

'LOVE IS . . .' ... Her 'Last Gift,' A 'Miracle Baby'

LONDON (AP) — Syndicated cartoonist Kim Casali called herself a "very, very lucky woman" after giving birth to a boy conceived by artificial insemination from her husband Roberto, who died of cancer 17 months ago.

Milo Roberto Andrea Casali was born Sunday to Mrs. Casali, 35, the originator of the "Love is . . ." cartoon strip. During her pregnancy, induced by her husband's frozen sperm, Mrs. Casali said the infant would be her "last gift" from her husband.

The boy weighed 10 pounds 8 ounces at birth. A family friend said mother and son were doing well at a nursing home at Guildford, 30 miles southwest of London.

"The baby is just terrific. I had hoped for a girl, but really I don't mind a scrap. He is fit. He is quite beautiful and I am a very, very lucky woman," Mrs. Casali told the London Daily Mail.

"So far, Milo has been as good as gold. I reckon by the size of him he will be eating steak and chips by the time he reaches six months. It was the most fantastic and easy birth," the New Zealand-born Mrs. Casali told the paper.

British newspapers gave wide coverage to her pregnancy with what they called the "Miracle Baby," and the birth of Milo, pronounced mee-low.

The press accounts said Mrs. Casali, who lives in Weybridge, met Italian-born Roberto Casali in the United States in 1967.

During their 4½-year courtship, she sent him drawings tagged "Love is . . ." Some of the romantic messages were made famous by the cartoon strip.

Roberto, an engineer, developed cancer shortly after the two married. They had two sons, but wanted a larger family and feared the spreading cancer might make children impossible later.

The accounts said Mrs. Casali suggested a sperm bank, where sperm is frozen for use later, and that her husband agreed. He died at age 31.

During her pregnancy, Mrs. Casali wrote to a friend: "Love is — the baby I carry for my darling Roberto."

Before going into the nursing home, she said: "The baby will be Roberto's last gift to me. I shall be able to remember him by it forever . . ."

"Roberto and I were very anxious to provide a brother or sister for our two sons. And now . . . it has been made possible for me to have another reminder of my wonderful husband."

County Lawmen Ask 5 Points Firing Range

By MARK WEINBERG
Herald Staff Writer

Seminole County police chiefs say they need a new firing range to maintain the weapons ratings of their officers and to be used in law enforcement training programs at Seminole Community College (SCC).

The chiefs will bring their proposals to locate a firing range at the southern end of the county's Five Points complex when the commissioners meet Tuesday morning.

Seminole County Sheriff John Polk has proposed a Five Points home for the range. He is a member of SCC's law enforcement advisory council, whose membership also includes the police chiefs of Seminole's seven cities.

Sheriff's deputies now use a clay pit on SR-46A near Mayfair Country Club for what Polk called a "makeshift firing" range. "When it rains, you can't get down in there to use it. All the police forces need a centrally located, permanent facility with good security. They don't have one now," Polk said.

"We investigated several sites, but the only good one the council came up with is at Five Points," said the sheriff.

Casselberry's police department uses a "makeshift" firing range in Maitland, said Chief George Karcher, chairman of the advisory council. "We used to belong to a gun club near the

Catholic church off Howell Branch Road," he said, "but that's gone because of development around the area. We stopped using it last November."

Sanford police use a firing range on U.S. 17-92 between French Avenue and Interstate 4, but "it's being chased out due to the encroachment of new buildings in the area. No other police forces in the county have firing ranges," said Chief Karcher.

Money is available to build an enclosed firing range. The State Police Standards and Training Commission has allocated \$47,000 to SCC, but college officials say there's no room on the campus for a firing range, according to John Percy, county land development administrator.

Percy, at the request of the commissioners, met with SCC officials to find out why they don't want the facility, which would be used in SCC's law enforcement training programs as well as by county police officers, on SCC property.

R. T. Milwee, assistant to SCC's president, told Percy the college's master plan "doesn't include a pistol range. They could most likely find a place if they really wanted it, but they're not sure the state Board of Education would approve a gun range on campus," Percy said.

