

HOROSCOPE

By BERNICE BEDE OSOL

For Wednesday, October 22, 1975

ARIES (March 21-April 19) You deserve a night out. Don't wait for friends to call you. Take the initiative and you'll have fun.

Taurus (April 20-May 20) If you wait till evening to shop you'll find exactly what you've been looking for. Selections and bargains will be best.

GEMINI (May 21-June 20) After a quiet day, you'll receive some pleasant news to inspire you. Be prepared for an active evening.

CANCER (June 21-July 22) The more generous you are, the more you get back in the long run.

No Cholesterol Found In Nuts

By Lawrence E. Lamb, M.D.

DEAR DR. LAMB — What is the cause of cholesterol in one's system? I understand that it comes from fatty acids in animal fats, butter, nuts, etc., but I wonder why some people have high cholesterol levels and others don't although each are on similar diets.

Cholesterol level is 343, and my physician has me on a diet and tells me the level should be over 250 at the most. I'm 58, male, in good health, go heart attacks, no high blood pressure. Will appreciate some help.

DEAR READER — Cholesterol is only an animal product. I keep getting letters asking about it being in nuts. It is not. The rub is that excess fat in the diet, particularly saturated fat found in animal fat, stimulates the liver to form increased amounts of cholesterol.

21) You're fortunate today when you share with others. The more generous you are, the more you get back in the long run.

CAPRICORN (Dec. 22-Jan. 19) This evening is a good time to tackle do-it-yourself projects on the back burner. All will go smoothly. You'll accomplish what you set out to do.

AQUARIUS (Jan. 20-Feb. 19) You could get the urge to socialize today. Keep in mind you won't have to look further than your mate for the best time.

PISCES (Feb. 20-March 20) A quiet evening at home is going to feel great after the frantic activity of the past few days. Why not plan on it?

YOUR BIRTHDAY Oct. 22, 1975 After the many changes for you in the past year, look for your new friends to bring you not only financial gains, but a more active social life.

SCORPIO (Oct. 23-Nov. 22) A change in your thinking will be the right course for you to take. Listen eagerly to others. They will furnish valuable clues.

SAGITTARIUS (Nov. 23-Dec. 21) Another name for the short club is the junior notrup. In general it is bid when you have notrup distribution and are too weak to open one notrup.

When you use the short club there are several rules to follow. The first one is that you do not bid it when you really have a tremendous hand opposite a forcing bid.

With the candidate qualifying period to end in Lake Mary at noon Friday for the Dec. 2 city election, only two candidates have filed qualifying documents so far, City Clerk Kay Sassman said today.

Mrs. Sassman said three city council seats are open in this year's election, but only incumbent Councilman Martin Bacon Sr. and Harry Terry have qualified.

Incumbent council member Virginia Mercer announced recently she would not seek reelection.

Five other city residents have picked up qualifying documents, however.

Prospective candidates include: George Hess, husband of former Mayor Margie Hess; Suzanne Savage, Jennifer Sanders, County Maintenance Superintendent; Henderson Ferguson and Robert Beckhorn of the city's planning and zoning board.

Winter Springs City Clerk Mary Norton said today although a number of city residents have picked up qualifying papers only incumbent city council member Irene Van Epeel has qualified.

Neither Mayor Troy Piland nor Councilman Ernest Henz drive have picked up qualifying papers, the clerk said. Candidate qualifying period closes Nov. 3.

Candidates, who have announced their intention to run in the election by picking up qualifying documents, according to Mrs. Norton, include: Claude Ash of 510 Fisher Road, Mary Daniels, wife of Councilman John Daniels; and Rev. Robert Clark, all for the post currently held by Mrs. Van Epeel.

Gary Hunt said he will be running for Hendrix's council seat while Laurent A. Pellerin of 116 Moss Road has announced his intention to seek the mayor's office.

If Piland does run this will be his first election in three years. He won a two-year term on the city council in 1972. As vice

United Way Goal Hits 73 Per Cent

By ED PRICKETT Herald Staff Writer

At the fourth and final report session before the close of the 1975 Seminole County United Way Campaign, divison leaders brought cash and pledges of \$17,512 to the Sanford Holiday Inn Lions Club luncheon Tuesday.

With 73 per cent of the campaign goal set for the people-needs of 13 Seminole County agencies, Len Unidas, United Way president and Jim Raza, campaign chairman, voiced confidence that the crucial 48 hours before the Victory Celebration Thursday night at Quality Inn, North, Longwood (1-46 SR 434) would see the volunteer corps bringing in the \$45,000 needed to top the \$154,500 goal.

Highlights of the reports included the addition of two Payroll Deduction Honor Roll firms: Sargue Electric, Longwood and Florida Softwares, Altamonte Springs. Fourteen Florida Softwares employees pledged \$1,625.

Another Payroll Deduction Honor Roll firm, General Dynamics, exceeded its previously set goal with a total of \$9,279.

Margaret Ganas, United Way executive secretary, reported a surprise gift from the Lockheed employees, Sunnyvale, Calif., "Bucks-of-the-Month Club" in the amount of \$100. A letter from the firm indicated that some employees had designated Seminole County as the recipient of their shares in the company's United Way efforts.

Lists 160 New Jobs

By ED PRICKETT Herald Staff Writer

SEEDCO President Horace Orr took county commissioners Tuesday on a philosophical tour of Harlem where "poverty exists in the shadow of wealth" before returning to Seminole County where he says his agency, since 1970, has pumped more than \$3-million into the local economy and created 160 jobs.

Orr said the Seminole Employment Economic Development Corporation (SEEDCO) since 1974 "saved or got loans for 22 businesses, and those businesses alone employ 92 people." All total, including the "saved businesses," Orr presented statistics which show that before SEEDCO's involvement 124 jobs existed, a number which jumps to 284 after SEEDCO's involvement.

Orr said SEEDCO, one of 23 such projects in the nation and the only one in Florida, since its establishment in 1970 with a federal grant pumped \$3,376,868 into the local economy.

Orr asked for a spot on Tuesday's county commission agenda to plead SEEDCO's case after a story appeared in an Orlando newspaper criticizing the number of jobs secured by the agency.

Though Orr said he would not "speak to" that story, he said charges that SEEDCO spent \$3-million to create only 10 mid-management jobs just aren't true.

Commission Chairman Sid Vihien Jr., who says he agrees totally with the concept of SEEDCO, placed Orr on the agenda to "create communication" with the commission and with the general public.

"We've done a hell of a job," Orr said. Then he went on to explain SEEDCO's philosophy as it relates to the U.S. Government's attempt to provide assistance to minorities living in this country.

For that Orr verbally took the commission to the New York and Harlem where, he said, "Park Avenue begins as the showcase of the world and ends at the Department of Welfare."

"New York has more rats than people," Orr said, adding that the U.S. has failed to close the gap between the have and the have-nots because "blacks still bear the brunt of unemployment."

Orr said SEEDCO is a "vital link" in the chain that would help close that gap because the "poor are a drag on society." And, he said, handouts aren't the answer, but the creation of new businesses where blacks and the underprivileged can work is the answer.

Returning to Seminole County, Orr pointed to "bleeding" corporations started or purchased by SEEDCO which now employ more workers than before the advent of SEEDCO.

Agencies include: SEEDCO staff, 27 employees; Central Florida Ornamentals, four employees; Neptune Winch Corporation, two employees; Seminole Bakery Products Inc., 11 workers; J. Smith Fruit Co., 138 workers; Seminole Citrus Products; Product Movement Systems Inc., six employees; A credit union, two employees.

All total, Orr says SEEDCO is responsible for 160 jobs. Before SEEDCO, agencies employed 124 workers. Now Orr says that number has jumped to 284 and he predicts a total of 332 workers will be working as a result of SEEDCO before the grant runs out in 1977. SEEDCO was awarded a federal grant of more than \$3-million for a seven-year period.

Orr Cites SEEDCO Progress

By ED PRICKETT Herald Staff Writer

Horace Orr presented statistics which show before SEEDCO's involvement, 124 jobs existed. Since the formation of SEEDCO, that number has jumped to 284.

44 Apopka Area Units Also For Sale

By BOB LLOYD Herald Staff Writer

Want to buy a new condominium at auction prices? The place to be, with your money in hand, is the west steps of the Seminole County Courthouse at 11 a.m. on Thursday.

Circuit Court Clerk Arthur Beckwith Jr. and deputy clerks will be auctioning off 114 Sheoah condominiums to satisfy mortgages held by First Federal Savings and Loan of Orlando.

Circuit Court Judge Volle Williams Jr. has ordered the fully-built, complete but unsold units at Winter Springs sold one-by-one in a foreclosure suit against Development Enterprises Inc., of Worcester, Mass.

First Federal of Orlando filed the foreclosure action to collect the unpaid principal balance of \$3.19 million on the project adjacent to a golf course at Winter Springs.

"This is the largest number of parcels to be sold in one foreclosure in Seminole," Beckwith said.

He said he doesn't expect a large number of prospective buyers at the auction because buyers will have to have cash-in-hand for the condominiums, with mortgages ranging from \$17,900 to \$29,000 plus costs on the two and three-bedroom units.

