

GENOA CONFERENCE SPLITS OVER RUSSIAN SITUATION FRANCE UPHOLDS BELGIUM

Object to Allied Plan of Dealing With Proper- ty of Foreigners

REDS WILL REPLY

PROBABLY TODAY OR TOMOR- ROW AND OUTLINE THEIR OBJECTIONS

(By The Associated Press)
GENOA, May 8.—The fifth week of the Genoa conference opening today will see the end of the conclave, it is generally believed. The atmosphere of gloom pervades conference circles in view of the apparent irreconcilability of positions of England on one hand and France and Belgium on the other over terms under which recognition of Russia would be undertaken.

Lloyd George of Great Britain, and Foreign Minister Schanzer, if Italy addressed a strong appeal today to Russian representatives urging acceptance of allied memorandum in main points and promising Russia international loan of \$300,000,000 gold francs.

GENOA, May 8.—France will stand with Belgium in opposing that part of the allied memorandum to Russia dealing with the property of foreign powers. In consequence of this decision, which was communicated to Premier Lloyd George by M. Barthou, head of the French delegation, last evening, another crisis has arisen which endangers the conference and may or may not be settled before the British prime minister returns to London.

SANFORD LAD GIVEN TRANSPORTATION HOME

The following clipping from a Macon, Georgia, newspaper will be of interest to Sanford readers:

"Benjamin Franklin munched his dry loaf of bread as he strolled up Cherry street yesterday, forgetting all else in his happiness at food once more.

"No'm, I ain't hungry, but if you'll just give me the money to go home on, I will sure appreciate it," said Young Ben, whose real name was David Farmer, when he came to the Associated Charities to seek aid.

The Associated Charities is sometimes made to feel that its work is not all in vain when a note of gratitude is received quite unexpectedly from the receiver of some kindness.

David had been visiting his sister at Sparks, Ga., and had no money to get home on. Times are hard and he could not secure enough money to get home. The child was very anxious to see father and mother once more so he started to walk as far as possible. He arrived in Macon with bootless shoes and in a desperate need of food and care.

David could not be persuaded to eat anything as a gift but instead he took his only fifteen cents and bought himself a dry loaf of bread.

David had been forgotten as there are so many others that come and go, but on the next morning's mail came a little note from David at Sanford, Fla.

"I sure do thank you for giving the money to come home on and as soon as I can make some money, I will send your money back to you," he concluded."

Kirvin is Quiet After Mob Scene, Rumors of Trouble

Did Not Materialize as Negroes Will Not Retaliate

(By The Associated Press)
KIRVIN, May 8.—The town is quiet today following rumors last night that armed negroes were marching toward the town to avenge the burning Saturday of three negroes accused of attack, and murder of a white school girl. The city marshal said he expected no further trouble and had investigated rumors and found that no one had seen the hand of negroes in this vicinity.

The many friends of Victor McLaulin will be glad to learn that he is feeling much better after a week's illness.

WILSON ASKS REED'S DEFEAT, GOOD OF PARTY

REFERS TO SENATOR AS "MAR- PLOT" AND SAYS MUST BE DEFEATED

(By The Associated Press)
ST. LOUIS, May 8.—Referring to United States Senator Reed as "Marplot," Woodrow Wilson in a letter to former Governor Stephens made public today, asked the defeat of the Missouri senator to "redeem reputation" of the Democratic party.

DAVIDSON HAD INSURANCE TWO MILLIONS

POLICIES WERE WRITTEN IN 1917 FOR LARGE AMOUNTS

(By The Associated Press)
NEW YORK, May 8.—It became known today that Henry P. Davidson carried two million dollars life insurance. The policies were mostly written in 1917. Insurance previously did not exceed half a million. Estimated premiums amounted to about \$80,000 annually.

WHITE BRUTE IN DUVAL JAIL SAFE KEEPING

HAS BEEN SENTENCED TO DEATH IN VOLUSIA COUNTY

(By The Associated Press)
JACKSONVILLE, May 8.—Aubrey Nichols, sentenced to hang after pleading guilty in the Volusia circuit court to the charge of assaulting a Deland woman last December, was brought here to the Duval jail for safe keeping.

BREAK GROUND FOR FERTILIZER PLANT

LAKELAND, May 6.(Special).—Ground was broken late Saturday by the Non-Acid Fertilizer and Chemical Company of Lakeland on a five-acre tract one and one half miles south of Lakeland for a 40,000 ton monthly capacity fertilizer plant. The tract is located on the main line of the Atlantic Coast Line railroad.

