THE AIR RACE POSTPONED TIL TUESDAY

Pilots Who Are Making Flight En- ter into "Gentle- man's Agreement" Planes Not Been Properly Tested

Qualified Flyers Will
Retain First Num-
bers For The Race

MUNICIPAL AIRPORT,
LAND Calif., Aug. 12.—
The great Dole-prize
marathon from California
Honolulu, scheduled to
start at noon today, has
been postponed until next
Tuesday, as officially an-
nounced at headquarters
here this morning.

The announcement followed
a meeting late last night
of nine pilots who will make
the flight. Under the terms
of a "gentleman's agree-
ment," the only pilots who
had qualified up to this
point were the San Fran-
cisco Examiner's Golden Eagle,
piloted by John ("Jack") Frost,
and the silver monoplane of
Lionel Goddard.

Major Pedlar of Flint, Mich.,
the pilot of the other plane,
was held and the agreement
was finally signed. The pilots
decided here to postpone the
race until the local com-
missioners immediately agreed to
postpone when the proposition
was put to them.

Under the signed agreement
all pilots who qualify today
will retain their original num-
bers. The Golden Eagle, piloted
by John ("Jack") Frost, who
drew number 15 in the origi-
nal drawing for starting place,
will move up to first place
if Norman Goddard will be num-
ber two. Those who qualify today
will take numbers in the order
which they qualify.

Major Livingston Irving's ship
has not been cleared by the govern-
ment officials and neither has
that of Lieut. Benjamin Griffin
at Ft. Hentley.

AUKEY Pedlar announced that he
had made a change in navigators
and that Stanley Lawing had
been qualified. He has selected
Lieut. R. Kope of the San Diego
navy station as Lawing's suc-
cessor.

The postponement was made as
a result of the sportsmanlike
decision of two pilots who
wanted to maintain the race
on equal terms since all had
gone to great expense together
with hard work and loss of time.

American Citizen Is Kidnaped In Mexico

WASHINGTON, Aug. 12.—
(INS)—Robert Edward Pirie,
an American citizen, was kid-
naped by bandits from a ranch
near Vicente, Guerrero, Mex-
ico, yesterday, according to
a telegram received by the
state department today from
Edward H. Mall, American
consul at Durango. The mes-
sage stated that the bandits
also sacked Pirie's house. Mall
said that he was leaving for
Vicente Guerrero to make an
investigation and will report
further immediately upon his
arrival there.

JOHN T. ALSOP JR. SPEAKS AT LOCAL CHAMBER MEET

Alsop And Holmes Are Honor- Guests And Praise People For Attitude During The Present Crisis In Sanford

Mayor John T. Alsop Jr., of Jack-
sonville, and Edward Holmes,
President of the Georgia Military
Academy, were the honor guests
at the Good Will luncheon of the
Sanford Chamber of Commerce
held at the Seminole Cafe at noon
today. Mayor Alsop was intro-
duced by acting Mayor E. F. Housholder
and spoke to the members present
emphasizing the ability of San-
ford to pull through the crisis with
which it is now confronted. He
spoke at length upon the resources
of Central Florida and told those
present just how favorably the
outside world considered this sec-
tion and the confidence of the
northern part of the state in San-
ford.

Mayor Alsop said that Jackson-
ville had the "Closest Confidence"
in Sanford and reminded the mem-
bers that all that would be neces-
sary for Sanford people to win out
in the fight that was before them
was the unlimited confidence of all
the people in themselves. He lik-
ened the needs of Sanford with the
needs of the business who can sac-
rifice for a complete investigation.
Postal inspectors of Milwaukee
and Chicago, informed of the wreck
left hurriedly in special trains to
investigate the crash.

The wreck occurred in a farming
district, prairies bordering the
tracks. Sturtevant is 24 miles from
Milwaukee.

Changes In Library Are Discussed By City Commissioners

The City Commission at an ab-
breviated session on Thursday
afternoon discussed proposed
changes in the Municipal Library
as a part of the general expense
reduction program that has been
inaugurated by City officials. A
report was not acted upon pending
a conference between City Man-
ager W. B. Williams and members
of the board.

The Commission took no offi-
cial action in the matter, but heard
remarks by Fred Newman who
spoke in opposition to the recom-
mendations of the board. Mr. New-
man suggested two changes that
he declared would save the City
money and also guarantee an ef-
ficiently managed library. Acting
Mayor Housholder stated that he
had been approached by other citi-
zens voicing the views of Mr.
Newman.

The Library Board's recom-
mendation urged the retention of
Miss Clara as head librarian and
Miss Jean Brock as assistant. A
counter suggestion to be consid-
ered by the Commission is the ap-
pointment of Mrs. Clark with Mrs.
A. K. Powers as assistant and Mrs.
Elsa Knight as substitute.

