## FRANCE WOULD EXPEL THE CROWN PRINCE

## ADMIRAL SIMS VISITOR TO SANFORD TODAY

### FRANCE BRINGS PRESSURE TO BEAR ON ENGLAND LOOKING FOR JOINT ACTION

#### FOR EXPULSION OF FORMER CROWN PRINCE FROM GERMANY

#### ENGLAND STATES

That Unable To Try Undo Something Already Accomplished

(By The Associated Press) LONDON, Nov. 14.—France is bringing pressure to bear on Great Britain to join action for expulsion from Germany of former Crown Prince. For the moment the British government believes it useless to try to undo something already accomplished, but no decision will be announced until after today's cabinet meeting.

COLOGNE, Nov. 14.—Leo Deckers, separatist leader has been arrested at Verviers just over the Belgian frontier, according to advices from Aix La Chapelle.

PARIS, Nov. 14.—Filled council ambassadors failed to consider today the question of action in connection with the return of German Crown Prince and Germany's attitude regarding allied military control. It is understood the ambassadors avoided mentioning these questions because the allies were not in accord on them.

### To Locate Athletic Park Will Be The Task Set To Sanford Citizens

Special Commission And Citizens As A Whole Will Locate Athletic Park

Getting a bond issue for an athletic park was an easy task. Locating a place for the athletic park will be a more difficult matter. There are not many locations suitable for an athletic park in the city limits and it is a foregone conclusion that the ball grounds and athletic park should be within easy walking distance of the city. There are several good locations in the city limits and one or two outside of the city limits that present possibilities and the claims of all of them should be thoroughly investigated. It should not be a hold up on the part of the owners of any of this property and yet they are supposed to get a price that will correspond with present realty values. Land is land in and around Sanford now and especially on the east and west sides where the land could be available for farming purposes. The only claimant to advertise his land for sale for this purpose is Edward Lane who is running an advertisement in the Sanford Herald at this time calling attention of the people to the fact that he has a fine tract of land of 23 acres in the city limits and at a very reasonable figure. Mr. Lane is selling this land to make a commission as it is his own individual property.

Other claimants will probably advertise this land and the people know what they have and what they want for the land. It is something that concerns the tax payers and the tax payers should be consulted.

### Girls Attack Matron of Home Effort To Escape

Member of Hold Up Gang in Chicago Leads Girls

CHICAGO, Nov. 14.—Led by Anna Baranski, 15 year old girl, arrested last week as member of hold up band, twenty-five girls attacked matron at juvenile detention home last night in unsuccessful effort to escape. Girls attempted to leap through window after overpowering matron but were prevented by other officers.

### KAISER BILL IN HOLLAND FOR WINTER

### No Chance For Him To Get To Germany Now

(By The Associated Press) DOORN, Holland, Nov. 14.—William Hohenzollern, the former German emperor, goes calmly about his customary tasks at Doorn House, notwithstanding the reports which have gone abroad that he was preparing to depart for the fatherland. It is asserted here that there is no foundation for the report that he and his entourage have been granted passports for a journey to Berlin or elsewhere in Germany, and those close to him declare he has no intention of leaving Doorn.

Dr. Kan of the Dutch ministry of the interior, who had a long conference with the former emperor yesterday, may have something to do with the announcement that the former world lord will continue to reside in Holland for it is believed that the purpose of his visit was to enquire into the ex-kaiser's position, and to reiterate, in view of the crown prince's hasty departure, the difficulties that might face Holland at the hands of the allies if the head of Doorn followed in his son's footsteps. More-over it is said that the ex-kaiser is not in good health and his personal physician who resides in Amsterdam, has been here for some days. The excitement which the news of the former crown prince's departure for Germany has not yet subsided and there is still an air of uncertainty in the precincts of Doorn.

### BANK MESSENGERS WERE MURDERED BY TWO BANDITS

Who Stole \$43,000 From Them In Hold Up

NEW YORK, Nov. 14.—Two bank messengers were murdered by two bandits who stole \$43,000 from them in spectacular hold up today at Fifty Fifth street station of west end subway line in Brooklyn. Holdup occurred as crowds waited for trains. Bandits escaped after short pursuit by employees of branch postoffice.

Among the rest of town guests for Christmas Day were: Capt. Adjutant W. B. Ballard, Mrs. Ballard and Miss Ruth Ballard of Altamonte.

### REPARATIONS WILL DEPEND ON GERMANY

### And Her Capacity To Pay Is Opinion of Experts

(By The Associated Press) PARIS, Nov. 14.—Action on Premier Poincare's suggestion that the reparation commission appoint an expert committee to conduct an inquiry into the reparation question was deferred by the commission yesterday until German delegates shall have been heard regarding the Reich's capacity to pay.

The suggestion, made through Louis Barthou, was that the expert committee be charged with estimation of the "present" capacity of Germany. Sir John Bradbury, the British representative, is understood to have decided this would provide for an even closer restriction of the inquiry than that proposed by the French in the case of the Hughes plan.

The French idea was that, after estimating the present resources of Germany at home and abroad the committee should fix the amounts Germany could pay during the ensuing three years. M. Barthou dwelt especially on the necessity of ascertaining the total German assets in foreign countries. Any new scheme for the payment of reparations based on the committee's report he said, should take into account the old schedule fixed at the London conference of May, 1921.

Col. James A. Logan, the American observer, was present at the meeting but made no remarks regarding either M. Barthou's suggestion or the question of hearing the Germans. The German request for a hearing was granted without opposition and without restriction, the date being left open in order to allow them to make arrangements for their representations, but it is thought the first hearing will take place in about ten days.

Sir John Bradbury, following M. Barthou's presentation of the French suggestion, declared he thought that under the present circumstances the article of the treaty by virtue of which the Germans asked for a hearing had been rendered practically useless by the action of some of the powers, evidently referring to the Franco-Belgian occupation of the Ruhr. However, he said, attention would be settled only by the government hearing the Germans, hence he would vote for it.

