

County Health Services Up In The Air

By DONNA ESTES
Herald Staff Writer

The services to be provided by the Seminole County Health Department while the search continues for a new health director were uncertain today.

"At this moment we are not going to be dropping any services which were provided previously," said Troy Todd, Seminole County's director of human services, who is responsible for management of the health department.

However, Todd noted the confusion that exists concerning health department services by adding: "Until I find a doctor...

provide services, we may not be able to provide all of them." Considering individual services, Todd cited as an example those persons who have been receiving medication provided by the state will continue to receive that medication if they have a current doctor's order.

He said, in addition, that he has found a doctor to handle new cases of tuberculosis. Currently 33 patients receive medication on a regular basis for tuberculosis from the health department.

The TB nurse specialist will provide the medication with a backing from an Orange County physician, he said.

Those Seminole County residents who have been receiving medication provided by the state for diabetes, epilepsy, arthritis

and other chronic diseases will continue to receive the medication, said Todd.

No income eligibility is necessary to receive these medications, Todd said.

Those women who have been receiving prenatal care at the health department will continue to receive care there and new applicants will be considered on an individual basis, Todd said.

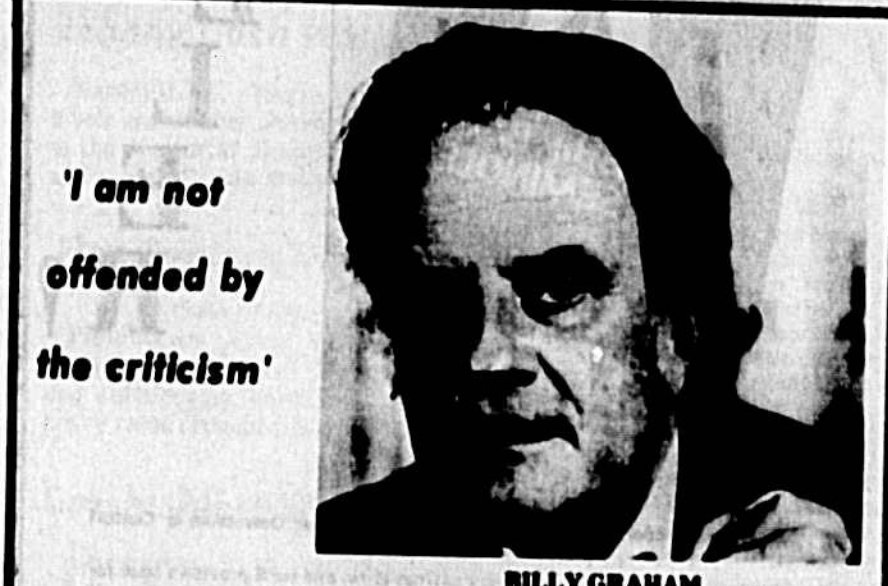

In the meantime, the search is on for a qualified person to fill the slot vacated by Dr. Hunsida Batta as director of the health department a couple weeks ago.

Dr. Batta resigned over a continuing battle with Todd over

'Until I find a doctor...we may not be able to provide all of them (services)'

TROY TODD

'I am not offended by the criticism'

BILLY GRAHAM
...I am honored'

Swedes: Would You Buy A Used Car From Him?

STOCKHOLM, Sweden (UPI) — American evangelist Billy Graham's crusade to Scandinavia is drawing heavy criticism from Swedes and Norwegians who say he is peddling religion like a used-car salesman.

Graham, who said he was not offended by the criticism, also has been pulled with fruit and debris during two of his public appearances. His preaching, broadcast to 21 Scandinavian cities on a cable television network, has triggered criticism of the methods he uses for proselytizing religion.

"Because Christ is in my heart and his blood has cleansed me from sin, I know that he has accepted me," Graham said in one report who suggested that his methods were irreligious.

One Swedish television newscaster asked Graham why his crusade uses the "business methods of car salespeople to preach the gospel."

"We are not a business organization, but we use business methods to propagate the teachings of Jesus Christ," Graham answered.

"If I was on the outside of the Billy Graham Evangelical Association, I would have the same questions. I am not offended by the criticism," Graham said.

Last Saturday, while speaking to a meeting in Oslo, Norway, Graham was hit in the face by a rotten tomato.

"I am honored," the evangelist said, wiping away traces of the tomato.

Medic: More Tests Needed On Dead Boy

By DONNIE FEOLA
Herald Staff Writer

An initial autopsy today has failed to clear the mystery surrounding the death of six-year-old Brian Schultz.

Dr. V.V. Gary, Seminole County Medical Examiner, said additional tests at the Regional Crime Laboratory in Sanford would be required before an exact cause of death is known.

The first-grader's body was discovered in a refrigerator at 5 p.m. Wednesday, when a pair of movers from Fogarty Van Lines began moving furniture into the vacant trailer at 888 Holly Hill Ave., one block from the youth's home in Lake Kathryn Estates.

The movers smelled the decomposing body and summoned Bill Morris, a Casselberry policeman who lives next door to where the body was discovered.

