SAIGON (AP) — U.S. pilots shot down three more Communist MIGs over North Vietnam today while just south of the demilitarized zone U. S. Marines suffered and inflicted heavy casualties battling North Vietnamese soldiers for a strategic hill.

As the Marines halted their advance into Sunday, tactical bombers and B52s dumped tons of explosives on the North Vietnamese positions.

The air war flared to a new intensity with 33 missions over North Vietnam and a record 57 strikes over the South.

Two U.S. Army helicopters collided over the Bien Hoa base, 15 miles northwest of Saigon, late today and all eight crewmen in the two craft were killed, a U.S. military spokesman said.

## Wild Tornadoes Shock Midwest; Weary Workers Hunt Dead

WASCECA, Minn. (AP)—Searchers probed through splintered rubble of homes smashed by tornadoes at Wasceca and Albert Lea today grimly looking for more bodies in the aftermath of a night of storm terror which left a dozen dead, over 100 injured and property damage in the millions at eight communities and numerous farms.

A band of possibly a half-dozen tornadoes snarled across a 50-mile-wide area of southern Minnesota around the dinner hour Sunday night.

The tornadoes roared upon them in the minutes after heavy rains and nearing dusk, which apparently prevented them from watching the skies closely.

Witnesses said the Wasceca warning siren began blaring a couple of minutes after the tornado had passed.

## MRS. SWOFFORD Demo Women Installation Set Saturday

Mrs. Lawrence Swofford will be installed as President of the Democratic Women's Club Saturday at Ouse's Red Breauhaus.

"It was horrible," exclaimed Mrs. Archie Draheim of Wasceca. "We were sitting at the dinner table eating when the picture windows hit me and my husband right in the face. There was no warning. There was this terrible rain falling and all of a sudden I was diving along the floor with glass all around me."

She and her husband were treated for cuts at a hospital and released.

Countless others were similarly taken by surprise, even though a tornado watch had been issued by the Weather Bureau for the area.

## Police Nab 5 In B & E Case

The arrest of five juveniles believed to have been responsible for a breaking and entering at the home of Eugene Schmidt at 1042 Hamilton Ave. on April 2, was reported by Longwood Police Chief H. B. Shinn today.

Chief Shinn stated cash totaling \$25 was stolen from the home at the time of the B & E. As a result of an intensive investigation conducted by Sgt. Robert Bailey, the youths were apprehended and will be turned over to juvenile authorities.

## Men In Service

Lawrence L. Jones, U. S. Marine Corps, of Columbus, who has been home on leave visiting his parents, Mr. and Mrs. Norman Jones of 380 E. Third Court, reported Sunday to the Marine Base in El Toro, Calif., where he will be attached to the Third Air Wing.

He arrived home April 5 from South Vietnam where he flew support for ground and air personnel aiding and assisting those in distress while attached to the First Air Wing in DaNang.

## Supersonic Jet Coming Of Age

Manufacturers waiting for months for the go-ahead from Washington to begin work on the construction of two prototypes of a supersonic jet airplane have been turned loose and told to get moving on the project.

The go-ahead came Saturday from President Johnson.

It was followed immediately by statements from the two principal contractors, the Boeing Co. and General Electric, that they were prepared to proceed swiftly.

# The Man And The Law

Winner of the annual essay contest, sponsored by the Sanford-Seminole Jaycees, in observance of Law Day is Miss Sue Makin, student at Seminole High School. Miss Makin, daughter of Rev. and Mrs. Thomas Blakin of the Church of the Covenant, was presented with a \$100 bond today for her winning essay, printed below.

All men are equal before the law. This fact is so familiar to us as Americans that we seldom think of its importance. All men whether rich or poor, well groomed or in rags, are equal in the eyes of the law. Before the law there is no distinction.

Not only are all men equal before the law, but all men come under the law. All men are guaranteed the equal protection of the law. For example, "The Bill of Rights" states the rights of the accused. Amendment 5 states that no man shall be held for a serious crime without an indictment of a grand jury. No man can be tried twice for the same crime. And no man can be compelled to be a witness against himself. Amendments 6, 7, and 8 go on to list other safeguards for the accused. These amendments are a part of the Supreme Law of the land and apply to everyone.

Every man is entitled to the free and equal protection of the law. No man is above the law. No man has the power, or the influence to put himself above the law. In this case putting himself above the law would mean being treated better than any other man. No man can buy justice, just as no man can sell it. Equal justice demands that no man no matter how rich or important he may be is treated any better than the next.

