FIGHT THE WILD CARROT.

This Weed is a Great Spreader, but Not Very Hard to Eradicate.

The wild carrot, familiarly known as "bird's nest" or "Queen Anne's lace," is found on wild land and along the roads in the eastern half of the United States and Canada. It came here from England. It produces flower stalks from one to three feet high and has tall, slender, hollow stems and a finely cut leaf. The flowers are white, and the clusters with the stems resemble an umbrella. It has a very strong, suffocating odor when in bloom, and this with its nectar attracts scores of insects. It blooms from June to September. The large number of insects which visit it make pollenization almost sure, which partly accounts for the readiness with which it spreads, says Farm and Fireside. It is a biennial, and the first season it produces rather a low, vegetative growth. The second season it sends up long flower stems. The seeds are very numerous, and if the flower stems are cut down before seed has been formed new stems will come up. This weed is a demon to spread, but not very hard to eradicate. Good cul-

tivation will keep it out of cropped fields, especially where there is a rotation including one or more cultivated crops. In permanent pastures, along roads and in other places not cultivated it should be cut down with the scythe. This must be done repeatedly to keep the new flower stems that spring up from carrying their seeds to maturity, but persistent cutting will kill the weed out, generally in two years. If the weeds are not too numerous they can be killed off individually once and for all by cutting the root underground with a spud, sharp spade or other handy implement. Recent tests have indicated that the wild carrot is vulnerable to several weed killing sprays. One solution that is recommended is sodium arsenite, one pound to twenty-six gallons of water, sprayed on when the plants are dry.

When we have repaired the buildings where our live stock is kept through the winter would it not be well to visit the "school-house on the hill" and look over the buildings where the children spend the winter days?

Tobacco Stems For Fertilizer.
 Tobacco stems are sometimes sold as a fertilizer. If comparatively dry they contain something over 2 per cent

of nitrogen, a trace of phosphoric acid and 5 or 6 per cent of potash. They usually retail around \$14 a ton and are well worth the money.—American Agriculturist.

Advice to Corn Growers.
 Unless there is an experienced and successful corn breeder in the vicinity who makes a specialty of growing first class seed corn every farmer had better make his own selection from his own field or from the best fields of neighboring farms.

Try Peppers For Profit.
 Peppers may be easily grown in all parts of the country, and market prices are generally quite good. Foreigners consume them in large quantities, and Americans are using them more extensively than a few years ago.

Pruning Note.
 Currants and gooseberries may be pruned as soon as the leaves fall, or the work may be left until early spring. Cut back one-third of last year's growth and thin out surplus, diseased or unthrifty shoots.

Oil Concrete Road.
 The first stretch of oil concrete highway to be laid in Pennsylvania has just recently been completed on the Harrisburg-Lingestown road. It is about a quarter of a mile in length and is between Progress and Paxtonia. The oil concrete road is an experiment on the part of the state highway department, which in 1907 rebuilt the highway from the eastern terminus of the city to Paxtonia.

The section just laid replaces a quarter of a mile of road constructed of concrete. The new section of road is made of concrete into which are mixed asphaltic oils. The top surface is not arched so much as the rest of the road, the crown being constructed on a basis of three-eighths of an inch to a foot. The crown is the same as that used in laying a brick pavement.

Missouri's Oldest Road.
 Twelve miles of the old "king's highway" near Sikeston, Mo., the oldest road in Missouri, is being rebuilt with rock macadam. Curtis Hill, the state highway engineer, has organized a special benefit assessment road district to carry on the work. Later the road will be extended to New Madrid.

FREE ROAD DRAGS.

To encourage road work Roy Williams, highway engineer of Madison county, Mo., gives a road drag free to every farmer who makes application for one. If the farmer does not use his drag it is taken from him and given to some one more industrious. The roads of the county have been much improved by the arrangement.

Chemicals With Manure.
 This is the way some of them use manure when fertilizer is to go on the crop: A load of manure is put in the spreader and thirty to forty pounds of the chemicals scattered over it. The result is that the whole thing is evenly scattered.—Rural New Yorker.

The Way With Weeds.
 Possession is said to be nine points of law. This is certainly true of weeds. When they once get possession of a field it takes about nine times the labor to get rid of them than would be needed if they had been held in check from the start.

Map out a plan for farm operations for the ensuing year and then stick to it until you have a better.

Wanted a Sample.
 "So you think you will do?" said the man who had advertised for cracker-jack salesmen to the one who had applied for a job. "What can you sell?" "I can sell anything." "What, for example?" "Town lots in Mars." "Very good. Sell me one as a starter and you can have the job."

DON'T BE BALD.

Nearly Anyone May Secure a Splendid Growth of Hair.

We have a remedy that has a record of growing hair and curing baldness in 93 out of every 100 cases where used according to directions for a reasonable length of time. That may seem like a strong statement—it is, and we mean it to be, and no one should doubt it until they have put our claims to an actual test.

We are so certain Rexall "93" Hair Tonic will cure dandruff, prevent baldness, stimulate the scalp and hair roots, stop falling hair and grow new hair, that we personally give our positive guarantee to refund every penny paid us for it in every instance where it does not give entire satisfaction to the user.

Rexall "93" Hair Tonic is as pleasant to use as clear spring water. It is delightfully perfumed, and does not grease or gum the hair. Two sizes, 50c. and \$1.00. With our guarantee back of it, you certainly take no risk. Sold only at our store—The Rexall Store.

COLE 30

The Car You'll Be Proud To Own

You Must See These Cars To Appreciate Them.—It is so easy when one is thoroughly enthused about such a magnificent car as the Cole 30 to say that "nothing like it has ever been sold at anywhere near the price of the 1911 Cole 30"—to say that "it's the classiest car of them all"—that "it's the car you'll be proud to own"—"you will marvel that such a car can be sold at the prices."

We can write volumes and present argument after argument to prove to you that these statements are merely absolute facts—but after it is all said our crowning argument must always be "see the car—have it demonstrated—compare it with other cars selling at the same price". When you have done this, we are willing to abide by your judgement.

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

Realizing that a sufficient supply of good water is the greatest asset a city can boast of St. Petersburg has been steadily extending her water mains during the spring and will continue the work for several months, or until a shipment of some hundred tons of pipe is put under ground. The extension of water mains is largely in new sections, and thus fire protection as well as water for domestic purposes is being extended into all parts of the city.

Through the accidental discharge of a rifle, Mr. H. March, a prominent citizen of Miami lost his life last Saturday.

Because they had testified against him in court, a negro shot down two white men near Tallahassee last Saturday. The negro is in jail and while the feeling against him is high the law will be allowed to take its course.

Jacksonville, will invite the United Confederate Veterans to meet with her next year, there to smell the orange blossoms and drink the waters that make the old feel young.

Alachua county has the largest boys' and girls' corn club in the South all due to the efforts of Dr. L. Kelley, county superintendent, who, however, has the loyal support of the boys and girls eager to help in the big work. With its able reports of the work of the club, the Gainesville Sun is another strong factor for the success of the enterprise.

The bill introduced by Senator Culpepper to establish an agricultural school in each congressional district of the state is a good one for a starter, and if it becomes a law will no doubt lead to more schools of the kind being established in Florida.

Fire broke out at Newberry, seventeen miles west of Gainesville Sunday night, and before the flames could be checked twelve buildings aggregating with their contents between \$7,000 and \$8,000 had been destroyed. Had it not been for a rain early in the evening there is no calculating as to how much the losses would have reached, as the only fire protection the town affords is a bucket brigade.

The Manatee Journal tells of the first attempt to raise a second crop of celery from the same land in one season, and it seems to have been a fairly good success. William Richman of that section gives facts and figures about his second crop which are highly interesting. He says that the crop sold in New York for \$3.75 and \$4 a crate and gross receipts were \$1,329. On this freight and commissions were paid amounting to \$365, allowing him \$964 for raising the celery.

Prize winners of the State fair, held some years ago at Tampa, will, according to the provisions of the legislature now in session, get the money they have long expected.

St. Cloud Veterans are planning to celebrate Independence day in proper style. At a meeting held recently a committee was appointed to arrange the program and it is certain that the call will bring out every Veteran.

At a meeting of the State Republican committee in Jacksonville Wednesday, Mr. Henry S. Chubb was elected national committeeman to succeed J. N. Coombs, deceased.

The city of Arcadia voted to bond for fifty thousand dollars, twenty thousand for water works extension, twenty thousand for sewer extension, and ten thousand for street improvement.

For the consideration of \$350,000, over a third of a million, thirty-two thousand acres of the most fertile lands in St. Johns county, located in the southern end of the county, and including the town of Dupont, have been purchased, by a northern syndicate.

The oiling of West Palm Beach's streets will begin this week. This will be a most important improvement and will add much to the wearing qualities of the streets.

MAKING A RECORD

The Sanford Land Development Company Is Doing Things

It is a regrettable fact that Sanford is endowed with a few citizens who are unable to refrain from the perpetual use of the little "hammer." It is as natural for them to knock as it is for a duck to take to water, and the better the proposition and the more far reaching its influence upon the future of Sanford, the more energetically and persistently the little hammer is applied.

In view of the fact that some of these "tappings" have come to The Herald it has applied its usual policy of getting at the facts in the cause, by examining into the progress and policy of this new corporation, with the following results:

The Sanford Land Development Company was organized March 15th with the following board of directors: F. E. Houghton, Boston, Mass.; J. F. Wilcox, Scranton, Pa.; B. A. Howard, J. O. Packard and C. C. Howard of Sanford, Fla., and H. C. Trask of Petosky, Mich.

The usual delays of organization, of securing printed matter and of getting the machinery of a larger corporation working, have occurred and have probably been to some extent the reason why disparaging remarks have been made regarding the purpose and outcome of this corporation.

This intimation by certain uninformed persons, that the organization of this company was a last desperate effort to bolster up a quiet real estate market, is as far from the truth as anything can be. The primary object of this organization is to develop and cultivate for a profit, the lands which it owns and which it may acquire. The Sanford Land Development Co. is not a real estate concern and has no land for sale, but its purpose is to buy, hold, develop and farm lands in the Sanford Celery district. It has some large plans under way which include improved methods of clearing and developing land; cheaper and better methods of farming and raising crops; reduction of transportation costs and decided improvements in the distribution of the products of the Sanford section. It has no designs on the business of any real estate dealer or of any grower. It hopes to improve the business of the former by taking off the market a considerable acreage which has formerly been for sale, and by demonstrating its value in a conservative, perpetual, profit paying way, which will evidently do away with the fluctuation of real estate values in the Sanford district and make them stronger. It will take time to do these things, but the plans for the same are being carefully and successfully laid.

