NUMBER 132

NEW JERSEY ATTACKS 18TH AMENDMENT DECLARING IT TO BE VOID

Suit Is Argued In Supreme Court

RAISES QUESTIONS

LEGISLATIVE IN NATURE AND REVOLUTIONARY AMONG THE CHARGES BROUGHT.

Washington, March 29.—The 18th amendment to the federal constitution, known as the prohibition amendment is legislative in nature and revolutionary in character, Attorney General Thomas F. McCran, of New Jersey, stated in opening his argument before the United States supreme court in New Jersey's suit to have it declared void and the Volstead act unconstitutional. Eight points were discussed in the argument.

Attorney General McCran's brief declared that the 18th amendment was not constitutionally proposed; that the proposal is subject to judicial review; that congress did not by two-thirds in numbers of both houses, affirmatively vote for the proposal of the resolution; that three-fourths of the states have not ratified in the constitutional sense.

The brief also declared that the national prohibition act is not appropriate legislation; that there is no right in congress to legislate outside the bounds of the amendment; that the words "beverages purposes" sufficiently describe the limit within which congress will legislate and the term "intoxicating liquors" is its own definition; that the Volstead law fixing the standard is oppressive and unconstitutional in that it attempts to interfere with the right of physicians and druggists to furnish liquor that the institutions owned and conducted by the state of New Jersey are hampered and restricted by the arbitrary act of congress. The history of New Jersey and its relation to the government, both before and after adoption of the amendment, was discussed as regards the rights of states surrendered for the purpose of forming a more perfect union. These rights were detailed at length.

The brief also states that the seven amendment to the constitution prior to the eighteenth, or "prohibition amendment" are subjects relating to the structure and form of the government and are not amendments revolutionary in character and which deprive the states of their sovereign powers.

In a supplemental brief filed by New Jersey's attorney, general, the entirely novel point is made, that the right to amend the constitution is a right of the people of the United States as distinguished by the people of a particular state; that the people of the United States have only national powers; the police power being reserved to the states, and the right of internal police being a right of the people of New Jersey over which the people of the United States have no control. This right may not be taken from them without their consent.

Because of the number of cases arguments were not expected to be concluded before tomorrow. The cases today involved virtually the same questions as the Rhode Island, Kentucky and Massachusetts cases recently presented to the court, but the original New Jersey suit embodies a more extensive attack upon the validity of the 18th amendment and parts of the enforcement act than heretofore brought to the court's attention. The other New Jersey case which, brought by Christian Feigenpan, Newark brewer, and the Wisconsin suit, while attacking the validity of the amendment, involves principally the right to continue the manufacture of beer alleged to be non-intoxicating but containing more than one-half of 1 per cent alcohol the maximum allowed under the enforcement act.

Valdez Hotel Grill Opens
The grill of the Valdez Hotel opened Sunday at the noon hour

and there was a rush on from that time until the close late in the evening. The grill room of this fine new hotel like every other part of the hotel is first class as the management will not have anything else except the best. The room is, beautifully furnished and the service is excellent. Supplementing the tables is the lunch counter where the boys can get up to the bar and get the best of everything. This fine grill room is bound to appeal not only to the guests of the hotel but to the transients and to the home people who often want to grab off a quick lunch and get it where everything is neat and clean and up to date and the summer widowers will find the Valdez Grill a thing of beauty and a joy forever.

AMERICAN GENERAL AT PARIS

IS ORDERED HOME TO TESTIFY ABOUT CRUELTY TO AMERICAN SOLDIERS.

New York March 30 (By Associated Press) Brigadier General William S. Harts commander of the American troops in Paris arrived today on the steamer Lorraine having been ordered home to testify as to the cruelties charged to have been inflicted upon prisoners in the Paris district.

NEGRO'S BODY IS STRUNG TO POLE

IN KENTUCKY FOR COMMITTING ASSAULT ON YOUNG GIRL.

Paris, Ky., March 30 (By Associated Press) The body of Grant Smith the negro charged with attacking a white girl two months ago was found late yesterday afternoon hanging from a telegraph pole at Mays Lick, Ky.. He was taken from the officers who arrested him earlier in the evening here by forty unmasked men.

CELERY REACHED PEAK LAST WEEK'S SHIPMENTS BEING HIGHEST AVERAGE

About 240 Cars Were Shipped By Refrigerators

VERY LITTLE LEFT ANYWHERE EXCEPT SANFORD AND PRICE IS BOUND TO STAY PUT.

Last week was probably the biggest week in the history of celery movement here this season. About 240 cars of celery were shipped under the refrigeration and many others went by express and some by boat via the St. Johns river line. In all it was a big week not only from the number of cars but from the standpoint of price as the growers realize from \$2.50 to \$2.75 per crate and counting 350 crates to the car one can easily figure where the Sanford section was enriched by many thousands of dollars.

The weather is too hot just at present for the celery to carry as well as it might and the poor icing

GERMANY WILL STAY IN LIMIT

WILL NOT SEND LARGE ARMY INTO RUHR VALLEY ANY MORE.

Paris March 30 (By Associated Press) Assurances were given by Germany that she will not send into the Ruhr Valley any more regular troops than allowed by the Versailles treaty. Premier Millerand announced that if Germany violated the treaty by sending a strong force into the district France would occupy part of the neutral zone whether the allies agreed to it nor not.

OLD MISSIPPI ON RAMPAGE CAUSES FEARS

UPPER REACHES OF MISSISSIPPI RIVER LOOKS LIKE BIG SPRING-FLOODS HAVE STARTED.

LaCrosse Wis., March 30 (By Associated Press) Flood conditions are assuming a serious aspect on the upper Mississippi river. Rowboats were used in North LaCrosse to remove the household effects of people whose homes were flooded and under water and thousands of acres of farm lands are under water and a million and a half dollars of damage is already done to the Manistique Valley.

EMPLOYEES OF CHICAGO ON STRIKE

FROM CLERKS TO GARBAGE HANDLERS EMPLOYEES OF CITY ARE OUT.

Chicago March 30 (By Associated Press) Municipal clerks, stenographer and book keepers are on a strike today for higher wages and threatened a disruption of the city business. The Garbage Handlers went out shutting down the municipal garbage reduction plant. It is a concerted strike of eighteen thousand employees of the city.

Reduction of the police force and wholesale resignations of the firemen became a possibility when the city council rejected the budget carrying salary increases.

