President Proposes \$71.8 Billion Budget

Tax Cut Ruled Out

WASHINGTON (AP) — President Eisenhower proposed to Congress today the biggest U. S. spending budget in peacetime history—71.8 billion dollars.

He ruled out a general tax cut and asked for higher postal rates.

His new budget for fiscal 1958 was in the black for the third straight year. The surplus of revenues over spending was estimated at 1.8 billion for the new year starting next July 1.

But to help check inflation, Mr. Eisenhower said, the surplus must be used further to reduce the federal debt which now stands at 273.7 billion.

"The prospective budget surplus in the fiscal year 1958 will reinforce the restraining effect of present credit and monetary policies," he said in a new warning of inflation dangers.

Of the total spending, about six-tenths—43 billion—would be for national security, including military and economic aid to U. S. allies. The armed forces would get 38 billion. These programs, he said, will "provide a wise and reasonable degree of protection for the nation."

In addition to the big defense budget the President called for the highest spending ever on atomic energy and farm programs. Atomic energy funds were hiked by 400 million to 2.3 billion for military and peaceful purposes. Agriculture spending was increased by 300 million to 5 billion.

Sizeable increases also were asked for Medicare benefits, improved air safety and development.

Bomber Crashes On Training Flight; 4 Dead

HOMESTEAD, Fla. (AP) — Air Force investigators today picked through B47 Stratojet bomber wreckage scattered over a potato field to determine what caused a spectacular crash which took the lives of four flyers. The Air Force also sought to determine whether the big, silver Stratojet, equipped to carry atomic or hydrogen bombs, exploded before or after it plowed into the field Tuesday.

The eight-engine jet crashed a little over two hours after it took off from Homestead Air Force Base on a routine training flight over Florida, Georgia and Alabama. The jet apparently turned back because of trouble and was trying to land on a runway when it piled up about a mile from the base, officials said.

All the officers had wives and children and lived near the base here. The Air Force said a B47 normally carries three, but that one went along as an extra man. The Air Force said one of the men tried to eject himself just before the crash, but his parachute failed to open. His body was found near where the plane crashed.

County Gets Check For Money Used In '53 Disaster

Seminole County yesterday received a check from the federal government for \$4,690 which represents 6.53 per cent of the balance due from the emergency fund made available during the 1953 disaster when high water crumbled and melted away roads.

O. P. Herndon, Clerk of the Circuit Court, released the information yesterday when the check was received in his office.

Herndon said that the county has already received \$23,042 as a reimbursement of money the county was forced to spend because of the 1953 high water, and flood and damage to the county's roads.

The Seminole County Defense Council headed by A. B. Peterson Sr., the Board of County Commissioners and Commissioner O. E. Foreaker, and auditor O. A. Partin, were greatly responsible in securing the federal money from disaster funds set aside for damage during the disaster.

Original expenditures to replace damage roads came to \$38,303.23. Balance of the \$12,260.89 will be reimbursed to the county when overpayments are recovered, according to a letter received in Herndon's office yesterday.

Naval Blimp Makes Emergency Landing At NAS Early Today

A Navy blimp No. 013 made an emergency landing at the Sanford Naval Air Station after returning here from Glynn, Ga., because of weather conditions.

The blimp came in this morning at 4:04 a. m. in its scheduled flight from Key West to Glynn, Ga.

According to a Navy spokesman, the blimp going into Glynn last night found itself "sucked in" by fog and could not land. Circling the Glynn field several times, the ships officer found that gasoline was running low. The blimp returned to the local Naval Air Station landing before gasoline supplies were exhausted.

Hiers Has 32-Year Sunday School Attendance Record

George Hiers, a farmer on the Westside, received a pin recently during services at the First Baptist Church for having a perfect Sunday School attendance record for the past 32 years.

The only time his record was ever threatened was several years ago when Hiers was confined to the local hospital for surgery.

The Rev. W. P. Brooks Jr. said that during a visit with Hiers "he was more worried over his Sunday School attendance record than the surgery he had undergone."

"Can you arrange to take me to Sunday School in an ambulance?" Hiers asked Dr. Brooks.

With permission of doctors, the ambulance took Hiers to Sunday School to maintain a record of unusual length.

Hiers attends the Men's Bible Class at the Sunday School.

Conductor Toscanini Succumbs Early Today

NEW YORK (AP) — Arturo Toscanini, 89, whose genius as a conductor of operas and symphonies thrilled the world for 60 years, died today in his sleep. He had suffered a stroke on New Year's Day.

Death came to the beloved, white-haired maestro at his luxurious Riverside home in The Bronx, apparently in a struggle to awaken his at 8:40 a. m. He had been confined to his bed for three days.

He just slipped away very quietly and very peacefully," his physician, Dr. Waldo Farnum, said. "He suffered no pain."

A family spokesman said Toscanini's body would be taken to Milan, Italy, for burial beside that of his wife, Clara who died in 1951.

Farnum said Toscanini, who had lived in a strict retirement since 1953, had a "remarkable" comeback after suffering a cerebral thrombosis Jan. 1 but probably had suffered two or three slight strokes since then. Friends said Toscanini's sight also had failed.

