Missing Editor Reported Kidnaped By Revolutionaries
ATLANTA, Ga. (AP) — Reg Murphy, editor of the Atlanta Constitution, has been abducted by a group calling itself the Revolutionary Army, the newspaper said today.
Murphy, 40, has been missing since about 7:30 p.m. Wednesday, when he left his home with a man who said he wanted to talk to him about a news story, his wife said.
There have been no demands, but there were indications that a follow-up telephone call was expected. It was the second major kidnaping this month. Patricia Hearst, 20, daughter of newspaper executive Randolph A. Hearst, was abducted from her Berkeley, Calif., home on Feb. 4 by a group calling itself the Symbionese Liberation Army. (See story page 2A).
William H. Fields, executive editor of Atlanta Newspapers, which publishes the Constitution and Atlanta Journal, said the newspaper received a telephone call about 9:15 p.m. Wednesday.
He said similar calls were made to Atlanta television station WAGA and to Mrs. Murphy.
"The FBI is aware that Reg Murphy has allegedly been kidnaped. We are looking into this matter in connection with our jurisdiction under the federal kidnaping statutes and we have nothing further to say regarding this matter at this time."
Fields issued a brief statement which said:
"Reg Murphy presumably has been kidnaped. Jim Minter, managing editor of the Constitution, received a telephone call at 9:15 p.m. from someone saying Murphy had been kidnaped by the 'Revolutionary Army.'"
The caller said the Constitution would hear further by other means. Channel TV—WAGA—received a similar call at about 9:20 p.m. Shortly thereafter, Murphy's wife received a call from someone who said, "If you want to know about your husband, call Jim Minter."

"You, my fellow Americans, will probably never read this. Not because my thoughts are not interesting, or important, or valid, or a darn sight better than all the gibberish I have read in the MY TURN column. But because I am nobody... that is, I am not what the enlightened editors at NEWSWEEK would call a distinguished guest writer. But then, how many of those are there around anyway? No, I am just a poor, ordinary school-married, mother, citizen. The BankAmericard bill around our house is in four figures and the Sears bill is not far behind. A traveling vacation is in the unforseeable future, as is a new car (our '68 Chevell is creaky, but it runs), a new coat, roast beef and air conditioning. How many MY TURN columnists can match those qualifications?"

"The one thing that I have an abundance of at this point in time is anger. Anger and disgust. Not with my country. The United States is ideal (in theory at least) with all the institutions that make it work FOR THE PEOPLE. I am angry with you, and you, and me. All of us. We have become a nation of sleep — and we are being screwed at every turn. "We, the people, are letting go unchallenged atrocities that should warm the hearts of Molitarian leaders everywhere. The governor of California pays no taxes. The President pays laughably little (and by the way — my memos and personal papers are just sitting here, waiting for someone to appraise them...). "My husband belongs to no union; he gets no (ha ha) 'cost of living' raises. So each year that he earns the same, our financial condition goes straight downhill. We need gas as much as anyone, but if we had dared to block an interstate highway with our rusty car, we would have been arrested in ten minutes. Why is it that tag, profitable airlines have the ear of the government, and plain people do not? Why, if indeed there is a shortage of (Can't. On Pg. 6A Col. 1.)

Sanford Z-P Board To Hear Home Plans

By BOB LLOYD
City Editor
The Sanford Zoning and Planning Commission is scheduled to discuss a site plan tonight for a \$1 million padlock development on the north side of Country Club Road east of Upland Road.
Representatives of landowner Bob McKee will show a preliminary site plan for "The Oaks" development of 22 padlock homes on the five-acre site.
Last year when city commissioner Bob McKee showed a preliminary site plan for "The Oaks" development of 22 padlock homes on the five-acre site, a brick wall screening a restaurant at the construction site of the new United States Bank of Seminole in the west side of U.S. 17-92, across from Sanford Plaza Shopping Center.
Board members will consider recommending to city commissioners that the city sign ordinance be amended to exempt from fees and permits point-of-purchase real estate signs six square feet or less in area.

12 Million Gallons Of Gas To Florida As Emergency

By JEAN PATTESON
Herald Staff Writer
The Federal Energy Office has ordered an emergency allocation of 12 million gallons of gasoline into Florida before the end of the month, said Rep. C.W. "Bill" Young, R-Fla., today.
The latest ration raises to 17.86 million gallons the emergency supply of gasoline ordered for Florida, or about 2.5 gallons for each resident of the state.
State energy chief Homer Hutchinson was expected to announce today distribution of a 5.86 million gallon grant ordered Tuesday.
Young said Kenneth Dupuy, Federal Energy Office regional administrator in Atlanta, directed major oil companies Wednesday night to send an additional 12 million gallons into Florida.
"I am contacting the governor and urging it not be absorbed statewide," said Young, "but diverted to the counties that have acute needs—namely Pinellas and the other counties in south-west Florida."
Jim Miller, president of the Florida Allied Gasoline Retailers Association, is urging station owners to abandon their protest shutdown and consider its effect on hospitals, schools, ambulances and other emergency services.
Many striking dealers throughout the state said Wednesday they will re-open today.
Sanford dealers contacted Wednesday said they had been opposed to the strike protesting federal energy policies, but many admitted they would reconsider and join a statewide strike if the situation got much worse.
A spokesman for Jacksonville dealers said there was no gasoline at half of the stations there, and the city's 476 school buses under federal court order to transport \$6,000 pupils every day, are running out of gasoline.
Only a special fuel allocation can keep them operating, says Francis Brown school transportation director.
Unlike Florida's other 66 school systems, Jacksonville's system owns no buses. It contracts with individuals who own, drive and service the vehicles.
Brown said a request for a special federal fuel allocation has been made through state channels in Tallahassee.
He said other counties are getting special school bus allocations because buses are county-owned.
Seminole County School Supt. Bud Lauer said today the county's school buses have "enough fuel right now." He said dealers are considering gasoline for school transportation a top priority.
Some teachers are not in quite such a happy position, admitted Lauer. Several teachers have been unable to get to school on time because they could not get gasoline, or had to wait in long lines. Lauer said car pools are being encouraged, and school aides and secretaries are being permitted to take teachers' cars to gas stations during school hours.

Ex-Gurney Aide Is Sentenced

JACKSONVILLE, Fla. (AP) — Larry Williams, a former fund raiser for Sen. Edward Gurney, R-Fla., was sentenced today to a year in prison today after pleading guilty to charges of attempting to evade federal income taxes and helping a contractor accept a bribe.
Williams, 29 and from Orlando, was accused of attempting to evade \$19,000 in taxes in 1971 by concealing his assets from the Internal Revenue Service.
Last January, a federal grand jury in Miami indicted him on a charge of channeling a \$10,000 illegal payment to William Pelski, former director of the Federal Housing Authority office in Miami.
The indictment said the bribe was to obtain Federal Housing Authority financing for Miami builder John Priestes.
"I don't anticipate a problem keeping the county school buses running," he added.
Director of Purchasing Roger Harris said he has applied to the federal government for a 20 per cent increase on the school system's fuel allocation. "Our Texaco dealer has assured us if we overrun our February allocation, we can borrow from our March allotment until we hear from the federal government on our increase," said Harris.

THE GREATEST SHOW ON EARTH
ANNA MAE, member of the world's largest herd of performing elephants, rears up to greet guests at the opening of the Ringling Bros. and Barnum and Bailey Circus Showcase, Wednesday. A crowd of 600 watched as world-famous clown Lou Jacobs, assisted by Miehue, the smallest man in the world, Governor's Executive Assistant Harvey Cotten, and President and Producer of Circus World Irvin Field, snipped a three-foot wide ribbon during the opening ceremonies. (Herald Photo by Jean Patteson)

By Fulenwider Van Eepoel Warned Of Suit

By CHRIS NELSON
Herald Staff Writer
WINTER SPRINGS — Councilman Irene Van Eepoel today disclosed she has been "put on notice" a slander action is being considered against her because of statements made about State Atty. General F. Lee Fulenwider.
Investigator Jack Fulenwider and his past management of a migrant labor camp.
Mrs. Van Eepoel this morning called The Herald and read the text of a letter from Howard Marsee, assistant county attorney who has been retained by Fulenwider.
"... you are now and have been making slanderous statements concerning his background with the Tallisman Sugar Corp. Further, I have concrete evidence that indeed you have made such statements," Marsee's letter reads.
"... you are now and have been making slanderous statements concerning his background with the Tallisman Sugar Corp. Further, I have concrete evidence that indeed you have made such statements," Marsee's letter reads.

City Seeks Costs On Radio Net

Sanford Police Chief Ben Butler today said he expects to have cost figures within a week on upgrading radio equipment for installation of a city communications center by May 1, at the new police headquarters under construction at Ninth Street and French Avenue.
Wednesday Butler confirmed the city will pull out of Sheriff John Poik's countywide communications center at the courthouse because of "too much delay" in handling of calls and high levels of noise and confusion in the center.
"If Ben feels at this time that Sanford isn't getting proper service, I don't blame him for pulling out," Poik said today. "He's responsible to the people of Sanford."
The county center presently serves the sheriff's department and the Sanford, Gordo, Longwood, Winter Springs and Altamonte Springs police departments. (Herald Photo by Cindy Flanders)

Kidnapers Contact Hearst; 'Ransom' Food Stockpiled

HILLSBOROUGH, Calif. (AP) — Abductors of newspaper heiress Patricia Hearst have sent a new communication to the family of the kidnaped girl, a family spokesman said today. Contents of the message were not immediately revealed.

More than \$100,000 worth of food is stockpiled for distribution to California's needy in an effort to bring the eventual release of the kidnaped heiress.

Radio station KCBS in San Francisco said the message, a tape recording, was believed to contain a new demand of \$4 million in cash.

The message was reported to have come from the Symbionese Liberation Army, which claimed that it abducted the 20-year-old coed Feb. 4 in Berkeley.

Her father, newspaper executive Randolph A. Hearst, already had mounted a \$2-million food distribution program in an effort to win her release.

Another San Francisco radio station, KGO, reported that the Rev. Cecil Williams, an intermediary in past SLA communications, received a

telephone call Wednesday night. It directed him to a telephone booth, where he found the tape recording.

KGO said that, unlike previous tapes received from the SLA, the new recording did not carry a message from the kidnaped woman.

But as the foodstuffs piled higher in a \$2 million feed-the-poor program by newspaper executive Randolph A. Hearst, there was only silence from the Symbionese Liberation Army, abductors of his 20-year-old daughter.

