Two Policemen Quit; Leibensperger Fired

By DONNA ESTES Herald Staff Writer LONGWOOD — Two police officers resigned and a councilman walked out midway in the city council meeting last night as the governing body accepted Public Safety Director Tom Hennigan's resignation, named an acting director and fired Street Supt. Ray Leibensperger and eliminated Leibensperger's job.

Legislature gave special authority. Council said solving the budget problems would stop council bickering so that work on other serious matters could begin; that reductions were necessary to avoid larger cutbacks at a later date or drastic increases in taxes would be necessary and that final action would raise the morale of city workers.

SUN SALUTES A PERFECT DAY With the blue skies clear and temperatures in the 80s, Florida residents and tourists alike have been enjoying a state of perfect weather in the past several days.

Annexation Fees Pose Problems

By MICKEY LOCHRIDE Herald Staff Writer After the commission passed the ordinance to annex the property, McClanahan said he intends to ask for the cost the city has to pay to annex property.

Proposal: Bus Whites, Not Blacks

By ED PRICKETT Herald Staff Writer Spokesmen for Rosewald Elementary School have recommended busing white children into the predominantly black school to replace a proposal by school officials to close the school and bus black children out.

Lake Front Restriction Proposal Has 'Loopholes'

By GLORIA DROGOSZ Herald Staff Writer LAKE MARY — A proposal to restrict lake front development to single family residences only applies to property owners who do not own all the land surrounding the lake.

County Commission Okays Water, Sewer Rate Hikes

By BILL BELLEVILLE Herald Staff Writer approve a partial hike in a work session yesterday, but the firm's need for a rate of return that could keep them in business. The new fees will provide them with a seven per cent rate.

NATION IN BRIEF

White House Revises Energy Program Costs

WASHINGTON (AP) — White House officials say President Ford's energy program could cost consumers \$5 a year more than originally estimated, or as much as \$15 a year.

The higher figure was disclosed Monday as eight North-eastern governors filed suit challenging the President's power to impose new taxes on imported oil as a way of reducing gasoline consumption and increasing domestic production.

The governors' suit against Ford was filed on behalf of New York, Massachusetts, Rhode Island, Connecticut, Maine, New Jersey, Pennsylvania and Vermont. It charged that Ford had taken a law meant for one purpose and used it for another without bothering to consult either the public or Congress, as the governors say is required.

A similar suit also was filed against Ford's plan for the New England Power Co. and Rep. Robert F. Drinan, D-Mass.

White House Press Secretary Ron Nessen said an average family could pay as much as \$345 a year extra as a result of higher prices on oil and the end of price lids on natural gas and petroleum. The \$345 figure was given as "the absolute outside" cost of the program, while the average cost hike was estimated as \$275 per household.

Levi Defends Himself

WASHINGTON (AP) — Atty. Gen.-designate Edward H. Levi says he often has to defend himself "for appearing to be too wispy-wispy that I had no views."

Levi expressed reluctance to state definite views on a variety of issues during his first appearance before the Senate Judiciary Committee. He returns for more questioning today.

Levi, now president of the University of Chicago, said he has avoided taking public positions on controversial political issues "to protect the essential neutrality of the university."

The nominee usually avoided stating his views in response to questions on the death penalty, national security wiretaps, whether the FBI should keep files of unsolicited allegations about members of Congress and other citizens, whether the Voting Rights Act should be expanded and how aggressively the antitrust laws should be enforced.

Town Hit By 1,000 Quakes

BRAWLEY, Calif. (AP) — "My brother in Iowa thinks my whole town is falling apart," says City Manager Walker Ritter.

The Imperial Valley around this cotton and cattle town has been hit by more than 1,000 earthquakes from the newly discovered "Brawley Fault" since Thursday — at least 25 of them registering above 3.5 on the Richter scale.

A spokesman at California Institute of Technology says it has become the center of the most seismic activity anywhere in the United States outside of Alaska.

But the 13,000 people are trying to ignore the continuing earth tremors. The cotton crop is in, and field workers are picking the rich lettuce crop.

Murders Linked To Insurance

ROCHESTER, N.Y. (AP) — The deaths of five persons and the disappearance of a sixth in the past 12 years have been linked to a suburban Rochester man named as a beneficiary on their insurance policies.

In addition, police said Monday they had unconfirmed reports that three of the man's relatives died or were killed in Florida in the 1950s.

And, the same man who was investigated in the death of a seventh person who withdrew money from a bank account shortly before being shot in the back of the head.

The case broke last week, when James W. Turner, 44, of suburban Scottsville, was arrested and charged with second-degree murder in the death of his brother-in-law, Dwight Dees, 20.

Mexican Police Seek Clues

MEXICO CITY (AP) — Mexican police are seeking clues to whether leftist or rightist terrorists were responsible for bombs that killed five persons and injured 27 Monday in San Luis Potosi and did heavy damage in Mexico City and Oaxaca. The only clue to the identity of the bombers was a leadlet found in Oaxaca attributing the blasts to the "People's Defense Command." Officials said they had never heard of the organization.

Airlines To Raise Fares

GENEVA, Switzerland (AP) — Scheduled airlines plan to raise fares between the United States and Europe an average of 10 per cent on April 1 but are offering cheaper rates to people who buy tickets 60 days in advance. The 30 scheduled airlines of the International Air Transport Association also propose reviving cheaper fares for youths between 12 and 21. All the proposals are subject to the approval of national regulatory agencies.

Winter Springs Appoints Brock As City Attorney

By JANE CASSELBERRY
Herald Staff Writer

WINTER SPRINGS — Municipal Judge Newman Brock was appointed city attorney last night following the acceptance of the resignation of the law firm of Thomas Freeman and Edmund (Ned) Woolfolk as legal representatives of the city.

Freeman, who was recently appointed county attorney, stated in his letter of resignation that the "workload is too great" to represent the county and the cities of Lake Mary and Winter Springs at the same time. His resignation was made effective "upon acceptance and appointment of a new city attorney" and he promised to make the transition "as smooth as possible."

Council had asked Freeman to secure an opinion from the Florida Bar Association of a possible conflict of interest in representing both county and city governing bodies and he reported it had ruled it was not unethical.

Council moved unanimously to have the city clerk draw up a letter of appreciation to be sent to Freeman and Woolfolk for their dedicated service to the city.

Acting on a recommendation by Mayor Troy Piland, Councilman Irene Van Esop made a motion that Woolfolk be named city judge. The motion passed unanimously. Woolfolk, who presently serves as city prosecutor, said he will work it out with Brock so that he will not sit as judge on cases where he has been working on the prosecution.

The question of Woolfolk's replacement as city prosecutor has yet to be decided.

Brock had served as judge since February, 1974, when he replaced Woolfolk, then serving in that capacity. Woolfolk had resigned in the wake of a Florida Bar Association ethics committee decision that a conflict of interest exists when members of the same law firm serve a governmental body in separate capacities.

Casselberry Plans To Cut 3 Firemen

By ED PRICKETT
Herald Staff Writer

CASSELBERRY — A council proposal to cut three paid firefighters from the budget and use the money to hire a new fire chief was criticized yesterday as "highly irregular" by volunteer Fire Chief Roger Rasoli.

In a prepared statement, Rasoli also questioned a letter mailed yesterday to firefighters applicants informing them the Civil Service Board is canceling scheduled tests for the positions.

Since the council decision to cut three firefighters came during a work session, Rasoli questioned the legality of yesterday's letter signed by City Manager Harry Hug.

"If the meeting was indeed a work session as publicly advertised and no formal budget amendment has been consummated, how could the mayor take action to cancel a firefighters' examination?" Rasoli asked.

Mayor Bill Grier said he had "no knowledge" of the letter that Hug "sent out prematurely."

"Someone is incorrect, and it's not me," Grier said. Then Councilman John Zacco dropping a bombshell by accusing the council of conspiring to get rid of Rasoli and criticized officials for not informing the chief of last week's meeting.

"If three councilmen and the mayor did not plan to get rid of the chief, he (Rasoli) would have been here," Zacco said. Rasoli said the move is the latest in a series of maneuvers initiated by the mayor to remove him from his position because of "politics."

Councilman Charles Glascock said he resented any accusation he was part of any such maneuver.

Duerr acknowledged Rasoli was not notified of the meeting and that items concerning his department were discussed in his absence.

A \$12,000 salary was discussed last week as compensation for a paid chief for the 40-man force, all but six of whom are volunteers.

Deficits were discovered during the first three months of this fiscal year in the police and utility departments.

Duerr said yesterday the city is "not talking about going in the red."

Instead, she said, the deficits were a result of "arithmetic and omission errors."

