## FARLEY URGES KENTUCKY TO VOTE REPEAL

### Reminds Governor Of State As To Pledge Of Democratic Party Concerning Issue

WASHINGTON, July 8.—(A.P.)—In a forceful reminder to Governor Laffoon, of Kentucky, that the Democratic Party is pledged to repeal the Eighteenth Amendment, Postmaster General Farley signified yesterday that the administration would take a strenuous part in the repeal elections in southern states.

The second appeal of the postmaster general in the Kentucky governor to include a resolution for a repeal convention in a call for a special session of the state legislature.

The message followed an announcement by Farley that he would make an address in Memphis, Tenn., on July 15, five days before that state votes on repeal.

Arrangements will be made to transmit his speech to gatherings in Alabama and Arkansas, states which ballot on repeal on July 18.

These three states are regarded by Farley as the real battleground. The postmaster general, who also is chairman of the Democratic National Committee and chief patronage dispenser, said yesterday that if the three vote "it's all over."

This comment was made to newspaper men at the same time that Farley said he was "amazed" by the favorable reaction to his anti-prohibition statements in an address in North Carolina Thursday. He added he believed North Carolina would vote for repeal by 75,000.

In his second telegram to Governor Laffoon, the postmaster general noted that the governor had been quoted as saying he believed nothing would be gained by passing on the repeal question in Kentucky this year because it was impossible that 30 states would really repeal the repeal resolution of 1933.

"Permit me to call your attention," Farley told Laffoon, "to the fact that votes in 30 states this year are now practically assured and if 40 states vote this year or 12, in 1934, 37 states vote this year I am willing to venture the prediction that the resolution repealing the Eighteenth Amendment can be and will be and should be ratified this year.

"It is of the highest importance to have a vote in Kentucky this year in order to conclude at the earliest possible moment this difficult question."

## Three Men Rob Bank In Heart Of Gotham

NEW YORK, July 8.—(A.P.)—Three robbers, one wearing a police uniform, held up the Com Exchange Bank and Trust Company branch on Broadway today, seized between 20 and 30 thousand dollars in cash, and escaped in an automobile with two confederates. The robbers managed to get into the bank before it was opened when a man dressed as a policeman tapped on the front door and was admitted by the negro watchman.

## HURRICANE HITS MEXICAN TOWNS CAUSING DAMAGE

MEXICO CITY, July 8.—(A.P.)—Hurricane from Tampico today hit Soto La Marina, a seacoast village in Tamaulipas State, was destroyed by a hurricane.

Heavy damage in other localities in Northeastern Mexico also was reported. All buildings in the village of 500 population were leveled.

Hundreds of animals were reported killed but it was not known whether there was a loss of human life. The Weather Bureau said the storm raged southwestward.

Floods along the lower Rio Grande are expected as the streams are emptying into it at flood stage following a 60-hour rain. The American side of the river is well protected by a flood control system but the Mexican side is not well protected.

## Sudden Rise Of River Hits Two Villages

DENVER, July 8.—(A.P.)—A wall of water, rushing without warning down Bear Creek Canyon after a cloudburst, swept through the resort hamlet of Uteville and the village of Morrison and took at least two lives.

Searching parties said they believed at least 10 were trapped by the waters and drowned. Wreckage was strewn more than 10 miles along the stream. The highway and railroad bridge were washed away.

Two bodies were recovered, a man and woman.

Several hundred terror-stricken motorists and residents of towns escaped death by clambering to the mountainside.

## Commissioners Will Consider Light Rate

An ordinance which contains a complete schedule of the electric light rates which a special committee of local business men believe should be placed into effect in Sanford and vicinity, will be presented to members of the City Commission at the City Hall Monday night.

The recommendations were made last Monday night. They call for a general 20 percent reduction in all rates now charged for power or light in Sanford. The committee which studied the rates included S. O. Shindler, F. L. Miller, W. M. Hayes, F. T. Williams, and G. D. Bishop.

## Miami Valuation May Be Upped Ten Million

MIAMI, July 8.—(A.P.)—An increase of \$10,000,000 in the assessed valuation of property here for city taxes was forecast yesterday by Gerald R. Green, city tax assessor.

