Roman Dignity Bans "Charleston" Dance

ROME, Dec. 1.—Rome has turned a cold shoulder to the "Charleston."
Jazz dancing to the tune of wailing saxophones and crashing trappings of Americanized bands long has been in vogue here. Even "blues" numbers have had their devotees. But the hip-swaying gyrations of the latest Americanized dance are considered just a bit too much.
The "Charleston" therefore, is almost unknown in Rome's three cabarets, although it is occasionally seen on the dance floors of large hotels patronized by Americans.
All efforts to increase its popularity among the Romans have met with the objection that its popular adoption would represent too great a relaxation in the traditional dignity due Rome as the home of the Paucy.

POMP ATTENDS SIGNING OF LOCARNO PACT

Representatives of Leading European Countries Sign Names To Treaty That Will Maintain Territorial Lines

Measure Is Signed In Victorian Hall

Four Subsidiary Treaties Of Lesser Importance Adapted In Regard To Arbitration

LONDON, Dec. 1.—(AP)—The treaty of Locarno, made between the leading powers of Europe and binding their governments to maintain the territorial frontiers established by the treaty of Versailles, even to the extent of war, was signed here today.

The ceremony took place in the Victorian reception room of the foreign offices, renowned in pre-war Europe for the brilliant gatherings of statesmen and diplomats, who accepted the hospitality of the British monarch's secretary of state for foreign affairs.

Among the figures of the early century statesmen who gathered in the gilded room, but who no longer are concerned with the affair, Grand Duke Nicholas of Russia and Count Apponyi, the representative of the Hapsburgs.

Gilded Lustre Restored

During the war this room, with the adjoining banquet hall and dining room was abandoned to typists who were moved only a few weeks ago. Workmen had restored the gilded lustre and the color of the walls, flags of the nations were distributed about and a thick, heavy red carpet hid the ink spots and blurs on the once polished floor.

The treaties were not, as is usual in the case, engraved on parchment, but only printed in French, German and English on fine paper, with the fourth and last pages left almost blank for the signatures.

The signatures were placed in alphabetical order of the names of the countries, and arranged so that Luther and Foreign Minister Stresemann, representing Germany (Allemagne) were the first to sign.

After the signing, the German plenipotentiaries proceeded to Buckingham Palace to sign the Register. Afterwards they attended a private luncheon with Mr. Chamberlain. The plenipotentiaries of Great Britain, France, Germany and Italy affixed their signatures to the document.

Subsidiary Pacts Signed

Four subsidiary pacts, pledging the use of arbitration in the event of boundary disputes between Germany and each of her neighbors, France, Belgium, Poland and Czech-Slovakia, were signed at the same time.

The several copies of the treaties were signed and sealed for their governments by the men who created them at Locarno in October, Austen Chamberlain for Great Britain; M. Briand for France; Dr. Stresemann and Chancellor Luther for Germany; and Candeloro for Belgium; Spiala for Italy. The arbitration treaties were signed on behalf of Poland by M. Skrzynski, the premier and of Czech-Slovakia by its prime minister, Eduard Benes.

Local Syndicate Completes Arrangements for Purchase 270-Acre Chappell Tract

Realty transfers approximately \$500,000.00 were announced today by the Scruggs-Scoggin Realty Company, Inc., final consummation of the deals being effected following some weeks of negotiations with Sanford and Orlando buyers.

One of the largest deals closed by the firm was the sale of the 270-acre Chappell tract to Sanford Shores, Inc., a local syndicate composed of Forrest Lake W. M. Scott, E. L. Markel and P. H. Scruggs.

A business lot fronting 310 feet on Cypress Avenue and 100 feet on Lake Monroe, and a warehouse site between Myrtle and French Avenues are among other deals announced by the firm.

The lake front lot near Myrtle Avenue was sold to Orlando interests for a sum approximating \$250,000. It was stated.

In commenting on the rapidity with which lots were being handled by his office, Mr. Scruggs declared that sales had already passed the \$75,000 mark.

REGISTER IS DETAINED IN ORLANDO JAIL

To Be Charged With Murder Of Orange County Taxi Driver; Will Also Face Trial For Murder Here

Orange County Grand Jury First To Meet

George Garrett, John Little, Washburn and Wallace Oglesby Held As Accessories

County Sheriff C. M. Hand intimated today that Heywood Register, now in the county jail at Orlando awaiting action of the grand jury on a charge of murder, may never be tried here for the murder of Leroy Simpson last August.

The Orange county grand jury will be in session Thursday and is expected to immediately return an indictment for first degree murder against Register.

Owing to the fact that court convenes in that county previous to the opening of the Seminole county court, it is believed that Register will be tried, convicted and sentenced before he is even indicted in Seminole county.

It is stated that Orange county officials have a very clear case against the accused and also his reported accomplice, Joe Tracy, who is also in the Orange county jail.

However, Register was brought to Sanford Saturday and arraigned before Judge Sharon on a charge of murdering Leroy Simpson last August. He was later returned to Orlando.

At their preliminary hearing before County Judge J. G. Sharon last Saturday, Joe Garrett, John Little, Wallace Oglesby and Floyd Washburn were all bound over to await the action of the Grand Jury.

The four are accused of being accessories in the murder of Leroy Simpson last August. Oglesby and Washburn are now at liberty under bonds of \$1,000 each.

It is stated that Register has quite a reputation as a desperado and that Seminole county officials will be satisfied if he is convicted in Orange county. Evidence submitted in the preliminary hearing last Saturday tended to show that he had planned a number of robberies in this vicinity it is said among which was a proposed raid on the First National Bank of this city.

A Notorious Character

Register was suspected of being a member of the famous Ashley gang of Florida fame. Four members of this gang, including the leader, John Ashley, were killed by authorities during the course of a running gun battle in southern Florida last winter.

Shortly after this reported escapade, Register is said to have been arrested and confined in the Miami jail on a charge of kidnaping. It is said that he was the leader of an attempt to break jail, during which two prisoners were shot and killed. Sheriff Case of Dade county was subsequently indicted for manslaughter in connection with the killing and is awaiting trial at the present time.

Property Damage Placed at Million; High Wind Prevails

TAMPA, Fla., Dec. 1.—(AP)—Four persons are known to be dead, four missing, 18 are seriously injured and approximately \$1,000,000 damage has been done by a storm which swept over this city early today.

Scattering reports received at the local weather bureau from south Florida points indicate that the storm was along the west coast of the state. Publications in Tampa were suspended and all points south of here were without telegraph facilities.

The storm, sweeping from the east coast, reached Tampa shortly after 1 o'clock this morning. The barometer at the local weather bureau registered 29.7 and the wind reached a velocity of 48 miles an hour. Weather officials say it was the worst wind experienced here in four years.

During the height of the storm a fire broke out in the Latin section of the city, causing heavy damage to the plant of West Coast Fertilizer Company and to freight cars in its vicinity.

Fifteen Cars Destroyed By Fire

Fifteen freight cars near the plant were destroyed before all available fire apparatus in the city, aided by the torrential rain, could bring the blaze under control.

A shack on Davis Islands, located in Tampa Bay where more than 50 workmen were asleep, collapsed. Only a few escaped injury. The bodies of four men were taken from the debris later this morning and four others who were in the shack, are missing and 18 others are in local hospitals. The body of a negro woman was found on the street this morning. She had fled from her home during the storm and had been killed by flying debris.

Streets Strown With Wreckage

Trees were uprooted in all sections of Tampa and the streets were strewn with wreckage caused by the high winds. Street car service was demoralized.

Reports at the local weather bureau indicated that the storm originated in the western part of Cuba. It proceeded across the Caribbean Sea to the west coast of Florida and up the west coast, taking a turn southeast of Tampa and then disappeared into the Gulf of Mexico.

No estimate to the total damage done to the high water along the coast could be ascertained. St. Petersburg reports heavy loss to property there, while Clearwater, Sarasota, Bradenton, Fort Myers and Lakeland were cut off from telegraphic communication.

Rainfall Sets New Records

JACKSONVILLE, Fla., Dec. 1.—(AP)—Florida's peninsula for the past 12 hours has been swept by high chilling winds, which at times have assumed hurricane proportions, and by a rain which at various points has set records.

Heavy property damage has been wrought by the winds on the east coast of the state, south of Jacksonville, and on the west coast, south of Tampa, with reports to the local weather bureau of a 52-mile wind at Tampa and a 46-mile maximum at Key West. A 50-mile wind drove over Jacksonville early today.

Inland Florida, with exceptional heavy winds, has not been badly affected, reports here say. Three negroes were killed and a number of other injured when a house at the Davis development at Tampa collapsed during the storm. There have been no other injuries reported other than six other negroes in the same Tampa incident.

Dancing Pavilion Damaged

At Pablo Beach the tide is reported to have swept the Trotter Dancing pavilion off its pilings. Both the Atlantic Ocean and the Gulf have been whipped into a turmoil.

News Summary

LOCAL

Senator Duncan U. Fletcher promises his support in matter of obtaining a Federal subsidy in completing the proposed St. Johns-Indian River canal project.

Britt-Chittenden Realty Company announces sales for the past 10 days have totalled approximately \$100,000.

Snow and ice cause Lambers Halter, Indiana man, to come back to Sanford to spend his winter.

Sale of the 270-acre Chappell tract and other properties totaling \$500,000 announced by the "Scruggs-Scoggin" realty firm.

Webb property, located near Monroe, purchased by H. O. Chippen and son for consideration of \$25,000.

Construction work on new county jail is progressing rapidly, according to survey made today.

Rain and wind storm leaves trail of fallen trees and crippled utility service in Sanford following rainfall of 4.02 inches in past 24 hours.

Haywood Register, wanted here on a charge of murder, may never be tried in Seminole county, according to Sheriff Hand, who said today that the alleged slayer of Leroy Simpson will probably be tried, convicted and sentenced in the Orange county court upon a similar charge.

PROPOSED CANAL IS ATTRACTING WIDE ATTENTION

Plans For Further Advertising Of Waterway Being Considered By Chamber; Federal Aid Is Promised

Federal support of the St. Johns-Indian River canal project is practically assured, according to a statement made today by R. W. Pearman, secretary of the Chamber of Commerce, who is in receipt of a letter from United States Senator Duncan U. Fletcher in which the senator heartily endorsed the proposed cut, and stated that he would do his "very best" to secure a government subsidy for completion of the work.

Senator Fletcher stated that it was the government's policy to cooperate with local interests wherever an improvement of a waterway for navigation purposes was recommended.

Col. Gilbert Youngberg, district engineer at Jacksonville is also supporting the proposed canal. Mr. Pearman announced, and very little trouble is anticipated in securing the favorable consideration of higher engineering authorities and the national congress, he added.

In commenting on the numerous inquiries that he said were coming into the Chamber of Commerce offices daily in reference to the proposed waterway, Mr. Pearman declared that the project was attracting attention all over the South and in a good many sections of the north, where yachting enthusiasts were manifesting interest in the canal, which is said to be the last connecting link in an inland scenic highway extending from far northern points down to the Florida keys.

Mr. Pearman stated that he and his assistants are preparing advertising literature in connection with the passage of the bill authorizing the commencement of the canal, and predicted that the dissemination of this news matter would result in a stimulated interest in Sanford and business possibilities that this city has to offer.

SANFORD REALTY FIRM HAS GOOD TEN DAY PERIOD

Realty sales totaling approximately \$100,000 were announced today by the Britt-Chittenden Company, all of the transfers having been effected within the last 10 days, according to a statement made by a member of the firm.

The largest transaction closed by the company within the last few days is represented by the sale of a seven-acre warehouse site at Hand's Crossing to a local syndicate composed of Edward Higgins, W. W. C. Smith, E. H. Pichard, E. M. Hunt and Miss S. I. Thornley. The selling price of the property was given as \$20,000.

Among other smaller deals closed recently, the firm announced the following: Lot 68 of Pinhurst subdivision, sold by A. D. Kilham to J. H. Jackson for \$2,000; lot 24 of Normandy Square, in the Forrest Lake Hotel section, sold by A. D. Kilham to W. H. Sheppard for \$2,000; four acres of land adjoining Pinhurst subdivision, sold to M. B. Hutton and W. J. Hardy by J. M. McCaskell for \$11,000.

Seventy-five feet of business property in First Street addition was also sold to L. P. Chittenden by E. M. Hunt by C. S. Pore of Orlando, for \$125 a front foot while 100 feet of business property in First Street extension was sold by H. M. Rumbley to Dr. C. J. Marshall for \$20,000.