During yesterday's meeting, Council also granted Leo J. Cole permission to operate a taxi cab out of his home in Casselberry.

However, the service is subject to Cole's meeting with Hug to insure city regulations are complied with.

THAT AINT PEANUTS!

Sobis, Central Florida Zoo's pet pachyderm, amblingly accepts a \$200 donation for the new zoo from the Fleet Reserve Club. From left: Bob Oakley, chairman; Horace Paul, president, with zoo director Jack Hanna. The money was raised with a chicken barbecue.

City Officials Expecting End Of \$70,000 Deficit

CASSELBERRY — City officials here expect a report from the utility department to wipe out an initial \$70,000 deficit in the city budget.

Council Chairman Edith Duerr said yesterday the city needs about \$50,000 and expects \$61,000 from the utility department.

City Manager Harry Hug said if the utility money comes through, "our problems are over."

Utility Director John Lane promised a report from his department by Thursday.

Duerr said if utility revenues are up to par, the money can be transferred to the general fund and the city's budget will be sailing in black ink again.

At a meeting last Wednesday, council proposed cutting funds earmarked for three additional firemen to hire a paid chief for the city.

That decision came with volunteer Fire Chief Roger Rasoli absent from council chambers.

Duerr acknowledged Rasoli was not notified of the meeting and that items concerning his department were discussed in his absence.

A \$12,000 salary was discussed last week as compensation for a paid chief for the 40-man force, all but six of whom are volunteers.

Deficits were discovered during the first three months of this fiscal year in the police and utility departments.

Duerr said yesterday the city is "not talking about going in the red."

Instead, she said, the deficits were a result of "arithmetic and omission errors."

During yesterday's meeting, Council also granted Leo J. Cole permission to operate a taxi cab out of his home in Casselberry.

However, the service is subject to Cole's meeting with Hug to insure city regulations are complied with.

Sagging Economy May Force Layoffs

In an attempt to re-balance a current budget defeated by the sagging economy, County Commissioners yesterday favored laying off four county employees by March 1.

The cuts would come from Roads, Engineering, Zoning, and the Building Departments.

Commissioners will meet with the Personnel Board this week to ask them to take the cuts "under consideration," and to inform the four individual employees of their plans.

Commissioners also gave their approval to plans to reorganize the County Administrative Assistant Betty Breake and that would cut \$350,467 from the General Fund expenditures.

It was estimated Friday that because of a decrease in revenue sharing funds, and county revenue from permits and other sources, that the overall budget for this year would be almost one-half million dollars short. Almost \$350,000 of this would affect general fund expenses.

Road and Bridge, under the direction of J.C. Lavender, would be hit for almost \$137,000 with the cut. In a memo to the Board, Lavender said that his department could operate with the reduction if "one of our road projects will not be built this year." In addition, Roads Department is already 15 men short because of a county freeze.

Gurney Trial Delayed

TAMPA, Fla. (AP) — The bribery and conspiracy trial of former Sen. Edward Gurney has been delayed until Aug. 24 to give the 60-year-old Republican time to undergo surgery.

U.S. district Judge Ben Krentzman agreed Monday to a defense request to postpone the trial, which was scheduled to begin Feb. 3.

Gurney's attorney, C. Harris Dittmar, has refused to comment on the nature of the operation, saying his client deserves privacy. Dittmar said the operation could be performed on Jan. 29 or 31.

200 Involved In Cheating

GAINESVILLE, Fla. (AP) — Two hundred students may eventually be charged in a cheating scandal at the University of Florida's College of Business Administration, a student honor court official says.

Paul Marnish, a third-year law student from Orlando heading the investigation, said Monday that the students would be charged with violating the school honor code.

Karl Urges Representation

TALLAHASSEE, Fla. (AP) — Florida should join the New England states in a suit to block President Ford's announced tariff on imported oil, state Public Counsel Frederick Larif says.

Karif said in a printed statement Monday that his staff is checking whether his role as a legislative representative allows him to intervene on behalf of Florida citizens.

FLORIDA IN BRIEF

Former Mayor Lindsley Admits Machete Ownership

ST. AUGUSTINE, Fla. (AP) — Former St. Augustine Mayor James Lindsley says he owned a machete similar to the one used to kill his wife, Athalia Ponsell Lindsley. Lindsley testified Monday at the first degree murder trial of Alan G. Stanford Jr., 35, St. Johns County manager whose home was next to Mrs. Lindsley's.

Stanford, now on leave from his county job, is charged with hacking Mrs. Lindsley to death with a machete on Jan. 23, 1974.

Another witness, St. Augustine police detective Dominic Nickle, testified that he found a blood-stained piece of cellophane paper on the street behind the Lindsley and Stanford homes the day after the slaying. There was no testimony as to whose blood was on the paper.

Lindsley, who maintained a separate residence from his wife, denied they had been having marital difficulties. But he said they had disagreed about who would claim homestead exemption, for tax purposes, on their properties.

Fremmen clear damaged clubhouse while investigator, right background, probes area where blaze apparently started

Fire Damages Clubhouse

Sheriff's, County Fire Department and State Fire Marshal's investigators this morning were probing the fire damaged clubhouse at Mar-beya Club Apartments, 1100 Semoran Blvd., Casselberry, in efforts to determine the cause of a blaze that damaged the facility last night.

County fire units responded to the 9 p.m. alarm and contained the fire to the kitchen area of the clubhouse overlooking Lake Howell.

A spokesman for the apartment complex management said this morning a dollar estimate of damage wasn't immediately available.

Sheriff's deputies reported the clubhouse was locked when firemen arrived and found flames in the kitchen area.

Firefighters contained the fire and extinguished it quickly. County fire department investigator J. H. McCluen and Sheriff's detective Sgt. Robert Kunkler said the blaze apparently started underneath a sink cabinet in the kitchen.

The blaze charred the nearby bar and damaged appliances. County Fire Administrator Gary Kaiser said there was water damage to carpeting in storage room.

A door lock was jammed and a Dictaphone machine and six tapes, valued at \$250, taken in a burglary at Pinescrest Elementary School, Sanford.

Patrolman H. J. Shea Jr. reported vandalism damage was estimated at \$200 at Seminole High School, Sanford, after vandals removed a classroom door glass, ransacked the door, destroyed a bulletin board and scattered books and papers. Shea said sugar and powdered coffee cream substitute was thrown on the carpet and then apparently watered down by the vandals.

Police said Sanford Christian School, 119 Airport Blvd., Sanford, was also entered by prying an office door but nothing was reported missing.

Oviedo police reported today that a refrigerator, washer and dryer were taken in a burglary at a new addition to the Jackson Heights Middle School Monday. Patrolman Jack Fowler said the appliances were valued at \$711.

WEATHER

Yesterday's high 82 low 61. Fog and some low clouds likely recurring tonight. Otherwise generally fair through Wednesday. Highs in the low to mid 80s. Mild at night with lows in the upper 60s and low 60s. Variable mostly easterly winds 5 to 10 mph.

Forecast: Fair through Thursday through Saturday. Peninsular Florida — Generally fair and warm except a little cooler with a chance of showers extreme north portions Saturday. Lows in upper 60s north to low 70s south except low extreme north Saturday in upper 60s.

Daytime Beach highs for Wednesday — high 83 a.m. - 9:25 p.m.; low 2:30 a.m. - 3:02 p.m.; Port Canaveral — high 82 a.m. - 9:02 p.m.; low 2:23 a.m. - 2:50 p.m.

Mobile Manor Residents Protest Canal Fill-In

By BILL BELLEVILLE
Herald Staff Writer

County residents living on a "unmanned canal" in Mobile Manor near Longwood are expected to turn out tonight in protest of an attempt by Mario LaPoma to fill his portion of the dead canal.

The filling of the last 150 feet of the 75 foot-wide canal will seriously affect the fishing in the rest of the canal, residents said at an initial meeting two weeks ago.

In addition, they say that LaPoma has already filled a portion of the canal without obtaining a permit. There's also the question of whether the canal harbors live springs.

As such, it would not be "environmentally worthless" as County Pollution Control Director Langley Adair had stated at the first meeting.

The Commission asked for a two-week continuance to check on legal ownership of the canal and on the existence of the springs. They also warned LaPoma about leaving building materials and scrap lying around his business, Tymberspan Modular Homes, which is not zoned for it, and expect a report on the state of his yard tonight. LaPoma has been cited previously by the Building Department for the violation.

The proposed fill-in behind Tymberspan of SR 434. During daytime business, commissioners will receive a report from Assistant County Planner Bill Kercher on the work of the Seminole County Art and Historic Resources Committee on Low and Moderate Income Housing. The committee completed six months of study in an effort to pinpoint the housing shortage in the county and to recommend solutions for it.

