The deficit and conclusion are reported by Army Recruiting Command officers who say they can't recall a year when the Army fared so badly in signing

Army enlistments fell short of the recruiting command's objectives every month from November through June, almost a traumatic failing for a command accustomed to success.

Figures just compiled for fiscal 1969 showed the Army persurded 188,000 men to join up outside the draft, compared with an objective of 197,000. In the previous two years Army recruiters surpassed their annual goals by 8,000 and 9,000 men. The Army isn't running short

of bodies, of course, because there's always the draft to fall back on. But the situation prompted the recruiting command to pay close attention to what's been happening. Col. Donaid L. Roberts, chief

of staff for the recruiting comfour factors combined to cause the severe drop: -Richard M. Nixon pledged

last fall that as President he would strive to establish an allvolunteer force, eliminating the draft when the Vietnam war is over.

"Immediately when that announcement was made, our recruiting went into a nose dive." Roberts said. But that wasn't -The recruiting command

uddenly found its seasoned recruiters were being grabbed up for administrative and leadership duties in Vietnam. Recruiters strength fell by 500 to a low

-Dissatisfaction with the war left a bad laste with many young men who otherwise might have been susceptible to the persuasive powers of recruiters.

The sheriff said he has been having problems with people ing off the span into the water while canoes are passing.

Action on the request of the City of Altamonte Springs for permit to use county rightsof-way to install sewerage lines in phase I of the municipality's sewerage system was delayed due to the absence of Commissioners Edward Yarborough and Dan Pelham. County Engineer William

Bush recommended a performance bond be required before approval is given to installing the lines on Hattaway Drive. Resolution was adopted requesting the State Department of Transportation to purchase solid state traffic signals for installation in Seminole.

'Knit-Wits' Means parking on the bridge and drinking and with others div-

10.

In the village of Chuluota, not far from Oviedo, eight women, who try to bring a little sunshine to some less fortunate than themselves, have formed a club called the "Knit-Wits." (They are quick to point out that it is spelled with a "K".)

They knit and sew for the children at Sunland Hospital in Orlando and visit patients at Sanford Nursing and Convalescent Center in Sanford once a month. On each visit to the nursing center, the women are ladened with books, magazines, candy, cookies, handmade articles, and a lot of conversation, One of the summer projects of this small club was to send a child to YMCA Camp.

Members of the group are Mrs. Earl Evans, Mrs. Glen Shupe, Mrs. Frank Goodwin, Mrs. Leo Agustin, Mrs. Hoard Burgess, Mrs. Edwin Knight, Mrs. Joe Rojas, and Mrs. Albert - Scott of Geneva.

INSURED SANFORD PLAZA

Fortnight's Events Cast Light And Shadow!

This is July, 1969. Next year in November will the mid-term elections to indicate national political trends. It is not until November in 1972, however, that the voter judgment on the Nixon administration will take place.

These are calendar facts. They are also something which every voter in the 50 United States needs to keep in mind as events which could very well reveal their ultimate meanings then, take place

Of course we are referring to two major happenings in the last fortnight. One is the glorious, inspiring and awesome success of the Apollo 11 mission which, in itself, is the fruitage of things that took place as long ago as the Bay of Pigs fiasco and the challenging "peep" from Russia's Sputnick I in

Corner-Cleaning

If anybody has any doubts that we are living in a "growth" area, we would suggest that a drive along the streets, avenues and highways of our county would disclose the logic of removing the word "growth" from the arena of economic development and let it sit in the very fertile lap of Mother Nature.

Not that there are not new businesses and industries popping up all over, especially along the southern border, but that what will register with continuing impact is that the grass, weeds, shrubs, bushes and even trees that are flourishing on some corner locations are growing higher and higher.

Now is the time for the householder, clippers in hand or mower in action, to be sure that this abundance of greenery growth be restrained. How many times have you driven to an intersection, stopped to see if the road was clear for entrance, started gingerly along only to find

that the weeds or shrubs have hidden crosstraffic threatening accident? This may be a minor situation. But it i major when an accident takes place. Especially

when a little outdoors house-keeping would clea the way for autoists to see just what the traffic is doing. Oh, yes! There is the additional bonus that

accompanies such good ground-care. This is the beautification that results from tidy lawns. well pruned shrubbery and the visual proof that the people have pride in their grounds and their community.

Sad And Sorry!

Now they're gone! Nine little tail-wagging, bright-eyed German shepherd dogs, allowed only six weeks of life, are missing from a Longwood home.

Nine other homes where youngsters had been promised the wonderful joy of bringing up a puppy pal will be smitten when no little canine friend, is dropped on the floor for the mixed blessing of house-breaking, training and growing-up.

We are moved to make this comment at this time not only for the loss of these nine, six-week old puppies - sad enough in itself - but that the manner of their taking-off does more than hint at poisoning.

It is almost inconceivable that anyone would perform such a hideous act. It is our hope that no one did. But to have such happy, frolicsome, aged 17, is a tragic case. bright puppies expire one-by-one, is enough to "Dr. say that this is a "sad-and-sorry" time for all teacher explained, "Winnie was those involved.