No man is below the law. A man may be poor, uneducated, and dirty, but he is still a man. He is still entitled to the equal protection of the law. Justice cannot be turned with riches. Justice cannot be bought or sold.

Judges, lawyers, and people who work with the law learn to love the law. The law is more than a means for punishing people. The law makes it possible for Americans to live together in peace and brotherhood. We should be thankful that justice is free to everyone. We should be thankful that no man is above the law, and no man is below it.

## Political Notebook

WASHINGTON (NEA) — Antidraft and antiwar marches are no special Vietnam war phenomenon. A study of old files makes it plain that the antiwar sentiment is not new.

An 1865 report from Brig. Gen. James Oakes, acting assistant provost marshal, part:

"One county of the 13th District (Williamson) was obliged to be enrolled for the draft in the presence and in by the aid of a company of cavalry."

"A military force had also to be sent into Fayette, Clarke, Cole, Morgan, Fulton and some other counties to enforce registration and a few men were killed and wounded on both sides before the disturbances were quelled."

"The most serious (draft registration) outbreaks occurred near Manchester, Scott County, 10th District, and at Charleston, Cole County, 7th District, to both of which places I was obliged to send a strong force, and many prisoners were taken and variously disposed of as provided by regulations and laws."

"Although but few actual collisions have occurred in the state, a bitter and dangerous temper has frequently been manifested and formidable combinations have existed in approved purpose of armed resistance to the enforcement of the (draft) laws... I am entirely satisfied that the presence in the state of the requisite military force was all that prevented the bloody culmination of their threats in many localities, if not a general and formidable insurrection, especially toward the close of the year 1864."

"The grand cause—the only really justifiable and formidable source of the draft—has to be found in the steady streams of political poison and rampant treason which have been permitted to flow from the wicked, reckless and delusional newspaper press of the state. But for this, the enrollment and draft would have passed off with scarcely a ripple of disturbance... The government is established to defend the innocent and the guilty. The purpose of the government is to protect the innocent and to punish the guilty. It is not to punish the innocent and to protect the guilty."

## Analysis Of The News

WASHINGTON (AP) — A plan to blackmail one of the parties into accepting your views? Wallace hates on the man for conservative candor and party platform.

Wallace denied any thought of blackmail but earlier this year announced that if the two national parties don't swing around and fix their course in 1968, he would be proaching the conservative cause from coast to coast.

When he ran in 1964—that is, before he dropped out of the race—he said his purpose was to "conservative" the two big parties and, if he could, force them to win by the way of a pro-Southern bargaining position.

Wallace withdrew from that race after the Republicans nominated Sen. Barry Goldwater. This might have been interpreted as meaning Goldwater was conservative enough to suit Wallace. But he didn't endorse Goldwater.

And something else might have influenced him to pull out. A number of his supporters began to desert him for Goldwater, thus facing him with the possibility of a Wallace-Republican split that might leave the Democrats with a majority.

The former governor, 47 and a segregationist, says "I am not against the policy of non-discrimination," explaining he would not advocate segregation in any state. But he thinks Alabama's public schools should be segregated.

When asked if he became president whether he would advocate repeal of the civil rights laws on the books, Wallace said he would advocate modifications and in the best breath said he would advocate some repeals.

He complains repeatedly of federal interference with what the states want to do with their domestic institutions.

So, since practically all of Alabama's school superintendents were trying to meet federal requirements to desegregate, he was asked why his wife, Lurline Wallace, Alabama's present governor, is telling them not to do that?

Dick's this means he is using the very kind of force he doesn't want the federal government to use? Wallace went into a long, sprawling answer which seemed to say the local sundries of a state should not be compared with the states and the federal government.

Mrs. Wallace, whose husband is her No. 1 adviser, on March 30 asked the Alabama Legislature for power to take over the schools as one step in a defiant plan to resist a three-judge federal court order to integrate them.

The only reason Mrs. Wallace ran for governor was because the law didn't allow her husband to run again. But on the day she announced she would run, her husband said, "I will dictate the policies" and "both of us will be governors."

This sounded all right to the voters of Alabama who gave them a big victory.

## Dr. Crane's

### Worry Clinic

Donald's father is an accident-prone fellow. He is usually around in profane and profane obscenities. For parents usually stumble around in profane and profane obscenities. For parents usually stumble around in profane and profane obscenities.

