## CALIFORNIA OIL WORKERS DECLARE SYMPATHY STRIKE EIGHT THOUSAND MEN OUT

### Kern County Strikers Reinforced by Thousands

### ROADS BLOCKED

### AND AROUND STRIKERS SWORN IN AS SPECIAL DEPUTY SHERIFFS.

LOS ANGELES, Cal., Sept. 22.—All locals of oil workers International Union, in Southern California, voted a strike in sympathy with the Kern county oil field workers. Eight thousand men are involved.

Bakersfield, Cal., Sept. 22.—Armed strikers, who have been sworn in as special deputy sheriffs and constables, today picketed the great oil fields in this district.

The pickets formed a "law and order" committee and, with the apparent consent of the civil authorities, who are in sympathy with them, they blocked all roads leading in the oil fields.

The oil fields in this district are among the world's richest, covering several hundred square miles and containing hundreds of the most valuable producing wells in the entire country.

The strikers declare they will not permit any outside workers to enter the oil districts until the employers meet their demands.

The strike is directed principally at independent companies. About 8,000 men are on strike, of whom 450 are members of the "law and order committee," and about 8,000 are still at work for companies not affected by the strike.

Strikers' sentries halt all automobiles at the "dead line" on the edge of the oil fields and refuse admittance to them, if the passengers do not pass muster. The strikers have organized a court which examines strangers found inside the lines. If they can't give satisfactory explanations, they are "deported."

The strikers are well organized. They eat regularly at field kitchens supported out of strike benefit funds. Strict discipline is maintained. There have been no disorders, although all the arms within the district are said to have been taken by the strikers.

The result of the strike so far has been the ruin of a number of wells, which were being bored, owing to the tools being "frozen." Water and gas pressure threaten the ruin of other wells which are not being worked.

"No attempt is being made to get the government to intervene," said Walter Yarrow, head of the oil workers' union.

"There is no lawlessness, no situation such as existed in West Virginia. The government, however, is naturally interested in what we are doing because it owns much land in this district which it has leased to private interests on an oil royalty basis."

Belcher, of Tarpon Springs, charged with manslaughter in connection with the death of Virginia Turner, Clearwater. The trial begins Monday at Clearwater. Judge McMullen was disqualified on account of his distant relationship to both Belcher and Miss Turner.

### New Cigar Factory Among Sanford's In- dustries Past Month

Sanford Will Soon Be Numbered  
Among Cigar Towns of the State.

Florida in general is a cigar making state. Some sections make more than others but good cigars can be made anywhere labor and shipping conditions having much to do with the success of the venture. This city has several factories now but a new one has recently been established, that promises to put the town on the map among the cigar towns of the state. The new factory was recently established in the third floor of the city hall, a location by the way that was fitted up for one of the biggest factories in Tampa during a strike in that city many years ago when several of the factories moved their men here to make cigars until the trouble could be settled.

The location is a good one and the factory starts off with the brightest of prospects being fostered by the Florida Produce Co., and the cigars to be distributed by the Wight Grocery Co., of this city—all home people and all with the best interests of the city at heart. C. R. Kirtley, the manager who is also the manager of the Florida Produce Co., and Hal Wight of the same company are the presiding forces in the factory and they are ably supplemented by Joe Menendez, one of the best cigar manufacturers in the state who literally grew up in the cigar business. He recently had the "Over the Top" factory in Orlando but was induced to come here and make the same fine cigar in the Sanford factory. "Over the Top" and the "Brush End" are the two brands being made now by the new factory but other brands will be put out later and as the business grows the owners expect to build a larger factory and help Sanford to grow in the manufacturing line. The makers of these cigars emphasize the fact that while the merchants pay more for these good cigars the smokers pay the five cent rate—pre-war prices—and they intend to make them and continue to make them the best five cent cigars on the market.

### EXAMINATION OF VENIREMEN FOR POPE TRIAL

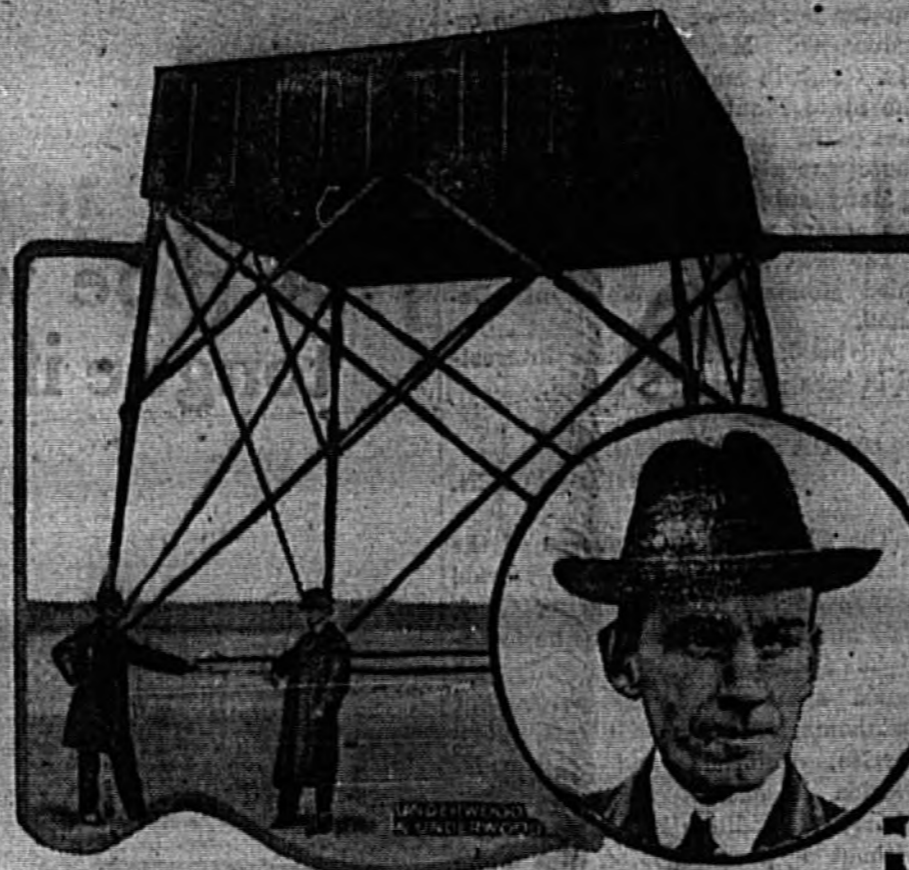

(By The Associated Press)  
JACKSONVILLE, Sept. 22.—Examination of veniremen for jury to try Pope proceeded slowly this morning. Four tentative jurors were obtained when the court adjourned yesterday and the fifth was obtained this morning. Five jurors were accepted from the first fourteen men examined of the venire of seventy-three.