Exceptional Records Are Set By 2 Men In Our Community

Some exceptional records have been set recently in Sanford—records which individuals have accomplished in their daily walks of life.

For instance, Earl V. Turner, local manager for Southern Bell Telephone & Telegraph Co. yesterday celebrated his 60th birthday in the employ of the widespread communications firm.

Turner revealed in an interview yesterday that he had been on sick benefit only once during his entire career—and that was for only a month.

For one man, even though he has not yet reached the age of 65, to remain with one organization over a span of exactly a half-century is quite an accomplishment.

"Southern Bell Telephone Co. has been good to me," was the remark Turner made during his talk with The Sanford Herald news reporter.

And no doubt, that was the reason Earl Turner stayed on and on with the company he respected, the firm that was "good to him," the organization he enjoyed working for.

As bouquets are handed out—they should, without a doubt, go to not only the individual who has prospered, remained happy, and accomplished much for his employer; but also to the company which for five decades provided the employment and made possible the continuous service for his employees and the others who are creating distinguished records over many years.

Then, there is the record of one man in Sanford who, for a period of 32 years, has never missed Sunday School.

Only one time during the more than thirty years was the perfect attendance record threatened. George Hiers, a farmer on the Westside, was in the hospital where he underwent surgery. During the pastor's visit with Hiers, the patient revealed that he was "more worried over missing Sunday School than the operation he had undergone."

"Can you take me to Sunday School in an ambulance?" he asked.

It was arranged.

So George Hiers was taken to Sunday School at the First Baptist Church where he is a member of the Adult Bible Class. Thus he established his record for attendance for which he recently received a gold pin.

These are records where constant plugging for "the better things in life" become a source of enjoyment for those who enjoy better living.

Both men are examples for others to follow in our community.

Good Luck, George Barr

George Barr is back in Sanford and ready to open his umpire school tomorrow afternoon.

As usual, George Barr is opening his annual umpire school with sort of open house and local citizens go out to the Longwood Hotel to help welcome his new students as well as many of the old ones who come back for a little brushing up on the mannerisms used in calling a ball "a ball" and a strike "a strike."

George Barr, an honorary member of the Sanford Kiwanis Club, is known as one of Sanford's foremost "roving ambassadors."

"We're happy to welcome him back to his 'second home' and to wish him luck in another year of training umpires for the grand old national pastime.

Russian Major Expelled From U. S.

By WILLIAM GALBRAITH
United Press Staff Correspondent
WASHINGTON (AP)—An assistant Russian military attaché has been ordered expelled from the United States for "improperly" purchasing electronic equipment and trying to buy military secrets it has been announced.

The State Department demanded the "immediate departure" of Russian Maj. Yuri P. Krylov. In a note handed the Soviets here last night, the note declared Krylov Zpersonam non grata—personally unacceptable.

Must Leave Soon
Department spokesman Lincoln White said that stripped of its diplomatic niceties the note means that the military attaché must leave "as soon as he can get his things together."

White declined to identify the American intermediaries in the case or to say if any action will be taken against them. He said "that is not the province of the Department of State." Any such action presumably would be up to the Justice Department.

A Soviet embassy spokesman had the usual "no comment" when asked about the case. Pressed as to when Krylov planned to leave, he said "I don't know."

The American note, which accused the attaché of "highly improper activities incompatible with his diplomatic status," did not go into details. But officials said he bought electronic equipment which is not licensed for export.

The expulsion raised the possibility that Russia may retaliate by ousting an American diplomat from Moscow. The Kremlin generally has followed a tit-for-tat policy in such cases in the past.

Military Information
"On various occasions," the de-

partment said, "Maj. Krylov has purchased such materials through American intermediaries in addition, Maj. Krylov had attempted to purchase classified military information."

White also would not say whether the equipment still was in Krylov's possession or if the United States had tried to recover it. There was no amplification on the charge that he tried to buy military secrets.

The now demanding Krylov's department was handed to Soviet Charge D'Affaires Sergei R. Stroganov who was summoned to the State Department.

White said he did not know whether Krylov succeeded in getting the equipment back to Russia.

He said that "He did not export it through the U. S. mails."

News Outlook For This Week

By CHARLES M. McCANN
United Press Staff Correspondent
United Press correspondents around the world look ahead at the news that make the headlines.

State Visit
Prospects are increasing that President Eisenhower may make a state visit to some foreign countries this year. There is a strong feeling in some Washington circles that he may go to India, especially, to return the recent visit of Prime Minister Jawaharlal Nehru.

Danger Signs
Word comes from Warsaw that Independent Communist Premier Wladyslaw Gomułka is preparing for possible trouble incident to the parliamentary election next Sunday. Police forces are being strengthened and provided with special anti-riot equipment. Despite Gomułka's successful fight against Russian domination, there have been anti-Communist outbreaks in several cities. Western observers on the spot see the election as a test for Poland's future. If it goes off peacefully, and the Communists roll up a substantial majority, all will be well. But if the vote is not convincing, and if there are riots, Moscow may try to upset the present relatively liberal regime. That would mean bloodshed.