Reports From Isolated Regions Swells List of the Dead

MILLIONS IN POVERTY

HAVE BEEN DESTROYED BY HIGH WINDS AND RESULTANT BLAZES STARTED

Chicago March 30 (By Associated Press) The death toll in Sunday's tornado stood today at 161 with the fears expressed that the reports from isolated regions and the deaths from injuries might increase the totals if the reports that fifteen were killed at Stowall Georgia a verified total will increase to 176 of which 65 are in Georgia and Alabama. It is impossible to estimate the property damaged accurately but 15 millions is reported from Alabama, Ohio, Michigan, Illinois and Georgia.

Baseball Game Friday
 At Hilden Park, next Friday afternoon at 4:30 the Sanford High School team and the New Smyrna High School will play ball. Admission 25 cents and 35 cents.

TROUBLE IN UNION RAILWAY

AMERICAN FEDERATION SUSPENDS MAINTENANCE OF WAY EMPLOYEES FOR VIOLATIONS.

Detroit March 30 (By Associated Press) The United Brotherhood of Maintenance of Way Employees and Railway Shop Laborers have been suspended by the American Federation of Labor as the result of the union's refusal to relinquish jurisdiction over certain members which the Federation contended should belong to the Carpenter's Union. Negotiations will begin soon in an effort to settle the controversy.

ASSEMBLY RECOMMENDS EXPULSION

OF SOCIALIST MEMBERS OF NEW YORK AND CALLS THEM TRAITORS TO COUNTRY.

Albany, N. Y. March 30 (By Associated Press) Charging the Socialist party of America as now constituted "is a disloyal organization composed exclusively of perpetual traitors" the Assembly Judiciary Committee today recommended the expulsion of the five Socialist members whose fitness has been under investigation. The minority reports by two Democrats and two Republicans said the exclusion was a dangerous attack on representative government and the Assembly had no right to deprive the Socialists of their seats.

DENMARK THREATENED WITH REVOLT

KING CHRISTIAN REFUSES TO COMPLY WITH ULTIMATUM OF SOCIALISTS

Copenhagen March 30 (By Associated Press) King Christian refused today to comply with the ultimatum of the Social Democrats demanding that the reinstatement of the dismissed Zahle cabinet be made and the introduction of a more constitutional government for Denmark. A general strike is threatened and crowds on the public squares through out last night raised cries for the establishment of a republic.

COMMISSION MAKES NEW APPOINTMENTS

JUDGE HERRING MAD CITY ATTORNEY AND SCHELLE MAINES IS MADE MUNICIPAL JUDGE.

There have been several changes made in the official circle of the City Commission in the past few days. At a special meeting of the City Commissioners yesterday afternoon Municipal Judge Herring was appointed City Attorney to take the place made vacant by the resignation of Cary D. Landis and Schelle Maines was made Municipal Judge to take the place made vacant by the appointment of Judge Herring to City Attorney.

These appointments will give entire satisfaction to the people as both of these gentlemen are Sanford citizens and are well and favorably known not only to the legal profession but to the citizens of Sanford generally.

Georg Herring lately returned from France was at one time the County Judge of Seminole and recently has been the Municipal Judge of the City Commission being the first appointee. He should make a good City Attorney having had much experience in municipal affairs and the objection to the former city attorney being that he resided in DoLand there will be no objection to a Sanford man serving and the rules of the charter are being observed in the appointment of a resident of Sanford.

Schelle Maines is a well known attorney of this city at present serving as prosecuting attorney for the county and is entirely familiar with the duties devolving upon the Municipal Judge. He is a young man, has progressive ideas, believes in tempering justice with mercy and also believes in following the law to the letter and the people who come before him will find him unrelenting in administering justice but fair and impartial to everyone.

These appointments are good ones in both instances and cannot fail to meet with the approval of the majority of the people.

Weather Report

For Florida generally fair tonight and Wednesday except probably local rains in north portion tonight. Gentle winds mostly northwest over north portions and south over south portion.

We have a few Fordson Tractors just now. Come and get one before they are all gone.

C. F. WILLIAMS ED HIGGINS Dealer Salesman

WILLIAMS USES STRONG LANGUAGE

IN DESCRIBING THE ACTION OF THE REPUBLICAN SENATORS ON THE PEACE TREATY.

Jackson, Miss., March 29-In addressing a joint session of the Mississippi legislature today, United States Senator Williams, Democrat of Mississippi, declared the defeat of the League of Nations, "more than anything else in my life made me come nearer doubting the cause of democracy and sometimes almost the providence of God himself."

"I am just from Washington where I have listened ad nauseam to the most confused gabfest in the history of the world since the Maker created it," he said, and added, "Do you blame me for saying I would rather be a dog and bay at the moon than spend one minute in the Senate after the expiration of my term of office."

Williams declared when President Wilson went to Versailles that every time news was given out that he advocated or opposed something, "conspirators" in the Senate opposed his plans.

"They are two by four politicians Williams said. "I call them that because that is what they are, no matter how high their station."

"Senator Lodge is head of the poison squad, and after the treaty had been emasculated with reservations that no Democrat could accept, he sought to blame the party for its rejection."

"Has any great institution founded by our forefathers fallen down at a time of stress and travail like the Senate has fallen down? I believe there are men glad that the President is sick, perhaps they hope for his death."

He said when McKinley and Garfield were shot all Democrats expressed sorrow, and he asked if any one has seen words of sympathy for the President in any Republican paper.

"A great man was sick, also a great mind and a great character, and they have whispered, 'We've got him now.'" Williams declared.

BRIDE AND GROOM CONTEST

\$50 Prize To Bride And Groom Winning Most Votes. Drop Your Votes in This Ballot Box.

Table with 3 columns: Contestants, Votes, and names. Lists names like Arthur Yowell, Geo. De Cottes, Tom Martin, etc.

STARBIRD MILL BURNS

Big Plant At Apopka Goes Up In Smoke

Word was received here today of the burning of the big crate and sawmill belonging to the Starbird interest at Apopka. This was one of the largest industries at Apopka and the loss will fall heavy not only on the owners but on the community as well as the mill employed many hands and was one of the largest industries in Apopka.

Tenant House Burns

Julius Takach is having a run of hard luck these days having just lost his home by fire and everything that he possessed and this morning one of the tenant houses on his farm burned about ten o'clock. The house was occupied by a negro family working on the Takach place and it is thought that the fire, caught from the kitchen stove that had been left burning while the family were helping to cut and pack celery.

New Auto Sales Room

Mr. C. G. Spurlock has arrived in the city and will open a new sales room at 123 West First Street after the name of the new firm will be the Lott Motor Company and Mr. Spurlock will act as manager.

The new company will handle the Maxwell, Chalmers and Alcar lines and expect to do a nice business in Sanford and surrounding territory. Watch for their announcements later.

