

# Giant Petroleum Firms Pay Off Alaskans Pocket \$900 Million

By TOM BRILEY  
Associated Press Writer  
ANCHORAGE, Alaska (AP) — The world's giant petroleum firms have put up more than \$900 million in bids for leases on Alaska's North Slope oil fields, and the money goes to work to day drawing almost \$450 million very interest for the state.

Miller and other state officials said the windfall would put Alaska on the road to financing major needs.

Giant combines involving such billionaires as J. Paul Getty and H. L. Hunt submitted apparent high bids on the choice tracts close to three discovered wells on the coast of the Arctic Ocean—where temperatures hit freezing on the day of the biggest oil lease sale in U.S. history.

The state opened bids on 170 tracts totaling 450,858 acres of land in the Prudhoe Bay area, where the biggest oil field on the North American continent was discovered last year, about 200 miles north of Fairbanks. Initially, the top bids averaged \$1.97 per acre.

Alaska still has 890,000 acres of oil land to lease, but the government indicated it is in no hurry to dispose of it now.

State officials put off until today decisions on which, if any, of the bids to reject. Rejections were not expected to alter the total money figure significantly.

Getty and Hunt, two of the richest men in the world, combined with three other oil interests to post the largest single bid—\$72.3 million for one 2,560-acre lease. That was \$28.25 per acre, the largest per-acre bid ever offered for U.S. oil land.

The Getty and Hunt interests combined with Amerasia-Hess Oil Co., Louisiana Land and Exploration Co. and Marathon Oil Co. on the record single bid. Getty lives in London, Hunt in Dallas.

The successful bidders had to put up 30 per cent of their bids in cash, and must come through with the rest in 30 days.

The money on the table at the Municipal Auditorium was in the form of bonus bids.

# Army Probing Charges Of Kickbacks To NCOs

By BOB HORTON  
AP Military Writer

WASHINGTON (AP) — The Army says it is investigating a professional entertainer's list of pending outcomes of the overall NCO club probe but official sources say a dozen top non-commissioned officers have been being investigated by the command of Gen. Creighton W. Abrams in Vietnam.

Noel said professional entertainers have been required to make under the table payments to uniformed managers of non-commissioned officers clubs.

His other allegations of misappropriation of millions of dollars generated by NCO club fees and credits are the current focus of a Pentagon probe being pushed by Defense Secretary Melvin R. Laird.

Noel said performers have to pay 50 or 10 per cent of their fees, some as much as \$100 a week, in order to get booking assignments from some NCO club managers.

The industry recently stopped an effort to head off federal action by setting its own house in order. But FTC Chairman Paul Rand Dixon says complaints from trade buyers continue and the investigation is being given top priority.

The Washington Star said Noel's correspondence because rights of accused persons might be prejudiced. But he was reported to have named several Army sergeants who demanded the kickbacks in Vietnam.

The commission has directed its staff to review the files and to promptly investigate all indications of violation with a view to recommending issuance of formal complaints where justified, said Dixon in a letter to Rep. Fred B. Rooney, D-Pa.

Rooney has been urging on FTC investigators with files showing, according to Rooney, "that the magazine subscription sales industry is thriving today on misrepresentation and fraud."

Among the instances Rooney cited: —A family which bought five-year subscriptions to five maga-

zines for \$180. The regular rate for the five purchased normally would have been \$120.

—An 80-year-old man who was pressured into buying a 10-year subscription package.

—Purchasers who contract for five magazines for five years, but wind up getting seven magazines for a shorter period of time because publishers are trying to up their circulation on the added publication.

—Customers who are told they are getting the magazines "free" then wind up paying hundreds of dollars over several years for "handling and mailing."

—The renewal of contracts without permission from subscribers.

The incentive for the scheme, according to Rooney, is the infusion of certified circulation figures, the basis for magazine advertising rates.

But the FTC is more concerned about the sales pitches used on subscribers.

The industry set up a year ago, with governmental blessing, the PDS-Paid During Service—code to reverse the practice of installment sales.

A crucial section in the code permits a customer to cancel any contract or purchase within 10 days.

# War Is Stepped Up As Truce Is Ended

By GEORGE ESPER  
Associated Press Writer  
SAIGON (AP) — American and enemy forces stepped up operations today following the end of a truce that had quieted the Vietnam battlefield for three days.

T.S. spokesmen said American military activity was increased to meet an "emergency initiative" that included 37 rocket and mortar attacks and two ground assaults shortly after the 1 a.m. end of the Viet Cong cease-fire for the funeral of North Vietnamese President Ho Chi Minh.

Most of the attacks were in the area from Saigon north to the Cambodian border.

The rocket and mortar attacks wounded 21 Americans, U.S. headquarters said. Four other Americans and 37 enemy troops were reported killed and 16 Americans wounded in ground fighting in the first 10 hours after the cease-fire.

"There's an increase of enemy activity from yesterday, but we do not consider it a high point," said a spokesman for the U.S. Command. "It's a clear resumption of what they have been doing before their cease-fire."

"We're up some, about as much as they are in the level of activity. It's pretty much to meet the enemy initiative."

The allied commands also announced in their weekly casualty report that American casualties dropped 25 per cent last week, the total of enemy dead dropped slightly and South Vietnamese losses rose sharply.

U.S. headquarters said 107 Americans were killed in action and 1,448 were wounded, compared with 180 killed and 1,607 wounded in the previous week.

This brought total reported American casualties in the war to 28,430 killed in action and 249,002 wounded, with another 1,330 listed as missing or captured.

The Saigon government reported 602 of its troops killed last week and 1,210 wounded, while the allied commands said 2,291 enemy were killed.

# Irish Ask For Peace

BELFAST, Northern Ireland (AP) — If the barricades come down in "Free Belfast," a whole new way of life will begin.

Life behind the barriers is not so bad, say the Roman Catholics of the Falls Road area.

Women, picking their way along the unimproved sidewalks, unimproved because the stone slabs have been the raw material of the barricades.

Most of the attacks were in the area from Saigon north to the Cambodian border.

# Flames Raze New Apartment

By JANE CASSELLER  
A half-completed 100,000 sq. ft. apartment unit in the center of the new Foxcroft apartment complex on Howell Branch Road near the SR 42 interchange burned to the ground last night as a result of a fire of undetermined origin.

The spectacular blaze was first detected around 8:30 p.m. The soaring flames were visible for many miles attracting hundreds of spectators to the scene.

The lack of fire hydrants handicapped the firemen from seven area departments as they had only the water in their tankers to contain the fire.

