

COUZENS RAPS ENFORCERS OF BANKING LAWS

Senator From Michigan Blames Poor Enforcement For Detroit's Failures

DETROIT, Aug. 18.—(A.P.)—Senator James Couzens resumed his testimony in the Detroit bank investigation with the declaration that "while the depression had much to do with the bad condition of two local national banks, I am still ready to admit that much of it was due to the lack of law enforcement by federal authorities at Washington."

The Michigan Republican made the statement before Judge Henry B. Keenan who is sitting as a grand jury to investigate the causes of the Michigan bank holiday which marked the beginning of the national crisis.

Couzens' answer was made to questions by Prosecutor Harry S. Toy, who sought to show that the condition of the First National Bank of Detroit and the Guardian National Bank of Commerce at Detroit was the result of federal supervision. Both banks closed since the state holiday.

Three Slayers Pay For Their Crimes In Electric Chair

(By The Associated Press) Law is sometimes stupid and regrettably, but law is inexorable and regrettably, crime and death.

Four of them walked the "last miles" between yesterday's sunset and today's dawn, sitting down to death in the electric chair to pay for murders they had done.

One was a negro, R. T. Bennett, who was electrocuted by the state of Texas for murdering a Dallas woman by strangling her with a silk stocking. Big Sing saw the other die. The three men were executed at six minute intervals.

Boy Hurt In Attempt To Avoid Collision

Sanford, Aug. 18.—(A.P.)—A young boy was hurt in an attempt to avoid a collision with a large sedan which sped up on the path as he was crossing Southward on Park Avenue at Twentieth Street this morning.

State To Make Plea For Federal Relief

TALLAHASSEE, Aug. 18.—(A.P.)—J. P. Newell, secretary to Governor Sholtz, left for Washington to present before federal relief administration officials a plea that Florida not be required to match federal relief funds allocated to this state. Newell took extensive data on the damage to Florida by storms in 1928 and 1929, losses during the Mediterranean fruit fly quarantine and an outline of business conditions following the land boom of 1925 and '26.

ALLEGED BANDIT PAIR IS SHOT BY ARKANSAS POSSE

Husband Confederate Fatally Wounded, Wife Is Shot In Arm

SPRINGTOWN, Ark., Aug. 18.—(A.P.)—Gene Johnson, alleged confederate of the Wilbur Underhill gang of escaped Kansas prison convicts, was wounded fatally and his wife, Jewell Johnson, shot in the arm when a posse opened fire with machine guns and rifles at the Johnson farm home near here early yesterday.

A second alleged desperado and gunman, Leroy Wright, although believed to have been wounded, escaped from the posse of 100 Arkansas, Oklahoma and Kansas officers. Wright was being sought with blood hounds in the Benton County wilds north of Siloam Springs.

Johnson, wanted for the slaying of Patrolman Charles Hrus, of McPherson, Kan., May 14, was shot in the head and body. He was taken to a hospital at Siloam Springs where he died. His wife was placed in jail at Bentonville.

Racing Men Indicted For Doping Of Horses

CHICAGO, Aug. 18.—(A.P.)—Ten race horse owners, managers, trainers and employees were indicted by a federal grand jury today on charges that they violated narcotic laws in "doping" horses.

Among the principal defendants were A. A. Barni, described as an owner of race horses, Jack Howard and Benjamin Creech, both managers of stables owned by their wives. The indictments followed investigations at Chicago race tracks by federal agents.

Former Altamonte Mayor Proclaims Florida's Exhibit At World's Fair

Former Mayor B. L. Malbie of Altamonte Springs, writing to The Herald from his summer home at Buffalo, N. Y., joins the ever increasing list of local persons who are loud in their praise of the World's Fair at Chicago and the superiority of the Florida exhibit over those from other sections.

PRESIDENT IS SOLICITED TO USE INFLATION

Wallace, However, Is Not Too Enthusiastic Over Taking Action At This Time

WASHINGTON, Aug. 18.—(A.P.)—President Roosevelt was pressed yesterday to yield his emergency inflation powers immediately in an effort to arrest the fall in farm commodity prices and to boost others.

Almost at the same instant this plea was delivered at the White House, Secretary Wallace, widely known as an inflationist before he entered the Roosevelt cabinet, gave newspaper men a surprise statement that he considered inflation would lift the farm problem pressure only "temporarily."

The President himself, although watching carefully each dip and lift in the price trend, is keeping his own counsel upon any emergency moves he may have in mind. Yesterday he merely listened to Senator Smith of South Carolina and Representative Jones of Texas, chairmen of the Senate and House agriculture committees, respectively, urged Roosevelt to issue non-interest bearing treasury notes to meet government obligations.

