

Mostly cloudy and unsettled in north portion and generally fair in south portion through Friday. Some likelihood of showers in extreme north. Continued mild except a little cooler in extreme north tonight.

Plan To Alter ODM Setup Is Sent Congress

Maximum Readiness Is Aim Of Eisenhower

WASHINGTON (AP)—President Eisenhower today sent Congress a plan to reorganize the Office of Defense Mobilization. He said it is intended to give the maximum degree of mobilization readiness at the least possible cost.

The plan would merge the functions of the mobilization agency (ODM) with those of the National Security Resources Board (NSRB). It also would give permanent status to the ODM, which has been operating as a temporary emergency agency.

The plan to create a single, central defense mobilization office will go into effect automatically in 60 days unless either the Senate or House veto the plan in the meantime, or unless both branches vote to put it into effect earlier.

In a special message to Congress, Eisenhower said the plan will permit better organization and management of the federal programs relating to materials and requirements and will thus help to achieve the maximum degree of mobilization readiness at the least possible cost.

He said it is not practicable at this time to try to itemize savings which he expects to result.

In addition to merging functions of the ODM and the NSRB, the plan calls for:

1. Appointment of a director to head the ODM, and a deputy director to serve as top aide. Arthur S. Flemming is acting chief of ODM at present, but the White House declined to say whether he would be nominated to head the agency under the proposed new setup.
2. Appointing the director of ODM to serve as a member of the National Security Council in recognition of the vital strategic importance of the ODM.

Bank President

T. E. Gene Tucker, chairman of Fidelity Investment Corp. board of directors and also of the Semolee County Hospital trustees, was elected president of the Florida State Bank at its board of directors meeting yesterday.

F. E. Gene Tucker, chairman of Fidelity Investment Corp. board of directors and also of the Semolee County Hospital trustees, was elected president of the Florida State Bank at its board of directors meeting yesterday.

Baseball Outlook Is Good, Fields Says Before JCs

Jim Fields, Sanford Cardinal business manager, did not promise a pennant winner for Sanford this year, but did forecast a hotting team in the Florida State League in reviewing this season's baseball prospects at the Junior Chamber of Commerce luncheon in the yacht club today.

"Things are looking good for the team this year," he declared. "I received a call from St. Louis farm supervisor, Walter Shannon, only this morning assuring me that the Sanford drills are doing all right."

Nonetheless for this month's election of officers and directors were announced by Tom Crawford, chairman of the Jaycee Nominating Committee.

Chf. Ables and Yolie Williams Jr. were selected as the two candidates for president (other candidates include: first vice president, William Harrison 1; and Gordon Frederick; second vice president, Gordon Sweeney and Mack Cleveland; Secretary, T. C. Charles; Charles Atkinson; Treasurer, James Cox.

The 12 nominations for the six local director posts were as follows: Mr. Harrison, Mr. Fred Morgan, Dr. Harold Ring, William Herschel, Marvin Dier, Mr. Cleveland, Elton Moulton Jr., Willie Hunt, Melvin Raskind and Mr. Sweeney.

In Mr. Shannon's conversation with Mr. Fields, it was learned that Bob Folkert, left-handed hitting rookie outfielder, who was drafted into the Army last month, is now in camp at Albany, Ga. and working out with the Sanford club. Folkert has been hitting the ball well, according to Shannon.

Sanford is among the 12 clubs which will pick from the 100 players now trying out in Albany, Fla. Fields stated, he briefly reviewed the prep records of the 21 rookies out of the 23 players now training with Manager J. C. Dunn's Sanford club in Albany. The average age of these rookie players is 18.5 and will necessarily be vulnerable to the draft, Mr. Fields admitted.

The 23-player roster must be trimmed down to the 16-player limit in the PFL this summer 20 days after the season's opener on April 13. Sanford will open the season on Saturday.

McCarty Has Test Made Of Heart Action

Re-Enters Hospital To Get Cardiogram

TALLAHASSEE (AP)—Gov. Dan McCarty went back to the hospital today for a check-up to see whether he has sufficiently recovered from a Feb. 25 heart attack to deliver his message to the Legislature in person next Tuesday.

He stayed only long enough for an electro-cardiogram given by a hospital technician. He didn't see his doctor and there was no immediate word on outcome of the test.

"When he sees that he'll recommend whether I can go before the Legislature or be back in the house for two or three weeks," McCarty said.

He commented that the fact he has been out of bed for five hours a day recently and "I continue to feel stronger."

McCarty wants to go before the Legislature to look forward to a long, long time. "I'm going to be awfully disappointed if I don't get to do it," the governor said.

"At the same time, I've thought about exactly what the doctors tell me to do."

If McCarty isn't able to address the Legislature, he won't be the first governor to miss it.

Gov. Fred Cone was ill and his message to the 1953 session was read by Atty. Gen. George Cooper Gibbs (Gov. Ossin B. Hart didn't personally deliver his message to the Legislature during either of two sessions during his term in office).

Love Guided Their Wheelchairs

RICE SHOWERS down on Forest Dr. at 4th St. in the Holy Trinity church after their wedding in the chapel at Vaughn General Hospital, Chicago, Ill., for their final legs in this assembly and had about a year ago of walking using through a hospital cart in wheelchairs. Far has been fitted with an artificial leg and they soon will be discharged home.

Reds Deliver To U.N. Command Latest Plan For Ending Korea War

Florida Counties Rank High In U.S. As Producers Of Fruit, Vegetables

By the Associated Press

WASHINGTON (AP)—The United States today received the latest plan for ending the Korean war from the Communist North. The plan calls for a cessation of hostilities and a return to the status quo ante bellum.

The plan also calls for a withdrawal of United States troops from the peninsula and the establishment of a neutral buffer zone along the 38th parallel.

The Communist leadership also proposed a reunification of Korea through free elections under the supervision of the United Nations.

The plan was presented to the United Nations Security Council today. It is expected that the council will meet next week to discuss the proposal.

Striking Rubber Workers Add To Total Idleness

By the Associated Press

WASHINGTON (AP)—The rubber workers' strike today added to the total idleness in the United States. The strike, which is now in its fourth week, has resulted in the loss of 150,000 jobs.

The rubber industry estimates that the strike has cost it \$100 million in lost production. The workers, who are represented by the United Rubber Workers Union, are demanding a 15% wage increase and a shorter work week.

Grief-Bewildered Father Pleads With Marine Son, Slayer Of Five

By the Associated Press

BRIDGEVILLE, Pa. (AP)—A grief-bewildered father was pleading with his 18-year-old son, a Marine who has slain five persons, to accept a plea of insanity.

The father, who is now in a hospital, said that he had never seen his son since he was drafted into the Marine Corps. He said that he had been told by the military that his son had been killed in action.

Robert M. Angas Checks Plans For Sewer Expansion

By the Associated Press

BRIDGEVILLE, Pa. (AP)—Robert M. Angas, a local engineer, is checking plans for the expansion of the sewer system in Bridgeville, Pa. He said that the current system is inadequate for the town's needs and that a new system would be needed to handle the increasing population.

Frances Moore Gets Jaycee Sponsorship

By the Associated Press

BRIDGEVILLE, Pa. (AP)—Frances Moore, a local businesswoman, has received sponsorship from the Jaycee chapter in Bridgeville. She said that the sponsorship will allow her to continue her work in the community and to help the less fortunate.

Welfare Workers Discuss Problems

JACKSONVILLE (AP)—Welfare workers today continued to talk over their success in making more people's lives better and to plan further gains.

The workers discussed the problems of unemployment, poverty, and the need for social services. They also discussed the importance of community support in solving these problems.

Rev. Herbert Bass Speaks On Badge Of Discipleship

Men who know the joy of Christ, the Rev. Herbert Bass, pastor of the First Christian Church, told Semolee High School students this morning in the final of a series of talks presented in cooperation with the Semolee Methodist Association.

The Rev. Bass spoke on the "Badge of Discipleship" and urged the students to live lives of faith and service. He said that the badge of discipleship is not a physical object, but a way of life.

Services Held Today For Mrs. Daisy Lewis

Funeral services were held at 2 p.m. today at the home of Mrs. Daisy Lewis, who died at her home, 1002 Main St., at 10:30 a.m. today.

The Rev. A. C. Minnis officiated at the services. Burial will be in the cemetery at 2 p.m. today.

Ice Queen Wins Third Trophy

Thomas Hawk, a tennis player from Pontiac, Mich., was arrested yesterday afternoon and later released upon posting a \$50 bond for passing in front of a school bus on Route 17-22 1/2 mi. south of Sanford. He was arrested by Sheriff J. J. Hobbs.

Mr. Hawk was arrested in front of the school bus and fined \$50. He was released upon posting a \$50 bond.

Services Held Today For Mrs. Daisy Lewis

Funeral services were held at 2 p.m. today at the home of Mrs. Daisy Lewis, who died at her home, 1002 Main St., at 10:30 a.m. today.

The Rev. A. C. Minnis officiated at the services. Burial will be in the cemetery at 2 p.m. today.

88 Percent Of Tax Assessments Are In Before Deadline

With still a huge pile of envelopes, containing tax payments yet to be opened today, County Tax Collector John Galloway reported 88 percent of the 1952 tax assessments had been paid on the Tuesday, Mar. 31 deadline.

All unpaid letters with tax payments marked before Mar. 31 will not be classified as delinquent and will not be subject to the percentage increase as penalties, he asserted.

Power Lines To Be Removed At Airport

In line with efforts to improve facilities at the Blue Beach Airport on the Longwood-Blandford Springs Road, surveys are being made this week by the Florida Power Corp. preparatory to removing power lines which presently cross the field at the end of the runway.

Two weeks ago Forest Brockridge, Chamber of Commerce chairman, contacted W. W. Wolf, vice president of the power company, in regard to changing of the power lines.

New York Candy Manufacturer To Locate New Factory In Lake Mary

Did you ever eat any candy flavoured with some of this country's choicest liquors, cordials and brandies? Well, not like these any more for these are from a formula handed down through four generations in Austria and never produced before in this country.

But now industry has come to Lake Mary and candy is going to be manufactured there, candy flavoured with liquors. The lease for the building was signed yesterday between H. Q. Lawson, long time resident of Sanford, and his partner Michael Gottschalk of New York City, and Frank Evans, owner of the building.

Atomic Plants In Middle Of Desert Are Working On Atom Powered Subs

(Editor's Note: This is the first of several stories by Elton C. Fay, Associated Press military affairs reporter, on one of the first visits by a newsmen to the cross-country chain of laboratories and plants building the atom-powered submarine.)

By ELTON C. FAY
IDAHO FALLS, Idaho—Look, pardner, that's a submarine out on the sagebrush plain! Well, anyway, part of one.

You never expected to see a submarine out here where it's so dry even the rivers get lost in the ground?

"No? Well, neither do you ever see one that runs by splitting atoms."

Built into a section duplicating identically that of a real submarine hull is what the Atomic Energy Commission (AEC) calls a "thermal reactor" and the steam turbine system which makes up a "reactor plant" in an experimental reactor plant.

The power plant now is in operation, its atom-fissioning chain reaction producing heat in the "fuel rods" to make steam for the turbine.

Formal announcement of its successful operation was made by the commission in Washington yesterday.

The plant is now operating at reduced power which is being built up gradually to eventual full heat output. This first, landlocked nuclear engine will be the pattern for an atomic sea-going model to go into the Navy's submarine Nautilus, the hull of which is being built at Groton, Conn.

The submarine thermal reactor is only one of the wonders scientists have brought to the cluster of gray concrete buildings scattered over some of the 40,000 acres of the National Reactor Testing Station (NRTS) 40 miles from this

Eastern Idaho City.

The AEC operates the station to study and develop methods for producing power from nuclear fission. Not the sudden unleashing of the awful power of the bomb, but controlled reaction to produce heat which will turn wheels for peaceful industry — or propel steadily submarines.

Here they put to test the theories and blueprints and scale models which nuclear physicists and engineers dream up in laboratories. They get tough assignments.

There is the task of devising a machine to produce more material than it consumes. So far, everything hasn't worked out that way because with materials and processes now available absolute efficiency is out of the question.

The scientists also are scrutinizing the metals used in reactors, along with other materials and fuels used in nuclear fission. So they have built the "materials testing reactor."

The materials testing reactor is to nuclear fission science what the wind tunnel is to aerodynamic engineers. With it the physicists are proving or disproving by test, the theories worked out in laboratories.

The bombardment of neutrons produced here is more powerful than anything except the intense radiation produced at the instant of an atomic bomb explosion.

Into the lead shielding are cut about 100 openings through which metals and components for nuclear power plants can be pushed into the heart of the reactor. Here the piping, the condenser, the shields, the pumps, for atomic engines can be tested to see how much they create contamination problems and reduce efficiency.

Annual Junkets To Get Started Soon To Distant Lands

WASHINGTON—Spring is in the air, and a lot of congressmen are getting ready to follow suit.

The annual congressional junket season gets under way with a bang this week, aided and abetted by a 10-day Easter recess of the House which will allow them to find time to visit distant lands as India, Pakistan, France, Italy, Thailand, Formosa, Hong Kong, Indochina and Japan, to say nothing of Florida, Texas, Louisiana and Puerto Rico.

It's all on official business, of course, except the Florida excursion which will be a condensed spring-training season for congressional baseball players footing their own bills.

Two House Foreign Affairs sub-committees are going to study the foreign situation generally. The nine members are split into two groups, one already heading for India, Japan and intermediate points by way of Europe; the other winging soon to France and Italy. They plan to return to Congress around April 20.

Puerto Rico will be the destination of about 10 members of the House Agriculture Committee scheduled to leave tomorrow and be back home when the Easter recess ends on April 13. They want to study the horticultural habits of Uncle Sam's island possession.

Half a dozen members of the House Armed Services Committee have packed their bags for departure Sunday to Baton Rouge, La., and Houston, Baytown and Port Neches, Texas. They will spend several days having a look-see at the government's synthetic rubber industry.

Expenses will be borne by the taxpayers, mostly through the foreign affairs fund, but the foreign affairs groups operate largely on foreign money in the possession of the United States.

Playing Of Violin Is Cited In Miami Court

MIAMI—Louis Zola told Peace Justice Kenneth Oka Tuesday that listening to a child play a violin in the next room was ample reason for trying to break his apartment lease.

"Who one could stand it," he testified in Small Claims Court.

Oka didn't look very sympathetic.

Joseph's Orphanage.

Zola grinned sheepishly.

"You must have heard plenty of complaints in your time."

The courtroom stilled and Oka's face reddened.

"I don't know about that," he said. "They're still listening."

And so, presumably, is Zola.

Oka refused to grant him his request for a \$100 rent refund and to cancel his lease for "allowing a child to play a violin in a loud rapping way that was detrimental to my nerves."

Wake Up To More Comfort

Without Napping Backache

Without backache, loss of pep and energy, headache and dizziness may be due to tired muscles and circulation may be due to tired muscles. It is very important to good health to have your muscles and circulation in good shape. This is why it is so important to wake up to more comfort. This is why it is so important to wake up to more comfort.

Holy Week Rites In Redskin Area Will Be Exciting Affair

By JOHN CURKIN
SANTA FE, N. M.—In the little mountain villages in remote parts of Northern New Mexico, the observance of Holy Week rites of the mysterious brotherhood known as the Penitentes started yesterday.

In the moradas, or chapels, members of the religious organization are reciting prayers based on Gospels accounts of the arrest of Jesus. Today—Holy Thursday—processions, prayers and hymns will be recited. Tomorrow will be Good Friday. The day was taken before Pontius Pilate.

On Good Friday, the fervor of the penitent ones builds to its climax as they make the Via Crucis. Praying, singing, sometimes crawling on their knees on rocky paths, they will make their way past the 14 Stations of the Cross to hilltop Calvaries where stand three crosses. There they will commemorate Christ's agonies and death.

The moradas, on the night of Good Friday, will echo with earth-trembling sounds — parts of the syncretism in the ceremony commemorating the placing of Jesus' body in the sepulchre.