Oath
Don't be surprised if the White House changes its mind and decides to give the public a peek by television and photographs at President Eisenhower's private oath-of-office taking at the White House Sunday. He must take the oath Jan. 20. But because that's Sunday, the White House decided to make the ceremony completely private, and to hold a public ceremony next day. There has been much criticism of the decision. So the signals may be changed.

Was He Pushed?
The official version still is that Sir Anthony Eden resigned as prime minister because of bad health. But here's a report that is being circulated at cocktail parties in inner circles: The Marquis of Salisbury, who is becoming Britain's political king maker, visited Queen Elizabeth at Sandringham, her country estate, last Monday. He told her that the consensus of the divided Conservative Party leadership was that Eden had to go. The Queen called in Eden next day and told him the bad news.

Trouble
Emergency legislation for Hungarian refugees, once thought certain of early passage in Congress, may be in trouble. Rep. Francis E. Walter D-Pa., top hand on immigration legislation in the House, warns he won't be rushed. Says full security checks must be made before any bill is passed to give refugees permanent residence in this country. There are other signs that the tide of

pre-refugee sentiment has passed its peak. For instance, ap. Omar Burleson D-Tex. says he'll introduce a bill to send refugees home once it is determined that their lives won't be in danger.

Look for former Sen. Earle C. Clements of Kentucky to accept the job of executive director of the Democratic senatorial campaign committee. If he does, he'll be in line for election as possible

future chairman of the Democratic National Committee.

Sports Outlook
Jackie Robinson's retirement as a player seems irrevocable. But close friends believe he's almost certain to return to baseball in a few years as coach, minor league manager or broadcaster. It's figured that his intense love of baseball and his tremendous gate appeal will lure him back.

En-Lai Outlining New Policy Line

Foreign News Commentary
By CHARLES M. McCANN
United Press Staff Correspondent
Soviet Russia and Red China evidently have decided that if Communists do not hang together they are likely to hang separately.

That, in brief, is the new policy line which Chinese Communist Premier Chou En-lai is outlining as the result of his recent visit to Moscow.

There is no longer any doubt that Nikita S. Khrushchev, first secretary of the Russian Communist Party, appealed to Red China to help avert what threatened to be a break-up of the Soviet bloc in Europe.

Chou responded by interrupting his tour of East Asia and going to Moscow to cooperate in working out the new policy line.

Will Visit Hungary
From Moscow, Chou has gone on to "independent" Communist Poland. From there, he is going to Hungary where puppet Premier Janos Kadar is trying to pre-

vent another outbreak of open rebellion by reverting to the ruthless methods of Josef Stalin.

In a long policy speech in Warsaw Chou said: "We must march shoulder to shoulder to the same goal. We consider that the constant strengthening of the friendship of the socialist countries headed by the Soviet Union is our greatest duty."

Thus Chou both appealed for unity in the Communist-ruled countries and reaffirmed Russia's position as the center of world Communism.

Reaffirming Russia's Position
His appeal for unity was the same as that which Benjamin Franklin—speaking in a better cause—made at the signing of the Declaration of Independence in Philadelphia on July 4, 1776: "We must all hang together, or assuredly we shall all hang separately."

The fact that Chou has specified that Russia is still the center of world Communism does not mean that Red China with its 600 million people intends to take a second-rank position.

Chou's support of Khrushchev and of Russian leadership, stem from self interest. Red China still needs, and will need for some time, economic and technical help from the Communist countries of Europe.

Aliens Have Two Weeks To File Address Report
The United States Immigration and Naturalization Service reminded all aliens in Florida today that only two weeks remain in which noncitizens must file their annual address report as required by law.

Joseph Savoretti, District Director, pointed out that address report forms are available at the nearest Immigration Service office or post office for the convenience of noncitizens required to report their address to the Government each January under a provision of the Immigration and Nationality Act of 1952.

Savoretti said the only noncitizens not required to report their addresses are persons in diplomatic status, foreign representatives assigned to the United Nations, and Mexican national contract laborers.

Savoretti said: "It is hoped that all persons subject to this law will go to the nearest Immigration office or post office and fill out an address report form before the Jan. 31 deadline to avoid possible serious penalties."

He explained that persons found guilty of willful violation would be subject to a possible fine, jail sentence, and deportation.

The Immigration official said that 30,000 aliens filed reports during the first two weeks of the January reporting period, which is above the same period for 1956.

IT'S EXAM TIME!

If you're wondering why your offspring and friends that are in college haven't written in quite some time, I think I can enlighten you as to the answer to your query. It's final exam time in conclusion of the first semester of work in most of the colleges around the nation, and industrious students are pouring over the books in preparation for this grueling experience. After all, one or two weeks is a terribly short time to cram into our little brains what we should have had in throughout 16 weeks and we have no time to spare doing such insignificant things as writing letters! Anyway, we know you'd rather us come home with straight A's (thai hal!)