As to M. Barthou's suggestion, he regarded it as something like the prescription, made by a certain philosopher, of pills as a remedy for earthquakes.

He held that the commission should without fear or favor execute its mission, investigate all of the causes that have led to the present condition of Germany and fearlessly apply or recommend whatever remedies it may deem necessary after investigation.

The impression in reparation circles after yesterday's meeting was that the commission was losing effectiveness and that the reparation question could and would be settled only by the governments.

### Georgia Man Was Drowned At St. Augustine

### BARBER BANKER ROSE TO POWER IN JAIL NOW

Sentenced To Four Years In Federal Pen

BOSTON, Nov. 14.—Joseph B. Marino, of Chicago, who rose from barber to banker and became involved in many financial difficulties in various parts of country, was sentenced to four years and three months in federal penitentiary at Atlanta today for aiding and abetting in misapplication of \$200,000 of funds of First National Bank of Warren, Mass.

### Postoffice Delay Cause Is Discovered Mail Was Postponed

By Employee Who Stated That He Had No Time To Work The Heavy Mail

Acting Postmaster H. C. Haskins does not take the blame for the recent delay in the mails of August 3rd to be cast on any member of the present postoffice force and in a statement to the Herald gave the following explanation regarding said delay.

One of the employees of the night force working in August had such a heavy mail that he thought he could not work all of it and tossed several sacks of mail into his locker room thinking do doubt that he could work it later. Whether he forgot this mail or hesitated to tell of his act to postmaster Haskins is a matter of conjecture but this mail remained in the private locker room until one day last week when the postmaster in looking for a blanket discovered the bags of mail and immediately started an investigation and the employee was immediately suspended pending an investigation of the postal authorities.

There was nothing for the postmaster to do then but to put the delayed matter through the mails and this was the cause for the papers and letters and postcards to be given out last Saturday postmarked August third and later dates and caused so much comment.

The Herald commented on the incident at the time and the postmaster wishes this paper to make this explanation to the public in order that the true facts in the case be made known. It was carelessness on the part of the employee and nothing of a criminal nature so far has developed in the case. However, the postal authorities are very rigid in the rules governing any delay of first class mails and the employee under suspension will no doubt undergo an examination to prove his side of the story. The postoffice is endeavoring to better the system and has asked for an extra clerk and three additional mail carriers and the delay in August should not be repeated again. The new postmaster, J. P. Hall, expects to take his position the fifteenth of this month and with the hearty cooperation of the public and the employees of the postoffice expects to give the public good service.

### PROTECTION TO RELIEVE LABOR PLAN

### English Premier Says Free Trade Must Be Investigated

(By The Associated Press) LONDON, Nov. 14.—In a brief but exciting re-opening session of a parliament elected only a year on the slogan of "tranquility," that parliament yesterday found itself condemned to immediate death—not because the government had suffered defeat in the house or reverses in by-elections, which are the customary reasons for dissolution, but because Mr. Baldwin, who succeeded to the premiership on the illness of the late Mr. Bonar Law, seeks a new mandate from the country authorizing his government to resort to protective duties on manufactures as a remedy for unemployment, which is the most difficult democratic problem facing the government today.

In a speech explaining his position said that after giving the subject much thought he became convinced he could not undertake to remain in his present position to steer the country through the winter unless he were allowed to use an instrument which he had been precluded from using, having regard for Mr. Bonar Law's pledge.

Explaining that he wanted a mandate in time to include the new duties in the next budget, he declared it was necessary to have elections at the earliest possible moment. He had advised the King accordingly, and he saw no reason why parliament should not dissolve Friday. Elections will be held December 6.

Brief criticisms of the government's procedure followed from the Liberal leaders, who actively accused the government of rushing the elections to prevent the country from either knowing or discussing what the government proposed to do, and with voting a motion giving the government the whole time of the House.

The exciting proceedings ended, the house settled down to a routine discussion of the workmen's compensation bill income, which must be finished in the remaining few days.

The immediate effect of the government's sudden change of policy will be a certain re-alignment of parties, or, rather, of party leaders.

The two opposing Liberal wings, led respectively by Asquith and Lloyd George, have become re-instituted under the free trade banner, while, if the conservatives are returned to power the new government will be greatly strengthened by the inclusion of Austen Chamberlain, Lord Birkenhead and probably Sir Robert S. Horne, who has abandoned his projected visit to the United States in order to assist his party in the election campaign, and will possibly abandon his private interests in order to rejoin the government.

Reconciliation of the liberals was fully effected yesterday, and an official statement issued last night says that the Asquithians and Lloyd Georgeites will fight the election as a united party without regard to past differences. Mr. Asquith and Mr. Lloyd George yesterday settled upon all plans, and liberal candidates will go to the polls in such numbers as to make a united liberal government a practical alternative to the present government.

Who Had Been Struck By San Francisco Street Car

SAN FRANCISCO, Nov. 14.—Traffic was halted on Bay street corner yesterday while Rev. A. R. Dratham, Catholic Priest knelt in middle of street and prayed over John S. Edwards, 13, who had been struck and fatally injured by street car. The boy died few moments later.

### GOVERNMENT THROWS DOWN THE RHINELAND

### Germany Would Leave Ruhr Situation To Allies

(By The Associated Press) BERLIN, Nov. 14.—After permitting to go unchallenged throughout the day reports to the effect that the German government was about to proclaim an autonomous Rhineland and Ruhr state within the German federation, an official communication, issued last night threw a strange light upon a secret conference which was in progress at the chancellery all day. At the conference, President Ebert and Chancellor Stresemann and others of the cabinet discussed at great length with the premiers of the federated states and a committee comprising the Ruhr and Rhineland leaders the question of liquidation of the economic chaos of occupied zones.

By indirection the German government in its statement virtually admits inability to support the Ruhr and Rhineland any longer, and yesterday's action is considered as having resolved itself into an abandonment of these territories and leaving their populations to their own fate and at the mercy of the occupying powers.

