FAMED BANDIT LEADER SEIZED BY U. S. AGENT

Head Of Gang Which Staged Kansas City Massacre Arrested At Farmer's House

DALLAS, Tex., Aug. 15. (A. P.)—Harvey J. Bailey, identified as the leader in two of the nation's recent major crimes, the Kansas City Union station massacre of five men and the \$200,000 ransom kidnaping of Charles F. Ueberl, millionaire Oklahoma City oil man, was in jail here today as the result of the federal government's drive on racketeering.

Bailey, convicted bank robber and a leader of the Memorial Day police break at the Kansas penitentiary in which the warden and two guards were kidnaped, was trapped as he slept on a cot in the back yard of a farm house seven miles from Paradise, Wise county, Texas.

With five other persons arrested at the place, which was identified as the rendezvous where Ueberl was held captive by his abductors, Bailey was brought to Dallas and placed in jail.

It was announced that a "cash-for-ransom" of the Ueberl ransom was found in the possession of Bailey, who was heavily armed. Fingerprints of the multi-millionaire Oklahoma City oil man, which were found on a bed, a bench and a water glass in a tenant house on the farm in which officials said Ueberl was held prisoner until rescued by his family. First announcement of the street came yesterday from Homer Cummings, the attorney general, at Washington.

Alongside him on the jail Bailey had a machine gun, an automatic rifle and an automatic pistol, but when he was awakened it was with the muzzle of a machine gun in the hands of Gov. Jones, head of the San Antonio office of the department of justice, prodding him.

Bailey made no effort at resistance. "Well, it looks like it is too" (Continued On Page Three)

Ways Of Securing Loans Outlined To Owners Of Homes

Steps to be taken in the securing of a loan from the Home Owners' Loan Corporation were outlined before members of the Central Florida Council of Chambers of Commerce, meeting in Orlando at a breakfast session today.

The speaker was J. C. Murchison, of the Orlando office of the Corporation.

Another speaker was R. G. Grassfield of the State Chamber of Commerce at Jacksonville. His subject related to the Florida sugar industry and a proposed sugar stabilization meeting agreement which provides that this state shall produce not more than 60,000 tons of raw cane sugar annually.

Mr. Grassfield urged all trade bodies in this section to petition the President, General Hugh Johnson, and all persons or groups whose influence might be brought to bear against the proposed agreement in so far as Florida is concerned. He offered several petitions which he asked to be signed and forwarded at once.

Seminole County was represented at this meeting by H. H. Papworth, Karl Lehmann, Mr. and Mrs. E. F. Haines and Mrs. Margaret Haines. The meeting was the largest of any held in recent months.

Thousand Peasants In China Said Drowned

SHANGHAI, China, Aug. 15.—(A. P.)—A thousand peasants were reported drowned in a few minutes when the Yellow River broke through its banks and flooded waters covered a vast area. The stream flows from a range of 175,000 in the north of China, and is holding back by a dam which is nearly isolated.

Action Of Governor Gore Begins Dispute

SAN JUAN, Puerto Rico, Aug. 15.—(A. P.)—A controversy has been started by Governor Robert H. Gore's published statement that all his appointees must give him unqualified resignations before accepting office. The governor said his purpose was to follow out the policy of President Roosevelt. He indicated the President held his resignation before he called for the island. Antonio Barvel, president of the Puerto Rican bar, declared the governor's action was illegal under the basic act sponsored by Woodrow Wilson. There were indications that at least one cabinet member might go to court.

PROFITTEERING ON FOOD PRICES TO GET RESISTANCE

Frederic Howe Plans Campaign To Fight Unwarranted Rises

WASHINGTON, Aug. 15.—Dr. Frederic C. Howe completed last night his plans to stamp out profiteering.

Howe is a mild-mannered administration sleuth whose job is to ferret out food racketeering under the new deal. He intends to announce within a few days the details of a nation-wide organization to make war on the grasping grocer, the greedy butcher and the avaricious baker who fall to join their colleagues in co-operation.

As consumers' counsel for the agricultural adjustment administration, Howe has completed a survey of bread prices in 18 representative cities which indicates most bakers are co-operating with President Roosevelt's recovery program.