Assessments against real estate property were increased from \$84,761,578 to \$94,762,578. Assessments against railroad and personal property totaled \$12,750,000, in addition to the real estate.

Green said the increased assessment was due to an "adjustment of the tax rolls."

City officials said they saw no prospect for a decrease in the city tax levy.

## NEW AVENUES OFFERED FOR LONDON MEET

### President Sends Long Message To Secretary Of State Directing His Course

LONDON, July 8.—(A.P.)—After having saved the life of the conference, President Roosevelt today provided the American delegation with more ammunition to strive for the purpose of the meeting.

Secretary of State Hull received a long message from the President which was known to contain guidance and an expected tender of assistance in carrying out the President's campaign for a world-wide peace treaty.

Meanwhile the French delegation admitted defeat in its efforts either to affirm the conference or limit discussions to economic, monetary and tariff topics.

The sub-committee was mandated yesterday, following the victory of Chamberlain, American secretary of state and chief of the United States delegation, in prolonging the conference, to explore the field of possibilities for further discussion and report back Monday. It was explained, however, that the bureau retained the right to finally pass on conclusions reached by the subcommittee.

The notion to continue discussion of every phase of the agenda was put in the monetary sub-committee early in the day by Neville Chamberlain, British chancellor of the exchequer, who joined Thursday with Hull in his fight to prolong the parley.

The British cabinet member declared that the items on the agenda were inseparable and that all should be discussed.

## Dollar Goes To Lower Level After Buffeting

NEW YORK, July 8.—(A.P.)—Buffeted by a severe, erratic current of rumors, speculation and other adverse influences, the American dollar broke a new low level yesterday in terms of the gold standard exchange, closing at a price of around 114 cents.

At the low point of the day, the dollar showed a depreciation of 38 percent.

Reports from Washington that the dollar was still too high, and would soon be devalued, were largely responsible for the rough treatment which it received in the foreign exchange market, according to most banking circles here. Speculators took advantage of these rumors. It was maintained, and holders of dollars took to their heels wherever possible and sought refuge in other currencies.

The British pound sterling, after soaring to a new high of \$177.42, closed at \$168 for a net gain of 11 1/2 cents. The French franc was also up, 12 of a cent at 5.20 cents, although it had earlier reached 5.50 cents.

## Many Visit Maps On Display At City Hall

A steady stream of persons who expressed themselves interested in the route of the proposed cross-state canal visited the City Hall this afternoon to view the two large relief maps of Florida which were sent here through the courtesy of the U. S. War Department.

The maps, weighing 400 pounds each, arrived in Sanford aboard a St. Johns River Line freighter this afternoon. They were set up in the City Commissioners' rooms at once, and rooms of persons had seen them at 4:00 o'clock. The maps will remain on display until Monday night.

## July Term Of County Court Is Nearing End

July term of Judge J. G. Sharrin's County Court was entering its closing hours this afternoon as an attorney for H. Elynt and R. L. Ray, white men charged with catching fish with a seine, was arguing his client's case before a jury of six men.

Only a half dozen cases remain to be tried, and it is expected that they will be disposed of by Tuesday night. Prosecuting Attorney J. O. Leonard was directing prosecution for the county.

## KILLED IN CAR CRASH

DAWSON, Ga., July 8.—(A.P.)—Meyer H. Laing, 43, prominent business man, was killed, and C. Harris Peckay and H. Albert Peckay, Jr., were injured last night when their automobile turned over in a ditch.

## Hand-Squeeze And Smooth Talk Won Banker Freedom From His Youthful Captor

### TAMPA TIMES TO CHANGE CONTROL ON NEXT MONDAY

ATLANTA, July 8.—(A.P.)—John King Otley, financier and sportsman who was kidnaped Thursday and then talked his way to freedom, insured his liberty by squeezing the hand of his 17-year-old guard in a friendly gesture.

The boy—Pryor Bowen, of Lafayette—answered the signal with a similar squeeze and the drama of Georgia's most bizarre abduction reached a climax.

