Forrestal Sees Danger in Fast Demobilization

WASHINGTON, Oct. 17, (AP)—James Forrestal, Secretary of the Navy, declared last Saturday "there is no better way to start a third world war" than to demobilize too rapidly.

Truman's Ideas On Service And Training Of Boys Puzzle Capital

WASHINGTON, Oct. 17, (AP)—The capital had different ideas today about whether President Truman wants universal training for American youth and a combined Army and Navy.

Some people thought Mr. Truman might have committed himself to both yesterday because he had asked the cabinet and other high officials to push his legislative program, which was outlined in a message to Congress Sept. 6.

Under that arrangement, he assigned the War and Navy Departments the part of his message "dealing with" the universal training program and "unification of the armed services."

On first glance, some individuals thought that meant he wanted both.

But White House officials said today that Mr. Truman hadn't intended to announce his policies on those subjects now. He did mean, they said, that the Army and Navy will be responsible for getting behind recommendations on those topics—when they are made.

They noted that the message to Congress last month merely would communicate with the lawmakers later with respect to universal training and a combined military service.

Under that arrangement, he assigned the War and Navy Departments the part of his message "dealing with" the universal training program and "unification of the armed services."

Florida Farm Bureau Meets On Nov. 14-15

TALLAHASSEE, Oct. 17 (FNS)—Agricultural problems of serious concern to Florida farmers and growers, particularly in the matter of surplus disposals at "cost and better," will be fully aired at Orlando Nov. 14-15 at the annual meeting of the Florida Farm Bureau, it was announced by Commissioners of Agriculture Nathan Mayo.

Secretary of Agriculture, Clinton P. Anderson of Washington, will take part in the Nov. 15 discussions, during the time he is guest of the Florida Farm Bureau.

At Commissioner Mayo's request, the agricultural division of the Florida State Chamber of Commerce, of which William L. Wilson, State Market Director, is chairman and L. H. Kramer, co-chairman, has changed the date of its fall meeting, which was scheduled for Jacksonville, to coincide with the Farm Bureau meeting and accordingly will be held in Orlando, Nov. 14.

It is believed by Mayo and other Florida agricultural leaders that definite assistance will be forthcoming from the federal government if the true conditions now confronting the state's farmers are made known to Secretary Anderson.

"The Orlando conference" Mayo asserted, "will by no means end our marketing and other troubles which were confounded by the sudden ending of the war, but should help to clarify them by placing responsibilities where they belong."

LUPINE IN COLUMBIA LAKE CITY, Fla.—Columbia County farmers will plant about 850 acres in blue lupine this season, according to County Agent L. W. Rivers.

spent only \$400 a year for food in 1940 and in 1945 we spend \$600. He believes that while prices may not return to the pre-war level, they will come down considerably within the next few months.

Under that arrangement, he assigned the War and Navy Departments the part of his message "dealing with" the universal training program and "unification of the armed services."

GIs Criticize Army For Slow Journey Home

Soldiers In Philippines Ask For Cargo Ships, 10-in-1 Rations For Trip

MANILA, Oct. 19, (AP)—U.S. Enlisted men in the Philippines, writing the "letters column" of an Army newspaper, the Daily Pacifican, accuse Army authorities supervising the homeward shipment of veterans of "halling, inefficiency and promise-breaking."

The writers complained that the Army is failing to make use of dozens of cargo vessels sailing empty for the United States. Officials said the freighters are unsuitable, but one letter said "give us a case of tin-on-tin" and we'll be tickled to death to ride the cargo ships home."

They also said the Army is high point men home first. The violating its promises to send back the policy of moving men by divisions moved low point men in units, while high point men in other groups, or unattached, were

Added Headache For Commuters

THESE YOUNG WOMEN, walking along the tracks of a Massachusetts Railroad, are on their way to work in Boston. Unable to get transportation because of the bus and trolley strike, they tried the railroad, only to learn that train service had temporarily broken down. So here are the girls heel-and-toeing to work. (International Soundphoto)

War Criminal Trials Start On Nov. 20

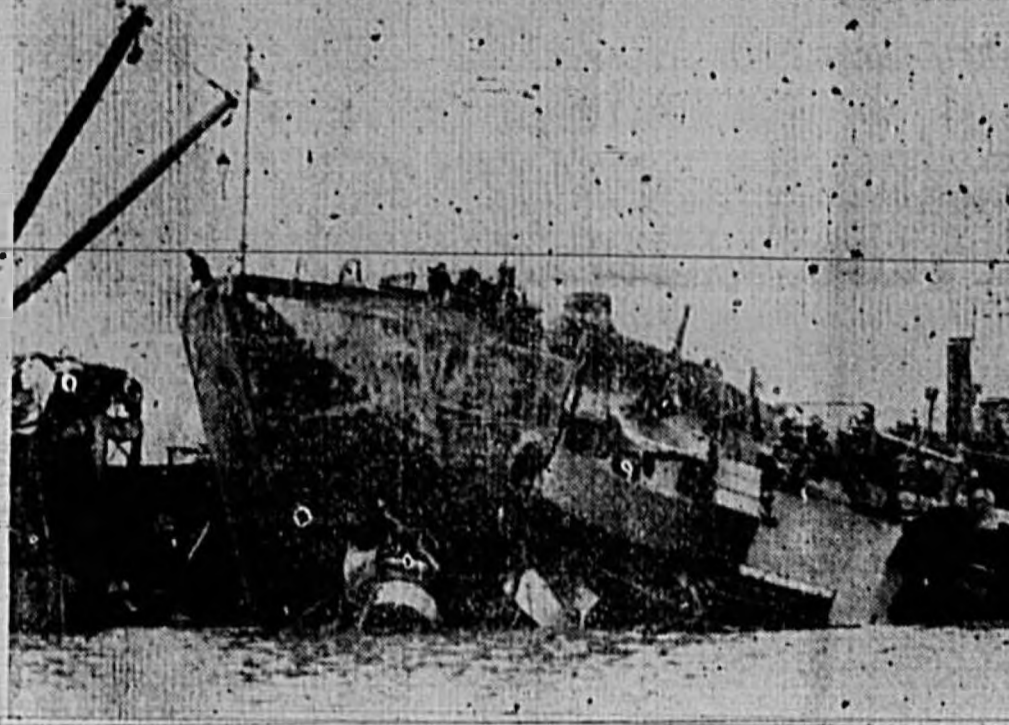

U-Boat Commander Denies Giving Any Order To Shoot Survivors Of Ships

HAMBURG, Oct. 19, (AP)—Capt. Adalbert Schme, German submarine commander, denied today that he had given any order to shoot survivors of torpedoed ships.

He was a witness before the British military court today, and other U-boat commander, Heinz Eck, and four of the crew charged with killing eight survivors of the torpedoed British freighter Peleus, in March, 1941.

In testimony, the world's first great war criminals trial of 24 high Nazis and German military and industrialists will begin here Nov. 20, the International Military Tribunal announced today.

Ships Shattered By Okinawa Twister

On Buckner Bay, Okinawa, after a 140-mile per hour typhoon, a tangled mass of wreckage is left in a moonlit bay. The ship had subsided. Gusting winds and 20-foot rollers drove the U.S. 60-ton cutter over the side and left it a wreck. Thousands were left homeless, temporary army when barracks were leveled by the storm. This is an official U.S. Navy photo. (International Soundphoto)

End Is Sought To CIO Strike In Michigan

Truman Confers With Cabinet Over Wage And Price Policies

(By Associated Press)
Federal and Michigan state officials moved today to end the strike of 2,000-CIO utility workers as emergency crews stayed on the job to maintain electric service for some 2,000,000 consumers. Gov. Harry F. Kelly called a meeting at Lansing today in an effort to end the walkout.

Union leaders were to attend. But it was not known immediately whether representatives of the Consumers' Power Co. would be present.

The total idle nationally is now 457,000, including 216,000 coal miners who have been ordered back to work Monday. The walkout of 35,000 AFL longshoremen in New York ended after 18 days but still smoldering was the bitter fight between the insurgent crew and union president Joseph P. Ryan.

Connolly Explains Use Of Flag In Spirit Of 1776

By Willard Connolly
That Hollywood movie directors, trying to be historically accurate in scenes, sometimes use "messed up" is indicated by the following press clipping of a director who tried to duplicate A. M. Willard's "Spirit of '76" in a Technicolor musical film with a historical background:

"Director Gregory Ratoff is one man who won't tamper with history. In motion pictures, when the facts involved aren't quite correct."