The doctor discovered that the average cost of bread has gone up 1.4 cents per pound since February. The cost of ingredients has risen 1.3 cents. The figures showed that the price in Cincinnati however, went up 2.5 cents whereas in Baltimore it was only 7 cents. Howe said he planned to ask the Cincinnati bakers to explain.

He also has some questions to ask in Mobile, Ala., where bread now costs nine cents a pound, and in San Francisco where it is 9.3 cent a pound. The average price is 7.8 cents now as compared with 6.4 cents on Feb. 15.

The questions concerning bread and other foods will be asked by local consumers' councils, which the doctor is organizing all over the country. These councils will have food facts, gathered in Washington, to compare with selling prices in each city. All this information will be given to the housewives, upon whom Dr. Howe depends to keep retail prices in line. He believes that the women going to the grocery every morning won't let themselves be cheated, if they have an official list of fair prices in their pocket-books. He intends to see that they get the lists, revised weekly.

Howe is a Cleveland lawyer, a Wilson Democrat and a liberal in economics and politics. He has (Continued On Page Three)

Former Actress Is Found Dead In Room

WASHINGTON, Aug. 15.—(A. P.)—The body of Mrs. Ella M. Schrodt, 35-year-old former actress, was found today in the bedroom of her home at Mount Laurel, Md., near a home with a deer out over the right temple. John C. Mulligan, 45, who lives at the same address, was arrested on a murder charge and held without bond.

A neighbor called the police after being notified by Mulligan. Police said the woman apparently had been dead several hours. Mulligan claimed Mrs. Schrodt retired about midnight and that he went to sleep on the front porch. He said he thought the woman fell in the bathroom, cut her head and made her way to the bed before she died. Mulligan was arrested on a warrant sworn out by the Mount-trainer police chief.

SEVERE ACTION URGED IN FIGHT ON CRIMINALS

Everything From Public Floggings To Martial Law Suggested By Copeland

NEW YORK, Aug. 15.—(A. P.)—Everything from public floggings for criminals to martial law was seriously urged upon the Senate sub-committee for racketeering yesterday as it held its first open regional meeting.

A notable line of police and prison experts gave their views to Senator Royal S. Copeland, chairman of the committee, and virtually all were agreed that drastic reforms were necessary to stamp out racketeering.

Warden Lewis E. Lawes, of Sing Sing prison, wanted not only immediate martial law, but virtual elimination of state lines with full police powers conferred upon the federal government.

Former Police Commissioner Edward P. Mulrooney advocated "20 lashes with 20 years" for hardened criminals. District Attorney Thomas C. T. Crain, of Manhattan Borough, New York, urged that prosecutors be given the power of subpoena and the right to question witnesses under oath in private.

Senator Copeland laid emphasis throughout the hearing on an American "Scotland Yard." He asked every witness if he favored such a bureau, explaining that it would be a federal, central co-ordinative agency. Most of the witnesses thought it a good idea, though some warned that local authorities would resent too much federal interference in crime investigation.

Some suggestions given in the committee and their proponents were:

A central co-ordinative crime bureau administered by the federal government—by Joseph R. Pevney, special assistant to the attorney general.

Federal control of firearms, and universal fingerprinting by former Commissioner Mulrooney.

Wide island returns for criminals and more public assistance for the police—by Police Commissioner James S. Bolan, of New York.

Registration of everybody in the United States—by Peter J. Sicaardi, police chief of Bergen county, N. J.

Constitutional amendment to give the federal government concurrent jurisdiction in crime—by Grover A. Whalen, former New York police commissioner.

Appointment of selected state and municipal officers as federal agents to be paid by the state but work under federal control—by H. Norman Schwarzkopf, superintendent of New Jersey state police.

Today Copeland will listen to legal suggestions. He announced that the full committee would convene in Chicago early in October and determine then, after studying the situation of Kansas City and other metropolitan centers that specific studies are needed.

"This is war," Lawes declared in demanding federal regulation of anti-crime activities, "if we don't have some sort of martial law to stop crime we'll have lynch law and then we'll have to have martial law."

"We could stamp this out in 90 days," the noted prison official shouted in closing. Challenged by Robert Darrac, bar association racket committee-man, on this point, Lawes replied: "If I were Mussolini I could do it in 90 days."