Penitente leaders, disturbed over what they called the many lurid and exaggerated accounts of the rites, say physical excesses, such as severe whipping, no longer are permitted, at least not in the great majority of Penitente groups now recognized by the Catholic church as a lay sect.

They do not like to talk for publication. Neither do church leaders who take the view the Penitentes' ancient church approval in 1947, should no longer be subjected to publicity. The church approved the sect in that year, with the provision that its rites be in moderation and subject to church supervision.

The Penitente order, an offshoot of the Third Order of St. Francis in Medieval Europe, was founded in New Mexico in 1625 at Santa Cruz. Its aim was long and penance.

In the years when the priests were recalled from Mexico, American Penitentes in some localities proved the mainstay of the church. But it was then, too, that the ex-

Display Of Metal That Comes From Sea Being Shown

WASHINGTON—A 50-million dollar display of metal that comes from the sea opened here today, the first International Magnesium Exposition.

Some of the government's top officials, with Sen. Ferguson (R-Mich.) as master of ceremonies, planned to attend the opening. It would have been surprising, either if some agents from behind the iron curtain turned up.

For magnesium, a shiny lighter metal than aluminum, is a substance of growing military importance.

An display in the National Guard Armory, for instance, are a shiny magnesium experimental rocket, some helicopters made almost entirely of magnesium, and the prize exhibit of all, with many magnesium parts—a Navy 3811 skyrocket aircraft, which has flown a record shattering 1,230 miles an hour and has climbed to 72,000 feet.

What is magnesium?

It's a strong metal three-fourths the weight of aluminum and one-fourth the weight of steel. It came into prominence during World War II. It is "salvaged" from ordinary seawater mostly by the Dow Chemical Co. at Freeport, Tex., on the Gulf of Mexico.

The nine-year-old magnesium association, sponsoring this exposition, expects its metal to make great strides, with products ranging from bridges to sewing ma-

Boys School Dorm Is Destroyed By Blaze

ENGLISHTOWN CLIFFS, N. J.—A dormitory at the St. Joseph's School for Boys atop the Hudson River Palisades was swept by fire today. First reports were that 40 children were safe.

As flames got out of control, Englishtown County police issued an emergency call to all fire departments in the area to send chemical units, due to low water pressure at the site.

The wooden dormitory is part of an orphanage which includes a brick building, playgrounds and school rooms. About 100 children of grammar school age attend the school, formerly known as St. Joseph's.

"I'm a violinist myself," he said. The school is located just north of the George Washington bridge, and overlooks Upper Manhattan.

VETERANS GUIDANCE

Veterans of this area who need assistance in obtaining benefits under the GI Bill may receive guidance from Tom D. Deen, assistant State service officer.

Mr. Deen will visit this area next week for the purpose of holding veterans in local agencies in filing claims for compensation benefits or solving their insurance problems. This free service includes assistance to employers of veterans under the GI Bill, vocational training, subsistence, or other problems.

He has been invited to this area by Lloyd F. Boyce, county service officer, as a special consultant and may be contacted as follows: Mr. Deen, 9-3021 and to 4:00 p.m. at county service office.

Dr. Conant Making Hit In Germany In New Post As High Commissioner

HOHN, Germany—Dr. James Conant, a distinguished educator turned diplomat, is making his mark in Germany as High Commissioner and winning unusual attention from the Russians as the new U. S. high commissioner in Germany.

Two months after taking over America's toughest overseas diplomatic assignment, the quiet, scholarly Conant is emerging as the second most important man in Germany.

Germans and Americans here alike are saying that "Herr Doktor Conant" is just what is needed for this strategic post at a decisive juncture of European history.

Pro-Western Germans are frank in looking to Dr. Conant and to Chancellor Konrad Adenauer. The number one man in West Germany to lead West Germany into close association with its neighbors as a first step toward European unification.

The Germans were awed when they first learned that the renowned Dr. Conant of Harvard and atomic energy fame would represent the new Eisenhower administration here.

The reaction among most Western diplomats here was: It's a long road from Boston to Hohn and what does he know about diplomacy and European rivalries and the enigma of the German character?

These first doubts have quickly turned into low bows of respect for the slender 60-year old six footer who wears horn-rimmed glasses.

Dr. Conant has amazed and charmed the Germans with his drive and easy-going informality. He has been accorded respect and attention from Russian representatives in Germany instead of the usual reserve.

Within one week after taking up his new post, Dr. Conant had, according to many sources, established his new post as High Commissioner.

Officials in Bonn and visited his British and French colleagues of the Allied High Commission and General Vassily Chukov, the Kremlin's emissary in Germany.

In his first two months here Dr. Conant has roamed the country from Berlin to Stuttgart. He's met hundreds of Germans.

In his brisk quest for information, he has become known to the Germans as "the question man." To every German he meets, the sturdy New Englander pumps out a stream of questions about the problems and future of Europe and Germany.

Dr. Conant made a hit with the Germans right from the start by talking to them in their own language. He speaks good German. The German press, which doesn't hesitate to take cracks at the Americans, gives favorable coverage to Dr. Conant's activities.

Compensation Ruling Announced By Ervin

TALLAHASSEE—A person can't draw full workmen's compensation payments at the same time as full state employee retirement benefits, Atty. Gen. Rich. Ervin said today.

Workmen's compensation law requires deduction of any state or municipal pension payments from compensation payments he said in an opinion to Comptroller C. M. Gay.

Ervin also ruled a sheriff need not re-arrest a person arrested for traffic law violation by a highway patrolman.

Early Detection See Answer To Stomach Cancer

(Editor's Note: The following story on cancer is the third of a series written for The Associated Press by Dr. Owen E. Wagnensteen, chief of the department of surgery of the University of Minnesota Medical School.)

By OWEN WAGNENSTEEN, M.D.
Cancer of the stomach takes more lives than cancer of any other organ—nearly 25,000 each year.

This tragic toll, however, does not have to go on. Many of the lives would be saved if only the cancer were detected in time. Why isn't it?

Because it is difficult to detect—and because people neglect warning signs. While the cause of stomach cancer is unknown, much is known about its symptoms and its treatment. Surgery offers the only prospect of cure. The entire stomach, or a large portion of it, can be taken out by skilled surgeons with little risk to life. The prospects of successful surgery is greatest when the cancer is detected at an early stage.

The cure rate is as high as 80 per cent when the cancer has not spread to the glands adjoining the stomach. When these glands are involved the cure falls to 10 per cent. It is indeed tragic that so often when a cancer of the stomach is detected, it has progressed so far that a curative operation cannot be undertaken.

The problem, then, is early recognition.

What are the symptoms of stomach cancer that any person can recognize? They can be summed up in the term "indigestion." Indigestion means many things to many people—ranging from heartburn, dyspepsia or loss of appetite to nausea, pain and vomiting. It is folly for persons experiencing such symptoms for any period of time to treat themselves for indigestion. Expert diagnosis is called for. While pills may stop the signs for a while, the cancer—if one is present—is given time to grow.

More important, however, than recognition of these symptoms or signs is a periodic X-ray examination by specialists of all people past 40—the age after which stomach cancer most often strikes. By the time a stomach cancer is diagnosed on the basis of sym-

Smokey Says:

THE BUSINESS OF PURPOSELY SETTING THE WOODS ON FIRE IS A FORM OF SUICIDE WHICH WE CAN'T AFFORD!

Let's Jug this fire bug!

Hal Boyle's Column BY HAL BOYLE

NEW YORK (AP)—America today is divided into two great classes—the rich and the poor, and those who laugh at 'em.

Dieting began as a fad, now is one of the nation's greatest industries. It spreads faster than many good sustaining programs.

The people who used to laugh at Bernarr MacFadden as a health fanatic because he carried carrots in his pockets now try to find out where he buys them. The empty stomach has replaced the full dinner pail as an American success symbol. But, of course, it has to be fashionably empty.

A hungry man used to be a financial failure. Today a man of wealth who gets fat is regarded as an anti-social wretch who is deliberately plotting to make his wife a widow.

This is odd, because for centuries in China a middle-aged man's wealth was measured by the size of his paunch. And he remained remarkably free of the heart ailments that ambush the chubby executives in this country. Maybe one reason is that the Chinese Oriental found out long ago that lying on a couch and munching rice while listening to a little lute music didn't wear the heart out as fast as chasing a golf ball.

But millions of Americans, rich or poor, male or female, now seem to feel that less food, rather than less tension, is the formula for a long life. They no longer count sheep while trying to cure insomnia. Makes them think of food. So they count calories jumping over a fence—the calories they plan to eat tomorrow.

As a matter of fact, a zealous dieter hardly can mention food any more without a twinge of conscience. When one meets another, he booms, "Guess what I had for lunch today?—350 calories and five minerals. You should of joined me."

If he finds that he has exceeded his calorie quota, he starts worrying—and up jumps his diastolic pressure. Is that good?

It used to be said that it was easier for a camel to go through the eye of the needle than for a rich man to enter the gates of heaven. Many a diet-lean rich man now dreams fondly of galloping through that needle on horseback. A Wall Street broker looks like a piece of upright spaghetti as he scans his ticker tape. The working man is going in just as much for calorie nibbling. He no longer carries a toothpick. He is in.

The biggest danger to a healthy, normal, happy, relaxed, cheerful, easy-going fat man now is that he will laugh himself to death at the ex-tubblers trying to live to be 100 on lettuce leaves and vitamin pills. A rabbit eats lettuce. Ever meet one with a long beard?

One fat friend of mine has an unusual theory about the dieting craze. "It's all just a housewives' conspiracy to get out of kitchen chores," he said. "They aren't trying to make their husbands live longer. They're just trying to cut down on the time they spend cooking."

"They used to have to spend at least four hours a day in their kitchen. Now all a wife has to do to fix a meal is to mix up a few vegetables for a raw salad and hold a lamb chop for a few seconds over a lighted match. Then dinner's ready."

"I say any husband who lets his wife starve him to death that way ought to have a saccharine tablet over his grave instead of a monument."

It probably has been present for two years. This long silent interval and the frequent occurrence of stomach cancer definitely suggests that the most effective way of early detection is by periodic X-ray examination. People without symptoms who are found by X-ray to be harboring a silent cancer show a far higher cure rate after one or two years when the cancer has been detected because of symptoms.

In a generation, stomach cancer—once regarded as almost hopeless—has become amenable to surgical treatment. It is now curable. The problem is to detect its presence in time. The major dread—as in all cancer—should be the fear of neglect.

Inside WASHINGTON MARCH OF EVENTS

Cautious Attitude Urged Toward Plane Incidents

WASHINGTON—Administration foreign policy leaders, and the wiser heads in Congress, are privately urging caution in the West's attitude toward the two aerial shooting incidents over Allied occupation zones in Germany.

Hopes are being freely expressed that the two attacks by Communist planes within two days constitute a coincidence and not a pattern of provocation instigated by the new Soviet regime.

Both the administration and Congress take the most serious view of the occurrences which have seen an American and a British plane shot out of the skies by MiG-15 jet fighters. There is no disposition to pull punches in diplomatic notes of protest.

However, there is a genuine tendency to attribute the shootings to the notably trigger-happy Red airmen, at least until a pattern of intentional, inspired provocation can be established. Should this last prove to be the case, the Western Powers will be faced with a situation fully as explosive as the Berlin blockade.

Washington

● **QUIET PLEASE**—Since he took office Jan. 20, President Eisenhower has received hundreds of speaking invitations. So far, none has been accepted and the chances are they won't be for some time to come.

Of course, one big reason for this is that the President is far too busy for all the states and local Republican groups which have asked him to address them. However, there is still another, bigger reason for Mr. Eisenhower's silence in this respect.

The GOP realizes it has a tough row to hoe if it is to enlarge on or even keep its congressional majorities in 1954. In addition, it is expected that Republican gubernatorial candidates that year will face stiff Democratic opposition.

Therefore, the party's high command has decided to throw as much of the political spotlight as it can spare on these potential and actual candidates for lesser office. Officials believe it is never too early to start this part of the campaigning. And they think an appearance by the President would distract from the political stature of congressional and gubernatorial candidates.

● **ATOMIC ARTILLERY**—The announcement that the atomic cannon will be fired during the spring tests in Nevada may be the Army's bid to regain stature and voice in the Pentagon through its ability to deliver an atomic explosion regardless of aerial weather conditions.

The Air Force has, since the dropping of the first bomb, taken the lead in all discussions over its use because it is the service that heretofore has had to take it to its destination.

Both the Army and the Navy have had to take a back seat in many instances when the Air Force wanted money or men because the flyers were able to produce the fact that they had the only means of delivering an atomic explosion.

● **PROOF PERFECT**—A Senate Democrat contends he has the perfect proof the Republicans do not expect to stay long in Washington. Senator Henry M. Jackson of Washington told a group of fellow party members recently he has this indication they expect a short tenure in power.

"The Republicans' attitude and business-like as they are, are leading to a certain, they are not buying houses."

Jackson's own opinion is that the Democrats' return to leadership will take place in something less than four years.

QUEEN ELIZABETH in deep mourning attire, her guests bearing during the funeral procession in London for her grandfather, the Duke of Devonshire, Elizabeth was always "Lilibet" to Queen Mary, who died in Marlborough House at the age of 85 (International Radiophoto)

OVER 200,000

people, including many thousands in Florida, own our \$5000 Polio Expense Insurance policies. Those in Florida are employees of about 200 prominent business firms and include a large number of employees of the State Government.

This insurance is issued only to groups of ten or more working for one employer; and at no expense to him. This Group plan is why our annual premiums are so low — \$2.75 for one person or \$6.50 for a family.

If your employees would like to buy this insurance, or you'd like to SELL, it write NOW for details before the Polio season starts — May to October. People are anxious to buy at our low rates because they're SCARED that Polio may strike some member of their families. No other company that we know of issues Polio insurance alone on the same Group plan that we use. This is a very unusual opportunity for some satisfactory income to salesmen as commissions are adequate. Complete list of Florida policyowners and claim payments furnished to salesmen.

Over 82,000 people were stricken with Polio in 1952 — far more than ever before.

Houses Passes Bill On Oil Land Titles

WASHINGTON (AP)—The House today passed a bill to clarify the title to oil and gas lands in the states to oil rich submerged coastal lands.

The bill, H.R. 283, was passed by a vote of 283 to 106.

The roll call vote on final passage was 283 to 106.

This compared with the 266 to 106 margin by which the House

approved a similar bill in the last session of Congress. That legislation passed the Senate too, but was eventually killed by President Truman's veto.

President Eisenhower has by executive order transferred title to the offshore lands to the Federal Government. From now on, the Federal Government owned lands, which formerly belonged to the states, and the coastal states' estimates on the oil value of these lands, generally agreed to amount to many billions of dollars.

SCREEN STAR Ronald Reagan, 50, is seen with his pet dogs, a black and white pointer and a black and white terrier, after his return from a trip to the Nevada desert. He is one of the most successful actors in the world. Both dogs are pure bred pointers from the Nevada desert. Experts who estimate that the pointer is worth \$100,000 and the terrier is one of the most valuable breeds in the world. The dogs are both pure bred and are the property of the actor.

THURSDAY APR. 2, 1953
TODAY'S BIBLE VERSE

It takes great troubles and sor-
 rows to bring us to this state. So
 misfortunes bring us measureless
 blessings. As the heart panteth
 after the water brooks, so panteth
 my soul after thee. — Ps. 42:1.

Did you know that the word
 "news" comes from the four points
 of the compass, north, east, west
 and south.

There were 5,659 children en-
 rolled in Seminole County schools
 last year, according to a report
 from the State Chamber of Com-
 merce. Of these, 3,105 are white
 and 2,554 are colored.

There is no such thing as "one
 big happy family," we concluded
 the other night after attending the
 Chamber of Commerce meeting and
 the political rally at the Court
 House.

Frozen concentrates have reach-
 ed a point in popularity with
 American consumers where they
 simply can't be laughed off any longer.
 The Citrus Commission reveals that
 more than 1,107,000 gallons were
 sold during the week ending Mar.
 7 alone, or 37 percent more than
 for the same period last year.

