Brown and Selleck Plan to Erect 12 Homes in Pinehurst

The Sanford Bond & Mortgage Company has completed arrangements with Brown and Selleck for the construction of 12 houses to be built in Pinehurst at an expenditure of approximately \$75,000 according to announcement made today. The houses are to be of six-rooms each and will have the exterior done in stucco. Robert J. Brown, one of the contractors, stated today the houses are to be built on lots of 52 x 117, purchased from the E. A. Strout Farm Agency through its Sanford representative H. Corrington. Brown and Selleck are starting their first operations here after completing the construction and sale of 60 one and two family houses at Bayshore, N. Y., and expect to continue extensive construction work on several other properties which they own in this vicinity.

Florida Is Made A Separate Division Of Revenue Bureau

WASHINGTON, Nov. 21.—(AP)—The state of Florida was made a separate field division of the Commissioner Blair today. In an announcement of internal revenue by commencing the creation of this field, Mr. Blair said that marked increase in land values and business activities generally had rendered the old method of assessing property taxes necessary. Chauncey W. Herick, head of the field procedure division of the collections unit in the bureau, was appointed internal revenue agent in the new division with headquarters at Jacksonville. From June 1 to September 30 of this year, the commissioner, said there were collected and reported for additional assessments \$1,888,212 as a result of income tax investigation, numbering 2,737 in the Florida district. Monthly collections and assessments for the four months covered were: June \$253,387; July \$293,570; Aug. \$316,937; Sept. \$225,188. The new agent in charge of the Florida district has been connected with the internal revenue bureau since 1914, serving as deputy collector of chief field deputy until October 1919 at which time he was appointed as internal revenue agent and assigned to several other key positions prior to becoming head of the field procedure division.

BRITISH MOURN THE DEATH OF MOTHER QUEEN

Flags Fly at Half Mast As Many Buildings Are Draped In Black to Express Sorrow Over Dowager's Passing

Prince of Wales Is Absent From Palace

Numerous Social Gatherings Are Cancelled As Bell In Cathedral Tolls Sad News

LONDON, Nov. 21.—(AP)—The British empire is in mourning over the passing of the loved Dowager Queen Alexandra. Flags flew at half mast today and many buildings were draped in black. Death came to the Danish princess late yesterday afternoon in Sandringham Palace while her son, King George and Queen Mary, and various members of the royal household stood with tear-bedimmed eyes at the bedside. The Prince of Wales, always her favorite grandson, was delayed by a heavy fog as he traveled from London to Sandringham and did not reach the palace in time to bid his grandmother farewell. Listeners in throughout the British Isles heard over their radios late today the widow of King Edward VII and the mother of their present monarch had come to her last rest. In London, from 8 to 9 o'clock, the big bell in St. Paul's tolled out sonorously the tale of the passing of a member of Great Britain's royal family. It is only when a member of royalty dies that the clang of the bell in St. Paul's awakens the sleeping nation.

Social Functions Cancelled Numerous social functions arranged for last night were cancelled. The theaters did not receive the news in time to close their doors, but in them, and in the motion picture houses which gave their program, funeral marches were played.

No date has yet been announced for the funeral of Alexandra, nor when her body will be taken to Windsor to lie in the royal vault in St. George's chapel beside that of Edward VII. It is expected, however, that the funeral will be held for two weeks. Queen Alexandra passed to rest amid the peaceful rural surroundings she loved so well. Since Thursday morning, when the doctor's announcement made it patent that the aged queen was in a critical condition the humlet of Sandringham and its tiny neighbors, Wolferton and Dersingham, (Continued on page 3)

Tax Cut In Addition To Reduced Federal Levies Contemplated

WASHINGTON, Nov. 21.—(AP)—Respective tax reduction, in addition to cuts in future federal levies, is provided by the revenue bill now in probation by the house ways and means committee. The provision in the 1924 law, however, allowing a 25 per cent Federal credit in the inheritance tax for payments made on state inheritance levies. Thus the inheritance rates from June 2, 1924 would be lower than under the 1921 act. As a result, the government would have to make refunds on all settlements in inheritance levies made between June 2, 1924 and the effective date of the proposed new law, which is estimated would amount to several million dollars. The 1921 inheritance tax schedule had a maximum of 25 per cent and the 1924 law carries a maximum rate of 40 per cent.

MacGruder Selected Head Of Seminole Jockey Club; First Meet Is In February

At the first business meeting of the Seminole Jockey Club held Friday at the offices of DeCottet and Spencer, local attorneys, for the purpose of electing officers and drafting corporation papers, Walter D. MacGruder, lumberman of Canton, O., was named president of the organization and Albert F. Bolzum, Akron theatrical man, was elected vice president. A. M. Hickey, Canton broker and realtor, was named treasurer and S. S. Steinmetz, builder and operator of the Northampton track at Akron, was elected secretary, and appointed as superintendent and construction manager of the new mile course now being built on the 300-acre tract recently acquired by the corporation between Sanford and Longwood. The name of the track was announced as Seminola, and Col. Andrew G. Leonard, of Lexington, Ky., was appointed presiding steward and plating judge. Leonard is to be steward of the Kentucky Jockey Club, and is well known as a sports writer, having contributed articles at various times to the London Sportsman, the American Horse and the New York Herald. A. E. Ranney, construction engineer of Akron, will assist Mr. Steinmetz in building the track, clubhouse and stables, and Dallas Bardon, Ohio engineer, has been engaged by the corporation to supervise road work. Tractors, plows sand suckers and all necessary machinery have been arranged and are in operation, it was announced, and a crew of 30 laborers have been employed for several days in preliminary grading and clearing. The track will circle a small lake, the entire course lying in a natural amphitheater that requires very little grading to produce what is expected to be one of the most unique and attractive racing tracks in the world. Grounds to Be Beautiful Present plans call for the immediate beautification of the grounds and the construction of temporary bleachers to accommodate spectators until the lifting of the railroad embargo permits the delivery of materials for the concrete and steel grandstand called for in the original specifications. Col. Leonard declared that much progress had already been made at the Seminola track, and stated that it was definitely decided to hold the first meet of this season on Washington's birthday, all races to be held in accordance with the existing rules of the Kentucky Racing Association.

Railroads Asked To Release Embargoes

MOBILE, Ala., Nov. 19.—(AP)—Shippers of freight by rail and water today asked the railroads to release the embargo on freight moving of this city to south Florida points. Both the Louisville and Nashville and Southern have declared embargoes, the former using a permit system for moving cars, while local officials of the latter line said that permits from that line would be issued at an early date. Important! The result of a horse race is published in England within two minutes, and throughout the world in ten minutes. Betting is almost equal to drink among England's cursers.

Brooklyn Eagle Representative Impressed By "City Substantial"

Bill Savage, traveling representative of the Brooklyn Daily Eagle, arrived in Sanford yesterday to arrange for local firms to be represented in three issues of the Eagle carrying a special Sanford page scheduled to be published on Dec. 6 and 7, and Jan. 17. Aside from fulfilling the mission of his paper, Mr. Savage stated that he was here for the purpose of studying investment possibilities in and around the city, and in this connection went stated that a careful investigation had convinced him that an expenditure of money for Sanford property represented a wise investment rather than a speculation. "Sanford and Central Florida have a stability and assured future second to none," Mr. Savage declared, "and any money that I have for investment purposes will be placed right here." "I attribute your city's legitimate, although phenomenal development, first to the unrivaled of the surrounding fields, the only true basis of stability and second to the city's strategic location on three great arteries of travel, cen-

LASH'S RETURN ADVOCATED BY PRISON CHIEFS

Georgia Commissioner Says Various Wardens Have Devised Many Brutal Methods To Help Their Arguments

Uniform Punishment Measure Considered

Official Relates Different Kinds Of Punishment That Is Dealt Out To Prisoners ATLANTA, Nov. 21.—(AP)—Strong advocacy among many prison wardens in Georgia for a return of the lash in punishing convicts for infractions of chain gang rules is prompting them to urge methods of punishment to appear as brutal as possible before legislative inspection committee, E. I. Rainey, member of the Georgia prison commission believes. Flogging was abolished by a recent legislature and in recent months there has been some agitation among the wardens for a repeal of the statute. Mr. Rainey said that a meeting of the committee will be held early in December to consider suggestions for a uniform method of punishment in conformity with the law. Reports from sub-committees to Representative Emmett Williams, chairman of the House penitentiary committee, tell of many peculiar modes of punishment that have been devised since the abolition of the lash. Tells of Different Methods. One camp, Mr. Williams said, fasten prisoners in a shallow box so they cannot move their arms. Molasses then is smeared over their exposed faces, leaving them powerless to brush away the flies attracted by the molasses. At other camps, he said, prisoners are hauled up to the post with their hands chained behind them. Their arms are then raised as high as possible and hung to nails, the prisoners being left in this position for several hours. Reports several days ago told of the finding of stocks in several prison camps, resembling those used in the early days of American history by the puritans of Massachusetts. Another form of punishment reported to the legislative investigators is the use of "Sweet boxes" in which a prisoner is confined for several hours at a time. This report says the prisoners are almost in a state of collapse due to the heat when they finally are released.

