Forest City P. O. Safe Stolen; Burglars Busy

Weekend activities of Seminole County burglars have resulted in the loss of a safe from the Forest City post office, theft of rifles from an Oviedo hardware store and loss of cash from two South Seminole homes. An undisclosed amount of cash was removed along with a small safe from the Forest City post office when burglars entered by pushing an air conditioner from the top of a door and climbing through the opening.

The break-in was discovered Sunday afternoon and county authorities were alerted along with federal agents to investigate the incident.

Between 12 and 15 rifles and two portable radios were removed from Nelson and Company, Oviedo hardware store, as intruders jimmied the front door. An attempt to open the company safe failed and the thieves were forced to leave with a file left in the steel frame.

A "cat burglar" of two homes removed \$300 from wallets and purses of the occupants who remained asleep while their clothes were ransacked.

Deputy Tony Coanogio reported two Flame Avenue homes in South Seminole's Hidden Estates area were entered and \$100 total from wallet and purse of Mr. and Mrs. Leo Giladett were removed while the couple slept.

The same procedure was also used in a nearby home of Mr. and Mrs. Marion Mulford where a total of \$40 was taken.

By JOHN A. SPOLSKI
 Gee, I hope there are more days like yesterday. For the first time in many-a-moon, I dared to get out the rusty golf clubs and went over to Mt. Dora. It's a beautiful, pleasantly good round, and the threatening clouds didn't unload until we had our 18 holes of play in.

Normally, that would have been enough to satisfy my pallet. But, there was more in store; the special VIP Party later that night at the soon-to-be-opened Seminole Turf Club in Casselberry.

MONDAY Headlines Inside THE HERALD

World News
 More than half way to their tantalizing target, Apollo 13's astronauts speed quietly through space, sprucing up and setting things right for a Tuesday rendezvous with the moon. (Page 5A)

The North Vietnamese keep up the pressure in the Central Highlands with attacks on two Special Forces camps. (Page 2A)

Around The Nation
 The nation's second largest school district tries to keep its 616 schools open despite an expected teachers' strike. (Page 2A)

Democrat Albert Gore of Tennessee and Ralph Yarborough of Texas may get the most heat because of their votes against G. Harold Carswell, but other senators up for re-election this year could feel a warm breeze or two. (Page 4B)

Cattlemen say they will furnish plenty of beef for expanding consumer appetites, but only if prices stay high and the government keeps its nose out. (Page 4B)

Statewide Developments
 Gov. Claude Kirk gives up control of Manatee County's schools and, yielding to a federal judge, says the U.S. Justice Department has agreed to help him seek modification in a desegregation plan. (Page 6A)

The State Racing Commission meets to consider allegations Hialeah, Tropical Park and Gulfstream have violated Florida election laws. (Page 6A)

Cattle are being turned loose to gobble up Florida's waterweed problems, and a University of Florida team says that, "after a year of feeding tests, even the cattle seem to think it's a good idea." (Page 6A)

WEATHER — Yesterday's high 82 low 64 with .01 inch of rain.

Partly cloudy today and Tuesday with a slight chance of showers this afternoon and evening. High today 80 to 85, low tonight 65 to 70.

Police Chief Feud Flares Up

Blow has yet to unveil any charges against Brumley, although he has submitted undisclosed charges in writing to city council chairman, Thomas Napier.

The feud between Blow and Brumley has been a major issue in the city since the mayor refused to reappoint the former Sanford police sergeant for another 12-month term in January.

All indications point to another council refusal of Blow's second nominee, Rufus Hamilton, a former Orange County sheriff's deputy.

In other action expected for tonight, council probably will request City At-

orney Kenneth McIntosh to draw an annexation ordinance, which would allow the city to annex north and south on Hwy. 17-92, and east and west on 222.

The action has been protested by several groups of citizens who reside on or near the highways in question. One group has promised court action if the city goes ahead with its proposed annexation plan.

The council will consider adoption of an ordinance to annex Patton Road and the north portion of Sunset Drive while also dealing with bids on Sunset Drive paving costs.

SEMIMOLE INDIAN motif dominates the new Seminole Turf Club. And so it was Sunday that Joe Dan O'Connell, president of the Seminole Tribe, cut the ribbon, formally opening the Osceola Terrace dining room at the club. From the left: John H. Leib, secretary; Gary Smith, president-general manager; Lewis Kelle, chairman of the board; O'Connell and his son (foreground) and James Berlin, treasurer.

Turf Club Plays Host To 2,000

By CHARNER LEONE
 CASSELBERRY — A multi-million-dollar facility was formally "baptized" by 2,000 well-wishers Sunday preparatory to the formal welcome by the Seminole Turf Club to the "sport of kings" on April 20.

Two thousand invited guests Sunday viewed the expanded horse racing oval and its new buildings, an investment of some \$4 million. The reception opened with cocktails at 5 and a buffet supper at 6.

The supper was served the overflow crowd in the general admission area before the clubhouse and in the new Osceola Terrace dining room. The terraced dining room, overlooking the racing oval, was formally dedicated Sunday by Joe Dan O'Connell, president of the Seminole Tribe.

Florida's Lt. Gov. Ray Osborne will formally dedicate the entire new Seminole Turf Club on April 20, when the track will open for a season of night-time thoroughbred running races.

Truck Falls 50 Feet Off Bridge Three Die In Car Mishaps

By BILL SCOTT
 Three area deaths were recorded during the weekend all resulting from car mishaps.

Two men were killed, one Friday noon and one early today in separate car-truck collisions and a man died Sunday when a jacked-up car fell on him.

Clifford A. Lilliquist, 64, Lake Monroe retired farmer, died Friday afternoon of injuries received when his car collided with a truck at the intersection of Upsilon Road and SR 46 west.

Florida Highway Patrol Troopers L. P. Thompkins and Jerry Hawthorne investigated the accident which involved an Atlantic Distributors truck operated by Glover Kirnes of Orlando.

Lilliquist was driving a late model car, which was demolished, after he crossed from Upsilon Road onto SR 46 and was struck by the truck heading west.

The impact knocked the car into the rear of a parked unoccupied Katter Farm labor bus, with the truck overturning.

Kirnes sustained cuts and bruises and complained of a pain in the side. He was treated at Seminole Memorial Hospital. Lilliquist died shortly after he was removed to Seminole Memorial Hospital.

Born in Hallock, Minn., Lilliquist was a Mason and had lived at Lake Monroe for three years.

He was a member of the Red River Lutheran Church and is survived by Edythe Lilliquist, his wife; two sons, Merle of Vero Beach and John of Bemidji, Minn.; two brothers and two sisters and one grandson.

Funeral services for Lilliquist will be held at Hallock, Minn., with Brison Funeral Home in charge of local arrangements.

Brady Hamit Drake Jr., 1271 Parker Avenue, Deltona, was killed at 6 a.m. today just over the Seminole County line in Volusia County, when his car parked on I-4 was struck in the rear by a truck driven by Larry C. Staring, 21, Warsaw, Ind.

The collision, which occurred on the south-bound lane, caused the truck to crash through the railing and plunge 50 feet to the base of the road near the St. Johns River, where it landed cab side up.