Other sales through the 10-day total up to approximately \$100,000, it was stated.

STEAMER COTOPAXI IS LIMPING TOWARD PORT WITH WATER IN HOLD

WEST PALM BEACH, Dec. 1.—(AP)—Word received here at 7:15 o'clock from the Steamship Cotopaxi was to the effect that she was listing badly and had water in her hold. At 7:21 o'clock her position was worse, but no distress calls were issued. No further word was received from her and it is believed she was able to weather the storm.

The entire Florida East Coast according to messages to Rainbow Pier Radio station was whipped by a strong northeasterly gale.

A stretch of ocean boulevard near the inlet to Lake Worth, nine miles north of here, was being uprooted by the surging waves determined by the surging waves and volunteers headed by Gus Jordan and his "coveboys of the sea" stumps and stakes to try to save the road.

Too Many "Calves" On Berlin Street Cars

BERLIN, Dec. 1.—(AP)—Stalls leading to the platforms of Berlin street cars were not intended for the modern short and narrow skirts, the street car management officials.

Complaints have poured into the reporting office that men have become surprisingly willing to allow members of the fair sex to board cars first. The women insist that the cars should have three short steps instead of two high ones.

The company has announced that 500 new cars which have been ordered will have three steps.

Stone Mountain Drilling Resumed With Lukeman In Charge Of Work

ATLANTA, Dec. 1.—(AP)—Drilling on the Confederate Memorial at Stone Mountain was resumed today after a cessation of work since last spring. Augustus Lukeman, sculptor; in charge of the work, arrived in Atlanta yesterday to assume personal direction of the work.

Mr. Lukeman announced that the first work would consist in removing the surplus stone from around the central group, which he hopes to complete within two years.

The sculptor brought with him the master model of the Hall Meade granite which will be carved into the granite just below the central group. The model, depicts in detail the sign of the Hall, which when completed will be 100 feet high, 15 feet wide and 50 feet deep.

Spanning the entrance will be 13 columns representing the 13 Confederate States, while within will be 13 granite panels, bearing the names of the founders roll, members of each of the Southern states and a granite figure of a woman—the "figure of memory."

Leading down from the hall of memory will be a giant stairway of 48 steps, one for each state in the union, which will end at a grandiose esplanade will be built around a 200 foot lagoon to be provided at the base of the mountain.

Leading down from the esplanade will be 13 more steps, which will end at the tomb of the "Unknown Confederate Soldier," which in turn will be planked on either side by two great flagpoles, one for the Stars and Bars, and the other for the Stars and Stripes. Circling the lagoon which will be formed from the waters of a spring at the base of the mountain will be an amphitheatre of granite seating 10,000 persons. The stairways, lagoon and amphitheatre will occupy the entire 650 feet between the base of the mountain and the road.

Vote Of Southern Methodists Called Victory By Bishop

CHICAGO, Dec. 1.—(AP)—Though the Methodist Episcopal Church, South, failed to vote its required majority of three fourths, for union with the northern branch, Bishop Edwin Holt Hughes of the Chicago area of the Methodist Episcopal Church, regards the vote as a "great victory."

The vote indicates the desire of the northern church to meet any future propositions in a generous and welcoming spirit, he says.

"Personally," he said "I regard this as a great victory inasmuch as this is the first time since the separation in 1844 that the two churches have reached the stage of voting."

Dr. R. J. Wade, secretary of the general conference, has announced the official vote so far received by him 10 conferences of the Methodist Episcopal Church is 10,521 ministerial votes in favor of and 672 against; 6,910 laymen voted for and 179 against.

A constitutional majority in favor of unification is indicated since the Methodist Episcopal Church constitution requires a two thirds majority.

A new dewberry that is larger and more disease-resistant than the ordinary garden variety is the result of hybridizing by R. M. Young, an electrical engineer of Louisiana, who makes a hobby of plant breeding.

Man Disappears When Connected With Bomb Explosion In Chicago

CHICAGO, Dec. 1.—(AP)—Herbert Linneman, 55, chairman of the Chicago Master Barbers Association has disappeared after writing letters indicating suicidal intentions, because his name had been connected with the bomb ring inquiry being pushed by state's attorney. He maintained his innocence and said he was "unmercifully hounded." Searchers later found his hat on the Lake Michigan shore.

A few hours earlier, as the special grand jury was charging Lena Schrock Rice and eight others with bombing, she attempted to stab herself with a table knife. A jail matron frustrated the attempt.

Linneman who was questioned by prosecutors but never held, left three letters. On his wife said he could not stand the "disgrace of being connected with a matter like this, although I am innocent."

Another note of similar tendency was found addressed to friends and patrons of his barber shop, and a third directed disposal of his property.

Webb Property Sold To Crippen And Son

Announcement was made today of the sale of the old Webb property located on the St. John's River near the Monroe drawbridge to H. O. Crippen, Sr., and H. O. Crippen, Jr., and their Chicago associates for a consideration of \$25,000.

The property was purchased from S. M. Abercrombie, who has owned the tract for 25 years, it is said.

In discussing his plans for the development of the property, which is located near the new power plant now under construction, Mr. Crippen stated that he and his son had decided to hold the tract intact for an indefinite time before placing it on the market.

The purpose of the gathering is the standardization of colleges and high schools of the South and to discuss matters of interest to both institutions.

National Swimming Meet Will Be Held At Rollins In Spring

A. J. Hanna, executive secretary of the Rollins College Alumni Association, who has just returned from a national convention of the Amateur Athletic Union held in Pittsburgh, announced yesterday that plans submitted for the staging of a national high school water meet at Rollins College in March had met with the approval and the endorsement of the convention.

In past years Rollins College has sponsored many state high school swimming meets with great success, and alumni and students of the institution are confident that a national aquatic meet will receive the support and attendance of a large number of amateur swimmers from all parts of the country.

Haines City—Construction begun on new \$100,000 theater.

WEATHER MAN PREDICTS GALES OVER WIDE AREA

WASHINGTON, Dec. 1.—(AP)—Strong winds and probably gales along the entire Atlantic seaboard within the next 24 hours were forecast today by the weather bureau.

The following advisory storm warning was issued: Advisory 9-20 A. M. Northeast storm warnings ordered north of Jacksonville to Boston, Mass. Storm of tropical origin centered off Florida coast moving northeastward with increasing intensity will cause strong northeast and north winds and probably gales along entire Atlantic seaboard within the next 24 hours. The highest wind velocity reported was 52 miles from the northwest at Tampa. The total rain fall at Miami during the last 36 hours was 15.2.

The disturbance is expected to cause rains along the middle Atlantic coast and snow or rain in New England and southeastern New York.

LOCH-ARBOR

A Country Club Property of Lakes and Hills

Nothing with which to compare it

There is literally nothing in this entire section of Florida with which to compare Loch-Arbor. It stands entirely alone as the finest suburb in the Sanford district.

We could not be so positive in making such an assertion were it not for the universal approval given Loch-Arbor and for the fact that anyone can prove these statements by the simple procedure of asking the opinion of anyone in Sanford.

When this is done one discovers that it has the unanimous approval of the populace of Sanford. There is nothing with which to compare it.

Trained Corps of Engineers Assigned by Government To Protect Oyster Industry

JACKSONVILLE, Fla., Nov. 29.—(AP)—With the oyster now in season considerable attention is being given that product due to the unfavorable attention that it received last year through publicity of the transmitting of typhoid germs from the northeastern seaboard to New York, Washington and Chicago, according to Edward L. Wilby, chief engineer of the sanitary division of the state bureau of health.

As a result of this publicity, says the engineer, the oyster industry was badly crippled and the traders in it appealed to the health authorities for regulations in the industry which followed and certified by the state would give them a good market. After a series of conferences between health authorities and oyster producers a process for certification has been worked out.

The United States public health service during the summer of this year trained a corps of engineers in the method of procedure of oyster sanitation and these men are now at work assisting the various oyster producing states in their individual problems.

In Florida O. C. Ho, king represents the service and has been working with Captain C. N. Hobbs, west Florida district sanitary officer, or the state board of health, in the vicinity of Panama City and Apalachicola. Commissioner I. R. Hodges of the state fish department, has also been aiding in the third work personally as well as giving the use of his marine equipment.

The first steps, consisting of a rough survey of the oyster producing territory about Apalachicola, the main oyster producing area of the state, have been taken. Samples of the water and the oysters have been examined by the laboratory of the bureau of engineering of the state board of health under the direction of Miss Ida Starck, who will handle the oyster samples during this winter.

"The procedure of sanitary survey consists of a study of existing sanitary conditions of the waters in the vicinity of the oyster beds, the locating of pollution sources, such as city sewer outlets and the sanitary conditions of the cities where the oysters are shucked with special attention as to the prevalence of typhoid fever," Mr. Wilby explained.

"Trips to the beds are made and samples of water and oysters are taken for bacteriological examination. The water samples are taken in sterile glass bottles and the oysters are placed in a clean sack. They are both properly identified so that they may be identified as to location. At the same time the temperature and the salinity of the water is taken.

"Both the water samples and the oyster samples are packed in ice cream tubs thoroughly lead and shipped to the state board of health at Jacksonville. Samples are usually received within two or four hours after they are taken and the use of the ice cream tubs has aided greatly in keeping them at a low temperature.

"At the laboratory the waters are incubated for the development of bacteria commonly associated with human diseases and if these develop, they are further confirmed and index of the contamination of the oysters is determined. Extreme care must be exercised at all times to get a true picture of the results for a slight slip in the procedure would give an erroneous result.

"A correlation of the field work and the laboratory data is then made and the oyster beds are ready for classification. The next step is the inspection of the shucking houses. Extreme care must also be employed here for the employment of a typhoid fever carrier as a shucker might spread disease many miles away.

"There must be steam or hot water for sterilization purposes and water used for washing the oysters must be plentiful and free from contamination. The men and women doing the work must be clean, healthy and free from all communicable diseases. Flies must be excluded from the inside of the house and kept at a minimum on the outside surrounding territory. There must be available plenty of water, soap and towels so that the employes may keep their hands clean at all times. Utensils must be so made as to easily sterilized and the tin cans for shipping must be used only once.

"The rules and regulations for operating oyster establishments were made by the state department of agriculture but are being enforced by the state board of health.

"If a shucking plant meets all the requirements and the oysters handled by the plant are from unimpeachable sources then a certificate and a number is given the establishment and all products leaving that plant must bear this certificate number on the container.

"The oysters thus enter the class of other foods subject federal and state inspection.

MARKETS

NEW YORK, Dec. 1.—(AP)—Marked irregularity again characterized the opening of the stock market today, although efforts to bid up prices of the rails and some of the standard industrial were moderately successful. The motor group was sprinkled with selling orders, causing a two point reaction in Chrysler, and the most recent speculative favorites in the rail list, yielding Kansas City Southern and Wheeling and Lake Erie, opened fractionally lower.

Early trading lacked animation and the market failed to follow a clearly defined trend. On the buying side the minor specialties turned such as Columbia Carbon, Consolidated Cigar, Ward Baking "B" and Liggett and Myers, several of which reported new high prices for the year.

The list also was bolstered up by the firmness of Dupont, Sears Roebuck, General Electric, American Can, although gains were limited to one or two points. These advances were counteracted by losses of one to three points in Chrysler, General Motors, U. S. Rubber, Mack Trucks, Famous Players, and Murray Body.

The strength of rail shares was well sustained. Atlantic Coast Line and Wheeling and Lake Erie preferred, both selling at the year's best levels. Foreign exchanges were irregular at the opening with demand for Sterling unchanged at \$4.84 1/2.

CHICAGO, Dec. 1.—(AP)—Wheat prices scored a lively fresh advance today jumping upward as soon as trading began. In local quotations they rose to 1 1/2 cents higher, new 1925, Dec. 1925 to 1 1/2, and May 1926 were followed by a rise to 1 1/2 for Dec. and 1 1/2 for May.

After opening unchanged to 1/2 cent higher, May 79 1/2 to 78 the corn market underwent a moderate sag and then rallied.

That started at a shade to 1/2 cent up May 42 1/2 and later hardened a little more.

4 Killed, 18 Injured Storm At Tampa; High Winds Prevail

(Continued from page 1)

mail by the high winds and there has been much damage along the coast lines, according to reports here.

The center of the storm is off the middle of Atlantic coast line, the local weather bureau reports, and it is moving northeastward.

