# Harmony Is The Word In City Hall

## Drape Hanger Ray Truman At Work

The City Commission chambers are now the envy of every young homemaker in Sanford.

Drapes in the chambers were hung Tuesday of chocolate brown, beige and gold and costing \$300.

The colors were selected by City Manager W. E. Knowles who said they were picked on the advice of the interior decorators for a harmonizing color motif.

The drapes were hung by officials of

the American Rug Company of Orlando and are 10 feet, four inches long and three and a half feet wide.

To go along with this motif, new auditorium chairs will be delivered in about two weeks, according to Knowles. The chairs will be a cocoa brown color.

The city manager said the colors of the drapes were selected for "eye pleasing appeal" and none of the commissioners' wives or Mrs. Knowles had anything to do with the color scheme.

# Carla Threatens Western Cuba

MIAMI (UPI) — Tropical storm Carla threatens to bring hurricane winds to western Cuba tonight and squalls Thursday to the Florida keys, the Miami Weather Bureau said today.

The bureau said Carla "probably reached hurricane intensity during the night."

## West 'Saboteurs' Derail East Red Freight Train

BERLIN (UPI) — Western-directed "saboteurs" derailed an empty 120-car freight train near the Baltic coast of East Germany and tied up local rail traffic for days, according to a Communist newspaper reaching West Berlin today.

The Sept. 1 issue of the newspaper *Schweriner Volkszeitung* said the derailment, at Sternberg, was caused by a steel bar fastened to tracks over a small bridge outside the station.

The newspaper did not say when the derailment took place, except that it happened since East German troops closed the Berlin frontier Aug. 13.

It said the "bandits" acted on orders from Washington and Bonn as part of a plot to unleash "terror" in retaliation for closing of the Berlin border.

"Elements who plotted to begin open terror because of their overpowering hatred of the defeat sustained by the cold war warriors on Aug. 13 will be punished by the full power of our state," the newspaper said.

The Communists called on the West again today to negotiate directly with East Germany on the use of Allied air routes to West Berlin.

The Communist party newspaper *Neues Deutschland* published remarks by East German boss Walter Ulbricht at the Leipzig Fair in which he said flatly that a peace treaty between the Soviet Union and East Germany "will be signed."

## Testing Money Gels House Okay

WASHINGTON (UPI) — The House Appropriations Committee followed up President Kennedy's decision to resume nuclear testing today by voting him \$30 million to finance the work.

In a last-minute change the sum was earmarked for "weapons testing" as the committee approved a \$3,622,548,500 money bill carrying funds for the Atomic Energy Commission and the government's so-called "public works" functions.

# U.S. Back In Nuclear Arms Race

The United States moved today to get back into the nuclear arms race reopened by three Soviet nuclear test explosions.

Under orders from President Kennedy, American scientists and military men started preparing a series of underground tests that will allow development and perfection of new battle weapons

without exposing the world to additional radioactive fallout.

The move had been expected despite the fact it dulled the propaganda advantage the United States had been given by the

one-sided Russian resumption. The announcement did not affect the midnight Saturday deadline in an Anglo-American note calling on Russia to join in a moratorium on nuclear tests in

the atmosphere that cause radioactive fallout, although it appeared certain Russia would reject the proposal.

But as Kennedy put it in his announcement late Tuesday after

Russia had set off its third atmospheric test in five days: "... We must now take those steps which prudent men find essential."

Reaction from around the world fell about as anticipated.

The Russian news agency had not reported it up to mid-day.

The government of Japan, an ally of the United States but the only country to suffer an atomic bombing, expressed "regrets" and said it hoped the United States would "reconsider."

Japan already had strongly denounced the Soviet tests.

A British government spokesman said Britain had not yet decided whether to resume its tests.

France set off four nuclear explosions in the Sahara Desert during the fruitless Anglo-American-Russian test ban negotiations in Geneva, but there was no immediate indication whether this program now would be stepped up.

## Chuluota Drinking Water Probe Asked

The County Commission Tuesday ordered a full investigation by the county health department into drinking water for the Chuluota area after a letter was read to the board by the Greater Chuluota Community Club saying that the area was "sick and tired of being pushed aside on matters of health."

The letter, signed by C. R. Pentz, secretary of the organization, reported that the people of Chuluota are greatly concerned about the drinking water supplied "us through a central water system, by the Central Florida Utilities, Inc., of Orlando."

"This water has been questioned as to its purity and fitness for human consumption and household use. The water is foul tasting, foul smelling, contains black dirt.

"There have been several samples presented to the board of health but never a reply to some of these requests," the letter continued.

"We are finally determined to find out why our requests go unanswered. Is it our local government which is committed to a

reaction, or is it a do nothing government when it concerns the working family and the majority?"

Pentz reported also that a similar letter went to the governor's office.

After the letter was read, Commissioner James P. Avery said, "This is the first I've heard of it."

The board authorized Manhattan Val Robbins to make a complete investigation and report back to the commission as soon as possible.

## \$37,780 Budget OK'd By Oviedo Commission

The City Commission - Oviedo adopted a budget of \$37,780 for the fiscal year of 1961-62 Tuesday night at its monthly meeting in City Hall. This represents an increase of some \$800 over the 1960-61 budget, but includes a cash carryover of \$800 from the old budget. Estimated revenues were placed at \$37,774.

The largest item in the budget is the \$10,000 allotment for the Fire Department. This includes provision for the construction of a fire house to house three pieces of equipment. Also included is \$500 for the purchase of new hose.

The next largest item was for paving and repairing the city's streets. This totals \$350 and includes a provision for the paving of the street in front of the Negro elementary school. This job is estimated to cost \$1000.

The Commission voted to give Police Chief George A. Kelsey an annual salary increase of \$600 and budgeted \$2500 for the operation of the Police Department and the purchase of a new patrol car.

Actual authorization to purchase the car was deferred until more information can be obtained about the car itself.

Funds for the city commissioner, \$5 per meeting each, were increased to \$30 from \$200 last year to take care of possible called meeting other than the regular ones. The increase was voted because the Commission actually spent \$350 last year as a result of extra meetings.

After adoption of the budget the Commission set the tax rate at two mills, a reduction from last year.

The estimated revenues included \$6800 real and personal property taxes; \$1600 city li-

enses; \$3000 fines; \$150, building permits; \$2800 franchise taxes; \$600 utility taxes; \$9000 cigarette taxes, and \$2400, road and bridge.

Attending the meeting were Mayor M. Lee Gary and all Commissioners, J. V. Harris, who presided, Ben H. Jones, W. H. Martin, W. R. Clontz, Ben F. Ward Jr. and the City Clerk, Mrs. John Courier Jr. and Police Chief Kelsey.

## Nova Land Bill Passes Senate

WASHINGTON (UPI) — A bill authorizing the National Aeronautics and Space Administration (NASA) to spend \$60 million to buy land for the expansion of Cape Canaveral cleared the Senate unanimously Tuesday.

The bill, passed by voice vote with strong backing from the Senate Space Committee, authorizes NASA to buy an additional 80,000 acres of land around the present Cape facilities for the nation's first "moon port."

The space agency recently chose Cape Canaveral as the launching site for manned rockets which this country hopes to send to the moon and back by 1970.