Commissioner Harry Kwiatkowski plans to discuss with the Board his concept for "reinstating monthly meetings with the cities" in Seminole County today.

Under his plan, the Board would meet once a month, on a rotating basis with each city at the city's pleasure. The "informal work session" would have an agenda prepared by the city and it would be open to all citizens. In a memo to the Board, Kwiatkowski notes "full Board attendance is strongly suggested."

Cruelty To Animals Charged To 3 Men

Sheriff's deputies, summoned by Seminole County Humane Society representatives, arrested three men yesterday on cruelty to animals charges at a greyhound training track in Lake Mary.

Released after posting \$500 bond each at county jail in Sanford were kennel operator Ralph Ray Ryan, 60, and kennel helper Francis Louis Kelso, 23, both of Humphrey Road, Lake Mary, and a DeLand factory worker, 55-year-old Burt Edward Eason.

Sheriff's Sgt. W. A. Vinton said Humane Society representative J. H. Whittington Jr., reported an apparent violation of the cruelty to animals law Friday after receiving complaints from residents in the vicinity of the training track off Humphrey Road.

Vinton said complaints to the Humane Society alleged live rabbits were being used during greyhound training procedures.

Vinton said Monday he went to the training track with control officers and observed a white rabbit hanging on an electric trolley that circles the track and that two greyhound dogs were pursuing the rabbit.

"The rabbit appeared to be kicking and still alive," Vinton said.

The dogs were later loaded into a trailer by Kelso and Eason, who deputies identified as a dog owner, Vinton reported.

Vinton said the three men were arrested and he found that the suspended rabbit was dead on the trolley. He said the animal "appeared to have suffered skin lacerations."

The dead rabbit was turned over to a veterinarian. Sentence for conviction of the misdemeanor charge of cruelty to animals is up to six months in jail or \$1,000 fine or both.

Detente Survives Soviet Trade Bill

There had been a tendency to regard the 1972 trade agreement between the United States of America and the Soviet Union as a "cornerstone" of detente. By scrapping the agreement rather than giving in to a demand by the U.S. Congress that the Russians be allowed to emigrate, the Russians seemed to be pulling the trade piece out of the detente structure. Detente is still standing there, however, with both sides insisting that nothing has really changed.

Detente is too important to be anything but an "irreversible" policy for the Soviet Union, says the Tass news agency. While not disagreeing, Secretary of State Henry Kissinger seems to be more concerned, for the moment, by the congressional intrusion into diplomatic territory than any possible setback in U.S.-Soviet trade relations.

As a structure for more fruitful relations between the two superpowers, detente can stand this kind of shock because it was not bearing much weight in the first place. The resumption of Strategic Arms Limitation Talks in Geneva next month will be more revealing than any trade developments as to whether the Russians are willing to make a meaningful compromise in their nuclear arms buildup. The European Security Conference and the negotiations for East-West force reductions in Europe already show signs of evaporating without results. It is still not clear whether Moscow, having outfitted Syria with enough arms to challenge Israel in another war, will cooperate with Mr. Kissinger in his effort to avert such a war through step-by-step negotiations in the Middle East.

With new Soviet arms also making it possible for North Vietnam to step up the pace of its war in Indochina, detente has a dismal record in terms of furthering the cause of peace. It has simply opened new doors for Soviet trade with the West, and that may be all that the Russians intended it to accomplish.

Trade is indeed the cornerstone of detente from the Soviet standpoint, and it is now obvious that the Russians believe the cornerstone is laid well enough that they can get along without the tariff considerations and credits promised by Washington in 1972. With the inflated value of their gold resources and higher return for their oil exports, they can continue shopping in Western markets for the technology and industrial equipment they need without the advantages that an agreement would have provided. Since the Soviet Union also is backing down on its agreement to settle its World War II lend-lease debt to the United States of America for \$711 million, the net results may be that the Russians come out ahead.

The Russians did not find the prospective trade advantages great enough to warrant the loss of face which a change in their emigration policies would have caused. The question arises whether the West — the United States included — is not suffering a loss of face by continuing to sell goods and know-how to the Communists when it is so evident they are playing games with their promises to give detente some meaning for those who live under the shadow of Soviet arms.

Time Is Problem

Benjamin F. Ballar, who is in line to become the new postmaster general, says he thinks the 10-cent postage stamp is a bargain. The average American worker, he says, has to work only one minute and nine seconds to earn the 10 cents to mail a letter.

Mr. Ballar would be off to a better start if he had used some yardstick other than time to defend the quality of our postal service. Time is what the argument is all about. What depresses many Americans is that after working one minute and nine seconds to get their dime for a stamp, they have to wait so long for the postal window to buy one and then can't be sure whether Aunt Mabel's birthday card is going to get to her on time for her birthday.

BERRY'S WORLD

Sometimes I feel like pulling a Giscard and disappaling!

Around The Clock

Certainly with all of the many times we've had news of the Little Red School House (LRSH) in our news columns you'd know of their needs and services to the community.

Well, maybe yes and maybe not. Quite frankly, I wasn't exactly certain what they did, other than being connected with aiding children.

After a little investigation we found the following to share with you. LRSH is a program for retarded children who are residents of Seminole County. All of the 90 children currently enrolled are below the age of six.

Children between the ages of six and 13 may be admitted if the public school system has no program suitable for them and excludes them for that reason.

During the period from Sept. 1, 1972 thru Sept. 1, 1974 the LRSH has received 562 applications and has served 322.

They do an outstanding job. Unfortunately, like most other similar organizations, they must depend on the public for support and contributions.

At other times they stage promotions to help raise funds themselves.

One of those is scheduled to continue through Feb. 1, and it's called a 14 Bag Sale. All of the clothes you can put into a regular grocery bag is yours for only one buck.

It's for a good cause, neighbors. So, why don't you head your wheels to 112 S. Magnolia Ave., in Sanford.

All of the proceeds will go to the Little Red School House.

Just finished reading in the January issue of Reader's Digest, Carrying the Fire — an astronaut's journey by Michael Collins.

All of the preconceived notions which I had regarding those trips to the moon, etc., were changed after reading Collins' description of his flight to the moon.

And if you're like myself, and didn't remember Michael Collins the astronaut, he was the one who was circling the moon while Neil Armstrong and Buzz Aldrin landed the Eagle on the surface of the moon.

It's a very exciting condensation and well worth the 30 minutes or so it would take you to read it.

Just how popular is TV personality Stan Brock? Perhaps this will help shed light on the question.

There's a TV group coming all the way from Japan who will film Brock and all of his activities related to the efforts on behalf of the Central Florida Zoo.

Perhaps by now you know, Brock has requested permission from Tallahassee to film 30 and 60 second TV spots of the Sea Cows at nearby Blue Springs.

So today this area may fully appreciate all of the time and talent which Stan Brock has made available for the benefit, not only of the zoo specifically, but this area generally.

It's greatly appreciated, Stan-The-Man. Thank you.

TOM TIEDE New Motto Causes Stir For State

CLAREMONT, N.H. — (NEA) — Ever since New Hampshire changed its license plate slogan from a gentle "Scenic" to a boisterous "Live Free Or Die," George Maynard has stewed.

Intensely religious (Jehovah's Witness), he has felt the new motto anti-Christian in principle. "I believe man lives forever and the state has no right to say otherwise."

So, six months ago Maynard covered up that portion of his plates with masking tape. Kids would occasionally pull the tape off, forcing Maynard to eventually punch a hole. "Or Die" panned with a nail. Otherwise, he was content.

Until recently when he was stopped by the police and given an arrest summons for "defacing" the plate.

"That's when it began," Maynard says, "and it hasn't stopped."

Maynard admitted his guilt in court and because he could not, in conscience, pay a fine, his sentence was suspended.

Police, however, then extracted their own kind of retribution. When I left the court I saw this officer confiscating my plates. He didn't ask permission, he didn't tell me why, he just did it. I asked him how I'd get home and he said it was my problem. He acted like I was some kind of loser."

Twenty miles from his living room, Maynard decided to make cardboard plates for the drive home. He didn't get far. "The local police radioed ahead for the State Patrol. They stopped me here off my cardboard plates and gave me another summons. That officer, too, was unpleasant; I was made to feel almost un-American, if you know what I mean."

In fact, Maynard is hardly un-American. Not one of the "hippie freaks" the locals recount with disgust. Maynard, 42, is married, has two children, owns a home, and earns steady income from a printing job. "I don't have long hair, I don't live different from anyone. But, you know, in this state patriotism is everything. If you're even suspected of not being the law the police can be very unfriendly."

He's right, the state is superpatriotic. Cops carry flag decals, flag pins and flag shoulder patches. One fellow in the state legislature has years past introduced a bill requiring every able-bodied man to carry a rifle and 500 rounds of ammunition (Communists are coming).