Examinations at the UoF and FSU began this week while Stetson students are getting shaky hinking about theirs that begin Jan. 22. At UoF a respite at the end of the first week of tests will be a jazz concert featuring Louis Armstrong and his All Stars on this Saturday night. This is to be sponsored by the Inter-Fraternity Council and proceeds from the concert will be used to sponsor a Hungarian refugee, to provide a big name band for spring frolics, or as an addition to the IFC loan and scholarship fund.

Graduation and Vacation
Some 500 students will receive degrees in ceremonies Jan. 26 at the Florida Gymnasium of UoF. Howard H. Sargeant, former assistant Secretary of State for Foreign Affairs and president of the American Committee for Liberation, will deliver the main address of commencement. Graduating at this time will be Gayle

that were dying a natural death. It is entirely possible that in a few years if central Florida continues to grow that we won't be needed in Sanford and I for one hate to see the day when we aren't. Maybe you feel this way too, so will you come and help on Talent night and the Folliet! End of wandering thoughts for the day.

Dodie King had a lovely bridge luncheon Tuesday. Marvellous shrimp salad was served, and chocolate pie. Dodie is a famous cook, and the best place to go is to her house if you are on a date. Playing bridge were Mary Libbey, Terry Price, Gretchen Hall, Lou Johnson, Anita Hadjen, Jean Stetson, Jamie Miller, Jane Doolley, Betty Guy, Jean Elton Doolie and Ginny Conn. They won high, Anita second, and Betty Guy low.

Conning The News

BY VIRGINIA CONN

The Driftwood circle met at Jean Tegfeld's home in Pinecrest Monday morning. Homer Osborne was the guest speaker and he lectured informally on Good Gardening Practices. Among the interesting subjects covered were how to water your yard, fertilization and care of fruit trees, the care of grass and the demolition of weeds. A question and answer period was especially popular with the hostess, who informs me that she is the grubby member of the circle, and more of a dirt farmer than a flower arranger. (Where upon she proceeded to tell me how to arrange azaleas and logastrum.) Jean's pride was in her blooming bushes and bearing fruit trees when I asked if there had been any lower arrangements. Any one who knows this girl has seen how lovely her yard is, and she deserves the harvest she has so carefully nurtured.

Coffee and rolls were served after the meeting. Attending were Betty Guy, Jean Stetson, Mr. Marge Hill, Camille Metzger, Mike Stone, Lois Elder, Kay Dwyer and Sadie Nolle.

Guess most of you know by now that a great many navy people are working on the High Fever Folliet which will benefit the Seminole Memorial Hospital. Sponsoring the Folliet is the Women's auxiliary of the hospital, which plans to buy an orthopedic operating table with the money raised from the Folliet. Lately several of us working on this project have been asked "Why should we help raise money for Sanford's hospital? Sanford is getting to depend far too much on the Navy." Sometimes these questions are very hard to answer, mainly because the proper phrases don't come to mind until after the person has left—but they always come. One of the best reasons I know now to help is because the Seminole Memorial Hospital has become our under the Medicare bill. Certainly it is cheaper to go to a regular service hospital, but also it is convenient and the care is not as good.

Jr. High Cagers To Meet Ormond Quintet Tomorrow

Coach Howard Gordie sends his immaculate record to the crucial test tomorrow afternoon when he sends his hard charging Sanford Junior High cage quintet out onto the home court at Jr. H. at 2:30 to meet Ormond Beach Junior High.

Both teams are undefeated for the season, and coach Gordie has won 58 of the last 67 games.

Earlier in the season Gordie said, "If we can get by Mainland Jr. High and Ormond Beach Jr. High, we'll take on any junior high team in the area." His Sanford Juniors responded to the call last week against Mainland and rallied in the last quarter to come from behind and topple the prior undefeated Buccaneers.

The three periods that his aggressive cagers trailed about his faith somewhat, however, and this morning Gordie said, "We'll have to play our best game of the season to beat Ormond, and we'll have to play better ball than last week to beat Mainland again."

Basketball League Play Set To Start Monday, Jan. 21

Fred Ganas, coordinator of the Seminole County Junior High School Basketball League, said this morning that the league was in the process of reorganization and scheduling and that the league play would start on Monday, Jan. 21.

The League, which is composed of six teams, will play every Monday and Thursday once under way and the season will run for five weeks, with each school playing twice a week. There will be no open dates during the season.

Sanford Junior High's B team will be sent to the League along with junior high teams from All Souls Parochial School, Lake Monroe, Lyman, Oviedo, and Slavia. All teams excepting Sanford Junior High will play varsities.

After the regular league season, Sanford Junior High's P-T-A will sponsor a county tournament. The tourney will be held Feb. 28, March 1.

Ganas said the schedules were now being prepared and would be mailed to the various schools within the week.

The Sanford Seminoles made a dramatic finish for a full fourth quarter last night in the SHS basketball game at the Sanford High School gymnasium before the smooth stepping Bulldogs, sporting a high polish put on them by former Seminole High School assistant coach Bob Koontz, edged out the vastly improved Sanford basketball team 68-53 in an Orange Belt Conference game.

Joe High, one of the three "big" boys for the Seminoles, showed amazing improvement to spark the fast finishing Seminoles to what was considered by Seminole Mentor Bud Layer as a "team effort that was respectable."