The intimation that this corporation is not doing anything perhaps arises from the fact that its policy from the inception has been conservative. Not having been organized for the purpose of selling real estate, it has not adopted any "brass band methods" of getting before the public. Its first announcement showed conclusively that its policy is to get away from the "wild cat" idea of one thousand dollars per acre net profit on land, and to show to the public by practical demonstration, that the lands in the Sanford district will pay as liberal interest on the money invested as any well conducted industry will pay.

Contrary to the supposition of some of our citizens, the progress of this new corporation since its organization has been really phenomenal. Almost immediately it started a crew of men clearing some of its lands and besides the new land being developed, its holdings include more than one hundred acres of improved and tilled land, which has been farmed from two to four years, and which is now being carefully cultivated, sowed to cow peas and put in the best possible condition to produce maximum results in vegetables next season. The sale of the company's securities have been surprising even to the management itself. Up to May 8th it has sold \$25,700 worth of 7 per cent preferred stock, made up of subscriptions running from one hundred to five thousand dollars each. It is interesting to note that this averages five hundred fourteen dollars per day of 7 per cent preferred stock sold for every working day since the organization was effected, on March 15th. This is not a bad showing and does not look to us like the corporation was "falling down" as has been suggested by those who never have a word to say about a successful enterprise but are always willing to create and exploit any idea of failure.

This corporation has issued a beautiful booklet called "Florida" which outlines its plan and its policy, and which our readers can have upon application to the company.

It is the opinion of the Herald that this corporation is on the right track and that it is organized on the soundest and most sensible basis of any institution ever organized in this community. Its securities are based upon the fundamental sources of wealth, and while the American public has been educated to invest its securities in industries and institutions of public utility, yet the time has come when investors have begun to put their money into securities based upon property which creates wealth. We predict for the Sanford Land Development Co. a most successful future and through its success the entire Sanford District will receive the greatest benefit of any single enterprise that has ever yet been established in our midst.

Legislature Abolishes Convict Lease System

BILL PASSED HOUSE WEDNESDAY

Amendment to Constitution For Initiative and Referendum Passed House Yesterday

The convict lease system will be abolished. The house of representatives after wrestling with the problem for over two hours and being reported back to the house without recommendation on Tuesday the Angle bill was finally passed on Wednesday.

It provides that the present system of hiring out and leasing of state and county convicts is hereby abolished and shall be discontinued after the expiration of the contracts now in force for leasing of said state and county convicts.

That on and after January 1, 1914, this being the date of expiration of the present lease of the state convicts, all able bodied state convicts shall be employed by the state in preparation of material, building and construction of hard surfaced state highways. The said convicts shall be under the charge of state prison authorities, but they shall be so employed under the direction of the state highway commission, as may be deemed necessary.

That all able bodied convicts that are not leased and that are under lease at the expiration of present leases and other convicts shall under the direction of the board of county commissioners be employed in working, building and maintaining of the public roads within the counties respectively of the state.

The Angle Highway commission bill was lost on a vote the motion pending for reconsideration. Yesterday morning the House reconsidered and passed the proposed amendment to the constitution for the initiative and referendum.

ORGANIZE BALL TEAM

Sanford Will Endeavor To Give Fans Good Ball

A very enthusiastic, though very small crowd of enthusiasts held a meeting last Monday night in the Eagles Hall and gave the ball season a start by organizing and election of officers. G. W. Spencer was elected manager which means that Sanford will have a team—that will pay expenses for Spencer will look after the financial end along with the general management of the team. The aims of the new management will be to give Sanford a winning ball team at the least possible expense. It is up to the business men and fans generally to donate a monthly stipend in order that a certain sum can be relied upon over and above the gate receipts. Give only what you think you can stand as every little bit helps and the result will demonstrate whether Sanford wants a ball team this season or not.

At the meeting Monday night the following officers were elected for the ensuing year:

B. G. Wagner, president; R. J. Holly, vice-president; R. C. Maxwell, secretary; treasurer; G. W. Spencer, general manager. The officers are directors and the following new directors were elected: R. H. Newman, Geo. A. DeCottea, and J. D. Davison. Geo. Fox will act as field captain for a few weeks in order to get the new material out to practice and ascertain how many can make the team.

Bishop Kenny to Be in Sanford

Next Sunday May, 21, the Right Rev. W. J. Kenny D. D. Bishop of the Catholic diocese of St. Augustine will visit Sanford and while here will be the guest of Father Bresnahan at the new parochial residence. It is quite a long time since Bishop Kenny was in Sanford before and still longer since he visited the place first, some thirty years, when as a young priest he counted Sanford among his many missions. Bishop Kenny will confirm a large class at All Soul's Church on Sunday night.

Purchased Cameron Store

Guy Ellsworth and Earl Gormley, two enterprising young men of Cameron City this week purchased the Stevenson store at that thriving city and will take charge at once. Messrs. Ellsworth and Gormley are general favorites in the community and have experience in the mercantile line and expect to do a thriving business.

HOSPITAL BOARD MEETS

Report of Proceedings That Occurred Friday, May 5th

At a meeting of the trustees of the Sanford Hospital Association held at Sanford on March 9th, 1911, the following trustees and officers were present: M. F. Robinson, president; Mr. D. A. Caldwell, Mrs. Frank, Mrs. Homrighous, Mrs. J. N. Whitner, Mr. T. E. Wilson, Mrs. Roumillat, Mrs. Fernald, Mrs. Rosseter and Dr. C. E. Walker. Absent: Dr. Neal, Mr. Fernald, Mr. S. O. Chase, Mr. W. D. Brady, Mr. J. Cameron.

The following communication was received:

"To the Board of Trustees Sanford Hospital Ass'n: On Friday night, May 5th, I was elected a member of your honorable body by a mass meeting held in 'Eagles' Hall. This election, as you know, was under my protest and my reason therefor given at that time. Please do not think me unwilling to do anything in my power for the worthy cause, or that my resignation, which is herewith tendered, is prompted by any but the best of motives. I thought at that time that physicians should not be elected to your board and under mature consideration I am more convinced of the wisdom of my decision.

With best wishes for the success of your efforts, I am,

Very respectfully yours,

T. A. NEAL."

It was voted to accept Dr. Neal's resignation and the vacancy held open until another meeting.

The following resolutions were presented and adopted:

Whereas, in starting a Hospital a large sum must be contributed by the community, not only for the construction of the necessary buildings; but to maintain the hospital after the buildings are paid for. In a small community like this, we all realize that the generosity of the people will be strained to the utmost; and there should be some provision made in the by-laws of the association whereby the money contributed to the association by membership fees and donations, should, like bread on the water, be returned to them in case any of them should require the services of the hospital at any time in the future.

Resolved, that the annual membership dues shall be one dollar. Any member in good standing is entitled to a vote at all meetings of the association.

Resolved, That all moneys paid to the association, whether as annual dues or donations, shall be charged to cash credited to the person who pays, all account with each person. And this credit will be considered as a credit in the settlement of any bill for hospital services in behalf of such member or any of his or her family. Provided however that this shall not apply to the payment of the physician or surgeon in attendance, because the association does not pay the doctors bills in any event; and no part of the money paid in dues or donations is used for that purpose.

Resolved, That the treasurer shall keep double entry books of the finances of the association; and that they shall be open to the inspection of any member of the association who desires to see them at any time during business hours. That the president for the association and see that they are properly kept.

The secretary shall enter the minutes of all meetings of the association and of the trustees in a suitable book for that purpose and is authorized to buy the book. In this book shall be entered the constitution, and all motions and resolutions that pass at any meeting of the association or of the trustees.

Resolved, That every person subscribing one dollar or upward shall be elected by the trustees a member of the association during the continuance of such subscription.

At this point of the meeting a very encouraging announcement was made, which was this: Mr. Alfred Foster offered to start a subscription, giving \$100, provided nine other gentlemen would do likewise. Various rumors were afloat in the room, which without doubt, will bring great results in the near future.

Returning to business, it was voted that the president appoint three who together with himself draft by-laws for the association. Mr. T. E. Wilson, Mrs. Homrighous and Mrs. Fernald were appointed such a committee.

Resolved, That Mr. Wilson act as attorney and see that deed from Holden Real Estate Co. be legally made and deposited with Realty Trust Company for the Sanford Hospital Association.

Mrs. J. N. Whitner was elected chairman of a committee to solicit for membership with power to appoint assistants to procure a thousand memberships on the most favorable terms.

Elyria, Ohio, high school girls circulated a petition calling upon Rev. Bertha Harris of Berea, woman evangelist, who Thursday night last in a sermon at the Second Congregational church, declared that Elyria school girls smoked cigarettes, either to prove her statement or make public a retraction. The evangelist in her sermon also told of a recent automobile load of young people, apparently intoxicated, all of whom, she asserted, were smoking.

The Prince of Sajeul, cousin of King Victor Emanuel, has been expelled from the Naval Academy of Leghorn under circumstances which have given rise to gossip amounting almost to scandal. It appears that the young Prince was suspected of appropriating money belonging to his fellow students. The young Prince is very extravagant, and to his repeated requests for funds his mother, Princess Maria Litzia, nee Bonaparte, occasionally remitted small sums, quite inadequate to meet the Prince's expenditures.

Special Correspondence to The Herald.

☛ The DeFunlak Herald sizes up the situation in the smaller towns as follows: We believe that we are not far above the mark when we say that the dead beat losses our merchants sustain are not far from \$2,000 a year, that is they lose that amount from people who could pay if they had to, but do not. Now then, suppose we had a live board of trade with an active secretary, and that all applications for credit were referred to him for investigation and report by the merchant to whom the application was made. He could ascertain from the other merchants whether or not this man was in the habit of paying his bills elsewhere and report accordingly. If he was in the dead beat class it could be made known to the others and he would either have to change his method of doing a credit business or pay cash and the merchants would either get their money or the man would not get their goods. The saving would pay the salary of a pretty good man, and he could do lots of the other things that are needed in the way of booming DeFunlak and Walton county.

☛ We live too fast in America. We have not enough holidays—not enough resting places—not enough intermission in our work day world. It were better if oftener to have laid aside its tools—traffic and trade stopped, now and then, to consider its aim and end.

There must be an oasis in every desert. The black Sierra has its sunlit valleys. There are smiling nooks even among the Cordilleras. Halting places there are, great rocks and their shadows, even in the dreariest land. He who builds up a shelter for the storm beaten and foot weary pilgrim over the road traced by the "great caravan," is a benefactor to his race and his memory should be cherished while holidays are observed.

Holiday time! Who would care to know why and whence came the custom,

Enough to know that care per force must smooth his wrinkled front, and fun and frolic for the time rule the hour. It were folly not to enjoy the glimpses of sunshine that come through the cloud rifts, short lived and evanescent though they be. They prove that there is brightness beyond—that no clouds are so dense but stray beams may penetrate them.

Then let our banks have a holiday every week and the stores a half holiday, and between times we will endeavor to transact a little business.