Firemen remained on the scene until early today to make sure the blaze did not spread to surrounding buildings, none of which were completed.

A tool shed was destroyed together with the two-story frame structure which contained eight 2-bedroom units. Leroy Hawkins Jr., electrician, who was in a trailer belonging to South East Regional Builders of Jacksonville at the site reported that he had smelled smoke earlier, but when he investigated found nothing.

May and Smith of Gainesville is the owner of the complex.

The fire was first reported by Dave Dority, attendant at a service station across the road, and Seminole County Constable Chester Boyd.

Five Departments called out were Goldenrod-Dommerich, Seminole-Goldenrod, Casselberry, Altamonte, Maitland, Union Park, and Killarney.

Martin gave the firemen the word and one pump truck with three men aboard left the station at 8:45.

The city just a couple years ago was sued by a resident outside the municipality and the district for negligence in that the fire department was unable to bring under control a fire at a home.

# Sales Of Magazines Investigation Pushed

By G. DAVID WALLACE  
Associated Press Writer  
WASHINGTON (AP) — The Federal Trade Commission, disappointed with a year-old voluntary industry policing effort, has indicated the final phase of a probe into door-to-door and telephone magazine sales activities.

The industry recently stopped an effort to head off federal action by setting its own house in order. But FTC Chairman Paul Rand Dixon says complaints from trade buyers continue and the investigation is being given top priority.

Among the instances Rooney cited: —A family which bought five-year subscriptions to five maga-

zines for \$180. The regular rate for the five purchased normally would have been \$120.

—An 80-year-old man who was pressured into buying a 10-year subscription package.

# Reduced To A Single Training Runway In Everglades

WASHINGTON (AP) — The Dade County Port Authority faced the probability Wednesday of having its highly prized in the Everglades reduced to a single training runway.

Kirk suggested the proposed jet port complex be built on state land to the north of the present site, and indicated some arrangement could be made with the Dade County Port Authority.

However, Port Authority officials in Miami were skeptical, and deputy director Richard H. Judy said the state locations "present very serious problems to the Everglades themselves."

Conservationists argue that the present 38-square-mile tract, purchased by the authority for \$7 million and located 45 miles west of Miami, could destroy Everglades National Park. The park is nine miles to the south of the site.

Port planners, however, said any other location could eventually mean building three separate airports to handle future economic developments in the area.

Judy said the present site could be developed for about \$200 million, but warned other location costs could run as high as \$400 million for the widely scattered projects and roads.

A single, two-mile runway bearing completion, represents the only major construction at the jetport site. Volpe and Hikel indicated the strip could soon be used to train pilots, but only if proper safeguards were carried out.

Three major studies — one being conducted by a Joint In-terior transportation task force, one authorized by conservationists, and one directed by the Dade County Port Authority — have still not been completed.

# Moon, Earth 3 Billion Years Old

Associated Press Writer  
SPACE CENTER, Houston (AP) — The moon went through violent and torrid pains of birth and early infancy about the same time as the earth, but then it died and became "a very quiet, peaceful place," scientists at the Lunar Receiving Laboratory believe.

This conclusion, based on examinations of rocks and dust returned to earth by Apollo 11, was revealed in interviews with scientists prepared to re-lease some of the lunar material Friday to other scientists for further study.

The National Aeronautics and Space Administration will officially announce its findings on the moon rock at a Washington news conference Monday.

Here are the key things scientists at the Manned Space Center say they have learned from Apollo 11.

—There is no evidence there is life on the moon.

—Exhaustive tests exposing the lunar material to earthly life forms—plants, fish, mice, birds and, accidentally, man himself—produced no evidence of moon pathogens or germs existing in the soil. Nor has the soil been shown to have a toxic effect on earth creatures.

—Examination of the rocks and dust show the moon to have been molten about the same time as the earth, about three billion years ago.

—The moon heated up after its formation, as did the earth, and was a globe of molten rock.

# Flying High

SALISBURY, Rhodesia (AP) — Local flying fans have formed a company to build the first motorized Rhodesia aircraft. First the British designed 17-foot wingspan Taylor Tich planes will be test flown soon.

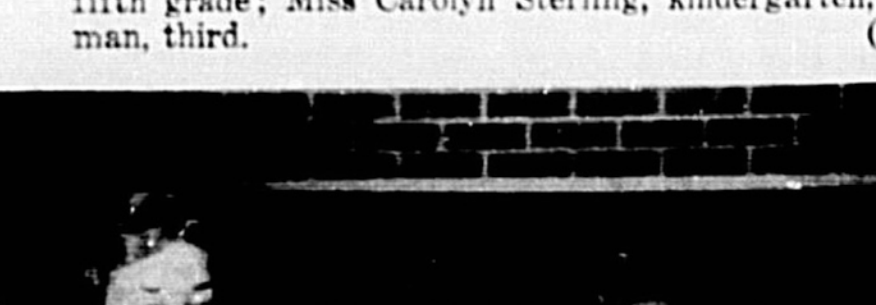

The builders believe they can sell them on a production basis for about 1,800 pounds (\$4,470).

As  
I  
See It!  
by Gary Taylor

They're dancing in the streets in New York. The walls of Shea Stadium are still shaking. The New York Mets, the team that has been the butt of every baseball joke ever thought of, have taken over the lead in the NL East. The Mets took over the lead with a double-header sweep over Montreal, while the Cubs were trounced by Philadelphia. "Those Amazing Mets" are truly amazing as they climbed from the cellar to the top. With the pitching the Mets got out of their young stars.

**TOM SEAVER**  
they couldn't help but be in the top spot or near it with a little hitting. Jerry Koosman and Tom Seaver have done an outstanding job on the mound for New York. It looks to be quite a race as we enter the stretch. Don't be all surprised if the Mets pull off as great an upset as their football counterparts, the New York Jets.

Boy, are things hot in the National League. The West has been a race all season long and now the East has joined the show. As of Wednesday, the Mets were only one game behind the front-running Cubs and were scheduled to meet the Expos in a double-header. The Mets have had some real good playing out of their young stars this year and have shown a tremendous change since their cellar-dwelling days. They had the pitching they needed last season and have finally come through with some hitting. The Cubs, who looked like they had it sewed up just a few weeks ago, have seen their lead slim down from day to day. There will be some kind of celebration in New York if the Mets clinch the title. It's still the same old race in the West. It's anybody's race. As of Wednesday, San Francisco leads the division by one-half game over the Reds. Atlanta is in third and Los Angeles is in fourth.