Officers Of Sanford Shores Are Elected At Thursday's Meet

Election of officers and the adoption of a general policy in connection with the development of 270 acres of land lying along the shore of Lake Monroe at the eastern end of the present bulkhead, featured the first business meeting of the Sanford Shores Corporation held Thursday afternoon. The bulkhead and boulevard will be extended along the entire lake frontage of the property, it was announced, and the level of the land raised several feet by pumping in sand from Lake Monroe. Members of the corporation have decided to withhold the property from the market for an indefinite time, although it was stated that the present heavy demand for lake shore residence lots had resulted in many applications for lot reservations. Officers for the ensuing year were named as follows: Forrest Lake, president; W. M. Scott, vice-president; F. H. Seruggs, secretary; E. L. Moulton, treasurer; J. C. Sharon, attorney. The board of directors will include these officials and H. M. Rumley, A. H. Moses and Charles Pelot.

Mobile Is Puzzled Over Strange Blast

MOBILE, Nov. 21.—(AP)—Mobile today was puzzled over the cause of an explosion last night which wrecked houses and in some instances catapulted people from their beds. The accepted theory here is that a small meteorite fell some where in the city and burst. It caused intense excitement throughout the city. The police department and newspaper offices were kept busy answering telephone calls. As far as could be ascertained last night no damage was done.

Much Business Is Facing U. D. C. Meet

HOT SPRINGS, Ark., Nov. 21.—(AP)—Such a heavy volume of unfinished business faced the annual convention of the United Daughters of Confederacy at the final day's session today that delegates predicted it would be necessary to remain in session until after midnight tonight to clear the calendar.

Senate Passes House Measure Providing More Clerical Help

Bill Recommended By Governor Is Passed Without Debate By A Vote of 23 To 1

83 Bills Of Local Nature Pass House

Measure Providing For New State Building Goes to Committee TALLAHASSEE, Nov. 21.—(AP)—The house bill recommended by Governor Martin appropriating \$50,000 to be used in employing additional clerical help in state departments passed the senate today by a vote of 23 to 1. Consideration of the bill recommended by Governor Martin embodying the law prohibiting the sale of state school lands except for cash and providing for three deferred payments over a period of three years provoked debate in the senate. The house passing 83 local bills during the morning session, practically cleared its calendar of local bills originating in that house. With the clearing of the calendar of local house bills, senate messages were taken up and senate bills began passing, the house rapidly. Referred To Committee The senate, after disposing of a few minor local measures, decided to refer to the judiciary committee the companion bill recommended by Governor Martin providing for a new state building. The motion was made by Senator Watkins and seconded by Senator Watson. Both declared that there was no doubt in their minds that Florida was in dire need of such a structure, but that the provisions for a loan from the Internal Improvement Fund did not seem proper. An invitation from president J. R. Lee, of the Florida Negro Agricultural and Mechanical College, requesting the legislators to attend a song fest at the institution Sunday night was read to the upper branch. General Bills Deferred United States to provide for clearing the channel of Ocklawaha River and make it navigable to Thomasville, Ga., was passed by the house without a dissenting vote. Passage of local bills on the house calendar was being speeded to clear it as soon as possible and give time for the consideration of the general bills which in addition to the two above mentioned include a "search and seizure" bill, a substitute to the measure vetoed by Governor Martin following the regular 1925 session. 80 On House Calendar In the house, the total number of bills amounted to 345 when representatives yesterday got their local bills introduced along with three general bills. Just a few more than 80 remain on the house calendar, though more than half the senate measures and several general bills are still pending. Consideration of the aircraft bill will reach the house today after having passed the senate yesterday. It provides for licensing and regulation of aircraft in passenger, freight and express service. Consideration of the bill providing for a new public building to house state departments and carry an appropriation of \$300,000 with its companion bill carrying a similar appropriation for permanent prison buildings at Raiford were among the first things to be considered by the house. The amendments to the public building bill were voted down yesterday but another amendment is pending. Consideration of general bills pending before the house was deferred until later in the day to permit clearing the local calendar, when the lower house convened. This move was necessary, according to speaker Milam, to permit bills to be rushed through to the enrolling room, as all bills previously passed had been enrolled. Proponents of the administration measures to provide a new building for state departments at Tallahassee and additional buildings at the state prison farm were confident of their passage when again brought up for consideration.

Sanford Loses To Daytona High By Score Of 9-0

Bullard, Speedy Halfback Of East Coast Eleven Scores All Nine Points; Sanford Lacks Strong Offensive By HARLAN W. KELLEY Sanford was defeated by Daytona Friday on Municipal Athletic Field by the score of 9 to 0, the margin of a touchdown and a field goal. The game did not provide many thrills, as the longest run by either team was only 12 yards. The work of Bullard of Daytona, however, was worth the price of the game to watch. He crashed, passed, nudged and kicked a perfect field goal, besides scoring the only touchdown of the game. It to gain at least six or eight yards was a rare occasion that he failed when he carried the ball. He was an entire team in himself. All he needed was a center to pass him the ball and a quarterback to tell him where to carry it. His skillful exhibition of running backwards to avoid a tackle was about the best piece of work seen on the local field this season. Sanford played a fair game and did well to hold Bullard to a touchdown and a field goal. Barber stood out on the offense and Russell and Grier on the defense. Coach Welch did considerable juggling with his regular line-up for this game. He shifted Pope from center to tackle, and Cottlingham from tackle to guard. Booth took Pope's place at center. It was the first game Booth had played in some time as he has been out of the line-up for several weeks due to an injury. As a result he made several poor passes which resulted in costly fumbles. Pope did fairly well in his new position at tackle, and Cottlingham showed he was as adept as a guard as he was as a tackle. Barber got off several good punts yesterday, never failing to outdistance the opposition. This factor probably prevented Daytona from scoring another touchdown. On one kick Barber was forced to punt from behind his goal line and squarely behind the goal posts. He cleared the bars, however, and booted it for a distance of 45 yards. Russell made one beautiful catch of a forward pass, snatching the ball right off the finger tips of a Daytona player about to intercept. Entzinger made some very accurate forward passes, one for 35 yards, but the men he passed to seemed to be unable to hang on to the ball. The Game. Sanford won the toss and elected to receive, defending the north end. Fletcher kicked off to Entzinger on his five yard line. He returned 20 yards. Barber made five yards. Entzinger was stopped for no gain. Barber made one yard. On a fake punt Barber made 20 yards, but the ball was called back, Daytona was penalized five yards, and Sanford was given first down. Barber recovered a had pass from Booth for an eight yard loss. Barber was stopped for no gain. He then made a fine punt to Daytona's 18 yard line, where Grier fell on it. It was Daytona's ball. Bullard made five yards, but was nailed by Entzinger on the next play for no gain. Fletcher punted to King who was forced out of bounds. Barber made six yards. Entzinger made three yards. Barber made ten yards and first down. Entzinger made one yard. Barber made four yards. Entzinger made four yards around left end. Entzinger made three yards and first down. Barber made four yards through left tackle. Barber fumbled a bad pass from Booth, but recovered for a five yard loss. On a criss cross Barber made four yards. Entzinger's pass on a fake punt was incomplete and it was Daytona's ball on her own 18 yard line. Bullard made nine yards. Lloyd made four yards. Bullard made eight yards around left end. Lloyd made two yards and first down as the quarter ended. Daytona 0, Sanford 0. Bullard's criss cross pass was incomplete. Lloyd's pass to Bullard was good for five yards. Reese made one yard. Bullard made five yards and first down off left tackle. Lloyd made four yards off right tackle. Lloyd made one yard. Bullard made five yards. (Continued on page 3)

THANKSGIVING

THE old fashioned Thanksgiving, with all the members of the family gathered at one home, and the house filled with elusive odors of delicious things to eat after all the best sort of celebration for this most American of days.