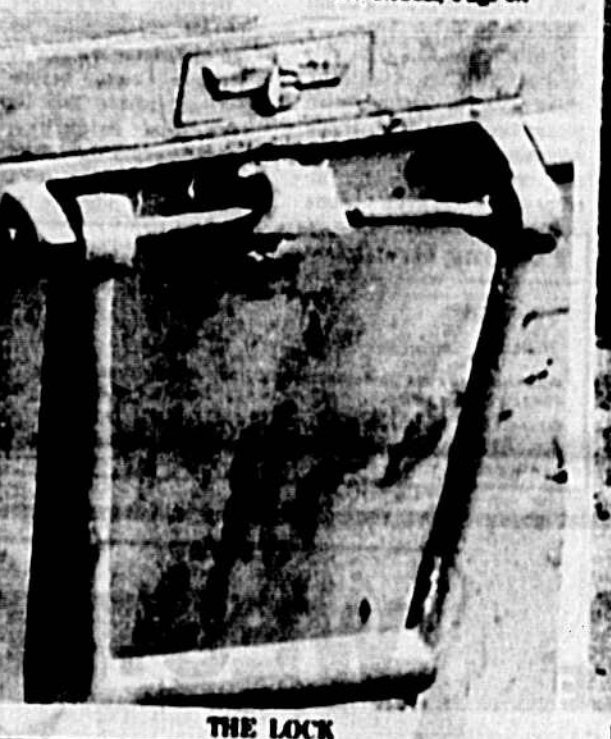

There is speculation the boy died of suffocation, but Dr. Gary emphasized that it is nothing more than speculation.

He said it is difficult today to pinpoint the cause of death, but also said if indeed the boy died of suffocation, additional investigation is necessary to determine if it was a natural death because of lack of oxygen

from being in the refrigerator or whether he was suffocated by force — perhaps strangled.

"There is no way today we can say for certain. The body was too decomposed to make such a determination. The X-rays taken show no fractures, but that does not necessarily rule out other possibilities. We must run and blood samples and other samples for study before making a positive determination."

Gary said there were no signs of physical violence on the youth's body. He also said the youth, whose disappearance Saturday touched off an

Seminole Program Would Help Disruptive Students

By LEONARD KRANDORF
Herald Staff Writer

Combating truancy, disruptiveness and a deteriorated attitude toward school pupils will be the aim of a new alternative education program slated to begin next week in several Seminole County schools.

The program will be funded with state money as a result of a law enacted by the state legislature during the last legislative session.

The county school board voted 4-1 Wednesday to give Mary Groome, director of elementary education, the go-ahead to set up the program.

Voting against the idea was Robert Fother who said the money could be better spent for reaching the children at an earlier age.

Currently, it has not been determined how many students will be affected by the program.

"We will not know until we go to the schools and evaluate the situation," added Mrs. Groome.

Each class will have a maximum of 10 students and a minimum of six.

An outline to the board the new program will serve one year olds and will have involvement from several school officials as well as consent from the parents.

The teacher will first attempt to help the student on an individual basis and have at least one meeting with the parents. If there is no change the principal will then be consulted.

The principal will look at the student's academic and school records to determine attendance, and how the student has scored on tests. One of the main academic things the principal will be looking for is whether the student is academically two years below his fellow classmates or one year below his academic potential.

The principal will then have the student screened by a guidance counselor, a teacher and one other person. After evaluating the screening results the principal will make a recommendation.

If the principal recommends the student for the program the parent does have the opportunity to say no, according to Mrs. Groome.

"This is an opportunity for the parents and not something they have to do," Mrs. Groome said.

The student will stay in the program for a year at which time another evaluation will be done to see if it is possible to return to the regular classroom environment.

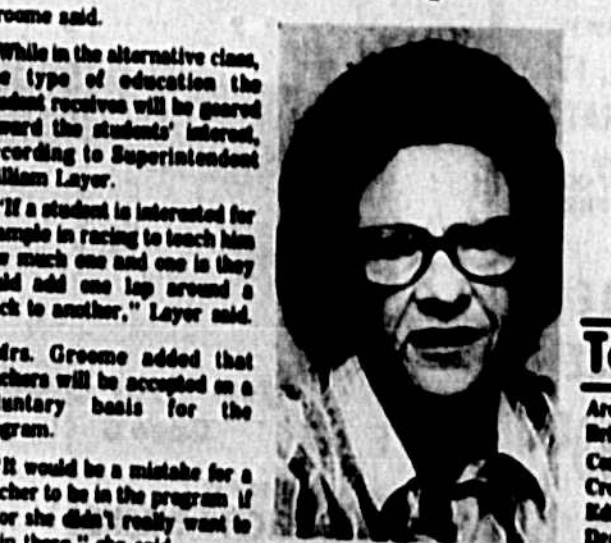

One aspect that still needs to be settled is how it will be determined what grade the student will enter if the final evaluation is passed, Mrs. Groome said.

While in the alternative class, the type of education the student receives will be geared toward the student's interest, according to Superintendent William Leyer.

"If a student is interested for example in racing to teach him how much we can do in one hour could add one lap around a track to another," Leyer said.

Mrs. Groome added that teachers will be accepted on a voluntary basis for the program.

"It would be a mistake for a teacher to be in the program if he or she didn't really want to be in there," she said.

MARY GROOME

'This is an opportunity for the parents and not something they have to do'

RR Bargainers Still Talking

Negotiators in the nationwide rail strike made "considerable progress" today and worked past a noon deadline for a settlement to end the dispute which now threatens the country's harvest and industry.

The noon deadline had been imposed by Labor Secretary Ray Marshall, who said failure to reach a settlement by that time would mean the government will step in to settle the strike.

But at least today, an expected settlement was believed.

Later Department spokesman John Latta would not say whether the delay indicated more progress in the talks.

This morning, officials disclosed progress was being made, but several key issues were still unresolved.

General Manager James Hensley met through the night with Bargainers for the Norfolk and Western Railway Co. and the National Brotherhood of Railway, Airline and Steamship Clerks, which has threatened its refusal to 23 railroads across the country.

"I would like to see the strike end. The parties have been negotiating for several days. Wednesday is an extremely cooperative and constructive session," a Labor Department spokesman said in a statement shortly after 6 a.m. EDT.