The funds authorized in the Senate bill, which now goes to the House, are for land acquisition only and do not include funds for other facilities to be added later for the lunar probe program.

The bill authorizes spending the money. A separate appropriation bill later will provide the actual funds.

The money is in addition to the record \$1,744,300,000 Congress has already approved for the space agency budget this fiscal year.

The Senate Space Committee noted in pushing for the Tuesday bill that "postponement of this authorization until the regular fiscal year 1963 might seriously delay the success of the manned lunar program within the desired target dates."

## Bulletin

WASHINGTON (UPI) — The House Appropriations Committee today refused to approve funds to start pre-construction planning on the long-waited cross-Florida barge canal.

The committee voted only to provide \$50,000 for a comprehensive review to bring up to date the economic justification of the project. President Kennedy, in his revised budget, had requested \$100,000 to start initial work on the canal.

## Annual Kiwanis Fish Fry Saturday

"We have nearly completed our plans for this year's big annual Kiwanis Fish Fry and Auction, to be held at the State Farmer's Market on Hwy. 17-92 Saturday," Chairman Joel Field said today.

Sanford merchants have donated an unusual supply of new merchandise which will be sold to the highest bidder by Kiwanis members during the auction which begins at 7 p. m.

From 5 to 6 p. m. Kiwanians will be serving their "all you can eat" meal of fried fish, bush puppies and slaw, for the admission price of \$1 for adults and 50 cents for children.

All Kiwanians have tickets for sale and they will also be available at the market.

"Sanford residents are urged to support this event," Field said, "as proceeds are used for the benefit of underprivileged children, for provision of medical care or assistance with their education."

## Fern Park Gas Station Robbed

The Shamrock Service station in Fern Park was held up early this morning and approximately \$50 in cash seized, the Sheriff's office reported.

Deputies reported that about 12:35 a. m. a man in his twenties walked into the service station and told the attendant, Jesse Reeves to hand over all his money.

Reeves turned over a coin changer and money pouch, Deputies said.

Reeves told deputies that the man locked him in the storage room and got away.

## Just As Good

Customers evidently appreciate being able to shop on Friday nights in Sanford so much that they are not greatly influenced by the giving away of prizes.

Merchants report that business was "just as good or better" last Friday, when the promotional prizes, given away each Friday night since the kick-off of the new hours, were temporarily dropped.

Downtown merchants will continue to offer bargains in all lines of merchandise during the 5:30 to 9 p. m. hours and the Sanford Herald will carry two pages of special advertisements in the Thursday edition.

# Opening School Enrollment At 12,465

Classroom roll call at the opening of Seminole County Schools Tuesday showed an increase in enrollment in almost every school in the county.

"Peak enrollment will not be reached until the fifth month of school," a spokesman for the Seminole County School board office said.

Classroom roll call at the opening of school Tuesday showed an increase in enrollment in almost every school in the county and total enrollment at 12,465.

Bearing the heaviest burden of the increase in the student load is the Lyman High School which has 1,499 students this year, against 1,146 last year, or an increase of 353 new students for which to provide teachers,

books, desks, classrooms and other necessary facilities.

The second greatest load fell on the Altamonte Springs school which has had to go on double sessions with its increased enrollment of from 731 last year to 994 this year, 263 more elementary school age students.

Seminole High School is third in growth with last year's opening day enrollment of 870 swollen to 1,007 this year, for a total of 137 more boys and girls.

Sanford Junior High School is up from 935 to 1,034 and Grammar School registered 393, 73 more than last year's first day total of 320.

Southside has 596 in the first through the fourth grades and Westside has 163.

Pinecrest, which was greatly overcrowded last year, has shifted a few of their pupils to drop their total from 1,004 to 905 in grades one through six but Lake Mary went up from 445 to 559.

Longwood has 620 students, South Seminole Elementary has 602, Oviedo, 500, Geneva, has 63, Lake Monroe, 192 and Wilson School 75.

In the Negro schools there were 933 registered at Crooms, 280 at Hopper, 800 at Goldsboro, 483 at Midway, 312 at Rosenwald, 317 at Jackson Heights and 78 at Bookertown.

Adjustments in bus schedules and classroom sizes will continue to be made until the most equitable solutions are reached.

## Jury Takes 27 Minutes To Convict 2 Freedom Riders

JACKSON, Miss. (UPI) — Two juries Tuesday deliberated only 27 minutes before convicting two white "freedom riders," a young man and woman from New York City.

A spokesman for the Congress of Racial Equality said the cases would be appealed to the U. S. Supreme Court if necessary.

One jury deliberated 10 minutes before finding Peter J. Abernethy, 22, guilty of breach of the peace. He was one of the first riders convicted in police court last May for refusing to leave a segregated part of a bus terminal here.

Another jury was out 17 minutes before returning with a verdict against Elizabeth Adler, 22, of Brooklyn.

They were the first two white riders to appeal their convictions in Hinds County Court. They were the third and fourth persons to get jury trials as a part of their appeal procedure. The other two were Negroes, also convicted in a short time.

## Lee Named President Of ASCS Committee

Seminole County ASCS Committee met in the county office of the Courthouse on Tuesday to tabulate and certify results of a mail election of Aug. 21 through Aug. 31.

The following were declared elected and will assume office as of Oct. 1:

Chairman, Charles S. Lee, Oviedo; vice chairman, Fred A. Dyson, Sanford; regular member, W. G. Kilbes, Geneva; first alternate, Henry Schumacher Jr., Sanford; second alternate, R. U. Hutchison, Sanford.

These men represent all types of agricultural production prevalent in this county, and will be responsible for the administration of all government supported programs which are available or may be made so during their term of office.

## Emergency Negotiations Urged

BEGRAD, Yugoslavia (UPI) — The conference of 25 nations who call themselves non-aligned met today in Moscow and Washington today to discuss emergency negotiations between President Kennedy and Premier Nikita S. Khrushchev to prevent World War III.

The five-day conference ended with the issuance early this morning of two documents — one the appeal expressing "deep concern" over the world situation and the other detailing regional and global aims of the nations involved.

The conference assigned Ghana President Kwame Nkrumah to fly to Moscow and Indonesian President Sukarno and Mali President Modibo Keita to fly to Washington to exert personal pressure on the two world leaders.

The appeal to Kennedy and Khrushchev was a broadly worded document that steered away from specifics, urging "peaceful settlement through negotiations" to avert a conflict threatening "world devastation."

The companion document was

portrayed as a "charter" of nations committed neither to East nor West. But it appeared weighted against the West and, by implication, in favor of the Soviet Union.

The conference called for an immediate prohibition of nuclear tests by moratorium until a negotiated agreement is reached but did not criticize Russia for initiating a renewal of nuclear test explosions.

In a section calling for elimination of all foreign bases and installations, the charter specifically mentioned the U.S. naval bases at Guantanamo, Cuba, and the French air and naval base at Bizerte, Tunisia. But it did not refer to the hundreds of thousands of Soviet troops occupying Communist satellites in Eastern Europe.

The presidents and premiers who assembled here found themselves far apart on some issues and the final "charter" was one of compromise.

The faction led by President Tito of Yugoslavia, the conference host, was reported to have sought a declaration directly supporting the Soviet Union on the Berlin and German issues, but were persuaded to a more moderate stand by the faction led by Prime Minister Jawaharlal Nehru of India. The result was an appeal for a Berlin settlement without the use of force.

