

Spying Hoover Axed Later Used: Sources

WASHINGTON (AP)—A secret White House plan to spy on domestic radicals, rejected once at the insistence of former FBI Director J. Edgar Hoover, later was put into practice, say sources close to the Watergate investigation.

Two sources, one of whom said he had seen the plan, described it as providing for an undercover team made up of representatives of various federal agencies who had access to "virtually all agencies of government."

They said the secret agents intercepted mail, tapped returns and

planted informers.

The top-secret text of the plan was locked in a safe-deposit box by ousted White House Counsel John W. Dean III and later turned over to a federal judge.

There were additional Watergate developments Tuesday concerning the CIA's link to the case and on the subject of possible testimony by President Nixon on Watergate.

Gen. Robert E. Cushman, former deputy CIA director, said he was "put upon" by Watergate conspirator E. Howard Hunt when he agreed to give

Hunt aid which was used subsequently in the burglary at the office of Daniel Ellsberg's psychiatrist.

At the White House, Press Secretary Ronald L. Ziegler said it would be "Constitutionally inappropriate" for the President to testify before the grand jury or Senate Watergate investigators.

Asked about the domestic-intelligence plan, Deputy Press Secretary Gerald Warren would not go beyond a lengthy statement in which Nixon last week discussed the Watergate scandal.

Gunter Talks About Issues

By JANE CASSELLBERRY
County Editor

Freshman Congressman Bill Gunter took time out of his hectic schedule today to express his opinions on several issues of current interest in an exclusive interview with The Sanford Herald.

WATERGATE

In reference to court-martial charges filed Tuesday by Air Force Col. Theodore W. Guy against eight Army and Marine enlisted men for "misconduct while in a North Vietnamese prison camp," Gunter said he should look very carefully at what happened. "There was a lot of pressure on the POW's and torture was terrible. I would hope we would understand what some of them went through," he stated.

AMNESTY

Gunter revealed he does not believe in blanket amnesty for draft evaders. "The issue is very clear, of the group who followed the call of the nation some lost limbs, were wounded or gave their lives, and now you can not turn around and give blanket approval and be forgiven," he commented.

"Separate commission should be set up to give each

LOVE BUGS

As to that amorous pest—the

CONGRESSMAN GUNTER

"Love Bug"—Gunter stated that as a State Senator he supported legislation along with State Rep. Eugene Mowmy to fund research for its eradication. "I am trying to be supportive with the state and the Love Bug research field. I did talk with people at the university to see if they could be helpful. "No state funds will be sufficient and I have contacted both the Senate and House Appropriations Committees. I contacted Gov. Askew and he supports the appropriation and that as the on-going research will be continued," Gunter concluded.

Generators Near Point Of Breaking

MIAMI (AP)—Unseasonably warm, humid weather coupled with a shortage of working generators is straining Florida's power supply to the breaking point, officials say.

Some sections of the state, especially the Miami area, are being warned of possible brownouts or blackouts.

A series of short power failures and brownouts were reported in isolated areas Monday and Tuesday. Citizens and industry across the state were urged to cut down the use of electricity.

Officials said the weather is causing an increased demand for power to run air conditioners. The increased demand is difficult to meet because some generators are down for repairs, they say.

Big Fish Yanks 1 Into Bay

ST. PETERSBURG, Fla. (AP)—An unidentified youth is reportedly missing in Tampa Bay after being yanked from a jetty by a large fish he had just gigged, police say.

Police said witnesses told of seeing the youth, apparently in his mid-teens, spear the fish late Tuesday night. The youth had a line tied from the gig to his wrist and was jerked in, officers said.

Witnesses said another youth jumped into a car and sped away after his companion disappeared.

U.S. Coast Guard officials say they received a similar report and would be searching the bay today with helicopters and launches. Police said they would join the search while also looking for the other youth.

"What everybody is afraid of is that if Miami goes down, too big chunks of the state will be blacked out," said T. Marty Ervin, executive director of the Florida Public Service Commission.

"Most of the companies involved will get through all right, but it means they can't supply (additional) power to Miami," he said.

Citizens were warned that the crisis could last at least another week unless the weather changed.

Flying Golf Balls Land Man In Jail

By GARY TAYLOR
Herald Staff Writer

All good golfers know you are supposed to yell "fore" while preparing to send the small, white, semi-guided missile on its way—especially if there are people in front of you.

While the custom is usually just a matter of courtesy, some area residents have been "hit" with problems caused by at least 354 cases of apparent failure to take the proper precautions before hitting a shot.

Longwood Driving Range owner Donald Briola was arrested Tuesday night on charges of malicious injury after a sheriff's office investigator responded to pleas for help from residents down-range from Briola's eager customers.

The arrest came after investigation by Detective Robert Kunkler, who said residents of four houses on Florida Avenue in Longwood complained about the golf balls hitting their houses, cars, and in some cases inflicting personal injury.

Kunkler said the driving range is located at the corner of Florida Avenue and U.S. 17-92 and that patrons hit balls over a fence into the homes located on the south side of Florida Avenue.

The 354 golf balls landed in the yards of two of the residents over period of approximately three months.

Kunkler said on one occasion he was in one of the yards for about a half hour and watched five balls land in that yard.

He said complaints came from all four houses and that they had complained to the owner of the golf range first and then to the Board of County Commissioners and zoning board before calling the Sheriff's Department.

Commissioners 'Get' Their Day In Court

By CHRIS NELSON
Herald Staff Writer

Seminole County commissioners will get their day in court, possibly Thursday—but the board members are not jumping with joy at the chance.

The commission, specifically former chairman Greg Drummond, has been hauled into Judge Dominic Salfi's civil claims court by two developers claiming retroactive application of a zoning regulation against them in 1972.

The case caused some jovial embarrassment for current Chairman Sid Vihlen, Jr., as he was served with a subpoena to appear at the trial during Tuesday's regular commission meeting.

Vihlen, commenting "it's a very important case," endured a few moments of his colleagues wit, then promised he will show up.

The case stems from a temporary halt in building permits ordered by the board while considering lowering permissible density in residential zoned property from 20 to 13 units per acre.

The plaintiffs, Lawrence J. Jackson and Arthur J. Nicholson, owned apartments on property zoned at the time for 20 units per acre, and are challenging the legality of the temporary permit halt.

County Schools Lacking Hydrants

By JEAN PATTESON
Herald Staff Writer

No fire hydrants are available in 13 Seminole schools, according to a report made to the Board of County Commissioners, May 21. The report stated: "Paragraph 7.06 of the Seminole County Utility Regulations requires that for institutional protection there should be available 1,250 gallons per minute with a 20-foot per square inch residual in the lines.

"Regardless of pressures, an 8-inch to 12-inch main is required and unless a pumper is used, at least two hydrants are required—also two hydrants are needed to cover all parts of most school buildings since 400 to 500 feet is the maximum distance fire hoses should run," the lack of adequate fire hydrant protection has not created "any excitement" said Seminole school system's director of auxiliary services, Hugh Carlton. "All schools are protected by fire protection provided by the state," said Carlton. "It takes less than one and a half minutes to clear any school in the county," he continued. "All schools have fire drill four times a year and times are recorded. The routes are posted and the children trained to use them. It's organized and orderly," he said.