The examination of veniremen proceeded rapidly the last hour this morning's session and five more tentative jurors were accepted, making ten in the box when court adjourned for lunch. It is expected to box will be filled during the afternoon but regarded certain several will be excused on preemptory challenges by both the defense and the state.

#### Body Found Floating in Lake Near Markham

Was Undoubtedly That of Adburn Schripner

A body of a man believed to be Adburn Schripner, who lived alone near here, was taken from a small lake near Markham, about five miles from here yesterday.

A coroner's jury returned a verdict of suicide. The body had apparently been in the lake for several days. It was badly decomposed and weighed down with a piece of iron. The probable identification was only made by his clothing.

Little is known here of Schripner, who had been missing for several days. Friends of the man said he seldom came into Sanford, remaining in his hut and working among the truck groves of his neighborhood. He is said to have deserted a British vessel before coming here because of harsh treatment and lived in constant fear of being arrested.

## MORE THAN THOUSAND PEOPLE KILLED AT MAYENCE WHEN PLANT EXPLODES

### THREE MEN MURDERED WORE ARMY UNIFORMS MET DEATH ON TRAIN.

(By The Associated Press)  
ST. LOUIS, Mo., Sept. 22.—The bodies of three men, believed to have been murdered, were found within a few miles of each other in southern Illinois, late last night by the crews of the Missouri Pacific trains. Two of the men wore army uniforms. The police believe robbery was the motive, and assert that the triple murder occurred on the same freight train. The bodies are not identified.

### HIGH OFFICERS KU KLUX KLAN SUMMONED

#### TO WASHINGTON FOR INVESTIGATION BY DEPARTMENT OF JUSTICE

(By The Associated Press)  
WASHINGTON, Sept. 22.—High officials of the Ku Klux Klan will be summoned to Washington for interrogation by the Department of Justice Attorney General Daugherty indicated today. ### The People of Geneva Entertained Royally

The Eighth Annual Session of the Seminole Baptist Association was entertained most royally by the people of Geneva; not only were homes opened to the delegates, but on Tuesday a fine dinner of barbecued meats and other delicious viands, and on Wednesday a dinner of fried chicken, and chicken pie and other delicacies, were served to delegates and visitors at the town hall.

The following resolutions were adopted by the Associations:

RESOLVED, that the messengers, visitors and friends assembled in the Eighth Annual session of the Seminole Baptist Association in Geneva, express their gratitude to the pastor, the members and associated workers of the Geneva Church for the hearty welcome and generous hospitality accorded us during the entire session of the Association.

RESOLVED, that we express our most hearty thanks to the women of the Geneva church and community for the splendid meals, so thoroughly prepared, delightfully arranged and bountifully served.

RESOLVED, that we express to the authorities of the Town of Geneva our appreciation for the generous use of the public hall in which the meals were so attractively served.

RESOLVED, that we extend our thanks to the Methodist friends for the free use of their church building for the Women's meeting and other extra sessions.

RESOLVED, that we express our profound gratitude to Brother H. S. Sellick, of Sanford, for the splendid map of the Seminole Association, which he has prepared with such artistic work and painstaking care, and that we commend the map idea to other Associations.

RESOLVED, that these resolutions be incorporated in the minutes of the Association, and that we resolve to so work this year that our membership of nearly three thousand shall each "win one" at least, during the coming Association year.

### Huge Chemical Works in Germany Proves Death Trap

### WIDE DISTRICT

COVERED BY CATASTROPHE  
WHICH IS ONE OF WORST  
IN HISTORY

(By The Associated Press)  
MAYENCE, Sept. 22.—French troops and volunteer workers toiled through the night in ruins of chemical plant at Oppau where hundreds of workmen were killed in an explosion yesterday. Estimates of dead ranged as high as 1,300 but definite figures were obviously impossible. More than three hundred bodies have been recovered and it is known at least 1,500 persons were injured. Oppau virtually swept away and explosion hurled desolation over wide district on west bank of Rhine between Mannheim and Frankenthal. Investigation ordered but those who visited the ruins declare little open which finding can be based. Order being maintained in Oppau and vicinity by French soldiers, the district being within the French zone of occupation.

MAYENCE, Sept. 22.—The disaster appears to have been one of the most terrible in the history of industrial catastrophes. The first explosion occurred when the shifts were being changed, at 7:45 a. m., in a laboratory where 800 men were working. All of these are reported to have been killed.

This explosion was followed by a rapid succession of others, which rendered assistance to the first victims impossible.

The concussions were so terrific that they were felt in this city, some 35 miles from the scene, while at Mannheim, 13 miles distant, almost every window was shattered and several persons were killed and 36 others injured by debris.

Some persons were killed at Ludwigshafen, across the river from Mannheim, many roofs were blown off of houses and all the windows in the town were broken at Worms, while at Oppau itself nothing remains but a heap of ruins. The shock was felt as far as Frankfurt, more than 40 miles away and many windows were broken there. The whole district was enveloped in thick smoke, which together with the cutting of telegraph and telephone communication with neighboring towns, hampered the efforts at assistance. All the available fire brigades were rushed to the spot, but the work of rescue was found by the relief parties to be exceedingly difficult.

The rescuers who penetrated Oppau reported finding hundreds of dead and wounded lying in the debris. The uninjured inhabitants fled in panic when the explosion occurred.

Reports from the scene variously describe the disaster as due to the explosion of a gas or spirits tank.

AMSTERDAM, Sept. 22.—The total damage from the explosion at Oppau yesterday is estimated at one hundred and fifty million marks, according to Berlin advices.

