MIAMI GIVEN THRILL OVER KIDNAP CASE

Discovery Of Curly-Headed Boy Beside Road Causes Excitement For A While

MIAMI, Mar. 17.—(A.P.)—A curly-headed boy who toddled away from his home and was found beside the road in Coral Gables today caused a flurry of excitement in police headquarters until he was identified as the son of A. W. Kneibler, Coral Gables. The boy resembled the Lindbergh baby.

HOPEWELL, Mar. 17.—(A.P.)—The latest theory in the Lindbergh kidnap mystery fell apart today. For several days police have been investigating the story of C. Leonardo Lightfoot, of Franklin Park, who told of his foreign servant leaving the day after the kidnaping. Lightfoot reported also that wood similar to that used in the kidnapers' ladder was missing from his home as well as a child like the one found beneath the Lindbergh nursery window. Today Lightfoot told the child was back just where they started on the night of Mar. 1 when the baby was stolen. Wood from which the ladder was made could have been obtained from 100 places in the region and the child was the only connecting link with the Lindbergh kidnaping and the Lightfoot story. No other worthwhile angles to the case were reported today.

From the shores of France, where a ship was searched to a snow-bound village in the Adirondacks, the search for the baby's clothing was fruitless. The baby's clothing was found, the baby's clothing was found, the baby's clothing was found. But still no sign came that (Continued on Page Two)

Marler Sees Lack Of Religion As Big Trouble With Men

A return to the gospel and a constant application of its teachings is what men and nations need most in this time of depression, according to the Rev. F. M. Marler, of the First Christian Church, in a brief address before members of the Sanford Kiwanis Club at the Kiwanis Hotel yesterday.

"America is suffering today because of unemployed men, unemployed money, and unemployed religion, mostly the latter," began Rev. Marler, on his address the urgent necessity of practicing Christianity. After pointing most Americans as being wasteful of resources, products, money, and time, and being too indulgent and wasteful, he declared that the gospel would teach the supremacy of spiritual values.

Mrs. Gladys M. Williams, Sanford contralto, sang several popular songs which met with applause, and completed the program of the day.

Scott Commissioner G. M. Whelan, of Orlando, briefly spoke in the interests of the club sponsored Boy Scout troop, and urged that the club take a deeper interest in the boys and their work.

Among those present at the luncheon were: Al Rothwell and Frank Keefe, Winter Park Kiwanis who asked all members of the Sanford club to attend a joint meeting of the local and Winter Park club next Monday night; Rev. F. M. Marler, E. A. Wilson, Julian Bouchelle, of Charleston, W. Va., and Mrs. Gladys Williams, as guests; Kiwanis Howard Orville, V. A. Spear, H. W. Rucker, H. H. Vay, A. C. Park, Fletcher Smith, F. F. Doran, D. J. Garret, Dave Beckins, Julius D. Diagonal, T. W. Lawton, Council Johnson, T. L. Damon, E. B. Rankin, Jr., E. D. Highmyer, Fred S. Wilson, Forrest Gatchel, Arthur Brown, C. E. Mann, S. J. Nix, W. B. Mackey, J. L. Marston, W. T. Langley, E. D. Curwell, J. M. Mackey, F. E. Lammie, S. F. Mackey, P. W. Whitaker, J. D. Mackey, C. O. Burt, J. G. Leonard, H. C. Kreuger Associate Takes His Own Life

HELSINGFORS, Finland, Mar. 17.—(A.P.)—M. Marcus, director of the Estonian match monopoly and associate of Ivar Kreuger, Swedish match king who committed suicide in Paris Saturday, was found dead yesterday at Reval. It was learned here today, Marcus formerly owned a match factory which was taken over by Kreuger and Marcus became a director. The death of Kreuger resulted in a reduction of Marcus' salary and in the depreciation of the value of his stock in the Kreuger interests.