Wrestlers Grunt, Groan At SHS

Reproaches at the Orlando Sports Stadium on Oct. 5 will swirl in the title of a tripleheader wrestling extravaganza to the Seminole High gym this event will be televised. Plans are for the U.S. tag team, Florida Heavyweight and Florida tag team title bouts to be staged in Sanford.

Details will be announced within the next few days by promoter John Heath, Seminole High's athletic fund will benefit from the show. Wayne McDevitt and Jack Saylor will appear on the card.

Mom On Daughter: 'Today Is The Day She Dies...'

BURLINGTON, Vt. (UPI) — Marilyn Diel awoke one morning last July and thought to herself, "Today is the day she dies."

With tears her eyes, Mrs. Diel, 61, told a judge Wednesday that she had her 16-year-old daughter Judy for a day in the family car later that day and that her death to keep her from running away to become a prostitute.

"I would have gone home, because I couldn't let her go," she told Chittenden County Superior Court Judge Ernest Gibson.

Mrs. Diel had pleaded innocent by reason of insanity to a first-degree murder indictment. She changed the plea to guilty Wednesday after authorities agreed to reduce the charge to second-degree murder.

Mrs. Diel told Gibson it all began in 1977 when Judy went away to college in Boston. She said she soon learned her daughter moved out of the YMCA to become a prostitute.

"Judy got involved with a black pimp in Boston," she told the judge. "When I found out... I brought her home. I did everything I could to keep her home."

The pimp pursued Judy at her home in Colchester, Vt.

by letter and telephone, Mrs. Diel said. Once, Judy tried to run away and was caught by her mother at the bus station.

Finally, Mrs. Diel said, she told Judy she would have to stay home and cut all ties with Boston or "leave the house and never come back."

When Judy decided to leave, Mrs. Diel said she wrote the morning of May 5 and thought, "Today is the day she dies."

"I was as if she was already dead," Mrs. Diel said. "I felt an intense who was safe."

Mrs. Diel said she found her husband's two guns, a .38-caliber revolver and a .38 S&W, in a chest.

She told her daughter they were going for a drive. The two drove to the shady parking lot of the Omni Zuck Spa in Burlington, a place Mrs. Diel had visited for countless times.

Mrs. Diel asked her daughter to get out of the car. Then, she said, she began shouting Judy with the revolver. "No mama!" Mrs. Diel said her daughter cried. "No mama!"

"Judy, I can't let you go," Mrs. Diel said she answered.

WORLD IN BRIEF

Israeli Minister Planning Trip To Egypt For Peace Talks

JERUSALEM (UPI) — Defense Minister Ezer Weizman will go to Egypt the second week in October to start peace negotiations authorized by the Israeli parliament in an overwhelming ratification of the Camp David accords, the state radio said today.

The announcement came after the Knesset voted 84-19 with 17 abstentions to approve the Camp David agreement and remove Jewish settlers from Sinai as part of a peace treaty.

Hardliner Heads S. Africa

CAPE TOWN, South Africa (UPI) — Pieter Willem Botha, 62, the hardline minister of defense who successfully argued for South African troop commitment in the 1975 Angolan civil war, was elected today as South Africa's eighth prime minister to succeed retiring John Vorster.

Vance: SALT Pact This Year

NEW YORK (UPI) — Following a more than two-hour meeting on a new strategic arms limitation treaty with Soviet Foreign Minister Andrei Gromyko at the Soviet Mission to the United Nations, Wednesday, Secretary of State Cyrus Vance said he was "neither encouraged nor discouraged," and added, "I believe it is possible to reach a treaty this year."

The two planned an even lengthier session today and what they are aiming at is a new agreement to replace the outdated SALT I treaty of June 1972 and modified at Vladivostok in 1974, which expired last October.

16 GIs Killed In War Games

HANAU, West Germany (UPI) — Three more U.S. soldiers on a NATO maneuver have been killed in a traffic accident, raising the death toll since the five-week war games began Sept. 7 to 16.

Slaying Victim Was Stabbed 13 Times

By DENNIS FIOOLA
Herald Staff Writer

An autopsy of Joshua Scipio has revealed the 36-year-old man was stabbed 13 times when he was killed Monday.

Willie Fred Allen, 27, of 1407 W. 12th St., Sanford, faces arraignment Friday in connection with the stabbing.

Allen is Scipio's nephew and police said the men were arguing over a rent payment when Allen allegedly stabbed Scipio on the front lawn of Allen's house.

A spokesman for the Seminole County medical examiner's office said Scipio died of massive internal hemorrhaging. He was stabbed twice in the heart, once in the lungs and once in the spine, the main artery of the heart, the spokesman said.

Police said Scipio went to his home at 8 p.m. where the pair argued. They went outside the house where the argument continued and

The stabbing reportedly occurred.

Allen was taken into custody inside the house and a butcher knife was found outside the house, police said.

CLEANED OUT
One Hour Martinizing Cleaners in Sanford was robbed of \$68 in cash Wednesday at 2:15 p.m.

A man in his 20s entered the store at 134 W. Second St. and asked Patty Wiggins, 26, of Sanford, if there were any clothes for a man named "Wendy."

When the cashier said no, the man asked for change for a \$5 bill, according to records. When the woman opened the cash

register, the man reached over the counter and grabbed \$68 from the register.

The woman grabbed his hands and a second woman, a 60-year-old from Sanford, jumped the man trying to knock him away, records indicate.

"You want me to kill you?" the man reportedly told Miss Wiggins as they struggled. He ran out of the store and was last seen running north on Oak Avenue. He got the \$68 but left behind his \$5 bill, records indicate.

\$1,800 CASH GONE
A Sanford woman has reported \$1,800 in cash stolen from her home.