The terrorist group claims to be holding Miss Hearst as a "prisoner of war." She was pulled screaming from her apartment near the University of California at Berkeley on Feb. 4 by two young black men and a white woman.

Miss Hearst turned 20 on Wednesday. Her parents had appealed to the abductors to release her on her birthday as a gesture of good faith.

The FBI agent in charge of the case, Charles A. Bates, had said he had a "seat-in-the-pants feeling"

that Wednesday might be freedom day for the pretty coed.

No one outside of the SLA knew whether the food distribution, which starts Friday, would bring about her release or if more demands would be made.

The SLA had demanded originally that Hearst distribute \$70 worth of free food to each of California's poor and, newly as a condition for negotiations for the girl's release.

Hearst said he could not possibly meet that demand, which state officials estimated would cost some \$400 million. He went ahead instead with the \$2 million "People in Need" program.

The SLA said it would accept a "good will gesture" from Hearst, president and editor of the San Francisco Examiner and chairman of the Hearst Corp.

The first free food is expected to be distributed in the San Francisco Bay area Friday, said A. Ludlow Kramer, who is administering the program.

MOBILE JUNKYARD

ARTIST DICKENS BASCOM of San Anselmo, Cal., along with a few other artists, has mounted several tons of junk on a 1961 Ford Falcon. Bascom and his band support themselves and their art movement by displaying the car at various shopping centers and collecting donations while explaining the idea behind "junk art."

House May Have Killed Energy Bill

WASHINGTON (AP) — The House Rules Committee has erected a potentially fatal roadblock in the path of emergency energy legislation already threatened by a presidential veto.

The Rules Committee voted Wednesday to allow members to lodge parliamentary challenges against some of the more controversial provisions in the compromise bill when it reaches the House floor.

House Commerce chairman Harley O. Staggers, D-W.Va., said the Rules Committee action had "killed" the bill. Floor action on the measure was postponed until next week, reportedly to give House leaders a chance to convince members of the Rules Committee to change their vote.

Under the resolution adopted Wednesday, members can raise parliamentary points of order against sections of the bill providing for an oil price rollback and giving the administration temporary authority to put energy conservation plans into effect without first sending them to Congress. The resolution also calls for a separate vote on the section in the bill giving President Nixon the power to order gasoline rationing.

If either of the points of order is sustained or if the House votes to delete the rationing section, the bill no longer would conform with the Senate-passed version and a new SenateHouse conference would have to be convened.

WIND POWER

WIND PROVIDES the impetus for this lawn ornament at Maynard, Iowa. If the breezes fail the ornament stops moving, but still catches the eye.

National News Briefs

Sailor Tells Of Spying

WASHINGTON (AP) — Navy Yeoman Charles E. Radford says his military superiors praised him for pilfering top secret files in 1971 from Henry A. Kissinger. Radford said his superiors asked him to obtain any material "I could get my hands on." His testimony before the Senate Armed Services Committee directly contradicted statements by Kissinger, President Nixon's national security adviser, and Adm. Thomas H. Moore, chairman of the joint chiefs of staff.

Rose's Condition Mystery

WEST PALM BEACH, Fla. (AP) — Rose Kennedy, the 82-year-old matriarch of the Kennedy clan, is suffering from a ruptured blood vessel in St. Mary's Hospital here. The hospital declined Wednesday night to give her condition. On Tuesday night, when she was admitted, it had said she was in fair condition. Sen. Edward M. Kennedy, who said Tuesday night he had no immediate plans to visit his ailing mother, arrived at the hospital Wednesday night.

The hospital spokesman described the ruptured vessel as being small and said it is causing Mrs. Kennedy to have persistent headaches.

Mrs. Kennedy, who has a winter home in West Palm Beach in addition to her Hyannis Port, Mass., residence, has been a picture of good health in recent years. Most mornings she plays nine holes of golf.

Ford Calls For GOP Unity

CINCINNATI, Ohio (AP) — Vice President Gerald R. Ford says Republicans can "turn the tide" by making an all-out effort to capture a congressional seat in a special March 5 election here.

"We're in the last minutes of the last quarter," Ford said during a six-hour campaign swing for former Cincinnati Mayor Willie Gradison Jr., the Republican candidate in the 1st Congressional District race.

Gradison's opponent, another former mayor, is Democrat Thomas Lube. The seat has gone to Democrats only twice in the past half century. It was vacated last month by Republican William J. Keating, who resigned to become president of the Cincinnati Enquirer.

Soviets Test Missile

WASHINGTON (AP) — The Pentagon says the Soviet Union has test-fired a big new SSX18 missile with Soviet warheads into the Pacific.

Pentagon spokesman Jerry W. Friedheim said Wednesday it was unclear whether the current Soviet missile tests were timed to coincide with the opening in Geneva of a second round of the Strategic Arms Limitation Talks.

"I don't think we are in a position" to reach any judgment on that question with certainty, Friedheim told newsmen.

Union Loan Investigated

CINCINNATI, Ohio (AP) — A \$5.5 million loan from Teamsters funds to purchase a Cincinnati race track is being investigated by the U.S. Attorney's office in Chicago, a spokesman says.

U.S. Attorney James Thompson said Wednesday that the loan, used to buy River Downs Race Track was being probed, along with other loans made by the Teamsters Central States Southeast and Southwest Area pension fund.

Nicholas Tweel, whose wife, Joy, bought the track last summer, said he is not concerned about an investigation.

Energy Crisis Poll Results

WASHINGTON (AP) — A weekly poll used by the government to sample opinion about the energy crisis shows that belief in the fairness of fuel allocation is high, but eroding. The poll also indicated that more people are having trouble getting gasoline and proposals for gasoline rationing are gaining popularity.

FBI Probing Papers

LOS ANGELES (AP) — The FBI is investigating possible tampering with some documents submitted by the White House to special Watergate prosecutor Leon Jaworski, the Los Angeles Times says. In a story from its Washington bureau in Thursday's edition, the Times said it had learned that one memorandum on White House stationery given to Jaworski has two paragraphs cut from the second page. The White House at first refused to provide the FBI with some of the official White House logs the FBI said it needed to investigate the matter, the Times quoted unnamed but knowledgeable sources as saying.

Fuel Suit Hits Simon, Oil Firms

By RICHARD W. FOSTER
Associated Press Writer

The state of Maryland has filed suit against federal energy officials to force them to increase the state's monthly gasoline allocation.

"All we're asking for is our fair share," said Maryland Gov. Marvin Mandel. He claimed the situation was critical in the state and that industries might have to close if workers couldn't get gasoline to get to their jobs.

The action came Wednesday as authorities in 20 states, including Maryland, worked to decide how to distribute a one-time bonus gasoline allocation given them by the Federal Energy Office for the rest of February.

Commenting on the Maryland lawsuit, an aide to Simon said the FEO had acknowledged Maryland's problems in including it among the 20 states to receive the bonus allocation.

"But we recognized that other states were in short supply and some of them were in even worse shape than Maryland," the FEO spokesman added.

Meanwhile in the 19 other states receiving extra gasoline, governors and officials made varying decisions about where the gasoline should go.

In Alabama, officials said rural areas will get the fuel; in Massachusetts, the one-time bonus will go to major metropolitan areas; in Florida, most of the new allocation will relieve hard-hit industries; and in Missouri, where officials say motorists are not suffering, the gasoline will go to farmers, school buses and public transportation.

It's up to the governor of each state to decide where the fuel, being added to already established state emergency supplies, will go. But however the gasoline is distributed, most officials say it will only ease the problem — not solve it.

C.L. Menger, director of Alabama's energy board, said even with the \$24 million gallons the state is getting, Alabamians will have 18 million gallons less gasoline than they had last February.

Shell said Wednesday its refineries are not operating at capacity because of a crude oil shortage and that inventories are still not high enough to meet projected demand.

Shell said it had 17.5 million barrels of gasoline on hand, compared with 16.9 million a year earlier. Continental placed its gasoline stocks at 7.4 million barrels, compared with 7.6 million a year ago.

Shell said its crude oil stocks were up 130,000 barrels over last year's figures but down 700,000 barrels from the Jan. 1 figure of 20.2 million barrels.

Gasoline Allocation Called Shambles

WASHINGTON (AP) — Federal energy officials ruefully admit their first month of gasoline allocation is a shambles, the victim of bad data, inexperience, over-reliance on oil company cooperation, and a dash of politics.

"We had envisioned that the oil companies would pick up our allocation method ... but they didn't," John Adger, a Federal Energy Office aide, said in an interview. "They just sat back and watched the show."

Officials say some lessons were learned and the system should work better in March. That may be its last chance. A decision whether to switch to rationing may be required by mid-April as summer demand approaches.

Meanwhile, the February allocation program was floundering. Unfortunately, the FEO's 56-page state-by-state estimate was wildly wrong. Simon then sent teams into 20 states and only last Tuesday issued revised estimates for them.

All of the revisions showed available gasoline supplies far higher than previously reported. Sixteen were off by more than 30 per cent; two of them showed errors greater than 60 per cent. The smallest error was 16 per cent.

For the remaining 30 states and four jurisdictions, the FEO still had no revised estimates. Even the 20 updated estimates were only reasonable guesses, not hard data.

"We have no reliable figures to base it on," said George E. Hall Jr., FEO fuels manager supervising the gasoline program. "It's been a judgment call all the way."

Within three days, Simon ordered shifts of gasoline from 10 good-supply states to 12 others and the District of Columbia. Unfortunately, the FEO's 56-page state-by-state estimate was wildly wrong. Simon then sent teams into 20 states and only last Tuesday issued revised estimates for them.

Area Deaths

MRS. MARY E. GINTNER

Mrs. Mary Elizabeth Gintner, 82, of Geneva, died Tuesday. She was a native of Crawford County, Ind., and had lived in the Orlando and Geneva area for the past three years moving here from Clarksville, Ind. She was a member of the Wall Street United Methodist Church, charter member of the Grace Clegg Wilson Palatka Class and member of the Ann Rogers Clark Chapter of DAR, all of Jeffersonville, Ind.

She is survived by her husband, Edward R. Gintner; daughter, Mrs. William (Jean) Long, both of Geneva; two brothers, Wayne Evans of Elizabeth, Ind. and John Evans of Pico Rivera, Cal.

Funeral services will be held at 10 a.m. Wednesday at the Grambow Funeral Home in charge of arrangements.