"In 'Where Do We Go From Here?' 20th Century-Fox's Technicolor musical which stars Jeanette MacDonald and John Haver, and opens soon at the Ritz Theater, I was to carry a flag in a scene duplicating Willard's famous painting, 'The Spirit of '76.' Quick research revealed a little known fact—the flag depicted in the painting was not adopted until two years after the Revolutionary War."

(The actual flag of Washington's Colonial Army carried on)

Stenstrom Shows Cpl. Lossing Is How Soldiers Are Shipped To U. S.

By Julian Stenstrom
Since my return to Sanford, a number of people (including the editor of the Herald) have asked me about their sons overseas and what happens to a soldier from the time he leaves his organization until he safely home with his family.

I was stationed in Europe an identical system is operated in the Pacific. But to those of you who have sons, husbands or fathers in Europe, my own experience may be typical. Also it pertains to the movement of high point personnel only. However, it is possible that men returning to the United States for emergency reasons may in some instances be subject to the same type of processing.

Sunday afternoon, Sept. 9, is a day we'll never forget. We had just returned from Church services when a friend of ours telephoned from Reims that we were on orders to return to the States. After hurried preparation and many last minute details, we left Etain, France between Verdun and Metz, early on the morning of Sept. 12, via motor vehicle. Before noon we had arrived in Reims and registered at the Half-Way House.

The following morning we discovered that we had been placed

Lawton Reveals Advantages Of Training Vets

Thousands Of Dollars Lost To Business By Failure To Qualify

By "BUKE" MacNEILL
The Seminole High School Cadet Corps will entertain the Ocala Wildcatters when they play Sanford's football team at 7:30 tonight at the Sanford High School gym. The game will be the first of the season.

Sanford County and Sanford are losing thousands of dollars of income through failure of business men to qualify their employees for training.

Lawton, county superintendent of schools, said today.

Sanford County and Sanford are losing thousands of dollars of income through failure of business men to qualify their employees for training.

Lawton, county superintendent of schools, said today.

Celeryfeds Play Cost Of Butter Raised By OPA

More Than 174 Million Dollars Paid For Butter Subsidy

WASHINGTON, Oct. 19, (AP)—The retail ceiling price on butter will be boosted five to six points a pound Nov. 8.

Stabilization Director Collet announced this evening in a drawing, effective Oct. 31, a wartime subsidy of five cents a pound paid to butter processors.

Price Administrator Howles, in a concurrent statement, expressed the opinion that the effect of the butter price increase on the cost of living will be offset by a decline in other items.

Howles said the overall cost of living had dropped two-tenths of one percent between July 16 and Aug. 15. He also said that there was a subsequent drop in the cost of potatoes "and other cost of living items."

"For these reasons, Howles said, the consumer will pay no more for all items going into the family budget as a result of the increase in butter prices than the price he paid at the time of the surrender of Japan."

The butter subsidy went into effect June 1, 1943. Since that time the Reconstruction Finance Corporation has paid out \$174,691,000 to processors.

Secretary of Agriculture Anderson approved cancellation of the subsidy. The announcement said while demand is still strong it will not maintain returns to processors and processors.

Higgins And Boyle See Governor Over Naval Air Station

Mayor Edward Higgins and Senator Lloyd F. Boyle took to the air Wednesday morning at Orlando in order to keep an appointment with Governor Milton Caldwell in Tallahassee to confer with him in regard to use of the Sanford Naval Air Station if or when the Navy leaves.

Plans for City and County use of the Station were presented to the Governor with plans being made by the State in respect to military bases that may revert back to civilian control, Mayor Higgins said.

They also called at the State Road Department to confer on Seminole County road projects, particularly Road 202 from Ocala to Geneva which needs resurfacing. They were advised that this road could be put in the budget for next year as a periodic maintenance project.

Mayor Higgins said that they enjoyed the trip which was made in a small monoplane in two hours flying time from Orlando to Tallahassee. They returned also by air Wednesday evening.

CITY BRIEFS

The Rotary club will hear J. A. Young, superintendent of the Lake Monroe power plant of the Florida Power and Light company, explain features of electricity generation and transmission on Monday at the Mayfair Hotel.

At a recent election of the Seminole Chapter of Future Farmers, Vern Clark was elected president, Erman Gano, vice president, Thomas Kenney, secretary, Albert Byrd, treasurer. Vern Clark succeeded Ralph Johnson as president. The latter, by appointment of the president, was placed in charge of recreation activities.

All Sir Knights are requested to attend the meeting this evening at Taylor commandery, No. 1, E. T. which will be held this evening at 7:30 o'clock. Important business will be taken care of.

There will be a dance tonight at the Callie Cross sponsored by the Junior class of Seminole High School. Tomorrow night a picture show will be given at the crate which will be free of charge to all members.

Legion Is Conducting Membership Drive

The "Forty and Right" are holding the state roundup in Sanford on Oct. 27 and 28 for selecting new members to the American Legion. Campbell, secretary, Post 45 will be host to the visitors.

First Vice-commander H. B. Pope has requested that all members who have not already paid their dues do so at once in order that the Post may be represented 100 percent at the roundup.

The American Legion "Locomotive" will be at the Roundabout and Anderson corners on Saturday from 4:00 to 7:00 P. M. in order to accept dues from old members. However dues may be paid to Legion officer at any time.

Miss M. Pope, secretary, will drive for membership. Col. Sam Brabson of APTAC will make a public address at 8:00 o'clock Saturday evening at the corner of Park Avenue and First Street. Band members' facilities will be provided by the Legion.

Hallow'en Party Planned At USO

A Hallow'en party will be held for service men and women, service wives and hostesses at the USO next Wednesday evening at 8:30 o'clock. It was announced today by Joe Hall, director.

There will be many prizes given, including floor and costume prizes; there also will be apple bobbing and fortune telling, and later dancing to the music of the Sanford Naval Air Station Band. There will be special decorations put up under direction of Mrs. S. C. Graham and Mrs. Edward Lane.

USO Director John Lee of Sanford arrived this morning and will relieve Mr. Hall for a short time, while the latter takes a business and social trip north, returning in early November.

DISCHARGES

Pfc. George Alford, 615 East Third Street, has received his honorable discharge after four years of service with the medical corps. At one time stationed at APTAC, Orlando, he served with the 9th Air Corps of the 7th Army in the African, Sicilian and Belgian and German sectors. He is married to the former Leola Benton of Sanford. They intend to leave soon for San Francisco to make their home.

JOINS STAFF
Miss Marion Merrill of DeLand, a graduate of Station University and of the University of Florida, has joined the staff of the State Welfare Unit. It was announced today by Mrs. Janis Coles, director.

Miss Merrill is the daughter of Mr. Edith Merrill, executive secretary of the Wesley Volusia Chapter of the Red Cross.

Rat Eradication Is Making Progress

Grady Duncan, city health officer, and H. H. Nickerson who has been assisting him in eradicating rats from the downtown section, have returned from Jacksonville, where on Wednesday and Thursday, they attended the meeting of Rodent Control Directors of the state.

Mr. Duncan said that new progress was reported at the meeting in regard to use of DDT insecticide in killing fleas that infest rats, and for getting rid of the rats, formula 1080 was allowed for public use for this purpose. So potent is this poison, which is used in water, that it is required by the State to be kept under strict supervision, and not allowed for public use.

He added that use of this poison had put downtown Sanford under good control as far as rats were concerned, but due to wartime shortages, work had not been taken up in residential areas. It is planned, however, this year to extend the rat control over a wide area, he added.

NIX ON REBEL

ON THE USS REBEL, Oct. 19 (Special)—Lieut. (Jr.) Sydney J. Nix, USNR, 1812 Palmetto Avenue, Sanford, served on the fleet minesweeper when she was among the first U. S. Navy ships to enter Ominato Harbor, Honshu, Japan, to occupy northern Honshu and Hokkaido, main Japanese islands.

The REBEL swept the channel to safeguard the major Fleet units following her.

Victor Check Back From Trip To Kansas

Victor Check, Sanford resident who just returned from a six weeks' trip to Kansas, reported that he enjoyed everything on his journey except the cold weather, and that he was on that account glad to get back to Sanford.