Jane B. Sumner, 56, of 607 Oak Ave., told Sanford police the money, in \$20 bills, was in a brown leather pouch on the dresser in her bedroom, according to records.

She speculated that someone entered the night someone entered her apartment through an unlocked door and took the pouch while she was sleeping.

Trafficante: With CIA To Kill Fidel

WASHINGTON (UPI) — Senate Trafficante, a reputed Mafia boss and the subject of speculation involving a Cuban link to the Kennedy assassination, told Congress publicly for the first time today he worked with CIA agents in a plot to kill Fidel Castro.

Trafficante, 63, a slight, balding man who was testifying under a grant of immunity from prosecution, told the House Assassinations Committee his role was that of an "interpreter" between crime

figures, the CIA agents and Cuban exiles in a plot during 1960-61 to poison the Cuban president.

Herndon Ambulance Service will continue its full ambulance service in Seminole County beyond the expiration of its franchise midnight, Saturday, until the county commission comes to a decision on whether to

renew the contract, county director of public safety Gary Kaiser said today.

Herndon has asked the county for a \$75,000 annual subsidy for the new year beginning Oct. 1. The county commission is considering several options, said Kaiser, including: renewal of the contract with Herndon, going into the ambulance service business with or without other cities in the county or asking for applications for other firms interested in providing ambulance service under a franchise.

He denied he had handled any poison pills supplied by the CIA or had any other direct involvement.

Herndon Ambulance Service will continue its full ambulance service in Seminole County beyond the expiration of its franchise midnight, Saturday, until the county commission comes to a decision on whether to

Senate Win In Hand, Gas Lobbyers Eyeing House Vote

WASHINGTON (UPI) — Encouraged by a comfortable winning margin in the Senate, backers of President Carter's natural gas pricing bill intensified their House lobbying today and acknowledged "we still have a battle."

The Senate approved the natural gas price deregulation bill Wednesday, 57-42, the biggest victory so far for Carter's domestic program in which energy policy had top priority.

Johnny Cash Hospitalized

NASHVILLE, Tenn. (UPI) — Country music entertainer Johnny Cash was admitted to the Memorial Hospital Tuesday for tests and a rest, it was announced Wednesday.

Floodwaters Destroy Bridge

By United Press International
Floodwaters swept through portions of southwest Texas today, destroying one bridge and submerging another at Presidio, and heavy rains drenched much of the Gulf Coast.

Crash: Alert Wasn't Heard

SAN DIEGO (UPI) — About 40 seconds before the worst plane crash in U.S. history, a new warning system sounded an alarm that a jetliner was about to collide with a small plane. But controllers talking to the pilots could not hear the alarm, and those who could were unable to contact them. Meanwhile, it was reported that nine persons will be prosecuted on charges of attempted looting in the wreckage.

Sanford: Who Voted When For What?

What we had Monday night was a failure to communicate.

The Sanford City Commission approved payment of almost \$600 per year for life insurance for City Manager Warren E. Knowles. The approval was never in doubt, but the margin by which the proposal passed was.

Some commissioners thought the vote was 4-1, with Mayor Lee P. Moore voting against the proposal, and others thought Commissioner A.A. McClanahan cast a lone vote in opposition.

However, the truth of the matter is it was a 3-2 vote with McClanahan and Moore voting "No" together.

"Sometimes it is hard to hear at that table," commented Knowles on the confusion. He had thought

McClanahan was also in voting against the measure.

McClanahan said he opposed the measure to keep expenses down. Moore said he voted against the proposal because the policy names Knowles' wife as beneficiary and not the city.

The insurance move was an effort to bring Sanford in line with the policy programs of other Florida cities, according to Knowles.

In another vote mis-up, it was erroneously reported Commissioner Eddie Keith applied for a grant application by the Sanford Housing Authority for a neighborhood facility. Keith supported the idea. That issue was approved 4-1, with Mayor Moore opposed.

New Cultural Revolution

Mainland China's announced willingness to send perhaps 10,000 students abroad to attend universities and technical schools in the West...

Ten years ago, Mao, the ultimate revolutionary, would have recoiled in horror at the thought of exposing students to Western influences likely to lessen their revolutionary zeal.

Nor would he have been prepared to admit publicly that China's program required large infusions of Western science and technology.

The current leadership is evidently prepared to accept the risk of the former in exchange for the certain benefits of the latter.

It is a temptation to overstate the changes, at least in the short run, that might be wrought in China by 10,000 students whose degrees in engineering, chemistry, physics and business management come from places like California Institute of Technology, Harvard and Ohio State.

For nearly 20 years, China has been an extraordinarily closed society. Even educated Chinese on the mainland have far less about life in the West than the average citizen in the Soviet Union or in the Eastern European satellite nations.

The dispatch abroad of 10,000 of China's brightest young people would mean nothing less than 10,000 windows on a curious new world on the world with 10,000 curious eyes.

Among these 10,000 students may be the future leaders of China. Their perspectives cannot help but be altered by their years spent at the finest colleges and universities in the capitalist West.

Somoza & The U.S.

It appears that the long reign of the Somoza family in Nicaragua is drawing to a close.

Even though President Anastasio Somoza has vowed that he won't resign his post, he is faced with more than Marxist Sandinista guerrilla attacks.

There also is a widespread national strike by business and trade unions and there are plots against him within the national guard — which serves as both army and police force for the Central American nation.

The Somoza, whose wealth is believed to total more than \$60 million, have dominated Nicaraguan politics for four decades.

The family certainly has grown rich in public office. Word comes now that President Somoza has accepted mediation by the U.S.

That is as far as we should go in the matter.

Missouri Faces One Tough Row To Hoe

United Press International
It's a sure bet the guy who makes up the football schedule at the University of Missouri will never win a popularity contest.

