Saturday is Armed Forces Day-an oc- warn, but to back that warning by forcescasion designated by the President of the United States to honor the men and women who serve in our Armed Foces.

All over the country, millions of men and women will stream into military bases as they attend "Open House" progams and to watch the symbols of American military

Here in Sarford and Seminole County. Armed Forces Day will be highlighted with a gigantic parade in which military organizations will take part along with about a just and lasting peace. "If we were veterans and civilian organizations.

In addition, the National Guard will have a prominent part as they show to the public their preparedness through training.

The Sanford Naval Air Station will be thrown open to the public in another demonstration of preparedness and the strength of our Armed Foces.

The theme for this year's Armed Forces Day observance is that "only through the strength of the Armed Forces, working as a single team, and the unity of the Amercan people, can we deter aggression and contain communism."

The slogan adopted for this year's Armed Forces Day celebration is "Power for Peace." The Armed Forces, standing ready to combat aggression, are trained, and serves as a notice that force will be met by force. The Armed Forces are in the vanguard of all those building "Power for Peace."

For the security of our nation and for the security of the free world, there is being maintained the largest peacetime Armed Forces in the history of our Nation. This is being done at much expense, all of us understand, but the United States of America has no other alternative-no other alternative because the survival of civilization as we know it may be at stake.

America must understand that if our guard is down our nation could be devastated in the first few hours of a war. Because of mankinds acquisition of a capacity to destroy that is beyond imagination—we cannot dare to gamble on the building of our military strength after an attack has occurre.d.

The United States must be prepared as never before and since we are the chief bulwark of the free world, we might be the first and principal target of an aggres-

# Third Generation at the Wheel!

"Like father, like son", the poets say.

And never was it truer than in the case of a great many fine Cadillac families.

For there are, in our land today, a number of families that currently boast as many as three generations at the wheel,

We mention this simply to underscore a great and dramatic truth about Cadillac-that, of course, is its unchanging goodness and quality. For fifty-five years, the Cadillac name has

signified one and the same thing to motorists everywhere-a motor car created at the highest level that automotive science would permit.

Over that time, Cadillac has attracted to the ranks of its owners the finest list of names to be found anywhere on the American motoring scene.

And, those who have followed the path to Cadillac in 1957 are enjoying the most abundant blessings of this ceaseless crusade for quality.

The new "car of cars", with coachcraft by Fleetwood, is beautiful and luxurious to an unprecedented degree. And its performance and handling ease are a revelation!

Certainly, the Cadillac car has now become an even wiser investment for an even wider circle of America's motorists.

If you have yet to acquaint yourself with these brilliant Cadillac virtues for 1957, your dealer will be delighted to tell you how easily you can make Cadillac a fine family custom of your own!

The biggest news around town, and the base, seems to be "Armed Forces Day" this coming Saturday. Yesterday, aboard the Air Station, four local Civic clubs were entertained at luncheon. These were the Jaycees, the Lions, the Rotary, and the Kiwanis Clubs. Upon entering the station, the visitors were handed a folded "program" which contained a welcome from Capt. Robert W. Jacskon, commanding officer of Sanford Naval Air Station, Lunch, in the general mess, was served at 12:15 P. M. This was followed by a special program in the station theater.

Contained in this folder is a couple of jet fighter from another base so that the civilians in the area can see them up close. These will be the F4D Skyray, and the FJ Fury.