Two American Scions Of Wealth Will Inherit Big Fortunes During Summer

NEW YORK, Aug. 15.—(A. P.)—The wheel of time turns this summer to bring two American boys, scions of this country's front line aristocracy, into fortunes which were created as the nation evolved from its humble beginnings.

John Jacob Astor, 32½ years, 21 years old yesterday by and in assumes control of immense wealth. His friend, Alfred Guyne Vanderbilt, Jr., will not reach his majority until Sept. 22, when he, too, comes into a fortune.

The coincidence of their 21st birthdays means the only parallel in their lives. Each lost his father in a major marine disaster. Jack's father, John Jacob Astor, died when the Titanic sank in 1912, and Alfred Guyne Vanderbilt Sr. met death in 1915 when a fog-

man submarine torpedoed the Cunard liner Lusitania off the Irish coast.

The wealth of the elder Astor, who died some months before the 21st of his son, was estimated two years after his death at \$87,215,000. The sum, given Astor, his brother of 14½, received \$25,000,000.

In one of the few instances of its nature on record, the elder Astor made provision in his will for the unborn child, having drafted up the testament a short time before he sailed on the Titanic.

The Astor millions came mainly from real estate in New York. After old John Jacob, the immigrant from Waldorf, had established the foundation in the fur (Continued On Page Three)

CUBAN LOTTERY COMMITTEE OF APPEARS DOOMED BY NEW REGIME

TAMPA, Aug. 15.—(A. P.)—The Cuban national lottery, which takes thousands of dollars from Tampa players once a week, may be wiped out of existence under the government set up at Havana.

This was indicated last night in a special dispatch from Havana, which said that one of the reforms demanded in the program against Machado was suppression of the lottery. This, it said, had been adopted by a mixed political commission.

The drawing out for Sunday—thousands of Tampa people jammed before noon that day—was postponed by government decree because of the strike and prior to the voting Saturday afternoon which Machado fled for his life, with only the clothes on his back.

Sebastian Plann, director of the lottery and a friend of Machado, he had to be out that job—also fled, the dispatch said, and is in hiding with others whose lives have been in danger. The home of the lottery chief was sacked by mobs.

The dispatch said there was no official word from the police as to whether one more drawing would be permitted to clear up tickets now out. But the general impression in the Cuban capital is that the lottery, out of which Machado and his henchmen had charge of distribution of (Continued On Page Three)

Blanks Received For Applications Upon Home Loans

A supply of application blanks and other data which explains in simple terms how to go about securing a loan from the Home Owners' Loan Corporation was received at the Sanford-Atlantic National Bank this morning. Professors are invited to call for these blanks at any time.

As a bulletin titled "General Information" sets forth, "Home Owners' Loan Corporation was created for the relief of home owners in distress with their mortgages, taxes and other items, and the Corporation proposes to make every effort to carry out the purposes of the bill. This does not mean that a mortgage must be in process of foreclosure; however, it must be borne in mind that the Act creating the Corporation is a relief measure and will be administered primarily for relief purposes and not for general refinancing of mortgages."

FIRST STEP IS TAKEN UNDER SECURITY ACT

Trade Commission To Issue Stop Order Against Stock Company's Operations

WASHINGTON, Aug. 15.—(A. P.)—The Federal trade commission was asked yesterday to issue its first stop order under the security registration act against the sale of stock by a Texas firm which was represented as coming from "dear friends and relatives."

Richard P. Whiteley, a commission counsel, recommended suspension of the registration of the Fort Worth after the act designed to protect investors from fraudulent stock issues. The commission must act within 24 hours.

Whiteley said the company, organized in August, 1932, to deal in speculative investment in ownership shares of industries listed on the stock exchange, failed to submit its registration statement, balance sheet and profit and loss statements for the last three years.

He said it also made an error in the item calling for outstanding capital stock.

In addition, he introduced as evidence what he said was an advertisement sent by the company through the mails July 21, one of which was received by a man in Chicago.

Addressed in "Dear friends and relatives," it outlined a plan for "big quick profit winners" from an initial investment of ten dollars.