"He said he shot in their direction and scared them away."

"But he then decided to investigate to see what had caused their fighting."

"So he went over behind the house and he saw that he found me, as a baby."

"Well, Dr. Crane, I believed him implicitly, at least till I was in Junior High School."

"Then I began to get additional sex information from my classmates which made me feel that my father had tricked me."

"This curiosity really motivated my high school sexual escapades."

"As a result of them, I contracted venereal disease and now I am paying the price, heh-heh-heh."

"For I married a lovely girl and would be ideally happy except for the fact I am sterile."

"So we are childless and my wife is growing neurotic because she thinks she is not a blame."

"Dr. Crane, why don't parents tell their children the simple facts of life and do it early?"

Parental Ignorance

Donald's tragedy is based on two glaring types of ignorance. First is the simple uneducated curiosity that is normal in all intelligent youngsters.

For they go through an early phase wherein they wonder about the origin of things. But the second type of ignorance is that of parents who don't know when and how to inform youngsters.

## Hal Boyle Says:

NEW YORK (AP) — Jumping to conclusions is one of our most common sins. It is one of our most common sins. It is one of our most common sins.

"It's getting harder to win arguments in spelling. Every goes by his own dictionary, and the dictionaries disagree. Why don't all the dictionary-makers get together and agree to agree, at least on the common words?"

Bovlers drink more beer, smoke more cigars, and have more fun and children than golfers do. They are also likely to be more honest about their gains.

"We'll find it easier to believe in a better world whenever television puts on a successful opera, a short character who lead happy lives. As it is now, many women who watch these shows feel frustrated because their own lives are so normal they are bored to tears."

"The chances are one in five that the next fellow you meet will have a good luck silver dollar in his pocket or in a drawer at home—and that's one reason they are becoming so scarce."

"It's generally safe to lend money to a man who returns a ball point pen he has borrowed from you."

"People who are content to drink hot coffee from paper cups regularly probably never expected very much from life anyway."

"God, of course, is not dead at all—or even in bad health. But there do seem to be more ministers going to psychiatrists for help than there are psychiatrists going to ministers. Man is just more myopic toward deity."

Half the pretty young girls who carry loud boxes along the streets here do so in the fond hope that they will be mistaken for fashion models.

### Deltona Organ Club Enjoy Get-Together

Deltona Organ Club met at the Orange City home of Mrs. and Mrs. James Polhamus. Several members enjoyed a swim in the pool while others gathered about the organ for the regular evening of talking part in music and singing.

Many of the members have interesting musical backgrounds. Such is the case of Mrs. Polhamus, hostess. Her father was president of the Music Society of Newburgh, N. Y., president of the Musicians Union for many years, plus several other notable connections in the world of music.

## Sen. Russell Long's Lonely Road

WASHINGTON (AP)—The consensus around the Senate is that in opposing the censure of Sen. Thomas J. Dodd, Sen. Russell B. Long is following a lonely road with dangerous political crossings ahead.

No other senator, Democrat or Republican, has stepped up yet to say that Dodd, D-Conn., should not be censured for misconduct as recommended unanimously by a special Ethics Committee of six.

In his Spartan stand for his beleaguered colleague, Long, D-La., has slashed out with a broad sword at members whose support he is likely to need in the future in his varied and often complicated enterprises as the Senate's assistant Democratic leader and chairman of its Finance Committee.

Long's offhand observation that if the senators couldn't stand the kind of inquiry that was made of Dodd was generally regarded as an example of how to make political enemies without even trying.

He left undisturbed the hall he was indicating and the half he was absolving, thus clouding every individual member except possibly himself. He explained that his daddy, the late Huey Long, had left him enough money so he didn't have to worry about outside financial money-shines.

He could afford, he said, to take the Senate in stride as "my favorite charity."

Long said the six special committee members were afraid that if they didn't bring out a censure resolution against Dodd they would be subject to "the same kind of calumny and smear" to which he said communists had subjected the Connecticut senator.

Members of the committee, headed by Sen. John Stennis, D-Miss., are regarded around the Senate as men of more than ordinary patience and forbearance. They include also Sens. Wallace Bennett, R-Utah; Eugene J. McCarthy, D-Minn.; A. S. Mike Monroney, D-Okla.; John Sherman Cooper, R-Ky.; and James B. Pearson, R-Nash. Long's thundering charge that the practice of which Dodd is accused—appropriating testimonial dinner and campaign funds to personal use—is "all too prevalent" in the Senate touched a highly sensitive political nerve.