The "charter," to be submitted to the United Nations General Assembly this fall, also called for: —Complete disarmament, under international control, for the United Nations with a voice for the non-aligned nations. —Reorganization of the UN secretariat (the terms were not spelled out) and the expansion of the Security Council and Economic and Social Council memberships. —Admission of Red China to the United Nations. —Narrowing the gap between the "haves" and the "have nots" of the world and establishment of a UN capital development fund. —An end of colonialism and support for Algerian independence and its claim to the Sahara.

IN THE INTEREST of closer coordination between the civilian engineers and Navy Personnel, the following letter and a copy of the "The Bluejackets' Manual" were presented to Dean Raine, North American Representative, by Capt. J. M. Tully Jr., commander of Heavy Attack Wing One. This was done with the hope it would assist in a better understanding of the Navy's many colloquialisms, such as the difference between "port" and "starboard."

## General Motors Auto Strike Deadline Off Until Monday

DETROIT (UPI) — The United Auto Workers and General Motors, under pressure from President Kennedy to reach a peaceful settlement, early today announced "significant progress" in contract negotiations and postponed until next Monday a strike deadline.

Some 310,000 UAW employees at GM, their picket signs already painted, had been slated to walk out at more than 130 plants around the country at 11 a. m., EDT, today. But at 4:30 a. m., after a marathon bargaining session of more than seven hours, the union and company announced the strike deadline was being postponed until the current contract was being extended to 11 a. m. Monday.

Both UAW president Walter P. Reuther and GM vice president Louis G. Seaton made clear they expected the progress made during the night to wind up in a contract settlement and head off a strike.

"I feel very good, I'm delighted," a beaming Reuther told newsmen.

"We made very substantial progress on the economic issues," Reuther said. He indicated that only non-economic issues and local contract problems remain to be solved.

On the company side, Seaton, when asked if he believed a strike now had been averted, replied, "I'm an optimist." Both Reuther and Seaton refused to reveal details of the progress made on economic issues. When asked if the personal appeal from President Kennedy had helped postpone the strike, Reuther said: "Well obviously, like any other citizen, we are always impressed with the views of the President."

Reuther also announced that the International Union of Electrical Workers (IUE) had asked him to say it too was postponing its strike deadline until next Monday. The IUE represents about 22,000 GM workers.

Reuther said all GM workers had been notified to report for work on their regular shifts today.

Kennedy had sent Reuther and Seaton telegrams late Tuesday urging them to reach a peaceful settlement in the interest of the nation's economic health. The President and Labor Secretary Arthur J. Goldberg were understood to have been keeping in touch with negotiations through the night.

The faction led by President Tito of Yugoslavia, the conference host, was reported to have sought a declaration directly supporting the Soviet Union on the Berlin and German issues, but were persuaded to a more moderate stand by the faction led by Prime Minister Jawaharlal Nehru of India. The result was an appeal for a Berlin settlement without the use of force.

The "charter," to be submitted to the United Nations General Assembly this fall, also called for: —Complete disarmament, under international control, for the United Nations with a voice for the non-aligned nations. —Reorganization of the UN secretariat (the terms were not spelled out) and the expansion of the Security Council and Economic and Social Council memberships. —Admission of Red China to the United Nations. —Narrowing the gap between the "haves" and the "have nots" of the world and establishment of a UN capital development fund. —An end of colonialism and support for Algerian independence and its claim to the Sahara.

## Drug Manufacturers Ordered To Spell Out Package Contents

WASHINGTON (UPI) — Starting next March 5, U. S. drug manufacturers will be required to include in each package of drugs a statement on any harmful side effects.

The Food and Drug Administration (FDA) announced the new order Tuesday. The tightening of regulations previously had been opposed by the drug industry and the American Medical Association.

Under the new order, a brochure containing complete information on a drug's qualities will be included in every shipment to doctors, druggists and hospitals. This "package insert" also will include details on any of the drug's side effects that might injure users.

"When this requirement becomes fully effective, it will make the complete information readily available to practitioners at every drug store and hospital pharmacy throughout the country," FDA Commissioner George P. Larrick said.

In addition, he said, the new requirement will call for the drug industry to include full side-effect information on samples they commonly distribute directly to physicians.

Larrick said the drug chloromycetin figured in the situation leading up to Tuesday's announcement. He said chloromycetin was "an example" of drugs which have hazardous side effects which should be made fully known.

### Miss Americas Begin Competing In Pageant Today

ATLANTIC CITY, N. J. (UPI)—Fifty-five pretty girls hid their nerves with straight backs and bright smiles today and got down to competing in earnest for the Miss America crown and \$25,000 in scholarships.

Nineteen of them, in groups of three and four, will have their first crucial meeting with the 11 pageant judges this afternoon and evening in the first Convention Hall evening gown preliminaries. Eighteen will don bathing suits for the be-ribboned runway competition, longest associated with the 40-year-old Atlantic City beauty contest. The remaining 18, including Miss Hawaii who gamely plans to try her soprano solo despite severe laryngitis, compete in talent preliminaries.

The three groups, dubbed "Rose," "Carnation" and "Chrysanthemum," will alternate these roles Thursday and Friday until all have competed in three categories and had their white gloves-and-best-manners chats with the three women and five men who will award the crown on Saturday night.

Winners of talent and bathing suit competitions, but not the evening dress parades, will be announced each night. All announced preliminary winners are assured at least \$1,000 scholarship awards, as are six top judged performers in talent categories.

Tens of thousands of persons turned out Tuesday night to watch 54 of the young aspirants ride a four-mile illuminated Boardwalk parade between civic floats, high school bands and hundreds of almost-as-beautiful drum major-ettes.

The stricken Miss Hawaii, Joan Vins, 18, stayed in her hotel on a doctor's advice in hopes it would help her voice out of its sub-soprano register.

### Massive Jewel Robbery Reported

MIAMI (UPI)—A Negro maid told police Tuesday two bandits tied her up in a closet while they emptied a jewel chest in a plush residential area home of an estimated \$150,000 worth of gems.

Investigators, who made the unofficial estimate of the theft at the scene, said it was the biggest jewel robbery haul in Miami in about two years.

The robbery occurred at the apartment of A. L. Clickman in Bay Harbor Islands, an island town between Miami and Miami Beach.

## Price Of Progress

In spite of the lyrics to the old song that say "the best things in life are free," most of us have learned that most worthwhile things come at a price—and generally are worth what we pay for them in money, effort or sacrifice.

Our city's downtown merchants have found out that we can have a real "bargain" for shoppers on Friday nights. But we had to give up individual ideas and work together on a central theme. We had to sacrifice some price to give shoppers bargains, but at the same time show them the vast supply of quality goods at competitive prices that fill our stores. We also learn that, in addition to the sacrifice of personal opinions, a small profit on "leaders" and some additional work hours, there is the price of "solid, united effort." But best of all we have found the result is worth the price.

This is true of so many things in our lives—our COMMUNITY lives, too. Downtown merchants in a neighboring city to the south have found that to meet outlying shopping centers they must pay these prices—united effort, sacrifice of individual opinions, dollars for promotion, community interest. And in Sanford the need for this same type of effort is becoming more apparent to our Merchants Committee of the Chamber of Commerce. We shouldn't overlook the fact that outlying shopping centers invest loads of money to present attractive stores as well as to provide appealing services.