There is power to issue \$3,200,000,000 in treasury notes, said Senator Smith. "I would use these or whatever amount is necessary to pay for the government's projects.

Bureau Charts Three Tropical Hurricanes

WASHINGTON, Aug. 18.—(A.P.)—The Weather Bureau issued the following storm warning: "A tropical disturbance of slight intensity is central about 175 miles west by north from Havana moving northward or north northward. A second tropical disturbance, probably of slight intensity, is central about 320 miles south of Puerto Rico moving westward. A third tropical disturbance, attended by gales, is central about latitude 18 and a half and longitude 84 moving apparently west by north."

Former Altamonte Mayor Proclaims Florida's Exhibit At World's Fair

Former Mayor B. L. Malbie of Altamonte Springs, writing to The Herald from his summer home at Buffalo, N. Y., joins the ever increasing list of local persons who are loud in their praise of the World's Fair at Chicago and the superiority of the Florida exhibit over those from other sections.

Administration Hands Oil Industry Code Calling For Production, Price Control

WASHINGTON, Aug. 18.—(A.P.)—In an effort to restore order in the chaotic affairs of the oil industry, the administration yesterday handed to petroleum leaders a trade code aligning the federal government's mighty powers in half of production and price control.

Machinery to supervise the flow of crude to market and regulate the price level at which it should move were provided in the plan, which Hugh S. Johnson, the industrial administrator, told oil men they would recommend to President Roosevelt today.

The program represented a compromise between viewpoints of Johnson and Secretary Wallace over the extent to which the government should supervise prices and production. It is to become effective two weeks after President Roosevelt's approval.

SHOLTZ ANXIOUS OVER DELAYS IN GETTING LOANS

TALLAHASSEE, Aug. 18.—(A.P.)—Governor Sholtz yesterday complained to the federal land bank officials in Columbia, S. C., and to Washington officials that delay in acting on Florida applications was causing hardships to growers and farmers of the state.

He telegraphed to the land bank in Columbia: "Complaints are being received that applications for loans from the state are not being acted upon. I am advised many applications are over 10 weeks old, and still in need of help. Prompt action by your bank would be of tremendous relief and on behalf of the people I am urging and requesting that everything be done now to relieve the tension and not when it is too late."

The bank replied by telegram that "every thing possible is being done and every effort is being made to expedite the handling of thousands of applicants as being received from all parts of the district."

Final Concert Held By Orchestra Here

At the end of their final concert of the summer season, officers and members of the Sanford Concert Orchestra publicly announced last night their gratitude and appreciation for the assistance which has been given the orchestra in the staging of its concerts during the past several weeks.

FULL FORCE OF NRA IS PLACED BEHIND DRIVE

Governmental Pressure May Also Be Turned Against Conflicting Elements

WASHINGTON, Aug. 18.—(A.P.)—The full force of the Roosevelt administration was put forth yesterday to bring under an NRA code the great petroleum industry with its billions of dollars investment.

There was every indication too that the same governmental pressure applied against conflicting elements among the oil operators was to be turned at once upon local violations of the President's Agreement, General Frank Evans, head of the campaign army, urged that all complaints be filed at once with the proper authorities.

Out of a closed conference at the White House with President Roosevelt, Hugh S. Johnson, the recovery administrator, brought a message of finality to the oil men who assembled before him to receive the code written by the administration to cover production and price fixing.

Green, Sears Express Regret Over Action

Both Congressman Lee Green and W. J. Sears, in letters to the Senate of the Senate County Chamber of Commerce today expressed regret over the fact that the scheduled Labor Day celebration has been called off but state that they are making every effort to revise or rearrange their schedule so that it will be possible for them to come to Sanford on an early date.

Volunteer Organization Will Seek Funds To Continue State's Exhibit

"Friends of Florida" is the name of a volunteer organization of leading Florida citizens who, almost immediately, will begin an intensive campaign to raise public subscriptions of at least \$1 for the purpose of guaranteeing the maintenance of the Florida Exhibit at the World's Fair.

Locally, H. M. Papworth and Linton E. Allen are members of the state-wide committee which has Lorenna A. Wilson, of Jacksonville, at its head. Karl Lehmann, trade body secretary, is credited with the plan of organization.

U. S. Destroyer Is Ordered To Leave Waters Of Havana

Action Taken As Conditions Throughout Country Are Said To Be Quieting Down

WASHINGTON, Aug. 18.—(A.P.)—The United States destroyer Taylor was ordered to leave Havana harbor today. Acting Secretary Phillips said that messages from Ambassador Welles in Havana indicated conditions throughout Cuba are quieting down in a very encouraging manner and that the presence of the warships in Havana harbor is no longer necessary to lend support to the Cuban government.