It has been raining over most of the peninsula, with the downpour reaching torrential proportions at some localities. In the past 18 hours 15 inches of rain has fallen at Miami, reports to the local weather bureau say. There has been five inches at Fort Lauderdale in the past 24 hours and four at Orlando.

At Tampa 3.38 inches of rain has fallen in the past 48 hours, according to reports at 9 o'clock this morning, with the rain still falling. At Jacksonville .77 inches of rain had fallen in 24 hours.

Wire Facilities Are Down

Telephone and telegraph wire facilities have been down as result of the winds, though the railroads report their wires in good condition. The other companies, however, report "heavy delay" on all circuits. The negroes killed at Tampa are unidentified. Another is dying, reports here say, while five others are in a hospital.

The electric companies there have issued warnings that the streets are not safe due to the falling of power lines. The West Coast Fertilizer company there was destroyed by fire at a damage of \$200,000. There were several other fires.

Surface Accumulation Gone

MIAMI, Fla., Dec. 1.—(AP)—Unhindered by two cellars that fill in most cities during a heavy rain, Miami had shaken off practically all the surface accumulation during its unprecedented 14.1 inch rainfall and, this morning, was going about business as usual.

Within a few hours after the rain stopped, the downtown street intersections, which were as so many small lakes, were as dry as a bone, the porous soil and nearby river and sea having absorbed quickly a downpour that would have clogged ordinary storm sewers for days.

Another rain fell last night but of short duration and did not have appreciable effect. Neither of the disturbances were attended by heavy storms and only a choppy squall was running outside the jetty a few off the beach.

PRIMARY SCHOOL HONOR ROLL

First Grade: Patricia Hughes, Winifred Hutchins, Mary F. Lord, Dorothy Mitchell, Ora Lee Smith, Mary Emma Strange, Martha Talbott, Robert Jones, E. L. Laney, James Singletary, Francis Yandle, Lillian Bryant, Mildred Cowan, Julia Dickson, Jane Jackson, Lois McCray, Helen McDaniel, Elizabeth Faxon, Billie Zachary, Ralph McGaghagin, Richard McGaghagin, Robert Stanley, L. BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. Creomulsion Company, Atlanta, Ga. (adv.)

FOR CITY COMMISSION

I hereby announce my candidacy in the coming city election for the office of City Commission.

Agent Tells About Bulb Conference in Sanford on Saturday

ER JR. of the Federal Horticultural Board, and three other Specialists, made statements giving a great deal of comprehensive and interesting information, gathered by the Department. Following are a few of the facts and figures presented by these gentlemen.

Inspection and Diseases

Contrary to the statements of many people, the Hearing of November 16 and 17 was the fourth public hearing on the matter under discussion. Up to October 10, the past seasons importations from France and Holland had amounted to 133,278,859 bulbs. Of this tremendous number it had been possible to effectually inspect less than two percent. Of those inspected 7.13 percent were infected with the lesser bulb fly, 10.9 percent were infected with the Narcissus fly. Official hand inspection will not detect the majority of elcworm infection.

One lot showing only 1/4 of 1 percent by hand inspection, showed 8.8 percent infection, when a representative number of bulbs were cut open. 2-10 percent of the bulbs from Holland and 5.8 percent of those from France, show elcworm infection. The long periods of drying during transatlantic shipment do not destroy these pests.

It is not possible for inspection, even careful inspection, to keep out infected bulbs. An embargo alone will accomplish that purpose.

Some three billion dollars worth of Agricultural products of the United States, including eighty species of plants are susceptible to the pests and diseases carried by bulbs. Among the more common of above mentioned crops are alfalfa and onions. A number of infections already occur in our Country, but they are restricted, as yet, to small areas, mostly along the Pacific coast. The Department believes that these areas can be cleaned up. No infected areas have been found in Florida or adjacent territory.

Six ladies, representing various Garden Clubs, next gave their evidence. They attacked the stand taken by the Federal Horticultural Board and Dr. Marlatt in particular. They stated that the embargo was unjustified and that it would be of great damage to American horticulture. They expressed belief that The United States could neither supply bulbs in quantity nor of quality; that the beauty-loving women of the Country were about to be deprived of the most popular and easily grown house flowering plants and that these deprivations were not warranted, in their opinion, by the risk encountered.

The attorney of the American Bulb Dealers Association then took the floor and conducted the remainder of the campaign of those wishing to break down the embargo. He called on about twenty men for evidence, including a number of gardeners of large estates, several large importers, Mr. A. Vaughn representing the Society of American Florists, and a representative of the Massachusetts Horticultural Society.

These speakers expressed themselves as believing the Federal Horticultural Board to be autocratic and unreasonable, the proposed embargo on Narcissus unnecessary and uncalled for. They dwelt upon the fact that there were already infected spots in our Country and that they were widely scattered; that if narcissus were to be shut out, the action should have been taken three years ago before the majority of these infections were established. They held that bulbs imported for forcing was destroyed after flowering, whereas planting stock widely distributed. They accused the Federal Horticultural Board of favoritism in the issue of "Special permits" for importation of Quarantined bulbs. They damned the Board and its Chairman. Altho they submitted a great volume of evidence, very little was of a constructive nature and the majority of it was offset by Departmental evidence already given.

American Bulbs Defended

The evidence of the American Bulb Growers Committee and of the California Delegation, was not submitted until the morning of the second day. After a general explanation by Chairman White, of the stand taken by the bulb growers, twenty men were called on for brief talks. Mr. Guille of New York pointed out that there were one hundred fifty million narcissus bulbs now growing in the United States, or approximately as many as are grown in Holland. Growers from New York, New Jersey, Virginia, North Carolina, South Carolina, Georgia, Florida, Oregon, and California, each stated that good bulbs that flowered satisfactorily, were being grown in their states. Many of these growers were Hollanders, who had grown bulbs all their lives.

T. A. Brown of the Florida Delegation told the Board that for eighteen years, it has been known that bulbs could be successfully grown in Florida, but that until protection was promised from foreign pests and diseases, by adequate quarantine measures, growers of Florida were not willing to try to develop the industry.

General Blanding of Florida and the Delegation of Quarantine Supporters from California made strong appeals on the grounds that the breaking down of this Quarantine measure would weaken the Federal Horticultural Board, and the effect of quarantine measures in general, that it would be the entering wedge for the successive breaking down of other similar restrictions. They plead

for more rigid and more comprehensive quarantine measures as a safeguard to American Horticultural instances mentioned. Florida, where untold millions could have been saved by an adequate quarantine. The Californians expressed complete willingness to establish quarantines against the infected areas within their own state.

Henry Hancock of New Jersey, requested the Secretary, in behalf of the Farm Bureau, urgently requested the Secretary, in behalf of America's five million farmers and their families, to give the Horticulture and Agriculture of our country adequate protection from importing foreign pests and diseases, on bulbs or anything else.

The Senators and Congressmen from our State, gave their hearty support to the Florida Delegation, and special mention must be made of Congressman Drain and of Mr. Hill, Secretary to Senator Fletcher. Congressmen from several states took the floor and without exception supported Quarantine No. 37.

About eight hundred pages of evidence was submitted. It will take some time, of course, for Dr. Jardine to give this large amount of material a careful examination, particularly as so many other weighty duties and responsibilities rest on his shoulders. The consensus of opinion of those best able to judge, is that after careful study of all evidences, Secretary Jardine would render a decision favorable to carrying out the promulgated embargo without delay or modification.

The American Bulb Growers await with intense interest the announcement of Dr. Jardine's decision.

Honeybees get nectar from the deep corollas of the bush honey-suckle by following big wood bees that puncture the tube with their strong black mouth parts.

There were more domestic servants per one hundred United States families in 1870 than at any time before or since.

REID CLASHES WITH ANOTHER ARMY OFFICIAL
Last Friday, Brig. Gen. Edward L. King, another member of the court, was accused by Reid of remarking in an undertone from the bench that the testimony then being heard was "damn rot". Although Gen. King apologized this incident has been reported to the War Department.

When the court returned to the room after having retired to consider the question of complaint made by Rep. Reid, the representative challenged Gen. Graves' right to sit as a member of the court.

Yarnell Is Cross-Examined
When today's flare-up occurred Capt. H. E. Yarnell, of the Navy was being cross examined by Reid about the Hawaiian flight and Maj. Allen Gullion, as the trial judge advocate, had complained to the court of Reid's "insulting treatment" of witnesses. "The defense counsel has unnecessarily inquired into the private affairs of Capt. Yarnell," said Maj. Gullion.

"Are you a good example of a non-flying officer, who commands flying units?" Reid asked the witness. Capt. Yarnell answered that he did not consider himself competent to express any reply to such a question and the reply was followed immediately by the argument between Reid and Gen. Graves.

After a consultation in secret, the court overruled that Gen. Graves had interfered with the cross examination of the witness, and had displayed bias. The decision followed another fiery altercation in open court arising from a comment made in an undertone by Gen. Graves regarding the method of the defense attorney Rep. Reid, of Illinois, in his questioning of witnesses.

General Denies Charges
When the lawyer made his accusation the general denied that he had interrupted the questioning or sought to show any partiality. The president of the court, Maj. Gen. Robert L. Howze, admonished the counsel for both sides to desist from "disgraceful wrangling" and to address the court and not each other.

This formal protest was made against Maj. Gen. Graves.

"I hereby challenge Gen. Graves to sit longer as a member of this court for the reason that his action while in this court show that he is not impartial and that in justice and fairness to the accused, Gen. Graves should no longer be permitted to sit as a member of this court."

The court indicated through Gen. Howze that the accuser could not be sustained that Gen. Graves

REGISTER IS DETAINED IN ORLANDO JAIL
(Continued from page 1)
Volusia county, by a negro named George Martin, who insisted that Register had previously held him up and robbed him. Martin was jailed in Volusia County and Register came to Sanford for medical aid.

Finanee Visited Him Here
While recovering from the gunshot wounds inflicted by Martin, it is said that he received numerous visits from his reported fiancée, Laura Upthegrove. It is said that she was a prominent member of the old Ashley gang and that she and Register were trying to organize another gang to carry on the deprivations which were common to the "Terrors of the Everglades Country."

Police believe that Register is guilty of at least five murders and it is said that he has boasted to friends of 11 notches on his gun. Seminole county officials had compiled enough evidence, it is said to warrant his arrest for the murder of Simpson when news came that he had been caught in Columbia county after a holdup near Valdosta, Ga. Grange county authorities were also waiting for a murder charge, on which they hope to secure a conviction.

TODAY'S BIBLE VERSE

THINK OF THE HARVEST:—Whoever sows a seed shall also reap. Galatians, 6: 7.

PRAYER:—Dear Lord we thank thee for this truth. May we see that assures us a good harvest.

THE MEN I KNOW

This I'll say for the men I know: Most of them work for their daily bread. Whether in places high or low Most of them follow the path I tread, Most of them cherish the flag o'er head; Most of them eager for wealth or fame, Seem to be proud of their family name.

Some of them strong and some of them weak, Some of them bitter at times in woe, But this I'll say for the men I know: Rare indeed is the mental freak Who would order and decency overthrow, Clever of dull or frail or strong, Most of them shudder at doing wrong.

This I'll say for the men I know: Most of them want to be clean and true; In spite of the selfish things they do Most of them try, as they come and go, To leave some glory for men to view. A few turn traitor to God and state, But most of the men I know walk straight.

Edgar A. Guest.

Another thing that you never see anymore is the wife agreeing with everything the husband says.

How about someone starting a Christmas stocking fund here for children who are not quite so fortunate as some others?

Johnny Spencer on the Macon Telegraph says, "his absence led to the discovery that he was missing." Pray tell us, Johnnie, how did you arrive at that conclusion?

It's funny, we never heard of a fellow fighting to serve a prison sentence but then we suppose if the alternative is hanging, it might make a small difference as Gerald Chapman will agree.

"The auto, a Chevrolet, was returning to Rockford from Davenport where she had been for two days giving demonstrations in beauty culture."—Rockford, Ill., Star. And to think that it was a Chevrolet.

RARE BIRDS

A loud, long cheer For Oscar Spry! Game loser he— No alibi.

—Boston Transcript
Le's whoop'er up For Charlie Brille; He pays you when He says he will!

—Miami Tribune

Three loud hurrahs For Celeb Price; He don't tell you The same joke twice.

Our cap is off To Oscar Moore; Who doesn't lie About his score.

A sixteen-page Florida edition carrying many views and interesting news stories of the state's tremendous development, was published by the New York Sun in its issue of November 28. Every section of the state is mentioned in the news section, which included a story of the ten million dollar poultry industry to be started soon in Seminole county.