### Classes Slated In Chuluota

Greater Chuluota Community Club again this year will sponsor swimming classes for members of the club and their children. Teacher will be Mrs. Virginia Chadwick, qualified water safety instructor.

An adult beginners class is slated to get underway at 2 p.m., May 15, for a two-week period and will be the only adult class offered this season. Children's classes will start the Monday after school is out. Those enrolling must already have completed the first grade in school. Classes will be from 2 until 5 p.m., Monday through Friday, for a two-week period.

Tentative schedules are beginners, 2-3 p.m.; advanced beginners, 3-4 p.m., and intermediates, 4-5 p.m.

Application blanks are available from Mrs. Chadwick and members are urged to register their children as soon as possible since size of the classes are restricted and students will be taken strictly on a "first come, first serve" basis.

### Round-Up Set In Lake Mary

First Grade Round-Up at Lake Mary Elementary School will be May 18, starting at 9:15 a.m., Principal Morris M. Ruby has announced.

Children entering school for the first time next term must be six years old on or before Jan. 1, 1968. Parents should bring birth certificates to be checked and returned that day. Physical examination forms will be available and must be completed and returned to school before the child enters next August.

Children are invited for the round-up and will be cared for by first grade teachers in the classroom and taken on school bus ride around the area. Parents will fill out necessary forms and hear talks by a county health nurse and first grade teachers.

## Home Society Meets

The Central Florida Division of the Children's Home Society, a United Fund Agency, was represented at the annual meeting in Jacksonville Friday by George Toshy, division president, Mrs. Tony and Mrs. Ruth Lantz, Casselberry, Division Executive of the Society's office in Orlando.

The over 400 attendees at the luncheon and election held at the Robert Meyer Hotel placed Ray E. Boston, Miami banker, in the president's chair, were enthralled by the address given by the Right Reverend Hamilton West, Bishop of the Episcopal Diocese of Florida, heard the report of last year's services as presented by Executive Director, Anton Vick and learned that couples seeking children for adoption now were in a favorable cycle for early fulfillment of their requests.

The next meeting of the Executive Committee of which Tony is a member met both before and after the memorial luncheon. They approved the new interest-free division at Fort Lauderdale, expanding the service in that area and that an "exploding" population is demanding.

The next meeting of the Executive Committee at the invitation of the Central Florida Division will be held in Orlando in July.

## Voters League Meet On Local School Needs

The Provisional League of Women Voters of Seminole County began an intensive study of local school needs and the means of financing them at a committee meeting held recently at the home of Mrs. Charles Tetenbaum.

The study of schools which is a part of the League's broad study of local government is being done in cooperation with the County school officials to make available to the public the fact and figures concerning our school situation.

The members during the next few months will do research on local school needs of today and the projected needs of tomorrow, on the ways to financing these needs through a study of the County school budget and the sources of revenue. Future plans of the committee include a visit to present schools and proposed sites and a telephone opinion poll concerning school financing.

Those attending the meeting were Mrs. James (Sarah) Halderbeck, Mrs. Carson (Ruth) Blue, Mrs. Don (Evelyn) Hales, Mrs. Elso (Mary) Caponi, Mrs. Harland (Jean) Goplen, Mrs. James (Bevelyn) Murphy and Mrs. Charles (Arlene) Tetenbaum.

The next meeting of the School Study Committee will be May 8 at 9:30 a.m. at the home of Mrs. Blue in English Estates. It will be open to anyone interested in local school problems. Please contact Mrs. Tetenbaum at 222-3311.

# Van Sciver-Vose Engagement Announced

Mr. and Mrs. George Van Sciver of St. Petersburg announce the engagement of their daughter, Miss Laurel Van Sciver, to James Everett Vose III, of Sanford.

The engagement was informally announced to 83 friends and relatives at a cocktail and dinner party in the garden of the Van Sciver home. The bride-elect is the niece of Mr. and Mrs. Harvey Sternigan of DeLand, who were guests from Central Florida, as were the parents of the groom-elect.

Miss Van Sciver was born in St. Petersburg. She was graduated from Northeast High School where she was a member of the varsity swim team for three years and was elected to the National Honor Society in her junior year.