For The Children's Home

The grammar school wishes to make an Easter gift to the Children's Home in Jacksonville in charge of Mr. Marcus Fagg. These are our orphans, within our gates and is our privilege to help supply their needs.

We have not asked our friends for money for this cause for two years, knowing the many sacrifices required of them, but these little ones need our help, and when our children bring their coin folder to you, encourage them and gladden their hearts of the orphans by your generous response.

Princess Theatre Closes

The Princess Theatre closed Saturday night the Lynch interests selling out their equipment to O. P. Herndon manager of the Star theatre. The princess will be dark for some time as Mr. Herndon takes over the lease and the moving picture business will be conducted by Mr. Herndon at his Star theatre. Mr. Herndon has not made any plans for the future operation of the Princess but will probably put on theatrical attractions there and confine the movies to the Star Theatre as formerly.

Will Get Fifty Dollars

In the write up of the wedding that will take place at the court house during the Spring Festival the Herald failed to state that the lucky bride and groom will each receive a check for fifty dollars. It is presumed that the money is given in order that they can set up house-keeping after they are married and fifty dollars ought to go a long ways these times. If the couple were really to be married the ladies in charge would no doubt raise this ante but fifty dollars to the gentleman and the lady who receive the most votes in the Bride and Groom contest will no doubt be able to buy something nice with this nice gift. Watch the Herald for the results of this great contest as it progresses. The ballot boxes will be placed in the stores in the city convenient for the ballots to be cast for the favorites.

Webster's First Beans Bring \$13 Per Crate

Webster, March 27.—The first beans of the season to move from this place were picked today and sold by I. C. Getson to Hill Smith of Center Hill for \$10 per basket f. o. b. Webster. Picking this year was just one day later than last year despite the cold. Some cukes probably will move tomorrow.

HORTICULTURISTS OF STATE IN CONVENTION IN OCALA MAY 4 TO 7

Gainesville, March 27.—The thirty-third annual meeting of the Florida State Horticultural Society will be held in Ocala beginning May 4 and extending through May 7, and it promises to be no exception to the series of good meetings that the society has held in recent years. The meeting in Ocala will be a home coming because on April 10 1888, just thirty-three years ago, the society at once showed the "pep" that has characterized it through the whole existence, by inviting the American Pomological Society and the Georgia Horticultural Society to meet with it at Ocala at the Semi-Tropical Exposition, Feb. 20, 1889.

The greatest display of varieties of citrus fruits that has ever been shown

before or since was exhibited at this exposition. Some of the exhibits had from thirty to fifty or more varieties of oranges alone.

Many changes have taken place since that day. The varieties of oranges have become so standardized that only three are well known to the market today—Parson Brown, Pineapple and Valencia, with the Lue Gim Gong and Temple bidding for a place in the circle.

An unique program is being prepared for the meeting this year in which the historical side will be emphasized. A number of special speakers have been invited to take part.

The Lakeland Star says as near as can be estimated the church population of that city will run about 6,000 at least that number of cards were taken out and all but a few were returned to the committee in charge of the work.

The Munroe & Chamberlains National Bank of Ocala has increased its deposits by almost \$300,000 in the last year. That is almost twelve times as much as it began with twenty-three years ago. Its total deposits are \$1,140,699.16.

Dr. Lincoln Hulley of DeLand, has qualified with the secretary of state as a candidate for the office of governor, thereby becoming the first gubernatorial candidate to qualify under the laws as a candidate for that office in the democratic primary to be held June 8th.

More and more is Lake Weir becoming known to people outside of our own state. The beauties of the lake, the good fishing, hunting and the beautiful orange groves are enticing a great many people to become owners of pretty groves and build pretty homes on its beautiful banks.

Taking advantage of the depth of water in the Kissimmee river and Lake Tohopekaliga, two trips from

Resale to Kissimmee, bringing barges of lumber for the Florida Crate and Lumber Company. Three barges were put into service, while one remained at Kissimmee unloading while the others are being towed.

One can hardly imagine a busier man anywhere than Thomas A. Edison, the wizard inventor. Mr. Edison rest a while in the winter time, and his preference is Florida. He has a home on the gulf coast, at Fort Myers, which he and his family and some friends and servants are occupying. The inventor seems to have learned the secret of resting for it is announced that while in Florida he has no thought of doing any work—"he seeks rest and quietude," the Fort Myers explains and "his friends will see to it that his wish is gratified."

The Yowell Company

Shipments Of Florida Fruits And Vegetables

Jacksonville, Fla., March 29.—Grapefruit shipments last week were 900 cars, bringing the total output of that fruit for the season up to 8,908 cars. To the same date this year the output of oranges was 15,18 cars making the total of the two fruits March 29, 24,036 cars.

The tomato movement last week was 506 cars and brought the total for the season to 1,550 cars compared with 686 a year ago. Reports from shipping sections are not flattering as only in exceptional cases where quality is good are prices on a satisfactory basis. There were 487 cars of cabbage, 315 cars of celery and 61 cars of lettuce shipped during the same period. The mixed vegetable movement is comparatively light only 22 cars having been billed during the week. Demand for oranges grapefruit, cabbage, celery and tomatoes when of good quality is exceptionally good, but a large quality percentage of the tomato shipments rolling unsold are of good quality.

The following tables set forth the carlot movement of the various fruits and vegetables from the state for the week ending March 24, also the total for the season, together with comparative figures showing the movements to corresponding dates last year:

Table for GRAPEFRUIT: Shipments up to last Sat. 8,908; Same period in 1919 6,841; For week ending March 20 900; For same week last year 352; First three days this week.

Table for ORANGES: Shipments up to last Sat. 15,118; Same period in 1919 12,603; For week ending March 20 665; For same week last year 312; First three days this week 165; For same days last year.

Table for VEGETABLES: Shipments up to last Sat. 844; Same period in 1919 634; For week ending March 20 22; For same week last year 25; First three days this week 9; For same days last year.

Table for TOMATOES: Shipments up to last Sat. 1,550; Same period in 1919 686; For week ending March 20 506; For same week last year 242; First three days this week 130; For same days last year.

Table for LETTUCE: Shipments up to last Sat. 2,635; Same period in 1919 1,607; For week ending March 20 61; For same week last year 12.

First three days this week For same days last year

Table for CABBAGE: Shipments up to last Sat. 2,680; Same period in 1919 914; For week ending March 20 478; For same week last year 122; First three days this week 58; For same days last year.

Table for CELERY: Shipments up to last Sat. 1,612; Same period in 1919 910; For week ending March 20 315; For same week last year 166; First three days this week 49; For same days last year.