The existing dislocations in all lines have produced a catastrophic social situation through growing unemployment and the consequent obligations of the government to continue its unemployment doles. These officials quarters have declined to indicate the nature of the charter which is to be conceded the new Rhineland state or its property limits.

### COTTON CONSUMED DURING OCTOBER 541,825 BALES LINT

Compared With 483,852 Last September

WASHINGTON, Nov. 14.—Cotton consumed during October totaled 541,825 bales of lint and 55,828 of linters compared with 483,852 of lint and 56,307 of linters in September of this year and 522,744 of lint and 62,025 of linters in October last year when bureau announced.

### AND TAKEN TO WINTER PARK AND SURROUNDING PLACES VISITING FLORIDA

For Purpose of Recreation And To Be Guest of Jacksonville Armistice Day

Sanford was host today to a very distinguished party when Admiral Sims and Mrs. Sims and their official party came on the steamer Osceola to visit interior Florida for a short time. In the party were the admiral and wife, his aide and one who was with him in the war, Capt. Gilchrist Stockton of Jacksonville, Mr. and Mrs. R. P. Daniel and Mrs. E. M. L'Engle of Jacksonville.

Admiral Sims has been at Jacksonville for several days the guest of the American Legion and made the address to the soldiers and sailors there on Monday. He and his party were anxious to see something of interior Florida and made the trip on the boat today.

When the Osceola docked here this morning Mayor Lake and wife and City Commissioner, S. O. Chase and wife, President Higgins of the Chamber of Commerce and Secretary Pearson and Editor R. J. Holly met the party on board and they were taken for a ride over the city and to Winter Park and returning will drive to Deland landing where they will again embark on the Osceola for the return journey.

The Admiral met many of the Sanford folk at the dock and they were all favorably impressed with this famous old sea dog who had charge of the American navy in British waters during the world war and who gained name and fame for that branch of our defensive service.

Elsewhere in this issue is a story of the Admiral's life written by Capt. Stockton for the Journal.

The programs this season are of especial interest and every member should be present to enjoy and profit by them.

### D. A. R. NOTES

The Sallie Harrison Chapter's November meeting Friday, 9th, was a most enjoyable one. Mrs. Kent of Winter Park was the gracious hostess, it was a real pleasure to be the guest of one of our valued Charter members. Mrs. Claire Walker Kent has represented the chapter at Continental Congress three sessions and is thoroughly familiar with D. A. R. work. The meeting was called to order by the Regent, Mrs. A. M. DeForrest with the salute to the flag. Among the many important matters of business dispensed with, ways and means decided upon for raising the money for the erection of the Ribault Monument. It was voted to give card parties, a notice of the dates will appear in this issue of the Herald. There were fifteen Daughters present including Mrs. Brower who at one time was a member of the Sallie Harrison Chapter.

After a satisfactory business meeting the daughters enjoyed a most pleasant social hour with their hostess at five o'clock Mrs. Kent, assisted by Mrs. Ralph Chapman and little daughter, served a delicious salad course. Press Reporter, Mrs. B. J. Starling.

### BEAUTIFUL BRIDGE PARTY

One of the loveliest parties given this season, was that of Saturday afternoon, when Mrs. Tom Owen, entertained a number of her friends at Bridge at her home on Myrtle avenue. The rooms where the card tables were placed were festive in appearance. Quantities of brilliant autumn foliage, potted crochets and autumn flowers of red, yellow and orange, transformed the spacious lower floor into a fairy woodland.

The tally cards were also hand painted with sprays of vivid colored autumn leaves. The game was one of exceptional interest, top score being made by Mrs. E. H. Holden, who was awarded an exquisite hand embroidered linen towel. The second prize, a hand embroidered linen guest towel went to Mrs. Alex Vaughn. Low score prize, hand painted bridge score pad was won by Mrs. L. P.

McCuller. While the cut prize, a novelty, hand painted card holder was presented Mrs. L. J. Faircloth.

Following the awarding of the prizes, the hostess served delicious refreshment, carrying of the color scheme, consisting of congealed fruit salad topped with whipped cream and cherries, Saltines, fancy cakes, coffee and crystallized grape fruit.

The afternoon was one of exceptional enjoyment to the guests and the cordial hospitality of Mrs. Owen was reflected in every detail.

The guest list included Mrs. E. D. Mabley, Mrs. B. F. Whitner, Miss Martha Fox, Mrs. H. R. Rosebro, Mrs. L. P. McCuller, Miss Emma Owen's, Mrs. Alex Vaughn, Mrs. E. H. Holden, Mrs. W. D. Gardner, Mrs. Emmett Hunt, Mrs. Charles Leonardy, Mrs. L. J. Faircloth, Mrs. C. E. Mitchell, Mrs. George Paxton, Mrs. John Leonardy, Mrs. Benjamin Whitner, Jr.

## MILANE NEWS

"Lady Godiva" tonight.

Europe's greatest production. Great in eye appeal, wondrous beauty, stupendous crowds, massive sets and a story of a woman who displayed her shame to save her people from misrule.

Garbed only in lustrous tresses, Lady Godiva rode through town. Two eyes saw her. They were stricken blind. Will you venture to see this startling photoplay, "Lady Godiva" adapted from Tennyson's poem.

Did Lady Godiva's horse run, gallop, canter or just walk through the town of Coventry?

See this startling photodrama adapted from Tennyson's poem.

If Tennyson's poem gave you a thrill, this photoplay will add a few you never before experienced.

See "Lady Godiva" at Milane tonight.

If you don't look at "Lady Godiva" you'll blind to a wonderful photoplay spectacle

In deeds of sacrifice woman has ever been supreme. What woman's deed was so noble as Lady Godiva's?

The personification of virtue and purity, she suffered public shame to help her persecuted people.

In poetry, painting, stained glass and sculpture, Lady Godiva has been immortalized. Now see "Lady Godiva" as perpetuated on the screen.