She attended Vanderbilt University, Nashville, Tenn., for one year and was on the Dean's List. She is presently attending Florida State University where she continues to be on the Dean's List, and is a member of Pi Beta Phi social sorority. She will graduate in August with a B. S. in Nursing.

Mr. Vose is from a military family, being the son of Captain (U.S.N.) Ret. and Mrs. James E. Vose Jr. of Sanford, and the grandson of a pioneer in Navy submarines, Captain (U.S.N.) Ret. and Mrs. Palmer H. Dunbar of San Diego, Calif. He also was in Bremerton, Wash., attended high schools in Alaska and California, and was graduated from The Sevens School, Severna Park, Md. He received his B.A. from

MISS LAUREL VAN SCIVER

Stetson University in 1963, where he was a member of Delta Sigma Phi and Beta Beta Beta, honorary biology fraternity. Following his military service he taught for one year at Lake Mary School. He is presently attending Florida State University where he is a candidate for an M.S. in Public Health.

The wedding will take place in late summer following their August graduations.

## "Candid Chatter"

she has been living for the past nine months, after joining her husband, Sp. 4 Michael A. Korgan, who is stationed at Würzburg, Germany.

Aside from having so much fun, Jan is very active in community and church affairs. She was recently elected president of P.W.O.C. Protestant Women of the Church.

Following World War II, dependents of the Armed Forces in Europe began arriving over seas in large numbers. Chapel groups for women were organized in many places to assist the chaplain in plans for a well-rounded religious program and to promote Christian fellowship and spiritual growth among the members.

Jan is also organist for two churches. She attended the Protestant Music Institute for church music leaders in Berchtesgaden, Germany. While there she went on sightseeing guided tours to the mountain tops, to beautiful Lake Konigssee, to the Austrian city of Salzburg and other points of interest.

"The Sound of Music" was filmed at Salzburg and she saw that film at all places from the three junior hostesses, SANDI DAVIS and MARCIA COLEMAN, who received 100-hour pins, and LINDA BROWN, who was presented with a 200-hour pin.

Any interested young women may phone Mrs. Washburn, 322-4712, and she will give you all the information.

WILLIAM E. JOHNSON, son of the CHH Johnsons, was commissioned a second lieutenant in the Army upon graduation from Officers Candidate School, Fort Benning, Ga., March 30. Bill was graduated from Seminole High School and Florida Southern College, followed by his enlistment in the army. He had basic training at Fort Jackson, S. C., before attending OCS at Fort Benning where he presently is assigned to the Adjutant General Corp. He and his wife, the former Lina Towles of Lakeland, now reside in Columbus, Ga.

### SHS Choristers To Present Annual Spring Concert

Seminole High School Choristers, under the direction of Mrs. Jennifer Kelley, will present the annual Spring Concert, May 11, at 8 p.m. in the school auditorium.

The program will include selections from Broadway shows, students award winning songs, and hit songs of the day. Featured will be the triple trio quartet and mixed ensemble. This performance also will include the appearance of a combo composed of Eddie Broadway, John Rick and Mike Filion. Accompanist for the first portion of the program will be John C. Allen.

Mrs. Cathie Stowell is stage manager and C. J. Bass will be in charge of lighting.

CRUSH MARKS To restore a crushed or matted spot on your carpet, try a steam treatment. Hold a steam iron above the spot - without pressing the iron down on the carpet - and steam for a few seconds. Then brush the pile neatly with your fingers. This is a good remedy for pressure marks left by heavy furniture, too.

### SIDE GLANCES By Galbraith

"Funny thing I've noticed lately: Weekends aren't what they used to be, but Monday's are!"

Oh, I shudder, absolutely shudder, about what Susan B. Anthony and Emmeline Pankhurst would say today. After all they did to emancipate women and now women refuse to speak for themselves. I've heard all the talk about women controlling the finances of the nation in the States, and I've read those comics where artists insist upon making father into the funny figure while mother runs the whole show. The insurance companies say women even live longer than men. In India, the governor vetoed a bill, his feet planted solidly on "moral grounds."

I watched a television program recently and there sat these erudite gentlemen—philosophers, doctors, a lawyer and a judge. They were discussing abortion laws.

Well, they talked about morality and they got onto mental health and physical fitness and their conversation wandered about, touching here and there on the civil rights of a fetus.

They showed off their fingernails and eyelashes are formed, and they tossed around such terms as embryonic and sperm cell and, and they talked about rapists and impressed each other with Biblical references to incest.