Carol-Singers For Sanford

The revival of the old-time custom of Christmas Eve caroling has made such rapid progress in this country during the last decade that it will be organized in probably more than two thousand towns and cities this year, many of which are already recruiting and rehearsing their singers.

Leaders in many of the cities of the country have taken an interest in the matter and are gathering together those who will agree to take part in the work, which many believe to be so effective in spreading a happy Christmas spirit. The result will be that many thousands of persons will hear beautiful Christmas music.

Hotel lobbies, schools, churches, theaters, clubs, homes, hospitals, jails and all public institutions where people are gathered will be visited by those groups of carol singers, while in towns where broadcasting stations are located, the music will be sent over the air on Christmas Eve and Christmas morning.

In Detroit, where caroling has been done on a larger scale each year since 1916, the work is in charge of the women's clubs. Camp Fire Girls and Girl Scouts also furnish caroling bands for the residential districts. In Philadelphia 150 song leaders are now at work training the singers for that city, while in many smaller cities groups are preparing to bring cheer to those who are unable to leave their homes and to others who might not otherwise get the real meaning of Christmas.

One of the interesting developments of the movement has been its spread to rural communities where the singers are conveyed by automobiles, going from house to house singing the glad tidings.

It would be a fine thing for Sanford and the communities nearby if such a plan could be carried out here this year. With many capable and willing singers, it ought not be a difficult task to organize good cheer throughout our community on Christmas Eve. The Herald hopes some one will take the lead in the matter and see that it is done.

Down With The Submarine

There is an insistent demand for the abolition of the submarine. The sinking of the giant British submersible, the M-1, a short time ago has resulted in a demand for the doing away with the under-sea craft which may result in some action being taken. The movement started in England but has quickly spread throughout our own country until now it has gathered formidable proportions.

Since the signing of the Armistice there have been 376 lives lost on submarines. Of this number the United States lost 38 while Great Britain sacrificed 154 lives and Japan 134. Sinking often in such a way as to make rescue impossible, the submarine has proven to be a death-trap offering a hazardous life for those in that branch of the nation's service.

What excuse is there for the existence of the submarine, anyway. What are its notable achievements? What part did it play in the great war? What value has it in a day of peace?

As an instrument of effective warfare it accomplished little except to create terror in the lives of innocent parties. Its most outstanding achievement in the World War was the cowardly sinking of the Lusitania with its cargo of women and children. In times of peace it has caused tremendous loss of life, and has made itself of little value as a dependable craft. Of comparative worthlessness in war or in peace, the submarine should be scrapped and efforts that have been devoted in attempts to perfect it should be directed toward other and more effective activities.

If the submarine can be outlawed and then the use of poisonous gas be discontinued, civilized nations will be making great progress in abolishing war altogether.

An Embarrassing Situation

Our United States Congress, in the course of its existence, has been subjected to many embarrassing situations. Every known form of ridicule has been heaped upon its members by press, pulpit and populace. We have all at one time or another had considerable fun at the expense of Congress.

But about the worse predicament Congress ever got in, has been caused by Arthur McDonald who proposes to measure the skulls of congressmen to test their brain capacity. Mr. McDonald, who is a scientist of some note, has measured the skulls of all the inmates of St. Elizabeth's Hospital for the insane, and by a skillful process of addition, multiplication and integration, has determined their degree of intelligence.

Now Mr. McDonald, having tested the subnormal, would gather the same statistics from the abnormal. He has figured that the men who represent all the people of this great United States, are representative of them not only in politics but also in intelligence. So he proposes to line the congressmen against a wall, take careful measurements of their skulls from various angles and thus determine their brain capacity.

Strangely enough there is no stampede among the congressmen to be the first to have his brain measured. There seems to be a tendency on the part of our sons to hang back. One would think that these chiefs of intelligencia would dash madly forward and fight to be the first to show to the world just how much sense they have. Can it be modesty which restrains them?

On the contrary our representatives probably realize better than anyone else just what such intelligence tests would show. They probably fear that on the whole they would stack up little better than the inmates of St. Elizabeth's and possible some of them might be sent there for a little treatment. All in all the proposal of Mr. McDonald has placed the congressmen in a very embarrassing position.

Political economy is not itself a science, but a system of conduct founded on the Sciences, and impossible except under certain conditions of moral culture. Which is only to say that industry, frugality, and discretion—the three foundations of economy—are moral qualities, and cannot be attained without moral discipline; a flat truism, the reader may think, thus stated; yet a truism which is denied both vociferously, and in all endeavor, by the entire populace of Europe, who are at present hopeful of obtaining wealth by tricks of trade, without industry.—John Ruskin.

MY FAVORITE STORIES

By IRVIN S. COBB

An ambitious Chinaman secured a long time lease on a tiny island on the California coast. Here he built himself a simple shack and here he raised garden-truck. Because of the climate, which was generally damp, and because of the soil and most of all because of the tenant's industry, the venture prospered. Naturally, when a gentleman in uniform came along one day and suggested to him that he should vacate the property and turn over the land with its flourishing vegetable patch to the government, the Oriental protested. He wanted to know why Uncle Sam should covet his tiny possession.

As Brisbane Sees It

4 Hours' Work, Too Much Task for the Clergy Old Maid and Bachelors Marcus Loew on Luck BY ARTHUR BRISBANE (Copyright 1925)

G. B. SHAW says the ideal state will allow four hours for work, four for dressing, eating, drinking, bathing, eight for sleep and eight for leisure. Machines will make it possible to do the world's work in a four-hour day.

MEN LIVED before they had machines that do the work of more than 12 or 15 hours. With machines that do the work of 1,000 men, the necessary day's labor can be cut to two hours, or one hour, whenever that is desirable, if able men will cease struggling for what they don't need.

IT IS NOT idleness, or "leisure," however that men crave. They want work that they like, freedom of choice, and variety in their work.

If Ford can work out his plan for farmers' crops raised and harvested in half the year, and work totally different from farm work in winter, he will provide something better than a six or four-hour day.

MEN WANT to work. They crave effort—see them walk all day, to shoot a rabbit, or knock a little white ball along the grass. But they want to work in their way, not as the slaves of other men, with hours and tasks forced upon them. They, as a mass, are not fit for anything better yet. When they are fit, and learn to think, they will get something better.

ONE REVEREND gentleman sees ruin and decay facing the nation, for "lack of religion." Part of the fault, perhaps, is with the clergy. They ask often why churches are not crowded. Crowds go where interest leads them.

What about race-track gambling, legalized prize fighting, suspending the laws against assault and battery, and establishing centers for disseminating vice, and the worst social diseases.

Do you recall any effective battle by clergy, as a class, against these features of our "Christian civilization?"

Chicago is about to make prize fighting legal, annulling its law protecting decency, for the sake of gate receipts. Chicago "hopes" to stage the Willa-Dompey fight, and enjoy the sight of a white man, with an artificial nose knocked about by a negro with a natural nose.

If Henry Ward Beecher were alive, and in Chicago, that would not happen without a preliminary fight, on the side of the law.

The clergy might succeed quarrels among themselves, concerning theological questions about which they cannot possibly prove anything, and make their influence felt in matters affecting the youth of today, and the coming generation.

DR. ARNOLD LORAND, in his book "Life Shortening Habits and Rejuvenation" warns women against spinstership, its harmful effects on the ductless glands, and otherwise.

The worst of it is that old maids, possessing self-control, high character and proper scorn of men's imperfections, have deprived the human race of children that might have pushed the world 1,000 centuries ahead.

THERE IS no such thing as luck, said Marcus Loew, on Friday, carefully chewing the white meat of a Kitz Carlton turkey, and wishing his doctor would let him eat red meat.

Charles M. Schwab, on Loew's board of directors, passing by, said, "Well, Andrew Carnegie used to say he didn't believe in luck but liked to be associated with people that were lucky."

"THERE'S NO LUCK," said Loew, "but there is good judgment. A few blocks from here, I rent a theater, pay \$35,000 a year rent and taxes, to a son of the man that bought the land. He paid \$35,000 for it and his family wanted him put in the insane asylum, to protect his property. Now a certain crisis brings them \$35,000 a year."

"I bought two blocks of land in Los Angeles for a studio, paid \$28,000 for the two. We needed two blocks more, but my manager wired they were holding us up, asking \$56,000 for the other two blocks. I said buy them anyhow. That was five years ago. Now I could sell them for a million and a half."

For further details city editors may find Loew on his way to California, via the Twentieth Century and Santa Fe, leaving New York yesterday. There is no such thing as luck, but wise buying of real estate is a good imitation of luck.

WARDEN LAWES says that James Traina, escaped convict, is a "boob." This is how the "boob" escaped. Having no pistol, he kept one hand in his pocket and pretended to have one.

A guard on the prison wall held a repeating rifle across his knee, had an "automatic" at hand.

"Make a move," said Traina, "and you're dead." The guard did not move. Traina, still with the empty hand in his pocket, was held up by another guard, going on duty. "Make a sound or a false move, and you're dead, walk beside me and pretend it's all right."

The guard obediently walked the required distance.

"Now," said the unarmed "boob," "Go back, don't speak to any one, or turn around, I'll watch you." Traina escaped. Such "boobs" are rare. Had Traina escaped from a German war camp in that fashion, he would have been a hero. It all depends on your starting point. Traina might have done better in life, had he had a better starting point at birth.

POLITICS AND POSTAL RATES OWENSBURY, (Ky.) MESSENGER

The \$40,000,000 postal deficit is entirely unnecessary and could be eliminated, says William Dudley Foulke, former president of the national civil service commission. The deficit is bred by politics, he says. If all persons in the postal service held their jobs through merit rather than politics, the talk would not be of deficits. In his opinion, a great majority of the fourth class postmasters owe their appointments to politics and not to efficiency.

Naturally with the present administration there can be no extension of the civil service principle. Under President Wilson some progress was made, but no sooner did his successor qualify and the "Ohio crowd" take office than the spoils system was invigorated and the plums began to fall.

The public may be only mildly interested as to whether the political postmaster's salary and probably improving the service. Naturally with the present administration there can be no extension of the civil service principle. Under President Wilson some progress was made, but no sooner did his successor qualify and the "Ohio crowd" take office than the spoils system was invigorated and the plums began to fall.

THE REVILED STUDENT TAMPA TRIBUNE

Pity the poor student. He toils not, neither does he spin, says President Lowell of Harvard University, but of all the human classes he is the most vilified, condemned, depreciated and denounced. The way the college man is talked about one would think he had no friend in the world and that of all his enemies he himself is the worst.

In an address before the Association of American Universities, President Lowell adjudged the college student "a sluggard, a doltish creature, who must be pushed into proper courses of learning and held there, else he will elect the less difficult courses and pass through four years of collegiate work with a minimum of mental effort."

And in the same day's news another educator applied such alien and unworkable adjectives as "radical, emotional and inflammable" to the American undergraduate to which a third degree-totter replied in no more complimentary terms that the college student

IT IS THE LAW LAKELAND LEDGER

Federal Judge Meekins, of North Carolina in his charge to the grand jury at Raleigh, declared that "You cannot take a drink of liquor without violating the state and national law," and continuing he said:

"It is immaterial whether you are in favor of or opposed to the national prohibition act. It is now a part of our constitution and a very sacred thing."

Judge Meekins thereupon quoted Howard D. Taft, brother of Chief Justice Taft, to the effect that any other course than right enforcement of the Volstead act was "unthinkable." Mr. Taft stated that while he was and is opposed to prohibition, he is convinced that a majority of the people favor the law and that there is no chance of its amendment or repeal.

Judge Meekins and Mr. Taft are right. This is the law and the gospel, that so long as a law is on the books, it must be enforced and every citizen owes it allegiance and is in duty bound to aid in the enforcement and in duty bound not to violate it. It is the essence of citizenship, it is the soul of government and orderly procedure.

CECILIAN CLUB PROGRAM ENJOYED BY MANY LOCAL MUSIC LOVERS

The studio of Mrs. Fannie S. Munson was filled with an appreciative audience for the Cecilian Music Club's recital on Saturday afternoon.

Some interesting facts brought out during the discussion of current topics, included a recent compilation of American folk songs and native musical instruments by Julius Mattfield of the New York Library.

Mention was made of the 30 concerts from leading artists, to be given this winter from Station WEAJ at a cost of \$500,000.

Mrs. Gladys Morris Williams concluded the program with a group of most enjoyable songs.