WANTED — OLD CLEAN RAGS. ANY KIND EXCEPT OLD SOCKS, COATS, PANTS, OR BED SPREADS. AT THE HERALD OFFICE. 59-tf

Apparently Contradictory.
Recently I attended an evening party where "chili con carne" was served. During the repast the five-year-old daughter of the family looked up and said: "Daddy, why do we call it chilly when it is so hot?"—Exchange.

Taught Chinese Lacemaking.
The art of lacemaking was first taught to the Chinese of the Chefoo district by foreign missionaries about twenty five years ago. They believed that by teaching lacemaking the women and girls would find profitable employment within their own homes, and the subsequent spread of the industry has fully justified their efforts. Although first taught in Chefoo, Chi Hsia Hsien was the first district in which lace was extensively made.

KILL THOUSANDS OF RABBITS

Idaho Conducts Big Drives Against Animals That Menaced Irrigated Lands.

Washington.—Idaho has conducted rabbit drives in recent weeks on as big a scale as when the country was new. Because the cold weather brought the rabbits by the thousands to feed in the irrigated lands they threatened to do extraordinary damage in some sections. One drive netted over 8,000 rabbits and another 3,500. In Mindoka county, Idaho, 29,000 jack rabbits have been killed this winter in organized drives and 60,000 additional by poisoning campaigns. Once school was dismissed to permit the boys to take part. Four hundred people participated. Six rabbit drives in Lincoln

A Few of the Rabbits Killed in Drive.

county, Idaho, resulted in killing 1,800 bunnies. Each event took on the character of a community gathering. Sandwiches and coffee were served.

In Walla Walla county, Washington, 11,000 rabbits were killed by 600 sportsmen armed with shotguns. They formed a line five miles long and drove the animals to the point where the Snake and Columbia rivers unite.

Local representatives of the United States department of agriculture have directed the work or have co-operated with the local county agent or other authority.

Throws Money Away To Teach Lesson

Northampton, Mass. — Silver and gold were thrown away here to illustrate a talk on the waste represented by the alleged carelessness among factory workers.

The treasurer of a hosery company told the operatives that in a week, 11,750 needles, worth 1 1/2 cents each, had been lost. The effect was the same, he said, as if \$147 were thrown from the shop window, whereupon the treasurer took from his desk a pile of 147 silver dollars and tossed them out of the window.

Silk scattered under foot was as much destroyed as if thrown away, he added. Estimating the amount of loss from this cause the previous week at \$50, he tossed gold coin among the workers.

Some listened to the treasurer's later remarks, others scrambled for the gold, while many rushed out of doors to search for the silver in the snow.

GERMAN SHIELD KEEPS EAGLE

But Papers Ridicule the New Escutcheon, Saying Bird Is "Skinny, Homely."

Berlin.—The new German coat of arms adopted by the national assembly consists of a one-headed eagle, or a yellow gold shield, and without the old-time crown.

The eagle will be displayed in simple heraldic form without any accessories. The Hohenzollern coat of arms and the chain of the order of the Silver Eagle, all parts of the old Prussian coat of arms, have been omitted. The bill of the eagle, the tongue and the talons are in red. Servants of the government are to wear the device without the shield, so it can be pinned to their uniforms.

Some of the pan-German papers ridicule it, saying the "skinny, homely eagle with extended tongue" violates all the rules of good taste.

"Noblesse Oblige.
The new social order demands that those who have the highest talents, the greatest mental endowment, devote them to those who are less fortunate, in service that will elevate and ennoble those with whom we live.

The Treasures of Carthage.
Carthage, one of the most ancient cities known to man, has seen hordes of trophy hunters of all nationalities, for the location has proved a most fruitful one in the discovery of rich treasures and jewels hidden beneath the soil.

ALASKA OFFERS PULP

Forests Could Relieve Shortage, Says Governor Riggs.

Billions of Feet of Paper Wood Available for Manufacture into Newsprint.

Seattle.—Alaska wants to throw open her millions of acres of national forests so that the billions of feet of paper wood of the northland can help relieve the pulp and newsprint famine, Gov. Thomas Riggs, Jr., of Alaska declared here recently.

Governor Riggs was here on his way from Juneau, capital of Alaska, to Washington, where he expected to help press pending legislation intended to remove restrictions and allow pulp manufacturers to go into the Tongass and Chugach reservations, the northern territory's two great reserves.

Pulp and paper men are anxious to go to Alaska and establish mills as great as these operated in British Columbia not far south of the Alaska boundary line, the governor asserted. Under the present laws the pulp makers cannot enter the reservations with any certainty that they will be allowed to stay.

Alaska's great forests stretch over approximately 34,000 square miles, an area nearly equal in size to the state of Indiana, according to estimates made by government officials.

Several hundred million feet of good pulp wood, including western yellow pine, hemlock, Sitka spruce, white fir and lodgepole pine, are on the forest reserves alone.

The Tongass reserve, in southeastern Alaska, is especially adapted to the manufacture of pulp and paper, forestry officials have reported. There is plenty of water power, ocean horizons open the year around, timber skirting the water and weather similar to that of the Puget sound.

The governor intends to ask Washington to restore the reserves to the national domain or to open them to the pulp industry.

SWINGING PILLAR IS FOUND

Hunters Uncover Phenomenon in Green Mountain, Near Canon City, Col.

Canon City, Colo.—Gently swaying to and fro, a huge granite monolith forming a unique natural monument has been discovered on Green mountain, several miles north of this city. It is believed to be the only "swinging monument" in the world.

The shaft is more than 100 feet high, and in the course of many years has become free from all surrounding earth formation, except at the base, which is about 12 feet wide. In the center, the granite column tapers off to a width at the summit practically the same as at the base.

Lee Hughtit, water commissioner of Canon City, and A. V. Hodgkin, Fremont county commissioner, came across the phenomenon recently while on a hunting trip.

They report that the entire shaft moves, probably from two to three feet at the apex, and the swinging is constant under the pressure of light winds. The base of the shaft, they said, rests in a small hollow about three feet in depth and the contiguous granite formation has been entirely disconnected.

SAYS LAWSUITS ARE CHEAP

New York Judge Denies Charge That Poor Do Not Receive Justice.

New York.—The assertion that the poor man does not receive justice in court, made recently in a report of the Carnegie Foundation for the Advancement of Teaching, was contradicted

GOOD NEWS

When you heard that the Woman's Club was going to put on a Carnival wasn't it? You are glad that that there will be something to liven things up in the amusement line, aren't you? We are. All of us are. Sanford people all want some kind of amusement and the Womans Club is as good as the best when it comes to entertainment.