The dinner, which is served at noon, should be beautiful without being over rich or difficult to prepare.

The menu given below provides a very satisfying dinner which, without neglecting the customary turkey and pumpkin pie, manages to remain simple as well as traditional.

- Oyster or Fruit Cocktail
- Turkey—Stuffed and Roasted
- Cranberry Sauce
- Candied Sweet Potatoes
- Creamed Cauliflower
- Pickled Watermelon Rind
- Celery
- Pumpkin Pie
- Cheese Balls
- Coffee
- Fruit
- Nuts

For the table decoration nothing is more appropriate and attractive than a lovely silver dish or a basket filled with fruits and nuts. If the table is a long one, unshaded candles in severely plain candlesticks may be used to balance the center piece without obscuring the view.

After dinner the tendency to spend a dull and listless afternoon can be arrested by planning some outdoor activity. If there is ice and snow, a skating or toboggan party or even a brisk walk in the late afternoon will overcome the sluggishness which naturally follows a day indoors and a heavy meal. The exercises will revive some enthusiasm for food so that the light lunch of sandwiches, coffee and small cakes which is served for supper will be appreciated. Directions for the preparation of the turkey and vegetables, as well as recipes for the pie and cakes for the afternoon are given below.

Roast Turkey
Single surface, remove pin feathers. Wash feet thoroughly inside and out. Sprinkle both in a outside with salt. Fill cavity with dressing. Sew up opening with darning needle and stout thread or fasten with wire shavers. Rub outside of bird thoroughly with

Crisco. Aust well with flour. Fold wings back, catching tips under the body. Press the legs close to the body and tie in place. To keep ends of drumsticks from scorching before bird is done, wrap them in strips of cloth soaked in Crisco. Twenty-five to thirty minutes per pound should be allowed for roasting. The first part is done in hot oven 450° F. with cover off. After browning has started the turkey should be basted with juice which has collected in pan and with fresh melted crisco. The cover is then placed over pan and roasting finished more slowly, 375° F. The turkey is tender enough when a fork pierces the meat easily. It may then be removed to platter and gravy may be made in the roasting pan. This is most easily done by stirring a thin paste of flour and water into juice already in the pan. Add hot water and boil down to desired consistency. Season well with salt and pepper and add finely chopped giblets. Those giblets have been cooked separately in boiling water until tender.

White Sauce (Medium)
2 tablespoons Flour
2 tablespoons Crisco
1/2 teaspoonful Salt
1 cupful Milk
Melt Crisco, stir flour in slowly and continue stirring while milk is added. Cook until the mixture thickens. Add salt and pepper.

Pumpkin Pie
Line the plate with pastry, building up the edges.
Filling:
2 Eggs
1 1/2 cupfuls strained Pumpkin
1/2 cupful Brown Sugar
1/2 teaspoonful Cinnamon
1/2 teaspoonful Salt
1 1/2 cupfuls Milk
1/2 teaspoonful Ginger
Mix sugar, ginger, cinnamon and salt together, then add pumpkin and mix thoroughly. Add eggs beaten light, then the milk. Fill the pie plate. Bake in hot oven 400°. After 15 minutes, reduce heat to 325°. Bake until set—about one hour.

Stuffing for Turkey
2 quartz stale Bread Crumbs, finely crumbed
1/2 cup melted Crisco
1 tablespoonful Salt
1 tablespoonful White Pepper
1 tablespoonful Summer Savory
1 tablespoonful Sage
2 small Onions finely minced
Soak crumbs in cold water for a few minutes. Squeeze very dry and crumble thoroughly. Add melted Crisco and seasonings.

Candied Sweet Potatoes
4 Sweet Potatoes
Crisco
1 cupful Brown Sugar
1/2 cupful Water
Care the potatoes and boil until about half done. Drain and cut in lengthwise slices and lay in a shallow greased pan. Spread with Crisco and pour over syrup made of brown sugar and water. Bake in a moderate oven, basting frequently with the syrup until potatoes are transparent. It may be necessary to add more syrup during the baking. An hour or more is usually required to candy the potatoes well.

Creamed Cauliflower
Remove green leaves from cauliflower head. Break flower into sections and let stand in cold salted water for an hour. Remove pieces and cook in boiling water until tender (about 10 minutes).

President's Father Is In Better Spirits After Wire From Son

PLYMOUTH, Vt., Nov. 20.—Cheered by an exchange of messages with his son, the president, Col. John C. Coolidge faced the sixth day of his illness with better spirits than at any time since he was stricken.

Although so fatigued that he suffered several slight heart attacks while listening by radio last night to the address of the president in New York City, the Colonel retired in a cheerful frame of mind after dispatching a message of congratulations. Maj. James Coupal, presidential physician, is coming to discuss with Col. Coolidge, the possibility of his going to Washington for the winter.

While the wish of the president to have his father with him during the cold season is appreciated here, there seems to be a well defined opinion that Col. Coolidge will find reluctance to quit the homestead.

Donald Monro, a British army surgeon of the eighteenth century, called to the attention of his men the wonderful hygienic code of Moses.

German Approve Locarno Measure

BERLIN, Nov. 20.—Apparently the Locarno treaties of security and Arbitration are to be ratified in Germany with the same speed which the British parliament accepted them, and by a similar large majority.

The premiers of the German federated states have given their sanction to the documents and the cabinet of Chancellor Luther has approved the draft of a law empowering Germany's representatives formally to sign the treaties at London Dec. 1.

The expectation in political circles is that the bill will be introduced to the reichstag next Monday, will receive a large majority. No change in the German constitution will be necessary by the new law, which will merely authorize the signing of the treaties and sanction Germany's application for membership in the League of Nations.

A New Metropolitan Parkway System for Sanford

The boulevard that will encircle the city is the foundation of such a system. Sanford has the distinction of being the first Floridan city to adopt this feature. No other public improvement could assure greater enhancement of values.

This spacious boulevard will run directly through Sanford Grove. Plats that appeared in previous advertisement indicated that it would traverse this development utilizing our original Walnut Avenue. It will traverse many of the higher type developments of Greater Sanford, and will shorten the distance from Sanford Grove to Lake Monroe by more than a mile.

The building of the Boulevard, as it is now planned will bring Sanford Grove right in line with Monroe Terrace, Marvania, May fair, and the Forrest Lake Hotel, and many other developments of the exclusive East side. The business section and the shopping district of the city will be within easy access of the farthestest point of Sanford Grove.

Geneva Street, where grading was started this week is of some importance to the homebuilders and investors of Sanford Grove. This highway when completed will be the shortest route to the Dixie Highway and the East Coast. Geneva Street intersects the new boulevard in the first section of Sanford Grove.

We can still offer you a few lots on either of these highways, we recommend immediate action as public announcements will create an overwhelming demand for frontage on these thoroughfares.

See the plats of this property, or better still arrange to see the property itself. No obligations will be involved by calling for an appointment to inspect Sanford Grove.

The bandits of the wild, wild West Amassed a little fame And did their poor and feeble best To play a daring game. But not a one of them would dare To play, by light of day. Their trade along the thorough-fame Called little old Broadway.

The robber earned a scanty wage And ran great risk of jail Who stopped by night a passing stage For money in the mail. It's easier, before the cops Can rally and pursue, To hire a car and loot the shops Along Fifth Avenue.

No bandits lately roam the West— Which West is wild no more. The gunmen find that crime pays best In street and shop and store. And so a gun and mask they don And bid folks stand and fork Their money and their jewels on The sidewalks of New York. —James J. Montague

Get Ready For Thanksgiving

Thanksgiving Day will be celebrated next Thursday. The President of the United States has already issued a proclamation setting aside November 26 as the day on which the entire nation will be thankful.