Staring was removed to Seminole Memorial Hospital in "poor" condition suffering from cuts, bruises and broken bones.

Trooper Glenn Althafer, homicide investigator, said the truck belonged to the Barefoot Trucking Company of Fayetteville, N.C.

A 51-year-old man died Sunday when a car fell off the jack and crushed him at his home at 2323 W. 18th Street. Ozell Vickers was pronounced dead on arrival at Seminole Memorial Hospital. In a mishap that happened just outside Sanford city limits.

Rezoning Approved

Seminole county commissioners have approved rezoning south of SR 436 from R-3 to C-2, with Chairman John Alexander casting the only dissenting vote. Tom Shutz, representing the petitioner Laurel Homes, told the commission that the concern was negotiating with Goodyear Tire Company for a store at the site. He continued that Goodyear did not want to be tied to the shopping center which his concern is building in the area. He further stated that the company "needs exposure" on SR 436 and that the abutting property was zoned commercial. Alexander contended that he was not willing to increase the commercial zoning to that which already exists.

A request by Malcolm Clayson to rezone from A-1 to A-1.1 property east of Oxford Road and north of English Estates was continued as the petitioner's request to obtain additional information. The continued hearing was scheduled for April 21.

CATV Will Be Aired Tonight

Community antenna television (CATV) will be discussed tonight at the Sanford City Council meeting. Commission two weeks ago indicated a decision awarding the franchise to one of four firms submitting proposals was made at the April 25 session.

Tonight's session is expected to deal with other information concerning the awarding of the franchise, and one or more officials from a CATV firm is expected to be on hand for the meeting.

A representative from an oil company owning property in the so-called "tank farm" area of city is also expected to attend tonight's meeting and offer a request to stop the rezoning of the area located near Lake Monroe and behind the city hall and jail.

City is expected to approve second and final reading of the ordinance to rezone the area from industrial to commercial tonight. An appeal from a ruling of the Zoning and Planning Commission is also on the agenda for commission action.

Another zoning recommendation on newly annexed areas.

2 GIs, 25 S. Viets Killed Red Offensive In 13th Day

By GEORGE FISHER
SAIGON (AP) — North Vietnamese attacks in the Central Highlands and the northern quarter of South Vietnam killed two more Americans and 25 South Vietnamese as the enemy moved into its 13th day, military spokesmen announced today.

Another 13 Americans and 17 South Vietnamese were wounded.

Enemy gunners also shot down four U.S. helicopters in widely reported raids of the country, killing two more Americans and wounding seven others.

According to captured documents, the Communists had

commanded a referring to the offensive as the X Campaign, and plans to continue it in various phases until June. Informed sources said they didn't know why the Communists chose that name.

Other captured documents disclosed that the North Vietnamese and Viet Cong forces had been ordered to make an all-out effort to disrupt the South Vietnamese government's pacification program, one source reported.

The worst North Vietnamese assault reported today, apparently a revenge attack, hit a camp housing the families of 2,000 South Vietnamese who had been sent to the defense of

Engineers Are Needed In Florida; Osborne

By LIZ MATHIEUX
Tallahassee, Fla. — Gov. Ray Osborne spoke at a meeting of Central Florida chapter, American Institute of Industrial Engineers, representing six counties, and engineering students at Florida Technological University.

He fervently stressed that he might have to leave in the middle of his talk due to the school situation in Manatee County to take his money to the Governor.

Temporarily turning from the subject of his talk on the

Shells Hit 2 Towns

By JOHN VINCIGR
PHNOM PENH, Cambodia (AP) — Viet Cong and North Vietnamese troops made new attacks Sunday on two towns along Highway One near the South Vietnamese border, Radio Phnom Penh said today.

The broadcasts reported an attack on Preasut, the fourth in the past week, and another on Kompong Trabek, 35 miles to the west, which has been the scene of fighting in the last two days.

Military sources reported earlier that the Cambodian troops had withdrawn to a point just west of Preasut after fighting Saturday night. The Viet Cong then were reported on three sides of the town but had not entered it.

The Cambodian government has concentrated most of its forces in the area in Svay Rieng, the provincial capital at most midway between Preasut and Kompong Trabek on Highway One. Refugees also have been flooding into the town.

Radio Phnom Penh reported attacks in two other areas west and northeast of Svay Rieng—where the Viet Cong and North Vietnamese forces have moved freely back and forth across the border.

The broadcast said one small town, another outpost at Snuol, in eastern Cambodia also has been flooding into the town.

Schools To Operate In Spite Of Strike

LOS ANGELES (AP) — The nation's second largest school system sought to keep running in spite of an expected teachers' strike today.

Supr. Robert Kelly said he would keep all possible classes in the 612 schools open with non-striking, 2,000 substitute teachers and supervisors.

Robert Ransom, president of the United Teachers of Los Angeles, the union representing 20,000 of the district's 20,000 teachers, asked Kelly to close the schools.

"Poor education is worth less than no education at all," Ransom told newsmen Sunday. "It is better to close down the system and hope the public comes to its mind. My hope is that the parents and taxpayers will rally behind the UTLA to pressure the state legislature to give the district more money until the demands for more pay, smaller classes, class aides and such improvements as carpeting, air conditioning and heating have moved freely back and forth across the border."

The broadcast said one small town, another outpost at Snuol, in eastern Cambodia also has been flooding into the town.

3 Peace Groups Planning Protests

By MARTHA COLE
Associated Press Writer
WASHINGTON (AP) — While millions of Americans grumble quietly about paying income taxes, three peace groups are planning protests this week against using the tax money for war.

Starting today with a fast, including a "non-dinner" scheduled at Lafayette Park across from the White House, protesters say they will picket before Wednesday's midnight deadline for filing tax returns.

"Federal statutes say forced taxing is illegal and this is a real situation to get forced to pay taxes in the Supreme Court," Osborne told the group that about 30 million is spent on promoting Florida to industry outside the state. Florida is the fastest growing section in the state he told the group, but 30 years behind in road construction if "we started right now."

"There is no place in the world with more opportunities for industrial engineers than the state of Florida, and there is no place for good industrial engineers here."

The industrial governor was introduced by Thomas Korman, dean of the college of engineering and technology. He was presented with the gift of a commemorative, three-page, 100-word brochure by William Crowder.

New Auto As Cheap As Old Bus

By G. DAVID WALLACE
Associated Press Writer
WASHINGTON (AP) — Government economists say most automobiles cost as much as well off buying a new car every two years as they are trying to keep the old bus running.

"Assuming a normal amount of driving, keeping a car after it is two years old does save some money, but not very much," said a report by the Federal Highway Administration.

"The decision to trade in a car or keep it a while longer should be based on the owner's tastes and circumstances, rather than on any thought of increasing or decreasing the cost-per-mile owning and operating costs. As far as economy is concerned, he can make the decision with a clear conscience."

The report showed the cost of keeping a car for 10 years has increased from 12.1 cents a mile about a year ago to 11.9 cents to take this year.

The study found a big increase in insurance costs, which jumped from 1.4 cents a mile to 1.7 cents a mile, despite inclusion of less extensive coverage in this year's computations.

