SANFORD BOARD OF TRADE HAS SPLENDID MEETING ELECTS NEW OFFICERS

Frank L. Miller Heads Board For 1920 NEW GOVERNORS IN

GREAT SPIRIT OF BOOST IS SHOWN BY NEW OFFICERS AND MEMBERS

One of the most enthusiastic and representative crowds of business men, farmers and manufacturers that have ever met at a Board of Trade meeting in Sanford met at the Court House Tuesday night when the annual election of officers was held resulting in the following officers being chosen for the ensuing year.

President, Frank L. Miller, first vice president, Chas. L. Britt, second vice president, T. W. Lawton, treasurer, W. M. Haynes.

The following board of directors were elected:

H. L. Haight of Altamonte, W. C. Hill, S. O. Shindler and Dr. George Hyman of Sanford, O. P. Scope of Ovelo, Endor Curlett of Geneva, E. L. Hoban of Osceola, C. Bayne Bell of East Sanford and John Meisch of West Sanford.

Several of the members made interesting talks on the benefits of the Board of Trade and the get together spirit and the many things needed in Sanford some of which has been brought here by the Board of Trade and many to be put in force by the efforts of the board in the days to come and out of the discussion was brought forth the subject of the Osceola Cypress Co., at the new town of Osceola or Bridge End as it has been called in the eastern part of the county where a city of a thousand people has already been built and an account of a stretch of bad road between Geneva and Osceola the people are prevented from coming to Sanford. A committee was appointed to confer with the county commissioners at their next meeting about this road and in the event that the commissioners cannot at this time build the road the committee is empowered to make a loan and allow the county commissioners to repay them as soon as the county is able as the road fund is almost used up at present. The following committee was appointed by the president: A. P. Connelly, J. G. Ball, B. F. Whitner, R. J. Holly and F. W. Mahoney.

Several other matters of great importance were discussed and demonstrated what the Board of Trade can accomplish none meeting if the members will co-operate and make the county's business their business. At the close of the meeting President Miller made an earnest address thanking the members for their confidence placed in him by the election and pledging them his time and support for the year. Mr. Miller stressed the fact that Sanford could accomplish wonders here if the people would only get together and stay together on the main idea of supporting the Board of Trade and meeting regularly once each month laying aside all factional differences and pulling for a greater Sanford. He impressed all present with his earnestness and showed that he is the right man in the right place and in President Miller the members will have an active chairman and one who will expect every member to work with him.

In Frank Miller, Chas. Britt, T. W. Lawton and W. M. Haynes the board has a working force that will work and the board of governors from every part of Seminole county will make the Board of Trade hum from this time forward.

An appointment as secretary has been made and until a campaign for memberships has been put over it is likely that some volunteer will hold this office with the assistance of a stenographer to answer the correspondence and take care of downtown office that will be opened if possible while the tourist season is on.

The Sanford Board of Trade in the past has accomplished much for the county and made a fine record

especially while D. C. Marlowe was the active secretary and if possible in the early fall a secretary will be engaged to put the Sanford Board of Trade and the county on the map in large letters. It now behooves every live citizen of the county to join the Board of Trade and become one of us in every sense of the word.

Joe Meisch Gives \$100

In the list of people giving \$100 each to the Baseball Association in yesterday's Herald the name of Joe Meisch was left out and hence this correction. Joe is one of the boys and not only loves base ball but like his brothers John and Frank is public spirited in every sense of the word and you can always bank on the Meisch boys being there with the good when the community needs them.

Three Killed in Airplane Smash

Miami, Fla. Mar. 11.—Maxwell Blanchard of Chicago, pilot, and Charles (Tod) Sims of New York, and Kenneth Earle, of Montclair, N. Y., mechanics, were killed at 6 o'clock last evening when a three seated air-marine machine crashed to earth near the Hillsborough light, 35 miles north of Miami. The accident was witnessed by farmers who, hurrying to the machine, found it a wreck and the occupants dead. The cause of the accident is unknown.

