**Hirohito May Pay Respects To MacArthur**

(Continued From Page One)  
 traffic in currencies and negotiable assets and moved to free the yen press.  
 Stopping Dornis agency of special privileges, the order paves the way for the establishment of a new and truly competitive news agency.  
 Meanwhile, Marquis Kido, lord keeper of the privy seal, said Emperor Hirohito received President Roosevelt's peace plea and the U.S. State Department's Nov. 24, 1941, peace memorandum—but ignored them both when high Japanese advisors told him it was useless to resist the rising war tide in Japan.  
 Japan's top field general was killed and with former dictator Hideki Tojo and other suspected war criminals faced speedy trial, monthly within a month.  
 Simultaneously the Nippon Times, said the commerce ministry would order all major mining and manufacturing companies to make financial reports in the first step toward stripping Japan of war industries.  
 Close behind the announcement yesterday of Washington's directive for the roundup of all the war-makers of Japan, Gen. MacArthur declared that trials by military tribunal would begin soon.  
 That was interpreted here as meaning some would begin in

October. A dispatch from Manila said it was possible some of the first cases there might be started within a week.

**General Stenstrom**  
 Latest to join the swelling population of top suspects in the Philippines was Gen. Kenji Doihara, sinister figure in Japanese military intelligence, who surrendered today.  
 Doihara only recently had been placed in command of the Japanese First army despite his record as a leader in the conquests on the Asiatic continent, where he was known as the "Lawrence of Manchuria."

Doihara arrived with some of his staff at the city hall and was unceremoniously escorted to the prison, where 34 other suspects are confined.

It also was announced that Watanabe Wicket, Siam's ambassador to Japan, was taken into custody at Miyanoshita, near Tokyo. He is another on MacArthur's "wanted" list.

**NEWSPAPERS WARNED**  
**NEW YORK, Sept. 24. (AP)—**The American Newspaper Publishers association warned yesterday that despite the lifting of government restrictions on newspaper newsprint supply—start any great increase of consumption next January beyond what they have been consuming in 1945 there will be shown added to the present bad supply situation.

Cranston Williams, ANPA general manager, said in a statement.

**Deacons Are Elected By Baptist Church**

John Miller and Douglas Stenstrom were the two high men in voting Sunday at the First Baptist Church for the office of deacons.

However, as Mr. Stenstrom intends to attend the University of Virginia, he was unable to accept the office, which will be filled by

H. M. Pearce who was third in voting.

In a survey of hearing embracing more than 1,000,000 school children in New York City, it was found that 10 per cent had a hearing loss of nine decibels or more in one or both ears and about three per cent had a hearing loss of 15 decibels. The normal hearing range is 125 decibels.

We can now offer the very finest in

**H. N. Sayer**  
 City Registration Officer

**A frank statement about the gasoline situation**

**WHEN** the history of World War II is written, the contributions of the American oil industry will make a big chapter. Since Pearl Harbor, for instance, it refined 90 billion gallons of gas—82% of all the gas produced by the United Nations. This year, U. S. production of that super fuel, aviation gas, reached the incredible total of 22 million gallons per day! We, the American Oil Company and the Pan American Refining Corporation, are proud of our part in this great achievement.

Petroleum science has learned a lot in war. Great progress has been made. There will be better gasolines—yes! But they won't be atomic. No fuels will take you zooming to Mars. They won't make your car into a B-29.

Now the oil industry is rapidly being converted to peacetime use. Tankers are being released. Restrictions of all sorts are being lifted. Of course, all this can't be done in a day. Benefits for motorists are coming. First came the end of rationing. Better grade gasoline is rapidly going back to the pumps.

Our fuels will embody all of the latest scientific advances of the oil industry. Behind them are the great facilities of the American Oil Company and its affiliate, Pan American Refining Corporation.

**AMOCO-GAS and AMERICAN GAS** have always been honest products—honestly described. You will buy with confidence knowing that no finer motor fuels can be made. It's not what's in the ads—it's what's in the pumps.