Bowen and a companion kidnaped the 65-year-old president of the Tampa Times newspaper and the newspaper's owner and editor of the Tampa Daily Times, after a paper, announced today that David E. Smith and Ralph Nicholson of New York, would become the publishers of the Times next Monday.

McKay has been publisher of the paper since 1908 and will continue his connection as chairman of the editorial board.

Smith was editor-in-chief of the Curtis-Martin newspapers including the Philadelphia Public Ledger and the New York Evening Post for a number of years. He also was general manager of the North American Newspaper Alliance.

Nicholson was general manager of the Japan Advertiser in Tokio, European correspondent of the Curtis-Martin papers, and executive of two Scripps-Howard newspapers.

They leased the Times for a long term and acquired an option to purchase the paper and radio station WDAE.

## Chicago Public Enemy Taken After Slayings

KANSAS CITY, July 8.—(A.P.)—R. E. Vetterli, in charge of the Kansas City office of the federal bureau of investigation, announced today yesterday that James Earl Ray, Chicago "public enemy," was under arrest for investigation in the shooting of four officers and their policeman, Frank Nash, here June 17.

Vetterli said he understood Sammons was wanted in the East. Federal officers and Jackson county deputy sheriffs, armed with shotguns, gas bombs, gas masks and bullet proof hand shields, effected the arrest Thursday at a house here which police said was the residence of a hoodlum.

Sammons, armed with two pistols, made no resistance. Taken to the county jail, he was booked as "John Doe, a native of Illinois." Later, after questioning him, authorities expressed doubt that he was connected with the machine gun slaying of the four officers and Nash, train robber at the Union Station here.

Such an escaped convict, was being returned to the federal penitentiary at Leavenworth, Kansas, officers believe Nash was killed accidentally during an attempt to free him.

## Information Sought From C. Of C. Office

An average of six persons daily visit the offices of the Chamber of Commerce in the City Hall for the purpose of securing road maps and other information relating to the World's Fair at Chicago, it was learned today.

Most of the information sought is that relating to the shortest route to the fair by motor, while inquiries as to the possibility of securing good, clean accommodations in automobile camps near the fair grounds also is sought daily.

Practically every filling station in Sanford has at one time or another exhausted available supplies of road maps, while the local bus station and railroad ticket office also have been fairly swamped with requests for information.

## COTTON AREAS MAY SOON BE GETTING SUMS

### Reduction Of Acreage Program Appears Virtually Certain Of Being Accepted

WASHINGTON, July 8.—(A.P.)—The cotton acreage reduction program appears virtually certain of acceptance last night and as a result the next six weeks will see awards of \$100,000,000 paid to the 18 cotton states.

An extension of the time for growers to sign contracts to plow up from 25 to 30 cents of their present crop is believed necessary by President Roosevelt, however, and this will be authorized formally by Secretary Wallace.

The President is well satisfied with the progress made in obtaining agreements for producers to plow up a part of their crop in return for cash payments and options on government held cotton.

At the same time that he authorized a time extension for signing contracts, Wallace will make public the figures showing the number of acres growers have agreed to take out of production up to today.

The campaign, under way for two weeks, was to have ended Saturday night but numerous delays, particularly in distributing blank forms to growers, made it impossible to give all of them a chance to act on the program. There are nearly 2,000,000 cotton growers and Wallace wishes to have each of them given an adequate opportunity to act before the campaign is closed.

The contracts are to be accepted on a basis which will make it possible for Wallace to make the largest possible reduction of the potential crops for the money available for payments and options. Wallace desires to reduce the crop by at least 3,000,000 bales.

A processing tax aimed to raise about \$100,000,000 to provide funds for the cash payments will be put into effect about Aug. 1, at the maximum rate, which is expected to be about four cents a pound.

Meanwhile, farm officials looked forward as keenly as operators at market centers for today's first official cotton report of this year. It will be made public by the crop reporting board at 11 A. M. (E. S. T.) and will provide a government's first estimate of this year's cotton acreage.

Private reports have indicated a sharp increase in this year's acreage over that of July 1, last year, when it was estimated at 30,542,000 acres. Private estimates in early June were that this year's acreage was between 30,000,000 acres and 30,000,000 acres. There have been some estimates that it was even higher than that.