On the face of the advertisement was a big NRA blue circle and a caption claiming registration under the "truth in securities act."

The company did not put in an appearance, but Bert J. Hoenes, one of its officers, wired the commission to put the hearing off until he had time to prepare evidence.

Whiteley, however, said the company was notified Aug. 4 that the registration application was deficient in many respects and was permitted to lay the case before an examiner.

The Fort Worth concern had paid a registration fee of \$25 which would have limited its issue of securities to \$250,000.

2 California Deaths Attributed To Heat

LOS ANGELES, Aug. 15.—(A. P.)—Two deaths were attributed to a heat wave blanketing Southern California today. Wallace Kelley, Long Beach, died at an Eldorado mine. T. B. Fortson, 10, died from heatstroke in the Ortega neighborhood. His father, R. L. Fortson, shot himself when informed of the boy's death and is not expected to recover. Temperatures from 112 to 119 degrees have been reached in the rich Imperial Valley agricultural district, the latter figure being one degree above the former heat record for the district. Many other points had temperatures above 100.

Discovery Night Programs Planned By Milane Theater

"Home talent" or "Discovery Night" programs will be staged weekly at the Milane Theater starting Wednesday night, Aug. 20, it was announced this morning by Jos. L. Marcellino, theater manager.

Programs will continue through the night of Sept. 27, and prizes consisting of cash and music to the theater will be awarded to the first, second, and third place winners on each program.

The programs will be staged in conjunction with the regular motion picture program. Mrs. Gladie Morris Williams will act as program director, and persons having talent in music, dancing or any other form of entertainment should get in touch with Mrs. Williams at once.

Ickes Orders Study Of Florida Canal

WASHINGTON, Aug. 15.—(A. P.)—Secretary Ickes ordered that a special study be made of a proposed Florida cross-state canal by his deputy, Colonel H. M. Waite. President Roosevelt has shown considerable interest in the project as a part of the public works program. The action by Secretary Ickes is believed indicative of a favorable attitude by the administration on the canal.

CITY COMMISSION PLANS EFFORT TO COLLECT TAXES

40 Percent Payment Seen Desirable To Gain Cancellation

With every indication that within the next few weeks the 1932 tax collection will have reached approximately 36 percent, members of the City Commission last night decided to make every effort to bring the year's collection to 40 percent before Oct. 1.

They made this decision near the end of a routine meeting in which it was found necessary to postpone a discussion of an effective light rate ordinance which had been placed on its first reading some weeks ago. The matter was delayed until the next regular meeting, on Aug. 28.

It was pointed out again, that if the tax collection reaches 40 percent of the assessment, residents of this city stand to gain upwards of \$700,000 through the cancellation, by the Bondholders' Protective Committee, of paid due interest on the outstanding indebtedness of Sanford.

Belief was expressed that it is possible to bring the collection to 40 percent if the Commissioners will make personal calls upon as many taxpayers as possible.

The Mayfair Hotel came in for a generous share of discussion. A letter was read from a guest which desired to secure a permanent room for use as a permanent year-round hotel school, while Commissioner H. J. Lehmann stated that he had a letter "from some doctor in New York" who wishes to secure the property for a hospital.

Mayor Spreer stated that he had learned from Karl Lehmann that the operator of one of the largest restaurants in the "Streets of Paris," a World's Fair feature, is also considering buying or leasing this property for the purpose of opening a hotel.

Upon recommendation of Mayor Spreer, it was decided that inasmuch as an official of the Florida Public Service Co. is now dealing with certain interests in connection with the property, letters be sent to the heads of the title group and the New York physician stating that the City is not in a position at this time to offer a proposition for the lease or sale of the property but it will entertain any offer which either party cares to make.

The Commissioners discussed a sales tax for Florida but took no definite action. They had been called upon in a letter from an organization sponsoring a sales tax for Florida to endorse the measure.

Lehmann Gives Talk At Rotary Luncheon

Karl Lehmann's short talk on the big history of the World's Fair at Chicago furnished Sanford Rotarians with their program at a luncheon in the Vaiden Hotel today. Mr. Lehmann's talk accompanied the showing of stereograph pictures of many points of interest about the Fair grounds.