At Topeka he attended rodeos at the Kansas State Fair, and on the way back took in the sixth game of the World Series at Chicago. The farthest west he got on the trip was Denver, Colo.

Much sale of stock was taking place in Kansas, he said, and added that the state was just recovering from a prolonged drought that was detrimental to the cattle industry.

T B Association Plans New Hospital

Plans toward securing an isolation tuberculosis hospital in Seminole County were made Tuesday evening at a meeting of the board of directors of the Seminole County Tuberculosis and Health Association, according to Mrs. Elizabeth Barker Kirsch, secretary.

Mrs. Mary Howells, Seal Sale chairman, appealed to all directors to assist with the seal sale, proceeds of which, she said, would be devoted toward the building of the isolation hospital.

It was decided to employ a full time secretary in view of the increasing work of the Association.

USO Camp Show Is Seen At Navy Station

Service men got a lot of entertainment last evening at the USO Camp Show presented at the Sanford Naval Air Station when Victory Unit 211 of the USO Camp Shows presented a well balanced variety program of acts.

The stadium orchestra accompanied singing and dancing. Headlining the program was Gordon Alexander, master of ceremonies and musician, who has just returned from three years of entertaining in the Pacific theater. Rene Melva, xylophonist, who also spent a year in the Pacific area, including New Guinea and the Philippines, playing on a truck plate form times for small isolated units of men. She had to set a new instrument on her return to this country, as constant trucking about had almost ruined the old one, she declared.

Other performers roundly applauded were: the six Gold Constans, a dancing act; the Cleveland twins, girl singers; Three jinks and a Gink, acrobats; and Sid and Bonnie Deen comedians formerly with Olsen and Johnson in the show, "Hellas, poppin' J. A. Peninger managed the show and Pat Floyd was musical director.

Sgt. Simon L. McGill Receives Discharge

DREW FIELD, TAMPA, Fla. Oct. 19.—(Special) Sgt. Simon L. McGill, 25 year old soldier from Sanford, Fla., was released from the services of the Army Air Forces today at the Drew Field Separation Station.

Sgt. McGill is the son of Mr. and Mrs. Elam McGill of R. 1, Havana, Fla. Prior to entering the service he was a nursery worker employed by the Ben Fish Co. in June 1942. He went overseas with the 890th Arm. Encl., where he served in the E. T. O. until he returned in February of this year.

R. McClelland Injured In Wreck Of 2 Automobiles

Collision of two Dodge sedans on Park Avenue at 11:30 o'clock Wednesday evening resulted in a serious injury to Richard McClelland of Sanford, passenger in the car being driven south on the avenue by Leonard "Buck" Little, recently returned from Ocala to Geneva which needs resurfacing. The other car was driven by Wilbur Jordan, negro, who was said to have been heading north at high speed on Park Avenue. His injuries were minor. A sailor, riding with Mr. Little, was treated for bruises at the Sanford Naval Air Station. Mr. Little's injuries were reported minor.

Dr. Munson, who treated Mr. McClelland at Fernald-Laughton Memorial Hospital, said that the injuries included a fractured skull, broken nose and badly torn lip. No arrests have been made in connection with the wreck, according to police.

Adams Wooten 77 Dies In Longwood

Funeral services for Council Adams Wooten, 77, resident of Longwood for the past 11 years who died Wednesday evening at a local hospital after a long illness, will be held in charge of the Erickson Funeral Home at 2:00 o'clock Monday afternoon at the graveside at Myrtle Hill Cemetery, Tampa.

For the past seven years Mr. Wooten had lived at the home of Mr. and Mrs. W. B. Stum of Longwood. He was born Sept. 10, 1868, in Strong, Ga. He is survived by two brothers, J. T. Wooten of Hazelhurst, Ga., and Richard Wooten, now hospitalized in the Philippines Islands, and one daughter, Mrs. Eava Stokes, of Baltimore, Maryland.

Townsend Clubs To Meet Sunday

The Townsend Clubs of the Fifth Congressional District will hold their council meeting Sunday afternoon in the Seminole County Court House at 2:30 P. M.

The Congressional Record and Flash will be read direct from Washington. There will be several speakers and the public is invited to attend.

RETONGA ENDED 10 YRS. SEARCH, SAYS PALMER

Had Suffered Tortures From Indigestion, Nervousness And Sluggish Elimination. He States, Says Retonga Brought Relief After Everything Else He Tried Had Failed.

MR. R. B. PALMER

"I have regained eight pounds of needed weight through taking Retonga. I am now eating anything I want, and I feel better than in years," gratefully declares Mr. R. B. Palmer, well-known resident of Shelbyville, Ky. Mr. Palmer is a native Kentuckian, a Mason of long standing, and a staunch churchman. Discussing Retonga he gratefully continued: "I surely went through tortures from indigestion, nervousness and a weak, fagged out feeling, and my elimination was so bad that I was almost a slave to laxatives. Sometimes I felt so weak that I could hardly walk around, and my nerves seemed to be upset all the time. I was underweight and I felt so miserable that I got little pleasure out of anything. Retonga gave me prompt and wonderful relief after everything else I tried had failed. I now en-

joy three meals every day, my nerves are quiet and I sleep fine. The gas pains and sluggish elimination have been entirely relieved and the headaches went with them. I feel better than in years and I am always telling somebody about Retonga." Thousands praise this famous medicine. Retonga is intended to relieve distress due to Vitamin B-1 deficiency, constipation, insufficient flow of digestive juices in the stomach, and loss of appetite. Accept no substitute. Retonga may be obtained at Touchton Drug Co., Adv.

Connelly Explains Use Of Flag In Spirit Of 1776

(Continued From Page One) circle of stars in the corner. The painting, familiar to every schoolboy, pictures the same flag with a union jack in the corner. A small detail, but it was important to Ratoff, for he wanted the scene exactly like the painting, and still historically accurate.

Ratoff pondered for several moments, then made his decision: "Use the flag, like the painting. Don't get letters from people asking us don't we know anything about history?"

Being the grandson of the late painter of "The Spirit of '76," I might add for Mr. Ratoff's information that A. M. Willard, when he had completed the painting, named it "Lanka-Doodle." The picture received its present name when it was shown in Boston, Mass., during the latter eighties.

The press agent who prepared the above excerpt was also somewhat scrambled in his history. The picture received its name to convey the idea that the flag with 13 stars and stripes as shown in the painting was not carried by the colonial forces in the year 1776. This is true, for the flag in use that year was the "Grand Union" flag consisting of 13 red and white stripes with a British union jack in a blue canton, and had been raised when Gen. Washington assumed command of the colonial forces at Cambridge, Jan. 2, 1776. This flag was used by the Revolutionary forces until Aug. 2, 1777 when a hurriedly improvised flag with 13 red and white stripes and 13 white stars on a blue canton was raised over Fort Stanwix at Rome, N. Y. upon the approach of a British force. The new flag had been authorized by the Continental Congress in the resolution of June 14, 1777.

War Criminals Trials Start On Nov. 20

(Continued From Page One) war crimes indictment charged. Alleged violations date back to the 1899 Hague Peace Convention and include the United States - German Treaty signed after World War I when the United States Senate refused to ratify the Versailles Treaty.

Listed as violations in Appendix C of the indictment are: 1-Hague treaties of July 29, 1899 for the Pacific settlement of peace treaties. By attacking Yugoslavia and Greece April 9, 1941 without trying to solve any dispute peacefully.

2-Hague convention of October 18, 1907 for pacific settlement of international disputes, by attacking Poland September 1, 1939; Norway and Denmark April 9, 1940; Luxembourg, Belgium and Holland May 10, 1940; and Russia June 22, 1941 without trying to settle its disputes by pacific means.

3-Hague Convention of October 18, 1907, relative to opening of hostilities, by attacking the countries named in (2) without a declaration of war.

4-Hague Convention of October 18, 1907, by attacking the countries named in (2) in violation of their neutrality.

5-Versailles Treaty of June 28, 1919, by rearmings, annexing Austria, Memel, Danzig, and Bohemia and Moravia in Czechoslovakia and by building up the Army, Navy and Air Force.

6-Attacks Without Warning of October 3, 1937, relative to opening of hostilities, by attacking the countries named in (2) without a declaration of war.

7-Attacks Without Warning of October 3, 1937, relative to opening of hostilities, by attacking the countries named in (2) in violation of their neutrality.

