President Truman says: "I do not believe there is one problem in this country—in the world bday which would not be settled a approached through the teaching of the Sermon on the Mount."

We believe that is absolutely rue, but the question is how tre you going to get people who never read the Sermon on he Mount, who do not even he Mount, who do not even he mount, who do not even he practice the Golden Itule?

"Investigate before investing" might well become a national slogan. Civillan war sayings estimated at \$170 billion plus vast sems of cash in pockets of returning service men present a rich field for fraudulent schemes.

Victor Nyborg, president of the National Association of Better Business, reports that in 86 cities a wave of swindling is under way with 750 distinct business cheat plans already tabulated. These include selling "exclusive rights" for distribution of national products without knowledge of the manufacturer.

The veteran, eager to start in a new business, is usually the victim. Housewives are persuaded to make partial payments to door-to-door salesmen for war-scarce household appliances only to find deliveries never materializing, Mining stock promoters, many operating from Canada, are taking thousands of dollars from credulous Americans. This racket is hard to control since operators do not victimize Canadians, thus escaping home prosecution and do not enter the United States, consequently avoid tion and do not enter the United States, consequently avoid tangling with American law.

The Tampa Tribune points out the tap. Also, thought and talk had to go into making the quart measure itself.

Some of our more naive readers last Saturday were moved to wonder why, if we could get out a 16-page paper at 2:00 octock in the afternoon, we can't get out an 8-page paper every day. What they didn't know is that we worked all night on that if-pager.

Secretary Byrnes is highly pleased with the success of the Moscow conference, he says. Well at least nobody got killed. At the final dinner, the Associated Press reports, 15 toasts were drunk. After that, anything would have been a success.

President Truman says: "I do not believe there is one problem in this country—in the world of the settled."

It is never safe even for experienced professional progressional professional forecast weather over large areas or for any extensive unit of time. The weather itself is seldom under control, and has a way of bringing the best laid increasts to disaster.

But having ridden along with the meteorologists and their various brands of weather so far this winter, it seems reasonable to a reckless editor, no less than a reckless professional forecaster, to string along with the recent weather and expect a hard, cold, tough winter that people will talk about for years to come.

This of course is going out on a limb as far as the writer is concerned. But surely people in general have a right to their opinion about weather just as they do about other things, And anyway, editors are not stubborn. We're willing for the weather itself to show us.

# How Well Has General Electric Met These Objectives?

## HIGHER WAGES

Here's how General Electric's increased production and efficiency have affected G-E workers. Average hourly earnings for men, not including overtime pay, have gone up as follows:

1935\$	.72
1938	.73
1937	.81
1938	.87
1839	.88
1940	.85
1841	.89
	.06
1843	1.05
1844 1	.09
1945 (Sept.)	.09

Overtime pay gave G-E workers more on top of this. G.E. has made jobs for nearly three times as many. 55,766 worked for G.E. ten years sigo. 145,000 have jobs today, and at much higher pay.

## LOWER PRICES

G.E. has an obligation to a second group of people-the public. The public wants improved products at fair prices.

"More goods for more people at less cost"—G.E.'s goal—is not a part-time assignment. It is a job for management and worker alike if G. E. is to keep growing, keep raising wages, keep making jobs for more workers.

A few figures show typical price de-

G.E. during the war earned 4.7¢ on each dollar of sales. Of this, 4.1¢ was paid to its more than 200,000 stockholders, and the remaining six-tenths of a cent on each dollar was retained in the business to assist in carrying on and expanding

All money earned over this 4.74 was turned back to the U. S. Government. G-E cost-saving methods had made war goods for less money than the Government expected.

GENERAL ELECTRIC'S OBJECTIVE is to keep prices moving downward, keep wages going up, and to earn a fair profit. This calls for volume production, more efficient work and methods. HERALD SPORTS EDITOR

The head coaching job at the University of Florida remains unfilled. There are two well known football men in the state who are still interested in being assigned to the position. AI Rogero, former Clearwater high school coach and currently mentoring the Florida Military Academy eleven at St. Petersburg, has expressed his desire for the nomination. Carlos Proctor, assistant coach at Florida during the reigns of Dutch Stanley, Josh Cody and Tom Lieb, has announced that he is definitely and coach is going to name his own assistants before he would accept the Florida spot.

Proctor said that he probably had excellent connections with the state s high school principals and coaches. That's fine! He'll need to fill that \$6,000 a year job as talent scout for the Gators to which he was appointed last week. Or complete new coaching staff at our state university.

Mr. Byrd J. Goode, president of the Seminole Gun Club, came in to see us the other day after we had published a request for facilities to be made available to returning veterans who would it to continue their marksmanley, Josh Cody and Tom Lieb, has announced that he is definitely Proctor, assistant coach at Florida during the reigns of Dutch Stanley, Josh Cody and Tom Lieb, has announced that he is definitely interested in the position and hints openly that he sees no reason why he shouldn't have it. He declared that he had no trouble with either Stanley, Cody or Lieo. We're not in a position to say whether Proctor is or not a good coach. However, we still think that the Stafe Board of Control should go ahead and

the Naval Air Station after it is evacuated." The Mayor also d-clared that he will keep this matter in mind.

## McMillan Is Happy Of Nomination As Coach Of The Year

GAINESVILLE, Dec. 26,-When Bo McMillan, Indiana University, Bo McMillan, Indiana University, compared his joy over his nomination as "Coach of The Year," to the touchdown he made against Harvard while playing with Cetter College, two University of Florida men recalled that day.