EVANS CALLS ON PUBLIC TO CHECK UPON VIOLATIONS

Information Brought Committee Will Be Kept Confidential

Calling upon all employees in the Sanford trading area to do their part in the NRA recovery campaign by assisting in the organization's efforts to check upon local violations of the President's Agreement, General Frank Evans, head of the campaign army, urged that all complaints be filed at once with the proper authorities.

"The employee who hasn't done his part in this drive by helping us to show up the employer who is illegally flying the Blue Eagle," General Evans declared, "is just as big a drawback to the campaign as the employer who fails to pay the prescribed minimum wage. It is going to be practically impossible for us to enforce this thing unless those who know of violations make known their complaints."

The Complaint Committee of the local NRA organization is composed of R. L. Glenn, Linton E. Allen, and Count Johnson. All complaints should be in writing, signed by the person filing the complaint, and mailed to R. L. Glenn, chairman Complaint Committee, NRA Headquarters, Sanford, Fla. It was explained the meaning.

J. St. Clair White's Father Death Victim

An extended illness curbed the work of J. St. Clair White, 79, father of J. St. Clair White, Jr., prominent West Palm Beach attorney, who died in his residence in Charleston, S. C. Sunday was in Biggin churchyard, Berkeley county, on the following day.

AMBASSADOR NAMED

WASHINGTON, Aug. 18.—(A.P.)—President Roosevelt is naming Ambassador to Cuba, Carlos Manresa De Cespedes, to succeed the late Ambassador Welles in Havana.

REVISED CODE OF NEWSPAPERS IS ISSUED BY NRA

Section Provides For Guarantee Of Freedom Of Press

WASHINGTON, Aug. 17.—(AP)—A revised modification of the president's re-employment agreement for the newspapers was issued yesterday by the national recovery administration to correct a provision in the agreement approved Tuesday night by Hugh S. Brown, recovery administrator.

The section erroneously omitted the one which would guarantee freedom of the press.

The section says: "On submitting or subscribing to this code, the publishers do not thereby agree to accept or comply with any other requirements than those herein contained, or waive their right to object to the imposition of any further or different requirements, or waive any constitutional rights or consent to the imposition of any requirements which might restrict or interfere with the constitutional guarantee of the freedom of the press."

The temporary agreement, to remain in force pending hearings and approval of a permanent code, sets hours and wages under which the code will be revised.

Under paragraph 9 of the newspaper code as approved by General Johnson pending hearings, contracts with employees are not to be affected in other ways.

MANY MEN ARE BEING PLACED BACK IN WORK

(Continued From Page 1) On the extent of national relief, the survey showed 3,745,567 families, or about 15,000,000 persons, were helped in June, which was a decrease from 4,425,268 families in May and a decrease from 4,448,338 in April. Total public funds spent in June were \$66,181,830 as compared with \$70,922,504 in May, \$81,129 in April, and about \$66,000,000 in March.

Madness described the figures as "very encouraging" and President Roosevelt expressed pleasure with the employment gains, pointing out the July report represents the fifth consecutive month in which an increase was shown over the corresponding months of last year.

The president looked upon increased retail demands for automobiles as another good sign. Last week's production was said to have brought the total for 1934 to the level of the entire output last year.

Twenty-seven of the 89 industries covered reported increases in output. Twenty-four of the 77 industries covered reported increases in wage earnings and 71 in payroll.

Weather From Solar Observations

Long distance weather forecasting, by means of a study of solar radiations, may soon become a reality, according to testimony of Dr. Charles G. Abbot, secretary of the Smithsonian Institution, before a House committee. Dr. Abbot has been studying the relation of solar radiation to weather for over thirty years.

Hoover's Policy On Bank Loans Is Given Praise

(Continued From Page 1) of the First National Bank—Detroit, of which Mills formerly was chairman, after the bank had closed unless he and his son, Edward, could underwrite all the stock.

The Fords said they would underwrite either all or none of it, said Mills relating that Henry Ford told him a pending \$100,000,000 loan to the bank could be obtained after the transaction and all depositors paid 50 percent at once.

Testifying he conferred with Hoover several times with Hoover, then President, on the approaching crisis, Mills said the President "said his task was much harder because of the opposition that had developed from Senator Couzens."

Machado's Wife Stops Journey In Philadelphia

(Continued From Page 1) least until tonight, and that further plans probably will be formulated in another telephone call.