While officers of the company have not yet been elected it is understood that the capitalization will be \$600,000. H. E. Memminger of Lakeland, Tom L. Wilson, Bartow, C. W. Dean and Dr. C. C. Hardin of Lakeland are backing the concern.

The factory when completed will be a complete mixing plant, according to Mr. Memminger, capable of converting the raw phosphate into the finished commercial fertilizer. The company owns several tracts of phosphate land in the Mulberry and Lakeland phosphate territory and will mine its own raw material.

The main building will be 300 feet by eighty and will employ 150 men with a daily payroll of \$250, according to Mr. Memminger.

The plant will be completed in time to begin filling orders on August 1, he states. A meeting of the principal stockholders will be held immediately for the purpose of electing officers for the company. Some stock will be put on the market, Mr. Memminger stated yesterday.

NEGROES BODY FOUND HANGING TO TREE— ANOTHER KIRVIN VICTIM

HARDING HAS NO OPINION ON SOLDIER BONUS BILL AND SO HE EXPRESSES IT

Will Probably Render a Decision Today or To- morrow

(By The Associated Press)
WASHINGTON, May 8.—President Harding took under advisement Saturday the modified house soldiers' bonus plan presented to him by a committee of Senate Republican leaders. He told the senators he would study the proposal and the one to be presented early next week by Senator Smoot of Utah, ranking Republican on the senate finance committee, and would renew the discussion with them later.

Those calling at the White House where Senator Lodge, of Massachusetts, Republican leader, Chairman McCumber and Senators Curtis, of Kansas, and Watson, of Indiana, members of the finance committee. The senators said the president had given no intimation as to his opinion of the amended house bill but asked many questions concerning its provisions.

The president was told, senators said, that it was the desire of congressional leaders that no additional taxes be enacted in connection with the bonus and that it would be impossible to put a sales tax through congress.

While no specific plan of financing the bonus was presented to the executive, it is the thought of bonus advocates that the legislation can be financed out of the refunded British bonds.

Neither the commonly known McCumber plan nor the Smoot plan calls for any considerable outlay of money within the next few years, and some senators said that whatever cost would be entailed could be taken care of out of the \$200,000,000 annual interest on the debt owed by Great Britain which that country is expected to begin paying this year.

MORE TERRITORY INUNDATED WHEN 3 LEVEES BREAK

Tens of Thousands Made Homeless— Legislation May Be Postponed

(By The Associated Press)
NEW ORLEANS, May 8.—Approximately 70,000 persons are homeless in Mississippi and Louisiana as the result of the Mississippi river flood and of this number forty thousand are being fed, sheltered and clothed by the Red Cross and other organizations. No provisions are made to aid thirty thousand who have not yet reached the refuge camps.

NEW ORLEANS, May 8.—With twelve parishes of Louisiana partially inundated by flood waters of the Mississippi river and backwaters from its tributaries, a conference will be held at Baton Rouge to determine whether the regular session of the legislature scheduled to convene today shall be postponed to permit its members to remain at home in the stricken parishes to render assistance in relief work.

Flood waters that broke through levees of the Mississippi continue to spread over additional territory. In the central and eastern sections of the state the water from the crevasse at Ferriday and backwaters from tributaries have damaged the parishes of Tensas, Caldwell, Catahoula, Concordia, LaSalle, Ouachita, Franklin, Avoyelles, Rapides and St. Martin, covering thousands of square miles, made tens of thousands of people homeless, and destroyed property that will mount into the millions.

H. M. Venable, who is operating a fleet of 15 gas boats to rescue work, yesterday stated that the most serious phase of the situation at present is the need of food for about 4,000 people in the Black river area of central Louisiana who have remained on plantations.

Refugees from St. Bernard and Plaquemine parishes in southeastern Louisiana, who were made homeless through the crevasses of the river at Poydras and Myrtle Grove, are being cared for at Jackson Barracks where their number is being increased daily. Beginning Monday, school for the children will be inaugurated, as the parish schools are closed and many of the teachers are among the refugees. Some of the refugees are being employed by neighboring planters.

Many Sanford people went over to Daytona Beach yesterday to take a dip in the briny and watch the wild waves and wild women.

BIG RIOT IN CO. JAIL AT CHICAGO

WAS QUILLED WHEN THE RING LEADERS WERE TAKEN OUT AND WHIPPED

(By The Associated Press)
CHICAGO, May 8.—Four hour riot in the Cook county jail was quelled today when the warden and thirty guards removed the ring leaders from their cells one at a time and whipped them. Displeasure of prisoners over the change in the method of admitting visitors led to the outbreak. Prisoners in upper tier cells fired blankets and dropped them out. The snuff nearly suffocated the others. Also, tore steel strips from lunks and beat upon bars of cells, the bedlam being heard for blocks.

