Korea Indictments Begin

SEOUL, South Korea (UPI)- Martial law investigators today took the first steps to court-martial the director of the Korean Central Intelligence Agency and seven others involved in the assassination of

President Park Chung-hee.

A Martial Law Command spokesman said KCIA Director Kim Jas-kyu, chief presidential secretary Kim Kae-won and six KCIA "hit men" were formally referred to the military prosecutor for indictment on charges of murder with the aim of insurrection, and several other counts.

The action means martial law authorities have concluded the eight were the only ones involved in the Oct. 26 assassination and murders of six bodyguards and that the accused may soon face a public courtmartial, possibly late this month. They face a maximum penalty of death by hanging.

Actress Garbo Prefers Dream

LONDON (UPI) — Greta Garbo still wants to be alone, but now two authors have uncovered perhaps as much as anyone ever will about the most famous enigma in Hollywood

"Today she genuinely prefers her seclusion," writes Frederick Sands in "The Divine Garbo," an exhaustive examination of "the Swedish sphinx" which he co-authored

"Her shyness is not feigned, and she truly wants to be alone in a dream world of her own choice. It is her escape from the realities of a life in which she has found little joy." But not even Sands and Broman, after rare interviews with Garbo herself, after two years of digging into every imaginable corner of her life, can explain the real mystery of Greta Garbo — the eternal question, why? She ranks with Valentino as the greatest of early movie stars. Her mystique, like his, never dimmed. When she left Hollywood, she had the world at her feet, had everything anyone could dream.

She was 34. "She never made another movie, never gave another performance." and has guarded her privacy with fanaticien for 36 years.

"The world's most famous living legend is leading a lonely and unhappy life," Sands says. "Even her closest friends are in doubt as to what she has gained by it. They question whether here is a rich dream life, a breeding

The company announced Monday that a confirmation well, drilled in 450 feet of water in the Baltimore Canyon 100 miles off Atlantic City, produced natural gas flowing at 14.2 million cubic feet a day. The refusal of a federal judge to impose serious penalties upon three Houston, Texas, police officers who killed Jose Campos Torres will be viewed by many as one more denial of the civil rights of Hispanics. It is that, certainly, and more. The efforts of a federal prosecutor and the in-tervention of a U.S. appellate court have not deterred U.S. District Judge Ross Sterling from administering a gentle slap on the wrist to the three who beat Mr. Torres and callously threw him into a bayou to drown.

After state courts refused to imprison the men, federal prosecutors obtained convictions on federal felony charges of violating Mr. Torres' civil rights. The convictions carried penalties of up to life in prison, but Judge Sterling chose to suspend all but a year in jail. Vote Could Decide Grid Title

Herald Sports Editor Jot this one down along side all those other sports cliches. "Never have so many, been in contention for so long." As the final week of the Five Star Con-

ference Football scenario unfolds, a check of the standing reveals that 1979 has indeed been a year of contenders. Heading into the "do or die" games Friday night, no less than six of the nine prep squads in Seminole and Volusia Counties still have a shot at the football crown.

And the college bowl scouts think they have The Fighting Seminole's can settle the matter outright with a win over visiting Lake Brantley. But should the Tribe lose Friday night, at least four teams will wind up with identical records. The end result of a season of extreme balance in the Five Star will unfortunately have to come down to a matter of politics — in the form of votes from the principals of the respective schools involved

As mentioned the Fighting Seminoles can

the heap with a 4-2 conference record and 4-5 overall. The Tribe will enter Friday night's battle on the heels of a three game losing streak they certainly want to snap. The other cast of characters involved includes Apopka, Lyman and Mainland, all with identical 4-3 conference slates. Apopka stands 4 overall. Lyman is 6-3 overall while Mainland stands at 5-4 overall.

Both DeLand and spruce Creek also remain in contention with 3-3 conference records. DeLand logs in with a 4-5 overall record while Spruce Creek's total look is at 4-5 also. Either DeLand or Spruce Creek will cancel each other out with a fourth conference loss Friday night as the two teams face each other

Deborah Kerr, playing a nun in "Heaven Knows, Mr. Allison," won a nomination and the critics award. Audrey Hepburn did the same in "The Nun's Story." Ingrid Bergman was nominated for her performance as the saintly sister in "The Bells of St. Mary's" as did Lilia Skala for her nun's role in "Lilies of The Field."
