

SANFORD CURB MARKET TUESDAY AND SATURDAY OF EVERY WEEK NOW

SANFORD SHOULD TAKE UP THE BASKET IDEA

The curb market has again opened in this city much to the gratification of those people who want to purchase the fresh vegetables and other products right from the farmers themselves and much to the gratification of the farmers who at this time of the year have the time to come to town with their vegetables and find that they can sell much of their stuff here that would otherwise be left in the fields.

Sanford was one of the first cities in Florida to start the curb market idea and the market here flourished last summer, only stopping when the dry season of the winter and the busy season of the farmers kept them from bringing the vegetables to the market.

The idea has taken root in the minds of the people of other cities and now Orlando, Miami and other cities have taken it up this season with remarkable results. This is in line with the government's idea of food conservation and the curb market will at all times have the sanction and the assistance of the food administration and the farmers who want to bring their fresh vegetables to Sanford will find that the people here are with them and that they are assisting the government when they come to town market.

It is hoped that the people coming to Sanford will increase in numbers and that not only fresh vegetables but butter and eggs and cheese and everything that can be raised on the farm will be brought in to market. All of it cuts down the high cost of living and that is the principal idea of the curb market. The market days are Tuesdays and Saturdays about seven in the morning and lasts until eleven. Come out, you Sanford housewives and bring your baskets.

Death of Geza Takach
Geza Emanuel Takach died at Rodman Wednesday after a year's illness of hemorrhage of the lungs. He was born at Eperes, Hungary, 43 years ago and at the age of nine came to this country with his parents, moving to Longwood and afterward coming to this city where he spent most of his life. He served in the Spanish war as a member of Co. B 104 Light Artillery and for many years was engaged in farming in this section afterward moving to Rodman.

Deceased leaves a wife and three children, mother and father, Mr. and Mrs. G. L. Takach, two sisters, Miss Arapka of this city and Mrs. E. Molnar, of Gainesville, three brothers, Karl, Frank and Julius of this city.
The funeral occurred from the home of his parents yesterday morning, Rev. O'Riordan of the Catholic church officiating, the interment being made in Evergreen cemetery. The pall bearers were Messrs. Rapp, Keane, Hoolehan, Hogan, Wathen and Shell. The sympathy of the many friends of the deceased and of the family goes out to the bereaved relatives.

WILL HAVE RIFLE RANGE

Seminole County Guards Expect to Become Sharpshooters
The Seminole County Guards expect to become crack shots if the plans of Capt. Dinglee and the officers of the company are put into effect. Recently a fine rifle range was offered to the company near Longwood by C. W. Entzinger, member of the board of county commissioners and himself a member of the company in the Longwood squad. This range is just what the boys want for a camp having a clear water lake on it for bathing and will make one of the real rifle ranges of the state. The Guards expect to make many improvements on the range at once and the Sanford contingent is making preparations to take a day off, like to the rifle range and spend the day there in regular camp style. They will be

joined there by the squads from other sections of the county and the boys will have some regular camp life, guard duty, rifle shooting and all that goes with real military life.

Many of the members of the Seminole guards are already thoroughly familiar with the Winchester carbine used by the company and are good shots and their scores at the rifle range will make the rest of the state sit up and take notice. Since this is the first time the boys will have a chance of firing their rifles and testing them out on a real range the event is anticipated by all of them and the day off in real soldier style will be a great relief to their lives. It is probable that the range in time will become a most popular camp picnic grounds where the soldiers boys will gather at various times.

FROM MOTHERS SPENCE

Writes Letter to the Methodist Sunday School
Dear Mr. McCall:
I received the little gift of the class quite some time ago, but I have just found who sent it but better late than never. I wrote mother to find who sent it since she wrote to me I haven't had time to write.

It sure makes the boys feel fine to be remembered by the folks back home and it makes us go to our work with more vim than ever, especially to be remembered by the Sunday school and church.

I have just returned safely from my third trip to the other side and I am beginning to feel as safe on the water as I would feel back home in Sanford, but now would I prefer any place that I have seen yet to dear old Sanford.

Let me thank you again, and the class through you for the fine paper and outfit that has been so useful to me.