Leading 56 to 33 going into the final stanza, Koontz moved his reserves onto the court to give them a little experience. The Seminoles caught fire and went on a scoring binge. Koontz feverishly replaced the reserves with the starting quintet, but it made little difference to the Seminoles as they dominated the final stanza and brought the difference in score to 15 points.

Ken McMurray, probably the most improved player on the Seminole squad, again sparked for the second straight time for the ambitious Sanford cage quintet.

High led the Seminoles attack with 18 points and was backed up by McMurray with 11 points.

The crying lack in the Seminole camp was again defense, as the offense rolled to 33 points—on nothing but the basic fundamentals of basketball.

After the game coach Layer said that he was generally pleased with the offensive performance, but the defense was "pathetic." Layer said defense and shooting would comprise the vast majority of practice sessions during the remainder of the week.

"Before the holidays we were stomped by these teams by as much as 40 points. That won't happen again, so the defense isn't hopeless."

In fact, the defense is shaping up pretty rapidly considering the gross ignorance of basketball on the parts of the young and inexperienced Seminoles.

"The experience these boys are picking up means a lot for the next game," assistant coach Dick Silvers asserted.

Layer said he thought he could bring the boys around this week enough to point for Lakeview, another OBC team.

"The way things are going now, I think we may break the win column in the conference this week," he declared. "We have shown a lot of improvement and we just may be able to take that bunch of long, lanky boys. Any way, with a lot of hard work and high spirits we'll be looking for a win."

Bill Stroud and Bill Archer were outstanding for Melbourne. Stroud scored 16 points for Melbourne, Archer scored 17 points, and Ed Parson, who was the snowbird on the Bulldog division of the fast-break scored 18 points.

NEW YORK (AP)—Happy-go-lucky Roy Campanella has laughed off two cuts "because the one on the hand hurt the most and it's all healed now."

The "one on the hand" was an operation necessary to remove bone chips. The other was a \$5,000 salary slash which means he'll receive "only" \$37,000 to catch for the Brooklyn Dodgers next season.

"I just feel so good today," gurgled the roly-poly receiver in his high-pitched voice, "that I feel like I could play forever."

Campy admitted that he figured the Dodgers would win the pennant next season despite the loss of Jackie Robinson.

1954 His Bad Year
"Sure, he'll be missed," said the chubby catcher. "But they missed me last year and they won."

Roy, three-time Most Valuable Player in the National League, was referring to a season in which he hit only .218 and because of his crippled hands was not highly effective in any way.

Campanella underwent surgery on his right hand after the Dodgers' post-season tour of Japan. "Last season it hurt so bad I couldn't hardly grip the bat," he recalled. "But I've been swinging a bat in the basement and there isn't any pain at all."

"Of course," he quipped, "I always say it feels good when there is nobody pitching to me. But, honestly, the hands feel great and I'm highly optimistic."

President in His Favor
Campy has precedent on his side as he looks forward happily to the prospect of a fine season.

In 1950 he batted only .291. The next season he won MVP honors. In 1952 he dropped to .263 and bounced back the next season to again take most valuable honors. Then it was down again in 1954, when he batted only .207, so he came back to take the MVP prize again in 1955.

"So this should be my 'on' season," he chuckled. "And one thing sure, it's going to take them a while longer to get me out of there. As long as I feel as good as I do, and have the desire, I'm gonna keep right on playing baseball."

Barons Again Attract Most Road Attendance

NEW ORLEANS (AP)—The Birmingham Barons for the third consecutive year led the Southern Association in attracting road attendance, League President Charlie Hurth has announced.

He related figures showing the Barons drew 169,427, while second place Nashville attracted 152,681. The largest drawing series of the year was Nashville at Atlanta. The 11 games drew 42,580. Atlanta attracted 41,631, while New Orleans at Atlanta in 11 games pulled in 40,479.

The smallest drawing series was the 11 games between Memphis and Little Rock—Montgomery, which attracted only 5,265.

The other Southern Association team road drawing figures were: Chattanooga 141,665; New Orleans 139,447; Memphis 138,890; Little Rock—Montgomery 124,335; Atlanta 116,983; and Mobile 113,790.

West Berlin is enjoying the lowest rate of unemployment in many years, with fewer than 100,000 jobless in 1956 compared with 190,000 in 1955.

JV Quintet Goes Down In Defeat Last Night

The scrappy Sanford Seminoles JV cage quintet went down in defeat last night in the preliminary game at SHS, victim to the height, age and experience of Melbourne's classy JVs, 27-40.

The all sophomore-freshman Seminole JVs were no match for the well organized and smooth operation machine from Melbourne with the ram-rod juniors.

JV mentor Dick Silvers lauded praise to his heroic youngsters for their team effort on defense. "Those boys we faced were taller, bigger, older, and more experienced than we were, and yet our defense, held them to 40 points. They deserve a lot of credit as a team."

Fired by sharpshooting Tommy Butler and heckling Ray Lundquist, the baby warriors stayed on almost even grounds with the visitors for three quarters, but the second quarter was almost a blankout for them as they scored only three points to Melbourne's nine to give the scrappers a deficit that they couldn't overcome.