But Beckwith said he'll take certified or cashier's checks on approval of First Federal of Orlando.

A spokesman for the mortgage holder said the condominiums will be sold free and clear of any liens or second mortgages.

Beckwith said he'll use several deputy clerks to assist in the marathon auction on the courthouse steps.

A source close to the project said the developers lost almost as much as the mortgage amount also when the bottom fell out of the condominium market in central Florida and the units were unsold.

A rising tide of condominium bankruptcies in the state is forcing many of the state's mortgage bankers to shed their conservative suits for a pitchman's jacket, with pockets full of hard sell gimmicks.

If the Winter Springs condominiums don't strike your fancy because the purchase must be made in cash there are other condominiums in the area that can be bought this week at auction with financing available.

In a move believed to be unprecedented in Florida real estate history, the 48 units of The Oaks at Errol Estate condominium development on U.S. 441 near Apopka will be individually auctioned to the public Saturday.

According to William H. Possel, senior vice president of Western Mortgage Corp., the marketing event is designed to benefit both the mortgage banking firm, second largest in the nation, and the prospective home buyer in the Orlando metropolitan area.

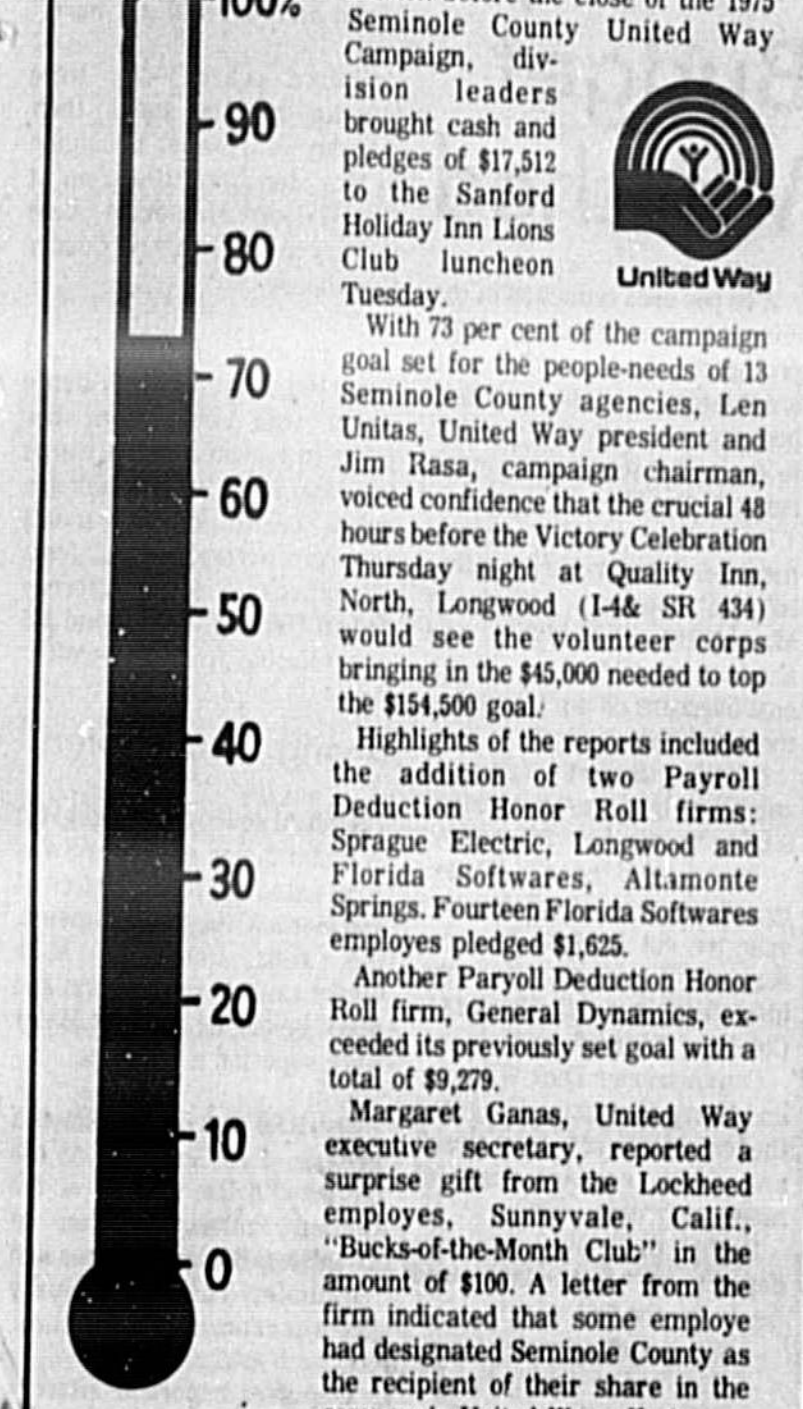

"By accelerating the sale of these units the company can minimize losses through savings in carrying charges and taxes, while allowing the buyer to establish his financing with the liquidation value of the home he is interested in," Possel said.

The Oaks featured 40 two and three-bedroom townhouses and eight villa patio homes which have three bedrooms and a swimming pool.

At the auction near Apopka starting at 11 a.m. Saturday, Western is offering to finance the units for 30 years at nine per cent interest with 10-per cent down and 8 1/2 per cent with 20-per cent down.

"Here's what we've been faced with," said Rick Downham, Western's Florida vice president.

"Back in the last quarter of '74 and the first quarter of '75, developers with one, two or three projects going overextended themselves and ended up in a severe cash bind. We really didn't have any choice but to take over the properties on a deed in lieu of foreclosure and try to sell them ourselves."

Thanks to You, It's Working

Three Arrested On Drug Charges

Delaware Men Given Directions-To Jail

By BOB LLOYD
Herald Staff Writer

Three 22-year-old Delaware men who stopped to ask directions Tuesday at a service station near the Casselberry Police headquarters found themselves victims of circumstances — arrested on drug charges.

Sheriff's detective Ralph Salerno and Casselberry police detective Bobby Bennett were at the service station when a man pulled in and the occupants asked an attendant for directions.

Officers said there was a "pungent odor" coming from the van that could be smelled from 10 feet away.

One of the men in the van was observed smoking a cigarette while the other two were talking to the attendant.

Action Reports

*** Fires**
*** Courts**
*** Police Beat**

alleged to contain marijuana, police said. The men were

arrested and officers said a search of the van turned up a small quantity of marijuana plus a hypodermic needle and five packets of white, powdery substance under a seat.

Salerno said the packets were sent to the Sanford Crime Lab for analysis.

Booked at the county jail on \$20,000 bond on two counts of possession of controlled substance and two counts of possession of paraphernalia.

Sanford police today reported a 24-year-old Sanford man was treated at Seminole Memorial Hospital Tuesday "after smoking some marijuana which made him very sick."

Patrolman John Moore reported the man turned over less than five grams of marijuana to detective Ed Hughes for lab testing.

Officers said the man "wouldn't say where he got the marijuana because he was afraid and he could get hurt."

Sanford police today were investigating the search of a wallet belonging to Mrs. Jan Cara, librarian at the Wilson Memorial Law Library in the Seminole County Courthouse.

Patrolman Jacob Cohen reported that Mrs. Cara's wallet was taken from her purse in her office. The wallet was later found, police said, in a waste basket in the men's restroom across the hall from the office of State Attorney Abbott Herring. Police said \$55 was missing from the wallet.

Sanford police today said \$150 in scuba diving equipment was reported stolen from a porch at Mariner's Village Apartments, U.S. 17-92. Patrolman Mike Tindel said a wet suit, fins and mask belonging to Alan Haley were reported as missing.

Sheriff's deputies reported a grease fire caused \$5,000 damage to the kitchen of the Gordon Rollins residence at 1513 East Boulevard, in south Seminole, Tuesday. County firemen extinguished the blaze.

Deputies reported citizens band radios and other items, total value \$873, were reported stolen Tuesday from autos garaged at the Sheraton Sanford Inn and Days Inn, S.R. 46 and 14 west of Sanford.

Deputy David R. Smith reported burglar's entered the home owned by Lewis Johnson of Clearfield, Pa., and Phillip Miller of Burkley, W. Va., by forcing open windows.

Deputies reported citizens band radios and other items, total value \$873, were reported stolen Tuesday from autos garaged at the Sheraton Sanford Inn and Days Inn, S.R. 46 and 14 west of Sanford.

The commission, in a series of grueling budget reducing sessions, reduced millage to \$17.00 below the figure needed to meet the 5.40 mills required by the county's property appraiser. In so doing, the budget was drastically reduced to the point where it requires constant monitoring. Citizens will now pay \$4.40 per \$1,000 of taxable property.

OMAE will keep close tabs on the budget and keep the commission informed when any danger areas are confronted.

One such area, an appeal to Tallahassee by Sheriff John Polk for his full \$2.5-million budget request for fiscal 75-76 already threatens the fines and forfeitures contingency fund.

Commission Chairman Sid Vihlen Jr. says if Polk wins the appeal it will "poke out" the contingency.