The race has a good chance of ending up in a two or three way tie. It looks to me that either San Francisco or Atlanta will take the title. The two teams are playing each other tonight, and if either team sweeps the series, it will give them a definite advantage toward the division crown. The weak spot of the Braves is the pitching. Their most recent attempt to strengthen their staff was picking up Hoyt Wilhelm from the California Angels. "The Good Doctor" will be a needed addition to the Braves staff. He will join Phil Niekro with his lively knuckleball. Niekro, who just won his 20th game, is the first Braves hurler to win 20 since moving to Atlanta.

The home runs are still flying in the AL. Big Frank Howard blasted his 40th time him with Reggie Jackson. Harmon Killebrew is right up there slamming away also. It will take some kind of surge, but we could possibly see a record set if Howard goes on one of his streaks or Jackson gets hot. Don't look for any 30 game winners this year, but there will be quite a few 20-plus winners. Besides having good hitting this year, we are having some fine pitching. Everyone said Denny McLain was just plain lucky when he won 31 games last year. Well, McLain became the first 30-game winner this year and will probably win 25.

Rocky Marciano had to overcome the handicap of one of the latest starts of any top-ranking boxer. When he fought his first professional fight, he was already 27 1/2 years old. He won the title from Joe Walcott, with a knockout, September 22, 1952, and retired April 27, 1956, holding the championship three years, seven months and four days. Of the other outstanding champions, only Bobby Fitzsimmons and Gene Tunney held the crown a shorter term. Fitzsimmons held the crown two years, two months and 23 days, and Tunney held the title one year, ten months and three days. Nevertheless, Marciano defended his title successfully six times. He owned the only perfect record in heavyweight history. Of his 49 victories in 49 starts, 43 of them were by knockouts. The boxing world will miss Rocky Marciano. He was a great fighter and he was a great man.

All you golfers in the Sanford area should contact Mike Weichel at the Mayfair Country Club concerning the World Golfers Association \$25,000 tournament coming to Sanford. The WGA is basically aimed at the small pro and the amateur. The event is scheduled for the second weekend in October. On the Friday of the event, a Pro-Am tournament will be held. The top 10 amateurs will be invited to play in the \$25,000 tournament on Saturday and Sunday. The amateurs will all receive \$100 gift certificates for their pay in the big tournament. Top prize for the pros will be \$25,000. A pro can finish as low as 45th and still collect prize money of over \$100. The first WGA tournament will be held in two weeks in Lakeland. The next two dates have just been announced. They will be Sarasota and St. Petersburg. The advance ticket sales for the tournament will be headed by the Sanford-Seminole Jaycees. They will receive 25 per cent of the sales.

## CFL Weekend Action

# Mighty Panthers Travel To Indianapolis

The unbeaten Indianapolis Colts are expected to be tough and tough competition for the Orlando Panthers when they visit Bush Stadium Saturday. Winners of four straight — two preseason games and their first two season encounters — the Colts are strutting with championship fever. Game time is 8 p.m. Latest to fall victims to the Colts were the Norfolk Tides, 29-27, in a slobber last Saturday night in Indianapolis. The Panthers also topped the New York Yankees, 14-7, in an earlier preseason game. A win against the Panthers would be especially sweet, since the Orlando team knocked the Colts out of the running for the Continental Football League Championship game last year in a divisional playoff victory, 28-14. The Panthers also topped the Houston Oilers, 28-21, in a regular season game, and Alabama, 33-21, and Newark, 33-3, in preseason games.

The Panthers, def. of 1967 CFL champions of the Continental Football League, whipped the Arkansas Diamonds last Saturday, 41-0, in Orlando, after suffering a defeat by the Ohio Valley Trojans, 14-7, in their regular season opener. The Panthers earlier defeated the Tri-City Axions, 31-10, and the San Antonio Texas, 37-7, in preseason play.

The Colts will counter the efforts of Orlando's Don Jones, last year's Most Valuable Player, with the fine passing of quarterback Frank Stafford and John Walton. The versatile Colts' offense also has a fine receiver in End Joe Wynns and a top fullback in the person of Roger Lewis. Running backs Reggie Woods and Jim Todd add versatility to the offense. Defensively, the Colts were No. 1 in the CFL last year against rushing and are expected to be equally strong in 1969. The Colts are gunning for their second division (Central) title and face a rough go of it with competition from the Ohio Valley Trojans, the Omaha Mustangs and the Chicago Jets.

## Peterson Not Sure If Seminoles Are Set

TALLAHASSEE—With just over a week before Florida State's opener against Wichita in Campbell Stadium, Seminole Coach Bill Peterson still doesn't know the answers to a number of questions which were asked before fall practices started. "I think some of our younger players have shown improvement, but I still don't know if they're good enough to compete against the type opposition we go against," said Peterson. "We have accomplished a lot so far, simply because we have such a small squad and because we've approached practice differently this fall. But that small squad also means that we don't have the depth we need. If I tell you we're going to have to be a bunch of iron men this fall," Peterson, starting his 10th season at Florida State, thinks his squad is in pretty good physical condition. "I don't know if the weather has given us a break or not. It's been pretty cool for this time of the year. Maybe it should have been hot so that we know we're in shape." There have been both pleasing and displeasing elements in fall practice. "Our offensive backs have been most pleasing," said Peterson. "They have looked good in scrimmages and I think this might be the best set of

ing the indication that they're picking up their assignments well. The defensive secondary has made some improvement." Peterson has said from the beginning that this season's record will depend on the younger Seminoles who have been around for a while but haven't registered much playing time. "Offensively, our r.d.s. Jay Stokes and Mike Simmons have shown fine progress. Rhett Dawson (wide receiver) has really improved. Defensive backs John Lancham and John Montgomery have come a long way," said the Seminole boss. All five of these youngsters are sophomores who have never passed a lick in varsity competition but must do the job, if the Seminoles are to make any headway against a tough schedule. As far as the team morale is concerned, Peterson says it's the best he's seen since he's been at Florida State. "This is a 'togetherness' outfit," continued the head coach. "I know this club has the heart—I just hope it has the physical tools."

running backs I've had at Florida State. "Our receivers have been working extremely hard to get their timing down. And our offensive linemen have been

## Houston Is Florida's First Foe

GAINESVILLE, Fla.—While most collegiate football teams would love to average 26 points per game for the season, the Houston Cougars, the nation's top offensive team the past three seasons, have averaged that many first downs each contest. "That just gives you some idea of the offense they have," said Florida head coach Ray Graves. "Going back through past films the best number of first downs we have found them earning was 18, and then they still had 532 yards of total offense."