Mayor Housholder voiced the
opinion that the library expense
should be curtailed as much as
possible, and that he wanted
action operated on an efficient
basis. The matter was expected to
come before the Commission at an
early meeting.

Ohio Governor Denies Extradition Floridan

COLUMBUS, OHIO, Aug. 12.—
(INS)—Governor Donahue today
vetoed a bill which would
authorize the extradition of
John J. Jones, a Cleveland
resident, to Florida, where he
is wanted for a murder charge.
The bill was introduced by
Senator J. M. B. Smith and
passed by a vote of 15 to 10.
Governor Donahue's veto was
based on the fact that the
Florida authorities had not
produced sufficient evidence
to justify the extradition.

TWO KILLED IN WISCONSIN AS TRAIN CRASHES

Switch Is Thrown Open Before Fast Mail Train Rushes Into It Turning Engine And Seven Coaches Over Into Deep Ditch

Sheriff Demands A Complete Inquiry

STURTEVANT, Wis., Aug. 12.—
(INS)—Two men were reported
killed and a dozen mail clerks seri-
ously injured today when a Chi-
cago, Milwaukee & St. Paul Chi-
cago-bound fast mail train was
wrecked two miles from here.

The engine, coal-car and seven
coaches were reported to have
rolled into a ditch. Deputy Sher-
iff Henry Harmon said he thought
the switch had deliberately been
opened and attributed the wreck
to Sacco-Vanzetti radicals.

The train, travelling 65-miles an
hour, struck the open switch and
catapulted into the ditch, seven
mail cars piling up on the engine
and tender.

Larry Brock, engineer, and Clarence
Weyer, fireman, were buried
beneath the coaches and killed in-
stantly, authorities said.

Mail clerks were hurled bodily
from the all-steel coaches and sus-
tained minor injuries.

Sturtevant, a division point,
heard the roar as the coaches hurled
off the track and treatment of
duty rushed to the work of rescue.
Milwaukee was notified relief mail
trains were immediately ordered to
the scene.

Preliminary investigation by the
sheriff disclosed, he declared, that
a switch had been opened.

"It doesn't seem to be an acci-
dent," he stated. "I think there was
a plot underway—either robbery or
murder for Sacco and Vanzetti's
escape for a complete investigation."

Postal inspectors of Milwaukee
and Chicago, informed of the wreck
left hurriedly in special trains to
investigate the crash.

The wreck occurred in a farming

Gigantic Searchlight To Guide Boston-New Orleans Planes Will Shine Tuesday

NEW YORK, Aug. 12.—(INS)—
The world's largest searchlight,
five times stronger than any
searchlight ever made before,
will be turned on for the first time
next Tuesday night in Charlot-
tesville, Va. The beacon is so pow-
erful that officials of the General
Engineering and Management
Corporation of New York warned
astronomical observatories through-
out the country today not to mis-
take its light for a new star.

The light was constructed on the
roof of a hotel near Monticello,
estate of Thomas Jefferson, by the
Virginia Public Service Company,
which is connected with the New
York corporation. It will be used
to guide airplanes along the pro-
posed route from Boston to New
Orleans.

The light will be turned on by
means of a moonbeam trained on
a statue of Jefferson in the munici-
pal building in New York, which
will throw the great switch on in
Charlottesville. By a series of wire
connections the light on the Jef-
ferson homestead will throw an-
other switch on a searchlight in the
municipal building here which will
illuminate a painting of Monticello
that hangs here.

The light penetrates 700 miles
when turned straight up in the air,
300 miles in a horizontal direction
in clear weather and 50 miles in
fog. The beacon is expected to aid
science by making possible experi-
ments to determine the speed with
which a light beam leaves the earth
and travels through space. It has
an intensity of 1,385,000,000 candle
power.

The beacon measures 62 inches
across. Care is necessary in its
manipulation, for if it should be
turned on a man 1,000 feet dis-
tant, his skin would be blistered.

COSGROVE PARTY IN DAIL EIREANN NEARS DOWNFALL

DUBLIN, Aug. 12.—(INS)—
The defeat of President William
Cosgrave's government party in
the Dail Eireann was made vir-
tually certain today by a decision
of the national league party, headed
by Captain William Redmond, to
vote with the De Valera republicans.

The decision of Redmond's party
which controls seven votes, was
reached at a meeting held today,
prior to the opening of the Dail.

The league in the Dail, as it now
stands, leaves the Cosgrave govern-
ment with 68 supporting votes,
counting 46 of its own party, 11
of the farmers' party and 10 Fianna
Fail votes, 22 labor votes, four in-
dependent votes and seven of the
national league party, thus giving
the opposition coalition a majority.

It was believed here that with
the defeat of the Cosgrave govern-
ment, President Cosgrave and his
cabinet would resign, immediately,
and a new government would be
formed by Thomas Johnson, labor
party leader.