In a year-over-year breakdown of the cost of keeping a car—depreciating its purchase price over 10 years—the study found the first year cost 14.2 cents a mile and the second 11.7 cents. The cost rises for the next two years to 12.4 cents a mile then gradually drops off to 10.8 cents a mile by the 10th year.

Boy Commandos

They're just youngsters but dressed in Al Fatah camouflage uniforms, they take commando training seriously. The Arab boys are from a Jordan refugee camp housing more than 65,000 Palestinians made homeless by the Arab-Israeli war of 1967.

Israeli Warplanes Raid Military Targets In Egypt

By MARCUS ELIASON
Associated Press Writer
TEL AVIV (AP) — Israeli warplanes raided the Nile Delta today for the first time in five days, hitting an area southwest of Cairo and another in the northeast part of the delta, the Israeli command also reported that one of its soldiers was killed in an artillery exchange between Egyptian and Israeli forces in the southern sector of the Suez Canal.

A spokesman said all planes returned safely after hitting military targets about 25 miles southwest of Cairo and at El Mansala 12 miles southwest of Port Said.

Israel's air force had not been beyond the Suez Canal since last Wednesday, when Egyptian warplanes were killed in a raid on a village in the north-

Forestry Bill To Be Outlined

By MARION BETHA
District Forester Drew Mills will discuss a proposed bill in the state legislature which will increase the appropriations by counties to support the forestry program, before tomorrow's meeting, Seminoole county commissioners. The appropriations, with regard to Seminoole County would mean an increase of from three cents per acre of woodland to 17 cents per acre. Overall increase in the county is from \$4.00 to \$22.00.

Should Check
CHICAGO, Ill. (AP) — Taxpayers should look at other tax items they pay before filing federal income tax returns.

Commerce Clearing House, a national tax authority, said when the taxes that are paid are added to other allowable deductions, the amount can make a difference in tax savings.

One public hearing is scheduled, and this elicited a humorous note when first presented. The request is for a special occasion to pass a trailer in a C-2 commercial case on property.

Substances Affected Unknown U. S. Revoking Food Additives

By G. DAVID WALLACE
Associated Press Writer
WASHINGTON (AP) — The Food and Drug Administration has announced it is revoking the use of possibly thousands of food additives previously cleared under informal sanctioning procedures.

These procedures were so informal officials aren't even sure how many or what substances may be affected by the revocation. A spokesman said FDA specialists have estimated as few as 1,000 or as many as 10,000 chemicals, spices and other additives might be involved.

Some of the chemicals may be already permitted under the more formal "Generally Recognized as Safe"—GRAS—list or separate regulations. Officials say they don't know of any specific additives included in the revocation which are not already formally cleared.

"But it's a pretty safe bet there are some out there we don't know about," said an FDA spokesman.

The action comes on the heels of a report directed by Ralph Nader accusing the Food and Drug Administration of being lax in additive clearance that the nation's health is endangered.

The FDA directive, published in Thursday's Federal Register, was dated April 2, however, six days before the Nader report was released.

The procedures under which the additives affected by the revocation were approved are called prior sanctions and status reports. A spokesman explained that for the 20 years prior to passage of pure food amendments in 1958, food processors notified the FDA they wished to use certain additives in food or in packages which would come in contact with the food.

The FDA, if it felt the additive was safe, wrote a letter permitting its use.

Now the agency has advised processors in possession of the letters that if the additive is not on the GRAS list or included in regulations, their use must cease until the manufacturers submit new data.

A spokesman said the agency will depend on its plant inspectors to detect the use of any chemicals not on the GRAS list or covered under regulations.

"What effect the action will have on the use of additives won't be clear until agency officials find out what's being used," the GRAS list, described as a "never-never land for regulation" by one FDA official, is targeted for review as a result of limited ban on cyclamates, which spent 17 years on the list. Presently a manufacturer may add a substance to the list on his own initiative.

Welfare Kids Fend For Selves

By CRAIG A. PALMER
WASHINGTON (UPI) — Nearly 15 per cent of working welfare mothers let their children fend for themselves while they are on the job, says a new government study.

The survey of aid to families with dependent children (AFDC) was the government's first nationwide analysis of the welfare target.

The survey of aid to families with dependent children (AFDC) was the government's first nationwide analysis of the welfare target.

The survey of aid to families with dependent children (AFDC) was the government's first nationwide analysis of the welfare target.

Editorial Comment

News Evaluation Becomes Prime Reader Duty

In times like these it is not enough just to read newspapers. The much more important and more challenging and much more difficult task is the evaluation of news.

Let us hasten to emphasize that this conclusion is not the product of any lower rating of the necessity to read, watch and listen to what is printed, pictured or said.

Other factor to test the new Nixon policy in that section of the world. But this development, to be useful for voters to assess, must be placed in the overall framework of what President Nixon has promised and what has been done in the war which brought about the downfall of his predecessor in the White House.

Repercussions from the U.S. Senate's decision to consent to the nomination of G. Harold Carswell of Tallahassee to the Supreme Court has run the gamut of the mild and helpful reaction of Judge Carswell himself to the extraordinary (for anyone else) performance of Mrs. (Attorney General) John N. Mitchell in denouncing Senator A. William Fulbright (D) of Arkansas and demanding that he be crucified for opposing Carswell's nomination.

Inflation Control

If anybody has thought that Senator Edward M. (Ted) Kennedy (D) Massachusetts has taken his ear from the ground to catch voter opinion a recent speech should dispel it.

But it is to point out that in the flood of events which has started early and will continue to mount as the 1970s roll along, loss of perspective could warp public judgment.

This past week is very much a case in point. On the international scene there has been the renewed strength of the enemy's attacks in Vietnam and the consequent rise in American casualties.

Laos and Cambodia have added the vocabulary of the dangers in Southeast Asia and have added another factor to test the new Nixon policy in that section of the world.

"Maybe if We Put Bigger Wheels on It..."

Washington Window

McCormack Sits Solid - Firm

WASHINGTON (UPI)—Rep. Morris K. Udall, D-Ariz., who unceremoniously challenged Speaker John W. McCormack last year, predicts the veteran House leader will seek and probably win the post again next January despite growing opposition by younger members.

However, Udall said, pressures for reform in the House structure are so strong that some change may be made in the seniority system—possibly by putting an age limitation of 70 on committee chairmen.

Seniors Support Increased Exemptions

Editor, Herald: Here in Broward County, we have a very large number of seniors who are in a position to sign a petition asking for \$10,000 Homestead Exemption for those 65 and over to provide County's Tabes D'Alema who is chairman of the Ad Valorem Taxation Committee.

with limited means of this needed relief. Senior citizens have scrimped and scraped to save dollars that are now worth only 20 cents. In the last five years alone the assessment on our homes has doubled raising our taxes as much as 100%.

Editor, Herald: The saddest thing about this abortion bill is the mess that's being made by the Christian community also under siege.

Some More Thanks Editor, Herald: We would like to thank you for publishing items and pictures of Seminole County Chapter Order of DeMolay. The county can be proud of these young men. We appreciate the help hand given by many of the Sanford business people.