MRS. HILDA GARDNER

Mrs. Hilda W. Gardner, 79, of 121 Scott Ave., Sanford, died Wednesday night. Born in Honesdale, Pa., she moved to Lake Mary in 1958 and Sanford in 1972. She was a member of Good Shepherd Lutheran Church of Sanford.

Survivors include two sons, Robert L. Gardner, Mt. Holly, N.J., and Walter J. Gardner, Sanford; Mrs. Mary Rife, DelBary, sister, Mrs. Helen D. Kroll, Bryn Mawr, Pa.; eight grandchildren and two great-grandchildren.

Brisson Funeral Home in charge.

Funeral Notices

GARDNER, MRS. HILDA — Funeral services for Mrs. Hilda W. Gardner, 79, of 121 Scott Ave., Sanford, who died Wednesday, will be held at 10 a.m. Saturday at Brisson Funeral Home with Rev. W. B. Doney officiating. Burial at a later date. Arrangements in charge. In lieu of flowers donations may be made to Cancer Fund.

OAKLAWN MEMORIAL PARK — Burial at Oaklawn Cemetery, COUNTRY CLUB ROAD.

JUDY HILT ...A good experience

BETTY LOU SHEROUSE ...Not regretting the experience

Students Learning From Businesses

By JEAN PATTESON
Herald Staff Writer

Twelve students from the Seminole High School Cooperative Business Education (CBE) class are currently employed in various offices in Sanford and Longwood gaining on-the-job experience which they all agree is proving valuable.

"It's a good experience," commented Judy Hilt, who is working as a clerk-typist in Southern Loan, Sanford. "This way you can find out if this is really the work you want to do before you go to college and spend money on further training."

While Judy doesn't think the clerk-typist and general office work she has been doing is quite her line, it has given her a

valuable insight into what to expect from a similar job.

Eva Davis, working in the bookkeeping department of the Sanford Atlantic National Bank, loves her work, and says it has helped her make up her mind what she wants to do after she leaves school. "It's shown me the business world can be great," enthused Eva.

Deidre Wright, employed in Dr. C. Park's surgical office, has found the experience "interesting, a good idea and a lot of fun." She now knows she definitely wants to do executive secretarial work, not in a medical office necessarily, but in a large corporation — a fashion house or airlines office, perhaps.

Betty Lou Sherouse, employed in the Sanford city hall, has discovered office work is not for her. "I'm not regretting the experience," she hastened

to explain. "I'm glad I had the opportunity to find out this is not going to be my career while I am still at school."

Betty Lou plans to enter the fashion merchandising field next year. "A job where I can move around more and meet people," she explained.

While these senior students are receiving meaningful training in the offices doing filing, typing, answering the phone and performing other varied clerical and secretarial duties, they are also attending related study classes in school.

The CBE class is designed to increase a student's knowledge and skills by working in an office prior to graduation from high school. This same experience may enable a student to go to college or enter the working world on a full-time basis.

DEIDRE WRIGHT ...Interesting and a lot of fun

EVA DAVIS ...Business world can be great

Businessmen Gather On Daytona Campus

More than 100 officers from the nation's leading corporations will attend Bethune-Cookman College's second annual Corporate Open House today and Friday, according to Open House chairman James E. Davis.

The list of guests at the Daytona Beach campus reads like Who's Who among major American corporations: executives of American Can Company, The Chase Manhattan Bank, Sperry Univac, R. W. Woolworth, Heinz USA and General Foods Corporation.

In 1969 more than 80 businessmen from throughout the country found the meeting between industry and the college a good way to improve relations between black college students and big business.

The first meeting also disclaimed the idea of two sets of standards — one for black and one for white applicants, a college spokesman said. The visiting businessmen said they are interested in average

students who can be trained and in above average students for managerial positions.

Dr. Richard V. Moore, Cookman College's second college president, will start this year's executive visitors on their two-day campus visit with an introduction to faculty, staff, administration and students in a morning assembly.

Methodist Bishop Joel D. McDavid, chairman of the college board of trustees, will welcome the executives.

Tonight the visitors will hear a special address by Dr. James E. Davis, chairman of the board of directors of Winn-Dixie Stores Inc., before an 8 p.m. Corporate Open House program.

Program music will be provided by the Bethune-Cookman College Concert Chorus under the direction of Thomas D. Demps.

Dr. J. Saxton Lloyd, second vice-chairman of the college board of trustees, will introduce the speaker.

(Con't. from page 1A)

gasoline, were the huge oil companies allowed to raise their prices to compensate for the reduced supply? All that that accomplished was to keep their profits (amounts so enormous they boggle the mind) at the same level. Well, the oil companies are part of the reason for the energy crisis, so why should their profits stay the same (or worse, increase)? What is the tragedy if big business would bear part of the burden of our current troubles? "But oh, no, folks. You and I are the ones who pay—60 cents a gallon and no end in sight. Can you believe that the signs of this energy crunch were not apparent to our government three months ago, or six months ago, or two years ago? What the hell have our leaders been doing? Wallowing in Watergate? But to and behold, all of a sudden the government announces that there is an energy crisis and a shortage of practically everything, and we meekly accept. Why aren't we outraged? We are taken for fools and suckers—and we must be.

MACARONI AGAIN

"We are fools because we have uncompilingly let the big-money interests take over our country. If you're not a connoisseur, you're nobody. But laugh and cry and rage at all the same time when some overeducated economist rattles on about supply and demand and trade deficits and balance of payments, then he slinks away, back to his well-furnished home and well-padded paycheck, while we eat our heads and eat macaroni again.

"We, the people, used to have high moral standards—sometimes downright Victorian and very naive, but high nevertheless, and we meekly allowed our beloved country to limp along with a President who is at best morally questionable, surrounding himself with yes men and crooks and perjurers and enriching himself at our expense." My house needs remodeling—will you send me tax money to pay for it?

"Congress, a body of elected officials completely surrounded by a vacuum, is supposed to reflect the will of the people. And it is reflecting all right—reflecting our lack of will to change what is wrong. What are we afraid of? Have we met the enemy and it is us? Where is our public pressure—our collective will—to either get the President's back (if his is still truly the leadership we want) or get him out of office? "We have gone along for years accepting the rich getting richer, toys that can maim, built-in obsolescence, unsafe cars, medical costs that threaten bankruptcy, air that chokes us and special-interest lobbies in Washington. Don't we care? Are we indeed such sheep that we must wait for a Ralph Nader to come along and get our cars made safer for us? We are the ones who are getting amazed up in our Timberly two-doors at the rate of \$0.00 a year while Pentagon personnel spend their time in chauffeured land, I might add, starry limousines. Where is the "citizens' lobby" to look out for our interests?

"There is insanity all about us. Our government seeks what to Russia, which in turn supports and encourages the Arab countries, which in turn shut off our oil. We pay farmers for not growing food, and millions go hungry. The dairy industry is a government pet, and I try powdered milk (ugh!) because real milk sells for \$1.50 a gallon. If we elect an "ordinary" person, that is, not a millionaire (like Agnew), he winds up with his hand out for money; and if we elect millionaires, how can they know or care about the ordinary needs of ordinary people?"

WHY ARE OUR VOICES?

"I have no answers—only a strong faith in the power of the people. I only know that you can't be walked on if you stand up. I know I care about my country and the quality of my life. And so do my neighbors. And the people all across America. Where are our voices? There is a scene from "The Magnificent Seven" in which the outlaw says of the poor villagers whose town he has just plundered: "If God didn't want them there, He would not have made them sheep." Have we become a nation of sheep?

LAYER POINTS TO NEW ZONES... Board studies proposals (Herald Photo by Mark Weintz)

Board Reconsiders Rezoning Schools

By MARK WEINTZ Herald Staff Writer

The Seminole County School Board shocked a small crowd at its Wednesday special session when it voted to reconsider high school zones.

Calling the plan adopted at the last meeting an abortion and a nightmare, Sims said, "I don't know what you people were trying to do when you voted for the plan at the last meeting."

With Board Member R. G. Feather casting the only negative vote the board opted to reconsider high school zones, which has been up for acceptance since Dec. 5.

At the last meeting the board adopted a proposal for high school zones that was, as Sims put it, basically the same as that offered by Layer at the Dec. 5 meeting. Last week Sims and Board Member Jean Bryant voted against the plan accepted.

The board seemed to regain an interest in the four-day rotating week plan that splits the student body into three groups and increases capacity by one third.

Ms. Bradley said she was at a neighbor's house when the fire started.

At Sanford Limits Longwood Fights Fire, Two Homes Destroyed

By CINDY FLANDERS Herald Staff Writer

A mid-morning fire destroyed two houses 20 feet outside the Sanford City limits today before units of the Longwood Fire Department were able to respond to a plea for assistance.

Sanford firemen were dispatched at 9:49 a.m., but waited at the city line, unable to give assistance, an angry Fire Chief G. M. Harriett said, because his department did not have authority to "go outside the Sanford City limits. Period."

Longwood's two trucks arrived at the scene at 10:30 a.m.

Mayor Margie Hess of Lake Mary was reported to have driven to the fire in the

SANFORD MAN DIES IN NIGHT WRECK... GEORGE ROBINSON JR., 47, of 906 E. 8th St., Sanford, died from a massive hemorrhage following the accident, County Medical Examiner G. V. Garay said today. The crash occurred on E. 7th Street at 3 a.m. when Robinson's late model car collided with a tree, according to Sanford police. (Herald Photo by Cindy Flanders)

Hacksaw Blades Found Inside Toothpaste Tubes

By MARK WEINTZ Herald Staff Writer

Seminole Sheriff's detectives, acting on a tip Tuesday,

searched the jail cell occupied by a Sanford man who recently returned from Chatochee Prison Facilities and found four hacksaw blades concealed inside two tubes of toothpaste, investigators said Wednesday.

Van Eepool Warned

(Con't. from page 1A)

He was called a "model" by health department officials of Palm Beach County, praised for the most progressive adult education program in the county by the school board, and personally endorsed by the governor of Jamaica, according to documentary evidence shown The Herald Thursday.

The dispute between Mrs. Van Eepool and Folenwider began Feb. 7 when she at first said she would visit the state attorney's office without a subpoena on the Sunshine Law case—but did not appear.

The next day, Mrs. Van Eepool said she and her husband were advised by their attorney not to appear without a subpoena.

State Atty. Abbott Herring Feb. 7 first announced he was "re-evaluating" charges against Councilmen Irwin Hunter and John Booth because of evidence the Van Eepools may have been involved.