Plano selections given were:

"Air de Ballet"..... Schubert	Marjorie Smith
"Cheerful and Serene"..... Bohm	Marjorie Haskins
"Hunters Horn"..... Schmoll	William Morrison
"Concert Etude"..... Sydney Smith	

Other selections included:

"Valse"..... Marguerite Garner	Treneran Woolcot
"Little Folk Group"..... Kathryn Schirard	
(a) "In a Boat"..... Homer Morris	Anna Marie Couch
(b) "Child's Good Night Song"..... Spaulding	Mary Maxwell
(c) "Lullaby"..... Jewel Turner	
"Meditation"..... Morrison	Thelma Tew
"Cathedral Echoes"..... Read	Emmett Fox
"Scherzo"..... Mildred Hand	Schubert
"Blue Birds"..... Bilbro	Pauline Muirhead
"Chromatic Waltz"..... Heins	Sara Maxwell
"Revel of Wood Nymphs"..... Barbour	Betty Hintermister
"Fable"..... Schmoll	Kathryn Lanier
"Dance of Old Brittany"..... Bachruann	Luella Mahoney

Florida East Coast Officials Pay Visit To "City Substantial"

Mr. and Mrs. R. A. Hoffman of St. Augustine and Mr. and Mrs. J. D. Ingraham of Jacksonville were the guests Friday of P. Forster, while the party visited Chuloheta in the interest of the big development project that has been started at that place by the Florida East Coast Railroad.

Mr. Hoffman is president of the model Land Company of St. Augustine and is vice president of the Florida East Coast Railroad with headquarters in the "Ancient City," and Mr. Ingraham is district passenger agent of the railroad with headquarters at Jacksonville.

WOMAN'S CLUB NOTES

As there will be no December business meeting, all efforts are bent at present on preparations for entertaining the annual meeting of Section Seven of the Florida Federation of Women's Clubs at the clubhouse on Thursday.

The local committee, under the chairmanship of Mrs. E. F. Gallaway, is being aided by many other members in getting ready for a large gathering of visitors. The clubhouse will be attractively decorated and luncheon will be served to all delegates to the meeting, the state officers, and the local committee and board members.

Souvenirs of the occasion will be provided for the guests, and music supplied by the club chorus, Mrs. Takach and Miss Elinor Herring.

Both sessions are open to all members and friends of the club, as well as the delegates. At the morning session, which will begin promptly at 10 o'clock, Mrs. E. L. Schumacher of Eustis, the sectional vice-president will be the chair, and will hear reports from the clubs in the district and from various state officers. The afternoon session will begin at 2 o'clock, and will include many interesting features.

Mrs. W. F. Blackman, state president, will speak on "International Relations"; Mrs. B. C. Riley of the Extension Division of the University of Florida, on "Outlines For Club Work"; Mrs. Shearer on "County Federations" and Mrs. A. B. Whitman on "Conservation." During the day Mrs. Katherine B. Tibbets will conduct a club institute, the hour to be announced later.

There are two reasons why every club member should make a special effort to be present on

Secession Ordinance Is Located In Ohio

SANDUSKY, O., Dec. 1.—(AP)—South Carolina's ordinance of secession from the Union, signed at Charleston on Dec. 20, 1860, and long missing, was located here today in the temporary possession of Common Pleas Judge William L. Fiesinger.

First, every one there will get new and interesting ideas, and in hearing about club work in other places, and the things other women are doing for their homes and their communities, cannot fail to be helped in undertaking whatever local necessities arise.

Second, the Sanford Women's Club is a large, active, intelligent body of women, in a live and progressive community, but the visitors will have to judge the members and report their impressions of them from what they see Thursday.

"Bohemian Girl" Will Be Presented Here At Milane Theater Soon

Just at this time there is evident activity in the opera and operetta field—a new era of musical productions, an era that promises to restore to the American stage the Operetta type of entertainment.

The past summer has found every city of any importance with its municipal or privately sponsored season of opera. At this time in all cities at least one theater is given over to the production of this higher art in music.

In keeping with this popular trend, the management of the Milane Theater, has been fortunate in securing the "Valentine Opera Company," an organization of 50 people, including a special symphonic orchestra, under the personal direction of Miss Valentine (the only woman conductor of Opera in America today.)

Arrangements are now being made for at least one performance of Balfe's immortal opera, "The Bohemian Girl," one of the oldest and yet one of the most popular operas ever written. Such melodies as "Then You'll Remember Me," "The Heart Bowed Down," "I Dreamed I Dwelt In Marble Halls," and "My Fair Land of Poland" are to be heard in this delightful old opera.

The date has not been set as yet, but will be announced soon. According to reports received by Joseph Marenquette, manager of the Milane, capacity houses have greeted each performance in various cities in Florida.

Don't forget the Episcopal Bazaar at the Woman's Club Tuesday, Dec. 1. Delicious chicken plate supper \$1.00.

Miss Maude Lake Is Named A Member Of The Cotillion Club

TALLAHASSEE, Dec. 1.—(AP)—Six new members have been admitted to the Cotillion Club, at the State College for Women, according to an announcement. They are Mildred Nix, Albany, Ga.; Dorothy Singletary, Jacksonville; Sarah Gunn, Columbus, Ga.; Maude Lake, Sanford; Anne Denton, Columbus; Lucille Trice, Tampa.

The Cotillion Club is one of the long-established organizations on the college campus. Members are chosen because of their ability to lead well, and they must also be handsome "men" when dressed as the members of the club to those of the Village Vamps, another campus organization.

Pledges And Honorary Members Entertained By Phi Omega Sorority

On Tuesday The Phi Omega Sorority of Rollins College entertained the honorary members and pledges with a Thanksgiving dinner at the Yellowstone Tea Room at Orlando.

Attractive turkeys marked the places of the guests who were: Mrs. L. M. Beauvais, Miss Loretta Salmon, Mrs. James Dickson, Mrs. P. A. Vans Agnew, Mrs. Hamilton Holt, Mrs. E. A. Potter, Mrs. Glenn E. McKay, Mrs. W. Henry Emery, Miss Frieda Williams, Mrs. Otto Wettstein, Miss Susan Peschman, Miss Hannah Gartlant, Miss Ida Boyce, Mrs. O. W. Callahan, Miss Leila Niles, Mrs. Ruby Newby, Mrs. Emily Cass, Mrs. Emmie Schenk, Miss Virginia Richardson, Miss Charlotte Wettstein and Mrs. Tommy Guinn.

Mrs. Ray Entertains Pipe Organ Club At Her Home On Monday

The weekly meeting of the Pipe Organ Club of the Baptist Church was held Monday afternoon at the home of Mrs. J. B. Ray on Palmetto Avenue.

Bowls of exquisite pink roses were placed on cabinets, mantles and piano, as well as gracing the refreshment table laid with a lace cloth.

Mrs. A. M. Phillips, president of the club, presided in her usual capable manner. In answer to roll call, the members responded with Thanksgiving verses. Reports were read from the various standing committees and finished articles turned in from the Christmas Bazaar which will be held Friday and Saturday at the home of Miss Martha Fox on Oak Avenue.

During the social hour, Mrs. George Ray delighted the guests with a group of solos, and little Miss Shirley also gave a number of interesting readings.

Delicious refreshments were served by the hostess, assisted by her daughter, Miss Dorothy Ray. The next meeting of the club will be held Monday afternoon at the home of Mrs. A. F. McAllister on West First Street.

Gotham Man Enters Offer For Big Tract

WASHINGTON, Dec. 1.—(AP)—Nathan Friedman, of New York city, has entered a bid for 800 acres of land near Miami comprising what is known as Chapman field, the old aviation field.

The government paid \$71,000 originally for 850 acres, but has transferred some ground to the department of agriculture. The appraised value of the tract now is \$2,285,000 and the government by law cannot accept a lower price. That appraisement represents substantially an average price of \$3,000.

NEW CHARGE IS MADE

WASHINGTON, Dec. 1.—(AP)—A new charge that the Iowa senatorial election of last year was fraudulent, because Senator Brookhart was not a Republican, was made today by the state Republican committee, hearing the contest over the seat now held by Mr. Brookhart.

THE BIG IDEA!

VERY few really great projects come about accidentally. Invariably, the conception, creation and full development of successful achievement, whether in the industry or that of empire building—is the result of generous expenditure of much intelligent and well directed thought, effort and capital.

Daytona-DeLand Farms

Located about midway between Daytona and DeLand on the main highway between these important towns—is the highest expression of just such an idea. Its first great step in what will undoubtedly prove to be the greatest, most important and most satisfactory phase of Florida's new development—what may be termed the industrial and agricultural cycle of Florida's progress.

It means the placing within reach of every one interested in Florida—at most reasonable prices—prices that will astonish you when you look at the land and compare prices with others, of some of the most desirable farm lands in Volusia County, famous for its agricultural resource and possibilities.

Back of This---

Highest type of community idea are men of vision, and demonstrated ability and integrity. Under the leadership of Harry E. Prettyman, of Oldsmar fame, whose achievements in community building are so closely woven with the strands of Florida's growth, there has been gathered an organization of trained men, who like himself, are eminently qualified by experience and knowledge to thoroughly sense the needs not only of the Florida of today but of the still greater Florida of the future.

Daytona-DeLand Farms---Volusia County's Farm Community

LOCATION and ACCESSIBILITY

On the main highway between Daytona and DeLand. Here has been acquired one of the very few really desirable large tracts still available. At the very back door of the finest beach city in Florida; and that means the world, within a few minutes of another of its most progressive and growing cities—lies the tract of 44,000 acres, surrounding the townsite of Remandos. To make possible the speedy and intensive cultivation of this section of Volusia County, there have been created the Daytona-DeLand Farms of five and ten acre tracts. Each Farm tract will have road frontage.

PRODUCTS and MARKETS

Within a very few miles of the Daytona-DeLand Farms there is waiting a market that will readily and eagerly absorb all output for a long time to come, without taking into consideration at all the markets at points more distant. It is rather ironical to note that Daytona, alone, situated in the front yard of a rich agricultural domain is today bringing in five car loads of canned goods weekly, and after December will import two car loads every day. This gives an indication of the market possibilities and the crying need for immediate and extensive agricultural development.

PROFIT POSSIBILITIES

There is no need here to dwell on the money making possibilities that accompany investment at the proper time in property located in the line of development. If this be true about building lots it is doubly so in connection with rich farm lands located at or adjacent to the main highway, close to markets and railroads, and in a section so readily accessible to the conveniences and pleasures of Daytona and the educational facilities of DeLand—the Athens of Florida. You who are accustomed to considering your dollars in terms of LOTS, think what it means to be able to purchase land in this rich belt at from \$150 to \$300 per ACRE. Doesn't it seem reasonable to expect that so great will be the demand for these 5 and 10 acre tracts that early advances will be justified. Nor does it require the vision of a prophet or intuition or anything else but plain common every day horse sense to visualize what that stretch along the highway will be in a few years. A natural advance in value would be in order if it were all cut up into building lots. If it were so subdivided you can well understand what you would have to pay for it. When you figure in terms of acres, and its lot potentialities, some day, can't you see the tremendous enhancement possibilities of a property so admirably located along the line of development such as is bound to come on that ever increasing popular arterial highway, — the Daytona-DeLand Road.

\$300 Per Acre

In 5 and 10-Acre Farms Fronting on the Daytona-DeLand Road.

Note These Prices
—And—
Make Comparisons

\$150 Per Acre

In 5 and 10-Acre Farms Fronting on Graded Roads Just Off the Daytona-DeLand Road

REMANDOS--the Townsite

While the primary purpose of Daytona-DeLand Farms is the development of its 5 and 10-acre tracts, it is obvious that along the Daytona-DeLand Highway that divides the tract will grow a town to become the agricultural center of Volusia County. To meet the requirements of those who recognize the wisdom of early investment in a city of this character, we offer the following in REMANDOS, the townsite at the center of the famous Daytona-DeLand Farm area:

Residential Lots
50x165
(While They Last) **\$200**

Fronting on the Daytona-DeLand Road. Others ranging in size from 50x150 to an acre and up. \$95 per lot to \$375 per acre.

Football Season Has One Of Many Upsets; Large Crowds Attracted

(P)—The football season has broken into the winning column, although playing each other to a scoreless tie.

The supposedly strong Minnesota eleven, with its mysterious shift, had a chance to wreck the championship aspirations of Michigan, but received a sound wallop. The performance of the Gophers in winning one game, losing another and tying one, leaves them in fourth place.