8-Versailles Treaty of June 28, 1919, by rearmings, annexing Austria, Memel, Danzig, and Bohemia and Moravia in Czechoslovakia and by building up the Army, Navy and Air Force.

Stenstrom Shows How Soldiers Are Shipped To ETO

(Continued From Page One) in a packet of 1000 soldiers and officers. As our names were read from a roster we boarded large semi-trailers and were transported to the rail terminal in Reims. We boarded "40 and Eight" (a small European rail wagon with no seats, no springs, no nothing. It was a small box on wheels). After traveling all day, we arrived at Chateau-Thierry, 35 miles from where the journey began. Another roster was called and we boarded trucks for transportation to the 6560 Reinforcement Depot, commonly known as Camp San Francisco. We went to a processing company first.

The following morning we had our records checked by an efficient group of personnel men. Medics checked our immunization registers, and dog tags. Supply men put us through a show-down inspection and gave to us or took away the necessary items of clothing and equipment to insure that we carried exactly what we were supposed to have. Late that evening we were transferred to a holding company. The next day we were divided and grouped into sub-packets. As these words all the men from Florida were put into a group numbered 43. That is the number of the Separation Center at Camp Blanding.

Exactly one week later, late in the afternoon, the dim-lights of Boston harbor came into view. That was our first sight of the United States and it certainly was a glorious one. We pulled into the harbor amidst a welcoming blast of ship's whistles and sirens. It was grand.

Debarcation began immediately. As fast as one troop train was filled it would pull out for Camp Myias Standish, Mass. the Disposition Center. We were here 20 hours before our group of Florida men, 66 of us all together, was on its way to Camp Blanding. We left Boston on Monday morning and Tuesday night we were on the Camp Blanding spur.

We were immediately taken to the Separation Center. The following morning our processing began. We had our initial shakedown where nearly all government property except the clothing was taken out.

They had two engines on the 30 car train but that 190 mile journey took us almost two days as we didn't reach LeHarve until early Tuesday morning. We broke down three times, at least the engines did. The old and battered Freese railway equipment just couldn't take it.

As we detrained at LeHarve, we were placed aboard large semi-trailers once again and taken to Camp Phillip Morris. Camp San Francisco was an Assembly Area Command camp while Camp Phillip Morris was a Staging Area installation.

At Camp Phillip Morris we were again given a shakedown. We had pistols and war souvenirs checked and certificates of ownership made out for them. We made customs declarations and completed the great assortment of necessary baggage tags. We had another exchange of clothing and equipment there.

Early Saturday morning, Sept. 29, we departed from Camp Phillip Morris by semi-trailer and went to LeHarve. We unloaded at a pier where the S. S. Vassar Victory was docked.

GIs Criticize Army For Slow Journey Home

(Continued From Page One)

left behind and others stoned and beaten in the little Tokyo district of Peiping last night in the first outbreak of violence here since the surrender of Jap forces.

This followed similar disturbances in Tientsin where homes were entered and several hundred Japs beaten four days ago. The assassination yesterday of the President of Korea's chamber of commerce at Tientsin was reported today. There were no details.

Japan's chief task is to carry out the terms of the Potsdam conference as smoothly and as rapidly as possible. Foreign Minister Shigemitsu, speaking yesterday in Tokyo, said to demonstrate our good faith through deeds in the first of a foreign press conference.

He said he believed the present situation in the Far East is a "revision is regarded as necessary" because it had been misused by other elements in the past. He decided the "Yabatsu, the

SOCIALIST Juan Attilio Bramuglia (above) has been named Argentine Ambassador to Russia. The appointment indicates that negotiations between Argentina and Russia are nearing success. Argentina has had no diplomatic relations with Russia since they were severed in 1917. (International)

End Is Sought To CIO Strike In Michigan

(Continued From Page One)

The President commented there would be very little trouble if everybody acted in the public interest.

These other developments in Michigan are:

- 1. The possibility of new difficulties when the coal contract is reopened next spring was seen in the action of the Washington county, Pa., local of UMW. In a resolution, it asked shortening of the work week from 54 to 36 hours without reducing pay.
- 2. CIO President Philip Murray said minimum wage laws should cover the "entire working population." He told a house committee in its support of a proposed boost in the minimum wage from 40 to 45 cents an hour.
- 3. Secretary of Labor Schwellenbach, whose conciliating efforts failed in the coal and oil strikes, set up a committee to investigate what's wrong with the U. S. conciliation service and what should be done about it.

HEAD AMERICAN DELEGATE TO THE Allied Reparations Commission

Edwin W. Pauley (above), 42, may succeed James C. Hays as head of the reparations commission. Pauley is former treasurer of the Reconstruction National Committee (International)

Evangelist Returns To Sanford

Edison J. Taylor, the Cyclone Evangelist and radio preacher, will lead a city wide interdenominational revival meeting in ring top tent located on corner 3rd street and Laurel Avenue beginning Monday, October 22nd, 7:30 P.M.

Mr. Taylor preached his first sermon here in Sanford 18 years ago. Since that time he has traveled extensively around the world and thousands have heard his messages all over the U.S. The Evangelist is the only known man in the nation who takes his subjects from the congregation and preaches impromptu during Revival meetings. Evangelist Taylor is a member of the Baptist Church.

Special music and singing by Mrs. Taylor and local talent.

The public is cordially invited to all services which are strictly interdenominational.

SIBIR VIBES FOR TODAY

WITHIN THE FRAMEWORK OF THE SPIRIT CHRIST REVEALED ASK WHAT WILL BUT NOTHING THAT WOULD INJURE YOURSELF OR YOUR FELLOWS OR THAT WOULD PREVENT THE COMING OF THE KINGDOM OF HEAVEN ON EARTH WILL BE ANSWERED. Matt. 23:23

Sanford has a football team that is going places this fall.

Various civic clubs throughout the state are adopting resolutions urging the abolishment of sweat-boxes in Florida prison camps.

The Tampa Tribune is urging Senator Holland to run for the United States Senate.

The public should not be too critical of public service institutions or local business houses which are unable to give the service as which people have long since become accustomed.

One of the best cartoons we have seen in a long time appears in the Orlando Sentinel Wednesday morning.

Indicating the "sweet reasonableness" of CIO labor leaders, the 10 percent wage demand made against General Motors would take every cent of profit made by the company last year and cost 100 million dollars besides.

A town with radios, automobiles, washing machines and electric irons which we won't get by Christmas, a continual candy shortage is predicted.

Construction of a sewage disposal plant and is expected to be completed in about 90 days at a cost of \$350,000.

the office of Dr. J. F. Brawley, Pine Castle, Florida, will be closed on both Sundays.

New Kind Of Student

Colleges are having the most unorthodox enrollment in history, and many baffling problems. Veterans of battles in all parts of the globe have put their uniforms and their citations in moth bags, and outfitted in gay sport togs decorated with discharge buttons...

Most of these ex-soldiers find the adaptation disconcerting, the work a let-down, even boring. They are restless, eager to be about the next step, a job, a home.

The task of adjustment is up to the colleges. Professors who kept their minds unclouded during war years will know how to unroll the mass of fearful old-boy boys fitting awkwardly into desks before them.

They will know how to unroll the mass of fearful old-boy boys fitting awkwardly into desks before them, will want to read it. Teachers need imagination and courage to trim their methods sharply to uncharted student needs.

How A Handicap Can Help You

An unfortunate situation doesn't have to be a handicap—it can be a challenge. Ross L. Holman, writing in Your Life, explains how handicaps sometimes become assets.

"I once knew a man who was about as complete a physical wreck as I ever saw," he relates. "All his limbs were so gnarled and twisted he had practically no use of them.

"Yet this man made every dime of his own living writing insurance. In that business he was a crack salesman. He knew insurance almost as well as the man who invented it and he knew how to talk it.

"This insurance salesman owned a farm operated by a hired manager. He had one of the finest herds of purebred Jerseys in the country. He had a nice bank account.

"A handicap is as big or as little as you make it. You can take even an insignificant one and let your imagination play with it until it scares you into hysterics.

Our Toughness

It is no secret that Americans, while they are probably the best and toughest soldiers in the world, don't follow up very well when peace breaks out.

One of the latest observers of this fact is Henry Morgenthau, who insisted on a "hard peace" for Germany and thereby caused a split in the Washington cabinet.

Offhand it looks like a good idea. We're good scrappers at close quarters, when fighting for our lives, and we're tough enough in a boxing or wrestling match.