Please remember me to all the folks at home to the Sunday school which I hope to be a member of again before long.
Sincerely,
Chris H. Spencer.

U. S. S. Lovin

Two Good Sermons at Temple
The program for the Baptist Temple Sunday will be an interesting one. Mr. Massey, the pastor of the Baptist church, will be the subject of the subjects. Knowing the preacher as we do we can say that the subjects denote something out of the ordinary in the way of success.

In the morning hour Mr. Massey will use as his subject "The Changing Fashion." No doubt the various fashions will be given in a living word picture, as the pastor is most capable of doing.

In the evening the subject "The Surprises of Life" will be used. Some excellent surprises are doubtless in store for those that are to make up the congregation for the evening.

Aside from the sermons the choir leader announces some splendid music and a delightful song service.

Maybe Government Carrier Pigeon

C. C. Woodruff was attracted by the fall of a pigeon in his yard yesterday and going up to the bird found it exhausted seemingly by a long flight. He picked it up and found a leg band on it and knowing that the government was using these pigeons for carrying messages thought that perhaps the officials should know of it and brought it to the Herald office. If any brown carrier pigeons are missing from any of the government stations in Florida let the Herald know about it and the pigeon will be returned to them.

Volusia county is preparing to do considerable road building during the summer months, so that when the tourists come back next winter they will find travel mighty pleasant and convenient over the entire county.

SEMINOLE GOES OVER THE TOP

SUBSCRIBED MORE THAN QUOTA LAST SATURDAY

While other counties are bemoaning the fact that they are still fighting to get over the top tight little Seminole county has her flag meaning that she has her quota of the Third Liberty Bond Loan.

Chairman Forrest Lake announced last Saturday night that Seminole had more than her quota and he wired this good news to headquarters and not only has Seminole her quota but this county has gone over the top.

SEMINOLE GOES OVER THE TOP
The county has subscribed more than her quota of the Third Liberty Bond Loan. The county has subscribed more than her quota of the Third Liberty Bond Loan. The county has subscribed more than her quota of the Third Liberty Bond Loan.

SEMINOLE GOES OVER THE TOP

These agencies are asked to make a report at the close of business each Saturday night to the county chairman showing the number of Thrift and war savings stamps they have sold for the week. This report will be published each week in The Herald. It is hoped that each agency will endeavor to sell more stamps than his neighbor and thereby keep up a lively interest in the savings game.

Mrs. R. Goodspeed arrived yesterday from Jacksonville and will be the guest of her parents, Mr. and Mrs. P. M. Elder for several days at their home on Oak avenue.

OVIDEO JOINS IN SEMINOLE R. C. CHAPTER

ALL MEMBERS WORK TOGETHER UNDER RED CROSS BANNER

Upon invitation from the Oviedo Chapter, A. R. C., the extension committee of Seminole County Chapter met with the Oviedo Chapter Wednesday, April 24th and were received most cordially.

Amalgamation with Seminole County Chapter was discussed, it being the wish of the Bureau of Development of the Southern Division to enroll all cities and towns within the jurisdiction of a county under one chapter.

DIFFERENTIAL RATES OF WATER AND RAIL WILL NOT BE ALLOWED

WANT TO BRING WATER RATE UP TO RAILROAD

Through its board of governors the Sanford Board of Trade, several days ago filed a protest with Regional Director of Railroads C. H. Markham, Atlanta, Ga., against the withdrawal of differential rates between water and rail carriers. In this protest it was conveyed to the government through Mr. Markham, that our organization would not even attempt to protest anything that was essential to our government, but from experience and conception the belief was ever present that such a move was not wholly governmental and not one at the time needed. It was pointed out that basing our present water rates to a rail standard would almost eliminate water carriers in and to this state because of the speedier transportation by rail and since Florida, because of its coastal advantages was greatly favored by water rates it would be ruinous to the business of this state to make the contemplated move. It is to be appreciated that we have an organization that is always alert to these moves and one that is able to meet such emergencies and combat them for the benefit of our citizens and freight receivers. A move of this sort would compel higher prices in all necessities because of advanced rates. Following is the official circular sent out by Mr. Markham:

Atlanta, Ga., April 16, 1918.
Circular No. 121
Differential Rates
Via Rail and Water Routes
Because of the difficulties and expense involved in commandeering ships and otherwise maintaining steamship service, it is expected to issue, within the next few days, instructions promptly withdrawing all differential rates via rail and water routes, and generally placing the rail and water routes on all rail basis of rates. Your traffic representatives should extend this advance information to interested commercial bodies along your line.