The sheriff has filed his appeal, and the Florida Tax Commission is expected to rule on Polk's request next month.

The commission offered the sheriff \$2.3 million, which he turned down.

Spokesmen for both the Public Defender's office and the Sheriff's office today said no weapon was found.

An 18-year-old Sanford man, William Andrew Ware, has been charged with aggravated assault, robbery, assault with intent to commit murder and use of a firearm in commission of a felony in the case.

A Winter Park Hospital spokesman reported today that Michael Lee Trier, 17, of Casselberry, is listed in satisfactory condition. Trier suffered a broken leg and severe lacerations Monday afternoon when he reportedly ran into the path of a truck at Oviedo while practicing for the Oviedo High School cross country track team.

Police said the accident occurred at the intersection of Magnolia Street and SR-419, Oviedo.

Victor J. Lynch, 32, was arrested Tuesday at a Miami lawyer's office.

More Rate Hikes Sought
JACKSONVILLE (AP) — Rebuffed in requests for rate increases last month, Florida Blue Cross and Blue Shield say they will ask a new set of hikes totaling more than \$20 million over the next 14 months.

The insurance companies said Tuesday they also will ask for either higher rates or reduced benefits on policies used to complement Medicare coverage.

County Budget Watched

A 5.9 per cent reduction in the county's contingency fund prompted county commissioners Tuesday to adopt a monthly budgetary monitoring system to insure that the county doesn't run into trouble next year.

Under the new policy, department heads will report monthly to the county's Office of Management Analysis and Evaluation (OMAE) to insure cost overruns do not jeopardize the \$18-million budget.

Initial budget requests submitted by department heads totaled more than \$22-million.

"We usually have a 10 per cent contingency fund, but this year we cut back to five per cent. We'll have to watch it a little more carefully," OMAE Chief Sig Pearson said.

Commissioner Dick Williams and Harry Kwiatkowski agreed the budget is "very, very close" and will require careful monitoring next year.

Under the new procedure, department heads may spend funds for the following:

- Personnel services
- Office supplies
- Communications
- Professional books

Proposed budget expenditures for capital equipment must be submitted to OMAE. Also all requests for budget revisions, changes and transfers will be submitted to OMAE and the county commission.

The commission, in a series of grueling budget reducing sessions, reduced millage to \$17.00 below the figure needed to meet the 5.40 mills required by the county's property appraiser. In so doing, the budget was drastically reduced to the point where it requires constant monitoring. Citizens will now pay \$4.40 per \$1,000 of taxable property.

OMAE will keep close tabs on the budget and keep the commission informed when any danger areas are confronted.

One such area, an appeal to Tallahassee by Sheriff John Polk for his full \$2.5-million budget request for fiscal 75-76 already threatens the fines and forfeitures contingency fund.

Commission Chairman Sid Vihlen Jr. says if Polk wins the appeal it will "poke out" the contingency.

The sheriff has filed his appeal, and the Florida Tax Commission is expected to rule on Polk's request next month.

The commission offered the sheriff \$2.3 million, which he turned down.

Spokesmen for both the Public Defender's office and the Sheriff's office today said no weapon was found.

An 18-year-old Sanford man, William Andrew Ware, has been charged with aggravated assault, robbery, assault with intent to commit murder and use of a firearm in commission of a felony in the case.

A Winter Park Hospital spokesman reported today that Michael Lee Trier, 17, of Casselberry, is listed in satisfactory condition. Trier suffered a broken leg and severe lacerations Monday afternoon when he reportedly ran into the path of a truck at Oviedo while practicing for the Oviedo High School cross country track team.

Police said the accident occurred at the intersection of Magnolia Street and SR-419, Oviedo.

Victor J. Lynch, 32, was arrested Tuesday at a Miami lawyer's office.

More Rate Hikes Sought
JACKSONVILLE (AP) — Rebuffed in requests for rate increases last month, Florida Blue Cross and Blue Shield say they will ask a new set of hikes totaling more than \$20 million over the next 14 months.

The insurance companies said Tuesday they also will ask for either higher rates or reduced benefits on policies used to complement Medicare coverage.

State Finds No Basis

Floyd Cleared Of Misappropriation Charge

By DONNA ESTES
Herald Staff Writer

Phillip R. Sellers, investigator, and Charles E. Wilson, deputy chief investigator for Brevard-Seminole State Attorney Abbott Herring, in a report issued this week, found "no factual basis" to support charges against incumbent Altamonte Springs Mayor Norman Floyd of "misappropriating" water-sewer revenue trust funds.

Floyd's opponent for reelection to the city's chief executive office, ex-Mayor Lawrence Swofford, charged Floyd with the misappropriation earlier this month.

Swofford took his charges to the House of the legislative auditing committee and Art Canady of Gov. Reubin Askew's office in Tallahassee and to Herring's office in Titusville.

The Sellers-Wilson report said "There is no factual basis to support the allegations by Swofford. Floyd opined that Swofford's lack of knowledge of accounting, as evidenced by the poor content of the financial records found by the auditor, and misunderstanding of the term 'contribution' coupled with Swofford's desire to discredit his political opponent, led to Swofford's accusations against Floyd which Floyd noted were based on events that Swofford himself was responsible for."

Both investigators noted in the report sent to Askew's Tallahassee office that "Swofford and Floyd are currently candidates for the office of Mayor of Altamonte Springs, election to be held Nov. 4, 1975."

Swofford had charged that Floyd improperly transferred water and sewer revenue trust funds to the utility system, into the general operating fund to balance an overspent budget.

The report auditor, Charles Lansing, reported to the city writing, however, that the \$176,992 alluded to by Swofford as misappropriated was in fact money which had been advanced to the general fund for utility expenditures and properly returned to the general fund, in a proper bookkeeping procedure.

The report from the state attorney investigators said Swofford also contended that during the city election campaign when he was defeated by Floyd in 1973, that a "Leslie M. Gibbs had donated \$300 to Floyd."

Swofford alleged that the \$300 given Floyd by Gibbs actually was from Lester Mandell (of Greater Construction Co.) and that Floyd kept the \$300 came from Mandell.

Swofford contended since the donation was recorded from Gibbs and not Mandell, it was a violation of the Florida election code.

Floyd, under oath, the report says, after waiving immunity, acknowledged he received a campaign contribution of \$300 from Gibbs, but that Gibbs had said nothing to him to indicate the contribution was from anyone other than Gibbs.

The report notes that during a prior investigation, Gibbs acknowledged the \$300 was given to him by Lester Zimmerman, also of Greater Construction Co.

Mandell, during previous questioning, the report notes, acknowledged contributing \$300 to Floyd through an intermediary whose identity he was not sure of.

"Further Mandell said he hoped Mayor Floyd would know the contribution came from him, but Mandell did not say he told Mayor Floyd of the contribution," the report said.

After the 1973 election, Swofford was charged with accepting a campaign contribution of \$2,000 from Mandell three weeks following the election, in violation of the

election code. The charges were that after a "contribution" by check from Gibbs was rejected by Swofford, the cash was sent to Swofford in an envelope.

While Swofford contended the \$2,000 was a loan, Mandell said it was a campaign contribution. In a written report to the city commission after the Swofford charges were made and again to the state attorney's investigators, the report notes, Lansing said that during his audits he "found no evidence that funds obligated to repay bonds were improperly used of any shortage of funds."

Explaining why revenue estimates in an amended budget, recommended by the city commission, just days before the end of the fiscal year 1974 could be inaccurate, Lansing said, "Mayor Floyd would not have known the results of the audit at the time he had prepared the amended budget."

Swofford said today that he originally took his complaint to Tallahassee because he didn't feel that Herring would conduct a complete and impartial investigation.

He also charged that Herring had allowed his office to be used in the past against Swofford in political campaigns and that he only went to Herring on Rose's and Canady's advice.

Swofford said that the audit done by the Sanford firm of Greene and Dycus during the Swofford administration 1972-73 fiscal year did not show any money owed the general fund by the utility fund.

Swofford said the money "contributed" to the utility fund from the general fund was water and sewer connection fees specifically excluded as income of the utility system in the sewer and water bond ordinances.

Pointing to Herring, Swofford said, "He is the same man who got an opponent in the last election indicted and then the charges were dropped after the election."

Swofford said the money "contributed" to the utility fund from the general fund was water and sewer connection fees specifically excluded as income of the utility system in the sewer and water bond ordinances.

Pointing to Herring, Swofford said, "He is the same man who got an opponent in the last election indicted and then the charges were dropped after the election."

Pointing to Herring, Swofford said, "He is the same man who got an opponent in the last election indicted and then the charges were dropped after the election."

Christian Called To Testify In Dickinson Tax Trial

TALLAHASSEE (AP) — Floyd Christian, former state education commissioner, has been called as a government witness in the federal income-tax evasion trial of former Comptroller Fred Dickinson.

Christian is now serving a four-month sentence at the federal prison on Eglin Air Force Base on a tax-evasion conviction.