☛ A lady in Orlando in her hurry to start for church took from the closet what she supposed was her raincoat, threw it over her arm and on arriving at church threw it over the back of the seat and then discovered that it was a pair of her husband's trousers. "And Father hasn't spoke to Mother since."

☛ A woodpecker sat on a knotty limb; his head was red and his temper grim; for the world was out of whack with him. He had hammered the stumps till his head did swim; he had looked for worms till his eyes were dim; he had punched each tree and knot and limb, and darn the bug there was for him. Not a song he sung, not a woodland hymn, for how can a bird with hunger ailm, and gaunt starvation grewsome grim, looking right into the eyes of him, get up a voice like a cherubim, and with melody make the welkin swim? His crop was vacant, and only a whim, was in the stomach of him. Then he flew to the river and drowned him, and never made an effort to swim. His last words were "Oh birdie trim, why did you vote for that hawk so prim, who got to work on each woodland limb, and placed a trust on the buga of thim? It's like the farmer gaunt and grim, who gets surrounded by a rim of trusts that fill him to the brim with wind till there's naught in the stomach of him". The woodpecker then was out of breath, and the fish that ate him starved to death.

☛ Senator Massey was in the city last Friday to look over the situation regarding the new charter and the extension of the city limits and to decide for himself and his colleagues in the Senate the merits of the case.

I am glad to see Senator Massey looking into this matter. I have always stood for a fair shake for every man on every question and do not believe in "rough riding" over the people on these matters of vital importance. Do not mis-

take my position on this matter for I am strongly in favor of the charter bill as a whole and favor the extension of the city limits but the wishes of the people should always be consulted and the visit of Senator Massey to the seat of war means that the matter will receive the consideration of that august body before the charter is passed.

It may be legal to pass these bills without consulting the people but it is not right all reports to the contrary notwithstanding. If this measure had been thoroughly threshed out before we would never have had such a turmoil over it afterward and while I admit that some people in Sanford would kick on everything and anything I do not recede from my position that these measures ought to be talked over first. One of our prominent statesman made the remark in speaking about the rights of the masses "To hell with the people" but such a statement is not sound logic and savors more of Russia where the wishes of the common people are never consulted. Your free born American citizen has a right to his opinion and will generally express it upon all occasions. It is the right and privilege of our people to know about the doings of the council and the city limits should not be changed at will unless some statement is made beforehand.

☛ I wish to commend our county commissioners for their decision to establish drawbridges at the Osteen and Geneva ferries and to do so at once. Our own commissioner, Frank Woodruff, has been very active in this good move and realizes more than any other member the necessity of these bridges. With the activity being displayed by smaller counties than ours in the bridge and road building line our good county of Orange cannot afford to take a back seat. We have always led the van in these matters and with brick roads and good bridges Orange County will again be in the lead. Every citizen should assist in this great work in every way possible.

City Council Meets

Council met in regular session May 18 at 7:30 p. m. Present—D. L. Thrasher, president; W. D. Holden, B. A. Howard, S. Runge. Absent—J. D. Davison and H. R. Stevens.

Minutes of last meeting read and approved.

M. F. Robinson and F. P. Forster appeared before the council and asked that the city take over the Sanford Library Association property and conduct a free library. On motion the chair appointed a committee of three, consisting of himself, W. D. Holden and B. A. Howard to take the matter under advisement.

Petition of Mr. Gabbett regarding sewer across his property was referred to street committee.

On motion the clerk was instructed to mail the trustees of the Sanford High School a certified copy of the opinion of Geo. A. DeCotte, city attorney, in regard to payment of G. P. Pope additional compensation for building new High School building.

On motion bill of A. Robbins for curbing was ordered paid.

On motion the sewer west of the Sanford House was referred to the street committee with power to act.

The following recommendation was then adopted: Put in new lights, all incandescent, Sixth St. and Palmetto Ave., Tenth and Myrtle, Tenth and Elm, Second and Laurel, Second and French. Cut out arc and substitute incandescent, Third and Magnolia, Tenth and Oak, Second and Elm, First and French, Third and Palmetto, Tenth and Sanford. Cut out incandescent and substitute arc, First and Elm, Second and Magnolia. Put in new arc, Second and Palmetto.

On motion council then adjourned.

M. W. Lovell, Clerk.

More Fruit—More Money

The twenty-page pamphlet bearing the above attractive title fully meets the expectations of its readers. It is tasty in design and has practical grove methods advocated in the pleasing manner common to all literature issued by Wilson & Toomer Fertilizer Co., Jacksonville, who are pleased to send copies free on request. The staff of this firm are experienced, citrus growers who keep up with the latest scientific researches. Their writings are quoted as authority by many of the best writers and speakers in the state; while in the grove their advice is considered second to none for it always is a practical solution of the troubles occurring. They place this service at the command of the public, knowing the success of the fertilizer business depends upon the success of the growers, and we trust our readers interested in Florida products will get in communication with them.

GOOD BUSINESS FOR SALE

One of The Best Equipped Carriage Factory in State
 W. H. Underwood of this city wishes to dispose of his mammoth carriage factory because he expects to embark in the business of manufacturing crates and barrels. Mr. Underwood has a fine two story brick building 80x117 feet on two lots. The location is excellent, being on Oak Avenue between Second and Third Streets. The plant is complete in every particular and besides the large stock of buggies, wagons and harness and implements contains a blacksmith shop, general repair shop, paint shop, complete wood working and iron working shop and is equipped throughout for the manufacture, repair and sale of buggies, wagons and harness. A flowing well furnishes water for drinking and washing purposes and the concrete floors make the building fire proof. In all this is one of the most complete plants in the state and anyone seeking a new location would do well to see Mr. Underwood at once as he intends to let go as soon as possible. This is not a forced sale but the plant and building will go at cost.

What the Free List Will Do
 Chairman Underwood's Free List bill is creating much discussion throughout the country. It has caused Republican papers to spread the ink over many columns and indulge in much fiery talk about "tariff tappers," but as yet these party organs have not been able to say anything against the main proposition, the enormous amount that will be saved to the consumers of the county if the bill becomes a law. It has been called the Farmers' Free List, but there are many items on the list that will save the consumers other than farmers millions of dollars annually.

It has been estimated by the Washington correspondent of the New York World that the passage of the Free List bill would save the consumers of the United States \$300,000,000 each year. This correspondent has discovered that the net values of the articles on the free list at the present tariff rates are as follows:

- Salt, \$9,550,824.
 - Agricultural implements, \$90,627,110.
 - Bagging for cotton, sacks, burlaps, etc., \$26,031,844.
 - Cotton ties, hoop or band iron, \$12,639,953.
 - Leather, boots and shoes, harness and saddles, \$493,005,263.
 - Barbed and other fence wire, wire rods, etc., \$112,027,205.
 - Fresh and preserved meats, \$614,895,219.
 - Flour and grits, cereals and bread, \$665,041,533.
 - Lumber, laths and shingles, \$699,599,293.
- If the Free List becomes law, the saving to consumers on each of these items would be as follows:
- On salt, \$4,862,005.
 - Agricultural implements, \$13,876,541.
 - Bagging, sacks, etc., \$8,99,099.
 - Cotton ties, \$2,017,336.
 - Leather, boots and shoes, etc., \$37,483,788.
 - Barbed wire, etc., \$92,861,066.
 - Fresh and preserved meats, \$133,493,752.
 - Flour, grits, etc., \$18,355,446.
 - Lumber, laths, etc., \$9,956,859.
- That \$37,000,000 item on shoes is about as interesting, or a little more, to the man in the city as it is to the man with the hoe.
- That item of \$133,493,752 on meats will appeal to all taxpayers except the vegetarians, and the \$18,355,146 that will be saved on flour, grits, etc., will appeal to all.
- It is called the Farmers' Free List, but it is like the "good, old time religion" in that "it is good for everybody."—Pensacola News.

The Hungry Window

G. W. Spencer, the man that makes your mouth water with cakes, pies and confections has arranged a hungry window in the store of J. D. Roberts. A fine display of bread, cakes and pies piled high in the window demonstrates the ability of the baker in charge. Spencerian bread is the new kind that beats Mother's and the old fashioned way. The loaf is extra big and has a twist on top that reminds you of a braid. The bread is fine grained and has no air holes and the taste is the kind that lingers. You want to get "Spencerian twist" the next time you buy bread.

STANDARD OIL KNOCKED OUT

Giant Trust Is Dissolved By Supreme Court This Week

May 16.—In the supreme court of the United States late yesterday afternoon Chief Justice White handed down the decision of the court in the matter of the United States of America vs. the Standard Oil company of New Jersey and its nineteen subsidiary corporations. The decision was adverse to the Standard Oil company, which is declared to be a combination in restraint of trade.

The decision orders that the corporation be dissolved, and it is given six months' time in which to do so. There can be no appeal taken from this decision, and it marks the dissolution of the greatest trust that has ever been brought into being anywhere. It marks the ending of litigation which has lasted for years, and in which has some of the keenest legal minds in the country have had a part.

Origin of Mothers Day

When sweet-minded Miss Annie Jarvis, of Philadelphia, hit upon a plan of remembrance to commemorate the home-going of her mother in 1906, little did she think that in the short space of six years practically the whole civilized world would accept a day to render honor to the name of mother, whether living or dead.

After deciding on the form of honoring her own mother, Miss Jarvis hit upon the plan of having the whole world honor the mother, and broached the matter to Dr. George W. Bailey, secretary of the World's Sunday School Association. Dr. Bailey at once saw the opportunities in the theme and realized the gigantic aid that could be rendered so great an undertaking by the World's Sunday School Association. The matter was taken up and the Sunday School pupils of the world Sunday paid honor to mother, and all over the world little acts of kindness in honor of mother, if living, and acts of remembrance, if dead, were a feature. All over America the white carnation was worn in memory of her who inculcates the greatest and sweetest love. In local churches here Sunday Mothers' Day was fittingly observed. It takes place every year on the second Sunday in May.

The Sanford Charter

The article in the Times-Union of May 11, on this subject was so timed, whether intentional or not, that it came out on Thursday, reached Sanford in the afternoon too late to receive notice in the Herald of the next day.

Articles in the Times-Union—"Tyranny Under Republics" and "Legislative Courtesy" were given attention in the Herald in the order in which they were published. The Herald was used for several reasons. It is our home paper; the place where our domestic affairs should be discussed, it is the paper our home folks read. Many citizens of Sanford do not read the Times-Union; it appears that the article published in the Times-Union were not for the edification of Sanford people; they were published, we are led to believe, as a message to the legislature.

With a representative lobbying at Tallahassee against a bill sent there with the endorsement of the city council and later supported by resolutions from the Commercial Club, it is difficult to understand the necessity for communicating with the legislature via the "Peoples Forum" in the Times-Union.