From the Sanford Water Depart-
 ment comes a card urging people
 to be careful about wasting water.
 A 1/32 inch stream waste from a
 water faucet results in the loss of
 170 gallons of water in 24 hours.
 It is stated, while a 1/8" stream
 waste loses 3,600 gallons in 24
 hours. And a hundred people
 wasting that much water would
 waste 360,000 gallons. Think of
 what that would do to your water
 bill!

We are always hearing about
 how much money the federal govern-
 ment spends in Florida. Not so
 much is generally known about how
 much the federal government takes
 out of Florida. So it is interesting
 to note that \$242,832,000 was paid
 into the federal treasury from Florida
 tax sources during the first
 three months of this year, up nearly
 three million dollars over last year.
 Income taxes increased by over \$12
 million dollars.

The cost of operating, all the
 municipal governments in Florida
 has increased from \$26 million in
 1931 to \$38 in 1942, and to ap-
 proximately \$136 million this year,
 up over \$100 million in 22 years.
 Part of this may be accounted for
 by the growth in population, but
 the per capita cost of running Florida's
 cities increased from \$27.84
 in 1931 to \$55.57 in 1949. So,
 much of the additional cost will
 have to be attributed to inflation
 and extra services now rendered by
 the cities.

They had a charter election in
 Mount Dora last week and only 167
 percent took the trouble to vote, or
 about 15 percent of the registered
 voters. That is to say, that the
 charter was probably adopted by the
 people who had a special interest
 in it, that is, with axes to grind,
 for it is very apparent that the
 general public, without axes, did
 not vote. How can you expect good
 government in the common interest
 if only those with selfish interests
 participate in it?

The seriousness of fires in nursing
 homes and places like that was
 brought home to us the other day
 by the tragedy at Largo where 33
 men and women died in a flash
 fire that swept through that home
 in a few minutes. The toll was
 particularly high because most of
 the victims were elderly and ill and
 could not be removed in time to
 save their lives. It rather raises the
 question as to whether the con-
 tinued use of any anti fire-proof
 buildings for purposes of this kind
 can be justified and whether this
 is not a matter which the Legisla-
 ture should investigate.

A Good Investment

The American Cancer Society is again conducting its annual campaign for funds in this community. The drive began yesterday, with Mrs. Wight Kirtley as chairman. In considering the request for contributions, most people, it is pretty certain, will ask themselves just how important it is that they give to this cause.

Can they also ask with justification, "I've given year after year and still we're threatened by cancer?"

Each man's answer will be his own.

Our answer is based on the one word, "hope."

It must be remembered that the long road of research can turn at any moment. A look at the record of scientific achievement will demonstrate this better than anything else.

The death rate from rheumatic fever declined 53 per cent between 1944 and 1950, the last year for which figures are available. Deaths from pneumonia and influenza declined 47 per cent in the same period. From 1944 to 1949 appendicitis deaths were cut 53.7 per cent and the scarlet fever death rate dropped 70 per cent.

The over-all death rate in the U. S. was reduced 15 per cent from 1937 to 1950. This represents a saving of 1,763,347 lives.

This tremendous improvement is directly due to the development of the sulfa drugs, penicillin and other antibiotics.

But these wondrous jailers of infection did not leap full blown from the minds of their creators. They were the results of many patient years of plodding investigations.

And so, too, can it be with cancer. If the public can provide funds to keep the scientists at work long enough they will find the complete answer. Already, half of those who develop cancer could be saved by early diagnosis and prompt treatment.

More than \$4,100,000 was allocated to research by the American Cancer Society in 1952. The ACS expects to increase the figure this year.

When you are asked to give, do it with great expectations—with the knowledge that cancer can be conquered and with the ever constant hope that it will be soon!

April Anniversary

On April 2, 1917, President Woodrow Wilson, who had struggled so desperately to keep his country out of war, appeared before Congress to tell the legislators why he considered peace with Germany no longer possible. It was a bitter moment for Wilson and for America but the country responded as it always has done in time of crisis. Partisan struggles were forgotten and the country entered the fight with all its strength.

It is well to recall that April day 36 years ago when we embarked on the great war "to end all wars and make the world safe for democracy." Had our policies at the end of World War I been more realistic, had we participated in the League of Nations and thrown our full support behind that organization, World War II might have been avoided.

Many of the men who answered Wilson's call to arms on that fateful day lived to see their sons go off to fight Germany again. The disappointment at the failure of that war to end future wars has embittered many people and has moved them to scoff at ideals of spreading democracy and achieving peace through co-operation with the rest of the world. Yet it is as plain today as it was then that only through the co-operation of free men, determined to work and if necessary fight together, can there be any hope of lasting peace.

April 2 is not a happy anniversary but it is one we should remember. The dreams and beliefs for which men died in that war may yet be realized if we do not forget the sacrifices they made or the obligation we owe them.

New Control Over Worms

Agricultural and floricultural history is in the making at Sanford.

A new method to control the pesky and destructive nematode, one of which is root knot, so well and unfavorably known to gardeners, has been discovered after a series of tests at the Central Florida Experimental station, according to Dr. R. W. Ruprecht director in charge.

Experimentation over a period of a year at the Sanford institution has disclosed that through the use of methylbromide, control can be kept over the microscopic worms that infect plant roots.

Welcome as this news will be to flower lovers whose choicest plants fall victims to nematodes, it will be even more important to the vegetable industry, especially in this area to the growers of celery.

What has been discovered at Sanford, according to Dr. Ruprecht, is not a method to absolutely destroy the nematodes, but is a measure of control that cuts down the number sufficiently to "permit a plant to grow in spite of those that remain."

The success of the Sanford experiment can prove to be one of the greatest contributions to agriculture in several decades and a boon to the entire Southland where nematodes thrive in greatest numbers.—Orlando Sentinel.

Thornal Is Selected As Legislative Aide

TALLAHASSEE (AP)—A leader among the state's county commissioners and a veteran lobbyist will be special aide to Gov. C. C. Carty during the legislative session beginning Tuesday.

They are Robert L. Griffin, Ft. Pierce cattleman and St. Lucie County commissioner; and Campbell Thornal, Orlando lawyer.

They will help present the governor's program to the Legislature and keep track of progress of administration bills. Thornal will give legal advice on bills that are sent to the governor for his signature or veto.

Thornal had a similar assignment as legislative aide to Gov. Spessard L. Holland in the 1948 session. In more recent sessions he has been legislative representative for the Florida Power Corporation.

Griffin is vice president of the State Association of County Commissioners and chairman of the He is a close friend of the governor and traveled with him during much of his campaign last year.

Marciano-Walcott Go May Be Delayed

HOLLAND, Mich. (AP)—Heavyweight Champion Rocky Marciano has suffered a nose injury that probably will require postponement of his April 10 fight with Jersey Joe Walcott in Chicago, Marciano's manager, Al Weill, said today.

Weill said a specialist had cauterized a cut on the inside of Marciano's nose and that the champion probably would have to lay off training for a week or two.

Weill denied the nose had been broken, but in a workout two days ago, it was bleeding profusely.

Weill said the international Boxing Club would have an announcement on the subject later today.

Weill said "Rocky has a little cut on the inside of his nose."

He said the examining physician of the Illinois State Athletic Commission who yesterday pronounced

Rep. A. B. Herlong proposed a law to color fruit so processed to be adulterated.

But Reps. James A. Haley, Sarasota, and Courtney Campbell, Clearwater, have opposed Herlong's stand.

Herlong promised public hear-

The Way to the Cross The Way to the Cross

Pilate asks the multitude what evil Jesus has done.

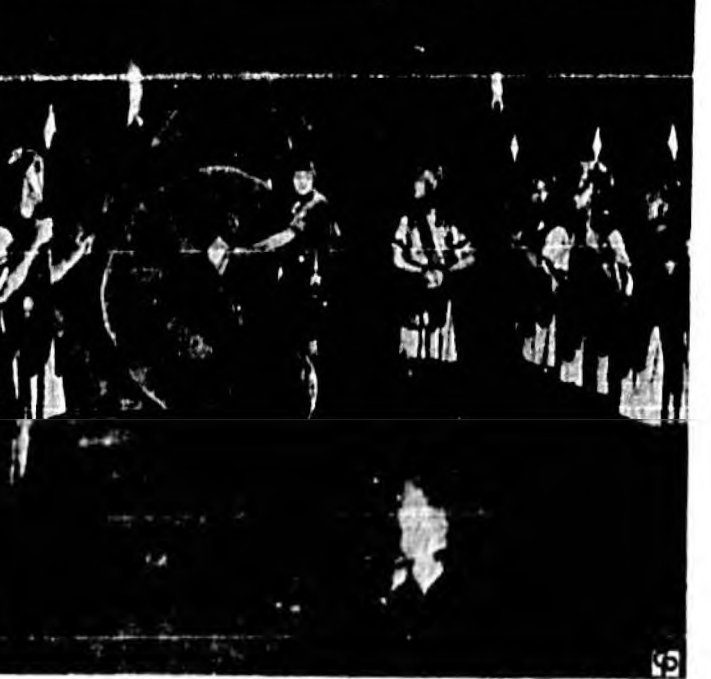

Pilate washes his hands, denies responsibility for condemning Jesus.

DESPITE Pilate's reluctance to condemn Jesus he finally was forced by the mob shouting "Crucify Him, crucify Him," to bow to their demands. Washing his hands, Pilate disclaimed responsibility for what he was about to do and ordered the crucifixion.

Jesus is crucified on Calvary.

The soldiers seal Jesus' tomb.

TAKEN to Calvary, Jesus was crucified along with two criminals, one on either side of Him. But even as He hung from the Cross, He said, "Father, forgive them; for they know not what they do." After Jesus had died, Joseph of Arimathea went to Pilate and begged permission to take His body and place it in a tomb. Joseph wrapped the body in clean linen cloth and placed it in the sepulchre, after which the tomb was sealed with a great stone.

Response Is Light So Far In Sales Of Easter Seals

Response thus far to the 4,000 letters sent out to county road supervisors by the U.S. Post Office is light, according to Mrs. Harold Appley, Seminole County chairman.

She urged all of those who have been sent seals to mail as early as possible and pointed out that money raised will assist in giving necessary medical assistance to Seminole County's crippled children.

The Central Florida Chapter of the Crippled Children's Association drive will continue during the month.

Through the association, money is made available for social services, wheel chairs, therapeutic equipment, adaptive aids, orderly and janitor service, clinics, and special diets along with many other important necessities which are not state or county provided.

Mrs. Appley at the start of the campaign pointed out how fortunate this area is to have in Orlando the Forrest Park School of Special Education for physically handicapped white children, and the Eclectic Hospital-School for colored crippled children.

Six boys and girls from the immediate area are driven to Orlando daily for instruction and treatment.

Congressman Herlong Reports
 By SID HERLONG

Here is the report of the replies to our questionnaire. Nearly 3000 replies were received, which we consider, was a very good response.

	YES	NO
1. Should the budget be balanced before reducing taxes?	71.8%	28.2%
2. Should the Taft-Hartley Act be amended to prohibit the Government's present right of injunction?	11.9%	88.1%
3. Should Old Age and Survivors Insurance (Social Security) be extended to groups not now covered?	79.8%	20.2%
4. Do you favor letting all controls lie on their present expiration dates?	77.1%	22.9%
5. Do you favor standing powers for the President to reinstate controls in the event of a new wave of scare-buying?	77.5%	22.5%
6. Should the reciprocal trade program under the Trade Agreement Act be extended?	87.1%	12.9%
7. Do you favor the extension of federal aid to schools in critical defense areas?	63.9%	36.1%
8. Do you favor a plan of the tidelands to the states?	83.8%	16.2%
9. Do you favor statehood now for Hawaii? (Has already passed by House)	85.5%	14.5%
10. Do you favor statehood now for Alaska?	74.3%	25.7%
11. Do you favor a Constitutional amendment to prevent the President from making treaties which do not have to be confirmed by the Senate?	81.8%	18.2%
12. Do you favor extension of the VA program of direct loan to veterans?	47.2%	52.8%

Almost twice as many men as women returned questionnaires. Women voted within a percentage point or two of the same way the men voted. The only question on which this slight variance made any difference in the total result was on the question, "Do you favor the extension of the Veterans Administration's program of direct loans to veterans?" Here men opposed the program 54.4% to 48.0%, while women favor the extension 51.3% to 48.7%.

There was little difference in the results when broken down by occupations, except that labor voted about 10% in favor of prohibiting the Government's present right of injunction, while the overall picture showed the people favored retaining the injunction feature 84.1% to 15.9%.

An interesting sidelight to the questionnaire was that we received a number of replies from students in high school civics government classes. They agreed with the teachers and the general public except in four instances. They voted overwhelmingly to reduce taxes before balancing the budget; over 90% of them opposed letting controls die if they were not in favor of a proposed Constitutional amendment which would prevent the President from making treaties which do not have to be confirmed by the Senate (Yalis, Fustman, Teheran, etc.); and they were almost unanimous in believing that the Veterans Administration's program of direct loans to veterans should be continued.

Thank all of you for your interest and for the many fine letters of explanation and commendation we received.

Single Drive For Charity
 Florida Times Union

The high type of men spearheading the move in Duval County to hold a single, united campaign annually to raise funds for all principal charitable agencies is worth while. These are the men who now head the various organizations. They are the ones who have conducted drives in the past and will lead those of the future. They are the men who have called upon all citizens to contribute, who have made substantial gifts themselves and encouraged members of their firms to do likewise.

These men, far better than the average resident, are familiar with the demands made upon the different local and national charitable groups. Because of this understanding, they have given generously of their time, talents and money to raise funds.

If these men believed that a united drive would fall far short of necessary funds, if they believed that welfare services would be sorely handicapped, they would be among the first to insist on separate drives.

They do not hold this opinion, and they feel that now is the time to launch one big, concentrated drive each year. It is their sincere view that more money can be raised in this manner, with less manpower wasted and smaller financial expense, than by any other system.

The idea is logical and sound. Business enterprises will be better able to plan their contributions for year. Individuals can more easily

set up a budget for donations, instead of withholding some funds for expected appeals.

With the full weight of the community thrown behind a single drive, success of a united campaign in Jacksonville and Duval County would almost certainly equal or surpass the records of other localities which have abandoned time-consuming, expensive multiple plans for funds.

As an agency would surrender its autonomy, only agree to a division of funds, no charity would be hurt. It would be for the good of the whole if the plan were adopted and put into effect.

The two Presidents Roosevelt and the United States were fifth cousins and Franklin D. Roosevelt's mother was third cousin of President Grant.

Mrs. Sloan, Steele Entertain At Party

Mrs. Rudy I. Sloan, Mrs. Walter Steele entertained on Tuesday night with a Canasta party at the Sloan home at 2001 Magnolia Avenue. The guests gathered at 8:00 p.m. and the rooms were attractively decorated with graceful arrangements of shrimp plant and rosebuds.

Several games of Canasta were enjoyed during the evening at the conclusion of which prizes were awarded to Mrs. R. L. Phillips, Mrs. Eugene M. Williams and Mrs. Max Funder. Later a sweet course was served by the hostesses, and during the games a refreshing drink was enjoyed.

Those in attendance were Mrs. Phillips, Mrs. D. W. Williams, Mrs. Blake Sawyer, Mrs. Williams, Mrs. Hinkle, Mrs. Cullen Wright, Mrs. M. M. Dyer, Mrs. Charles Atkinson, Mrs. David Bach, Mrs. Funder, Mrs. D. Grinker, Mrs. Ann Hochhoff, Mrs. H. R. Hecker, Mrs. Taylor Brown and the hostesses, Mrs. Sloan and Mrs. Steele.

Services Announced By Episcopal Church

Six services commemorating the events of Good Friday, Holy Saturday and Easter will be held at Holy Cross Episcopal Church in the next three days, the Rev. L. Zimmerman, rector, said today.

It was also noted that all communicants of the Church are under solemn obligation to receive Holy Communion at Eastertide, and Father Zimmerman urged any who are unable to attend Easter services by reason of illness or infirmity to inform him so that he might bring the Sacrament to their homes during Easter week.