Coach Silvers played every member of the JV squad during the contest. "They can't improve unless they get some experience," he said.

Triple-Header Is Feature At Friday's Basketball Program

Seminole High School Athletic Director Fred Ganas said this morning that Friday night's basketball program at the Seminole High School Auditorium would feature a triple-header for the enjoyment of the attending fans.

"Prior to the game between Seminole and Lakeview of Winter Garden we will have a JV game," he said, "then, during the half, Sanford Grammar school will play an intra-squad game that should be good."

Ganas said that he had made the arrangement for the appearance of the school, which caused quite a stir in football this year, with pinkieball teams at Sanford Grammar have a lot of spirit.

Annapolis Needs Football Stadium

The United States Naval Academy at Annapolis, Maryland must have a football stadium. The old stands which were constructed in 1912, with funds contributed by private citizens, seat fewer than 16,000 people. They are no longer serviceable and are woefully inadequate.

The Naval Academy Athletic Association, a private, non-profit, tax-exempt organization, owns 101 acres of land adjacent to the Academy. This location is convenient to highway connections to Washington and Baltimore and, from all considerations, is an ideal site for a stadium. The land has been graded, drainage installed, and architect's plans drawn. Although the NAAA has through the years built up a fund of one million dollars toward the construction, it is estimated that the stadium will cost three million dollars.

Contrary to popular belief, the Congress normally does not appropriate funds for projects of this nature. We therefore need the help of friends of the Navy, throughout the country. Once again we must depend upon popular subscription.

Through the revenues from football games, the Athletic Association supports all of the varsity and freshmen sports at the Academy, and contributes to the intramural sports program so essential to the development of sound bodies and active spirit. This total program is in the national interest. The Association cannot also finance completely the tremendous project of building a new stadium.

We believe that there are a sufficient number of persons interested in the Naval Academy who will want to contribute to the funds necessary to construct a stadium in keeping with the needs, the dignity and the prestige of the United States Naval Academy.

This stadium will be a living memorial to all those who are serving today, as well as to those who have served before us. It will be named the Navy-Marine Corps Memorial Stadium.

The Bureau of Internal Revenue has ruled that all contributions up to 20 per cent of adjusted gross income are deductible for Federal Income Tax purposes. Contributions should be mailed to Memorial Stadium, Annapolis, Maryland.

FORGET ME NOTS
NOMAN, Okla. (AP)—Several days before the Oklahoma Hall of Fame ceremonies at Oklahoma City, the seven year old flower girl—Donna Kay Bacon—practiced dropping leaves in the backyard of her home.

When the big day arrived she marched down the aisle in her new formal carrying a basket full of blossoms. The excitement was too much; she forgot to drop a single petal.

Patrick Releases Year-End Savings Bonds Figures

W. A. Patrick, Chairman of Seminole County Volunteer Savings Bonds Committee today released year-end figures on the purchases of Series E and H Savings Bonds. "The twelve month volume of these two issues amounted to \$75,071,237," he reported. This was only 8 1/2% below the \$80,300,000 bought by Floridians in 1956. In view of the generally upward trend of interest rates being offered in most every category of alternative savings and investment opportunities, this was a very creditable showing and testifies eloquently to the widespread popularity of these bonds.

Veterans Corner

Here are authoritative answers from the Veterans Administration to four questions of interest to former servicemen and their families.

Q. I am receiving a VA pension for non-service-connected disability. Does this entitle me to outpatient medical care for my disability?

A. No. Outpatient care is limited by law to treatment of service-connected disabilities only.

Q. I want to go to school under the War Orphans education program. How can I find out what courses are approved for this training?

A. Any course that State approved for veterans under the Korean GI Bill also is approved for the War Orphans program. Your VA Regional Office can tell you whether the course you want has been approved.

Q. I just received my GI insurance dividend, and I want to use the money to pay in insurance premiums a year in advance. Is there any advantage in doing this?

A. Yes. You will save money. When you pay your premiums annually, the amount will be discounted at a rate based on your type of policy.

Q. I am going to school under the Korean GI Bill. Will I have the right to make any one change of course at any time during my training?

A. You have the right to make your one change of course at any time within three years from the date of your discharge or release from military service. After that date has passed, you may change your course only if you are not making satisfactory progress in your present course due to no fault of your own, or if the new course would be more in keeping with your aptitudes and abilities.

Veterans living in Central Florida who wish further information about their various GI benefits should write or visit the VA office at 42 E. Central Ave., Orlando.

Dartmouth College's 1956 football record of five wins, three losses and one tie was the best grid record in seven years for the Big Green.

The first inland summer home in North America was Governor Wentworth's estate at Wolfboro, N. H., built in 1708.

The budget message included a number of legislative recommendations.

In making up the 1957 budget, Mr. Eisenhower said he was guided by eight national objectives. The four major ones were:

1. Peace, justice and freedom for our own and other peoples;
2. Powerful armed forces to deter and, if need be, to defeat aggression;
3. A healthy and growing economy with prosperity widely shared;
4. Enhancement of individual opportunity and the well-being of all our people.