Carlton admitted that while the children are in no danger, the school buildings would probably burn down without fire hydrant protection.

He said it is not possible to have hydrants at all schools as in the less developed areas there is no adequate water supply, but as soon as an area develops the report on the

School Supt. Bud Lauer said he would try to rectify the matter. "We would have to work through the county, the municipalities, and the developers," he said.

School Board Member Davis Sims said it was brought to the attention of the board in January that the English Estates school in Fern Park had no hydrants at the next meeting.

"We wrote to Lauer," he said, "and checked with the fire department and county commissioners. We dealt with that one school," he said, "and I will make a note to bring up the matter of the other schools with no hydrants at the next meeting."

No county commissioners were available this morning for comment on whether they intended working toward installing adequate fire hydrant protection in all Seminole schools.

Weather

Yesterday's high 87 low this morning 72. Partly cloudy through Thursday with a chance of thundershowers during the afternoons and evenings. Highs in the low to mid 90s. Low tonight in the mid 70s.

Unseasonably cool weather accompanied by front in some places, chilled the north-central states today as the violent storms of the previous five days subsided.

Sanford Council Actions

By BOB LLOYD
Herald Staff Writer

Sanford city commissioners have received a request that parking be limited to only one side of congested West 13th Street in a portion of the black business community.

Alfred DeLattibaudiere made the request on behalf of Seminole Neighborhoods United Council. He said the action is endorsed by a number of businessmen, who he declined to identify.

The council request said W. 13th Street cannot safely accommodate two-way traffic plus two-way parking because of the width of the street.

DeLattibaudiere detailed a recent accident involving two trucks on a section of the street where cars were parked on both sides of the street. He said the trucks brushed mirrors because of the limited width of the traffic lanes.

Commissioners asked for council's recommendation on which side of the street parking is proposed prohibited and were told it should be decided by the city.

Mayor Lee Moore referred the council request to Police Chief Ben Butler and city engineer Mack Lazebny for study and recommendations.

DeLattibaudiere also presented petitions bearing 467 signatures asking for a traffic signal on French Avenue (U.S. 17-92) at Ninth Street.

Commissioners agreed to again ask the State Department of Transportation to study the intersection with regards to need for a traffic signal. An earlier report by DOT failed to find the need.

Commissioners said the intersection may now warrant a signal since traffic has increased and the Police Administration building is being constructed at the location.

Condemnations

Commissioners held public hearings on 26 structures throughout the city that have been condemned because they fail to meet Southern Standard Building Code standards.

Owners of 23 of the structures were given 90 days to bring the buildings up to standards or demolish them.

Commissioners voted to order immediate demolition of three structures. Two of the structures, at 1810 W. 15th St. and 1806 W. 15th St. are owned by the reportedly defunct Florida Urban Development Corporation. The third, at 806 W. 13th St., is a house owned by Susan H. Williams that has collapsed, according to city building officials.

Zoning Actions

Commissioners voted, after public hearings, to rezone: —Gregory Lumber Company property between Fifth and Sixth Streets and Holly and Maple Avenues from multiple family to general commercial. The rezoning and planning commission had recommended restricted industrial zoning but City Atty. Vernon Mize said a lumber storage building to be built by Gregory can be constructed in the general commercial zone as a conditional use.

Five acres north of U.S. 17-92, west of the 17-mile subdivision section four from single family to multiple family. The tract is scheduled for development with condominiums with a density of five units per acre.

Property on the northeast corner of Cypress Avenue and Seventh Street, from single family to multiple family residential, office and institutional district to permit construction of a new Elks Lodge which replaces a structure voluntarily demolished several years ago.

Three acres between Chase and Lake Avenues and 24th Place and 26th Street from single family to multiple family residential to allow construction of an apartment complex by Donald Howe.

Commissioners voted to deny a request by J. N. Azzarello for change in zoning from restricted commercial to general commercial for two lots on the west side of Sanford Avenue south of 25th Street.

Action on a request for change from multiple family to general commercial zoning for a parcel south of Lake Mary Boulevard, west of U.S. 17-92 and north of Lake Minnie was tabled at the request of the applicant. The request was denied by the zoning and planning commission although it was recommended to them by the city commission since an adjoining tract has been rezoned commercial for a small shopping center at the southwest corner of the Lake Mary Boulevard — U.S. 17-92 intersection.

Other Actions

Commissioners reappointed Dr. John F. Darby to a two year term on the city civil service board.

An industrial tract west of Airport boulevard and south of McCrackin Road was annexed at the request of Sanford-Seminole Development Company.

Commissioners agreed Seminole Boulevard should be made a through street at the North Park Avenue intersection on the lakefront since courthouse construction is complete.

During construction the intersection was made a three-way stop.

Lazebny reported Bunby and Stimpson Construction Company will begin this week on the "big dig" sewer interceptor main that will serve over 6,000 new dwelling units in the city's southwest quadrant.

Lazebny said construction will start at Second Street and Poplar Avenue and go south along a former railroad right-of-way to a point near West 26th Street.

Commissioners approved the contractor temporarily locating a trailer office at city property south of W. 16th St. near Goldsboro Elementary School.

Utility Plant Hearing In Five Weeks

Commissioners ordered a public hearing in five weeks for the failure-plagued Weathersfield Water Plant, run by Ecological Utilities.

Noting that the hearing will deal only with the water plant, after repeated public complaints due to pressure shortages, inspector Ray Parmelee voiced fears a fire could create a crisis sufficient to knock the entire plant out of operation.

HEALTH MATTERS PERSUED

While the board postponed for another week consideration of the proposed county health council bylaws, Commissioner John Kimbrough announced bids will be advertised next week for construction of the proposed 25-bed mental health unit.

Official state approval for the addition to Florida Hospital North in Altamonte Springs has been received, Kimbrough said. The mental health unit will be used to treat persons picked by the Sheriff's department pending a sanity hearing — or their release.

Mentally disturbed people requiring confinement are currently held in county jail until they can be shipped to a hospital for treatment.

Kimbrough, noting a 1970 bond issue of \$200,000 for the unit, said rising construction costs will probably push the budget beyond the estimates, and suggested designating a federal revenue sharing fund to offset the increases.

In other police action Howard Stanley Calkins, 25, of Daytona Beach, was arrested Tuesday night in Casselberry, and is being held under \$10,000 bond for violation of probation for Orlando Drive, and lodged him in the county jail under \$8,000 bond.

Sanford police arrested Peter Lee Fleishman, 18, at his residence, Apt. 3, San-Mo Central Trailer Park, 3815 S. Orlando Drive, and lodged him in the county jail under \$8,000 bond.

In other police action Howard Stanley Calkins, 25, of Daytona Beach, was arrested Tuesday night in Casselberry, and is being held under \$10,000 bond for violation of probation for Orlando Drive, and lodged him in the county jail under \$8,000 bond.

Three Maitland runaways, two 15-year-olds and an 11-year-old, were arrested at a motel on the 18-mile north-south highway in the city, said rising construction costs will probably push the budget beyond the estimates, and suggested designating a federal revenue sharing fund to offset the increases.