Farm administrators have taken the position that there is undoubtedly a large crop this year and that the potential output, together with the heavy carry over of about 12,000,000 bales of old cotton, would lead to low prices this fall unless a substantial area were taken out of production.

## Trade Body Group To Have Breakfast Meet

Members of the Central Florida Council of Chambers of Commerce are expected to gather in Mt. Dora Tuesday morning for their monthly breakfast meeting at 8:00 o'clock.

Discussion during the meeting will center about plans having to do with the part Central Florida counties will play in the World's Fair during the period from Aug. 1 to Aug. 11 when these counties will be permitted special days in which to broadcast special features from Florida's exhibit at the Fair.

The speakers will include, Mrs. Edna G. Fuller, of Orlando, former representative from Orange County and now a member of the World's Fair Commission, and Karl Lehmann, of Sanford, also a member of the Commission. Karl W. Brown, general manager of the exhibit will be present, for he is scheduled to return from Chicago on Monday for a short visit in DeLand.

## Shute Wins British Open Golf Tourney

ST. ANDREWS, Scot., July 8.—(A.P.)—H. Denmore Shute, 28, American professional from Philadelphia, today captured the British open golf championship, beating his countryman, Craig Wood, in the all-American 36-hole playoff. Shute led from the first hole to the last and defeated Wood by five strokes with a fine exhibition of all-around shotmaking. His score was 149, three strokes over par.

## PEOPLE INVITED ON MOTORCADE TO GUARD CAMP

### Seminole County Day Will Be Observed At Camp Near Jax

Major J. C. Hutchison, head of the First Battalion, Florida National Guard, late yesterday afternoon notified Chamber of Commerce officials that next Friday, July 14, has been designated as "Seminole County Day" at the Guard camp near Jacksonville.

He invited every resident of the county to come to the Camp that afternoon and evening, not only to inspect the camp and its personnel, but to witness the regimental parade at 5:30 o'clock in the afternoon.

With this information definitely established, it is now the aim of trade body officials to have as large a delegation as possible present at Camp Foster on that day, so that local persons, particularly parents and relatives of the 130 local officers and men at Camp, may acquaint themselves with what the Guard units are doing.

The plan now is to stage a motorcade which will leave the City Hall at 12:30 o'clock Friday. It is expected that this group will reach the Camp at about 4:00 o'clock, to give all visitors ample time to talk with "the boys" and to make ready for the parade.

After the parade there will be a dinner, served by company cooks, for which a small price will be asked. Persons wishing to do so may take basket lunches. It is expected that the motorcade will leave Camp Foster in time to reach Sanford by 9:30 o'clock.

Men, women, and children are urged to join this motorcade. It is expected that Chairman John Meisch and other members of the Board of County Commissioners, Mayor V. A. Speer and members of the City Commission, President H. M. Papworth and officers and directors of the trade body will be included in this motorcade.

It is requested that all persons planning to go, report to the Chamber of Commerce office as soon as possible stating how many will be in the automobile, and whether the car owner is willing to take persons not having cars. Windshield stickers with the names of every town in the county are available at the trade body office without cost.

## Helen Moody Keeps Her Tennis Crown

WIMBLEDON, July 8.—(A.P.)—Helen Wills Moody successfully defended her Wimbledon championship today against Dorothy Round, 6-4, 6-8, and 6-3, after losing the first set in the women's singles competition in six years. It was Mrs. Moody's sixth Wimbledon championship. The championship opposition provided an unexpected sensation for the throng, including the King and Queen of England.

## Explosion Destroys 5 Store Buildings

WILLIAMSBURG, Kentucky July 8.—(A.P.)—A mysterious explosion in a downtown store here today cost one life and caused a fire that destroyed five store buildings with a \$100,000 loss. The explosion was in a two-story brick building. The first floor was occupied by a department store and the second by the national guard armory. Leon Humphreys, 30, son of the editor of a local paper, was killed by falling brick

## RISE IN FARM PRICES BRINGS ADDED CHEER

### Confidence Of Agricultural Debtors And Mortgage Holders Is Rekindled

WASHINGTON, July 8.—(A.P.)—The recent rise in farm prices has rekindled the confidence of farm debtors and mortgage holders throughout the nation's agricultural belt.