MORE GOOD NEWS

for you is this—Mr. McLain is coming back to Sanford with the Issac Hamburger line of tailoring. He will be here Monday, Tuesday and Wednesday of next week. One of the many reasons why we are glad to represent this line in Sanford is because they believe just like we believe in this respect, that is, they remember that the house that makes Men's Clothes must make a profit, the store that sells them must make a profit, BUT NEITHER MUST FORGET THAT SOMETHING IS COMING TO THE CUSTOMER.

ISSAC HAMBURGER CLOTHES ARE SOLD, JUST LIKE EVERYTHING WE SELL, WITH AN IRON CLAD GUARTEE OF SATISFACTION, OR YOUR MONEY BACK.

by Judge Frederick E. Crane of the court of appeals. Speaking before the women members of the Kings County Republican club, he declared that "the chief litigation in our courts is today conducted by the poor, or persons of moderate means, and at no time and in no country have the rights and remedies of the law been so easily procured."
"Nowhere in the world is litigation so cheap or redress for wrong so readily afforded to the poor," Judge Crane said. "Any law office of standing can furnish instances of litigation conducted without charge for services rendered because of the condition of the parties."
German Who Sunk Sussex Dead.
Berlin.—A first lieutenant in command of a German submarine torpedoed the English channel steamer Sussex on March 24, 1916, according to a local newspaper which comments on the extradition list received from the allies. It is declared this man has since died. Captain Steinbreck is charged on the extradition list with being responsible for the attack upon the Sussex, which caused the death of 50 persons.

Waterproof Glue.
Casel'n glues are exceedingly resistant to the action of water and retain a very high percentage of their original strength, even after long immersion under water. They are comparatively inexpensive, and the materials from which they are made are readily available in the market. They are applied cold and will set without the application of heat.

Lion Properly King of Beasts.
The Biological Survey says that the title "king of beasts" was given to the lion because its bravery is unsurpassed and there is no other animal that can successfully meet it in combat.

Shape of Shells.
"Modern long-range shells are cigar-shaped. They taper both at the front and at the rear. This tapering of the rear end is called 'boat-tailing.' You have noticed that racing automobiles have torpedo-shaped sterns. A square-tailed shell or automobile is actually held back at high speeds because of the vacuum created behind it by the velocity of its movement. Tapering the tail leads the air gently and easily into the hole that the shell or the racing car bores in the atmosphere and thus lessens vacuum's impeding grip on the flying object."—Everybody's Magazine.

Entered as second class master October 27, 1919, at the postoffice at Sanford, Florida, under act of March 2, 1879.

MEMBER OF THE ASSOCIATED PRESS

We met a gentleman from Sanford yesterday who was in the city looking for bargains in realty, and during our conversation with him, he made the remark that he had just as soon make investments in Orlando as in Miami, that both places looked good to him and that he had never seen such a spirit displayed by the citizens of two cities as were manifest upon his last visit. Every person was an enthusiastic booster. Yes, and every day is bargain day in Orange county dirt.

LUCKY FLORIDA

Despatches to the daily papers yesterday and today tell of the disasters overtaking all parts of the country with the exception of Florida and a few other states. Tornadoes struck the south and central states and floods are taking toll in the northeastern states and troubles galore are prevalent in many other states following one of the coldest and worst winters in the history of the country.

And in Florida the people are basking in the beautiful sunlight where the aroma of orange blossoms now permeates the air. The orange and vegetable growers are harvesting crops that are paying good prices and making the growers rich and with all of nature's bounties the fact that storms and floods never touch Florida remains to become a pleasant memory to those who are visiting our state and are enjoying one of the finest of Winters.

With the cold weather north this year came the coal famine which made prices of fuel almost prohibitive and those people who saw it coming and closed their homes and came to Florida to spend the winter were not only wise but provident. It has become a habit now with the many thousands of people who live in the north to make their annual pilgrimage to Florida—the state that is only from twenty-four to thirty six hours away from the congested areas of the north.

And coming down early in the season they are remaining later each year for they are not to be beguiled into going north by the pleasant weather that prevails in Florida. They know that last year New York had a blizzard in April and is liable to have another one this year. They know that Florida is the prettiest in April and May and they will remain until the last cold wind has departed from the frozen north and get the most out of life by remaining the longest in this state that has the best climate in the world in

winter and summer. And here in Sanford where the orange blossoms vie with the green of the growing vegetables, where the visitors can enjoy the beauties of rivers and lakes and woods and good roads the visitors who have discovered this retreat this season for the first time are carried away with the many good things that the Sanford section has to offer to the tourists and they are so well satisfied that they are staying in Sanford longer and will return here next season and bring some of their friends with them.

BETTER LINE THAN CORSETS

Saleswoman Had to Admit That Acquaintance Would Be Wrong to Make a Change.

They were in Pullman seats on a night train, both making up expense accounts. One leaned over and said: "Ever pad it?" "I—think not. Do you?" "Surest thing you know. All the money I spend I make up in my accounts."

Then came the usual question: "Say, what line are you in?" The rich society girl who had offered her services to raise money for the colossal war work campaign, smiled, played the novice and parried the question:

"What line are you in?" "I'm in petticoats. But if you want to make money go into corsets. I was in corsets five years and made a pile of money, but you get tired of selling one line, and so I went into petticoats. But, believe me, if you want to make money go into corsets. Say, what town did you do today?"

"R—". "Did you make good?" "Yes, I think I did fairly well." "How much did you do?" "About \$50,000" (the actual amount pledged to Miss — for the campaign). The saleswoman, who had considered a \$200 day in corsets good business, gasped:

"Heavens, don't go into corsets!"

YOUR WATCH A POWER PLANT

Really Enormous Amount of Energy is Concentrated in That Luminous Radium Dial.

If you own a radium-dial watch with luminous figures and hands, then you are the possessor of a vast power plant of no mean proportions, says the Electrical Experimenter. There is sufficient radium on your watch dial to haul your train homeward, if it could be properly applied.

As the matter stands, the innocent-looking radium dial does not seem to possess any extraordinary amount of concentrated energy, but this is only apparently the case, and not actually so; for the reason that while the amount of activity manifested by the radium paint on the dial is small, this effect will keep up for 2,500 years, provided the zinc sulphide, with which the radium is mixed so as to produce a glow, held out that long. The zinc sulphide in most cases gives out in about eight to ten years.

Now, if we could but find a way to make the radium release all its energy in a few hours, instead of spreading it over 2,500 years, it would not be difficult to make a motor that would utilize this energy.

Daddy's Status.

Barbara and Helen were spending Christmas day thoroughly enjoying the gifts Santa had left for them. Barbara, the older sister, had spent the previous summer in the country, where her father, a doctor, had thought it advisable to have her. Helen showed herself partial to a big toy horse, upon whom she had contemplated bestowing a name, when she turned to her sister with the remark: "I wonder is this a girl horse or a boy horse?"