Neither the commonly known McCumber plan nor the Smoot plan calls for any considerable outlay of money within the next few years, and some senators said that whatever cost would be entailed could be taken care of out of the \$200,000,000 annual interest on the debt owed by Great Britain which that country is expected to begin paying this year.

BRITISH EMBASSY CALLED FOR ES- CORT WAR VET

Says Private Detectives Tried to Rail- road Him Out of the Country

(By The Associated Press)
NEWARK, N. J., May 8.—Request that the British embassy send agent to escort him from the station tomorrow so he would not be molested was made by Alexander Robertson, British war veteran, who plans to go to Washington to press his charges that private detectives attempted to railroad him out of the country because of his efforts to win the hand of Mary Culbertson, daughter of Senator Culbertson, of Texas. Friendship between Robertson and the girl is said to have begun at the University of Texas three months ago where both were students. The two met again recently in Washington where Miss Culbertson is now at school.

China Seems Destined to Have Civil Strife for Many Years STRAGGLING BANDS

FROM DEFEATED ARMY OF GEN. CHANG LOOTING AND RIOT- ING ALONG MARCH

(By The Associated Press)
HANKOW, May 8.—The Peking-Hankow railway has been cut and it is reported Chao Ti, the military governor of Hunan province started hostilities against the forces of Wu Pei Fu. Fighting was proceeding today at Sinyangchow, one hundred miles to the north of here.

PEKING, May 8.—General Wu Pei Fu, victor over Gen. Chang Tao-Lin in the struggle for military control in China, declared yesterday at Chang-sientien that instead of striving for the position of head of the government he desired to devote his energies to unify China, create political harmony in the north and south, abolish militarism, revive industry and win the respect of the foreign powers.

He expressed himself as agreeing with the opinion of the powers set down at the Washington conference that China must put her house in order, free herself from vast debts, apply her revenues to pay her debts and build railroads.

Wu Pei Fu greeted a group of Americans and British who visited his private train outside of Peking. As the visitors approached, General Wu appeared on the steps of his car dressed in simple uniform without insignia of rank.

General Wu was asked whether he intended entering Peking to assume the direction of the government. He replied that he was not interested in politics, because of more serious questions. First of all, he did not consider that his victory was complete until he had captured Tso-Lin, whom he desired to eliminate as a possible future menace. He favored disarming most of the soldiers, but wanted a reasonable defensive army, to represent united China against foreign enemies.

OBREGON GOVERNMENT MUST ASSURE

UNITED STATES THAT GUARAN- TEES WILL BE PUT INTO FORCE

(By The Associated Press)
WASHINGTON, May 8.—The appointment of an international commission to consider all issues involved in the American recognition of the Obregon government in Mexico has been suggested in some official quarters as a solution to the continued failure of the United States and Mexico to agree on the recognition program.

WASHINGTON, May 8.—The American government is standing unalterably for the guarantees requested of Obregon regime in Mexico nearly a year ago and so far Obregon and advisers have given no definite assurance guarantees will be given in order to make formal recognition of their government possible, the state department said today.

KELLEY STARTS BIG LAND SALE

One of the most comprehensive
plans of exploiting the sale of farm
lands that has ever been initiated on
the west coast of Florida is begun
by the W. McKee Kelley company of
St. Petersburg in a full page an-
nouncement made in last Saturday's
issue of The Independent.

The announcement tells the story
of a new development embracing 8-
000 acres of farm lands lying among
the rolling country between Oldsma-
r and Tarpon Springs. The tract is part
of the Leeper estate of approximately
16,000 acres, which includes some of
the properties now being tested to de-
termine whether or not there are oil
deposits in this section of Florida.

Identically the same advertisement
is to appear in newspapers in New
York, Boston, Philadelphia, Chicago,
Pittsburgh, Cleveland, Indianapolis
and Columbus, Ohio. In addition the
announcement will appear in the prin-
cipal papers throughout Florida and
will be sent to 15,000 realtors of the
National Association of Realty Boards
throughout the United States.

One of the unusual features of the
advertisement—adherence to which
made it possible for the exploiters to
obtain its admission to the advertis-
ing columns of The Independent—is
the fact that the announcement holds
no lure in respect to the possibility of
striking oil in or near the property.

The Kelley company in an exceed-
ingly frank statement emphasizes the
value of the land they are selling
purely as a farm and grove propo-
sition. Statistics are given bearing on
the subject and it is shown that the
soil of the lands to be sold is capable
of producing fine garden and citrus
products.