As for the license plate motto, it was adopted to answer the national protests of the Vietnam war. Proponents said it reflected state thinking and should be an influence to people across the nation.

Not everybody here, however, feels that bluster is synonymous with love of country and so the license plate thing has had numerous detractors. Most critics think it's "inappropriate," others believe it offers an extremist viewpoint, a few have refused to suffer it at all.

JACK ANDERSON

Big Names Linked To Texas Watergate

WASHINGTON — Some of the biggest names in America have been linked to a Texas Watergate scandal, which involves a bungled wiretap operation, a coverup attempt and some accompanying shenanigans.

The story is every bit as fantastic as the Washington Watergate drama. After weeks of investigation, we have now dug the details out of unspooled court records and sealed grand jury evidence.

The roots go back to the late oil curmudgeon, billionaire H. L. Hunt, whose children and aides split up in a classic struggle over his enormous wealth. One of a faction was led by the Hunt brothers, Bunker and Herbert, who suspected another faction of siphoning funds from the old man's empire.

To satisfy their suspicions, the government charges, they hired wiretappers who, in Watergate style, botched the job. A wiretapper, spotted outside the house of a former Hunt executive, was arrested on Jan. 16, 1970. The trail led to the two Hunt brothers, who began frantically pulling political wires to keep their names out of the scandal.

We have already reported the sworn testimony of two witnesses who told of a \$50,000 to \$60,000 "payoff" to the powerful Senate Judiciary Chairman, Sen. James Eastland, D-Miss., whose committee has jurisdiction over the Justice Department. He made calls in behalf of the Hunt brothers to Richard Kleindienst, who then was the deputy attorney general, and to House Appropriations Chairman George Mahon,

"I Have A Feeling We're Rowing Upstream!"

Letter To The Editor

Editor, The Herald:

The Equal Rights Amendment will come before the Florida Legislature again this year. The "pro" groups (including NOW and Common Cause) are already gearing up for the big push. With all the attention the ERA is getting, it would seem that women everywhere are clamoring for passage. She is definitely not the case. There are at least 33 organizations opposed to the ERA, including the National Council of Catholic Women (11 million members) and the Southern Baptist Association (12 million members). Very simply, there are more women and more groups opposed to the ERA than are in favor of it.

The ERA proposes that equality or rights "shall not be denied or abridged" on account of sex. Such vague wording would regard men and women as equal and as identical. Therefore the following effects would LOGICALLY become realities: unisex public toilets, unisex school toilets, unisex school showers and locker rooms, unisex prisons.

Consider also that groups that limit their membership by sex would be unconstitutional and illegal. Therefore we are eliminating the

Boy Scouts, Girl Scouts, sororities, fraternities, YMCA, YWCA, American Legion and VFW and their separate Ladies' Auxiliaries, WACS, WAVS, WAFFS. With the elimination of the last three, women will be equal to serve in any branch of the military services — including IN COMBAT.

All laws now on the books which mention "men," "women," or define relations between them (such as requiring husbands to be legally responsible for the support of their wife and family) would have to be rewritten to be made sexually neutral law against rape or prostitution.) Imagine the great amounts of tax money that would be needed to rewrite present laws, and at a time when our country can least afford it. In the same spirit that President Ford asked for a moratorium on new federal spending, I am asking for the defeat of the ERA.

RAY CROMLEY Economic Game Plan Beats Self

WASHINGTON — (NEA) — President Ford is engaging in sleight of hand. His economic proposals give and they take away — leaving us where we started. Our tax cuts would be balanced off by higher-cost light and heat for our homes, gasoline for our cars and food for our tables. Almost all prices would inevitably rise.

The White House proposals may cut out dependency on foreign oil — if adopted. They won't spur recovery.

Mr. Ford's advisers, of course, are convinced that if industry and consumers are forced to pay ridiculously high prices for oil, gas and electricity, they will find ways of using energy efficiently. If we conserve enough by these means, the argument runs, higher energy prices will not inflate living expenses appreciably.

Now this is excellent reasoning, in theory. Like Mr. Ford's men, I know of the as yet uncompleted studies which seem to indicate some major American firms, by concentrating on conservation in the past year, have cut their energy bills by as much as 25 percent.

But the industrial examples, at least, are not typical. Normally, they involve large concerns with great sums for research and investment. One such company has the funds to fly airplanes with infrared heat-seeking devices over its factories to learn first-hand the source of heat losses.

The greatest fuel waste is in small industry. These operators have neither the capital nor the means of acquiring the capital to pay for the devices required to save significant amounts of coal, gas and electricity. When capital is available, it costs too much, thus adding excessively to current operating expenses, even with fast depreciation allowances figured in. Never mind that in the long run some of this equipment would save enough fuel to pay for itself. In these difficult times, small industries living from hand to mouth must think of today.

Worse yet, in all too many cases the major benefits from fuel-saving investments come in large-scale operations and thus only marginally benefit the small producer economically.

High fuel prices will encourage new construction techniques for factories, office buildings, apartments, homes. That won't help today's owners.

A ham-fisted across-the-board rise in the price of energy would thus drive a good many small firms out of business, concentrating more industrial output in the giants.

And those industries and other businesses with the most political clout will get special concessions from Congress and the White House, further distorting industrial and agricultural production.

GOLF Brantley Invitational Opens 1975 Season

By TOM KEYSER
Herald Sports Editor

ALAMONTE SPRINGS — Trinity Prep Golf Coach Roy Marton was discussing the sunshine when Frank Mebane of Sanford stepped to the No. 1 tee Monday.

There was silence until Mebane's driver blasted the white sphere more than 250 yards down the middle of the fairway.

"That boy Frank. That pretty Frank," said Marton. And with that, high school golf 1975 began.

The Patriot Invitational Golf Tournament at the Rolling Hills Country Club on Monday ushered in the new season.

Defending state champion Lyman and tournament host Lake Brantley tied for team honors with 162.

The top two players from each team will play nine holes today at 3:15 p.m. to determine the tournament's winning team.

Paul Neal and Terry May will play for Brantley and Gene Jones and French Bolen will represent Lyman.

The team scores were based on the nine-hole totals of the best four team players. Seminole recorded 172, Oviedo and Trinity Prep 174 and Lake Howell 208.

Neal of Lake Brantley stroked a 36 for the best score of the day. Mebane of Trinity Prep fired a 37.

Lake Brantley's best four were Neal, Martin, Anton with a 40, and Jim Longley and May with 45. Lyman's Bolen and Mike Jones had 39. Gene Jones registered a 40 and Bob Evans stroked a 44.

Neal birdied the No. 3, 373-yard par-four with a five-foot putt. He bogied No. 6, a 498-yard par-five, after hitting his second shot into the trees.

"I didn't hit the ball real well," he said. "But I happened to score well."

Neal missed 10-and eight-foot birdie putts on the first and second holes and struggled for pars on No. 7 and 9 after missing the fairway off the tee.

The tournament launches the golf season, which begins dual competition Feb. 17.

Lyman, the defending state champions, will be favored to repeat as county champs, but Lake Brantley is expected to challenge the Greyhounds.

Lyman was 27-1 last year.

Patriots Dump DeLand, Abramson Pinned

Lake Brantley thumped DeLand 37-12, but Patriot heavyweight Andy Abramson lost in high school wrestling action Monday night.

DeLand's Tim Chavers pinned Abramson in 1:27. It was Abramson's first defeat of the season.

In other matches, Seminole and Lyman won but in opposite fashion.

Lyman trounced Orlando Edgewater 54-10 and Seminole heavyweight Bennie Mills won the match's final confrontation for Seminole's 36-26 win over Orlando Boone.