PARIS, Sept. 22.—Up to this morning eight hundred and fifty bodies were recovered from the ruins of the chemical factory at Oppau, according to a Mayence dispatch. Twenty-five hundred injured have received medical attention.

The country will get back to the pre-war level when it gets back its pre-war level heads.

A new church building is being built at Arcadia for the Seventh Day Adventists.

them should desire to leave before the case might be brought to trial," McCormack said.

A telegram to Lowell Sherman, a participant in the affair, was sent to Chicago by District Attorney Hatfield A. Brady asking Sherman to come to San Francisco to give his version of the affair.

Sherman expressed a willingness to return to San Francisco when needed for the trial of Fatty Arbuckle.

County Commissioners In Regular Session

Sanford, Fla., Sept. 6, 1921. Honorable Board of County Commissioners in and for Seminole county, Florida, met in regular session at 10 o'clock a. m.

Present Chairman L. A. Brumley, and Commissioners L. P. Hagan, C. W. Entzinger, O. P. Swope, and E. Curlett, with V. E. Douglass, deputy clerk, and C. M. Hand, sheriff, in attendance.

NEWBERRY IS SERVING THEM

(From Wednesday's Daily) Newberry's new drug store opened this morning with a large crowd present that promises to be a stampede this afternoon when the free ice cream is given away. The new drug store is a thing of beauty and as neat and clean as a pin with all the new and up-to-date fixtures and new stock of goods. The ice cream and cold drinks are served in a manner that will get the trade and Mr. Newberry is well pleased with his new venture in the best city in Florida.

The remarkable thing about it is not the number of miles you can get to the gallon, but the amount of dust you can swallow to the mile.

# THE CITY COMMISSIONERS CONDEMN CERTAIN PROPERTY AND ASK FOR DEMOLITION

## Concerted Effort Will Be Made for Greater Sanford

### A CLEAN SWEEP

#### OLD FRAME BUILDINGS IN BUSINESS SECTION OF SANFORD ARE STANDING MENACE

The City Commissioners at their last meeting gave notice to the owners of the stable property at the corner of Park avenue and Second street to tear the building down or have it torn down as it had already been condemned and was a menace to public health and to other property in that block in many ways as well as being a sore eye to the public. It may seem hard to property owners to be told that they must have their property torn down but there are many extenuating circumstances in connection with such orders. The property referred to has been in a dilapidated condition for years. It was used for livery stable purposes in the days when the livery stables seemed to be the principal industries for they were always placed on the principal corners of the towns. Other cities have gone through the same process of condemnation proceedings. It is only a question of time when such buildings must either be sold to parties that will tear them down and build structures suitable to the growing needs of the city or they must build on them at once themselves. In the event that they cannot build on the property there is always a chance to sell at a good figure and they do not stand any loss by the orders to demolish the buildings. Such structures are fire traps that are a standing menace to any city. Fire starting in one of these frame buildings will often burn up a town and cause untold damage and property loss to men who have erected fine buildings near them. It is not fair to the men of Sanford who are striving for a greater city to allow these buildings to stand. This is the day of progress and those who cannot progress should make way for the people who can and will progress.

At the same meeting the building that stands at the corner of Second street and Oak avenue and borders on the A. C. L. tracks was condemned. This building has been used for warehouse purposes for many years but on account of its peculiar location is not fit for anything in the business line at present and would really make a fine little park if the city could afford to purchase it for this purpose. These old buildings that have served their purpose and are now a menace to the city in many ways should all be condemned, the owners allowed a sufficient time to build or sell them and in the event they cannot then they should be torn down for they are in the majority of cases no source of profit to the owners as the land is much more valuable than the buildings and the owners are paying higher taxes for the land than the rents will bring them in return.

It is not a hardship on the owners

of these buildings to tear them down for in every case the property sells for more with the building removed than it would with the building on the lot. No one wants these buildings except for salvage and they are of no use to the owners and Sanford will never be a real city until the City Commissioners make a clean sweep of all the frame buildings on the principal corners of the city and make it clean, showing neither fear or favor when they start. With building materials and labor coming down the owner of a good corner in Sanford can get money to erect a suitable building if he desires it or he can sell the property for a good sum of money and make much more than he can by holding it.

No public spirited citizen of Sanford or any other city will stand in the way of progress.

## ONE HUNDRED TO ORLANDO SEPTEMBER 27

### CHAMBER OF COMMERCE WANTS TO TAKE THAT MANY ALONG

It is the purpose of President Geo. W. Knight, of the Sanford Chamber of Commerce to have at least one hundred members from the Sanford Chamber of Commerce visit Orlando Tuesday, September 27th. The secretary of the Orlando Chamber of Commerce has again inquired the number who would attend the banquet which the Orlando Chamber of Commerce is preparing on that date and has been advised that there would be one hundred from Sanford. It is up to the local organization to return this visit with the same enthusiasm and in larger numbers than on the occasion of the banquet recently held in Sanford. The Orlando people are preparing a wonderful reception for their guests from the City Substantial and are constantly asking that as large a number as possible come over from Sanford to help make the affair a success.

The spirit which was evidenced by the Orlando boosters on the occasion of their visit is one that cannot help but be productive of results. Already they have shown their willingness to co-operate and had a large meeting when the Sanford Chamber of Commerce called for the organization of a permanent Ship-by-Water Committee. If we want to see our water front developed get in with the Orlando boosters through whose co-operation wider roads between the two cities will become a certainty. These are the days of co-operation through organizations to further accomplishments. When the organizations are alert and efficient they re-affirm the trite expression that in unity there is strength.

Fill out the postal card which the secretary is sending you and return it promptly. The members will be advised subsequently of full details so that they can be governed accordingly.

### L. R. PHILLIPS RECEIVES FINE JEWEL

One proud and happy man in Sanford today is L. R. Phillips, city clerk. Although the doctor is happy most of the time, he is especially so today on account of the fact that he was presented with a beautiful Past Master's jewel last night by the members of the local Masonic lodge.