As to the last article "The Sanford Charter". The writer believes he knows a large number of citizens who desire legislative approval of the bill, and he does not know of any one who has objected to a discussion of its merits. A meeting of the Commercial Club was held for this purpose and our fellow who wrote to the Times-Union May 10, was there; brought out substantially what he later wrote—he was attentively listened to. He was assured by Mr. Frank P. Forster, chairman that every man present would have all the time he wanted. His objections as to legality were responded to by Mr. T. Emmett Wilson and Mr. Geo. A. DeCottet—both lawyers who work on the proposed bill.

The Sanford correspondent of the Times-Union, who in the paper of the 15 inst., flippantly referred to Senator Massey's visit was also one of the debaters at the meeting of the Commercial Club.

One of the features of this bill which seems to annoy that part of our citizenship willing to ascribe questionable motives to those who advocate it, is the matter of contracts for public work awarded to city officials, for their information and that of the public in general the law is here given: Judge Minor S. Jones, of the Seventh Circuit, ruled that a county commissioner who had sold supplies at a "fair and reasonable price to the County of Dade, had violated the law and could not collect for same. The supreme court of Florida sustained Judge Jones.

About this time Senator Massey introduced a bill in the senate and secured its passage, making this same offense a crime; as per section 3470, general statutes. This Massey act was, at a later date (1907) amended by the Abernathy bill which extended the law to include municipal officers; General statutes 5062, page 206.

Now is it possible that any of our public servants will be able to obtain public work, should they desire to do so?

This charter was freely and fully discussed at a public meeting of the Commercial Club; a committee, consisting of Mr. Frank J. Woodruff, Mr. Geo. H. Fernald and Mr. J. N. Whitner, was appointed to draft resolutions to be sent to the legislature; the resolutions were read and discussed; they approved the bill and called on our representatives and our senator to urge passage by the legislature.

The vote on the resolutions stood 7 to 1 or a majority of 29 in favor of adoption,

the chairman left his chair, got out on the floor and made a personal count of the vote—there were only 5 votes in opposition. The inference to be drawn is if a large number of citizen objected to this charter, where were they then? The meeting was advertised in the Herald on Friday, to take place Wednesday night. On Wednesday hand bills or dodgers were scattered broadcast urging a large attendance.

Everybody had the opportunity to attend; discuss and object. Does a plain statement of the facts indicate a disposition to smuggle a bill through; does a plain statement of facts justify any persons charge that the advocates of the bill feared discussion?

Can any citizen of Sanford, who may be perfectly familiar with this agitation, show where this relation of facts is faulty?

A CITIZEN OF SANFORD.

Success at Hastings

Another week and Hastings will step out of the lime light and ring down the curtain on the most profitable season that she has had in several years. The weather during planting time was most favorable. The crop escaped from serious damage all through the growing period and though at times suffering for lack of rain, the admirable supply of flowing water obtained in all sections of this territory, furnished the necessary moisture to bring the crop to maturity. The yield has been up to the average, fifty barrels or better per acre being reported in many instances. The market, good at the start weakened during the third week but has now recovered and has passed the opening, with little prospect of going below the present figure, \$4, while Hastings uses it.

Forty dollars a load for potatoes delivered at the station. This soon amounts into money. But ten acres in Florida and a life of ease is all on paper and the farmer here who successfully brings a potato or any other truck crop to maturity puts more energy and knowledge into cultivation than the farmer of almost any other section of the country. The returns though large are hard earned and well deserved. The output of the section will excel that of any previous season, and the results of the season have demonstrated again that the soil and climate here are most fittingly adapted to the production of Irish potatoes and that in this crop Hastings has a crop that will "come back."—Hastings News.

The Case of McNamara

With reference to the coming trial of J. J. McNamara and other labor leaders with dynamiting the Los Angeles Times building, the Indianapolis Star says: "The previous good character and general esteem in which Mr. McNamara has been held," says the Star, "will encourage his many friends and all of us in hoping that his arrest may develop to be a mistake and that his connection with the Los Angeles outrage and any others may be disproved. It is necessary that the guilty should suffer, but it is quite as necessary that the innocent should go free. The offense with which he is charged is one of the most awful crimes of the century and it is to be hoped for his own sake, as well as for his family, friends and business associates that he can prove his innocence."

Bulletin

Some Observations On Florida Lands

DO Not come to Florida if you have not made up your mind to stay, to stick at it, to achieve something. The temporary pioneer is not desirable. There is nothing so damaging to this splendid section, and to Florida in general, as the reports of the merely tentative settlers who come here in the expectation of making a large fortune within a year, and, failing, return to their old homes depleted in purse, disgusted with the soil and the unaccustomed methods necessary to secure crops, with the climate,—disgusted with everything, in fact, and who use all their eloquence to dissuade others from investing or undertaking to establish their homes here.

There is Always a Reason for a Man's Failure. Before you are influenced by what a returning settler says about Florida, investigate why he failed to make good.

We do not encourage the tentative settler. It is not the kind of pioneering that benefits us or our section. It never promotes the best interests and progress of any country and never will in Florida.

Don't expect to get rich quick here in a day or two. Dollars do not grow on trees; and do not come here without money. The more accustomed you have been in making a dollar go a long way, the easier will be your first months on Volusia Farms.

Volusia Farms needs sturdy men and women, mentally and physically able to conduct farming as it is done here under Florida's sunny skies. Volusia Farms needs the permanent settler with small capital; large determination and industry who will not beat a retreat at the first disappointment. To such people Volusia Farms offers opportunities practically without limit.

WE Have never advocated the purchase of any of our lands sight unseen. While we have sold hundreds of acres to people who never saw the land before purchasing and have always given satisfaction, yet we prefer not to sell an acre without the purchaser personally makes a selection. The excursions running to Sanford from northern and central western states every first and third Tuesday of every month during the summer, afford every facility for coming to Sanford and Volusia Farms and making personal selection of a tract of this rich agricultural

land.

See What You are Buying. Come here and investigate what we are offering you. Talk with the many people we have been instrumental in bringing here from all over the United States. The larger the number of people we can induce to come here on a tour of inspection, the more quickly we shall close out our Volusia Farms, for the closer you know this tract the better it becomes.

HAS It ever occurred to you that there must be some sound fundamental reasons for Florida lands to be priced so low compared with lands in the north and west and even in the deserts where irrigation companies plan to supply water AT A PRICE!

The principal reason is, I take it, that Florida is only just beginning to come into her own. For many, many years she has been neglected. Development has just about begun, and developing a State as large as Florida, whose shore line is long enough to extend from Jacksonville to Boston, takes time. It takes people, too, and money. Development could not take place were our lands priced on a basis of their earning capacity to start with, but that time is coming. In the development of any country there must be inducements for people to come in and cultivate the soil.

Florida's Inducement to You Today is the Low Price of Her Good Lands

The development of the past three years has been wonderful. Immense wealth has been taken from the soil—TAKEN, mind you, not WRESTED as you wrest with the hard, heavy soils up north—and now the natural tendency and the natural law of supply and demand is toward higher prices for these income bearing lands.

For years lands were almost given away simply because the Floridian HAD NO IDEA OF THEIR PRODUCING POSSIBILITIES; diversified farming was unknown. Witness now, the transformation of a few years. Even the day of twenty dollars an acre land has passed, and the time of thirty dollars an acre land is passing everywhere. If I am any judge of the Florida land situation and the purchase of large tracts consummated during this Spring are any criterion of coming events, I believe the coming fall and winter will see Florida lands retailing for \$50 an acre and upward according to locality and transportation.

Volusia Farms is worth every cent of \$50 an acre today and those who invest in the development stage are the people who will make the best turn-over. We have sold quite a large number of farms and the territory is opening up in an immensely satisfactory way to our settlers and to us.

SEVERAL times in these columns I have spoken of the apparent hindering of the development of Florida by the large financial interests, and the reasons why the Howard-Packard lands are good investments. I have just been reading an article in "Moody's Magazine" (a financial authority) relative to the large earnings of banks and trust companies who hoodwink the small depositor by ever saying 4 per cent is the utmost dividend to be expected consistent with safety.

In the face of this legend, the banks themselves are declaring dividends as high as 40 per cent made with YOUR money. Compilation of the profits of sixty-seven banks in the borough of Manhattan, New York city, after showing earnings of 17.19 per cent, declared dividends of 10.33 per cent. The dividends of the Liberty National amounted to 25 per cent for the year, the Chase National 20 per cent., the First National 40 per cent., the Mercantile Trust Company 25 per cent. and so on, these figures being for the fiscal year ending last June, according to Moody's.

Unquestionably to influence a depositor not to draw from the savings bank for wild speculation is sound advice—very sound and commendable advice, but an investment in Volusia Farms at present price is NOT a speculation. Not one of the tracts of land offered by this Company has ever been a speculation. The VALUE was there in the beginning and higher value is there today. There has been more speculation in the stocks of the Northern Pacific and other railroads by the financiers than there ever can be with our lands, because our lands and prices are RIGHT. Our methods of doing business are RIGHT. We invite the strictest investigation of ourselves and of our lands. Our business has a better non-speculative foundation than thousands of business you yourself could mention.

Investigate for yourself the advisability of your Volusia farm investment remembering that good real estate in an advancing country is the basis of wealth.

Tarring Shell Roads.

An experiment is being made by Street Commissioner Cray of St. Augustine, Fla., with a tar binder on the shell paving on South St. George street. The results of the test proved to be entirely satisfactory, and it may solve the problem of making the shell pavement more lasting at slight expense. Six hundred square yards were treated at a cost of 4 1/2 cents a yard. The surface was first scarified and then graded to a crown. While the shell was in this loose condition gas tar was applied, and the street was then rolled with the steam roller. There is every indication that the street will now shed the water better in rains and that the gas tar will act as a binder, preventing the shell from grinding up and blowing away.

Sanford Charter Bill

The Herald's special Tallahassee correspondent wires today as follows:

"The Sanford charter bill is on calendar of bills on second reading the Senate having already passed the house. Senator Massey reports that it will probably be considered when the next local bill calendar is taken up, date not given.

We give this for the benefit of our readers who have been making inquiries regarding the bill.

THE SANFORD HERALD

Published every Friday Morning at Sanford, Fla. R. J. HOLLY, Editor and Proprietor. Subscription Price, \$2.00 a Year in Advance.

Office in Herald Building Telephone No. 148.

In the spring a young man's fancy lightly turns to thoughts of—stung again—baseball.

Swat the fly wherever you find him for upon his death depends the safety of the city during the summer months.

The bill to prohibit seining will work a hardship on those firms engaged in fishing, but oh! you angler with the hook and line!

The Live Oak Democrat aptly remarks that the man who is not thinking now of hooks and lines must have the hook-worm.