Thus, the always important downtown district must have merchants who are willing, yes even EAGER, to invest the outlay of capital to modernize their store fronts, their store interiors in order to hold the ground they have (or regain it, in some cases) in the economic life of the city. By doing this, they not only are protecting their businesses, but they are maintaining or increasing the value of their properties or investments. This is true of both the merchant who owns his store property or the owner who leases—and who could see not only the lease itself, but the land value, too, "go to pot" if the area loses its appeal for shoppers.

Sometimes a person can be so interested in turning a profit today that he is inclined to overlook the possible increased profit of tomorrow. And there are instances in today's outmoded downtown districts where all owners should be a part of a united effort of similarly situated investors. This may result in a lower immediate return but in a long term gain far exceeding that of the short haul. This requires real business acumen and far-sighted investment return, and the same sacrifice of individuality for the good of the group or of the community that characterizes our Friday night team-work.

When merchants, men and women, pay the price of progress through delayed profits, additional work, sacrifice of individual opinions for the benefits of a united front, actions taken to advance the community interests of the future instead of taking the selfish gain of today they are deserving of the highest esteem of their fellow townsmen and the wholehearted support of their businesses through patronage. And when these business people do not pay these prices of progress, there is a contention frequently expressed that they deserve the withdrawal of support by the community on which they have turned their backs.

Yes, there are many things that make up the price of progress, but they are well offset by the profits of progress that come in the same proportion that the price is paid.

Q—My wife and I, city dwellers in our 40s, are thinking about buying land in the country with a view to building a house in 10 years or so, possibly as a retirement home. Would this be a good long-term investment? How can we finance?—R. F.

Dear R. F.: Values have gone up and you may strike a piece of land that could triple in value in a decade. Remember, however, to take taxes into account. Keep abreast of news of the area which interests you, such as housing developments, all of which can affect values. Whether you can finance land, depends on the area. If you're able to finance, a down payment of 50 per cent is most likely. Before you start building, remember Mr. Blandings and his dream house. Costs have a way of soaring beyond estimates. A suggestion: Why not buy a house and rent it out until you are ready to occupy it?

From Rome

## Henry McLemore

VERONA, Italy—American children are the luckiest children in the world.

For more reasons than one. Theirs is not only the most wonderful country in the world in which to live, but it has a very short history.

There's nothing to learn about America until the year 1492. Before that it's a blank, without a single name, date, place, battle, or anything else to remember.

That leaves a schoolboy less than 500 years to concentrate on, and there really wasn't too much happening during the first 150 of those.

Any time a schoolboy despairs of getting American history into his head, he should give a thought—and a sigh—for his European identical number. He, the American youngster, has a breeze. For every fact he has to remember, for every year he has to keep straight in his mind, the European schoolboy has a thousand.

Take an Italian youngster—and I'd rather take one than be one, with all the stuff he has to store in his head—when he tackles the history of his country.

The city I'm in now, Verona, has been alive and kicking since the fifth century B.C., and has seen more history, and been a part of more history, than our whole land. By the time a Veronese kid mastered the history of his own town, he'd have every right to say he was much too worn out, and crammed with facts, to try to learn about Rome (even older), Naples, Venice, Milan, Sicily, Florence, and all the thousands of others.

I've been reading Veronese history ever since I got into town, and already I am lost in a quagmire of information and have little hope of ever getting it straight in my mind.

I no sooner get the Etruscans and Cenomani Gauls all lined up in my head than they leave town or vanish, and the Romans come charging in. Then Rome falls apart and here comes Theodoric with the Ostrogoths, and after him Alboin with the Lombards.

I am no more than feeling at home with Theodoric and Alboin, and getting the hang of their first names, when Pepin, Charlemagne's boy, takes a liking to the place and decides to settle in Verona.

Pepin no more than has the

curtains up in his house when he leaves and the Hungarians arrive, when they take to their heels, Verona gets hooked up with the Holy Roman Empire as part of the Duchy of Bavaria.

This is just the beginning. Two hundred years before America was discovered, Verona starts all over again as a free city, but this doesn't last long. Then the big families take charge and there is a succession of Della Scalas, Viscontis, and heaven knows who else.

That's as far as I've gone. And probably as far as I ever will go.

I have to review these facts each morning to get them fresh in my mind before I start sightseeing. And even with a morning review, I look at half the beauties and wonders unsure of when they were built, who built them, who lived in them, and all the rest.

If I had been born an Italian, I would still be in the fifth grade, flunked 90 or 40 straight years by my history teacher.

Thank goodness that Columbus didn't get it into his head to make an earlier start toward our land.

## Dr. Crane's

### Worry Clinic

CASE J-487: George G., aged 45, is a member of the Nebraska state legislature.

"Dr. Crane," he asked me recently, "we are constantly being urged to appropriate more money for new buildings at our various state universities and teacher's colleges.

"I am very much in favor of education, and as much FREE schooling as we can offer, but we can't go on forever increasing our tax rates, even for schools and public welfare.

"So what is the solution?" HORSE SENSE IN COLLEGE. More "horse sense" on the part of our colleges!

Despite the widespread clamor that we shall have twice as many college students in 1975 as today, and many educators are sending up "trial balloons" to get legislators favorably inclined toward bigger appropriations, let's face facts.

You legislators (and college Boards of Trustees) should just demand more American business efficiency on the part of the colleges before you grant them any more funds.

Our colleges can handle DOUBLE their present enrollments and WITHOUT AN EXTRA CENT OF APPROPRIATIONS, either for new classrooms or for any new teachers!

Read that sentence again for it is gospel truth!

All we need to do is schedule a 2nd educational "shift," just as efficient factories run double (and often triple) shifts of workers.

Our present classrooms, microscopes and other lab equipment would handle not only DOUBLE our present school enrollment, but if need be, we could run a 3rd shift and handle TRIPLE the number.

College students are adults in physical and mental age, so they don't need to be limited to grade school hours of 8 a.m. to 3 p.m.

Let the 2nd shift start at 3 or 4 p.m., and run through 9 or 10 p.m.

### Political Notebook

WASHINGTON (NEA) — From the American point of view, the speeches, votes and resolutions of the two so-called neutral or "nonaligned" countries in the Belgrade, Yugoslavia, conference can be viewed as reflections on the amounts of aid each new nation has received from the United States and from Soviet Russia.

A tabulation of all U. S. foreign aid given to 23 of these underdeveloped nations from 1946 through 1960 reveals a total of \$2.2 billion. Of this, \$7.2 billion has been economic aid. One-eighth of the total, or nearly \$900 million, has been military aid given to seven of these countries.

Total U. S. aid given to 17 of these countries from 1953 through 1960, latest figures available, is estimated by the U. S. State Department at \$3.6 billion.

There is no precise breakdown on kinds of aid. But for all their foreign aid programs, the average has been about one-fourth military, three-fourths economic.

The two countries that have received the most U. S. aid are In-

dia and Yugoslavia. India has received over \$5 billion, compared with \$446 million from U.S.S.R. Yugoslavia has received \$2.2 billion U. S. aid, \$111 million from U.S.S.R. Yugoslavia also got the most U. S. military aid — \$694 million.