President Cosgrave forecast the
probable resignation of his govern-
ment in a statement to the people
of the Irish Free State, released
prior to the convening of the Dail.

"The country is more impor-
tant than any political party," the
President's statement declared.
"Time brings changes. They are in-
evitable. Let us see that these
changes make for the good of the
people."

Man with Broken Neck Dies After 31 Days

FLORENCE, S. C., Aug. 12.—
(INS)—Losing his 31-day battle
with death, after he snapped his
neck in a dive into a local swim-
ming pool, W. W. Register 19, died
today.

The youth, whose vitality has
amazed local physicians, took a
turn for the worse during the
night, and succumbed at 10:50 the
morning. The youth's body was
completely paralyzed. In face of
certain death, Register displayed
consciousness of his surroundings,
and tried to comfort his mother.

Bank Will Not Close At Noon On Saturday

The First National Bank of San-
ford will remain open until 2 o-
clock on Saturday starting tomor-
row, according to an announce-
ment made today by B. F. Whitner,
cashier of the bank.

Mr. Whitner stated that owing
to the great amount of business
now being done through the bank
it would be impossible to complete
it by noon, the time the bank has
been closing here-to-fore.

Sixty-Five Prisoners Captured And Liquor Seized In Staten Island Raid

NEW YORK, Aug. 12.—(INS)—
Sixty-five prisoners were taken,
the lake steamer Ansonia, and six
trucks were seized, and thousands
of cases of liquor were taken by
police and the coast guard, co-op-
erating in a huge rum haul when
a landing party was surprised to-
day at the old Downey shipyard,
mariner's harbor, Staten Island.
Coast guard officers valued the
confiscated liquor at \$1,000,000.

Thirty-nine of the prisoners
were taken on land, when patrol-
man Ferdinand Daurier, who dis-
covered the rum runners, and
eight members of the emergency
squad surrounded them at the ship-
yard.

WHAT THIS PLACE NEEDS IS 2.7 BEER

WASHINGTON, Aug. 12.—
"From an enforcement standpoint
the only solution for the impossible
prohibition conditions, which
everybody knows prevail every-
where in the United States, is the
authorization of 2.75 per cent
beer."

This is the opinion of Col. James
C. Waddell, who resigned from the
federal prohibition service after a
year's duty as supervisor of the
alcohol and brewery control unit.

Waddell will be called before
senate and house committees dur-
ing the coming session of congress
to testify as to his views on im-
provement of prohibition conditions
he learned.

The prohibition law can be en-
forced with the present force and
the \$19,000,000 annual appropria-
tion, if 2.75 per cent beer is leg-
alized," Waddell told International
News Service today.

Waddell asserted that the pro-
hibition law as it now stands is
unpopular and that "you can get
liquor anywhere in the country if
you want to pay the price."

"Even the prices are getting
surprisingly low," he added.

"Prohibition is intended to pre-
vent drunkenness. One is a fanatic
who construes it otherwise. Pro-
hibition, however, does not meet
this requirement as the law
stands."

Chaplin Says He Did Not Offer Wife Big Sum In Settlement

Plot Uncovered To Blast Oil Property

ALBANY, N. Y., Aug. 12.—
(INS)—Police today believed
they had uncovered a plot to
blow up the property of the
Standard Oil Company on Van
Rensselaer Island when a de-
vice believed to be a clock bomb
was found there by a policeman.
The clock was attached between
a magneto and a half-gallon
can containing gravel and a
substance which was being ex-
amined by chemists. Following
the discovery of the device,
which was placed near one of
the large oil storage tanks,
police guards have been doubled

2 SUSPECTS HELD IN MINNESOTA AS RESULT SLAYING

ST. JOSEPH, Minn., Aug. 12.—
(INS)—"King" Benjamin Purnell
came into court today on a stret-
cher to deny the accusations of his
15 girl accusers.

Obviously weak and emaciated
the leader of the house of David
answered the questions of chief
defense counsel W. J. Barnard in a
voice hardly above a whisper.

Purnell admitted he was a former
member "for a short while" of
the notorious Detroit cult of Prince
Michael Mills, who was sentenced
to prison for assaulting young
girls in 1895.

"King" Benjamin admitted to-
day that he never divorced his first
wife, Angellina Riley, of Kentucky,
whom with her baby he deserted
before marrying "Queen" Mary.

Purnell was brought from the
House of David in the ambulance
to testify in the state's suit to dis-
solve the colony as an immoral in-
stitution. A white garbed cult
nurse was in constant attendance.

Several of his bearded cohort's
tenderly lifted the stretcher and
carried it through the gaping
crowds. Testimony of previous
cult witnesses that Purnell had
lost weight from 200 to 113 pounds
due to acute tuberculosis and
brights disease, were borne out by
his appearance.