Some people, who wait for Thanksgiving Day to come so that they may be thankful, are already planning the details of the day's festivities. Big dinners are being arranged so that they may eat far more than is good for them. The many extras that will grace their bountiful boards will never be begrudged. The thought uppermost in the minds of those people will be the big dinner and it will be made great.

There are, however, many others who are thankful often during the year, and these are also planning the way in which they will observe the holiday. These, too, plan their Thanksgiving dinner but they are thinking also of what they can do to make the day have its greatest meaning.

Thanksgiving Day offers a great opportunity for the student of human nature to get a collection of facts. Instead of being a day devoted to gratitude as was originally intended it should be, it has degenerated into a day of gorging, while gratitude and thanksgiving has been very largely omitted from the program of festivities.

Americans in 1925 have so many things for which to be thankful it would seem that this year, of all years, the day ought to be fittingly observed. It should be made a day for expressing gratitude for the many blessings that have come to us and for carrying happiness and bringing gladness into the lives of those around us, some of whom may be less fortunate.

Sanford people undoubtedly will properly observe next Thursday so that its greatest meaning may be manifest. Substantial Sanford has been blessed in the last year and there are numerous reasons for which we, here in this favored spot, have cause for thanks. So in making your plans do not allow the dinner feature to be the only outstanding expression of gratitude. Sanford people have the opportunity of observing the day in a way which will bring credit to the community and joy to many. Perhaps the Thanksgiving spirit will make itself shown in more neighborliness and less selfishness and in an effort to take away the loneliness of those hundreds of newcomers who have chosen Sanford as their home during the recent months.

Girls Walk the Streets

Over fifty thousand girls, writes the World News Service, are walking the streets of New York. Justice Boyle of the Children's Court says, "There are 50,808 fly-by-night girls roaming the streets of New York City because of lack of proper home environment."

Think of what that statement means, "Because of lack of proper home environment". Because a girl's parents failed in their duty to her, she is made to suffer degradation and an existence worse than death. Because a girl's parents think they must go to cabarets in order to remain in the social whirl, or spend so much time quarreling between themselves that they don't have time to properly bring up children, a girl must walk the streets at night.

Fortunately Florida has not seen much of this condition. Most of our Florida people believe that when a couple marries it is time to give up running around, if ever begun, and settle down, in fact as well as in theory.

But as Florida grows, and comes to possess cities of considerable population, it may come to see more of that condition of which we read in New York. It will if Florida people ever get the idea that social life, of the "running around" kind, should have precedence over that more serious phase of raising a family.

Blood will tell and breeding has a lot to do with a man or woman's character, but give them the best in the world of that, coupled with a bad environment, and they haven't a chance. Take away the present good environment which Florida has, and it will soon see, as New York City does, 50,808 girls walking the streets at night.

The Seaboard Air Line evidently believes that population and business have gone to Florida to stay or it would not go in for building 216 miles of new road in that state.—Spartanburg (S. C.) Herald.

MY FAVORITE STORIES

By IRVIN S. COBB

In Owen county, Ky., there formerly resided a self-ordained oracle on all questions pertaining to subjects of farming, horse raising and hog guessing. To him one day, as he set on a horse block facing the public square at Owenston, came a pestered young husband-man from the knobs along the Kentucky River with this question: "Uncle Hamp, how am I going to get shed of sassaparilla sprouts? The pesky dern things have jest about took an old field of mine. I've tried choppin' 'em out and plowin' 'em under and burnin' 'em over but they keep on gettin' thicker and thicker all the time. It seems I can't get rid of 'em no way. What would you advise?"

"My son," said he wise man, "I don't want to brag, but I reckon in you ain't made no mistake in comin' to me—you've struck on to one man that's fitten to advise you in this here matter of anybody on this earth is. Man and boy, I've been givin' the subject of sassaparilla sprouts my earnest attention fur goin' on sixty years. And it's my deliberate judgment that when sassaparilla sprouts starts to takin' a farm the only way you kin get rid of 'em is jest to pack up and move off and leave 'em."

"THERE OUGHT TO BE"

ASHEVILLE CITIZEN

Of course there should be everybody says so. Everybody has been saying so for many years—"There ought to be." What? Hardly need to ask a question to which everybody knows the answer. "There ought to be a law."

Legislators have worked manfully to meet this need—so much must be said in behalf of oft-criticized legislatures, and so soon as any considerable sentiment has proclaimed that "There ought to be a law" in respect to this or that the legislators have rushed up with the law. In fact, quite often it needed but for one or two individuals to say "There ought to be" to start the law-making mill in motion.

So many people and so many interests have repeated this phrase so many, many thousands of times and legislatures have so faithfully made affirmative response that one would think that the phrase would be given a rest from work. But always now conditions arise to work it. Good roads drag it from its rest, every new discovery involves its aid, the automobile always brought about a situation which caused people to say hundreds of times, "There ought to be a law."

Comes now an iconoclast, a denier of the faith trusting millions have in their favorite phrase, an infidel who scoffs at its supernatural power to invoke benefit to mankind, and boldly proposes to substitute a contradiction. He is Merle Thorpe, editor of The National Business, and his denial of

venerated faith in phrase was made in Spartanburg recently we learn from The Journal.

Mr. Thorpe boldly proposes a substitute for the term, "There ought to be fewer laws." He claims that already we have too many laws in the millions that clutter the law books, he says "There ought to be a law" has been given by over-worked and should be given a long vacation. We have already so many laws that every day every good citizen breaks a dozen or so.

It is true that we have too many laws but this will not be accepted as a knockout blow for "There ought to be." The people have become so accustomed to depend on laws as the best remedy for all social ills and situations that puzzle that they will not really cease calling on the invoking spirit, "There ought to be." They are quite willing to abolish thousands of existent laws but not willing to put the brakes on the law machine.

Seriously, we should consider Mr. Thorpe's suggestion. Should it really be necessary, for example to have a law forbidding expectation on sidewalks? We are far from urging repeal of this unused ordinance, but could not an appeal to public sentiment by civic organizations have effected the same purpose? In fact, is it not this sentiment which now prompts a fair compromise with the law? The law really merely proclaimed the public view and this could have been done otherwise, we think.

As Brisbane Sees It

11,000,000 for London Mrs. Coolidge-Queen Mary Birth Control? Go Slowly The Nation Is Richer BY ARTHUR BRISBANE (Copyright 1925)

LORD ASHFIELD, manager of London's subways, predicts a population of eleven millions soon. If so, London's population will be a long way behind that of New York. Lord Ashfield, who has had good training—he once managed Detroit's electric railways—says great cities must look to underground railways for traffic relief.

THAT WILL help for a while only, Ashfield forgets the flying machine, destined to wipe out congestion in time. Cities, like the dinosaurs, will grow to huge size, then vanish from the earth. Kindly remember this prediction, if you come back here in 1,000 years.

WORKERS WILL live together in roomy colonies on hill tops, mountain tops, or by the seashore, and fly to work in single units and fly to factory cities of gas and steel from 180 to 500 miles away. Children now living will see the beginning of that. But don't sell you city corner lot, yet.

MRS COOLIDGE, in New York with her husband yesterday, did some of her Christmas shopping early.

QUEEN MARY was in London shops, also, setting the right example. American women, whether they have sense, and want to imitate the wife of an American president, or lack sense and want to imitate the wife of a British king, should do their shopping early.

THE DOWAGER Queen Alexandria, mother of King George, was dangerously ill of heart failure last night. Today's papers may tell of her death, physicians having little hope.

Alexandria, soon to be 81 years old, always kept with her the works of Ella Wheeler Wilcox, whose early poems contain much warmth and sunshine.

Royalties, often get tired of their royalty and its limitations. How will they like being commoners in heaven for billions of years?

MR. M. NICOLL, Jr., New York state commissioner of health, denounces the waste of women's lives every year in child birth. The complaint is just. A nation that spends money teaching farmers how to look after the birth of pigs and calves ought to be interested in human mothers also.

BUT, THERE might be harm in too much encouragement of birth control, a remedy, suggested by Dr. Nicoll. It is preposterous that any woman should be compelled to have children against her will, brutally cruel to withhold from poor overworked mothers birth control knowledge that every prosperous woman gets from her physician, as a matter of course.