Kirk Bows Out; Declares:

U. S. To Help In Manatee

BRADENTON, Fla. (AP)—Gov. Claude Kirk, after delaying court action that brought the threat of a \$10,000 fine a day until he stopped blocking desegregation by busing.

The governor said he was ending his personal role of schools in Manatee, a Gulf coast county just south of Tampa, because the U.S. Justice Department had agreed to help him get

DRIVER of the car (above) Brady H. Drake Jr., of Deltona, was killed early today when a semi (below) operated by Larry C. Starling, 21, Warsaw, Indiana, struck the parked vehicle on I-4 just inside Volusia County near the St. Johns River. Resulting impact caused the semi to fall 50 feet after crashing through the railing. Drake was pronounced dead on arrival at Seminole Memorial Hospital and Starling is listed in "poor" condition, according to Glenn Althafer of Florida State Patrol. (Steff Photo)

"Candid Chatter"

By DORIS WILLIAMS Society Editor

With brides, brides-elect, graduates and Spring balls in the limelight... the question of fashion is always foremost in miltady's mind.

With an eye towards something different for entertainment while raising funds for Mental Health and the Youth Shelter, the woman's Auxiliary of Seminole County Medical Society emerged a winner.

Twenty students will show the latest fashions in a "Miss America" background... complete with runway... flashing spotlights and shimmering satins and brocades.

In addition to an exciting and fast-paced show, a variety of door prizes will be awarded during the evening.

ABBIE OWEN, general chairman of the Annual Spring Flower Show of The Garden Club of Sanford, Inc., planned for April 24-26 is shown working on a dry arrangement using clipped palmatoes, sea coral, artichoke and twisted vine.

"Five Thousand Years of Fashion... Spectacular Show Coming"

Seas or even the beach... she got it while shaping-up on the tennis court... and looks great... the tan and the shape.

While bouquets are being passed, here's another to MRS. A. CHAPMAN (nee SHEDDEN) LENE SHEPARD, daughter of MARGORIE and JOHN SHEPARD of Sanford.

KENNETH BLEVINS, a Sanfordite now stationed in Vietnam, and some of his friends are now caring for some orphans there and need children's clothing and other items for their project.

If anyone would like to donate clothing for the worthwhile cause, please contact MRS. H. V. BUCKNER, 322-3020, and she will arrange to have it picked up.

THE BIG 5 MEANS MORE MONEY NOW!

5% GOLDEN PASSBOOK Compounded Daily. Yields 5.13% at 1 yr.

5 1/2% 1 YEAR SINGLE MATURITY C. D. Compounded Daily. Yields 5.65% at 1 yr.

5 3/4% 2-10 YEAR CERTIFICATES Compounded Daily. Yields 5.92% at 1 yr.

Dear Abby:

By Abigail Van Buren

DEAR ABBY: My fiancée wants to be fully prepared for marriage so she is trying to get all the information she can beforehand. She has stacks of books on the subject, and she runs to every magazine there is to get more information. I try to tell him that Adam and Eve didn't have any lessons and they managed, but he says so many marriages fail because of bungling and wrong technique that he is fearful.

DEAR ABBY: Our first baby I'll call her "Pamela" was born so hopefully retarded she had to be placed in an institution. We visited her a few times, but she didn't know us anyway, so we just quit going. After a while we just put Pamela and everything about her out of our minds. At least we tried to re-examine your thinking, Mother. Retarded children are neither uncommon nor "disgraceful." They appear in the best of families. I suggest that you tell your children about Pamela. And the sooner the better.

Jacoby On Bridge

Mr. Hugh, born in Yorkers, N.Y., is a 1965 graduate of Robinson High School Tampa. He was graduated from University of Florida in 1969 with a Bachelor of Science Degree in Business Administration, and was also a member of Florida Swim Team and of the Letterman's Club. He is presently a Second Lieutenant in U. S. Air Force and will attend Flight School at Big Spring, Texas.

Dade's Pollution Juicy

By LEE MUELLER

MIAMI (NEA) — Ecology seems to have run the gamut as far as garbage is concerned. From the smelly skull of a poisoned heifer in Texas to belching smokestacks in Newark, all manners of pollution appear now exposed.

"This, having exhausted their supply of soon-solden affidavits, environment-minded citizens are seeking new methods of showing concern.

Witness what is happening in Miami, Fla. If you will, skies here are clear and blue, beaches clean and white, streets almost autogenic. According to a recent survey by the Department of Health, Education and Welfare, Miami is the country's cleanest city among places with populations of 50,000 or more.

You'd never know this to read the community's two news papers.

"Dade County is FILTHY," barks an editorial cartoon in the Miami News. "Do Something About POLLUTION." The paper runs stories and pictures about pollution nearly every day.

Meanwhile, the Miami Herald carries on with equal fervor. A feature called "Polluter of the Day" includes a picture of the offender in action and also contains the offender's telephone number—in case some indignant citizen might wish to complain personally.

A man reads the newspaper, looks around at the swaying palm trees on Biscayne Boulevard and wonders what all the fuss is about. Pollution? What pollution?

The News' managing editor, Howard Kleinberg, is a transplanted New Yorker who has lived in Miami for 30 years. He knows pollution when he sees it... which he doesn't, yet.

"Miami's got to be kept clean for tourists," he said. "You've got to be able to eat off our sidewalks. We're dependent on clean water and clean air. If you can't swim in our water or breathe our air, what the hell good are those 300 hotels over there on the beach?"

The handy thing about ecology, obviously, is that you don't really need an environmental problem to have an environmental problem.

Miami is a very pollution-conscious community. This is not an understatement. Although the city contains only one bona fide contaminated product—the waste-filled Miami River—any source that spews anything besides sunshine is treated not lightly.

There are, for example, only three smokestacks in all of Dade County. The newspapers' crusade already has shut down one and is working on the others—at least one of which is an incinerator.

Herein lies the crusaders' toughest problem. Nobody likes the incinerator but nobody has come up with an alternative means for getting rid of garbage.

"There are only three ways to get rid of garbage and we don't like any of them," said Kleinberg, smothering a grin. "You can't burn it in the incinerator because that pollutes the air. You can't bury it because we don't want you digging holes in our land. And, certainly, you can't take it out to sea and dump it because that would be polluting our waters."

If ask you: What are we going to do with this garbage? Put it in a box and mail it to someone?

Recently, a thin wisp of smog was spotted lurking around the Miami—the second time in a year. It was duly reported in the press, of course, along with information that smog can cause asthma, chronic pulmonary disease and lung cancer.

To date, citizens have reacted favorably to the newspapers' prodding. The annual King Orange Parade has been renamed the Dead Orange Parade. A student group is sponsoring pollution parade this month.

In the meantime, Kleinberg recalls his youthful days in the Bronx and Chicago.

"Pollution is pretty much out of control in places like New York and Pittsburgh," he said, "but if we move and move fast, we may be able to stop it here. It's not too late for us."

RESTAURANT-CLUB-LOUNGE ATLANTA, GEORGIA

Blind Cooks Find Learning Exciting

By EDITH M. LEDERER
Associated Press Writer
ALBANY, Calif. — (AP) — Rosemarie Cragley suffered her terrible hand sprain, hand twisted, daily by millions of women. But for them there was a difference; each is blind.