Purnell denied that he ever told
girl members of his cult that they
would be raised to a state of im-
mortality by means of his alleged
rites.

"Did you write those so-called
perjury books?"

"No."

"Did you ever hold mock courts
to instruct your followers to per-
jure themselves in your behalf?"

"I never did."

"Did you ever walk the grounds
with your arms around the girls
and take Jolly Wheeler on your
lap?"

"No."

Purnell denied that he had a
trap door and tunnel in which to
hide from authorities.

Purnell refuted testimony of
Mrs. Anabella Pritchard of Chicago
that he left her on guard outside
a bedroom door over a saloon in
Chicago in 1910 one night while he
slept in the room with several
young girls.

Three Robberies In One Day Startle Police Department

FORT MYERS, Aug. 12.—(IN-
S)—Within 24 hours after
announcement had been made that
the local police department would
be cut down, three robberies were
reported in the city.

The safe of a local sanitarium
was blown, the cash register of
one of the leading grocery stores
was riddled, and a jewelry store
was held up and relieved of its cash.
Police are working on three cases
in the meantime City Manager
C. J. Staley has taken no further
action on the reduction of the
force.

Tracing the theft of the acety-
lene and oxygen tanks and torch
used in an attempt to cut through
the vault of Henderson's cash gro-
cery gave the sheriff's office and
police authorities new clues today.
The two tanks left behind by the
burglars were traced by Deputy
Sheriff Roy Larson to the Linde
Air Products Company of Tampa,
and from that concern to the Sara-
sota Dodge Agency, where they
were stolen from a garage at Ven-
ice on the same day.

Davis Says Labor Is Sorry Coolidge Quits

vealed here today upon his arrival
for a visit with the executive.

was determined to retire after
Mar. 4, 1929, Davis declared. "The
leaders of organized labor," he
said, "reported that, while they had
received no favors from the Presi-
dent, they had always gotten a
square deal from him. Most of
them were sorry that he had de-
cided not to run again."

World Bars Brown From Paper When Opinions Differ

NEW YORK, Aug. 12.—(INS)—
One of the unexpected develop-
ments in connection with the Sac-
co-Vanzetti case in Massachusetts
is the disappearance, at least tem-
porarily, from the columns of the
New York world of Heywood
Brown's column "It seems to me."
The column has not appeared
for the past two or three days, and
in today's issue the world carried
the following announcement:
"The World has individual opin-
ion to those of its special writers
who write under their own names.
Straining its interpretation of
this privilege, the world allowed
Mr. Heywood Brown to write two
articles on the Sacco-Vanzetti
case, in which he expressed his
own position clear as to select other
subjects for his next articles. Mr.
Brown, however, continued to writ-
on the Sacco-Vanzetti case. The
World, therefore, exercising its
right of final decision as to what
it will publish in its columns, has
omitted all articles submitted by
Mr. Brown."

The statement was signed by
Ralph Pulitzer, editor of the world.

lay on his cot in state's pris-
on today and waved away
guards who came to offer him
breakfast. It was the twenty-
seventh day of the hunger
strike by the world-famous
prisoner.

Downstairs in warden William
Hendry's office various methods
of forcible feeding were discussed.
The warden, it was stated, planned
to use some method to save Sac-
co's life. He consulted with Dr.
Joseph I. McLaughlin, the prison
physician.

Sacco usually walks about his
cell in the morning. This morning,
however, he kept his cot. Those
who have seen Sacco said he had
abandoned hope, although his case,
and that of Bartolomeo Vanzetti,
comes before the state supreme
court again on Tuesday and their
executions have been delayed un-
til Aug. 22.

Vanzetti, on the other hand, was
in a cheerful mood today, he was
up early in his cell in the Cherry
Hill section of the prison, prepar-
ing to spend the day in writing and
reading. He took beef tea, coffee
and milk for breakfast, and having
broken his hunger strike will con-
tinue to take nourishment of soft
foods for a few days.

Vanzetti was obliged to support
Sacco last evening when the pris-
on went to the barber shop for an in-
terview with Attorney M. A. Man-
nanno, of Pittsburgh, a defense
lawyer. On the walk from the
death cells to the Cherry Hill sec-
tion of the prison, Sacco walked
beside Vanzetti but stumbled when
going up the steps at the end of
the walk.

Sacco was on a self-imposed fast
for 31 days in Duxham jail. He
was sent to Bridgewater state in-
sane hospital, later being pro-
nounced cured. The present hunger
strike was begun in protest against
the alleged secret method used by
Governor Alvan T. Fuller in con-
ducting the review of the celeb-
rated case.

Well, Charles D. Haines, of Altamonte, has thrown his hat into Florida gubernatorial ring. Come on in, boys, the water's fine!

What is prettier than a chicken roosting on the back of a motorcycle?—Times-Union, Which is prettier, or a chicken anywhere?