C. H. Markham,
Regional Director.
Tampa and other Boards of Trade have issued formal protests against the withdrawal of these differential rates and because of the apparent insufficient grounds for such an action it is believed that our protests will be sustained.

Presbyterian Church
A rather unusual condition was noticed at the Presbyterian prayer meeting last Wednesday night. There were nearly twice as many men as women. The women are preparing to seek to make a decided change in attendance next Wednesday night.

Sunday school begins at 9:45 Sunday. We have noticed a tendency to sleep through Sunday school time by some of our scholars since the change in time. We urge a hearty support to the Sunday school at this hour. It actually is no nearer sun up than the school meets in the winter.

Preaching services will be held at 11 a. m. and 7:30 p. m. There are simple gospel services designed to help people in the stress of everyday life. We give a most cordial welcome to all who will come.

Death of Augustus Sammis
Augustus Sammis died at his home on Celery avenue yesterday at noon after an illness of several weeks of acute Bright's disease. Mr. Sammis was born in South Norwalk, Conn., Sept. 23, 1864. He spent the greater part of his life at his birthplace, coming to Florida about 1896, afterward coming to Sanford some fifteen years ago and resided with his brother, W. E. Sammis.

He leaves one brother, W. E. Sammis of this city and one brother, T. A. Sammis of Indianapolis to mourn his loss. The funeral will occur from Miller's Chapel today at 3:30, Rev. Arthur Searing Peck officiating. Interment will be made in Lakewood cemetery.

April and May Red Cross Dues
There are over 100 names on the Red Cross Membership Roll whose dues were payable in April, now passed, and there are about fifty due in May. It would save time and postage if the members will make their renewals at once to the secretary, Mrs. R. A. Terheun, 206 Elm avenue (phone 293-J) who will send membership certificate upon receipt. New members are earnestly solicited.

The Shaver Canning Company at Plant City will be ready to handle vegetables or beans and tomatoes when the products are ready. J. T. Baird, member of the company, and who has been supervising the installation of the new machinery and other equipment for the plant has everything set except the boiler and the bean cutter, which will, it is expected be in position within ten days.

GROWERS WILL ORGANIZE
The Sanford growers and the Manatee growers will organize at some date in the near future. The discussions over this most important matter are having their effect and every grower in this district knows that he should join the organization and know the benefits of the same.

The growers of this section want an organization for the growers and one that will be for the growers all the time. It is not a question now of who will handle the stuff. If a guaranteed pack is assured backed by an organization there will be plenty of firms in the United States willing and ready to market the stuff at a good figure.

Roper Writes of Navy
The following letter from L. F. Roper to Mrs. Ferguson will be interesting:
Charleston, S. C., April 20, 1918
Dear Mrs. Ferguson:—Just a few lines from me this morning. I was transferred from Key West the 6th inst. Had a nice trip coming up. Have a nice boat and a new one just put in commission. Like it fine. Think it will be in shape to go across to the war zone now soon and allow me to say we are all anxious to get over there and help on

this dreadful war. It seems as if every available man in the dear old U. S. A. will have to take part, if not in battle in many other ways and if they haven't realized it it is time they were waking up for victory we must have but many, many hardships have we to endure before the end. Now if the navy isn't the chosen life I know not what to look for. We are always footing on expectation and always try to be prepared for any emergency. The best feature about coming from Key West up here is getting up in the morning at five o'clock almost same as three o'clock down there since the new time has advanced another hour. Now all I have to do every day, Mrs. Ferguson, is cook breakfast, dinner and supper, did you ever try it? Well, I'll certainly appreciate the lady's duty about the home when I get out of this navy. I was chosen as cook shortly after I joined the colors and that has been my duty ever since. It is not so bad as I have only twenty-one men to cook for and have two second class seamen to help me, so you see my work is quite easy. No dish washing is mine. Cooking is enough and let me say "I am some cook," so the boys say, and they are liable to say anything, thinking I will do better next time and they always eat what I give them, so that is encouragement.