Senora Machado, three daughters, three son-in-laws, five grandchildren and seven servants detained unexpectedly from their private car at the Pennsylvania railroad's Thirtieth street station yesterday.

employment were described by officials as those usually having seasonal declines. Obligations incurred for unemployment relief from public funds for April, May and June as reported to the Emergency Relief Administration, and the number of resident families given relief in those months from all public funds, by states, included:

Affidavit Charges Racket Involving Operation Of NRA

GAINESVILLE, Aug. 17.—(AP)—An affidavit charging J. R. Preer, former Ocala banker, with "grossly and feloniously defrauding and cheating" in connection with an employment agency, or club, which authorities said he formed, representing himself as acting under the NRA, was filed here yesterday by State Attorney J. C. Adkins. The affidavit was signed by M. Steptoe, who told authorities he was a member of the 25-cents-a-week-club being formed by Preer to find jobs for its members and to investigate to see that they received the hours and wages provided by NRA codes.

It charges that Preer represented to Steptoe and others that he was the representative of the national recovery administration. They paid Preer money, the affidavit said, "believeing that Preer is held under \$1000 bond."

He was arrested Monday night on complaint of local NRA authorities as he was conducting a meeting on Steptoe's front porch. Contending authorities had made a mistake, Preer's agency was entirely legal and he was representing himself as being connected with the NRA in any way.

Charges Against Guard Officer Ordered Dismissed

TALLAHASSEE, Aug. 17.—(AP)—Charges against the moral character and military fitness of Lieut. Col. Jacob H. Spengler, state head quartermaster and disbursing officer of the Florida national guard, were ordered dismissed yesterday by Governor Sholtz.

The governor approved recommendations of the military board which held hearings at St. Augustine some time ago. "Having carefully read the record and the findings of the board recommending dismissal of the charges against the officer, I approve the findings of the board," Governor Sholtz said in a letter gaining entrance to the suite.

Personals

Harry Joe Minarik is spending a short time in Lakeland visiting friends.

J. O. Andes and son, Junior, left yesterday for Coronado Beach where they will spend a week.

Mrs. O. C. Row and daughter, of Winter Haven, are spending a few days with the former's parents, Mr. and Mrs. Mack Young.

F. E. Roumillat, E. D. Mohley, and J. O. Laney attended the meeting of the Drug Institute in Jacksonville last night.

Walter R. Campbell has returned from Jacksonville where he attended a meeting last night of the Drug Institute.

Miss Katherine Kersey has returned home after spending several weeks visiting Mrs. S. C. Walker in Monticello and Mrs. Hubert Collins in Callum, Ga.

Mrs. Lee Ryals and Mrs. J. L. Strickland, of Cordele, Ga., are the guests of Mr. and Mrs. M. Rupert Strickland, Jr., at their home on Palmetto Avenue.

Mr. and Mrs. Linton E. Allen and daughter, Helen Elizabeth, spent yesterday afternoon and evening at Daytona Beach with Mr. and Mrs. L. Hawkins Connelly.

Mrs. M. Rupert Strickland, Jr. and guests, Mrs. Lee Ryals and Mrs. J. L. Strickland, of Cordele, Ga., are spending today in Kissimmee with friends.

Friends of Paul Jones, who underwent an operation Thursday at the Florida Spatorium in Orlando, is reported to be improving nicely.

Mr. and Mrs. J. Wertz Nease announce the birth of a son, J. Wertz, Jr., on Tuesday, Aug. 15, in Riverside Hospital. Mr. Nease has been making his home here for the past few months and will be joined here by Mrs. Nease and their son in the near future.

Forming a party spending Wednesday at Daytona Beach were: Mrs. Hugh Torrance and guests, Mrs. J. S. Crawford and daughter, Ivy, of Charlotte, N. C., Mrs. George Knight and son, George, Jr., Mrs. Peter Schaal and Miss Marilee Torrance.

Social Calendar

FRIDAY

The Ladies' Auxiliary of the local Elks' Lodge will meet at 8:00 P. M. at the Elks' Hall.

MONDAY

Circle Number Three of the First Baptist Church will meet at 8:30 o'clock with Mrs. A. B. Lovejoy at her home on Maple Avenue.

Circle Number Seven of the First Baptist Church will meet at 8:30 o'clock with Mrs. Sarah Stewart, Mellowville Avenue.

Boy Scouts Take Part In Picture At Milane

In his latest western drama for World Wide, Ken Maynard has the acting support of Troop No. 107, Los Angeles Council of Boy Scouts of America, who figure prominently in the story of "Drum Taps" which will be shown Saturday at the Milane Theatre.