The character of the announcement,
which is signed by W. McKee Kelley,
marks a new departure in methods of
advertising as applied to the sale of
lands in this section of Florida.

"In adopting this method of adver-
tising," Mr. Kelley said today, "we
had the benefit of suggestions from
William C. Freeman, of New York,
who came to this city at our request

for the purpose. Mr. Freeman's ideas
of frankness and sincerity, which he
voiced while here, conform to our own
in respect to enlisting interest of both
northerners and local people in Flori-
da lands. We want permanent home
builders in Florida. The more we
get the better it will be for all of
us, and we are heartily in favor of a
policy of frankness that will cultivate
the friendliness of such settlers. So
far as the prospect of striking oil is
concerned, that is a mere incident. No
one knows whether there is oil in
Florida, though some men are spend-
ing a great deal of money believing
there is. Aside from that, Florida
lands have a wonderful value of their
own and the public ought to know just
what they are offered in any kind of a
proposition such as the one we are
advertising. That's our reason for
adopting the method we have initi-
ated."—St. Petersburg Independent.

'They Satisfy'

H. S. NOTES

Wednesday was a big day with the Seniors, especially with the Cir. & Asst. Cir. Mgrs., for "Sally" arrived, to our great joy. After they were given out, all you could see were students sitting around everywhere imaginable, reading "Sally" and there is some mighty good reading in it too.

Wednesday the Senior History Class had the privilege of hearing Mr. Wilkinson, the lawyer, discuss some catchy questions in civics, and they certainly had them answered right. Come again, Mr. Wilkinson.

What's the matter with our Orlando debaters? Looks like they've got "cold feet" and quit. Well, well, we should worry anyway.

Several of the Shorthand students who have taken typewriting test for certificates or medals, have been fortunate to secure certificates, and we hope somebody will "cop" a medal.

Last night the Sanford Dramatic Club presented the comedy, "Too Much of a Good Thing" at the High School Auditorium, and part of the proceeds will be given to Domestic Science fund for S. H. S.

We miss the sandwiches and cake the Freshmen have been selling.

Thursday morning a doctor from China (not a real Chinese, but one who has been there for several years) gave us a VERY fine talk about China. He said that when he returned to New York his friends asked him what was the most peculiar thing he noticed about New York City, and he answered that it was the lack of people there. He said he almost felt lonesome on the big streets, because in China the streets are so narrow that you are jostled all around when walking. He also said that the Chinese pay strict respect to our flag and theirs when it is lowered or

raised, a thing on which we Americans are sometimes lax.

Dr. Hyman, formerly of Sanford, and now of Tampa, but still a friend and booster of Sanford, has kindly accepted Supt. Lawton's invitation to deliver the Baccalaureate sermon this year. The services will be held in the High School auditorium at eleven o'clock Sunday morning, May 28th. We hope this will be a union service as has been our custom in the past. Dr. Hyman's many friends will be delighted to know that he will be with us.

Dr. W. F. Blackman, for thirteen years president of Rollins College will be the speaker at the commencement exercises on the evening of Tuesday, May 30th. Dr. Blackman is well known to most of the students of the Sanford High School, having made a most interesting address here during Better English Week earlier in this school term. We always expect a real treat when Dr. Blackman is the speaker, and we have never been disappointed.

Those representing Sanford High at the state swimming meet were Frances Dutton, Maud Lake, Marion Hand, Mary Elizabeth Puleston, Demarius Musson, Josephine Knight, Jim Stone, Leonard McLucas, Warner Scoggan, Elmer Lunquist, Gale McAlexander, William Fitts and chaperoned by Miss Elizabeth Humphries.

We were royally entertained by Mr. Roy Simms, Mr. R. B. Barber, Miss Huff, Mr. Roberts and Mr. Coffin. We feel highly indebted to the above named for they made our stay in Rollins so pleasant.

We won only one prize, but taking all into consideration and comparing our advantages with those of other schools that had more, yet made no prize, such as Daytona, we feel that our efforts were not in vain. Next year we are going to try to take the cup, for we are at this time signing up for the various events.

ORLANDO GETS 1923 HORTICULTURAL MEET

(By The Associated Press) LAKELAND, May 6.—Election of L. B. Skinner, of Tampa and Dundin, as president, and selecting Orlando as the meeting place for the 1923 convention, wound up the business sessions of the thirty-fifth annual meeting of the Florida State Horticultural Society here.

