Valley of the Nile to safeguard the security in the Middle East. (International)

General Price Drop Predicted By Congressman

Restoration Of Controls Opposed By Spokesman For GOP

WASHINGTON, Aug. 14 (AP)—Rep. Wolcott (R-Mich.) asserted today that "a general price decline is in the offing as he expressed opposition to restoration of price controls, with the possible exception of controls on rents."

Chairman of the House Banking Committee, Wolcott is regarded as spokesman for many House Republicans on price and rental matters.

"It would be a grave mistake to put price controls back on again," Wolcott told a reporter. "That would slow production, and we must have production if we are to lick inflation."

Earlier Senator O'Mahoney (D-Wyo.) told reporters the investigation into prices of food, clothing and housing ordered by Attorney General Clark is a "fine thing" but that "the causes of inflation are much deeper than a search for extortionate profits."

He said Congress must choose

(Continued on Page Two)

Greeks Stage All-out Drive Against Rebels

ATHENS, Aug. 14 (AP)—An informed source said today Greek government forces had begun full-scale mopping up operations against guerrilla units in the Mount Grammos area near the Greek-Albanian frontier.

The informant said the operations opened five days ago and contact was made with a large force of guerrillas Monday. Official figures were not available, but it was believed the army was using more than 5,000 men in the operations.

Press dispatches said, meanwhile, that in the southern Peloponnese two battalions of gendarmes engaged a band of 250 guerrillas in a ten-hour battle in which 50 guerrillas were slain. The dispatches said the guerrillas, who attempted to ambush the gendarmes in the area east of Kalamata yesterday, fled after the fight.

The ministry of public order reported that a guerrilla unit swooping down from a mountain side invaded and held for four hours the village of Kiphsithori, only 75 miles north of Athens on the main rail line in Salonika.

Negress Is Stricken In Downtown Office

Marlah Clark, 67 year old negress, died suddenly at 9:30 o'clock this morning at the office of the State Welfare Board, and a large group of people gathered outside the building entrance when the ambulance came to remove the body.

Health Unit Director Frank B. Quillman, who was summoned to the office, declared that the death was due in all probability to a heart attack. He administered resuscitative aid, but they did not help.

Daley Kinard, married daughter of Marlah Clark and with whom she lived at 814 Cypress Avenue, was with her mother when she was stricken.

Strife Renewed In Palestine By Arabs And Jews

Outbreaks Occur Following Truce During Night Curfew

TEL AVIV, Palestine, Aug. 14 (AP)—Two more persons, a Jew and an Arab, were reported killed today and a score more were injured in inter-racial strife along the tense boundary of the all-Jewish city of Tel Aviv and the all-Arab community of Jaffa.

Official reports listed 17 more Jews injured, one critically, and three Arabs, wounded in a new eruption which came after military patrols, with the aid of a curfew, had enforced an uneasy truce through the night.

The unofficial figures indicated this casualty toll since Sunday: dead, eight Jews and five Arabs; wounded, 43 Jews and 16 Arabs.

Along the squalid market places where the Jewish community abuts on the Arab, belligerent youths appeared on the alert for new provocations. More than half the small, dingy shops were closed and there was little traffic.

Police had hoped, apparently in vain, that the morning had brought the end to the four days of strife. Jewish curfew kept some 20,000 Jews and Arabs in their homes.

It was the first time Arab territory had been under curfew since the Arab rising of 1936-1939. Steel-helmeted British police and Irish fusiliers in green-tinted berets watched warily.

Jaffa appeared more nervous than Tel Aviv after the rash of outbreaks in which Jews and Arabs had attacked each other with stones, knives and fists. A number of Arab organizations called the curfew today a "disgrace."

In his 10:00 A. M. (Central Standard Time) advisory, the Bureau said the center was probably located about 200 miles southeast of Temple, Mexico.

"It appears to be moving to the northwest of north-northwest," the advisory said. Strongest winds reported yesterday and early last night were about 90 miles per hour, with squalls extending outward for a distance of about 500 miles to the north and east of the center.

Shift In Course Made By Tropical Storm

NEW ORLEANS, Aug. 14 (AP)—A slight shift in course of the tropical hurricane in the southwestern Gulf of Mexico seemed apparent today, the U. S. Weather Bureau said, but later reports were awaited to determine the exact direction.