Against the Miss. one of the better SEC teams, they engaged 573 yards, ran for 363 yards and completed 13 of 20 passes to beat them, 29-7, in Jackson, Miss. "This type of offensive football should give the Gator defense more to think about than they have had in some time," a thought which has come to head defensive coach Gene Eitzen more than once recently. "We haven't played a team since I've been here at Florida which presents so many problems on offense," says Eitzen. "Houston pioneered the Vee-T and thus far defenses haven't caught up with it. In addition, this team can throw the ball better than average and had several games last season where they threw for over 300 yards. "Our secondary is going to get a severe test, having to play both a strong run support game and cover receivers like Elmo Wright, who runs a

# Miss Goodwin Bride Of A. G. DeLaney

The marriage of Miss Sarah Lee (Sally) Goodwin and Allen Glover DeLaney was solemnized at 4 p. m. Saturday, Aug. 30, 1969, in the First United Methodist Church, Gainesville.

MRS. ALLEN GLOVER DELANEY

The bride is the daughter of Mr. and Mrs. Edward Randolph Goodwin of Ferrum, Va., formerly of Gainesville, and the bridegroom is the son of Dr. and Mrs. Allen Young DeLaney. The bridegroom's maternal grandparents are Mr. and Mrs. Grady Lee Duncan of Sanford. Given in marriage by her father, the bride wore a floor-length gown of ivory silk faille, featuring a scalloped high neck, short sleeves and train and back panels of French re-emboossed lace. Her veil was a train-length mantilla with a wide border of lace and carried a nosegay of mixed pastel flowers surrounded with lace veils.

Miss Betty Foulder of Washington, D. C., cousin of the bride, was maid of honor. Bridesmaids were Miss Mary Elizabeth DeLaney, sister of the bridegroom; Miss Karen Davis and Miss Mary Bates Feltman, all of Gainesville, and Miss Susie Scott of Tampa Terrace. Miss Catherine Marie Conrad of Sanford, the bridegroom's cousin, was flower girl.

The maid of honor and bridesmaids were dressed alike in formal sleeveless gowns of turquoise ottoman designed with yokes and stand-up collars trimmed in Venice lace. The bridesmaids wore accented

with flat bows and panels with the skirts slightly A-line. Their earrings were flat bows of mixed-pearl beads set in pastel shades. The flower girl wore a floor-length dress of pale turquoise voile with puffed sleeves and a velvet bow in back of the empire waist. She carried a miniature basket of flowers.

Philip DeLaney was best man for his brother. Ushers were Bruce DeLaney, also a brother, Gregory Womelhart, Mel Hedrick and Stephen Lawrence. A reception was given at the Gainesville Woman's Club, after which the newlyweds left for a wedding trip to the Virgin Islands.

Mr. DeLaney is an honors student in Systems Engineering at the University of Florida and plans to enter medical school in September, 1970, to pursue a career in Biomedical Engineering.

The new Mrs. DeLaney was graduated from the University of Florida where she earned a BS in physical therapy last March. She is presently employed at the Alachua General Hospital.

...a closeup of a crater on the moon's Sea of Tranquility where Apollo 11 astronauts will make historic

# THIS IS IT!!!

Footprints on the Moon

Never again will there be a first landing on the moon. And never again will there be such a volume of data.

Written by John Barbour, an outstanding journalist who has been helping cover the latest into space from the start, his 70,000-word text includes much new material and is complemented by more than a hundred of the most dramatic color pictures ever taken.

To make sure that you get your copy of a first edition that doubtless will become a collector's item, you should make your reservation now.

The book contains: • 224 pages, 9 1/2" x 12 1/2" hard-bound edition, with dust-jacket. • More than 100 full color illustrations, from the first space efforts in 1960s through to Apollo 11. • Edited and produced by the world's largest news-gathering organization, The Associated Press.

ORDER YOUR BOOK NOW AT THE SPECIAL PRICE OF \$5

# Geneva Personal

By LIZ MATHEUX Mr. and Mrs. Raymond Akins and son, Eddie, have returned to their home after an extensive trip up into Virginia and back down through Alabama for a visit with their respective families. While on their excursion, the Akins family stopped over at the Jacksonville Naval Air Station Hospital to pay a visit to Buddy Mason, recently home from Vietnam, who had remained hospitalized for a while. They reported him as progressing favorably and that he would appreciate notes from his friends.

During a recent conversation with one of my most favorite people, (yep, you said it I do have a great many favorites and it is grand) Mrs. Lester Harper, Pearl tells me that her son, Robert Phillips, and her husband, Lester, were so worried about their daughter and her family, Mr. and Mrs. Robert Yarborough, over in Biloxi, Miss., that they actually made a trip up to bring Susie and her family back but that her daughter Susie refused to return with them; however she permitted her children to accompany grandpa and Uncle Robert back to Geneva. Lester said that "Camille" left such a mark of devastation upon Mississippi that it was almost unbelievable!

Speaking of The Herald employees, our Geneva and Oviedo scribe, LIZ MATHEUX, was recently elected president of

McLAIN'S JR. HIGHER SCHOOL 3 & 4 year olds — 9:15 a.m. - 11:30 a.m. Boy Scouts included 405 W. 7th Street 322-8621 322-3903

# "Candid Chatter"

Sanford Semine Art Association. With her husband, Joe, as vice-president, the team should do wonders for the ten-year old organization.

Saw the new press last week at a bridal tea for ANNA LEA HERMAN (who looked more like a big Dresden doll than a bride-elect) and Liz was striking in a shocking pink dress complemented with silver accessories.

The Central Florida Chapter of the Women Marine Association is the first in this national organization to receive recognition and an honor certificate for its contribution to the recruiting division of the U.S. Marine Corps.

Working with Orlando recruiting office, the former member of the Central Florida Chapter, Nancy Nordstrom, recently completed the couple to Cocoa to visit other mutual friends, HELEN AND LARRY VIAL. The two folks played professional baseball together 35 years ago and hadn't seen each other since that time. Needless to say, they were like two kids, fish out of water or the equivalent.

They have departed for the East Coast to visit one another and to California. Again, it was a pleasure to see old and dear friends.

Breaking in and out of Sanford for a part of a day last week were JAN AND MAC MCGILVER. It is always a joy to see the effervescent Jan and she had a ball visiting with her friends here.