There may never have been a first month's schedule as demanding as the one the Tigers have encountered this year. When a team opened with a defending national champion and followed by playing two No. 1 ranked teams within the next three weeks? Such is the plight of the

Tigers. They opened against defending national champion Notre Dame (and surprised them with a 3-0 victory) then played top-ranked Alabama the second week of the season. Now they face the Crimmon Tide, but it wasn't one-sided. After a brotherly last week against Mississippi, Missouri comes face-to-face this Saturday with another No. 1 ranked club, Oklahoma, which took over the top rating this week following Alabama's loss to Southern California.

Philippine 28 North Carolina 17 — Patricians have a pair of banged-up quarterbacks. Washington St. 49 Army 10 — Jack Thompson takes no prisoners. Navy 22 Boston College 8 — Middle's aerial game tough to stop. The South Alabama 20 Vanderbilt 7 — Crimmon Tide gets some of its last color. Florida St. 31 Houston 22 — Jimmy Jordan and Danny Davis combine throwing arms.

Haynes' Hunches
By JIM HAYNES
Herald Sports Editor

Pirates, Phils In Key Series

Forget Sportsmanship

So much for the trivial early season high school football games. Now comes the real thing...the hate games.
Yep, I know. Football is a game in which sportsmanship is to be displayed at all times. Sorry, coach, but games like Seminole-DeLand simply breed contempt for the other team, and it extends all the way from players to fans.
It just so happens the big game this week is DeLand at Seminole. This Friday night encounter is always of the third kind. It is, in other words, a case of some pick a winner in a game like this? There are other encounters expected to produce some surprises, too. Like Lake Howell at Lake Brantley. The question there is two-fold—can Howell continue to play like madmen, and can Brantley get back to the basics of winning football?

United Press International
The first-place Philadelphia Phillies take on Pittsburgh at the Pirates' home in their next four-game series that will in all probability decide the National League's Eastern Division title. Philadelphia hung on for a 4-2 triumph over Montreal and Pittsburgh whipped Chicago, 6-2, Wednesday night, setting up the four-game road series down beginning with a Friday night double-header. The Phillies lead the Pirates by 3½ games and need only one win to clinch their third straight Eastern Division crown. Phillies' shortstop Larry Bowa believes his team has the better hand.

triple that capped a six-run sixth inning and kept Philadelphia's magic number from clinching the division at St. Louis. Pirates captain Willie Stargell terms the upcoming Oct. "The Shootout at the Corral," but declined to predict the survivor.
"That," he said, rolling his eyes, "I'm not going to reveal, because if we know, there wouldn't be any use of playing the games."
To other NL games, San Francisco blanked San Diego, 4-0, and Cincinnati beat Los Angeles, 5-2.
In the American League, the New York Yankees defeated Toronto, 5-1, Boston downed Detroit, 5-2, Seattle opened the season with a 4-1 win over Cleveland, 5-1, Texas whipped Minnesota, 1-0, and California beat Milwaukee, 4-1. Giants 1, Padres 9.
Bob Knepper led San Diego to five hits in his last start of the season, picking the San Francisco victory for his sixth straight and 17th triumph. Astros 4, Braves 1.
Vern Riffe and Joe Sambito combined on a five-inning and rookie Jeff Leonard capped a four-out eighth-inning with a three-run double to pace Houston over Atlanta in a battle for fifth place in the West. Reds 9, Dodgers 2.
George Foster hit a two-run homer, his 27th, and Champ Summers singled home the go-ahead run during a four-run, eighth-inning rally that lifted Cincinnati over Los Angeles.

Ball Signed By Dolphins, Third Time A Charm

MIAMI (UPI) — Veteran cast removed this week and still at least three weeks away from returning to action. Bob Matheson suffered fractured vertebrae in Sunday's 17-3 loss to Philadelphia and was put in a body cast Monday.
Shula said Wednesday that the offensive tackle Wayne Merry (knee) and fullback Leroy Harris (ankle) are questionable for next Sunday's game against the St. Louis Cardinals.
Tiant, 12-4, yielded solo homers to Rusty Staub, his 26th, and Ron LeFlore plus one other hit before retiring after the sixth inning with a slightly stretched hamstring. Andy Hamler and Bob Stanley finished up.
"I believe we can continue to do it the rest of the year," he said. "The big thing is we're hitting again the way we were early in the year." Number 1 reduced to four, the race cannot be officially decided until Friday at the earliest when the two clubs will be in their final series of the season.
Elsewhere in the AL, Baltimore put away Cleveland, 3-1; Seattle blanked Oakland, 3-0; Kansas City, 6-2; Texas thrashed Minnesota, 10-4; and California downed Milwaukee, 6-1.

Hunter, Tiant Prolong Party

Sidetracked 'Bama Mind Back On SEC

United Press International
Catholicism and Luis Tiant have prolonged the party of the American League East pennant race to the final series of the season.
Hunter stopped the Toronto Blue Jays on six hits Wednesday night in pitching the New York Yankees to a 3-1 victory. It was, of course, a vital win because the Boston Red Sox, behind Tiant and two relievers, retained one game behind the Yankees with their 4-2 win over the Detroit Tigers.
Hunter, who tied his fifth complete game and improved his record to 12-6, said, "I feel good to be contributing instead of sitting on the bench knowing you can't do anything. I was doubting I would ever pitch again the way I could."
"It was the old Catholic," said Reggie Jackson, who hit his 25th homer in the ninth inning. "I honestly thought before the game he'd pitch a shutout if he could keep it in the ball park."
The Yankees' lead in the fourth inning, Roy Halladay had an upper deck homer. But by that time the Yankees already had a 4-0 lead, thanks to Bucky Dent's homer off the field and Willie Randolph's two-run single in the second inning and Craig Nettles' 27th homer in the third.
Meanwhile, in Boston, the Red Sox were winning their fourth straight and hoping it really was late to win the division title they seemingly had wrapped up last night. George Scott drove in two of Boston's runs with a homer and a single, while Carlton Fisk tripled home this year's

Graham: He Asks Debate

TALLAHASSEE (UPI) — Governorial candidate Robert Graham, boasting the new endorsement of the top leadership of the 1979 Legislature, has called on his opponent to meet him in structured debates limited to key issues.