Rarely is a Boy Scout troop permitted as a unit to take part in motion picture production. When the Los Angeles officials were informed of the nature of the story, and the extent to which the boys would participate in the action, the necessary permission was soon forthcoming.

This unique element adds another interest to the usual western thriller. The Scouts, with their scoutmasters, are shown in many of their activities. Pitching camp, signalling, flag ceremonies, campfire singing, first aid and riding are some of the maneuvers which are woven into the story of this novel outdoor drama.

In addition to the Scouts, there is the popular Ken Maynard, in a strong role as the protector of a girl and her aged father; his famous horse, "Tarzan," who

Mrs. Hoy Entertains For Her Bridge Club

Mrs. E. I. Hoy entertained the members of her contract club and a few other guests with a bridge luncheon given Wednesday morning at her home in San Lanta.

Mrs. Lee Ryals and Mrs. J. L. Strickland, of Cordele, Ga., house guests of Mrs. M. Rupert Strickland, Jr., were presented with mementoes of the occasion.

Bridge games were enjoyed until the noon hour when luncheon was served in courses from the bridge tables. Vases and bowls of garden flowers were used to adorn the rooms where the guests were received.

Those present were: Mrs. M. Rupert Strickland, Jr., and guests, Mrs. Lee Ryals, and Mrs. J. L. Strickland, of Cordele, Ga., Mrs. J. O. Laney, Mrs. E. H. Laney, Mrs. T. C. Bolt, Mrs. R. G. Fox, Mrs. G. E. McCall, Mrs. Edward S. McCall, Mrs. B. B. Baggett, and Mrs. Lee Conoley.

Local Radio Dealers Adopt Trading Code

Sanford radio dealers and radio service men have formed an organization and adopted a code of fair competition which is identical with that of the Florida State Radio Association code. It was announced today by W. D. Hoffmann, who was elected president of the local Association.

Under the code, which is on display at all radio shops in the city, local persons are given the same type of service at the same prices that are to be in effect in every other Florida city.

The local organization, known as the Sanford Radio Dealers and Service Association, was formed Tuesday night. Frank Bauer is vice-president, and H. V. Gardner is secretary and treasurer.

Speer And Lamson Inspect Properties

Mayor V. A. Speer and City Clerk E. S. Lamson made a short motor tour of the city yesterday for the purpose of inspecting properties which their owners declared are now assessed too high.

More than 50 such complaints have been on file at the City Hall for the past several weeks, and with the beginning of another tax collecting period only six weeks away, it is necessary that these complaints be ironed out as quickly as possible.

The City Commission is scheduled to meet next Monday night for the purpose of working on the assessment problem. That there may be several changes of importance was indicated at a recent meeting when the assessment problem was discussed for a brief period.

Mrs. Jene Roumillat and her sister, Miss Edna Harris, of Jacksonville, have returned from Daytona Beach where they spent a month.

again demonstrates what a fine actor he is; Kermit Maynard, Ken's brother, who appears for the first time in pictures as the hero's real brother; and Dorothy Dix, Junior Coughlan, Charles Stevens and others.

COUZENS RAPS ENFORCERS OF BANKING LAWS

(Continued From Page One)

bankers' handling of the national crisis.

"A lot of things happened in national banks for which no criminal prosecution can be brought," he said, "But if civilization is to exist and rely on criminal law and not on morals and ethics, we might as well give up. The ethics of banks here and outside could not be prosecuted, but some of the acts were as vicious and as shameful as could be."

Wednesday Wilson W. Mills, former chairman of the First National Bank-Detroit, the country's largest closed bank, accused Couzens of blocking an R. F. C. loan to the Union Guardian Trust Company of Detroit, that would, he said, have prevented the Michigan bank holiday, declared on Feb. 11.

Couzens retorted yesterday with a statement that not only himself but "every responsible government official" had opposed the loan because of insufficient collateral, declared the loan would not have prevented the closing of the banks, and charged Mills with failing to tell "all he knew" about the state's bank crisis.

Digesting from the reading of a voluminous chronology, the senator at times replied sharply to his questioner, and at one point cried:

"How many times do I have to tell you to make you understand me?"

Of the Dawes loan, he said: "Mr. Hoover called me by telephone during the political campaign and asked for a statement of my approval of the Dawes bank loan. I said I would be glad to do so if he got an opinion from his attorney general that I would not be violating the law. All loans had been confidential until about July 15, when a law was passed requiring the R. F. C. to report to Congress on all loans made in secrecy."