Dickinson, facing maximum penalties of 24 years in prison and \$45,000 in fines, goes on trial Monday in U.S. District Court in Tallahassee. He's accused of three counts of tax evasion and three of filing false returns.

Five Inmates Quit Strike
STARKE (AP) — Five of 45 death-row inmates at Florida State Prison who went on a hunger strike Monday have resumed eating but the others are still refusing food, officials say.

Another 15 inmates awaiting execution never joined the strike.

Supt. G.S. Fortner said Tuesday that he had received an unsigned petition in which the inmates said they want more and better food, extended canteen privileges, more exercise time and quicker processing of requests for packages from home.

Contempt Ruling Overtuned
TAMPA (AP) — A Jacksonville circuit judge has overturned the controversial 1974 contempt conviction of a man who was jailed for a county judge while delivering a support payment to his ex-wife.

Judge Martin Sack ruled Tuesday that Hillsborough County Judge Arden Merkle failed to enter an order of contempt until the defendant appealed his conviction, eight months later.

The delay in filing the facts to support the contempt charge and failure to give the rationale for adjudication were sufficient cause for reversal, Sack said.

Enrollment Limit Uncertain
TALLAHASSEE (A*) — Gov. Reubin Askew says it's too early to tell whether the state's economic plan will force enrollment limits at universities and community colleges.

Askew, citing encouraging national economic trends, said if an upturn does take hold Florida may not need to take the drastic measures outlined by Education Commissioner Ralph Turington.

Turington presented to the Cabinet Tuesday his proposed "stand-still" \$1.65-billion budget request for next year. He said it would require a limit on enrollment.

Sadat To Visit Jacksonville
JACKSONVILLE (AP) — Egyptian President Anwar Sadat will visit Jacksonville for four days beginning Nov. 1, the State Department said Wednesday.

During his Florida stay, which officials called a "vacation," Sadat will be the guest of Raymond Mason, president of the Charter Co., a Jacksonville-based conglomerate with extensive oil interests in the Middle East. Sadat will stay at Mason's estate at Epping Forest on the St. John's River.

Officials said Sadat is coming to the United States at the official invitation of President Ford. The two presidents will confer in Washington before Sadat arrives in Jacksonville.

Nightmare For Teen-Ager
WINTER HAVEN (AP) — Two weeks ago, a car driven by 16-year-old Jimmy Harvey struck and killed a little girl when she pedaled her bicycle in front of his automobile. Police said Jimmy was blameless.

Haunted by nightmares, Jimmy went for an evening drive last Saturday to ease his torment. Another car suddenly appeared in the road directly in front of him — and late struck again.

"God, I've killed two people," Jimmy screamed.

Authority Income Questioned
TALLAHASSEE (AP) — Auditor General Ernest Ellison today questioned a Cross-Florida Barge Canal Authority source of income — interest from money it was given in 1969-70 by land.

The authority should seek clarification from Atty. Gen. Robert Stevin whether the money should go back into the state treasury under a law requiring reversion of unspent funds, Ellison said in an audit of the authority.

The authority was given \$3.26 million in 1969 and 1970. As of June 30, 1974, it had \$501,000 left, earning interest of \$170,000, he said.

Vogt Here Monday On Busing
State Sen. John Vogt (D-Cocoa Beach) is expected to meet with Seminole County School Superintendent W. P. "Bud" Lyster here at 2 p.m. Monday to discuss county busing statewide and recognition of bargaining groups by the State Public Employees Relations Commission (PERC).

Lyster said today the meeting will be in his office and the primary topic will be PERC matters.

He said the Seminole Education Association, representing county teachers, is the only group recognized this far by PERC and certified for collective bargaining purposes.

Lyster said PERC officials and the county's new instructional personnel are meeting today in Orlando.

Extortion Attempt Reported
FORT LAUDERDALE (AP) — A Hollywood man faces charges of false impersonation and robbery in what police say was an attempt to extort \$50,000 from a local aircraft salesman.

Victor J. Lynch, 32, was arrested Tuesday at a Miami lawyer's office.

House To Hear Kissinger

WASHINGTON (AP) — The House intelligence committee will listen to Secretary of State Henry A. Kissinger's personal account of the handling of last year's Cyprus crisis before deciding whether to enforce a subpoena demanding that he produce documentary evidence.

Kissinger has refused to turn over a subpoenaed memorandum that is critical of his handling of the Cyprus crisis. He won a first-round struggle with the committee Tuesday when members voted 5 to 3 not to take immediate action against him.

The committee decided to hear Kissinger's personal account of the State Department's actions in an Oct. 31 session. Kissinger is to explain the differing advice he received from State Department officials and why he rejected some of it.

Gas Deductions To Continue
WASHINGTON (AP) — Motorists can continue to take itemized federal tax deductions for the state and local taxes they pay on gasoline, the House Ways and Means Committee says.

The committee reversed a previous decision and decided on Tuesday to continue allowing some 20 million Americans to claim the gasoline tax deduction on their federal tax forms.

Congressional tax experts had said the committee's earlier decision to propose repealing the deduction would have increased taxes on American motorists by \$4.08 billion over the next six years and would have forced a reduction of gasoline consumption amounting to about 60,000 barrels a day.

Gas Compromise Seen
WASHINGTON (AP) — The Senate may be ready to accept a compromise that would delay for several years the major consumer price increases expected to follow the removal of natural gas price controls.

But the price of gas would be allowed to rise moderately, even with Senate acceptance of the compromise by Sen. John V. Tunney, D-Calif. A vote was scheduled today on the measure.

Moving toward final passage of far-reaching natural gas legislation, the Senate also planned to vote today on two amendments that would force big oil-gas companies to divest some of their energy holdings.

Grain Buys Hinge On Soviets
WASHINGTON (AP) — U.S. officials say the size of future Russian grain purchases hinges on decisions by the Soviets about the size of their livestock herds.

The five-year grain deal signed Monday by the two countries for wheat and corn, and as long as U.S. harvest are ample, Russia will be guaranteed at least six million metric tons of grain and up to eight million if wanted.

"One of the developments to watch, according to Assistant Secretary Richard E. Bell, is whether Russia will maintain its record inventory this winter despite a huge shortfall in the 1975 Russian harvest."

Ford Cancels Appointments
WASHINGTON (AP) — President Ford canceled most appointments today for the third straight day because of a cold and sinus infection, but he may feel well enough to work for a while in the Oval Office.

Presidential press secretary Tom Nessen said late Tuesday that the President's wife also showed some symptoms of a cold but was feeling better and well enough to increase her staff work.

Nessen said Ford is feeling better and his temperature had remained in the 99 range throughout the day. It had risen above 100 on Monday.

Daylight Time Ends Sunday
WASHINGTON (AP) — Clocks across most of the nation will be set back one hour at 2 a.m. Sunday as the country ends eight months of Daylight Saving Time.

The change will occur in all states and U.S. possessions except Arizona, Hawaii, Puerto Rico, Virgin Islands, American Samoa and the Eastern time zone portion of Indiana. These areas do not observe DST.

The nation will observe regular time for six months unless Congress agrees to a recommendation by the Department of Transportation to observe only four months of regular time.

Road Closing Splits City Council

By JANE CASSELBERRY
Herald Staff Writer

WINTER SPRINGS — City council members, meeting Monday night, held widely divergent views of the closing of Stoner Road and installation of two culverts by the owner without obtaining a city permit.

While Councilman Irene Van Espoel called the action a violation of city codes (calling for fine or imprisonment), Councilman Donald Browning maintained the city owed the owner a debt of thanks.

Mrs. Van Espoel revealed a few weeks ago she was called in as public works commissioner to give information to the State Attorney's office in what was said to be a criminal investigation of the possible use of county equipment for private benefit. Shown photographs of two culverts on Stoner Road "put there by Hattaway," she said she was questioned whether or not they were put in legally, from the city's standpoint, and from the county's standpoint, whether they were paid for privately.

"I investigated and found cable put across Stoner Road with a padlock and no trespassing sign. Ordinance 119 adopted June 2 in effect prohibited blockage of traffic of any dedicated street," she added.

When asked by City Attorney Newman Brock "Which Hattaway she was referring to," she replied "I was told Mike Hattaway (county commissioner), but the property on both sides of the road is owned by 'Hat' (J.R.) Hattaway."

Browning said, "I think the road is not really a road, but a dedicated right-of-way and it will be substantially improved by use of private funds. Without the two culverts it would not be accessible, and given the proper amount of time it will be an asset. He has the right to close it off as it needs to settle another 30 days. At the proper time I would like to make a motion to accept this excellent improvement."

Police Chief John Gorumsk said he authorized closing of the road "until it gets stable."

Brock pointed out unless flashers are installed to call attention to the cable, the city would be liable if "a carload of teenagers tried to drive down the road and were decapitated."

A letter was received by building official Ray Bradshaw from representative of the Hattaway firm saying they were doing "some clean up work on Stoner Road, west of Shore Road," in June with no mention of the culverts.