Bennis Friedman, Michigan sophomore quarter, was the leading point-winner of the conference. He rolled up four touchdowns, two field goals and 22 points after touchdowns for a total of 52.

Champion Teams For 1925 Season

NEW YORK, Dec. 1.—(P)—Winners of sectional and conference football championships for 1925 to gather with 1924 holders of the same titles, follow:

Championship of East: 1925, Dartmouth; 1924, Penn, Yale, Dartmouth.

Southern: Alabama; Alabama.

Western: Michigan; Chicago.

Pacific Coast: U. of Washington, California Stanford.

Missouri Valley: U. of Missouri, U. of Missouri.

Rockey Mountain: Colorado Aggies; Colorado U.

Southwestern: Texas A. & M.; Baylor.

"Big Three": Princeton; Yale.

"Little Three": Amherst; Williams.

Pacific Northwest: Washington and Oregon Aggies (tie); Idaho and Gonzaga.

Southern California: Occidental; Pomona.

Snow And Ice Sends Indiana Son Back To Sunshine Of Florida

"Florida is the only place to spend a winter in comfort," said Lambert Halter of Vincennes Ind. when he returned here Monday and joyfully threw his overcoat among the moth balls.

Mr. Halter, who is a brother of Michael Halter, plant superintendent for the Florida Vegetable Corporation at Sanford, visited here last summer, but decided that he did not like the "City Substantial" and returned to Indiana, which he always claimed was "God's country."

The first appearance of ice and snow, however, reversed Mr. Halter's opinion, and when Jack Frost took entire possession of his state Mr. Halter said he "just naturally had to get back to a place where he could be comfortable."

"I may leave Sanford in the summer," Mr. Halter said, "but the winter months will always find me here on the banks of Lake Monroe."

Many coaches and carriages used by British royalty in the past have become the property of movie concerns in America. Before being sent to America, all crests and other identification marks are cut out of the paneling or of the upholstery.

The Vatican has negotiated a loan of \$1,500,000 with American banks.

Young Star

CALIFORNIA HAS FIRST DEFEAT IN SIX GRID SEASONS

University Of California Is Team That Turned Back Golden Bears; Other Upsets Furnished On Pacific Coast

SAN FRANCISCO, Dec. 1.—(P)—The brief but meteoric dash of football across far Western gridiron in 1925 left a wake of startling upsets climaxed by the crowning of a new Pacific Coast conference champion for the first time in six years.

The seasonal clashes saw the University of California hurled from the throne. University of Washington took the honor of terminating the reign of the University of California.

The Washington University eleven was the first team to defeat the California outfit since 1919.

In 1919 the Huskies won 7 to 0, and on November, 1925, the Northerners repeated with a seven to nothing score.

In winning ten of its eleven games this season, Washington rolled up 459 points to a total of 39 for its opponents. One game ended in a six to six tie. It was the contest with the University of Nebraska. Washington also came through the coast conference race with five victories.

Stanford ended the season with

When Hugh Ditzler, Berkeley, Calif., high school boy, was 11 years old he began playing golf. This year at 16 he defeated a group of adult veterans and won the Oakland municipal links championship. He's made the Oakland course in par and the Claremont in two above par.

four conference wins and one defeat and placed next to Washington. Oregon this year finished last with five defeats.

The conference season is not yet over, for the University of Southern California plays Oregon Aggies on Dec. 5. This defeat Southern eleven a standing of two wins with a like number of losses.

Oregon Agricultural College, with three victories and one loss, can go into a tie with Stanford for second place by trouncing Southern California next Saturday.

More than a million persons heard the call of football in the Far West with the Southern Pacific coast drawing the largest total attendance.

"Ma" Ferguson Says Nothing Of Session

AUSTIN, Tex., Dec. 1.—(P)—Gov. Miriam A. Ferguson has made no formal announcement on the matter of calling a special session of the Texas legislature as demanded by a member of the lower house, her husband James E. Ferguson, said today. It was reported yesterday that she had made an informal statement to a representative of the Baltimore Sun, that she would not call a session.

"Now get this straight," Ferguson said. "Gov. Miriam A. Ferguson has not made any formal statement as to whether or not she would call a special session."

Jacksonville—New \$1,500,000 16-story Barnett National Bank, to be constructed.

Thank Him

Roy M. Finley, attorney for a Texas poultry association, is the man who prevented 2,500,000 turkeys from being lost to the Thanksgiving market of the east. Eastern states banned shipments of poultry from Texas because of an outbreak of hoof and mouth disease; but Finley went east and induced them to modify the embargo sufficiently to permit the sale of turkeys from counties that were not affected by the epidemic.

ROGERS HORNSBY SETS RECORD FOR PAST FIVE YEARS

Hard-Hitting Cardinal Pilot Has Amassed An Average 402 For Past 5 Years And Leads League For 6th Year

NEW YORK, Dec. 1.—(P)—Rogers Hornsby, hard-hitting manager of the St. Louis Cardinals, has removed any doubt as to his place among the greatest batsmen of modern times.

When "Rajah" led the National League for the sixth straight time this season he also compiled the astonishing five-year batting average of .402, a mark which eclipses by two points the best five straight years Ty Cobb ever had. Cobb amassed an average of .400 in his best stretch of batting, 1909 to 1913, inclusive.

Hornsby's marks for the 1925 season, his first as manager, were as follows:

Batted over .400 for the third time, equalling all records in the history of the game.

Led both major leagues in batting.

Led both major leagues in home runs.

Scored 133 runs and made 203 hits, including 40 two-baggers, ten triples and 39 homers.

Hornsby, a native of Winters, Texas, of rugged build and with 180 pounds distributed through his

5 feet, 11½ inches, appeared with the Cardinals for the first time in 1915. He was purchased from Dennison of the Western Association for a reported \$500.

He came to the majors in an era that had produced Ty Cobb and Tris Speaker, and immediately following upon that which brought forth Hans Wagner and Nap Lajoie. Batting records, considered impregnable had been erected by this quartet.

For a time the bat of Hornsby was in restraint, for his activities as a shortstop undoubtedly took much from that sturdy frame during a season. It was in 1920 that the Texan went to second base to remain there and become, perhaps, the greatest batsman of all time.

When Hornsby started his attack upon the hitting crowns, Babe Ruth was poling looping flies over the far fences and the nation's fandom though in terms of home runs. The old-time rugged hitter was forgotten, the men such as Lajoie and Wagner. Even Cobb and Speaker were obscured by the phenomenal Ruth.

But the Cardinal second baseman persisted in his quest, smashing away at the deliveries of the National League pitchers until he became one of the most feared batsmen.

Instructions to telephone users say that we ought not to drop the final syllable of any words. Especially when saying "Hello!"—Punch.

One thing women's clothes leave to the imagination is what makes them so expensive.—Fort Worth Star-Telegram.

Never Before--Su

New World's Records for Rapid Development
Have Been Made at

The photographs in this advertisement are of buildings either completed or under construction on Davis Islands on land that less than one year ago was under water.

THE story of the intensive development activity on Davis Islands in Tampa has been a nation-wide. Tampans and visitors from virtually every state in the Union have been on in confident expectation when work began one year ago. They saw giant pumps begin pumping land from the bottom of Tampa Bay to raise Davis Islands two and three feet higher than the Bayshore Boulevard on the mainland just a few hundred feet away. In a few short weeks they saw a temporary bridge completed, roadways cut, graded and paved, and they saw buildings begin to rise and beautiful homes, hotels, apartments, clubs and other structures take form. They saw more than \$6,000,000 in new buildings started during the year and that a few months before was under water. And they saw hundreds of flower plants and shrubs set out along parks and parkways, forming exquisite beauty spots all over the islands.

As these things went on, buyers were literally fighting for homesites, for apartment and hotel and business lots. And the home folks saw profits that represented virtual fortunes. In many instances either accepted or rejected by these purchasers. Then a few weeks ago Davis Island completely sold out—\$18,138,000 worth of property with an oversubscription of \$8,264,000. They read with interest the announcement that a \$10,000,000 loan fund had been provided for property owners on Davis Islands for building purposes.

They saw a \$7,000,000 contract awarded to Harris Company, Inc., of New York and Chicago for the construction of buildings and development on Davis Islands. Davis Islands has under way the greatest building boom in all Florida—establishing new world's records in rapid development—and new high records in real estate property ownership!

Davis Shores

—another DAVIS ISLANDS
St. Augustine, On the Ocean

DAVIS SHORES, the new \$50,000,000 Island development of the D. P. Davis Properties in St. Augustine, is another "gold bond" location in Florida real estate. Here, just west from the business center of America's oldest city, D. P. Davis is building another "gold bond" development. And Davis Shores is establishing the same spectacular records in development and quick profits that have made Davis Islands known throughout the state.

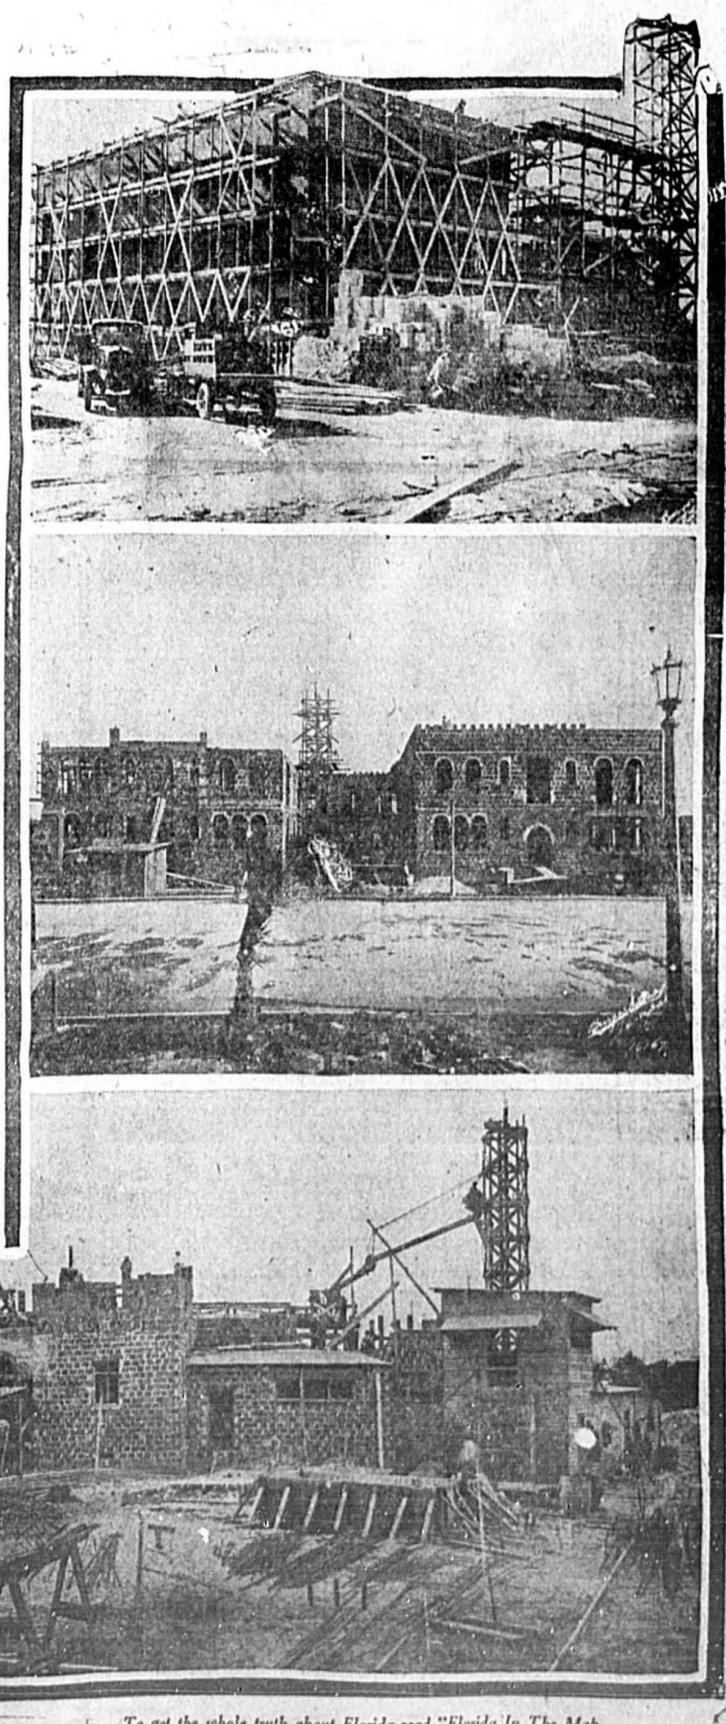

Development in history has attracted such immediate attention as has Davis Shores. Price lists could be printed or plats distributed, investors from all parts of Florida and many states far distant sent in checks totalling \$18,405,000 — completely exhausted the first Section—the first unit—and furnishing an oversubscription of \$7,138,000! Within 48 hours after the opening sale, profits aggregating \$20,150 were accepted by early buyers. Profits totalling more than \$150,000 were refused by buyers who believe that in the long time their profits will be many times as great.