He said that while he did not formally issue the statement, he did approve the loan.

"The nation was shocked when it leaked out from some source unknown to me that Dawes, former president of the R. F. C., had got a loan of \$30,000,000," he said. "Of course, the party that was out of power capitalized on that. Frankly, that scared the R. F. C. and made it more cautious. I asked the Senate to appoint a committee of five, to investigate all loans made in secrecy."

"You must remember Dawes got his loan in June for a new bank. He was not going to put \$30,000,000 in an old bank and have the wise ones withdraw their money, but was going to give all depositors an equal chance." He said he approved the Dawes loan after an examination to determine whether the collateral was adequate.

The senator, reading from his manuscript, told of conferences with Henry Ford by telephone, and said that he (Couzens) offered to enter a joint guarantee with the motor magnate that the government would not suffer loss if it loaned the Union Guardian \$35,000,000, instead of the \$37,700,000 which the R. F. C. agreed was the limit under collateral offered.

Ford, he said, refused the offer, presumably because he did not want to "involve himself further" in the trust company.

Alleged Bandit Pair Is Shot By Arkansas posse

(Continued From Page One)

referred to Wright.

Mrs. Johnson's condition was not serious. When Johnson fell, he slumped in front of his wife, partly shielding her from the machine gun and rifle fire.

Miami, Okla., and Ottawa, Kan., officers arrived in Benton County late Wednesday with a "tip" that members of the Underhill gang were in hiding at a bus stop. The posse arrived at the Johnson home about midnight. The officers took posts within the home and awaited arrival of the trio, which came about 1 1/2 hours later.

As the three drove up, the officers demanded they surrender. When they started to leap from the car, the possemen blazed away.

Two men fell and Mrs. Johnson ran toward the officers. In the ensuing confusion the man believed to be Wright escaped. Mrs. Johnson said that since Aug. 4, when the house was purchased by her husband, the Underhill gang had used it at various times as a hideout. Frequently six of the gang were housed there at one time, she said.

In the farm house was found a large quantity of ammunition and a number of weapons.

Ottawa officers said Johnson and other members of the Underhill gang are wanted for the robbery of a Kansas bank recently. Pictures of Underhill and other desperadoes were found in the house.

The dwelling is a short distance from Hot Springs, Okla., where Lewis Hetchel, one of the 11 convicts who escaped from the Kansas State Penitentiary last Memorial Day, was captured June 2.

Florida Made Soap Is Introduced Here

"Buy in Florida" say the Orlando owners of the Bryce-Saine Co., makers of "Blue Heron" laundry soap which is to be introduced in Sanford starting tomorrow in Weekly's Better Food Stores.

They make this statement because insofar as is possible every article used in the manufacture of "Blue Heron" soap which is advertised as "Clean enough to eat" is purchased in Florida.

The concern is Florida owned and operated, and since Apr. 1 it has sold over 100,000 bars of this Florida made soap. Six of the nine ingredients used in the making and dispensing of the soap are purchased in Florida, it was

stated.

"Blue Heron" laundry soap contains bluing and is an effective water softener.

Mrs. J. M. McCaskill is legal agent for the Orlando concern.

Mrs. D. U. Wilder has returned to her home in Jacksonville after spending a week here with her mother, Mrs. John T. Braley, Palmetto Avenue.

Mrs. M. E. Minal has returned to her home on Palmetto Avenue

after spending four months at Daytona Beach.

Feds Drop 6 To 2 Game To Leesburg When Batting And Pitching Both Fail In Pinch

displayed a vigor and spirit that was far different from that of the old Bruin machine.

This same spirit manifested itself throughout the game, particularly after the Bruins had earned three runs in the second. Bruin owner Fred Harrison, who became the father of a young boy only the day before, sat in the stands with members of his family and was heard to remark that his club's victory over the Feds yesterday means definitely that the Bruins are going to finish first this half of the season.

"We're out to win and we're going to win" the young owner told friends and Fed fans.

The Bruins combined some hits and some "breaks" to score in the second. W. J. Hancock opened with a single past second, and Frank Hancock lifted a high fly which fell safely back of second when Bonner, Abbott, and Maxwell played the Alphonse and Gaston act.

With two on and no out, Melvin laid down a perfect bunt, spreading both runners up base. Jesse Dooley came through with a sharp single through short, scoring both runners. On the first pitch to Ferrazzi, Chapman made a perfect throw to get Dooley who was stealing the bag. Because no one covered, Dooley kept going to third. Ferrazzi came through with a high fly to Maxwell, and home came Dooley. Parrish singled to center and Minor hit Capps in the back, but Doogan ended the inning with a high fly to center.