With an indifferent shrug of the shoulders Barbara said: "I don't know."

Helen's rejoinder came promptly: "You ought to know; you were in the country long enough last summer." Just then the children's father came into the room, and Barbara suggested they "ask daddy."

To this Helen haughtily replied: "He ain't no horse doctor; he's a person doctor."

Sweetness of Revenge.

Timothy Brown was a commercial traveler and a valuable asset to his employers.

On one of his periodical rounds he included in his list of calls a certain turn merchant, Jonas Perkins by name—a crotchety, ill-natured individual—who invariably treated Timothy with the greatest of discourtesy, and who on more than one occasion had torn his card up in his presence and thrown it on the floor. As becomes a good commercial traveler, however, Timothy was undaunted and vowed to be revenged.

In due course he called on his friend again and presented his card.

"Halloa!" shouted old Perkins, giving the card the usual wrench. "What the—" But here he interrupted himself with a yell of pain, accompanied by a miniature war dance.

Timothy's card was made of enameled tin.—London Tit-Bits.

Gods Galore.

India holds the record for images. It has been estimated that there are quite 300,000,000 images of the various gods there.

BREATHE ROCK DUST

Millions of Particles Taken Into Lungs With Air.

Hygiene Experts Devising Means of Removing Dust and Fumes From Air in Factories.

Niagara Falls, N. Y.—Over 200,000,000 tiny particles of dust, as sharp as ground glass, are breathed into the lungs and air passages with every cubic foot of air in some of the factories in the United States, according to a survey made by the public health service here.

Such dusts breathed into the lungs are never expelled. Photomicrographs show the tiny particles to be exceedingly sharp and jagged and chemical tests prove them to be practically insoluble. Work under such conditions invites respiratory diseases and makes a real health hazard. Similar investigations in chemical factories showed that laborers were frequently exposed to poisonous fumes and gases.

The investigation was made at Niagara Falls because plants were engaged in the manufacture of abrasives, chemicals, gases, electrodes, carbons, metals and alloys. In all of the factories the laborers were found to be exposed to dangers which would eventually incapacitate them for further work. Fortunately over 60 per cent of the labor in these plants seeks new employment monthly and the result of exposure to such dangers is not evident as it would be if the workers remained at the same work for longer periods.

As a result of the survey industrial hygiene engineers devised means of removing the dust from the air and minimizing hazards from fumes and poisonous gases. In spite of the fact that the installation of such devices was expensive, factory management immediately put them into use.

MME. JULES JUSSERAND

Mme. Jules Jusserand, wife of the French ambassador to the United States, is held in high regard in Washington as much for her charitable activities as her social accomplishments. She has been here for 17 years, her husband having served continuously for that time in his present post.

EGYPT "ROLLING IN WEALTH"

Illiterate Mud Hut Dwellers Make Many Thousands in Cotton Deals.

London.—Egypt is "bursting with wealth" accumulated from cotton, says a correspondent of the Daily Express in Cairo.

"Illiterate natives living in mud huts have made 20,000 pounds sterling out of cotton deals," he continues. "Some have made 100,000 pounds. They are buying land at inflated prices, and paying off mortgages which are regarded as family heirlooms. One British official says that the country has made at least 100,000,000 pounds. "Naturally there is an influx of new millionaires in Cairo, with a huge demand for automobiles, jewelry, new houses and all kinds of luxuries, but in the provinces many of the newly rich have not changed their standard of living at all."

Finally Got New Golden Eagle.

Phoenix, Ariz.—Two years ago a fire destroyed the only golden eagle of the Rhizomanians, a distinguished society of the Pacific college, California.

Remembering the Phoenix that rises out of its ashes every 500 years, Milnes, secretary to Governor Campbell, decided it would be appropriate to present his old accomplices with a brand new eagle bird from Phoenix just as soon as it could be obtained. It took him two years to do it, but the bird has at length been caught and prepared for shipment. It is declared to be the most gigantic bird ever stuffed for museum purposes.

MANY IRISH NAMES IN CUBA

Signs on Some of the Most Noted Havana Streets Reflect a Transplanted Aristocracy.

There are many curiously named streets in Havana, but perhaps the interest of the tourist is no other way so piquantly excited as when he sees the name O'Reilly attached to one of the old thoroughfares. The cognomen surely has no suggestion of Castilian origin, remarks the New-York Evening Post.

Despite the name, the man for whom O'Reilly street, or to give it its Cuban title, Calle O'Reilly, is called, was a Spanish subject bearing the title of count, and he was one of the first of the long line of captains general who ruled Cuba for a period of 80 years. His ancestors left their native heath after the battle of the Boyne, migrating to Spain, where they were ennobled for services to the crown.

Although an aristocrat, the first O'Reilly was not averse to becoming a moneymaker. He engaged in the not very poetic monopoly of delivering beef from the slaughter houses to the various markets, which monopoly was handed down for several generations from father to son.

O'Donnell is another Irish name inscribed on street signs and it is written in great letters on the lighthouse of Moro castle, which lighthouse O'Donnell was instrumental in building. O'Farrell is an Irish-Spanish name connected with the governmental and commercial life of Cuba of the past, as is also that of O'Lawlor. These men had titled prefixes which were bestowed because of military or civil service, or which they thought ought after the custom of the time.

HEARD OWN BURIAL SERVICE

Dying Millionaire Had What Might Be Called a "Rehearsal" in His Bedroom.

When Mr. Parker Mason, a shrewd and level-headed millionaire of the United States, was on the point of dying a few years ago he conceived the quaint idea of having a rehearsal of his own funeral service in his bedroom. He called in a Presbyterian minister, and a few members of the church choir, and the full service was rehearsed in his presence and that of his family and a number of his friends. The clergyman preached an eloquent and touching sermon on the virtues and charities of the dying man, and the choir sang appropriate hymns. At the conclusion of the service, which the millionaire had followed with the closest interest and attention, he warmly complimented both clergyman and choir on their performance, and after dismissing them sent for an undertaker and made the necessary arrangements with him and had a personal interview with the pall-bearers. He died ten hours later, and was buried with the same service to which he had listened when alive.—Montreal Herald.

Where the Fault Lay.

As the Irish police recruit strolled along on his first turn of night duty, loud yells of "Fire" rent the air. He bolted quickly to the spot, and found a house well alight, with a man half hanging out of an upstairs window.

"Help! Help!" he yelled. "If I jump, will you catch me?"

"Sure, an' Oi will!" replied the policeman readily.