The Tallahassee Democrat has an editorial under the caption, "Dollars do not grow on trees". The editor certainly knows his subject.

With gas going down every day, if it weren't for that gasoline tax, it wouldn't be long before we could take a short drive in the evenings.

We've heard that this is vacation time, but what does an editor know about vacation?—Perry Herald. Only what he reads about them in the papers.

No, Susan, a prognosticator isn't a man who cracks airplanes!—Waycross Journal-Herald. He's a man who decides what's the matter with you, ain't it?

And the St. Petersburg Independent wants to know if getting's loading. From our own casual observation we would say, no. The participants are usually very busy.

Diving for a treasure chest in the depths of De Leon Springs looks like a good publicity stunt to us. Isn't there something or other we could look for in Lake Monroe?

When Governor Fuller signed that eleventh hour reprieve for Sacco and Vanzetti, half the world yelled "COWARD!", and if he had not signed it, the other half would have yelled "MURDERER!"

The police of New York, London and many other large cities have done good work during the past few days in preventing some serious disaster due to the activities of Sacco-Vanzetti sympathizers.

An Interesting Announcement

We were more than ordinarily pleased the other day when we read the announcement for independent gubernatorial candidate of one, Colonel Charles D. Haines, resident of Altamonte Springs in our own Seminole County.

One of the thickest planks of that platform upon which he proposes to be elevated into office is Everglades Drainage. In his opinion there is no matter confronting the great state of Florida which is of so vast importance or which carries so much appeal, as the drainage of the Everglades.

Then the Colonel says that he will see to it, if elected, that Florida is very promptly and efficiently introduced to the world at large. State advertising! Let people know about Florida and they will come here!

But the most interesting plank of this thoroughly praiseworthy platform, the one with the most intensely popular appeal, is his declaration against the prohibition laws. Colonel Haines does not approve of them. They are paternalistic in their tendencies and interfere with the divine right of individuals.

With a platform of this character and a man of Colonel Haines' standing to sit upon it, we feel no hesitancy in saying that the next gubernatorial race will be an interesting one and that the Seminole County man, if not as fast as the hare, will be as hard as the turtle to beat.

Florida Faces Big Tourist Season

The state of Maine is having the largest tourist season in its history, according to an editorial recently appearing in the Boston American, which tells the story by saying that the state "has more money in the banks, more summer visitors than were ever known before and more coming every hour."

The Boston newspaper analyzes the situation further by saying that over a four-day period from June 30 to July 3, more than three hundred pullman coaches went into the state from New York, Philadelphia and Washington.

The American attributes the successful tourist season to the fact that Maine's foremost leaders "have been able to forget politics, business and sectional rivalries, and all other things that separate and divide, and get together for the greatest good of their wonderful state."

While the Boston newspaper may be right in its assertions, The Herald believes that there are other elements that figure in the tourist migration to Maine. For one thing it is evident that the people of the north are in a mood to travel. They are seeking a change, a rest, a place to go where they may forget their business and enjoy life.

With such widespread travel to Maine and other summer resorts it is also evident that the people have money. For two years people of the east have gone nowhere because of unsettled conditions. Now that they are making a wholesale exodus to the resorts there is reason to believe that the business outlook is more favorable and more money is being placed into circulation.

As The Herald sees it, the situation holds great promise for the Florida tourist season next winter. The Sunshine State has just as many advantages to offer as it ever had. The fact that northerners once more are gripped by a desire to travel and have the money to do it should give Floridians every reason to look for a successful tourist year.

SANFORD FORUM

Editor Sanford Herald: The writer was raised on the St. Johns River at Welaka and Jacksonville and for forty years has watched with keen interest and has encouraged at every opportunity the useful development of the St. Johns River.

Observing that the State Legislature has approved the plan to connect the upper St. Johns River with the Indian River and now the voters of Seminole and Brevard counties are to vote, the final approval I may as a citizen of Florida and a devoted booster be permitted to make an earnest recommendation.

As an owner of real estate in Sanford and as a taxpayer in Seminole County, I am profoundly interested in and impressed with the importance of the election next week to sanction the construction of the canal between the St. Johns River and the Indian River.

business on the St. Johns from freight boats to Millionaire pleasure yacht far greater than is now evident to your greatest optimism. This project is of vital importance to the entire State. It will give Florida National wide publicity as it is one of the most important marine improvements which can be made to further develop Florida.

At the present moment, we are at work to interest some large capital in Sanford and we know encouraging influence than the announcement that the people voted unanimously to make the St. Johns a through marine highway at the earliest possible date.

It should be perfectly apparent to the voters of Seminole and Brevard Counties that the railroad interests are extremely jealous of water communications which have always had a tendency to lower freight rates. Therefore, if the voters will do a moment's thinking, they can probably discover the real source of opposition to the building of this canal.