In his 10:00 A. M. (Central Standard Time) advisory, the Bureau said the center was probably located about 200 miles southeast of Temple, Mexico.

"It appears to be moving to the northwest of north-northwest," the advisory said. Strongest winds reported yesterday and early last night were about 90 miles per hour, with squalls extending outward for a distance of about 500 miles to the north and east of the center.

Government Orders Florida Orange Juice

LAKELAND, Fla., Aug. 14 (AP)—The Department of Agriculture announced today it would buy 160,015 gallons of concentrated orange juice, the first phase of a program to accumulate and distribute supplies to school lunchrooms before the new school year begins.

The Florida Citrus Canners Cooperative at Lake Wales was awarded an order for 160,015 gallons, reported M. F. Miller, Florida field representative for the USDA. The other gallons will be furnished by California processors.

U. S. Interest In Greece Hit By Reds At UN

Gromyko Charges Ex-Axis Collaborators Hold Positions In Athens Government

LAKE SUCCESS, Aug. 14 (AP)—Russia charged today that "the crudest interference into the internal affairs of Greece emanates at present from the United States."

This was interpreted immediately as a reference to the Truman aid program.

Giving the United Nations Security Council what he termed "an answer to the American speech made Monday, Soviet Deputy Foreign Minister Andrei A. Gromyko said foreign interference was worsening the situation daily inside Greece.

He also charged that former Axis collaborators were holding prominent positions in the Athens government.

Gromyko told the council: "We must have the Greeks and those who inspire them to do with logic and common sense? They look at the discussion of the Greek question in the Security Council as some kind of a sport. The Greeks compete with the Americans and the Americans with the Greeks in the formation of accusations against Albania, Bulgaria and Yugoslavia."

Gromyko accused the original Balkan Inquiry Commission, which had the same membership as the 11-nation council, of lacking objectivity by showing "unusual interest" in Greek charges and of ignoring cases where "the Greek authorities were guilty."

The Soviet delegate described as "senseless" a new Greek proposal which calls for council action under U. N. charter articles providing for use of international military force if necessary.

"It is surprising that instead of eliminating the real reasons which have caused the difficult internal situation in Greece and the tension in the relations between her and her neighbors, the representative force is busy with..."

Dutch Oil Dump Fire In Indonesia Called Sabotage

BATAVIA, Java, Aug. 14 (AP)—A spectacular fire swept the Netherlands Indies Petroleum Board's main dump at the port of Tandjoengpriok this afternoon.

Native firemen extinguished the blaze after three hours of heroic effort. They saved two large tanks of high octane gasoline, but 5,000 cans and drums containing more than 100,000 gallons of gasoline were destroyed.

Col. L. L. Drost, Batavia area commander for the Netherlands army, said the fire was "most probably sabotage."

"Aug. 17 is Indonesian Independence Day and now it's time to look for the fireworks," he said.

Drost said only a change in the wind saved the entire dump from destruction. The blaze endangered large military supply dumps and shipping nearby.

A substantial portion of Dutch military and civilian fuel supplies for west Java are stored at Tandjoengpriok, seven miles northwest of the center of Batavia, he said.

A Dutch communiqué, charging new violations of the truce in Indonesia, said Republicans also put the torch to oil installations at Pankalambandan, in Indonesian-held northern Sumatra. It added that 300 Indonesians had attacked Dutch-occupied Rajabong in south Sumatra and that in east Java intermittent mortar and automatic arms fire had been directed at Dutch outposts near Soerabaja and Malang.

Lehmans Return From Indiana Trip

In contrast with moderate summer temperatures in Florida, Sanford State Market Manager H. J. Lehman, who returned recently from his former home town of Crown Point, Ind., about 35 miles from Chicago, revealed that the temperature there was up to 104 one afternoon and that since his return he had been hit by a "cold."

"I had to return to Sanford to cool off," he told a little group of interested listeners in front of the Court House this morning.

Regardless of weather variations, a considerable quantity of out-of-state peaches and tomatoes are being received daily at the market, he stated. Tomatoes are from the Carolinas and Virginia.