Will Talk on Commission Government.

G. A. Abbott the city manager of Sanford will address the charter commissions for the new form of government in Tampa Friday night. Mr. Abbott has been invited to address the meeting by the chairman of the commission and will avail himself of the opportunity to discuss this important question with the voters of Tampa.

VILLA ONLY KIDNAPS FOR TALK

WANTS AMERICANS TO TELL HIM ALL THE NEWS AND THEN RELEASES THEM

Washington March 11 (By Associated Press) The War Department Intelligence officers received word unofficially from Villa that his purpose in kidnapping Americans was to talk to them and get the news of the outside world and give his views on Mexican affairs. He said no ransom was wanted and he would release them promptly when business was finished. He has kidnapped five and released them all in two months.

Hood Sells Farms

J. D. Hood has disposed of his farms on the west side Roy Syms buying the 22 acres on First street opposite the ice plant and Lloyd Brown buying the ten acres farm south of the 22 acre farm. These farms are among the best on the west side and have excellent crops of celery on them. Mr. Hood will take the crops and has already contracted for most of the celery at an excellent price. It is not known what he sold these farms for but it is understood that he received a handsome sum for them. The celery on these farms is among the best in the celery section and shows the quality of the land. Mr. Hood will not give up farming altogether as he likes the game too well but he expects to devote part of his time to other pursuits that are not quite so strenuous.

Hoover Testifies In Navy Mess

TO CORROBORATE THE CHARGE THAT ALLIES WERE SLOW IN VICTORY.

Washington March 11 (By Associated Press) Herbert Hoover will be called to testify in the Senate investigation of the navy conduct of the war. It was Sims request that Hoover be allowed to corroborate the charges that the allies barely escaped peace without a victory. Sims' testimony today contained indications that the navy department had withheld all available craft in European waters early in the war because they desired to keep the main body of the sea strength intact if possible for eventualities. He criticized what he termed the policy conditioned future of the United States when engaged in war is certain to exhaust all participants possible except ourselves.

Dyess-Garwood

Miss Pearl Loona Garwood and I. M. Dyess of Paola were united in marriage by Schelle Maines in his office yesterday. The wedding took place in the presence of the parents of the contracting parties and a few friends. Both young people are well and favorably known in the Paola section. Mr. Dyess has lately returned from France where he was a sergeant in the A. E. F. Their many friends extend congratulations and best wishes.

OUR NAVY DID FAIL SAYS SIMS

FAILURE TO GIVE PROMPT CO-OPERATION COST ALLIES LIVES AND MONEY

Washington, March 11.—Failure of the navy department to give prompt and full co-operation in the war department during the first six months after the United States entered the struggle prevented a victory over Germany by July, 1918. Rear Admiral Wm. S. Sims told the senate investigating committee today in supporting his charges of delay against the department.

"It is no light matter that cost the cause with which we were allied half a million lives, \$15,000,000,000 and 2,600,000 tons of shipping," he said.

The officer first read to the committee the statement he had made upon his arrival in London in 1917. The statement was long and full of technicalities, but sharply brought out his conclusion that victory or defeat was to be determined by the German submarine campaign, which was concentrated in the eastern Atlantic where shipping routes to England and France were most numerous and converged.

Failure of the naval department to throw the full force of the navy into the struggle he said resulted in a loss of 4,000,000 tons of shipping in 1917 and 1,000,000 tons in 1918. America he said could have had a million men in France in 1918, instead of 100,000, if such action had been taken.

Citizens Of Atlanta Volunteer

TO ACT AS MOTORMEN AND CONDUCTORS IN STRIKE.