Services tomorrow include Morning Prayer and Ante Communion at 7:30 a.m.; Holy Communion at 8:00 a.m.; and the three-hour Service of the Passion of Our Lord from 12:00 to 3:00 p.m. in the Church. Addresses on the seven last words of Christ will be delivered by the rector at the latter service.

A Service of Morning Prayer and Ante Communion will be celebrated at 7:30 a.m. on Holy Saturday and Evening Prayer and the lighting of the Paschal Candle will occur at 8:15 p.m. The Paschal Vigil of Absolution will be administered in the Chapel from 8:00 p.m. to 9:00 p.m. and from 7:00 p.m. to 8:00 p.m. for those wishing to make their confession in preparation for Easter communion.

On Friday Day the Holy Eucharist will be celebrated at 7:30 a.m. and a Festival Choral Family Eucharist, including the presentation of mitre and crozier, will occur at 8:00 a.m. and a Festival Choral Eucharist including Easter sermon will be celebrated at 11:00 a.m. Assisting in the administration of the Sacrament will be the Rev. Father Thomas, O. S. A., and at the 11:00 o'clock service the Rev. Father David, O. S. A., acting as deacon and Father Thomas, O. S. A., acting as subdeacon.

Shopping Around

With DOTTIE Easter can no longer be classified as right around the corner... it's here. So if you haven't gotten that Easter outfit, or that gift for the special someone it is now time to act.

YOWELL'S on First Street can do a wonderful job of outfitting you in a dress, suit or skirt and blouse, and all in the Easter mood for young and old alike.

For the Junior a charming, light hearted narrow-striped rayon in navy, brown, or red, with the Bloomfield Junior label. For a beautiful Easter and a fresh-and-rare summer look, the presents lovely nylon dresses with the wash-and-iron features that will give plenty of leisure time. Remember the place is YOWELL'S on First Street.

At IVEY'S, they are showing the smart shoes and bags to complete or add to your Easter outfit. Paradise Kittens with the cushioned sole as soft as a kitten's paw, with the new smart French heel in navy and white and brown and white.

Also Talcher has designed a hand-laced and hand-sewn, water-repellant imported straw. See them with bags to match in multi-colored in beige, black trimmed with brown. These are at IVEY'S on First Street.

In "Your Easter Bonnet" is what they are talking about at PENNEY'S because of the large selection of Bonnets in all shapes and colors. Flowers, nets and feathers accentuate the many different styles.

In Penney's getting a beautiful "Toddler" dress that is hand made for only \$1.98. You should see these dresses with smocking and pleats so dainty and sweet that you will want more than one. Each one you see will be prettier than the last. And for the girls a little older, lovely dresses with ruffles and lace to delight their Easter Day at PENNEY'S.

Cool prints for the summer are to be found at the HOLLYWOOD SHOP by Mynette in members and visit prints with the marvellously shimmering Mynette halftone. The dress to take you through summer smartly, confidently and comfortably.

A gift for your wife can easily be solved with a lovely Luxite crown. Tiny flower on sheer nylon and flowing nylon tulle will make this crown she will cherish. Also Gotham Gold Stripes Nylon hose that are lightly knit for longer wear, and you can choose from the new color colors at HOLLYWOOD SHOP.

No Easter outfit is complete without the accent of smart and lovely jewelry. CASTLE JEWELRY has the first place to go for accessories, and then you go no farther.

Brazeletts, scatter pins, pearls and rhinestones in unique designs to fit your needs. Rhinestone chokers that are more dainty than dainty can be seen here with simple strands and decorative diamond strands in iridescent. Blue, gold, pink, aqua and lavender set in gold to accentuate the rhinestones and your Easter outfit.

Visit CASTLE JEWELRY on West First Street for watches, compact and cigarette lighters.

MATHERS is having a sale that should interest all home makers. A pre-inventory sale that takes to every item in the store. This is all new merchandise and the prices are out of this world.

One bedroom suite in particular was such a beauty and at such a reduction that I could hardly believe it. A five piece lined oak suite that regularly sells for \$198.00 would really be a proud possession.

Now is the time to buy that lamp, table, desk, chairs, living room table or smoker and the place is MATHERS on East First Street.

ROUMILLAT AND ANDERSON is showing a fine display of Easter gifts for the young and old. For the tiny tots they have a large display of Easter bunnies and baskets.

For the special date a beautiful box of mixed candles in appropriate sizes and shapes, with wax and fruit fillings. For the life of color and perfume that will fit the season and the occasion. For Easter giving, ROUMILLAT AND ANDERSON invites you to come in and browse around.

De Bary Doings

The Telephone Company has installed a public booth on Highway 17 near the Post Office which will be open 24 hours of the day.

Reininger, Don't forget the Firemen's Hall on Monday evening, Apr. 6, at the Orange City Recreation Hall. Your cooperation is asked for this worthy project which will greatly aid all of DeBary.

The Home Demonstration Club, which has been in existence only since last October, brought seven ribbons home, won at the Achievement Day exhibit in Deland. Those who won ribbons for their handwork were Mrs. Robert Brown, 2; Mrs. David MacFarlane, 2; Mrs. Ray E. Peck, Mrs. Cesar Robolin and Kay Henninger, 1 each.

On Friday evening, Apr. 10, the DeBary Civic Association will sponsor a concert to be given at the Dickinson Memorial Library in Orange City. The concert is under the direction of Laura Platt Brown, who will be the soloist. She has arranged singers and musicians from Sanford and Deland and has planned a program which should have a wide appeal. A silver collection will be made. Everybody is welcome. The association's Board of Directors will meet on Tuesday at 2:00 p.m.

We regret to report that Harris L. Muchmore, whose serious illness was mentioned in last week's column, died in the Fish Memorial Hospital in Deland. He was the president of the Volunteer Firemen's organization and the men who attended the service in the week-end at the church. The body will be missed in DeBary.

Lee Nash received word of the death of his uncle, Orr Lee, in Dowagiac, Mich. He accompanied last Sunday after a lingering illness and was buried on Wednesday.

Calendar

THURSDAY
Seminole Chapter No. 2, O.E.B., will meet at the Masonic Hall at 3:00 p.m.

FRIDAY
The Methodist Youth Fellowship of the First Methodist Church will observe the observance of the annual meal in McKinley Hall at 8:00 p.m. Following the meal there will be a worship service in the church at 9:00 p.m. Following offering will go to the Methodist Committee for Overseas Relief.

SATURDAY
Circles of the W.R.C.S. of the First Methodist Church will meet at 3:00 p.m. as follows: Circle No. 1 with Mrs. E. B. Smith, 910 West Nineteenth Street; Circle No. 2 with Mrs. Z. B. Ratliff, 1800 Park Avenue; Circle No. 3 with Mrs. Ed Shihaleiser, 2301 Grandview Drive; Circle No. 4 with Mrs. Roy Tullis, 2218 Magnolia Avenue; Circle No. 5 with Mrs. J. E. Courier, 1210 Palmetto Avenue; Circle No. 6 at 10:00 a.m. with Mrs. M. R. Strickland, 918 Palmetto Avenue.

Gamma Lambda Chapter of Beta Sigma Phi sorority will meet at 8:00 p.m. with Mrs. Rudy Sloan, 2001 Magnolia Avenue.

Bunton Chapter of the First Baptist Church will meet at 8:00 p.m.

TUESDAY
Seminole Chapter of the USO will meet at the USO building at 10:00 a.m.

Students To Assist In Cancer Crusade

Seminole High School students under the sponsorship of the Tri-Hi-Y Club will sell cancer emblems on Saturday, according to Mrs. Ralph Wright II, chairman of the pin day sales for the 1953 Cancer Crusade. The Tri-Hi-Y is headed by Mrs. W. M. D. Stine.

Students who will participate in the sales include: 9:00 until 11:00 a. m.: Miss Margaret Morrison, Miss Rosa Coke Boyce, Miss Alice Brown, Mrs. Jo Ann Moore, Mrs. Beverly Gray, Miss Lucia Goff, Miss Martha Owens, and Miss Peggy Wright; 11:00 a. m. until 1:00 p. m.: Miss Ann Raborn, Miss Alice M. Janette Cleveland, and Miss Sandra Dunn; from 1:00 until 3:00 p. m.: Miss Eloise Snyder, Miss Ross Neiswander, and Miss Grace Marie Strimpher.

The cancer pins, a bright red plastic, are in the shape of a sword, the emblem adopted by the American Cancer Society to represent its fight in "striking back at cancer". Receipts from the pin day sales will help Beta Sigma Phi members who are sponsoring the month long cancer crusade, meet the Seminole County goal of \$2,000.

Students will be stationed at the entrances to the Sanford Atlantic and Florida State Banks, the Post Office, and in front of Roumillat and Anderson's and Touchton's Drug Stores.

District Director Talks At Local Club

"Adult Education" was the subject of a talk by Mrs. T. J. Smart of Clermont before the Sanford Women's Club yesterday afternoon. Mrs. Smart is district director of District No. 7 of the Florida Federation of Women's Clubs and was introduced by Mrs. Roy Tullis, president of the local club.

During her interesting talk she read an amendment of the Florida Federation's regarding increased funds for the Girls' Industrial School in Ocala which advocated an increase in the Legislative budget. The increase would allow for enlargement in services for the two industrial schools one at Ocala and the boys' school at Marianna and an increase in staff members in keeping with the great increase in Florida's population.

Following her talk a discussion was held during which a motion picture was shown on the adoption of the resolution and an amendment to the resolution was made and carried to ask for increased membership in the Florida Federation of Women's Clubs.

Mrs. Smart outlined the theme of adult education as advocated by the Federation. In telling of club work for women she stated that it takes more than a good president and officers but the cooperation of all members working for "world peace in our time" to make a good club. She urged an active interest in the coming lecture club members and suggested that members acquaint themselves with the themes of future talks so as to make a two-way discussion.

In closing she urged the women to recognize their own needs for education and to help themselves in carrying out their educational responsibilities.

The club house was attractively decorated in an Easter theme. Each table was centered with a small nest in which were colored eggs and tiny candy chicks. A large arrangement was on the speaker's table, with the same motif being used to decorate the luncheon table. A happy infant was placed on the table furthering the Easter theme.

During the business portion of the program Mrs. H. W. Wade, chairman of the Civic Department, told of the just concluded round which was held immediately following the close of the school year and remain open during the summer months. The membership of the project came as a result of the recommendation of City Manager Tom Lemon. Mrs. Wade stated that she has asked for the continuation of old clubs and other new projects along with playground equipment for the betterment of the project.

Mrs. Booker also stated that the date for the luncheon bridge party has been changed from Apr. 15 to Apr. 9. She urged the sale of tickets by members of the club and stated that the entrance fee will be used for the club fund.

Mrs. Harriet Elberich reminded members to pay their dues immediately. Opening services for the luncheon were given by Mrs. W. P. Yesley, guests of the meeting were Mrs. J. C. Brannon, president of the Alma Kiva Club; Mrs. A. J. Meyers of Pittsburgh; and Mrs. Alva James Perry of St. Augustine.

Birthday Party Held At Christian Church

The BWA and Golden Rule Circles, Women's Fellowship, of the First Christian Church, entertained with a birthday dinner on Friday night for members and friends of the church. A chairman was responsible for each table which represented each month. They were as follows: January, Mrs. Ralph Kuhn; February, Mrs. Lamber and Mrs. Fankhauser; March, Mrs. James Knight; April, Mr. Billingsley; May, Mrs. R. H. Williams; June, Mrs. Bill Cherry; July, Mrs. O. D. Landress; August, Mrs. David Miller; September and October, Mrs. W. H. Young; November, Mrs. Lester Tharion; and December, Mrs. James Richards and Mrs. V. H. Grantham.

The menu committee consisted of Mrs. Charles Givens and Mr. Farham Harriett; program committee, Mrs. Herbert Bass and Mrs. W. C. Tison; general committee, Mrs. W. H. Young and Mrs. O. T. Pearson, circle chairmen.

Dinner was served to about 80 persons, seated at their birthday tables.

During the evening an entertaining program was presented as follows: Ellen Vihers, a reading, "The Dogwood Tree", accompanied by Mrs. Lula Bailey; trumpet solos by Larry (Lion); accordion solos by J. Thomas; several songs and piano selections by Herbert Wenz, a former pianist with White Mountain's orchestra. C. B. Schirer entertained with several numbers on the violin; harp and group singing and choir program were led by Charles S. Morrison with silver dollars being won by H. H. Steele, Mrs. O. T. Pearson and Mrs. V. H. Grantham. The dollars were donated by Touchton's Drug Company.

Resolution On UN Is Slated At DAR Meet

TAMPA (AP)—A resolution calling for "reindorsement of the ideals of the United Nations" was reported today at a debate at the final meeting of the Daughters of the American Revolution.

The resolution would have the DAR adopt a constructive program of educational, cultural, and social activities in the United States for the purpose of developing informed individual opinion.

This resolution was proposed by the Resolutions Committee of the DAR which is holding its annual conference here. It has the endorsement of the Resolutions Committee of the local chapters.

The sure sign that opposition was in the offing came Wednesday when Mrs. J. C. Brannon, Peninsula, chairman of the D. A. R. Defense Committee, spoke out against the United Nations.

Mrs. Brington introduced Maj. Gen. Sumner L. Lowry who has headed UNESCO (United Nations Educational, Scientific and Cultural Organization) and came on the University of Florida to present both sides of the debate. At the University of Florida, Lowry urged the DAR members to appeal to the Legislature to cut off all funds "now used by the University of Florida to spread UNESCO propaganda in that institution."

Dr. Willis Miller, president of the university, was criticized by Lowry who said the college head "is principally responsible for the fact that no effort is being made to expose the UNESCO movement and root it out of the school system in Florida."

Dr. Miller had no comment on the retired general's talk.

Other resolutions proposed to vote included:

One asking the U. S. Senate to vote against ratification of the genocide (killing of a racial, religious or national group) treaty.

Another protesting crime and gangster programs on radio and television and asking that such programs be replaced "with other more suitable for children and youth."

Personals

Mr. and Mrs. Walter Bryant of Donalsonville, Ga., arrived today to visit Mr. and Mrs. D. Stine for the Easter holidays.

W. M. Thigpen has returned from Atlanta, Ga., where he spent two weeks with his son and daughter-in-law. Mr. and Mrs. W. M. Thigpen will be in town for the Easter holidays.

Peter P. Bukur of Sanford, a student at Stetson University, is intern in hand at the Seminole High School in Sanford for the spring semester.

Bill Moore returned recently from Durham, N. C. where he went to visit his brother Herbert who is undergoing an operation. Mr. Moore's brothers, sister and mother were also there.

Col. and Mrs. Paul J. Chesterman left today for Durham, N. C. to visit their daughter and son-in-law Dr. and Mrs. Gordon Stanley and family for the Easter holidays.

Robert Aiken, formerly of Sanford and now of Lakeland, recently spent some time in Sanford on business. He is associated with the Kroger Food Store in Lakeland in the position of buyer.

Mrs. J. F. Burns of Charlotte, N. C. is visiting her daughter Patsy, a former resident of Sanford, in Orlando, and will visit her mother Mrs. E. H. Cullum on West Fifth Street on Sunday.

The friends of Mrs. Gerald Perry will be interested to learn that she has returned to her home on West Tenth Street, from the Orlando Air Force Base Hospital where she had been confined for some time.

Mrs. J. H. Nicol and daughter Marie have arrived from Hialeah, Fla., to visit with Mrs. Nicol's family in Sanford. Mrs. Nicol and Mrs. Gerald Perry. They will remain here through the month of April.

Miss Godeken Kirchhoff arrived Tuesday night to spend the Easter holidays with her parents, Mr. and Mrs. W. E. Kirchhoff at 1617 East Second Street. Miss Kirchhoff is a student at Sullins College in Bristol, Va.

Mrs. W. J. Morrison and grand-daughter Betty returned recently from Lake City where they visited Mr. and Mrs. A. N. Viblen. The Viblens visited in Sanford over the weekend with Mrs. Morrison and her mother Mrs. Viblen.