Quotes From News

By UNITED PRESS

LONDON: Soviet Communist Leader Nikita Khrushchev attacking President Eisenhower on his plan for guarding peace in the Middle East:

"He sees that the decrepit British lion who once kept many peoples of Asia and Africa in a state of fear by his roaring has become weak and hoarse and now has lost his tail in Egypt. American imperialism is forcing its way into Middle Eastern areas to replace this lion."

TOKYO: Akiko Katori, 19-year-old maid, writing in her notebook before throwing acid in the face of 18-year-old Hibari Misora, one of Japan's top songstresses:

"She is really beautiful. How I wish I could turn her into an ugly girl. I can no longer stand her pretty face."

WASHINGTON: Anthony Nutting, former British minister of state, praising President Eisenhower's new Middle East doctrine as "a good first step":

"Once again some one has gone it alone."

SAN ANGELO, Tex.: Mrs. Andrews Braden, an elderly farm wife, awaiting President Eisenhower's visit to the Southwest drought disaster area:

"I hope he doesn't go by so fast we can't see him."

WASHINGTON: House Democratic Leader John W. McCormack warning President Eisenhower against inviting Marshal Tito of Yugoslavia to visit the United States:

"The resentment of the people would make it more difficult to pass an effective foreign assistance bill, as well as obtain the necessary appropriations."

PHOENIX, Ariz.: Julie Hagedous, 20, looking at an electric toaster she received at her wedding to Joseph Nocht, 28, with whom she recently escaped from Hungary:

"What is this?"

NICE, France: Mrs. John B. Kelly, mother of Princess Grace of Monaco, arriving to be with her daughter for the birth of Monaco's royal child:

"I've already got five granddaughters. I think it's time for a grandson."

WASHINGTON: Sen. Joseph R. McCarthy R-Wis attacking President Eisenhower's advisers as dangerous:

"I am not in favor of letting the Milton Eisenhowers, the Hoffmans and the Stassens decide when and where we should fight."

Number Of Farm Workers Increases Last November

ATLANTA (AP) - The number of Agricultural workers in the Southeast rose to 6,811,000 in November to set a record for that month, the Labor Department has reported.

Brunswick A. Bagdon, regional director of the department's Bureau of Labor Statistics, said non-farm job rolls now include 166,000 more workers than were employed in the same month in 1955. A gain of 43,200 workers was registered between October and November.

Bagdon said that during the

past year of high-level business activity, each month has seen the non-farm job total reach an all-time high for the season of the year.

Five of the eight Southeastern states reported employment increases, with the addition of 38,800 workers in Florida dominating the regional employment picture. Bagdon attributed the Florida increase to seasonal gains in the citrus processing industry and the tourist business.

Employment advances in Georgia, North Carolina, South Carolina and Virginia were relatively small, Bagdon said. Minor reductions in the number of employed workers were noted in Alabama, Mississippi and Tennessee.

Ike's Plan Blasted As Strive To Rule Mid-East

Bulganin En-lai Heard

MOSCOW (AP)—The premiers of Communist China and the Soviet Union today blasted the Eisenhower Doctrine as an American attempt to take over control of the Middle East.

Chinese Premier Chou En-lai, just back from a tour of Poland and Hungary, joined with Soviet Premier Nikolai Bulganin in calling for greater vigilance to combat the American plan.

They spoke to some 3,500 Muscovites in a "friendship meeting" in the white marble Supreme Soviet chamber of the Kremlin. Bulganin warmly supported Red China's plea for a seat in the United Nations and for the "liberation" of Formosa. He suggested that Japan establish diplomatic relations with Peiping as it has with the Soviet Union.

Bulganin said talks which Soviet government and party officials had with Chou and his delegation showed "an absolute identity of views on current international problems."

Chou, in his speech, agreed. But he added that "at times not everything went well" in the relations of the socialist countries, "but all has been settled amicably."

The Peiping premier also remarked that the Chinese people, although following the road to socialism opened by Moscow, "are applying Marxism-Leninism, taking into particular account the characteristics of our country."

American correspondents were barred from the meeting, a move for which the press department of the Foreign Ministry declined to offer any explanation. But speeches by Bulganin and Chou were broadcast.

Negroes Sit Among Whites On Bus Enroute To Orlando

Two Negro students from Bethune-Cookman College in Daytona Beach seated themselves among the whites yesterday afternoon after boarding a crowded Greyhound bus in DeLand, headed for Orlando.

The students, two girls, were enroute home during the break between semesters at the college. After standing in the crowded aisles from DeLand to DeBary, the Negro girls seated themselves in the traditional white section after two white passengers left the bus.

The bus driver, stood up and looked down the aisle, apparently trying to ascertain if any white passengers were standing. There were none and the bus continued with the whites and colored mixed without incident.

On regular schedule the bus makes a stop in Sanford at the Greyhound Bus Station on ninth St.

Community Chest Advantages Are Discussed By Panel

The advantages of "A Community Chest for Sanford" were discussed by three civic leaders at yesterday's luncheon meeting of the Civic Department of the Sanford Woman's Club.