HOWEVER, THE important thing in the creation of children is affection, not money. A child's start in life depends, not on the father's bank account, but on the mother's love and respect for her children's father. A man sincerely devoted to his wife gives his children the right start, if he gives them health and character, without money.

AS TO number you never can tell. Alexander the Great was a one and only. Caruso followed 18 brothers and sisters.

Nature is wiser than birth control or eugenics. The mother that wants children has the best children. Eugenists will reply, "Yes, therefore who has the best sense to let the others know how they may avoid having them."

"THERE IS no inflation of any kind in the commercial field." "There is absolutely no reason for curtailing credits there." The stock market has been boiling because people have suddenly realized the creation of new values.

THUS SPOKE to bankers in Detroit not Zarathustra, but a financial superman, Charles E. Mitchell, who runs the more than a billion dollar National City Bank of New York.

ONLY LITTLE minds are overwhelmed by big figures. Mr. Mitchell, who buys Liberty bonds, and such, for his bank, twenty and forty million dollars worth at a time, knows that our transactions do not mean inflation in this land that of 175,000,000 people, and heaven knows how many billion dollars.

WHEN THE wages and other earnings of 175,000,000 people are suddenly doubled everything else doubles in value. When 20,000,000 workers each, make \$100 a day more than they used to make, or \$60,000,000 a day, eighteen billion dollars in a year or 300 working days, other things increase in value.

We are richer than we were, and that is no calamity. Don't gamble, but don't let any pessimist, frighten you into selling anything of real value.

IS OUR national aircraft department well managed, does it encourage flying? That question interests President Coolidge, who has striven earnestly to encourage flying, commercial and military. The President got an answer to the question yesterday from Lieutenant Leigh Wade, a first class American aviator, one of those that made the first flight around the world, he says at the farcial, disgraceful Mitchell trial. "I intend to resign from the Army air service, because it offers little opportunity."

There are some other resignations that would please the people more, and the President ought to urge them.

SOME GUYS HAVE ALL THE LUCK

SATURDAY EVENING SERMON

BY DR. O. H. GREENWELL, Pastor First Christian Church

"THE ATONEMENT"

Christ combines in his own person perfect humanity and perfect divinity and that, in a word, he is himself "God manifest in the flesh." That something is always due to offended and violated justice will, perhaps be readily conceded by all. The demands of justice must be met and the majesty of the law sustained in every human organization, or otherwise the bonds of the association will soon be severed and anarchy and lawlessness will soon universally prevail.

What is sufficient to meet and to satisfy the claims of justice on account of transgressions committed in the family, in the school, in the state, or in the nation? This is the most delicate and embarrassing of all executive functions.

But, if this problem is so very difficult and embarrassing even in its relations to the small and comparatively unimportant governments of this world, what does it become when it is extended to the vast empire of Jehovah: when it is made to embrace a government which has for its Constitution the divine nature itself, and on the proper administration of which depend the order, stability, and well-being of the whole universe?

Who can say on what conditions a sin may and should be pardoned that has been committed against Him who has established his throne in the heavens, and whose Kingdom ruleth over all. Psalm 102:19.

For a long time this was the mystery of all mysteries. And hence it is that the history of redemption is a history of successive wonders. So far as we know it has no parallel in the divine administration. When angels signed it was the end of their probation. Their hopes were vanished forever. And it is most likely that when man sinned and fell his case was regarded as equally hopeless by all the higher created intelligences of the universe who were cognizant of the fact.

If ever there was a time when any of God's creatures might be supposed to be ready to change Him with partiality and injustice, it seems to me that that was the time. The fact that man had sinned was known in Heaven, Earth and Hell.

And the fact that justice demanded satisfaction was also known. But when, where and how had the satisfaction been given? Ah, that was the question. Nothing. Nothing had as yet appeared within the horizon that was sufficient to justify such an event as the salvation of a soul that had been defiled by sin.

The purpose of Jehovah, which no created eye had yet seen, but the shadow of which was even then present on every patriarchal altar. This conception was more or less confirmed by every new development of God's great purpose, whether in type or prophecy. Therefore as the sun is the center of the solar system, around which all other planets revolve so Christ is the center of attraction in the kingdom of God—and around which all symbols, shadows and types revolve in the word of God.

But still all was mystery. The veil of the Temple made without hands had not yet been rent; the way into the true Holy of Holies had not yet been made manifest to any creature, the grave had not lost one of its victims, and life and immortality had not yet been fully brought to light by the Gospel.

Even the Apostles of Christ were yet ignorant of the fact that their Master must suffer death, be buried, and rise again the third, according to the scriptures. See Mark 9:9-10—Luke 24:45-47—John 20:9—Hebrews 9:8.

But in the fulness of time the Great Antitype of all the sacrifices that were ever slain by divine appointment appeared on the Cross. As His flesh was torn and

mangled for the sins of the world, the veil of the symbolical Temple was rent in twain from the top to the bottom; and the way into the Holiest of all was then typically revealed to the eyes of mortals.

Soon after this the bars of death were broken and Christ rose from the dead, the first-fruits of them that slept. He spent 40 days with his disciples, speaking to them of things pertaining to the kingdom of God. And then having ascended to the heavens as Our Great High Priest, not with the blood of bulls, and of goats but with His own blood.

"He made an atonement for the sins of the world. God accepted the offering as being fully adequate to meet and satisfy the demands of His government; and thus solved the greatest moral problem that had ever occupied the attention of men or angels.

The problem of "Redemption" has never, nor never will be able to fully explain what the reasoning of God was on this subject, by which he felt compelled, according to His own infinite nature, to refuse to pardon a single sinner except through the blood of His son. Hebrews, 9:22; Romans, 8:18-23.

It was then evident that the demands of justice and all the claims of the divine government had been met and satisfied by the sin-offering of Christ even more fully and more perfectly than if all the penalties of violated law had been directly inflicted on the offending parties.

The scope of Christ's prayer in the Garden of Gethsemane was, "O my Father, if it be possible let this cup pass from me." That if there is any other possible way in which poor sinners can be saved, the claims of justice satisfied, and the divine law magnified, then and only then, let this cup of indescribable suffering pass from me. But rich an inexhaustible as are the divine resources, it seems that there was no other possible remedy.

Christ himself had to suffer in order to meet and to satisfy the just and necessary demands of the divine government, or otherwise the whole human race must perish forever. He saw it; He understood it; He felt it; He no longer hesitated. He accepted the dread alternative.

He was born to the cross as an innocent lamb was borne to the altar, and his blood was poured out for the sins of the world! And now O sinner, will you reject the rich benefits procured for you through the infinite merits of that blood?

STATE DEBT

MIAMI HERALD

Debts incurred by individuals, cities or states are not always undesirable. In fact, it is very often an indication of good business acumen to go into debt. In general, however, a person feels more comfortable if he is square with the world, and the same thing may be said of states. For this reason there is considerable satisfaction in knowing that Florida is one of the few states which has no bonded indebtedness.

This does not tell the whole story for this state. There is a balance in the treasury of nearly seven million dollars. All this has come about in spite of the fact that Florida does not impose the two forms of nuisance tax which are used in most of the other states, and by the Federal government—the income and inheritance taxes.

Nor does this tell the whole story. It might be supposed, judging from the experience of other states, that Florida would be without roads and other public possessions which properly belong in a state, and which are usually secured by loading the people up with a heavy bonded indebtedness. It is quite true that many of the cities and counties in Florida have bonded for roads and streets, but the amount of this indebtedness is no larger than the same form of

speeches? Hon. Calvin Coolidge unless he has an underlying so clever that he can counterfeit characteristic Coolidge expressions. Talk that Judson C. Welliver, until lately chief clerk to the President, wrote the Coolidge address, is disproved if only by the admitted fact that he wrote most of President Harding's speeches.

There is no possible resemblance between the "Harding" diction and that of the present chief executive. The former, as turned out by Mr. Welliver, was heavy with ponderous phrases, and moved with ungainly gait.—Mr. Harding himself did much better work. The Coolidge utterances are clear-cut and to the point.