ARTIFICIAL FOOD ONE STEP NEARER FINAL SOLUTION

Research Is Going On Under Direction Of College Professor

NEW YORK, Mar. 17.—The possibility of reproducing artificially the baffling process by which plant life transforms the simple chemicals of the soil and air into highly complex starches, sugars, fats and proteins, upon which all animal life on earth feeds, has been brought one step nearer through research conducted in the Harvard University laboratories. Prof. James Bryant Conant, chairman of the division of chemistry of the university, said recently.

He disclosed the result of his work at Harvard when he received the William H. Nichols medal of the New York Section of the American Chemical Society for 1932, at a meeting of the chemical societies of the metropolitan area in the engineering auditorium recently. Professor Conant described his investigations into the structure of chlorophyll, the green substance in plants, which apparently effects the construction of food molecules.

The essential nature of the chlorophyll molecule has at last been determined. Professor Conant asserted. His formula has been traced to two or three alternative groupings of atoms, one suggested in the Harvard laboratories and another by Dr. Hans Fischer, a noted Munich chemist, he said.

Miss Pearson And Oliver Cromwell To Take Owen Trip

Miss Frances Pearson, Seminole High School student, and Oliver Cromwell, of Chuluota, a student at the Oviedo High School, have been selected by the students and faculty of each school to represent Seminole county on Ruth Bryan Owen's annual pilgrimage to Washington late next month.

The announcement was made at chapel exercises this morning and Miss Pearson was presented to the student body and several guests as being the fortunate winner of the interesting trip to Washington.

The winning student was selected by ballot last week, containing spaces where he might set down the names of the first, second, and third choice of the boy and girl he wished to send to Washington. The results were tabulated in secret, and the three high girls and three high boys were voted on by the faculty, on the basis of general records as students.

This procedure was also practiced at Oviedo and Longwood High Schools, and the remaining students who were the choice of students, will be sent to St. Augustine upon the return of the winners from Washington.

OPPOSITION TO SALES TAX HAS GROWN KEENER

Resistance Has Begun To Congeal Into Organized Opposition To Plan In House

WASHINGTON, Mar. 17.—(A.P.)—Growing resistance to the manufacturers sales tax began to congeal into organized opposition in the House yesterday despite authoritative reports that the big New York Democratic delegation would vote almost unanimously for the controversial provision of the new revenue bill.

Representative Cullen of New York, leader of the Tammany delegation, indicated nearly all the 22 members of his group would vote for the sales tax. Advocates of the 2.5 per cent levy on manufactured articles expect the support of New England Democrats, too.

Opposition reported in the New York delegation to the sales provision was understood to have been withdrawn. Most of the New York Republicans have indicated they would support the section.

Party leaders and advocates of the provision obviously were encouraged. At the suggestion of Acting Chairman Crisp of the Ways and Means Committee the House agreed to conclude a general debate on the measure after a special meeting tonight. On Friday the big battle of the session will open when reading of the bill for amendment begins. The final vote will not come until late next week.

Meanwhile party leaders began to count noses. That the vote on the sales levy will be close is conceded throughout the six days of debate the opposition held the stage as many southern Democrats decried the levy as an imposition on the poor.

Earlier Representative Rainey of Illinois, the Democratic leader, said he had supported the American Federation of Labor for 28 years, but that he would be compelled to contest its position against the sales tax as announced Tuesday night by William Green, the president.

Although nearly 40 persons have announced their intention of seeking public office at the June primary, only one has officially qualified and paid his entrance fee to the Seminole County Democratic Executive Committee.

He is L. A. Tate, a candidate for sheriff, whose check for \$15 is now in the hands of Judge R. V. Ware, secretary of the Committee. Judge Ware expects that other candidates will follow Mr. Tate's example within the next few weeks.

Railroad President Sees Appreciable Upswing In Business By End Of Year

SEVERE PENALTY GIVEN KIDNAPERS OF DEJUTE CHILD

Life In Prison Meted Out To Two Abductors In Ohio Case

JACKSONVILLE, Mar. 17.—Charles T. O'Neal of Chicago, president of the Chicago and Eastern Illinois Railway Company, is of the opinion that "by the end of the year there will be an appreciable upturn in general business conditions."