Old Ball Player Here

J. H. Swain is in the city selling his formula for making the Florida Handy Mixture and also taking subscriptions for magazines. In the heyday of his youth he was known as "Cy" Swain and was the pitcher of the Washington team in 1897 when he helped to pitch them to victory pitching the deciding game in the pennant race Washington against Baltimore winning a bonus of \$500 and a trip to Florida. He never used the return trip as he fell in love with a Florida girl at Bristol who was a niece of Judge Sheppard and did not go back to Washington. However the lure of the diamond was so strong to keep him down on the farm and in 1901 he was on the Ft. Wayne team and helped them to win three pennants. While in training at Colorado Springs he hurt his shoulder and had to quit the game. Mr. Swain will reside for a time and is looking for furnished rooms for himself and family.

Meeting D. A. R.

The regular business meeting of Sallie Harrison Chapter D. A. R. will meet at the home of Mrs. Forest Lake Friday afternoon at 3:30. At this meeting plans for the memorial to the service men of Sanford Seminole County will be submitted. Many beautiful designs have been sent in by the various architects.

Negotiations For Compromise Is Good CHANCES EQUAL

FOR BOTH SIDES OF CONTROVERSY AND SOMETHING WILL DROP SOON.

Washington, March 11.—Here is article 10, on which the fate of the peace treaty again is suspended—just two compact sentences set in the midst of an 80,000 word document: "The members of the league undertake to respect and preserve as against external aggression the territorial integrity and existing political independence of all members of the league. In case of such aggression or in case of any threat or danger of such aggression, the council shall advise upon the means by which this obligation shall be fulfilled."

The peace treaty ratification fight in the senate entered its final and most bitterly contested phase today with article 10 and the reservations thereto the unfinished business to be disposed of. Debate of the much disputed section of the league of nations covenant is in progress while negotiations looking to a compromise on the republican reservations will be continued. Both sides frankly without much hope that an agreement will be effected. Several republican officers were ready to institute a reservation yesterday to which they claim they had obtained the support of 48 democrats, but that number is from 2 to 6 short of the votes necessary to pass the treaty carrying qualifications which President Wilson has declared will cut the very heart from the pact.

The reservation on voting power in the league, by which United States declines to be bound by decisions to which congress has not assented until voting power is made legal was re-adopted yesterday, 47 to 20.

Some democrats favoring reservations arranged for a conference today in the office of Sen. Owen, of Oklahoma, in an effort to expedite ratification.

WILL MEET TONIGHT

City Commissioners Failed To Meet Last Night On Account of Illness.

The meeting of the City Commissioners was not held last night on account of the illness of H. R. Stevens and the meeting was postponed until tonight at which time the many matters of importance will be taken up by the commissioners.

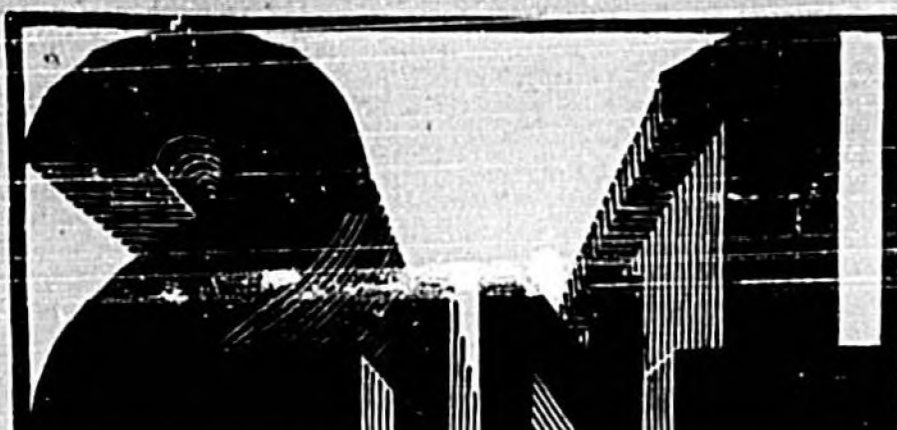

To Make Auto Taps

Earle Field is here looking for a location for a factory in which to build auto taps and furnishings for automobiles. Earle is an old Sanford boy having resided here with his parents Mr. and Mrs. W. P. Field for many years but of late has been in Augusta, Ga. where he was associated with his father in the auto tap business. This is a new line of endeavor in the manufacturing field and would be a good thing for Sanford and if there is any one here who has a vacant store or factory space that could be rented or leased to Mr. Field it would mean another factory for Sanford.