Dr. Phillips was master of Sanford lodge during the year 1905, and while it is customary for the lodge to present the retiring master with a Past Master's jewel, it seems that for financial reasons it was impossible to conform with this custom just at that time. Realizing this, several members of the lodge, feeling that the doctor, from his long years of faithful service, should be accorded this recognition, purchased a fine jewel and presented it at the banquet held at the close of the meeting last night.

Hon. F. P. Foster, in his own fine way, made the presentation. He told of the many fine qualities of the honoree, whom he has known and associated with for many, many years. It came as a complete surprise to Dr. Phillips and he briefly and sincerely thanked the members of the order for this fine remembrance. Coming as it does from the membership rather than from the organization, it is doubtless more appreciated and last night will probably be one that he will not soon forget.

## Bee-Keepers Met in Sanford Monday; Many Were Present

### Will Hold Next Meeting in DeLand November 21

Monday, September 19th the Orange Belt Bee-Keepers met at the Woman's Club building in Sanford, for the purpose of completing the organization. Mr. Newell, Mr. Reese, Mr. Goodwin and Mr. Sterling, all of the State Plant Board at Gainesville, met with the association at which there was a good attendance.

Many subjects of vital interest to beekeepers were discussed.

The next meeting is to be held the third Monday in November at DeLand.

All bee-keepers and those interested in bees requested to attend.

### FLORIDA'S CONDITION RANK WITH FOURTEEN.

The Chamber of Commerce of the United States has mailed the Herald a map of the nation showing Good, Fair and Poor conditions in the forty-eight States. There are only six "good" spots on the map—portions of Oklahoma, Misquari, Illinois, New Mexico, Colorado and California. Florida is one of fourteen states where the condition is given as "fair" without a "poor" spot on it. That is encouraging but as a matter of fact Florida for the most part is "good" all the way through.

The brief survey is as follows: A nation-wide survey of prevailing crop and business conditions gives us definite knowledge upon which to base our conclusions as to the probable trend of things in the immediate future.

The story is much the same everywhere: A partial and unequal harvest; plentiful returns in close juxtaposition with parched and burnt up fields; both prices and demand for farm products that are far from satisfactory to the producers. Yet these same products are seeking a market wherever they can find it that the obligations of the farmers may be discharged. There is an abundance of food stuff in the country despite small yields in some grains.

An enormous inflow of wheat to market indicates that there is nothing to that old stuff about. Farmers holding back supplies artificially to force up the price. Likewise that there is more wheat in the country than official figures declare.

One matter is most apparent in the horoscope of the future. The measure of the volume of business and of our commercial welfare hangs upon the demand for farm products and their consequent prices for the year. All other "barometers" are as nothing by comparison, and can be relegated to the scrap heap. Fortunately at this writing, Europe is importing largely of our grains and the export of cotton from July 1, to date, are more than double those for the same period of last year.

Cotton, as usual, has done the unexpected. Sustained higher prices mean an amount of business in the South that can come from no other cause. Nor does it seem likely that there will be that fatal and futile holding of cotton for impossible higher prices that characterized the previous season. The memory of that deplorable mistake and its enduring consequences are too recent to bring its repetition.

One possibility is at least worthy of passing thought. If there be a demand of any moment, both foreign and domestic, from now on, and this at least seem likely, the greater portion of the carry-over in this country will be practically used up by July of next year. With general business and readjustment on an ascending scale, both at home and abroad we shall be facing a situation where the greater part of the world's supply of cotton will depend upon the growing crop in this country. What such a contingency means to the prosperity of the South sounds too optimistic to put in cold print.

Already no wphases of the situation finds expression not only in wide-spread more cheerful feeling in the cotton belt, but also in somewhat freer buying. This is true likewise in the grain regions where farmers are liberally marketing hogs, wheat and corn.

The commercial world will not reap as much benefit from this as surface indications seem to promise. For a very considerable proportion of the money the farmers receive for their products will go to settling the obligations carried over and the banks will get their first, and they are past masters in this art. In some sections when banks and dealers have been satisfied, there will not be much left for the farmers for new purchases. Yet when all has been said the situation will be far better than at present.

**GLASS OF SALTS  
CLEANS KIDNEYS**

IF YOUR BACK HURTS, OR BLADDER BOTHERS YOU, DRINK LOTS OF WATER.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless, salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.—Adv.

**POST CARD DAY FOR  
FLORIDA TO BE OBSERVED.**

The Florida Development Board has suggested that October 1, be observed as Post Card Day. Railroad officials have announced that winter tourist tickets to Florida will be on sale in all territories this season from October 1, until April 30, with final limit May 31. Last year a number of Florida Chambers of Commerce and other agencies offered cash prizes for the greatest number of postcards mailed on Post Card Day.

"I Spent \$1.25 on Rat-Snap and Saved the Price of a Hog."

James McGuire, famous hog raiser of New Jersey, says: "I advise every farmer troubled with rats to use RAT-SNAP. Tried everything to get rid of rats. Spent \$1.25 on RAT-SNAP. Figured the rats I killed saved the price of a hog." RAT-SNAP comes in cake form. No mixing with other food. Cats or dogs won't touch it. Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.

## FOR HEADACHE, LIVER TROUBLE

### Black-Draught Is The Best Medicine This Lady Ever Used. Says It Is Only Medicine She Gives Her Children.

Cherry Village, Ark.—In telling of her experience with Theodor's Black Draught, Mrs. Lottis Ellis, R. R. D. No. 1, the place, said: "I used Black-Draught as a laxative, also for headache, torpid liver and indigestion. It is the best liver medicine I have ever used and is the only medicine I give my children."

"I feel like it has saved me a lot in doctors' bills, for when the children complain of feeling bad or have a cold, I just give them a good dose of Black-Draught and they soon get all right. It certainly cleans the liver and clears up the skin, and they are soon out, well again. I wouldn't be without it for anything."

Seventy years of successful use has made Theodor's Black-Draught a standard household remedy. Every member of every family needs it. It does the best that Black-Draught gives in helping to cleanse the system and to prevent or relieve the troubles that come from constipation, indigestion, and a lax liver.

To keep well, your stomach, liver and bowels must be in good working order. To help keep them that way, take occasional doses of Theodor's Black-Draught. Thousands of homes are made without it.