On his first trip to Florida, Mr. O'Neal spent yesterday in Jacksonville. He said, "I am sure that we will have a better feeling everywhere a better feeling among business men and the picture generally and expressed the opinion that 'we've been scraping along on the bottom long enough and the upturn is on the way.' He thinks that the constructive legislation being enacted in Washington, where, he says, they have 'buried the political hatchet,' should have its effect toward improving things in general. He spent some time in Washington and expressed the view that 'the people here are trying to be helpful and are going out of their way to aid those who are worthy.'"

Mr. O'Neal started off his business career as a "rub reporter" on a now extinct Philadelphia newspaper. For two years after he left the newspaper field he was a competitor in Chicago and then he got into real estate, where he has been for 14 years. He has been the president of the C. & E. I. for a little more than a year.

As a result on his home town conditions, Mr. O'Neal said that Chicago is straightening out its taxation and finance difficulties. Of his own company he said there were "a few bright stars" but the light was being overshadowed to a great extent by the darkness.

While in the Jacksonville territory Mr. O'Neal motored down to St. Augustine with John G. Mason, the railway's general agent in this state, and while in the vicinity City mixed sightseeing with a conference with officials of the Florida East Coast railway.

Mr. O'Neal, who spent last night as a guest of the George Washington Hotel, is being accompanied and the trip by his secretary, W. M. Tompkins. The C. & E. I. is interested in Florida particularly from the standpoint of being the Chicago originating line for the famous Dixie Flyer route.

Charles Gano, Famed Minstrel Man, Dies

Word was received in Sanford today that Charles Gano, one of America's veteran minstrel men, and well known to many persons here and throughout the state, died at his home in Marion, Ohio, Sunday night.

Mr. Gano had been ill for many months and his death was expected. Funeral services were held in that city yesterday afternoon.

As an entertainer, Mr. Gano was famous throughout the South and was a favorite of many a young person. Every part of the Cuban Show he presented, in every case Mr. Gano's personal popularity convinced the touring party. He was the honor guest at numerous dinners and gatherings in Sanford during the past 15 years, and this popularity was extended to every section of Florida.

PUBLIC PROBE IN GOTHAM HAS MORBID TURN

Suicide And Attempted Suicide Blamed On Crooked Action Of City's Official

NEW YORK, Mar. 17.—(A.P.)—William J. Flynn, commissioner of public works in the Bronx, was accused before the Hofstadter investigating committee yesterday of persecuting a business man until his wife committed suicide and the man himself attempted to take his own life.

Louis H. Willard, building contractor, brought the spectacle to town by testifying Flynn caused Mrs. Willard to kill herself and him to take poison as the result of five years of badgering over his attempts to build a public garage on a piece of Bronx property.

"I lost everything my investment and everything I held dear," he said with his voice breaking. "Mrs. Willard, my wife, on this account took it so much to heart that she said, 'Here, you can't beat that dirty dog,' and she committed suicide, and the one who brought that about, that state of affairs, is that yellow dog sitting over there."

Flynn, suave and collected, sat with his derby hat in his hand. After an hour of Willard's testimony he took the stand and denied he had used his political power to publicly position to prevent the builder from improving his investment.

Two Dollar Bills Started By Col Run Their Course

The other dollar passed into the following hands: A. E. Colburn, Sanford Furniture Co.; Seminole County Credit Association, Andrew Carraway, E. L. Moley, E. E. Cuts In U.S. Salaries Are Being Proposed

WASHINGTON, Mar. 17.—(A.P.)—A bill drastically cutting the salaries of all government employees is being drafted by a special House economy committee.

Estimates of the savings to the government, said Chairman Byrns, ranged from \$50,000,000 to \$100,000,000 depending upon the percentage cuts to be made. A 20 per cent cut in salaries of members of Congress and employees making \$10,000 and over is expected to be adopted. The committee has not decided on the limits and exemptions of the bill but it was said to be certain to adopt a drastic cut.

ORANGE CIRCUIT COURT CLERK IS GIVEN ACQUITTAL

ORLANDO, Mar. 17. It took a jury 11 minutes to find Capt. H. M. Robinson clerk of the circuit court charged with embezzlement of \$672, not guilty yesterday at the end of two days' trial.