As Brisbane Sees It

Paris Even More Excited. Stars, Stripes and Skull. Training Children. Nicaragua and U. S. By ARTHUR BRISBANE. Copyright 1927 by Star Co.

PARIS, AUG. 10.—The radical papers show greater excitement than yesterday about the Sacco-Vanzetti case. The newspaper Humanite, representing the communist party, devotes its entire first page to the case, displaying across five columns a picture of "A New Stars and Stripes."

IN THE CENTER OF THE flag is hung a skull and cross bones and electric chair. There are only 24 stars on the flag, with the Eiffel tower in the background. Headlines read: "Shame and Contempt," "Off They Assassinate Sacco and Vanzetti," "Off They Dare," "The Agony of Sacco and Vanzetti," "The Assassin Judge Will Not Budge."

AMERICAN LEGION Visitors should realize that if the men are executed for some time to come Americans gathering here may be made uncomfortable. Any possibility of physical injury is slight. The government will do everything to afford protection and a genuine welcome.

THE COMMUNIST Party here is not a mere handful of men and a name. It is a strong party backed by sympathy for Sacco and Vanzetti outside the extreme radical groups. That sympathy is greatly increased, naturally, by the admission of the Fuller Committee that Judge Thayer acted indiscreetly. There is a feeling that the men should not die by order of a judge branded "indiscreet" by such men as Governor Fisher chose for the committee. A man whose indiscretion would have barred him from the jury should not have power of decision beyond appeal.

THE NEWSPAPER Humanite leads others by a short distance only. Conservative evening newspapers today treat the Sacco-Vanzetti case most seriously, realizing the excitement that must follow the execution if it occurs.

HUMANITE, FOUNDED by Jean Jaures, is run by Marcel Cachin, both members of parliament. Cachin is serving three months in prison for inciting troops to rebel. Workers, generally, are convinced that "capital" is executing two innocent men. Many workers have gone on strike in most highly paid factories, American automobile branches, for instance, to express sympathy and disapproval.

THIS IS CALLED for the information of American Legion members planning to visit Paris next month. If the men are not executed, all will be peaceful and the magnificent effect of Lindbergh's flight will resume its sway.

THE LAWS OF New York allow savings banks to take \$7500 in savings from one individual. Formally the limit was \$5000. It is too small. Metropolitan Life Insurance statistics show that it costs \$6167 to raise a girl and \$9077 for a boy, to bring them up to 18 years of age.

SEVEN THOUSAND Five Hundred Dollars isn't too much "capital" in these days for a majority of men and women to set aside for their children.

The outrageous thing is that the houses, the little homes in which families are raised for the good of the country, are taxed to their full value.

They are sacred institutions, and have as good a right to be free from taxation as any church, orphan asylum or Masonic hall, and should be tax-free. There should be no tax on any home costing less than \$20,000. And that limit is low.

LONDON LOOKS Forward to a big "oil war" but doesn't say what kind of war or whether it will reach America. There is an oil war now in the United States, with oil and gasoline both selling at prices that make consumers happy. They won't be so happy when the dust settles and prices swing up higher than ever before.

ORGANIZED LABOR Requests the United States to withdraw its forces from Nicaragua and let Nicaraguans "work out their own problems." If the United States plans to build a sea level canal through Nicaragua, which would be better than the Panama route, and if it has obtained the right to build from competent Nicaraguan authorities, the canal should be built, regardless of opposition.

THIS COUNTRY IS Interested in Fraulein Tine Rasche, well named. The lady flies alone, turns somersaults in the air, rolls over sideways, drops down with terrific speed forward and backward, catching herself in time. She can do a "vertical tailspin," straitening out and going up again when within two hundred feet of the ground.

IN SWEDEN THE LAW lets you drink, but doesn't let you drink foolishly. If, for instance, an American orders a cocktail, the murderous mucous membrane destroying poison that only a Yahoo should absorb, that American is not allowed to drink the cocktail until he has eaten something.

New Crisis Appears In The Coal Fields Of Great Britain

LONDON, Aug. 12.—(INS)—Events in the coalfields of Great Britain are rapidly shaping towards a new crisis—a crisis even worse than that which led to the futile General Strike of 1926—according to the Miners' leaders.

Leading off an attack against the Baldwin Government for its alleged mishandling of the mining situation, Frank Varley, leader for the Nottinghamshire miners and one of the most level-headed Labor politicians in Britain, furnished some startling facts and figures regarding the present situation in the coalfields.

Many Are Idle

According to Varley, there are 211,000 miners without work, and 20,700 fewer are employed in Durham County than before the 1926 coal strike. Men are producing more, but earning less, according to this authority, and the fall in export prices has been so great that while in February 74,000 tons were sent abroad, \$1,400,000 less was received.