As a matter of fact, in their mending they got completely off the subject at hand and a feeling it is NOT a woman's world and that we're not becoming a race of Amazons. (I'm not blaming fathers and husbands are concerned, I have the suspicion that the only men hooked by wives and ridiculed by children are the ones asking for it.)

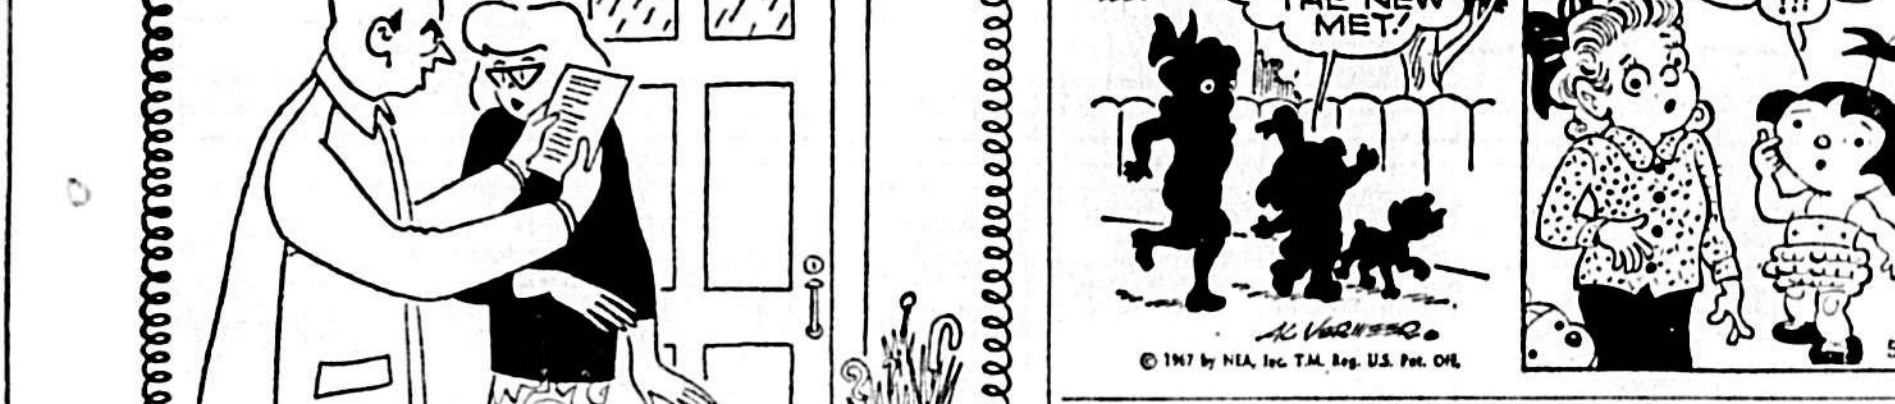

However, back to the suffragettes. Here the nation in a turmoil over birth control and proposed new abortion laws and I'm wondering why the only voices were not those to man.

I watched a television program recently and there sat these erudite gentlemen—philosophers, doctors, a lawyer and a judge. They were discussing abortion laws.

### We The Women By BETTY CANARY

Personally, I'm inclined to think that if a woman becomes the victim of a maniac, she should be granted the privilege of deciding whether or not she cares to bear his child.

Anyway, I think it is simply grand the way churchmen and politicians and doctors concern themselves with criminals and babies. When are we going to bear concern for the women?

As a matter of fact, in their mending they got completely off the subject at hand and a feeling it is NOT a woman's world and that we're not becoming a race of Amazons.

However, back to the suffragettes. Here the nation in a turmoil over birth control and proposed new abortion laws and I'm wondering why the only voices were not those to man.

### County 'Holds Off' On \$3 Million Issue

The County Commission today held off action proceeding with a \$3,000,000 bond program for needed rights-of-way pending the word from the State Road Department on what primary projects would be included in the five-year program.

The board agreed to contact Willard Peebles, State Road Board member, of the status of the program before going ahead with any rights-of-way projects.

However, Peebles, at noon today the Herald that SR 46 from 14 1/2 west to the Lake County line, SR 46 from 14 1/2 to the Orange County line and SR 41 realignment for a new Osteen bridge was "definitely" in the five-year program.

The SRD informed commissioners by letter today that costs of rights-of-way for SR 46 would run to \$85,000; SR 436 rights-of-way, \$230,000 and SR 415, \$30,000.