Graham says the public will know nothing of the character, ability or knowledge of either him or opponent Robert Shubin by watching the back-biting face-to-face debates which have highlighted their runoff campaign for the Democratic nomination.

Graham said the campaign has degenerated into a name-calling contest that can do nothing but help the cause of Republicanism. Jack Eckhardt, Eckhardt agrees, charging the Democrats "hurt personal insults... but produce little or nothing of any real substance."

Steve Williams, campaign coordinator for Shubin, said his candidate is agreeable to structured debates, but does not want to limit them to one subject.

Graham denounced a campaign handed, being distributed by Shubin people in shopping malls, and inferring that Graham is in favor of a personal state income tax and opposed to the elected cabinet.

35 County Workers Granted Pay Raises

By MAX KIRKELITIAN
Herald Staff Writer

Administrative personnel working for Seminole County will receive a total of \$38,800 in pay increases effective Oct. 1.

The county commission voted Tuesday to grant salary hikes ranging up to 10 percent for 35 administrative employees.

The commission had budgeted for five percent raises for every administrative position in county government when they approved the county budget Sept. 12. However, only 13 employees were granted raises higher than the five percent provided for at budget time. The remaining 22 were at five percent or lower.

"We had an additional \$60,000 budgeted for exceptional merit raises in anticipation of doing this in addition to the five percent budgeted," said Jeff Eichberger, director of the Office of Management Analysis and Evaluation (OMAE).

Commissioner Harry Kwiatkowski voted for no raises on several positions.

In explaining his reason for casting such votes, he said, "I cannot sanction anyone in a management position who I feel has not come up with a high rating getting a raise or someone who has been in a management position who is doing only a satisfactory job getting a raise."

"Quite frankly I feel the administrative staff leaves better what its staff has been doing than the board," County Administrator Roger Neiswander responded.

In other action, the commission set rates for non-resident users of the Seminole County Library system.

Persons living outside Seminole County will have to pay \$12.00 per year to use library facilities in Seminole County.

The commission unanimously voted the non-resident rate and voted no fee for county residents.

Briefly

Lake Brantley Seniors Receive Commendations

Principal Darwin Boothe announced today that five senior students at Lake Brantley High School have been named Commended Students in the twenty-fourth annual (1979) National Merit Scholarship Program. This honor recognizes each student's outstanding performance on the Preliminary Scholastic Aptitude Test-National Merit Scholarship Qualifying Test which was administered nationwide to high school juniors in October 1977.

Letters of Commendation were presented to Michael DeVosney, Elizabeth Euliana, Lisa Freeman, Meg Faney and Kathleen Martin.

Reading' Class Opens

The Office of Community Services at Seminole Community College (SCC) is offering a "Speed Reading" Class beginning on Oct. 25. Class will meet from 7:00 to 10:00 p.m. in Bldg. No. 43 on the Adult Ed. Campus for eight weeks on Wednesday evenings.

Enrollment is limited to 20 people, with a \$12.00 registration fee. For further information, call the Office of Community Services at SCC.

GED Tests Offered

The GED test leading to a high school equivalency diploma will be offered at Seminole Community College (SCC) on Oct. 22, 23 and 25. Eligibility for taking the test must be completed by Oct. 15.

A free, self-help program to prepare the student for the test is available at study centers located throughout Seminole County. For details on the study center in your neighborhood, call Seminole Community College and ask for the GED office.

First Aid Class Begins

The Office of Community Services at Seminole Community College (SCC) will offer an eight-hour "Multi Media First Aid" class beginning on Oct. 10. Class will meet from 6:30 to 10:30 p.m. on Oct. 10 and Oct. 11.

"Multi Media First Aid" is a highly compressed course in First Aid using various media to facilitate instruction. Areas covered are: Shock, splints, resuscitation, burns, etc. Fee for the eight-hour course is \$6.

For further information, call the Office of Community Services at SCC.

Octoberfest Planned

The German American Society of Central Florida invites members, guests and friends to attend their annual Oktoberfest, on Oct. 7 from 4:30 p.m. to 1:00 a.m. at the German American Clubhouse, 381 Orange Lane, Casselberry.

A typical German meal will be offered, starting at 4:30 p.m. Cost is \$2.50. The Polka Pals will be playing for your listening pleasure at a donation starting at 4:30. German Beer will be served.

The Patter Of Tiny Feet Is One Thing, But...

Hormones Bring Babies And Problems

By RAFAELA SEFFALA PARIS (UPI) — Hormone treatments help bring babies but they also bring a problem not envisioned when children couples first submitted to the treatment that has presented many of them with the daunting problem of multiple births.

The patter of tiny feet is one thing — but how do you handle the situation when the patter sounds like a stampede?

Eric Soubeis, proud father of healthy quadruplets born July 1 at Caen on the French Normandy coast, has just petitioned

French President Valery Giscard d'Estaing to take measures to help families in which unusual multiple births occur.

Soubeis' wife, Francoise, was childless until she underwent a hormone treatment which led to the births of Amelie, Claire, Sophie, Vincent and Benjamin. He said the couple is now facing insurmountable problems as a result of the multiple birth.