Those attending the luncheon included C. R. Dawson, of Orlando, and Rotarian H. I. Louttit, of Palm Beach, as guests and Rotarians Paul Bine, who presided, A. W. Epps, H. W. Spencer, H. W. Pope, H. H. Coleman, F. C. MacMahon, S. O. Schindler, W. A. Laffer, Randall Chase, James Brown, S. Puleston, Karl Lehmann, H. B. Rivers, George H. Allen, W. M. Haines, and W. C. Hutcheson.

WAR GUARD VIRTS GRAVE

SANBUSHKY, Ohio, Aug. 15.—(A. P.)—Twenty-six years ago J. W. Hugler, of Rushsylvania, Pa., paid his first visit to Johnson's Island here, when he was a guard over Confederate prisoners during the Civil War, and knelt over the grave of John J. Nickell, Kentucky's surgeon, over whom he watched the night before the latter's execution. Last year and again this year Hugler visited the grave.

INDEPENDENT CITRUS GROWERS SEEK UNITY

ORLANDO, Aug. 15.—(A. P.)—Independent citrus growers, representing half of the state's production, took first steps toward formation of a solidly welded organization at a meeting in Lakeland yesterday. It was announced here that five of the nine state directors were named. Others and officers of the new independent association will be named at a meeting Aug. 23 at Lakeland.

NEW REGIME IN CUBA HUNTS FOR SOLUTION

Conditions On Island Reported Improved; Abdicated Leader Is Staying At Nassau

American warships hovered near as the new Cuban government sought to solve the problems inherited from the upheaval that caused Machado's regime to fall. Conditions on the island are improved.

Machado, at Nassau, said he no longer was a factor in Cuba's affairs. His family proceeded north by train from Key West, apparently for New York.

At Miami General Mario Menocal, former Cuban president, and opposition leader, said he planned to quit his exile soon and return to Cuba.

NEW YORK, Aug. 15.—(A. P.)—A long and weary tragic story of adventure and adversity was pieced together today by from the cables bits of Havana news, the story of the heartbreaking battle of Associated Press staff photographers to fill an "assignment" against odds of revolution, bloodshed and rioting.

As the last of a relay of planes dropped to Newark airport at noon with a realistic picture scene of the Cuban revolt, it marked the successful conclusion of another phase of "newsman's story" that cost many thousands of dollars and almost cost the lives of two Associated Press camera men, Royce Reas, Associated Press photographer, lost his camera and precious plates. Stanford's attention at the hands of an American mob which descended upon the Pan American airplane here in the wake of the escape of General Orestes Ferrera, former secretary of state.

As the plot took off in a hull of bullets, with the secretary and his wife safely aboard, the infuriated mob bore down on Reas and destroyed his camera and plates which were to have gone to Miami and around the globe.

At the point of public and rifle, they forced Reas into a machine and fired, hitting him roughly, threw him out of the cockpit of Havana.

Another Associated Press camera man, Jose Ferrera, who last week was dragged to safety as he was photographing the massacre of celebrating Cubans by soldiers before the presidential palace, dug out from under duplicate "shots" of the mauling of the week-end.

These pictures, taken almost at the same time and place as those of Reas, were prepared for delivery. Other pictures, obtained from Havana newspaper photographers of the Associated Press, were included.

Despite the fact, however, cameramen and other photographers were keeping films locked in vaults for safe keeping during the rioting, the Havana "AP" staff at (Continued On Page Three)

BUSINESS INCREASES

Kissimmee, Aug. 15.—(A. P.)—Due to a general increase in retail, hog and poultry raising in Osceola county the past twelve months, states Knox & Modglin, feed merchants, the firm's business showed an appreciation of nearly 30 percent the past 12 months as compared with the same period last year.

Sanford Celeryfeds Gain 7-1 Victory Sunday Over Daytona Beach Islanders

CENTRAL FLORIDA LEAGUE			
Team	W	L	Pct.
Sanford	11	10	.524
Daytona	10	11	.476
Orlando	9	12	.429
New Smyrna	8	13	.385
Cocoa	7	14	.333

Returning to the baseball war with a 11-hit performance, the Sanford Celeryfeds scored a 7 to 1 victory over the Daytona Beach Islanders in Daytona Beach yesterday afternoon to even the season's series between the two clubs at four victories each.