The advisory council's proposal is to locate a parking lot and

D(i\$clo\$ure) Day Nears For County Public Officials

Public officials will be meeting the first of two deadlines Friday for filing financial disclosure, according to Ginny Huff, finance supervisor in Clerk of the Circuit Court Arthur Beckwith's office in the Seminole County Courthouse. The second deadline is Aug. 1.

Miss Huff said today dozens of elected and appointed officers in the county will be filing the four forms with Beckwith's office by Fridays. The forms require disclosing income; gifts and donations officials may have received; a statement of clients the officials may have represented before governmental agencies; disclosure of business interests in banks, insurance companies, mortgage companies and businesses controlled by the Florida Public Service Commission; and voting conflicts of interest, she said.

The specific law with which the officials will comply affects county constitutional officers, elected city officials and appointed officers including advisory board members, police chiefs, and many others.

The relatively simple financial disclosure law has been in effect for several years. The new law, passed by the Legislature to implement the "Sunshine Amendment" to the Florida Constitution passed by the people in November, 1976, has a new deadline for compliance of Aug. 1, Miss Huff said.

Sue Or Quit?

Sen. Kenneth Plante is weighing a suit contesting the new financial disclosure law passed by the legislature. If he doesn't sue, he might quit. Details, Page 3-A.

Youth Programs Camp Where The Boys Are

By MARYLIN SHEDDAN
Herald Writer

Do you know any girls who would like to go to camp? Free? For a week?

Youth Programs, Inc. (YPI) with two offices in Seminole County, is looking for girls, ages 9-17, who might enjoy a free week at camp, held at Orlando Naval Training Center.

"Each session provides free camping for 20 boys and 20 girls. We seem to have done pretty well finding boys, but we just don't have enough girls," said Pete Rich, director of plans and programs for the organization.

Youth Programs, Inc. is a private, non-profit agency which uses United Way and other funds donated by interested citizens in providing a camp experience for youngsters all over the country.

The group reaches out particularly to two categories of students: those who have personal, school or social adjustment problems, and those with special leadership qualities. It provides 10 weeks of camp every year for a total of 400 boys and girls who might otherwise not have any similar opportunity.

"The program is recreational, motivational and educational," said Rich, "designed to result in developing new attitudes."

Financial need is not a criteria for attendance at camp, and groups are carefully chosen by YPI staffers to create a mixture of income and social situations.

Counselors are eight college students, majoring in everything from microbiology to criminal justice, and they are assisted by two junior counselors and a camp coordinator.

With a ratio of five students per counselor, the youngsters (boys and girls, 20 each, at each session) find their week including everything from tours of the Naval base military displays to picnics, swimming and dining in the mess hall and a constant round of "rap sessions."

Rich said that since YPI began the camping program 10 years ago 50,000 to 60,000 youngsters have attended camp on a total of 85 military bases throughout the country.

At his closing address Rich recently told graduating campers, "This week some of

'We just don't have enough girls...'

you have done and seen and felt things you never have experienced before. We try to provide at least one new experience for everyone who comes here," he added.

The campers, split on their first day into "blue" and "gold" teams, are provided throughout camp with tee shirts marked with the YPI emblem. "To identify us here on the base," said Rich.

Throughout the week the teams compete in sports events, tree climbing and other competitions. At a recent camp "graduation" complete with certificate and "class" photo Rich remarked that, "although the gold team often won this week, there are no losers at this camp."

At graduation, campers exchange their blue and gold tee shirts for white ones, which they will take home.

"There are no more blue or gold teams, now," said Rich. "Everyone joins the white team, which joins everyone together."

Parents interested in having their daughters (or sons, if there is room) attend the camp may contact Dimitria Dellenger, Youth Programs, Inc., at 834-5181 for information.

Sunburned and tired, four recent graduates of YPI camp sort through suitcases. Happy campers (from left), Mike Burmaster, Winter Park; Danny Kish, Sanford; Lisa Lucas, Winter Springs, and Peter Jacques, Altamonte Springs.

Take a board, a boy and a tree and you have the basic ingredients for a business or fort and the recipe for many hours of fun.

It has taken 12-year-old Phillip Held IV of Casselberry six months to build his tree fort, but he still has plans for more additions and improvements. His friends John Chaudoin and Joel Carr helped.