TOO LATE TO CLASSIFY

In a lively two day session held at Silver Springs last week, Chamber of Commerce secretaries from all over Florida met with the Tourist and Development committee of the Florida State Chamber of Commerce.

EFFECTIVE NOVEMBER 1 1945 the office of Dr. J. F. Brawley, Pine Castle, Florida, will be closed on both Sundays.

THE FORWARD PASS

Longwood

The Lyman school P. T. A. held the monthly meeting on Tuesday evening with a very large attendance.

At Christ church Sunday service will be conducted by Rev. Mark Carpenter at 10:30 in the afternoon.

Mc and Mrs. M. R. Blankenship have returned from visits with relatives in Willard, Mo. and Lawton, Okla.

Longwood Card Club were guests of Mrs. Florence Sutherland on Saturday night with these present, Lewis and Mrs. Ernest Harris, Mr. and Mrs. J. H. Menick, Mrs. Harriet Whitten, C. Atherton Wales, Mr. and Mrs. S. L. Tupper, and Joseph Deach of Minneola, L. I. Attractive refreshments were served.

A fallowen carnival will be sponsored by some of Lyman students on Oct. 26 with admission to the public.

The affair was on Friday afternoon at the home of Mrs. F. J. Niemeyer, who was assisted by Mrs. W. J. Hartley and Mrs. B. R. Gray. The rooms were

ment of troops is taken care of, the traveling public will simply have to wait. While it is hoped that some new equipment will be available early next year, it will not be enough to relieve the situation to any marked degree.

Summing up the situation, it was felt that Florida and her communities should be extremely cautious in its promotion and advertising program this fall and winter.

Apparently the transportation companies are no better off than in the state as far as accommodations for handling large crowds are concerned.

Tired Kidneys Often Bring Sleepless Nights. Doctors say your kidneys contain 18 million of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up at night. Frequent urination, especially at night, is one of the first signs that your kidneys are getting tired. Sometimes there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable mental energy. When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause swelling, backache, headache, pain, leg pain, loss of pep and energy, swelling, puffiness under the eyes, headache and dizziness. Don't wait until you are in pain to get Doan's Pills, a stimulant diuretic, used successfully for millions for over 40 years. Doan's give happy relief and will help the 18 million of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Another FIRST for Southern! First to introduce High Test-DDT Household Spray to Florida. Southern Chemicals now brings you PYRO - D DDT with PYRETHRUM. For quick knock-down, sure kill, and lasting effects against Flies, Ants, Roaches, Mosquitoes, Water Bugs, Moths, Fleas, Lice, Bed Bugs, Ticks. \$1.25 a quart. Distributed by JENNINGS SEED STORE, 202 Sanford Ave.

AMERICAN LEGION DANCE - At The Armory. Benefit National War Fund. Saturday, Oct. 27 - 9:00 P.M. 'til! Music By "The Banana Boys". Admission: \$1 per couple (tax inc.) Men in uniform 50c (tax inc.) Tickets on Sale at the following places: Smoke House, Bill's Pkg. Store, Frank's Tavern, Roumillat & Anderson, City Drug Store, Touchton's. For Table Reservation Phone 200 - 50c per person. The public is cordially invited to attend.

for FLORIDA'S Industrial Development! The United States leads the world in industrial progress. Research laboratories and experiment stations in Florida and throughout the country have led the ground-work for this leadership. We salute these institutions and the men who are building a new era of industrial progress. High on the list is our own Florida Engineering and Industrial Experiment Station of the University of Florida. In this station the volume of research now being done is equal to that in any of the engineering colleges in the southeast. Much of the work of this group has been of a secret nature, for the benefit of the armed forces. But now that peace has returned, the men who have done this work are anxious to put their knowledge to use in the civilian world. To this end, they are working along the following lines: 1. Research in progress for the needs of Florida's various industries. 2. Research to improve Florida's existing industries. 3. Technical advice for the sustenance of Florida's industries and other state agencies & engineering problems affecting the welfare of Florida. 5. Development of Natural Resources. The latest list shows 32 active and important projects in operation in the station, covering widely diversified subjects. With Florida on the threshold of a great industrial expansion, the Engineering and Industrial Experiment Station of the University of Florida and other research bodies will play increasingly important roles. They are and will be largely responsible for the development of new and more profitable uses for existing raw materials and the discovery of new raw material sources. Future Florida industry will be indebted to the men whose research has blazed the trail. The Florida Engineering and Industrial Experiment Station and similar Florida research groups deserve a place in the front ranks of Florida's industrial builders. Following is a partial list of studies undertaken by the Engineering and Industrial Experiment Station of the University of Florida in one period of last year. These examples are typical of the scope and variety of the work done at the station: High Grade Ceramic Ware - Trade Name Scotch Oak and Cedar. Sources: Sewage Treatment Processes - Test Road Using Limerock - Utilization of Wood and Wood Waste - Protein Feed from Waste Sulphite Liquor - Harvesting Equipment - Pulp for Paper from Fresh Stumps - Fundamental Corrosion Studies - Mildew and Mould Control on Textiles, Leather and Other Materials - Mucilage from Hibiscus Manket - Cathodic Protection of Water Storage Systems - Leather Development - Investigations on Peat - Limerock in Sulphite Pulp Mills - The Greater River and Harbor Systems of Florida - Crate Closure for Citrus and Celery - Wood Impregnation Equipment - Drying of Tung Nuts. FLORIDA POWER & LIGHT COMPANY. Following is a partial list of studies undertaken by the Engineering and Industrial Experiment Station of the University of Florida in one period of last year. These examples are typical of the scope and variety of the work done at the station: High Grade Ceramic Ware - Trade Name Scotch Oak and Cedar.

AUTHORITIES IN PONTIAC, MICH., have taken into custody for questioning Louis V. Thompson (left), husband of wealthy Mrs. Lydia Thompson who was found beaten and stabbed to death near her palatial home. Thompson told police he hadn't seen his wife for some days before her body was found. A pair of his golf shoes, which were found in his car, are examined (right) by Police Lieutenant Ulley before they were sent to a chemist for analysis. (International Soundphoto)

RURAL COMMON SENSE
By Spuds Johnson

TREMENDOUS ADVANCES IN PEST CONTROL SEEM ABOUT READY FOR USE

The war has brought tremendous advances in pest control and it now seems that the farmer is on the verge of getting benefits from these advances. New remedies found effective for pests both here and in far places, but which were largely taken by the armed forces until the war ended, give promise of being excellent for controlling household and farm pests, in future. Many of the slightly publicized new materials already are on the civilian market.

Farmers have found DDT to be highly effective in controlling flies, mosquitoes, roaches and other pests, but already have registered experiences which emphasize the necessity for caution in its use. It will kill some beneficial insects as well as harmful ones and it has killed farm animals when improperly applied.

Aerosol bombs, of which more than 16 million have been used during the past three years by the armed forces, also will be available for the control of household insects. They contain insecticides dissolved in a liquefied gas held under pressure in a container. When a valve is opened the sudden change in pressure allows the contained solution to boil violently. The escaping liquid, forced through a small orifice, turns to vapor as it hits the air. This disperses the insecticide as a very fine colloidal suspension in the air, which is quite effective in controlling insects in enclosures or other places where the air is still.

Dr. W. B. Tisdale, plant pathologist with the University of Florida Agricultural Experiment Station, says that DDT and fungicides combined have given outstanding results in limited tests with several crops in southern Florida. Indications are that summer production of some crops is possible when this combination is used, but further experimental results will be required before recommendations can be made.

Combinations of different fungicides have controlled diseases better than single fungicides. Seed disinfection to control disease also has made rapid strides during the war. It seems quite likely that seed of peanuts, cotton and most vegetables, except snap beans will be treated in future. Spergon, arsan and 2 percent creson are the treating materials now in most widespread use. Bulletins and other materials on their use are available.

The advances in pest control should enable man to gain ascendancy over his principal and constant enemy—pests.

Florida Gators To Meet Miami Tonite

GAINESVILLE, Oct. 19. (Special) The University of Florida Gators, smarting from their upset defeat to Vanderbilt University's Commodores, settled down to hard drills here this week in preparation for their underdog role against the University of Miami's Hurricanes in the Orange Bowl Friday night.