It might be said that the Feds won the tilt because old George Cusack made the mistake of hitting a triple in the fifth inning although the Feds had scored a pair of runs in the fourth and the Islanders were stumped by some mighty fine pitching turned in by Tige Minor.

After George hit that triple, he was a different man. It was as hot as brass on the field all afternoon, and when George came puffing into third base with none out in the fifth it was no cooler. George scored on Harris' high fly but he was given little rest since Culbreth and Shannon were easy outs a few moments later and George had to return to the mound.

From then on it was all Sanford. The Feds went to work. Abbott opened with a single in the sixth. Stealing second he perched there long enough to see Bert Maxwell foul out to Graham before he scored on Barnes' single past Culbreth. Harrison struck out and Chapman filed out.

With Minor and Bonner both out at the opening of the seventh, Roberts singled to left to be scored shortly after when Big Phillips hit a home run into left centerfield. Abbott filed out to Red Burned.

After he singled to start the eighth, Bert Maxwell stole second and Barnes, Harrison, and Chapman went out in order.

The final Fed attack on the faltering Cusack was aided by Herbie Harris' indifference to a sharply hit ball which passed through his legs. Minor opened with a clean single to left field followed by Paul Bonner's triple to left center. Roberts smacked the ball hard at Herbie who refused to touch the pill so it went skidding into left. Herbie Bonner and Roberts went to second. Roberts went to third on Phillips' infield out.

With one out and the Feds enjoying a six run lead, Manager Charlie decided to try to squeeze the eighth run across. The play failed because Cusack sensed what was up. The old fox purposely threw a pair of high flying balls that were away outside. Charlie punched and missed the first one, and because Roberts was almost at home plate on the next one, he had to punch at that pitch. As a result, the ball bounced straight up in the air about 10 feet, to be caught by Eddie Holton who threw Roberts out at third to retiring the side.

The Feds had scored a pair of runs on errors in the fourth inning. Abbott won all the way to second when Aggar threw wide of first base. Maxwell fouled out to first and Elmer Spake robbed Joe Barnes of a single with a fine running catch. Harrison singled into left field but Red Burned played the ball miserably so that it rolled and rolled. Abbott scored and so did Harrison. Thoroughly riled over Burned's blooped error Cusack walked Chapman but made another great catch of Minor's fly in the damage was done.

The Islanders in the meantime hadn't been able to do a thing with Tige's hurling. He appeared a trifle wild, but the witnesses might have been credited to the heat and perspiration which rolled off his fingers in a steady stream all day.

Six hits, including Cusack's triple and Spake's double were all that the Islanders could produce, and their once noted batting punch was noticeably absent. They put a man on third in the first, fourth and eighth but they couldn't shove him further. As things happened, the "heavy" hitters never came to bat with men on the paths, and so Minor scored his second victory over the Islanders in three seasons of play.

Every player on the Fed team except Chapman scored at least one hit, with Q. I. Roberts, playing right field, leading the club with three hits in five tries. Colman was freely expressed by players and fans after the game that the return of batting strength at a critical time promised a return of a winning streak which began yesterday.

Somehow afternoon, Manager Abbott takes his Feds to Cocoa to play a game that was rained out 19 days ago. Cal Deane will take the mound. He has never faced Cusack this season.

and his tantalizing curves ought to furnish a surprise package for the Indians who are clinging to a tie for first place with the Orlando Tigers.

The Feds return home for a game with the Leesburg Bruins Thursday, a game which will find Bill Ferruzzi on the hill against Lefty Geiger.

COCOA 6, LEEBURG 2.
 COCOA, Aug. 14.—Spec Kinsey tamed the heavy hitting Leesburg Bruins here yesterday and Cocoa won a Central Florida League game 6 to 2. Kinsey held the Bruins to six hits, three coming in the last eight innings. He did not issue a base on balls and struck out nine.

A deluge of rain, as the Indians prepared to go to bat in the third, delayed the game more than 35 minutes.

Emory Witt, bespectacled Leesburg hurler, started on the mound for the visitors, but was sent to the showers with one down in the fourth after walking in two runs. Knowles held the Indians safe the rest of the way, proving just wild enough to be effective.