On the proposed health council board, Kimbrough said the board has been overwhelmed with applications to sit on the state and federally required board, which he hopes to keep down to 10 medical experts among 30 to 50 members.

Hanson's Trial Is Delayed

The Sanford Herald reported that the trial of Hanson is being delayed until next week.

Police stated the boat and caught the three boys, who were turned over to juvenile authorities. Among other items was a motor from a sailboat in the marina.

Todd Sloan, 2611 Grove Drive, Sanford, reported the theft of a \$1,000.50 check from a semi-truck owned by International Carriers of Hialeah and parked at the Sanford Farmers Market.

Mrs. Celia Waters, 176 Ronnie Drive, Altamonte Springs reported items worth \$728 were taken from her residence, including silver in a mahogany chest, a 38 caliber revolver, watch and silver platter.

Adair called "of concern" the two of the five organisms reported by the Fluors Laboratory — pseudomonas and proteus organisms.

Commissioner Greg Drummond, who had hunted in past weeks he felt area sewage treatment plants were the culprits, urged a "maximum effort" by state officials to pinpoint the sources.

While initial studies indicated the Maitland treatment plant might be a source of pollutants via the Lake Howell drainage canal, Adair's latest report noted test jets planted in the sewage collection system had failed to reappear.

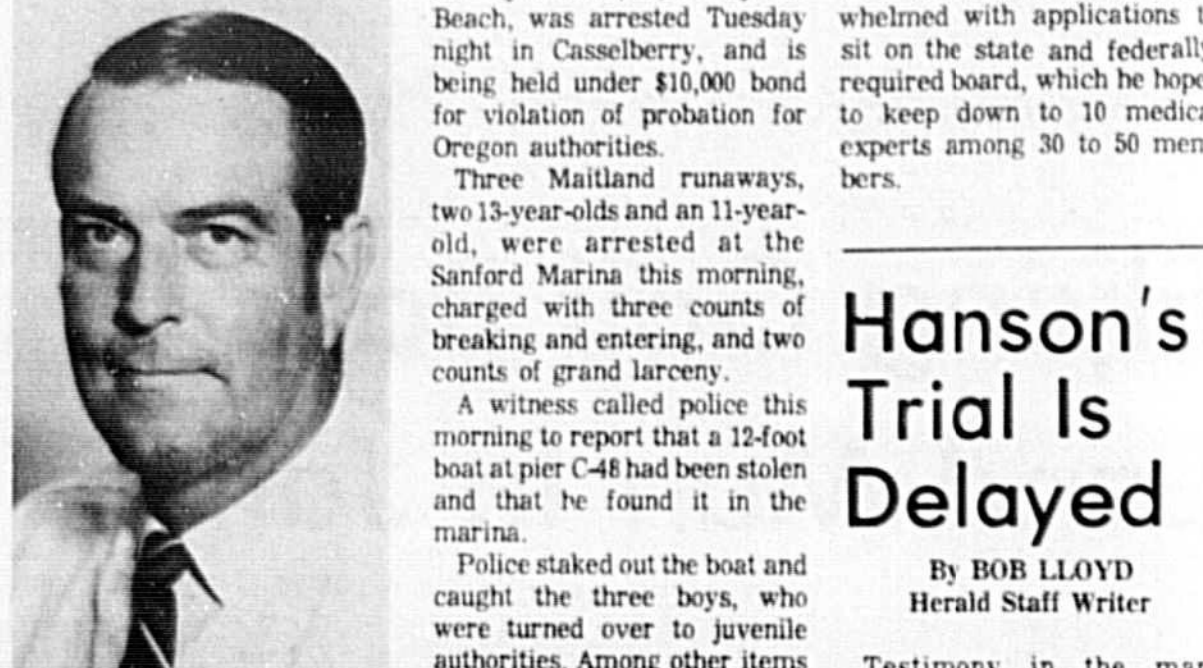

Adair last week told the board Orlando may hold the long-range key to solving the pollution problems — as soon as it decides among alternative sites for regional sewage treatment plants.

The regional plants — possibly including a South Seminole facility at Iron Bridge — would eliminate the small plants throughout the area, including the Maitland plant.

A radio and sterling silver worth \$290 were reported stolen by Dorothy Pavesich, Apt. 901, Semerom North Apartments, Casselberry.

Hanson is charged in a May, 1971, traffic accident at Red Bug and Tusculwilla Roads, in which two children were killed. Kirkland told the court his morning he needed more time to question witnesses about state's allegations that the headlights of Hanson's car were not burning at the time of the collision during a rain.

The headlight allegation was introduced for the first time by Brock at 10 a.m. today.

BILL BUSH, crossing survey

Pollution Ails Hit

Sanford city officials are taking steps to deal with pollution problems in the city.

Sanford City Pollution Control Officer Langley Adair will meet with state officials in Orlando today to discuss — if anything — can be done to prevent pollution sources of Lake Howell.

Adair Tuesday night presented commissioners with a report ordered three weeks ago when the lake was officially "posted" because of micro-organisms the board feared would eliminate the small plants throughout the area, including the Maitland plant.

While initial studies indicated the Maitland treatment plant might be a source of pollutants via the Lake Howell drainage canal, Adair's latest report noted test jets planted in the sewage collection system had failed to reappear.

Adair last week told the board Orlando may hold the long-range key to solving the pollution problems — as soon as it decides among alternative sites for regional sewage treatment plants.

The regional plants — possibly including a South Seminole facility at Iron Bridge — would eliminate the small plants throughout the area, including the Maitland plant.

A radio and sterling silver worth \$290 were reported stolen by Dorothy Pavesich, Apt. 901, Semerom North Apartments, Casselberry.

KEEPING AN EYE on our planet from down under, a new space tracking antenna of the U.S. National Aeronautics and Space Communication Complex near Canberra, Australia. The 64-meter-diameter antenna is part of a projected three-station global network including the existing station at Goldstone, Calif., and one under construction near Madrid, Spain. The stations will monitor deep-space probes such as the current Pioneer 10 and 11 missions to Jupiter.

Letters To The Editor

Maternity Defended

Editor, Herald: Reference Article entitled "Maternity Leave Policy Questioned," May 22, 1973.

I am one of those whom Jean Bryant—that self-appointed guardian of the public's sensibilities—has labeled as take herself out of a classroom situation and not realizing "her own physical incapacity." Shameful as it is, I must admit that I am a pregnant teacher. I considered digging a hole and crawling in for the duration of my "shameful condition." Then I realized I have a two-year-old and a husband who enjoy eating. I decided to keep a stiff upper lip and work right on—suffering all the humiliation, ridicule, and pain Ms. Bryant associates with pregnancy.

"It is not good for children to see every day, especially in secondary schools where they must ridicule her condition," says Ms. Bryant. Jean should not be so narrow in her own personal traits into innocent children. I asked a class of 20 students whether they had seen their mothers pregnant. A startling twelve had actually witnessed the big tummy and all—every day. Of course, the fact that my 130-odd students have never once felt compelled to ridicule me is no fair standard by which to judge the validity of Ms. Bryant's statement. Somewhere there must be one poorly adjusted student who would ridicule pregnancy and therefore justify a rule that pregnant teachers be kept out of sight.