One man killed and one seriously wounded over a debt in Jacksonville and a man killed in Birmingham for the same cause would indicate that collections are not as good as they might be.

ROUTED AT LAST

After a struggle of six years against one of the wealthiest and best organized combinations in the United States, the book trust, and its allied forces, the people of Florida are to be congratulated over one of the greatest legislative victories ever achieved in the history of the State.

TRIBULATIONS OF THE EXPRESS COMPANY

An article in the Jacksonville Metropolitan states that the Southern Express Company is prospering in Jacksonville and might put up a building some time and have property of their own.

So speaks the Sanford Herald, which lives among the celery kings and is as conversant with the trials and tribulations of the patrons of the Southern Express Company as if it dwelt in Dade county.

During the progress of the case heard last week by the Interstate Commerce Commission it was brought out by the attorney for the Florida Railroad Commission that the profits of the Southern Express Company in 1910 was only two million dollars and that they possess quite four hundred thousand dollars worth of property to earn this sum—surely there is something wrong in a corporation earning a couple of million dollars a year on an invested capital of much less than half a million!

We are surprised at the Sanford Herald becoming sarcastic in this matter, and hope to see it start a movement making toward the municipal establishment of commodious quarters for the oppressed company, in every town in Florida. When corporations are not making more than two hundred per cent on their investments they should be given privileges to compensate for the deficit, by public spirited citizens and in the instance of the Southern Express Company their own attorney says that their patrons are satisfied that their charges are not oppressive, that indeed they are "moderate"—so this "moderate" way of calling attention to a measly dividend of 147 per cent (when it must be quite 250 per cent) is certainly unkind.—Miami Metropolis.

DOINGS AT TALLAHASSEE

Much Important Legislation Disposed Of This Week

Last week the investigation into the source of the evident bribe offered Mr. Wall was brought to a close by the committee filing its report. The report was a very complete one, all the testimony taken being submitted with the report.

The question of the school text book contracts was disposed of last Monday. There were four pending bills providing for the State Uniformity of school books and for the state to contract for them in bulk.

Monday afternoon the house killed the measure providing the three agricultural schools introduced by Mr. West of Santa Rosa. Also the house refused to adopt the Joint Resolution in reference to the initiative and referendum, however a motion for reconsideration is pending.

Tuesday the house considered a list of appropriation bills. The bill to take fifty thousand dollars (\$50,000) from the fund derived from the hire of convicts and place to the credit of a fund to improve the Insane Asylum was killed.

The bill for redistricting the Judicial Circuits was passed by the senate and the house of representatives by decisive votes. There is some apprehension that the governor will veto the bill but since the vote was so large he probably will sign the bill.

The house had under consideration all Wednesday morning the bills of Mr. Angle of polk providing for the abolition of the Convict Lease System and the creation of a State Highway Commission and also the submitting of the question of bonding the state for good roads.

John Lindsay Rose

John Lindsay Rose, the only son of Clarence W. and Lizzie E. Rose, was born, December 6th, 1895, at Indianapolis, Indiana, and passed on to the higher life May 14th, 1911, at Sanford Florida, and his body was laid at rest at Orlando Florida May 18th. Age 15 years, 8 months and 8 days. His life here was brief.

Take Off Impatient Train

Division Passenger Agent J. G. Kirkland of the Atlantic Coast Line, with headquarters in Tampa, yesterday requested the publication of an announcement that train Nos. 27 and 28 of that system operating between Sanford and Lakeland will be discontinued on May 20.

The two trains mentioned, which have been in operation for several months past, have proved a great convenience to residents of the sections affected and great joy was manifested when they were first put in effect. The additional trains have enabled residents and business men to transact business in nearby towns without loss of time.

DO TELL US.

Why is it when a woman shoes a hen She cannot throw as straight as gentlemen?

Is it because she has too many curves That from her hand the missile always swerves.

Swats her poor husband in the eyes Or through the parlor window flies?

Why is it when the preacher's asked to dine His kind eye sparkles like rich ancient wine?

Does he have vision like prophetic seer. That brings the distant chicken near?

Say, can he smell roast rooster a whole year before The ax has spilled the cackling victim's gore?

Why is it, now, that poor old Johnny Slow Has never made the grocer business go?

Why do big cobwebs festoon all his shelves And rats and mice swarm out to help themselves?

Now tell me why that poor soul can't succeed Like yonder money making Billy Speed.

Well, dear, we'll answer this for you If you'll reply to questions one and two. Bill Speed believes in using printer's ink, And that's just why he's making piles of chink.

His store and goods are just the proper caper Because he advertises in this paper.

C. M. BARNITZ.

Vanity.

"Daughter?" "Yes, mother?" "You will take cold in that thin dress."

"Does it look pretty, mother?" "Very pretty."

"Then I can't take cold."

She Did.

"Madge is married."

"Is she?" "Yes."

"Did she marry a rich man?" "I think so; Madge has been to grand opera and has nervous prostration."

Unknown Tongue.

"Funny thing about Brown."

"What?" "His wife believes everything he says."

"Is that so? I wonder what language the man speaks."

Tricks of the Trade.

"Why didn't you call him?" "On four kings?" "Sure."

"Oh, no. That was what he gave them to me for."

If She Must Know.

"Are you coming to my concert?" "I am afraid not."

"Oh, why not?" "Well, the fact is I am too fond of music."

Injured.

"He has lost his reputation."

"Did he find it again?" "Yes, but somebody had stepped on it."

Defined.

"What is a bluff?" "Something made out of nothing."

Orange Grove for Sale

R. E. No. 1346, Sawyer Grove. Price, \$10,000. 13 Acre Grove. 850 Citrus Trees.

E. 1/2 of E. 1/2 of N. E. 1/4, Section 2, Tp. 20 south, range 29 east, 40 acres; N. W. 1/4 of N. W. 1/4 of Section 1, Tp. 20 south, range 29 east, 40 acres.

This is high ping land, situated on the banks of two small lakes, opposite and in full view of Pine Crest Inn, an abandoned hotel, and about one mile from Pine Crest station on the Sanford and St. Petersburg branch of the A. C. L. railroad, and about 1 1/2 miles from Paola, Orange County, Florida. Small barn.

The grove contains about 13 acres, with 850 trees, of which about half are large sweet seedlings, and the other half tangerines, Hart's Late and Valencia Late, with a few Boon's early. All in bearing. This is a very desirable grove and bears regular and prolific crops of nice fruit.

Mr. D. H. C. Rabun, who lives 2 miles west of Sanford, is in charge of this and other groves.

TO DOWN EXPRESS COMPANY

Florida Has Bill for Railroads to Perform Express Service

Jacksonville, Florida.—Large shippers who have been heard from are a unit in approving the Massey-Hudson bill now before the legislature of this State, requiring all railroads to maintain express service and allowing these carriers a rate of 150 per cent over the usual freight charges for this special service. The R. R. commission is authorized to exempt interstate divisions and no contract now operative will be disturbed, the roads, however, are to be prohibited from renewing same. All railroads under the bill would be required to maintain messengers and to afford the same facilities now given by the Southern Express Co., which, it is conceded, pays to each of the lines over which it operates 55 per cent of its gross receipts as a royalty. The Southern Express charges, according to general reports, now average about 200 per cent over those of the railroads. The bill, if it becomes a law, would work a general revolution in the handling of vegetables and fruit to the East from this State. The present arrangement whereby vegetables are brought from various sections to this city and here shipped in bulk over the steamship line to New York is a most profitable one for the Southern Express. The proposed law would break this up, and it is claimed would result in the rates to New York being cut by nearly half.—Produce News.

Named New Theatre

The new moving picture theatre was christened Monday in due form as planned by the owners of the company. All last week the visitors to this show-house were given an opportunity to name the theatre and as a result many hundreds of names were turned in. The committee are sure that every available name in the Latin, French, and English dictionaries was suggested. Everything was presented from "Hippodrome" to "La Vegetable" and "Lucky Sanford". However after careful consideration the name "Star" was selected as being short, easily remembered, significant, and easily advertised, and owing to the fact that there were many such suggestions.

The committee was composed of D. L. Thrasher, H. E. Tolar, and W. M. Haynes. Miss Kate Underwood afterward drew the lucky number and received the \$500 in gold.

To Make Better Cities

Philadelphia, Pa., May 18.—Representatives of two hundred American cities as well as a number of distinguished guests from abroad, were present when the third city planning conference of the National Municipal League was opened here today.

It is stated that New York, Chicago, Cleveland, and scores of smaller cities throughout the land have in contemplation vast schemes of municipal improvement, which will involve the expenditure of hundreds of millions of dollars, and it is to direct these projects in the right channels and to exchange plans and ideas that the present conference is held.

The California Assembly has passed a law requiring the commission men to take out a license at a cost of \$10 per year to carry on their business; they must also give a bond of \$3,000 to cover proper returns to the farmers and growers whose produce they handle. The merchant must report to the sender within two days after the receipt of a shipment the condition in which the material was received; must also keep a record in detail of the sale of the same and furnish said record to the sender when requested to do so in writing within ten days after the sale has been made. This act is strict but has the approval of the better class of commission men, who say that it will lend dignity and stability to a business now under suspicion.

Meeting of the Presbytery

Revs. S. L. Wilson of Oakland, G. H. Ferran of DeLand, Chas. Kingsley and B. H. Kingsley and the Leesburg and Dade City church was dissolved and Mr. Kingsley dismissed to Macklensburg Presbytery, N. C.

Rev. S. L. Wilson preach a fine sermon at night and Rev. C. H. Ferran delighted the congregation with his excellent singing.

Attention Blue And Gray

Sunday May, 23rd there will be Memorial Services at the Congregational church. Rev. Geo. B. Waldron, the pastor officiating. All survivors of the late civil war, who reside or are visiting here are urged and requested to meet at the post-office at 10:40 a. m., and all march together to the new church on Park and 3rd street. All friends are invited.

Respectfully,

ASCENDED UP ON HIGH WHERE HE WAS BEFORE

How He Led a Multitude of Captives.

What the Ascension of Jesus Implied For Himself and For the World.

He led a multitude of captives.—(Ephesians iv, 8-10).

Baltimore, Md., May 21.—Pastor Russell of the Brooklyn Tabernacle preached here twice today to large and attentive audiences. We report one of his discourses from the text, "When He ascended up on high" (Ephesians iv, 8-10).

In this week occurs the anniversary of Jesus' ascension. In one sense of the word our Lord ascended (that is, from human nature and the tomb, to the divine nature and immortality) at the time of His resurrection from the dead. He tarried, however, for forty days, with the Apostles for their establishment and instruction—He on the spirit plane, invisible to them, except when He manifested Himself by appearing miraculously in various forms to convince them that He was no longer deceased, and also that He was no longer confined to human conditions.

"Flesh and Blood Cannot Inherit the Kingdom of God."