Minor settled down for two innings, but he was powerless to prevent an unearned score in the fifth, his last inning on the mound. Capps reached first when Big Phillips muffed up an easy roller. Doogan sacrificed Capps to second, while a passed ball permitted Capps to go to third. Chapman came through with a perfect "squeeze" bunt, scoring Capps. W. Hancock finished out.

Lefty Lane, former Daytona Beach Islander and the league's leading hurler last year, took the mound for Sanford at the start of the sixth. He had not played ball for over two weeks, and considering that fact, he looked good on the mound despite the fact that the Bruins got to him for singles in the sixth, seventh, and eighth frames, and his own error and another passed ball contributed toward two runs in the ninth.

In the meantime, Ferrazzi was having no trouble at all. Roberts singled with Bonner on first in the first inning, but Abbott, Maxwell, and Phillips were in field. Barnes singled to start the second but he never got past third when Harrison, Chapman and Minor were in field out.

The Feds got to first and second on two errors and a walk in the third, but they could not score, while in the fourth, with one out, Barnes and Harrison both drew a walk, only to die on the bases when Chapman and Minor filed out.

From the third to the seventh the Feds were hitless. With two out in that inning, Bonner got his only hit but Roberts was an infield out.

After Fed fans had witnessed that eighth inning attack which netted two runs off the big Leesburg hurler who appeared to be tiring, they settled back to hopefully await another onslaught in the final frame.

But, the Bruins got the two runs back quickly as the Bruin ninth started. Parrish opened with a single to right. Capps bunted to Lane, but Lane threw the ball into center field trying to get Parrish, so that both runners were safe. A passed ball permitted both runners to move up a base, and Doogan singled to center, scoring both runners. A fast double play and a ground ball to Barnes brought an end to the scoring.

The Feds are hopefully awaiting Sunday's game here with the

though Lefty Flora was in trouble in every inning but two, sparkling support on the part of the entire Orlando team saved him in the pinches.

The Indians staged a rally in the ninth inning when Dull hit to deep left, only to be deprived of an extra base hit by Capps. Price and Headley singled in order, but Rubin and Howard went out on smashing blows to deep center. The Indians scored their only marker in the third on Kinsey's single, Howard's sacrifice and McMullen's error.

The Tigers took the lead in the fourth on a pair of hits, a fielder's choice and a wild pitch. They counted again in the fifth on Moore's double and Malby's single. Baker relieved Kinsey at the start of the sixth and gave way to Harrell after Reed was safe on a questionable decision in the ninth.

Reed, the league's leading batter got three singles and a walk

In four times up.

DAYTONA BEACH, NEW SMYRNA 2
DAYTONA BEACH, Aug. 18.—The Islanders went on a hitting spree at the expense of New Smyrna Cracker here yesterday in a Central Florida League game and won 15 to 2. The game was called at the end of the eighth.

New Smyrna sent out three pitchers. Smith, the first to face the Islander batsmen, gave up four hits good for five runs in one-third inning and then gave out to Wright, who gave up 12 blows good for 10 runs in the next seven frames. D. Brower finished the final session.

Holton, Spake and Harris hit home runs for the Islanders, Holton driving a run in ahead of him. The game was transferred from New Smyrna and the Islanders went to bat first.

BEGINNINGS OF CIVILIZATION IN U.S. ARE TRACED

Discovery Of Remains Of Mammoths, Bison And Relics Big Aid

PHILADELPHIA—Beginnings of civilization in America can now be placed back 15,000 years, by the discovery of mammoths, musk-ox, camel, and bison remains contemporaneous with relics of stone age man near Clovis, N. M., according to Edgar B. Howard, leader of the expedition from the University of Pennsylvania and the Philadelphia Academy of Natural Sciences.

At this time, the great glacier was slowly melting along the United States and the fertile southwestern section was slowly becoming arid. Men were just beginning to work together and co-operate in everyday affairs. They made themselves stone weapons with which to obtain food and animal skins for clothing. Instead of living alone, intent only on keeping alive, they found it advantageous to communicate their thoughts and ideas, giving rise to sign language and later to speech.

Unlike previous investigators who have reported similar finds, Mr. Howard did not immediately dig up the hearth remains, fossils and stone age weapons, but called on Dr. John C. Merriam, president of the Carnegie Institution of Washington; Dr. V. Van Stratten, director of the Royal Museum of Brussels, Belgium; Prof. Chester Stock of the California Institute of Technology, and Sir Arthur Smith Woodward, of London, to examine the site and confirm observations. In the past such finds have always been discounted by higher authorities as "poor over-achievement," but there can be no doubt this time.