So the man jumped, only to crash to the ground and lie there stunned. When, a few minutes later, he recovered consciousness, he looked up at the constable reproachfully, and murmured feebly: "I thought you said you could catch me?" "Begorra!" replied the Irishman. "Oi was only waiting for yez to bounce, an' Oi'd have had yez!"—London Answers.

Egyptian Women Prospering.

The fellahen of Egypt, for centuries the most ignorant and improvident of serfs, has ridden into prosperity on the tidal wave of reconstruction, and with him his long-suffering wife. Still, as in the days of Christ, one may see him on his donkey, while his wife, with her heavy burden on her head, trudges behind. Yet there is a real, if invisible change in their relations.

Through the sudden rise in the price of cotton from \$20 to \$100 a kantar since the beginning of the war, the housewife has been enabled to make long-neglected purchases and has been enabled to display her native shrewdness in bargaining and financial matters. It is she who markets all the products of the farm.

Guns on Airplanes.

One of the inventions of the great war was the art of shooting a machine gun through the propeller of an airplane without danger of hitting the propeller blades. The French aviator, Roland Garros, was reported to be the first man to employ this device, which was used by hundreds of air fighters throughout the war. Before that time the machine gun was mounted above the aviator so as to fire over the propeller blades. Machine guns may also be mounted in a revolving turret or in the rear of the airplane. The Browning machine gun will fire 20,000 shots at the rate of 600 per minute.

Pottery-Making Simplified.

An inventor has patented an electrically driven machine which makes the rough clay boxes in which pottery is subjected to heat in kilns, work heretofore done slowly by hand.

Unless a Bank is MORE Than a Mere Commercial Machine

Unless it is more than simply an institution for paying dividends to stockholders; unless it is imbued with a real spirit of public service and a desire to be a CONSTRUCTIVE and UPBUILDING FORCE in the community—then it is falling far short of what a bank should be. While this bank, like all banks, must be operated for profit, it does not for a moment lose sight of its higher duties to its customers and to the public.

LIQUOR FLOWS ACROSS BORDER

Northern Section of Maine Being Flooded With Whisky From Canada.

LAWFUL SEIZURES ARE FEW

Comes Across Line in All Forms Into State Which Was Pioneer in "Dry" Laws—Many Ways of Fooling the Sleuths.

Bangor, Me.—The rate at which Canadian and Scotch whiskies are flowing over the northern border into Maine proves that enforcement of the federal prohibition law hasn't got into its stride as yet, for never in all the history of theoretical droughts have cases been greener, more numerous or closer together in this pioneer dry state than right now, when there is more law than ever before, twice as many "enforcers" and increased penalties.

Trainmen who come down say that whisky of all grades and oceans of pure grain alcohol are flowing over the border at a hundred places, and that at four principal points the alcoholic invasion amounts to a flood. These four points are Van Buren, opposite the New Brunswick town of St. Leonards on the St. John river; Fort Kent, which has easy access to the Canadian village of Clare via a suspension footbridge; Fort Fairfield, which is but nine miles distant from the New Brunswick town of Andover, and Houlton, which is a near neighbor of the provincial town of Woodstock.

Only Occasional Seizures.

Occasionally the revenue officers seize a wagon or sled load of whisky coming over the international bridge from St. Leonards or over the ice at some more obscure locality, but nothing is said about the great number of "booze" chariots that get by the gov-

ernment's lookouts and which keep the speakeasies of Aroostook or the bar-rooms of Bangor supplied. Also, the St. John river being frozen good and solid for its entire length, men and teams can cross anywhere in the river's 100-mile stretch along the border, so that, as the revenue men themselves admit, a standing army with sentinels every fifty feet would be required to shut out the flood.

There is so much more money to be made in bringing in "booze," even a few bottles at a time, that hundreds of woodmen have quit swamping roads and chopping trees for the rum-running business, and ninety-nine in 100 of them, knowing the country thoroughly, get by with their goods.

Price of Canadian Whisky. Canadian whiskies that can be bought at \$3 a "short quart" on the New Brunswick side of the line sell in Aroostook county at \$4 and in Bangor at \$8, while genuine Scotch is \$4 in New Brunswick, \$8 in Aroostook and \$12 to \$15 in Bangor. Pure grain alcohol, to be had in New Brunswick at \$4 a quart, is "split" with water on this side of the line, so that every quart yields about \$16. With the addition of a little prune juice and burnt sugar, this alcohol is transformed into "American eye," supposed to have been brought in from Boston or New York "before the lid went on."

Whatever the outcome of the war on "booze," the enforcement of the law will be hardest in Maine, both an account of the state being cheek by jowl with Canada and on account of the seventy years' experience that the people here have had in devising ways and means of fooling the sleuths.

REGENERATE NORTH FRANCE

Large Sums Have Been Advanced to Restore Industries and Agriculture.

Lille.—Perceptible progress toward the regeneration of northern France is shown in reports just made public here. From Feb. 1 to Dec. 1, 1919, 1,250,000,000 francs were advanced to manufacturers, and nearly 2,000,000,000 francs were paid as compensation for war damages. Seed costing 18,500,000 francs and fertilizers worth 22,000,000 francs were bought for farmers, who in addition received 18,000 head of horses.

MODERN WOMAN IS SUPERIOR TO GRANDMOTHER

British Physician Says She Exceeds Physically and Intellectually.

SELECTS HER OWN MATE

World Awaits True Conception of the Female Mind Written by Woman—Future of World Depends Largely on Quality of Woman's Mind Today.

London.—The woman of today is intellectually and physically superior to her grandmother of the ever-ready blush and the downcast eye. Her latchkey is the badge of her emancipation. She is no longer the wooed but the wooer. She has, and exercises, the right to select her own mate.

Dr. Alfred T. Schofield, the latest champion of the modern woman, advanced this courageous theory at a recent lecture at the Central hall, discussing that strangely tangled subject, "The Psychology of the Female Mind."

The subject, says Doctor Schofield, presents at the moment a dissolving view of great promise. The woman of early Victorian days has nearly disappeared, though she may still be found in remote country places—the gentle, quaint, prim, yet graceful lady with her tippet and poke bonnet, her samplers and her still room. But the new is better! The coming picture is on nobler and grander lines. The gentle submission and downcast eye may not be easy to find nowadays, but they have been replaced by the candid and clear look of complete emancipation and the upright figure of the freedom.

Marvel in Rapid Advance.

The marvel is that with such rapid advance there has not been more extravagance. Setting aside exceptions nothing is more delightful and marvelous than the quiet, decent, self-respecting dignity of the modern latchkey young woman living in her own room in a large city. Very severe strictures have been passed on her dress in these last few years, but that has somewhat confused the causes. In all times of war and general upheaval similar caprice in women's dress has been observed, but that was not in any way the outcome of the emancipation of womanhood.