COAL STRIKE SETTLEMENT COMMISSION

REPORT SENT TO PRESIDENT TODAY FOR CONFIRMATION.

Washington March 11 (By Associated Press) The report of the coal strike settlement commission was sent to the president for approval today. The contents were not published and officials would not confirm the reports that it contained in the recommendation for a twenty five per cent increase for the bituminous miners.

PROBABLE THAT LOWER EAST COAST HAS NOT BEEN BADLY HURT AS REPORTED

It is probable that as the growers of the southern part of the state have time to take stock they will find that the loss as first predicted by the cold snap of Sunday and Monday night was not as bad as predicted but late reports say that the tomato growers of the lower east coast have suffered severely.

In the Sanford section there was very little tender stuff killed as very little of it had been set in the fields. Here and there were some peppers, squash, beans, etc., that were killed some report that their peppers escaped and from all reports the damage here was slight compared to other quarters.

The thermometer went down as far as 28 during the coldest part of the night Sunday and early Monday morning. Celery of course is not hurt by cold weather unless it freezes and the greater part of the lettuce crop has been shipped. Irish potatoes here were nipped in the tops but it is thought they will come out again although it is liable to cut the crop some and retard the growth.

Fears entertained Monday for the citrus crops were without foundation and not even the early bloom was killed.

Can you wash your walls?

You have often wished that you could remove spots and stains from your wall paper. Perhaps the paper was almost new. In that case the marks must remain an eye-sore, or you must go to the expense of repapering.

We can save you all such annoyances. In place of this unsanitary wall paper, we recommend that you use

DEVOE The Guaranteed Velour Finish

It is an oil paint that gives to walls a beautiful, soft, water-color effect. If it becomes soiled, wash it with soap and water.

Besides being a thoroughly sanitary finish for your walls and ceilings, Devoe Velour Finish also offers artistic possibilities that cannot be obtained with wall paper. Also, it is more economical—lasts longer than wall paper.

We guarantee every can of Devoe we sell. Our customers tell us it gives them perfect satisfaction and that it is very easy to apply.

MOVEMENT CELERY TO START SOON

Celery Is In Fine Condition Despite Cold

MOVEMENT INCREASE

ABOUT TWO HUNDRED CARS WILL GO FORWARD THIS WEEK

The recent cold snap did no injury to the great celery crop of Sanford and beyond making the tops a trifle yellow one would never know that the cold had visited the celery fields. Just now the growers are getting into the very height of the shipping season and the roads are filled with tourists every day watching the cutting and packing of this great money crop. Many of the largest growers are cutting celery this week and it is almost certain that this and next week will be large weeks in the shipping of celery. Last week about 125 cars were rolled from the Sanford section and this week it is estimated that about 200 will be shipped which is a good record for this year and much better than was done last year although the price is not as good.

Prices were falling last week on account of the heavy snows in the northern cities and the intense cold that stopped much of the buying and this helped materially in reducing prices but yesterday the grower were getting \$2.50 per crate in the field which is not considered bad when conditions are taken into consideration.

The high price of labor and materials this year make it incumbent for the grower to get a much better price this year than ever before in order to come out with any profit and it is hoped that the price will go much higher before the big shipments get ready to roll.

As usual there are many buyers here to take care of the trade and the fact that the cash buyers come here to take the celery in the field is a big thing for the Sanford and

Seminole County growers for it makes an f. o. b. market which is the biggest inducement in the world for those who are seeking a real growing section of Florida.

The celery is looking exceptionally fine this year and will probably be one of the finest crops that Sanford has ever shipped.