### Daily Fashion Hint

INTERPRETS A NEW SIMPLICITY

This is just the model that one would like for a cool gingham or linen, and is typical of the newest idea of simplicity sponsored by Paris. Fronts and backs are slashed inward from the underarm seams and gathered to a band, to which the ends of the sash are attached. Round neck and short kimono sleeves are edged with bias folds of self-material. Another development of this model is possible. It features a skirt scalloped at the bottom and the addition of a sectional collar to the round neck. Medium size requires 4 1/4 yards 36-inch material.

### THE COAT FROCK REIGNS

With a charm typically Parisian, this coat frock expresses itself in dark blue tulle, selecting novelty buttons for its chief decoration. The fronts of the dress are crossed and closed at the left side. Also, they are cut in one with the collar, which is rolled to form revers. The fulness at the sides and back is held in with a narrow belt of self-material. Medium size requires 3 1/2 yards 54-inch material.

### IN NAVY SATIN CREPE

This is the latest Paris idea of the slip-on frock—a charming creation in navy blue satin crepe, trimmed with blue and gray silk embroidery. The front section is draped over a foundation consisting of a skirt attached to a long-waisted bodice, and is caught at one side with gaiter-sash of narrow ribbon. Embroidery at the lower edge of the front, and about the neck and sleeves; supplies all of the other decoration needed. Medium size requires 4 1/2 yards 36-inch material, and 3/4 yard lining.

Wednesday—"Forgive and Forget"

Monday, November 19.—Kumaka's Native Hawaiians

Sanford was honored today by a visit from Admiral Sims and his wife and the official party. And a Florida boy, Capt. Gilchrist Stockton of Jacksonville was his aide. The Admiral is a fine man and we were glad to have the opportunity of seeing him again and seeing him in peace times.

Sanford real estate is very low in price compared with every other Florida city. It will take a big jump some of these days and the men who have some of it will reap a fortune. The Herald has called attention to this fact many times and what seemed to be dreams on our part are coming true even before we predicted it. Watch Sanford grow.

In selecting an athletic field for Sanford much care should be exercised to get the right location and one that will be popular with the masses. A field too far away from the city will not be a paying institution and the field is supposed to pay its way even if it does belong to the city. It should also be a place for the training of one of the big league teams in the winter and this must have the right location.

There is just one way to make Sanford a big city and that way is for everyone to join the Chamber of Commerce and help to boost the city and the many advantages in climate, farming, health, schools, place of residence the year round, golf links, fishing, boating and hunting and a thousand other advantages. Blow your own horn and blow it through the Chamber of Commerce in a concerted effort.

NEED OF BIG AUDITORIUM.  
Every growing city needs a big auditorium for public meetings and as a place for all public forums, dances and gatherings of all kinds. Sanford has long needed such a place and some of these days it will be built either by the municipal government or by individuals and it will be a paying investment in many ways. Speaking of such a place the Estero Eagle says:

"In view of the fact that a public auditorium has been the subject of much talk for the past four or five years in Fort Myers, it may be of interest to learn that Sarasota, a city of about the same size, is about to realize the fulfillment of such a dream, as reported in the last issue of the Sarasota Times. This is evidently being promoted and financed as a private enterprise, with a view to renting out the big hall for dances, concerts and other public entertainments. Is there not some philanthropist of ample means to do the same thing for Fort Myers? By renting some offices and clubrooms overhead, in addition, it is quite probable that such a project could be made to pay for itself in time. The item from the times is as follows:

"Contract was officially and finally awarded this morning by Andrew McAnsh of Chicago and Sarasota to Contractor G. A. Miller of Tampa, builder of the Mira-Mar Hotel, for the erection of an \$80,000 auditorium and recreation building on Williams street, opposite Mira-Mar Court. Ground will be broken for the foundation within the next 24 hours. The structure will be 100 by 175 feet, two stories in height, of brick, stucco and concrete, and it is specified in the contract that it must be completed and ready for occupancy within 45 days from this date.

"The auditorium will contain a full sized stage, with dressing rooms and arch, so that legitimate productions, may be given there or grand operas or pictures, and the seating capacity of the auditorium proper will be 1,000. The dance floor will accommodate 500 couples at one time.

commodate 500 couples at one time.

"The Mira-Mar Club will occupy quarters on the second floor and the Rotarians will occupy quarters on the opposite end as a meeting place or social intercourse and dinners. One of the prominent features of the entire structure will be its illumination both inside and out. Thousands of incandescent lights will be used."

FORMAL OPENING OF BIG WATERWAYS CONVENTION TODAY

NORFOLK, Va., Nov. 13.—Formal opening of the sixteenth annual convention of the Atlantic Deeper Waterways Association will take place here tomorrow afternoon at 2 o'clock, with Gov. E. Lee Trinkle, of Virginia, and Mayor Albert L. Roper, of Norfolk, extending greetings to the 800 delegates and unofficial visitors scheduled to be in attendance. Responses will be made by city and state officials.

A special steamer from Baltimore bringing 275 delegates from northern states will reach here tomorrow morning. Wilfred S. Schoff, of Philadelphia, secretary-treasurer of the association, was the first of the national officers to arrive. He reached here today and assisted the local committees in applying the finishing

touches to business and social programs. Mayor J. Hampton Moore, of Philadelphia, president of the association, will arrive tomorrow.

The association is on record favoring the purchase of the Dismal Swamp canal by the government and operating it as a free waterway. The purchase of this waterway will constitute one of the important discussions through Friday.

The Atlantic Deeper Waterways Association is a voluntary organization which simply crystallizes sentiment and collects data for the benefit of congress and for the legislatures of the various states interested in the development of the inland water routes from the northern to southern boundary of the United States. The influence of the associations is recognized as large, and the meeting in Norfolk this week will be for the purpose of giving further impetus to the development of waterways.

Several hundred more signs have been removed from the highways of Orange County during the past week and the roads are now practically clear of these unsightly things and will be kept so. The county road crews are instructed by the county commissioners to remove all signs along the right of way, as fast as they are put up.

What Is Oldest Known Road Material?