SHS Reunion

A class reunion is being planned for next summer by Seminole High School Class of 1964. There are still 150 members unaccounted for and the reunion committee is asking the help of family and friends in locating them so that they may be contacted. Those with information may call Pat May Johnson at 322-1888 or Sandy Getman Adams at 831-7253.

Longwood Raise Decision Mullied

By DONNA ESTES Herald Staff Writer

LONGWOOD—Councilman Bill Ferrell, chairman of the city's finance committee, said this morning a seven per cent across the board pay raise for all city employees, except department heads, will cost \$10,000 for the remainder of the fiscal year through Sept. 30 and can be given if hiring is frozen.

Ferrell, meeting with Councilman Don Schreiner and Mayor Eugene Jaques in workshop, warned the city must be cautious about adding to the budget, warning with one-third of the fiscal year anticipated, only 20 per cent of anticipated revenues have been received.

Stetson Greets Alumni

DELAND—Homecoming festivities at Stetson University begin tonight with a basketball game with traditional rival, Rollins College, and conclude this Sunday with a tour of Walt Disney World, Ken Kirshman of Altamonte Springs is homecoming chairman.

A special concert by the university orchestra on Friday evening will follow five dinners by various alumni groups, "Deke" DeLoach, vice president of Corporate Affairs with PepsiCo, Inc., will speak to the Business School alumni on the subject of "Trade with Russia." Pepsi Cola was one of the first American products actually merchandised in the Soviet Union and DeLoach has been credited with the primary negotiations. He is a graduate of Stetson and a past president of the Alumni Association.

Harold Clark, circuit judge in Jacksonville, has served the past year as president of the alumni group and will preside at all sessions of the association. He will also install Leonard H. Phillips as president at the annual business meeting of the association on Saturday morning. Phillips was named president-elect during the 1973 Homecoming.

A "Sports Spectacular" will be held Friday afternoon and will include both archery and fencing exhibitions, and alumni-varsity meets in baseball, tennis and golf. A soccer game between the varsities of Stetson and the University of Florida will also be played on Friday afternoon.

An innovation for the 1974 edition of the graduates reunion will be a Sidewalk Festival which will include films of football games (before 1956), concerts by the Stetson choir, a "Hearing 50's Band," art exhibits, Blue Grass Band and others.

The traditional homecoming dinner will be held on Friday evening at the Americana Beach Lodge in Daytona Beach. Activities scheduled Saturday include a barbecue lunch, meetings of the association and a president's reception. Former Stetson athletes will gather for breakfast with members of the Hatter Club, an organization of boosters.

"Income doesn't look good at this time because we were depending on the building industry," Ferrell said.

Building permits are down, he said, and indication is income from that source will be \$35,000 short. He said building permit fees by year end may reach only 50 per cent of anticipated revenues, adding

Schreiner mentioned that the police cadet program is not working out and the police department is suffering with desk operator problems. He said however, that the city cannot consider beefing up its police desk operation and further assisting the sheriff's department with additional operations in the communications center at the same time.

Ferrell said the seven per cent raise would be in addition to pay hikes budgeted for the police department in April. He continued that raises scheduled for policemen in April will bring pay to \$8,000 annually, sergeants to \$9,000 and lieutenants to \$9,500.

With the employment freeze, it was pointed out the lieutenant position left open when John Govorukh accepted the police chief spot in Winter Springs, will not be filled this year.

To be given further consideration is a method of increasing employee fringe benefits as part of the pay raise.

NEW YORK (AP)—Stock prices today continued their advances of Wednesday.

The Dow Jones average of 30 industrials was up a fraction near opening while advancing New York Stock Exchange index held a solid lead over decliners.

Amerasia Hess, up 1/4 to 33, was the Big Board volume leader, followed by Gulf Oil, up 1/2 to 22 1/2; Merrill Lynch, up 1/4 to 11 1/2, and Raytheon, up 1/2 to 35.

The stock market made big gains Wednesday, despite any real positive economic news. The Dow Jones blue chip indicator closed up 11.50 as gainers led losers 696 to 495 on the Big Board.

Analysts attributed the gains to technical factors based on continued speculation that there will be an end to the Arab oil embargo supply soon.

However, volume was a weak 11.67 billion shares, indicating many investors still were on the sidelines.

World News Briefs

Israeli Government

JERUSALEM (AP) — Premier Golda Meir is forming the first minority government in Israeli history, but it is assured of majority support for its peace negotiations with the Arabs. The National Religious Party refused to resume its traditional role of junior partner to Mrs. Meir's Labor Alignment because she refused to tighten up religious requirements for Israeli citizenship. But other parties promised the 75-year-old premier the support of 68 votes on any matter concerning negotiations with the Arabs.

Author's Wife To Leave

MOSCOW (AP) — Alexander Solzhenitsyn's wife says she and her family have been promised quick action on their exit visas and she has gotten permission "in principle" to take her husband's books and papers to the West.

Yugoslavian Constitution

BELGRADE, Yugoslavia (AP) — Yugoslavia's parliament is meeting today to adopt a new constitution that 81-year-old President Tito hopes will hold the country together after he is gone. The new charter strengthens the role of the Communist party as a guarantee against nationalist separatism.

Teen Held in Murders

NASSAU, BAHAMAS (AP) — An American teen-ager was to go before a Bahamian magistrate today on charges of killing three American tourists.

A preliminary hearing for Michaela Shobek, 19, of Milwaukee, Wis., had been set for earlier this week when police were called away to investigate a bank robbery. Shobek, who has refused to speak to magistrate Wilson Hercules, is charged with first degree murder in the slayings of Katie Smith, 11, a high school student from Detroit; attorney Paul V. Rowell, 56, of Massillon, Ohio, and accountant Irvin Bernstein, 44, of Ocean City, N.J.

Kosygin Honored

MOSCOW (AP) — Soviet Premier Alexi N. Kosygin was honored today "for his great services to the Communist party and the Soviet state." The occasion is Kosygin's 70th birthday.

He was awarded the Order of Lenin and the second gold medal of Hero of Socialist Labor. "At all posts of party and state work you devote your energy and experience to the selfless service to the cause of Communist construction, to the lofty ideals of Marxism-Leninism," said a congratulatory message from high Soviet agencies.

Rebels Pushed Back

PHNOM PENH, Cambodia (AP) — The Cambodian command said today that government ground forces moving behind napalm air strikes pushed Khmer Rouge rebels back at several points northwest of Phnom Penh. Elements of two government columns moving from the east and south against a rebel pocket 10 miles northwest of Phnom Penh linked up and recaptured several positions in the area, the command said.

A week ago insurgent forces for the second time this year attempted to thrust towards the capital from the northwest, but government troops repelled them and claimed they inflicted heavy losses.

Kissinger Meets With Ministers

MEXICO CITY (AP) — Secretary of State Henry A. Kissinger today began three days of meetings with 24 Latin American and Caribbean foreign ministers amid signs some of them would press for Washington to ease its boycott of Communist Cuba.

"We have come to listen with understanding and friendship, and we intend to respond with honesty and cooperation," said Kissinger as he arrived Wednesday with Senate Democratic leader Mike Mansfield of Montana and Republican leader Hugh Scott of Pennsylvania.

Kissinger began working as soon as he arrived at his hotel. He called on the foreign ministers of Brazil, Argentina, Peru and Venezuela, tentatively walking from suite to suite in the heavily guarded hotel.

The foreign ministers have prepared an eight-point agenda of the region's problems with the United States. Kissinger also wants to discuss the energy crisis and give a broad Washington view of the current international situation.

Although State Department officials in Washington said Kissinger had no intention of altering the economic blockade the United States instituted against Cuba in 1964, he was expected to face attempts to obtain a more lenient policy toward Fidel Castro's regime.

Cuba is the only Latin American nation not taking part in the conference, but the Cubans are keeping an eye on the proceedings. The official Cuban news agency, Prensa Latina, has several correspondents accredited to the conference, and on Wednesday the Cuban ambassador to Mexico lunched with officials from Peru, Panama and Argentina.

A Cuban source who attended the luncheon said Havana anticipates "no change" in U.S. policy toward Castro.

Uncertainties Plague

Stock Market Traders

NEW YORK (AP) — Many institutional stock market traders are being reduced to exasperated inactivity by the uncertainties that seem to be more numerous than at any time since World War II.

The energy problem, inflation, threatened recession both domestically and internationally, shortages of basic goods, enormous food price increases, the President's problems and a generally sour national mood are among the elements.

Because of this, some institutions have tried to resolve their dilemma by temporarily putting their funds into short-term debt securities instead of into stocks. To a large extent this is done merely for conservation of capital.

Argus Research explains that short-term securities provide a high yield by historical standards, and until recently a yield higher than long-term bonds. They thus so provide institutions with a safe, easy repository for their dollars.

For a while the mutual fund industry, which has been taking its lumps for more than two years, seemed to be able to see a path through the maze and began committing funds. But that was last October.

At that time the growing realization that there was a surplus of demand for natural resources convinced them that industry in this grouping was the place to put their money. And so, for the first time in nearly two years, mutual funds became net buyers of stocks.

Tourists Set Occupancy Record

ORLANDO (AP) Despite the fuel crisis, the Orlando Area Chamber of Commerce said a survey of hotels and motels showed that last weekend broke all occupancy records.

However, record numbers of tourists who came to visit Walt Disney World found facing them long lines for gasoline and a shortage of rental cars.

Those who drove their own cars to Central Florida found themselves facing long lines to buy \$1 or \$2 worth of gasoline at the few open service stations.

Spokesmen for rental car agencies said increasing numbers of tourists arriving had taken every available car, and even taxis were hard to find.

Lee Adams, his wife and their two children had to carry their luggage down busy U.S. 192 to their hotel after the arrival from Detroit Wednesday.

"We tried to rent a car, but we couldn't, and the taxi wouldn't take us a short distance from one motel to another one," he said.

Helen Cunningham, manager of National Car Rental operations in the Orlando-Daytona Beach-Cocoa Beach area said, "We're out. I've been here for 10 years and it's never been this bad."

Airport Managers Meeting Today

By JEAN PATTESON
Herald Staff Writer

Members of the Florida Airport Managers' Association discussed a variety of proposed Senate and House bills and Federal Aviation Authority (FAA) regulations at a special meeting Wednesday and today at the Red Carpet Inn, Altamonte Springs.