While visiting his brother at Crown Point he employed ace pitcher ball games in Chicago between the Chicago Cubs and the Dodgers, Phillies and Cardinals, he reported.

In order not to further dumfounded his listeners, he informed them that he saw the games over his brother's new television set, and declared that the television camera followed the ball all the time it was in play.

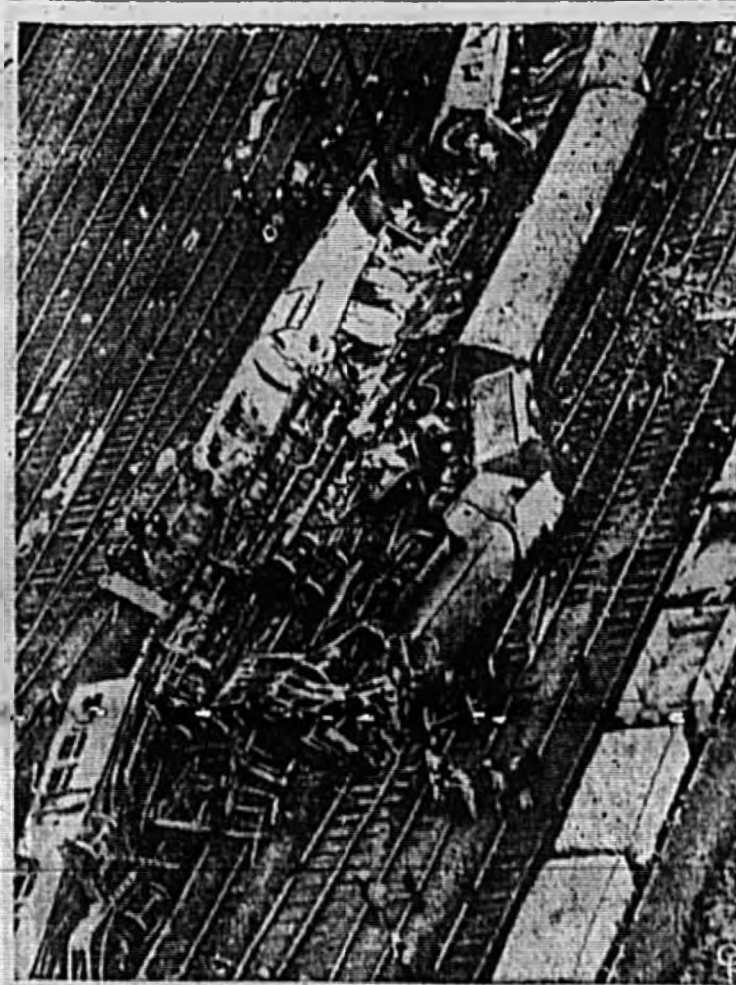

Merchants Group To Hold Dinner Meeting

The Sanford Merchants Association will hold a dinner meeting Aug. 22 at 7:00 o'clock at the Mayfair Inn. It was announced today. The pending change in the Post Office schedule will be discussed as well as the proposed study of the City's tax structure.

There will also be a short talk on the Cross State Highway and an open discussion of the Wednesday closing. All merchants are urged to attend and bring their employees.

ARRIVE IN RIO RIO DE JANEIRO, Aug. 14 (AP)—U. S. Secretary of State George C. Marshall landed today at the Ponta Do Galeao military airbase for tomorrow's opening of the Inter-American Conference on hemispheric defense. Trygve Lie, secretary general of the United Nations, also arrived from New York to address the opening plenary session.

Where 17 Died In Train Wreck

HERE IS AN AIRVIEW of the shattered wreckage in which 17 died in rail disaster at Doncaster, England. The speeding London-to-Leeds express plowed into the rear of a train which was slowing down preparatory to entering Lancaster station. The upset engine of the express can be seen alongside the wrecked coaches of the local train. (International)

Jaycees Urged To Finish Booth Funds Campaign

An appeal to Jaycees to get busy and finish their \$5,000 fund-raising campaign for use in financing operation of the new tourist information booth, was today made by J. Bradley Okham, president, and Charles Luke, vice president of the club at its meeting at the Mayfair Inn. To date, \$1,327 has been raised, they revealed.