Doubtless the oldest material for a road was wood. In the form of branches laid across muddy stretches of paths, much as the familiar "corduroy" road is still made today in backwoods districts.

But the oldest hard road material is stone or brick, and among the claimants for heavy age in considering the first forms of built highways, is asphalt. Some commentators of the Bible claim that the word "asphalt" in the quotation "asphalt had they for mortar" to build the Tower of Babel should be translated as "bitumen," which is asphalt.

However that may be, there is no doubt about the translation of an inscription found on a paving block in Babylon. It reads:

"Nebuchadnezzar, King of Babylon, he who made Esagila and Esida glorious, son of Nabopolassar, King of Babylon. The streets of Babylon, the procession street of Nabu and Marduk, my lords, which Nabopolassar, King of Babylon, the father who begot me, has made a road glistening with asphalt and burnt brick; I, the wise suppliant who fears their lordships, placed above the bitumen and burnt bricks, a mighty superstructure of shining dust, made them strong within with bitumen and burnt bricks as a highway road, Nabu and Marduk, when you traverse these streets in joy, may benefits for me rest upon your lips; life for brilliant days, and well-being for the body. Before you I will advance upon them. May I attain eternal age!"

Those who traverse smooth asphalt streets in cities are thus linked with an era of at least 500 years B. C. in ancient times until about 1855, asphalt, then to be obtained only from nature (it is now a product of petroleum manufacturing processes) was neglected as a road material.

Living Cost of Farmer's Family in Livingston County, N. Y., is \$2,015, Due Largely to Tariff.

Investigations into the farmer's cost of living just made by the Department of Agriculture in a community in Livingston county, New York—regarded "of moderately successful farming"—reveal that the average expenditure of the 402 agricultural families studied was \$2,012 a year, or about 27 per cent of the total spent went for clothing alone.

In the area under investigation the farmers produce hay, corn for grain and silage, wheat, oats, beans, cabbage and sweet corn and peas for canning. There is a tariff on all of these products but it is not effectual in giving the farmer higher prices. On the other hand, the tariff on clothing, furniture, hardware and numerous other commodities which the farmer can't produce and must buy from others is collected from him by the special interests for which the Forney-McCumber law was enacted.

There is a tariff of 51 cents for the "protection" of every dollar's worth of cotton goods manufactured by the cotton textile trust; 37 cents on each dollar's worth of silk goods; 88 cents on woollens; 37 cents on hosiery; 88 cents on glassware—made by trust; 45 cents on aluminum; 132 cents on cutlery; 50 cents on leather gloves; 28 cents on wire; 25 cents on oil cloth and linoleum, and 42 cents on carpets and rugs.

There is a good deal of Republican tariff in the \$277 worth of the farmer's Livingston county, New York, pays for the clothes he and his family wear these days.

Ross Combs has returned to Sanford from a brief visit to Miami and will be in the city for several weeks transacting business with the Sanford Herald. He is a guest of the Valdes.

Blacks May Return South This Winter

ATLANTA, Ga., Nov. 13. — Will the negroes who have gone from the South this year to Northern industrial centers return when they find that Northern winters are not like those of the South, and that their lot in the North in cold weather will be one of suffering?

Georgia agriculturists have expressed the belief, in discussing the subject with statehouse officials, that great numbers of negroes who have been led by promise of high wages and social equality to leave their homes in the South, will return when extreme cold weather really sets in up North.

The Southern negro, it is pointed out here, is poorly equipped to stand cold weather. Even such cold weather as comes to the South causes much suffering among them, for they fall generally to make preparations for winter and many are found to be without food, clothing or fuel when winter is at its worst. In the North, it is asserted, pursuing the same tactics they do in the South, the negroes must of necessity have a very hard time during the severe winter.

Many Blacks Will Return. Some Southern agriculturists are telling the Labor Department at Washington that the winter months will probably see large numbers of these negro emigrants returning.

Local conditions in some Southern communities, leading Georgia farmers state, unquestionably contributed to some of the negroes leaving the South, but the chief reason for the exodus, it is claimed in some quarters, was not so much discontent with their lot here as the lure of high wages and more equality.

"That they have found the promise false and are facing the problem of existing under conditions far more unfavorable than they ever faced in the South, is the penalty they are paying for their unfortunate move," said one prominent Georgia farmer, who has received letters from some of his negro help now in the North. He gave it as his opinion that when real winter comes many negroes will return to the South.

Six Thousand Teachers Is Aim of Association For Florida Education

WINTER PARK, Nov. 14. — A membership of 6,000 teachers and at least 20,000 leading citizens of the state is the aim of the Florida Education Association, in its campaign to make it possible that Florida boys and girls shall have the opportunity to obtain an education equal to the best," declares Dr. O. I. Woodley, secretary of the association. Dr. Woodley believes the campaign is to put the state's educational system on a par with the best approved systems of other states, is one of the greatest movements ever launched by Floridians because of its far-reaching effects on the development of the state's resources.

The ultimate aim of the campaign is an educated citizenship for Florida that will be loyal to the laws of both the state and the nation, Dr. Woodley declares. He is directing the campaign which is designed, also, to bring Florida's institutional life to the same level of progress as that already reached by the state's material development.

Emphasis is laid on the fact that the association desires to cast no reflection on work of the past; on the other hand, nothing but praise is given to the "early sacrifices of the many men and women who have devoted their lives to the cause of education and who have steadfastly raised the standards from year to year."

It is merely a case of the educators having reached a point in their work where they are convinced that the citizens of Florida should join them in bringing about greatly needed improvements that will credit the state with the same degree of progress along educational lines as that which her chambers of commerce boast in terms of material opportunity, Dr. Woodley points out.

Plans are being made to bring the movement's forces to the highest point of appeal during National Education Week, proclaimed for November 16-24 by President Coolidge. Parent-Teachers' associations and civic organizations throughout the state are adding their approval to the effort; it is declared by those in charge of the movement, who add that:

"If the fathers and mothers and citizens in general will take into their hearts and minds the slogan of the Florida Education Association, that 'Florida boys and girls must have an opportunity for an education equal to the best,' the desired goal will be reached and Florida's share in National Education Week will eclipse any undertaking previously attempted in this great state of phenomenal progress."