## Jap Army Food Given People By MacArthur

### Allied Chief Insists Occupation May Be Years Though Force Could Be Small

FRANKFURT ON THE MAIN, Sept. 26. (AP)—General Eisenhower today summoned General George S. Patton to make a personal report on desecration in Bavaria. Eisenhower asked for an immediate report on Nazi still holding office in the Third Army territory and requested Patton to give a personal account of his stewardship in Bavaria early next week.

TOKYO, Sept. 26. (AP)—MacArthur today stripped Japan's Army and Navy of all equipment, directing that their stocks of food, and clothing be turned over to the famine-threatened civilian population under a strict accounting. Meanwhile, a member of the Japanese House of Peers, Marquis Yasuhiko, proposed in an interview that Emperor Hirohito withdraw from all political affairs, in order to eliminate a "riptide around the throne" and demoralize the Japanese. The Jap Privy Council approved the reorganization of the Japanese central liaison office, through which MacArthur's commands are effectuated, to include representatives of all government fields.

TOKYO, Sept. 26. (AP)—General MacArthur declared yesterday Japan might be occupied "many years" although the conquering force would be small "under favorable conditions"—presumably if the fallen empire behaves.

His denial of reports that occupation might end in six months came as Japan embarked on an economic transition that will erase the last vestige of the world's greatest silk producer. Faced by the stark prospect of mass starvation this winter, the Japanese Ministry of Agriculture announced that all but 75,000 of the 1,225,000 acres of mulberry trees that fed the silk worms would be plowed up for food crops. These were the other pillars of the transformation of Japan from a world power into a fourth-rate island nation. The Nippon Times reported that the moving picture industry was to be brought to this station in order that its training with this plane may complete it.

He added that the Sanford station will continue its present program of training students with the Grumman FM2 type aircraft.

The influx of personnel will crowd the station's sleeping and eating facilities and Comdr. Usary said that any citizen who has rooms, apartments, or homes to spare should notify Lieut. Fred Williams, housing officer, Sanford Naval Air Station.

The head of Domst, stripped by MacArthur of its monopolistic prerogatives, said he would recommend to directors the disbanding of this news and propaganda agency that once spoke for the militarists.

The Sanford Outboard Association will meet Friday night at the Chamber of Commerce Building at 8:00 P.M.

The Townsend Club will not hold its scheduled meeting this week but will meet next on Thursday, Oct. 4.

T.W. Lawton and Dr. H.H. McCaslin will have charge of the Kiwanis program Wednesday during which James L. Ingley will speak on the Bretton Woods financial agreement.

The regular meeting of the Sanford Board of Realtors will take place Friday afternoon at 4:00 o'clock in the City Hall at which time important business will be transacted, according to Edward F. Lane, president of the board.

Friday will be the last day in which persons, white or colored, may be x-rayed by the State Mobile Unit, which today made x-rays in Longwood and which will be in Lake Mary, Thursday. All high school students over 15 will be x-rayed on Friday morning.

The State Mobile X-Ray unit today was in Longwood, and will be in Lake Mary on Thursday, and Sanford on Friday, which will be the last chance for x-rays of those who may have missed examination. Friday morning an x-ray of high school students of 15 years of age or over will be made.

## Congratulating New Justice

IN HIS OFFICE AT THE WHITE HOUSE, naming President Harry S. Truman congratulates Sen. Harold H. Burton, Ohio Republican, who has been nominated as an Associate Justice of the Supreme Court, on his confirmation by the Senate earlier the same day. (The International Soundphoto)

## 600 Officers And Men Coming Here From Melbourne

### Additional Personnel May Crowd Living Accommodations

Lieut. Comdr. Jack Usary, executive officer of the Sanford Naval Air Station said today that Monday the Sanford Air Station will begin to absorb approximately 400 enlisted men and 200 officers, who will be sent from the Melbourne Naval Air Station to complete their operational training here.

In accordance with the statement made recently by the Assistant Secretary of the Navy for Air, Sullivan, that 74 naval aviators are to be designated surplus during the last quarter of this year or the first of next, the Melbourne station is being closed.