Leesburg scored its only runs in the opening frame, when Parrish, first up, was safe on Harrell's bobbie, went to second on Cops' single and moved along on Dugan's sacrifice. Contreras came through with a hit to score Parrish, got to second on a fielder's choice and counted on W. Hancock's single.

The Indians evened the count in their half on Harrell's walk, Provost's single and errors by Dooley and Cops. Two more counted in the third when Provost was safe on Contreras' error and stole second. McCully was safe on a fielder's choice. Provost moving to third and scoring while Hopkins was being retired at first. Dull singled to score McCully. Headley singled to open the fourth, going to second when Witt hit Kinsey in the back. Harrell singled to move both men along and successive walks to Provost and McCully brought both runners home with the final runs of the game.

ORLANDO 11, NEW SMYRNA 3.
 ORLANDO, Aug. 14.—Orlando won a loosely played ball game from New Smyrna here yesterday afternoon, 11 to 3.

Wright, who started on the mound for the visitors, gave way to McLendon in the third inning after the Orlando team had scored four of its runs.

Cops and McMullen both rang up circuit drives with Cops making the trip in the sixth and McMullen in the eighth. In addition to his circuit clout Cops made three other safe hits out of five trips to the plate.

Loper, on the mound for Orlan-

Edgewood Team Is 10-1 Winner Over Sanford Players

By GEORGE STOVALL

In a tense and exciting baseball game yesterday afternoon, Harold Doker struck out thirteen men and allowed only three Sanford players to get hits while the rest of the Edgewood team shoved over ten runs to take the game by a 10-1 score. Doker set the Sanford players down in order in seven of the nine innings played and was well on the way to a one-hit shut-out victory, but he weakened in the ninth with two men out and two consecutive doubles sent a run across and spoiled his chances.

Only two men got as far as third base and those came in the last inning. Knight was not in bad form yesterday but he could not get the support of his teammates. The ball seemed to be greased everywhere it came to the Sanford infield, for none of the players were able to field it well. These two teams will meet again on Thursday afternoon on the Ninth Street diamond and this game should prove just as interesting.

COCOA 6, LEEBURG 2.
 COCOA, Aug. 14.—Spec Kinsey tamed the heavy hitting Leesburg Bruins here yesterday and Cocoa won a Central Florida League game 6 to 2. Kinsey held the Bruins to six hits, three coming in the last eight innings. He did not issue a base on balls and struck out nine.

A deluge of rain, as the Indians prepared to go to bat in the third, delayed the game more than 35 minutes.

Emory Witt, bespectacled Leesburg hurler, started on the mound for the visitors, but was sent to the showers with one down in the fourth after walking in two runs. Knowles held the Indians safe the rest of the way, proving just wild enough to be effective.

Leesburg scored its only runs in the opening frame, when Parrish, first up, was safe on Harrell's bobbie, went to second on Cops' single and moved along on Dugan's sacrifice. Contreras came through with a hit to score Parrish, got to second on a fielder's choice and counted on W. Hancock's single.

The Indians evened the count in their half on Harrell's walk, Provost's single and errors by Dooley and Cops. Two more counted in the third when Provost was safe on Contreras' error and stole second. McCully was safe on a fielder's choice. Provost moving to third and scoring while Hopkins was being retired at first. Dull singled to score McCully. Headley singled to open the fourth, going to second when Witt hit Kinsey in the back. Harrell singled to move both men along and successive walks to Provost and McCully brought both runners home with the final runs of the game.

ORLANDO 11, NEW SMYRNA 3.
 ORLANDO, Aug. 14.—Orlando won a loosely played ball game from New Smyrna here yesterday afternoon, 11 to 3.

Wright, who started on the mound for the visitors, gave way to McLendon in the third inning after the Orlando team had scored four of its runs.

Cops and McMullen both rang up circuit drives with Cops making the trip in the sixth and McMullen in the eighth. In addition to his circuit clout Cops made three other safe hits out of five trips to the plate.

BIBLE VERSE FOR TODAY
THE FIRST AND THE LAST: I am the first, and I am the last; and besides me there is no God. - Is there a God besides me? No, there is no God: I know not any. - Isa. 44:6, 8.