Other officers chosen were: S. F. Poole, Lake Alfred, vice-president; W. J. Krome, Homestead, vice-president; A. H. Brown, Fort Myers, vice-president; L. D. Miles, Lucerne Park, treasurer; B. F. Floyd, Orlando, secretary; F. R. Sterling of Gainesville, Burke L. Hamner of Tampa, and H. Harold Hume of Jacksonville, compose the executive committee. The retiring president, H. Harold Hume had served in that capacity for thirteen years and was not a candidate for re-election. The choice of Mr. Skinner, who is one of the largest citrus fruit growers in the state, for president, was unanimous.

Selection of Orlando for next year's convention place came only after a spirited contest in which Eustis and Jacksonville contended with Orlando for the honor.

The society went on record by adoption of resolutions as favoring a local or county option no-fence law. A strong resolution was adopted urging the state to enter upon a vigorous reforestation program.

MARY PICKFORD LOSES A CURL BY MISTAKE

If you had curly hair that was worth twenty thousand dollars a curl and somebody cut off a ringlet by mistake what would you do?

Mary Pickford has the most extensive and expensive collection of curls in captivity, and during the filming of "Little Lord Fauntleroy," which will be the main attraction at the Princess soon, her brother, Jack, who with Alfred E. Green, directed this picture, accidentally cut off one of Mary's twenty thousand dollar curls.

It happened thusly: As "Little Lord Fauntleroy," Miss Pickford, is supposed to have her hair cut, the little Lord, it seems, had always objected very

much to his curls. He wanted his hair cut short like other boys. While rehearsing the scene in which this ambition is fulfilled, Jack was showing the barber how the trick should be done, and lo, the scissors slipped and whack went a golden curl!

There are twenty curls in the Pickford collection, and at twenty thousand dollars per curl Mary Pickford's hair is four hundred thousand dollars. And it isn't insured! So with one of the golden ringlets missing, Mary Pickford has sustained an actual loss of twenty thousand dollars. A false curl had been tied into this hirsute treasure trove and it was this the barber was supposed to cut.

"Pretty lucky for you that you're my brother," said little Mary to Jack, as she viewed the severed curl.

CHILDREN IN SPRING TIME.

Mrs. C. Osborn, 7812 Hillside Rd., Cleveland, O., writes: "My granddaughter was troubled with a cough for nearly two years. She took Foley's Honey and Tar and her cough is now gone. It loosened the phlegm so she could raise it easily." Foley's Honey and Tar is just what children should have for feverish colds, coughs, "snuffles," and tight, wheezy breathing. Be sure to get Foley's. It checks croup and whooping cough, too. Sold everywhere.—Adv.

IF BACHACHY OR KIDNEYS BOTHER

EAT LESS MEAT. ALSO TAKE GLASS OF SALTS BEFORE EATING BREAKFAST

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from back-ache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water;

also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so

it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

What wonderful fishing weather—for those who can go.

If there is any state more pleasant or more prosperous than Florida right now we want to know it.

Did you read that report on the different states last Saturday and see that Florida was the best in the entire list? This also meant that Sanford was the best city in the state.

Watch for the big Shrine Special of the Sanford Daily Herald and get a liberal space in the same. It will help your business and help your town and help the Shrine Day to be a bigger success.

The many new buildings contemplated in Sanford for this summer is making the world sit up and take notice. There will be more stores and office buildings erected here than ever before, the total amount running well over a quarter of a million for business houses alone.

Our fine country club and golf links will bring the tourists here this winter and the tourists will bring another big hotel and the big tourist hotel will bring more tourists and before you know it Sanford will not only be the greatest vegetable section in the world but the greatest tourist city in the state.

The Central Florida Water Traffic League meets tonight at the Valdez Hotel to formulate plans for the big Titusville hearing with the government engineers. This means more to the merchants of Sanford than any other move of any kind and the business men of Sanford should not only be at the meeting but they should go to Titusville and they should first of all join the Central Florida Water Traffic League and pull for cheaper freight rates.

ALL FLORIDA TOGETHER

All Florida should stand together on the question of advertising for in advertising lies the future greatness of the state. That bunch of Jacksonville boosters started something when they made a trip over the state and upon arriving at home decided to get up a mammoth advertising fund in which all citizens would participate and advertise the state as it has never been advertised before. The Jacksonville people who took the tour over the state were so surprised at the many advantages of their own state that they could not help talking about them among themselves. In fact Florida is a greater state than any of us realize even though we are supposed to be familiar with it. Some system of getting together on a state advertising idea would be the means of bringing the entire state into public notice. There should be no rivalry among the different sections for it is all Florida at present. The St. Petersburg Times says:

"Florida cities have recently become converted to the new thought

THINK of the kind of cake you want, then COME Deane Turner's Grocery Store SATURDAY, MAY 6TH, and BUY It for your Sunday dinner. Large assortment of home-made CAKES and SALAD on sale by Daughters of Wesley.

that rivalry which is too intense is not for the best interests of any of them.