FT. PIERCE NEWS BUYS TRIBUNE

A. K. Wilson To Leave Newspaper Business; May Be Daily Editor

Fort Pierce, March 8.—The News Printing Co., publishers of the Fort Pierce News, of which R. H. Glenn is president and editor, has purchased the St. Lucie County Tribune, semi-weekly, the Stuart Messenger and the Fellsmere Tribune, weeklies, from A. K. Wilson, and will continue the publication of four newspapers. The plants are valued at \$10,000.

It is understood that the News Printing Co., will begin the publication of a daily on December or January 1, to run during the tourist season each year until conditions warrant an all year daily.

R. H. Glenn, who has been editor and manager of the Ft. Pierce News for four years and L. F. Chapman of Wartrace, Tenn. will edit and manage the newspapers. Mr. Glenn came to Florida over six years ago from Oklahoma, where for several years he was editor and manager of the Durant Daily and Weekly Democrat. Mr. Chapman retired from the Methodist ministry of Florida over two years ago. It is understood that Mr. Wilson is retiring from the newspaper fame.

Takach Home Burned

The home of Mr. and Mrs. Julius Takach on Celery avenue was burned last night. It is unknown just how the fire started and as the home is about three miles from the city the fire had great headway and could not be controlled although the Sanford Fire Department took the chemical truck out there as soon as possible with the thought that maybe some assistance could be given. The house is beyond the city limits, several miles and had no protection. A small insurance was carried and the sympathy of their many friends is extended to them in their loss.

ARE AMERICANS

FIRST LAST AND ALL THE TIME AND CONDEMN STRIKES OF ALL KINDS

Chicago, March 6.—The American Farm Bureau Federation, at the closing session of its annual meeting yesterday, adopted a resolution denouncing the attempt to ally the agriculturalists of America with radicals. The federation is composed of 1,500,000 members of farm bureaus in 27 states.

The resolution adopted by the federation declared:

"We wish the American people definitely to understand that the organization styled 'The Farmers' National Council' has no authority to speak in behalf of the farmers of this country, and any and all efforts on the part of 'the farmers national council' to ally agriculturalists of America with the radicals in the industrial world is hereby denounced."

Resolutions relating to legislation and other desires of the federation were adopted, the salient features being the creation of bureaus to have direct supervision of the work of the federation. These resolutions provide for establishment of bureaus on trade relations with foreign countries, distribution of farm products, legislation, transportation and a bureau on business organizations with authority to set up without delay a business organization under the direction of trained experts."

Other resolutions endorsed the American Legion, conservation of health and industry, condemned strikes and opposed legislation tending to levy a tax of 1 per cent on landholdings in excess of \$10,000.

BIG TREES FAMOUS IN HISTORY

NOMINATED FOR HALL OF FAME AMONG THEM BEING ONE FROM FLORIDA

Washington, Mar. 9.—"The Great Tree on Boston Common" and "The Green Tree Hotel" at Le Claire, Iowa, the most famous tree on the Mississippi River were today nominated for a place in the "Hall of Fame for Trees" being compiled by the American Forestry Association.

The Great Tree on Boston Common is nominated by J. Collins Warren, of Boston, who sends a complete history of the tree which was blown down in a storm February 15, 1918, the centennial of the year in which the colonists gathered around the tree and started for Lexington to give battle to the British.

"The Green Tree Hotel" at Le Claire, Iowa, is nominated by J. W. Barnes, who as a boy, played leap frog beneath the branches of this tree with one Willie Cody afterward known to fame as "Buffalo Bill." The historic elm is well known on the Mississippi River because to the river men, reports Mr. Barnes, "it was the waiting place of men out of a job and looking for a trip. Therefore they give it the name of 'The Green Tree Hotel.' It is considered to be 120 years old.

Other nominations for the Hall of Fame include the DeSoto Oak at Tampa, Fla. from which DeSoto started for the Mississippi and the West; the Octopus Tree in Charles City Co., Virginia, nominated by Meade Ferguson as the largest and oldest tree in the state; the two oaks at Marlinton, W. Va., marked in 1751 by General Andrew Lewis nominated by Andre Price; the tallest tree in the Balkans at Podgoritzia nominated by the Red Cross which had headquarters near it during the war.