Mr. and Mrs. Richard Stricker Sr., who have been visiting at the home of their son-in-law, and daughter, and son-in-law, Mr. and Mrs. Arthur Beckwith, who have returned to their home in Edgerton, Wis.

Mrs. Arthur Beckwith and son Jack returned over the weekend from Waycross, Ga. where they have visited her parents, Mr. and Mrs. J. J. Mathews for about two weeks. They were joined in Waycross for the weekend by Mr. Beckwith.

Mrs. Donna Lou Harper was announced as the guest of the freshmen convalescers at Florida State University in Tallahassee for the 1953-54 school year. The convalescers assist freshmen and transfer students entering FSU in making decisions concerning their academic schedules.

Mr. and Mrs. Robert Ashe have as their guests Mrs. Ashe's sister-in-law, Mrs. Ollie Cheek of Detroit, Mich. Mrs. Cheek will be here through Easter, then she plans to tour the southern part of the State before returning to Knoxville, Tenn. with her daughter, Mary Frances Hedge, who will spend the weekend here.

Mrs. John N. Cumming and son John and Mrs. Al Littlefield of Miami arrived today to visit their parents Mr. and Mrs. D. E. Brubaker, 2901 Palmetto Avenue. Mrs. Littlefield also arrived today from Rosarian Academy at West Palm Beach. Miss Clifton's home is Ft. Lauderdale and she is the granddaughter of Mr. and Mrs. Brubaker.

Among the local Garden Club members who plan to attend the state convention which will be held Apr. 9, 9 and 10 in Miami are Mrs. Irvin Fleischer, Mrs. James Terwilliger, Mrs. F. C. Cansler, Mrs. Ned Smith, Mrs. J. J. Cates, Mrs. Charles Hamill, Mrs. Miriam Young, Mrs. Gibson Bates and Mrs. C. E. Carlton. They plan to be at the McAllister Hotel in Miami.

ALTA MONTE ACHIEVE
ALTA MONTE SPRINGER (Special)—Dawn Buell, 11-year-old daughter of Mr. and Mrs. Howard Buell is a patient at Orange Memorial Hospital. She was admitted to the hospital Thursday night following an accident at her home, when she struck the bed post and injured a kidney. Dr. Doctors say her condition is considered serious.

World Club Votes To Contribute To Home

Members of the World Club voted to make a \$20 contribution to the Ethel Hanks Home in Cedarhurst, Ga. at its meeting yesterday afternoon at 3:30 p.m. at McKinley Hall. The meeting was opened with the singing of "Christ Arose," "Christ the Lord is Risen Today," "He Lives," "The Old Time Religion" and "Gloria in Excelsis Deo." The scripture reading was from Matthew, 28th chapter, the fifth through the 29th verses.

Lynn Crabtree was welcomed as a new member and piano selections were played by Mary McKinley in the absence of Mrs. Luther Hatkey. During the afternoon Mrs. J. M. Blanton Jr. served refreshments after which the group divided into its various classes in the classrooms where they studied the various chapters of Chama's Choice. The meeting was closed with the benediction.

Mrs. Lane Tells Of USO Easter Dance

Mrs. E. F. Lane, chairman of the USO entertainment committee, announced today that the club will feature an Easter dance on April 7 at 8:00 p.m. Mrs. Lane has arranged a fine program of unique contests with prizes to be awarded and specialty refreshments with the orchestra to be featured.

Mrs. Lane will be assisted in the affair by Mrs. S. C. Graham, Miss Joyce Norris, Albert Brown and Clifford Graham of N.A.A.S. All men at the local Naval Air Station, their wives and minor hostsesses are cordially invited.

McCarthy Keeps On In Effort To Curb Red Trade

WASHINGTON (AP)—Sen. McCarthy (R-Wis.) is pushing ahead with his controversial efforts to have Greek shipowners agree not to trade with Communist areas.

A source close to the Senate said he renewed discussions with the owners of 150 ships soon after his talk yesterday with Secretary of State Dulles. That got together produced a joint statement in which Dulles said the agreement already signed was in the national interest and McCarthy agreed to consult the State Department on any future agreements.

Mutual Security Director Harold E. Stassen renewed his criticism in a letter to Sen. McCarthy.

Stassen suggested that such agreements, obtained independently of the State Department, impair the agency's foreign aid work.

He said newsmen he was with McCarthy had agreed to cooperate with Dulles.

The Senate investigation subcommittee headed by McCarthy heard a report today from Karl Dauterive, head of the American Legion national Americanism committee, on an inspection of some overseas libraries maintained by the State Department.

McCarthy said a closed hearing yesterday was devoted to an attempt to find out who had ordered for the libraries books written by known Communists. But he declared Dan M. Lacy, former head of the overseas information centers, was "of no material help" in providing the information.

The senator said he wasn't surprised because "they apparently used slipshod methods of buying books which permitted subordinates to slip in the orders for these volumes."

Members of Congress who favor going slow in any cuts of defense spending and military aid for foreign countries had support today from two highly placed spokesmen.

President Eisenhower yesterday wrote the chairman of the Senate Armed Services Committee that he and the National Security Council are carefully studying the nation's defense program. He expressed hope the committee would not "move unilaterally into this delicate field while the executive study was going on."

And Gen. Alfred M. Gruenther, chief of staff to the commander of the North Atlantic Treaty Organization (NATO) forces, was quoted as advocating a close look at current Russian peace gestures.

Gruenther, who spoke at a closed meeting of the Senate Foreign Relations Committee, was reported to have said the Soviets are trying to play up the economic strain of supporting a Western defense force, and that many Europeans are misled about prospects for the U. S. staying with the NATO rearmament program.

Sen. Byrd (D Va.) said today, though, that he is going to find out who and what were responsible for reported shortages of ammunition in Korea.

Free armed services subcommittee investigations recessed hearings until Wednesday.

Yesterday it heard Gen. James A. Hoge, retired commander of the 8th Army, say that shortages of shells had much to do with keeping United Nations troops on the defensive. He was backed up by Lt. Gen. Edward M. Almond, retired former commander of the 10th Corps.

All the debate was to whether the states should have title to the such marginal seas off the coasts is now concentrated in the Senate.

The House yesterday passed, 235-106, a bill to give the states ownership of the submerged lands within their historic boundaries. The Senate began discussing a similar measure and continues today, but does not expect to reach a vote before next week at the earliest.

WASHINGTON (AP)—President Eisenhower today nominated Keston B. Graves, St. Louis banker, to be administrator of the Reconstruction Finance Corporation.

Graves would succeed Harry A. McDonald as head of the big government lending agency. McDonald's resignation was accepted yesterday.

The appointment apparently will be a short-term one since congressional leaders have reported the administration plans either to let the RFC die on June 30, 1954, or perhaps abolish it earlier.

Graves, a 48-year-old native of Indiana, has been in credit work during his entire business career.

At present he is an executive officer in charge of lending activities and bank operations for the Merchants Trust Co. in St. Louis.

RKOs Drive Off Red Battalion Onslaught

By WILLIAM C. BARNARD
SEOUL (AP)—A Chinese Communist battalion—about 750 men—hit the South Korean Capital Division on the Central Front today, but the sharpshooters RKOs drove off the Reds. The Red artillery and small arms fire. Eighth Army headquarters said 53 Communist bodies were left on the battlefield and another 75 Reds probably were killed.

When reporting the attack earlier, the Eighth Army had said it was made by only 250 Reds.

The Chinese crossed the Kumhwa-Kumson highway shortly after midnight and stormed ROK positions south of Kumson. After 40 minutes of savage fighting the Reds broke off the battle and were driven back across the road by counterattacking South Koreans, the Army said.

For the second straight day American Sabre jets swept over North Korea without spotting a Communist MIG.

Fighter-bombers broke through overcast skies to hit Communist supply and troop areas and rail bridges in North Korea and to attack Red front-line positions.

Dan McCarty

(Continued From Page One)
Gov. McCarty is having a chair-elevator installed on the back stairway of the mansion to help him get off the second floor. He said the doctor recommended it because climbing the 22 steps would be too much of a strain.

"It means, I think, that very shortly I can get up and get out of here," the governor said.

The elevator is the type that has a folding stool that is carried up the stairway along a track by a moving chain. McCarty said it cost \$1,500 and can be taken out and re-installed if the mansion is remodeled or rebuilt.

The governor said he has his message to the Legislature almost in form for delivery.

Strikes

(Continued From Page One)
The strike of 4,500 United Auto Workers and 1,100 AFL machinists at the General Electric Company plant in Evendale, O., was in its 20th day. The walkout has stopped production of jet engines used in war planes.

Florida Counties

Heavy grapefruit production was Polk—again in first place—Lake, De Soto, Hardee, Marion, Citrus, Pinellas, Hillsborough, De Soto, Volusia, Hardee, Sarasota, Marion, Duval, Broward, Ocala, Hernando, Palm Beach, Putnam, Marion, Citrus, Oklawaha and Sumter.

Plans To Alter

(Continued From Page One)
The defense mobilization effort, including both current defense activities and readiness for any future national emergency.

Korean War

(Continued From Page One)
Join them in talks with the British on air safety over Germany. This is the outgrowth of the recent incident in which an unarmed British bomber was shot down by Soviet MIG fighters.

Members of the British Admiralty today said the British Navy will take part in the operation naval review and the Russians accepted, a diplomatic source said. This was interpreted as a sign of peace as contributing to the general atmosphere of cooperation now prevailing.

Washington—New words of caution against most use of atomic and European military and economic aid were heard on Capitol Hill today. This came after Gen. Alfred M. Gruenther, commanding the Senate Foreign Relations Committee yesterday said the Western world may be facing a period that will make the hardships of the last two years look easy.

The whole side of Part's face was blown away, apparently by a shotgun blast, and there was evidence that the body had been damaged from a bullet to the right side of the rear. He died at the station alone.

His pants pockets were turned inside out and some loose change was found on the ground.

WASHINGTON (AP)—President Eisenhower today nominated Keston B. Graves, St. Louis banker, to be administrator of the Reconstruction Finance Corporation.

Graves would succeed Harry A. McDonald as head of the big government lending agency. McDonald's resignation was accepted yesterday.

The appointment apparently will be a short-term one since congressional leaders have reported the administration plans either to let the RFC die on June 30, 1954, or perhaps abolish it earlier.

Graves, a 48-year-old native of Indiana, has been in credit work during his entire business career.

At present he is an executive officer in charge of lending activities and bank operations for the Merchants Trust Co. in St. Louis.

Witnesses To Appear Against Blackburn

BARTOW (AP)—More witnesses lined up today to testify against Harlan Blackburn and nine others accused of operating a lottery in central Florida.

The state, which put 17 witnesses on the stand Wednesday, expects to end its case Friday.

Three witnesses said they saw Lawrence Wall, Polk County Negro, hand a package containing bolita tickets to Sam Castagna, Tampa, before the two were arrested last September. Both are defendants.

Ed Blackburn, then a state investigator and now Hillsborough County sheriff, testified Castagna told him he had been in the bolita business only three or four weeks and was doing it as a favor to someone else.

Ralph Mills, operating director of Hillsborough County Crime Commission, said Wall told him he was paid \$50 a week to collect from bolita sellers and turn the money over to Frank Duskin, Winter Park evangelist and clothing salesman.

Mills said Duskin, who is a state witness, told Wall he was working for Harlan Blackburn.

Ross Anderson, chief criminal deputy in Hillsborough County, said he employed a lottery operator for two months in 1951 with the knowledge of the Polk County sheriff, solicitor and state attorney.

Spicola Will Offer Ball Stock To Public

TAMPA (AP)—Tom Spicola, owner of the Tampa Smokers, said today he will offer 49 per cent of the club's stock to the public at \$10 a share to boost interest and attendance.

Spicola said he also would recommend to the directors that Manager Ben Chapman be named president, a post Spicola has held all seven years the Florida International League Club has been in existence.

Chapman would continue as playing manager. Spicola would remain chairman of the board of directors and would represent Tampa in League affairs.

"We lost a great deal of money the past two seasons and we need increased gate if we're to keep baseball alive in Tampa. This is one way I believe we can do it," he said.

Tampa won the championship under Chapman in 1951.

Extortion Charged To Ex-Orlando Cop

ORLANDO (AP)—A former Orlando policeman, James E. Brady, now a tire company sales manager here, was charged Wednesday with extorting money from an airman now in Korea.

The act is alleged to have occurred Jan. 13 while Brady was still on the city force.

Judge William Murphy of Orange Criminal Court ordered Brady's arrest and set bond at \$1,000.

An information by County Solicitor Richard Cooper accuses Brady of accepting money improperly from Cpl. Warren E. Scott, Pinecastle Air Force Base, after threatening the airman.

Brady and Patrolman G. G. Hanks came on Scott, 21, and his girl friend, 16, partly disrobed in a car, the records show.

Brady leaving Hanks behind, then walked with the airman about 80 feet from the car and told him to hand over \$100 in cash to an Orlando bartender the next night or face serious criminal charges, police and air force records said.

Instead, the airman reported the matter to the base legal officer, and a trap was laid which resulted in the policeman's capture.

The following day Orlando Police Chief Roma Trulock accepted Brady's resignation from the force with a clean bill of health. This was done, Trulock admitted, even though the chief personally took charge of setting the trap for Brady.

Patient's Heart Is Revived By Massage

LOS ANGELES (AP)—Medical drama developed when a patient's heart stopped just before a lead-lined operation was to operate, demonstrating his technique to hospital staff members.

Instant incision of the chest and massage of the patient's heart by hand revived her, after three minutes.

The middle-aged woman, suffering from constriction of a heart valve, was being prepared for the surgery at City of Hope Hospital in nearby Duarte yesterday. Dr. Charles P. Bailey, Philadelphia heart specialist, was telling staff members in an adjoining lecture room about the technique he would use.

Suddenly a nurse rushed in, whispering to Dr. Alfred Goldman, the hospital's chief of professional services. He hurried into the operating room and performed the operation to restore heart and breathing action. Dr. Bailey and others assisted.

Dr. Goldman commented later: "A cardiac resuscitation case is like a 100-yard dash. If you do everything right, it's all over before you know it and you find that you have won."

WASHINGTON (AP)—President Eisenhower today nominated Keston B. Graves, St. Louis banker, to be administrator of the Reconstruction Finance Corporation.

Graves would succeed Harry A. McDonald as head of the big government lending agency. McDonald's resignation was accepted yesterday.

The appointment apparently will be a short-term one since congressional leaders have reported the administration plans either to let the RFC die on June 30, 1954, or perhaps abolish it earlier.

Graves, a 48-year-old native of Indiana, has been in credit work during his entire business career.

At present he is an executive officer in charge of lending activities and bank operations for the Merchants Trust Co. in St. Louis.

Blues In The News

A real "short-timer" is Frank Holmaki, who has begun counting the days until he is once again a civilian. Frank is an aviation machinist's mate third class and is attached to Paaron 51 station. He is scheduled to receive an honorable discharge from the Navy April 10. After he becomes a civilian, Frank plans to return to his home in Stevens Point, Wis.

Charles E. Walker, however, has decided that the Navy's life with him and tomorrow he will "ship over" for another six year cruise. Charles is a disbursing clerk first class and is presently performing his duties in the Station Disbursing Office. He plans to spend a short re-enlistment leave with his family in Winter Park.

The Station Baseball Team will be host to a team from Patrick Air Force Base tomorrow at the diamond aboard the station. The game is scheduled to get under way at 2:30 p.m. Although the NAAS team has suffered defeats from Stetson University and DeLand Red Hots, they will be out to win tomorrow. The men aboard the station have shown little interest in the Station baseball team since the season and this reporter believes it would help if we would all turn out and back the team. Win or lose, it's our team, so let's all go to the games and show the men on the team we're behind them all the way!

Three FASHON 51 men departed from NAAS today on leave, which will take them down into yank territory. John Kilmartin, AIB, will be heading for Erlton, N. J. where he plans to spend about two weeks at home with his family and friends. Henry Huss, AN, and John Allen, PRAN, are both on their way to the state of New York. Henry has taken a 20 day leave which he plans to spend at his home in Lakewood while John will be enjoying a 16 day leave at his home in Richmond Hill.