Our sympathy to the folks who suffered the "But her father loss. If there are those who ended these canine feuded like careers on purpose, we have no words to express our feelings. Their conscience must do that!

Tropical Storm Is Moving

MIAMI (AP) - Tropical Storm Anna swept westward in the Atlantic today as Weather Bureau forecasters predicted it would become the season's first hurri-

The center of the massive storm early today was near Latitude 13.0 north. Longitude 43.0 west or about 1,800 miles castsoutheast of Puerto Rico and a 2,500 miles in the same direction from Miami.

The storm was moving west ward at about 14 miles per hour with little change in course of speed expected today.

Highest winds were estimated at 60 m.p.h. over a small area near the center and gales extended outward 175 miles in the northern semicircle and 125 miles to the south.

"Anna will probably continue to intensify and reach hurricane force late today," the Weather Bureau said. A hurricane hunter plane was

to fly out of Puerto Rico late to day to scout the storm which boiled up Monday out of a tropical depression that formed off the African coast. Dr. Robert H. Simpson, direc-

tor of the National Hurricane Center at Miami, said Anna could menace the Lesser Antilles islands, at the eastern edge of the Caribbean, in three days if the present course and movement is maintained. "It looks like she will prob-

ably follow a low (southerly) latitude track and move a considerable distance west before she decides where she is going to end up." Simpson said. He predicted Anna "will b

with us for 10 days or two weeks. When spotted and named Anna was near Latitude 12.0

north. Longitude 41.0 west or about 1.800 miles east southeast of Puerto Rico. The storm followed the path of the Egyptian reed boat Ra which was towed to Barbados last week after failing to sail

from Africa to South America. Barbados in the British West Indies is one of the points where Anna could make first landfall if the storm continues its present course.

During 1968, there were three hurricanes and four tropical storms, which caused 11 deaths and \$9,880,000 in property dam-

Board Saluted

Editor, Sanford Herald

- Dear Sir: We have had reason to attend several meetings of the Board of Adjustment recently because of our interest in the Lake Sylvan community. If we may take advantage of the Sanford Herald's editorial page, we would like to express our appreciation to the men on that Board who so freely give of their time and talents to serve the people of Seminole County in that capaci y. It is our understanding that they serve without pay and it is obvious that they dedicate many hours each week to the problems facing us. With the projected growth of our county even more time will be required; so we would like to say thank you to the chairman, Mr. Halback and Mr. Gibbs, Mr. Torres, Mr.
- Jackson, and Mr. Syme. Shirley Ryan, Secretary Lake Sylvan Association II.

There is a meat packing plant in Peoria. Ill., which packages 420 hot dogs per minute.

Not only is frogging an exciting way to spend a night, but you'll have some good eating from your catches. Frog legs, breaded and deep-fried, are a gourmet's delight. No special equipment is necessary to catch frogs. All you need is a good flashlight, a burlap bag, and a quick hand. There are other methods, of course, but catching them by hand is more sporting

It usually takes two persons to frog by hand. One operates the boat, easing gently up to the frog while his partner leans over the bow, flashlight trained on the frog's eyes, ready to grab the frog when he's within range.

and place the frog well down in the bag before turning loose. slip it out. Otherwise, the frog may come out with you. Other methods include gigging and hooking. The latter is done by tying a small piece of red cloth onto a hook which is attached to a line from a cane pole. Hooking is done during daylight. Flip the cloth near the frog, jiggle it once or twice and get ready to set the hook.

Gigging is done at night with a small, three-pronged gig on the end of a long pole. It takes several years for a bullfrog to reach eating size, therefore the gang at Mercury suggest you use the hand catching method and release those frogs which are too small. By BILL SCOTT (GSA) speaking from his without the income producing settle problems." long distance telephone today would provide." said he thought the problem encountered by city in getting the deed to the 1.650 acre base property could be worked out o everyone's satisfaction.

Hart T. Mankin explained his position after W. E. Knowles, Sanford city manager, arrived back in town from a factinding mission to the capital and reported on his findings at this morning's breakfast session in the House of Steaks. Mankin confided he had a plan dealing with the city's problem of getting the 150 acre industrial site that would go out this afternoon.

He said, "we are trying to work out a solution and 1 told

The Project Development Committee has requested Senator Spessard Holland to investi gate the possibilities of getting federal funds for the proposed Lake Monroe Park. Tom Peter son, member of the Chamber of Commerce committee and also chairman of the Lake Monroe Development Committee, has sent a letter to the senator asking for his help in further expansion of this project.

The project would include the Sanford zoo, picnic tables, nature paths, and other park facilities. This development of the lakeside, while outside the function of this committee, will receive the support of the membership as individuals. The 200 relocation project comes under the auspices of the Lake Monroe Development Committee. also a part of the Chamber of Commerce.

The committee also voted to endorse the advertising and promotion of a 20 minute program of Sanford and Seminole County. The public relations-type movie, is in comparison to other cities which will cost about \$6,000, around the nation; and then re- will depict the growth and development of the area.