Rivalry and jealousy have existed between the cities of Florida in the past to the extent that some cities were more concerned about keeping business away from their rivals than in getting it for themselves.

Perhaps that is a severe arraignment of these cities but it is the truth, nevertheless, and the very fact that it is true and has made itself so apparent is responsible for the new feeling which has sprung up among the progressive cities of the state.

If Florida cities will join together in boosting Florida before the world every city which takes part in that boasting campaign, and even those who do not, will profit therefrom.

If St. Petersburg has a successful year, Florida is helped.

If Miami and Palm Beach have a successful season, Florida gains.

If Jacksonville gets business from all parts and sections of the state, it is to Florida's benefit.

If Tampa imports and exports large amounts of products, Florida is certain to reap a gain.

If Orlando and Sanford ship great quantities of fruit and bring in new settlers and visitors, Florida profits.

And, when Florida profits, gains, benefits and prospers, every city in the state will be more prosperous.

Florida needs and is rapidly getting the idea of "one for all and all for one."

The sooner the state gets that idea in all the fullness of its meaning the sooner Florida is going to start the whole nation with her growth and development."

FEW CANDIDATES APPEAR

Possibly it is the usual way, since the abolition of the county convention, for candidates for the legislature to be shy about entering the field early. In Florida, with more than half of the senate and all of the representatives to be elected this fall—and the primary only a short time away, no candidates have announced their willingness to serve in the house in several counties as yet. Probably a dozen counties have up to this time shown no applicants for the house of representatives and in some counties there is yet no sign of a contest. Just what it means it is problematical, but recalling the fact that the last legislature was almost generally condemned for what it did and what it left undone, it may be that few men in the state desire to encounter such another display of ingratitude.

As those who found fault with the working of the last legislature will immediately protest and declare there was nothing to be grateful for, it could possibly be called lack of appreciation. That mistakes were made and needed legislation overlooked or neglected cannot be denied, but in the legislature were men who honestly tried to plan and carry on for the best interests of the state. These men are well remembered and the state would be pleased to have them again at Tallahassee. It is time that the voters had something to talk about other than generalities.

Reports from the counties now show that the registration is fairly good, although considerably below the last listing of voters. It is not expected that as many people will register for a state as for a general election, yet the state is really more concerned over the selection of officials for the commonwealth. The voters will this year choose one senator, four representatives, two members of the railroad commission, judges and other court officials, as well as members of the legislature. In the counties there will be other positions to fill—and the Democratic primary occurs on June 6.

Even at the risk of hearing the cry of "late" it would seem to be well for groups of citizens to urge upon candidates who are hesitating to announce the importance of appearing in the lists. The voters desire to know something of their plans and purposes, and have a right to demand time for consideration.—Times-Union.

THORNDYKE GETTING PROSPEROUS.

Old Thorn since going to Kissimmee has grown so rich and prosperous that he takes his text on debt and says that those who would go in debt are no good but he also gives some very good reasons for getting out of debt and keeping out of debt and paying cash for what you get. All of it is contained in the following:

I believe debt is unnecessary. By debt I do not mean the legitimate debts incurred by borrowing from legitimate sources any certain sum of money needed to carry on a business which may for the time being need more cash—nor the money owing for the investment for a home or farm; yet even for such things there should be a saving and scrimping to keep the "sinking fund" in proper condition.

UNCLE HANK

A man's automobile tire and his religion usually get punctured at the same time.

There are always to be found men—also women—ready to take advantage of extended credit where the same is offered. Those people would prefer to buy silk socks at a dollar and a half on credit than to buy those costing twenty-five cents and pay for them; would buy port-houses at fifty cents on credit rather than to pay for a twenty-cent soup-bone; would order some sliced pine-apples and "get trusted" rather than buy prunes and pay for them.

In other words there are those who are trying to live a Hudson super-six life on a Ford income. That is one of the causes of conditions being strained as they are occasionally. That is why a defunct grocery concern in Kissimmee is securing judgments from a thousand dollars up to a half-dozen thousand dollars against individuals—the debtors having been allowed to run up bills to frightful figures. In such cases, however, there is a vast amount of negligence and improper business methods to be attributed to the firm that would allow such conditions.