School board officials are responsible for running the business end of the schools. They are not elected to legislate morals. If Jean Bryant feels that she must interfere upon the rights of others by imposing her

Victorian Code of Ethics on them, she should have enough sense to take herself out of her public position and realize her own mental "incapacity" to function in her office. What's good for Jean Bryant is not necessarily good for the school system. Anyone who seeks to foster the attitude of pregnancy as shameful, unnatural, and unfit to be seen in the schools can only set us back and certainly never move the system forward.

(Name withheld by request)

Thank You

The Sanford Herald: On behalf of OUTLOOK Central Florida's Board, we want to commend the Sanford Herald for its sensitive reporting of events concerning Julie Nixon Eisenhower's recent visit to our school.

OUTLOOK is dependent upon the newspapers to achieve its goal of utilizing all possible media for helping the "non-disabled" and "handicapped" members of our community feel more comfortable with each other.

Julia's interest in OUTLOOK's program dates back to when her mother and her family friend, Pat Hitt were introduced to the first OUTLOOK program in Nashville, Tenn., at a luncheon in the home of OUTLOOK Nashville's President, M. J. Fowler Hollaway in 1968. Mrs. Hitt, as Assistant Secretary of the Community and Field Services in H.E.W., reviewed OUTLOOK's program which she received H.E.W. grants from the Department of Public Health and Older Americans Act to develop its concept of involving the total community in social habilitation and rehabilitation of its hand-

icapped families. Mrs. Hitt introduced OUTLOOK to Central Florida at our 1972 banquet and has kept Julie informed of our activities. It was through her influence that Julie accepted our invitation last January to speak at OUTLOOK's second annual banquet at Walt Disney World on May 1.

Those who became acquainted with Julie Nixon Eisenhower and had the privilege of hearing her speak were impressed with her sincere concern for others as fellow human beings. We feel her ability to "focus on the person" not the handicapped persons and their families in normal daily life experiences and social contacts.

When the time comes that the membership of all community groups include at least 10 per cent with physical, mental or emotional disabilities, we will know our community really understands and accepts its handicapped citizens. Central Florida will attain this goal sooner because Julie was willing to come and let us know she cares.

Henry and Elsa Eliss Co-Directors, OUTLOOK Central Florida, Inc.

SISTERS

Editor, Herald: Please accept the sincere thanks of SISTERS, Inc. for the outstanding publicity given in your newspaper to the recent Downtown Sidewalk Sales.

Without such publicity we are convinced that the success of this event would not have been as great.

Sidewalk Sales 1973 was bigger and better than ever! Sincerely yours, Mrs. Fred Stein, Downtown Sidewalk Sales

Tarzan Lives In Pepper Tree Where?

By JOHN SINOR
Copley News Service
Here's bright news for a spring day. I ran into Tarzan again yesterday. He is alive and well and living in a pepper tree in my neighborhood. I hadn't seen him for at least five years, and the last time we met he was a redheaded youngster. Yesterday he had brown hair. He's younger now, too. About 5 years old.

Volusia Growth Discussed

Alan Dakan, county attorney for zoning, the speaker Saturday afternoon at the fifth in the series of DeBary Republican Club meetings on good government, said the expected increase in Volusia population to 530,000 in 10 years means 200,000 will be in the fast growing residential area between Deland and Lake Monroe.

Dakan in naming the problems facing zoning workers in managing this rapid growth mentioned present uncoordinated scattered development, the increased cost of public services, determining how and where these shall be supplied and the protection of vital natural resources for future needs.

Most Important Show In Town House, Senate Discussing Budget

By TOM RAHM
Associated Press Writer
TALLAHASSEE, Fla. (AP)—This week the House-Senate conference committee on the budget is the most important show in town, and there's little doubt in anyone's mind who's running it.

Sen. Robert Saunders, D-Gainesville, is chairman of the committee but Rep. Marshall Harris, D-Miami, is the boss. Saunders, relatively inexperienced in the art of appropriations until he was named earlier this year to head the Senate Ways and Means committee, has the conference post solely because tradition dictates the chairman be from the Senate side.

nomination are closed. Congratulations, Sen. Saunders.

Neither Saunders nor Lane said a word. Harris has apparently learned from past experience that the best way to move a budget through a conference committee is to hurl the figures so hard and furious that the Senate conferees duck for cover.

budget compromise. Sen. Ken Myers, D-Miami, chairman of one of the subcommittees may have given some insight into the process after the group finished considering the budget of the Division of Youth Services.

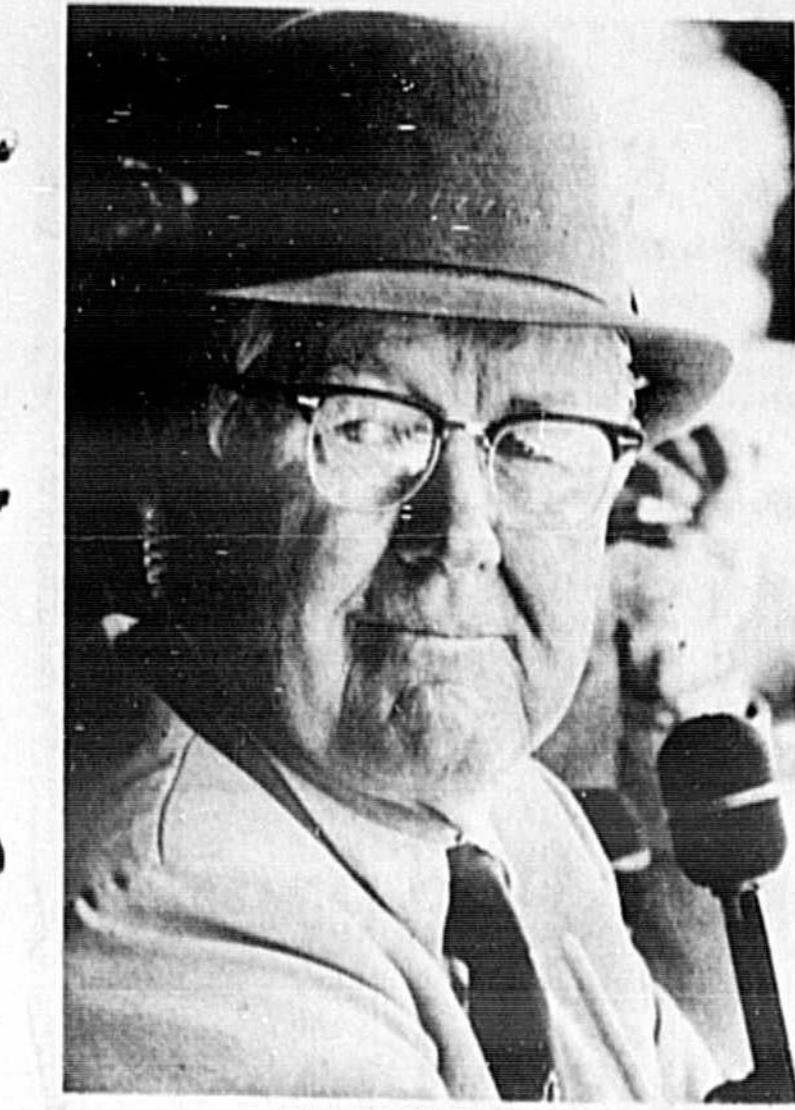

He suddenly stopped and stared at the attractive blonde sitting next to division Director O.J. Keller. "Is she your daughter?" exclaimed Myers.

vote that had already been reconsidered once — a no-no under Senate rules, Horne immediately proclaimed.