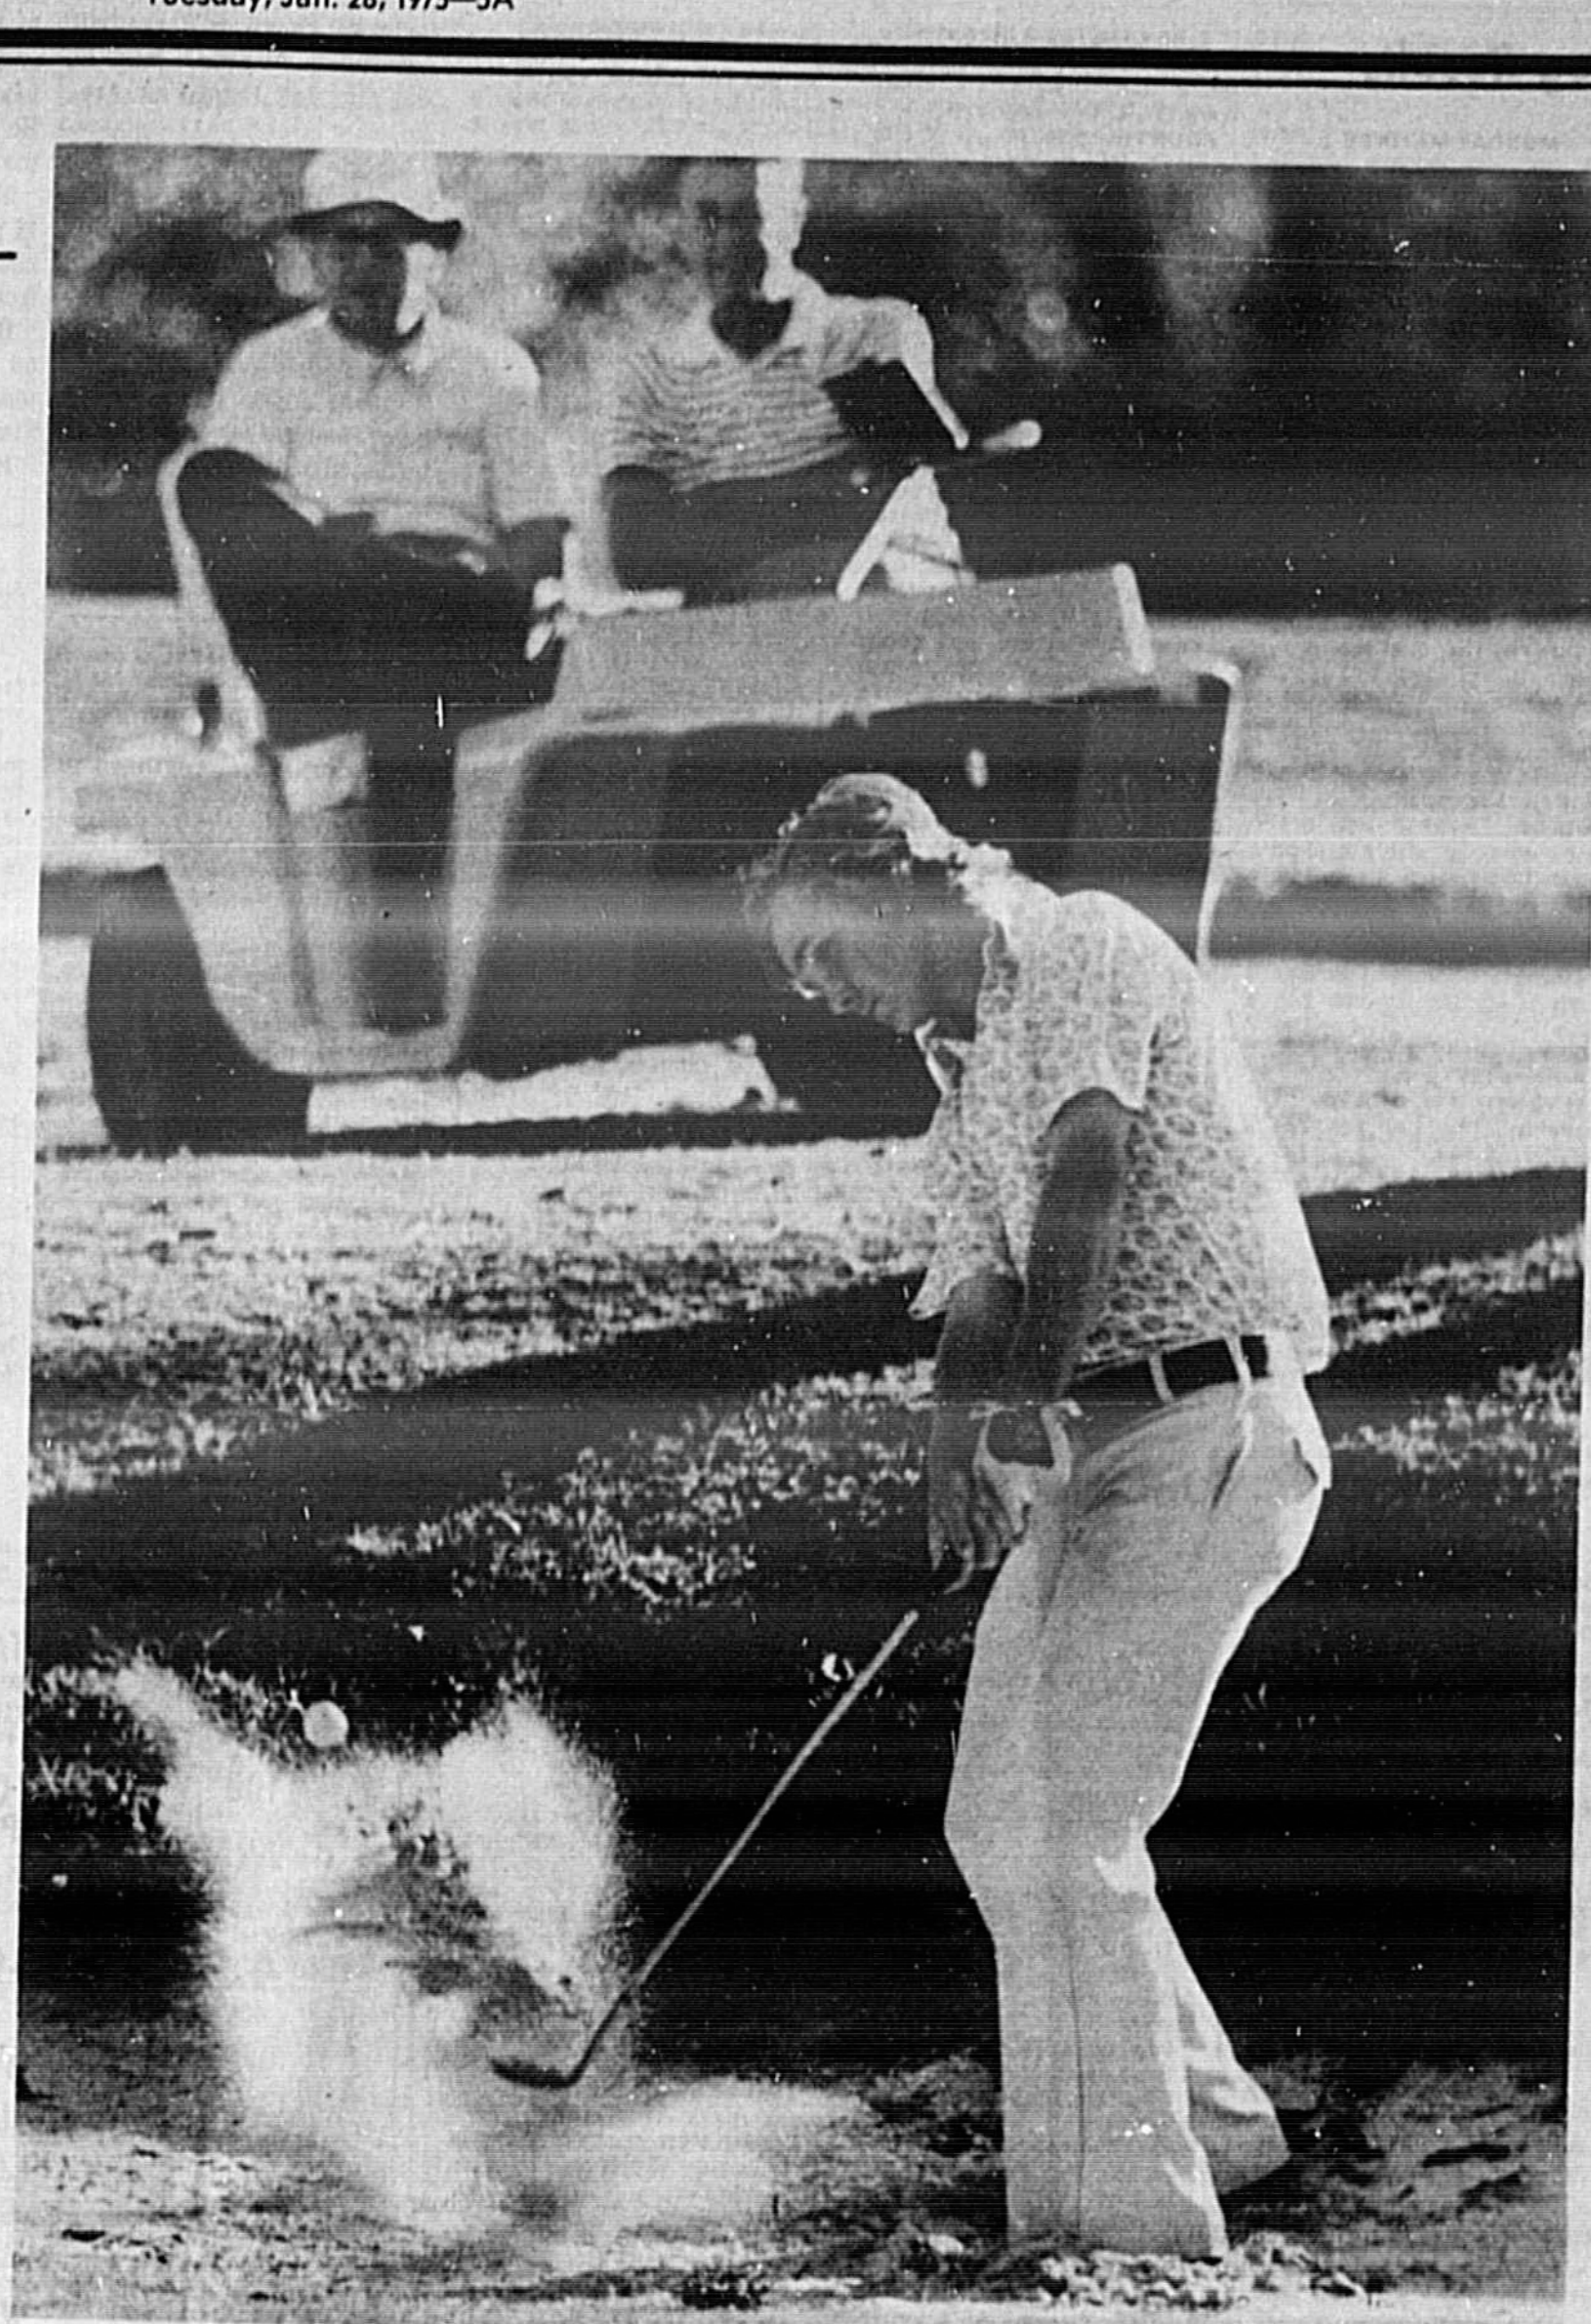

Lynan's Lou Payas at 108, Armando Payas at 115, who is back from a broken wrist, Steve Lang at 129 and heavyweight Kevin Albright won by forfeit.

Keith Barnhart pinned his 101-pound opponent in 2:38. Doug Peters pinned his foe at 122 in 11 seconds. Dave Lesure wrestled his 135-pound challenger to an 11-1 tie. Guy Campbell won 14-3 at 141. Jim Howarth won by a pin at 2:38 in the 145-pound class. Rob Abbott won a superior decision 11-1 in the 158-pound group and Jerry Human tied his opponent 7-7 at 188.

Monday's match was Lyman's final dual meet. The Greyhounds will compete in the Metro Conference tournament at Orlando Boone on Friday before hosting the district the following weekend.

Despite Abramson's setback, Brantley coasted to its win over DeLand.

Mark Sims at 108 won 15-6. Bob Goddard at 115 was victorious 11-8. Verlan Prevatt at 122 triumphed 9-0. Bruce Hill 129 pinned his opponent in 1:12. Lee Barrett at 141 pinned his foe in 1:40 in the third period. Clint Watts at 148 won 7-5. Alpha Franklin at 158 won 6-5. Max Buffkin at 170 pinned his challenger in 1:27 and Craig Davis at 188 won 8-0.

Gene Jones of Lyman High School blasts from a trap at the seventh hole in the Patriot Invitational Golf Tournament on Monday. (Herald Photo by Gordon Williamson)

Full Schedule Of Prep Cage Games Slated

Seminole, Sanford Naval Academy, Lyman and Oviedo are home tonight and Lake Brantley is on the road in a full slate of high school basketball games.

Seminole meets Orlando Colonial, Sanford Naval Academy hosts Montverde, Lyman takes on Orlando Jones, Oviedo entertains Lakeview and Lake Brantley travels to Leesburg.

Seminole is 10-9 after losing two games last week. Seminole ripped ninth-ranked Daytona Beach Mainland 64-59 a week ago, but faltered to Oak Ridge 56-49 in overtime Wednesday and Orlando Jones 61-56 Friday.

After three inconspicuous games, Seminole exploded in the fourth quarter to outscore Jones 20-13. But the rally, led by Randy Brown with 17 of Seminole's final 21 points, ran out of time.

Seminole travels to Orlando Evans Friday for a bout with Florida's No. 2 ranked team.

Sanford Naval Academy snapped a four-game losing streak Saturday with a 60-58 win over Tampa Temple Heights. Navy led 66-48 Friday to Florida Central Academy. It was Navy's third loss this season to FCA.

Navy is 9-11.

Lyman snuffed a victory over Clearwater Central Catholic Saturday night before losing 98-89 in double overtime.

Lyman, now 2-15, led in the fourth quarter and the first overtime until CCC rallies in the final seconds tied the score.

Oviedo outscored Oviedo 25-10 in the first period and Oviedo conquered Oviedo 25-20 in the second and 17-7 in the third. Oviedo concluded with a 36-14 margin in the fourth.

Clemmie Patterson led Oviedo with 24 points.

Lake Brantley rallied in the fourth quarter against Orlando Colonial Saturday but could not overcome a 63-41 third quarter deficit.

Dan Gabriel of Brantley was the game's leading scorer with 28 points.

SPORTS IN BRIEF

NFL Draft Set Today