GOVERNOR CALLS ON CITIZENS AND ALL STATE AND COUNTY OFFICERS TO ENFORCE THE LAW

Prohibition and Other Laws Must Be Enforced To Letter

TALLAHASSEE, Fla., Nov. 13. — Governor Hardee, tonight in a ringing statement, called on the sheriffs and other peace officers, prosecuting attorneys, judges of the courts, grand juries, "and every other agency having to do with the administration of our law for united whole-hearted effort" to enforce the prohibition laws and other laws of the country in Florida.

The President of the United States has promised fullest co-operation by the national government and has called upon the various states for individual assistance, the governor pointed out, and declared that "whatever may be the sentiment in some parts of the nation, 'the preponderant sentiment of this country is for a dry America.'"

"The heart of a Nation is right on this great question," said Governor Hardee's statement, which is addressed to the people of Florida. "Any measure important enough to be written into the Constitution as a part of the fundamental law of the land whether it be a declaration of right or a regulatory provision, will, in time, be regarded by the people and adequately enforced. The majesty of the law must prevail."

Governor Hardee's statement is an elaboration upon the sentiment expressed by him in his response to the address of welcome which he delivered recently at the Governor's Conference at West Baden, Ind., and which precipitated the movement that resulted in the state executive's adopting their first resolution.

Continuing the statement indicated optimism on the part of the Florida executive over the results so far obtained by the prohibition law. "I am not one of those who believe that prohibition cannot be enforced in this country, or that its administration so far has been a failure," he said. There has been a tendency to magnify its weaknesses and to overlook the great beneficial good which prohibition has brought about," the statement said.

Enforcement of the law has not failed, said the statement in this connection. "The law is sometimes referred to as having failed of administration because we naturally notice and comment more generally upon the traffic in liquors and their use now that the laws are against it," it added with a warning that the people should not let "the opponents of this law confuse them" with the idea that the law is impossible of administration.

Complete liberation of the country from the evils of the liquor traffic should not be expected in a day, the governor suggested, and said the people should not be discouraged by the repeated violations, but realize the magnitude of task and make available every legitimate remedy.

Churches, civic organizations, luncheon clubs, women's clubs, fraternal societies and "each and every association in Florida having for its object true civic ideals" were called upon for a "patriotic response to this appeal for the enforcement of law, and for leadership in given communities looking to the crystallization of a healthy public sentiment for law and order."

"I call upon the people generally for sincere co-operation and united effort in the support of our constitution for the enforcement of the law generally and with special reference to the provisions of the Eighteenth Amendment," the statement concluded. "After all, too much comment on the non-effectiveness of the law and too little upon the great beneficial good which prohibition has brought about. We have cause for ap-orm-law.concrease emty mlyw congratulation upon the great decrease in the volume of the liquor traffic since the law became legally effective. The manufacture of whiskey, wine, beer and other intoxicants in any normal year preceding prohibition would have loaded more than one hundred thousand freight cars. Now, if we find a few cases hidden away in a car, or other freight the fact is heralded as evidence of the failure of prohibition. It has not failed. Its enforcement has not failed. It has not been wholly effective, but it is far from having failed. This would be readily apparent if conditions which formerly obtained were enacted just for a day, thus bringing the true conditions both before and after the law became effective to the attention of the public for comparison."

the opponents of prohibition are trying to create the idea that it is impossible of enforcement. Proaching failure of the law is conducive to their assault. Added to this, many very sincere advocates of prohibition seeing some abuses of it are crying failure with the idea that by calling attention vociferously to an unwholesome condition remedied for such condition may be found.

"Let not the opponents of this law confuse the people with the idea that the law is impossible of administration. The complete liberation of this country from the evils of the liquor traffic is not to be expected in a day. It is a kind of evolutionary process. To an extent, it is a matter of education. We should not be discouraged by repeated violations of it, but realizing the magnitude of the task to which we have addressed ourselves we should make available every legitimate remedy. Let no man say the law can't be enforced. Are you willing to confess such weakness upon the part of your government, both state and national? At this time no briefs are held for the use of liquors. Its apologists even admit that its use is detrimental to the moral and economic life of the country. In recognition of this accepted fact, prohibition has been written in the constitution and there to stay for all time. To argue impossibility of enforcement is equivalent to saying that the worthwhile citizens of this country must submit to the dictation of the lawless and vicious. I propose that Florida shall suffer no such dictation."

"I call upon the sheriffs and other peace officers, the prosecuting attorneys, the judges of our courts, the grand juries and every other agency having to do with the administration of our law for united wholehearted effort in the campaign now upon us for enforcement of the prohibition laws as well as other laws of the country."

"I call upon the churches, the various civic organizations, luncheon clubs, the different organizations of our women, fraternal societies, and each and every association in Florida having for its object true civic ideals for a patriotic response to this appeal for the enforcement of law, and for leadership in given communities looking to the crystallization of a healthy public sentiment for law and order."

"I call upon the people generally for sincere co-operation and united effort in the support of our Constitution for the enforcement of the law generally and with special reference to the provisions of the Eighteenth Amendment. After all, the voice of the people is government, and just such conditions as they desire, or may be indifferent to, will usually obtain. Let them assert themselves and the enforcement of our laws will result effectively and speedily. The manner in which they may assert themselves should be readily apparent. Courage on the part of worthwhile men and women to express wholesome views will create sentiment reflecting itself in better law enforcement. This influence can be a controlling force at the ballot box and in the civic activities of various communities. Let us put more emphasis upon individual responsibility."

STATE NEWS

BARTOW—Bond issues aggregating \$370,000, voted several months ago for city improvements, have been sold to a Cleveland firm for \$357,000, which is at the rate of 95.52. Street paving, water and sewer extensions and erection of a municipal auditorium will begin soon as a result of the sale.