Will Build Hotel

J. A. Braun formerly of this city but for the past two years a resident of Coronado Beach was in the city today calling on his many friends and he had plans and specifications for a new hotel at Coronado which looks like a winner. Mr. Braun has the pavilion and restaurant at the beach now and has worked wonders with it but he sees the many advantages to be derived from a real hotel and amusement place at Coronado and he wants to interest the people of his own section at New Smyrna and also the people of the interior who have always had a warmer spot in their hearts for Coronado Beach. There is no doubt but what some of these fine days Coronado Beach or New Smyrna Beach as it will soon be called will be one of the most popular beaches on the coast. It has all the possibilities and needs only the right kind of development to get the people of central Florida as patrons. Mr. Braun will have no trouble interesting capital in his new hotel at the beach for Florida beaches are the finest in the world and are getting more popular every year.

ELDER SPRINGS WATER

THOMAS D. BAKER, Ph. D.

Analytical and Consulting Chemist, Professional of Natural Science Emeritus, Rollins College, Florida

Mr. T. O. Charles Sanford, Fla.

Private Laboratory of Rollins College Winter Park, Fla., Nov. 5th, 1918

I have completed careful chemical analysis of the sample of water that you brought me early last week, and have obtained the following results:

Table with columns: Color, Reaction, Free Ammonia, Albuminoid Ammonia, Clear, Neutral, Hardness, Chlorine, Total solids, Nitrates. Values: 1.75 parts per million, 8.00 parts per million, 23.03 parts per million, Trace, Trace.

The absence practically of free and albuminoid ammonia in this water and its very small amount of chlorine indicates its excellent quality for household purposes. In addition to the good quality characteristics of superior household water, it possesses special features of much value, especially those of excellent natural aeration and LOW degree of hardness.

The bacteriological analysis, resulting in an average total count, in four samples of the water, of 3 bacteria per cent.; and in finding no coliform, or other harmful bacteria, fully confirm its good quality indicated by the CHEMICAL analysis.

Of the many waters of this and other regions that I have analyzed, I have found none superior in all good qualities to that of the "Elder Water."

Yours very respectfully, (Signed) THOMAS D. BAKER

Mrs. Austin Williams and daughter Miss Mamie Kate are here from Tampa visiting Mrs. Volle Williams and Mrs. Arthur Johnson.

Mrs. Pipton and son Owen spent the week-end with Mrs. Pipton's daughter, Mrs. Harbin, leaving for Tampa Monday. They will return to Sanford later in the season.

Week end guests who accompanied Miss Sarah Wight home from Rollins College were Miss Lucy Anderson, John Rowe of New Smyrna and Charles Fohl.

Wedding Announcement

Mr. J. Roehk announces the marriage of his daughter, Edna Carolina to Stanley C. Walker, Monday, March the eighth, nineteen hundred and twenty, at the Snyder Memorial Methodist parsonage, Rev. Keene officiating.

The announcement of Mr. Walker's marriage will be received with much cordial interest among his friends here where he is so well-known, having lived from earliest childhood to young manhood in this city. He is a young man of sterling character and business ability and is a valued employee of the J. B. Lawson Motor Company. As First Sergeant in the U. S. Motor Corps, he served two years in the recent war, eighteen months of the time, serving in France.

Mr. Walker is the son of Mrs. C. L. Goodhue of this city and numbers his friends by his acquaintances. Mrs. Walker is the youngest daughter of Mr. J. Roehk of New York, a charming and lovely girl whose pleasing personality has endeared her to a large circle of friends in her home town and in Jacksonville where she has spent the last year.

M. and Mrs. Walker will reside in Sanford and will be at home after March 15th with Mr. and Mrs. Vance Douglass on Golden Lake.

Lexington

MINUTE MAN SIX

HERE is a good, fashionable, dependable family car. It is made for five passengers; that means there is plenty of room for five adults, not three grown-ups and two children.