Reports yesterday said the returning confidence was so pronounced that applications for refinancing mortgages from the \$2,000,000,000 fund provided by Congress have fallen far below earlier expectations—and even below estimates as recent as 10 days ago.

About \$90,000,000, available for new loans in the hands of the 18 federal banks, has proved sufficient to meet immediate needs of farm land financing and refinancing is now expected to be sufficient to carry on their operations for several months.

While the rise in prices has not benefited many farmers directly so far because they have had no crops available to sell, it has rekindled confidence in all agricultural sections and had the result of strengthening farm land values, the farm credit administration has been informed.

With a rise in the potential purchasing power of farmers, the demand for farm lands has stiffened in many sections, although transactions are far below the normal volume. Many mortgage holders were reported to have responded to the proclamation of President Roosevelt and other officials urging a temporary suspension of foreclosures and, although foreclosures are continuing, their number has dropped sharply.

As a result of the decrease in demand the first issue of farm mortgage bonds by the credit administration has been postponed. In May, Henry Morganthau, Jr., governor of the credit administration, expected to issue them within a short time.

They would bear four percent interest, which would be guaranteed by the government. The chief activity under the credit administration now is expected to be the refinancing of mortgages held by closed and restricted banks.

This program is being given its first trial in Wisconsin where plans have been made for acquiring up to \$50,000,000 in farm mortgages for about \$25,000,000 in cash, which is to be used to pay off depositors in an effort to revive business.

The credit administration has plans for carrying on this activity in other states.

## Brewers Picture 1st Year Beer Sales At 40 Million Barrels

CHICAGO, July 8.—(A.P.)—The hopes of the brewers, 40,000,000 barrels a month by April, 1934, was given voice yesterday as 18 directors of the United States Brewers' Association put their heads together here.

C. D. Williams secretary, reported that 3,000,000 barrels of beer were sold in May, while April sales were only 75,000 barrels. He expressed hope and belief that the 40,000,000 figure would be reached at the end of a year of legal beer.

The brewery leaders met to sketch a code of industrial practices, and a committee headed by Edward Schmidt, of Philadelphia, prepared a rough draft. One of the desires of the brewers was said to be an advance in wages without a corresponding advance in the price of beer.

The question was asked at the conference whether any concerted movement was afoot to make generally available the five-cent glass or beer. Williams said none of the directors wished to hold the price above five cents, but that some prevent a general reduction in retail prices.

BIBLE VERSE FOR TODAY

CONSIDER THE POOR: Blessed is he that considereth the poor: the Lord will deliver him in time of trouble.—Psalm 41:1.

They have a real tax whacking system in Georgia which should be imitated everywhere.

Most of us wouldn't object to a "managed currency" if we could manage to get any of it.

One good thing about a bald-headed man... he doesn't have to worry about his hair falling out.

An expert is a person who, having guns broke, in his own business can tell you how you ought to run yours.

Well they have barred war debts, tariffs, and money problems from the discussions of the London Conference. But at a late hour this evening it was still permissible for the delegates to talk about the weather.

An English writer says that the trouble with Democratic America is that the man in the streets doesn't fully comprehend monetary policies. Perhaps that is true enough, but couldn't the same thing be said for the men in the London Conference?

Speaking of those awful slips, a church bulletin notice reads: "The ladies of the congregation have cast off clothing of all kinds. They may be seen in the basement of the church any afternoon this week."—Tampa Times. A real break for the unemployed, at last.

Stocks, bonds and commodities again surged upward Thursday. People are as eager to buy now as they were to sell a few months ago. And some people who thought they would know what to do during the next boom have already forgotten what they said.

Europe still thinks the dollar is not very good. It was quoted Wednesday at 73.98 cents, compared with its old gold value. A dollar used to be worth about 25 francs in the estimation of Frenchmen. Now it is worth only a little more than 18 francs. All this means little to those who realize that the value of a dollar, a pound or a franc depends on what it will buy.—Arthur Brisbane. And of course, the dollar, not buying as much now as it did two months ago, is not worth as much as it was then.