The three speakers introduced by Mrs. Ralph A. Smith, sponsor of the program, were Miss Sallie Eastwood, Associate Director of the Orlando Community Chest, John Krider, County Commissioner and Manager of the Seminole County Chamber of Commerce, and B. L. Perkins Jr., president of the Sanford Merchants Association.

Krider, speaking as a representative of the local Chamber of Commerce, explained "the number of protests received from various merchants concerning the frequently of drives for funds made here."

"The total goals of the various local drives come to only \$36,482," he said. "I wish that one drive for funds could be started into one fund raising campaign for our city."

Perkins, president of the Merchants Association, said "After making a personal survey among the merchants and businessmen a majority have agreed that they would support a Community Chest drive 100 per cent."

Miss Eastwood, speaking for Capt. Roland, Commanding Officer of the Orlando Salvation Army told of the advantages of a Community Chest in their town. "We first sent out questionnaires from which a large percentage answered that they were in favor of the drive," she said.

"The time factor is important since a Community Chest drive does not require as many volunteer workers, more money is raised, and less expense is involved in taking collections," Miss Eastwood explained.

"BASEBALL IS THE GREATEST game in the world," George Barr (left) told the Sanford Kiwanis Club yesterday. Listening to Barr's talk are: Edwin Shinholser, Kiwanis Club president and Ralph Austin Smith, secretary. (Staff Photo)

Secretary Of Navy At SNAS Yesterday

Secretary of the Navy Charles S. Thomas arrived at the Sanford Naval Air Station yesterday afternoon accompanied by the Deputy Chief of Naval Operations, Vice Admiral A. D. Felt.

The two high Navy officials had been aboard the aircraft carrier Forrestal and were enroute to Washington when they were routed to the Sanford station after being advised that the Jacksonville Naval Air Station was "weathered out" and no landing could be made there.

Secretary of the Navy Thomas and Vice Admiral Felt arrived at the Sanford Naval Air Station at 5:46 yesterday afternoon. They were picked up by a transport plane at 6:08 pm. for their flight to Washington, D. C.

Kiwanis Club Hears Umpire's Experiences

"We have wonderful baseball fans here," George Barr told the Sanford Kiwanis Club at its noon luncheon meeting yesterday, "but in Japan they're so crazy about baseball they start playing at 4 o'clock in the morning."

"When the game is about to start," Barr related, "the two teams are lined up along the first and third base lines and bow to the umpire. Why they don't do this here I don't know."

Barr, an honorary member of the Sanford Kiwanis Club, related his experiences as an umpire prior to the beginning of his 21st year operating the George Barr Umpire School conducted each year at Longwood.

He told the Kiwanis Club that his organization is the only one of its type recognized by the GI Bill of Rights and that he was the first to be asked to make a trip to the Far East. "This year will be the seventh trip I have made out of the country for the Armed Forces and this year we will go to Germany," he said.

"World Series pictures are still in demand by servicemen," said Barr, "and we take them with us." Speaking strictly about baseball, Barr said "I thought umpiring was a troublesome job, but you ought to accept a job as president of a Class 'D' baseball league." George Barr is president of a Class "D" league in his home state.

Umpiring in world series games of 1948 and 1949, Barr told his audience that he retired right here in Sanford. "I decided then that I would retire as George Barr, National League umpire and said that I would never work another ball game in my life."

"The successful umpire," he stated, "is the one who can go out on the field, run his baseball game, and keep the men on the field. There are times when an umpire has a lot to contend with."

Barr appeared to Kiwanis members. (Continued On Page Three)

General Sanford's Books Forwarded From 'Homestead'

The collection of books of General Henry Shelton Sanford are being forwarded from his old home, "The Homestead" in Derby, Connecticut this week by his daughter, Mrs. Carola Sanford-Dow. They will be housed in the new Memorial Library in Fort Melon Park which has been completed by the City of Sanford.

The Seminole County Commissioners and gifts from several individuals and organizations.

A Reception Committee has been appointed by General J. C. Hutchinson, Chairman of the General Sanford Memorial Library Association consisting of C. R. Dawson, Mrs. Fred T. Williams, Mrs. F. E. Roumillat, J. B. Root and members of the Sallie Harrison Chapter, N. S. D. A. R. These people have been studying the lists sent by Mrs. Dow and feel that the public should be informed of the character of this gift to the City.

There are 140 boxes of books, twenty-six of which contain bound copies of magazines of the 1860s, which will prove a treasure to all students of the period of the War between the States.

Reference books in six languages — English, Italian, Latin, Greek French and German covering subjects in Economics, law, biography, drama, science, poetry, history, novels and religion. There are dictionaries in the several languages, evidently very large as one box contains only three books.

The family Bibles of Mr. and Mrs. H. S. Sanford along with the prayer-books used by the Founders of Sanford are included in the collection in box No. 1.

Boxes No. 103 and No. 104 contain twenty-five volumes of ancient Latin books the oldest of which is "Ivris Civilis" A. Dio (Continued On Page 3)