It is of course no discredit to a President that he has some one to write his addresses. He has not the time to give to study of the many complex matters which may be involved in a subject. He must utilize other men and their talents for this purpose—there is no intention. The first doubts begin when President Coolidge may have to come to this method. Inman's speech

BREAKING THE SOLID

KNOXVILLE JOURNAL

The Southern States Republican League recently met in Birmingham and massed its forces for a drive on the solid Democratic South. Ways and means were considered for accomplishing that aim. Outstanding in the conferences of the league was the reading of a letter from the venerable Elihu Root, one of the patriarchs of the Republican party, in which he stated it would be a great thing for the Democratic party of the South to be put in danger of losing an election.

Not looking at the question of solidarity from a party standpoint solely, he regarded the organization of a strong Republican party in the South as beneficial in many respects to the South itself. He regarded a primary contest within the limits of one party as necessarily a contest of personalities and not a contest of principles or policies.

This point has since been stressed by the publication of dispatches from Alabama stating that so far five Democratic gubernatorial candidates have offered for the honor, and the contest for the plum must necessarily be one

FRESHMAN CLASS PRESENTS FINAL PROGRAM OF CONSTITUTION WEEK

Friday morning at the chapel period, the Freshman class of the Sanford High School, presented the last of the programs of "Constitutional Week", which has been observed at the school during the past week.

This program follows the ones given by the Senior, Junior and Sophomore classes all of which have been enthusiastically received by the students as well as friends and patrons of the school.

The program had for its subject "Know Your School" and for its purpose the presentation of facts concerning the Sanford High School. The high school orchestra opened the program with a selection, after which 12 Freshmen assembled across the stage forming the word "Sanford High School".

Bearing large placards of yellow and black, the school color, each one of these stated a pertinent fact concerning the equipment, finance, faculty, standing, departmental work, scholarship, or departmental work of the high school.

The Freshmen taking part in this were H. E. Griffin, Eloise Lanier, Adele Vining, Kathleen Long, Elizabeth Clarke, Clifford Rivers, Bernard Schirard, Pat Miller, Claude Herndon, Robert Armstrong, Robert Elliott and H. C. Waters.

The vivacious little "Exclamation Points" at the close of the program decided that the reasons thus given were also those for describing the Sanford High School as being "the best old school in all the land."

Quarterly Conference Of Methodist Church Held Friday Evening

The fourth quarterly conference of the First Methodist Church of Sanford was held on Friday evening at 7:30 o'clock with Rev. J. F. Bell presiding. Reports were made by the pastor, the board of stewards, the Missionary society, the Sunday school superintendent, and the president of the Epworth League, all showing a healthy growth in all departments of the church during the year, and the board of stewards hopes to meet all financial obligations of the church by the meeting of the annual conference on Dec.

The following were elected stewards for the coming year: L. P. Hagan, Zeb Ratliff, S. O. Shinsolser, F. H. Adams, O. J. Pope, W. S. Bradford, W. S. Thornton, Ben Munroe, C. G. Priest, J. W. Sneed, F. E. Wilson, B. L. Spiros, W. P. Fields, G. E. McKay, R. A. Goodspeed, J. F. McCallan, R. W. Ware, E. H. Laney, R. A. Wiaten, C. C. McCrory, T. W. Russell and Mrs. H. H. Chappell.

F. E. Adams was elected superintendent of the Sunday school and J. W. Sneed, assistant. R. A. Winston was chosen Lay Leader, and S. O. Shinsolser was appointed district steward.

Resolutions were adopted expressing appreciation of the faithful work of the presiding elder, Rev. J. F. Bell, who is now closing his four years term of service on the district.

Miss Rivers Becomes Bride of J. I. Stewart On Friday Evening

A wedding which came as a surprise to their many friends was that of Miss Ruby Winifred Rivers and James Ivey Stewart, which was solemnized Friday evening at the home of the bride's parents, Mr. and Mrs. I. F. Rivers on Magnolia Avenue, Rev. T. J. Nixon, pastor of the Methodist Church, officiating, using the ring ceremony.

The bride was attired in a small costume of Pansy satin, with coat, chic hat and other accessories of grey.

Immediately after the ceremony, the young couple left in their car for Georgia where they will visit relatives. Upon their return to Sanford they will make their home at the residence of the bride's parents.

On Thursday afternoon a most delightful tea was given at the library by members of the Civic League in honor of two of their members, Mrs. C. Lynn Thomas and Mrs. George Stuart who are leaving soon. After an enjoyable hour of visiting, delicious refreshment were served consisting of fruit salad, tea, assorted sandwiches and salted nuts.

Eighteen member were seated at the table which was artistically decorated in the color scheme of orange and green, bouquets of orange cosmos, maiden hair ferns and nut baskets of orange crepe paper. The affair was in charge of a special committee composed of Mrs. Kingsland, chairman, Mrs. F. C. Slade and Mrs. J. A. Bistline.

Informal Dance Last Night At City Hall Is Greatly Enjoyed

Large American flags, and other patriotic symbols together with potted palms were used in decorating the large auditorium at the City Hall for the informal dance, given Friday evening for the members of the younger social set.

The music was unusually good, and was furnished by the "Main Orchestra" which is playing for the season at Avalon Park Hotel. This is the first of a series of dances to be given this winter, the next one will be in two weeks.

Among those attending last evening were: Misses Marjorie Dempsey, Lena Belle Hagan, Emily Griffin, Cora Hill, Muriel Griffin, Drane Roberts, Maud Tyne, Ruba Williams, Nancy Bishop, Martha Peters, Carmeta Barber, Mrs. J. Frank Davies of Tampa, and Mr. and Mrs. Monroe B. Hutton.

Mrs. Edwin Humphrey of Sanford has been visiting Mr. and Mrs. Wynn who are occupying the new Orcutt house on Church Street.

Clayton N. North, one of the proprietors of the cash store, has opened a real estate office next to the store. Mr. North has recently sold to Leon Frank of Winter Park, five lots in Three Pine subdivision on the south Dixie highway.

Former Pastor Will Occupy Local Pulpit

Dr. S. W. Walker, who was the pastor of the Sanford Methodist Church several years ago, has been invited by the pastor and board of stewards of the church to preach here on the Sunday of the Annual Conference, which is Dec. 6. He has just notified them that he will accept the invitation, and will preach in the Methodist Church in Sanford at 11 a. m.

LOCH-ARBOR

A Country Club Property of Lakes and Hills

Loch-Arbor is one of the outstanding developments of this vicinity. Man and nature have combined to make this development beautiful beyond your dreams. It will be a city in itself of broad drives and winding parkways, lined with imposing homes and winter residences of the highest character. Loch-Arbor is destined to be the show place of the entire Sanford District.

Property in Loch-Arbor will be highly restricted. There will be no undesirable buildings. Nothing but the most beautiful structure will be permitted. Its distinctiveness will be emphasized by its magnificent homes, its silvery lakes, and for its people of wealth, culture, and refinement. Loch-Arbor will have characteristics of its own that will appeal to the most discriminating.

Loch-Arbor is rapidly being transformed into the Country Club property of lakes and hills. Dredges are deepening the lakes incident to the filling of the lowlands, landscaping and beautification are rapidly changing the rustic appearance of this historic spot. Development has brought many changes, all of which are being made to create the home spot beautiful.

Palatial motor busses will operate between Loch-Arbor and all the important cities of the state. Offices will be established in the different sections of Florida and the country, to give the people an opportunity to learn of the wonderful opportunities that are being offered. Thousands of tourists will be brought here by every means of transportation to buy and build in this development.

We are proud to extend an invitation to the people of Sanford to visit Loch-Arbor while developments are forging ahead. You will enjoy seeing the progress that is being made. We feel that our friends will better realize the possibilities that will be offered and that they will grasp the opportunity to affiliate themselves with this newest project.

TAMPA—Art Weigand, Buffalo, knocked out Charlie Baum, of Baltimore in ninth round. They are light heavyweights.

Old Foes To Meet On Dixie Gridirons In Colorful Games

NEW ORLEANS, Nov. 21.—(P)—Few of the Southern football teams playing this afternoon are meeting strange teams.

Washington and Lee and North Carolina State were once Thanksgiving opponents and have played regularly for a number of years. Washington and Lee won last season 34 to 0. Florida defeated the Mississippi Aggies last year 27 to 0, but such a margin today would prove a surprise.