One of the mysteries of certain loudly promulgated theories of economics is how government tax revenues is to be increased and budgets balanced when government, through unthinking lawmakers, is always trying to destroy private industry by either putting itself in competition with private industry or penalizing it with excessive charges and political interference.—Tampa Tribune. Surely you're not opposing the Muscle Shoals project, the guarantee of bank deposits, the National Industrial Recovery Act, or the Domestic Adjustment plan!

Secretary Lakes of the Interior Department laments the tendency to limit the activities of schools during this depression and says we should not deny educational opportunities to millions of children simply because a temporary depression is afflicting the whole world. "I shall maintain our schools on such a basis as will equip our children as citizens in a self-governing republic," he says. "We are going to let them get back into an era of enlightenment, liberty, and government. Every important lesson in these days of depression is knowledge and understanding. The former may be lost in a closed bank, but the latter, once gained, cannot be taken away."

Tourist Opportunities

All present business indicators point to an unusually successful tourist season in Florida next winter. A New York financial writer has figured that the total purchasing power of the country has been increased by more than sixteen billion dollars during the past three or four months. Figures prepared by the American Federation of Labor show that unemployment is rapidly being diminished. Commodity prices are also definitely on the upgrade and will ultimately put the American farmers in a sound financial condition.

Now, as everyone knows, whenever the rest of the country prospers, Florida does a booming business. This time psychological elements will combine with financial conditions to influence northerners to seek warmer climes next winter. After the long hours of hard work and worry, and the many other ordeals of the past few years, everyone who can possibly get away will be planning an extended vacation next winter.

Furthermore, the word has gone out that one can live more cheaply in Florida than he can at home. Last winter those who sought solace for their woes in the balmy sunshine of this state found prices as ridiculously low as they were high during the boom. Food and house rents were quoted at rock bottom prices. Restaurants were offering rebates to customers who returned. Theaters, night clubs, and golf courses had their prices in line with the most meager pocketbooks.

Those who came and tried it last winter are telling their friends in the North that it is cheaper to spend the winter in Florida than it is to stay at home. And they are telling them of the high degree of cheerfulness and gaiety which exists down here as compared with the sections in which they live where milk wars, strikes and communist plots have been keeping the populations at fever pitch. They can come to Florida and forget their troubles. And they will come next winter as they have never come before.

The Herald would like to see Sanford and Seminole County receive some of the benefits from the millions of dollars which these tourists will leave in Florida. While recognizing that Sanford is essentially an agricultural community, we nevertheless believe that there are many visitors to this state who would prefer the pastoral picturesqueness and comparative quietude of a farming community to the hubbub and excitement of the larger resorts.

It seems to us that this is the time to re-open the Mayfair Hotel at all costs. We realize that the Chamber of Commerce, in conjunction with City officials, has been working on this matter for some time, and we recognize the difficulties involved in securing the right kind of a buyer or manager for this property, but we are firmly convinced that almost any sacrifice on the City's part would be justified by the re-opening of the hotel under any decent conditions.

A comfortable and attractive tourist hotel would not only bring hundreds of tourists to Sanford throughout the winter to buy in our shops and to trade in our stores, but would prove the nucleus for an even larger tourist population who would rent homes and apartments in other parts of this community. It might well mean the resurrection of our business and industrial life.

The Royal Mounties

The Royal Canadian Mounted Police, formerly the Royal Northwest Mounted Police, is celebrating the diamond jubilee of its existence this year. The famous organization was founded in 1873 following the acquisition of western prairies by Canada. Unruly and powerful Indian tribes in that area were demoralized by liquor sellers and were causing no little disturbance among the settlers.