It was my pleasure recently to reunite with two old friends from Orlando, ALICE AND JOHNNY ROWE, from Tamm, just outside Los Angeles.

The genial couple befriended me many, many months ago when I lived in California. Since that

# Dear Abby: By Abigail Van Buren

**DEAR ABBY:** My husband (I'll call him George) has reached 40 — the dangerous age. About every six weeks George goes to St. Louis on business. I have a 26-year-old nephew living there. Bill lives with an air line and last winter he married a cute little stewardess. I call Nancy. We've never met her. Bill sends pictures. A few months ago George went to St. Louis and called Bill to say hello. Bill was out of town, but Nancy was home, so my husband invited her to his hotel where they became acquainted over cocktails and supper.

Well, George came home and all he could talk about was how "terrific" Nancy was.

The next time George went to St. Louis he called Bill and Nancy. Again Bill was out of town, but this time Nancy invited him to stay in the guest room of their new home. He did, and when he told me about it afterwards I knew my top.

I say it is improper for my husband to stay there unless Bill is home. I'm sure if he takes Nancy to dinner if he wants to entertain her, but he should SLEEP at his own motel where the accommodations are paid for by his company.

George says there is nothing improper about staying at the home of a nephew whether the nephew is home or not. What do YOU say?  
— GEORGE'S ANGRY WIFE

**DEAR WIFE:** I say that the "propriety" of this situation is the least important aspect of it. The problem is that you feel that your husband might be taking more than an "innocent" interest in Nancy. Maybe you're right. But you could be wrong. In any case, since there has been so much fire works about it, I think George should stay at his motel.

**DEAR ABBY:** A group of us were having a serious discussion about the "new morality," and someone said the double standard no longer exists, that what's good for the goose is good for the gander. What is your opinion?  
— CHARLOTTE

**DEAR CHARLOTTE:** GOOSEFEATHERS!

**DEAR ABBY:** Last month when I bought shoes for my three small children each was handed his shoes in a plastic dustproof bag by the salesperson.

As soon as we got home, each child put the plastic bag over his head and played "robot!"

I immediately telephoned the store manager and told him to quit handing out those plastic bags to children. As they were regular dress shoes, the accommodations are paid for by his company.

George says there is nothing improper about staying at the home of a nephew whether the nephew is home or not. What do YOU say?  
— GEORGE'S ANGRY WIFE

# Horoscope Forecasts

**FRIDAY, SEPT. 11, 1969**  
**GENERAL TENDENCIES**

As the day advances, most everyone becomes more and more cooperative. You would be wise to discuss your fondest hopes now. This is your time to arrange social gatherings, especially elegant ones.

**ARIES** (Mar. 21 to Apr. 19)—If you are attuned to the planets, you know you can make new arrangements with associates who you had not been able to approach before. Be sure to keep an open mind. Many situations arise that require a great deal of ingenuity.

**Taurus** (Apr. 20 to May 20)—See what your co-workers expect from you. Dissolve the tension around you by doing your work properly. Find the methods for showing your finest talents. Be efficient.

**GEMINI** (May 21 to June 21)—You can now have the entertainment you like. Return your mate's devotion. Show that you still care very much. Stop taking him or her for granted.

**MINOR CHILDREN** (June 22 to July 21)—Improve your home. Others living there will realize you are concerned for their comfort. More conversations are necessary if you want to gain that aim with another. Think before you speak.

**LEO** (July 22 to Aug. 21)—Now you are able to cooperate fully with others. A combination of charm and intellect can produce the results you want. Whatever was difficult before now comes easily. Learn to project more.

**VIRGO** (Aug. 22 to Sept. 22)—Show those who serve you that you appreciate their efforts and you will get better results. Whatever equipment is necessary. With a new slant on life you will be happier and more affluent.

**LIBRA** (Sept. 23 to Oct. 22)—Sit down to friendly talks with those who can help you in your career and mentally. Follow your intuition in handling that problem.

**SCORPIO** (Oct. 23 to Nov. 21)—Go out to the great outdoors. It is a most successful time and make interesting new contacts. Become more knowledgeable. See how you can gain more support.

**SAGITTARIUS** (Nov. 22 to Dec. 21)—Look for a lot of those perplexing situations. Contact the friends who can help you. Listen to what one close to you has to say.