"Old Miss" gained a decision over Southwestern Presbyterian last year 7 to 0.

The Oklahoma Aggies stopped the Arkansas Razorbacks 20 to 0. Oglethorpe-Mercer was 25 to 0.

William and Mary played a 7 to 7 draw with Roanoke and Hampden-Sidney and Randolph-Macon were also involved in a tie, neither team being able to score. Another scoreless time of the season was the contest between Howard and Birmingham-Southern. Citadel won 7 to 0 from Erskine and Emory and Henry defeated Elon 12 to 0. Southern downed Rollins 19 to 0.

Monster Crowd Is Expected To See Gator Game Today

TAMPA, Nov. 21.—(P)—Half the student body of the University of Florida is here and practically all Florida is represented at Tampa's only Varsity football game this season between the Florida Gators and the Mississippi A and M farmers.

Every box seat at Plant field was sold three days ago and even grandstand tickets were at a premium today as crowds streamed in by train and auto.

The weather man predicts fair and cool weather for the tussle and both coaches gave out the word that all gridmen were in pink shape. The game will be called at 2:30 o'clock.

The two teams will take the field in these positions.

Three Teams Likely To Claim Title In Big Ten Conference

CHICAGO, Nov. 20.—(P)—The Western Conference is ready to close its hectic football campaign with a prospect that three teams may claim the title. This is likely only if Minnesota is unsuccessful in its invasion of Michigan.

Still the center of a maelstrom of charges, denials and speculation, as to his future, Captain Red Grange, is leading his Illinois team into Columbus against Ohio. Chicago and Wisconsin are set for the grudge tilt. Indiana and Purdue have a private quarrel to settle. Notre Dame will oppose North Western at South Bend.

Old Foes To Meet In Southern Grid Battles Of Today

NEW ORLEANS, Nov. 20.—(P)—Of six games of football to be widely followed in the South this afternoon, four include the same teams meeting last season.

Mississippi college and Louisiana College, staging a clash of neighbors at Pineville, where to have a closer game than played last year when Mississippi won 48 to 7.

South Carolina and Presbyterian College play at Columbia today. South Carolina won last season 29 to 0. Today's game should be more of a contest.

Duke University defeated Wake Forest College last year 12 to 0. They play today at Spartanburg with choice.

The Russellville Aggies downed the College of the Ozarks 17 to 7 last year and today's game at Russellville was expected to be close.

Wake Forest and Furman, playing at Asheville, and Center and Georgetown meeting at Danville, did not play last season.

Where there is Activity there is Profit

In the heart of Sanford's activity, where the greatest progress of the city is now being made lies—

MARVANIA

In the immediate environs of this development is the new Forrest Lake Hotel that will be ready for tourists when the season opens. The new boulevard that will encircle the city will pass through Marvania. Contracts were let for its construction this week. Other developments in the immediate neighborhood are the scenes of much improvement and construction. Marvania in the path of the city's growth eastward is in the heart of this great activity.

The easy access to the heart of the city, the character and progress of the development work, and the prices at which lots can still be bought—these and other factors of desirability combined make Marvania the outstanding investment value in Sanford today.

Drive to Marvania Tomorrow

You are invited to drive over this property, appraise its value for yourself by comparing it with other offerings. We are sure your appraisals will be higher than the prices at which you can still buy this property.

We urge you to act at once, and not fail to take advantage of the opportunity that Marvania offers for investment and profit.

Popping Popovers Her Favorite Pastime

There may possibly be a more versatile person than Gretchen Dick but one must look far to discover her. Not only is Miss Dick a poetess, photographer, press agent and dramatist who is at the head of her own publicity bureau but she is a successful short story writer as well.

And to all these accomplishments she adds the important one of running her home quite as successfully as she does her publicity bureau. Miss Dick acknowledges a fondness for trying experiments in cooking and according to her friends she is an expert in culinary affairs. Her skill she claims is inherited from her uncle Ernest Biardot for many years president of the Franco American food company.

Pop-overs are a specialty of Miss

Dick and she insists that the following recipe is infallible:

1 cup Flour
1/2 teaspoon Salt
1 cup Milk
2 Eggs
1 teaspoon melted Crisco

Sift flour and salt. Add milk and eggs beaten together. Beat melted Crisco. Beat entire mixture vigorously with an egg beater. Pour into hot greased pop-over pans. Bake 10-15 minutes at 425°. After "popping," reduce temperature to 375° and continue baking for about 30 minutes.

A new 80 page cook book will be sent free to readers of this newspaper, upon receipt of a two cent stamp to cover postage. Address the National Household Service, 565 Fifth Ave., New York City

Houben plans to leave Hamburg for New York early in January. His first appearance in competition will be in New York February 4. He is in good condition and unless the trip affects him adversely he ought to be able to run at his best.

LONDON LETTER

LONDON, Nov. 21.—(AP)—Americans are scheduled to take a larger part in the coming season of London than ever before. The years since the war have seen an increasing number of Americans established themselves in West End mansions, where they entertain on a scale equal to that of the leading families of the capital.

Each year their activities have increased until last year many of the most fashionable and elaborate of the season's entertainments were given by American hostesses and their guests often included the Prince of Wales, his brothers and many others whose presence assures social success.

This season Americans are being invited everywhere, their names appearing in some of the guest lists for the first time. The hesitancy of many of the older families of London to admit foreign guests who are in London just for the season seems to have been overcome, if not by the extensive entertaining they have received from these foreigners, certainly by the presence of the royal family at affairs given by such people.

The duke and duchess of York have acquired a large town house, and now that they have left their "flat" in Buckingham palace, the duchess is expected to be the leading hostess of this season. The royal couple intend to return the hospitality they have accepted during the last two or three seasons and invitations have been issued for a "home-warming." Americans figure extensively in the invitation list.

had the opportunity of seeing a number two company in the "Farmer's Wife" when it played in his home town, but refused to go.

The author says he fears he would not enjoy his play and has no desire to see it on that account.

PARIS LETTER

PARIS, Nov. 21 (AP)—It is the boast of Foreign Minister Briand that he has used the same top-hat for more than 20 years. The veteran topper was still doing duty when the reconstructed Poincaré ministry went before the chamber of deputies a few days ago.

It has served M. Briand during his seven terms as premier, during his trip to Washington for the disarmament conference and through his recent negotiations at Geneva and Locarno. The foreign minister goes out under its shelter as little as possible, preferring the more democratic "derby," it takes the most formal of occasions to induce him to don his tube as the French call it.

Last summer M. Briand on one occasion was received in audience by the king of England. His valet and even his chauffeur begged him to buy a new top-hat, one that didn't "date from the time of the big exposition (1900)." "What, me in a new tube?" he exclaimed. "Why, I'd look like a best man. This is a royal audience I'm going to, not a wedding." And off went he with his ancient friend.

The cold weather prevailing in Paris is sending the people southward to Riviera earlier than usual. All reservations on trains for the Mediterranean coast have been booked for the next three weeks, including even the trains running from the channel ports for the convenience of English travelers.

Luminous nightsticks for Paris traffic policemen are going to give the taxi-drivers a gay time after Paris is notoriously short-sighted that it is charged they sometimes can not see as far as their own meters, and now they have complained that even on the brightly lighted boulevards they are unable to see the gestures of the traffic controllers. The white stick, so effective in daytime, is invisible at

BERLIN LETTER

BERLIN, Nov. 21 (AP)—The question of whether Chancellor Luther and Foreign Minister Stresemann, as the representatives of Republican Germany shall wear silk knee breeches when they go to London as the guests of King George for the signing of the Locarno treaty has been giving the heads of the German delegation nearly as much work as the problem of obtaining a majority for the ratification of the treaty by the reichstag.

Only gradually is a state ceremonial being evolved for the young republic and German statesmen must proceed carefully with the setting of each precedent. As the Spartan simplicity of the late President Ebert are gradually giving place to a more pretentious ceremonial exemplified by the gold braided gala uniforms recently purchased for the lackeys serving President von Hindenburg and members of the cabinet, it is generally assumed that the chancellor and foreign minister will set the pace for German diplomats' style abroad by observing the customs of the court of St. James when they are the king's guests.