BROOKSVILLE—The county commissioners have passed a resolution authorizing an election to submit to the people a proposition calling for issuance of \$450,000 in bonds with which to construct approximately seventy miles more of rock asphalt roads.

TALLAHASSEE—A conference is scheduled to be held here next February to consider a proposition to establish a Young Men's Christian Association in the capital city. Decision to this effect was made at a meeting here this week, attended by Mayor Maginnis, and other civic leaders when the matter was brought up by Y. M. C. A. leaders from Atlanta, and F. A. Jackson, the state organizer.

DELAND—Three games for the State Reserves are being planned by the athletic authorities, it is understood. The Florida Military Academy was their opponent on Armistice Day, it is reported. If arrangements can be made, and following that clash, or if the Academy team cannot meet the invitation, the Sanford team will probably be taken on. A trip to Palm Beach is also contemplated.

BRADENTOWN—Two districts in Manatee county will, on December 10, vote on a no-fence law proposal, under resolutions adopted by the board of county commissioners. The territory affected is that north and south of the Manatee river, comprising Palmetto, Ellenton, Terra Cela and Gillette on the north, and Bradentown, Manatee and Anna Maria on the south. The territory is largely a rich agricultural and grove district.

PALATKA—The state supreme court has fixed November 20 as the date to hear an appeal of the Southern Utilities Company from a decision

of the circuit court granting Palatka a permanent injunction prohibiting the company from charging more than ten cents per kilowatt hour for electricity for lighting purposes. The circuit court reversed the city will find it necessary to reimburse the company to the extent of several thousand dollars.

LAKELAND—J. Buyan Smith was elected mayor of Lakeland in the city election here Tuesday.

WEST PALM BEACH—In connection with efforts to obtain a federal building for this city, H. W. Robinson, secretary of the chamber of commerce, has compiled figures indicative of the growth of West Palm Beach. Postoffice receipts in 1910 amounted to \$12,183.27; for the first nine months of 1923, they reached \$61,532.77. In 1920 building activities amounted to \$992,305, compared with \$2,080,800 for the first nine months of this year.

JACKSONVILLE — L. M. Rhodes, commissioner of the state marketing bureau, has received a letter from Robert Bier, government agent, stating that among the forty-five con-

cerns handling citrus fruits in Florida, several thousand cartons of oranges, grapefruit and tangerines have been tentatively pledged to government grading being established in this state. Eight grades have been formulated for the fruit which it is stated, will be judged by state government officials at the point of shipment.

SOUTH JACKSONVILLE — The city has decided by the close vote 287 to 281 to issue \$350,000 in improvement bonds.

MIAMI—Traffic problems have come such that the city commission has begun work on an ordinance to lieva conditions this winter, during which it is believed by the authorities traffic will be unusually heavy. The ordinance will confer upon City Manager Wharton and Chief of Police Quigg authority to regulate traffic. They believe that one-way and parking streets may be established.

BARTOW—The county commissioners of Polk county have voted appropriate \$5,000 to delay the plans of a Polk county exhibit Madison Square Garden, New York next February.

126,000 Miles of Cloth for Cement Sacks  
To keep cement moving from the mills to the many building jobs always under way, cement manufacturers require an astonishing quantity of sacks.  
This year the industry has considerably more than 225,000,000 sacks. These represent enough cotton cloth to make a skirt for every woman and girl in the United States—126,000 miles of 30-inch fabric. Even a moderate sized mill which ships say 1,000,000 barrels a year must have 2,000,000 or so sacks.  
When a customer returns a sack he gets credit for it, if it is usable or repairable. The convenient returnable sack means that each plant has to have large departments where men and women sew, sort, clean and count sacks continuously. This work alone costs the industry nearly \$1,250,000 a year.  
And cement manufacturers keep increasing their sack inventories so that they can ship promptly. Last year they purchased a total of more than 100,000,000 new cotton sacks. For replacements alone over 50,000,000 were needed; for increased supplies over 30,000,000. In addition over 18,000,000 paper bags were used representing 7,000,000 pounds of paper.  
This problem of containers causes a large and steadily growing investment by the portland cement industry.

In the Circuit Court of the Seventh Judicial Circuit of Florida, in and for Seminole County, in Chancery.  
In Re: Application of Eva A. Herndon for Removal of Disabilities of a Married Woman.  
This cause coming on this day for final hearing upon the petition herein and the report of the Special Master, and it appearing to the court that the petitioner has given notice and legal notice of her application for the removal of disabilities of a married woman by publication once each week for four successive weeks in a newspaper published in Seminole County, Florida; and from the report of the said Special Master filed in this cause it appearing that he has made due inquiry as to the capacity, competency, and qualification of the petitioner to take charge of and manage her own estate and property, and to become a free dealer in every respect.  
Thereupon upon consideration thereof, it is hereby ordered, adjudged and decreed that the report of the Special Master in this cause be confirmed and approved.  
It is further ordered, adjudged and decreed that a license is hereby granted to the petitioner, Eva A. Herndon, in accordance with the prayer of her said petition, to take charge of and manage her own estate and property, and to become a free dealer in every respect.  
And it is further ordered, adjudged and decreed that after due publication of this order as required by law, the said petitioner, Eva A. Herndon shall be authorized to take charge of and control her estate, to contract and be contracted with, to sue and be sued, and to bind herself in all respects as fully as if she were unmarried.  
Done and ordered in Chambers at Sanford, County of Seminole and State of Florida, on this 16th day of October, A. D. 1923.

### "FORGIVE AND FORGET" CHARACTERIZED BY GRIPPING SITUATION

At the Milane Theater today. Supposing you were a week-end guest in a house party at which there was a jewel robbery! And just suppose that if you were searched it would mean having discovered in your pocket a burning letter from the pretty wife of the man whose guest you were. Would you refuse to be searched and thereby through your silence take the guilt of the theft—or would you establish your innocence of the theft at the risk of letting the letter be discovered and incriminating the woman?