The remarkable lack of women's interests in their own minds, Doctor Schofield points out, is a very curious point. No doubt this is a survival of the past bad years. After the most careful search in the libraries of the world no works on psychology written by women are discoverable, save, perhaps, tentatively by that remarkable Swede, Ellen Key.

The world still waits for a true conception of the female mind written by a woman. The future of England and America largely depends on the quality of woman's mind today. A good physique is important to the next generation of woman, but the quality of her mind is of still greater importance than her body. In proposed legislation which is now being considered with regard to the prevention of a certain contagious disease, the question really turns on whether the health or the morals of a nation are of greater importance. In ultimate analysis there is no antagonism between health and morals.

Value of Man's Body.

In earlier times the value of man's body was supreme; a woman's mind then was cultivated better than a man's and her preponderance as a sex in spiritual matters was overwhelming. When man, however, substituted machinery for manual labor his bodily powers were heavily discounted and his success in life depended on his intellectual powers; at the same time, relieved of constant physical exhaustion his spiritual outlook approximated more nearly to that of women. Since then the resemblance of the sexes has increased.

The result is nowhere more marked than in the typical presentment of John Bull. A hundred years and more ago the streets in this country were filled with portly, rubicund men, stern or jovial of visage, and vastly different from the more intellectual but slightly anaemic and attenuated individuals who fill their role today. The doctor admits that the substitution of tea and coffee for beer has been a minor factor in the change.

The mother's atmosphere in the home is stronger than heredity. Every training college for women must include special instruction in the right education of childhood. The character of the child, even of the nation, depends mainly, not on heredity, but on environment or atmosphere, discipline or habit, and so ideal or example to the parent's life. It is absolutely cruel to allow girls to become wives and mothers without their acquiring any knowledge of these mighty forces, any idea of the value of their own minds, any insight into these great but simple powers, or any skill in their use.

Endowment of Motherhood.

Man is mainly, in view of his economic position, the primary selector in matrimony—a fact which is detri-

mental to the status of woman and her offspring. So long as women are mostly dependent on their fathers until they change that for dependence on their husbands will they continue to retain many of the characteristics peculiar to the servile state.

The endowment of motherhood is one solution of this financial difficulty, though by no means the best, for all state interference in private life is more or less of an evil. Once a woman's independent economic position is assured she will probably select her mate in a way that would now, with our false standards of conduct, be considered perfectly indecent, but seeing she is the mother of the resulting race, it seems only right she should do so. One thing is certain, that a large number of degrading unions which now take place would at once cease and the whole psychology of marriage would be raised to a higher level.

Until the economic position of women is altered woman is most unfairly handicapped. It is undoubtedly for the good of the individual, of the nation and of civilization itself that the financial position of a woman shall be assured as that of a man. Already the freedom of women has begun, but it is in vain to strike off the prisoner's shackles one by one so long as the most galling one of all is retained in the form of economic dependence. No doubt professional and business careers have to some small extent solved the problem, but much more is required. A radical change of view as to the provision of daughters as compared with sons seems to Doctor Schofield to be an essential step.

"GOB" PAINTING SHIP

A "Paint Ship" photograph taken on one of the Pacific fleet dreadnaughts, showing a carefree "gob" at work with a will on the side of the ship, swinging on the falls while he dresses up the sides of the sea fighter. Painting is only one of the many remunerative trades learned in the United States navy, while travelling about the world.

'SAFETY FIRST' FOR SERVANTS

Aim of Shanghai Club to Prevent Disease Entering Into Foreign Households.

Shanghai.—Shanghai has what is called a "Safety First Club," the single aim of which is to prevent the introduction of disease into foreign households through servants.

The organization is an outgrowth of activities of St. Luke's hospital and it was formed to enable members, in return for fixed fees, to have their Chinese servants examined at the hospital periodically.

The need of such an institution in Shanghai comes because the 20,000 or more foreigners are domiciled in a city of more than 2,000,000 which has no severe safeguards to preserve the public health.

Wages are exceedingly low and range from \$6, Mexican, a month for the coolie house boy up to probably \$15, Mexican, a month for a cook.

U. S. Marines Discover Air-Fishing Tribe

Manila.—Ever hear of air fishing? An air-fishing tribe of Igorots was discovered north of here by a hiking detachment of United States Marines. They fly queer looking kites, with baited hooks at the end of their tails, every evening about dusk. They fish for bats in the air.

Planted Own Sugar Cane.

Indiana, Pa.—Fearing that the price of sugar might go so high that he could not afford to buy it, M. D. Crawford of this county planted half an acre of sugar cane last summer and the crop has produced 60 gallons of sirup. Crawford believes that sugar cane planted in this region and given proper attention will yield a crop worth at least \$250 an acre.

LOOK IN THE MIRROR?

When you study others live and observe their actions and constantly strive to imitate some successful man's activities, be CAREFUL that you do not neglect to study as well—Look in the Mirror. Look in the Mirror of the past and ask yourself this question? Am I saving all I can in energy, character and money for the good of all. By helping yourself you help others.

Dr. Buck Resigns

Jacksonville, March 29.—Dr. Ralph N. Greene, state health officer, has announced the resignation of Dr. William J. Buck as assistant state health officer effective April 1. Dr. Buck resigns to become surgeon for the American Cyanamide Company, of New York, which has extensive phosphate mine interests at Brewster, where he will be stationed.

One of the most well known of the younger members of the Florida medical profession, Dr. Buck has a brilliant military record, having been a lieutenant-colonel in charge of the base hospital at LeMans during the war. He entered service with the Second Florida Infantry as a Captain. Since becoming associated with the State Board of Health he has directed a number of health movements that have been far-reaching value to the state.

In Circuit Court, Seventh Judicial Circuit Of Florida, Seminole County, In Chancery.

R. C. Blanchard vs Order of Publication Richard P. Marks et al.

To the Defendants Nelle Parramore Mitchell and William Mitchell:

It appearing from the sworn bill of complaint in this cause that your residence is Savannah, Georgia, it is Ordered

That you do appear to the bill of complaint in the above styled cause on Monday, the Third Day of May, A. D. 1920, otherwise said bill will be taken as confessed against you

It is further ordered that this notice be published in The Sanford Herald, a newspaper published at Sanford, Florida as required by law.

Witness my hand and the seal of said Circuit Court, this the 30th Day of March, A. D. 1920. (SE/L) E. A. DOUGLASS Clerk Circuit Court for Seminole County, Florida. V. S. Strickland, Solicitor for Complainant.