For sale by all druggists. The genuine has the name Theodor's on the label. Watch for getting what you ask for.

# SEE ALTAMONTE SPRINGS ONE OF THE BEAUTY SPOTS IN SEMINOLE'S BIG LIST

High and Rolling and  
Studded With Lakes  
is Altamonte

## A CITY OF HOMES

AND FILLED WITH MANY SATISFIED NORTHERN VISITORS DURING WINTER MONTHS.

Altamonte Springs is one of the beautiful little cities of Seminole county that has been hiding her light under a bushel somewhat in the years gone by but that is coming out every day in the sunlight of publicity and attracting many tourists and investors. Those who see Altamonte Springs are struck with the wonderful site which this thriving place occupies and wonder why all creation looking for a winter home did not settle there in the beginning. The truth of the matter is that Altamonte Springs has been the home of many of the big business men of the country for many years and the Altamonte Springs Hotel shelters a multitude in the winter months. They come down for a quiet place and for rest and recreation and find it there and finding it want to keep it to themselves, therefore, there has been but little said about this beauty spot among the many in this fine county that has so much in diversified crops and prospects.

Altamonte Springs has taken a spurt in the past year and having been incorporated has taken on new life and proceeded to make the many advantages known to the outside world and this winter will see many new faces at the hotels and many new owners of fine homes and orange groves and many all the year round residents for Altamonte is also an ideal summer resort being situated upon the ridge in the rolling country of that part of the county.

Altamonte Springs has an altitude of 220 feet—thus getting fine filtered sea air from the Atlantic ocean 80 miles to the East, and the Gulf of Mexico to the west, forming that wonderful ozone known as the "Atmosphere of Altamonte" and when combined with the odor of orange blossoms and jasmine in season, and this combination comes breezing into one's window 24 hours a day, it is bound to give the ailing their health, and the healthy more health and joy of living.

Altamonte Springs has in its territory hundreds of acres of orange and grapefruit groves in high state of cultivation, and has within her boundaries five beautiful lakes with clean, sandy shores, no marshy borders.

In fact Altamonte Springs has everything that any other section of Florida may have plus many good things that many others have not and if any of those interested will read the description of this beautiful city in another part of this issue they will pack their baggage at once and come to Altamonte Springs—the only Altamonte Springs in the world.

In making up the list of the many fine towns in Seminole county the Herald takes a distinct pride in giving space to Altamonte Springs.

### OCOE DYNAMITERS GET LONG-TIME SENTENCE FROM JUDGE WARLOW.

Frank Sanders and William Moore of Ocoee, who were recently convicted in the criminal court here on a charge of dynamiting a negro house at Ocoee, a short time ago, were sentenced to serve four and five years respectively in the state prison at Raiford by Judge T. P. Warlow, yesterday.

E. W. Davis, counsel for the defense, shortly after the sentence had been passed, announced he would appeal the case to the state supreme court.

Both men are now at liberty, Sanders' bond being \$2,000, while the amount of Moore's bail was fixed at \$2,500.—Orlando Sentinel.

### ONLY ELEVEN PARDONS RECEIVE FAVORABLE ACTION STATE PARDON BOARD.

(By The Associated Press)  
TALLAHASSEE, Sept. 21.—Favorable action upon only eleven out of one hundred and fifty applications for clemency was reviewed by the State Pardon Board at a meeting held last week. Seven were granted conditional pardons, and fines reduced in two cases and citizenship restored to two persons previously pardoned.

Apparently the war stopped too soon. We didn't make the world safe for high production costs.

### PROGRESSIVE TEA.

(From Monday's Daily)  
A delightful event in church circles and a pleasing social feature with the membership and their friends, of the Congregational church was the progressive tea given on the Heights at the home of Mrs. J. W. Pennington, Mrs. Frank, and Mrs. Reneau, Friday afternoon.

Assembling first at the home of Mrs. Pennington, an interesting program was rendered by a group of young girls, and delicious punch was served during the hour of entertainment. The pretty decorations of the in coral vine and asparagus fern, were repeated at the home of Mrs. Frank, the next stop in the pleasant itinerary. Miss Gussie Frank featured the entertainment program at this home with an attractive group of vocal selections, accompanied on the piano by Miss Charlotte Smith. A delicious luncheon course was served by Mrs. Frank, after which the gay party moved merrily onward to the cozy lovely home of Mrs. Reneau, where more music and readings were greatly enjoyed. The color note of the decorations changed here, quantities of bouganvillas being used with artistic effect. Pineapple sherbet and cake were served by the hosts.

At each home the charm of a gracious hospitality prevailed, adding just another successful affair to the many already sponsored by the ladies of the Congregational church.

### FRANK AKERS TIRE CO. BUYS FILLING STATION FROM EDWARD HIGGINS.

Frank Akers Tire Co., has come back into being the purchase of the Edward Higgins filling station on West First street having been made recently. Frank Akers has been the presiding spirit in the new station and before this had a place of his own next to the fire station but for the past six months has been with Edward Higgins. Frank is back on the job again and in connection with the sale of that good Gulf gasoline and oils will have a complete line of auto accessories, etc. He will handle the United States tire and other good things in the specialty line. Look for his announcement in the Herald and look for Frank. He is always on the job and ready to serve you.

### DOINGS OF COMPANY D.

The Dixie Minstrel are coming along fine. Monday night was the first full rehearsal and Allison and Rudisell, the directors, say judging from the rehearsals it is the most promising show they have ever staged, and they want to compliment Sanford on their splendid talent. The songs are very tuneful, and snappy, and the beauty chorus would make Zigfield ravingly jealous. The cast will be made of fifty of Sanford's best home talent and professional players. The show will be a mammoth minstrel musical comedy, vaudeville, revue. Betty Williams, Bert Sevone and Al Jolson, will not be in the cast, but believe me boy, they also will be there "figuratively."