Head Coach Tom Lieb isn't the least bit optimistic over his chances Friday night and rates his Gators the definite underdog against Miami, after the 7-0 defeat the Commodores handed the Gators before approximately 19,000 Homecoming fans.

Although Friday will find the Gators in "fair shape" to start against the "Hurricanes," Lieb points out that with the game being played on Friday, Florida hasn't had the advantage of an extra day of rest and practice that Miami has.

The Gators had only from Monday through Wednesday to get in shape for the game, while the Hurricanes had the advantage of Saturday and Sunday to rest up. The Gators entrain for Miami Thursday from Waldo.

Friday's game on the famed Orange Bowl will continue a series between Florida and Miami.

Florida Agricultural Experiment Station, says that DDT and fungicides combined have given outstanding results in limited tests with several crops in southern Florida. Indications are that summer production of some crops is possible when this combination is used, but further experimental results will be required before recommendations can be made.

Combinations of different fungicides have controlled diseases better than single fungicides. Seed disinfection to control disease also has made rapid strides during the war. The advances in pest control should enable man to gain ascendancy over his principal and constant enemy—pests.

started in 1938. Of the six games played to date, the Gators have won four and dropped two. Largest margin run up by Florida was in 1940 when the Gators rolled up an impressive 46 to 6 victory. Miami won the opener in 1938 by a 19 to 7 margin and repeated in 1942 when the Hurricanes won a 12 to 0 game.

LEGAL NOTICE

IN THE COURT OF THE COUNTY JUDGE, SEMINOLE COUNTY, FLORIDA, IN PROBATE.
IN RE: ESTATE OF CARRIE H. EVANS Deceased.

TO ALL CREDITORS AND PERSONS HAVING CLAIMS OR DEMANDS AGAINST SAID ESTATE:
You and each of you are hereby notified and required to present any claims and demands which you or you may have against the estate of Carrie H. Evans, deceased, late of said County, Florida, at his office in the County Court House, said County at Sanford, Florida, within eight calendar months from the date of the first publication of this notice. Each claim or demand shall be in writing and shall state the date of liability and post office address of the claimant, and shall be sworn to by the claimant, or attorney in law, any such claim or demand not so filed shall be void.

AS ADMINISTRATOR OF THE ESTATE OF CARRIE H. EVANS, DECEASED.
First publication Sept. 21st, 1945.

IN SIXTH JUDICIAL CIRCUIT COURT, SEMINOLE COUNTY, STATE OF FLORIDA, IN AND FOR THE COUNTY OF SEMINOLE.
RUTH J. ALLEN, Plaintiff, vs. J. BUTT VAUGHAN, Defendant.

ORDER OF PUBLICATION.
THE STATE OF FLORIDA; Greeting, To Willie F. Allen, 1821 West Grand Boulevard, Detroit 8, Michigan.
You are hereby ordered and required to be and appear upon the 5th day of November 1945, the day of the first publication of this Bill of Complaint filed against you in the Circuit Court of Seminole County at Sanford, Florida, by Ruth J. Allen, being an action for divorce.

The Sanford Herald is designated as the newspaper in which this order shall be published for four consecutive days, to wit: my hand and official seal of office at Sanford, Florida, this 4th day of October, 1945.

C. P. HERRNDON
Circuit Court, Seminole County, Florida, by E. L. Burdick, D. C.

(SEAL)

Notice is hereby given that Z. E. Smith will apply to the Board of County Commissioners of Seminole County, Florida at its meeting to be held on the 4th day of November A.D. 1945, for the adoption of a resolution by said Board of County Commissioners vacating certain parts of the plat of Crystal Lake Winter Homes Subdivision as recorded in Plat Book 2, pages 114-116, Seminole County records. Said parts of said plat sought to be vacated being included in the following described property, to-wit:

Begin at the southeast corner of Lot 22, Block 17, Crystal Lake Winter Homes subdivision, run thence west to the southwest corner of Lot 18, run thence north to the northwest corner of Lot 19, thence west to the west line of Fourth Street, thence north along the west line of Fourth Street to the north line of Grand Bend Avenue, thence east along the north line of Grand Bend Avenue to the west line of said lot 22, thence south along the east line of said lot 22 to the point of beginning.

Dated at Sanford, Florida, this 11th day of October, A.D. 1945. (Signed) Z. E. Smith

General Tieup Is Threatened In England

Forrestal Proposes National Security Council Of Three Main Secretaries

WASHINGTON, Oct. 22, (AP)—Chief Justice Walter P. Stone of the North Carolina state supreme court has accepted President Truman's invitation to preside over the forthcoming labor-management conference starting Nov. 5.

By Associated Press
Tom Powell, unofficial leader of Britain's dock strikers, threatened the government with a general strike today as the most critical dock walkout in 20 years spread to new piers. It was said to be worse than the national strike of 1926.

Ten thousand soldiers have been called out to unload needed food.
"Bringing thousands of soldiers into this industry while the strikers' wives and children are starving is not the solution," said Powell. "This is no way to build a beautiful Britain or bring about social security."

In this country the national strike tide was approximately 217,000 today, almost halved from last week's high point. Some 216,000 miners trekked back to the pits under a month-old truce.

CIO Michigan State Utility Council members were back to work after 14 of the 23 locals vote to accept the negotiated wage increase.

Goods shipping was tied up along the Texas coast by a strike of 2,500 AFL longshoremen and warehousemen. The CIO west coast longshoremen threatened to strike on Oct. 29, if a living cost-of-living pact is not made. Some 15,000 other workers in 16 cities were also on strike.

Beginning today, the WLB will not accept any case for the purpose of deciding them on the merits of issues in dispute. It will accept jurisdiction only in cases where both parties agree to submit their dispute for final and binding determination by an arbitrator appointed by the board. The procedure was adopted to enable the board to clear its docket by Jan. 1 when it is scheduled to be reconstituted.

Invitations Accepted
Invitations already have been accepted by President William Green of the AFL, Philip Murray of the CIO, John L. Lewis of the UMW, a member of the National Association of Manufacturers, and Eric Johnson of the Chamber of Commerce of the United States.

With strike votes scheduled for Wednesday and Thursday in General Motors Corp. and Chrysler Corp. automobile plants, Truman may appeal to labor and management to settle their differences by orderly processes and without work interruptions pending outcome of the conference.

The strike votes will be conducted by the National Labor Relations Board. The board on Tuesday has an important hearing scheduled to decide on unionization of foremen in the mines of the Jones Laughlin Steel Corp. The hearing is the final step before the NLRB decides the case.

Flatbush In Tokyo Is 'Official'

DIFFERENT FROM ALL OTHER NEW YORK SIGNS that have been displayed in strange places, this Flatbush sign at Mitsui Airport near Tokyo wasn't snatched. It's there from the official hand of Mayor LaGuardia himself, who sent it to Brooklynite J. Arbeson (right), Danny Kaye (left), comedian, and Manager Leo Barocner (right). The Dodgers join Arbeson in a homesick sign for the far-away original. (International)

Two Drowned When Car Backed Into Deep Ditch

2 Escape But Chief Howell And Mother- In-Law Drowned

Chief George David Howell, USN, 55 year old veteran of two world wars, together with his mother-in-law, Mrs. Little Dell Bennett, both residents of Sanford, were drowned Sunday afternoon when Howell's car, which he was attempting to turn on a road, backed down an embankment and was submerged in the deep waters of a flooded ditch. The accident happened about three miles east of the Titusville Bridge in Volusia county.

A daughter, Mrs. Louise Harriman, and a grandson, Allen Harriman, who were also in the car, escaped drowning in some manner. Mrs. Howell was fishing from a bridge nearby.

Chief Howell, a recruiting officer attached to the Jacksonville Naval Air Station, had made his residence in Sanford at 601 West First Street 16 months ago. He was born Nov. 26, 1888 in Albany, Ga., and enlisted in the Navy at Atlanta, Ga. in 1907 and served during World War I.

He is survived by the widow, Mrs. Alice S. Howell of Sanford; two daughters, Mrs. Louise Harriman of Sanford and Mrs. Walter Walker of Jacksonville; a grandson, Allen Harriman of Sanford, and a sister, Mrs. Maggie Blair of Atlanta, Ga. Hearings have been set to Jacksonville where funeral services will be conducted by the Navy.

Remains of Mrs. Hensley will be sent to Jacksonville via the Erickson Funeral Home for burial and interment. Mrs. Hensley had lived with her daughter, Mrs. Howell on West First Street for the past 18 months. She was born Dec. 16, 1869 in Marble, N. C.