That is the intriguing situation that launches "Forgive and Forget," the new C. B. C. feature production at the Milane theater today. Excellent acting by Estelle Taylor, Pauline Garon, Wyndham Standing, Philo McCullough, Josef Swickard, Vernon Steele, Raymond McKee, and Lionel Belmont does much to make "Forgive and Forget" the fine production it is. Howard M. Mitchell has given understanding direction and Harry Cohn has made a production that is well worth seeing. Don't miss it, it is our advice to film patrons who like a good picture well done.

### Congregationals Win First of Bowling League Season

Stevenson Rolls High Score of Evening For Both Teams.

The Bowling League opened last night for its first game of the season when the Congregationals met the Brotherhood of St. Andrew. The Congregationals with their crew of more experienced players easily defeated their younger but game opponents, the Brotherhood of St. Andrew. Stevenson, Chap player bowled the high score of the evening for both teams, his final score being 539. He also bowled the highest for one game, 208. He had a close second in Belding, the champs captain who amassed a total of 487 for the evening and 195 pins in the second game. The Brotherhood displayed some good bowlers in Hughey and Thurston, Hughey leading his teammates with 443 pins and Thurston a close second with 432. Moye also bowled a good game.

The Knights of Columbus will meet the Truckers tonight. Games start at 7:30 sharp. Every one is cordially invited to these games.

### LAKELAND OFFERS TO BATTLE TIGERS HERE FOR TITLE OF STATE

Lakeland, Nov. 14.—Hillsborough High school wants to play Lakeland High a post season game. The desire may never be fulfilled if local followers of Duval High can pull and have Duval put over a victory on Thanksgiving day over the Terriers.

Coach McQuillan is in hearty favor of playing Duval, but not Hillsborough should Hillsboro defeat Duval. He bases his conclusion on the rules governing conference events and all other rules in football elimination processes.

Hillsboro has played two tie games this season one with Fort Myers 7-7 and Summerlin 0-0. Summerlin defeated Fort Myers 20 to 0 and Lakeland defeated Summerlin 27 to 0.

Lakeland feels that a 27 to 0 victory over Summerlin is proof that Hillsboro has no claim to meet the locals. The impression prevails that Lakeland does want to meet Duval in case of a Duval victory on Thanksgiving day. The team and coach prefer the game to be played in Jacksonville instead of Gainesville, as a thousand fans from here would attend the game in Jacksonville. Local sentiment is overwhelmingly in favor of the championship game being played in Jacksonville if it can't be played in south Florida.

### REALM OF SPORTS

R. L. SHIPP, Editor

**Celery Seed**  
By Editor

The Congregational Champs put the Brotherhood of St. Andrew in the cellar position to start the bowling league off.

It was the general opinion that the Champs would put the Brotherhood down—but it was not our idea that they would trim the Brotherhood boys so badly.

But the Brotherhood will have company after tonight, when the Truckers meet the strong Knight of Columbus aggregation. The Knights of Columbus have a pretty strong crew this year and promise to make the race tight for last year's Champs, the Congregationals.

According to a certain sport writer in South Florida, there is a rule in the State Athletic Association which states, that all championship games must be played in Gainesville. We cannot see where that is quite fair. Gainesville is the center of all sorts of athletics already, the University of Florida teams giving a number of their games to the Gainesville people while the Gainesville High teams also have a large number of games at home.

### Locals To Meet St. Augustine Saturday

Saints' Will Come Down Here Fully Prepared to Demolish Sanford High's Celery-Feds.

Coach Wilkinson has another hard team facing his clan Saturday when the strong St. Augustine eleven will invade the "City Substantial." This is the first time the Saints will have played the Celery-Feds and is expected to draw a large crowd.

According to figures the locals should win by at least two touchdowns. The Saints three weeks ago trimmed Palatka to the tune of 19 to 0. In turn, a week later, the locals gave the Palatkins a terrific mauling the final score being 28 to 0. The Palatka-St. Augustine game was played in St. Augustine while the Saints will have to battle the Celery-Feds on Hood Field. Any how all indications point to a good game.

### KNIGHTS OF COLUMBUS IN FINE FORM FOR TONIGHT'S OPENING

The K. of C. team opens its part of the season with the Sanford Truck Growers at the Bowling alleys tonight. The "Caseys" are looked upon as pennant contenders for this season, they having some of the best of last year's material.

Emil Amann, an ex-farmer bowler, ranked as one of the best in the league last year. And he will lead the K. of C. team this year. Sid Rive was one of the Merchants' best bet last season, while Paul Perold was another one of the Farmers' main stays. George Pexold and Henry Welrenski, two of last year's good ones will play this year with the K. of C. team also, as will Britt, one of the best of last year's Roles. This combination of "Caseys" are bound to give some one a run for their money, and instead of this season starting out with all eyes turned on the Congregationals, the entire league is looking forward to a

It seems as if two teams, not including Gainesville, fight hard enough to win all of their games they should be entitled to decide between themselves as to where they want to play the deciding game.

Looking over the situation it seems that Lakeland and either Duval or Hillsborough will have to battle the final game for state title this year. Duval and Hillsborough will play Thanksgiving and it is no sure question as to who will win. Lakeland has not a very hard schedule for the rest of the season and it is almost certain that they will win all of their games.

It seems to us that Lakeland would be the logical place to have the play off. Jacksonville and Tampa have been the scenes already of some high class football this year, while Gainesville has had more than her share. So we say give Lakeland the title game.

The locals play St. Augustine High here Saturday. This promises to be a good game. The Saints beat the Palatkins 10 to 0 while Sanford piled up a higher score of 28 to 0.

mercy scrap between the K. of C. and last year's champs.

And this season will find other good ones also, as the Men's Club is strengthened somewhat, and the Truckers have a pick of some of last year's good ones. The Merchants are stronger than they ever were, and from the closeness of last night's game, the Brotherhood is rolling in mid-season form.

The general public is invited to these games, no admission being charged. The schedule calls for three games each week, Monday, Tuesday and Thursdays, starting at 7:30 sharp.