Fire Chief C. M. Wilton has announced the date of another one of his "famous" Shrimp Boils. It will be April 17 and the usual fine meal can be expected. Most of you remember the successful "Operation Toys" which was sponsored by the NAAS Fire Department last Christmas and you remember the enjoyment the underprivileged children of Seminole County received from this project. This Shrimp Boil will be for the same purpose. The firmness of sponsoring a series of these affairs to raise funds for their Operation Toys. That means that when you buy a ticket to a Shrimp Boil you are helping to feed a hungry child. At the same time, contributing to a very worthy cause. The tickets are only \$1.00 per person and can be obtained from any member of the NAAS Fire Department or any Chief Petty Officer aboard the station. The date is April 17 and the Shrimp Boil will be at the Naval and civilians so buy your ticket today!

William G. Kiser, MM1, left Sanford today for a short leave to his home in Winston-Salem, N. C. Bill is attached to the Security Department aboard the station.

Another member of the Security Department to depart on leave is Jetha L. Sunday Jr., AD3 Jetha will be spending his leave at his home in Pinecastle, Fla.

James H. Darr, BMC, Hospital Purveyor, TN, and Vernon L. Smith, ETRN, have all returned from leave and are now back to duty with NAAS. Chief Darr spent his short leave in home while Hospital Purveyor Vernon Smith, N. D., to enjoy his leave at home. Vern is a member of the Communications Department.

Tomorrow is Good Friday. A day which should be observed with special solemnity. It is the anniversary of Christ's passion and death. Good Friday services will be held in Sanford from 12:00 noon to 3:00 p.m. at the First Presbyterian Church and the All Soul's Catholic Church. Regardless of your religious affiliations, join millions in prayer tomorrow. Christ gave his life for us—the very least we can do for Him is to give a little of our time in prayer. Attend the Church of your choice tomorrow!

Jaycees

(Continued From Page One)
night of Apr. 13 in the Memorial Stadium against Orlando. Mr. Fields continued.

Opening his talk on the diamond prospectus, which was broadcast over WTKR, Mr. Fields explained how this year's club would operate differently.

"We will run the club as an open book. We will be glad for fans to ask us questions and we will be happy to furnish the answers. The men operating the club are doing it as a community project and any profits will go to the Fernald-Laughton Hospital. All the directors and officers are not going to receive a penny for their work."

In commenting on the difficulty in operating a Class D minor league club, Mr. Fields added, "Out of every 70-cent ticket, we must pay 22 cents in taxes, leaving but 48 cents in net profits from the sale of a single ticket."

Outlining the well organized agenda for the coming year, Mr. Fields revealed that this year the following program will be adopted:

1. Formation of a knothole gang for youngsters 14 and under.
2. There will be eight ladies' nights during the first half.
3. There will be a merchant's night during the season.
4. High School students will be

McCormick Is Star At Swimming Meet

DAYTONA BEACH (AP)—Among the 250 girls who begin competition today in the National AAU Indoor Women's Swimming meet, McCormick is a standout.

She has won all the five national diving titles the past two years and both diving events in the Olympic games—the only American girl to take a gold medal in swimming and diving.

Yet Mrs. McCormick's chief thoughts are how she can improve.

"I don't believe I've reached my peak yet," she said while practicing here Wednesday. She explained that she has been at it only seven years and is just 22.

Mrs. McCormick is heavily favored to win the diving event from the one-meter board today. Her Olympic teammate, Pauline Myers, also is entered. Both represent Los Angeles Athletic Club.

Other events on the program opening the three-day meet are the 100-yard freestyle, 200-yard backstroke and 300-yard medley. Olympic veterans are defending national titles in all three—Jackie Lavine, Chicago Community Builders, is the 100-yard freestyle champ; Barbara Stark, 15, Berkeley, Calif., Women's City Club, is the 200-yard backstroke champ, and Gail Peters, Walter Reed Hospital, Washington, D. C., is 300-yard medley champ.

Tower In Atom Test Left Partly Intact

LAS VEGAS, Nev. (AP)—About half of the 300 foot tower used in atomic tests last week left standing, an Atomic Energy Commission source says, which makes the puzzling shot even more of a puzzle to those outside the curtain of secrecy surrounding test explosions.

In previous detonations, so far as is known, the towers have been vaporized, leaving no appreciable trace.

Other unusual features of the blast:

Its cloud was a more wispy of white, compared to the boiling smoke mass of most previous shots. The shock wave, usually felt here, was not noted.

It is believed that a species of duck called Old Squaw dives deeper than any other duck, having been accidentally caught in fish nets 180 feet below the surface.

Rhinoceros horn was long used for medicinal purposes in China.

Sanford-Seabreeze Opener Is Rated Toss Up Tonight

"Mighty Mel" Seeks 1st Win Of Year

By KENT CHETLAIN

It will be "Mighty Mel" who is expected to lead the Sanford Seabreeze team in tonight's season-opening game at the Memorial Stadium beginning at 8:00 p.m.

Sanford Seabreeze Coach, Bill Fleming will line up his best hitters on the improved hitting of his batters and the crafty offerings of Fleischer.

Celery Feds, who lead of the complete Campbell-Lewis Post No. 53 Junior Legion state final list of last summer, will be out to avenge their 10-9 loss to New Smyrna Beach last week.

This evening's initial baseball clash of the year in Sanford's "enclosed" Memorial Stadium is expected to draw a record crowd to a Seminole High baseball engagement, barring rain. SRS principal Herman F. Morris presided.

Roger Harris, SRS business manager, announced that seats prices would be 10 cents for adults and 25 cents for students, plus stadium tax of 10 percent. There will be no box seats sold, so choice boxes will be occupied on the first come first served basis.

For this evening's clash Fleming will be trying out a batting experiment on two of his flycatchers, Hans Hannum and sophomore Larry Bates. Having found that both right-handers hitters tend to possess more natural power swing from their left sides, Fleming has changed both gardeners into southpaw batters.

"We will be employing this experiment for the first time tonight against opposition," Fleming commented. "I believe they will find their natural power batting left-handed and will bolster our hitting attack for this evening's game."

Fleming will alternate his outfielders against right and left-handed hitters, Hannum and Bates, batting from the portside, will start against right-handers while Gene Partridge and Joe

CHARLIE GRIMM,
BOSTON BRAVES, FACING HIS 15TH SEASON AS A BIG LEAGUE MANAGER, HAS A TOWN JOB IF HE HOPES TO END HIS STRINGS OF 2ND DIVISION FINISHES - IN HIS FIRST 10 FULL OR PART-TIME SEASONS WAS NEVER BELOW 9th PLACE BEYOND ABOVE 6th, SINCE 1911.

WITH 10 YEARS EXPERIENCE UNDER HIS BELT, ED MATHIAS MAY BECOME AN EVEN GREATER HOME RUN MENACE - HE SET A LEAGUE ROOKIE RECORD WITH 3 IN ONE GAME!

THE BRAVES MAY GET SOME LONG DELAYED DIVIDENDS ON THE \$2,000 BONUS THEY PAID JOHNNY ANTONELLI IN 1948 - DURING 12 YEARS IN THE ARMY HE GOT TO PITCHING REGULARLY SO THAT HE NEVER DID IN BOSTON, SO HE MAY BE JOHNNY ON THE SPOT! NOW!

Four Catchers Wage Battle Royal For Sanford Berth In Albany, Ga.

ALBANY, Ga. (Special)—A battle royal is being waged by four rookie catchers for the starting receiving post on the Sanford Cardinals this summer here at the vast St. Louis farm.

With but another week of training slated here before the Cardinals leave for Sanford, Red Hired Manager J. C. Dunn is standing back and watching the spritful bachelors with a ceaseless vigilance.

The 6-foot-2, 190-pound Dunn is scheduled to play in the outfield, but he can do the work if the occasion arises. However, Dunn hopes, and at this stage in the Albany trials, feels that unless Uncle Sam steps in and drafts his rookie, "Red" Dominant, who has handled the post.

Among the four receiving try-outs are the two bachelors playing among the 22 performers in camp. Big Bob Heath, standing 6-foot-2, weighs an even 200 pounds and bats and throws right-handed, while Peter "Red" Dominant also tips the scales at 200 pounds, sending 5-foot-11 and swinging and throwing from his right side.

A short live wire behind the platter is Bob Kammen, a 20-year-old bachelorette who stands a short 5-foot-6 weighing 165 pounds. The only experienced catcher is Bill Silverthorne, the Orlando receiver was plucked in the strategy player swap with the class C Rock Hill, N. C. club for veteran keynoter Johnny Imbra last month.

Silverthorne, an ex-GI who will be free from menial draft this summer unless there is a war, was discharged last summer and got into 25 games with Rock Hill before the season ended. He is currently a resident of Orlando.

Dunn is particularly happy over the draft and may be called any week. Dominant is a power-packed 18-year-old catcher from Astoria, N. Y. He promises to be a long ball singer, judging from his prodigious drives in camp so far.

Dunn is indeed happy as the battle for the catching post continues in earnest. General Manager Jim Fields will drive the Sanford club bus to Albany, Ga., a week from tomorrow to pick up the new Red Bird team. After establishing themselves in temporary living quarters in Sanford on Saturday, Apr. 11, the Cardinals will stage an open practice for fans in the Memorial Stadium on Sunday afternoon.

Monday night, Apr. 12, the Sanford Birds will open with the Orlando Senators in Sanford's \$200,000 Memorial Stadium.

Here is the complete data on five more of the 22 Sanford Cardinal players.

GERRY EDWARD BARR, third baseman-outfielder, was signed by Joe Chuckle to a 1953 Albany, Ga. contract. Barr was born Mar. 9, 1933 at Monroe, N. C., and now resides in New Britain, Conn. He is 6-foot-10 and tips the scales at 175 lbs. Graduated from Berlin High School in Kensington, Conn., and now attends Hillier College at Hartford, Conn. Batted two years in baseball and basketball in college, was a standout in the two

Leading Linksmen Vie In U. S. Open Tournament Today

By ED CORRIGAN

NEW YORK (AP)—Except for defending champion Julius Boros, every competitor in the United States Open Golf championship will have to pass through an elimination round, and that includes such hotshots as Sam Snead, Ben Hogan and Cary Middlecott.

All the big names in golf will be at Oakmont, Pa., June 9-13 for the event, shooting for the biggest cash prize ever of the entire field, the most who will be under the most pressure undoubtedly will be Snead, he slammer from White Sulphur Springs, Va.

With the change in the format, whereby only the defending champion gets into the championship flight without running the risk of being eliminated, there was some talk that Hogan would not compete.

But Bantam Ben said today in Augusta Ga. who he is warming up for the Masters, that he is all set.

"Certainly I'll play," he said, adding that he was feeling fine and in good shape.

The U. S. G. A. said there would be 120 players in all on June 9, except Honolulu which will be held on May 25. Hogan and all former Open champions and most of the other top players who have reason or even have fulfilled certain conditions, will not have to compete in the sectional eliminations. But when the sectional play is over, there will be 100 players left. On June 9 and 10 everyone except Boros will tee off in a 36 hole championship qualifying round at the Oakmont Country Club.

The 49 low scorers, plus those tied for 149th place, will enter the championship proper. So, even though it is improbable that the big name will slip out of the championship, there always is that chance.

U. S. G. A. officials said the new system was installed in an effort to reduce the number of players who may have resulted from the low ratio of qualifiers places allotted to each section in recent years.

Charles Is Back As Contender In Fighting Circles

SAN FRANCISCO (AP)—Ezard Charles, back in the heavyweight title hunt, is making a comeback in the boxing world today. "I think I can beat anyone now," former champion put on one of the finest battles of his lengthy ring career when he battered the Lewiston, Utah, Gamber into a bloody bulk last night at the Municipal Auditorium.

The 31-year-old former champion put on one of the finest battles of his lengthy ring career when he battered the Lewiston, Utah, Gamber into a bloody bulk last night at the Municipal Auditorium.

Charles, fighting for a title shot, beat Layne in savage fashion. He pounded the 203-pounder in the mid-section and belted his head with stinging left hooks and sharp right crosses to the face. Layne was groggy from the sixth round on.

The decision was a mere formality. Referee Frankie Carter and Judge Tony Irwin each gave it to Charles, 50-51. Judge Johnny Lotay called it 50 to 49.

The fight grossed \$24,000, with television receipts adding \$25,000. The principals each received \$1,500 of the TV money and 30 per cent of the net gate.

Charles, remarked after the battle that he would challenge the winner of the Rocky Marciano-Jersey Joe Walcott championship rematch at Chicago April 10.

Gulfstream Boosts Two Races By \$5000

MIAMI, Fla. (AP)—Two of the three remaining handicap races at Gulfstream Park's program were boosted Wednesday from \$10,000 to \$15,000 added money.

President James Don announced that the mile and a sixteenth Fort Lauderdale Handicap Saturday and the mile and an eighth Hialeah Handicap on April 18 will carry \$15,000 each.

The third handicap, the Holywood, will be run April 11 with \$10,000 in added money.

Don said the latest boost is aimed at the better thoroughbred remaining for the final days of the meeting which ends April 31. Don also announced a \$7,500 race at six furlongs on closing day in addition to a \$5,000 distance race. It will be the richest closing program in Gulfstream's history.

6 Top Linksmen Vie In Azalea Tourney
WILMINGTON, N. C. (AP)—The top six men on this year's professional golf money list will head the field for the 19th annual 72-hole \$10,000 Azalea Open golf tournament which began today at the Cape Fear Country Club. Topping the list is Cary Middlecott, who has won the tournament in 1947 and 1952. He is followed by Ben Hogan, who has won it in 1950, 1951, and 1952. Other top performers are Sam Snead, who has won it in 1949 and 1953, and Julius Boros, who has won it in 1954 and 1955.

Bevo Francis Has All Cage Records Nullified By NCAA

NEW YORK (AP)—The NCAA today announced its final set of college basketball statistics—and it meant positively.

Probably the most unpopular player among the statisticians of the NCAA's service bureau was Bevo Francis, the big Rio Grande youngster who shattered all sorts of records during the season only to have them thrown out.

A couple of weeks ago, the NCAA put in a rule that stated only points made against four-year colleges would count in the statistics. Obviously, a game by Francis, whose school played against many junior colleges.

So the statisticians had to start figuring all over again, and since the rule was retroactive, all performances against AAU, service teams and junior colleges had to be thrown out.

After all the feverish figuring, it was discovered that under the revised scoring rules, seven major records were broken and Frank Selvy, a Furman junior, emerged high scorer in the nation.

Selvy averaged 24.2 points a game in 25 starts. Villanova's Larry Hennessy, playing only 15 "official" games (not counting one against a service team after being ineligible the first semester, was second with 23.2.

The other new marks were: 844 points by Seattle's Johnny O'Brien; a 50.5 per cent field goal shooting accuracy by Vernon Stokes, of St. Francis of Brooklyn; 425 free throw attempts by Seton Hall's Walt Dukes; 338 free throws made by O'Brien; and 4.7 personal fouls committed per game. 113 expulsions led the country.

Best single game performance was Selvy's 63-point job against Mercer, with a field goal and 21 out of 27 free throws that was high in all departments, although Citadel's Jerry Varn also hit 21 field goals, against Piedmont.

Congressmen Head For Baseball Camp At Daytona Beach

WASHINGTON (AP)—A group of congressmen headed for Daytona Beach, Fla., today for a week's baseball training.

If that sounds like an April Fools' joke, it's not.

The house took an Easter recess Wednesday and 44 members left for Florida to get in shape for their June 5 baseball game at Griffith Stadium in Washington.

They will use the Cleveland Indians farm club training base at Daytona Beach, with that city's Chamber of Commerce picking up most of the tab.

Rep. Herlong of Florida, captain of the Democrats and promised his players will get a lot of sunbathing and talk no politics.