Comdr. Usary said the Melbourne station has been training operational students with the Grumman F6F type aircraft. This aircraft is to be brought to this station in order that its training with this plane may complete it.

He added that the Sanford station will continue its present program of training students with the Grumman FM2 type aircraft.

The influx of personnel will crowd the station's sleeping and eating facilities and Comdr. Usary said that any citizen who has rooms, apartments, or homes to spare should notify Lieut. Fred Williams, housing officer, Sanford Naval Air Station.

## Congress Blocks Effort To Pay More To Idle

WASHINGTON, Sept. 26. (AP)—Attributing the action to idleness caused by rapidly spreading strikes, a Republican-Democratic coalition on the House Ways and Means Committee yesterday pigeonholed all proposals for more pay for the unemployed.

Angered labor union leaders immediately opened a campaign to reverse the committee's action. Chairman Knutson of Minnesota, senior ways and means' Republican, told reporters, "There are so many out on strikes it is impossible to tell just what the unemployment problem is."

The vote was 14 to 10, with 10 Republicans voting solidly for the shelving motion offered by a Democrat Representative Mills of Arkansas.

Chairman Doughton (D NC) announced the committee will turn tomorrow to the first peacetime tax bill, expected to ease the heavy wartime burdens.

The strike feature was the deciding factor in the committee action, Representative Knutson of Minnesota, senior ways and means' Republican, told reporters, "There are so many out on strikes it is impossible to tell just what the unemployment problem is."

## C. of C. Elects H. H. Coleman As President

### Work Of Chamber In Past Year Is Outlined By Lawton At Annual Election

H. H. Coleman, manager of the local office of the Florida Power and Light Co. was elected president of the Seminole County Chamber of Commerce for the coming year at a meeting of the board of directors at the City Hall last night. Prior to his election J. W. Lawton, president, had announced that he would not be a candidate for re-election as he had already served two terms.

Other officers elected were Len Tesler, first vice president; Ed Higgins, secretary; J. L. Higley, treasurer; R. L. Cornell, vice president; District No. 1, E. G. Klopstok, vice president. District No. 2, J. A. Borkum, vice president; District No. 3, B. F. Wheeler, vice president; District No. 4, and W. G. Kilbee, vice president, District No. 5.

The election followed a report by the nominating committee, composed of R. L. Dean, chairman; H. B. Pope, Arthur Yowell, H. Tomes Gut and Sanford Dangel, members. The committee was appointed by the board. The nominating committee was appointed by the board. The nominating committee was appointed by the board.

In the absence of Mr. Coleman who was attending a meeting of Florida Power and Light Co. in Jacksonville, Mr. Tesler presided over the election and expressed his appreciation for the confidence of the directors in himself and the other officers.

As the result of a suggestion of Fred K. Wilson, a visiting vice of Orlando, was extended to Mr. Lawton for his selfless service to the organization and to the community during the past two years.

Proceeding to the election of officers, and at the suggestion of Mr. Lawton, the board elected the following officers: President, H. H. Coleman; Vice President, Len Tesler; Secretary, Ed Higgins; Treasurer, J. L. Higley; Vice President, District No. 1, E. G. Klopstok; District No. 2, J. A. Borkum; District No. 3, B. F. Wheeler; District No. 4, W. G. Kilbee; District No. 5, H. H. Coleman.

Reminiscing upon the "golden age of childhood" and books that "fling you back upon your own memories and prejudices" Mrs. R. L. Dean chose "The Hundred Best Books" as the subject for her talk at the dinner meeting of the Pilot Club held at the Hotel Mayfair in honor of Mrs. Dean's professional life.

Mrs. Dean, professor of English at the University of Florida, spoke on the "golden age of childhood" and books that "fling you back upon your own memories and prejudices" Mrs. R. L. Dean chose "The Hundred Best Books" as the subject for her talk at the dinner meeting of the Pilot Club held at the Hotel Mayfair in honor of Mrs. Dean's professional life.