We are not, however, to suppose for a moment that Jesus ascended a fleshly or human being; we remember, on the contrary, that "flesh and blood cannot inherit the Kingdom of God," and that "He was put to death in the flesh but quickened in the spirit," and that thenceforth, as the Apostle declares, "The Lord is that Spirit" (II Corinthians iii, 17).

To suppose that Jesus went to heaven a man is to mistake the significance of His title, The Son of Man, which He maintains, as identifying Him with His great redemptive work—as one of His many titles. To suppose that Jesus is a human being in heaven would be to suppose that He is still as when in the flesh, "a little lower than the angels," whereas the Scriptures declare that He has ascended far higher, so that all the angels of God, as well as men, are commanded to worship Him. To suppose Jesus in heaven a human being would be to suppose Him out of all harmony with heavenly, spiritual conditions and surroundings.

Moreover, are we not told that the Church of Christ will be changed from the human to the spirit condition in the resurrection, and that this change will make the "elect of God" like their Redeemer, so that they may see Him as He is, not as He was—that they may see Him in glory, honor and immortality, exaltation, and not as the humiliated One Who was made flesh that He might sacrifice His flesh on man's behalf? When we so thought we forgot the Scriptural declaration that "flesh and blood cannot inherit the Kingdom of God."

A Multitude of Captives.

Our text, in a figurative way, represents the ascension of Jesus from the earthly plane to the heavenly as the triumph of a great Conqueror. His had gained ascendancy over Adam and his race, and had brought mankind low to the dust, mentally, morally and physically. Moreover, this victory over man had been gained in a legal manner—through one man's disobedience (Romans v, 12). The Logos divested Himself of His glory on the spirit plane, was made flesh, fulfilled the demands of the Law, proved Himself competent to pay the sinners' ransom-price, and gave Himself a ransom for all, "to be testified in due time" (I Timothy ii, 6).

Thus the great Conqueror is seen returning to the heavenly state, acclaimed by the Heavenly Host; and following Him far down the centuries, the prophetic view saw, first the Church, the "Royal Priesthood," "His brethren," "His Bride," delivered from the power of sin and death, through the merit of His blood. And these were but the first corps of a following host—"a kind of first-fruits to God of His creatures," rescued from sin and from death (James i, 18; Revelation xiv, 4).

Later on, stretching down for a thousand years beyond the Church's deliverance, the prophetic pen foretells countless hosts of every nation, people, kindred and tongue, to be delivered from the power of sin and death through the merit of Him Who died, "the Just for the unjust." Now the Savior of the Church, His Bride, He will shortly be the Savior of the world, its Great King, Great Teacher, Great Priest, Great Mediator. During the thousand years of His reign Satan will be bound, ignorance and superstition

shall become scattered before the light of the New Dispensation, mankind shall be uplifted to human perfection and blessed with an earthly Eden—all that was lost by Adam and redeemed for man through the death of Jesus.

Then will come the glorious consummation, when all who will have refused Divine grace shall have been destroyed in the Second Death—then shall be heard every creature in heaven and on earth and under the earth saying, "Glory to God in the Highest."

MILLIONS OF LIVES.

An Awful Toll Collected by Consumption—Many Unnecessary Deaths.

If people could only understand that systematic catarrh is an internal disease that external applications cannot cure, they would not need to be warned so often about this malady, which, when neglected, paves the way oftentimes for consumption, at the cost of millions of lives every year. Yet catarrh may be cured, if the right treatment is employed.

The only way to successfully treat catarrh is by employing a medicine which is absorbed and carried by the blood to all parts of the system, so that the mucous membrane or internal lining of the body is toned up and made capable of resisting the infection of consumption and other diseases.

We have a remedy prepared from the prescription of a physician who for thirty years studied and made catarrh a specialty, and whose record was a patient restored to health in every case where his treatment was followed as prescribed. This remedy is Rexall Mucu-Tone. We are so positive that it will completely overcome catarrh in all its various forms, whether acute or chronic, that we promise to return every penny paid us for the medicine in every case where it fails or for any reason does not satisfy the user.

We want you to try Rexall Mucu-Tone on our recommendation and guarantee.

We are right here where you live, and you do not contract any obligation or risk when you try Rexall Mucu-Tone on our guarantee. We have Rexall Mucu-Tone in two sizes, 50 cents and \$1.00. Very often the taking of one 50-cent bottle is sufficient to make a marked impression upon the case. Of course in chronic cases a longer treatment is necessary. The average in such instances is three \$1.00 bottles. Remember you can obtain Rexall Remedies only at our store—The Rexall Store.

FEATHERS AND EGGSHELLS.

When a Mount Holly (N. J.) judge gave a chicken thief seven years he was certainly handing down some law to those false hair splitting judges who make a distinction between stealing a brass watch and a pure Silver Wyandotte rooster.

When roasting a goose the cook need not add fat, as they furnish their own grease for baking. The man who carves an old gander must furnish his own elbow grease also, and lots of it.

Since meat products have gone so high much of the so called pure protein beef scrap has dropped down low in quality. Real beef scrap is brown in color, mealy and has little odor, and that like roast beef.

During the past year Pennsylvania produced 75,000,000 dozen of eggs. As she now stands second in population in the Union it is time for her to move up on poultry products. Think of all those people only raising 2,000,000 fowls!

On the first day of the Philadelphia show, where 5,000 birds were exhibited, there were 1,500 paid admissions. A lecture was delivered on "The Gentle Art of Being Honest." The roosters with false tails and painted plumage clapped and crowed approval when the speaker rapped the fowls.

When your fowls have an epidemic of bowel trouble and you find they are very lousy don't be profuse in the use of louse powder at such a time, as it may aggravate the trouble. Some powders cause like conditions.

Much of the so called alfalfa sold in the east as first grade western product smells about as much like the original as the odor of a skunk cabbage resembles that of a rose.

In feeding cut clover sift out the coarse stems, as these are apt to cause hard crop. If hens do not have clover, alfalfa or greens they will eat straw, leaves, long hay or even excelsior to offset the hard grain fed. Such filler is killer.

It is quite interesting to read the descriptions of alfalfa and its easy culture in certain seed catalogues. Some of our eastern farmers who bought seed and sowed it on wornout hillside have found its growth a decidedly uphill job.

Sprouted oats is excellent green food, but it should not be allowed to grow too long. If not crisp and tender when fed it mats in the crop, and the fowl can only be saved by an operation.

Little ducks do love lettuce and tender sprouted oats, which make them that lively that we have never been able to snap them with a camera.

Improved transportation is the forerunner of increased values.

Improvement of the Wekiva
We understand that U. S. Engineer F. W. Bruce visited the Wekiva river last week for the purpose of seeing conditions along the river, looking towards getting an appropriation for a survey of the stream, also for cleaning out and deepening for navigation.

It is very gratifying to the people—also land owners, to see that the government is beginning to look in and investigate these streams, that with so little cost be made navigable and open up on each side a vast territory of the richest land in the state to cultivation and fruit raising. There is also for miles on either side, large tracts of pine and cypress timber—the finest in the country; large naval stores opportunities, some already in operation, mills and various others industries that this river will afford by having a quick outlet to the St. Johns river. This stream is fed from its source by the noted Wekiva Springs, and along on both sides to the St. Johns, a distance of about twenty miles, a number of clear water springs flow into it, thus reinforcing the water supply all the way down, and the water power that it will develop will be of great value.

The only means of transportation now is the A. C. L. railroad, that crosses it about half way from its source to the mouth, and for miles on each side no transportation with out a long distance to haul over the sandy roads.

We hope every citizen of west Orange and east Lake county will help in bringing this valuable and rich territory before our representatives in Washington, and get an appropriation for the improvement of this river.—Tavares Herald.

POINTS PURELY PERSONAL

How Celery City Vanity Fair While Away the Golden Hours—Social Gossip.

The Magnolia Bridge Club is the newest social organization in Sanford. Mrs. J. W. Dickens entertained the club on Wednesday afternoon. There were three tables of players and a very enjoyable game of bridge was played, highest score being made by Mrs. C. O. McLaughlin.

Mrs. S. O. Chase was the charming hostess of the Auction bridge club Monday afternoon. Mrs. B. W. Herndon was the fortunate one to make top score and receive the prize.

The Welaka club kept open house as usual on Tuesday afternoon, with Mrs. J. W. Dickens, Miss Mable Bowler, and Mrs. S. O. Shinholser receiving. With an informal musical program and bridge the afternoon was pleasantly spent. Miss Flossie Frank, Miss Mable Hand, and Miss Linda Leffler added greatly to the pleasure of the afternoon with their musical selections.

Mrs. C. E. Morrow entertained the Home Mission Society of the Methodist Church at her home on Palmetto Avenue last Tuesday afternoon. In the absence of the President Mrs. M. H. Bowler presided. After the business session adjourned, a very pleasant social half hour was spent. The hostess assisted by Miss Jessie Stumon and Miss Genie Wicker, served dainty refreshments.

Home Mission Society Meets
 The Home Mission society of the Methodist church chartered two cars last Friday evening and gave a moonlight car ride. The destination was H. H. Chappell's beautiful country home, where the evening was spent. A splendid musical program was rendered, refreshments served and the whole affair proved most pleasant. About two hundred people took advantage of the opportunity to spend a pleasant evening and to help a worthy cause.

Sanford Music Club Meets
 The Sanford Music Club met at Comfort Cottage last Saturday afternoon at which time the annual election of officers took place as follows: President, Mrs. M. Martin; Vice-President, Mrs. Fannie Munson; Secretary and Treasurer, Mrs. R. E. Tolar; Choral Director, Mrs. George L. Hoy. Interesting plans were made for work next year.

Music for the Star
 The Star will have good music guaranteed to the patrons having secured Messrs. Witherington and Mahoney. A new large electric sign will also be installed to guide the footsteps of the pleasure seeker at night.

The Hum of the Hive.

The principal products—honey and wax—were never in greater demand than at the present time, and bee-keeping bids fair to soon take a higher rank among the productive industries than as hitherto been accorded it.

There is but one kind of honey for the farmer to produce for his own use, and that is "chunk," comb honey cut out of the frame and put into jars to be kept.

When a queen is no longer young some instinct teaches the bees that they should look ahead and prepare for future contingencies. The doctrine so frequently enunciated, "Keep only young queens," is simply a lesson taught us by the wisdom of the bees.

The long nights may be turned to good account by the handy man in the mending of supers, etc., that may not be in use. The work can be done thoroughly, as there is no hurry as in the summer when the whole of the parts and fitting are upon active service, so to speak.

Don't set the hives in neat rows, with the entrances all facing one way. They can be placed in pairs, but the pairs should be scattered as widely as possible. This is an important point, but it would take a page to explain all the whys.

It is well to open up and ventilate the bee cellar occasionally for an hour or two after dark and to sweep and gather up any dead bees that may have accumulated on the cellar floor.