C. W. (Runt) Bishop, Carterville, Ill., will manage the Republican team and he foresees a victory after last November's GOP sweep. Herlong is a past president of the Florida State Baseball League, and Bishop is former professional baseball and football player.

A number of wives and children are going along with more than 100 in the party. Those who don't play will cheer on the line.

The teams will play an exhibition game Friday night and Herlong said former major league Hank Greenberg and Vice President Richard M. Nixon have been invited to umpire.

The real game in June is sponsored by the Washington Evening Star for its summer camp fund for underprivileged children.

The House baseball players trained in Florida a couple of years ago, at Ocala and Sanford.

Hot Springs Head Is Silent On Plan To Use 2 Negroes

HOT SPRINGS, Ark. (AP)—Acting President Lewis Golts of the Hot Springs Bathing and Recreation Club said today whether the club would stand by or back down from its plan to use two Negro pitchers in the Class C Cotton States League this season.

The club's board of directors will meet here tonight, and Golts said the situation would be "discussed thoroughly."

There have been indications that the club's board of directors will meet here tonight, and Golts said the situation would be "discussed thoroughly."

The SPORTS REGISTER

By KENT CHETLAIN
Sports Editor

Congratulations are in order for Ed Kirkland, who successfully defended her Mayfair Inn and Seminole Country Club Women's Club Championship this year by defeating her arch-rival Dot Powell Sunday, and Harry Tooker Jr., for winning the second flight championship in the 20th annual Florida State Amateur Tournament at Dulsredend Country Club in Orlando.

We would particularly like to pay a special tribute to Jim Spencer, the indomitable little golfing king of Seminole County, his competitive showing in the State Am. Spencer flayed through his first two opponents in championship flight last week to capture a narrow 1-up win over Ed Kirkland of Orlando Friday morning after a bitter 19-hole grid.

Kirkland only the day before unseated co-medalist Sonny Tinney of Tampa. With only a few hours rest, Spencer teed-off in the afternoon quarter-finals against Tommy Trezevant of Tampa.

Spencer, who was formally named Charles Evans, but who is more widely known as just plain "Jim", displayed a true competitive nature by refusing to be rattled by his nerve-racking 1-up morning win over Kirkland as he plodded down the course matching everything Trezevant could do.

As the two outstanding linksmen hit the 18th fairway amid the morning shadows cast by fading sunset, Trezevant held a 1-up margin with the decision still in the air. Trezevant drilled the 12th and 13th in pain. Four paragons as Jimmy Trezevant and Jim Spencer. They halved the remaining five holes including the 18th to give the erratic shouting Trezevant the win.

Spencer was a little disappointed, for his game was exceptionally good, blasting his unusually fine jump drives straight down the middle while Trezevant was looking, flailing and fighting a recovery game that hit true on the greens.

"There is no question but Trezevant won on his putting," Spencer later summed up the loss. "He hit the greens only five times in 18 holes on his approaching drives while I was on 16 times."

Thus the battle of the driver versus the scrambler was re-enacted in the Spencer-Trezevant quarter-final clash. Spencer shot a blistering 70, one-under par, while Trezevant and his amazing luck on the greens carded a two-under 69.

Walking into the clubhouse after 37 grueling holes Friday evening, reporters from over the state began rapping out words of praise on their typewriters for Spencer's golfing ability and his competitiveness. But Seminole County fans had read and felt the superlatives were too much for them to take. They had seen the hard way, dashing local hopes for the State Am title in Sanford this year.

Under the youthful leadership of General Manager Jim Fields, local fans will be in store for several innovations for this year's Sanford Cardinal campaign. There will be a knothole game formed shortly. Free tickets will be issued to all boys 14 or under before the opening on Apr. 13. These tickets will entitle them to buy a reasonable T-shirt with the name "Sanford Cardinals" on it. This T-shirt will be their ticket to enjoy Sanford game. They will be seated in a special roped-off area of the left field bleachers.

City Manager Tom L. Mason admitted that if the knothole gang is large enough, a special bleacher section may be erected by the City for the youngsters down the left field foul line.

Another novel scheme is the refurbishing of the Ladies' rest room which will be decorated throughout and mirrors installed. A woman attendant will be on duty at all times.

Add another new plan to this list, the high school students will be able to procure passes at print cost, which can be used to buy a special reduced students' ticket to each game. Still another scheme is to lure fans to the park will be the arrival of a clown sometime in July to add a touch of humor and hilarity to the game this summer.

Lake Mary Junior High teacher Harold Hochback will manage the commission stand this summer for the club. The innovations all point to an improved baseball season this summer and provide further incentive for local fans to attend games and join the baseball in Sanford.

Woodruff Uses Four 11-Man Teams At UF

MIAMI BEACH (AP)—Gardner Mulloy, Miami's veteran Davis cupper and top-ranking tennis player in the nation, led the way into the 10th round of the Good Neighbor Tournament today.

Mulloy was on top of his game Wednesday to trim Ricardotablers, Santiago, Chile, 6-4, 6-0, and will play Mexican No. 1 player Gustavo Palafox, in today's feature match. Palafox squeaked by Bill Tully, New York, 2-6, 6-2, 6-7.

Travel Abroad In '53 Is Expected To Set Record, Say Travel Experts

By WALTER BREEDER, Jr. (For Sam Dawson)
NEW YORK (AP)—No matter what the weather, more Americans are going abroad in 1953 than in any other year in history, travel agents say. And the travel experts maintain this year's army of Yanks will spend record sums of money.

European governments are spending heavily on U. S. tourists, according to reports from the red. Elsewhere—in Rio, Manila, Hong Kong and Quebec—hotels and restaurant men are "fully rubbing their hands" in anticipation of the biggest windfall of American tourist dollars yet.

"It's a terrific year," says an official of American Express Lines whose luxury cruise ships sail at major Oriental ports. "We're decidedly ahead of 1952 advance bookings are beyond all expectations."

W. R. Grace & Co. says its South America-bound passenger ships are "booked up solid through July 1st."

The Quebec Tourist Information Bureau reports a record number of requests for information about fishing trips this spring in the popular St. Lawrence region.

Europe, of course, is still the number one tourist objective. With Queen Elizabeth's coronation scheduled for June 2, the summer rush is off to an early start.

"I estimate that Americans will spend \$105,000,000 in 1953 enjoying the attractions of England, Scotland, Wales and Northern Ireland and crossing the Atlantic in British-owned transport," says Sir Alexander H. Maxwell, chairman of the British Travel Association. "The coronation will spur tourist

traffic in non-British countries, too. Never before have so many trade fairs, art exhibits and music festivals advanced bookings."

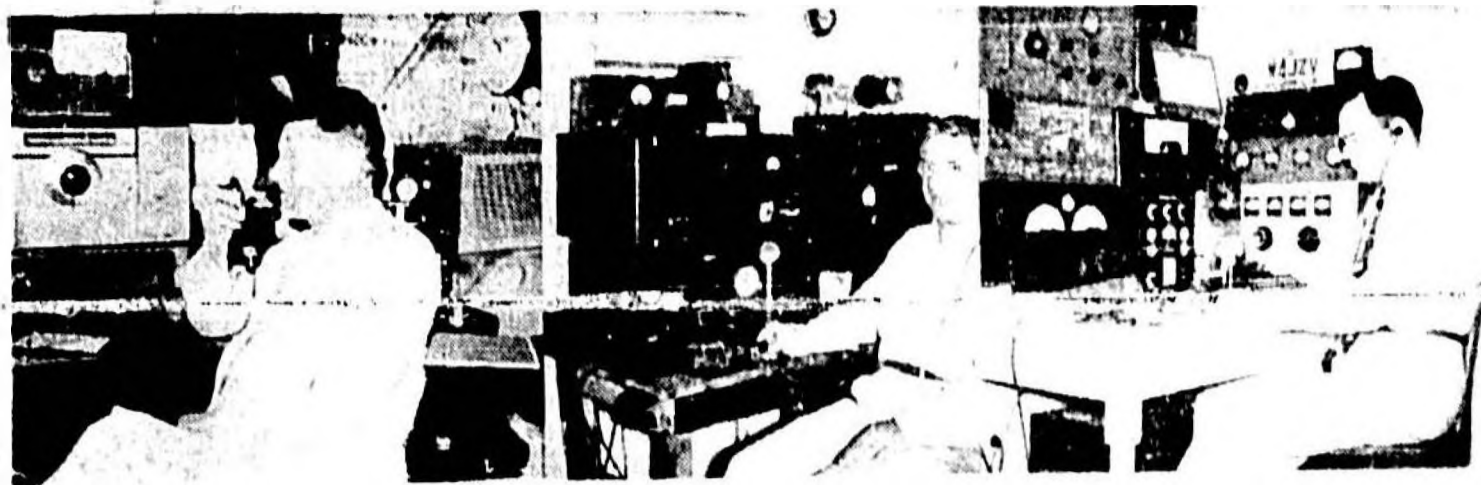

Tourists were afraid of being stranded overseas. Today, apparently, they have no such inhibitions.

W. H. McConnell, vice president of American Export Lines, says European travel will be at least 15 per cent ahead of 1952.

Since last spring trans-Atlantic steamship facilities have been augmented by the addition of such luxury liners as the U. S. Lines' "United States" and Italian Lines' "Andrea Doria," and there are more scheduled airline flights to Europe, some 75 trans-Atlantic planes taking off from New York International Airport every week. Passage, however, is hard to get. Some ships are sold out weeks ahead, particularly in the popular moderate priced "tourist" class.

Steamship and airline officials are trying to get more Americans to travel during off-peak seasons.

"Lots of tourists complain they meet too many other Americans in Europe," one executive states. "To avoid mingling with other Americans all the time they're scheduling their trips for spring or fall. It's a step in the right direction."

Amateur radio operators come from every walk of life as the above picture also demonstrates. On the left is Leonard E. ...

Amateur Radio Operators Come Into Own During Emergencies

By CHARLES SOMBODY
In these disaster and many others, amateurs play a major role in the relief work and earned full commendation for their resourcefulness in effecting communications where all other means had failed.

During 1948, the American Radio Relay League, the largest amateur radio organization in the world and the one in which several local "hams" belong, inaugurated a new emergency preparedness program. That group registered personnel and equipment in it for use in case of an emergency in cooperation with the Red Cross.

In 1947 a national emergency coordinator was appointed to fill this duty.

Several amateur operators from this city include in the hobby while realizing that sometime their hobby may be very well needed by the community in an emergency.

To name just a few, there are: Senator Lloyd F. Boyle (WIMJ),

Amateur Radio Operators Come Into Own During Emergencies

Charles Dawson (W1HGW), Al ... (W1AWY), Forrest ... (W1JZV), Jim Williams (W1VYS), Jerry Erickson (W1VHZ), and Jim Hughes (W1SRT), who is emergency coordinator for this district.

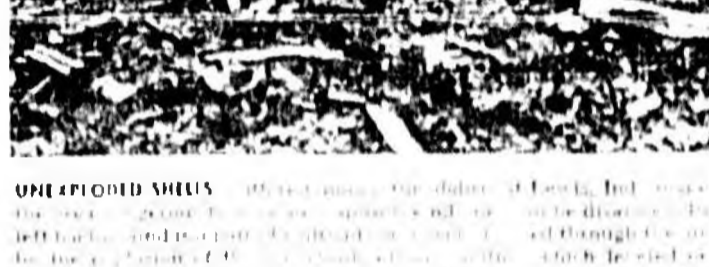

Many of these operators are more than anxious to accept messages from local persons who wish to send information to friends and relatives in other parts of the country or the world. Message traffic can be sent to any U. S. possession and to foreign countries where service is available. A fee addresses. There is no charge for the service. If all part of their training for future emergency work.

More than 100,000 amateur radio operators, who perform a well-defined international law, are active in the hobby. They are trained and technical investigators carried on by duly authorized persons interested in radio technology, solely with a personal and not a financial purpose.

Today, the American hobby of amateur radio number of a group of trained communicators from this city. A well-organized radio communication system is in place.

Amateur radio hams are expected to citizens only after they have passed rigid examinations in operation and maintenance of laws and regulations affecting amateur radio. They must demonstrate ability to send and receive code at 23 words a minute.

The hobby is held to affect humans of every sex and of any age as is evidenced by the record breaking of a nine-year-old boy from this city. A well-organized radio communication system is in place.

UNEXPLODED SHELS ... (Caption text is partially obscured and difficult to read)

Florida's Taxpayers Pay U.S. Huge Amount

JACKSONVILLE (AP)—The federal government collected \$242,832,807.90 in taxes from Florida sources the first three months of this year.

A total of \$220,681,173.24 was paid in income tax payments in 1952 earnings. They were up nearly 12 1/2 million dollars.

Total U. S. tax collections from Florida were almost three million dollars above the first three months of last year and the only big drop was in estate taxes.

Laurie W. Tomlinson, director of internal revenue, reported in a report for the first quarter of 1953 in the amount to taxes with hold from paychecks of Florida wage earners and in advance payments by those required to estimate their income taxes.

Withholding taxes for the three months totaled \$39,932,560.33, an increase of \$9,227,214.73 from the like period last year.

Those estimating their 1953 taxes paid \$24,857,224.23, 70 1/2 per cent more than the \$14,518,099 Florida corporations paid \$11,031,124.50. This was an increase of \$3,967,041.08.

Miscellaneous taxes were down \$3,850,322.65 to \$18,088,705.88. This included excise, estate, gift, liquor and other taxes.

Tomlinson said the bulk of the drop was in estate taxes.

Annual Convention Of Lawyers To Open

HOLLYWOOD (AP)—The Florida Bar, representing all the practicing lawyers in this state, opens its annual convention here Thursday with attendance of about 1,000 expected during the three-day session.

Speakers will include U. S. Judge Harold H. Medina, New York, who presided at the Communist trials last year, Robert G. Storey, Dallas, Tex., president of the American Bar Association, Elbert T. Taylor, general counsel of the U. S. Treasury, and other lawyers and judges.

The board of governors scheduled a session today to make final preparations for the convention. Among other matters to be considered is the proposed creation of a judicial council made up of judges, lawyers and laymen, to carry on a continuous study of judicial administration in Florida and recommend improvements in the court system.

William A. McBue Jr., Bartow, will end his term as president of the bar on Saturday. He will be succeeded by Horner C. Fisher, West Palm Beach, now president-elect. A new president-elect will be chosen to succeed to the presidency in 1954.

U. Of F. To Use Space Under Grid Stadium

TALLAHASSEE (AP)—The University of Florida is going to put to use the 60,000 square feet of waste space under its stadium and get as much extra room as if it had put up a half million dollar building.

The Cabinet authorized expenditure of \$4,827 in building rooms under the stadium. The University Athletic Association, which will use part of the new quarters, will contribute another \$100,000.

The State Board of Control received apparent low bids of \$45,435 from Beers Construction Co., Tallahassee, for replacing the condemned Florida State University Auditorium, \$486,317 from S. Curry and Co., Albany, Ga., for building a new Florida A & M College science building; and \$71,220 from J. O. Carlie, Tallahassee, for construction of a new ROTC building on the FAMC campus.

Final Bulletin Is Issued Tuesday By Weather Station

LAKELAND (AP)—Eight meteorological agents who have been collecting information for frost warning bulletins for the past two months were setting their sights today on hurricane warning duties.

The Federal State Frost Warning Service issued the last of a twice-a-day frost bulletins Tuesday.

Warren O. Johnson, meteorologist in charge of the bureau, said the 1952-53 winter season, which began Nov. 1, has been mild and favorable to crops for the most part. Rainfall also was generally adequate for all crops though it was somewhat deficient in some areas.

The coldest weather of the winter came from Dec. 12-19. Temperatures slipped to 10 degrees in North Florida, lowest for the state for the year, and even in the Everglades there were readings as low as 25. That freeze dipped into the usually balmy lower East Coast District though crop damage there was generally light.

The season's first real cold spell occurred Nov. 5-8. Though a special bulletin on Nov. 20 was required for frost in North Florida the following morning.

January, February and March generally were mild with occasional cold spells and frost, but no really severe freezes.

Johnson said his office staff will continue to map the weather and be ready to send out special bulletins of frost threats.