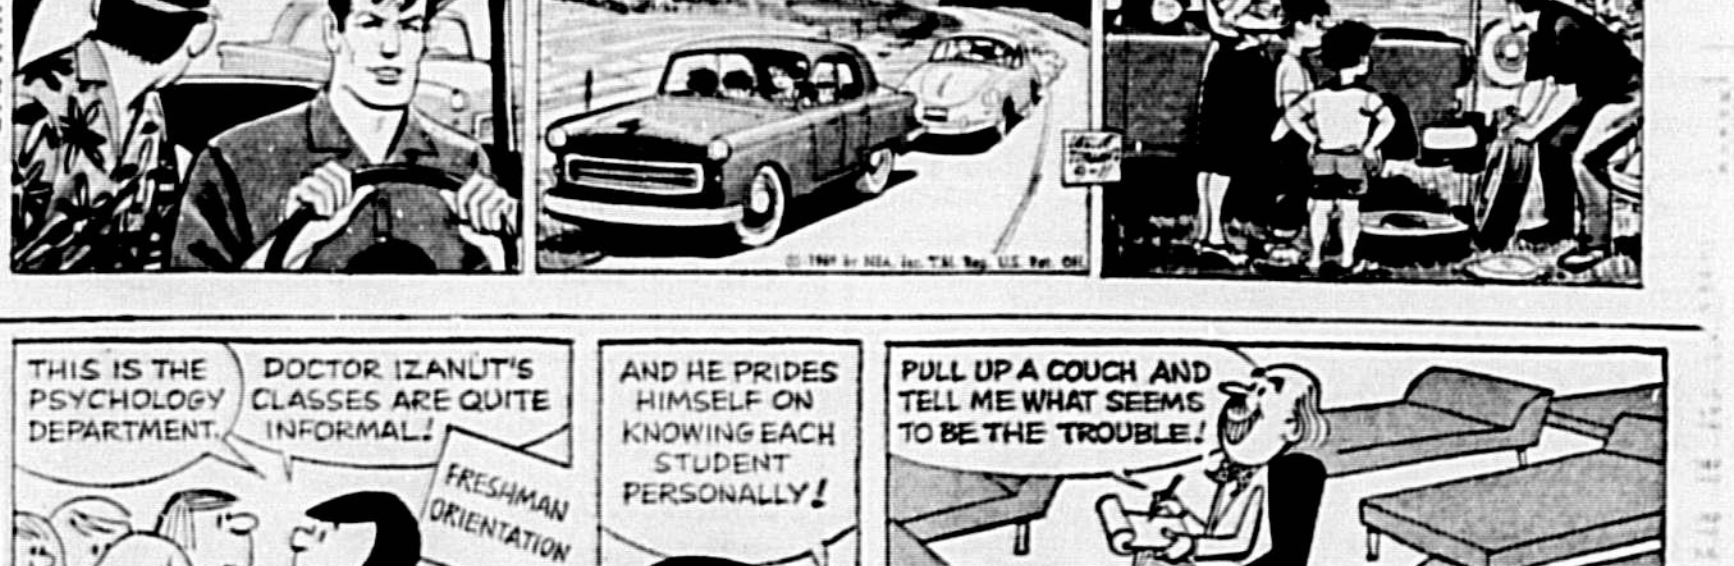

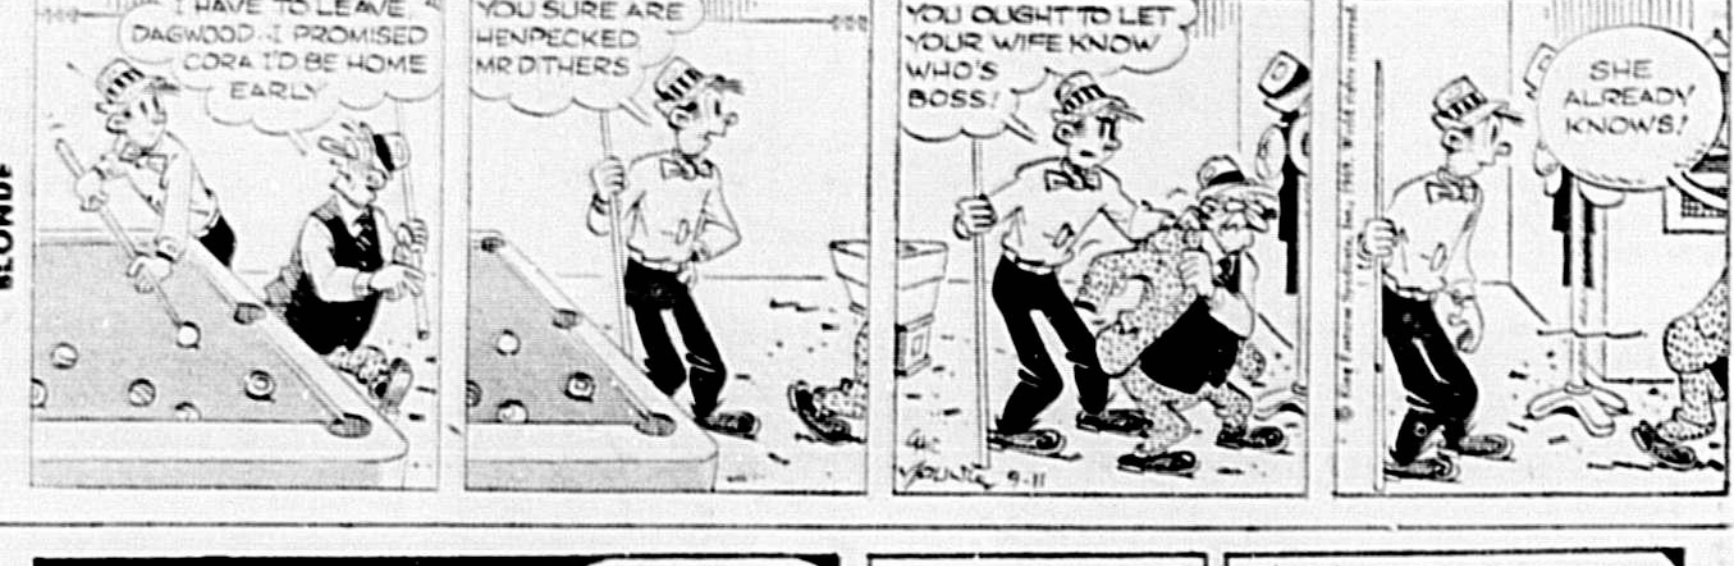

**CAPRICORN** (Dec. 22 to Jan. 20)—Analyze the advancement you have made in your career. There need not be results. Influential people for further progress. Participate in that important civic matter. Be clever.

**AQUARIUS** (Jan. 21 to Feb. 19)—Listen carefully to what bigwigs have to say today. That could be the best way to get ahead now. Get busy making plans to travel. Be sure that your luggage and wardrobe are right.