Other countries that have received more American aid than Russia are Cambodia, Ceylon, Ethiopia and Tunisia. Countries that have received no Russian aid at all are the Congo, Lebanon, Morocco, Saudi Arabi, Somalia, and Sudan.

Countries that have received more Russian aid than American are Afghanistan, Cuba, Ghana, Guinea, Iraq, Jordan, and the United Arab Republic. Next to India, UAR has received the most Russian aid, \$788 million compared to \$438 million from the United States.

Two countries have received about equal U. S. and U.S.S.R. aid—Burma at over \$90 million, Nepal at over \$40 million.

The rebel government of Algeria has received no open aid from either America or Russia. But Communist arms have reportedly been smuggled to the rebels. Some U. S. aid to France went to the colonial government of Algeria for its defense.

The United States has consistently maintained it is in no race with the Soviet Union to see which side can give away the most aid. But Russian aid has been given on a highly selective basis where it would do the Communist cause the most good and the free world most harm.

There has never been any American contention that foreign aid has been given with expectations of unquestioning support for U. S. foreign policies. But it does sit hard with American congressmen and taxpayers to have a leader like Nehru—whose country is receiving most substantial aid for his five-year plans from a consortium of free world nations—support Communist causes and oppose the interests of the Western powers over questions like the Berlin crisis.

One of the most significant facts about the Belgrade conference of these countries is that there was no item on its agenda for debate of "Communism." It is swept under the table although four of the conference leaders—Presidents Tito of Yugoslavia, Sukarno of Indonesia, Nasser of UAR and Prime Minister Nehru—have had plenty of trouble from both the international and domestic varieties of communism.

The Belgrade conference did have on its agenda questions like "The Struggle Against Imperialism and Colonialism." That gave the new leaders plenty of opportunity to beat the Western powers over the head, oratorically, and glorify their own roles.

This is why the Russians are again making a big pitch to bring up in the forthcoming UN General Assembly their resolution for granting immediate independence to all colonial peoples.

The Communists apparently hoped this will bring them support from the meeting at Belgrade.

## Compact Shopping Center Opens Here

A compact shopping center, handy and convenient for residents held their grand opening Friday and Saturday on West Country Club Road.

Included are a 7-11 Drive-up store and a Shamrock Gas and Oil Station, both Florida "born and raised" businesses, who pioneered in their fields, only a few years ago.

In a remarkably short time, both 7-11 and Shamrock have seen a rapid rise in business and have expanded in every direction all over Florida, though they are not affiliated in any way.

The convenient location of this new quick trip shopping area provides seven day a week service for the neighborhood and surrounding territory.

Both stores employ local people in their business as well as saving time, gas and mileage for area residents who need gas, oil, water, air and other things for cars, and a full line of foods, including fresh, frozen and dairy products as well as staple goods and numerous household items.

In their grand opening giveaway during the two days, it was reported that the Shamrock Oil Station gave away 70 cases of soft drinks.

## Tommy Manville III In Hospital

NEW YORK (UPI) — Much-married asbestos heir Tommy Manville is in fair condition at Doctors Hospital, a spokesman said today.

Manville, 66, was hospitalized six days ago, his 11th wife announced Monday. One of the attending physicians reported Manville is suffering from a blood infection. Mrs. Manville, a 21-year old ex-waitress, said her husband had been ill for the past eight weeks.

## Pigott Impressed With Scrimmage

The Chief of the Seminoles football tribe, Jim Pigott, Tuesday took a look at the results of the first scrimmage last Friday and concluded that the situation is "heap much pretty good."

Judging from the smoke signals coming from the Seminole camp the squad is all fired up with great spirit and is willing and able to open the season with a good account of itself. "We had a real fine practice Friday," said Pigott, "working 30 minutes against the Junior Varsity on offense and defense." He said that the rough spots were being cleaned up fast, with play execution the best yet and blocking good and sharp.

## Official Urges Federal Control For Fight Game

HERSHEY, Pa. (UPI)—Harry Markson, general manager of Madison Square Garden Boxing, Inc., asked the National Boxing Association today to help push through the Kefauver bill which would provide the professional sport with a federal commissioner.

Speaking at the NBA's 20th convention in a local hotel, Markson emphasized, "I hope most earnestly that the Kefauver measure will pass Congress so that boxing can be re-established as a sport accepted everywhere as honest and wholesome."

He said it was important that boxing be conducted properly in the United States because the sport is universal in its appeal and the rest of the world, "has its eyes on boxing in the United States — still the No. 1 boxing nation."

## Golf Association Free Banquet, Play Set Sept. 29

The Sanford Men's Golf Assn. announces that there will be a free banquet for all persons who have participated in three or more intercity matches.

This will be "stag," and will be held at the Dubsdread Country Club Sept. 29 at 7:30 p. m.

There will be a golf day along with the banquet at Dubsdread and no green fees will be charged for persons participating.

All persons wishing to play golf and attend the banquet are asked to contact Bill Foulk before Sept. 17.

## Businessmen's League Elects

Dwight Blackwelder was elected President of the City Businessmen's League at an organizational meeting at Jet Lanes, recently.

The league will start its season on Sept. 12 and President Blackwelder urged all of the current members of the league to invite all their friends to join them in bowling this fall and also reminded the keepers to contact some of the teams which bowled in the fall season last year to once again rejoin the Businessmen's League.

Individual applications will be accepted at Jet Lanes during which time these bowlers will be assigned to new teams being treated.

Other officers elected were Sam Lindstrom, vice president; and Al Moretz, secretary-treasurer.

"The backs executed some fine power running and nifty backfield maneuvering and there were few muffed assignments," the coach added.

The quarterback situation is coming along with Jimmy Terwilliger and Tommy Hinson alternating at calling signals. The Seminoles have two good passers in Bubba Davis and Butch Riser.

The line, which was something of a question mark with only two regulars returning from last year, is rounding into shape. Pigott and Jim McCoy, the line coach, have moved Russ Pierson back to guard position and put Bob Lewis in as offensive tackle to strengthen the front wall.

The coaching staff is pretty well decided on the starting lineup, Pigott indicated. "A football team is something like whole milk," coach said. "The cream rises to the top, some of it quicker than other, but eventually it all gets there. The talent on the squad is making itself known and we are pleased with the way it is turning up."

"The boys are eager and hard working and this attitude is paying off for the team," Pigott concluded.

Seven more practice days remain before the opener with Titusville here and from all indications the Seminoles, if they can hold their present form and steer clear of practice mishaps, will be in good shape mentally and physically.

## Douglas, Holmberg Favored In Play

FOREST HILLS, N.Y. (UPI)—Jackie Douglas and Ron Holmberg, the last two seeded Americans in the tournament, were favored to knock two more Yanks out of the U.S. tennis championships today and land in the quarterfinals.

The seven-seeded Douglas, former Stanford quarterback from Santa Monica, Calif., was matched against Crawford H. Henry of Atlanta and Brooklyn's eighth-seeded Holmberg drew tough Jack Frost of Monterey, Calif.

Henry rolled into the fourth round Tuesday by ousting Canada's Bob Bedard, 5-7, 11-3, 6-1, 6-4, 6-2, and became one of nine Americans to reach the last 16.