But Plante immediately quoted chapter and section of the rule book. It seems that a measure can be reconsidered if on the first reconsideration the Senate reverses an earlier position—which had been the case.

BYRON NELSON
... Golf has changed

San Francisco Dollar Drain 'A' Big Pain

By BILL CONLIN
Copley News Service
SAN FRANCISCO—Because he thinks Charlie O. Finley ruined the neighborhood, Horace Stoneham's aversion to the Oakland owner is well-known.

Squire Stoneham calculates that Finley's entrance into the Bay region has cost him \$300,000 a year in attendance. Since the Giants lost \$600,000 last season, it is understandable why their majority owner is vexed because Finley didn't choose to relocate his Kansas City franchise in Seattle, Toronto or Dallas (where he had the chance).

Stoneham and Finley don't commune. Finley has visited Candlestick Park to a cool reception, but Stoneham won't set foot in Charlie's ballpark. Therefore, as is being suggested, how will the rival owners get together to compromise the situation that finds one too many major league franchises on the banks of the Bay?

The proposal is being made that BOTH the National and American leagues indemnify one of the clubs, picking up its existing lease and making possible a removal to the new domed stadium in New Orleans so that the remaining club can sail less troubled seas. The absence of communication may not, however, be as serious as it seems.

Miami U. Ousted In NCAA
STARBUCKVILLE, Miss. (AP)—Georgia Southern whipped Miami of Florida 4-1 Tuesday in the final game of the NCAA District 3 playoffs to move into the College World Series at Omaha, Neb., starting June 8. It was the second time Georgia Southern had beaten Miami in the district tourney. In their first game last week, Miami was shut out 1-0. Ranked sixth nationally, Georgia Southern lost its first game to Vanderbilt last week, then came back to win three consecutive games. Georgia Southern scored three runs in the fourth inning when a single by shortstop Jorge Perez sent two home and the other made it in a Miami error.

Byron Nelson Tells It Like It Was...And Is

By FRANK MACOMBER
Copley News Service
Americans want power in their golf just as they do in their automobiles. That's why golf like cars—has changed so drastically in the last two generations.

At 61, Nelson likes to sit around between Professional Golfers' Association (PGA) tour broadcasts and compare "then" golf with "now" golf. Nelson retired from tournament competition in 1946 at the age of 34 after achieving most of the goals he had set for himself. By then he had won the U.S. Open, the PGA Championship, the Masters, the most

wins out of 19 tournaments in a single year—nine of them consecutively. He won 50 major events in 15 years. Nelson shies away from comparing the ability of yesterday's champions with those of today. "Men like Walter Hagen, Gene Sarazen and Tommy Armour were playing a different game in those days of the 1920s and '30s," he emphasizes. However, a note of wisdom creeps into the Nelson voice as he estimates how much he might have won on the tour at today's prize money levels—more than \$8 million this year.

Jonathan Seagull Prevented Rape?

MIAMI (AP)—A Miami legal secretary says she talked an ex-convict out of raping her by reading him the best selling book "Jonathan Livingston Seagull."

The secretary told Circuit Judge Paul Baker Tuesday that Oliver Rocky Smith later gave her his name and license plate number, then traded his knife and mask for a copy of the book.

Smith was found guilty of assault with intent to commit rape. Sentencing was set for June 27.

The secretary testified that Smith forced his way into her car at a Miami shopping center last Valentine's Day and holding a knife to her throat forced her to drive to a wooded area.

Canada Pulls Out Of Peacekeeping

By PETER ARNETT
AP Special Correspondent

SAlGON (AP)—Canada has pulled out of the four-nation Vietnam peacekeeping force because it is convinced North and South Vietnam cannot be reconciled. The Canadian assessment is that the weakness of the cease-fire agreement, the uncooperativeness of the Hungarian and Polish members of the cease-fire commission and the attitudes of both Vietnamese sides must lead inevitably to renewed war.

Senior Canadians in Saigon say it has become more and more apparent that the Vietnamese sides are drifting toward a "fatal acceptance" of a military rather than a political solution to their differences.

Tenant Eviction Bill Filed

TALLAHASSEE, Fla. (AP)—A bill to limit the power of mobile home owners to evict tenants has passed the Legislature and now awaits action by Gov. Reubin Askew.

The Senate passed the bill 30-7 Tuesday after agreeing to a House amendment requiring all mobile homes in the state to be tied-down to their moorings to guard against storm damage.

The bill would:

- Prohibit a mobile home park owner from evicting a tenant except for nonpayment of rent, conviction of a crime affecting the health or safety of other tenants or for violation of reasonable park rules.

Walker-Holloway Wedding Plans Told

Born in Sanford, the bride-elect is the granddaughter of Mr. and Mrs. James Ferguson and Mr. and Mrs. Harry Brown, Sanford.

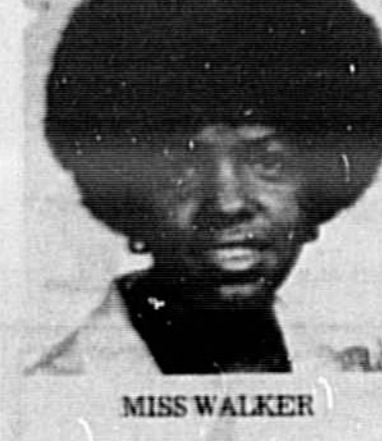

Miss Walker is a 1969 graduate of Crooms High school where she was active in chorus and Tri-Hi-Y. She is employed as a reading criterion assistant.

Her fiancé, was born in San Diego, Cal. is the grandson of Mr. and Mrs. David Campbell, West Palm Beach.

The 24-year-old soldier, businessman and commander, the descendant of coal miner, is expected to marry 22-year-old princess in the fall. November, the month the queen celebrates her 20th wedding anniversary, is being mentioned as the most likely time.

The wedding will be the first for a child of the queen. Court sources said it probably will take place in Westminster Abbey following a royal procession through the streets of London.

Anne is fourth in line of succession to the British throne, behind her three brothers; and Phillips is expected to be given a title.

43 years ago we made a commitment to our customers.

Today it's stronger than ever.

Since our first customer in 1930, it's been the customer first at Publix. We've done everything in our power to make shopping a pleasure for you.

Just walk into any Publix. People smile, genuinely glad to serve you. Floors and counters sparkle. Everything you buy is guaranteed fresh and the selection you can choose from covers just about every taste and appetite. And that's not all.