### CLYDE LINE EXCURSIONISTS WERE HERE SUNDAY.

The Clyde Line excursions continue to bring the people from the east and northeast to Florida and to Sanford. Last Sunday there was quite a crowd took the ride to Orlando and other points in this vicinity. Among those who were in the party were the following:

Miss Virginia Falk, Bronx, N. Y.; Miss Irene Greer, Miss Eva Green, New York; Miss Katherine Schulger, New York; Mrs. Anna Will, Brownville, N. Y.; Eva A. Gardiner, North Chatham, N. Y.; Katherine A. Floren, New York; Rose H. Mullen, New York; Miss Adele A. McGowan, Bronx, N. Y.; Miss Fannie Carlock, New York.

### INVERNESS WILL HAVE MUNICIPAL PLANTS.

INVERNESS, Sept. 21.—The city council has selected October 26th as the date for the election on a proposed bond issue of \$75,000 for the water works and sewerage system. Only owners of property within the corporate limits will be permitted to vote in the election. The bonds would mature at the end of twenty-five years and would bear interest at the rate of 6 1/2 per cent.

### State Road Department May Condemn Daytona Wood Bridges

Evidently because of an ultimatum delivered to B. L. Armstrong, head of the Concrete bridge, by Governor Cary A. Hardee following a visit of a local committee to the chief executive last week, the concrete bridge was today opened to traffic after being closed for four months.

The orders to open the concrete bridge was co-incident with a visit to the Triple Cities by Major Chas. A. Browne, chief engineer of the state road department, and his assistant, James A. Mortland, who Tuesday afternoon inspected the three bridges spanning the Halifax river between Daytona and Daytona Beach. The state engineers will make his report direct to Governor Hardee and the contents of the report will not be known until given out by the governor. It is safe to assume, however, that both wooden bridges will be condemned, as they are stated to be in a deplorable physical condition and unsafe for the modern day traffic demands. It is said that the concrete bridge is also rapidly deteriorating.—Daytona Daily News.

### BEE-KEEPERS HAVE LUNCHEON AT THE MONTEZUMA

(From Tuesday's Daily)  
The Bee-keepers who are here attending a meeting and having lunch at the Montezuma yesterday were: T. Perkins Dean, New Smyrna; F. S. Alexander, Beresford; Wilmon Newell, Gainesville; George P. ### RECITAL.

(From Tuesday's Daily)  
A very enjoyable and interesting musical program was given at the Congregational church last Saturday afternoon. The pipe organ selections were given by Miss Charlotte Smith, a young student of Sanford High School. Her numbers were well rendered and in good taste. The vocal selections were given by Mrs. A. M. Phillips, soprano and from oratorio. Mrs. Phillips was in excellent voice, she sang with deep feeling, most expressively.

The entire program covered:  
Prelude ..... A. Hesse  
"Piano Transcriptions—  
(a) "Shepherd's Tale" ..... Nevin  
(b) "Prelude" ..... Sidney Smith  
Vocal—  
"Song of an Angel" ..... Wallace  
"Festival Overture" ..... Wallace  
"At the Cloister Gate" .....  
"Come Unto Me" (Messiah) ..... Handel

### PIPE ORGAN CLUB MEETING

(From Tuesday's Daily)  
Regular meeting of the Pipe Organ Club was held Monday afternoon with Mrs. Forest Gatchel, on Oak avenue. Unfinished business was taken care of, and owing to the resignation of Miss Martha Fox as vice-president, Mrs. C. A. Barnes was elected to fill her place.

In addition to the officers for the ensuing year, Miss Fox was elected flower chairman, to see that flowers be arranged in the church for Sunday services.

Under the new by-laws of the club one new member, Mrs. Arthur Johnson, was received and initiated.

Social hour with tempting refreshments of potato chips, pickles, tea and cake were much enjoyed by twenty-one enthusiastic members of the club. At adjournment, the president announced that the next Monday, the club would be entertained by a lake party at Crystal Lake with Mrs. Sinah Bray and Miss Clara Millan as hostesses.—Mrs. Kenneth Murrell, Reporter.

### BIRTHDAY PARTY

(From Tuesday's Daily)  
Master Frederick Dalger entertained a number of his little friends yesterday afternoon at his home on Fourth street. The occasion being his fifth birthday anniversary.

The pretty color scheme of yellow and pink was carried out with baskets of Golden Rod and pink vine, these were effectively placed in the living room and on the porch. In the dining room the chandelier was gracefully entwined with fern and pink vine while the table had as a centerpiece the pretty birthday cake iced in yellow and topped with tiny pink rose-holders with five pink lighted tapers.

The afternoon was pleasantly spent with games and later "Pinning on the Donkey's tail" proved most interesting. Little Miss Georgina winning the prize for this, which was a box of candy. Master John Walker Minarik won the booby prize, a ball.

At the conclusion of the game refreshments of ice cream and cake were served, and each child was given a cunning little "Halloween" figure filled with candy as favors.

Little Frederick's guests included: Martha Bishop, Louise Purdon, Margaret Bennett, Georgina Hart, Dorothea Lawson, Martha Elmeta Bryan, Carolyn Hill, Marguerite Garner, Betty McKinnon, Charles Betts, Braxton Perkins, Bryan Higgins, Franklin Bennett, Harry Bower, Walter Fox, Wilson Smith, Melvin Taylor, John Walker Minarik, Tolar Bryan, L. P. McCuller, jr., Wyman Harvard, Ruth Henry and Camilla Puleston.

The "grown ups" were: Mrs. Henry Purdon, Mrs. Howard Smith, Mrs. L. T. Bryan, Mrs. J. B. Lawson, Mrs. Frank Akers, Mrs. John C. Smith, and Mrs. R. E. Herndon.

### FIRST FIVE ACRES OF CELERY PLANTED BY MIKE STOINEFF AT LEAS MIKE SAYS SO.

Mike Stoinoff, of Celery avenue, was in today and says that he is the "earliest man" in the celery game this year. He bases his assertion on the fact that he has already set out in the field five acres of celery. We have yet to hear from other precincts before announcing that Mike is elected but it looks like he gets the rubber handled scoop shove for being the "earliest man."

## What Henry Ford Says About Machine Power Farming

"In the tractor the farmer now has a machine in which is harnessed one of the most adaptable, efficient, economical sources of power in the world—the internal combustion engine.

"The tractor will multiply the productive capacity of each individual farm worker from three to four times over.