"Francoise is exhausted" adding to his telephone interview, "Before the births we invested all our savings into buying me a partnership in

a process-server's firm. At the end of September, Francoise will no longer have her schoolteacher's salary and it is out of the question for her to return to work with the five kids."

So far, although all the children are faring well, only Claire and Amelie have been allowed out of the hospital.

"With two children it is already exhausting," says Francoise. "But when they'll all be here, I'll have to spend 19 hours a day taking care of them. I'll have to get up at five o'clock in the morning and I'll have to prepare at least

35 bottles a day."

Besides the extra work, the Soubeis have calculated the babies will cost them at least \$275 per month in diapers and milk alone plus hundreds of dollars more on clothes, cribs, baby carriages and other necessary items.

The family car, a Renault, will soon be too small to contain the brood so will the five-room house the Soubeis currently rent at Demouville outside Caen.

Like all French families the Soubeis have received the government child subsidies which, in child-

parison with other European countries, are fairly generous.

These subsidies include the standard pre-birth allocation of \$120 regardless of the number of children expected, post-birth allocations which for the Soubeis totalled \$1,350, the special large family allocation of \$20 a month, plus the help of a family assistant free of charge for one month.

Francoise also received two extra weeks of paid maternity leave in addition to the 18 weeks she now

mothers are entitled to.

Eric Soubeis, who worked as a legal clerk until he became a process-server, said, "It is really an impossible situation. Everybody talks about births regaining in France but when the babies come, there just aren't the means to raise them."

"Already Francoise has had to abandon her plan to pursue her studies to become a school inspector or psychologist," Soubeis said. "Then there is the imminent loss of her income."

THANKSGIVING FEAST, MAYBE?

Some lucky person will be feasting fine fare with flair at Thanksgiving as the winner of \$100 worth of groceries, a project of the Pilot Club of Sanford to support its charities. A drawing will be held Nov. 18 at the Sanford Civic Center. Winner does not have to be present to win.

Ticket donations, at \$1 each, are available from any Pilot Club member. Virginia Wood (right) was among the first to receive a ticket from Mable Bateman.

Mastectomy Patients Needed For Volunteer Training Work

Mastectomy patients who had their surgery at least two years ago and who are willing to serve as volunteers are invited to a Reach to Recovery Training seminar and dinner sponsored by the Seminole County Unit, American Cancer Society.

The training session will be held Oct. 11, from 8:00 until 8:00 p.m. at the Chase & Company building, 2nd and Oak, Sanford.

Mary Lou Foster, Reach to Recovery Coordinator for Seminole County, stated that women who have had the surgery, recovered and volunteered to serve in this capacity will also be in attendance sharing their experiences with the newcomers. This service, offered only upon the request of the patient's physician, and instituted in Seminole County last fall, has been warmly received by the medical profession; however, additional volunteers from the Sanford area are needed.

A larger group of volunteers would enable the Society to schedule patient visits more rapidly, hopefully soon enough to allow some of the apprehension experienced so many times by surgery patients.

Interested persons should contact the American Cancer Society at the Sanford office, 222-4041, within the next week so that they may be provided with the necessary forms required prior to participation.

Uric Acid Stones Do Occur In Adults

DEAR DR. LAMB - One of your columns recently talked about uric acid kidney stones. The treatment that you mentioned differs from that of my son's, so I thought you would be interested in our story.

When he was 13 years old he was hospitalized with a kidney infection and found to have a large uric acid stone. He was placed on a very strict uric acid free diet with no red meats - only chicken, fish, turkey. He drank a glass of water each morning to keep his kidneys flushed, plus four glasses of orange juice and a solution of sodium citrate and citric acid which, in turn, caused his urine to become very alkaline. Receiving a uric acid stone in an alkaline solution over a period of time dissolves stones.

After three months of faithfully following the treatment, new X rays showed that the stone was gone and our son's kidney was back to normal. Surgery had been avoided. We learned a great deal out of the experience. First, that uric acid stones appear in children and calcium stones appear in adults. And that uric acid stones are transparent and, therefore, you can't see them on ordinary X rays, but have to inject dye to observe them.

Also, children today eat more than their parents and should drink less water than we should. Consequently, they don't flush out the uric acids in their system. DEAR READER - Most of the things you say are right on the money. The chief difference probably is in the method of making the urine alkaline. This can be done in several different ways with different medicines. It is perfectly true that a high

percentage of uric acid stones can be dissolved. Unfortunately, it is not true in all cases. There have been enormous strides forward in learning how to treat kidney stones in recent years. You have to know what kind of stone it is before you decide whether you want the urine to be acid or alkaline. Some stones dissolve in an acid urine, whereas other stones dissolve in an alkaline urine. Of course, there are stones that don't dissolve at all. With the current knowledge about stones, though, most of them can be prevented from enlarging further and a good many of them can be dissolved. Also, you can prevent formation of new stones.

It is perfectly true that uric acid stones cannot be seen on an ordinary X ray. It is not true that they occur only in children. Uric acid stones can and do occur in adults. To give you more information about kidney stones and the current thinking about them, I am sending you The Health Letter number 112, Kidney Stones: Treatment Has Changed. Despite what kind of stone a person has, the one point on which there is almost universal agreement is that anyone who has such problems should drink lots of fluids, particularly water. They should drink enough to cause the kidneys to flush water out of the body around a clock, rather than just drinking large amounts of fluids two or three times a day. The dilute urine helps to prevent the clumping of minerals; and chemicals that form stones.

There is another lesson to be learned here. It is that if you don't know how to play the game, you shouldn't rush to get into it. A Virginia reader wants to know what is meant by the expression "He tapped the deck." To tap a deck, dummy or dealer, is to force him to shuffle and thereby reduce his trump holding by one. (REMEMBER: DON'T TAKE ANY MORE CARDS.) Do you have a question for the Experts? Send it to: Experts, care of this newspaper. Individual questions will be answered, most questions by request. Most questions will be sent to the column and will receive copies of JACQY MOORE'S.