"To earn a dollar and spend one dollar and five cents is profligacy; to earn a dollar and spend ninety-five cents is frugality," said a noted man. The man, young or old, married or single, who cannot adopt his expenditures to his income has no right to have an income. The man who is continually "broke" is not an asset to the community. The man who cannot carry about a few dollars in his pocket and refuse to spend it except for actual necessities is really not worth raising. A fifteen-dollar suit, paid for, makes a better man and contributes a better feeling than a sixty-dollar suit on the installment plan.

The term of being "a good spender" never made half the number of real friends that the reputation of "being close—but always pays the cash has formed. The workman who cannot get along unless "the ghost walks every week—cannot have enough ready money to last him two weeks as well as one—is, pure and simple, a spendthrift. The man who cannot bank a few dollars each week is not a useful member of society—unless he is devoting his every cent to buying a home or settling every week a sum upon those whom he legally owes. For there are "legal" debts as well as those "illegal."

I would very much dislike to be in a condition that, were I called to fill a better job elsewhere, I'd have to wire: "Send money for transportation and I'll come." I certainly would; were I an employer, never to hire a man of that sort. I certainly would not. I thank you.—W. L. Thorndyke, in Kissimmee Gazette.

SHOT FIRST, THEN INVESTIGATED

In a letter to the tax assessor of Nassau county, rescinding his recent order that tax values there be increased a flat five per cent, State Equalizer of Taxes Hon. M. L. Dawson admits that he jammed his shot and filled at everything in sight, whether it was fair game or not. The result is, he has been going about "picking shot" out of wounded backs and applying salves to lacerated feelings, and altogether acting much like a hunter who had shot poor pussy cat when he was supposed to be after bears.

In his letter to the Nassau assessor, according to a Tallahassee news item, he explains his order to raise the values five per cent in this way: The limited time at the disposal of his department did not permit him to make an accurate comparison of the actual physical values of the different classes of property in Nassau county with the values in other counties in the "Nassau group," (whatever that may mean.) That such information was not to be obtained from the tax roll. That the law required that any orders for an increased valuation had to be given before April first. So he just put down 20 percent here and 15 per cent there, and 10 per cent and 5 per cent and "entirely satisfactory," in other places and shot the whole thing as a

broadside order, accompanied by the official statement that having found by official and careful investigation and comparison that such changes are necessary, he hereby orders it, instantan, circum-go-fetichit, e pluribus unum!

"Subsequently," says the Tallahassee dispatch, "he said he had been assured that the increase was not necessary to put the county on a parity with others."

Nor was it in Duval. Nor was it in Hillsborough. Nor was it in Dade. Nor was it in Madison. Nor is such an order as that necessary or legal anywhere!—Fampa Tribune.

FLORIDA LEADS NATION

"Florida conditions are better than any state in the Union."

These are the words of a Federal Reserve System bank examiner in his report from the Atlanta district to his chiefs in Washington.

This expression was carried to every state in the nation Saturday morning by the wires of the Associated Press.

What a message for the thousands of friends of Florida everywhere and what a message to the business interests of the nation!

But with this message went the summing up of these financial experts and their views on general conditions. From every agent came word of improvement in business, lessening of unemployment and a general feeling of confidence.

The only unfortunate thought in all this message of business revival was the seeming attempt of some of the agents to make their reports political in character instead of purely business.

Politics has played too big a part in business and sometimes business has played too big a part in politics, but if America and Americans will get down to business without a tlot of politics and political effects the nation will all the sooner find itself sailing along in the sea of prosperity again.

But back to the big thought in it all for Florida!

Florida gets the publicity and the advantage of having weathered a severe financial crisis and having come out unscathed. Florida's condition better than any other state in the union. There's a thrill in the very thought even for the man who is not inclined to be enthusiastic about such things.

Florida's greater development and greater prosperity lie in the attraction of new blood and new capital. The message of improving business conditions coming at the same time as this statement of Florida's condition ought to help to bring both to the state.—St. Petersburg Times.

It seems to us that no better day could be observed than that of Mother's Day on May 14th, when it would be a splendid time for the community and the people generally everywhere to reflect upon their mother's sentiments and ideals and paint them in a mental picture and then paint another contrasting picture and hang them side by side and just see how amazing is the contrast. If there ever was a time that the sentiment of our mothers needed to be indelibly impressed upon the young people and the older people, it is in this day and age when everywhere, everybody is seemingly going crazy over fanatical ideas, commercialism, having a good time and the breaking of the commandments.—Lakeland Star.