Right-of-way costs for other projects were included in the letter which totaled \$1,883,000.

At the meeting this morning, both John Fitzpatrick and Ed Yarborough wanted to wait on the bond issue pending finalization of the road program expected in June. However, they were outvoted and the board agreed to contact Peebles, Commissioner Lawrence Swoford rapped the board for waiting so long.

"Every day we delay, the longer Seminole County will suffer," Swoford said.

Costs of other rights-of-way projects included were:

- SR 46 Mellenville east to the proposed Osteen Bridge approach, \$125,000; SR 425-SR 419 to S-427, \$120,000; SR 419-SR 420 to SR 425, \$65,000; SR 420-Orange County line to SR 419, \$100,000; University Road-Goldenrod to State University via SR 426 and Orange

### Oviedo Set To Purchase Water System

The Mead Garden water system owned by Central Florida Utilities Inc. will be purchased by the Town of Oviedo for \$14,254,400 as soon as perpetual agreements with present users are terminated by the utility, the Oviedo Town Council decided last night.

Councilman Robert Ward was authorized to seek the termination of the utility in order that final papers work on the purchase can be speeded up.

When the new \$600,000 water system for the town is completed, the Mead Garden system will become part of the Oviedo municipal waterworks.

In other business, the board: Agreed to pay \$225 as the town's share of the comprehensive plan for the city's growth which is being done by the Florida Development Commission. The federal government has already given a grant of \$3,550 for the project.

Heard announcement by G. Alcorn Spoor, town attorney, that validation proceedings for the bond issue for the water system will take place May 25 with Circuit Judge Vassar Carlton presiding.

Named a committee to consist of Councilman T. L. Lingo Jr. and Mayor Lee Gary to have the Doctor's Drive right-of-way surveyed south of the Seminole Housing Authority.

Gave B. Ward permission to clear the "big" of way at the south end of South Lake Jessup to Mitchell Hammock Road.

Discussed possible purchase of a new truck for the Fire Department with Lingo to submit a recommendation by the next meeting.

### For Port Legislation A 'Trade' Of Votes

Tallahassee sources told The Herald today "a lot of vote-trading in smoke filled rooms" will be necessary before the Port Authority main bill is introduced and its passage assured.

The major bill calls for guarantee of \$60,000 from race track funds for the Port Authority to insure construction loans.

Sources say the bill has the full backing of the Seminole-Orange legislative delegation but that it has not been introduced, as yet, awaiting a favorable time to "make a deal" with the big county bloc.

It also was reported the delegation will kill the county's minimum housing bill and the bill calling for creation of a local government study commission.

The reason given for the death of the local government study commission bill is that with expected passage of the new constitution, home rule will be assured.

Sen. Robert Elrod and Rep. John Ducker stated opposition to the minimum housing bill during the legislative hearing here. The revised version of the bill, apparently, still was not acceptable.

### Sanford Male Chorus Concert Slated May 15

Sanford Male Chorus, under direction of Robert Carnie of Delray, will present its annual concert at 8 p.m. May 15, in the Sanford Civic Center with Richard Westworth Holtzclaw, noted Sanford baritone, as guest soloist. Mrs. Bettye Smith of Sanford is pianist.

Carnie and Mrs. Smith, who have been with the chorus since 1906, have seen it increase from seven men to its present 32 members.

This year's concert will present a mixed program of sacred and secular music selected to suit all tastes.

### Day Mr. Firestone Came To Sanford

By STAFFORD DEBBY  
 Great things are in store for downtown Sanford if the purchase of the Strickland-Morrison properties on First and Commercial streets by Russell A. Firestone Jr. can be taken as a token for the future. In an interview with this reporter the new owner made it unmistakably clear that he sees possibilities which will continue the progressive steps already taken in the march ahead by Sanford. The sale was consummated yesterday afternoon with Douglas Stenstrom of the law firm, Stenstrom, Davis and McInnis, representing the buyer and A. Edwin Shilholzer of Shilholzer and Logan, representing the seller. But the prime move in this was Ernest Southward, a man of whom Firestone spoke with confidence and respect, and William Kirk, who will be in close touch with the development of these properties.

What precise form this new construction will take is not yet definable. But Firestone did not deny an earlier statement to the gathering of business and professional leaders who met him at a reception when he told them that he would be in town frequently, hoped to know all of you by the first name" and was delighted at the opportunity.