Although she didn't have a hand in the construction, Phil's younger sister, Pam, 7, is allowed to infringe on the males' territory on occasion.

"It has all the modern conveniences," Phil exclaimed, his blue eyes gleaming with pride from his treacherous perch. "Running water, its structure built in the fork of a tree, a toilet, a bed and a television set."

This is for heating and cooking, he said, holding up a hibachi-type grill. Phil occasionally sleeps out in his tree fort.

The South Seminole sixth grader demonstrated the fire escape by grasping a length of rope that led to the top and sliding to the ground. Then he climbed back up to the ladder leading from the main cabin to a sun deck above. Phil would like to add two more stories and a catwalk to adjoining trees.

He built his fort from scrap material, which he scrounged from building sites and a roofer who went out of business — plywood, boards, nails, tin paper, stumps and insulation. Phil said the movement of the trees in the wind causes them to pop out of the boards. He hopes to screen in his tree house windows to keep out the insects and speculate this might be his first cash outlay for the project.

2-Year Union Battle Eyed

Sanford Told: Hold Police \$\$\$

By MARK WEINBERG Herald Staff Writer. The City of Sanford's labor attorney advised the city commission Monday night not to grant city policemen any raise or increase in benefits until their attempt to unionize is resolved. The attorney, David Korreich of Miami, also told the commissioners they were in for at least a two-year battle over police unionization.

DEAR DR. LAMB—Please don't recommend Motrin. My father and a close friend both developed ulcers from taking it for arthritis. They are both on Tylenol now. DEAR READER—I am including your comment in my column to remind people that Motrin is not 100 per cent safe. No medicine is. Aspirin may also cause irritation and even bleeding from the stomach. Some people cannot tolerate Tylenol for different reasons.

Sanford County firemen fight a blaze in an unoccupied house behind the Cycle works on S.R. 436 at Lake Pearl. The fire, which broke out at 6:31 p.m. Monday, caused \$15,000 damage. Ownership of the building has not been determined.

\$3.5 Million Budget Readied In Sanford; \$6.49 Tax Rate Seen

Sanford City Manager W. E. Knowles has submitted a \$3.5 million budget to city commissioners calling for a tax rate of \$6.49 per \$1,000 assessed valuation, a 19-cent increase over the current \$6.30 tax rate. As it stands, the budget proposed by Knowles for general operation is \$3,553,000 for the fiscal year beginning Oct. 1. That's \$201,438 less than the current fiscal year's total of \$3,754,438.

Robber Suspect Wounded; Mother Says She Shot Him

By BOB LLOYD Herald Staff Writer. A man, wounded in the leg, was reported in good condition today at Seminole Memorial Hospital after being arrested on robbery and aggravated battery charges in connection with an early morning service station robbery in Sanford.

Mercedes Plant Here?

Jack Horner, executive manager of the Greater Sanford Chamber of Commerce, said today the Mercedes Company of Stuttgart, Germany, may open a marine diesel engine plant in Sanford. Horner said he recently met with a representative of the firm who is awaiting further information from Mercedes representatives.

Sanford Housing Authority \$6,100, down from \$11,000; sale of supplies \$600, down from \$750; sale of material and contract \$1,500, up from \$1,200; public hearing fees and ads \$1,200 up from \$800; building permits \$15,600, down from \$22,500; plumbing permits \$1,900, down from \$2,500; electric permits \$3,200, down from \$5,400; certificates of competency \$7,200, down from \$10,000; refuse collection \$310,000, up from \$315,000; lot cleaning \$1,000, down from \$1,500; demolition of condemned buildings \$2,500, down from \$3,000.

Proposed expenditures for departments and rate of increase or decrease over current year: city commission \$21,050, up 6.72 per cent; city manager's office \$45,238, up 4.71 per cent; assistant public safety administrator \$22,945; assistant equal employment officer \$12,650; division of legal expense \$40,338, up 11.17 per cent.

Higher-Fine Driving Law Ruled Illegal In First Court Test

BARTOW (AP)—The state's new law levying higher fines for drunk driving and other traffic offenses was declared unconstitutional by a county judge here. Polk County Judge Susan Roberts said the law discriminates against poor people and "intrudes in the judicial prerogative of judges in sentencing."