A heart lead by West would have been a good one for his contract, but West should have opened the jack of clubs. Both were in dummy, and the jack of diamonds and the jack of clubs were both in dummy. At this point South could

Golden Wedding Anniversary Dance All Night? They Could Have, And Almost Did

By JOAN MADISON Herald Correspondent

They could have danced all night... Leon and Marie Ware, that is. And they almost did... At the Alamonte Springs Civic Center to their favorite old songs played by Jack Drummond and his dance band, as friends and relatives gathered to honor them on the occasion of their Golden Wedding Anniversary.

It was a gala celebration for the couple who quietly slipped away to be married 50 years ago on Sept. 28. "They didn't have big weddings in those days, with the depression," explained Mrs. Ware. However, at this celebration among the more than 80 people who attended were elected officials from the city, county and state who came to honor the man and woman who have given so generously of their time to the community.

Also attending the anniversary celebration were the Ware's two daughters, Connie Grammer of Alamonte Springs, and her two daughters, Linda and Elaine, and daughter Sandra (Mrs. Paul Lewis) and son Robert from Whiteland, Ind. Other grandchildren are William, James, Jeffrey and Robert. The couple, who are so radiant and youthful looking that it belies their 70 years (Leon turned 70 on Aug. 4; Marie will become 70 on Nov. 4), "I can always say he's older than I am," she says, smiling.

They moved to Alamonte Springs in 1949 when Leon retired from International Harvester. He retired, but he didn't stop working. He channels his energies in charitable activities. He is presently chairman of the Advisory Committee on Aging for the East Central Regional Planning Council; a member of the Health System Agency for

Seminole County; a member of the Alamonte Chamber of Commerce, and he served as a delegate to the Silver-Haired Legislature. Just to name a few of his public service offerings. Marie, preferring to remain in the background, lovingly prepares meals at odd hours, and sees to it that all is well at home. At the festive celebration, the table laden with food had a large horn of plenty centerpiece made of bread which held rolls for sandwiches; the three-tiered anniversary cake was decorated with gold roses and golden balls; and a champagne toast was offered the couple.

Marie is a member of the Altamonte Springs Women's Club and her favorite pastime is working outdoors. The greenery surrounding their home is evidence that she does this job well. In fact, when her sister Ethel Mohr moved to Lake Kathryn Estates recently, Marie was able to supply her with greenery from her yard to attractively landscape the lot. Ethel and her son, James, who lives in Alamonte Springs, also attended the reception.

"I couldn't believe my eyes," says Mrs. Ware, of the surprise planned by the Ware's daughters. They had arranged for a 35-year friend, Mrs. Josephine Fries of Indianapolis, to fly in for the celebration. Richard Howard of Tampa also attended. There was another surprise for the Ware's. Mrs. Elizabeth (Aubrey) Spurr presented a card from the Central Regional Planning Council, a member of the Health System Agency for

Hospital March Led By Mrs. McClanahan

"Saving children's lives is the most vital work in the world," Carolyn (Candie) McClanahan, chairman for the St. Jude Children's Research Hospital door-to-door march, said today, asking that residents of Sanford volunteer their time and energy toward that goal.

"We're looking for people who are willing to contribute a little of their time to help us help children live," Mrs. McClanahan said. Volunteers are needed to help conduct a door-to-door march on Nov. 14 to raise funds to support the world-famous research center in

its battle against catastrophic childhood diseases. If you would like to volunteer to help with the door-to-door march, contact Mrs. McClanahan, 68 Edith Circle, Sanford, 32771; phone, 322-1187 or 322-5952.

Happiness Is...Family Checkups

DEAR ABBY: The letter from the woman who had two been married 15 years, had two kids and problems with her sex life (no climax, and sex once every three months for 10 minutes) could have been written by me. I did what you advised her to do. Got conceiving. It was

especially embarrassing for me because my husband is a psychologist who does family counseling. I went to a mental health clinic and the doctor there was considerate and understanding. He ordered complete physical checkups for the whole family.

DEAR ABBY: I'm with you. I've been married 15 years and I've been troubled by obscure phone calls. They're always at night. At first, when I answered the phone, no one would speak, but I could hear this heavy breathing—then an awful outpouring of filthy language would begin. I hang up as soon as I know it's this party, but he keeps calling back. Lady! I've been taking my phone off the hook until morning, but I dislike

doing that because I could be missing some important calls. DEAR JOLETT: If the caller says nothing, hang up! If the caller uses foul language—don't listen, cut him off. If the caller perverts, notify the police department and the telephone company. And it wouldn't hurt to have a police whistle by the phone. The next time he calls, use it to blast him into the next county! If you put off writing letters because you don't know what to say, get Abby's booklet, "How to Write Letters For All Occasions." Send \$1 and a long, stamped (20 cents) envelope to Abby: 121 Lucky Drive, Beverly Hills, Calif. 90211.

Dear Abby

DEAR ABBY: I need your advice. My husband and I had some pretty heated arguments about drop-in company. I do not like to have people drop in on me. I find that the closest of times is not when I'm home. I find that I should be at work and play the gracious hostess to my mother who drops in on

me. I work full-time and must do my laundry and housecleaning on weekends. When I'm in the middle of my work, but not completely out of my mind, if friends drop in, sometimes I'm not about to put on a party

smile and pretend I am thrilled to have company. I'm stressed. And I guess it's obvious that I wouldn't dream of dropping in on my friends, and I think they owe me the same courtesy. What do you think?