The name Firestone is, of course, well known to Sanfordians. The new owner, however, is not. But he will be. In our conversation the early years when he was a little boy and remembered the great trio of Americans who changed the life of our era were recalled. There was Thomas A. Edison, who was but faintly remembered; Henry Ford, who was much clearer and his own grandfather Harvey A. Firestone, the pioneer tire maker. Thus there comes into the economic life of this city a man whose family-line is identified with keen business judgment. As a matter of fact, Russell Firestone came here from a trip to Hong Kong where he had the responsibility of inspecting an apartment complex of about 12,000 units.

The new owner is not a stranger to Florida or Sanford. And he is especially enthused over the possibilities in this county. He expressed appreciation of the way the lakefront is coming along, the progress of the marina and the start of construction on Holiday Inn. With a smile he noted that he also was interested in breeding horses and referred to this area as a good one for that sport.

But this was not a man who would go it alone. Local situations need local knowledge to be handled expertly and with good results for all concerned. And this is what Firestone is most desirous of accomplishing. "It would like to do what I can for the people of Sanford and this county. We will move ahead as we are sure that what we are doing will be to the best interests of all."

The business and professional men who met Firestone at the buffet lunch in Jim Spencer's restaurant were those who have been working to bring Sanford into the mainstream of business and economic activity. In talking with some of them it was evident that this move of Firestone was accepted as the third of their recent important developments.

These are the announcement of the Win Drive expansion on the block east of Sanford and First Streets, the ground breaking for the motel on the marina and now the presence of the Firestone name being injected into the Sanford area.

### Forest Fire

MIAMI (AP) — Tinder dry Pulk County, heartland of Florida's drought-ridden peninsula, today reported its biggest fire of the season. Flames raged through 1,500 acres of planted pines.

The Governor Kirk today appeared to be far different and changed than the Candidate Kirk prior to last November. Candidate Kirk was a jovial, handshaking, smiling campaigner, with a word for all. Governor Kirk is a sober, formal, sometimes somber Chief Executive.

He appeared tired but this could be credited to the fact that he had been in New York state, fighting Gov. Nelson Rockefeller about a gas pipeline into Florida, and had flown into this Capital City late Sunday night. He said he had had little sleep when he greeted us for his first appointment of Monday, at 9:30 a.m., when our appointment was for 8 a.m. (We waited in his outer office as his aides from time to time asked us to be patient, that he was having breakfast, that he was just leaving the Governor's mansion, that he would be here shortly. What with the first working day under Daylight Saving Time, we had to postpone breakfast until after the interview . . . and it was a long 90-minute wait, without even coffee to bolster up a building appetite.)

Paul Jenkins is no longer associated with the County Humane Society. He resigned!

Let's hope the Civil Service Board remembers it's a fact-finding board on the Joe Hickson case and not sitting as a tribunal.

Dr. Mellon Park swimming pool holding water. But will the city put that dutchman on the payroll that's got his finger in the hole.

Sixty-eight building permits issued in the city last month. For a total of \$24,313.

Did "The Sounds of Darkness" get a raw deal at the Lake Mary talent show? More on this later.

GOV. CLAUDE KIRK

The Governor replied that any road planning for Seminole County is entirely in the hands of the State Road Department. He commended Willard Peebles, of Wildwood, the Democratic holdover on the State Road Commission for this district. Water and air pollution, he said, is a matter to be taken care of from the state level.

The Republican Governor was asked if the state administration plans to assist in any way in bringing about successful fruition of the planning for the St. Johns-Indian River Canal, a waterway designed to open the St. Johns River to round trip boat traffic to the Atlantic Ocean. He was noncommittal in his reply to recall the Legislature had approved \$50,000 for the construction . . . but that work was halted before it was started when the War Between the States was opened in 1861. Governor Kirk indicated that later this month . . . "because of the Legislature now being in session" . . . he will re-institute the social events inaugurated by his predecessor, Haydon Burns, to raise money for scholarship funds for deserving students. He said the first event is planned for late May in Miami but he was uncertain when the Central Florida event would be held, or where. In fact, he said he knew of no plans now for his appearance in Seminole County in the near future.

PRINCIPALS IN the Firestone-Morrison real estate transaction are (l to r) William Kirk, developer; Russell A. Firestone Jr., purchaser; W. A. Morrison, seller; Ernest Southward, real estate developer. (Herald Photo)