Attention was given to a proposed House bill providing for the sheriff to provide police services to certain airports; a proposed Senate bill prohibiting pay toilets in places of employment or places serving the public; an act setting forth policies and procedures for contracting professional services; DOT funding policies and procedures; and airport and airspace hazard zoning ordinances.

Last year a bill was proposed which would require the sheriff to provide police service to all airports. The proposal did not get off the ground, however, and a new House bill is being proposed which will exclude those airports which are located in more than one county, and any airport which is located in a municipality whose territorial limits are congruent with the territorial boundary of the county in which the municipality lies.

This would apply to only those airports regularly serving scheduled air carriers holding certification of public convenience issued by the Civil Aeronautics Board of the Florida Public Service Commission.

Sen. Lori Wilson has submitted a draft bill which would prohibit a place of employment or place serving the public to charge for the use of any toilet which is required to be provided by regulation of the division of health and rehabilitative services.

The Consultant's Competitive Negotiation Act sets forth procedures for contracting professional services after July 1, 1973. It affects all governmental agencies if the project cost for engineering services exceeds \$5,000. The bill requires the consultant to be prequalified by the DOT, and to be selected according to procedures outlined in Florida Statutes Ch. 73-19.

Koscot Keeps Operating

ORLANDO, Fla. (AP) — A federal bankruptcy judge Wednesday allowed Koscot International, Inc., to continue selling cosmetics pending a hearing on redistribution of the firm's remaining assets.

Judge Alexander Paskay ruled Koscot could sell cosmetics until the hearing April 24, but he said the firm could not sell distributorships.

Thousands of creditors have filed claims against the firm founded by Orlando businessman Glenn W. Turner.

Area Boxing Fans Welcome Undefeated Licata's Return

By LEE GEIGER
Herald Correspondent

One of the largest crowds in Orlando's boxing history should be on hand Feb. 27, to welcome the return of Tampa's Tony Licata.

The undefeated Chinese-Italian scored the most impressive win of his 44-bout career this month when he pounded out a unanimous decision over five time former world champion, Emilio Griffith, in Boston.

The official scoring in the 12-round battle for the American and North American Middleweight belts was 118-112, 117-114, and 115-112, all for Licata. The Bill Gore trained fighter will be raking his number four ranking amongst world middleweights when he meets Cipriano Hernandez in San Diego, Calif.

Hernandez who fights as both a middleweight and a light heavy has been a main event fighter since 1968 and has met the best of both divisions.

He fought a draw with and defeated Buddy Boggs, when Boggs was 12-2 and just about ready to take his place in the world rankings.

Hernandez was stopped by Rafael Gutierrez and lost close 10 round decisions to high ranking contenders such as Mike Nixon, Armando Muniz, Eric "Indian Red" Lopez, Andy Kendall, Pat O'Conner, Rudy Robles, Sandro Mazzinghi, and Thurman Darden. Licata was last seen here in defense of his Southern Middleweight Title, a eight round knockout of Nat King. Prior to that, he stopped Bruce Scott in just four rounds at the Orlando Sports Stadium in November. A strong supporting card has

been lined up featuring Victor and Ricky Perez from Sanford. Victor will be seen in a six round re-match with Al Moss of the Bahamas.

This past Feb. 6, at the Sports Stadium Moss was awarded a split decision over Perez. Most of the fans that were in attendance seemed displeased with the verdict as it appeared that the local fighter deserved to have his hand raised in victory.

Victor had been making great strides towards a future main event before the Moss setback with scores coming over Charlie "Baby" Fullard, Roscoe Bell, Wayne Battle, Al Cook, and Ir Efferd.

Moss, making his initial effort before the local crowd proved a difficult opponent to fight with his mauling style and long arms. A big hit over in the islands, Moss hopes to use

Perez as a springboard into national recognition.

Ricky Perez will be making his pro debut in a four rounder with Orlando's Wayne Battle.

Victor's younger brother is a carbon copy of him both in looks and in weight. Coming in at around the 150 pound mark Ricky has impressed everyone with seven knockouts. His last ever gone past the fourth round with the Minnesota slugger.

Robbins also will be making his third appearance in Orlando. His last two efforts were against the undefeated middleweight from Missouri, John Pinney.

The first Pinney-Robbins bout was a close six rounder in which many of the crowd felt the Altamonte Springs fighter deserved at least a draw. The re-match was much more decisive as Penney won going away.

HAPPY MOMMA PUTS HEADGEAR ON... Popular boxing son Tony Licata of Tampa

Thompson Leads Pack By Duke Five

By KEN RAPPOPORT
AP Sports Writer

North Carolina State is up—and so is David Thompson. Because the Wolfpack was elevated to No. 1 this week, Thompson is playing at the top of his game.

The proud North Carolina State star was on his toes Wednesday night, leading his teammates to a 113-87 basketball victory over Duke.

"I wondered how we would react to being Number One. It must have motivated us—that charge from the start, soaring to a 21-18 lead behind the terrific Thompson played so well," said North Carolina State Coach Norm Sloan.

The keyed-up Thompson scored 40 points, collected 14 rebounds, made two steals and blocked two shots as the North Carolina State players ran away from their Atlantic Coast Conference colleagues.

Elsewhere among the nation's ranked teams, No. 5 Maryland whipped Duquesne 98-72. No. 6 North Carolina stopped Miami of Ohio 83-69. No. 7 Pitt trimmed Temple 56-49 and No. 14 South Carolina defeated Virginia Tech 83-71.

North Carolina State took charge from the start, soaring to a 21-18 lead behind the terrific Thompson played so well," said North Carolina State Coach Norm Sloan.

left, Sloan had taken his last starter out of the game.

The Wolfpack's full-court press gave Duke a devil of a time, inducing 24 turnovers. No. 1 team outrebounded the Blue Devils, 57-43.

John Lucas and Len Elmore combined for 53 points to lead Maryland's victory. Elmore had eight points and Lucas six as the Terps outscored Duke 18-4 in the first four minutes of the second half to open up a 58-40 lead.

Lucas finished with 27 points and nine assists and Elmore had 26 points and 17 rebounds. Their standout performances helped Maryland win its 12th game in 22 starts.

Bobby Jones scored a career-high 29 points, sparking North Carolina over Miami of Ohio, 83-72.

In New York, Lee Hollerback, a 6-foot-6 sophomore from Bridgeport University, extended his own NCAA record for consecutive field goals when he connected on his 22nd straight shot. Iowa defeated Bridgeport 72-60.

Lyman Swimming Team Opens Season Friday

By JOHN CHERWA
Herald Correspondent

The high school swimming season gets under way Friday when Lyman travels to the South Orlando YMCA to battle with Colonial.

The team as a whole lacks experience and depth but still has a few standout performers that are expected to do quite well in district and state competition.

Rick Cavill is captain of the boys' team while Carol Catalano is the girls' captain.

The diving captain is Felipe Ortiz, a transfer student from Nebraska, and he is expected to be one of the best of the Metro Conference.

The girls especially lack depth. Carol Catalano is the veteran on the team with two years experience, competing in freestyle sprints, individual medley and middle distance.

Returning from last year is Theresa Luby who specializes in the breaststroke. Karen Hawkins is also a breaststroke and Joyce Maxwell, who swims in the butterfly and individual medley.

Among the newcomers are five freshmen. Linda Cattaneo (backstroke), Terri Gibson (distance freestyle, breaststroke), Betty Carpenter (butterfly, individual medley, freestyle sprints), Becky Platt (distance freestyle) and Mary Beth Rahill (distance freestyle).

This year's diving team has only one veteran. The other divers are all freshmen: Ken Hansen, Richard Crabtree, and Ken Cardenas.

The boys' team does have the most experience with three, three year lettermen.

Cavill who swims in freestyle sprints should be the leader along with Patrick Rogers who specializes in middle distance freestyle, breaststroke, and individual medley.

Karl Schoepflin is the third three-year man and goes with the butterfly, individual medley and middle distance.

Friday's meet will start at 3:30 p.m. as will most meets. The local YMCA's supply pools used throughout the year.

The swimmers and divers are tuning up the Metro Conference Swimming and Diving Meet well in the future, but one of the key events of the year.

Sanford Cagers Share Cinderella Tourney Dream

(Cont'd From Page 12A)

surprise some people. Jones led the club this season in scoring (18.2) and rebounding (8.7). Doug Gregory a 6'2" junior, can do damage from the forward spot, averaging 11.3 per contest.

Sophomore center Craig Scott (10.1) finished up the year as the number two rebounder and at 6'4" is the tallest member of the DeLand contingent. The team sparking however is 5'10" senior Mark Bores, who hit for 9.7 a game while getting 8 assists per.

The Dogs have been tough since Christmas and finished up the year 11-13 and 7-7 in the Big Eight, just ahead of Sanford. Should the Bulldogs get by Lyman they will have to face Seabreeze Friday night.

TAKE THAT, AND THAT

LYMAN

The Hounds had a good case of the "rebuilding blues." Last season the Longwood club went 4-19 and then got another coach. This time around the Metro Conference school continued the skid going 3-20 overall and 0-16 in the loop.

Randy Wright, the only senior on the Greyhound starting five, leads the club in scoring with 15 per contest. Other than Wright the Hounds seem to be looking toward next year with two sopho and two juniors on the first five.

At Cleveland leads the team on the floor as the playmaker, and the 5'10" junior can hit (12.0) from the outside. Al Latimer hits from the outside as well and changes off with another junior, Lee Coty. Both log about half a game.

Gaining experience the hard way are sophomores Clyde Hudson and Bernard Wright. At 6'4" Wright is the tallest Hound starting, and the 6'0" Hudson bolsters the outside crew.

RAIDER REBOUNDER Robert McCullum gives Valencia center Keith Nye an elbow to the kidney as Bobby Thomas (33) slips in a short jab to the back in what looks more like a boxing match without rules than a contact-laden basketball game won by VCC, 62-54. (Herald Photo by Ken Bumpus)

Strengthens Lead

Shirley Simas' 181-494 led the Fairway Plaza Laundromat to three wins over Hacienda Village to strengthen their lead in the Generation Gap bowling league.

Alice Hendricks' 176-565 was high for Florida Convo when they won three points from Fly Catcher Bowls.

Myrtle Davis' 152-449 was a boost for Whitaker Sweep as they scored a clean sweep over Southern Looners.

Sandy Russell helped boost Morrow Harbour to four wins in their match with the U.S. Bankers.