Dorothy Daniels bent over an electric stove, counted four blobs of glue on the temperature dial and exclaimed: "I've got it—350 degrees."

Linda Havens hated her right hand hesitantly in the air until she touched the edge of her

casarole dish. "There it is!" she declared.

Those three young women were cooking lunch—a task performed daily by millions of women. But for them there was a difference; each is blind.

Since 1964, the Orientation Center for the Blind, a state-run school, has been teaching blind and partially sighted men and women to cook by touch—some with gourmet results.

Instructor Jane Tester says there are many difficulties, such as learning to handle hot pots and pans, finding the right ingredients and measuring them properly, and knowing when a dish is finished.

Some sugar cookies have turned out a little salty and some hamburgers have been a little too well done, Mrs. Tester said in an interview, but anyone who takes the course for four to six months can learn to cook.

At the end of the course each student cooks a complete meal for eight persons with food the student has purchased in a supermarket.

While shopping, Mrs. Tester said, blind people must rely on store employees, otherwise they may end up with canned peas instead of canned peas.

In the center's kitchen, the cans, drawers, shelves, pans and measuring cups are labeled in braille. Dials on the oven are marked with blobs of glue every 50 degrees starting at 350 degrees.

SANFORD HERALD SPORTS

Sets the Seminole Co. Pace

Kearse's Greatest Honor

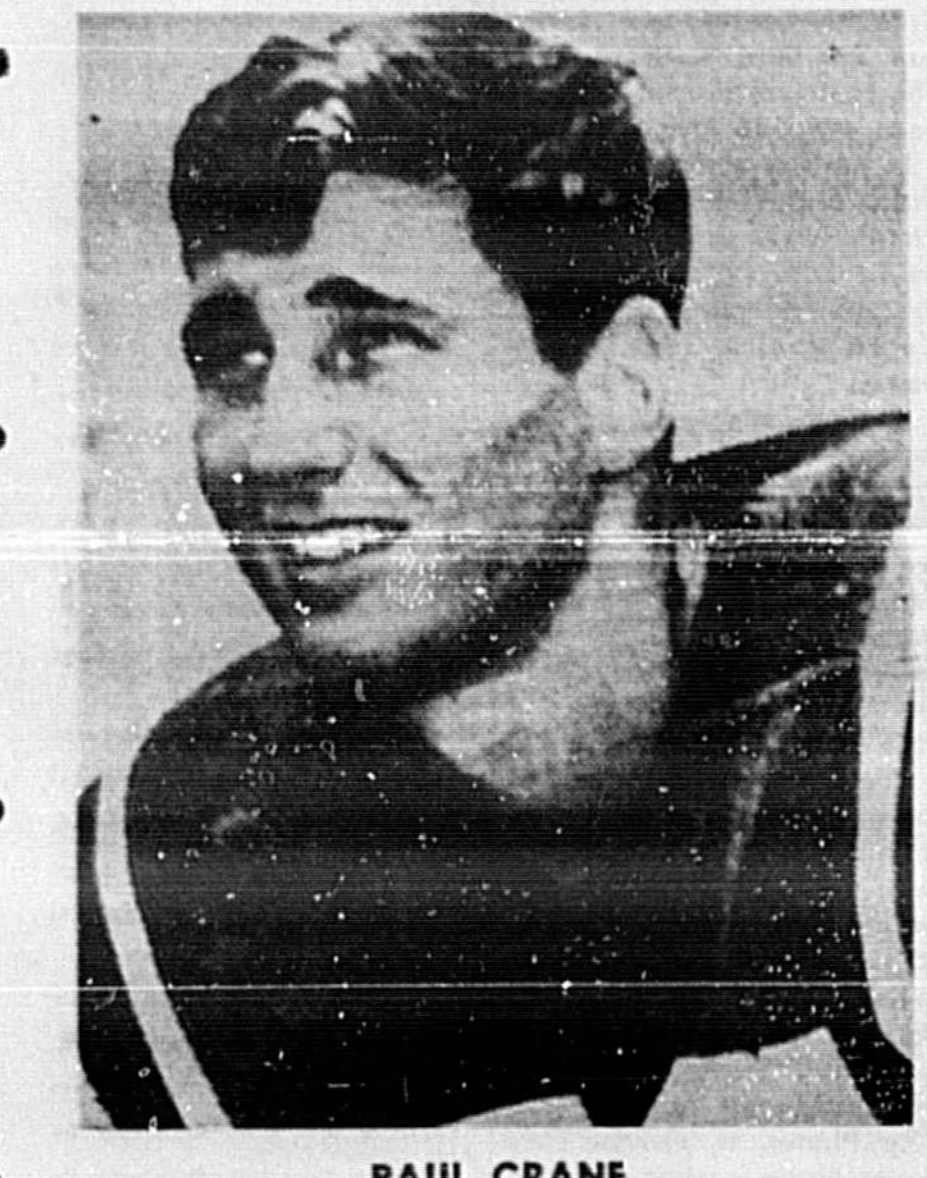

Big 6-foot-3, 180 pound Larry Kearse received his greatest basketball honor Friday when the Seminole High senior was named the honorable mention list of the Sunbelt Coach and Athlete Prep All-American Basketball selections.

The Prep All-American first team was without a Floridian with four from the Sunshine State being named All-American. Nineteen players from the state received honorable mention selections, with only three from Central Florida being recognized.

Today Kearse is expected to sign with the Seminole Junior College Raiders and coach Joe Sterling. Bill Corso, who also played with Seminole High, is also expected to go to Seminole.

Bob McCree of Evans High in Orlando and Malcolm Meeks of Daytona Beach Mainland were also selected to the honorable mention list. Big Otis Johnson, center for Martin County High in Stuart also received an honorable mention listing. The Martin County Tigers dropped the Seminoles in the finals of the Region II Class A Playoffs, though Kearse did an excellent job defending Johnson.

Kearse set all kinds of school records for scoring and rebounding in his senior year. His outstanding single game performance came in the last regular season game as he scored 42 points against Merritt Island.

Jet's Paul Crane Featured Speaker At FCA Banquet

The Seminole High Chapter of the Fellowship of Christian Athletes will hold its annual Banquet tomorrow night at the Sanford Civic Center at 7 p.m. Paul Crane, linebacker for the New York Jets will be the guest speaker.

Middies Slump

Florida Central Academy scored four runs in the top of the seventh to slide by the Sanford Naval Academy Middies 9-5 at the SNA field Saturday.