## N. Y. Garment Workers Idle In Lift Strike

### 15,000 Striking Elevator Men Throw 300,000 Clothing Men Out Of Jobs

The Associated Press  
The strike of 15,000 New York A.F. of M. elevator men and building maintenance men continued today, not only bringing commercial activity to standstill but virtually crippling the city's huge clothing center.

It is estimated that 250,000 to 300,000 clothing workers will be out of jobs as a result of the strike. The clothing industry is estimated to lose \$100,000,000 a day as a result of the strike.

WEDNESDAY, SEPT. 26, 1945
BIBLE VERSE FOR TODAY
PROUD OF OUR PEACE ACROSS THE STAGE, BUT SPEEDILY END IN THE ASH HEAP, GOD DOES NOT FANCY PROUD PEOPLE. James 4:16

Admonition
(From The Poetry Chap-Book)
Release the precious hour, and it will grow
Secretly, making new meetings,
Free the fancy.

We see where President Truman has given a \$250,000 airplane to General Charles DeGaulle of France. That represents enough money to have built a pretty nice hospital.

Senator Wagner says that the "Full Employment Bill" is a guarantee against the next depression. Yeah, just like the Wagner Labor Relations Act was a guarantee against strikes, eh, Senator?

General MacArthur's censorship code for the Japanese is based primarily on the demand that Jap newspapers confine themselves strictly to the truth. A little censorship of that kind wouldn't hurt anything in this country.

Unemployment benefits paid to those not working in Florida increased from \$36,379 to \$50,678 during the past week and the number receiving "rocking chair" compensation rose from 2,006 to 2,127.

The St. Johns River is up over the Geneva and Osteen roads and both have been closed to traffic. In some places it is over the bulkhead in downtown Sanford.

On top of the news that Henry Wallace and certain other left wing New Dealers are trying to get the United States to give the secrets of the atomic bomb to Russia, the country with whom we are more likely to be at war than any other within the next 20 or 30 years, comes the revelation that the atomic bomb itself is already obsolete and that new and more powerful developments are being made which will fall on "us" by comparison.

Wanted: A Hospital

We are glad to see the Lions Club making a study of the Sanford hospital situation its Number One project for the post-war era. We believe if this investigation is carried far enough, without fear of treading on anyone's toes and without overlooking the advances which have been made in hospitalization in more progressive communities, it will reveal most clearly the crying need which exists in this county for vastly improved hospital facilities.

We have brought out time and time again that dying people have been denied the benefits of hospitalization because of over-crowded conditions. We have shown by statistics how much higher the death rate is where maternity cases cannot be taken to a hospital. We have shown that in cases of accidents critically injured persons have been forced to lie in the halls virtually unattended because of inadequate accommodations and facilities.

Mrs. Edward Kircher, secretary of the Seminole County Tuberculosis Association, in a talk before the Rotary Club Monday, revealed that there are 50, perhaps 100, persons in Seminole County who are victims of this dread disease, who can neither get into a hospital or a rest home, and everyone of whom is a potential spreader of the disease. She estimated that for every case of tuberculosis at large, ten new cases are likely to result.

What is said here with respect to tuberculosis is no less true with respect to dozens of other types of disease. There are literally hundreds of cases which ought to be confined to hospitals which can't be because there isn't room. If there were, the patients would have an infinitely better chance of recovery. And the cost of caring for them in a proper manner would be greatly reduced.

Many previous efforts have been made here to obtain adequate hospital accommodations. They go back some twenty years when a \$250,000 bond issue was voted by the people to build a modern and up-to-date hospital. They include repeated efforts to get one built when the PWA and the WPA were in full flower. That these efforts have not with repeated failure should only serve to strengthen our determination to see to it that our next effort proves more fruitful.

Success will not be attained, however, without unselfish, whole-hearted co-operation among all those who really believe in doing something to help people who are actually in distress. We in the little town of Sanford can pay out millions of dollars in federal taxes for doles to able-bodied men unwilling to work or for political handouts to foreign nations, but when it comes to supplying the money to build a hospital for the sick and injured, there are too many who become tax conscious.