We have a fine crew of men and two good officers. I like them all and they seem to like me, for the cook seems to be favored more than any one on the boat. But you know I was the baby at home and must be well treated here. Now my room is a peach—have electric lights, good writing table and one of the best beds I ever slept in—almost keeps my eyes from opening at 5 o'clock every morning, and the captain claims that he is going to get me an electric fan, if so, good night. I fear I won't cook much. This boat cooking is not like home, Mrs. Ferguson, we have a rail fence around the stove and wire to wire the pots on stove, then the coffee and grits are liable to mix even then some times. leave the stove and chase the cook up on deck to keep from being scalded.

How are all the Rebeccahs? Would like to meet with you again, but fear it will be many moons before I get back, but be sure to remember me to the lodge and extend my best wishes to each member and tell them not to forget L. F. Roper just because he is not there in body for his thoughts are with them. I haven't been to a Rebeccah meeting since I left—lost my receipt and forgot the pass word so you can easily see why. But tell Mrs. Speer if I hear of any refreshments to be served I will make up a password. I know not how long I will be here or where I will go but anywhere on our boat is home, sweet home to me. One of the boys named our sub-chasers Suicide Fleet, how do you like the name? The boys are always happy and see the funny side of every serious thought.

Remember me to your young hubby, Bro. J. H. and will write him some time.
With best wishes to yourself and family and Rebeccah Lodge No. 43, I wish to remain as ever
Your friend and sister,
L. F. Roper,
c-o S. C. 155 Navy Yards,
Charleston, S. C.
P. S. Heard there was some young girls in the Lodge. If so, keep them coming, for we boys will be back some time.

HOPPER ACADEMY

Sanford's Colored Schools Make a Fine Record
With 406 pupils enrolled in the High School, and grades of our colored school, and 540 in all departments during the last year, Sanford may be congratulated on the interest maintained and increasing in the educational work among its colored citizenship. Prof. J. M. Crooms has finished his twelfth year of efficient service, and the high standards of the past have been fully maintained during the year just closed.

An outstanding feature of the school work about which the county should be informed is that while the finances of the county permitted only six months schooling, by the active efforts of Prof. Crooms and the teachers, backed by the hearty cooperation of the parents and patrons an additional month was provided, the county meeting part of the expense. Regarding this County Superintendent Lawton has written Prof. Crooms cordially acknowledging the receipt of \$225.00 sent the superintendent to apply on the teachers' salaries for the month of April. The Board of Public Instruction has expressed its hearty appreciation of the commendable work in the matter. "This spirit of sacrifice and generosity is worthy of our highest consideration," the letter reads.
The commencement exercises of Hopper Academy began last Friday

with a concert by the primary and intermediate grades, all the numbers giving evidence of musical ability and careful training.

Sunday afternoon at 3:30 the baccalaureate sermon was delivered at St. James A. M. E. church by Rev. J. B. L. Williams, D. D., pastor of Trinity M. E. church. His theme was "Laborers together with God," and the essential nature and high rewards of cooperating with the Divine in establishing His kingdom in establishing His kingdom upon earth were ably presented, the points being made emphatically pertinent to the graduating class. The young people were made to feel that whatever line of service they entered it was to be with and for God and fellow man. The singing by Crooms Choral Class was excellent.

A five-act drama, "From Cabin to Congress," given by the grammar and high school pupils on Monday evening gave the young people a chance to exhibit their histrionic abilities in a most entertaining and wholesome way.

Class Day exercises came Tuesday afternoon, Lillie Mae Terrell giving the class history, Genevieve Gilbert an essay, "The Value of School Gardens," Beatrice Williams an essay, "The Value of Domestic Science," and Gertrude Davis the class prophecy.