The trial lost all trace of performance late in the afternoon with the appearance on the stand of Capt. Robinson the last witness to be summoned by the defense.

As to what had become of the money he said he had no independent recollection. He was charged with embezzlement of the money in 1925. C. P. Dickinson, leading defense counsel, contended that since an auditor's reports showed Capt. Robinson had kept \$20,000 in addition to the \$6,000 to which he was entitled in 1925, it was hardly reasonable to suppose that he had hoarded to embezzle \$672.

A check of the docket entered the trial as Capt. Robinson, 46 year old defendant, traced his history. He was born in Alabama, served in the Confederate army, and succeeded Col. J. N. Bradshaw as clerk of the Orange county circuit court in 1905. Since early in 1908 he has lived in Florida, he said.

Doctor Will Lecture Upon Social Hygiene

Dr. Vladimir M. Parker of the American Social Hygiene Association, a national authority on the complete social hygiene problem of today, will deliver an illustrated lecture at the Milano Theater next Wednesday morning at 10:00 o'clock. Her appearance here is sponsored by the Seminole County P. T. A. and a small remuneration will be asked.

The State Conference of Social Work, and the State Board of Public Welfare are the direct sponsors of her appearance and they extend an urgent invitation that all parents and friends of children attend the lecture.

In her brief address, Dr. Parker will primarily answer the following questions: How can we prevent the increasing pressure of modern living conditions from slanting the childhood of this generation? Is Sanford organized to meet its hygiene welfare problems? Are Sanford parents adequately informed about local and state wide social problems to give a true picture of conditions in Sanford and Florida?

Public Hearing Will Be Held Upon Bridge

War Department engineers will arrive here tonight to make ready for a public hearing at 10:00 o'clock tomorrow morning in the City Hall, on the proposed concrete bridge across the St. Johns River at Lake Monroe.

Plans for this bridge have already been appropriated by the state and the United States government is expected to supply a portion of the cost. To ascertain whether the bridge itself or its location is suitable to the residents of this section, the government holds the public hearing for the purpose of setting down all arguments for or against the project.

The Seminole County Chamber of Commerce will be represented by members of its highway and waterway committees, as well as some of its officials. All persons are invited to attend.

ROOSEVELT IS EASY VICTOR IN DAKOTA VOTING

Maintains Nearly Two To One Lead Over His Opponent, Gov- ernor Bill Murray

FARGO, N. D., Mar. 17.—(A.P.)—Franklin D. Roosevelt won the North Dakota Democratic presidential preference contest in Tuesday's primary on the face of returns tabulated by The Associated Press election bureau last night from more than one-half of the state's 2246 precincts.

In 1324 precincts Roosevelt maintained a nearly two to one lead, receiving 33,125 votes, while his opponent, Gov. William H. Murray of Oklahoma, polled 19,116.

With 48 of the state's 53 counties reporting partial returns, Roosevelt held a lead in 40, while the others gave Murray the majority.

Incoming returns added to the Roosevelt lead, which has run close to two to one throughout the tabulations.

Former Senator J. I. France of Maryland, won the Republican presidential preference race, defeating "General" Jacob S. Corey, mayor of Massillon, Ohio. France maintained the lead from the outset and additional returns showed the trend in his favor.

Returns available were incomplete tabulations from almost every county in the state.

Roosevelt consistently kept in the lead in a majority of the counties reporting incomplete returns, and with his margin of a nearly two to one vote appeared to have safely outdistanced his opponent, Murray. However, he has a heavy rural vote for him, but although the rural returns came in in lesser number than from urban centers, there were sufficient reports on rural votes to indicate Murray had waged a losing battle.

Buddy Lake Writes His Friends About Training Activities

Sanford baseball fans and friends of young Buddy Lake, 18-year-old pitcher who has a season in the Central Florida League last year, will be interested to learn that he is meeting with considerable satisfaction both to himself and Ben Cantwell and S. A. Rive, his sponsors, while trying out at St. Petersburg.

He has written several letters to his family and friends here, and appears to be enjoying the arduous grind of daily training under the eye of experienced major league players.