The program for Davis Shores includes erecting scores of palatial hotels and apartment houses and business structures; fifty miles of wide, tree-lined boulevards; twenty miles of massive concrete waterfront, and the installation of water, gas, electric and utility to make living conditions in this Island setting.

SOCIAL SESSION OF LEGISLATURE ENJOYED BY ALL

Legislators Make Merry When All Business Is Attended To And Final Reports Of Committees Are Awaited

TALLAHASSEE, Fla., Dec. 1. (AP)—Washington's famous Gridiron Club, the laugh-creating organization which yearly brings mirth to the souls of nations, had little on Florida's legislature during the final day of the recent special session of the state law-making body.

When all business had been cleared from the desks, and the legislators were awaiting the final report of the enrolling and engraving department before adjourning, a prolonged "social session" was the order.

Speeches were delivered by "the gentlemen" from Holmes and Alachua, from the speaker's rostrum; by "Uncle Primus, the old negro slave of Jefferson county, who is well-known and well-loved by every member of the legislative bodies; by Eugene Hawkins, another lovable character; by "the gentleman" from Calhoun, and by every occupant of a desk on the floor who could get the attention of the speaker.

The day's tribune was freely interspersed with the variety of life—namely, the passionate seriousness of the man with an ideal; the less serious side of the humorist, and the comedy of those who would laugh at the banter of the funster.

The appearance of "Uncle" Primus was the signal for pathetic attention. The old negro, the one who for many years bore the "funeral tray" in Tallahassee, announcing burials for the departed, sang the songs he knew so well when he was bodyguard to his "master" during Civil War days. He delivered a brief talk, in his own peculiar way.

The session developed an atmosphere typically Dixie when several of the lawmakers paid a high tribute to the negro of slavery days. Representative Whittaker, of Hillsborough, declared that his memories had often carried him back to his youthful days in Georgia, when his "old mammy" sang lullabies to him.

There were many moist eyes in the House when Primus turned to bid farewell to the speaker. "I know, sah," he said, "that there will be some of us who won't meet next time."

The hat was passed among the lawmakers and spectators, and Primus went out with one torn pocket filled with money.

Representative Weeks denied the "charge" that he would be a candidate for governor in the next gubernatorial election, although, he added, he had "been a candidate for the past 40 years." Mr. Weeks then begged the members of the House to take cognizance of his proposed constitutional amendment, exempting Florida homesteads of \$10,000 valuation and less of certain taxation. He had not brought the amendment up, he said, because of the shortness of the special session, but he gave notice that he would do so at the next regular meeting.

Representative Eaton, of Alachua, took the stand and kept the house in an uproar with an ironic and humorous disclosure. He decided that they should not meet parting of the ways," as he said, his constituents would probably side that they should not meet again. He had come to the special session, he said, "full of aspirations."

"Did the gentleman from Alachua say that he had come to the special session 'full'?" Representative Phillips of Levy demanded.

Representative Ayres, of Calhoun, delivered a talk on prohibition, and stated that he would be a candidate for governor on a ticket even drier than the proverbial bone. He already had \$10,000 for his campaign expenses.

"Does the gentleman from Cal-

Campus Cut
Leave it to the collegians to think of something new! At the University of Oregon, Eugene, Ore., the girls are wearing sweaters with gay scenes painted on the back. This co-ed maintains that the scene is the back of her rep-

houn know that there is a constitutional provision against an excess of \$5,000 for campaign expenses? Representative Whittaker reminded.

"I shall answer that," Representative Victor of St. Johns interposed. "He hasn't received the check yet."

Following Mr. Ayres vigorous attack upon the bootlegger and moonshiner, a stenographer, assuming the role of president of the Women's Christian Temperance Union, "resented" Mr. Ayres with two vases of flowers, which had been removed from the speaker's stand. A "newspaper cameraman" trained the lens, "and there was a click."

"No legislative session is complete without a speech from the Honorable Eugene Hawkins," Representative Truman, of Escambia declared, in introducing the Senate janitor. The latter then entertained the House for ten minutes with an eloquent speech. The fun-making lasted well into the night.

representatives introduced a "joker" bill. It wound up in the hands of the "committee on Indian Affairs." The "measure" provoked a sharp debate, however, before the "roll call" came. The reading clerk had carefully prepared the roll call. It included the following names:

"Davis Islands" Milan; "School Marm" Allen; "Governor" Ayres; "Unconstitutional" Bell; "Adverse Bud" Bishop; "Flapper" Branch; "Sissy" Bullard; "Red Rose" Carroll; "Hog Serum" Carver; "Baby Lewellyn" Combs; "Negative" Craig; "Elephant Joe" Crews; "Dewdrop" Dew; "No Fence" Eaton; "Dixie" Fletcher; "Cunning" Fox; "Old Maid" Garrett; "Investigating" Getzen; "Memorial Kendrick"; "Ku Klux" Ketchum; "Orange Kurtz"; "Stop Look" Lisken; "Local Bill" McCracken; "Fanny" McEllya; "Taxation" Mackenzie; "String" McLaren; "Dip Yal" McSwain; "Skeets" Morgan; "Sweet Voter" May; "Pension Register"; "Floridian" Stokes; "Von Hildenburg" Taylor; "Freckles"

Truman; "By the Eternal Gods" Weeks; "Appropriation" Williams and "Indian River" Young.

SUPERIORITY IN CHEMICALS LIES IN THIS NATION

Maj.-Gen. Amos Fries Says Increased Appropriations Are Required To Maintain Leadership In This Field

WASHINGTON, Dec. 1.—(AP)—Neglect of proper preparation for the employment of or the defense against an efficient war weapon, "borders on national suicide," Maj.-Gen. Amos Fries, Chief of the Chemical Warfare Service, declared in his annual report to Secretary of War Davis made public today. The report declared that "a speedy and sure victory" in any war can be assured to the United States only by adequate use of the unique superiority the coun-

try enjoys as to chemical resources.

"This position as to chemical resources of the United States," General Fries said, "will give it superiority over any other nation or group of nations which will mean success in any future war, but a state of chemical preparedness will never result if we slacken or neglect our military development and training in chemical warfare. It must be recognized that there is absolutely nothing that heret in chemical warfare to prevent its consideration as a logical and perfectly justifiable means of waging war."

General Fries noted with particular interest "the recent chemical warfare developments in Russia, where that portion of the national defense has been launched on a large scale, backed by great public enthusiasm." He said that despite "many disadvantages," the morale of the American chemical warfare service was excellent, but added: "Nevertheless, without a dras-

tic increase in appropriations, we will soon be the weakest among nations in chemical warfare."

Supply stocks for the service left over from the war had been reduced "practically to nothing," General Fries asserted, adding that annual appropriations were not sufficient to replace this loss or "to maintain the war reserve for foreign projects."

On the question of defensive measures against gas attack, General Fries said that masks for use in continental United States "are non-existent" and that the supply in overseas garrisons was deficient in numbers and in proper sizes. "Effectiveness is the criterion by which weapons or methods of warfare stand or fall. The modern conception of chemical warfare is well known to all the great armies of the world. It has stood the test of a great war and its effectiveness is recognized."

Irland Would Curb Drinking By Giving Boozers Jail Terms

LONDON, Dec. 1.—(AP)—Several thousand of the 15,000 drink shops in the Irish free state will be wiped out if the recommendations of the government commission which has been inquiring into liquor traffic are adopted. These recommendations would leave one drinking place for every 400 of the population, or about 100,000 for the whole country. The liquor sellers who would remain in business would be obligated to compensate those forced out by a levy.

Selling of liquor on Sunday would not be abolished but travelers to whom liquor may be sold on Sunday, would be required to travel 10 miles, instead of three as at present, to qualify as bona fide travelers. The idea of making St. Patrick's day, Mar. 17, wholly dry, has been abandoned, and the commission has recommended that this holiday take the same status as Sunday.

The commission recommends that drunkards on their third conviction be jailed without being given the option of a fine and that driving an automobile while intoxicated be made punishable by cancellation of the driving license and imprisonment.

The commission reports a marked diminution in drunkenness throughout Ireland. In 1870 convictions for drunkenness in all Ireland reach 85,870 while in 1924 for the free state they were reduced to 6,862. This is attributed mainly to the high price of alcoholic drinks, caused by war taxation, which the commission would have continued.

Overfed Husbands A Problem In England

LONDON, Dec. 1.—Overfed husbands have become a great problem in England and a celebrated English dietitian says indulgent wives are responsible for the large proportion of men with digestive troubles.

"Women are much less inclined to eat too much," says the specialist. "They have an uncanny sense about eating. They will give their husbands all sorts of heavy indigestible food. The men eat immoderately while their wives go through the same meal scarcely tasting the dishes which they prepare for their husbands. The result is that men have much more trouble with the digestive organs than women. Men eat too much meat, too much bread, too many potatoes, too many heavy sweets. Gluttons are rare among women. The sex is too wise to gorge itself."

HEARING IS POSTPONED

WETHERSFIELD, Conn., Nov. 30.—(AP)—After the state of Connecticut through State's Attorney Hugh M. Alcorn had offered to answer the petition of Gerald Chapman, twice convicted murderer for a writ of habeas corpus at a hearing, the defense asked for an adjournment because of its unpreparedness and the request was granted. The next session of the court was set for Wednesday morning.

FRISCO RAILROAD ACQUIRES OUTLET IN WEST FLORIDA

Company Takes Over Muscle Shoals, Birmingham, Pensacola Railroad and Plans To Run Improved Service

TALLAHASSEE, Dec. 1.—(AP)—Acquisition by the Frisco of the Muscle Shoals, Birmingham and Pensacola railroad is regarded in railroad commission circles here as a step forward in carrier development for Florida.

Official notice has been received at the commission offices from the Interstate Commerce Commission of the acquisition. The report stated that the Muscle Shoals, Birmingham and Pensacola Railroad company had been acquired by the Muscle Shoals, Birmingham and Pensacola Railway company, and that the Frisco, in turn, had acquired both.

Authority was granted the railroad company by the Interstate Commerce Commission to issue not exceeding \$305,000 common capital stock in payment for the property by the Frisco road. The old railroad, the commerce commission report stated, was limited in development, because of the inadequacy of the properties and limited market.

Heretofore, it was stated, the industries located on the Muscle Shoals had to pay arbitrary charges on all traffic to and from the Louisville and Nashville, thereby, it added, being greatly handicapped.

The best location, the report stated, of new industries is said to be along the Muscle Shoals line, it is claimed the commission statement says that operation of the Muscle Shoals by the new company, under control of the Frisco, will give Pensacola better service and particularly enable the better movement of bunker coal from Alabama over the Muscle Shoals into Pensacola and give the industries of the latter city a larger territory for distribution of their products, as well as the fruit growers of that section.

IN THE CIRCUIT COURT OF THE SEVENTH JUDICIAL CIRCUIT OF FLORIDA, IN AND FOR SEMINOLE COUNTY, IN CHANCERY. Suit to Quiet Title.

E. T. DURLIN, Complainant.

WILLIAM H. MUDGE et al., Defendants.

Chancery.

To William H. Mudge and wife, unknown; William Edgar and wife, unknown; William H. Mudge, William Edgar, and all other persons whose names are unknown trading and doing business under the firm name and style of Edgar, Mudge & Company; on May 14th, 1888, or otherwise, in and to the lying and being in the City of Sanford, Florida, more particularly described as follows, to-wit: Beginning at the Southwest (SW) point of intersection of Sixth Street and Poplar Avenue, and running thence West along the South side of Sixth Street 22 1/2 feet to Pecan Avenue, thence South along the East side of Pecan Avenue 81 feet to the right of way of Palatka and Indian R. R. Co., thence East along the North side of said right of way of said R. R. Co. 235 1/2 feet to Poplar Avenue, thence North along the West side of said Poplar Avenue being Lots 1 and 2, Block 8, Tier 13 of Florida Land and Colonization Company, Ltd. Map of St. Ger-

trude's Addition to the Town of Sanford, Florida, and to any and all other persons whose names are unknown, claiming any right title or interest in and to the lands hereinabove described or any part or parcel thereof.