The canker of competition, declared Varley was killing the British coal industry. While agreeing that on the surface there appeared to be little crisis, he maintained it was because the men were down and out. "Some day the discontent will burst. The miners are tacticians, they are biding their time. It is terrible to have to say it, but a repetition of the 1926 coal strike appears inevitable."

The world, says Dr. Nicholas Murray Butler, is without a great man. Come, Dr. Butler, come, you shrinking flower.

DOLE AIR RACE IS POSTPONED UNTIL TUESDAY

(continued from page one) first leg of his trans-ocean flight to New York.

BERLIN, Aug. 12.—(INS)—Otto Koennecke, noted German flyer, who will attempt a non-stop sky journey from Cologne to New York, expects to fly to Cologne today, but he will not start on the actual trans-ocean flight until later. If weather conditions permit he may take off from Cologne tomorrow. The Junkers planes which will leave Dessau for New York, may get away within 48 hours if the necessary arrangements can be made and weather conditions are favorable.

Miner leaders are agreed in denouncing the Baldwin Government and the legislation of last year for the present position, but they differ regarding other possible causes. Some believe that competition from oil is one of the chief causes of the decline in coal consumption, while others declare that nationalization is the only remedy.

PALM BEACH, Fla., Aug. 12.—(INS)—The Alba Hotel, a seven million dollar structure said to contain the most expensive furnishings in the state, is today in the hands of receivers. Conducted by August Hecksher of New York, preparations were under way for another winter season, but mortgages upon the building were foreclosed.

The receivers sale will be held at public outcry on the steps of the Palm Beach county court house on September 1 and it is intimated that several motion picture production films will bid on the place for a Florida motion picture studio.

No two rooms of the hotel are alike. Furniture has been gathered for the hotel at tremendous costs and its handsome parlors are suitable for interior shots of wealthy homes during the production of motion picture features. Either land or water pictures can be shot without leaving the grounds of the hotel.

Famous Players-Lasky, producers are said to be the heaviest contenders to obtain the hotel.

"Warfield's advice decided me on Luckies"

At the Fairfield Country Club Hugh Beaumont explains to Miss Ethel Burnside how he came to prefer Lucky Strikes.

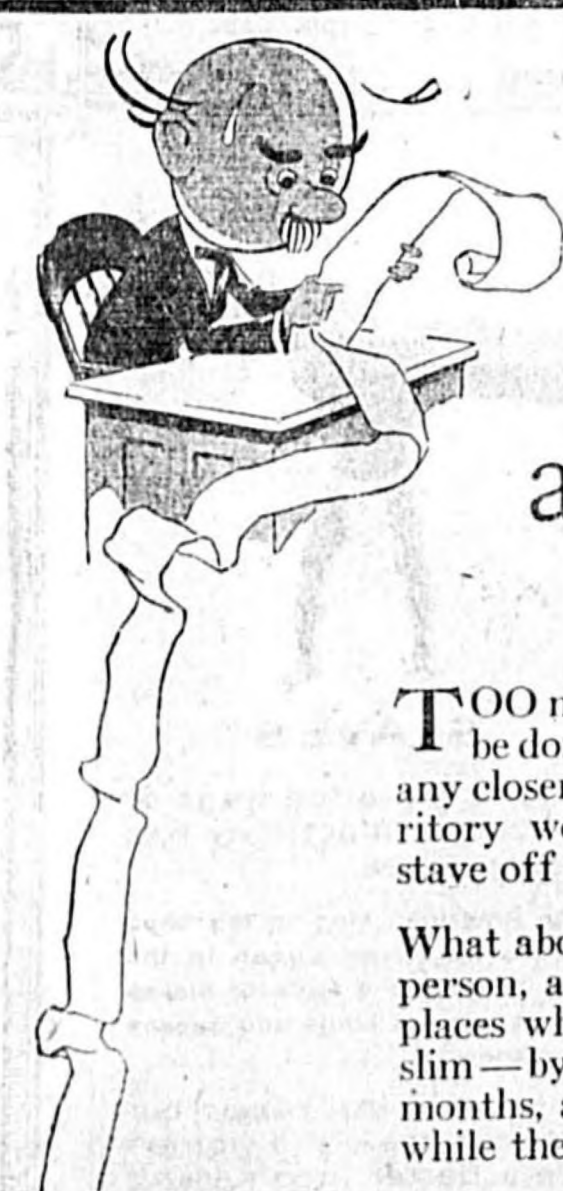

The Noted Actor, David Warfield, writes:

"Among other things, when young actors come to me for advice, I always say, 'Take care of your voice, cultivate it—and watch your smoking.' Usually they eye the cigarette in my hand with some suspicion. And then, I offer them a Lucky Strike—a cigarette I smoke freely, and have yet to feel the slightest effect on my throat. I've been told that toasting does that for this cigarette. When I smoke 'Luckies' my throat is beautifully clear and unirritated." *David Warfield*

You, too, will find that Lucky Strikes are mild and mellow—the finest cigarettes you ever smoked, made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, and there is an extra process—"It's toasted"—no harshness, not a bit of bite.