## Breaks Rib

PITTSBURGH (UPI) — Left-handed pitcher Vinegar Bend Mizell will be lost to the Pittsburgh Pirates for at least two weeks with a broken rib. Mizell was hit with a liner while pitching batting practice in St. Louis last week.

**LITTLE GIANT** . . . . . By Alan Mauer

HE WAS ONE OF THE STANDOUT PERFORMERS IN THE WINNING SURGE WHICH PUT THE GIANTS IN PENNANT CONTENTION IN AUGUST.

**JUAN MARIChAL**, 22-year-old San Francisco right-hander, is proving to be one of the years' top sophomores—could easily be Giants' wisest winner, too.

MAD ONE STRIKE OF 21 CONSECUTIVE SCORELESS INNINGS (WITH 21 STRIKEOUTS) AND A 7-GAME WIN STREAK.

**Baltimore 'Blitz' Leaves Tigers Dead**

The "Baltimore Blitz" left the Detroit Tigers stone cold dead in the American League pennant race today.

It's an old-fashioned "yankee rout" and the only question remaining is whether Ralph Houk's New Yorkers will meet the Cincinnati Reds or the Los Angeles Dodgers in the World Series.

A mighty important question it is, too, because a New York-Los Angeles World Series would undoubtedly set a new record in receipts whereas a New York-Cincinnati series in the 33,000-seat Crosley Field ballpark would provide the Yankee millionaires with only a routine week's income.

The Yankees would like an early decision—winter speaking engagements, you know—but they're unlikely to get it because neither the Reds nor the Dodgers show any signs of faltering in the stretch. The Reds beat the St. Louis Cardinals, 5-2, Tuesday night but the Dodgers stayed right with them, two games off the pace, with a 4-2 victory over the San Francisco Giants.

But, first, the obituary from Baltimore: Hoyt Wilhelm "sprung the trap" in the suspended Labor Day

nightcap by retiring the final three Tigers and preserving the Orioles' 4-1 victory. Then Chuck Estrada fired a three-hitter and won, 1-0, on a double by Brooks Robinson and a single by Jackie Brandt in the sixth inning of the regularly scheduled game to stretch the Tigers' losing streak to six games and drop them 7½ games out of first place.

The Yankees could clinch the pennant by winning 17 of their remaining 24 games even if the Tigers won all their remaining 23 games.

The Yankees increased their home record to 25-15 with a 6-1 victory over the Washington Senators, fashioned on the four-hit pitching of Jim Coates and aided by Mickey Mantle's 31st homer. Mantle, now one game ahead of the record homer pace set by Babe Ruth in 1927, also singled to start a four-run seventh-inning rally that clinched the victory. Elston Howard also homered for the Yankees. Roger Maris went hitless and now is 0-for-12 in his last three games.

Bob Purkey pitched a six-hitter to win his 15th game behind an eight-hit Cincinnati attack that included two hits each by Don Blasingame and Vada Pinson. Purkey struck out seven and had a three-hit shutout until the ninth in beating the Cardinals for the third time this season.

Duke Snider hit a three-run homer following Orlando Cepeda's nut of a fly with two out for the big blow of the Dodger attack behind the five-hit pitching of Stan Williams, who won his 12th game. It was the Dodgers' third straight victory over the Giants.

Lee Thomas tied a major league record of nine hits in a doubleheader although the Los Angeles Angels bowed to the Kansas City A's, 7-3 and 12-12, the Cleveland Indians beat the Boston Red Sox, 3-5, and the Chicago White Sox and Minnesota Twins played a 3-3 nine-inning tie in a game halted by fog in other AL games.

The Milwaukee Braves shaded the Philadelphia Phillies, 5-4, and the Pittsburgh Pirates downed the Chicago Cubs, 8-3, in other NL action.

Thomas went 5-for-5 in the first game and had three homers and a single in the second game for the Angels—tying the record of nine hits in a doubleheader—but the A's won the first game behind Jerry Walker's 16-hit pitching and the nightcap with a 14-hit attack that included a homer by Bobby Del Greco.

Johnny Romano and Chuck Essegian homered for the Indians in their victory over the Red Sox while Al Smith's eighth-inning homer and 40 minutes of heavy fog that followed in Minneapolis-St. Paul caused the Twins-White Sox game to be called after nine innings.

Lew Burdette, who pitched 5 2/3 innings of shutout relief, won his 16th game for the Braves when Joe Torre's 14th-inning sacrifice fly delivered Frank Bolling from third base. Frank Sullivan, who matched Burdette pitch-for-pitch from the ninth inning on, suffered his 15th loss.

Dick Stuart's two-run homer and Bob Skinner's two-run triple paced the Pirates' Tom Sturdivant to his fifth win. Roberto Clemente had three hits for the Pirates and Andre Rodgers had two for the Cubs.

**GOOD SCOUTS ALL** are Chief Bill Miller, his wife, Toni and their three children, Andrea, Billy and Nancy.

Everyone except little Nancy, who is not quite ready yet, are active and advanced members of some Scout group and their services and activities are going to be missed in Sanford when the whole family leaves for Navy duty at Whidby Island, Washington.

The Millers have only been in Sanford a year, but their influence and experience has been felt in many ways here.

Mrs. Miller has served Seminole County as District Chairman of Neighborhood II and was a troop consultant also.

She began in San Diego as a leader of an intermediate group and later when her husband was transferred, started the lone scout troop at Whidby Island, before a scout council was formed there. When the Council was finally formed she served as assistant neighborhood chairman.

In Kingville, Texas, where the Millers went next, she was a troop consultant and day camp director, as well as a delegate to the Purple Sage Council of Region Nine at Corpus Christi.

Chief Bill Miller started working with Scouts when son Billy got old enough to go into Cub Scouts and served for three years as Cubmaster of a pack in San Diego.

When Billy got big enough to go into Scouts, Mr. Miller moved up too and served with the Scouts in several capacities. He was a Scout master, institutional representative and neighborhood commissioner before he came to Sanford last September and took over the leadership of Troop 501, which is sponsored by the Holy Cross Episcopal Church and has a membership of 42 boys.

"It is a wonderful feeling to work with boys and see them grow and become solid citizens," he says.

And Scoutmaster Miller suits words with actions for he spends all of his spare time in scouting activities and working with boys. Camping trips, badge work, field trips, meetings and other training work take up his evenings and weekends.

Scouting is a way of life for the Millers and son Billy 12, who has 16 badges recently earned his Star Scout rating. Billy will be in the eighth grade this year.

Andrea, 13, who will be a high school sophomore this year, proudly wears the Curved Bar of the Girl Scouts and has her Five Point pin for Senior Scouts.

Second-grader Nancy plans to join up, too and become a Brownie Scout when the family gets to their new duty station and then the whole family will be represented in the world-wide organization of Scouts.

"Scouting is the finest youth organization in the world!" says Scoutmaster Bill Miller . . . and his whole family agrees with him 100 percent!

Dear Abby:

By Abigail Van Buren

DEAR ABBY: When you read this you will know why you are the only person I can turn to for advice...

warm house. Besides, it's best to sleep behind locked doors.

DEAR ABBY: I am 19 and am engaged to a man who is 26. He says he loves me and wants to marry me soon...