Although no permit was issued, a letter was sent by Bradshaw giving go ahead for work on "Shore Road" and saying "The work you have been doing on public rights of way has made you many

friends." Planning and Zoning Commissioner Irvin Hunter offered to take the responsibility as head of the department because he had been slow in getting the permit printed up. Council finally passed a compromise amended motion calling for both the building department official and the firm to be admonished in writing for the action taken with the letter to the property owner to state "we appreciate your efforts to improve roads

and rights of way in the city and accept the two installed culverts which will be left there permanently, but in the future we appreciate your compliance when future roads and improvements are contemplated."

Deputies reported citizens band radios and other items, total value \$873, were reported stolen Tuesday from autos garaged at the Sheraton Sanford Inn and Days Inn, S.R. 46 and 14 west of Sanford.

Deputy David R. Smith reported burglar's entered the home owned by Lewis Johnson of Clearfield, Pa., and Phillip Miller of Burkley, W. Va., by forcing open windows.

Shooting Victim Fair
Sheraton night manager Jim Stump, 26, of Winter Park, was listed in fair condition today at Seminole Memorial Hospital where he is being treated for four gunshot wounds received in a pre-dawn Monday robbery at the motel.

Tuesday investigators for the Public Defender's office said they found themselves "suddenly surrounded by sheriff's deputies" while walking along S.R. 46 A near Airport Boulevard in a search for a gun believed used in the robbery-shooting.

Apparently a passing sheriff's deputy spotted the searchers and notified investigators working on the case.

Runaway Welfare A Vibrant Issue

A Senate subcommittee began hearings on an issue that falls into the category of political dynamite — the food stamp program.

This puts Congress in the middle. One congressman looked at some of the reform proposals and observed that tampering with any public assistance program on the eve of an election could be political suicide.

The Agriculture Department began distributing surplus commodities to the needy in 1965. That year, it cost \$35 million to provide certain basic foodstuffs to 400,000 people.

The question is not so much one of how to reform the program but whether it can be reformed at all. Sen. James Buckley of New York has wide conservative backing for an overhaul that would cut perhaps \$2 billion from the cost by curtailing eligibility.

Regardless of what route Congress takes, it is obvious enough that it cannot put a check on this expensive and expensive program without chopping some eligibles off the list.

That problem is the gradual loosening of the definition of "need" that has overtaken almost every program aimed at helping the needy in our society.

Whether our political leaders have the courage to view the runaway food stamp program in terms of flaws in the government's welfare philosophy would make a vibrant issue for 1976.

Smoke Screen!

In terms of expediency the action by the legislatures of several states toward decriminalization of the use of marijuana promises to "solve" a law enforcement problem.

While decriminalization doubtless can lighten the burden of police and the courts, what about the burden on American parents worried about their children experimenting with drugs?

BERRY'S WORLD

"Now, dear, don't dwell on it. Lots of people were not important enough for the CIA to open their mail!"

Around The Clock

DON OAKLEY

Declaration: An Intent To Survive

"When in the course of human events the threat of extinction confronts mankind, it is necessary for the people of the United States to declare their interdependence with the peoples of all nations and to embrace those principles and build those institutions which will enable mankind to survive and civilization to flourish."

The new Declaration is one of five principal steps in a program developed by the World Affairs Council of Philadelphia to foster American actions to meet the challenges of global interdependence.

—Arranging a series of "Interdependence Assemblies" and encouraging the study of interdependence in the nation's schools.

Like that original Declaration, "it is recognized that this will be a beginning, not a conclusion of effort," says Frederick Hertz, chairman of the council's Bicentennial Holders program.

Why "a Declaration of Interdependence"? Because just as the founding fathers of the United States framed their Declaration on the basis of certain self-evident truths, new self-evident truths of an even more complex nature confront the United States and the whole world today.

The lives, fortunes and cultures of all peoples are threatened by worldwide imbalances of food, natural resources, intercontinental pollution, monetary system and military armaments out of control, as well as a host of other threats to human development and order that transcend national boundaries, points out William W. Bodine Jr., president of the council.

"It is time," he says, "for daring initiatives by people concerned and responsible for the fate of mankind."

JACK ANDERSON

Humane Society: TV Cruel To Animals

Those appealing animals, which star in movies and TV commercials, are often mistreated. Some have been brutally killed. These are the findings of the Humane Society of the United States whose wildlife expert, Sue Pressman, posed as a film producer to gather the grim details.

The Purina cats, which appear so contented in the TV commercials, apparently are miserable in real life. "Cage after cage of cats, kept for use in the Purina TV commercials, were packed with '30 to 40' animals, the unpublished study charges. "It was apparent that the cages hadn't been cleaned for several days."

The society also discovered that "the fox used in the Audi V8 auto commercials (had) a diet card calling for nothing but two chicken necks a day, an extremely meager diet."

Granted, we're right in the middle of a football season and before we know it the guys and gals will be taking to the hardwood court, practicing for the 1975-76 basketball season.

But baseball is still very much with us — at least for a few more days. The World Series comes to a close tonight as the Boston Red Sox and Cincinnati Reds have gone right down to the wire.

Starting tomorrow at Sanford Memorial Stadium, five collegiate teams will vie in the first Zinn Fall Baseball Classic.

Two games are on tap for opening day with the first scheduled to get under way at 5 p.m. and another to follow at 7:30. There will be three more games on Saturday and again on Sunday with the first starting at 12:30 p.m.

The tournament will be a round-robin event with opposition coming from Seminole Community College, Florida Tech, Stetson, Hollins and Jacksonville.

Want to purchase approximately \$200 worth of gift certificates, good for items and services from local merchants, for the fantastic sum of \$127?

That's what the Sanford-Seminole Jaycees are offering area residents these days in their current fund-raising project.

According to the Jaycees, Sanford residents will be called by members of the organization asking for cooperation in the purchase of these valuable coupons. Too, persons wishing to purchase same can have them delivered.

The Jaycees feel this is an excellent opportunity for citizens of the community to get to know their local merchants and to support the Jaycees and their many projects in the same manner.

There will be a meeting of the Friends of the St. Johns (FOSJ) tonight at the First Federal of Seminole Building, First Street, at 7:30.

Guest speakers at the meeting will be John L. Thomas, an Orlando attorney and chapter president of Ducks Unlimited, and H.A. "Speed" Moreland, vice president of First Federal Savings and Loan of Mid-Florida.

FOSJ was formed to restore and preserve the declining St. Johns River, including its fishing and water fowl as well as the natural habitats.

MAO SAID ACTIVE

PEKING (AP) — Members of State Henry A. Kissinger's party report Mao Tse-tung is frail but his mind is still active and alert, with no indication of senility.

The spacecraft was launched June 8. The Tass report did not say when it was put into orbit nor did it give any other details.

The Soviets launched another unmanned spacecraft, Venus 10, six days after Venus 9, and it was speculated at that time that an attempt would be made to land one of them while the other would orbit the planet as an observer.

VIENNA, Austria (AP) — Three men armed with submachine guns stormed into the Turkish Embassy in Austria at noon today and killed the ambassador, police and Foreign Ministry officials reported.

Every tenth truck was loaded with food, water, tents, blankets and first-aid equipment.

MARRAKECH, Morocco (AP) — A caravan of 554 trucks has started carrying 20,000 volunteers southward, the vanguard of the 350,000 unarmed civilians that King Hassan II says he will lead on a 60-mile "March of Conquest" into the Spanish Sahara.

Father Pleads For 'Death With Dignity' For Daughter

MORRISTOWN, N.J. (AP) — "Take her from the machine and the tubes connected to her and let her pass into the hands of the Lord," Karen Ann Quinlan's adoptive father pleaded with the court.

Karen Ann's mother was to take the stand today to repeat that plea, urging the court to allow doctors to disconnect a respirator that has kept her comatose daughter breathing for almost six months.

Julia Quinlan, a petite, red-haired mother of three, who has watched her vivacious 21-year-old daughter lapse into a "vegetative state," has asked that "Karen be allowed to die with dignity."

Briefs filed before the trial indicated Mrs. Quinlan will testify that her daughter said weeks before she became ill that if she ever became terminally ill, she wouldn't want to be kept alive by artificial means.

The comments were made during a family discussion about two friends who were dying of cancer, according to the Quinlan's attorney, Paul W. Armstrong.

It has not been determined what caused Miss Quinlan's illness, but doctors who first treated her in April suspected she had used tranquilizers and liquor together at a party.

Her father, Joseph, testified before Superior Court Judge Robert Muir Jr. on Tuesday that he believes it is God's will that Karen should be removed from the respirator at St. Clare's Hospital so "nature can take its course. It's the Lord's will; for some reason he wants to take her."

Quinlan said that if the court grants his request, he will have a doctor remove the respirator as his family and parish priests watch at Miss Quinlan's bedside.

"If the court doesn't agree with me I don't know what I'll do," he said.

The Quinlan's action has been endorsed by priests at their local Roman Catholic church. On Tuesday, the chancellor of the Paterson Diocese endorsed the Quinlan's position.

Quinlan said he probably wouldn't have made the move had the church not told him it was morally correct.

Ruby-FBI Queries Remain

WASHINGTON (AP) — The chairman of the House panel reviewing the FBI's investigation of President John F. Kennedy's assassination says questions remain unanswered about the relationship between Jack Ruby and the FBI.