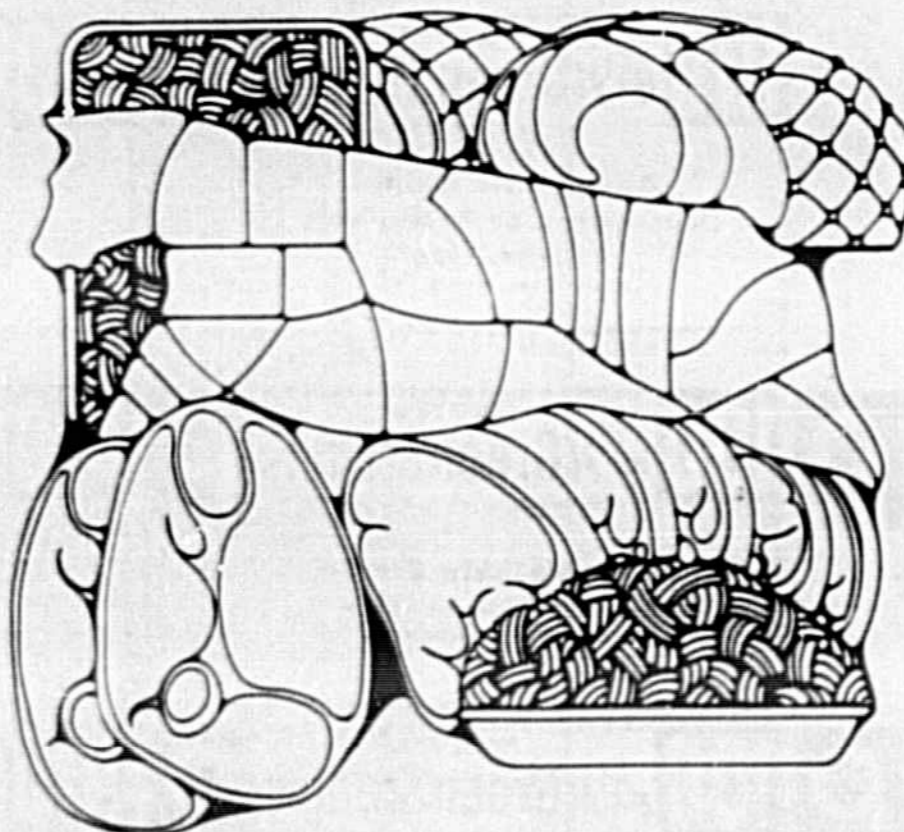

We've always known what you wanted. Satisfaction. And because we've given it to you, you've made it possible for us to grow from one store in 1930 to over 180 in 1973.

Now we're adding to our commitment to you. We want you to be more than satisfied with what you buy. We want you to know

that you've gotten the absolute best you could for the money you've spent.

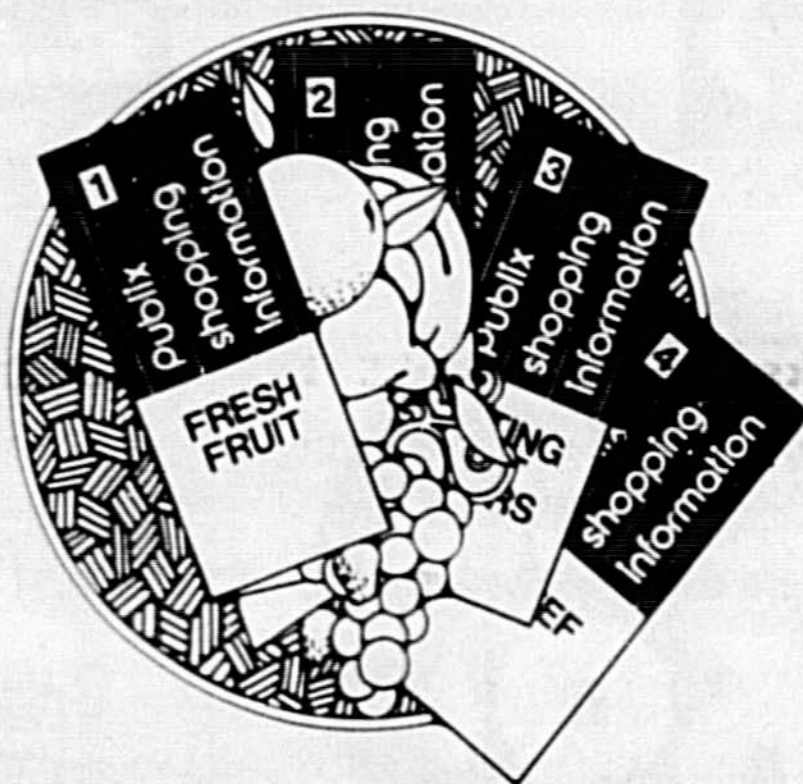

So we've initiated an all-out program to increase your buying know-how. Publix' new Shopping Information Program.

Our staff of food experts is putting their knowledge down on paper to help you be an expert, too. In convenient pocketbook-sized pamphlets we'll be explaining how to get the most for your money each time you shop, how to select produce and beef, how to store and can food. And much, much more.

For instance, we've found that some of our customers aren't sure what to look for in selecting fruits

and vegetables. And there's such a tremendous variety of meat cuts available to you today that you might not know the best ways to prepare and serve them.

Our Shopping Information Program is designed to answer your questions and help you shop better.

You won't want to miss a single pamphlet, so look for a new one each month at the display in your neighborhood Publix. Read them. Save them for easy reference. They won't cost you a thing and could save you a lot of time and money.

We think that stacks up as a big addition to the happy differences you've come to expect from Publix. And we hope you do too.

The Pros And Cons On Nitrates And Nitrites As Food Additives

By GAYNOR MADDOX
Concern over the use of sodium nitrite and sodium nitrate, two of the more spectacular food additives continues. Used under certain circumstances, nitrates and nitrites are valuable. They can prevent the growth of botulism food poisoning, which is usually deadly.

The two additives are used to preserve ham, bacon, frankfurters, luncheon meats and smoked fish. They contribute slightly to their taste and produce the characteristic pink color.

These and the following statements are from the highly valuable book "Eater's Digest: The Consumer's Factbook on Food Additives." It was written by Michael F. Jacobson, Ph.D., in microbiology from the Massachusetts Institute of Technology and currently the codirector of the Center for Science in the Public Interest in Washington, D.C.

In the foreword to "The Eater's Digest," Dr. Jean Mayer, professor of Nutrition at Harvard, says: "There is always a risk in introducing one more unfamiliar chemical into our system—and many such chemicals have not been as thoroughly tested as they could and should have been. Not that new food additives are necessarily more dangerous than the thousands of normal constituents of established foods; cancer and other degenerative diseases existed ever since the human race started, millions of years before the first food additive was synthesized. But any added chemical of necessity increases the risk, albeit by a small amount."

Many chemicals in our food supply are toxic. Nitrite is one of the most toxic. Its toxicity is due to its ability to disable hemoglobin, the molecules in red blood cells which transport life-giving oxygen.

Dr. Jacobson points out that "the food in which nitrite is most likely to be found is ham, because ham provides the oxygen-free milieu in which botulinum grows. The federal government and the meat industry currently are doing experiments to determine if the small amounts of nitrites in ham really inhibit the growth of bacteria or serve only as color fixatives. The nitrite does prevent bacterial growth, usage levels should be set by law to maximize consumer protection and minimize risks. If it does not, it should be banned immediately."