Bette Hull's 168-461 and Nina Darnell's 150-455 were high for Ruta Texaco as they scored

Sebring Race Silenced By Gas (Fan) Shortage

SEBRING, Fla. (AP)—For the first time in 23 years, the roaring granddaddy of international auto racing in the U.S. will be silenced.

Promoters of this year's version of the 12 Hours of Sebring, formerly one of four international auto endurance races, said Wednesday that severe gasoline shortages in Central Florida have forced them to cancel the event previously set for March 23.

"It's off. It won't be held at Sebring and probably nowhere," said Jim Bishop, of Fairfield, Conn., president of the sanctioning International Motorsports Association.

This year's event, like last year's, would have been a GT race with a field of mostly domestic cars, a step down from the previous races featuring many top foreign drivers.

"We did have some exploratory talks about having a race at Daytona on the vacant date but there appears to be not enough time," said Bishop.

Ex-Longhorn Gary Shaw Speaks Out In 'Meat On The Hoof'

By STEVE CASEY
Copy News Service

Gary Shaw, with longish, dirty-blond locks hugging his collar and a soft Texas drawl kissing his every word, doesn't come on like a jock who fought his way through four brutalizing years of college football for the Texas Longhorns.

Modest, almost shy, he doesn't come on like a crusader, either.

But player he was and crusader he is.

At 28, Shaw has emerged as one of the nation's most literate and outspoken adversaries of the business that calls itself college football.

A popular author (his "Meat on the Hoof" has been critically acclaimed and has sold about a half-million copies in Dell paperback to date), Shaw tells what life was like under Texas Coach Darrell (Daddy D.) Royal.

And, by inference, he tells of the athletes' lot at any high-powered football school.

No "How Coach Royal Taught Me Manhood" kind of book, this, instead, "Meat on the Hoof" is a sharp indictment of trickery, exploitation and fraud in college athletics.

Shaw tells how he almost died as a result of a football injury and shoddy team medical care.

He tells of players performing with crippling injuries, playing out of fear of the coaches calling them cowards if they refused.

He tells of a "brain coach," hired, players were led to believe, to help with studies but whose real function was to keep team members eligible for football — by advising them to take snap courses and by persuading professors to raise grades for academically troubled stars.

But mostly he tells of coming of age on the football field and recognizing the discipline and dogma for what it is — just

another way to keep players in a state of perpetual adolescence, to use them to win football games no matter what the personal cost.

Performance was the key to manhood, according to coaches' conventional wisdom.

Perform well today and you're a man. Do badly tomorrow and run the risk of losing your manhood.

As a college student, Shaw rejected that philosophy and wanted to rebel. But he had no direction for his rebellion.

Today, working on a doctorate in psychology, Shaw believes much of the emphasis of football one must first change deeply held ideas about the merit of winning, the shame of losing.

He has been stunned, castigated and made sport of for his book, he said during an interview.

He has learned all over again that attacking the institution of football is attacking the popular notions of what manhood should be.

He recognized that early, witness his book.

"It's not just that football is so popular and that attacking it would endanger the enjoyment these people have on Saturday afternoons. And it runs much longer than the fact that football is a big business and big businessmen happen to like one another's company."

"No, I think it runs right to the core of the American psyche."

"These big shots are all winners... Only a few get to be winners and you make it by competing and defeating others. Life is a big football game."

"To attack football," he wrote, "is to attack the major exhibit of the masculine view of the world. And on a gut level, the winners in this survival-of-the-fittest code sense the connection."

News Chain Earnings Increase

MIAMI (AP)—Knight Newspapers, Inc. today announced record annual earnings of \$2.11 per share in 1973 on a net income of \$22 million.

Fourth quarter earnings were 63 cents a share compared with 1972's all-time quarterly record of 58 cents a share.

Lee Hills, chairman of the board of the newspaper chain, said the acquisition of newspapers in Lexington, Ky., Columbus, Ga. and Bradenton, Fla. and circulation gains in Detroit and Philadelphia helped account for the record earnings.

Knight said revenues totaled \$41,900,000 in 1973, an increase of 10.1 per cent over 1972. Net income was \$22,068,000, up 6 per cent.

Earnings per common share of \$2.11 represented a 5.5 per cent increase over 1972.

Fourth quarter figures saw revenues rise to \$95,803,000 for \$85,485,000 but net income decline slightly from \$6,990,000 to \$6,534,000.

The Knight company published 16 daily newspapers in 11 cities and seven suburban newspapers.

Scotty's Sales Increase

Scotty's Inc. (AMEX-SHB) reported a 23.5 per cent increase in sales to \$6,751,493 for the month of January, 1974, over \$5,468,008 for the same month a year ago.

Total year-to-date sales for the seven months ended January 31, 1974 were up 25.1 per cent to \$41,267,584 over \$33,386,146 for the same seven months of fiscal 1973.

Scotty's Inc., is headquartered in Winter Haven, Florida and operates a chain of building and home improvement supplies stores throughout Florida. The firm also has 4 Scotty's Surplus Outlets in operation in Florida.

Block Opens New Office

H & R Block, Inc., the nation's largest tax preparation service, today announced the opening of a new office on Highway 174, one half mile south of highway 434. The office is now fully operational, and will be especially convenient for residents of Winter Springs and Longwood.

"We have a minor problem explaining the office location," Floyd Harris, office manager, indicated. "It has a Casselberry mailing address, but is not in the city of Casselberry." "Highway signs indicate it is in Longwood, but it is just outside the city limits."

The new office is definitely in Seminole County, just north of Lake Kathryn, and will be open 9 to 9 weekdays, and 9-5 on Saturday and Sunday.

Chubb Elected President

Albert H. Chubb has been elected President of ComBank-Fairville, according to an announcement made today by E. G. Banks, Chairman of the Board. Chubb is Vice President of ComBank Corporation and also serves on the Boards of ComBank-Longwood and ComBank-Winter Park.

Banks explained Chubb will assume the Presidency on Jan. 1, filling the post held by George F. Anderson for several years. Anderson continues to serve on the ComBank Corporation Board of Directors and the Boards of several ComBank member banks.

A native of Winter Park, Chubb joined ComBank-Winter Park in 1962. He is a graduate of Rollins College. Active in community affairs, he is chairman of the Board of Trustees of Valencia Community College, a board member of the Central Florida Blood Bank and is a member of three local Chambers of Commerce.

Change Card Blances Jump

ORLANDO — Bank charge card balances outstanding at the close of the third quarter of 1973 for the State of Florida totaled \$206.5 million — a jump of \$28.2 million over mid-year totals, according to a report released by the Florida Bankers Association's Bank Charge Card Committee. During the third quarter, more than 6 million sales slips were processed; and more than 77,000 cash advances were made. The number of cash advances represents nearly a 58 per cent increase over the previous quarter. The average retail sale was \$20.38 for Floridians from the end of June to the end of September.

Mark Stroud, chairman of the Florida Bankers Association's Bank Charge Card Committee, said, "Retail sales for the period tallied more than \$129 million while cash advance volume totaled just over \$11 million for the State."

At the end of September, 32,701 merchants accepted Master Charge and 38,717 accepted BankAmericard as payment for a purchase. The average customer account balance was \$267.00.

Mark Stroud, who is also vice president, Lewis State Bank, Tallahassee, Fla., pointed out that for the first time since bank charge cards were introduced nine years ago, active accounts totaled more than 850,000.

Russell Brown Promoted

M. Russell Brown, formerly assistant vice president and marketing officer for Sun First National Bank of Orlando, has been promoted to manager of the advertising division of First at Orlando Corporation.

In his new position, Brown will coordinate advertising for the corporation's 31 banks around the state, correspondent bank advertising, national corporate advertising and advertising programs on local and statewide levels. He will also undertake special assignments and projects in all marketing functions of the Corporation.

A research department report from Kidder, Peabody & Co. notes that Chase-Brown-Pond's has four new products being test-marketed. They are two after-shave lotions, a deep-

Coin Recall Unlikely

Price Of Silver Expected To Rise

By CARL W. RITTER
Copley News Service

Less than a year ago the price of silver was hovering around \$1.98 to \$2 an ounce. By June of 1973, it had climbed to \$2.85 an ounce. Now it is around \$4 an ounce. Will it go to \$5 this year? Or even higher?

The "yes" arguments are impressive. One big reason for the positive view is the fact that the government is permitting the price to find its own level in a free market. Time and again in recent years the government stepped in and made silver sales from its stockpile, keeping the price down. It may be said the government acted in good conscience, because this action helped Silver Users Association members, who presumably enabled the public to benefit down the line. Then there was the valid point until just recently that silver was a monetary metal

and speculation relating to it in any form might interfere with its proper function in coinage. Now that our copper clads have driven silver coins out of circulation in reclamation, Gresham's Law (bad money drives out good), the latter consideration is rather academic. It is still possible, of course, for one or two unsettling things to happen. Unsettling, that is, for the millions of Americans who have silver coins tucked away. For one, the government might call in all silver coins, since governments from time immemorial have taken less than kindly to citizens profit rearing from the monetary system through hoarding. There is a possibility, too, that the hoarded silver coins, since they no longer effectively relate to their original purpose, might be disenfranchised. They could be proclaimed no longer legitimate legal tender. Neither of these possibilities is anywhere near a probability. There no doubt will come a time when the U.S. government would like to call in silver coins, but there are too many millions in the hands of housewives throughout the land."

UNITED FIRST FLORIDA BANKS, INC. HOST MEMBERS

THE Grand Ballroom of the Kahler Plaza Inn in Orlando was the scene for cocktails and hors d'oeuvres for members of the board of directors of banks belonging to the organization. From the left, Scholoh Stephens President Orlando Bank & Trust; C. Howard McNulty executive vice president United First Florida Banks Inc.; Frank Smathers Jr. president and chief executive officer of U.F.F.B.; Charles Bradshaw director of U.F.F.B.; Forrest Waddle senior vice president of U.F.F.B.; and T. E. Tucker chairman of executive committee U.F.F.B. (Herald Photos by John A. Spolski)

Bank Employes Attend Meeting In Louisville

Mrs. Janice R. Springfield, Vice President and Mrs. Barbara Jean Brown, Assistant Cashier of the Florida State Bank of Sanford, Sanford, Florida, will be among those attending the QUAD-REGIONAL Conference of the National Association of Bank Women Inc. The Conference will be held April 21-24, 1974 at the Galt House, in Louisville, Kentucky.