Rep. Don Edwards, D-Calif., said he wanted more information about Ruby's role as an FBI informer than was disclosed in a hearing Edwards conducted Tuesday.

Ruby, who died Jan. 3, 1967, of a blood clot and cancer, was the night club owner who fatally shot Lee Harvey Oswald two days after Kennedy was murdered Nov. 22, 1963. The Warren Commission said Oswald acted alone in killing the President.

Meanwhile, James B. Adams, deputy associate director of the FBI, confirmed that a threatening note from Oswald to a Dallas FBI agent was destroyed two hours after Oswald's murder.

Adams also told the House judiciary subcommittee on constitutional and civil rights that Ruby was contacted eight times in 1969 as a potential informer but that all available reports indicate he never gave the FBI any information and was never paid by the bureau.

The late FBI director, J. Edgar Hoover, reportedly wrote in 1964 to J. Lee Rankin, general counsel of the Warren Commission, and described the relationship between Ruby and the agency. But the letter was not made part of the commission's report.

Adams said Hoover's letter told Rankin that Ruby was contacted by an agent of the Dallas FBI office on March 11, 1969, "in view of his position as a night club operator who might have knowledge of the criminal element in Dallas."

But Adams' report on Ruby was not satisfactory to Edwards.

"The Ruby matter has not been laid to rest," the chairman said after the hearing. "Why was the Hoover letter not part of the Warren Commission report? Why was the letter buried? Why, why, why?"

Adams also testified about the results of a recent FBI investigation started after it was disclosed last July that Oswald visited the agency's Dallas bureau and left a threatening note no more than 10 days before the assassination.

Competence Issue Clouds Hearst Defense

San Francisco Hearst's Attorneys

SAN FRANCISCO (AP) — Patricia Hearst's attorneys have been too immersed in questions that will influence a ruling on her mental competence even to begin plotting her legal defense, says one of her lawyers.

Oliver J. Carter, who must rule whether Miss Hearst is competent to stand trial, is awaiting final reports today from a psychiatric panel he appointed to examine the jailed heiress.

He has twice delayed the competence hearing because the psychiatric reports were not ready. As of Tuesday, the judge had received two final reports and postponed for at least one day a hearing date until remaining reports are delivered.

Three psychiatrists and one psychologist have been examining Miss Hearst for more than one month, seeking to determine whether her attorneys are right when they say she was brainwashed and driven mad by the Symbionese Liberation Army.

"It has never been my intention or that of any member of the defense to have her declared incompetent," said Johnson. "We have simply indicated as lawyers that she is presently not in a mental condition to aid in her own defense adequately."

Miss Hearst is being held on federal charges of bank robbery in San Francisco and state counts of kidnapping, assault and robbery in Los Angeles.

Johnson says he has no doubt she will one day go to trial. Meanwhile, Steven Solih, 27, a house painter charged with harboring Miss Hearst, asked in legal motions for access to "the reports of all physical and mental examinations which have or may be filed in the case of U.S. vs. Patricia Campbell Hearst." Solih's trial is scheduled for Dec. 1.

For Fiscal Year 1973-74

School Board Correcting Discrepancies Found In Audit

By JOE ASKREN Herald Staff Writer

Seminole County School officials said today they are correcting several discrepancies found in the state audit of the board's fiscal year 1973-74.

"The board's financial statements did not comply with rules of the State Board of Education... that significant assets and liabilities were either omitted or substantially misstated..."

Harris said a secretary was hired a year ago to research the board minutes and determine original value of land and buildings as part of the district's fixed assets.

The audit said in part: "Operating funds... do not include significant assets... with a resulting net understatement of reserves and fund balance of \$45,391.24."

"The attached financial statements deviate from those presented in the prior fiscal year... Harris said these items have been corrected."

Fetchtel To Talk On New State Law

State Rep. Vince Fetchtel Jr. (Leesburg) is expected to explain a new state law on administrator-teacher ratios to Seminole County School Board members who meet today at 7:30 p.m. at the Altamonte Springs City Hall.

Superintendent William P. "Bud" Lyster said the new state law prevents hiring more administrators than teachers for any school year.

"Seminole County has one of the best ratios in the state, with an emphasis on classroom teachers," said Lyster.

Last year's ratio was one administrator for every 9.94 teachers in elementary, secondary and the special education field, said Ralph Ray, the School Board's informational officer.

Superintendent Cameron, one of the best ratios in the state, with an emphasis on classroom teachers, said Lyster.

SEEDCO Progress Reported By Orr

(Continued From Page 1-A)

Also, Orr says a SEEDCO job referral agency has processed more than 1,500 job requests.

Commissioners were impressed with Orr's hour-long presentation.

Commissioner Dick Williams called Orr's presentation "very impressive" and said a need definitely exists for agencies which are designed to reduce unemployment in Seminole County.

As described by Horace (Orr), in agency is doing a very fine job," Williams said.

"I wish to compliment your organization on a very comprehensive report," Commissioner Mike Hattaway added.

Whelan said the concept of SEEDCO is "extremely good" because it is an agency designed to reduce unemployment and train unskilled workers.

Tom Herron, Bringardner Favored In County Meet

Tom Herron and Kathy Bringardner are the runners to beat in Thursday's meet for Seminole County cross country runners.

Herron, of Lyman High, heads a fast field of boys who will tackle the three-mile Trinity Prep course Thursday at 6 p.m. His chief rival is Trinity's Thad McNulty, who ran second to him in a test last Friday and ranks as the Class AAA state champion in the mile.

Girls competition should be just as fierce, with Bringardner, also of Lyman, getting a strong challenge from the likes of Cindi Sullivan and Darlene Berkley of Lake Brantley, Georgia Barkdale of Trinity Prep and Debbie Thomas of Lake Howell.

Three of the top 10 favorites in girls competition — Bringardner, Barkdale and Thomas — are merely freshmen and lend much hope for the future to their respective schools.

Lyman's Bruce Caldwell, Lake Brantley's Rick Horta, Seminole's Willie Calloway and Oviedo's Chuck Apple and Jim Bowers. Mike Trier, Oviedo's top runner, will miss the meet after being involved in an accident Monday. He was struck by a truck in Oviedo, while running along SR 419.

Good Turnout Expected For Golden Age Games

The Golden Age Olympics committee met today at the Greater Sanford Chamber of Commerce, and the word was "go" for the Nov. 10-15 series of events for senior citizens 55 years of age and over.

Miss Florida, Ann Schmalzreid, will be in Sanford Nov. 10, for the opening ceremonies at the Golden Age Olympics.

— Wheel chair race, Nov. 10 9:11 a.m. at Fort Mellon Park, sponsored by the Sanford Ministerial Association.

— Pancake Race (women only), Nov. 12 at 3 and 5 in the Sanford Chamber of Commerce building, sponsored by the Pilot Club.

Fisk Home Run Sets Stage For World Series Decider

BOSTON (AP) — After three days of rain, they finally played baseball at Fenway Park, and boy, was it worth waiting for.

With all the drama of Hollywood and the wallop of a Holywood ending, the Boston Red Sox defeated the Cincinnati Reds 7-6 in 12 tension-packed innings Tuesday night and set the stage for tonight's seventh World Series game.

Carlton Fisk's home run in the 12th, the final shot fired at Fenway, set the stage for a dramatic night because it was the final shot fired at Fenway. But there were many other moments of gorgeous high tension that kept everyone stuck to their seats and television sets.

Bosox Play With Flare For Drama

BOSTON (AP) — After 170-odd games, the Boston Red Sox still are playing the way they started the baseball season last spring: with a flare for drama.

Reds Feel Confident Of Victory

BOSTON (AP) — Unshakable Joe Morgan sat amid a sea of gloomy faces, unwilling to concede that the Boston Red Sox are riding a wave of momentum going into tonight's World Series showdown.

Red Sox Rookie Heads All-Stars

BOSTON (AP) — Fred Lynn displayed his skills on national television Tuesday night, slugging a three-run homer and crashing into the center field wall in a futile effort to catch Ken Griffie's triple.

U.S.-Cuban Basketball 'A Question Of Honor'

MEXICO CITY (AP) — "We're definitely here to win the gold medal and to regain our morale. Therefore beating Cuba is a question of honor," said United States men's basketball assistant coach Jud Heathcote.

The question of honor was to be decided tonight in one of the feature attractions of the VII Pan American Games: the Americans vs. the Cubans in basketball. A victory would all but automatically give the U.S. a gold medal in the sport.

Seminole Defender Greg Pringle Player Of Week

By JIM HAYNES Herald Sports Editor

College recruiters and scouts with foresight should remember the name Greg Pringle.

Beck Baseball Classic Boasts Five Colleges

Central Florida baseball fans will get a sneak preview of five of the better college teams in the state this week at Sanford Memorial Stadium.

Pringle is also a leader. "He's a leader in a sense," says the Seminole coach, "not so much by the fact he gets after teammates or jumps down their throats. He's not afraid to tell them something. But basically, he lets his actions do his talking."