"It will put the farmer on a par with the city manufacturer. It will put his produce-producing factory—for that is what a farm is—on to an efficient production basis.

"It will enable each worker to earn so much more that he can be paid more and still leave a greater profit for the man who hires him. It will enable the farmer to work fewer hours in the day, giving him more time to enjoy life.

"I believe the tractor will make farming what it ought to be—the most pleasant, the most healthful, the most profitable business on earth."

Sanford needs pure soft water, and Sanford can get pure soft water by going to one of the clear water lakes that abound south of the city in any direction. The present sulphur water is the purest in the world, but it is not the right kind of water for laundry purposes and for manufacturing plants, and for many things. Sanford should put in a pipe line to a clear water lake and bring this water to the city for manufacturing purposes. It would pay the city to do this, and then go after the different factories that would like to come here. Sanford will never be a real city until Sanford owns its own plants, and this

pipe line would be a fine start toward a municipal water works. Think it over.

Ship by water!

Yes, say it again, it is hot.

Are you growing with your city?

But we should worry, it will soon be cool enough.

Are you boosting for your Chamber of Commerce?

Are you boosting for your Building and Loan Association?

St. Johns river, Ocklawaha river or any other river, but ship by water.

Are you boosting for every good thing connected with the growing City of Sanford?

There is nothing selfish in this slogan. It means so much to the different communities.

This is the season of our discontent—fall end of the heat, fall end of business, fall end of advertising, fall end of collections—what a sad tale of the fall.

Sanford has been favored by nature but we want to share our fortune with every other part of the state. Ship by truck will follow the ship by water program.

Again we want to call your attention to the golf links and the country club before the winter season begins. It means everything to this city if you want tourists.

All we want just now is a gentle little drizzle, drizzle of a rain that will dampen the ground but not enough to come through the hole in the bottom of our shoes.

If you are doing all these things, you are only doing your whole duty as a real citizen. If you are not doing any of them, you are neglecting your duties as a real citizen.

The greatest thing in the world is faith. Faith in your self first; faith in your fellowman; faith in your city; faith in your county, and faith in your country. Get it today.

Evelyn Nesbet Thaw gets front page again after many years. Three men tried to kidnap her in New York the other day. Well, it can't be laid on Stamford White, at any rate.

Sanford is growing as fast or faster than any city in the South, but we can stand many changes as yet. There are so many things that we should be doing that it is difficult to know where to begin.

Admiral Sims has spoken again and is in bad again as usual. It would seem that the Admiral should retire and write a book. That is the best way to "shell the enemy," in the piping times of peace.

Daytona is starting a crusade against the opening of stores on Sunday. All this agitation comes from the hoggliness of some merchants who want to keep their place of business open all day Sunday and Sunday night.

It is funny how a man rushes back to his wife when he gets into trouble. Patty Arbuckle is hiding behind his wife's apron strings again after giving her the grand bounce for five years while he cavorted with the chickens at Hollywood.

This is the time to build that home, fix up that new addition, arrange another bed room, get ready for the biggest tourist season that Sanford has ever had. They are coming, and coming early, and we should be prepared to keep them in Sanford.

After all else fails, Roscoe Arbuckle's wife flies to him when he is in danger. They have been separated for five years after Roscoe became small headed with success. The little wife who helped him to fortune returns to him when he needs her most. 'Twas ever thus.

**AN INTERURBAN LINE FROM SANFORD TO TAMPA**

In this day of discussion of cheaper freight rates and better service it is well to rejuvenate the idea of building an interurban line from Sanford to Tampa and to work for it and to exploit it until sufficient capital can be attracted to Florida to build it.

Fifteen years ago when the editor of the Herald was the editor of the Orlando Reporter-Star he had this dream and even went so far as to have meetings called in all the cities and towns from Sanford to Kissimmee, interested the farmers and had options on much of the right-of-way and the lands adjoining the right of way. After coming to Sanford we again began the agitation for a traction line from Sanford to Orlando and several capitalists were interested but one drawback and another came up to hit the project in the face and like many other good things the wars and rumors of wars stopped all road building and it went to join the other good things put on cold storage.

We also had high hopes of the Sanford & Everglades Railway started in this city and built as far as Cameron City and operating trolley cars as well as freight cars, would some day be built to Oviedo and join with the Seaboard Railway and thence to Geneva and join the Florida East Coast Railway and give Sanford a wonderful system of railroads and competition of the right sort to bring down the rates on freight and help to make Sanford a basing point. Such a line with the addition of electric railway service for passenger and express and eventually to even take care of freight would have made this city and this section of Florida the greatest in the South.

The time is drawing near when this trolley line will be built from Sanford to Orlando and on to Tampa. The territory from Sanford to Tampa is now one of the richest in the state, is one of the most populous in the state and has more people and more revenue to draw from than many sections in the north that are now operating trolley lines. It would prove a money maker from the very start and would induce thousands of people to come to Florida and settle along the tracks of this interurban railway. It would not only be an inducement for the big and little growers of fruits and vegetables but it would be an inducement for wealthy tourists to live in the country in the winter and for the busy business man to reside in the suburban district and commute to the cities each day.

Anyone who has lived in the big cities can see the possibilities of this line and it is only a question of time to interest the men of affairs who will jump at the chance of building this line. Prices on materials for this line are coming down every day, capital is looking toward Florida every day. This big thing for Florida is coming and Sanford at one end and Tampa at the other end are destined to become the greatest cities in Florida not to mention the great ones like Orlando, Kissimmee, Lakeland and many others between the two that will profit equally as much but Sanford and Orlando having the water transportation will come into their own with a rush once this great artery of trade and travel is opened up as it should be.

This has been the dream of the editor of the Herald for many years and we are not too old and the scheme is not too far away for us to live to see the consummation of our plans drawn fifteen years ago. All of these great improvements are bound to come and all of this part of Florida would do well to keep them in the public eye for it is publicity that will eventually bring them to pass.

**Hit the Nail on the Head**

It's getting up courage to drive the first nail that's the hard part about building. You can trump up dozens of reasons for postponing the job—but did you ever know anybody to be sorry he built? Most building materials are low priced now. Not every thing is as cheap as lumber but by the time the other things have dropped probably lumber will rise. So all in all this is a good time for building. Hit the nail on the head!