New York's Coming Election

New York's forthcoming city election at which time the citizenry will decide whether John P. O'Brien will remain as the incumbent or whether he will have a successor is significant throughout the country chiefly for the fact that it represents almost a death struggle between Tammany Hall and the fusionists, who have united solidly behind Fiorello H. LaGuardia to carry the banner of the opposition.

Roosevelt As A Farmer

George Washington, when he was not engaged in military maneuvers or affairs of state, the Atlanta Constitution tells us, was a farmer wise enough to stop raising tobacco on his plantation because its continuous cultivation there, as elsewhere, tended to deplete the fertility of the soil.

MASTERS OF THEIR FATE

By WALTER LIPPMAN

If you talk with the men who are directing the movement for recovery you will be given all sorts of theories to explain what they are doing. You will not find, I think that they are working according to a comprehensive and definite plan. You will not find that there exists a clearly formulated policy embracing and co-ordinating the many different matters with which the government is concerned.

Cigar Makers In Tampa O.K. Labor Section Of Code

TAMPA, Aug. 15.—(AP)—Tampa cigar manufacturers yesterday accepted the labor section of the NRA code, signed the President's re-employment agreement and indicated they were ready to resume operations Wednesday, if strikers return to the factories.

List Of Codes Of Competition Now In Effect Are Revealed In Report

WASHINGTON, Aug. 15.—(AP)—NRA codes of competition which have been approved by President Roosevelt to date are in force in the following industries:

- Shoemaking.
- Wool.
- Electrical manufacturing.
- Coal and bit.
- Cast iron and pipes.
- Cotton textiles.
- By Executive order, the following are operating under varying programs:
 - Traveling (a subdivision of textiles).
 - Cotton thread (Silk Association of America representing rayon weavers, converters, special fabrics, ribbons and woven labels).
 - Textile finishing.
 - Underwear and allied products.
 - Silk and rayon dyeing and printing.
 - Garment manufacturers.
 - Cordage and twine.
 - Fajitas manufacturers.
- The following are operating under wage and hour provisions representing modifications of the President's Agreement:
 - Meat packing.
 - Food and grocery distributing.
 - Radio manufacturing.
 - Rayon weaving.
 - Bedding.
 - Rayon and synthetic yarn.
 - Banking.
 - Zinc.
 - Advertising specialties.
 - Ice cream.
 - Fluid milk.
 - Knitted outerwear.
 - Oil burner.
 - Optical.
 - Paint, varnish and lacquer.
 - Printing.
 - Toy and playthings.
 - Wheat flour.
 - Retall lumber.
 - Lumber products.
 - Building materials and specialties.
 - Laundry machinery.
 - Gasoline pumps.
 - Ice.
 - National paper box manufacturer.
 - Retail dry goods.
 - Department stores.
 - Specialty shop.
 - Mail order.
 - Men's clothing and furnishings.
 - Furniture.

THE ROMANS

had a phrase for it-

"CAVEAT EMPTOR," meaning "Let the buyer beware." This wasn't used as a bit of balm to ease the ancient conscience; nor, yet, was it placarded in the booths and stalls of the market-places. It was a piece of every-day knowledge, born of dear-bought experience.

A shopkeeper knew little about the source of his merchandise. The tunic he bought from a trader, who said it came from Byzantium. So he sold it as the latest Byzantine style. The trader told him the dye was EYE TRYING—it wouldn't fade. So he sold it as Tyrian dye. But the buyer knew the responsibility was his own. If he guessed wrongly, or his judgment was poor, it was his hard luck.

Today, fortunately, there are safer guides than the market-weights to "let your eyes be your market."

These guides are the newspaper advertisements. In this newspaper, they are a daily guide to the best values to be had by responsible firms. If the goods are not all that is claimed for them, their users would need to "beware." For no business can thrive on a one-time sale or on dissatisfied customers.

A signed advertisement is, in a way, like a preliminary sale. The advertiser has made a statement, and affixed his signature as a sign of good faith.

So, read the advertisements before you start on a buying trip. Make this a daily habit, and you will watch your share . . . in the growth of the nation, in the best of ways.