If ever there was a humanitarian project which deserves the consideration of a people's government, it is adequate provision for those who are sick and unable to care for themselves.

Paper Match Promoter

Paper matches are so common, or were until the war, that they seem to have been always with us. Yet they are recent enough to have been the achievement of one man, Henry C. Traute of New York, who has just died at 79.

In 1895 the large match company with which Mr. Traute was connected bought the patent for book matches from the inventor, the late Joshua Pusey of Philadelphia. Mr. Traute had the assignment of popularizing them. He had a hard time of it.

The first book matches had striking surfaces dangerously near the match heads, and were bulky, often having as many as 50 matches apiece. Mr. Traute had the striking surfaces put outside, cut down the number of matches per book to 20, and first sponsored the slogan, "Close Cover Before Striking."

Now as many as 200 billion books of paper matches are turned out annually. This growth from next to nothing has come within the lifetime and largely as the work of one man.

Sanford Forum

Dear Mr. Dean:
I am asking that you publish this letter in order that there might be cleared up in the minds of certain people, their misunderstanding of various statements that I made while addressing the Rotary Luncheon Club on Monday.

My criticism was in nowise directed at the medical profession here in Sanford. In my estimation they are doing their best with such limited facilities as are at their disposal. However, my entire talk was given with a fervent hope, even prayer, that the citizens of this town might be awakened to the responsibility that is theirs. It seems to me that as long as the finger of tragedy does not touch the smugly secure lives of many, they give no thought to such things as human needs, and how they might assist in meeting them. And to some, finally, when tragedy does strike, because they have done nothing to help the local situation to offer the best in care and facilities, they frantically take the stricken loved one to other hospitals still not caring that there may be countless others needing the same care and attention. In my mind, Mr. Dean, these things ought not to be! It is impossible for people to live independently of one another and therefore, because we are brothers all, whether we accept it or not, we have a definite responsibility to each other.

I knew only sincere gratitude that our local hospital could open its doors to my husband in our time of need. My criticism was not that he lay there in a crowded room, but that those crowded rooms bespeak carelessness and indifference on the part of those of us who are citizens and supposedly good ones at that. I began to ask myself, "What have I done to better this condition? What efforts have I made?" I was ashamed to say to myself that heretofore I had not given it a thought. Therefore my talk was the outcome of my decision that I would use what possibilities I have at hand to carry out my responsibility to the wife who looked hopefully into my eyes and said, "What can I do, where can I go?" Those things are not easily forgotten. True it is, that providentially my husband is receiving the necessary care, yet may someday trail again because of that, but there are countless others to whom no such hope is offered in their dire need. How can we as supposedly Christian people and humanitarian minded Americans, accept anything less than what we know to be the best because we ourselves, have invested our best?

Sanford is due for a shock—the reports on new cases of Tuberculosis are nothing short of appalling, and the end is not yet! I am not speaking as an alarmist, nor as a sentimentalist but as one who actually knows these things as facts and feels that we must come to life and act now! As long as Tuberculosis patients are running free, unisolated, naturally the rise in numbers of new cases will steadily increase. We have nothing to offer these victims who, not by their choosing but because we have offered them no alternative, are continuing to infect many innocent victims.

When I spoke of a man in the room with my husband, I said that his disease was as yet unnamed, not diagnosed. I did not mean that it was a thing of questionable nature. But there again, what facilities have we provided for such a patient in a hospital that strict isolation can be given cases until diagnosis is made. I have said enough, yet perhaps even too much, but at least Mr. Dean, I feel that I am beginning, though in a minute way, to meet my responsibility to the man and woman, the boy and girl, who is my neighbor. Thank you for publishing this letter.

Sincerely yours,
Mrs. Edward Kircher

FLORIDA VALUES
TALLAHASSEE, Sept. 26. — (FNS)—The taxable value of Florida real estate and personal property for 1945 is \$1,745,352,980 or \$49,041,973 above the valuations of last year, it was reported by Comptroller J. M. Lee. Lee made his report after completing approval of tax rolls submitted by 67 county assessors. All but four Florida counties showed higher overall taxable property valuations for 1945. Generally those counties with war industries and military installations showed the greatest increase.