Of the nine graduates of the high school, five girls were presented with special certificates by Mrs. Crooms, the assistant principal, for a course in sewing and domestic arts. The graduating exercises were held Wednesday evening, May 1st, the address of the occasion being given by Prof. G. H. Mays, whose subject was "Service," service to be sought and freely given and to the extent of one's powers for the uplift of humanity. The subjects of the essays and orations were such as to merit mention. Homer T. Williams' salutatory was "The World's War and How We May Help Wit It." Mary E. Bryant's essay was "How Young People May Promote the Public Welfare." Josephine A. Brinson presented an essay on "The Value of Compulsory Education," and the valedictory by Jennetta G. Maddox was "Service, the Object of Education." Other graduates took musical parts. The names of the graduates, all of whom plan to take further study in some of the high educational institutions of the state are: Josephine Alberta Brinson, Nettie Blanchetta Brown, Mary Elizabeth Bryant, Gertrude Lena Davis, Genevieve Beatrice Gilbert, Jennetta Gertrude Maddox, secretary, Lillie Mae Terrell, Beatrice Cleonette Williams, treasurer, Homer Theodore Williams, president.

Boy Scouts Organize War Savings Societies

At a meeting of the Sanford Troup Boy Scouts of America held in the city hall last night two War Savings Societies were organized in the troop. Upon nomination Newton Lovell was elected to be of the ARMY War Savings Society and Watson Alexander was elected captain of the Navy War Savings Society. Each captain then stood up and made choice as to who would serve on their respective societies.

The call for the Boy Scouts to assist in the sale of Thrift and War Savings Stamps was made some time ago by Chief Scout Woodrow Wilson, and as usual Sanford folk always hear the call of those in authority and set them at once to execute the orders. Great things are contemplated by and expected from these Sanford Scouts.

The Army Society is composed of the following: Newton Lovell Captain, Max Bradbury, William McKim, Gale McAlexander, Jimmie Stone, Arthur Moore, Reuben Mason, Jr., Ed and John C. Meisch.

The Navy Society has the following members: Watson McAlexander Captain, Millard Rutherford, Richard Terheun, J. Musson, Fay Lossing, Curtis Barber, Peyton Fortson, Edward Moyer.

America's Natural Bridges. There are probably more natural bridges in America than in any other country, Rainbow, the largest in existence, is 808 feet high. Its span is six times as great as that of the natural bridge of Virginia. Utah has three natural bridges that are higher and of greater span than any other natural bridges in the world.

Late Food Discoveries. Lichens have been proposed as the latest addition to staple articles of diet. One scientist has suggested Iceland moss as suitable for making flour for bread and reinder moss as good fodder for animals.

Dangerous Symptom. "I hear that Bilcum is going to run for congress." "Really? I'm not surprised. When he was a boy they say his parents were awfully worried about him."—

The Old Octagon Coin. The most valuable coin authorized in the United States is the double Eagle, worth \$20, of course. But there was formerly struck in California what was called an "octagon" because of its shape, and it passed for \$50. It was current elsewhere, but never legal tender.

Determining Character. We prepare ourselves for sudden deeds by the reiterated choice of good or evil which gradually determines character.—George Elliot.

Many Seem to Think So. Like everybody else, the paragrapher has his dull days, though, perhaps, the rest of the people feel that the paragrapher has more of them than anybody else.—Wilmington News.
Notice of Application for Tax Deed Under Section 8 of Chapter 4888, Laws of Florida

says the Marketing Bureau to understand the situation. Where potatoes are infested with the weevil they cannot be shipped. The weevil can be eradicated by proper methods...

With reference to sweet potato plants in this state, it can be said that there are a good many thoroughly reliable growers of plants whose places are free from infestation...

It is a good plan for growers to get into correspondence with the State Plant Board and secure the names of the nearest growers of plants and thereby save long hauls...

means must cut out portulaca and ple and live on wholesome greens. I used to freely blow my corn for viands rare and rich, expensive cuts of tenderloin and terrapin and rich...

ating horse feed day by day, clean herbs and grain and chaff, and when I'd talk I often neigh, and whinny when I'd laugh. But oh! I'm feeling fit and fine! I've shaken off disease; no rheumatism now is mine, no cramps are in my knees...

An Indian Dawn. I awoke—and beyond the great trees I saw the dawn come up like thunder, as it does on Mandalay. Exactly like thunder it came up, rolling, rising, crashing clouds of copper and dull gold reddening, breaking, mounting, out-topping one another—Atlantic.