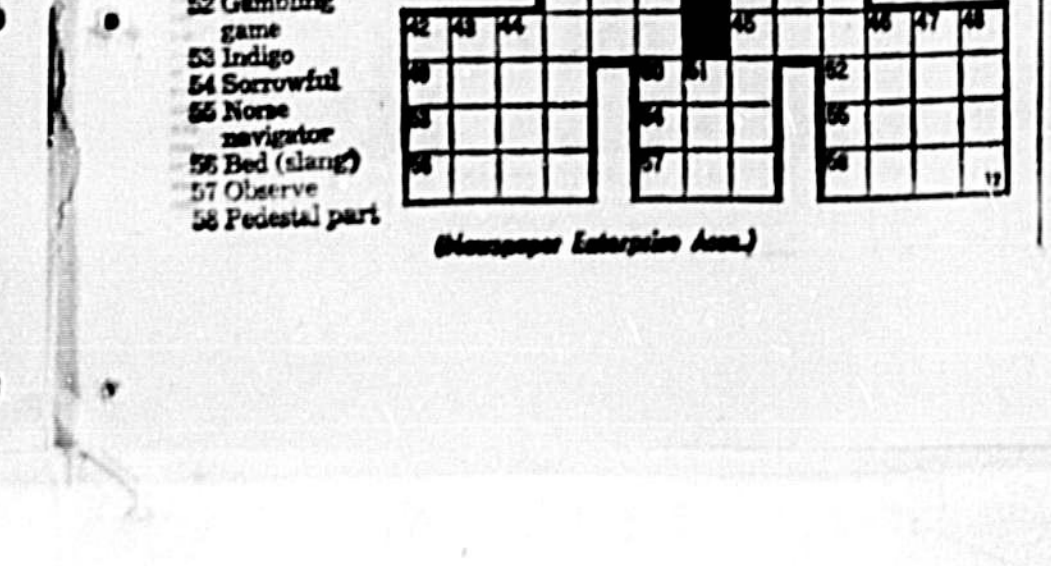

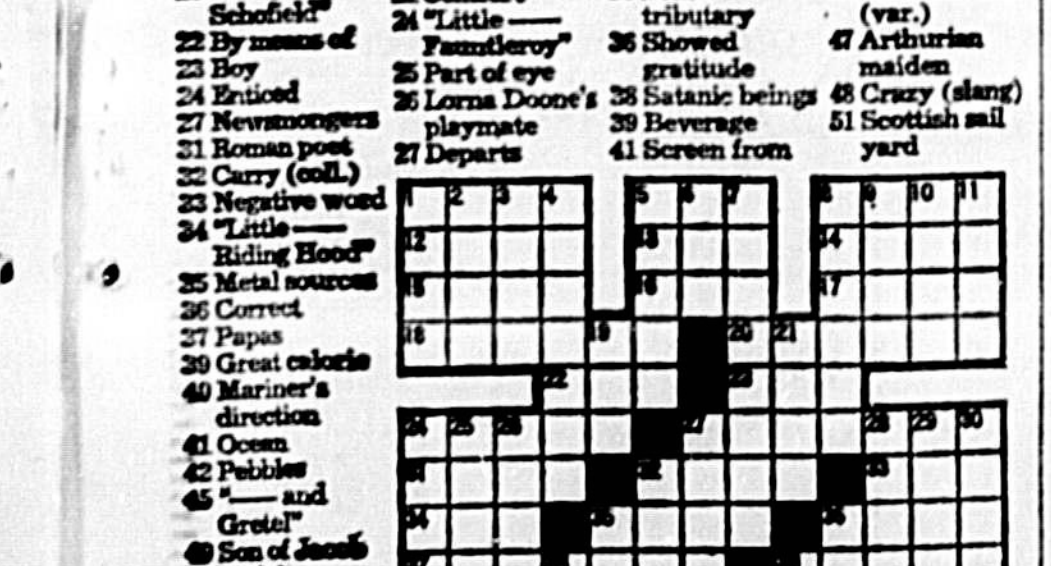

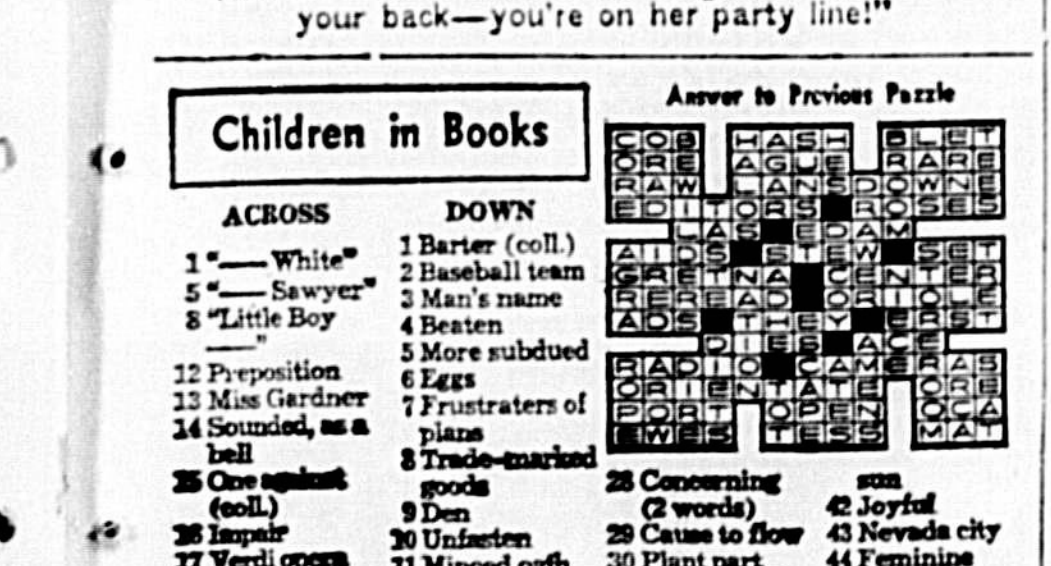

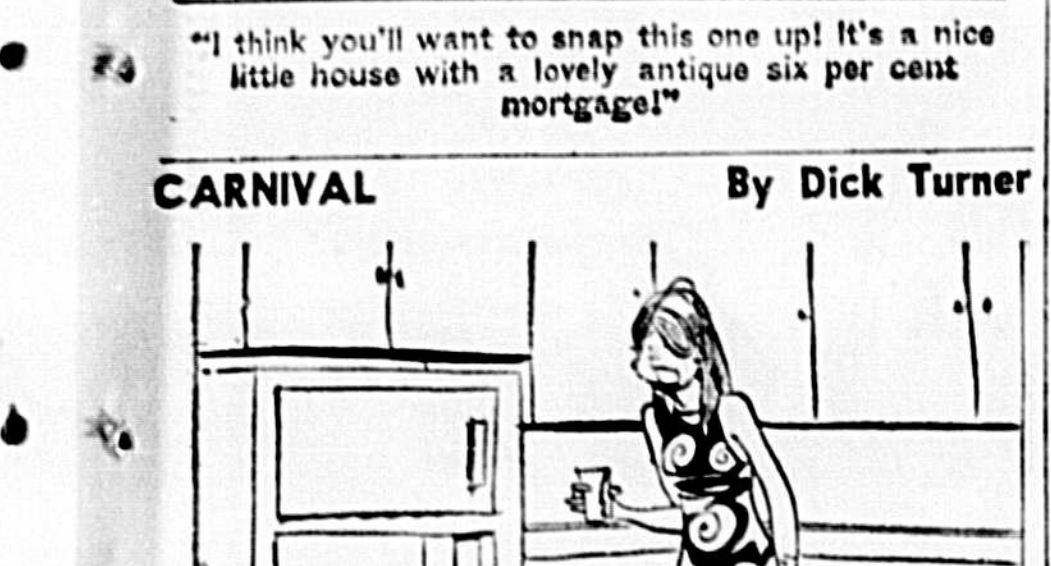

**PISCES** (Feb. 20 to Mar. 20)—You want to accomplish a good deal. You have to carry out exactly the demands of those in control. Be happy in your spare time with the one you love. Keep away from precarious situations.