Even A Young Child Can Make A Cake Fit For Dad

A colorful tie may make Dad smile as a Father's Day gift, but something with a homemade touch gives him even more pleasure. An Applesauce Fruit Cake is a chewy, tasty combination of nuts, dates, raisins and homemade applesauce.

APPLESAUCE FRUIT CAKE
2 1/2 cups sifted unbleached flour
1 tablespoon baking powder
1/2 teaspoon salt
1 teaspoon cinnamon
1/2 teaspoon nutmeg
1/2 teaspoon ground cloves

1 cup (1 stick) butter or margarine
1 cup firmly packed light brown sugar
2 eggs
1 cup unsweetened homemade applesauce
1 tablespoon brandy (optional)
2 cups chopped dates (16 ounce package)

1 cup raisins
1 cup chopped nuts
Grease a 9x5x3-inch loaf pan. Line bottom with waxed paper. Sift flour, baking powder, salt and spices together; set aside. Cream butter or margarine and sugar. Add eggs; beat well. Stir in applesauce, brandy (if de-

sired), dates, raisins and nuts. Stir in flour mixture. Turn into prepared loaf pan. Bake in 325-degree oven 1 1/2 hours or until cake tester inserted in center comes out clean. Cool on wire rack about 5 minutes; turn out of pan; remove paper. Cool completely on wire rack right side up. Wrap in plastic film or waxed paper, then in foil. Store in refrigerator.

HOMEMADE APPLESAUCE
Wash 3 pounds tart apples. Quarter without peeling or coring. If in a blossom ends and stems. Place apples in large saucepan or kettle. Add 1/4 cup water, cover and cook over low heat 15 to 20 minutes or until apples are soft, stirring occasionally. Pour off apple juice in bottom of pan reserving it to serve as a beverage or for use in cooking. Spoon apples, a third at a time, into food mill placed over a bowl. Strain apples through the mill. Makes about 2 1/2 cups unsweetened applesauce. Use 1 cup unsweetened applesauce for Applesauce Fruit Cake recipe.
If desired, add sugar to taste to remaining applesauce, stir or heat to dissolve sugar. For added tartness, stir in a little lemon juice and for extra flavor, add cinnamon and nutmeg.

Give Leftovers A Fresh Image And Save Money Too

By SUSAN DELIGHT
Copy News Service

A hefty per cent of the food budget can be wasted in leftovers. And, in these days of high food prices, leftovers which are wasted can bring disaster to the budget.

Leftovers have a poor image which needs to be corrected. Perhaps, this is because they are presented in an unimaginative way. Give them a new aura with an imaginative presentation and their image will change.

Leftover Easter ham can be used in making Vegetable Ham Puff. Frozen vegetables and canned cheese soup are combined with the ham and this mixture is topped with dollops of mashed potatoes blended with egg, sour cream and mustard.

Leftover chicken or turkey can star in Chicken Curry Crepe. The crepes are given an exotic air with curry, powder, and shredded coconut.

CHICKEN CURRY CREPE

2 cups cooked chicken, cut in small cubes
4 tablespoons butter
1 medium onion, chopped
1 teaspoon chopped parsley
1 tablespoon curry powder
1 8-ounce can tomato paste
Salt and pepper to taste
1 cup chicken broth
1 tablespoon cornstarch
1/2 cup cream
1 tablespoon water
1/2 cup shredded coconut

Heat butter in large skillet, saute onion for 3 or 4 minutes, add parsley, curry powder, tomato paste and chicken broth. Add salt and pepper to taste. Cover and simmer 10 minutes. Blend cornstarch in water. When the mixture returns to a boil, stir in the cornstarch, lower heat and stir until well thickened. Add cut-up chicken and cook about five minutes until sauce is thickened again. Stir in coconut and remove from heat.

Put a spoonful or two of filling down the center of each crepe, roll and turn seam side down in a buttered baking dish. Any sauce left in the pan can be spread over tops of the crepes. Bake at 375 degrees for 20 minutes. This sauce may be used for later use.

BASIC CREPE

3 eggs
1 cup all-purpose flour, unsifted
1/4 teaspoon salt
1 cup milk
1/4 cup water
2 tablespoons butter or margarine

Beat 2 eggs well with a fork. Add 1 cup unsifted all-purpose flour and 1/4 teaspoon salt. Continue beating until batter is smooth. Gradually add 1 cup milk and 1/4 cup water, beating again until smooth. Melt 2 tablespoons butter or margarine and set aside.

Before preparing each crepe, brush an 8-inch crepe pan with a little melted butter or margarine and heat over medium heat until just hot, not smoking. For each crepe: Pour in 2 tablespoons batter. Tilt pan from side to side to cover entire bottom of pan. Cook about 1 minute or till bottom side is lightly brown. Turn and brown lightly on other side about 30 seconds.

VEGETABLE-HAM PUFF

One 10-oz. package mixed vegetables frozen in butter sauce that clings
One-third cup chopped onion
One-third cup diced green pepper
One 2-1/2-oz. jar sliced mushrooms, drained
2 tablespoons butter
One 10-oz. can condensed cheddar cheese soup
2 cups diced cooked ham
1/4 cup sliced almonds
One 2-1/2-oz. jar sliced pimiento, drained

POTATO TOPPING

1 cup water
2 tablespoons butter
2 teaspoon salt
1/4 cup milk
1/2 cups instant mashed potato flakes
1/2 cup dairy sour cream
1 egg, slightly beaten
2 teaspoons prepared mustard
1/4 cup sliced almonds
Paprika

Cook mixed vegetables according to package directions until thawed. Saute onion, green pepper and mushrooms in butter until tender. In a shallow 2-quart baking dish, combine sauteed

mixture, mixed vegetables, soup, ham, almonds and pimiento. Decorate the top by dropping spoonfuls of POTATO TOPPING over the casserole. Sprinkle with almonds and paprika. Bake in a preheated 375 degree oven for 30 minutes or until bubbly.

Serves 4.

POTATO TOPPING: Bring water, butter and salt to a boil in a medium saucepan; remove from heat. Add milk and potato flakes; stir only until moistened. Let stand about 1/2 minute or until liquid is absorbed. Blend sour cream and mustard with beaten egg; cream into potatoes.

A Dinner Pop Will Be Sure To Enjoy On His Day

By CECILY BROWNSTONE
Associated Press Food Editor

For Father's Day on June 17, cook a dinner that Pop will be sure to enjoy. In other words, plan a main course of beef and potatoes. Add a vegetable or a salad and a dessert that he particularly likes and he's bound to be appreciative of your efforts. For the meat choose a standing beef rib roast weighing 6 to 8 pounds and including the first two or three ribs. Place the roast, straight from the refrigerator and fat side up, in a shallow roasting pan. Roast in a 125-degree oven to desired doneness. The meat thermometer will register 135 degrees for rare (20 to 25 minutes per pound); 155 degrees for medium (25 to 30 minutes per pound); and 165 degrees for well-done (30 to 35 minutes per pound). Let the roast stand in a warm place for 15 to 20 minutes after removal from oven and before carving.