DEAR ABBY: ID: You have good reason to be "afraid." An emotionally normal person does not hit someone he "loves."

CONFIDENTIAL TO "GOOD OLD MOM": When you've finished telling her about the birds and the bees...

DEAR CANT: More often than not, an adopted child will resemble one of his adoptive parents...

DEAR ABBY: What do you think of teenaged girls sleeping on the porch on a hot night if they sleep in sportswear...

DEAR C. AND K.: There is no point in sleeping in warm sportswear on a cool porch...

We The Women:

# Get In Habit

All signs point to a busy night for local merchants as the idea of shopping on Friday night begins to take hold in Sanford and the habit of shopping during the evening hours brings more and more people into town.

Outlying area citizens particularly find the new hours appealing and the bargain specials worth driving in to buy.

Today's Herald features some very good buys in all lines of merchandise, with specialty items to please every member of the family.

Some of the good values with special Friday night prices include furniture buys, decorative items, clothing of all kinds for all the family, gift items, toilet articles and household needs.

"LET ME OUT OF HERE!" cries this Sanford resident of the City Zoo. "I want to get in on some of those good bargains in the Friday night specials in downtown Sanford!" (Herald Photo)

## U. S. Steps Up Sampling Of Radioactive Fallout

WASHINGTON (UPI) — The U. S. Public Health Service stepped up its samplings of radioactive fallout on this country today following Russia's fourth nuclear test blast within a week.

The service said its 60 milk sampling stations had been alerted to report any change in the iodine-131 content of milk, and the 90 water sampling stations had been ordered to make weekly rather than monthly radiation analyses.

The 45 radiation stations which sample air, rain and snow have been put on around-the-clock monitoring duty. They had been instructed to report within three hours any sample that shows a 10-fold increase above average radiation levels.

Welfare Secretary Abraham A. Ribicoff announced Wednesday that a health service reading at Anchorage, Alaska, on Tuesday showed the radioactive fallout was 35 times greater than the average daily level for August.

Dr. Luther L. Terry, U. S. surgeon general, said there was no immediate health danger to the U. S. population, but the health service was tightening its radiation surveillance to get a complete study of the effects of the Soviet tests.

Ribicoff's announcement came shortly before the Atomic Energy Commission (AEC) disclosed that the fourth Soviet shot in the current series had occurred in the air east of Stalingrad early Wednesday morning. It said the yield was "in the low to intermediate range."

The continuing low-yield tests increase speculation the Russians are trying to develop triggers for the super-bomb Soviet Premier Nikita Khrushchev has threatened to build. Khrushchev has mentioned a bomb with the equivalent power of 100 million tons of TNT.

## Four Americans Held By Reds

BERLIN (UPI) — The Communists held four Americans for taking photographs in East Berlin, it was disclosed today.

West Berlin police also said that the Communists hurried tear gas grenades and used water hoses to break up crowds of West Berliners in new incidents along the barricaded border of this divided city.

The West Berlin officers announced that Howard Emery, 24, and Jim Phang, 23, both medical students from Los Angeles, were held for about 10 hours Wednesday by East Berlin police for taking photographs.

## Bear Lake School Bid Opening Slated Sept. 22

The County School Board will open bids on a new Bear Lake Elementary School and a new junior high school near Casselberry Sept. 22, Supt. of Schools R. T. Milwee said today.

Construction funds for the two new schools will come from the sale of State Board of Education Bonds.

The Bear Lake School will have 20 classrooms while the new junior

## Governor Tells County: Boost Civil Defense

The County Commission today received an executive order from Gov. Farris Bryant ordering the county to speed up their plans for Civil Defense.

County Commission Chairman J. C. Hutchison said this morning that he will read the order to the board Friday morning at the budget hearing.

Hutchison was evasive on whether he would ask the board to amend the tentative budget to give Civil Defense some \$25,000 asked for by Director A. B. Peterson for a countywide warning system.

The present Civil Defense budget is \$4,000.

Bryant issued the order that "county and cities" make appropriate plans for keeping government functions in operation "in the event of threatened or actual enemy attack."

It directs the county to make plans for protection of public property and records, protection of citizens and a public information program.

## 148,000 Citizen Soldiers Alerted

WASHINGTON (UPI) — Another 148,000 citizen soldiers were alerted today for possible service in the Berlin crisis.

The new Army readiness program involved four National Guard divisions and 146 smaller Guard and reserve units.

Pending a decision on whether they will be called to active duty, they will receive additional training and weapons and will be brought to full strength by attaching individual reservists to them.

The program was disclosed by the Army late Wednesday, 10 days after 76,500 other reservists were ordered to report for active duty beginning Oct. 1 in an expansion of the regular armed forces.

## Medical Officer Assumes Duties

Capt. William Henderson, new senior medical officer at the Sanford NAS Dispensary took over his new duties today as he informally relieved Capt. Robert Stutsman who has been detached for duty at New Iberia, La.

Capt. Henderson reports here from Portsmouth Naval Hospital, Portsmouth, Va.

By LARRY VERMEL  
When the County Commission meets Friday morning to continue its budget hearing it will just be a rubber stamp affair. Commissioners met Tuesday night in an informal "closed" session and agreed to keep the budget intact. No changes in Civil Defense... no head rolling. It probably will be 3-1 to approve the budget with Ted Williams voting "No."

What ever happened to that state welfare investigation that was promised?

How about the County Commission looking into the aid to the indigent program in this county... Boy, are the taxpayers getting hooked!

I bet it's gonna be rough to replace Mack Cleveland Jr. as county attorney.

Cecile Heard has the inside track for the postmaster's job in Sanford.

The County Commission might be interested to know that next week at the Movieland Drive-in "Five Guns To Tombstone" will play.

This will give you an idea on just what the city means when it says no dumping at the Sanitary Landfill area. The first case cost a resident \$25 or 20 days.

The City sits on the board of equalization at 8 p.m. today while the county is expected to wrap-up its hearings at 10:30 a.m. Friday.

Now we hear that there were two wrist watches purchased from Civil Defense surplus supplies. Cost of one \$1, the other \$5.

Another item on the bill shows eight compasses at a cost of \$1 apiece. We hear that even the Civil Defense director doesn't even know who has the compasses... Whoever has them... we hope they find their way around the county now.

I know one way to soothe the jangled nerves of the County Commission. Music piped into the chambers. They could play records like "I Didn't Know What Time It Was" or "Lay That Pistol Down, Ma."

More Than 11,000 Heralds Delivered Today!

## news... BRIEFS

**Retirement Bill**  
WASHINGTON (UPI) — The House has passed by voice vote a bill that would give every railroad worker the option of retiring at age 62 on a smaller pension than he would get at 65.

**"Bargain" Offer**  
LONDON (UPI) — Three British soldiers, all aged 20, today advertised a "bargain" special to women shoppers—themselves in marriage. The price: \$420 to \$700. No age limit for the women was specified. The three are "unhappy" with army life.

**Floridian Killed**  
FORT LAUDERDALE (UPI) — A speeding convertible crashed head-on into a sewage tank truck Wednesday, killing Edward Lange, 20, Fort Lauderdale, the car's driver. The Negro truck driver, Andrew B. Ford, 32, and a Negro passenger in his truck were uninjured.