NEW YORK (AP) — It's a great year for linemen and linebackers, but All-American quarterback Steve Bartkowski was expected to be the No. 1 selection today when the National Football League opened its annual two-day draft of college stars.

"I think Atlanta and the South are the places to play football," Bartkowski said Monday shortly before he left the University of California and flew to Atlanta and the Craig, where he was scheduled for an early morning news conference today.

"They take the game seriously and the fans have enthusiasm, as I learned from trips to Gainesville, Fla., and Mobile, Ala. I look forward to playing with the Falcons."

And the Falcons look forward to having the strong-armed, 6-foot-4, 212-pound drop-back passer who broke Craig Morton's single-season Cal passing record by throwing for 2,589 yards, including 12 touchdowns.

Ching, King Clash
ROTONDA, Fla. (AP) — Surfer Laura Ching and diver Micki King fought it out in swimming, rowing and tennis, as Miss Ching managed a 16-15 overall lead going into today's final round in women's Superstars competition.

Miss King won the 36-yard swim in 32.24, compared to Miss Ching's close second-place time of 31.61.

But Miss King also had a second in rowing and a fourth in tennis, topping Miss King's third in rowing and fifth in tennis.

Lloyd's Bicycle Shop Pedal For Fun And Health

John Schlein Panama is interesting not only for its canal, the beautiful climate, and the Caribbean Sea on which it is located, but also for its tribes of Indians. The Indians, the Cuna, the Guaymi and the Choco, live almost completely in the past. Even today, the Panamanian Government practices a kind of coexistence with them.

WIN AT BRIDGE Dick Turner

By OSWALD and JAMES JACOBY

NORTH ♠ 152 ♣ 833 ♦ K8752 ♠ 86

WEST ♠ 754 ♣ K10 ♠ 1064 ♠ K1094

EAST ♠ 8 ♣ Q8752 ♠ 133 ♠ AQ52

SOUTH (D) ♠ KQJ1092 ♣ 164 ♠ 173

East-West vulnerable

West North East South
Pass 2♥ Pass 2♠
Pass 4♠ Pass Pass

Opening lead — 4♠

starts by cashing his ace of diamonds to get out of dummy's way. Then he leads a low club. West puts up the nine of clubs in order to win the trick and leads back a trump.

If he leads back the seven South must win with dummy's ace and follow in his hand with one of his high trumps. This will make it possible to get to dummy with the six spot later. If he leads low, dummy must win with the six.

Either way, South leads and ruffs a diamond; enters dummy with the last trump; ruffs another diamond and eventually gets two discards on the king and eight.

CARD SENSE

The bidding has been: 28

West North East South
Pass 1♥ Pass 1♠
Pass 1♥ Pass 1♠
Yoy, South, hold: ♠ AQ76 ♣ 2 ♦ KJ54 ♠ AQ82
What do you do now?
A — Pass. The hand appears to be a misfit. Quit before you get too high.

TODAY'S QUESTION
Instead of bidding two hearts your partner has rebid one notrump over your one spade. What do you do now?
Answer Tomorrow

CARNIVAL Dick Turner

"What's inflation? That's when a temper tantrum doesn't get your allowance raised!"

FUNNY BUSINESS Roger Ballen

YOU BUREAU OLD ENOUGH TO BUY BEER?

YOU SEE HOW I DONE THAT KID... THAT'S CALLED PUBLIC RELATIONS!

