# **Millers And Giants Split In Two High-Scoring Exhibition Contests**

Seeking revenge for a 9 to 4 shellacking on Saturday the Minnepolis Millers yesterday blasted out a 7 to 2 win for a split in the neckend series between the Giants' Triple 'A' farm clubs.

Horse's Mouth The Millers were held to five hits in Saturday's game by a trio of Ottawa hurlers. The Giants gave warning to the International League that hitting won't be their

weakness, lathing out 12 safeties off the deliveries of Wright, West and Martin.

Ottawa pushed across three runs in the second inning, got another in the 4th and were in trouble only in the fifth when the Millers came to life scoring three runs to move within one of tying the score. Jok, lanky Otta-wa left fielder, lc., the Giants' hitting with two doubles and a single in four trips.

Tomasic, who started for the Giants, was credited with the win and Wright, first Miller pitcher, was the loser.

Showing some of the brilliance which brought them the American Association pennant in 1950 the Minneapolis club held the Giants to four hits Sunday while dropping in eight themselves.

Barnhill, the winning pitcher, holds an American Association strikeout record and showed why Sunday against the Giants, giving up only two hits. In 1950 he struck out 46 batters during a stretch of 20 innings for an average of better than two an inning. The Giants' only scores came

on a homer by John Metkovitch with Billy Bardner on base.

**Gruelling 840-mile test** proves Ford Economy

Again this year . . . it's high honors for Ford! In the most important economy trial for American stock model cars . . . the famous annual Mobilgas Economy Run . . . a Ford 100h.p. V-8 equipped with Overdrive took first place competing against all cars in its price class, making 54.587 ton-miles per gallon\* and 25.994 miles per gallon. And its companion in quality, the new Ford SIX with Overdrive, was right up there with the winner. In fact, both cars averaged better than 25.9 miles per gallon.

Traditional Ford economy, for the second straight year, has leen proved in open competition. Proved on the tough 840mile grind from Los Angeles to the Grand Canyon . . . a course that included city traffic, below-sea-level desert heat and 7,000-foot mountain passes. Ford's Automatic Mileage Maker, standard equipment on all Ford V-8's and SIXES, contributed to this great achievement by squeezing the last mile out of every drop of gasoline.

Why not "Feet Drive" the new Ford at your neighborhood Ford Dealer's? There's no better way to be convinced that "You can pay more but, you can't buy better!"

TOKYO, Mar. 20-(A)-United States troom baltling northeast of Hongchon on the central Korean front today ran into "very stiff" Communal resistance.

Red troops fighting from well dug in hill positions hurled back an American battalion after a daylong fight.

In Tokyo, General MacArthur ordered a news blackout on the distance to a certain line on the Korean peninsula.

(Correspondents were not allowed to say specifically what this line is, but it obviously refers to the politically important Parallel 38.)

It is one of the most rigid news restrictions placed on correspondents since the war began.

At present, the whole obligation to pay is on the user. He gets a permit to operate, and he is supposed to make regular reports of his fuel consumption and remit his taxes.

Operators of fleets of buses and trucks, turning more and more to use of dissel and buttled gas, have been making their payments. But comptroller's agents have had trouble checking on individual users-particularly truckers from

outside the state. Gay said "it is physically im-possible to administer the law now. We're trying to plug a big hole It would give us at least a million dollars a year in new revenue."

The state got \$449,500 last year from the source. It all goes to the road construction fund.