She is survived by two daughters, Mrs. George Howell and Mrs. Joseph Richart, both of Sanford; two sons, Homer Hensley of Sanford and Garland Hensley of Jacksonville; two sisters, Mrs. Hatie Johnson, and Mrs. Louise Marshall of North Carolina; and five grandchildren: Richard Hensley of the Navy; Eugene Richart and Mrs. Louise Hensley of Sanford; Mrs. Walter Walker of Jacksonville and a granddaughter living in New Jersey.

PRINCIPALS MEET

All principals of white schools will meet Tuesday morning at 10:30 o'clock in the Junior High School at the office of Miss Ruth Hand, county supervisor of public instruction. It was announced today by Superintendent W. L. Lawton.

Relating to schools, curricula and standards will be discussed, and plans for improvement in education will be presented by the principals, Miss Hand and Sue Lawton.

ENLISTED IN NAVY

George Edgar Edwards of Sanford was last week sworn in the United States Navy. Commissioned as a gunner's mate, he is going to sea on Oct. 18, after filing his papers with the Navy Recruiting Station in Orlando. He is the son of Mr. and Mrs. George C. Edwards, 814 E. Washington.

Young Explains Electricity To Rotary Club

Florida Power And Light Co. Building Two New Plants

The production of electricity was explained to Sanford Rotarians at the regular luncheon at the Mayfair Hotel today by J. A. Young, superintendent of the Lake Monroe plant of the Florida Power & Light Co. who said that on Nov. 7 he will have been in the power business for 40 years and that during that time he has seen many remarkable changes.

Tracing the development of electric power production from the first plant in which he worked at Onutah, Naha, where there had one plain turbine with a capacity of only 1,600 kW, to the modern plants of today, he revealed that the Florida Power & Light Co. now has two new plants under construction at Lakewood and Palm Beach which will be the last word in efficiency.

Pointing out that three ingredients are necessary for the production of electricity and that these are fuel, water, and oxygen, he said that from 15 to 25 pounds of air are needed for each pound of fuel oil and that a considerable volume of water is used which is pumped into the plant by two pumps at the rate of 17,000 gallons a minute. The oil is first pumped through steam heaters, he said, where it is thinned to the consistency of something like water. Pumps then force it through burners like the carburetors on automobiles for the purpose of getting the BTUs out of the oil. A BTU, he explained, is a heat unit of measurement and is figured as the amount of heat necessary to raise the temperature of one unit of water one degree. They average, he said, 1800 BTUs in each pound of oil.

The oil is brought in under high pressure and high temperature into a furnace where it burns at about 3,000 degrees, he continued. The heat from the BTUs derived from the oil in this manner is then transferred by means of steam to the turbines which turn the generators. The electricity is made in the generators.

Mr. Young was introduced by L. T. Shepard who had charge of the program. President Leo Leisher presided over the meeting. Visitors included W. L. Thorpe of Orlando and K. E. Johnson of First City.

Carlton Is Leaving For Re-assignment

McMM 1C Hugh Carlton, son of Mr. and Mrs. G. H. Carlton of 615 Park Avenue, is leaving tomorrow to report to Little Creek, Va. for re-assignment by the Navy. Mr. Carlton has been on the LC1 506 for the past 18 months and was in the Normandy invasion on D-Day when his craft struck a mine and was out of action for two weeks. Following repairs the craft engaged in a shuttle service of troops between England and France up to the final surrender of Germany. Mr. Carlton arrived in the United States on July 4 and has been in Sanford for the past three weeks.

Navy Against Combining Of War And Navy

Constitution Of 3rd Republic Will Be Scrapped; New One Will Be Drafted

MADRID, Oct. 22, (AP)—Generalissimo Francisco Franco today issued a decree granting Spaniards freedom of religion and the abolition of the 19th century constitution of the state. The new constitution will be drafted by a committee of the state. The 18th century constitution is prohibited except in exceptional cases.

By Associated Press
Secretary of the Navy, James V. Forrestal today called for the proposition that the War and Navy Departments were "revolutionary" and "unsound." Opposing the War Department he offered a substitute plan calling for the retention of the present setup with the creation of a National Security Council composed of members of the State, Army and Navy, with the chairmanship proposed by the Secretary of the Navy. The President would be the commander in chief.

In Tokyo it was reported that the building of a fleet in Japan, both financial and political, is occupying the center of the occupation policy of the government. The powerful Zaibatsu will be broken up and the Emperor's blessing to the development of the diet had been given.

Prince Fumihito Kanoye said the Emperor is anxious that the revision of the constitution provide the nation with a diet strong enough to be a guiding influence in national politics.

At the command of the Emperor, who is following General MacArthur's wishes, Kanoye is conducting a series of discussions with the Emperor.

Sgt. J. S. Holloway Given Bronze Star For Pacific Fight

S-Sgt. James S. Holloway, forward observer in the field artillery, 1st Cavalry Division, carried a radio beyond the American front lines to report the location of the enemy to our troops during the Battle of the Philippines. He was the first to enter the famous Santon prison camp near Manila.

The work of a forward observer was routine "until our troops made a mistake," then the observer's duty was the most hazardous. He was to be seen with a radio in one hand, a carbine in the other and a pair of excellent eyes, an observer went forth beyond the American lines in search of the enemy. Who the enemy was sighted the information was radioed back to the lines. The observers would then run back to his own lines for protection if he was lucky enough to make the dash without being killed.

Sgt. Holloway was awarded the Bronze Star at Manila where his fighting unit unexpectedly ran into enemy machine gun fire. He faced the fire and his gun destroyed the enemy. He also wears the gold conduct ribbon, Asiatic-Pacific Ribbon and the Philippine Liberation ribbon.

After arriving in the states on Sept. 21, he was sent to Camp Chaffee, where he received his discharge from the Army on Sept. 30. He has two brothers in Seminole County, Luther Holloway of Lake Monroe and Ross Holloway of Upeona. Sgt. Holloway was educated in the local school and is a former employee of The Sanford Herald.

Sgt. Timothy Stevens Receives Discharge

TYNDALL FIELD, Oct. 22 (Special)—Sgt. Timothy Stevens of 900 Elm Avenue, Sanford, has been honorably discharged from the Army Air Force according to an announcement from the AAF Separation Base at Tyndall Field, Fla. Sgt. Stevens has been in the Army for 36 months, serving with the 10th Air Force in the Pacific Theater of Operations for 12 months. A veteran of 49 missions as a bomb gunner (engineer) on a B24 with the 7th Bomb Group, Sgt. Stevens wears the Distinguished Flying Cross, the Air Medal with one Oak Leaf Cluster, the Presidential Unit Citation and the Asiatic Pacific Theater Ribbon with two battle stars. He was awarded the Distinguished Flying Cross for complete and exceptional performance in his mission overseas.

Prior to his induction into the army, Sgt. Stevens was employed by Hunter Field in Savannah, Georgia.

THE MOMENT THEY'VE BEEN WAITING FOR has come at last, and these crewmen of the U.S. fleet carrier Enterprise are getting away from the New York harbor. They took the big ship and began a long trip to Europe and back, first to Los Angeles and then on to San Francisco and the United States.

Lee Is Arrested For Assault On J. H. Truluck

City Discharges Patrolman On Recommendation of Chief

City Patrolman Ernest Lee, charged with assault with a deadly weapon against the person of J. H. Truluck, owner of the Security Lumber Company, following a heated discussion concerning a truck driver, was arrested Saturday afternoon by Deputy Sheriff Jack Hickeney and held before County Judge R. W. Wake. He was released on \$200 bond pending trial in court.

Shown before Lee's arrest, the City Commission at a meeting Saturday noon, received a written statement from Police Chief Roy Williams recommending Lee's immediate discharge. The Commission approved the discharge which was immediately effected.

The incident involving Lee's arrest occurred Saturday morning at about 8:30 o'clock at the corner of Park Avenue and Commercial Avenue. Truluck, who was driving a truck, was in a heated discussion with Lee, who was driving a car. Truluck, he said, had a gun on him and there having a pre-arranged design to effect the arrest of the said J. H. Truluck.

Sgt. Robson Returns Despite Difficulties

After serving with the 7th Army in Europe without setting a scratch, Sgt. Harry Robson returned Sunday from his tour of duty as an observer on a real danger zone, one of Florida's highways.