"It's toasted"
No Throat Irritation—No Cough.

TOO much, of course. And what's to be done? Wishing won't bring towns any closer together... curtailing the territory won't develop new markets or stave off aggressive competition.

What about working the large towns in person, and covering the "in-between" places where the pickings are apt to be slim—by telephone? Try it for three months, and watch your volume mount while the cost-per-call takes a tumble.

Hopes to Fly 300 Miles an Hour

Lieut. Al Williams, U. S. Navy aviator, hopes to fly his plane at 300 miles an hour in the Schneider Cup races in Italy this year. Williams soon will make a test flight in his new "mystery plane."

... suggestions arise in certain Japanese quarters that other Manchu princes be considered for the throne of North China, who has been nursing an ambition to place himself on the dragon throne. The most plausible suggestion comes, however, from the revolu-

... tional elements. In the 1911 revolution the question arose as to whether a limited monarchy or a republic should be established in case the ruling Manchus were overthrown. Yuan Shih-kai, military leader of the rebels and later first president of the republic, favored a monarchy, but the resultant storm of protest and the continued victories at arms finally persuaded Yuan and other leaders that China had had enough of emperors.

Much the same situation obtains today; in fact, with the growth of rationalism, sentiment against retaining the empire has become more widespread than ever.

Is Only A Youth
Hsuan Tsung, who is now only 21 years old, was just six when his mother, Princess Chun, daughter-in-law of the last ruling emperor decided to surrender his throne for him. Abandoning the country, control of which she had lost anyhow, to the revolutionaries, she issued an edict in which she declared:

"The territories of the Manchus, Chinese, Moogolians, Mohammedans and Tibetans shall be consolidated into a Great Emperor and I will retire into leisure and pass easily through the months and years and to see the consolidation of wise government. This indeed be excellent."

Princess Chun may not have been intentionally ironical in the choice of her words, but the implied irony contained therein has been borne out by subsequent developments. The princess died soon after without relieving the leisure she sought, the emperor

... has since harassed in confinement, being forced out of the Summer Palace in Peking and being deprived of the \$1,000,000 annual allowance voted him by the republic in 1912, and the nation itself has had in place of wise government, no government at all, but a succession of ruling species by ambitious and avaricious war lords.

Trap-shooting is another sport wherein setting the breaks is important.

In this country of registered voters possibly we should have pedigreed candidates.

If they continue increasing the size of these touring buses, locomotives will have to cross crossings cautiously.

CHINESE DESIRE RESTORATION OF MONARCHY RULE

Former Manchu Emperor Back in Limelight in Connection With Agitation Which Seeks To Bring Back Rule

WASHINGTON, Aug. 12. (INS) Increasing sentiment for the restoration of the monarchy in China has brought back into the Far Eastern limelight a man who had been generally forgotten in the confusion attending the recent internecine strife in that land. Hsuan Tsung, erstwhile Manchu emperor is the man, and, according to information received in Washington, is growing restless under the continued restraint put upon his movements, a restraint virtually amounting to imprisonment.

Private correspondence has revealed that many influential British and American business men,

as well as hundreds of conservative Chinese, would like nothing better than to see Hsuan Tsung once more on the imperial throne. Several attempts have been made to bring this about in the last 15 years, but each such attempt has proved abortive.

What the emperor himself thinks of this plan is not known, although close friends have written that he sincerely desires to contribute something toward the welfare and peace of his country. He is also anxious to leave Tientsin, where he and his wife are "guests of the Japanese in their concession," for the purpose of seeing the world, particularly the United States and England.

Opposed by Japanese The Japanese are strongly opposed to the return of Hsuan Tsung to power and each time his name is mentioned in that connection

Bite yourself an Alphabet

Have you had a pretzeleering party?

Friends come in. Bridge wears out. The radio is good for nothing except a lecture on "The Private Life of an Egg Plant." That is the time of all times for pretzels to come to the aid of your party. Have Jeeves bring out a platterful of O-So-Guds and start your guests to pretzeleering for prizes. They can bite anything from

New, novel and nice—but noisy. For folks do have fun, as well as food, with O-So-Guds.

These pretzels, baked the Unecda Bakers way, are crispy, and salty, and crunchy. They're good biting and good eating.

Serve plenty at parties. Be sure there's a bowlful alongside the ice cold pitcher of lemonade or what have you. Take plenty on picnics. At home, serve them with soup, salad, cheese, dessert.

O-So-Gud Pretzels are so easy to digest that doctors say they are very good for children.

Your grocer keeps them—but not for very long. People just will take them away from him.