Hire a taxicab in Berlin, a medical journal reports, and you stand a good chance of getting a doctor for a chauffeur. There is a surplus of 10,000 physicians in Germany. Many of them have turned to "ambulance chasing" for a living.

The physicians hire taxicabs and chauffeurs by the month, ride along on the front seat if they can drive themselves, and take out an existence on the profits from taxi fares. Not infrequently in cruising about the streets they are "Johnny-on-the-spot" when accidents occur, to say nothing of when their own vehicles run down pedestrians.

Others have turned into part-time book agents and house-to-house canvassers. The institute for Tropical Diseases is attracting many have saved enough money in Germany, hope to land very prominent jobs in the tropics. Others have emigrated to the United States and South America, but not

Turns Bandit

The theft from the Dresden zoo of a prized cockatoo, farmed for the plaintive manner in which it cried, "Oh, dear, I kissed you only on the shoulder!" has resulted in the arrest of Otto W. Mohr, 27, on charges of looting bird cages in the Dresden, Leipzig and Nuremberg zoo gardens.

Mohr, a former chemistry student, obtained access to the bird cages, police said, by posing as a student of bird life. He is said to have stolen a score of valuable parrots, pheasants and cockatoos and sold them to bird stores.

The theft of the cockatoo with the distinctive line of chatter led to his undoing, as the zoo director recognized the bird in a Dresden pet shop.

Mohr was sentenced to ten months in jail.

many have eave up enough money for such journeys.

The family physicians, a survey made a prominent member of the profession discloses, is nearly extinct. Only the wealthy can afford to pay for medical attention in minor illnesses. More often a doctor is called only when a patient is dying.

There is also little hope in the insurance field. Physical examinations for applicants for insurance policies are given for about 20 cents. Consultations required of policy holders several times each year are paid for at the rate of about 15 cents each.

The lot of dentists is little better. With rents, taxes and cost of materials all high the gross income of the average Berlin dentist is about \$125 a month.

Eden Philpotts, author of "The Farmer's Wife," which failed in America but has been running in London nearly two years, has never seen the play and says he never will.

Mr. Philpotts, who lives at Torquay, has not been in London for more than 20 years. However, he

Alan Cobham, British aviator who is known as the "taxi man of the air," is off with two companions on a 8000-mile flight from London to Capetown, at the southern tip of Africa. The route is from London to Cairo, Egypt, and thence up the Nile and across trackless African jungles.

West Palm Beach Wants New Schools

WEST PALM BEACH, Fla., Nov. 21.—(AP)—A \$1,800,000 bond issue for additional schools here in support of tax payers of this special school tax district (Number one) in a petition which began circulation yesterday at the Exchange Club meeting and received the endorsement of the club as a whole and the signatures of every member present.

"The schools of this district (West Palm Beach) are overflowing," said J. A. Youngblood, county superintendent of public instruction in a signed statement made public at the meeting, "and the children are still coming to the schools in a steady stream".

Keeps Busy

Unlike some of our leading pugilists, Benny Alger youthful California welterweight, believes in keeping busy these days. In a stretch of 15 weeks he's fought 15 times, being defeated but once. He's out to beat the record of 48 battles in as many weeks hung up by his older brother, Billy, a while ago.

Texas 3-Cornered Highway Quarrel Is Again In Limelight

AUSTIN, Tex., Nov. 20.—(AP)—Texas' three cornered highway embroglio again took the stage in district court here today with the tension heightened by an unexpected angle, involving an alleged discrepancy of \$250,000 Federal aid highway funds. This was brought out late yesterday in the attorney-generals contract annulment and restitution suit against the American Road Company.

The state highway commission, "third corner" in this case and loser with Governor Miriam A. Ferguson in an intervention attempt seeking dismissal of the suit, was in the limelight again when the testimony of a witness held the commissioner accountable for an apparent shortage of Federal aid funds in their care. C. A. Schulte, federal aid clerk, declared in response to questioning of attorney general Dan Morley, that federal funds received and expended in Texas did not check with the balance on hand.

Last night, however, Chairman Frank Lanham, defended with an explanation designed to show that the federal aid system of funding is subject to fluctuations.

Mr. Moody's petition charges that contracts were let to the defendant company without competitive bidding. The state rested its case yesterday.

Mitchell Trial Is Nearing Completion

WASHINGTON, Nov. 21.—(AP)—Chances that the Mitchell court martial trial will proceed to its end without any prolonged delay brightened considerably today. Defense and prosecution counsel agreed that the testimony of several witnesses who are in Honolulu be taken by deposition at once.

Frank R. Reid counsel for Col. Mitchell told the court he would put the defendant on the stand Monday to testify in defense of his public accusations against air service within which resulted in

the charge of misconduct now pending against him. The court today gave its attention largely to documentary evidence read by the defense from the records of the house aircraft committee and the president's air board.

IN CIRCUIT COURT, SEVENTH JUDICIAL CIRCUIT, SEMINOLE COUNTY, FLORIDA, IN CHANCERY.

Bill to Quiet Title MINNA NOBLE, Complainant, Noah A. Fry and Gussie Fry, his wife, if living, and if dead all parties claiming by, through and under Noah A. Fry and Gussie Fry, his wife, as heirs, devisees, legatees, or otherwise; Wesley W. Fry and Jessie A. Fry, his wife, if living, and if dead, all parties claiming by, through and under David O. Fry and Jessie L. Fry, his wife, as heirs, devisees, legatees, or otherwise; Wesley W. Fry, David O. Fry and Jessie L. Fry, his wife, if living, and if dead all parties claiming by, through or under David O. Fry and Jessie L. Fry, as heirs, devisees, legatees, or otherwise; and each of them, in and to the lands involved in this bill of complaint, and described as follows, to-wit:

Beginning at the southwest corner of the Southeast Quarter (SE 1/4) of Section 12, Tp. 29 South, Range 38 East, Seminole County Florida, thence East 639 feet; thence North 18 degrees and 50 minutes West 690.3 feet, more or less to the Sanford-Orlando brick road; thence South easterly along said brick road to the South line of said Section 12; thence East to point of beginning, containing 5.9 acres more or less situate and being in Seminole County, Florida.

It appearing by the sworn bill of complaint filed herein that you and each of you, may be interested in that certain above described lot of land in Seminole County, Florida,

You and each of you are hereby commanded and required to appear to said bill of complaint at the Court House in Sanford, Seminole County, Florida, on Monday, the 7th day of December A. D. 1925, otherwise said bill of complaint will be taken as confessed by you and each of you; said bill of complaint having been filed for the purpose of quieting title to the above described land in the Complainant, Minna Noble.

IT IS FURTHER ORDERED That this order be published once a week in four consecutive weekly issues of the Sanford Herald, a newspaper published in Seminole County, Florida. Done and Ordered this 7 day of November A. D. 1925. V. E. DOUGLASS, Clerk of Circuit Court, Seventh Judicial Circuit, Seminole County, Florida. By A. M. WEEKS, D. C. JAMES G. OF THE SECOND SECTION OF

Holly Hill Heights

FIRST SECTION NEARLY SOLD OUT

With the present introductory prices of the Second Section of Holly Hill Heights, the man with a limited amount of cash can grasp the opportunity that will reap golden profits. It is important that you act at once if you want to get in on ground floor prices.

Bear in mind that opportunities such as these offered in Holly Hill Heights come "once in a life time". Others will accept this as being a real outstanding investment. The man who acts quickly will profit most. Let us show you with bare facts why an investment here must and will prove profitable.

LOCATION

This is one of the most important factors to consider in making an investment, or selecting a home site. Holly Hill Heights just three miles from the business district of Daytona, bordered by two high grade developments, and only a five minute drive to the Ocean, offers the homeseekers or investor every feature that is offered in the higher type development.

IMPROVEMENTS

The improving program includes asphalt streets, paved sidewalks, city water and lights, in fact every convenience and improvement will be incorporated for the comfort of the residents of Holly Hill Heights.

INVESTMENTS

Quick generous profits awaits those buying for profit. Compare our property with other developments in Halifax County. Holly Hill Heights is Florida's biggest opportunity today.

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Creosolium, an emulsified creosote that is pleasant to take. Creosolium is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creosolium contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creosolium is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist, Creosolium Company, Atlanta, Ga. (adv.)