Mrs. Virginia Bennis, national woman sailplane soaring champion, told of her experiences in setting new records at the July 4 meet at Wichita Falls, Texas, where, in competition with six other women pilots she set a women's distance record of 114 and a fraction miles, a straight goal of 52 miles and an altitude record of 7,500 feet above release at 2,000 feet. Her husband, Steve

India Is Released By Britain While Disorders Rage

KARACHI, Aug. 14 (AP)—Britain authorized the return of government to the Moslem Dominion of Pakistan today against a backdrop of deadly communal rioting in the Punjab which piled up a toll of hundreds dead and wounded.

Even as the victory, Lord Mountbatten, turned over the government to the Moslems in this Pakistan capital, wide areas of Lahore were in flames. Since dawn yesterday, by reliable unofficial counts, 13 were killed and 186 were wounded in Lahore, capital of the Punjab.

In Calcutta, capital of Bengal, an angry mob of Hindu youths cast stones and invaded the residence where Mohandas K. Gandhi has set up a joint peace mission with the Moslem Premier of Bengal, H. S. Suhrawardy.

Here in Karachi, Lord Mountbatten

4 Killed In Volcano Eruption In Japan

KARUZAWA, Japan, Aug. 14 (AP)—Mt. Asama, 90 miles northwest of Tokyo, erupted suddenly this afternoon, probably killing four of a party of 29 Japanese mountain climbers near the summit.

The 8,315-foot volcano sent clouds of smoke and ash thousands of feet into the air in six separate eruptions within four hours. There was no lava.

Japanese rescuers brought 16 climbers to safety, but one was burned so badly he was not expected to live. They said four others were missing and they were almost certain that two of these who were nearest the crater had perished.

The volcano appeared quiet during the night after this second burst of activity in two months.

10 Hurt In Freak Accident On Train

LOS ANGELES, Aug. 14 (AP)—Approximately 10 persons were injured, the Santa Fe reported, when an object protruding from the side of a freight train crashed through a coach window of the west-bound California Limited near Barstow this morning.

First reports were that no cars were derailed. The Santa Fe said it believed the injured were being taken to San Bernardino for hospitalization. A railroad spokesman said the second section of the California Limited was involved.

SCHOONER STRUCK TAMPA FLA., Aug. 14 (AP)—The Jose Gaspar, three-masted schooner used for many years in Gasparilla carnivals here, was struck by lightning today. The old ship's top foremast was splintered by the lightning bolt.

Pepper Plans To Support Truman For Re-election

U. S. Cancels \$1,000,000,000 In Italian Debts

Move Made To Ease Debt Clauses Of Peace Agreement

WASHINGTON, Aug. 14 (AP)—The United States today agreed to cancel about \$1,000,000,000 in debts owed it by the Italian government.

The move was made, the State Department said, to ease the "burdensome clauses" of the Italian Peace Treaty.

The State Department announced the decision in making public an accord concluded with an Italian financial mission after three months of negotiation.

Under the pact, the United States waives all claims to payment of government bonds, \$500,000,000 in civilian supplies.

"The terms of the understanding have the effect of alleviating several of the burdensome clauses of the Italian Peace Treaty and thereby substantial assistance is rendered to the Italian economy," the State Department announcement said.

Other highlights of the comprehensive accord with the Italian government are:

1. Inflicting of approximately \$600,000,000 in blocked Italian properties and assets in the United States since the owners are certified as non-Goetz.
2. Turning over of 28 merchant vessels to the Italian government, 15 of them American. Eight others are Italian ships being returned by the United States and five are vessels purchased from other American republics.

MacArthur Thanks Occupation Troops On VJ Anniversary

TOKYO, Aug. 14 (AP)—General MacArthur marked the second anniversary of V-J day today with a message of gratitude to the occupation forces for the job they are doing in securing the peace in defeated Japan.

