Bells Ringing For Apathic Democrats

o from Florida at the Washington or Tallaham was at the home of our new United States Sensi Bitward Gurney certainly sounded such an alogue.

It is no secret that patronage is the oil that beggs political machinery meshing with case and offactiveness. And while this may not have been the

who have not always been friendly meeting of some lends itself to such an interpretation.

When Senator Gurney and Gov Claude R. Kirk,

come together there is not the issue of patronage posal alone that is a topic, but the future of the publican party in terms of the 1970 elections. Democrats may well gird themselves for the kind of state-wide drive and county-wide contests that could change the political complexion of Florida so drastically that the pre-1966 one-party designation with the one-party being Democratic would be re-

Of course this is not logically to be expected.

And it could be an arrow drawn very wide of its mark.

Yet in terms of some hindsight no further behind than last year's presidential election. It is a possibili-

ant of ment?

A. Boef arm pot-reast.

Q. Where does it come from?

Bow is it identified? It comes from the chuck lder) section. Alroasts which are cooked by dry heat. A not-roast means this cut is to be cooked by braising. Beef arm pot-roast is usually cut about two inches thick. It is identi-

fied by a round bone.

Q. How is it prepared?

A. By braising. This means the mest is browned first in lard or drippings. Drippings are poured off. A small amount of liquid is ngs, if desired. The pan or Dutch oven which is often used for braising is then covered tightly while the meat is cooked slowly

But to his dismay, the "fine" knocked down by a passing truck - and George was held legally liable for the accident. That is not an isolated case. Generally speaking, whenever you park your car illegally, you can be held responsible for all the foreseeable consequences. This may include not only injuries to pedestrians but

other cars. For example: When two cars collided at an intersection, a court put the blame on a truck driver who had parked too close to the corner - blocking the STOP sign from view. An oncoming motorist, who had no reason to expect a stop street, had driven squarely into the path of

In fact, you run the risk of liability whenever you stop your car in an improper manner, even if you are not violating a specific parking ordinance. Take this situation: A motorist on the highway, catching sight of some deer in a meadow, stopped to watch. But he neglected to pull off

cars behind him. Finding the man liable, the court said: "The right of a motorist to enjoy the beauties of nature does not warrant stopping his automobile in the midst of traffic to satisfy his artistic and poetic proclivities."

On the other hand, the motorist who stops improperly is not responsible if there is no casual connection between his stopping and the accident that driver who had

parked in a no-parking zone was not held to blame when a second car ploughed into him from the rear. It seems the second man had been driving with his eyes cast downward, scanning the floor for a fallen

The court pointed out that, even if the first car had stopped lawfully - say, because of traffic - the collision would have ocurred just the same. An American Bar Association public service feature by Will