The first job of the Mounties was to bring order in the territory where the Indians lived. A force 300 strong marched across the prairies from Red River in Manitoba to the Rocky Mountains, the entire distance of 2,000 miles being through rugged country much of which was unknown. So impressed were the tribes that they decided to make peace with white men and signed a series of treaties. Aside from its regular work of performing police duties, guarding against prairie fires in the early days, visiting lonely settlers, and discharging many other functions, the force has had an impressive military record. The Mounties took an active part in putting down the Riel Rebellion in Western Canada in 1885. A number of officers and men participated in the Boer War in South Africa, and two squadrons for service in France and Belgium and one in Siberia were furnished during the World War.

The force now consists of 2,500 officers and men who are distributed throughout the Dominion in a way best suited to the needs of the country. They are found along the border where they help enforce the revenue laws and keep out undesirable. They operate in the vicinity of Indian reservations to maintain good order. They occupy remote posts in the Northwest Territories and the Yukon, and along the Arctic and Hudson Bay regions.

But whenever they are found there is the same healthy respect held for them. For sixty years they have stood for constitutional law and order and they have built up a reputation for efficiency, courage, and integrity as brilliant as their uniforms of scarlet.

SANFORD, TWENTY YEARS AGO

Mrs. M. F. Robinson, Mr. and Mrs. Hayes, Mrs. Alice Messenger, and S. T. Pitts motored to DeLand Sunday and report a good time.

Mrs. W. D. Ballard and children, Homer and Elizabeth, of Geneva, are the guests of Mrs. Ballard's brother, G. W. and J. E. Loring. Miss Nellie Elder has returned from a visit to her sister, Mrs. Coney, at Orlando.

The Sanford Elks are still talking about their new home and in a few days will have the architect's drawings and specifications. The swimming pool, billiard, bowling alleys and other amusements will make the building very popular and many new members are joining every week. The new home will be on Park Avenue below Commercial Street and close to the Lake front.

Miss Hattiel Hyer has returned to her home in Orlando after spending the Fourth at Sanford, the guest of Mrs. E. J. Holly.

HIGH AND MIGHTY LANGUAGE

By WALTER LIPPMAN

LONDON, July 3.—A few hours after the President's statement was received in London I met the Finance Minister of a country which is strongly in sympathy with the President's policy. The minister was glad that the President had refused to subscribe to the gold declaration prepared at the end of last week. But he was bewildered by the statement. "We are not children," he said, "and we do not see why we should have to be talked to in such language."

This is, I believe, an accurate sample of the feeling in London. With Mr. Roosevelt's decision there is widespread agreement. Even in the gold delegation the ablest men recognize that, however inconvenient it may be to them, the President is justified in following out his policy. But if there is anyone who thinks that the language of the statement can be defended, he is not easy to find. Thus the financial editor of "The Daily Herald," who has been an active partisan of the President, remarks this morning that "even those of us who support President Roosevelt's policy and regard it as the only proper approach to the problem of depression, may indeed feel that he has up to date treated the World Economic Conference a little too contemptuously." If this is the way Mr. Roosevelt's friends feel, it may be imagined what is the state of mind of other people.

Therefore Roosevelt used to advise statesmen to speak softly and carry a big stick. Franklin Roosevelt carries the biggest stick in the world but he has chosen to speak loudly and harshly.

On wonders why. The explanation, I suppose, is that Mr. Roosevelt wished to turn the attention of the conference away from the immediate problem of the exchanges to the consideration of more far-reaching projects. If that was his intention, then it must be said at once that he must be wholly out of touch with the realities if he thinks he can do that by issuing pronouncements. He cannot have understood the state of mind in the gold countries where among the governing classes the fear of inflation is an actual phobia. These gold delega-

211 Persons Are Defying U. S. To Take Their Gold

WASHINGTON, July 3.—(AP)—Two hundred and eleven persons are defying the government to come and take their gold despite warnings by Justice department agents that prosecution might follow their failure to turn in the metal. Attorney General Cummings said yesterday in disclosing the number of persons who had refused to return their gold that almost two million dollars of the metal had been returned last week as a result of the department of justice campaign to force gold hoarders to disgorge. It brought to \$26,047,133 the total amount he said had been returned from hoards. Cummings said the 211 persons held \$1,207,057 of gold which they

had refused to turn over to the government in compliance with President Roosevelt's executive order. The attorney general said that when and how he would proceed against these hoarders had not been determined and probably would not be decided until after his agents had completed checking the list furnished the department by the treasury.