# Altamonte Springs, One of the Beauty Spots of Seminole's Wonderland

ALTAMONTE SPRINGS has an atmosphere, and so have other places in Seminole County, but Altamonte's atmosphere has the peculiar quality of a Lodestone—it's inhabitants may remove to other places in other climes, but they always return or have a very strong desire to do so, and of course there is that—not very mysterious reason—Altamonte's beauty—for all humanity is drawn to beauty.

Altamonte Springs is placed in such a favorable location, that her man-made beauty, combined with the natural beauty, forms the Alta-Monte that we know today. The Altamonte of George Frost of Boston, of Herman Westinghouse of the great Westinghouse Electrical Company—who were among its founders—is not the Altamonte of today. Founded as the home of rich men only, we now reach out for residents of humbler means also, as we realize that riches alone do not make a town livable.

It stands to reason that the state was scoured by these wealthy men to find their ideal before founding their town. Therefore Altamonte's location is the pick of the state.

Altamonte Springs has an altitude of 220 feet—thus getting pine filtered sea air from the Atlantic Ocean 30 miles to the East, and the Gulf of Mexico to the West, forming that wonderful ozone known as the "Atmosphere of Altamonte" and when combined with the odor of orange blossoms and jassamine in season, and this combination comes breezing into one's window 24 hours a day, it is bound to give the ailing their health, and the healthy more health and joy of living.

Altamonte Springs has in its territory hundreds of acres of orange and grapefruit groves in high state of cultivation, and has within her boundaries five beautiful lakes with clean, sandy shores, no marshy borders. Lake Orienta (upon which is located the "Altamonte Hotel", famous among tourists all

over the country for its wonderful cuisine and excellent management of its owners; George E. Bates & Son) is the largest of these lakes and is noted for its black bass fishing, which is jealously guarded by the owners of the land surrounding the lake, who welcome the true fisherman with sporting ideals.

The "Altamonte Hotel" is located at the east end of this lake, upon a bluff overlooking the full length of its waters. Lake "Adelaide" is across a park to the rear of the hotel, and upon this lake is the "Altamonte Spring" of absolutely pure water.

The paved highway from Jacksonville to Tampa and all South Florida passes through Altamonte. A day's ride in an automobile may encompass two hundred miles in any direction without leaving a fine paved road, making Altamonte an admirable location for automobilists, a fine large garage is under construction and will be open for business in a few weeks, two stores with filling stations are handy and every advantage enjoyed in a city at hand.

Altamonte Springs is located on the Tampa and Jacksonville Division of the Atlantic Coast Line Railroad and gives fine service, Western Union Telegraph office, Express and Third Class Postoffice, Electric Lights, beautiful shady streets of large oaks, within 14 miles on brick highway of Sanford, and 9 miles on brick highway to Orlando. Winter Park, with Rollins College, is on the same road just five miles to the South.

The hotel is the center of social life with card parties, dances, etc., and Altamonte's winter residents and home-folks are of a superior order and of a prosperous, enlightened class. Our surrounding country and neighboring towns of Longwood and Maitland are of the same order and are fine neighbors, and are only two miles away to the North and South.

The practical side of Altamonte Springs is not to be slighted in this article, for, aside

from her fruit industry, Altamonte is noted as having 40 acres in covered conservatories devoted to raising the beautiful Asparagus Plumosis fern used by florists. This is shipped in season mostly to the north, and the industry represents an investment of over a quarter of a million dollars and a payroll of hundreds of dollars a week. Hon. Charles D. Haines, ex-congressman from New York, heads the largest of these conservatories, The Royal Extension Fernery, Incorporated.

Mr. B. L. Maltbie, of the Maltbie Chemical Works, of Newark, N. J., is one of Altamonte's latest developers, and is planning a great future for us this winter.

Altamonte has a Chamber of Commerce, whose Secretary, W. B. Ballard, is always glad to give information upon request. Altamonte Springs has just recently been incorporated and is officered by unsalaried men of progressive ideas, but within keeping with a low millage.

George E. Bates and Son are men to whom Altamonte Springs owes much, as many coming as their guests buy property here and stay as residents.

Palm Springs, a noted resort, is only two and one-half miles through the pine woods to the Northwest of Altamonte. Here Mr. Lester Beeman has spent thousands of dollars to give a pleasure resort for the free use of the public, and one that is greatly appreciated. Mr. Beeman has a pretty little cottage at the Spring as have others from Sanford and Longwood.

Altamonte Springs has never been boomed or exploited, but is now on the verge of a growth that will not be sporadic, but steady and substantial.

A peculiar circumstance is the fact that there is only one "Altamonte Springs" in the world, and we are "IT". Numbers of "Altamontes" appear in the Postal Guide, but only one "Altamonte Springs."

## Veteran of Civil War Still Hale and Hearty

GEORGE D. SHAW, Springfield, Mass.

"To say that I feel twenty-five years younger, twenty-five years healthier and twenty-five years stronger express what Tanlac has done for me better than any other way I can put it," said George D. Shaw, veteran of the Civil War, who now lives at 321 Walnut street, Springfield, Mass.

"I am now seventy-eight years old and I don't hesitate to say I have never known a medicine to equal Tanlac. For fifteen years I was subject to attacks of indigestion that were so bad at times I would have to lay up for a week or two. For a long time I lived on crackers and milk alone as nothing else agreed with me.

"When I started on Tanlac I weighed only one hundred and seventeen pounds and my days were thought to be numbered. I've been so wonderful-

ly built up, I now weigh one hundred and forty-three pounds and my stomach is as sound as a dollar. In fact, I believe I could eat the old army rations again without it hurting me in the least.

"I never miss a chance of saying a good word for Tanlac and I would like to urge the boys of the 'Sixties' who are not feeling right to give it a trial, for I am sure it would put them in line again just as it has me. For a man of my age to have no physical ailment, to be well and strong and enjoy life as he did twenty-five years ago, is certainly something to be thankful for and there is nothing too good I can say for Tanlac."

Tanlac is sold in Sanford by the Union Pharmacy and leading druggists everywhere.—Adv.