The field staff has dismantled the more than 400 temperature survey stations in citrus groves, crop fields and nurseries throughout the state and store the equipment for the summer.

These meteorologists began compiling their district reports today. When that is done they will have their annual leave, then be assigned to hurricane stations along the Atlantic and Gulf Coasts.

Figures Released By Prison Bureau On U. S. Executions

WASHINGTON (AP)—The U. S. Prison Bureau reported today that 81 civil executions were carried out in the country last year.

The figures for 1952 are the lowest since 1947, when 107 were carried out. In 1951, 100 were executed.

The bureau also reported that 1,000 prisoners were executed in the United States during the past year.

The figures show a steady decline in the number of executions since 1947, when 107 were carried out. In 1951, 100 were executed, and in 1952, 81 were executed.

Tax Return Probe Is Okayed By President

WASHINGTON (AP)—President Eisenhower today gave the Senate Commerce Committee power to examine income tax returns in a move the White House said was aimed at New York waterfront racketeers.

This was believed to mark the first time that the White House has empowered the Commerce Committee to look at income tax returns.

In some other cases, congressional committees have been granted the privilege.

The Commerce Committee, under the chairmanship of Sen. Tobey (R-NH), is looking into charges of racketeering and political influence in the dock areas of New York City and northern New Jersey.

Rosenhower's press secretary, James C. Hagerity, told newsmen today the committee will have access to income tax return data and other confidential material.

CROSS COUNTRY CHATTER
with Mac White

The truck firm I represent doesn't install on it—but every jack-man of us always takes the tests given by the State Department of Education's mobile driver testing laboratory. This laboratory on wheels—maybe you've seen it—gets around the State of Florida about once a year.

Captain Jimmy Allen, who is State Coordinator of Commercial Driver Training, is in charge of this laboratory and some of the tests, believe me, are plenty tough.

Some of the boys are kind of tense when they visit the laboratory for the first time because if you flunk out, your professional truck-driving days are over.

Here are some of the things that Florida truck drivers are periodically tested for: color discrimination, visual acuity, depth perception, vertical and lateral imbalance, visual fusion, color perception, visual speed and accuracy, foot and hand reaction time, side distance, night vision, glare resistance and steadiness. That sounds awfully technical but

It all adds up to highway safety.

In addition to these tests, we truck drivers must have a complete physical examination once a year. All of us carry doctors' cards which show we have successfully passed the physical exams and most of us have Certificates of Achievement from the testing laboratory.

So you can see for yourself that truck driving isn't the cinch a lot of people seem to think it is. We are trained—thoroughly—to drive defensively—or "drive ahead of ourselves." The dopes and the chumps don't last very long in this business.

This mobile testing laboratory was donated by the Florida Trucking Association, an organization that is really on the ball all the time. The laboratory results in better trained drivers which, in turn, means safer highways.

Oh—oh—oh—like an accident ahead. Here's where my rugged first aid training comes in handy until the ambulance arrives. — Ad.

Stassen Used Wrong Word In Jibe, He States

Says He Agrees With Ike As To McCarthy

WASHINGTON (AP)—Mutual Security Director Harold G. Stassen today has thoroughly agreed with President Eisenhower's position on the controversial efforts by Sen. McCarthy to curb free world trade with Communist nations. Talking to White House news men after a Cabinet meeting Stassen said in reply to a question that specifically he agrees with Eisenhower that it would have been better for him to have used the word "infringe" instead of saying the Wisconsin senator had "undermined" government policy.

Stassen told McCarthy's government operations subcommittee on Monday that McCarthy had undermined government efforts to shut off trade with Communist nations. The subcommittee has been getting pledges from Greek ship owners not to trade with Red China and North Korea.

Eisenhower said at his news conference yesterday he personally did not believe McCarthy had undermined government policy, but he emphasized that the right to negotiate agreements in that field rests completely and absolutely with the President.

Stassen said today he is "happy" about what he termed the outcome of the controversy.

Elsewhere in Washington, Mrs. Clara Boothe Luce, the new ambassador to Italy, had a talk with President Eisenhower today, and said he urged her to work hard toward "drawing the Italian people and all of the people of Western Europe closer to us in friendship."

Mrs. Luce called the White House to pay her respects before leaving for Italy on her new assignment. She will sail April 11 aboard the liner Andrea Doria for Genoa.

Final Plans Made For Early Easter Service

Final plans have been made for the Easter sunrise service to be held Sunday in the Memorial Stadium promptly at 6:00 a. m. Easter morning.

Rev. H. H. McKinley, pastor of the First Methodist Church, will bring the Easter message "Good News." Music for the occasion will be furnished by the Sanford High School band, under the direction of Ernest Coe and a Seminoles High School Glee club, under the direction of Miss Ollie Reese Whittle.

The band will play "Holy Holy, Holy" by Erik Lehman and "Lord, Keep Us Steadfast in Thy Word" by Martin Luther.

The glee club will sing "The Lord, He Is My Father" by Norman Williams and "Arisen" by Norman.

The invocation will be given by the Rev. D. S. Carroff, pastor of the Christian Missionary Alliance Church. Scripture reading by Rev. John L. Miller, Minister of Education of the First Baptist Church and the Benediction by Rev. H. E. Bueck, pastor of the Assembly of God.

The public is invited to attend irrespective of creed or color.

Red Cross Donations Pass Half-Way Mark

With committee reports still incomplete at noon today, the Seminoles County Chapter of the American Red Cross has collected \$6,612.18 in its effort to reach its \$10,000 goal for this year. It was reported today by Red Cross Public Relations Director, Mrs. A. S. Spence.

Incomplete contributions show the Business Committee, headed by Howard Montleith, has collected \$978.86 so far in its bid to reach its \$1,000 goal.

In other incomplete reports, Mrs. A. S. Spence is in charge of residential collections, reported \$1,800.66 collected of her goal of \$1,800. Irving Feinberg, director of industrial collections, has taken in \$674.60 of a \$1,000 goal. The combined county and small community drives have netted \$1,116.92.

Cancer Facts

It is estimated that cancer will strike one in every five Americans at some time during their lives.

The object of the American Cancer Society's public education program is to save lives, by creating a general attitude toward cancer that will make people go to their doctors for proper treatment before it is too late.

Out of every seven deaths last year, one was caused by cancer. About half of those who develop cancer today should be saved by early diagnosis and treatment, while the lives of others depend on the American Cancer Society research program.

Ideal Girl Next Door

Frances "Boni" Moore, six-year-old daughter of Mr. and Mrs. James L. "Frank" Moore of 504 East Fourteenth Street, became the first entry in this year's Miss Florida Pageant contest when her name was submitted by the Seminoles Junior Chamber of Commerce this week. The check and form blank is a memento of West Week. Her diameter is 5-foot 7, a trim 120 pounds with a stonemason's waist reading of 22 inches. The blue-eyed luxon haired Jaycee entry, needed only an amateur's snarsh-out to place fifth in last year's Ideal Girl Next Door contest, sponsored by Tom Moore, once of Ladies' Fair radio program. She competed against entries from 12 countries.

Weeping, Laughing Relatives Greet 2,000 Troops Landing In New York

NEW YORK (AP)—Laughing and crying women gave a wild welcome today to soldiers on the first troopship to come into New York from Korea.

It was unofficially estimated that 3,000 relatives and girl friends gathered to meet the men who departed after a series of days, a night at anchor in the harbor, a number of welcome home speeches, and a gangplank that got stuck.

New York and New Jersey troops headed for a City Hall reception and a Broadway parade where they could scatter for their homes.

Troops from other states boarded ferries for New Jersey to go to Camp Kilmer for furlough clearance.

Many, though, held brief dock-side reunions with wives they had not seen in two years. Some were seeing their infant children for the first time.

The welcome was given by white placards provided by the Army. They bore in scriptural and lay and macabre side issues which loom of importance.

Although the main conflict appears to be between Sanford and the Industrial Board, the Industrial Board, Sanford Industries, Inc., and both the industrial committees of the house and senior members of the committee have been invited to attend a session called by the City Commission to settle differences which have begun to threaten the forward movement.

It is possible that the fate of the Sanford Industrial Board, which was formed under City Commission auspices, will be decided Monday night.

Hubert Crossan, who is chairman of the Industrial Board and also president of Sanford Industries, Inc., has appealed on two occasions to the Commissioners for salaries for the officers of the Industrial Board.

Both times he was turned down in his request and last Monday night submitted his resignation from the Industrial Board to the Commission but it was not accepted at the time.

Today Mr. Crossan declared "only one local group should be delegated to handle industrial contacts made with outside manufacturers. I don't care who does it, but the present method of having four committees is too cumbersome for efficient operation."

As pointed out by Mayor Randall Collins in a letter to the groups concerned, "the purpose of this meeting is to attempt to identify objectives, and to coordinate activities of the four groups so as to vigorously and effectively proceed to accomplish their purposes without duplication of effort."

Mr. Crossan in his letter to stockholders and committee members of Sanford Industries, Inc., stated "this meeting may determine whether or not the movement to bring (Continued on page six)

School Meetings Are Slated Next Week

Two important meetings of county school officials are slated for next week, according to Hayburn Milwee, superintendent of schools.

On Monday, school trustees are slated to meet in Mr. Milwee's Court House office for the purpose of discussing reappointment of school principals for the 1953-54 school year.

Thursday morning the five members of the school board will convene to hear the recommendations of the trustees and reappoint principals for the next year.

Legal Ruling Hits Evidence On Blackburn

Search Warrant Held Illegal By Court

RAITOW (AP)—All evidence about a raid made on the Orlando home of Vernon Blackburn and his wife, Florida was nullified today by a ruling of the Criminal Court which declared illegal a search warrant issued by Judge Roy H. Amden.

Blackburn and his wife are charged with a holdup and run it from a home where Mrs. Blackburn is a nurse.

Among the defendants is Mrs. Norma Bridges with whom Blackburn was arrested in Texas three months after the others were nabbed in a tri-county raid in Central Florida.

The state charges Blackburn headed up a holdup ring and ran it from a home where Mrs. Bridges lived in Orlando. Prosecutors hope to wind up their case this afternoon.

Verdict of the search warrant knocked out state testimony designed to connect Blackburn and Frank Duskin with a bank robbery and a clothing salesman who is the state's star witness.

Frank Duskin, an evangelist who was one of several persons arrested in raids last fall, testified for the third time in the trial Thursday.

He said he took holdup receipts to Blackburn's home in Orlando Sept. 15 before starting Duskin's trial. He gave Deputy Sheriff Ross Anderson \$100 from the receipts and put in with them a check in that amount from Anderson.

Duskin testified Blackburn was not home so he left the bag of money with the cook.

Two state investigators testified they followed Duskin on the trip searched him shortly before he went to the Blackburn home and saw the bag and searched him soon afterward and didn't find it.

Duskin earlier told of being hired by Blackburn last summer as a pickup man for the Lakeland area. He was arrested July 10 and testified Blackburn told him Sept. 12 he better stop work at the end of the week, that he had been arrested but that his pay would run time.

Scouts Given Land By Chase And Co.

The Boy Scouts of America today gained waterfront property on Lake Lake in western Seminole County yesterday when Chase and Co. Inc. leased a 20-acre tract to the Scouts for \$1 a year.

Last month the Scouts received adjacent waterfront acreage in a swap deal with U. S. Holdings Inc. The property is adjacent to the W. F. Howard cedar boat camp and provides greater landing and swimming facilities. The boys will be permitted to use the land for not used for scouting purposes.

Plans Completed For Music Festival At Seminole High

Plans are complete for the annual Music Festival to be presented Monday evening at 8:00 o'clock in the Seminole High School Auditorium by the junior and senior high schools of the county.

Chorus and bands participating in the program are a combined group of students from Sanford, Lakeland, Ocala, Geneva, Lake Mary, and Lake Monroe.

The festival is under the direction of Mrs. Bennett Land, music supervisor, and is made possible through the cooperation of classroom teachers, music teachers, school administration and supervisors, students, and parents.

Directors of the program include Perry Brown, Ernest Cowley, Mrs. W. G. Fleming, Mrs. R. T. Milwee, Miss Ollie Reese Whittle, and Mrs. Land. Accompanists are Mrs. Milwee, Nancy Cash, Tom Waitt, and Jeanne Lane Miller.

Combined bands of the school will open the program by playing "The Star Spangled Banner" after which the combined chorus will present "I Pledge Myself Faithful," an old student song.

Two numbers, "Carousal" and "Go Down Moses," will be given by the seventh grade chorus.

Other presentations will include "Let There Be Music," "Dry Bones," and "Jehovah" by the eighth grade chorus.

"Poet and Peasant Overture," "Song of the Rose," and "Army-Navy March" by the bands of Sanford Junior High, Lyman, and Ocala High Schools.

"Country Gardens" and "Holla-Holla" by the ninth grade chorus.

"For the Beauty of the Earth" by the combined high school chorus.

"Purple Pageant" and "Orpheus" by the high school band.

As a concluding feature, the massed bands and chorus will render "Battle Hymn of the Republic."

Western World Sees Further Signs Of Conciliation From Moscow On This Good Friday

Airmen Killed, Three Injured In Head-On Collision

WASHINGTON (AP)—A Soviet plane was shot down today by a U.S. jet fighter, killing two airmen and injuring three others in a head-on collision in the sky over the North Atlantic.

The U.S. plane, a Lockheed F-86 Sabre, was flying at 30,000 feet when it collided with a Soviet MiG-17 fighter. The Sabre was flying from the U.S. to West Germany, and the MiG was flying from the Soviet Union to West Germany.

The Sabre pilot, Capt. John J. Downing, was killed in the collision. The MiG pilot, Lt. Col. G. G. Ivanov, was also killed. Three other Sabre pilots were injured in the crash.

The collision occurred on Good Friday, April 3, 1953, over the North Atlantic Ocean, about 100 miles north of the English Channel.

Doctor Delays Final Word In McCarty Case

WASHINGTON (AP)—The doctor who examined Senator Joseph P. McCarty today delayed giving a final word on whether the senator's mental condition is such that he should be removed from office.

The doctor, Dr. J. H. "Doc" Hays, said he would give his final report to the Senate Judiciary Committee on Monday.

Hays said he had examined McCarty on Thursday and Friday, and that the senator's condition was "borderline." He said he would give his final report to the committee on Monday.

The committee is currently hearing testimony on whether McCarty should be removed from office because of his mental condition.

Youthful Slayer Continues To Shun Help From Father

NEW YORK (AP)—A 15-year-old boy who shot and killed his father last week continued today to shun help from his father's family.

The boy, identified as James Earl Ray, was arrested in New York after the shooting. He has been held in custody since then.

Ray's father, a well-known actor, died in the shooting. Ray's mother is also a well-known actress.

Ray's family is reportedly trying to arrange for his return to his home country.

Peterson Outlines Results Of Recent Atom Bomb Tests

WASHINGTON (AP)—The results of recent atomic bomb tests in the Pacific Ocean were outlined today by the director of the Atomic Energy Commission.

Dr. Lewis R. Peterson said the tests showed that the atomic bomb is a powerful weapon of war.

Peterson said the tests also showed that the atomic bomb is a powerful tool for peace.

Peterson said the tests showed that the atomic bomb is a powerful tool for the future.

Leroy Anderson replaces O. V. Horace as superintendent of the Atlantic Coastline.

Leroy Anderson, who has been superintendent of the Atlantic Coastline for the past 20 years, was expected to arrive in Sanford this afternoon for a weekend visit at the home of Mr. and Mrs. Harry A. Simpson at Lucky Acres in Geneva.

The future writer was a Sanford visitor the first week of January and wrote an article which appeared in many papers throughout the United States telling of the attractions of this city.

Billhimer Takes Office As Ruler Of Sanford Elks

WALTER BILLHIMER, president of the Sanford Elks Club, today took office as ruler of the club.

Rotary Ladies Nite To Be Held Monday

The Rotary Club's annual Ladies Night will be held Monday evening beginning at 7:00 o'clock at the Sanford Elks Club. The hostess will be Mrs. Tom Brown.