For the accompanying potatoes, you may wish to use the following luxurious recipe.

Some 12 years ago when I first made a journey to Paul Masson's main winery in Saratoga, Calif., naturally, I had to learn all about the grounds of Masson's chateau, the site of the original cellars. Recently, I phoned Dean Jennings, the public relations man for Masson, asking if he could arrange for someone to answer my queries about the latest wine information on the near-century-old company.

"Of course, Mary. How long will you be in the area?"

"How about staying at the chateau?"

The chateau! This abode has always been considered the sanctum sanctorum of the elite. Staying there, where Paul Masson has lived, was a stimulating idea. Would I learn all the inside scoop?

I did; and I probably would have garnered as many facts without enjoying the luxury of a five-bedroom, four-bath hacienda, featuring all sizes of fluffy red towels with white Paul Masson lettering, welcoming one guest — me.

There were 300,000 visitors to the winery in 1972 as compared to half that in 1970. The sales figures have risen 25 per cent compared to the same 30-day period a year ago. One of the visible statistics always bringing oh's and ah's to the guests was the remark that "three million bottles of champagne lie stacked and aging here." Within the past four years it has increased to a phenomenal seven million.

Paul Masson offers 60 wines to taste. Each guest has his favorite: Emerald Dry, Rhine Castle, Rubicon, Crackling Rose, Garmy, Beaujolais, Pinot Noir. I am familiar with many.

However, I have never before visited Paul Masson's private wine cellar, gazed at the photographs of such illustrious friends of his as Anna Held and the Flamingo Girls and nervously sensed that the eyes of a large portrait of the bon vivant himself were following and watching me. Really, Monsieur Masson!

Diary Entry Describes California Gold Find
Los Angeles—A little over 125 years ago a workman at Sutter's sawmill in the Sierra Nevada foothills made a brief entry in his diary that marked an event that was to change the course of Western history.

Henry W. Bigler wrote: "Monday 24th (January 1848), this day some kind of metal was found in the tail race that looks like gold first discovered by James Wadsworth, the boss of the mill."

Bigler was referring to James W. Marshall, whose finding of a few flakes of yellow metal started the California gold rush.

"AJAX" HOUSEHOLD CLEANSER REG. CAN **17¢**

SUPER MASHED POTATOES
1 1/2 pounds baking-type potatoes, peeled
Salt
1 clove garlic, peeled
3 tablespoons butter
1 egg yolk
1/4 cup light cream
1 pound mushrooms, sliced and sauteed in butter
2 tablespoons minced parsley
White pepper

Boil potatoes in boiling water to cover with 1/2 teaspoon salt and the garlic; drain. Mash potatoes well and add 3 tablespoons butter, egg yolk and cream. Fold in mushrooms and parsley. Add salt and pepper to taste. Keep warm in oven until ready to serve. Makes 4 to 6 servings. Recipe may be doubled.

100 recipes are given in the illustrated "Cecily Brownstone's Associated Press Cookbook" available by sending \$4.95 (check or money order made payable to "The Associated Press") to this newspaper in care of AP COOKBOOK, Box 64, Teaneck, N.J. 07666.

Visiting Masson Chateau

By MARY LESTER
Copy News Service

Once upon a time, in 19th Century Burgundy, a man was born on Valentini Day. He became the purveyor of good spirits, 365 days a year, to millions of his fellowmen. The man's name was Paul Masson and his fame and reputation justifiably lives on today with the sparkling and still wines carrying his inscription.

Some 12 years ago when I first made a journey to Paul Masson's main winery in Saratoga, Calif., naturally, I had to learn all about the grounds of Masson's chateau, the site of the original cellars. Recently, I phoned Dean Jennings, the public relations man for Masson, asking if he could arrange for someone to answer my queries about the latest wine information on the near-century-old company.

"Of course, Mary. How long will you be in the area?"

"How about staying at the chateau?"

The chateau! This abode has always been considered the sanctum sanctorum of the elite. Staying there, where Paul Masson has lived, was a stimulating idea. Would I learn all the inside scoop?

I did; and I probably would have garnered as many facts without enjoying the luxury of a five-bedroom, four-bath hacienda, featuring all sizes of fluffy red towels with white Paul Masson lettering, welcoming one guest — me.

There were 300,000 visitors to the winery in 1972 as compared to half that in 1970. The sales figures have risen 25 per cent compared to the same 30-day period a year ago. Ehrlichman Blames CIA

Aide Denies Asking For Spy Help In Hunt Burglary Of Ellsberg Files

By BROOKS JACKSON Associated Press Writer WASHINGTON (AP)—John D. Ehrlichman blames a former deputy director of the Central Intelligence Agency for its role in the Watergate cover-up.

meeting in June 1972, shortly after the Watergate raid. Haldeman and former CIA Director Richard Helms also were at the meeting.

The Sanford Herald Thursday, May 31, 1973—Sanford, Florida 32771 65th Year, No. 232 Price 10 Cents

WATERGATE COMMITTEE in session, the big picture as seen by AP Wirephoto, from left, Sens. Gurney, Baker, Talmadge, Weicker, Montoya, Chairman Ervin, Inouye.

County Officials Facing Pay Slice

TALLAHASSEE, Fla. (AP)—County officials would receive higher salaries but lose lucrative supplemental sources of income if the Senate goes along with a bill passed by the House.

This bill will result in a salary cut for some officers," said Rep. Ralph Turlington, D-Gainesville. "But in all candor, some of them should be cut."

The bill would base an official's salary on his county's population, and he would be eligible for annual increases if the state's yearly census moved his county into a higher population bracket.

Happy to report that John Mercer—genial "weep" at the United States Bank of Seminole is happily on the mend following his recent visit to the Seminole Memorial Hospital.

From another caller—"Did you know that the reason we've been having those 'blackouts' late in the afternoon? It's being caused by the utility people deliberately taxing the generators above and beyond their normal capacity, trying to learn just how far they can be pushed before they 'knock out'."

Held Under \$50,000 Bond Accused Drug Chief Nabbed

ACCUSED DRUG PUSHER HAUSSMANN ... Led into jail for booking by officer

By GARY TAYLOR Herald Staff Writer An 18-year-old DeLand youth described by Seminole Sheriff's Capt. C.B. Fagan as one of the most dangerous drug pushers was arrested Wednesday and jailed under \$50,000 bond on eight charges.

John Greg Haussmann, 106 E. George St., was picked up at 4:25 p.m. in a Sanford restaurant by Fagan and Sgt. Roy Williams, said Fagan. Fagan said 75 per cent of the flow of PCP, LSD and marijuana into Sanford has been stopped by the arrest, at least until someone else moves in and takes over.

Jaycees Urging Park Development

The South Seminole Jaycees have urged the county commission to "move ahead with development at Big Tree Park. . . (which is) large enough that you can do most anything with it."

The recommendation was made to the county after consideration of surveys forms circulated by the Jaycees to area residents. In releasing the percentages, the business men's organization stated the hope the county will take the results into account in the development of new parks at budget meetings in July.