Text of his message:

Two years ago today, the mounting power of allied arms reduced the enemy's power to violence and forced his capitulation from the challenge of war. The victorious end of battle became the beginning of an equally vital campaign to secure the peace. We now enter the last phase in Japan of this test of our strength. It is you men and women, military and civilian, who have composed the allied forces of occupation who are bringing this task to a successful conclusion. You have demonstrated that in peace as in war, the spiritual strength which frees men's minds is the most powerful force in the world. For the structure of the modern world is too deeply rooted in the devotion of man to the practical ideas of human justice, tolerance and individual dignity to be overturned by such strength as may temporarily be mounted by those who become

Nazi Concern Blamed For Starting War

NUERNBERG, Germany, Aug. 14 (AP)—Twenty-one directors of the billion-dollar I. G. Farben Chemical Trust pleaded innocent before an American war crimes court today to charges that they had conspired to plunge the world into war for profit.

Without Farben, Brig. General Telford Taylor, the chief prosecutor, charged in a scorching 20,000-word indictment, Adolf Hitler would have been powerless to start the war in 1939 and powerless to wage it so successfully for so long.

Taylor, in his indictment of the Farben directors, accused the dye and chemical trust, world wide in scope, of being the industrial heart of the Nazi war effort. He borrowed the German's own expression for I. G. Farben, "a state within a state," because the company was given such a peculiarly independent status by personal orders from Adolf Hitler.

Globe Circling Pair Still In Greenland

NEW YORK, Aug. 14 (AP)—William Stolmeier, flight manager for two former Army pilots who are going around the world in a pair of light planes, said today he had not been advised when they plan their hop, from Greenland to Iceland.

The pilots, Clifford V. Evans, 26, of Washington, D. C., and George Truman, 39, of Los Angeles, landed Tuesday night near Julianehavn, capital of Greenland, and presumably still are there, Stolmeier said. To Reykjavik, Iceland, is about 750 miles from there.

The pilots began their leisurely junket Saturday at Teterboro, N.J.

10 Workers Dismissed For Loyalty Reasons

WASHINGTON, Aug. 14 (AP)—The Civil Service Commission disclosed today that it has found ten additional State Department employees ineligible for government employment "for loyalty reasons, all of them involving Communism."

This brings to 20 the number of State Department workers removed since July 1, 1946, for security reasons.

The commission announcement was contained in a letter to Chairman Rees (R-Kan.) of the House Civil Service Committee which has been studying employee loyalty.

President Described As "Salt Of Earth;" Republicans Hit As "Party Of Privilege"

WASHINGTON, Aug. 14 (AP)—From the White House steps Senator Pepper (D-Fla.) voiced his support today of President Truman for re-election.

"I don't think there is any question but that the President should be and will be nominated, and should be and will be elected," Pepper declared to reporters after a call on the President.

Adding political significance to the Florida Senator's remarks is the particular position he occupies in the Democratic Party. Pepper is close to the CIO and other labor groups. He also is a warm friend of Henry A. Wallace, former vice president who was ousted by President Truman as Commerce Secretary after they clashed over foreign policy.

Furthermore, Pepper has been a frequent critic of the present administration although he applauded President Truman's Labor and Social Security bills.

Pepper called at the White House immediately after Mr. Truman had held a weekly conference. Pepper told reporters he did not discuss politics in his call on Mr. Truman but wanted to make clear his position.

The President, he said, has proved himself "sincere, honest and human—he is the salt of the earth of this country."

Long before, Pepper had made clear he would not go along with any third party movement because

Plans Discussed For Operation Of Boats On St. Johns

Plans for operation of two 500 ton boats on the St. Johns River in the near future were yesterday discussed by E. W. Tyler of Brunswick, Ga., and his associates and Chamber of Commerce Manager Edward Higgins.

Mr. Tyler is reported to have announced intention of putting the two boats into operation in the inland waterways between Sanford, Baltimore and Philadelphia, and his group requested the assistance of the Chamber of Commerce in securing a navigation permit on the St. Johns River.

Mr. Higgins assumed them that he would contact the shippers in this area and get them to endorse his application with the Interstate Commerce Commission.

While here, the group visited several of the river packers who own canning plants and was given assurance of sufficient tonnage to satisfy their requirements. The boat operators declared that if plans work out, they hope to be in operation within 60 days.

Their application is for a common carrier, said Mr. Higgins, and they will publicize rates for all commodities from Philadelphia and all intermediate points on the inland waterway.