Though to the layman this is just another fossil hunt, perhaps interesting, perhaps not, to the fossil hunter it means he can add chapters to the early history of the rise of civilization in a time when nature and the rocks were sole historians.

For instance, it is learned this section of New Mexico was not always a desert. Originally there was a string of small lakes or water holes here which emptied into the Brazos River whose source is now at some distance. The region at that time must have been fertile and well watered. Then came the upheaval of the Rockies, stopping the moisture laden west winds and drying up the regions to the east. The temperature must have been very cold too, for included in the mass of fossils are the remains of musk-oxen, now found only in northern Canada, Greenland and other parts of the arctic.

Mammoth remains are plentiful here, and these animals are known to have lived in cold regions because whose specimens have been found in Siberia completely imbedded in ice which kept them in cold storage thousands of years.

Finding the fossils of camels indicates that these animals became extinct in America contemporaneously with the rise of early man. Today they are strictly Old World in habitat.

The large quantity of shells shows that as the water supply was drying up, vast herds of animals became mired in mud which formerly marked shallow pond and lake beds here. Such climatic changes are known to have taken place close to the end of the last glacial period.

Sanford Team Is Eliminated From Orlando Tourney

By GEORGE STOVALL

The Sanford All-Star team was eliminated from the State diamond ball tournament in Orlando last night by a 6-4 score. The Foley Lumber Company of Jacksonville, were the victors. The Sanford boys played an inspired game, but inability to hit in the pinches cost them the game.

Although this was only the second game this year that the boys have played on the sixty-foot bases their fielding and base running were both almost to perfection.

Foley got two in the second on a single and home run. Three were made in the third on two singles, two walks, and passed balls. The other run was made when a double down the left foul line got past the fielder allowing the runner to come home. Sanford got two in the third on Evans' home run after Driggers had singled. A third was made in the fifth on a walk, stolen bases and a single. Finally in the eighth the fourth was added on two singles by Britt and Stemper as they beat out bunts dumped in front of the plate and the opposing infield blew up for the moment. A desperate stand was made in the ninth when Smith and Cordell singled in succession, but Kelly was a weak out in the infield to end the game.

The box score:

Sanford	AB	R	H	E
Evans, rf	4	1	1	2

Oil Industry Code Seeks Control Of Production, Price

(Continued From Page 1)

After that 99-day period, he is authorized to revise the 18.5 ratio formula and add "such additional formulae relative to the wholesaling and retailing of petroleum and its products in such manner as, in his opinion, may be necessary to effectuate the purposes of the national industrial recovery act."

The 18.5 ratio was decided on, the code set forth, because it was the average relationship during the 1928-1930 period. The base qualities to be used would be 36 to 38.9 gravity mid-continent for crude and the average group of three price per gallon of gasoline of 57-65 octane rating. Lower and higher quality crudes and gasolines would be cared for in their proper differential to this base.

Oil experts explained that the 1928-32 average for group 3 price gasoline was around 4 cents a gallon, and that under this provision, a barrel of crude would be approximately 71 cents.

With one exception—the increasing of hours for filling station employees from 40 to 48 a week—the wage and hour provisions of the code were the same as recently announced by Johnson as a modification of the President's blanket code.

It provides for a 40-hour week for marketing operation employ-

Oil Industry Code Seeks Control Of Production, Price

(Continued From Page 1)

ees, except filling station workers, and a like week for clerical employees in production, refining, and pipe line activities, with respective pay rates ranging from 40 to 47 cents an hour and from 45 to 52 cents, by geographic areas.

DEATH WARRANT SIGNED

TALLAHASSEE, Aug. 18.—(AP)—Governor Dave Sholtz yesterday signed a death warrant for Henry Johnson, Pinellas county negro, convicted of killing another negro. Execution was set for the week of Aug. 28.

HERE'S ONE DAD WHO KNOWS HOW TO STAY YOUNG!

IT'S easy to beat the birthdays. Just get the right things in the food you eat... the carbohydrates, proteins, minerals and vitamins that put the spring in your step and a wallop in both fists. That's exactly what Shredded Wheat will do. It's 100% whole wheat, with all the vital life-sustaining elements, with Nature's correct measure of bran. Nothing added, nothing taken away—ready cooked, ready to eat. Tastes great, too! Golden-brown biscuits, a generous helping of milk or cream, topped with fruit. Try this treat for ten mornings. Or order it for a sensible lunch. And step along with the happy hosts who eat Shredded Wheat... and stay young!