Beer Bootleggers Will Be Subjected To State Campaign

TALLAHASSEE, July 3.—(AP)—Joe Cormier, director of the state beverage department is going after dealers who have been bootlegging beer in Florida since the 32 brew became legal. Already more than 200,000 bottles of beer on which no state tax has been paid have been seized by inspectors, Cormier said, and a state-wide drive on tax evaders will be planned at a meeting of inspectors at Orlando next week. Most of the untaxed beer has been brought from New Orleans, Cormier said. No arrests have been made yet, he added, but those having beer in their possession on which taxes have not been paid have been forced to pay. Second offenders, he said, will not get off so lightly, and first offenders also will be prosecuted when the drive gets under way. Up to July 1 collections from manufacturers, wholesalers, and retailer's licenses amounted to \$74,785. As half year licenses at half price now are available, Cormier said, receipts from licenses are expected to show an increase in the next few months. There are approximately 3500 retailers licensed to sell beer in the state. Up to June 15, the tax of six cents a gallon on beverage gave

"Ann is going to get MARRIED!"

"YES! She's engaged to a nice boy. He's not making a big salary yet, but he's a hard worker. They'll have to be careful of their money, at first!"

Careful of their money! With a home to find, furniture to buy, marketing to learn... with the thousand and one little emergencies to meet that newlyweds never dream of!...

And a young girl, inexperienced in these practical problems, is expected to be careful of her money!

Ann will bless advertising. In the pages of this newspaper she will find the very experience she lacks—the advice she needs!

It is when every penny counts that advertising gives its best service. The advertisements you read are valuable lessons in everyday economy. They help, as nothing else can, to make your dollar go the longest distance. For advertisements show you which article, at the price you are willing to pay, is going to suit you best. And the very fact that it is advertised is its guarantee that it will give you satisfaction after you have bought it.

The advertisements in this newspaper are a most valuable guide to wise buying. It pays to read them regularly.

## Tuneful And Musical Cinema Here Sunday

Paramount's new musical comedy hit, "International House," one of the most lavish, most tuneful, most amusing productions ever to leave Hollywood, opens a two-day showing at the Milano Theater Sunday.

In its enormous all-star cast of stage, screen and radio favorites are Peggy Hoggins Joyce, W. C. Fields, Rudy Vallee, Stuart Erwin, George Burns, and Gracie Allen. Sari Maritza, Colonel Heppner and Budd, Cab Calloway and his Orchestra, Baby Rose Marie, Bela Lugosi, Lona Andre, Sterling Holloway, Frankling Langborn, Edmund Breese and Lumsden Hare. A comedy group of chorines known as the Girls in Cellophane present the dance numbers.

"International House" has a genuine plot in addition to its musical and spectacular qualities. Its action takes place at a hotel in a Chinese city, where representatives of big business from all over the world are assembled to see and bid upon a marvelous new invention, a device which can see and hear anything anywhere.

Mrs. R. J. Boyd and daughter, Miss Emily Boyd, who have been making their home with Mr. and Mrs. E. W. Biggers, Silver Lake Road, are occupying the apartment of Mrs. G. A. Radford, 115 French Avenue, during Mrs. Radford's absence.

## Edgewood Team Is Winner By 14 To 7 Over DeMolay Boys

In a game in which most of the scoring was made in the first two innings, Edgewood came out victorious over the DeMolay team by a score of 14 to 7 here last night. Cordell's home run in the first and Evans' duplication of the feat in the second were the long hits. Triples were made by Estridge, Ravenel, and Courty.

After the wild scoring by Edgewood in the first two innings, the game settled down and turned out to be a rather interesting affair. Driggers, pitching for Edgewood, turned in a steady game. Both teams were hitting rather freely, and most of the runs made were earned. Estridge, with a double and triple, and Johnson, with a single and double, were the most consistent hitters for the DeMolay team. Ravenel, with a double and triple, and Courty, with a single and triple, were the most consistent hitters of the Edgewood team.