The equipment on all Lexingtons is absolutely complete. It includes many items ordinarily listed as extras, even on the most luxurious cars.

Among these are a motor meter, an engine-driven tire pump, an inspection light, and two-way headlamps.

The upholstery is of the finest quality of hair and felt over coiled springs, covered with semi-bright, long grained black leather, French-pleated in soft folds.

Each of the four doors has a large, roomy pocket. The door catches are double acting with big outside coach handles. Handy compartments for tools are located under the tonneau floor. The top is the one-man type, with curtains that open with the doors. The curtains, when not in use, are folded in a saddle-bag back of the solid front seat. A two-panel, rain-vision, ventilating, weather-stripped windshield is provided. This windshield looks like part of the body. There is a smart angle at the cowl.

The Moore Muntiple Exhaust System, with which all Lexington cars are equipped, conserves fuel by producing more horse power per piston displacement. Among other mechanical features are a new-type propeller shaft with non-metallic universal joints, a perfectly co-ordinated transmission and clutch that permit smooth and silent starting, and a unique emergency hand brake that can be operated with one finger.

Lexington owners have a real affection for their cars. This feeling is the natural result of an unflinching service on the part of the car. When the road is heavy or steep, and the going wearing and difficult, the Lexington reveals its true character.

The Price Includes Four Cord Tires

A car of undeniable beauty, equipped with a six-cylinder Continental Red Seal Motor of fifty horse-power.

A car with one hundred twenty-two inch wheel base that will carry you from two to seventy-five miles an hour in high speed, and do it on seventeen miles to a gallon of gasoline.

The wonderful performance of this new Series S. Lexington is the result of engineering perfection. The motor is equipped with the Moore Double Exhaust System and the Dexigasifier. The latter is a device which absolutely vaporizes every particle of gasoline which enters the motor. Hence its economy and power. Oilless bushings, Thermoid universal joints, cable foot brake and the "one finger" emergency brake are features of advanced automobile engineering which the Lexington possesses.

Ask for a demonstration and be convinced.
We can make immediate deliveries of Touring Cars, Lex-Sedans, Sport Jobs and Coupes.

SANFOD MERCHANTS LEND SUPPORT TO BALL TEAM IN COMING SEASON

Looks Like Sanford Will
Have Winning Team

NEW TEAMS TO PLAY

\$2,465 HAS BEEN RAISED AS
A STARTER AND MUCH
MORE TO FOLLOW

Never before in the history of Sanford has there been displayed so much enthusiasm over Base Ball prospects as have been displayed during the last few weeks. Men who want to see Sanford represented in every thing that is of any importance to the State are all anxious to see that Sanford is again represented this year with a ball team that will be a winner.

Last year our Base Ball Club did more for advertising Sanford than anything that has been done in years gone by. Every man who knew base ball through out the entire State talked of and knew of Sanford. The money that was spent was spent well, because the advertising alone was worth twice the money.

We start this season off with every one in the State watching Sanford. They have now learned what a ball town Sanford is and they are expecting big things from us. We will not disappoint them either, for we shall use all our efforts in placing a ball team in The Florida State League again that is bound to be a winner.

Other towns in the league are watching Sanford and they expect to use their efforts to head off Sanford too, know that Sanford goes into things to win and the preparations being made now by these other clubs show that they are all out with fire in their eyes. St. Petersburg and Daytona are both ball towns from away back and Sanford cannot expect to come out on top unless the Sanford men push. This

is realized by our men here and they are pushing.

It takes money to put anything over and this year it will take more money than last year. And when you are called on to come up with a little change go clear to the bottom of your pockets before deciding upon the amount. Keep in mind the fact that this is not money thrown away because aside from the advertising it gives Sanford, what is a town where it is all work and no play. And it is bound to keep people at home this summer and give them something to do while they are here. There will be many dollars spent in Sanford this summer that would not be spent without the Base Ball team being here.

The committee that is soliciting funds have not as yet had the opportunity to canvass much but up to the time of going to press the following have come across voluntarily.