Mr. Rive, who has taught the boy much of what he knows of baseball, received a letter from young Lake, this morning. It is replete in fullness of a youngster speaking his first try-out among the luminaries of baseball.

"Dear Sid: Well, I've been down here two weeks now Sid, and have just seen my first big league game. The Yanks beat us this afternoon, 11-4 but up to the sixth inning it was a swell game because Frankhouse held them scoreless. But, just as soon as the pit pitcher went in they began to hit and score.

City Makes Deal For Right-Of-Way Along Boulevard

(Continued from Page One) from Myrtle Avenue west to the City limits, to be used as a state highway, but which will revert back to the City in the event the road is not constructed and completed in three years. Mr. Lehman again voted "nay."

The only remaining matter was the official signing of the deed for this property to the State Road Department, after which City Engineer Fred T. Williams was given a vote of thanks and appreciation for the efforts he has made in connection with securing the right-of-way.

The deed will be taken to Tallahassee on Friday by a representative of the Commission, and presented to the State Road Department, meeting to discuss road matters, and let bids on various projects.

Dolly Gann Sees Big Importance In Electing Hoover

BOSTON, Mar. 10.—(A.P.)—The importance of re-selecting President Hoover, Mrs. Dolly Gann said last night, transcends all other issues which will confront the electorate in the coming national election.

Mrs. Gann, the sister of Vice President Curtis, spoke before the monthly meeting of the Business and Professional Women's Republican club of Boston.

"In all seriousness and candor and not abating in any degree my staunch support of the protective tariff, of a sound currency, of law enforcement and all the other great tenets of the Republican party," said Mrs. Gann. "I yet believe that the re-election of Herbert Hoover to the office of president is more to be desired than any one thing for which we will contend in the coming campaign, and, therefore, should be made the dominant paramount issue."

"It is too obvious for arguing national election. Mrs. Gann, the sister of Vice President Curtis, spoke before the monthly meeting of the Business and Professional Women's Republican club of Boston.

State High Court Backs Validity Of Corporation Tax

TALLAHASSEE, Mar. 17. (A.P.)—The state supreme court yesterday upheld the validity of Florida's corporation tax law.

The measure requires all corporations doing business in Florida to file annual reports with the secretary of state and to pay annual filing fees based on the amount of their capital stock. The fees range from \$10 to \$1000 a year.

In upholding the law, the supreme court reversed Circuit Judge E. C. Love of Quincy, who granted the Central Florida Lumber company an injunction halting enforcement of the act on the ground it was unconstitutional in several respects.

The lumber company, a Minnesota firm doing business in this state, named Secretary of State Gray defendant in the suit since he is enforcement officer for the measure.

Justice Glenn Terrell wrote the court's opinion. Chief Justice Bradford and Justices Whitfield and Davis concurred. Justice Ellis dissented and Justice Brown did not participate in rendering the decision.

The court called the levy made under the law a franchise of privilege tax and not a property tax. It held that the state had the right to classify businesses for taxation so long as the classifications are based on reasonable and fair grounds.

It declared the title of the act contained no constitutional defense and maintained that the state may suspend the rights of franchise for failure to comply with the law.

It said there was no unlawful discrimination between corporations with par value stock and those with no par value stock but that did not pass on the validity of section 12 of the law and which the secretary of state fixes the taxable rate of shares having no par value. The question was not properly raised in this case, the opinion stated.

Governor Carlton said he was both pleased and relieved when he read of the supreme court's decision. He said the state needed every one of its revenue laws if it is to continue meeting its operating costs.

Secretary of State Gray said his office collected approximately \$100,000 under the law before Judge Love issued his temporary

Large Throng Views Queer Dragon At Zoo

Nearly 1000 persons have now had their first view of one of nature's queerest animals, a Komodo dragon, which has been on exhibition at the Sanford Municipal Zoo since last Saturday and will remain there for an indefinite period.

The turn in the weather has so seen an increase in the daily attendance at the Zoo, which will soon be made more attractive by the addition of other animals and birds of curiosity.