The coconut palm trees fringing Palm Beach (and Trussville) are the result of the wrecking of a Spanish cargo of coconuts off the Atlantic coast in 1879.

C. Of C. Elects H. H. Coleman As President

Continued From Page One
W. A. Laffler, the directors voted to refer an amendment to the rules committee asking that the office of president be restricted to one year for any one individual "as a means of developing broader leadership in the community."

In announcing his decision not to be a candidate for re-election Mr. Lawton paid tribute to the work of Manager Higgins and outlined some of the achievements of the organization during the past year. He mentioned particularly the deepening of the St. Johns River to 12 feet which has been approved by the Board of Army District Engineers in Atlanta, and the assistance lent in getting work started on Roads 44 and 203.

He also mentioned the St. Paul baseball club which the Chamber has managed to train back next Spring, the formation of a traffic committee on freight matters and the hiring of an additional names, and assistance lent in promoting War Bond drives.

Other projects fostered by the Chamber of Commerce were listed as the creation of an advertising fund of \$7,500 for post-war advertising, the establishment of a local business efforts toward further utilization of the Naval Air Station in the post-war era, rechecking of the State census resulting in 2,700 additional names, and assistance lent in promoting War Bond drives.

## Lieut. Virginia Angela Ludwick Is Married To Jennings LaVerne Hurt, Jr.

In a simple impressive ceremony in the presence of the immediate families, Lieut. Virginia Angela Ludwick, U.S.N., daughter of Mr. and Mrs. H. Ludwick of South Bend, Ind. was married to Jennings LaVerne Hurt, Jr., son of Mr. and Mrs. J. L. Hurt Sr. at a nuptial mass at 10:00 A.M. at a nuptial mass in the All Souls Catholic Church with Father William Nachtrab officiating.  
The altars of the church were adorned with white roses as parasol fern, and lighted tapers in branched candelabra. Mrs. E. Roumillat, organist, played the traditional nuptial mass music.  
The bride, who was given in marriage by J. L. Hurt Sr., wore a beige fitted gabardine suit with a tone matching satin blouse. Her veiled Juliet cap was of black sequins and was worn with black patent accessories. Her shoulder corsage was of orchids.  
Immediately following the ceremony a reception was held in the home of Mr. and Mrs. J. I. Hurt at 901 Oak Avenue for the bridal party and the immediate families.

## TERRACE TALK

Since the talk of back-to-school is still in the air, we give you the best cosmopolitan story from Bernard Newman's "Pedaling Poland." "Paderewski told the story of the professor at an unusually cosmopolitan university who had to set a thesis for his class, he chose as the general subject, "The Elephant." The English student at once headed his thesis, "The Elephant and How to Hunt Him." The Frenchman produced a sparkling dissertation under the title, "The Love Life of the Elephant." The German considered the gastronomic possibilities of the Elephant. The Russian, after smoking several hundred cigarettes, produced the startling caption, "The Elephant Does it Extra!" And the Polish headed his thesis, "The Elephant and the Polish Question."  
Word has reached our ears that JENNINGS HURT is a V.I.G. GINA is very attractive and charming. She hopes to receive her discharge from the Navy in about ten days.  
Along with inheriting a COMDR and MRS. SUREN'S residence on the Naval Air Station grounds, LIEUT. COMDR and MRS. BREN also inherited their wonderful music COMDR BREN is the current training officer.  
If possible try to hear Oscar Lavanti's recordings of the German tunes especially Rhapsody in Blue.  
MRS. WILLIAM GIMORE the former JANE SCHULTZ has blown in from Texas for a stay. She is looking fit as a fiddle and just loves California and Texas.  
Among the attractive young stars seen about town, chiefly dressed have been RUBIN POTTER and mother, MRS. ED POTTER, JOHN MANN, and mother, MRS. ROY MANN, LUCIA AND WHIT CHASE, and mother MRS. FRANK CHASE, CORKY HIGGINS and mother, MRS. JIM