The National Association of Bank Women has a membership of more than 11,600 women bank officers from all over the country. The Association actively encourages top level professional performance for bank women and places great emphasis on advanced banking and management education. The Regional Conference, one of seven such meetings, is one of the forums NABW annually offers its members for furtherance of their banking knowledge.

The organization is also in the process of developing a new and innovative "Action Program," designed to prepare women executives and at the same time provide them with specific academic credentials without job disruption.

Mrs. Jean G. Wifford, Vice President, The First National Bank of South Carolina, Spartanburg, is the National President of NABW.

Gas Or Food?

Poor Hardest Hit In Energy Crisis

Copley News Service

The energy problem is not quantity, but price, as poorer people must choose between gasoline and food, comments C. V. Myers in his Finance & Energy Review from Calgary, Canada. He reports carbohydrate prices may go "sky high" because of the grain shortage and predicts \$1 a gallon will be paid for gasoline. He sees little chance of an economic upsurge and projects further decline for the Dow Jones industrial stock average. "The next time it breaks 700 (on the dow Jones), it will find no solid footing above 500," Myers says. "Silver emerges as the most promising investment of the decade." He predicts there will be a silver corner — he declines to estimate when — and says "those who still have large stores of silver bullion when this happens will become immensely rich." He warns, however: "Silver is dangerous."

Opinion suggests that the "Nixon question" and the oil question have reached the overplayed stage and will fade as market factors. New management has placed Tooka Corp. in the toy field back on the growth road, according to an article in Investment Dealers' Digest.

Writing for Wiesenberger Services, Inc., William X. Scheinman expresses the belief that there is at least a 20 per cent downside risk remaining in the kind of stocks constituting the core holdings of the great financial institutions. He continues to advocate a defensive policy incorporating a 50 per cent cash position.

He says a time is approaching when "it is very likely we will recommend that the 50 per cent cash be employed not in the more defensive and contraband vehicles we have been recommending for more than a year, but rather in the glamor sector, which embraces such equities as Communications Satellite, IBM, Texas Instruments, Xerox and Polaroid. In brief," says Scheinman, "we feel it is much too soon to buy the glamor sector, but one should be mentally prepared — possibly by April or May — to aggressively reverse course."

Medical Center Plans Expansion

By FANNETTE EDWARDS
Herald Correspondent

DELTONA—Dr. Anthony Borowski was the guest speaker at the Southwest Volusia County Kiwanis Club last Tuesday in the Deltona Inn. Dr. Borowski, one of the principal founders of the Deltona Medical Center, explained the progress of the Center since its inception.

He stated that the Center was started some eight years ago on the idea that a small hospital would be constructed first. It was soon apparent that the

medical needs of the community were rapidly surpassing the need of the proposed hospital.

Situated on some 24 plus acres, the Medical Center was completed in 1967. This is the first group of buildings. Several practitioners use the facilities, presently. In addition to the physicians' offices there is a pharmacy and laboratory.

Plans are being readied for a fifth building to be started, which would include a radiology department. Plans are also going to be discussed for a proposed hospital, possibly to be started as early as 1978 or 1979.

Sebesta To Speak For GOP

Guest speaker at the Deltona Republican Club meeting in the Community Center at 2 p.m. Saturday, will be James Sebesta, Hillsborough County elections supervisor, it was announced today by Charles Cottrell, club president.

Sebesta is the first Republican to announce his candidacy for the office of Secretary of State to replace Democratic incumbent Dick Stone, who reportedly will resign and oppose Republican Senator Ed Garvey.

At this time, the only other candidate for Secretary of State is Lt. Gov. Tom Adams, who will conclude his association with the Ashw administration.

Sebesta is 38 years of age and has six children. He has been active throughout his locality in civic and educational affairs and has won many awards such as the 1974 Jaycee Distinguished Service Award.

He has been cited for election-related accomplishments by the Wall Street Journal, U.S. News and World Report and the Washington, D.C. Office of Federal Elections.

Representatives of Republican Clubs throughout Volusia County will be guests at the meeting.

MAN OF THE YEAR

MRS. HUGH G. Lynch toasts her husband after he was named "Man of the Year" by Deltona Woman's Club at their annual "Adam's Rib" party Friday at the clubhouse. He was chosen for the honor because he was the husband who contributed the most to the success of the club during the year.

(Herald Photo by Charles Edwards)

LUTHERANS CONSTRUCT NEW ADDITION

REV. HERBERT W. Goerss (left) and Walter Towner, chairman of the Building Committee of the Lutheran Church of Providence, review plans of new building that will house the Parish and Recreational Hall of the church at 1696 Providence Blvd. in Deltona. Ground was broken last month and already half of the 3,090 square building is built. The one-story structure will have moveable partitions to provide eight separate rooms if needed is to be completed by May 1.

(Herald Photo by Charles Edwards)

Deltona-DeBary News Round-Up

DEBARY—Philip G. Koan, president of the Koan Septic Tank Co. Inc. of Deland and a director of the Florida Septic Tank Association, was guest speaker at the Feb. 12 meeting of the Deltona Civic Association in the Community Center.

Subject of his address was "Septic Tank Story: A Story of Water: Man in Partnership with Nature."

DEBARY—Arthur Clifton, assistant director for the northeast Florida chapters of the American Association of Retired Persons, was a guest speaker at the meeting of the local chapter in the Community Center on Friday. He reminded members of the leadership development program workshop to be held on Feb. 27, at Daytona Beach. Mary O'Leary, president, introduced Clifton.

TEMPLE SPONSORS DANCE

DELTONA—Temple Shalom of Deltona will sponsor a dance Saturday night, Feb. 23, at 8 p.m., in the community center. Music will be furnished by "The Twelfth Notes." Tickets may be secured from any member.

SCHROEDER TO SPEAK

DELTONA—Former district Justice of the Peace Ray Schroeder will be the guest speaker at Deltona Republican Club meeting Thursday at 7:30 p.m. in the community center. A social hour will follow the meeting. All residents of Deltona and surrounding areas are invited to attend.

LONG RIFLES ENTERTAIN

DELTONA—At the March 6 meeting of the Deltona Sportsmen's Club, members and

AIRMAN GREGORY P. Carleton, son of Mr. and Mrs. Phillip A. Carleton, Casselberry, has been assigned to Chasie AFB, Ill., after completing Air Force basic training at Lackland AFB, Tex. He will take special training in vehicle maintenance. Carleton is a 1973 graduate of Lyman High School, Longwood.

Defaults On Consumer Loans Rise

WASHINGTON, D.C. — "Nearly 60 per cent of the installment loan delinquency increase is part of the normal Christmas season rise in delinquencies," Dr. Ford pointed out. From 1967-72, the composite ratio rose an average of 24 basis points during November-December, he said.

Dr. Ford said, "The remainder of the increase can be attributed largely to adverse economic factors such as the overall slowdown in the economy, rising unemployment, inflation and the energy shortage."

"The gasoline shortage has been particularly troublesome because it has triggered sharp declines in the resale value of cars, particularly large ones, and recreational vehicles, which further compounded the delinquency problem."

"It is too early to determine," Dr. Ford said, "The rise in delinquency ratios for mobile homes was 30 per cent increase in delinquency ratios for recreational vehicles, and a 45 per cent increase in delinquency ratios on FHA Title I home improvement loans."

Dear Abby

4 In An Apartment 1 Too Many For Joan

DEAR ABBY: I am a 28-year-old guy who came to New York with a buddy. We teamed up with another guy...

DEAR MR. CLEAN: If anybody should move, it should be your buddy who invited his girlfriend to bunk with him...

DEAR ABBY: Please reassure the wife who lamented that she had been smashing in bed, but short elsewhere during 27 years of marriage...

DEAR HUSBAND: And I'll be your right!

DEAR ABBY: My own tendency to be late was cured when someone said that tardiness is the subtlest form of self-love...

DEAR O AND B: Don't sweat it. Invite them only on those occasions when their late arrival will not inconvenience you!

CONFIDENTIAL TO OLD-TIMER IN PALM BEACH: Before you put down the youth of today, read this: "The youth now love luxury. They have had manners, contempt for authority, they show disrespect for their elders, and love chatter in places of exercise..."

DEAR POLLY: I hope someone can tell us how to remodel an old console television cabinet that is made of beautiful wood...

DEAR POLLY: My Pet Peeve is reading a Pointer in your column, and discovering it is something I do all the time but was not on the list enough to send it in myself...

GENERAL TENDENCIES: Until mid-afternoon very annoying conditions could be present. Later you find aspects take a turn for the better and you are able to start a whole new upswing...

TAURUS (Apr. 20 to May 20) You have a personal aim that should not be pushed during the day since you will attain it by evening...

GEMINI (May 21 to June 21) Although you have many problems in the world of business, you can easily handle them successfully...

LEO (July 23 to Aug. 23) Get busy handling your responsibilities well and become more successful. The social side of life could bring many delights in the evening...

SCORPIO (Oct. 23 to Nov. 21) Evening is best for amusement, but any early attempt at doing so could meet with disappointment...

LIBRA (Sept. 23 to Oct. 23) Attend only to work that is necessary and then go out and have a good time. Deepen your artistic sense and gain more satisfaction...

SAGITTARIUS (Nov. 23 to Dec. 21) Don't leave kin today or you could easily disrupt the harmony there. Attend the social tonight and make big headway...

Capricorn (Dec. 22 to Jan. 20) Everything seems to get just the opposite to what you expect during day but then you get back on the beam tonight. Be logical...

AQUARIUS (Jan. 21 to Feb. 19) A new budget will permit you to save more money. Discuss with an expert how to have more success in the future. Don't waste time...

PISCES (Feb. 20 to Mar. 20) You want to cement better relations with a partner but this can be done better in the evening. Improve your surroundings during the day...

IF YOUR CHILD IS BORN TODAY... he or she will be one of those young people who will be quick to display temper, but having patience with your child, you find this habit will soon be broken and energies will be used constructively...

Her partner, a self-styled expert, said, "You played the clubs wrong, but you were lucky."

About a month later she made a similar successful comeback to "Win at Bridge" (c/o You'll never learn, will you? Helen's play was not only

Shopping For New Mother

By GEORGE W. CRANE, Ph.D., M.D.

Rev. Mark found himself in need of a new wife. So he telephoned me to see if our SMF could locate a congenial girl that matched him on the 18 basic factors important for happy marriage. Note what happened! Tell all your eligible friends, too!

CASE 2-509: Rev. Mark, age 37, is a California pastor. "Dr. Crane," he telephoned, "I am one of the 3,000 volunteer clergymen who help interview applicants for the Scientific Marriage Foundation."