Friday, three on Saturday and another three Sunday. Seminole Community College, Stetson University, Rollins College, Jacksonville University and Florida Technological University will make up the field in the single round-robin tourney.

Seminole, which plays Colonial at home this week, was less than effective on offense last week.

Pringle wasn't drawing much praise at the beginning of the season. His play was good enough for him to start. But he was guilty of rookie mistakes like going the wrong way and missing assignments.

Association President Will Geiger said the decision to go ahead with the post-season game was based on the need to retain NCAA sanction for the game, despite the discovery of structural defects in the construction of additional seats for the stadium.

Four Jayvee Games On Thursday Slate

Four junior varsity football games are on the night schedule Thursday at 7:30, involving Seminole County teams.

FAIRWAY MARKETS HAS REDUCED MEAT PRICES

UNCONDITIONAL GUARANTEE Armour & Co., and Fairway Markets join to guarantee TESTENDER beef will be tender and flavorful. Armour TESTENDER beef is scientifically tested by an exclusive patented electronic device that accurately measures the natural tenderness of every steer. There are absolutely no additives of any kind. Because only one of six steers can pass the TESTENDER test you can now confidently buy corn fed western beef at Fairway Markets.

HOROSCOPE

By BERNICE BEDE OSOL

For Thursday, October 23, 1975

ARIES (March 21-April 19) This is not a good day to try to accomplish things alone. Other people's thinking will help you to avoid mistakes.

Taurus (April 20-May 20) Try to be extra-practical today. You could kid yourself that you have more resources than you do, thus causing much wastefulness.

GEMINI (May 21-June 20) You're in a happy-go-lucky mood. If home problems should interfere with your social desires, take it in stride.

CANCER (June 21-July 22) You're more content at home today. Things annoy you at work. You'll get uplight if you have to leave the house to run an errand.

LEO (July 23-Aug. 22) If you try to have things all your own way with friends today, it's going to cost you far more than you bargained for.

VIRGO (Aug. 23-Sept. 22) You might get away with playing the big shot with strangers today but don't try it at home. They'll burst your bubble.

LIBRA (Sept. 23-Oct. 23) Keep everything out in the open today. Hidden motives will necessitate a lot of fast talking to cover up.

SCORPIO (Oct. 24-Nov. 22) You're your thoughts and ideas to yourself today. Other people's opinions will be wrong for you and could prove expensive.

SAGITTARIUS (Nov. 23-Dec. 21) Continue to try to think in terms of helping others. You tend to be too self-centered. This could put you in a bad light.

CAPRICORN (Dec. 22-Jan. 19) Keep your nose to the grindstone. Don't try any new-fangled ideas. Things get done better by tried-and-true methods today.

AQUARIUS (Jan. 20-Feb. 19) You're lucky as long as you're dealing with a few friends.

PISCES (Feb. 20-March 20) Be prepared to be flexible and able to change your thinking today, or you'll find yourself locking horns with those at home.

YOUR BIRTHDAY
Oct. 23, 1975

A lucky cycle is beginning for you this coming year. You'll find that newly developed philosophies will open doors closed to you in the past.

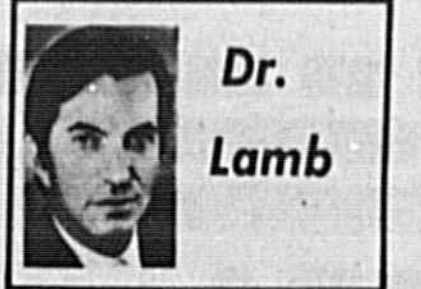

Pancreas Damage And Diabetes

By Lawrence E. Lamb, M.D.

DEAR DR. LAMB—I have been a diabetic for about five years. The cause of my condition is an infection of the pancreas at one time. This weakened it to a point where it doesn't function. Will you please let me know what effects this would have and what harm it will do to one's body? Can it cause gangrene? Why doesn't the doctor remove it?

DEAR READER—Diabetes is commonly associated with abnormal function of the islets of Langerhans, the tiny islands of specialized tissue inside the pancreas. It is true that an inflammation of the pancreas may lead to damage of these small islets and cause diabetes. Recently it has been observed that there is a close correlation between diabetes in childhood and mumps. The pancreas in the same way they involve the salivary glands at the angle of the jaw.

The pancreas has a lot of other functions, and the rest of it may be doing very well, even if the islets are damaged. You need the enzymes formed by the rest of the pancreas for normal digestion. There is no reason at all to remove the pancreas and a good many reasons not to if you want to stay healthy. Even a weakened pancreas that still provides

needed enzymes is better than none at all, independent of whether insulin is formed in sufficient quantities by the islets within it.

There are innumerable complications of diabetes, including gangrene if the circulation is involved. The best way to avoid these is by following good management under a doctor's supervision. That usually means a good dietary program and may or may not mean that you will also have to take insulin. The range of possibilities are so great that you have to adjust the management to the individual situation.

Those who want more information on diabetes can write to me in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019. Send 50 cents, a long, stamped, self-addressed envelope, and ask for The Health Letter number 3-11, Diabetes: Diagnosis, Prevention and Management.

The utility one club opening is usually made with a balanced hand that is too weak for an no trump. Thus, with 19 high-card points, North opened one club. His jump rebid to two no trumps showed this exact hand.

With 11 high-card points of his own, South merely raised to three no trumps. North had been heading for the spade game all the time and proceeded to bid four spades to announce specifically that he had 18 or maybe 20 points with four spades and three cards in each other suit. South revealed his hand and decided to invite a slam by going to five spades. North's values were mostly in aces, kings and good trumps and he went

Lash Files Papers

By DONNA ESTES Herald Staff Writer

LAKE MARY—DeLores Lash, who served four months on the original city council, designated when the city charter and incorporation were approved in August, 1973, and subsequently elected to a split one-year term, has qualified for a council seat in the Dec. 2 city election.

Mrs. Lash today filed her qualifying documents to seek election to the council post currently held by Virginia Mercer. Mrs. Mercer has said she will not seek reelection.

No one else has qualified as yet for the Mercer post.

The two other council seats open in this year's election, incumbents Harry Terry and Martin Bacon Sr. are seeking reelection.

Although a number of other city residents have picked up qualifying documents, they have not formally filed. The candidate qualification period ends at noon Friday.

Polling places for the December election in Lake Mary will be the Lake Mary Elementary School. Canvassing board members include Mrs. Mercer, Councilman Bert Peruchiel and City Clerk Kay Sasser.

The election is to be canvassed officially immediately after the polls close at 7 p.m. City residents, who have picked up qualifying documents, include George Hess, husband of former Mayor Margie Hess; Suzanne Savage, Jennifer Sanders, County Maintenance Superintendent; Henderson Ferguson and Robert Beckhorn of the city's planning and zoning board.

The city has 1,000 registered voters, according to the latest count.

Winter Springs, with 1,250 registered voters, will be electing two councilmen and a mayor in this year's Dec 2 city election.

The council seats up for election are: Claude Ash, Mary Eppol and Ernest Hendrix, appointed to replace resigned Frank Duran earlier this year.

Mrs. Van Eppol has qualified. Neither Hendrix nor Mayor Troy Piland have filed, but both have indicated they will seek reelection.

Other persons who have announced they may run for election are: Claude Ash, Mary Daniels, wife of Councilman John Daniels; and Rev Robert Clark, all for Van Eppol's council post; Gary Hunt for Hendrix's council seat and Laurent A. Pelletier for mayor. Candidate qualification period is to close Nov. 3.

United Way Dinner To End Campaign

By ED PRICKETT Herald Staff Writer

The United Way of Seminole County, Inc., will top off its month-long fund-raising campaign at a Victory Dinner tonight at the Quality Inn North in Longwood. At the fourth and final report Tuesday, campaign officials announced the drive had raised cash and pledges totaling approximately \$109,500, or 73 per cent of this year's goal of \$150,000. The total reflected an increase of \$17,232 over the amount reported at the campaign's third report dinner held October 14.

Len Unidas, United Way president, and Jim Raza, campaign chairman, expressed confidence at the dinner that the final 48 hours of the drive would produce the amount of funds needed to achieve the campaign goal.

Contacted today, Raza said the \$44,500 needed had indeed been accounted for in last-minute tabulations. He said that although this year's campaign had been a tough one, the efforts of the United Way drive's officers and volunteers had produced "a real victory."

Raza said the campaign's main goal was to educate the public about the United Way agencies and the services that were available. The campaign chairman said the United Way efforts could not work unless the public was aware of the different agencies, and what the agencies could do for them.

Margaret Ganas, United Way executive secretary, said the campaign had been "hectic" but rewarding.

Social Studies Text Attacked By Parent

By JOE ASKREN Herald Staff Writer

ALTAMONTE SPRINGS — Claiming the federal government is leaning towards "Communist" ideas today, a Geneva mother Wednesday night presented a lengthy book review attacking use of social studies textbook in Seminole County Schools.

Mrs. Donna Brinkle read to School Board members parts of her 15-page criticism of "Social Studies in Our World" which she said falls to warn pupils of the dangers of communism and socialism.