DOONESBURY Garry Trudeau

WHAT DO YOU THINK? DO WE HAVE THE NECESSARY MAJORITY TO GET THIS BILL ON THE FLOOR?

YEAH, A MAJORITY IS CLEAR. WE HAD TO GET THIS BILL IN A HOLE. SO BEP THAT ONLY THE ARABS COULD BAIL US OUT!

WELL, LET'S GO WITH IT. WE DON'T START ANYWAY — CUTTING AWAY SOME OF THE DEADWOOD GET THIS BILL SETTLED?

EXCEPT FOR ONE DETAIL — AND HERE WE WANT TO BE THE ONE TO TELL THE PRESIDENT OF THE UNITED STATES THAT HE'S BEING LAD OFF?

I'LL TELL HIM I'LL TELL HIM!

OKAY, SCOP — BUT BE TACTFUL.

TUMBLEWEED T. K. Ryan

WELL, IF IT ISN'T HOGARTH HEMP, THE HANGMAN... HOW'S THINGS, HOAGY?

GHASTLY, I SHOULD HAVE FOLLOWED MY MOTHER'S ADVICE WHICH WAS?

JOIN A FIRING SQUAD.

PRISCILLA'S POP Al Varmaer

IT'S FROM YVETTE, MY GIRL IN PARIS!

JCPENNEY TIRE GUARANTEE
ROAD HAZARD AND WORKMANSHIP GUARANTEE
 Our Passenger Tires are guaranteed against failures caused by road hazard and defects in material or workmanship for the life of the original tread until worn to the wear indicators which appear when 2/32" of tread remain. If a tire fails before 10% of the original tread is used, we will replace the tire at no extra charge.
HOW ADJUSTMENT IS MADE
 In return for the tire, JCPenney will, at our option, repair or replace it charging only for the proportion of the current selling price plus Federal Excise Tax that represents tread used.
WEAR OUT GUARANTEE
 Our Passenger Tires are guaranteed against wear out for the number of months specified. If the tires wear down to the wear indicators, which appear when 2/32" of tread remain, we will adjust the tire. Wearout caused by misalignment is excluded.
HOW ADJUSTMENT FOR WEAROUT IS MADE
 In return for the tire, JCPenney will replace it charging Federal Excise Tax plus the current selling price less the following allowance for the new tire:
 Monthly Guarantee Period Allowance
 18 10%
 18 to 26 15%
 27 to 35 20%
 36 to 39 25%
 40 and over 30%
 This guarantee applies to tires used on private passenger cars and other non-commercial vehicles only.

Police Explode Bomb Found In Oakland Federal Building

OAKLAND, Calif. (AP) — Helmeted demolition experts who found a bomb planted in the federal building here today carried the device out of the building in a metal tub and detonated it in the street.

Two small blasts set fire to an attache case containing the bomb, and it exploded with a roar that shook nearby buildings. A couple of windows on the third floor of the federal building were broken.

"That's it! That's the big one!" police officers yelled after the explosion. Several demolition experts wearing white

helmets had carried the bomb out of the George P. Miller Federal Building in a metal tub with a lid on it.

They used ropes to carry the tub and set it in the middle of the street near the side entrance to the building.

"Get back, get back! If that thing goes off, you're all going to be hurt!" police and federal agents yelled to nearby newsmen.

Authorities cordoned off a four-block area around the building after calling identifying themselves as members of the Weather Un-

derground said a bomb they had planted was set to go off Tuesday night.

In addition to sealing off the area, authorities called two fire engines to the scene and an ambulance was parked across the street from the building, which houses the Armed Forces Induction Center.

A group identifying itself as the Weather Underground Organization, charging that the United States was providing illegal aid to Cambodia, said it had planted the bomb.

The Weatherman also claimed responsibility for

the bombing early today that damaged four floors at the State Department in Washington.

Shortly before the agents entered the building here, a woman identifying herself only as a member of the Weather Underground called the Oakland Tribune and warned searchers to stay away from the explosive, which she said was on the seventh floor.

"In trying to open it, it could go off. It's very powerful," she said.

She said she and other Weather Underground members could not understand why the bomb did

not go off late Tuesday night as planned.

After the initial search this morning, more than a dozen federal agents entered the building. They were joined by two men from the Navy Explosive Ordnance Disposal Unit.

The two Navy men were wearing protective body equipment.

The building was sealed off Tuesday night after local news media received telephone calls warning that a bomb would go off at 10 p.m.

Authorities waited throughout the night and when no explosion occurred, the search began.

Seminole Power Rate Slash Seen In New Tariff Plan

By ED PRICKETT
Herald Staff Writer

Relief may be in sight for soaring electricity costs in Seminole County because of new estimates on President Ford's oil import tariff plan, according to U.S. Rep. Lou Frey Jr.

The Winter Park Republican said a flexible plan was discussed Monday at the White House that would lower the predicted increase in electric bills for Florida residents.

Utility officials said today Seminole County power bills will go up about \$1.50 to \$2.50 instead of the \$2 to \$5 hike predicted under Ford's proposal to raise oil import fees by \$3 a barrel.

Although the \$3 hike on crude oil is still in the making, Frey

said the tax on residual oil — the type used in power plants — will be raised only \$1.20.

"That would knock it (the predicted increase) in half — or probably a little more," said Scott Burns, Florida Power & Light Co.'s commercial manager.

Frey said it was his understanding the lower price hikes on imported oil will give Florida and New England a break because both areas use a great deal of residual oil.

Bud Fowler, manager of consumer affairs for Florida Power Corp., said if Frey's predictions come true, the firm's tariff will be about \$2.50 a month.

"All this guesswork until we see what they come up with. I still haven't seen it in

U.S. REP. LOU FREY JR.

writing," Fowler said. According to Frey, residual oil used for home heating and power generation will be raised only \$1.20 — a 60 cents increase in March and 60 cents in April.

Ford says that he is adamant that the first phase of his tariff — a \$1 increase on each barrel

of imported oil — will go into effect Saturday.

But Al Ullman, chairman of the House Ways and Means Committee, is still seeking a way to delay the tariffs, which would total \$3 per barrel of imported oil by April 1.

Congressional tax writers are still hopeful that a way can be found to delay the oil import tariff program despite Ford's insistence that it get underway.

What it all means is that eventually the Federal Energy Administration will get around to notifying Florida power companies of the new costs of oil.

Once that happens, those costs will be passed on to consumers via their monthly electric bills.

And, Ford's imposition of a tariff also will begin pushing up the cost of gasoline by as much as a penny or more a gallon.

Both FPL, which serves customers in the Sanford area, and Florida Power, which for the most part provides electric current to South Seminole, have applied for rate increases.

Consumers here will be digging in their pockets next month for an extra \$2 to \$4 to pay electric bills as a result of interim rate hikes granted both firms.

FPL customers will pay about \$2.15 more a month, while Florida Power customers using an average 1,000 kilowatt hours per month will pay about \$3.23 more.

Both firms won interim rate relief totaling \$69 million for FPL and \$33.3 million for Florida Power. FPL has asked for a total \$143 million, and Florida Power has requested \$65.5 million.

The requests are pending before the Public Service Commission (PSC).

Mall Gets \$27.5 Million Loan

By MICKEY LOCHRIDGE
Herald Staff Writer

A Sanford titling agent yesterday closed a \$27.5 million mortgage financing arrangement, reportedly the largest title mortgage loan in Florida, for the Altamonte Mall in Altamonte Springs.

The Abstract Corporation, an agent for Lawyer's Title of Richmond, Va., closed the permanent mortgage deal through Massachusetts Mutual Life Insurance Co. in Springfield, Mass.

The loan is representative of the faith the insurance company has in the strength of Seminole County's economy during a time when loans for mortgages are reportedly hard to acquire, according to Tom McDonald, president of the local company.

"Massachusetts Mutual has faith in the economy and they have faith in the area," McDonald said today. "This is demonstrated by the loan."

McDonald went to Springfield, Mass., yesterday to assist in closing the deal with Massachusetts

Mutual and the officials of the Altamonte Mall Corporation.

The mall corporation is a joint venture of Homart Development Co., a subsidiary of Sears Roebuck and Co., and Altamonte Inc., a local company for DeHartelo Corporation.

McDonald placed the mortgage assignment on record this morning at the Seminole Courthouse.

"Normally, closings take place at the property, but the lenders wanted to have the closing in Springfield because the loan was so large," McDonald said.

"The loan is one of the largest ever recorded for a single developer, to my knowledge," McDonald said.

McDonald said although he did not know what the interest rate was on the loan, he said the interest cost was approximately \$8,000 to \$10,000 per day.

McDonald was assisted in arranging the loan by Perry Lane, vice-president of the Abstract Company.