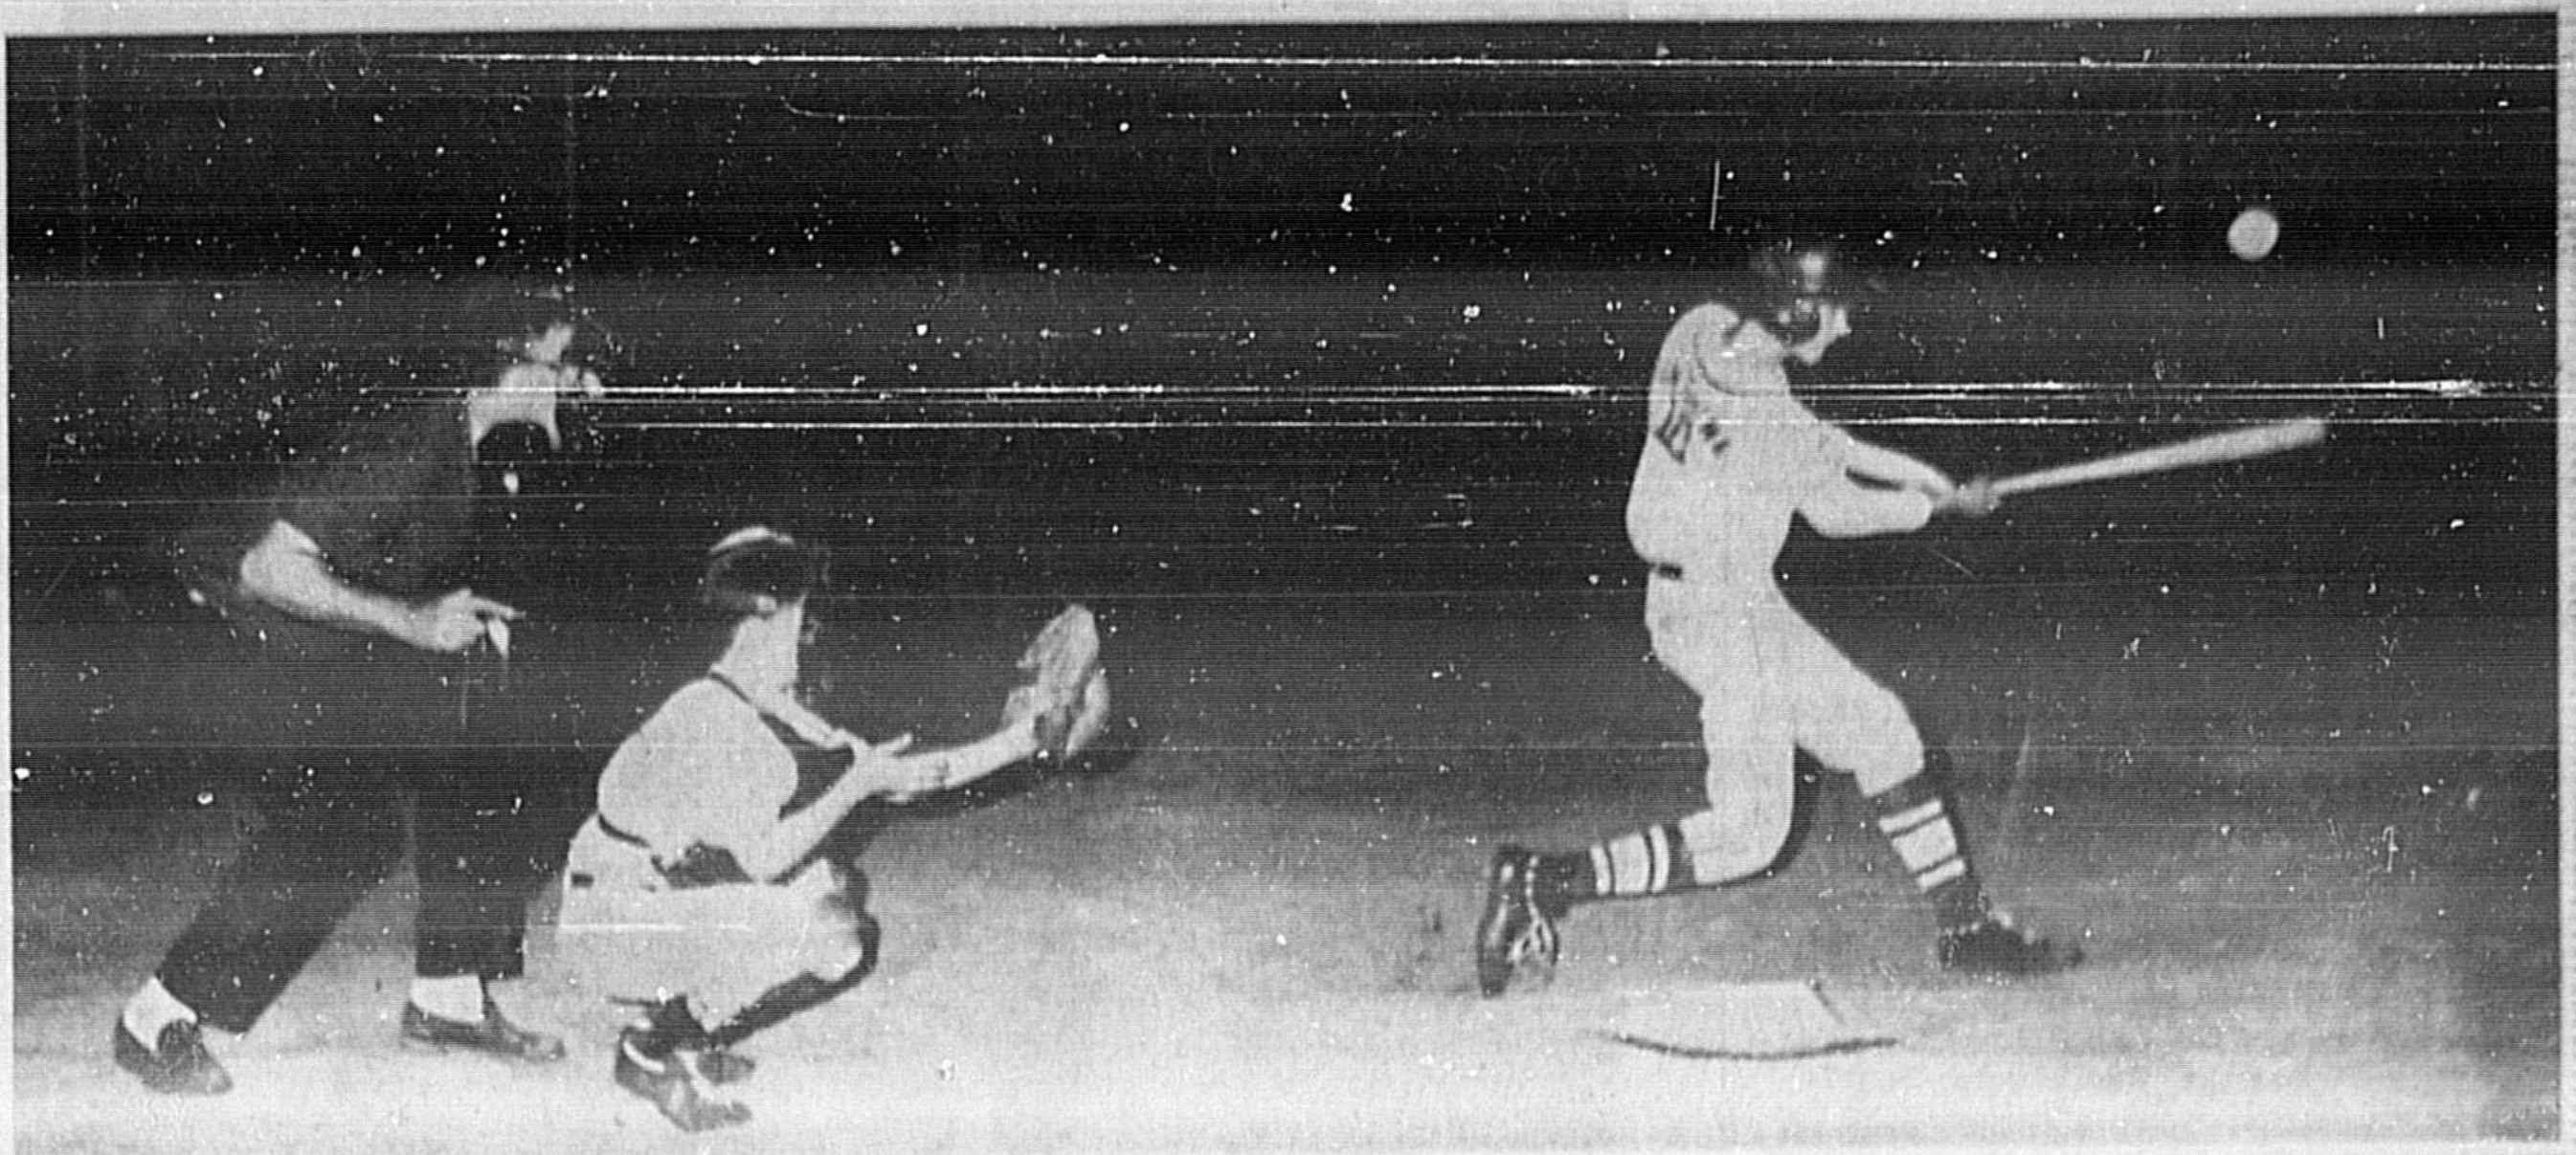

Bill Horne started for the Blue and Gold and was touched for five runs in the first but about the Red Devils out until the seventh, while the Middies rallied for five runs.

The Middies are led at the bat by Horne, Richard Anderson and Richard Plapp, all hitting above the 300 clip. Anderson is pacing the team with his .36 average.

The Middle face Howey Azar today at 3:30 p.m. at the SNA field. Anderson is slated to toss for the Blue and Gold.

San Diego State's football team led the nation in total offense during 1969 with 61 touchdowns and a 501.1 yard average per game.

The 1971 USGA Women's Amateur golf championship will be held at the Atlanta, Ga., Country Club.

UNLEASHING A MIGHTY BURST OF POWER THIS BATTER CONNECTS THE action is always fast and furious at the Seminole Little League Park. This shot was captured during Pony League action at the park Saturday night. Pony League is for boys 13-14. Colt League action begins May 1 for boys 15-16. Action gets underway in Sanford tonight at Pinehurst Park.

Turf Club-Minus 7 And Counting

CASSELLBERRY — Facilities of the Seminole Turf Club, which opens a 90-night thoroughbred racing here April 20, will be among the most modern in racing, according to Gary Smith, president and general manager.

Steve Shamaker, suffering from a rib injury, started the game and lasted only 1/3 inning. The first two batters doubled and the next man singled. Before the inning was out Bobby Sherman was on the mound. It was a four-run first for Polk and things were looking dim.

The Raiders bounced back with two runs in the bottom of the inning on the power of a Mike Ferrell home run. But after a scoreless second, Polk scored twice more in the third. In the bottom of the inning, Skip Senke slammed a triple and the Raiders scored three runs to bring them up to a 6-3 deficit.

Polk scored two more in the sixth and things looked even dimmer for the Raiders' side. The four-run eighth all but finished the Raiders. They fought desperately though, scoring two in the eighth and two more in the ninth.

Five pitchers were on the mound for Seminole during the game, but it didn't help the Raiders. The two teams were evenly matched in the hits columns with 12 each. The big difference was errors. Whereas Polk only committed one, the Raiders fumbled the ball eight times, and committed several other mental errors.

It was a day the Raiders would like to forget about. They have a rough week ahead of them as the close of the 1970 baseball season draws near. This week they are faced with three double headers. Tomorrow they meet Central Florida Junior College with the first game set for 1 p.m.

The big games are Thursday when St. John's comes to town, leading the race in Division II. The Raiders have only two Division II losses, with both of them coming at the hands of St. John's.

These are MUST games for the Raiders, who hope to compete in the state tournament. A twin-bill sweep could send the championship play-off.