All Florida Boosters Thank Sanford Folks For Their Hospitality

Their Trip Through The State Was Made Most Pleasant

Jacksonville, Fla., May 1, 1922.
WHEREAS: The Jacksonville Chamber of Commerce in an effort to foster greater friendship and greater acquaintance among all Florida communities in order that interests of the State be advanced to the greatest possible extent, and

WHEREAS: Towards this end, business men of Jacksonville engaged on a special tour over a large portion of Florida, April 25 to 28, inclusive, bent on spreading a doctrine of friendliness among not only such cities as were actually visited, but all others which in the aggregate comprise the great State of Florida, and

WHEREAS: The spirit in which the tour was undertaken, was in every case responded to in kind, and all visits were especially marked by an all-prevailing cordiality evidencing that fact that there has indeed been engendered firm conviction that individual community advancement is entirely dependent upon all-state development, now therefore

BE IT RESOLVED: By the delegation of Jacksonville business men, in meeting assembled aboard their special train, by some very pertinent designated the "Friendship Unlimited" that sentiments of deepest appreciation are hereby voiced as regards the reception accorded by the several Florida communities visited during the "All Florida" tour, and

BE IT RESOLVED: THAT THE DELEGATION THANKS THE CITIZENSHIP OF SANFORD for its friendly reception of the "ALL FLORIDA" boosters and

BE IT FURTHER RESOLVED: That especial gratification exists in the realization the many communities indicate their full realization in common with that of the Jacksonville man, that "ALL FLORIDA" development is the paramount concern of all places within its borders, so that finally each locality will achieve to the splendid destiny that spells the ultimate for every place so fortunately situated, and finally

BE IT RESOLVED: That copies of these resolutions be sent to the commercial organizations, the mayors and newspapers of the communities entering so thoroughly into the spirit of the "ALL FLORIDA" movement.

OUCH! LUMBAGO! RUB PAINS FROM SORE, LAME BACK

RUB BACKACHE AWAY WITH SMALL TRIAL BOTTLE OF OLD "ST. JACOBS OIL."

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get relief the moment you rub your back with soothing, penetrating "St. Jacobs Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on your back and out comes the pain. It is harmless and doesn't burn the skin.

Limber up! Don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" from any drug store, and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years.—Adv.

FLORIDA BETTER OFF THAN ANY STATE IN THE UNION IS REPORT OF NATIONAL BANK EXAMINER

General Improvement in Business Conditions Throughout the Country

WASHINGTON, May 8.—(By The Associated Press)—General strengthening of the economic machinery of the nation was reported by the Comptroller of the Currency Crissinger by the twelve national bank examiners representing the federal reserve districts of the country at their annual meeting here.

In the main, the examiners said, there has been a notable improvement in business conditions throughout the country together with restored confidence and a favorable outlook for the future. The belief was expressed, however, that progress towards normal conditions would be gradual and not an overnight accomplishment.

In the New York district, business generally shows a wholesome trend, although still depressed in all lines, according to L. C. Burden. "This depressed condition," he said, "is believed to be still due to our Western and Southern agricultural situation, to taxation, to the still too high living costs and to labor cuts."

In the New York district, he continued, it is hoped that the Gonna conference will be the first step towards future beneficial conferences which will prove more economical than political. The proposed soldiers' bonus legislation, he added, "while strongly condemned, is not having much effect because of firm faith in President Harding."

Philadelphia is well on the way to recovery, as well as Cleveland and New England, it was reported.

Less favorable reports from the Richmond district were presented by W. H. Scherer.

"Industrially, conditions are fair," he said. "There is probably less unemployment than is found in the large cities. The agricultural situation is serious, but the farmer will be able to combat the toll well. The commercial situation in general is fair, but nothing to enthuse over. Financially, conditions are probably par-

MODES FOR INDIVIDUAL TASTES

A new version of the straight-line frock is offered in the dress to the left. It may be fashioned in the form of the pretty tulle fabric, or in figured silk. The closing is at the left side, but the front is cut away to show a dainty vest of organza in the form of an inverted V. Medium size requires 3 1/2 yards 54-inch material for the suit and 2 1/2 yards 36-inch crepe for the blouse.

The three-piece costume to the right represents one of the best ideas in dress. The jacket and skirt are of tweed, while the blouse is of maine crepe of harmonizing tone. The front of the jacket meets at the neck, then diverges inward to the lower edge, leaving a pocket in the form of an inverted V. Medium size requires 3 1/2 yards 54-inch material for the suit and 2 1/2 yards 36-inch crepe for the blouse. Jacket No. 9890. Skirt, 34 to 44 inches bust. Price, 35 cents. Blouse No. 9896. Skirt, 24 to 38 inches waist. Price, 30 cents.