It was back in 1921, and Center College was playing a stronger Harvard team, McMillan made his touchdown that put Center ahead by a 6 to 0 margin. Later in the

to returning veterans who would it to continue their marksmanship practice. He said that he had sould do what he could to work out something along this line.

Mr. Byrd approached City officials about the possibility of getting the use of the range situated at the Naval Air Station after it is deactivated. Mayor Edward Higgins has informed Mr. Goode that he doesn't think there will be any question that we will get to margin. Later in the game Harvard called its number one play and ran to Center's five yard line—but a Harvard End was offside. The head linesman who called the offside penalty was a former Vanderbilt halfback and All-Southern star—John J. Tigert, now president of the Uiversity of Florida.

In the stands that day was another University of Florida man—be any question that we will get by a 6 to 0 margin. Later in the game Harvard called its number

In the stands that day was another University of Florida man—
Prof. John W. DeBruyn, assistant professor of music and director of the Glee Club, Both Dr. Tigert and DeBruyn recall the play on which Harvard's near score was called back as a famous snear play. Because of that one play Harvard did not number the play-ers jerseys, thus making for greater deception.

Four Power Control And Stripping Of Emperor's Power Hit Hard In Japan

The people of Japan are swallowing hard today! They've been handed two stiff doses of medicine within a single 24-hour period. Yesterday they learned of the forthcoming changes in occupation machinery for their conquered land their conquered land — changes dictated by the Big three in Moscow. Today they are contemplating a proposed change in their constitution which would completely strip their Emperor of all political powers, leaving him simply as a figurehead.

For the Japanese, the second dose, that concerning the Emperor, doubtless is of greater personal interest than the big three decision on occupation policy. Af-

decision on occupation policy. After all, they might reason, the occupation will end some day. While it is upon them, there's nothing they can do about it. Whether they serve a single master in Tokyo or a four-power control council and an 11-power far eastern commisalon probably will not make such a great deal of difference. But the Emperor and his posi-

But the Emperor and his posi-tion in the state — that's some-thing else again. The whole orientation of Japanese life has been determined during recent history by what is called the Tenno System. That is, the whole body of doctrine upholding the divine rule of the Emperor. It is quite true that the doctrine of the Emperor's divinity is a com-paratively recent one in Japan.

## **Economists Oppose** • Present Price **Support Program**

CHICAGO, Dec. 28, (P)—Three hundred of the nation's agricultural economists are opposed to the government's present price support program. This disclosure was made today by the American Farm Economic Council, follow-ing a poli in which various alter-

natives were suggested.

More than three quarters of the economists favored a plan to have the Government either, announce support prices in advance, or else some new method to buttress farm income during depressions without attention to individual commodities,

One fifth of the economists said the Government should with-draw all price and income supports completely. Disapproval of the policy of placing emphasis on a government program to pur-chase surplus goods to keep prices up is described as "over-whelming."

whelming."

More than two thirds of the farm sconomists favored alther a food consumption program like the stamp plan, or also direct payments to farmers to make up the difference between announced support levels and free markets. It is association has announced that these are the sentiments of individual members. The result of the poll do not necessarily represent association policy.

## OPA Plans To Cut Furniture Prices

WASHINGTON, Dec. 28. (P)—
The OFA has put into effect a program to cut some current farmiture prices substantially by Baring. The agency said dealers will have to absorb up to 12 per cent of the price increases granted manufacturers.

The increases range from four to 30 percent. Consumer prices on madium-priced furniture are expected to hold, while those on the least expensive furniture are expected to rise about five percent on the average.

## GM Threatens To Withdraw From Hearings

Will Have Nothing To Do With Fact-Finding If Prices And Profits Considered

WASHINGTON, Dec. 28, (AP) — President Truman's plane has landed safely in Washington, The Sacred Cow got down at 2:28 P. M.,

WASHINGTON, Dec. 28 AP) - The General Motors Corporation served notice today that it will have nothing to do with government fact-finding if its prices and profits are considered as evidence. The Corporation announced that it will withdraw from the hearings if price and profit data is used as evidence in connection with the CIO demand for a 30 per cent wage increase. General Motors accused the Auto Workers Union of trying to enter the very heart of management, and said that mean the end of free enter-

To Have 50,000 The company attorney, Walter Gordon Merritt, pointed out that General Motors has not rejected the CIO wage demands on grounds of inability to pay. He added that profits and prices are based on forecasts and assumptions—and the attorney sumptions—and the attorney declared that the fact-finding board could not competently pass on that kin dof information. Congressmen will be asked whether they will support a 65cent-an-hourly wage minimum, low-cost housing, the Wagner-Murray Health Bill, and the Anti-Poll Tax measure. They also will be queried on their position on Fresident Truman's proposal for fact-finding boards in labor disputes, and the CIO's demand for a 30 per cent wage increase.

## War Crimes Trial Reveals Stories Of Jap Tortures

YOKOHAMA, Dec. 28, (A)— The war crime trial of Japanese Lieut. Chotaro Furushima dis-closed today that Allied prisoners in one Japanese war camp were

tortured with burning embers.
United States Army Lieut.
N. E. Churchill of Tolodo, O., testified that he had found pri-soners of war last September with evidence that they had been tortured with bits of burning slow-matches, set on their bodies by prison camp guards. Lieut. Churchill was one of the liberating officers who freed prisoners in Furushima's camp at Fukuoka in Japan. The Jap defendant has been charged with starving one prisoner to death and causing bru-