Driving home to Sanford after receiving his honorable discharge at Ft. Bragg, N. C., and with his wife and two small children as passengers, his car ran into a ditch near Callahan. Fortunately, his wife suffered no more than some bruises. The children were reported unharmed. All of them are now at the home of his parents, Dr. and Mrs. J. N. Robson.

During his overseas service, Sgt. Robson was one of the first Americans to enter the liberated Peshaw concentration camp in Germany, where he superintended installation of American hospital facilities. He served with a medical unit.

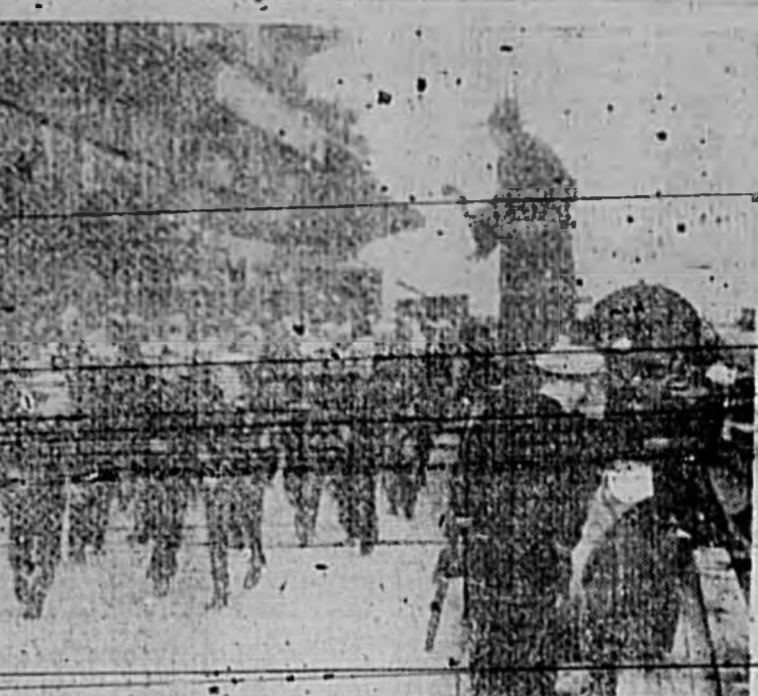

Dr. Ellwood C. Nance To Address Kiwanis

Dr. Ellwood C. Nance, president of the University of Tampa, and noted public speaker will address the Sanford Kiwanis Club at its meeting at the Hotel Mayfair Wednesday noon. "The Kind of Work We Want to Live In" will be the subject of Dr. Nance's address, according to recent notice given Dr. L. F. Bogg, club president.

Pfc. Clarence G. Ericson who has been in the Army for the past three years has received his discharge. He was formerly stationed at Fort Lewis, Wash. Camp Rupert, Idaho, and Mt. Hamilton, Calif.

Pvt. James L. Gaines has recently received his discharge from Fort Lewis Separation Center, Washington.

Sailors Hit The Beach From Docked 'Big E'

THE MOMENT THEY'VE BEEN WAITING FOR has come at last, and these crewmen of the U.S. fleet carrier Enterprise are getting away from the New York harbor. They took the big ship and began a long trip to Europe and back, first to Los Angeles and then on to San Francisco and the United States.

Sanford Defeats Ocala Wildcats By 21 to 7 Score

Anderson Scores All Three Bringing Total This Fall To 10

By "Duke" MacNeill
A Sanford power house football team rolled over a hard fighting but completely outclassed Ocala team Friday night at Seminole High School by score of 21 to 7 before 2,000 enthusiastic fans.

The Ocala team scored in every period except the first one. The Wildcats from Ocala scored their only touchdown late in the third period when a pass from Green to Jones was good for a tally. Jones then drove through the center of the Ocala line to score the extra point.

Between halves the High School band led by Sophie McDougall, and the Ocalaettes put on an impressive drill that was heartily applauded.

Sanford's star fullback, Anderson, accounted for all of the three touchdowns, which brought his total to ten touchdowns for the year. Sanford's Ocala fullback, Clark, fed right tackle, kicked three goals for the three extra points.

Slow on the start, the Ocala fullback got moving in the middle of the second stanza with a 55-yard drive, sparked by Anderson and Clark, with the former crashing through the center of the line for the first score. Clark's touchdown was good, making it 7 to 0.

Both teams scored in the third period, Sanford pulling over the first score a few minutes after the second half began. Anderson scored again from the Ocala four yard line on an off tackle play. Clark's extra point for the extra point was good, but the two Ocala off side penalties, the kick was repeated with good accuracy, and the score was 14 to 0.

Coach Turner's Ocala boys come back into the game when Clark started a passing attack which Sanford was unable to stop. Climaxing a 53-yard drive, the "Wildcats" scored on a nine yard pass from Green to Jones, Clark's extra point for the extra point.

Sanford's final tally came as a result of the longest sustained drive in the game which totaled 62 yards. Anderson scored his final touchdown through the center of the line on a one yard back. Final score 21 to 7.

The oil glands in the lower layer of the human skin secrete a natural lubricant which causes from the pores and spreads out over the surface.

French Voters Give Approval To DeGaulle

Soldiers Are Called In To Unload Ships Filled With Food In Dock Walkouts

PARIS, Oct. 22, (AP)—France's first general election in nine years placed an almost unqualified stamp of approval today on Gen. De Gaulle's plans to found a fourth republic on a new constitution drafted by the people's chosen representatives.

Figures of the Ministry of the Interior this morning showed DeGaulle had won an overwhelming victory in the two-pronged election which decided that the constituent assembly, designated in yesterday's election, will draft a new constitution rather than attempt to rebuild the government on the 1885 document which was the foundation of the Third Republic.

Executive power will be vested in a provisional government during the seven months the assembly sits, rather than in the assembly itself. Twenty-five million persons voted—the first election in which women were eligible.

Results from two Paris districts showed 8588 to 98 in favor of abandoning the constitution of 1875 unless which cabinets had fallen an average of twice a year. On the second question of the drafters of the Third Republic.

James Langiotti Executed June 19 By Jap Soldiers

After being held a prisoner by the Japanese in Formosa during the time from Oct. 16, 1944 to June 19, 1945, American flyers were executed, among them James Langiotti, aviation radioman, USN; son of Eddie Langiotti, Sanford, restaurant owner, it was revealed today by an Associated Press dispatch from Washington.

The executions followed a meeting of a Japanese war tribunal. The dispatch stated: "It was on Oct. 12, 1944 that James Langiotti was reported by the Navy to be missing in action.

He was born July 17, 1921 in Orlando, where he attended school, until he came to Sanford and went to the Seminole High School from which he graduated in 1941, and on Oct. 27 following, joined the Navy.

Reported missing at sea with 15 others, he was at first reported rescued. He was reported missing a second time, and after a year was reported dead. He wore the Distinguished Flying Cross among other decorations.

He is survived by his father, Eddie Langiotti of Sanford, and his mother, Mrs. Essie Lake of Orlando; and a brother, S-Sgt. Edward Langiotti, who joined the Army in 1943, served in the European theater and who on Sept. 23, was awarded the Purple Heart decoration.

Lions Club Gives Donation To Crate

The Sanford Lions Club at its meeting Friday voted the sum of \$12.50 as a monetary contribution of the crate, young people's organization of Sanford, on the assumption that other civic organizations would donate like amounts.

James Robson, Jr. was placed in charge of publicity for the forthcoming Lion sponsored boxing bouts. R. L. Skinner of the committee for this program, announced he had secured cooperation of Army and Navy officials in securing some good ring material for the bouts.

Plans for the Lion's Thanksgiving dance were announced by J. E. Roland.
In the current membership contest, the loser of which will sponsor the dance, J. E. Rowland's "Roundup Roamers" lead Dick Ellaberry's "Berry Pickers" 34 to 33.

Funeral Is Held For Council A. Wooten

Funeral services for Council A. Wooten 77 of Longwood who died Wednesday evening at a local hospital after a long illness, were held at 3:30 o'clock this afternoon at the graveside at Myrtle Hill Memorial Park, Tampa.
Mr. Wooten is survived by two brothers, J. T. Wooten of Raeford, Ga., and Richard Wooten not in the Philippines, and one daughter, Mrs. H. E. Elkin of Baltimore, Md.