Why be content with ten or twenty pounds of surplus honey per hive when a little careful manipulation will mean seventy-five or even 100 pounds from every prosperous colony in a good season?

THE FARM HEN.

Mr. Bryan surely knows a good hen when he sees her. Listen to his flight: "I went out to the barnyard and took off my hat to the American hen, for her product is all over the world." "That's what!" cackles Biddy. "You're not like those city farmers at Washington who have hatched the fake that we rural cluckers lay but sixty eggs a year, sit most the time and don't know an egg from a door-knob."

Hats off, gentlemen, to the farm hen. She is Uncle Sam's chief poultry asset, does the most to make him a billion richer a year and would do even better if Farmer Cornfossil didn't let her forage in the corncrib, visit the grain mow, stuff on the thrashing floor and raid the granary.

She thus often gets too fat, doesn't lay so well because her egg machine is crowded with fat and doesn't lay so many winter eggs because fat makes her molt late, and she spends most of the winter growing a new gown. Most farm flocks are pure bred and well cared for notwithstanding certain cushion pressing poultry editors put the farm flock in the bum class and call the farmer a bughouse poultryman.

We advise such a city farmer to get the kink out of his think by a tour of the farms, to tickle his palate and astonish his inner man with chicken as only a farmer's wife can mature it and cook it.

Then, with his constitution full of pully bird, let him take the platform and pose as a poultry star at a farmers' institute, tell what he knows about poultry science and be cross examined by the "Rubes" present.

Will his think machine get a hot-box? Will he be knocked into the middle of next week? Yea, verily.

He shall finally return to his cushion a sadder but a wiser man.

WHEN TO DRAG.

Begin in the spring when the frost has left the ground and the road begins to dry, but while yet muddy.

Drag immediately after very prolonged rain throughout the season.

Drag in the fall just before the ground freezes.

Drag in the winter if the frost leaves the ground. It will freeze smooth.

Do not drag a dry road.

Best grade preserves and pickles just in, call and try them. W. W. Long. 26-11

ALL MY PIMPLES GONE

Girl Tells How a Blotchy Skin Was Cleansed By a Simple Wash.

"I was ashamed of my face," writes Miss Minnie Pickard of Altamahaw, N. C. "It was all full of pimples and scars, but after using D. D. D. Prescription I can say that now there is no sign of that Eczema, and that was three years ago."

D. D. D. has become so famous as a cure and instant relief in Eczema and all other serious skin diseases, that its value is sometimes overlooked in clearing up rash, pimples, blackheads, and all other minor forms of skin impurities.

The fact is, that while D. D. D. is so penetrating that it strikes to the very root of Eczema or any other serious trouble, the soothing Oil of Wintergreen, Thymol and other ingredients are so carefully compounded there is no wash for the skin made that can compare with this great household remedy for every kind of skin trouble.

D. D. D. is pleasant to use, perfectly harmless to the most delicate skin, and absolutely reliable. A 25-cent bottle will give you positive proof of the wonderful effectiveness of this great remedy.

COLE 30.

The Car You'll Be Proud To Own

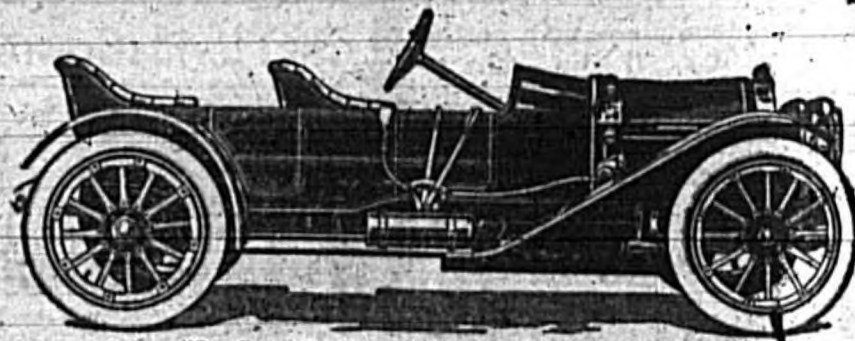

You Must See These Cars To Appreciate Them.—It is so easy when one is thoroughly enthused about such a magnificent car as the Cole 30 to say that "nothing like it has ever been sold at anywhere near the price of the 1911 Cole 30"—to say that "it's the classiest car of them all"—that "it's the car you'll be proud to own"—"you will marvel that such a car can be sold at the price."

We can write volumes and present argument after argument to prove to you that these statements are merely absolute facts—but after it is all said our crowning argument must always be "see the car—have it demonstrated—compare it with other cars selling at the same price." When you have done this, we are willing to abide by your judgement.

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

By rushing unfinished business through and shortening the time given to speakers, the Southern Baptist Convention, which has been in session in Jacksonville since last Wednesday, adjourned Monday afternoon, to meet in Oklahoma City next May.

It is reported that the Seaboard Air Line will shortly extend its tracts from Mulberry to Bartow, a distance of some 12 miles. This will be a continuation of the trackage which the road recently extended from Nichols to Mulberry, the heart of the rich phosphate mining section in Polk county.

The meeting of the Florida fertilizer manufacturers, which was held at the Tampa Yacht and Country Club Saturday afternoon, came to a conclusion in the evening and resulted in the forming of a state organization, electing L. R. Woods, president of the Gulf Fertilizer Company of Tampa, as its head, while R. B. Thomas, who is president of the Independent Fertilizer Company of Jacksonville, was made secretary-treasurer.

Mrs. William Shields and Mrs. John D. Cannon, members of prominent Palatka families, were drowned while bathing at South Beach on Tuesday. The ladies were among the large crowd on the beach today on the Red Men's annual excursion.

Practically all of Orlando's business men have signed an agreement to close their establishments on Thursday afternoons until October 1.

The report of the municipal light and water plant at Lakeland for a period of a year and nine months, including the whole of 1909 and nine months of 1910, show a profit to the city of \$7,623.93 on a total business of \$24,363.87. This exhibits a clearing of 31 per cent, which would seem to be doing pretty well.

An Afternoon of Music

Mrs. W. T. Johns assisted by Mrs. Addie Foote Homrighous, entertained the Ladies Chorus, in her charming home last Friday afternoon.

Several of Mrs. Homrighous's vocal pupils and other friends of both ladies, were invited to enjoy the afternoon of music with the chorus.

Mrs. Geo. L. Speer, contributed to the pleasure of the ladies by two bright lively songs. Misses Flossie Frank and Mabel Bowler, sang two duets; Mrs. H. C. Maitland, two sweet solos, and Miss Helen St. Johns, a well rendered Italian solo. The chorus sang two of their selections.

A very pleasing feature of the afternoon's entertainment, was a most cleverly arranged musical contest, by Mrs. Homrighous, who had made a number of copies of a short history, of an imaginary musical trip—leaving blanks to be filled by names of songs or music, by the bright ones; who were up to date with all the popular songs and music; the correct names of which, made stay of the trip continuous and complete.

This very interesting trip, was made more so, by the ingenious use of the names, of each member of the chorus, who were served as a luncheon, for the narrator, before the trip was concluded.

To prevent brain fog, which might be occasioned by deep thought over the unique contest Mrs. Johns served delicious cream and cake which, with the refreshing punch partaken of during the afternoon saved the ladies from any danger of serious results.

Dainty souvenirs of the occasion were beautiful sprays of roses painted on white cards with a fine picture of Mrs. Homrighous on the reverse side.

The invited guests, were the Ladies' Chorus: Mrs. C. E. Walker, Mrs. G. D. Waldron, Mrs. J. C. McDaniel, Mrs. Greenman, Mrs. Witte, Mrs. M. H. Bowler, Misses Laura Flab, Helen St. John, Madge Ward, Flossie Frank, Mabel Bowler, Gladys Gardner, Jessle Stumon, Joale Stumon, Mel Whitner, Alice Whitner, Mrs. Wight, Mrs. Munson, Mrs. Overman, Mrs. Jessie Speer, Mrs. Maitland, Mrs. Geo. L. Speer and Mrs. Cuet.

Underwoods for harness, saddles, horse and mule jewelry.

THE COLONEL'S MAID

Play By Literary Society Was Well Received Tuesday Night

The Colonel's Maid, a comedy in three acts, played at the High School Auditorium Tuesday evening by the Literary Society of the Sanford High School was one of the best amateur performances ever witnessed in Sanford, and from the rise of the curtain the gifted young people were greeted with applause from a very large and appreciative audience.

The play given annually by the Literary Society, which is the opening of the High School Commencement exercises, is always one of the most pleasing features of the week. The Colonel's Maid, a bright sparkling little comedy proved unusually well suited to the histrionic powers of the performers, and each one is deserving of special mention. Karl Roumillat played the part of Colonel Rudd, a widower of North Carolina and Abie O. Kanner a widower of South Carolina, and were mortal enemies, having fought a duel in their youth, owing to the fact that both were in love with the same girl. They were still laboring under the delusion that the other had won her, when in reality she had married neither, and was at this time the charming widow Mrs. John J. Carroll, Miss Carrie Lovell acted the part of this attractive widow most admirably and Miss Clarissa Starling, as Julia Carroll her pretty daughter was greatly admired. Miss Sadie Williams made quite a hit as Marjorie Byrd the cute winsome little maid as also did Clarence Mahoney as the handsome Rob Rudd. They were not as antagonistic as their respective fathers' were, but the principals in a very pretty little love affair that culminated in a wedding. Osborne Herndon played the part of Ned Grayson the young man with a falling memory and and was continually in the trouble on account of it, furnishing much amusement.

Mr. James Baskom was Colonel's lawyer, and the part was nicely taken by Harry Kanner. Cling-al-Ling, the Chinese cook and though somewhat impertinent was by far the most important individual in the cast. This was a difficult role, but was well played by W. Vail Lovell.

Between acts excellent music was furnished by Miss Carrie Lovell and Mr. Witherington.

The whole play went off without the delays usual in amateur performances, and much credit is due the performers as well as those who have so skillfully trained them.

"Carmena Waltz" sweetly sung by the High School Chorus brought to a close an evening's entertainment of real pleasure.

Growers Making Money

The late crops in this section are making money for the growers and many of them are recouping their losses on other crops. Several growers who lost their potato crop by frost planted the ground in tomatoes and are now receiving \$2.00 per crate f. o. b. Sanford.

The movement of vegetables of the tomato, cucumber, pepper, green corn and other varieties has been very active during the week. One grower will market \$3,000 worth of green corn from a 10 acre tract, from which he secured two crops of lettuce and one of celery during the season. The corn crop has not cost him \$5 an acre to produce.

There is considerable activity in city and farm property. Several transactions in building lots were made during the week and the building prospects are fair for the summer. Considerable farm property is being sold and some new lands are being cleared and made ready for fall planting.