The Raiders travel for the last time this season, outside of tournament play, this Saturday when they are at Madison for two games with North Florida Junior College.

Polk Bounces Seminole JC

By GARY TAYLOR
Herald Sports Writer

Some days nothing goes right. That was the case for the Seminole Junior College Raiders Saturday when they fell to Polk Junior College 12-6 for the second straight loss.

The back-breaker came in the eighth inning when the Raiders committed four errors and allowed the Polk nine to score four more runs.

Steve Shamaker, suffering from a rib injury, started the game and lasted only 1/3 inning. The first two batters doubled and the next man singled. Before the inning was out Bobby Sherman was on the mound. It was a four-run first for Polk and things were looking dim.

The Raiders bounced back with two runs in the bottom of the inning on the power of a Mike Ferrell home run. But after a scoreless second, Polk scored twice more in the third. In the bottom of the inning, Skip Senke slammed a triple and the Raiders scored three runs to bring them up to a 6-3 deficit.

Polk scored two more in the sixth and things looked even dimmer for the Raiders' side. The four-run eighth all but finished the Raiders. They fought desperately though, scoring two in the eighth and two more in the ninth.

Five pitchers were on the mound for Seminole during the game, but it didn't help the Raiders. The two teams were evenly matched in the hits columns with 12 each. The big difference was errors. Whereas Polk only committed one, the Raiders fumbled the ball eight times, and committed several other mental errors.

It was a day the Raiders would like to forget about. They have a rough week ahead of them as the close of the 1970 baseball season draws near. This week they are faced with three double headers. Tomorrow they meet Central Florida Junior College with the first game set for 1 p.m.

By THE ASSOCIATED PRESS

BAYTING, Alan (UPI) — Harry Lancaster, athletic director at the University of Kentucky, will have his right leg amputated within a few days, his physician said Wednesday.

Lancaster, 59, has been hospitalized for three weeks since he sustained a blood clot in his leg from a bathtub fall at a motel in College Park, Md. where he was attending the NCAA basketball finals.

Lyman Five Practicing

This evening in the Lyman High School gym, young coach Jim Hatfield will begin spring practice for his 1970-71 basketball squad. All sophomores and juniors interested in playing basketball have been urged to attend.

The spring training session will last for approximately three weeks after which the Greyhounds will participate in a summer league which plays two games per week throughout the summer.

Hatfield is hopeful of getting this young team together for the summer, so that next year's Lyman Greyhounds will begin their Metro Conference record on a good note.

Carwell's Foes 'Feeling the Heat'

By H. J. SCHWARTZ III
Associated Press Writer
WASHINGTON (AP) — Democrats Albert Gore of Tennessee and Ralph Yarborough of Oregon may get the most heat because of their votes against Judge Carwell and his supporters.