"But now I am in need of its services myself. "For after 13 years of happy marriage to a wonderful wife, I lost her six months ago, due to cancer."

"I have 3 wonderful children, all in grammar school and I have a 60-year-old lady who now keeps me for us."

"In my large church, which keeps me busy 7 days per week, there are probably 20 splendid young women who make me an excellent date."

"They are 30 to 35 years of age and include teachers, nurses and a couple of airplane hostesses."

"But I must show no personal romantic interest in any of them, lest I offend the other 19, and thus cause friction."

"However, I haven't the time to go elsewhere in search of romance."

"So could you please introduce me to a congenial girl who would be my splendid wife and mother to my 3 children?"

"I don't want a girl who smokes or drinks and prefers to have some musical talent so she could play the piano at church events, if her pianist aren't present."

"And of course, I certainly have no objection to a good looking young woman!"

The Scientific Marriage Foundation is a charitable interfaith organization with Dr. Peale, Bishop Kennedy of California, Rabbi Silver of Connecticut, Minister Wagoner of Indiana, and other outstanding church leaders on the Board.

We keep all information confidential and "privileged," like the relationship of doctor to patient or clergyman to parishioners.

FLORIDA

SUES

TALLAHASSEE, Fla. (AP)—Florida will sue the federal government to force it to give the state more gasoline unless relief comes soon, Gov. Reubin Askew said today.

Askew and Sen. Lawton Chiles, D-Fla., said at a joint news conference that Florida is not being treated fairly as required by the Federal Energy Act.

Virginia, with a population growth of 100,000 since 1972, received a 5 per cent additional allocation while Florida, with a 330,000 growth, received a 2 per cent boost, Askew said.

New Sanford Shopping Center Plans To Include K-Mart Store

By BOB LLOYD
City Editor

Developers said Thursday a K-Mart department store will be the major tenant of a new Sanford shopping center in the southeast quadrant of the Airport Boulevard-U.S. 17-92 intersection. If parking lot design meets with city approval,

The Sanford Zoning and Planning Commission reviewed preliminary plans for the \$4 million, 14-acre development with 134,000 square feet of buildings and told developers Diversified of St. Petersburg that the 654 parking spaces shown on the plans are "about half the number actually needed."

Michael D. O'Neill said the parking calculations were based on 50 per cent of the floor space being projected as storage for the K-Mart and as yet unidentified food store, drug store and smaller shop tenants. "We only want your comments at this stage, not approval," O'Neill said. He asked for permission to work with city staff members to come up with revised parking plans that will meet city requirements.

O'Neill said, once plans are approved and a building permit is issued, the actual construction of the shopping center is expected to take eight months, barring difficulties in obtaining building materials. "We have a firm commitment from K-Mart for a 84,180 square foot store plus a 6,758 garden shop," O'Neill said.

Z-P officials told O'Neill that parking spaces should be computed on a basis of 75 to 85 per cent of the buildings' floor space being used for retail sales. O'Neill said, Diversified Diversified, Third largest (Con't. On Pg. 3A Col. 1)

Fulenwider Changes Lawyers In Threatened Slander Suit

By CHRIS NELSON
Herald Staff Writer

Chief State Atty. Investigator Jack Fulenwider today said he will bring a slander action against Winter Springs Councilman Irene Van Espool, but has retained private counsel in order to keep his office and the county out of the squabble.

State Atty. Bill Staley, in which she called migrant labor camps "an abomination on the face of the earth," and that there must be "a little grain of something..." in a man who would run a camp.

The Tallman Sugar Corp. has been called a "model" operation by Palm Beach County health and school board officials, and personally endorsed by the governor of Jamaica, home of most of the workers.

It was then and is still owned by William G. Pawley, former U.S. ambassador to several South American nations under President Harry S. Truman. Today, Fulenwider said he had "no comment" on Pawley's "possible involvement" in the lawsuit, but added "I do intend to keep him informed."

Lake Mary Firemen Set Meeting

By J. RICHARDS
Herald Staff Writer

LAKE MARY—A meeting of the volunteer fire department, its board of commissioners, and other interested parties will be held Saturday at 10 a.m. in the fire hall to discuss the readiness status of the department.

Such areas contracted by the city and county to provide fire protection. The city receives one mill in tax revenues for fire protection from Loch Arbor residents.

Mrs. Hess declined to comment on whether the city needs a full-time paid fire department employee qualified to drive the fire fighting vehicles in emergencies.

She did say, however, three units from the city ultimately responded to the call; a rescue vehicle and later two pumper trucks.

"People were called from their jobs and out of town to come back and help fight the fire," Mrs. Hess said. "It was a very unfortunate and rare thing that we had no one immediately available."

—After Presidency?

KIDNAPERS

\$700,000 For Editor

ATLANTA (AP)— Executives of Atlanta Newspapers Inc. waited word today on how they should pay the \$700,000 ransom demanded by the abductors of editor Reg. Murphy. He said in a taped message that he was being held by the American Revolutionary Army.

William H. Fields, executive editor of the Atlanta Constitution and the Atlanta Journal, said the ransom would be paid as soon as he is "appraised of the method and time."

Murphy, 40, editor of the Constitution, said in the taped message: "The American Revolutionary Army, as I understand it, feels that the American news media have been too leftist and too liberal. They intend to do something about that."

That's the cause for my abduction. They also tell me that they have representatives in the major American cities, that they are quite strong, and that they are determined to return the American government to the American people."

HILLSBOROUGH, Calif. (AP)— The Hearst family is ready to launch an unprecedented feed-the-poor program in the face of new demands from the terrorist kidnapers of their daughter, Patricia.

There was no assurance that the \$2 million free food distribution plan starting today would satisfy the Symbionese Liberation Army, which claims to hold the girl as its "prisoner of war."

In a 20-minute tape recording received late Wednesday and released Thursday, the SLA denounced Hearst's effort as "throwing a few crumbs to the people." The group demanded that another \$4 million be pumped into the program to feed needy Californians.

Only if all its complex new demands are met will the way be cleared for actual negotiations for Patricia Hearst's freedom, the SLA said.

The SLA leader who calls himself "Clint" set a deadline of today for Miss Hearst's father, newspaper magnate Randolph A. Hearst, to set the \$6 million food program into motion.

There was no immediate response from Hearst, president and editor of the San Francisco Examiner and chairman of the Hearst Corp. After pledging the initial \$2 million, he said there was no more money "in the kitty."

Keep an attentive ear, neighbors. See if you can hear a "single plea on behalf of Seminole County? Betcha the only one you'll note in this paper—The Sanford Herald! I believe there's a new game, entitled Shaft Seminole, or something."

I'm talking about the announcement of the "extra" gasoline allocations. Orange County is to receive 1,166,100 gallons and Seminole a scant 344,500.

When "friends" to the south of us need us...like inflating the "metropolitan" population figures, or the "buying power index," they don't hesitate to refer to themselves as the Orange-Seminole area, or what-have-you.

However, when it comes time for the geographically small Seminole to get a fair shake, well...don't hold your breath hoping that they'll remember us.

Oh, well, it isn't all bad. The first of many calls last night complimented us on Donna Cord and her "Diary of a Mad Housewife" column. The caller insisted that she's on a first-name basis with U.S. Senator Lawton Chiles...and, that she's going to submit Mrs. Cord's thoughts to the Senator with the request that it be read in the Congressional Record!

On this same subject of the Cord column, since beginning this column for today's Clock the calls have increased in tempo...all re-echoing the sentiments expressed by the housewife from Chicago.

Incidentally, to my friends at Seminole Junior College who called and inquired on how they could start a campaign for the repeal of inequitable income taxes...as a starter, send me your names and addresses and I'll try to get the thing going. We'll polish it up, and who knows...Perhaps we'll get a break for the little guy yet!

Ugh, I'm about to choke! The AP carried a dispatch this morning which said that President Nixon's tax case will cost the U. S. government substantial revenue, perhaps \$1 billion, because unhappy taxpayers will claim any questionable deduction this year, a former Internal Revenue Service chief says.

The statement added, "In fact, economic justice would dictate that workers' wages reflect at least increases in the cost of living plus productivity."

This would indicate a wage boost of 12 per cent, based on the nearly 9 per cent rise in the cost of living last year plus the historic 3 per cent yearly increase in productivity.

Despite last year's inflation rate — highest in 25 years — wage increases in major 1973 labor contracts adhered to government guidelines. But in recent weeks, rank-and-file pressure for more money has been building as the administration forecasts continued high inflation this year.

AFL-CIO Wage Goals Reported At 12 Per Cent

MIAMI BEACH, Fla. (AP)— Calling government wage-price controls a fraud that should be ended, the AFL-CIO has set a 12 per cent goal for wage hikes this year.

"There can be no justification whatsoever for a 5.3 per cent standard for wage increases in the face of living costs that are rising almost twice as fast," the AFL-CIO's ruling executive council declared Thursday in an economic statement issued at its annual mid-winter meeting.

The statement signaled an end to organized labor's cooperation with the Nixon administration's controls program, first imposed in August 1971.

The statement added, "In fact, economic justice would dictate that workers' wages reflect at least increases in the cost of living plus productivity."

Wallace Will Seek 3rd Term

MONTGOMERY, Ala. (AP)— George C. Wallace announces today his candidacy for an unprecedented third term as governor of Alabama, possibly setting the stage for another race for president.

Wallace, 64 now and paralyzed in both legs from an attempted assassination during his 1972 presidential campaign, had said privately months ago that he would seek re-election in the May 7 Democratic primary. But he waited almost until the March 1 qualifying deadline to make it official.

He already has opposition but is heavily favored to win by a substantial majority. His major opponent is state Sen. Eugene McLain of Huntsville.

Wallace, or his late wife Lurleen, has controlled state government for nearly all of the past 11 years. He made most of the decisions while his concubine wife was governor. She died in May 1968, and 32 months later Wallace went back into office for a second four-year term.

Concert Tonight

A galaxy of exceptional talent will emerge tonight at Sanford Civic Center when Seminole Mutual Concert Association presents a husband and wife team in real life, Jack and Sally Jenkins, portraying Cole and Linda Porter.

Emphasis is on the "last generation" of the 20's although the fast-paced concert will feature 30 songs from the 30's, 40's and 50's.

The curtain will rise promptly at 8 p.m. for R.S.V.P.—The Cole Porters' for members of the concert association.
