It's Tim's move, and he is taking a long time thinking it over. In chess, if you're a good player, you don't play quickly. If you do, your opponent may outwit you. Military strategy, they say, is based on the rules of chess. So are many of the "higher games" in business and finance. Yet, when it comes to life itself, the rules of chess apply ir only a limited way. In life, you can't be totally chiective. You can't exist on logic

The Church teaches that though we surely need logic in order to live successfully.

Although life is not a game, we must have the help and strength of the Church to discover those rules that will determine our ultimate destiny.

Baptist Strategy

It's Tim's move, and he is taking a long time thinking it over. In chem, if you're a good player, you don't play quickly. If you do, your opponent may outsit you.

Military strategy, they say, is based on the rules of chees. So are many of the "higher games" in business and finance. Yet, when it comes to life itself, the rules of chees apply in only a limited way. In life, you can't be totally objective. You can't exist on logic

The Church teaches that though we surely need logic in order to live successfully, we also need compassion, tolerance, love, understanding, and the strength that comes with faith.

Although life is not a game, we must have the help and strength of the Church to discover those rules that will determine our ultimate desting.