It is hereby ordered that you and each of you be and appear before our said Circuit Court at the Court House at Sanford, Florida, on the 17th day of December A. D. 1925, and then and there make answer to the bill of complaint exhibited against you in this cause.

It is further ordered that this order be published in The Sanford Herald a newspaper published in Sanford, Seminole County, Florida, once each week for four consecutive weeks.

WITNESS my hand and the seal of the Circuit Court of the Seventh Judicial Circuit of the State of Florida, in and for Seminole County, on this 16th day of November A. D. 1925.

R. A. DOUGLASS, Clerk of the Circuit Court of the

Seventh Judicial Circuit of Florida, in and for Seminole County, (SEAL) By: A. M. WEEKS, Deputy Clerk. DEWITTES & SPENCER, Solicitors and of Counsel for the Complainant. Nov. 17-21, Dec. 1-3-15.

IN THE CIRCUIT COURT OF THE SEVENTH JUDICIAL CIRCUIT OF THE STATE OF FLORIDA, IN AND FOR SEMINOLE COUNTY.

PEOPLE'S BANK OF SANFORD, A Florida Banking Corporation, Complainant.

R. M. CARRAWAY as administrator of the estate of Sam Phillips, and Mary Phillips, Respondents.

Order For Constructive Service By Publication (Four Weeks)

The complainant having attached to its bill of Complaint in this cause

affidavit stating that Mary Phillips, one of the respondents is a non-resident of the State of Florida, that she resides at 1818 W. 11th Street, Cleveland, Ohio, and the said bill having prayed for Constructive Service against said defendant, it is

THHEREFORE ORDERED That the defendant Mary Phillips be required to appear on the 4th day of January A. D. 1926, the same being Rule Day to the bill of Complaint filed against her in this cause, and it is further

ORDERED That a copy of this order be published once a week for four consecutive weeks in the Sanford Herald, a newspaper published in Seminole County; that another copy of this order be posted on the courthouse door at Sanford, Seminole County, Florida.

In witness whereof I have hereunto set my hand and official seal this 9 day of November A. D. 1925.

V. R. DOUGLASS, Clerk of the Circuit Court, Seminole County, Florida. (SEAL) By A. M. WEEKS D. C.

FEDERAL RADIO NET ORIGINATED THREE YEARS AGO

War Department Instituted System In 1922 To Insure National Communication In Case Of Emergencies

WASHINGTON, Dec. 1.—(AP)—Disclosure that the "War Department radio net" linking up the nine corps areas and the department in a communications system operated exclusively by military personnel originated in 1922 as a feature of "plans to insure communication with corps area headquarters and certain critical cities in case of failure or destruction of the commercial wire system", is contained in the annual report of Major Gen. C. McK. Saltzman, Chief Signal Officer of the Army.

The net was established three years ago, the report said, and it has since been employed "to excellent advantage in the training of signal corps personnel," in addition to handling a heavy burden of departmental telegraphic business theretofore entrusted to commercial companies.

General Saltzman estimated that while the original five stations of the net transmitted about 50 official messages daily, each number being about forty words, the present system of twelve major stations and sixty subsidiary points handled approximately 800 messages a day.

The rapid growth of traffic was said to have been brought about by the chief coordinator, in an endeavor to "consolidate government communication activities in order to eliminate duplication of effort and carry out the retrenchment policy of the President."

In addition to handling its own, the War Department transmits the business of more than 12 other government departments and bureaus, and in co-operation with the Navy which handles all off shore radio business, as the Army handles inshore messages even for the Navy, a system has been established, General Saltzman said, fully capable to handle and supervise the communications activities during an emergency. The report showed that in the fiscal year 1924-25 more than eight million words in messages were transmitted with a saving of \$155,697 to the government in commercial tolls.

General Saltzman deplored the lack of funds which has prevented research work on new communication equipment and appliances, especially radio developments. His report also declared that the situation radio and telephone systems and performs its other functions as well.

Isle Of Skye Men Are "Diet Crazy" Says Medical Man

LONDON, Dec. 1.—(AP)—The highlanders of the Isle of Skye and the outer Hebrides, off the west coast of Scotland, have abandoned their traditional oatmeal for a luxurious diet of tea, while bread and jam. This fact has been brought out by the chief medical officer of Invernesshire, which includes Skye, who declares the change is "dietetic folly" and is the result of indolence.

The medical officer says that radio, cross-word puzzles and other modern ideas are threatening to spoil the islanders and to remove all the picturesqueness of the country of the Crofters, as the small highland farmers are called. The authorities of the region are making attempts to introduce easier methods of preparing porridge so that the islanders will not stick to their new tea and bread diet simply because it is easier to make ready for the table.

Coral Gables—Plans forming for erection of new \$1,500,000 hospital and clinic building.

Daily Fashion Hint

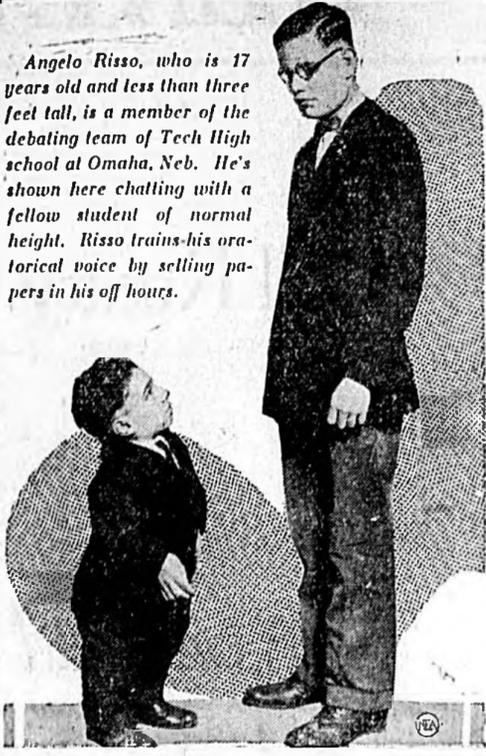

THE SURPLICE FROCK

Here, in all of its French chic and distinctive treatment, is the surplice frock favored by leaders of the mode. This model may be carried out in the soft woolsens, in the crepe satins, or velvet. In dark tones, it may be brightened with a band of embroidery or braid. Certainly Paris has sent over nothing more enchanting than this design of a fashion of exceptionally pretty frocks. Medium size requires 3 1/2 yards 40-inch or 2 1/2 yards 54-inch material.

A VERY SHORT SPEAKER

Angelo Risso, who is 17 years old and less than three feet tall, is a member of the debating team of Tech High school at Omaha, Neb. He's shown here chatting with a fellow student of normal height. Risso trains his oratorical voice by selling papers in his off hours.

Ford's Gift

This marble bust, "A Florentine Lady," done by Mine de Fiesole in Italy in 1480, has been presented to the Detroit Art Institute by Mr. and Mrs. Edsel Ford. It is said to be one of the finest specimens of Fiesole's work in existence.

Auto Accidents In 11 Southern States Claim Lives Of 35

ATLANTA, Ga., Nov. 30.—(AP)—A slight decrease in the number of deaths and a small increase in the number of injuries from traffic accidents in the south from the week previous are shown in a survey made for the past week by the Associated Press today.

There were 35 deaths in the past week as compared with 36 for the week before and 220 injuries as compared with 170 the prior week. The reports came from 11 states.

North Carolina took the lead in the number of deaths with eight, Florida following a close second with seven. Georgia was an easy leader in the injuries column with 56, Florida being her nearest competitor with 33 injuries.

Alabama, Mississippi, and Louisiana reported no deaths, while Virginia, reporting five deaths, claimed six in the injured list column.

State	Deaths	Injur.
Virginia	5	6
North Carolina	8	28
South Carolina	2	6
Georgia	3	56
Florida	7	33
Alabama	0	12
Mississippi	0	20
Louisiana	0	30

MANY FLORIDA TOWNS EXTEND CITY LIMITS

Sanford One Of Fourteen Cities Granted Permission To Extend Boundaries To Care For Increased Development

TALLAHASSEE, Dec. 1.—(AP)—Fourteen Florida municipalities had their territories extended by consolidation or annexation during the recent special session according to bills passed by both branches of the legislature. The largest municipal merger involved was that of greater Daytona Beach which, according to the bills passed, is to include the present city of Daytona and the towns of Seabreeze and Daytona Beach. Another triple merger is provided in a bill to consolidate the Bay county municipalities of Panama City, Millville and St. Andrews Bay into the city of Panama City.

Tampa was granted permission to annex Port Tampa and Sulphur Springs Park if a referendum vote is favorable, and Miami is authorized to extend its limits around Buena Vista. Miami is also granted jurisdiction over a certain area of Biscayne Bay for the purpose of constructing a ship channel and municipal docks by a law which passed both houses over the Governor's veto. Other cities extending their corporate limits are Bradenton, Umatilla, Tavares, St. Leo, Stuart, Haines City, New Smyrna, Orlando and Cocoa.

Among the new municipal creations are the corporations of Elbert in Pasco county, Englewood in Sarasota, Vernon in Washington, Osteen, Temple Terrace in Hillsborough, Ona in Hardee, Floranada in Broward, Hollywood in Broward, Limestone, Bunnell and Bithlo.

Many communities receive extended civic powers and city charters by legislative action, among them being Marrision, Fellemeru, Punta Gorda, Carrabelle, Inverness, Fort Pierce, Seville, New Port, Richey, Perry, Coral Gables, Winter Park, Palatka, Waldo, Grove land, Brooksville, Lake Sterns, Homestead, Safety Harbor, Flagler Beach, Charlotte Harbor, Sanford, DeLnad, Wauchula, Palm City, Dunedin and Moore Haven.

Mr. Sealey will go as a member of the Commission on Secondary Schools, and will represent the state educational department, and Dr. Conradi will attend as a member of the same commission, but will represent his college.

FEDERAL TRADE REVIEW BRIGHT FOR ALL SOUTH

Employment Conditions In Most Districts Declared To Show Improvement Over Last Year's Labor Status

ATLANTA, Nov. 30.—(AP)—Favorable comparison with the corresponding period last year continues to be shown by most of the series of business statistics compiled and collected by the sixth federal reserve district headquarters for its monthly review.

Figures indicating the cotton produced in the district show an increase over 1924 of 32 per cent, the review says. The latest report issued by the department of agriculture indicates a cotton crop this year amounting to 15,380,000 bales.

"Prices prevailing in the principal naval stores markets have been higher this year than for last year, indicating a much higher return to the producers of these commodities, the review states.

"Building activities in the aggregate continues at a very high level, although for the month of October the principal activity in this district is largely confined to Florida. Orders being received by lumber mills continue to exceed their production. Employment conditions in most parts of the district are satisfactory.

"Retail and wholesale trade statistics show up favorably for October. The arrival of cool weather the first of the month removed the greatest hindrance which had both wholesale and retail trade had encountered during September and furnished the incentive for renewed buying.

"Weekly reports from member banks in selected cities show a substantially larger amount on deposit than at this time last year, savings deposits at the end of October held by 93 banks were 13 per cent larger than a year ago and the volume of general business being transacted as reflected in the cities of individual accounts at 24 reporting cities, was 27.2 per cent greater for the week ended Nov. 18 than for the corresponding week last year."

In the Irish Free State, single men and women receive equal pay for the same work. In case a man marries he receives an increase automatically; if a woman marries she receives a bonus, but automatically loses her job.

Two Are Killed In Million Dollar Fire

LAKE CHARLES, Dec. 1.—(AP)—Fire here early this morning caused two deaths and property loss that may reach \$1,000,000. Hollis Vincent died in a hospital from injuries and the body of William Guillotte, a fireman, was found in the debris. About one-third of a business block was wiped out before the flames could be checked.

Two men were removed to a hospital and several other physicians were slightly injured by falling walls. Ben Collins and George Phillips are in a hospital.

Lake Wales—Approximately 20 new dwellings to be erected.

Over 20 Years of Realty Service

SCRUGGS-SCOGGAN REALTY CO. Inc.

We announce to the realty public that this newly formed company is now established and ready to perform a professional real estate service for our many friends in Sanford, and for visitors and investors who are in the city. W. E. (Ed) Scoggan, well and favorably known in Sanford and F. H. Scruggs, Realtor, are the officers of this realty corporation. We have several properties of merit for sale and we have buyers ready for attractive propositions.