The Abstract Company was selected by the Altamonte Corporation in 1972 to handle the title insurance for the construction mortgage for the mall.

A \$22 million dollar mortgage was assigned in 1973 through Connecticut General Life Insurance.

When the construction was completed the financing was assigned to Massachusetts Mutual and an additional \$5.5 million were added for the permanent mortgage.

Massachusetts Mutual will transfer the \$22 million to Connecticut General to "pay off" the construction mortgage and disburse the remaining \$5.5 million to the developers, according to McDonald.

"This pretty well does the financing of the mall," McDonald said. There are 120 leases on the individual shops in the mall with the developers.

"We don't know of anything in the State of Florida that is insured for this amount through title insurance," McDonald said.

Cities Offer Longwood Police Aid

By DONNA ESTES
Herald Staff Writer

LONGWOOD — Police chiefs of two new neighboring cities — John Govorukh of Winter Springs and Justus East of Altamonte Springs — today offered any assistance needed to this city's new acting public safety director.

Police Lt. James Pleicones, who took over the reins of the police department this week.

Problems with coverage may develop at a future time, he said, when vacation time arrives or if any of the officers become ill.

Pleicones was appointed to the acting public safety director slot in the wake of the resignation of former Police Chief Tom Hennigan and two officers, Sgt. Tom Ling and Patrolman Jordan Paddeck.

Pleicones, in an interview with The Herald this morning, said in spite of the resignations he foresees no lack in police coverage in the community of 5,500 and will be pulling a shift himself.

He has worked under three police chiefs and for the past eight months Pleicones has served as a lieutenant.

Pleicones said he was "extremely surprised" when Councilman Jerry Connell made the motion appointing him to the post. "I had talked to Councilman Connell on the telephone twice and saw him for the first time face to face at Monday night's council meeting," he said.

Pleicones is to celebrate his third anniversary with the force Friday and only one other man has more seniority than he does. He has worked under three police chiefs and for the past eight months Pleicones has served as a lieutenant.

Govorukh, who was one of Pleicones' superiors before Govorukh left the Longwood department for the Winter Springs police chief position, had high praise today for the 27-year-old officer.

"While we worked together, Jim was a very dedicated officer who tried to get all the schooling he could and put in quite a lot of overtime without seeking compensation," Govorukh said. He added that he and his department stand ready to give whatever help needed.

Chief East said, "We will give him anything he wants — everything from back-up help to administrative advice if he needs it," East said. "He need only ask."

Pleicones has not decided whether he will seek the chief's post on a permanent basis. He will be meeting with City Accountant Harold Hartcock for a budget review and make a report to council next week, as instructed, on budgets cuts in the department.

The Pleicones family including three-year-old James Jr.—J. J.—lives in Forest City.

Fanne's Charges Dismissed

By BOB LLOYD
Herald Staff Writer

Seminole County Court Judge Harold Johnson has dismissed indecent exposure and promoting an indecent show charges against stripper Fanne Foxe and Casselberry nightclub operator Michael Pinter.

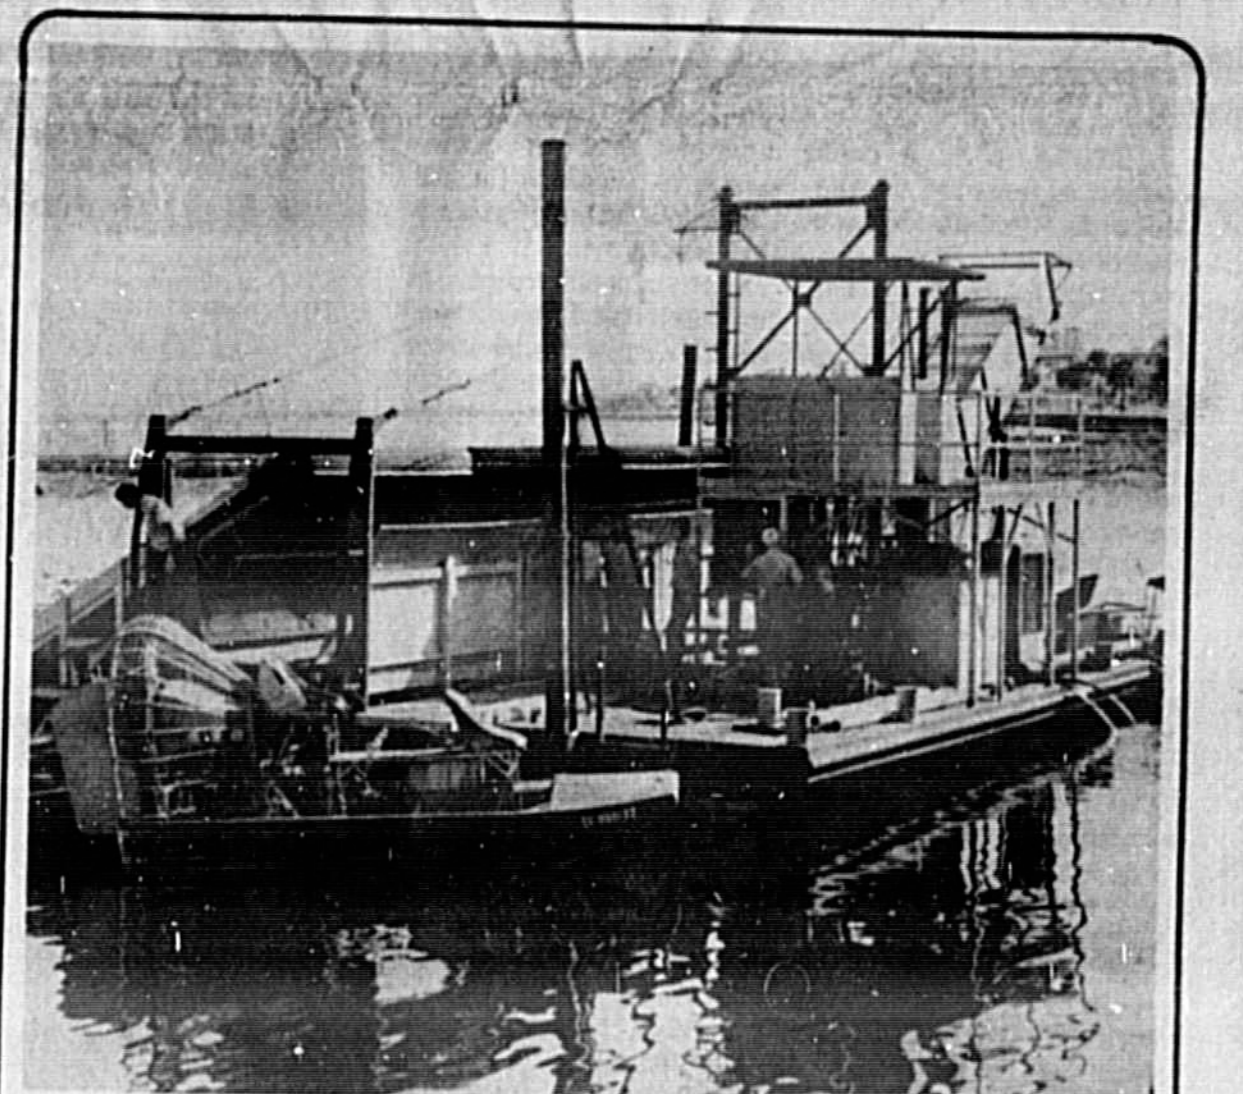

Johnson took the act yesterday in granting a defense motion by Orlando lawyer Edward Hanlon Jr.

The court noted that the U.S. Supreme Court has ruled nudity without obscenity isn't illegal. Johnson said Seminole-Brevard State Attorney Abbott Herring's office failed to present evidence that a "flash of nudity" when Miss Foxe appeared onstage in a full-length robe following her act Dec. 12 at Club Juana was an obscene or indecent show.

Johnson gave Assistant State Atty. Ralph

JAMES PLEICONES

MOVING DAY—OR IS IT?

The hyacinth harvester is stuck! The legendary plant-gobbling machine (above), renowned in Lake Monroe for its mammoth appetite for the pesky and often hazardous water weed, just stayed in one place too long.

When the time came to move it to waterboat to its permanent site near the Osteen Bridge yesterday, it was discovered that while the water level near the Lake Monroe harbor had gone down, so had the barge that harbored the harvester.

County Pollution Control Director Langley Adair (with perplexed look on the right) inspects the site.

According to Del Enga, local representative of the state Department of Natural Resources, there's another problem in the water. "Raw sewage from a city storm drain is pouring into the lake next to the Harvester," Enga said.

And that's a diet beyond even the realm of the harvester!