TAMPA TO ADOPT COMMISSION FORM OF GOVERNMENT

Sentiment of Citizens
Largely For Change

PREPARING LIST

OF CANDIDATES FOR THE
CHARTER BOARD AT
MEETING

If expressions from numerous of Tampa's most prominent and representative business men have any significance whatever, Tampa will doubtless have a commission form of government ere another year rolls by. More than a hundred such men gathered in the council chamber at eight o'clock Friday night where a meeting of the Commission Charter League was held. The meeting was thrown open for general discussion following the perfecting of a permanent organization and the election of officers to serve the league. Noticeable throughout the entire meeting was the undoubtable and overwhelming sentiment and public opinion in favor of a change from a councilmanic form to a commission form of government.

The meeting was opened by Dr. S. L. Lowry, as temporary president of the organization, who in a few well chosen words told of the purpose of the league and of the meeting last night. He explained that the public generally had been called upon to appear at the council chamber last night to express an opinion on the proposed change and to perfect a permanent organization to further the interests of a commission form. John R. Sharpe read the minutes of the previous and first meeting of the league, which were approved.

Dr. Lowry entertained a motion made by Councilman J. R. Fielding to the effect that the organization be made a permanent one. The motion was carried unanimously. The name of Albert Thornton was then placed in nomination for permanent president of the league and was named without opposition. He immediately took the chair and called for nominations for a permanent secretary. John G. Sharpe, the incumbent, was named Charles H. Brown was made permanent treasurer for the league.

President Thornton declared that the league's undertaking was an important one for Tampa and requests that he be authorized to appoint a committee of ten men to serve as an advisory board in conjunction with the president. His suggestion was placed in the form of a motion and carried. President Thornton stated he would name the committee at a later date.

It was explained that the preliminary steps of the newly perfected organization would be to see that the city of Tampa was given a commission form of government in order to accomplish this it was stated that it becomes necessary for the selection of fifteen representatives citizens to form a charter board. The duties of the charter board will resolve themselves into the drafting and formation of an adequate charter under which the city can be opened. Candidates for membership to the charter board will be submitted to the coming White Municipal Party primary for a vote of the people—thereby assuring fitness and fair representation.

CAN'T TAX DIVIDENDS ON STOCKS

SUPREME COURT SAYS
UNCLE SAM MUST GIVE
BACK THE MONEY

Washington, March 8.—Stock dividends may not be taxed as income, the supreme court held today in declaring unconstitutional the provisions of the 1916 income tax act decisions of the 1916 income tax taxing as income such dividends declared by corporations out of earnings and profits accruing after March 1, 1913. The court divided 5 to 4, Justice Pitney rendering the majority opinion. Justices Holmes and Day joining in one dissenting from the opinion, Justices Clark and Brandeis combining on another.

The court upheld federal court decrees denying the authority of congress to tax stock dividends and awarding to Myrtle H. McComber \$3,167 which she paid had under protest on 1,100 shares of new stock received in January, 1916, as a stock dividend from the Standard Oil Co. of California. The case was one of a series in which J. P. Morgan, Herbert L. Pratt and others had questioned the validity of the act. Court officials said the case was one of the most important at this term and that determination of the question effects thousands of investors.

Justice Pitney, in rendering the court's opinion, said stock dividends are no more than a "book adjustment," and do not change the nature character, mutual relations or interests of a corporation. The court divided 5 to 4, Justices Holmes and Day joining in one dissenting opinion and Justices Brandeis and Clark in another.

Millions of dollars in taxes collected on stock dividends must be refunded by the government under the court's decision, but internal revenue bureau officials, have not yet made an estimate of the total.

Donation To Hospital

The officers of the Fernald-Laughton Hospital association wish to express their thanks for the donation of Twenty-five Dollars from the Ladies Aid Society of the First Baptist Church.

The hospital is daily proving its worth to the city and county, and the many contributions to its support evidence the interest that is being taken by the best people of the county.