**Slug Crackdown**  
WASHINGTON (UPI) — The use of slugs in telephones, parking meters, fare boxes or vending machines would be a federal crime under a bill passed Wednesday by the House. The measure, which went to the Senate, carries penalties ranging up to a \$1,000 fine and a year in jail.

**Singer Sues Store**  
LOS ANGELES (UPI) — Singer Gisel Mackenzie is suing a department store for \$30,153 because, she claims, she was injured there and had to pay heavy medical expenses. Miss Mackenzie said in the suit filed Wednesday that she slipped and fell over a wire trailing from a floral display.

**Elderly Pair Flee**  
BERLIN (UPI) — An elderly couple escaped to West Berlin early today by sliding down a wash line from their fourth floor flat. A report on their flight was given by the West Berlin emergency squad which took them to a hospital for treatment of cuts and bruises. Their names were withheld.

**Riders Convicted**  
JACKSON, Miss. (UPI) — Two more "freedom riders" were convicted, fined \$200 and sentenced to four months in jail Wednesday on breach of peace charges. Zev Aelony, 21, of Palo Alto, Calif., a student at the University of Minnesota, and Alexander M. Anderson, 33, Nashville, Tenn., posted \$1,300 appeal bonds.

**Pool Space Effort**  
FARNBOROUGH, Eng. (UPI) — West Germany, Britain and France will team up to launch a European satellite, it was announced at the British air show here Wednesday. Germany will supply the third stage of the missile. Britain's Blue Streak rocket will be the first stage and France's Veronique the second.

**Restrictions Hit**  
WASHINGTON (UPI) — Sen. George Smathers (D-Fla.) joined in the argument Wednesday for removal of import restrictions on residual fuel oil. Smathers argued together with colleagues from New England and Hawaii that federal restrictions imposed in 1959 have increased the item's cost needlessly.

**Actor Near Death**  
SANTA MONICA, Calif. (UPI) — Character actor Leo Carrillo, whose best-known role recently was Pancho in the "Cisco Kid" TV series, is very close to death, according to Dr. Adolph Kosky. Carrillo, who was 81 on Aug. 6, underwent major abdominal surgery in 1958. The physician said Carrillo is a victim of cancer of the abdomen and also suffers from a heart condition.

**Dedication Set**  
Casselberry residents have received invitations to attend dedication ceremonies for their brand new post office. The celebration has been set at 2 p.m., Sept. 23, with C. B. Gladden, assistant postal department regional director, as the principal speaker.

## Florida Coast Gets Alert As Carla Roars Into Gulf

MIAMI (UPI) — Hurricane Carla swung 100-mile-an-hour winds into the southeastern Gulf of Mexico today on a more northerly course. The Gulf coast of Southern Florida was alerted against heavy normal but with no serious flooding.

The location was near latitude 21.6 north, longitude 86.2 west, or about 90 miles due west of Cape San Antonio, the westernmost tip of Cuba.

The hurricane was moving on a course between north-northwest and north at about 10 miles per hour. This path represented a slight shift to the north from Wednesday's northwest course.

Carla increased in power and size during the night. Maximum winds reached 100 miles per hour in squalls around the center, the Weather Bureau said.

Gales extended outward 275 miles to the north and east of the center and 125 miles to the south.

"Carla will continue its steady, gradual intensification and the frequency and intensity of hurricane squalls around the center will increase," the advisory said. "No marked change in direction or rate of movement is expected except minor temporary changes."

"Interests along the Gulf Coast and especially the northeastern Gulf should keep posted on the latest advisories."

DESIGN OF THE NEW SANFORD WATERFRONT Marina has been completed by Burton and Chapman Architects and working plans are being drawn. This sketch of the clubhouse and utility buildings and floating docks shows the finished design of the new structures which will replace the old bandshell. Closing off of the harbor area by extension of the breakwater will afford protection for dock space for 84 boats and the boat launching ramp.

## "Breakthrough" In Cross-Florida Barge Canal Seen In House Action

Approval by the House Appropriations Committee of the \$50,000 fund for an economic evaluation of the Cross-Florida Barge Canal is a "breakthrough" for the state in getting House action on the project, John Krider, manager of the Seminole Chamber of Commerce, said today.

"This is the first time since the administration of Franklin D. Roosevelt that any money has been approved by a House group for the canal," Krider added.

At Tallahassee, State Conservation Director Randolph Hodges said he was "real happy" about the Committee action to bring the evaluation of the project up to date.

Meanwhile, Krider announced that a meeting would be held in Orlando Monday at 11 a.m. at the Angelika Hotel to discuss recent developments concerning the construction of a proposed canal from Sanford to the Indian River.

The meeting was called by the St. Johns-Indian River Improvement Assn. and will include among those attending W. A. McCree, recently elected chairman of the Canal Authority of Florida; representatives of the U. S. Corps of Engineers from the Jacksonville office and state officials, Krider said.

"The purpose of the meeting is to discuss recent developments in the East Coast area that will affect future construction of the connecting canal from the St. Johns River to the Indian River," Krider explained.

Discussing the House action Hodges said, however, that the \$50,000 wasn't nearly enough to begin planning the \$168 million project, and that he hoped the Senate Appropriations Committee, which still must set on the bill, would restore the full \$195,000 in planning funds requested.

## "Stupid To Start War," Nehru Tells Khrushchev

MOSCOW (UPI) — Prime Minister Jawaharlal Nehru of India told Soviet Premier Nikita S. Khrushchev Wednesday night it would be "stupid" to start a war.

Khrushchev told Nehru that if the world situation depended only on the Soviet Union and its allies "there would be no threat of war."

Both men spoke at a state banquet in Nehru's honor but neither publicly mentioned that the United States has detected four Soviet nuclear explosions since last Friday.

The press and radio of the whole Communist world has been devoted in recent days to depicting the Russian decision as a necessary consequence of the strong Western reaction to Soviet moves on Berlin.

The Russian nuclear tests are portrayed as a deterrent to World War III while the subsequent U. S. decision to resume underground and laboratory nuclear tests is pictured as proof of Western belligerence.

Nehru arrived Wednesday from the Belgrade Conference of 25 nations which call themselves non-aligned.

He and President Kwame Nkrumah of Ghana, who flew here separately, handled Khrushchev a letter containing a peace plea from the conference.

During the day Nehru and Khrushchev had what Tass news agency called a "frank and friendly" discussion, dealing in part with the "present international situation."

## Lake Mary C Of C Resumes Meetings

Advance notices urging all members of the Lake Mary Chamber of Commerce to "come and bring a friend" were mailed earlier this week by Mrs. Al Case, secretary of the organization.

The meeting, the first of the new season, will be held at 8 p.m. today in the Chamber Hall.

## New Deadly ICBM To Be Announced

CAPE CANAVERAL (UPI) — The United States will announce within a few days it has a silvery projectile capable of turning the world into a radioactive junkpile in 30 minutes' notice.

America's leaders will not use those exact words. They will simply report the Air Force Titan intercontinental ballistic missile has become operational as a military weapon.

## Brokers To Visit

A group of 50 stock brokers who deal in electronics issues will tour the Dynatronics plant Friday as guests of Hugh Ashcraft, a director of Dynatronics and vice president of E. F. Dickson Co., one of the leading brokers in the electronics stock field.