**IF OUR CHILD IS BORN TODAY**... he, or she, will be one of those delightful young people who wants to do things, but needs the assistance of others to accomplish them. Be sure to supervise during adolescence, and let your son, or daughter, learn to work early. Plan an education where your projects work with others. Any profession would be fine that requires precision, neatness, and understanding of others. The Stars indicate they do not compel. What you make of your life is largely up to YOU!

Carroll Righter's Individual Forecast for your sign for October is now ready. For your copy send your birthdate and \$1.00 to Carroll Righter, Forecast, The Sunbelt, Herald, 628 Hollywood, Calif. 90028.

# Highlights

**THURSDAY, SEPT. 11, 1969**  
7:50-8:30 p.m. NBC Special. The Second Bill Cosby Special (Color) (Re-run) Like the first one, this is a virtually a one-man comedy show. The kind of tour-de-force that Cosby not only carries off but excels in. His material centers on his Philadelphia childhood. There's a gem of a monologue recalling the boogie man he and his bed mate, brother Russell, fought to the night, and another very funny one about his experiences with old wised Harold when the collection plate came around in church. Elsewhere, looking further back in time, Cosby gives an hilarious portrayal of Noah chatting to the Lord about plans for the ark. A fine hour, 8:30 p.m. CBS. The Prisoner (Color) (Re-run) A must for

### Officials Ask Question

# Do You Want To Pay Transport Costs?

By JOHN VAN GIESON  
Associated Press Writer  
TALLAHASSEE, Fla. (AP) — To parents joining the swelling chorus of complaints about the two-mile school bus limit, education officials have this answer:

Do you want to pay the cost of transporting your children to school in shoe leather or in increased taxes?

Statistics prepared by Baird last year show that it would cost something like \$4.4 million to cut the limit to a mile. The total cost of school bus transportation in Florida is presently about \$16 million.

When classes opened last week 16 Turkey Creek mothers were arrested for obstructing traffic along a highway they said was dangerous for their children to walk.

Parents also marched in Miami and in Tallahassee television station crusaded against overcrowded buses in Leon County.

Gov. Claude Kirk was inspired to write a letter of protest to Education Commissioner Floyd Christian, an old rival. Christian has ordered his staff to study the two-mile limit with a view toward reducing it for younger children. If the limit is not changed many five-year-olds will have to walk up to two miles to school when kindergarten becomes mandatory in 1974.

SANFORD Junior High School student Robert Futrell enrolled in the work experience program at the school, is shown with the coordinator, E. L. Buckner. (Herald Staff Photo)

## Road Financing Not On Agenda

By JIM PURKIS  
Associated Press Writer  
TALLAHASSEE, Fla. (AP) — A special legislative session, to be called around Dec. 1, won't take up road construction financing unless Gov. Claude Kirk produces some specific and authoritative proposals, Senate President John Matthews said.

## Osborne Rebukes Bafalis

JACKSONVILLE, Fla. (AP) — Helping to a prediction that he would be dropped from the Republican ticket next year, Lt. Gov. Ray Osborne said Wednesday it's up to the governor to pick a running mate and Osborne himself will be asked.

## Burglars Get \$400 In Sanlando Safe

A heavy metal safe, containing approximately \$400 in cash and employee payroll checks, was removed last night from Sanlando Springs office by thieves who broke a lock to open the door to the park office building.

Investigator L. J. Kriz has been assigned to the case after the burglary was reported early today.

Ted Weber, park manager, said actual amount of money in the safe was undetermined and the payroll checks would be re-issued today by the firm's Orlando office.

Chief Deputy Duane Harrell and Sanford Detective Ralph Russell yesterday returned from Tallahassee with information gathered during the investigation of the death of Bobby Thompson, Sanford fireman.

Harrell said both city and county had forwarded evidence to the State Crime Laboratory following the arrest of Frances Thompson, the dead man's wife, on murder charges.

These items and laboratory findings will be used during the trial to begin Oct. 20.

# Area Schools Packed

Because of crowded conditions at seven Seminole County schools, the School Board yesterday approved administrative adjustments that will mean double sessions for first and second graders at English Estates Elementary and facility increases at other schools.

RECORD SCHOOL enrollment in Seminole County has resulted in much overcrowding in classrooms. This photo was taken at Crooms High School, One young man (extreme rear left center) sits in a clothes press. (Herald Staff Photo)

## Altamonte Springs Seeks \$ Rec Area, Civic Center Eyed

By DONNA ESTES  
Proposals from architects on development of the municipal recreation property and the quest of still more federal funds for construction of a civic center were major topics of discussion at the continued news conference held last night.

Mayor W. Lawrence Swoford pointed out to the governing body that federal grants of 50 percent or more \$30,000 to \$40,000 of the cost of a community center could be obtained.

Council agreed the idea should be pursued and applications for the federal grant obtained.

Architects to be asked for suggestions of use and layout of the property to provide space not only for recreation and a civic center but a new city hall as well include Hal Harris, Robert Webb and Watson and Company.

In other business, Council: Agreed to turn over to City Attorney S. Joseph Davis Jr. the collection of an overpayment to Stenstrom Fence Company. The clerk reported double payment had been made to the company for a purchase and the had been unsuccessful in recovering the moneys.

Authorized Mayor W. Lawrence Swoford and Police Chief Fred Folsom to negotiate with the neighboring cities of Longwood, Casselberry and Maitland for use of their jails for city prisoners. The mayor estimated Altamonte is losing \$1,000 per year in revenues due to the fact it has no facilities for incarcerating violators of the law.

Agreed to request the county to join with the city in handling through trucks exceeding 2 1/2 tons in load from O'Brien Spring Lake Road.

Swoford listed unbudgeted amounts spent included \$1,000 for a car kept instead of being traded in, another \$1,000 for a truck and \$1,000 for Hwy. 42 beautification.

Sabbarese insisted, "This Council can't be blamed for last year's budget."

Bookkeeper O. W. Bennett reported the city through remainder of the year can expect income of \$31,000 from civic etc. taxes, permit, utility tax, etc. but estimated expenditures of \$45,000 to \$48,000 for necessary items.

Stop-gap measure of transferring some \$5,000 from the tapping account was authorized to continue operation.

Among accounts shown that will be overspent by end of the year were the city clerk's office by some \$8,000 due to hiring of additional employees and the police department by \$1,000.

Previous back school with white enrollment this term include Hopper and Jackson Heights elementary and Crooms High school.

Because of bus zones implemented this year by the board, there has occurred a marked increase in desegregation in an effort to eliminate a dual bus system for black and white students.