High School Publication

The High School publication, Salamagundi, has made its appearance and is better than ever. The work is in pamphlet form of 48 pages and cover and is replete with good stories, small chats of school life, half tone cuts of the school buildings and pen and ink drawings by the scholars. The printing was done by Chas. L. Wing and is a credit to him in every way. Salamagundi is a good advertisement for our schools and every one should purchase a copy and send it to their friends.

Palmto Avenue Improving

Palmto avenue is receiving a new impetus since the High School building has been erected. Several new homes have been constructed on this avenue in the past six months, among them being a fine double apartment house belonging to W. R. Gardner.

ORGANIZE ELKS LODGE

Antlered Herd Has a Gay Time In The City

STARTS WITH FINE MEMBERSHIP

Fifty-Three Names are Enrolled Upon Charter List and Lodge has Good Prospects

Sanford Lodge of Elks organized Friday night with a membership roll of fifty-three. For several weeks past the boys had been on the qui vive over the organization of what promises to be one of the best Lodges of Elks in the state. The city presented a gala day appearance, every store being decorated with bunting and the colors of the Elks. The visiting members were met at the afternoon train by the Elks and fauns and the procession headed by the string band of a drum and fife paraded the principal streets. The candidates were grotesque in mother Hubbard and harem skirts and were led by the attendants carrying pitch forks. A real lion's cage carried no less a personage than Mayor Lake himself, who had left his duties as representative at Tallahassee to become a member of the Lodge. The procession halted at the temporary quarters in the Stone-Gore block where the festivities began, eight candidates being led over the burning sands to the edification of the jargo crowd present. The Lodge was instituted by the Grand Lodge of Emergency from Orlando composed of B. C. Abernathy, Leading Knight; M. O. Overstreet, Loyal Knight; Joseph H. Jones, Lecturing Knight and W. T. Sims, Esquire, District Deputy Browne occupying chair of Grand Exalted Knight.

About fifty members of the Orlando Lodge were present and put through the candidates as only the Orlando boys know how. The officers for Sanford Lodge were elected as follows: W. D. Holden, Exalted Ruler; C. M. Brodwater, Esteemed Leading Knight; W. H. Underwood, Esteemed Loyal Knight; Harold Haskins, Esteemed Lecturing Knight; O. L. Taylor, Secretary; W. L. Morgan, Treasurer; Felix Frank, Tyler. Among the prominent Elks present were Hon. Jefferson B. Brown, District Deputy of Key-West and Hon. H. N. Hunt, Past District Deputy of Tampa, Fla.

The Elks will fit up temporary quarters in the Stone-Gore block, but like all good Elks expect to erect a handsome home in the near future. The Sanford Lodge will do much more toward benefitting the city socially and the membership is composed of some of the most prominent citizens of Sanford.

SANFORD WILL CELEBRATE

Big Time in The Old Town On The Fourth of July

Sanford just can't help keeping before the public and when our Natal Independence day arrives the people will flock to Sanford just as they have always done in the past. This Fourth of July we will not go broke on the proposition but our good citizens will give the visitors a jolly good time.

Our ball team is being licked into shape and Sanford and Orlando will play two games that day. There will be field events, a grand fish fry, street parades, tournaments and fireworks for the evening.

The ball games will be enough excitement but the other events will help some. There will also be sack races, climbing greasy pole, potato races, catching greasy pig and other events too numerous to mention. But prepare to come to Sanford on the Fourth of July—the town that treats you right. Watch for future announcements in The Herald.

Childrens Day Exercises

Childrens day exercises that is an annual feature in the Methodist church was beautifully celebrated in this church last Sunday. The church was beautifully decorated with ferns and quantities of cut flowers and the sweet bright faced children never appear to better advantage as they sang the sweet songs and took part in the lovely exercises.

One very pretty feature of the program was the "greeting to the babies" by the Supt. J. K. Mettinger as the cradle roll was called and withal there was a touch of sadness, as a little empty chair decorated with white roses was brought out, calling attention to the fact that one of the number, little Esther Spencer, had passed away. Voices of children under our flag brought the pretty exercises to a close.

EIGHTH GRADE ENTERTAINMENT

Large Class Graduates This Year From Grammar School

The graduating exercises of the eighth grade were held in the High School auditorium Wednesday. Long before the appointed time for the exercises to begin large numbers of the friends and parents of the graduates as well as others who are interested in the work of the schools repaired to the High School building. The time was well spent inspecting the splendid display of school work of the different grades that adorn the walls of the Auditorium. It was deemed advisable this year by the faculty to concentrate efforts in making this display of school work, and to have it all in one place, instead of the individual class exercises as has been customary. Exhibits from the first to the eighth grades are shown in each line of study, and has to be seen to be fully appreciated. There are many who are deserving of special mention for the excellence of their work. If space would permit. Too much cannot be said in praise of the art display and what has been accomplished by some of the little folks along this line under the teaching of Miss Savage.

Promptly at the appointed hour the graduating exercises began. To the strains of a beautiful march the girls entered from the right, led by the principal, Prof. N. J. Perkins, and Miss Flora Walker and Miss Gertie Speer, the eighth grade teachers. The boys came down the left aisle and were led by the school board, C. R. Walker, B. F. Whitner, L. R. Phillips and D. L. Thrasher. They marched on the stage, and took their places, the graduates in the center, the teachers on the right and the school board on the left.

The invocation was by Rev. G. B. Waldron. The first number was a chorus by the class entitled "Forest Warblers." Ethel Hickson read a splendid historical essay on Osceola, the Florida Indian Chief, who is always an interesting subject. "Mexico Yesterday" was the subject of Albert Fry's splendid essay. "Wanda," Carl Bohn, was a piano selection beautifully rendered by Muriel Harold and delighted the audience. "Mexico Today" was discussed in a very clever manner by Randall Chase. A bright little recitation by Annie Whitner entitled "New Hat" came next on the program. Wedding chorus from Ermine was sweetly sung by the class.

The address to the graduates was delivered by D. L. Thrasher and was a masterly effort, being full of wisdom good thoughts and kindly advice which it is needless to say that if the girls and boys will take unto themselves and profit by it they will doubtless fill places of honor as they go through life.

The presentation of certificates made by Prof. Perkins came next. He congratulated the class on what they had accomplished and urged them to push on to greater things and higher learning.

The following received diplomas:

Muriel Harold, Igerna Stout, Mary Lou Price, Ruth Vaughn, Annie Whitner, May Holland, Margaret Wight, Nellie Lough, Ethel Hickson, Laura Lee, Mattie Clark Knight, Daisy Betts, Phillip Allen, Randall Chase, Albert Fry, Fred Wight, Nirgil Clark, Maunsell Gabbott, Vivian Speer, Robert Deane, Harry Cobb, Willie Wynn, Sherman Routh, John Hunter, Joe Field, Howard Arnett, Billie Witherington, Eugene Singletary and Sanford Doudney.

Confirmation at Sanford

The Right Rev. W. J. Kenney D. D., Bishop of the Catholic diocese of St. Augustine visited Sanford May the twenty first, as the guest of Father Bresnahan the local pastor at the beautiful new parochial residence, erected recently by the resident catholics, who have spared no expense to make their new pastor as comfortable as possible. On Sunday, night Bishop Kenney confirmed a large class composed principally of children but quite a number of adults were notable among the candidates. Before the confirmation Bishop Kenney spoke eloquently to the large congregation that was present notwithstanding the inclemency of the weather. His explanation of the ceremony was specially lucid and the audience was well repaid for the inconvenience they suffered in going to the church.

Building More Houses

E. H. Herndon has so much faith in the future of Sanford that he has built one handsome residence and started another this week. His own home which was badly damaged by fire some time ago has been put in first class shape and the lot will soon contain three fine residences.

May 21—France paid a terrible toll last Sunday for her magnificent endeavor to attain supremacy of the air when an aeroplane the driver of which had lost control, plunged into a group of members of the cabinet who had gathered to witness the start of a race from Paris to Madrid, killing the minister of war and injuring the prime minister, his son and a well known sportsman.

One hundred thousand dollars for one season's crop of onions is what Mrs. Edwards C. Dodd, who is known as the Bermuda onion queen, will receive from the yield on 225 acres of her land near Laredo, Texas, this year.

Mrs. Alice Webb Duke, former wife of Brodie L. Duke, the multi-millionaire tobacco king, and six years ago mistress of a fortune of nearly \$25,000,000, is dying a pauper in the Illinois State Hospital for the insane at Kankakee.

The deadlock in the United States Senate over the election of a president pro tem, to succeed Speaker Fry, who resigned because of ill-health, continues. The chief candidates are Senator Gallinger on the Republican side and Senator Bacon on the Democratic side. The Senate is Republican, but owing to a factional fight in the party the members cannot combine upon the caucus nominee, and the result is the leading candidates are tied in the vote, while ten votes are scattered among minor candidates.

Export from the United States in the fiscal year 1911 will probably exceed by about 300 million dollars the figures of last year, and cross the two billion dollar line. The figures of exports of the Bureau of Statistics, Department of Commerce and Labor, for the seven months ending with April, show an excess of \$288,000,000 over those in the corresponding months of last year, and for the single month of April, an excess of \$25,000,000 over April of last year, thus indicating that the growth in exports in 1911 will approximate \$300,000,000, and the total exports of the year probably exceed two billion dollars.

Bills are pending in the Illinois Legislature to require the hotels to have sheets 100 inches long and 81 inches wide and to provide their guests with at least two clean towels a day.

Birmingham, Ala., has just floated \$300,000 municipal bonds at 31-2 per cent, the lowest rate the city has ever secured. This is said to be because it is under commission government and capitalists impressed with the business administration are not afraid to invest in the bonds.

George B. Cox, the Cincinnati Republican boss, having demonstrated that he owns the courts of his city, has again retired from politics.

A press report of the battle of Juarez says that 250 soldiers were wounded on both sides. It would seem bad enough to be wounded on one side.

Charter Bill Passed Senate

Advices from Tallahassee are to the effect that the Sanford Charter Bill passed the Senate with the following changes:

The Clerk and Assessor will be elected by the people; the Treasurer and Collector will be elected by the people; the Marshal to be appointed.

No person holding a franchise shall be elected to the office of Mayor or Council. No grant or contract or franchise can be made with the Mayor and Council.

Regarding the changes in the lines of the city extension the last line drawn on the west side seems to prevail which excludes the ice factory and several farms.

Saturday night May 13th, Mrs. Homrighous gave a song recital at the 1st Congregational church. The program was carefully arranged and all the parts were ably rendered. The house was filled, the entertainment was splendid, due to the careful training of all who participated by an able teacher. All seemed well pleased with the entertainment. No fee charged, but the free will offering was \$23.25, after deducting expenses the Congregational church received \$20.25.