Carwell's record looks bad... He was not Tennessee politician... Among those who could be troubled by the Carwell affair... "By November, Carwell will remember who the hell Carwell was," he said, "and he will not be quoted by name."

Douglas' Critics Ready To Move

WASHINGTON (UPI) — Critics of Supreme Court Justice William O. Douglas just moved against the 70-year-old jurist sometime this week. They may demand impeachment against Douglas as a pre-impachment investigation.

Douglas has come under renewed criticism for his recent book "Points of Rebellion," in which he stated "violence may be the only effective response in dealing with the so-called establishments." He has been under attack for several years for his court opinions on obscenity, and more recently, for his former ties with a charitable foundation that drew financial support from Las Vegas gambling interests.

'More Study' For Predicted Beef Shortages

By JIM ADAMS
Associated Press Writer
WASHINGTON (AP) — A House committee has sent back for more study a congressional report calling for an investigation to head off serious beef shortages predicted in the United States in five years.

The House Government Operations Committee rejected and sent the report back to its special studies subcommittee on a recommendational motion by Rep. Charles W. Stenholm, a former cattleman.

The cattle industry sharply opposed the report. The committee's action, taken by vote 17-11, was a rebuff to the industry.

'71 School Calendar Adopted

A 1970-71 school term calendar was adopted by the School Board during a regular meeting. School will start Aug. 31 and end June 4, 1971, according to the calendar.

Pre-school planning for teachers will start Aug. 18 and post school planning June 7, 1971, according to the calendar.

Other holidays include Nov. 26-27 for Thanksgiving; winter vacation, Dec. 18 to Jan. 4, 1971. Students will receive spring vacation April 12-13.

Board also approved priority construction of middle and elementary schools on Sand Lake Road in South Seminole.

A recommendation by Supt. John Angel to include a new administrative office to be constructed on a site across from the Sanford Junior High School was tabled.

Lakers Plan Beach Picnic

The Great Lakes Club of Deltona plans to hold a beach picnic Wednesday, April 22, at the Sun-Glow Pier on Daytona Beach.

Sunbathing, games, swimming and fishing off the pier are part of the program. Bring your lunch. Soft drinks will be provided.

Picnickers will meet in the Plaza parking lot in front of Neisner, ready to go at 9 a.m. Contact: Earl Langworthy, 668-6416 for further information.

Is No Castle

DENVER (UPI) — A convict's cell is not his castle, the Colorado Supreme Court ruled Monday. No warrant is required to search it.

"To say that a public jail is the equivalent of a man's house or that it is a place where he can claim constitutional immunity from search or seizure of his person, his papers or his effects, is at best a novel argument," the court said.

The symbol of friendship

vote, came despite market indications that beef prices this summer could approach the high they reached a year ago.

"There's no justification for jumping on beef which is an already regulated and price-controlled commodity," Brooks said in offering the motion.

"In general the report doesn't report he might accept, Brooks said. The report also said U.S. meat import laws are "detrimental to the American consumer" and should be made to keep out foreign beef to protect the U.S. cattleman's price.

try a public utility. The report also said U.S. meat import laws are "detrimental to the American consumer" and should be made to keep out foreign beef to protect the U.S. cattleman's price.

Cattlemen are now getting \$2 per hundredweight for choice steers in Chicago. A peak of \$3 last June preceded skyrocketing retail meat prices last summer.

can increase production 3 to 4 percent a year if the price incentive is right and that present price is "illustrative" of a proper price incentive.

The American Cattle Men's Association said Thursday it can increase production 3 to 4 percent a year if the price incentive is right and that present price is "illustrative" of a proper price incentive.

Screams Frighten Off Would-Be Molester

Seminole County authorities are investigating the attempted molestation of a six-year-old girl yesterday afternoon by a large woman or a man dressed as a woman who accosted the Lake Mary first grader on her way home from school.

County reports list the incident as occurring just after 4 p.m. on Lake Mary Boulevard when a Volkswagen car decorated with a purple flower on the driver's door and a pink flower on the right side, drove along side the girl.

According to the girl's statement, the lone occupant smiled and motioned the girl with her finger to get into the car. At this point, the child became frightened and screamed. The car drove away rapidly heading west on Lake Mary Boulevard, as the child ran down the street.

In another incident, a 19-year-old English Estates woman's screams frightened away a "hippie" type, long-haired male at 5 a.m. this morning when she awoke to find the young man crouching beside her bed.

Resulting investigation by county authorities disclose entry to the home was through the Florida room, according to the investigator's report.

Hoping It'll Be Thursday . . .

By HOWARD BENEDICT
SPACE CENTER, Houston (AP) — Apollo 13's imperiled astronauts battled to bring their crippled spaceship back to earth today as Mission Control Center

asked whether the three space men would make it back from their aborted moon landing, mission control staff Monday night was a vibrant mixture of unknown origin ripped through pressurized fuel tanks.

Officials are considering the quick return to bring Apollo 13 back to earth Thursday because they are concerned about oxygen and water supplies aboard the lunar module from which the astronauts are drawing life support.

James A. Lovell Jr., Fred W. Haise Jr. and John L. Swigert Jr. conserved those vital commodities as they repair their

Mayor Unveils Letter To Council Chairman

Charges Against Police Chief Aired

By TOM ALEXANDER
CASSLEBERRY — In a surprise move, following last night's meeting of city council, Mayor Curtis Blow unveiled his charges against embattled city Police Chief Donald Brumley.

Blow sanctioned his reprimand in the four page list of charges by concluding his opening address. "Only after full discussion did I issue the official reprimand. On several occasions, I have pointedly asked him questions on various matters and he has not given me truthful answers. I asked him to carry out certain specific orders and these have been completely ignored."

CHAIRMAN NAPIER

MAYOR BLOW

Pathologist Pay Is Under Fire

By BILL SCOTT
Seminole Memorial Hospital trustees last night renewed taking any action on reneuing the contract of Dr. Fred Ionata, hospital pathologist, until next month's meeting after discussing with the physician his contract which pays him 22 per cent of the gross revenues of the pathology department.

Dr. Ionata appeared at the meeting and asked the board to consider hiring additional help when the time came for them to consider changing the present percentages.

GERALD D. MCGOWAN

It's Loud And Clear-No Rock!

By MARION BETHEA
Commissioner Greg Drummond told County Commissioners this morning during a discussion of music festivals "I am going to call a spade a spade. I do not want to see a Rock Festival in this county. I have never seen one operate on a moral basis and I say let's keep them out."

Drummond continued that Seminole County has not gone far enough with the proposed ordinance and that promoters of such festivals will frequent counties where there are the least controls and restraints.

continued "Let Seminole County show some initiative and put greater teeth in the ordinance to stop the assembly in the first place."

City Requested To Allocate More \$ \$ To Sanford CofC

Sanford City Commission last night deferred until April 27 action on a request from George Touhy, Greater Sanford Chamber of Commerce president, to have city provide additional funds for the Sanford-based chamber operations for the rest of the budget year ending Sept. 30.

Mayor Lee P. Moore read aloud a letter from Touhy in which the chamber executive requested the funds from a breakdown of the Sanford Industrial Commission (SIC) fund for payment to resigned industrial director Don Rathel.

should make the transfer of funds in the SIC budget."