Mrs. Marion S. Ryan, a Volusia County resident with relatives in Seminole, said parents are just now "waking up" to alleged objectionable materials used in today's classrooms.

"What's happening in our classrooms today is disastrous and you know it!" said Mrs. Ryan. She distributed to board members copies of published reports and materials citing "anti-rated, subversive, anti-American, anti-God textbooks" found in the state-adopted textbook list.

Mrs. Brinkle said the social studies text presents half-truths and glorifies Karl Marx, the father of communism. She said she's keeping her son out of the social studies class until the board acts. She said the text teaches "groupism" as opposed to "patriotism."

Superintendent W.P. "Bud" Laver said the textbook in question is on the state-adopted list, but supplemental materials are available.

"If this textbook is objectionable, then 99 per cent of all the textbooks used are objectionable," said Laver.

"I love motherhood, apple pie, hot dogs and Chevrolets, too, but I have faith in our young people. If we start censoring our books, we would be doing the same thing they (Communist countries) did in years past."

Board Member **Davie Sims** said she's keeping her son out of the social studies class until the board acts. She said the text teaches "groupism" as opposed to "patriotism."

Superintendent W.P. "Bud" Laver said the textbook in question is on the state-adopted list, but supplemental materials are available.

"If this textbook is objectionable, then 99 per cent of all the textbooks used are objectionable," said Laver.

"I love motherhood, apple pie, hot dogs, and Chevrolets, too, but I have faith in our young people. If we start censoring our books, we would be doing the same thing they (communist countries) did in years past."

Grier Says Bonds Were First Step Utility Buy Called Premature

By ED PRICKETT Herald Staff Writer

Casselberry Mayor Bill Grier says county officials shouldn't have signed the contract for purchase of Indian Hills and Consumer Utilities before the bonds to finance that purchase were validated — a charge county officials say is untrue.

"Any halfway intelligent person wouldn't have signed the contract before he had the bonds validated," Grier said. But a county fiscal planner said bond validations are just the normal second step after a resolution is approved.

The issue centers on thousands and thousands of taxpayer's dollars that already have been paid to owners of the two firms because the Casselberry suit signed by Grier blocked the city's purchase — initially set for the first of the year — until sometime next month.

Already the county has paid out \$59,000 in default money to the firms' owners, and an additional \$20,000 is slated for payment before the deal is consummated, hopefully, by the end of next month.

Also Bill Dale, the county's director of environmental services, estimates it will cost an additional \$200,000 because of a 10-month difference in the bond market. Dale says the interest rate on bonds was about 4 per cent in January, compared to an estimated 7.5 per cent at present.

Saying "I don't think we should be blamed," Grier pointed out, also, that he as mayor, signed the lawsuit at the direction of city council. The Grier appeal was filed to the Florida Supreme Court. Grier said he was "a suit to block the purchase" but to secure information on the county's pending purchase of the two utilities which Grier says was "kind of a secretive operation on the county's part."

The county's utility attorney, John McDonough, said today the suit was "a suit to block the validation of the bonds."

Now, the mayor says that suit wasn't intended to "block the purchase" but to secure information on the county's pending purchase of the two utilities which Grier says was "kind of a secretive operation on the county's part."

Kimbrough said today the county "went to extremes" to get the issue out in the open by holding three public hearings and a press conference.

Kimbrough said the county tried to get Casselberry to cooperate on regional venture, but the city didn't follow through. As to Grier's allegations of secrecy, Kimbrough said, "You just can't slip out and buy a sewer plant."

"Casselberry officials cost the taxpayers a lot of money," they ran a blocking action," Kimbrough added.

Grier also criticized the (Continued on page 8A)

Action Voluntary--Suits Pending Owner Closes Cavalier

By BOB LLOYD Herald Staff Writer

Sanford motel owner Fred Ellnor has a million-dollar headache and attorneys say they don't expect any relief until trial of suits "next spring" in circuit court at Jacksonville.

Three suits have been filed in connection with alleged failure of modular units at the Cavalier Motor Inn, U.S. 17-92, to meet requirements of the Southern Standard Building Code.

According to city hall records, the 104 modular room units, manufactured by Chamberlain Manufacturing Co. Inc., of Morroe, Ga., were certified in Feb. 1973 by Atlanta architects as being inspected "and found to be built in accordance with the provisions of the Southern Standard Building Code."

The modular units were shipped to Sanford, and linked together by contractors into a two-story motel building adjacent to a conventionally-constructed restaurant and lounge.

City Building Official Bill Bracland said that since the construction of the modules was certified, out-of-state city inspectors had no jurisdiction to probe the construction of the units.

Plans for the \$1-million motel were approved by the Florida Hotel and Restaurant Commission on Aug. 22, 1972 "on the condition that the construction comply with these plans and the rules and laws of this commission."

Bracland said that since the time that the Georgia-manufactured modules were constructed and installed at the local motel inn that the state Community Affairs Department has taken over inspection and certification of such units.

Ellnor was reluctant to discuss the situation involving his motel but confirmed that he voluntarily closed the 104 rental units in September.

He said he then found it was not economically feasible to continue operating the restaurant and lounge and closed those facilities this week.

Ellnor's attorney, William Hutchison of Sanford, said, "The motel closing was strictly voluntary on Ellnor's part. Government hasn't closed the Cavalier."

Hutchison said lawsuits were filed at Jacksonville against contractor Modular Age Inc. by the Atlantic National Bank of Jacksonville, which had obtained financing for the \$1-million project.

He said Modular Age Inc. filed suit against Chamberlain Manufacturing Co. Inc. and that Ellnor filed a counter-suit. Hutchison said the three lawsuits are being consolidated for a trial that is expected "in early spring."

"Our position is that the modules don't meet the Southern Standard Building Code and that the contract was never completed," Hutchison said.

He would not comment on reports that portions of the modules have been subjected to testing by independent testing laboratories.

City hall records that have been subpoenaed from the Building Department show that certificates of occupancy for the modular units were issued in three lots in June and July 1973.

Also in city building records are letters from the Atlanta engineering firm and architectural firms indicating the plans and construction of the modules met the Southern Standard Building Code.

Courtesy Bus Fee Backed

By JOE ASKREN Herald Staff Writer

ALTAMONTE SPRINGS — Seminole County School Board members Wednesday night moved a step closer in seeking a Special Legislative Act to charge a fee for "courtesy busing" of pupils living less than two miles from school and save taxpayers money.

At the request of member Pat Telson, the board agreed to appoint an ad hoc committee to convince "local legislators" of the need in areas where safety hazards are faced by children walking to school.

Mrs. Telson said the committee should include Transportation Director Fred Taylor, Roger Harris, assistant superintendent for finance, two lay people, parents and an "efficiency expert."

Member Davie Sims and Telson moved and seconded, respectively, the successful motion.

Mrs. Telson said the board should determine the cost and parents should be responsible for deciding if they hazards exist.

"It could reduce the millage," said Mrs. Telson. Courtesy busing is transportation for pupils living less than two miles away from school, for which no state funds are provided as with regular school busing.

Mrs. Telson said Broward County charges parents involved \$10 every six weeks for the service.

State Sen. John Vogt (D-Cocoa Beach) is expected to discuss courtesy busing at 2 p.m. Monday in the office of Superintendent W. P. "Bud" Laver.

In a related matter, the board designated Hugh Carlton, director of auxiliary services, as the board's liaison with the county and the developer of the Sterling Park planned unit development (PUD) to provide a bicycle path or sidewalks for pupils attending the new Sterling Park Elementary School.

Mrs. Telson and Sims said the (Continued on Page 2A)

CONDOMINIUM AUCTION ACTION

An auction was held on the steps of the Seminole County Courthouse this morning with 114 condominium units, situated in Winter Springs, on the block. First Federal of Orlando bought all 114 units at a price of \$1.4 million. Shown at the auction are attorney Jack Lovelace (left), representing First Federal, Deputy County Clerk Elaine Richardson and Seminole County Circuit Court Clerk Art Beckwith Jr. (Herald Photo by Bill Vincent Jr.)

County Sends Out Ads For New Executive Assistant

reorganization of county government as proposed in a study by the county's management consultant, E.H. "Woody" Underwood.

On Tuesday, the commission is scheduled to vote on the ordinance which creates the assistant executive assistant to Underwood.

The title of assistant to the county commission was decided on after some commissioners felt the title county administrator implied more power than the commission wished to dictate.

Disagreement among commissioners was so keen at one point the position acquired the title of "rose." During meetings, commissioners referred to the job's title as the "rose" until Underwood came up with executive assistant to the commission, title he says implies less power than county administrator.

Commissioners Harry Kwiatkowski and Mrs. Hat-taway have favored creation of the new leadership position, while Commissioner Dick Williams has voted in favor — but with reservations.

Mainly, Williams wants to know how an \$18,000 Underwood study will dovetail with creation of the new manager. Each time the issue has come up, Williams has voiced reservations.

Once the ordinance is officially signed, Ellis says it will just be a matter of interviewing applicants and choosing the most qualified.
